The 7-30 Gold Bonds. The first mortgage bonds of this company, which, after full inesti- gation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features; 1. They are exempt from United States tax : the Principal and Interest are payable in gold- the principal in 30 years, and the interest semi- annually at the rate of 73-10 per cent. per annum. Denominations, from \$100 to \$10,000. Present selling price-par and accrued interest in United States currency at present rate of gold (109) these bonds yield 8 per cent gold interest. 2. The bonds are a first and only Mertgage on the Road, its Equipments and Esrnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each mile of track. 3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market priees- a provision which practically gives the holder the power of foreclosure at will. 4. The proceeds of all sales of Land are re- quired to be devoted by the Trustees of the bondholdrs, (Messrs. Jay Coeke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if necessary. <i>Exchanging</i> 5-20s. In view of the ability and fixed policy of the Government to call in its 5-208 and substitute a 10w-interest bond,- \$140,000,000 having been called in for cancel- lation since September 1st-many holders of 5-208 are exchanging them for Northern Pa- cifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third. 	 played by the audience. To the aid of a clear and comprehensive grasp of his subject, the orator brought a fecundity of illustration and a familiarity with history, both sacred and profane, almost wonderful. In his address—which may be more appropriately termed an historical essay—Dr. Irvine took the ground that the Anglo-Saxons are the descendants of the ten lost tribes of Israel, and he supported his position with arguments from every conceivable source. This idea, though by no means new, we have never seen treated so claborately and so effectively. At the close of the address, a unanimous resolution of thanks was voted to the learned orator, and a copy of his essay requested for publication. Orange Grand Lodge Officers. RATES OF ADVERTISING. THE DAILY TRIBUNE will unite, when requested, with the other City Newspapers in treating all Advertising as "transient: " that is, it will regard with favor the abolition of agreements for advertising " by the year." The latter practice has gone out of fashion in all well managed newspaper offices; and being a most unjust arrangement, both for the Newspaper and a majority of the Advertisers, should have ceased to exist in this City many years Sewerage question, the proper ago. Such a step might place the TRIBUNE competitors, such as the Telegraph and Journal, Globe, and Morning News; but it would establish a just principle, and, in the end, prove advantageous both to the Advertising Public and the Press.
