SENSATION IN MOLINEUX CASE.

CORNISH WHO MAILED THE PACKAGE OF POISON?

Wife of Brooklyn Policeman Swears It Was Not Molineux She Partially Identifies Cornish as the One Whose Package Tries to Prove was Balanced Mentally.

London, Nov. 6.—The greatest sensation in the second trial of Roland B. Molineux, charged with the murder of William Adams, came late today, when Mrs. Molineux, wife of the accused, was called to the stand by the prosecution to testify positively that she did not see the man who mailed the famous poison package at the general office on the evening of Dec. 23, 1898, on the witness stand.

SERUM TO CURE SCARLET FEVER IS DISCOVERED BY MONTREAL DOCTOR.

Montreal, Nov. 6.—(Special)—An important discovery has been made by a Montreal physician, Dr. J. T. Charlton, Rockefeller professor of pathology at McGill, who has discovered a serum for scarlet fever similar to that used in diphtheria.

REPUBLICANS NOW COUNT MAJORITY OF TWENTY-FIVE SEATS IN THE HOUSE.

Odell's Plurality Between Twelve and Thirteen Thousand—He Says He's In, and That's All There Is About It—Details of the New York Situation.

New York, Nov. 5.—Official figures on the vote for governor vary but little from the unofficial reports. According to returns made to the executive at Albany by the several county clerks the plurality for Odell, Republican, is 12,887. Only three counties above the Bronx were carried by the Democratic nominee, the aggregate plurality for Coler in these counties being 1,011. This and the Greater New York plurality of 12,074 given to Odell, was met and overcome by an up state Republican plurality of 13,072, the difference being a net plurality of 12,887 against 111, 120 plurality for Odell in 1900.

The state legislature is controlled by the Republicans by a reduced majority but one as large as to admit of no doubt of the return of Mr. Platt to the United States senate.

The New York delegation in the lower house of the 58th congress will number 37 instead of 34 as in the present congress. It will contain 29 Republicans and 8 Democrats, whereas the present delegation stood 22 Republicans and 12 Democrats.

All of the noted members of the delegation have been returned, including Severo E. Payne, chairman of the ways and means committee.

Odell Says He's In, and That's All About It. Albany, N. Y., Nov. 5.—Former Senator David B. Hill was in his office at Albany all day receiving and tabulating the returns. He refused positively to be quoted about the result but the carefulness with which he is making tabulations would indicate he is ready to make an attack on the credibility of the returns.

William Barnes, jr., chairman of the executive committee of the state committee, said this afternoon: "Any statement that Albany county was purchased by the Republicans is without foundation."

Governor Odell said: "Let them claim all they please. Let them cry fraud. I am elected and that is all there is about it."

Odell by 12,000. Albany, N. Y., Nov. 5.—The official pluralities for governors as reported to Governor Odell by the county clerks of the various counties is as follows: Total plurality for Odell, 128,972. Total plurality for Coler, 12,083.

Odell's plurality over Coler, 12,887. Washington, Nov. 5.—The latest returns received up to 10:30 o'clock tonight show that the Republicans (including in this description the Fusionists elected from the Pittsburgh-Allegheny districts in Pennsylvania)

will control the next house by a vote of 204 Republicans to 170 Democrats, with one district, the eighth Tennessee, and two California districts remaining so much in doubt that the official returns will be needed to decide the result.

The totals given are believed to be correct, although there are a few districts, such as two in Colorado and one in Minnesota where the Republican and Democratic party managers respectively do not concede defeat, but the general result could not be affected, even should their claims prove well founded. The table by states is as follows:—

Table with columns: State, Dem. Rep., Total. Lists states from Alabama to Wyoming with corresponding party counts and totals.

Albany, N. Y., Nov. 5.—The official pluralities for governors as reported to Governor Odell by the county clerks of the various counties is as follows: Total plurality for Odell, 128,972. Total plurality for Coler, 12,083.

Laurier was Right Says Goldwin Smith.

Strong Endorsation of Premier's Stand on Matter of Imperial Defence—London Standard of Same Opinion—Canada's Position on Conference Questions Detailed.

Toronto, Nov. 5.—(Special)—Goldwin Smith, interviewed regarding the colonial conference book published in London, said: "I think Sir Wilfrid Laurier took the only course he could under the circumstances take, and still hope to concour with the wishes of his government at home, or his people, and I don't suppose any other course would have been satisfactory if received here."

"Sir Wilfrid almost avowed himself to be an opportunist, and he seems to be fully proficient in diagnosing the hourly position of the country as he was in this case in not pledging the country to contribute any sum of money towards the support of the British navy."

"We are all British in name and glad of British protection, but I very much doubt if we can find even a bare majority in Canada who are so British in sentiment as to vote their money to the armament of the British navy."

"The Canadian Magazine republishes a story which while it is not new to New Brunswick, is interesting because it harks back to the days when the men at the head of affairs here were of a sporting turn of mind and sometimes indulged in picturesque wagers."

Schooner Sunk by Steamer; Two Nova Scotians Drowned.

The Charley Bucki Went Down in Three Minutes After Being Struck by Steamer Admiral Sampson—Captain and His Son Among Those Lost.

Boston, Nov. 5.—The steamship Admiral Sampson, Capt. L. H. Higgins, arrived at Boston yesterday, having on board the two survivors of the schooner Charley Bucki, which was sunk in collision with the steamer in the Bay yesterday morning.

The collision conference disclosed the reason for the fact that England if attacked is fully able to strike back. Political economists who, like the German professor, Herr Wolf, of the University of Breslau, have been advocating the general European or continental customs union and against England, may find that their efforts merely lay a further stepping stone towards a customs union within the British empire of which the colonial conference may have laid the foundation.

"German papers say that Canada's exports, whereby she granted preferential treatment to England and forfeited the most favored nation treatment of Germany is likely to warn other colonies and England hereafter against a preferential policy. All the same the continental press find in the proceedings of the conference a fresh cause to watch anxiously Mr. Chamberlain's next move."

Just as the schooner tacked to starboard the steamer was seen approaching so close that it was impossible to avert a collision. Within two minutes from the time she was first seen the Admiral Sampson crashed into the schooner and a deluge of water struck her between the main and fore rigging and cutting her through to the keelson. The schooner began to fill immediately, and her heavy cargo carried her down in less than three minutes.

Both the schooner and the steamer were carrying a cargo of cement. The schooner was carrying 2,700 barrels of cement at Edville (N. Y.), and left there a week ago last Saturday. The cargo was consigned to Ham & Carter of the city, and valued at about \$2,025. Early yesterday morning, when the craft had reached a point about 15 miles to the eastward of Boston Lightship, she ran into a very heavy fog, which became so dense that, deeming it unsafe to proceed, Capt. Huntley halted his vessel and stood off shore. It was then shortly after 2 a. m.

Chicago, Nov. 4.—Arthur Booth-Clibborn and his wife, who is a daughter of Gen. William Booth, founder of the Salvation Army, have withdrawn their membership in Dowie's "Christian Catholic Church," which they joined not long ago.

Workman Falls from a Pier at Port Hastings and is Instantly Killed. Hawkesbury, Nov. 4.—(Special)—Edward Fox, working on the shipping pier at Port Hastings, fell off this morning and was instantly killed. He was a brother of Daniel Fox, who was drowned near there on October 16. This was the first day he had worked there since the death of his brother.

Vice-Presidential Candidate Shot Dead.

Hon. Hale Johnson, Prominent Prohibitionist, Killed by Man from Whom He Sought to Collect a Bill.

Effingham, Ill., Nov. 4.—Hon. Hale Johnson, a prohibitionist leader of national prominence, and a vice-presidential candidate on the prohibition ticket in 1896, was shot and killed by Harry Harris this afternoon, at Bogota, Mo. Johnson, who was practicing law at Newton, Mo., county seat, went to Bogota to collect an account against Harris.

An altercation occurred between Johnson and Harris at the latter's home and the latter secured a shot gun and shot Johnson dead. Harris attempted to escape but was apprehended.

Harris committed suicide in the county jail tonight by taking poison.

SISTERS OF CHARITY
RELY ON PE-RU-NA TO FIGHT
CATARRH WHEREVER LOCATED IN THE SYSTEM.

MISS BEATRIX MAHAN.

Interesting Letters from Catholic Institutions.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the poor, but they also minister to their bodily needs.

THE SISTERS GOOD WORK.

From a Catholic Institution in Central Ohio comes the following recommendation from the Sister Superior: "Some years ago a friend of our institution recommended to us Dr. Hartman's Peru-na as an excellent remedy for the influenza of which we then had several cases which were treated to be of a serious character."

PORT MIDWAY.

Port Midway, Queens county, N. S., Nov. 5.—An American syndicate have been negotiating with E. D. Davidson & Sons, of Bridgewater, to buy out their business.

AMHERST.

Amherst, Nov. 5.—The annual meeting of the Amherst Agricultural Society was held last evening, and the following officers elected: President, H. V. Hillcoat, V. S.

HALIFAX.

Halifax, Nov. 5.—(Special)—Steamer Evangeline, which arrived from London this morning, will land 500 tons of cargo here.

OFF FOR SOUTHERN SEAS.

London, Nov. 5.—The auxiliary crew steamer Gothia has left the Clyde for the antarctic regions with a number of members of the Scottish National Antarctic Association, under the leadership of William S. Bruce, of Edinburgh, on board.

since then we have used it with very liberal results for grip, coughs, colds and catarrhal diseases of the head and stomach.

"For grip and winter catarrh especially it has been of great service to the inmates of this institution."

SISTERS OF CHARITY

All Over the United States Use Pe-Ru-na for Catarrh.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommendation recently received from a Catholic institution in the South-west reads as follows:

"I can testify from experience to the efficiency of Peru-na as one of the very best medicines, and it gives me pleasure to add my praise to that of thousands who have used it. For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado, hoping to be benefited by a change of climate and while there a friend advised me to try Peru-na. After using two bottles I found myself very much improved. The remains of my old disease being now so slight, I consider myself cured, yet for a while I had to continue the use of Peru-na. I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucorrhoea. I have not a doubt that a cure will be speedily effected."

The names and addresses of these letters have been withheld from respect to the Sisters but will be furnished upon request.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body.

A remedy that would act immediately upon the congested mucous membrane restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys, or pelvic organs. A remedy that will cure it in one location will cure it in all locations.

If you do not receive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

"I cannot say too much in praise of Peru-na. Eight bottles of it cured me of catarrh of the lungs of four years' standing, and I would not have been without it for anything. It helped several Sisters of coughs and colds. I have yet to find a medicine that it does not cure."—Sister Beatrix.

From a Catholic Institution in Central Ohio comes the following recommendation from the Sister Superior: "Some years ago a friend of our institution recommended to us Dr. Hartman's Peru-na as an excellent remedy for the influenza of which we then had several cases which were treated to be of a serious character."

"We began to use it and experienced some wonderful results since then Peru-na has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."

Another recommendation from a Catholic Institution of one of the Central States written by the Sister Superior reads as follows: "A number of years ago our attention was called to Dr. Hartman's Peru-na, and I have been using it ever since."

tion in the first place to magnifying for the study of which the ships were specially designed, and the Swedish expedition in the Antarctic in 1901-1902. The scientific results of the expedition will be mainly devoted to oceanography and meteorology.

Other branches of science will, of course, be attended to in each case, and Mr. Bruce has made ample provision for turning all opportunities to account. The ship for the expedition was an old Norwegian whaler, the Gothia, which might possibly have been a polar voyage in her original state; but, on examination, it was found desirable practically to reconstruct her so as to render her absolutely safe in any circumstances that can be foreseen. She was accordingly stripped of her outer skins and re-equipment, fitted with new masts and spars, and her whole internal arrangements were completely remodelled. The name suffered a similar sea change, and she is now the Gothia. A vessel of about 400 tons, she is 140 feet long with 20 feet beam, and draws 15 feet of water. She is fitted with a new engine and boiler which have proved able to propel her at the rate of eight knots, while she is confidently expected to prove a fast sailer.

LETTERS TO THE EDITOR.

A Welsford Resident's Grievance. To the Editor of the Telegraph: (Sir,—Many people here feel that the C. P. R. depot at this place should be kept open till the last passenger train down at night. Quite frequently lately passengers among whom are often ladies, have to wait outside these cold nights till that late train. When coming from a distance in the cold weather it is anything but pleasant. Mr. Stewart, your agent, has in more than one instance opened the waiting room to oblige people. But this cannot always be done and the public feel the station should be kept open.

DO IT NOW.

TAKE... FOR WOMEN

Run down, pale, weak, nervous, tired out, bloated, yellow, muddy complexion, blood and mucus, head aching, and a thorough revulsion of the system, cause an acid drive on the liver and kidneys, leading to all the troubles while at the same time it brightens the eyes, and gives a new vigor to the whole system. Dr. Brayley Scott & Co., Montreal. Large size, 25c; double size, 50c.

DROP US A LETTER. If you have any need in the jewelry line, no matter how small, our catalogue contains photos of many hundreds of popular prices. We guarantee to give you the very best value for your money. Fully changed and repaired. Money refunded on all defective goods. AMBROSE & SONS. 150 YONGE ST. W. TORONTO.

LOCAL AND PROVINCIAL.

A large lumber operator has been offered \$14 per thousand for spruce deals for spring delivery.

The dredge has finished work at the entrance to the west side ferry slip and the work of driving piling has been commenced.

Notice has been served on the defendant in the Bishop Swamy will case, that appeal will be taken from Judge Barker's decision.

The formal opening of St. Leo's Catholic church, Dorchester Mass., took place last Sunday. Rev. Thomas McDermack, formerly of St. John, is the pastor.

The country market will close at 10 o'clock on Saturday night during the winter season. Commencing on Monday the market will open at 7.30 a. m.

John Vincent, the North End coachman, has disposed of a property on Main street, purchased last spring, to Stephen Morrell, who intends opening a grocery store in the new building.

The first association in New Brunswick for the building of a bait freezer has just been formed. The association will have a capacity of 20 tons. The Dominion government gives aid to the amount of \$5 for every ton of bait frozen.

H. H. McDonald will leave for his home in Woodstock to spend a month's vacation while he recovers from the severe injury to his hand. Doctor McLaughlin is not sure whether or not one of the fingers will have to be amputated.

Wholesale grocers report such an active demand for canned vegetables that their supply is not likely until next year's pack arrives. The pack of tomatoes was so small that the price has been advanced 50 cents per dozen since the season opened.

Further particulars have been received concerning the death of William Nixon, a carpenter, which occurred at Littlefield's Lake Wednesday night. Mr. Nixon had spent a couple of days fishing, and on the Tuesday night while at supper fell to the floor dead. Heart trouble was the cause of death.

Next week will be observed as a week of prayer in the Young Men's Christian Associations throughout North America. In St. John next Sunday many of the pastors will preach sermons especially on the subject of prayer. The week services young men and during the week services will be held from 9.30 to 10 o'clock each evening in the Y. M. C. A.

It seems evident from recent developments that the exploits of Nelson and Brigs in St. John were merely incidents in their criminal career. Yesterday Chief of Police Clark (Abe), a list of valuable articles alleged to have been stolen by them from that city. The list includes several gold watches. The chief says none of the articles mentioned were either brought to St. John or disposed of here by them.

The meeting of the St. John city and county W. C. T. U. yesterday afternoon dealt wholly with business pertaining to the Little Girls' Home. The institution is undergoing a thorough renovation and refurnishing, and workmen are in possession. The children are being housed out of doors. The work is being done in a hurry so that the home will be ready for occupancy again in about two weeks. Among other things needed to make the institution comfortable this winter is a supply of blankets.

Miss Lena Morrissey and David Bradley, jr., were united in marriage by Rev. Dr. F. Fotheringham at the residence of the bride, corner of City Road and Stanley street. The groom was supported by F. E. Morrissey, and the bride was attended by Miss Emma Prince. The groom's gift to the bride was a seal coat and to the bridesmaid a ring set with pearls. Mr. and Mrs. Bradley left on the afternoon train for a trip to Worcester (Mass.), and on their return will dwell at 81 Summer street.

W. A. Quinton is suffering from a serious accident sustained while working on his barn Monday afternoon with his horse. The animal kicked a door which swung back and struck Mr. Quinton on the back, a distance of 20 feet. He lay there for nearly an hour before he could be rescued. He was taken to the hospital, but he is not expected to recover. He is suffering from a severe fracture of the spine, and it is believed that he will never be able to walk again. He is now lying in the hospital, and his condition is very serious.

A number of relatives and friends gathered at the home of Mrs. Catherine Carter, Kennedycas Island, Tuesday evening to celebrate her seventy-sixth birthday. Among those present were Mrs. Keith, 84 years old, who had walked more than a mile to tender her congratulations. Supper was served, after which, in a few appropriate words, John Hitchings presented Mrs. Carter with a purse of gold in behalf of the company. She was the recipient of several other remembrances. The evening passed pleasantly, Mrs. Carter, favoring the company with some old folks' songs. The company dispersed at an early hour, wishing Mrs. Carter many returns of the day.

D. H. Waterbury, of the public works department of this city, is preparing the immigration building at Sand Point for the arrival of the first settlers who are expected about the 15th inst. The accommodations in the building will be much more comfortable than ever before. Permanent beds to the number of 180 will be installed and two rooms will be fitted up as sick bedrooms. The dining room will be separate from the large room. The heating apparatus, lavatories and sinks are in good order and the building has been thoroughly cleaned and painted and been supplied with settees and chairs. In short, the appointments are all that could be desired.

At his recent visit to Fairville, Inspector Carter called a meeting of trustees and teachers. Trustees Jas. Ready, T. H. Wilson and Doctor Gray were present. Several matters of general interest were discussed, the most important being the necessity for providing additional accommodations, which is now urgently needed, there being nearly 100 pupils in grades I and II. To give better accommodation,

enlarged school grounds will be necessary, and the trustees hope the city council will be generous.

There is a large supply of fresh pork in the city, chiefly purchased within the provinces. Prices are easy in consequence.

At a meeting of the Jewish congregation a few evenings ago it was decided to advertise in the New York papers for a new Rabbi.

Before Justice W. H. Bourke, at St. Martins Tuesday, a charge of violation of the liquor act, preferred by Sub-inspector Lewis against Joseph Kennedy was taken up. G. N. Skinner represented the defendant and County Secretary Vincent prosecuted. The case was adjourned for 10 days.

Dr. W. L. Ellis, who has been appointed medical officer of the department of the interior, returned from Ottawa yesterday. His duties are to see that immigrants suffering from dangerous or infectious diseases do not enter the country, and his range of activities will cover Quebec and Montreal in summer and Halifax and St. John in winter.

The president and ladies' committee of the St. John Golf Club tendered a reception to Miss Mabel G. Thomson Thursday in honor of her recent victory in Toronto, which brought the ladies' golf championship to this city. The reception took place at the usual autumn closing and was on a larger scale than the event of former years. It was held at the residence of Mr. and Mrs. J. H. Thomson, Queen square.

James W. Allan, aged 23 years an article seaman on board the ship R. L. Kinney, was given in charge of Policeman Hasam yesterday afternoon by Capt. Esau Priddle, who charges the prisoner with desertion and of breaking and entering a cabin on shipboard. The vessel is moored in the vicinity of the Long wharf. The prisoner has not much to say concerning the charge of desertion, but maintains in respect to the charge of breaking and entering that he had merely done so to secure some of his own clothing.

The site of timber limits took place at 11 o'clock Thursday morning. A large number of lumbermen from different parts of the country being in attendance. Mr. Gerow was the auctioneer and L. A. Curry looked after the sale. The terms of the sale were 10 per cent. down and the balance within 30 days. The first bid was \$20,000, followed by bids ranging from \$10,000 to \$5,000. It finally settled at \$72,000 and the limits were knocked down to John Murchie of Calais. The properties were held by the People's Bank of Halifax and were sold by order of the court.

A young woman entered Francis & Vaughan's Wednesday morning and ordered two pairs of shoes and one pair of slippers, requesting the same to be sent to a city hotel, saying they were for the lady in whose home she was a domestic. Next day she visited Mimicully Theriault and asked that she also be sent to the hotel. Later she called at the hotel and procured the boots and shoes, but did not wait for the slippers. She was then arrested and taken to the police station. She had no authority to give the orders. The boots and slippers were recovered and returned to the store.

A very pleasant party was held at the Halifax House, Mill street, Tuesday evening, when numerous friends of Miss Nel Richardson met to say good-by to her prior to her visit to Washington, where she will spend the winter with her uncle, Joseph Richardson, contractor of the new New Brunswick and has been spending a month here with his daughter, Miss Ethel Richardson. Before the party broke up, Rev. W. A. Ross, of Calvin church, made a presentation to Miss Richardson on behalf of the choir, of a handsome garnet ring, as a small token of their regard.

Local grocers who handle vinegar are being served with notices from the department of inland revenue warning them against selling or offering for sale product created by the distillation of acetic acid. Attention of the department has been directed to the fact that a so-called vinegar is produced in the manner referred to and has been placed upon the Canadian market and it is taking this action to prevent its sale. Vinegar is one of the articles which is regulated by government licenses which is regulated by government test, and a heavy fine is provided for violation of the conditions governing its sale. Local dealers are being warned through John C. Ferguson, food inspector.

A man named Theriault, who has been working in Randolph & Baker's mill in Milford, is wanted. He left his boarding house Tuesday afternoon at 1 o'clock apparently for work but did not arrive there and when the news of his sudden departure reached his domicile suspicion was aroused and the boarders commenced to look with some anxiety to their goods and chattels. Then it was found that the festive Mr. Theriault had not departed alone. Twenty dollars belonging to one boarding party and two others and a gold ring to another had left with him. That is the principal reason why he is wanted. Up to last evening no trace of him had been found and it is presumed he is now across the line.

At a spot indicated by a water diver an artesian well was bored at Seaford, Lincolnshire, England, with the result that at a depth of 120 feet a spring was struck that is now yielding 664,000 gallons of water daily.

No! No! No! No! This word is used four times by Prof. H. H. H. of the Dominion Government, in reporting the result of his analyses of Sunlight Soap.

No free alkali; that means no damage to clothes or hands. No loading mixture; that means every atom is pure soap. No adulteration whatever; that means pure ingredients.

Try Sunlight Soap—Octagon Bar—and you will see Prof. H. H. H. is right. He should know.

COPPER IN ST. JOHN COUNTY; INSPECTION TRIP TUESDAY.

Works at Goose Creek Visited by Party of Local Men and Others Interested.

The Flushing took a party of gentlemen, consisting of Surveyor-General Dunn, Colonel Alperon, of New York; George H. Freeman and George McEwen, of Montreal; J. Davidson, of London (Eng.); and J. P. Carrite, W. E. Raymond and A. E. Macintyre, of this city, to Goose Creek, St. John county Tuesday, to visit the mining properties of the Maritime Copper & Reduction Company near that place.

The run up the bay, of 48 miles, was made there four hours and a landing effected at Asay's Beach. The party ascended the high cliffs from the sea level by a narrow and, in places, rather dangerous looking trail. The stiff climbing and the nature of the path was no joking matter to the visitors, although some of the lightweight of the party succeeded in poking fun at the heavyweights.

Some of the city men not only surprised the members of the party, but also themselves by their agility. They were plucky and were determined to see the affair through and now consider themselves capable of an ascent of the Matterhorn. When about 200 feet above sea level they struck across the face of the cliff, in a westerly direction, to examine a cupiferous bed 250 feet wide averaging between four and five per cent of copper. The ore consists largely of mixed sulphides. Some lumps have been run into the cliff and it was found that the material is of great extent.

About a quarter of a mile further west and on the top of the cliff, above the old Vernon Company's workings, a tunnel 60 feet long had been run in which shows a large seam of ore 20 feet wide carrying from 14 to 15 per cent copper. Another tunnel lower down, 180 feet long, and shafts 85 feet deep on the same vein showed that the mixed sulphide ore averaged 18 per cent of copper.

Three tunnels, 60, 85 and 120 feet long, have been driven into the borine (mixed sulphides of iron and copper) vein formerly worked by the Vernon Company. The tunnels are now fully destroyed 30 years ago; and it was found that the ore from these 14 feet veins averaged 21 per cent of copper. The ore is small veins and was formerly shipped to England by the Vernon Company for smelting and refining. An examination of the workings shows the presence of large quantities of borine ore.

A shaft has been sunk on the tower tunnel on the borine seam and the ore has the appearance of being even better than that found higher up the cliff. There is no doubt that the company have a very fine property and the presence of a large body of ore has been thoroughly demonstrated. The company propose to erect a smelter for the manufacture of copper made from the ore. The ore is small veins and was formerly shipped to England by the Vernon Company for smelting and refining. An examination of the workings shows the presence of large quantities of borine ore.

During the winter a tunnel 1,500 feet long will be driven across the seven veins about 20 feet above high grade. This will form the basis for working the higher grade ores. The low grade ore has to be quarried only from the face of the vein, no underground work being necessary.

Pentecostal Mission, Lower Cove.

Mr. Rutledge, having retired from the management of the Pentecostal Mission, Lower Cove, the new committee met Thursday evening, Oct. 30, and appointed Wilmot W. Howe chairman, John R. Barr, collector, and C. K. Short, secretary. This denominational mission was opened last spring and will in the future be continued on the same lines as begun.

The building work for Africa, and other work in the vicinity of the present building, meetings were held regularly, and much personal work done with such good results that a great change has come over the neighborhood. The hall, which has been furnished at a cost of \$700, and the present debt is about \$300.

To meet this amount and provide for the running expenses of the winter, and a heavy fine is provided for violation of the conditions governing its sale. Local dealers are being warned through John C. Ferguson, food inspector.

The Dog Show. Entry blank, etc., for the dog show are now ready for distribution and persons who intend showing their dogs should procure them from the superintendent, T. McCullough, 142 King street east. Last year some persons were disappointed by having their entries refused on the last day. This year the show will open on the 19th inst. and entries will close at noon on the 17th. This leaves but one near day before the opening of the show barely time to arrange the benching, etc. The superintendent asks intending exhibitors to make their entries as early as possible, as a lot of work to be done at the last minute. The diplomas, which are very handsome this year, have been ordered and will be in the ink on the opening day. Exhibitors will not be required to pay an admission charge but will be admitted free.

Nineteen and three-quarter knots was the speed developed at her official trials by the new American torpedo boat, built at Sunderland, 10 to 1. Export Treatment.

BOY PROBLEM TAKEN UP AT MEETING OF THE DEANERY OF ST. JOHN.

Question of Establishing Missions for Youths in the City.

Opinion That as far as Religious Aspect Goes, it is Better to Develop the Agencies Already Existing in the Church—Resolution on Death of Rev. George Scofield.

The boy problem was among the matters dealt with at the quarterly meeting of the Church of England clergymen of the deanery of St. John, held Tuesday, in St. Mary's parish. There were present Rev. Messrs. J. de Soyres, Canon Richardson, W. O. Raymond, R. P. McKim, A. D. Dowdner, A. G. H. Decker, W. H. Sampson, G. E. Scovill, L. A. Hoyt, W. L. B. McKel and G. E. Macdonald.

The proceedings began with service of the holy communion at St. Mary's church, the rector officiating and a sermon by Rev. R. P. McKim. The chapter assembled afterwards for business, the rural dean, Rev. Dr. Raymond, presiding. A resolution was unanimously adopted expressive of the loss sustained by the deanery in the death since its last session of the Rev. George Scofield, who for more than 30 years had been a member of the deanery, and was equally esteemed for his learning and piety, and for his generally Christian character. On several occasions he was the unanimous choice of the deanery as their rural dean.

The paper in the Greek Testament selected was read and discussed in the usual way, and the discussion was both interesting and profitable. A resolution was adopted to the effect that the study of the course of study outlined by the "Society of Sacred Studies" and arrangements made by the deanery to carry out the same should be continued.

An animated discussion arose concerning the proposed establishment of missions for boys on the lines of the Mill street mission, at various centers in the city. The question of the establishment of such missions was discussed in the usual way, and the discussion was both interesting and profitable.

The next quarterly meeting will be held at St. Paul's church.

TO SOUTH AFRICA. Mr. and Mrs. W. E. Earle to Leave St. John Next Week on Long Journey.

It is not many business men who contemplate a trip to the other end of the world with as little disturbance of equanimity as does W. E. Earle, manager of the British Publishing & Mercantile Company.

Mr. Earle, accompanied by his wife, will leave next week for Africa, and will probably be gone six months. They will go from St. John to New York and thence to Ireland. Some time will be spent in London and they will sail from Southampton for Cape Town. From Cape Town they will go direct to Johannesburg.

After that the itinerary is not definitely planned, but it is the intention of Mr. Earle to visit the scenes of the different battles in the late Boer war. The rail way will be followed as far as possible, but much of the traveling will be done in Cape carts. While in Africa Mr. Earle will visit all the centres where his company have agents. He will, it is expected, appear before the different boards of trade in the African cities with the idea of acquiring information as to the best means of developing Canadian trade with British African possessions.

Movements of Bank Officials. J. Adison Irvine and George Schneider, of the Bank of St. John, arrived in town Saturday on a visit of a few days—Keniville Chronicle.

John F. R. Balloch has resigned his position in the Bank of Nova Scotia and will leave for Chicago in a few weeks—Woodstock Dispatch.

R. V. Longworth has resumed his work in the Bank of Nova Scotia.

W. E. Jardine has returned to his duties as teller in the Bank of New Brunswick from spending a few weeks at his home in Rexton, N. B., where he was recuperating after his recent illness—Charlottetown Guardian.

REV. G. O. GATES WARMLY WELCOMED BACK TO GERMAIN STREET CHURCH.

Address by T. S. Simms Welcoming Pastor and His Wife to the People and Theirs to Him.

Rev. G. O. Gates was warmly welcomed back to the pastorate of German street church Wednesday, a largely attended congregational social held in the church affording an opportunity for many to greet the pastor, whose absence of two years has but served to endear him more among his former congregation. The occasion was a very pleasant one and confined wholly to members of the congregation.

T. S. Simms presided and warmly welcomed Rev. Mr. Gates on behalf of the church. The speaker said Rev. Mr. Gates had first taken charge of the church and during his recent absence the congregation had learned to know how much they thought of him and hoped Rev. Mr. Gates had a like experience in regard to the people of German street church.

The two years, however, had given them an opportunity of knowing Rev. J. D. Freeman, whom all held in high esteem. Although his pastorate was brief, it was a bright and happy one for the church. The speaker said Rev. Mr. Gates returned to a united, well organized church, in a good financial condition. He pledged the hearty sympathetic support of the congregation and hoped it would be many years before the ties now formed would be broken. A warm welcome was also extended to Mrs. Gates, who is held in love and respect by all.

Rev. Mr. Gates was warmly welcomed when he rose to reply. He expressed great pleasure in returning to St. John to resume his duties as pastor of the church. He said that he had been very glad to make a pastoral call on the church, which he had had the opportunity of seeing in his brief stay. He said that he had been very glad to see the church in such a good financial condition, and he pledged the hearty sympathetic support of the congregation and hoped it would be many years before the ties now formed would be broken.

On the part of the people, the pastor was warmly welcomed and he had many regards from the people. He said that he had been very glad to see the church in such a good financial condition, and he pledged the hearty sympathetic support of the congregation and hoped it would be many years before the ties now formed would be broken.

On the evening the Sunday school orchestra played several selections and refreshments were served.

FIGHTING FOR FRANK HIGGINS BEFORE NEW BRUNSWICK'S JUDGES.

Mr. Mullin's Appeal on Behalf of Convicted Lad Before the Supreme Court at Fredericton—Judges Express Views on Some of His Contentions.

Fredericton, N. B., Nov. 4.—(Special)—The Supreme Court this afternoon heard the application of Daniel Mullin, K. C., for leave to appeal from the verdict in the case of Frank Higgins, now under sentence of appeal from judgment and sentence of William Doherty.

The court reserved judgment, intimating that it would be delivered later in the term. Mr. Mullin occupied little over an hour in his argument and had rather an uphill job as the majority of the judges did not offer him much encouragement. He gave as first ground for appeal that the trial judge erred in his ruling with reference to the way the talesmen should be secured after the panel had been exhausted, contending that he should have been governed by section 672 of the criminal code instead of the provincial statutes.

Judges Tuck, Hanington and Landry discussed the question with Mr. Mullin and seemed to think there was nothing in his contention for the court to deal with. The second point urged by the counsel was that Judge Landry was in error in not discharging the jury and empanelling a new one when his attention was called to the statement of John A. Pooley, one of the jurors who had been sworn and was acting as trier that he Pooley could not give the prisoner a fair trial as he had formed an opinion.

Mr. Mullin stated that Pooley had made a statement to him (Mullin) in court and it had been entered upon the records. He offered an affidavit of Thomas McGrath to show that Pooley had before the trial expressed a strong opinion as to the guilt of the prisoner but the court would not allow him to read it.

As far as could be gathered from their remarks, the judges were unanimously of opinion that Pooley, not having been sworn, was not qualified to testify. The chief justice said that it was not an uncommon thing for a juror to make a remark of that kind before hearing the evidence, with the hope that he might be prevented from serving.

Mr. Mullin's third point was that before hearing the evidence, the judge was in error in admitting evidence offered by the crown as rebuttal testimony, such evidence not being rebuttal but cumulative evidence and given to corroborate evidence of a crown witness.

His fourth point was that there had been misdirection in the judge's charge to the jury with reference to comment made by him on Higgins' silence after consulting with his counsel, and the inference which the judge pointed out might be drawn by the jury from such continued silence.

On these latter points, Chief Justice Tuck and Judge Hanington expressed approval of the trial judge's course, while Judges Gregory and McLeod were inclined to agree with Mr. Mullin. Judge

Manitoba Land Sales. Winnipeg, Nov. 5.—(Special)—The sale of Manitoba government lands this year up to November 1, amounted to 270,122 acres.

A Pipeful of "Amber" Plug Smoking Tobacco will burn 75 minutes. "Test It?" Save the tags they are valuable.

Strachan's Gilt Edge Soap won't wash away as readily as other soaps, and does the work more thoroughly with less labor. Use Strachan's Gilt Edge Soap and you'll have the best Soap. Save the wrappers and you can get the best premiums.

The "OK" Cobbler Set.

The most popular and best on the market. With it you can at any time mend the shoes of your family, thus saving money and delay. Set consists of Stand, Three Lasts, Peggingawl, Hammer, Knife, one Package Heel and one Package Sole Nails, all packed in a box. Every family needs one.

Price, 75cts. T. McAVITY & SONS. A lighthouse is to be erected on Cape Horn. In Chile an expedition has found on the island a suitable site, leading passage, abundant water and plenty of firewood.

ALL DISEASES AND WEAKNESSES OF MEN. PEABODY MEDICAL INSTITUTE. From 1880 to 1890, Peabody Medical Institute, Boston, Mass., was the only medical school in the world that was not a part of a university. It was founded by Dr. J. C. Peabody, a graduate of Harvard Medical College, class of 1864, late Surgeon in the U.S. Army, and a member of the College of Physicians and Surgeons, class 1880. These physicians care where others fail. Know Thyself—Know Thy Health. Write for the Key to Health. Consultation in person or by letter, 9 to 6 a.m. Sunday, 10 to 1. Export Treatment.

ORDINATION TO BAPTIST MINISTRY AT SALISBURY

Rev. H. V. Davies, Pastor of First Baptist Church—The Ceremony.

Salisbury, Nov. 6.—An ecclesiastical council representing the Eastern New Brunswick Baptist Association convened in the First Baptist church of this place yesterday afternoon and evening for the purpose of examining and considering the advisability of setting apart to the full work of the gospel the Rev. Harry Vaughn Davies, the pastor elect of this first church here.

The following clergymen were present: Revs. H. H. Saunders, Elgin; D. Hutchinson, Moncton; N. A. McNeill, Petticoat; J. B. Gauson, Hillsboro; F. D. Davidson, Albert; I. N. Thorne, Mira; E. C. Cotey, Havelock; B. H. Thomas, Dorchester; Dr. J. W. Brown, Havelock; C. W. Townsend, St. Martin; M. Addison, Surrey.

The council organized by selecting Rev. H. H. Saunders, M. A., as moderator and Rev. J. W. Brown, Ph. D., as clerk.

After the reading of lay delegates and the reading of the church records calling the council the candidate was summoned to appear before council and relate the story of his conversion and call to the ministry. Under the lead and scholarly questioning of Rev. C. W. Townsend, who was named as examiner, Mr. Davies gave his views of Christian doctrine.

The council by unanimous vote advised the church to proceed with the ordination. The following order of service was carried out in the evening in the presence of an audience that fully taxed the capacity of the new church edifice.

Institution, Rev. I. N. Thorne. Scripture lesson, Rev. E. O. Corey. Prayer, Rev. M. Addison. Sermon, Rev. D. Hutchinson.

Continuing prayers, Rev. C. W. Townsend, with laying on of hands. Welcome to the ministry, Rev. B. H. Thomas. Charge to the candidate, Rev. N. A. McNeill.

Charge to the church, Rev. J. B. Gauson. Charge to the denomination, Rev. F. D. Davidson.

Benediction, Rev. H. V. Davies. The exercises were interspersed with music by the large chorus choir which is such a credit to the flourishing Baptist church here.

The hospitality shown the clergymen and delegates was unbounded.

In the whole the Baptists are to be congratulated on the accession to the ranks of its ministry of this young man, who gives promise of much usefulness.

Baptist Y. P. U. Atlantic Co., Nov. 6.—The executive committee of the Baptist Young People's Union of America, in session here, today decided to hold the next annual convention of the society in Atlantic, in the second week of July, 1903.

Senator Vest's Son Found Dead. Washington, Nov. 6.—Geo. Vest, Jr., son of Senator Vest, of Missouri, was found dead in the room at a hotel here this morning. Mr. Vest for a number of years acted as private secretary to his father.

Scottish-Canadian Post Dead. Toronto, Nov. 6.—(Special)—John Imrie, the well-known Scottish-Canadian poet, died at 56, and was the senior member of the firm of Imrie & Graham, printers.

CHATHAM TOWN COUNCIL.

The Civic Rulers Deal With Considerable Business, and Discuss Anonymous Letters.

Chatham, Nov. 4.—The monthly meeting of the town council was held last evening.

Ald. Nicol moved for more persons to be appointed constables, as it had been brought to his notice that there were not enough. This carried.

Ald. Murray moved that the matter of another electric light for West End be referred to the light committee. Carried.

A letter was read from Harry Brock stating that owing to injuries received last summer by falling from the flagstaff in Elm Park he was unable to work and requested the council to cancel one year's taxes and to provide the necessities of life for his family. Referred to finance committee.

Ald. Murray, of the water and electric light committee, reported that the electric light expenditure for October was \$238.25 and receipts \$478.25; that an additional light had been placed; that three water connections had been made, making a total of 114; that receipts from water works for the quarter ending Sept. 30 were \$286.70 and the amount chargeable to the town for hydrants for the eight months of this year was \$1,938.33 and that five additional sewer connections had been made, making a total of 84.

It was recommended that a by-law be amended imposing penalty on owners of dogs found on pumping station and dam lots; also a penalty on persons trespassing on the standpipes and that the pumping station fence be fixed to prevent dogs from entering on the property. Carried.

Four Scott Act violations were reported.

Ald. Maher submitted a by-law allowing churches 25 per cent discount of water rates. Adopted.

The mayor said he had received a number of anonymous letters in reference to town affairs. When letters would be signed and sent in an open way he would deal with them.

CATTLE RATES TOO LOW.

And So Are All United States Freight Rates Says a Chicago Witness Before Interstate Commerce Commission.

Chicago, Nov. 6.—A. C. Bird, third vice-president of the St. Paul road, took a bold stand before the interstate commerce commission today when that body began an investigation into rates on cattle and packing house products between Chicago and the Missouri river.

Mr. Bird was the first witness of importance before the commission and when asked if he desired to defend the reasonableness of the St. Paul's live stock rates, he declared that they were not reasonable.

"Not only are our live stock rates unreasonable," he declared, "but all our freight rates today are unreasonable, because they are entirely too low to compensate for the service rendered. All freight rates should be raised and I am surprised that the railways don't make a combined effort and raise them."

The witness stated that it was unfair to take the past two years as a basis from which to judge the fairness of rates and the fairness of the remuneration derived by the railroads, for during that period the volume of traffic had greatly increased, whereas before that period railroading had not, as a general proposition, been remunerative.

Mr. Bird explained that he had always deemed it a wise policy to make as low a rate as the raw material as on the finished product, but that when a rate on the latter which was not remunerative was forced upon the roads he did not believe in also forcing down the live stock rates to maintain the relations.

CANADA'S REPLY TO MR. CHAMBERLAIN ON REFUSAL.

(Continued from page 2.)

terial tariff concessions beyond those which she had already voluntarily given.

Canadian Ministers' Reply.

"The Canadian ministers therefore submitted a memorandum on the subject of the advantages received by Great Britain from the Canadian preferential tariff, with a view to showing that they were of much value, and entitled to weight in the consideration of the whole subject.

While urging that the benefits of the preference were such as to entice Canada to the desired exemption from the duties on food products in the United Kingdom, the Canadian ministers stated that within certain limitations they were prepared to consider the request Mr. Chamberlain to further concessions.

"They stated, however, that it was necessary to have a clear understanding as to the relations of the preference to Canadian industries. While holding that it was not necessary to enter into questions as to the wisdom or unwisdom of the tariff changes, large selections of duties had grown up in Canada, they had to recognize the fact that these industries might be seriously affected by further tariff changes. Large selections of duties had already been made, especially in British imports, and the ministers feared that in some lines of importance further reductions would create such a disturbance of trade as would not be conducive to the welfare of the country.

No Further Concessions Disadvantageous to Home Industries.

"Therefore, further concessions to the disadvantage of home industries could not be made. But the Canadian ministers pointed out that the Canadian tariff was not meant prohibitive, that large quantities of goods were imported and that a great proportion of these came from foreign countries.

Possible Readjustment of Duties.

"In any lines in which there was reasonable probability that these goods could be manufactured in Great Britain it might be possible to readjust duties as to give an additional advantage to the British manufacturer, and this would turn over to him a volume of trade and profits of which he would be deprived by the reduction of duties now imposed on British goods, where such reduction might be made without injustice to any Canadian industry.

2. By the transfer of some articles from the free list to the dutiable list it might be possible to give substantial preference to the British manufacturer, instead of leaving him, as at present, on even terms with the foreign competitor as respects such articles.

3. By imposing a small duty as respects foreign goods on some articles now on the free list, the government might continue to progress that has already been made by Canada in her military organization, the ministers are far from claiming that perfection has been attained. If defects exist, there is every desire on the part of the Canadian government to remove them, and for this purpose the advice and assistance of the imperial officers will be welcomed and all reasonable efforts made to secure an efficient system.

Would Consider Naval Defence, Too.

"At present Canadian expenditures for defence services are confined to the military side. The Canadian government is prepared to consider the naval side of defence, but the cost of the Canadian fleet is a large number of men admirably qualified to form a naval reserve, and it is hoped that at an early date a system will be devised which will lead to the training of these men and to the making of their services available for defence in time of need.

In conclusion, the ministers repeat that, while the Canadian government are obliged to dissent from the measures proposed by the British government for the purpose of defence in proportion to the increasing population and wealth of the country, they are willing that these expenditures should be so directed as to relieve the taxpayers of the mother country from some of the burdens which she now bears, and they have the strongest desire to carry out their defence scheme in co-operation with the imperial authorities and under the advice of experienced imperial officers, so far as this is consistent with the principle of local self-government, promotion of imperial unity."

The resolutions of the conference on other subjects were as follows:

Future Meetings of the Conference.

"That it would be to the advantage of the empire if a conference were held as far as practicable at intervals not exceeding four years, at which questions of common interest affecting the relations of the mother country and her majesty's dominions over the seas could be discussed and considered, as between the secretary of state for the colonies and the prime ministers of the self-governing colonies. The secretary of state for the colonies is requested to arrange for such conferences after communication with the prime ministers of the respective colonies in case of emergency arising upon which a special conference may have been deemed necessary, the next ordinary conference to be held three years thereafter."

Treaties Affecting the Colonies.

"That so far as may be consistent with the confidential negotiation of treaties with foreign powers the views of the colonies affected should be obtained in order that they may be in a better position to give assent to such treaties."

Protection of Patents.

"That it would tend to the encouragement of inventions if some system for the mutual protection of patents in the various parts of the empire could be devised, involving no belief that the acceptance of the proposals would entail an important departure from the principle of colonial self-government. Canada values highly the measure of local independence which has been granted it from time to time by the imperial authorities, and which has been so productive of beneficial results, both as respects the material progress of the country and the strengthening of the ties that bind it to the mother land. But while for these reasons the Canadian ministers are obliged to withhold their assent to these propositions of the admiralty and the war office, they fully appreciate the duty of the dominion as it advances in population and wealth to make more liberal outlay for these neces-

sities, and they have the strongest desire to carry out their defence scheme in co-operation with the imperial authorities and under the advice of experienced imperial officers, so far as this is consistent with the principle of local self-government, promotion of imperial unity."

notice all or any of the cables to which the agreements relate."

The Learned Professions in South Africa.

"That in arranging for the administration of the Transvaal and the Orange River Colony it is desirable that provision should be made to insure that such members of the learned and skilled professions now admitted to practice in the self-governing colonies be allowed to practice within the newly acquired territories, on condition of reciprocal treatment in the colonies concerned."

Canada is dissenting from this resolution on the ground that it seemed to be an interference with the affairs of the South African colonies, which were not represented in the conference.

Coasting Trade.

"That it is desirable that the attention of the governments of the colonies and of the United Kingdom should be called to the present state of the navigation laws in the empire and in other countries, and to the advisability of refusing the privilege of coastwise trade, including trade between the mother country and its colonies and provinces, and between one colony or one possession and another, or countries in which the corresponding trade is continued to ships of their nationality, and also to the laws affecting shipping, with a view of seeing whether any other steps should be taken to promote imperial trade in British vessels."

Shipping Subsidies.

"That it is desirable that in view of the great extension of foreign shipping, the position of the mail services between different parts of the empire should be reviewed by the respective governments."

"In all new countries provisions should be inserted to prevent excessive freight charges by any preference in favor of freight and to insure that such of the steamers as may be suitable shall be at the service of his majesty's government in war time as cruisers or transports."

Contracts for Supplies.

"That in all government contracts, whether in the case of the colonial or the imperial governments, it is desirable that as far as practicable, the products of the empire should be preferred to the products of foreign countries."

"With a view to promoting this resolution, it is suggested that where such contracts cannot be filled in the country, in which the supplies are required, the fullest practical notice of the requirements and of the conditions of tender should be given, both in the colonies and the United Kingdom, and that this notice should be communicated through official channels as well as through the press."

Postal.

"That it is advisable to adopt the principle of cheap postage between the different parts of the British empire in all newspapers and periodicals published therein and the prime ministers desire to draw the attention of his majesty's government to the question of reduction in the outgoing rate."

"They consider that each government shall be allowed to determine the amount to which it may reduce its rate and the time of such reduction going into effect."

Naval and Military.

governing colonies suggest that the question of allotments of the naval and military cadets to the dominion beyond the seas be taken into consideration by the naval and military authorities with a view to increasing the number of commissions to be offered, that consistent with ensuring suitable candidates, as far as practicable greater facilities than now obtained should be given to enable young countries to enter the navy and the army.

"The metric system of weights and measures and a resolution on votes of thanks closed the proceedings."

Messager's Dates Cancelled.

Boston, Nov. 6.—Although conferences between counsel for the parties to the dispute over financial matters between Messager's, the Italian composer, leader and his managers, Messinger Brothers and Kroneberg, occupied all this afternoon, no settlement has yet been reached and another conference will be held tomorrow morning.

The unexpected events of last night compelled the management to cancel the engagement of the company for tonight in Portland and for tomorrow night in Providence.

Shirts and hats that are never in need of ironing are worn by the Indians of the Northwest. They are made of a bark of a tree, which is soaked in water with stoness to make it pliable.

Strength where it is needed.

Strength where it is needed.

Stanford's Unshrinkable Underwear is made to wear. They fit the body perfectly, avoid undue strain at any point. The drawers are made of heavier material as they receive more wear. Special drawers, all seams double sewn, for miners, ranchmen and blacksmiths. Stanford's Underwear is soft and comfortable from time of purchase until worn out.

AFTER AN EXTENDED TRIP.

James and John Pender Toured Great Britain and France.

After an absence of nine weeks, spent in touring Great Britain and the continent inspecting industries of national renown and visiting exhibitions and places of historic interest, James Pender, of this city, returned home yesterday afternoon, accompanied by his brother, John Pender, of Melbourne (Australia).

The former, when interviewed last evening, spoke with enthusiasm of the trip, and told interesting facts concerning the manufacturing capacity of the countries he had visited.

"We left Montreal nine weeks ago," said Mr. Pender, "and went by the Lake Champlain to Liverpool, where a day and a half was spent. Then we saw the quaint old town of Chester and afterwards Manchester, where we visited the red mill plant for making wire rods. We went through the cotton exchange, which has a membership of 8,000, and after spending a day at Walsall arrived in Birmingham and went through the small arms factory, which is the best of its kind. It employs 2,500 hands, and has a department for the manufacture of automobiles.

"We visited Bourneville, Mr. Cadbury's model town for workmen, where the rent of a comfortable seven-room house is six shillings per month, and four mortars weighing 150 pounds, he said.

The scenes at the hospital and the morgue following the terrible crash after the explosion in Madison square were beyond description. It is estimated that 50,000 persons were in the square at the time. Probably 20,000 were massed around the point where the explosion occurred, and while they were scrambling to reach places of safety, knocking one another down and falling over park benches, 50,000 others were cheering from the opposite side of the park, where they were viewing the election returns.

"We went next to London, and spent three days at the Dusseldorf exhibition, where all the exhibits were contributed by Westphalia and the Rhineland provinces of Prussia. It was a magnificent display—Herr Krupp donated \$150,000 toward it, and some grand products in the mechanical and steel line could be seen. I considered the machinery hall superior to that at the Chicago world's fair. I believe the exhibition the best evidence, especially since the Franco-Prussian war, of the progress of the Prussian system of education as applied to industry, and feel convinced that Germany is taking front rank in iron and steel, and is only excelled in some respects by the United States.

"In gas engines, Germany leads the procession.

"From London we traveled to Cologne and Brussels, seeing the cathedral of the former and the palace of justice of the latter city. The palace is said to have cost \$9,000,000.

"We were four days in Paris, and saw what I considered to be the finest city in the world. We made the tour of the city by Coober's omnibus driver. From the summit of the Tower of Troiepe an inspiring view could be had of the French metropolis, with its great stretches of broad, tree shaded streets, boulevards and squares.

"We went through the palace of Versailles, the Louvre-Art-Gallery, but then you'd have to see those places yourself to properly appreciate.

The following fine days were spent in London. We saw the tower, the crown jewels, St. Paul's, the Abbey, the Museum, the Natural History, Woodstock Arsenal, with its 15,000 operatives, and then enjoyed the sights of South Kensington Museum, where birds, beasts, curios and objects which could hold your interest for weeks, were displayed almost innumerable.

"There's only one London and only one Paris. London is the commercial center of the world, and may one day be displaced by the biggest concern of its kind on the Clyde, and that's pretty big. The firm employs 6,000 men.

"From Glasgow we returned to Liverpool and spent a short time at Warrington, where we saw the Pearson, Knowles plant. We embarked at Liverpool on the Lake Simcoe, but after being out a few days the weather grew from bad to worse and finally a hurricane grew out of a gale. We were detained several days off the mouth of the Belleisle, but the fog clearing, we came down through, and reached Montreal in safety.

"What do I think of England generally?" "She is a great country, but on the railways the system is 25 years behind ours. They haven't any baggage checks, for instance, and I call that detestable."

The Danish West Indies.

Copenhagen, Denmark, Nov. 5.—The time for subscribing to the stock of the Danish West Indian Company expired today. Of the \$1,000,000 nominal capital only one-fifth was subscribed for, notwithstanding the advertisement given to the concern by King Christian and Crown Prince Frederik. The promoters, who are anti-sellers, are downcast on account of the weakness of the sentiment in favor of aiding the Danish West Indies.

The banks and a few individuals will probably finance the matter and stand the losses, since the treaty providing for the sale of the Danish West Indies to the United States was rejected partly on account of their promises.

As the hay crop in Lapland has been a total failure, the peasants are slaughtering their cattle, entire carcasses being sold for as little as 25c.

EXPLOSION IN NEW YORK KILLED TWELVE.

Coroner's Investigation Begun--Relax so of Some Who Were Arrested--Criminal Negligence.

New York, Nov. 6.—The dead in Tuesday night's fireworks explosion in Madison square numbered 12, and the injured 14. Coroner Scholer has inaugurated an investigation.

"It is a case of absolute criminal neglect," says the coroner. "One of the mortars was set off, and it was pointed at a row of other mortars in a line. It leaped toward the others, which were set off by the fire thrown around them."

The coroner held John Craig in \$10,000 on a charge of manslaughter in the first degree. Mr. Craig, it is alleged, was in charge of the explosives at the time of the accident. Two boys, who were carrying boxes of explosives, were sent to the house of detention by the coroner as witnesses. All the rest of the 40 prisoners were discharged.

The coroner said there were seven bombs. An attempt to shoot off the first failed, he said, but it detonated and thus caused the explosion of the other bombs. Craig said the first bomb was properly exploded, and he thought an explosion of gas must have caused the accident. There were 10 bombs and four mortars weighing 150 pounds, he said.

The scenes at the hospital and the morgue following the terrible crash after the explosion in Madison square were beyond description. It is estimated that 50,000 persons were in the square at the time. Probably 20,000 were massed around the point where the explosion occurred, and while they were scrambling to reach places of safety, knocking one another down and falling over park benches, 50,000 others were cheering from the opposite side of the park, where they were viewing the election returns.

"We were four days in Paris, and saw what I considered to be the finest city in the world. We made the tour of the city by Coober's omnibus driver. From the summit of the Tower of Troiepe an inspiring view could be had of the French metropolis, with its great stretches of broad, tree shaded streets, boulevards and squares.

"We went through the palace of Versailles, the Louvre-Art-Gallery, but then you'd have to see those places yourself to properly appreciate.

The following fine days were spent in London. IMPERIAL DEFENCE.

What Canada Was Willing to Do, Consistent With the Principle of Local Self-Government.

"On the question of imperial defence, the British desired colonial contributions to the navy and the establishing in the to be available when required for service in any portion of the empire. The views of the Canadian government on the defence questions were expressed on the following memorandum:

"The Canadian ministers regret that they have been unable to assent to the suggestions made by Lord Salisbury respecting the navy, and by Mr. John Brodrick respecting the army. The ministers desire to point out that their objections arise not so much from the expense involved, but from a belief that the acceptance of the proposals would entail an important departure from the principle of colonial self-government. Canada values highly the measure of local independence which has been granted it from time to time by the imperial authorities, and which has been so productive of beneficial results, both as respects the material progress of the country and the strengthening of the ties that bind it to the mother land. But while for these reasons the Canadian ministers are obliged to withhold their assent to these propositions of the admiralty and the war office, they fully appreciate the duty of the dominion as it advances in population and wealth to make more liberal outlay for these neces-

Will Cure You Of Rheumatism

Else No Money is Wanted.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn you into a cripple, but to give you back your normal strength, and it is impossible. But I can cure the disease always at any stage, and forever.

I ask for no money. Simply write me a postal note and I will send you my best year's nearest drug store six bottles Dr. Shoop's Rheumatic Cure, for every drug store keeps it. Use it for a month and, if it does not cure you, the cost is only \$2.50. If it fails, I will refund you your drug bill.

I have in my samples, because my medicine cures the effects Rheumatism quickly must be drug to the very of danger. I use no such drugs, and it is folly to take them. You must get the disease out of your blood, that is, then in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it can be done. I have cured the other tons of thousands of cases in that way, and my records now that 39 out of 40 who get a postal note from me, I have learned that people in general are honest with a physician who writes them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. I will send you my book about Rheumatism, and in order for the medicine. Take it for a month, as it won't harm you any, and if it fails, it is only \$2.50. Write today. The decision with you. Address Dr. Shoop, Box 11, Racine, Wis.

Maine Lumbermen Busy.

Bangor, Me., Nov. 5.—Activity in the logging and lumber business on the Penobscot is limited only by the number of men available for work. All the mills on the river are sawing, and will probably continue in operation until Thanksgiving time.

E. I. White, of Machias, is building at Lower Edmunds, Washington county, a saw mill for the manufacture of long lumber, shingles, lath, shooks and staves. Cushing & Burleigh are building at Eagle Lake, on the line of the new Fish River railroad, a saw mill with a capacity of 40,000 feet of long lumber a day, and at Portage Lake, C. L. Pettigall & Son, of Island Falls, are building a steam mill for the manufacture of long lumber and shingles. Several water-powers along the line of the new railroad, have recently been purchased by parties who intend to erect mills.

The Northwestern Timberland Company has been organized at Portland with \$200,000 capital stock. J. P. Panning of Portland, is president and Franklin C. Payson, of Portland, treasurer of the corporation.

William Redmond Arrested.

Dublin, Nov. 5.—William Redmond was arrested on his arrival at Kingston Tuesday and was taken to Kinsaleham jail, where he remained until Thanksgiving time. He was ordered by the Court, which was held at Wexford, which was said to be in honor of his father, to give bail for \$100 for his future good behavior. GUNPOWDER PLOT ANNIVERSARY; FOUR LOCAL L. O. L. CELEBRATIONS.

Gathering at White's, With Dinner, Speech and Song—North End, Carleton and Fairville Had Their Demonstrations.

"Remember, remember, the 5th of November, the day of the gunpowder plot." And it was well remembered by members of the Loyal Orange Association in St. John.

District Lodge at White's. The principal gathering was the supper in White's restaurant. The room was prettily decorated.

W. B. Wallace, district master, presided and had on his right Hon. H. A. McKernan, P. M., and Ad. Robert Maxwell, P. G. M., and on his left Neil J. Morrison, G. secretary, and Scott E. Morrell, county master.

Our King and Empire, Grand Lodge of British America, Grand Lodge of New Brunswick, Loyal Orange Association, St. John County Lodge, St. John District Lodge, Our Visiting Brethren, Historic Associations of the Day, Primary Lodges.

In response to the toast of the Grand Lodge of New Brunswick, Grand Secretary Neil J. Morrison, in speaking of the progress made by the lodge, said the number of primary lodges on the roll was the largest he had ever known.

Hon. H. A. McKernan dealt generally with the principles and teachings of the order. Scott E. Morrell and Ad. Robert Maxwell spoke for the county lodge.

Dr. George A. Hetherington and Doctor Macdonald, of Fairville, responded for St. John county (west) to the toast of Visiting Brethren.

Hon. C. N. Skinner, in speaking of the Historic Associations of the Day, said that Guy Fawkes' day had formerly been observed as a religious festival of the land service.

Obituary. John Richards, Yarmouth. Yarmouth, Nov. 4.—(Special.)—The community learned with regret of the death last night of John G. Richards.

Obituary. Joseph Murphy, Upper Brooklyn. Joseph Murphy, of Upper Brooklyn, died at his home early this morning, after an illness of a few days.

Obituary. Roy Denton, Yarmouth. Roy Denton, who has been a great sufferer from consumption for a number of years, passed away Monday morning.

Obituary. John F. Ashe. The many friends of John F. Ashe will regret to learn of his death, which occurred at 9:30 Tuesday night at his mother's home.

Obituary. Arthur Swell, Kentville. Moncton, Nov. 4.—Arthur Swell, formerly of Moncton, but for some years past a resident of Kentville (N. S.), died at that place on Monday.

WEDDINGS WEDNESDAY.

Matheson-Parks. A matrimonial event in which society has been deeply interested took place in St. Stephen's church Wednesday afternoon.

The bride was given in a pretty traveling suit of castor broadcloth, with large picture hat and grey feather boa. James L. Thomas performed the duties of officiating.

Both were very popular and their many friends will unite in wishing them every felicity. The marriage of Theodore Kessler and Miss Gertrude Louise Chandler, formerly of this city, took place at Woodside (Long Island) Nov. 1.

At Fairville. Willis L. O. L. hall, Fairville, was thronged by a gathering that really dispersed with the conviction that the memory of how Guy Fawkes' plot was thwarted, had been heartily and thoroughly honored.

At Carleton. True Blue Orange Lodge No. 11 and Roxbury Lodge No. 2, Ladies Benevolent Society, celebrated the occasion in O'Connell's hall, Carleton, Wednesday, with a supper, followed by a musical program.

At Susex. Nov. 5.—The annual 5th of Nov. celebration is being observed this evening at Marchmont, in the form of a supper, to be concluded with a dance.

At Moncton. Nov. 4.—Beverly Smith, at one time conductor on the Atlantic and Pacific railway, lately of the C. C. R. office, died this morning in this city from inflammation of the lungs.

Obituary. Charles P. Tower. Charles P. Tower died at the General Public Hospital Wednesday, December, who was formerly proprietor of the Sackville House, on Union street, was 66 years of age, and leaves a widow and six grown-up children.

Obituary. W. J. Damery. Hotel, Wednesday received a telegram announcing the death of his brother, W. J. Damery, in Cambridge (Mass.) Deceased was 39 years of age, and leaves a widow and one son.

Obituary. William Nixon. William Nixon, an aged resident of Lettimer's Lake, died rather suddenly Wednesday morning, December, who was 83 years of age, was born in County Down, Ireland. He leaves a family of 10 children.

Obituary. Montreal Woman Dies at 107. Montreal, Nov. 4.—Mrs. O'Reilly, for many years a resident of Montreal, died yesterday at the remarkable age of 107 years.

Obituary. W. H. Gibbs, Former M. P. Toronto, Nov. 5.—(Special.)—W. H. Gibbs, who for many years represented North Ontario in the dominion parliament during Sir John Macdonald's regime, died today in his 79th year.

Obituary. Jonathan Titus. The death occurred Thursday of Jonathan Titus, an aged resident of this city, a former merchant and prominent in Baptist circles.

Obituary. Cook's Cotton Root Compound. Such malady as Croup, Sore Throat, Whooping Cough, and all other ailments of the throat and lungs, can be cured by the use of Cook's Cotton Root Compound.

CATARACTS CURED.

"Actina," a Wonderful Discovery Which Cures Diseased Eyes, No Matter Whether Chronic or Acute, Without Cutting or Drugging.

There is no need for cutting, drugging or probing the eye for any form of disease, for a new system of treating affections of the eye has been discovered.

Both eyes become as sensitive to the slightest inflections and innovations of the human voice as a phonographic roller, there is a certain tremulous quaver in the tone of a man or woman who is lying in court that the stenographer catches when the shrewdest judge, lawyers or jurors quite fail to catch it.

When he's got his head bent over his notebook he feels that jarring false note in the voice of the liar every time, no matter how plausible and convincing the testimony in itself may sound.

A ST. JOHN ACTRESS. Miss Margaret Anglin, the leading woman of Charles Frohman's Empire Theatre Company, to appear at the Hollis Street Theatre next week was born at Ottawa (Canada).

Miss Margaret Anglin, the leading woman of Charles Frohman's Empire Theatre Company, to appear at the Hollis Street Theatre next week was born at Ottawa (Canada).

As the daughter grew up, she developed a strong liking for the stage, and a determination to become an actress. She took the first steps in this direction when she was only a child.

THE CAUSE OF DEAFNESS. Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the middle ear.

Hamilton's Pills are Effective. Sorrowing relatives and friends of Miss Clara Morton, who was assaulted by the driver of the street car on the grounds of the McLean Asylum in Waverley, and died Sunday night at the Massachusetts General Hospital, assembled this morning in the Second Reformed Protestant church, Chambers street, for the funeral services.

MISERABLE NIGHTS. What to Do When Baby is Fretful and Sleepless. It is wrong to take up a wailing baby from the cradle and hold it up and down the floor all night.

SURE CURE FOR SICK STOMACH. Such malady as Croup, Sore Throat, Whooping Cough, and all other ailments of the throat and lungs, can be cured by the use of Cook's Cotton Root Compound.

A Pipeful of "A" and "B" Smoking Tobacco Will Burn 75 minutes. "Test it?" Save the Tags they are valuable.

Betrayed by their Voices.

"Any shorthand man who has been doing court reporting for a long time can tell almost infallibly by his sense of hearing whether a prisoner or a witness is telling the truth," said a court stenographer who has given evidence in making and transcribing notes in civil and criminal cases.

"You know how abnormally the remaining senses of blind folk are developed particularly their sense of hearing. Well, it's the same way with the court shorthand man, after he's hammered away at that sort of work for a good many years."

"His ears become as sensitive to the slightest inflections and innovations of the human voice as a phonographic roller, there is a certain tremulous quaver in the tone of a man or woman who is lying in court that the stenographer catches when the shrewdest judge, lawyers or jurors quite fail to catch it."

When he's got his head bent over his notebook he feels that jarring false note in the voice of the liar every time, no matter how plausible and convincing the testimony in itself may sound.

When seen last night Mr. Mullin said that the only intimation he had received of the granting of the appeal came through the press. He did not think that Higgins had been informed of the supreme court's decision.

SOME CHANCE NOW FOR A NEW TRIAL.

FRANK HIGGINS; ARGUMENT NEXT

Supreme Court Will Then Hear Counsel for the Cr. Prisoner -- The Grounds for Appeal -- Bench Was Unanimous -- Mrs. Goodspeed Sees Her Son -- Boys Tried to Send Sensational Books to Him, But She Would Not Take Them.

Daniel Mullin, K. C., will probably go to Fredericton today in connection with the Higgins case, the supreme court having granted leave to appeal from the decision of Judge Landry.

In applying for the appeal Mr. Mullin argued that it should be granted because the trial judge had, in his charge to the jury, made certain comments relative to Higgins' silence after his arrest and before the employment of counsel; because certain evidence had been admitted in rebuttal by the trial judge which was not rebuttal testimony, but cumulative, tending to corroborate the evidence of the chief witness for the prosecution; because the judge erred in his decision as to how far evidence should be secured after the panel had been exhausted; because the jury should have been discharged and a new one empanelled after it was shown that one of the jurors, John A. Pooley, had, before the trial, expressed a strong opinion as to the prisoner's guilt.

It is not known on which of these grounds leave to reargue the case was granted, but it is inferred by some that it was because of the comments of the trial judge respecting the silence of the prisoner.

When seen last night Mr. Mullin said that the only intimation he had received of the granting of the appeal came through the press. He did not think that Higgins had been informed of the supreme court's decision.
