Distressing accident at Weymouth. A correspondent at Weymouth communicates to us the following:

On the 9th Feb. the following severe accident occurred here, another instance of the cold experienced in these parts.

A man by the name of Chapman while going to a distant part of our village with a child, lost his way in a wood. After coming tired of walking about, and failing to discover his way out, took off his overcoat, in which he wrapped the child, then beating a path he walked up and down to keep himself warm, but becoming drowsy, from the excessive cold, laid down on top of the child, and there fell asleep. In the morning when he awoke in sight of his own home, both legs were terribly frozen. He now is under the care of our talented Physician, Dr. Ruggles, from whose judicious treatment he receives much comfort, and is

rapidly recovering, but will be obliged to go for the remainder of his days on crutches, the Dr. having most skillfully amputated both feet. (Weymouth Herald.)

NARROW ESCAPE FROM DROWNING.—Herd Conduct of a Woman. We learn that on Tuesday afternoon a son of Mr. Zephaniah Hodge, narrowly escaped drowning while skating on the pond in the rear of his father's mill, near Westville. He broke through the ice where the water was about eight feet deep, and his situation was first discovered by his mother, who was sitting by her window and saw his arms protruding above the level of the pond. An aunt of the boy, Miss Louisa Robinson, ran to the spot at the imminent risk of her own life rushed into the water seized the boy, whose head she kept above water with one hand, while she broke the ice with the other, in her attempts to gain a more shallow part of the pond. The screams of both soon brought Mr. Bullock, and other neighbors to the place, and with the help of rails and other contrivances both were at length brought to the shore in an exhausted and benumbed condition. It cannot be doubted that both might have been drowned but for prompt and reliable assistance. Such heroism is rare, and deserves to be honorably mentioned by every who admires the true nobility of character. *Toutou Gazette.*

ARREST FOR SWINDLING.—The Portland Argus says that Thomas C. Hasty, of Gortam, was arrested in Boston on Tuesday evening on a charge of swindling a New York firm out of \$2000 worth of watches and jewelry, by representing himself as Samuel Hanson of Buxton. He had taken a package of watches, valued at \$1000, with him to Boston and left orders that the balance of the goods should be forwarded by express. After he had left New York the firm despatched a bank in Portland as to the credit of Mr. Hanson. The reply was "good," but Mr. H. has been here all day. Convinced that they had been swindled, they telegraphed the Police of Boston, and one of the firm started for that city. On Tuesday evening Hasty called at the American House, Boston, and inquired whether a letter had been left there, directed to Hanson. The Police officer was present, and followed

Hasty out and invited him to go to the R. R. House, to which he consented. Arriving there, he was met by one of the New York firm with whom he had a short time previously made the trade. He confessed the swindle, but asserted that he was only the cat's paw in the hands of two designing men. The box of watches was recovered from a broker in whose possession it had been placed, and Hasty was committed for examination.

MONK MASSACRE IN SYRIA.—A letter from Alexandria, dated the 12th of January conveys important news from Syria. It states that a fresh massacre of Christians by Druses has been perpetrated. The number of victims is not given, nor the name of the village in which the alleged massacre took place. We are merely told that while the inhabitants of a village on Mount Lebanon were attending service in a church, a band of Druses burst into the sacred edifice and horribly massacred them. On the receipt of the news, Paul Pach, the letter adds, immediately dispatched a body of troops to the place, who surrounded the village and took some 950 of the Druses prisoners, and the are said to be now under trial at Beyrouth.

The officers and crew of the British war steamer Triton have recently been paid £25,000 as prize money earned in the capture of slaves on the African coast.

Lady Franklin sailed from San Francisco on the 15th of February, for British Columbia.

Fire at Dorset.—The large building at Dorset owned by Mr. Marshall, and partly occupied by Mr. Bennett as a saleroom, was totally destroyed by fire on Saturday night. We understand the building was insured, but there was no insurance on the property of Mr. Bennett, whose loss is said to be about £500.

## The Standard.

ST. ANDREWS, MAR. 27, 1861.

Snow Storms. On Thursday night and Friday, the heaviest snow storm which has taken place for several years, accompanied by a strong Easterly gale, occurred; rendering it difficult for pedestrians to pass through Streets, as the snow formed continuous banks many places from six to eight feet high.

The roads are so blocked up that no mails were received since Friday until last evening which made a dearth of news. Even the telegraph line was down between St. George and St. John.

The official correspondence between eight of the members of the Executive Council and the Attorney General (Mr. Fisher) having obtained Crown Lands, in violation of the Regulations and conditions of the Department, has been published. The Council feeling themselves unable to justify or defend Mr. Fisher, informed him of their unwillingness to "act with him at the Council Board."

The Attorney General refused to resign, and the Council tendered their resignation to His Excellency. Mr. Fisher contends that he has done no moral or legal wrong, and that his colleagues should have waited until the Land Investigating Committee's Report was before the Assembly, and concludes by stating that if the Council "were not disposed to await the action of the House of Assembly, it was their duty to retire, and give me an opportunity of ascertaining whether I could not so reconstruct the Executive Council, as to be able to conduct the public business, and I now respectfully request your Excellency to authorize me to do so."

The Governor declined to accept the resignation of the Council, and they advised His Excellency to discontinue the services of Mr. Fisher as a Member of the Executive Council, which he has done. The subject will be thoroughly discussed in the Assembly when the Committee's report is brought in.

The late investigation by a committee of the House of Assembly into the administration of the Crown Land Department which still engages so much general attention; and the great struggle for supremacy, which is being waged between the contending parties in the political arena—fomented and fanned as it is by the anticipation of the approaching election—make us dread lest the interests of the Railroad from this place may be ignored.

In the present position of affairs care should be taken, in the consideration of this question to keep separate the several interests involved, and also, to avoid any confusion between the terms the Company and the Road.

In our last week's issue we referred to an article in the "Emancipator" on the Railway, and we have no reason to doubt, that the Agents of the Company will arrange for the completion of the Line, and the time will be extended. We declare our dissent from the doctrine which a few persons are upholding—that there should be no interference

with the Company; and that newspaper discussion on the affairs of the Road are and must be injurious to everybody concerned.

It surely cannot need, nor would we insult our readers by attempting to enter into any argument to prove the error of such a proposition. It is clear, that "discussion" can never conceal, but on the contrary, must always disclose truth; thus we are completely lost in conjecture as to the grounds upon which such a doctrine can be maintained.

If the claims of the Company for further legislation cannot bear discussion—then are such claims weak indeed; but on the contrary, if they be just and well founded then it is certain that the more they are examined the more fully will they be acknowledged and the more readily be complied with. There is nothing against the passing of the Bills in our remarks. It would be bad policy, as well as a contradiction to our advocacy of the Road for upwards of twenty years, to say aught that might retard the works for even one hour.

The interests and welfare of this Town, depends in a great measure on the completion of the Line. The commercial prosperity of the whole of this side of the Province, hangs on the same issue; and the advancement of the entire country is more or less affected by it. The interest of the Company on the other hand consists in obtaining a return for their investment, and in nothing else; and it is natural that it should be so—any it would be unnatural to expect it otherwise.

If the Company can finish the work by all means let every consideration be extended to them; but let it be clearly shown that they will do so. After the disappointments of the last two years it would be a shameful neglect of a duty which we owe to ourselves and this Province if we did not make ourselves secure on this point.

As far as our humble abilities permitted, we have always advocated the true interest of the Line—we believe in it, and our assurance in its completion is as firm now as it ever has been; and we are happy to know that the public have always awarded us the credit of being a firm friend and advocate of the undertaking.

Since the above was written the following telegram was received by a gentleman here, from J. W. Chandler, Esq. M. P. P.:

Frederictown, March 26.

"The Railway Bill has passed the House, without a division."

Our winter stock of paper is now exhausted, and owing to the heavy state of travelling we are unable to get any by stage. A supply was shipped for us at St. John about three weeks ago but the vessel has not yet arrived here. We trust it will reach us in time for our next issue.

New Church.—We understand that the members of the Church of England in this place, are taking preliminary steps towards the erection of a new Church in the Town. The old building, it is said, will ere long require a large amount of repairs, and is too small for the present large and increasing congregation. The plan for the proposed new building, a model of which has been made, is at once neat and commodious, and for architectural beauty will not be surpassed by any Parish Church in the Province. We heartily wish the promoters of this laudable movement, abundant success in their praiseworthy and zealous efforts.

Under the heading of—"The People's Parliament," our contemporary the "Colonial Presbyterian," has been publishing pen and ink sketches of the members of the popular branch of the Legislature. The writer's opinion of the "Members for Charlotte" is given in the following paragraph:—

The County of Charlotte sends Hon. James Brown, John McAdam, A. H. Gillmore, and J. W. Chandler, Esquires. Mr. Brown is the father of the Assembly. He is now 72 years of age, 32 of which have been passed in the public service. He is a shrewd, honest Scotchman. In his speeches he takes great pains to make everything quite plain to his listeners. He has a penchant for quoting poetry, which he sometimes does with excellent taste. An anecdote is now and then thrown in with good effect. Mr. McAdam is a decided opponent of long speeches. He acts upon the principle that "brevity is the soul of wit," and often deals very summarily with what he considers cob-web theories. The sobriquet of "Honest John" is, I believe, correctly applied to him. He is the terror of Railway Contractors, who would rather see the Chief Commissioner, or Chief Engineer himself, on their committees. He is very properly a man of weight in the House. Mr. Gillmore is the youngest of the members from Charlotte, and is a highly intelligent gentleman. He is a fluent speaker, and ready in debate.

Mr. Gillmore is something of a politician, and is yearly increasing his stock of parliamentary and political knowledge. Mr. Chandler

is emphatically a Lawyer, and must have his speech on every bill affecting the interests of his profession.

STATUTE LAW.—In the House of Commons, on Feb. last, the Solicitor General, brought in seven Bills for the consolidation of the Statute Law, relating to offences against the person, malicious injuries to property, Larceny, forgery, goings, offences, accessories and abettors, of indictable offences and to repeat certain criminal Statutes.

ONE SERMON A SABBATH.—Dr. Tefft writes Zion's Herald a very readable article, entitled, "Sermon versus Sunday school," in which he takes the position that one sermon per day, is as much as any man ought to preach or any congregation hear—that the instruction of the rising generation is of more importance, than the giving the greater part of our ministerial labor to those who are so soon to be removed from the scene of action, etc. The question of course, says the Methodist, has two sides, but if the discussion of it can break up the two common practices in some places of three sermons a Sabbath from the same man, it will be good done.

Fire.—About 3 o'clock yesterday afternoon a fire broke out in the Stable occupied by Mr. T. Green, (coachman) Waterloo street, which was speedily demolished, it then spread to the dwelling house in front owned by Mr. Crothers and occupied by himself and Mr. Green, which was destroyed; it also destroyed a barn in Richmond street, owned by Mr. Mitchell. The cottage of Mr. Mitchell was in imminent danger but was saved by the strenuous exertions of the Fire department. Mr. Brundage's barn, Mr. J. Smith's Carriage Factory, and the dwelling house of Mr. Neptune, were in considerable danger but escaped with but trifling damage.—[New Brunswick.]

MOOSE AND DEER.—There never has been a winter, within my recollection, in which the slaughter of moose and deer has been so great as it has been during the present season. The snow has been so deep and stiff that large numbers of the animals have been easily captured and killed. We noticed yesterday eight carcasses of deer, from Canada going to Boston by the Eastern Express Company. The trains from the Eastward and Canada during the winter have brought more of less carcasses every day. The time for killing deer in this State expired on the 15th of January, and there is a fine of \$20 for killing them between January 15th and September 1st. The time for killing moose expired on the 5th of this month, and the penalty for killing between that time and the 1st of October is \$50.

[Halifax papers announce that small pox is on the increase in that city.]

**RELIEF AND HEALTH TO YOUR INFANTS.**  
We have put up and sold this article for over  
ten years, and can say, in confidence and  
truth of it, what we have never been able to  
of any other medicine—NEVER HAS IT FAILED  
ON A SINGLE INFANT. To Effect a Cure when  
timely used. Never did we know an instance  
of dissatisfaction by anyone who used it. On  
the contrary, all are delighted with its operation,  
and speak in terms of commendation of its magi-  
cally efficacious virtues. We speak in this  
matter WHAT WE KNOW, after ten years  
experience, AND PLEASE OUR REFLECTION  
ON WHAT WE HERE DECLARE. In almost  
every instance where the infant is suffering from  
pain and exhaustion, relief will be found in five  
minutes or twenty minutes after the syrup is admin-  
istered.

This valuable preparation is the prescription  
of one the most EXPERIENCED and SKILL-  
FUL NURSES in New England, and has been  
used with NEVER FAILING SUCCESS, in  
THOUSANDS OF CASES.  
It not only relieves the child from pain, but  
nourishes the stomach and bowels, corrects  
acidity, and gives tone and energy to the whole  
system. It will almost instantly relieve  
GRIPING IN THE BOWELS and WIND COLIC,  
and overcome convulsions, which, if not speedily  
remedied, end in death. We believe it is  
the best and surest REMEDY in the WORLD in  
all cases of dysentery and DIARRHEA, in child-  
ren, whether it arises from teething, or from any  
other cause. We would say to every mother  
who has a child suffering from any of the fore-  
going complaints—do not let your Prejudices, nor  
the Prejudices of others, stand between you and  
your suffering child, and the relief that will be  
surprised, absolutely sure—in following the use of  
this medicine, if timely used. Full directions  
for using will accompany each bottle—

This remedy is just what it purports to be,—"a remedy  
for Dyspepsia." Through continuing to drink, yet avoid  
drinking in any climate. It is highly concentrated,  
—a teaspoonful in half a tumbler of water containing a  
dash, during all the seasons ever witnessed for these  
prevaling and chronic complaints, there is more relief  
obtained in such great and permanent manner, as to  
give greater and more comfortable satisfaction, from the  
receipt of its benefit. It is a simple and safe remedy  
for the various forms of Dyspepsia, that has been  
produced.

From a highly-respected Physician in Maine.  
SOUTH PARIS, Me. Dec. 15, 1860.  
Messrs. S. W. FOWLE & Co.,—Gentlemen: For  
several years past I have had a knowledge of the  
operation of the OXYGENATED BITTERS in some cases  
of Dyspepsia and General Debility. They have generally  
given satisfaction, and sometimes have effected a perma-  
nent cure where other remedies had been tried without  
benefit. I do not hesitate to recommend them.  
Respectfully yours,  
WILLIAM A. RUST, M.D.

**THE OXYGENATED BITTERS.**

Letter from Stearns Foster, Esq.  
STOBBARD, N. H., Sept. 30, 1860.  
Messrs. S. W. FOWLE & Co.,—Gent.: I was,  
for many years, a great sufferer from DYSPEPSIA or  
WATERBURN, and used almost everything within my  
reach, but to no benefit, until I was induced by the re-  
commendation of my physician, Dr. Hazleton, to make  
use of the OXYGENATED BITTERS. The first bottle  
produced but a slight alteration in the disease, and led  
it not to be the urgent request of my physician I  
should then have discontinued their use, thinking them  
to be of no avail; but his confidence inspired me to  
persevere, and after using to the extent of half a dozen  
bottles, I find entirely regained my health. I hope all  
sufferers from this disease will be induced to give them a fair  
trial, before concluding that this remedy is the most pre-  
sented, for the various forms of DYSPEPSIA, that has been  
produced. Yours,  
STEARNS FOSTER.
