PYTHONS FIGHT!

Male Monster Almost Kills Female Trying to Steal Her Breakfast—Hose Stops It.

Cincinnati, Aug. 16.—The giant Indian pythons, Jumbo and Queen Lil, had a fierce fight at the Zoological Gardens yesterday. Jumbo's length is 26 feet and Queen Lil's three feet less. A year ago they crossed the sea from their jungle as mates and until yesterday shared the same cage in amity. As Lil seized her rabbit for breakfast Jumbo's head arose and he coiled for a blow. His greenish-black body a second later was cast at his mate. His fangs fastened in her neck, and his body coiled around hers, pinioning her head to her body in a loop. Time and again Jumbo struck at her neck, tearing the skin with his fangs. Poles thrust between the coils of the fighters were snapped like toothpicks. Supt. Stephan, fearing that Lil would be killed, seized a large garden hose, to which he lashed a pole. As it was thrust towards Jumbo he exposed his fangs and the nozzle was thrust down his throat. Against the brass fangs were powerless. Water was turned on and the snake's body soon swelled quadruple its normal size. For a moment only Jumbo withstood this attack, then released his victim. Lil lay motionless and was dragged to safety. Jumbo ultimately devoured the rabbit, and Lil was saturated with liniment and will recover.

SOME RETURNS INCOMPLETE.

The bulletin says: In a few districts the records of the present year are incomplete, and the figures for them have been estimated in part.

The returns for the extreme northern portions of Quebec and Ontario, and for the unorganized territories of Athabasca, Franklin, Keewatin, Mackenzie, Ungava and Yukon have not been received.

JOLIET MEN JOIN STRIKERS

Adding 3,000 to the Steel Men Who Have Gone Out.

Another Effort Being Made to End the Strike—Basis of Settlement Suggested.

Joliet, Ill., Aug. 15.—The four lodges of the Amalgamated Association of Employees of the Illinois Steel Company, at the Joliet mills, by a unanimous vote, decided tonight to obey the strike order of President Shaffer. The conference was in session from 3 o'clock this afternoon until 9 o'clock tonight before the decision was reached. The meeting was called by National Secretary Tighe, after his arrival here this morning. He was accompanied by Vice-President Davis, of the fourth district.

This action will close the entire steel plant here, throwing out of employment nearly 3,000 men. Fires will be drawn tonight. The Joliet men had the same contract with the Illinois Steel Company as the South Chicago workers, who last night refused to listen to the arguments of Secretary Tighe. Mr. Tighe will leave for Milwaukee tonight.

The management of the works has posted an ultimatum that unless the men, numbering between 400 and 500, shall return to work next Monday, the plant will be closed indefinitely.

ATTEMPT AT SETTLEMENT.

Pittsburg, Aug. 15.—Once more there are efforts afoot to settle the steel strike. E. M. Caldwell, formerly an owner of Mingo Junction, is known to have conferred with the strike leaders with a view to sketching a basis of settlement, which he plans to lay before the officials of the steel corporation. He is believed to be the mysterious man who conferred with President Shaffer for more than two hours at the strike headquarters, although the latter said later that he had not seen Mr. Caldwell for months. Both sides vigorously denied that

late Charles Hunt, he came to Canada about 1860, and for some years acted as a grain buyer for Mr. Hunt, later being employed as bookkeeper in the City Mills. At that time Mr. Rendell resided in "Dorset Cottage," Colborne street, a residence built by himself, later removing to the southwest corner of York and William streets, where he lived till the present year. About 25 years ago Mr. Rendell engaged in business for himself in the coal and wood line, in which he continued up to the time of his death. When the First Congregational Church was built, Mr. Rendell took an active interest in its affairs, being a trustee and treasurer, but for the past ten or more years he had been allied with the Adelaide Street Baptist church. He was one of the staunchest friends of the temperance movement in Ontario. Mr. Rendell and his faithful wife, who survives him, celebrated last year the 50th anniversary of their marriage. The funeral, which takes place from the family residence, 578 Horton street, will be private. Sincere sympathy will be extended to Mrs. Rendell and Miss Rendell in their bereavement.

MRS. WILLIAMS GETS DIVORCE!

Wife of Former London Barber and Choir Singer

Secures Her Freedom by Evidence Consisting of Photographs Taken Through a Skylight.

By photographs and observations made through a skylight in the ceiling of St. James' Methodist Church, Montreal, Mrs. Maude E. Williams, of New York, is today free from her husband, J. Marshall Williams, music teacher, formerly of this city. Supreme Court Justice McLean awarded Mrs. Williams the custody of their only child, Paul G., 8 years old. Mrs. Williams was Maude E. Miller when in 1891 she married Williams in New York. He got an engagement as choir-master of St. James' Church, Montreal, in 1898, and a room in the upper part of the church, in which he might teach pupils. Among them were many daughters of prominent families.

Soon rumors were heard that the professor was making love to the pupils, and a man repairing the church organ while Williams was instructing his pupils saw a pupil sitting in his lap while he was kissing her.

Affidavits were shown to trustees, a watch through the skylight was set, and photographs of what occurred taken later when Williams was making love to many pupils. He left Montreal in a hurry, going to Chillicothe, Mo. Mrs. Williams, on evidence secured, and despite Williams' denial, got a divorce decree. She has permission to resume her maiden name.

J. Marshall Williams was formerly a well-known resident of this city. He came here twelve or fourteen years ago from Paris, Ont., where his father still resides. Williams was a barber by trade, and worked in the shop of the late Thomas Tracy. Williams came to London at the instance of W. J. Birks, then organist of the Dundas Center Methodist Church, and was a member of the choir quartet, his magnificent bass singing being a feature of the church's music. After living here several years, he went to New York to study, and it was there he met and married the woman who has just secured her freedom. During his residence in London Williams' conduct was all that could be desired.

CRESCUS WINS!

Famous Stallion Proved Its Superiority to The Abbott in Two Heats.

Brantford and St. Catharines Tied for District C. L. A. Championship—International Tennis Tournament—Strathroy Baseball Team Defeats Forest.

TURF.

New York, Aug. 16.—The trotting interests of the Empire City have not received such a boom in a quarter of a century as was developed yesterday at the Brighton Beach track when, under the auspices of the New York Trotting Association the champion stallion and champion gelding Cresceus and The Abbott came together for a purse of \$12,000. The Abbott, with his record of 2:08 1/2 of last season and Cresceus with his mark of 2:02 1/2, made at Columbus, were to decide the question of which was the one to go down in history as the fastest horse now living. There was a larger crowd present than ever seen before at a New York track under the old conditions, and this has been exceeded a few times since the existence of the old track by the seashore. The grand stand was simply packed, and this despite the fact that reserved seats, with admission cost \$4, winter boxes holding four persons were all disposed of at \$30 each, in addition to the regular admission. While the seating capacity is but 3,600, it was undoubtedly the fact that close to 5,000 persons were jammed into the structure. Every available space between the stand and track was packed to its utmost capacity, as was the lawn at the west and the paddock in field, and cheaper admission field contained a legion of people. It was estimated that fully 15,000 people were present. The weather was simply perfect for the great trial, and the track was like velvet, though probably a second slow.

It was about 3:30 o'clock when the drivers, Ketcham and Geers, appeared before the grand stand and obtained their position for a start by the flip of a coin. Luck was with the driver of Cresceus, as he secured the pole, a decided advantage, when two horses were nearly equal in point of record is considered. When, a little later, the horses came from the paddock they were wildly cheered, and they looked fit for the work before them. Fortunately, too, the wind had died down to a dead calm, so there was no obstacle in that line. Each was driven up and down the stretch for a warming up, and when they reached the starter, Cresceus was slightly in the lead, and they were called back. The next time down however, the driver's nose and nose and skipping along like birds over the fields. Then, like a shot from a gun, Cresceus rushed to the front and had a lead of a length, which he held to the quarter, in 30 1/2. This lead The Abbott had slightly reduced at the half in 1:01 1/4, and he was a very close second at the three-quarter pole in 1:37 1/4.

The vast crowd realized that a world's record was about to be made, and the grand stand arose to its feet, while the multitude, which was in the space between the stand and the track, cheered wildly. Coming down the stretch it was a battle royal, with The Abbott very close up, but Cresceus, with his bulldog grit, kept on, nostrils distended, and just managed to beat his opponent by a half length in a race. To say that the announcement created tumultuous applause only faintly conveys the meaning of the expression.

he has received an offer from the Czar of Russia to take charge of his training stables at St. Petersburg. The czar, he says, has through an agent, offered him \$10,000 a year and 10 per cent of the winnings of his horses. Mr. Campbell says he has not yet accepted the offer, and may not do so, as one of the conditions of the contract is that neither he nor any of the jockeys under him shall place money on races in which the imperial stables are interested. Not knowing who his assistants may be, he fears he cannot accept liability for them.

BASEBALL.

New York, Aug. 15.—What is looked upon as the greatest harness race in the history of the trotting horse is on the card for the Brighton Beach track today. Cresceus (2:02 1/2) and The Abbott (2:08 1/2) will meet for the first time in a special race for \$12,000, trotting mile heats, the best three in five.

FISTIC.

San Francisco, Aug. 15.—News of the death of Otto Cribb, the Australian pugilist, has been received. On the night of July 22 Cribb fought "Micky" Dunn, in Sydney, before the Gayety Athletic Club. The fight lasted fifteen rounds and ended in a knock-out, Dunn being the victor. The next morning Cribb was found dead in his bed. His real name was A. O. Simpson.

LACROSSE.

TIED FOR CHAMPIONSHIP.

St. Catharines, Ont., Aug. 16.—Brantford and St. Catharines lacrosse teams are tied for the district C. L. A. championship. The news was announced yesterday morning, when word was received that Galt had defaulted Saturday's game to the Hamiltons. This leaves both leaders in the league with seven games won and one lost. President McMillan, of Beaverton, sent the following telegram to Secretary Burton: "The Hamiltons and Brantford will now have to play off on neutral grounds, for district honors, and the winners will then play Orangeville for the C. L. A. championship." The first game will likely be played on the island at Toronto.

The following additional results were recorded in the tournaments yesterday morning: Master class—Delmar drew with Napier; Delmar defeated Marshall; Napier defeated Howell. First class—Waller defeated Luce; Swafield defeated Underwood; Searle defeated McMartin.

Dear Sirs,—My little girl was almost dead with summer complaint. I tried numerous remedies for her, but they did no good. A friend recommended Dr. Fowler's Extract of Wild Strawberry, so I procured a bottle, and by the time she had taken three doses it began to help her and two bottles effected a complete cure. I owe her life to your excellent remedy.

The Jealous Leaders.

Clarke Wallace, who is in Manitoba has reached the conclusion that a candidate labeled "Conservative" has a chance of election in Lisgar, and so he invites those who were once proud to be called by that name to support Mr. Richardson, who is opposed to the Government. If all were known it might be found that Clarke Wallace is more anxious to have a rival to the leadership, in the person of Mr. Foster, out of the way than he is to have a straight Conservative elected anywhere. At one time it was stated that there was a demand for Mr. Foster's selection as Conservative candidate in Addington, where a vacancy, caused by the death of a Conservative M.P., exists. Now it has been announced that Mr. Foster has been ruled out, and that he will not be nominated. Is this the doing of Mr. Clarke Wallace, who can brook no one who aspires to leadership in these parts? It looks very much like it. Then it was said Mr. Foster had been asked to run in Lisgar. Now Mr. Clarke Wallace undertakes to decide that neither he nor any other old line Conservative shall be selected, but that Mr. Richardson, who refuses to be classed as a "Conservative," must be supported. Here again we have the man from Woodbridge showing his determination, even at the risk of emasculating the Conservative party, that no one shall get nearer the party throne than himself. Meanwhile it is rather significant that Mr. Foster has been looking for a seat everywhere but in the province where he is best known. Why has he forsaken New Brunswick? Or has the Province down by the sea abandoned him?

Wait for Next Census.

It seems certain that Canada with her 4,800,000 population in 1891 has grown faster in the last ten years than France with her 38,200,000 in the same year. France only chronicles an increase of 412,504 in the decade; Canada has increased her population by nearly half a million. But wait till you see our next census! Under the present progressive rule, we expect to see Canada's increase in 1911 at least four times as large as that between 1891 and 1901.

Abuse of the Interview.

United States Senator Chauncey Depew, who is now on a visit to England, says hitherto he has rather enjoyed being interviewed, but latterly there have been so many fictitious and erroneous reports of his sayings and speeches that he has concluded to go out of the interviewing permanently. It is really too bad that so many public men are forced to remain silent with regard to important questions when approached by a certain class of newspaper writers. We have unscrupulous men of this kind in Canada, and the overwhelming majority of newspaper men are at a disadvantage because a comparative few thus abuse their functions. It is far worse in the United States, for there they have newspaper editors who put a premium on sensational interviewing which in a great many cases never takes place, and which often does inoffending public men great injury. There should be punishment for the abuse of this most requisite method of supplying the public with information. It should be an indictable offense to publish untruthful and malicious interviews.

British Citizen Soldiers.

The British volunteer force seems to be in a most satisfactory state at the present time. According to the annual return the total strength of the purely volunteer bodies in Great Britain was 277,628, of whom 270,368, or 97.39 per cent were efficient. The net increase over the previous year was 47,774. When we take into account that the defensive organizations in the motherland are what their name implies—purely voluntary forces, receiving no pay and no reward for their services while perfecting themselves in the art of arms—it is really astonishing how well drilled and how good shots they are. One thing has helped above all others, and that is the Saturday half-holiday of the mechanics and the Wednesday half-holiday of the mercantile community in the cities and towns. But for these spare hours, often gained by working a half hour each of the other five days of the labor-week, it would have been impossible to keep the various corps and batteries up to the condition of efficiency that they have attained. Saturday soldiering is a regular institution among the public-spirited young men of the United Kingdom, and is of great value to the volunteer movement.

The Attack on Mr. Dryden.

Supposing that Hon. John Dryden were to act upon the numerous kindly suggestions of the Tory press relative to the investment of his money and decide to go into the ranching business in Ontario. A company is formed, and application made for a large tract of land suitable for the purpose. At the very outset, those engaged in the enterprise would find themselves confronted with the crown lands regulations, under which the greatest area that can be taken up by any individual is 320 acres, and which in every case provides for the performance of settlement duties, including actual residence on the particular lot purchased or granted. The only way by which this difficulty could be overcome, short of an act of the Legislature, would be by an order-in-council setting aside the regulations for the purpose of conferring a special privilege upon the applicants. Now, supposing that Messrs. Dryden, Crawford, and others, animated by the patriotic desire to invest their money in the Province, had resorted to this step, and that the Ontario Administration had been weak or corrupt enough to set aside the general regulations for the benefit of a corporation in which a Minister was interested, and grant them or allow them to purchase 20,000 or 50,000 acres of a crown domain. Just fancy what a storm of indignation the transaction would have aroused, and how the very newspapers which are now denouncing Mr. Dryden for his Dakota investment, would have exhausted the resources of the language in describing its iniquity and shamelessness!

The whole tempest in a teapot raised over the business is based on the assumed ignorance of the public as to the essential difference between the capabilities of Dakota and Ontario. The land in New Ontario is not adapted for ranching. It is wooded, and in many places broken. Its fertile sections can be put to better purposes. Our whole crown lands policy is opposed to the granting of large areas of public lands to ordinary business enterprises—railroads, which are essential to the opening up and development of the country, being with the general consent an exception. The colonization policy of the Administration is to make New Ontario a country of homes, not of extensive holdings operated by corporations for farming or ranching.

Our Lengthening Lives.

It has often been pointed out that life assurance companies have reduced the accuracy of the expectation of life to a science, and that the exactness with which the length of a given number of lives will continue can be told with surprising accuracy.

The end of the century, the growth of life assurance as a protection to families, and the progress being made in medicine and surgery, all tend to make the length of life an interesting subject. Its interesting nature is increased by the fact that recent statistics go to show that the average person lives longer than he did thirty years ago. Whether we will ever reach the average length of life contended for by some one hundred years—is still unsettled.

The table made in 1869 by the British Institute of Actuaries was based on 130,000 lives, of which 20,000 had died. A new table has been issued, based on the experience of 60 insurance companies between 1863 and 1893, which shows the history of 608,000 lives, of which 157,000 had died.

It will be seen that the figures of the later experience (in each case healthy males) cover a much greater number, and show a marked difference in favor of the length of life now. The following table shows the difference:

NUMBERS LIVING (HEALTHY MALES).			
Age.	Old Hm.	New Om.	Difference in favor of new table.
10	100,000	100,000	—
15	98,224	98,224	—
20	96,228	96,453	225
25	93,061	94,387	1,326
30	89,865	91,942	2,077
35	86,231	88,965	2,734
40	82,284	85,467	3,183
45	77,919	81,262	3,343
50	72,726	76,185	3,459
55	66,513	69,919	3,406
60	58,865	62,073	3,208
65	49,297	52,207	2,910
70	38,124	40,615	2,491
75	25,601	27,752	2,151
80	13,930	15,530	1,600
85	5,422	6,259	837

Another interesting table is the following, showing the varying expectation of life at different ages:

Age.	Old Hm.	New Om.	Difference in favor of new table.
10	49,791	51,549	1,758
15	45,961	47,323	1,362
20	41,561	43,152	1,591
25	37,905	39,403	1,498
30	34,181	35,997	1,816
35	30,516	31,159	643
40	26,899	27,360	461
45	23,252	23,663	411
50	19,896	20,107	211
55	16,462	16,722	260
60	13,330	13,571	241
65	10,512	10,716	204
70	7,995	8,208	213
75	5,878	6,079	201
80	4,219	4,357	138

The increased length of life is in favor of the companies, except in the case of annuities, where the payment would require to be continued longer. It is, however, a fact, with which the present generation should be satisfied, that they are progressing in the right direction. Statistics show that the world is improving in the matter of health and strength. Much has been done. Much more will be done.

The New York Post says that the increase of population in Canada during the past decade is greater than that stated by the newspaper correspondents, "for the census figures of 1891 were notoriously inflated." That is the case in a nutshell.

United States Anarchist Headquarters.

A decade ago Anarchism was practically unknown. Within the last few years it has come to be looked upon as a terror, especially to the crowned heads of Europe. A settlement of these strange reactionists is to be found in Patterson, N. J. Not long ago one of their number, Bresci, assassinated the King of Italy. This group of Anarchists has been recently brought into public notice through their success in thwarting the efforts of the Italian Government in its attempts to secure the accomplices of the assassin. A system of espionage has been on foot for this purpose, and for the fifth time the work of the spies has failed. The assassin Bresci has been lauded as a hero by his anarchistic confederates at Patterson, and it is rightly suspected that he received instructions from them to kill the Italian King.

Anarchism seems to gain a stronger foothold in those countries where the most strenuous efforts are exercised towards its suppression. Crimes against the security of the state are least noticeable in Britain, because in that country an atmosphere of freedom prevails. The Anarchist is a man with an ideal. Strange as it may seem, he is in the majority of instances peaceable and fond of home life. He is simply crazed by any thought of sovereignty, recognizing as he does, absolutely no law, whether the embodiment of the will of the people or the mandate of a sovereign. The probability is that he will never become a formidable source of danger in a democratic country such as the republic at the south of us. Should he ever attempt any violence he would be pretty promptly suppressed.

If municipal corporations are to be permitted to sue to the Duke, what do they want to say, but what the Governor-General thinks they ought to say, it might be as well for them not to say anything.—Hamilton Herald.

The less said, soonest mended, to adopt an old "saw."

Manitoba and the Northwest would have been in hard plight but for the great effort in the east to supply the farmers with harvest help. There has been a generous response to the appeal, and in consequence farm help has been very scarce in some parts of this Province. We are inclined to help our friends on the prairies to get a good start, however, for this prosperity helps us in the East, and we all rejoiced when, by the granting of very cheap fares, the C. P. R. made it easy for any able-bodied man to respond to the call, "Go West!"

The other day, I noticed that Mr. Hanna, the "Boss" of the Republican party, said that the United States were not prepared to negotiate a commercial treaty with Canada in which they did not get the best of the bargain. I say to him that we will not make any commercial treaty with the United States, if we know it, by which they get the best of the bargain. We do not want to be imposed upon by reciprocity treaties which place us at a disadvantage with the United States, and it would be foolish of us to do so.—Hon. George W. Ross, Premier of Ontario, to the British Empire League.

British Columbia has resolved to follow the example of Ontario, and has passed a children's act, similar to that in force in Ontario, which the Province of Manitoba has also copied. Ontario is always in the van in promoting legislation for the welfare of the people, and its Government and people are always happy when other portions of the Dominion emulate its good example. Ontario's Children's Charter, as it has been rightly named, is well cared for by Mr. Kelso, the indefatigable superintendent of neglected children. He is an enthusiast in his work, and has the art of communicating his enthusiasm to others.

Would Know at a Glance.

[Hamilton Spectator.]

He was in swimming, but couldn't be induced to take his "duck." A companion "ducked" him, and this talk followed: "An' what'd'er do that for? Me face was dirty, an' now me mother'll know I've been swimmin'!"

Canada's Bright Future.

[Atlantic Monthly.]

There is no reason why Canada should not have 25,000,000 population within the span of the present generation. Her wealth is increasing at fourfold rate, and there is no apparent limit to their ultimate development.

CRESCUS WINS.

[Continued from page 2.]

Lake Erie, near Rensselaer Park. The men have met two or three times already, each encounter ending in a draw. They are being brought to Canada to fight to a finish. The attorney-general's department has in the meantime sent a detachment of police officers on the frontier to be on the lookout for the party, and have authorized the sheriff, county attorney and magistrates to take action against the whole lot, if they are found, if that be necessary to prevent the men landing.

THE OAR.

NEW COURSE FOR OARSMEN. New York, Aug. 15.—If the plans of Dr. John T. Nagle, of the health department of New York, are carried out by the board of public improvements, a course for American oarsmen will be made on the Hudson River, along Riverside drive, that will be second to none. The objections to the use of the Harlem River for this purpose are numerous, and Dr. Nagle, who is an enthusiast on the subject of aquatic sports, will urge his plan as being in keeping with the work of the health board. He proposes by means of a breakwater 400 feet from the shore, to give a straightaway course of a mile and a half, and 400 feet wide, with approaches at Ninety-ninth and One Hundred and Twenty-ninth streets; the breakwater to be thirty feet wide, with a board walk. In addition to these plans include a promenade on shore 50 feet wide as an additional point of vantage and a walk at all times.

LAWN TENNIS.

THE INTERNATIONAL CONTEST. Newport, R. I., Aug. 16.—The two tennis experts, Ward and Davis, who Wednesday won the championship in doubles, being scheduled to play each other in the singles yesterday, and the third round matches of the championship singles being on the card, it was expected that the third day of the national tennis tournament at the Casino would be one of the best of the season. At 11 o'clock the players appeared, the weather being considered good enough to go on, though the sky was not clear. Ward won the first set, 6-1, but Davis took the next three, thus winning the match, 1-6, 6-2, 6-2, 6-4.

THE INTERNATIONAL TOURNAMENT.

Niagara-on-the-Lake, Ont., Aug. 16.—The international tennis championship at Niagara-on-the-Lake, which begins on Saturday, Aug. 24, and continues through the following week, promises to be attended with great success this year. There will be a large gathering of players from Newport, and among the cracks who are expected are Larned, Whitman, Leo Ware, R. D. Little, F. P. Alexander and W. J. Clothier. There will be an especially large influx of lady players. Miss Atkinson and Miss Marion Jones have both stated their intention of coming, and Miss McAlister, of Pittsburgh, is also expected. Mr. James P. Warner will also bring from Chicago a large number of young ladies, including Misses Parker (champion), Pennington, Neesley and Cleos.

THE WHEEL.

RACE AT MASONVILLE. A bicycle road race took place at Masonville on Thursday evening, in which a number of city wheelmen contested. Mr. Angus Mann, proprietor of the Masonville Hotel, offered a prize of \$3.25 and \$3 for the winners of a race covering between six and seven miles, and there were eight starters. A large

number of citizens wheeled out to Masonville and witnessed the finish, which was quite close. The racers came in in the following order: Ed Parker, 1. Grieves, 2. E. Platt, 3. Wilson, 4. Frank Parker, 5. Morrison, 6. Montague, 7. and Berry, 8. The race was very heavy, and the time made, 19 minutes, is considered very fast for the conditions. Mr. J. Perkins, of this city, acted as timekeeper.

MANNER OF APPEAL

Proceedings of the International Typographical Union—Change of Rules.

Birmingham, Ala., Aug. 16.—At Wednesday's session of the annual convention of the International Typographical Union, consideration of the report of the laws committee was continued. An amendment offered by President Lynch relative to the manner of appeal from the decision of a subordinate union, was adopted. The appeal is first to be submitted to the president, except where allied crafts are organized as district trade unions. The aggrieved party can appeal from the president's decision to the executive council, and finally to the international body. It was decided to pay the president and secretary-treasurer \$1,500 each annually, with traveling expenses added. Delegate Cutting, of Boston, proposed a resolution prohibiting any member of the union from becoming a member of the National Guard or other military organizations. This gave rise to an animated debate. Finally the whole proposition was tabled. Cincinnati was unanimously chosen for the convention of 1902.

STRUCK BY CARS.

Chatham, Aug. 16.—John Graham was struck by a C. P. R. express four miles and a half west of here, and now lies in a precarious condition in St. Joseph's Hospital. The unfortunate man is section foreman at Kingsold, a small station on the C. P. R., about seven and a half miles west of here. The train hands knew nothing of the accident until they reached here, when they noticed pieces of flesh hanging to the pilot of the engine. The night watchman in the crossing tower found the wounded man lying in an almost unconscious condition beside the track. Both arms are badly crushed near the elbows, and his left leg is also injured. No reason can be given for the accident.

BEAN MARKETS.

[J. B. Stringer & Co.'s Report.]
Chatham, Ont., Aug. 15.—This year's bean crop will be the lightest in years. Drought and heat has ruined the once promising prospects. Cattle will be turned into fields and other plowed under. The news in the past week from our farmers is very discouraging. They report the vines almost barren of fruit, and attribute the cause of the flowers falling to set to prolonged heat and drought. The flowers (fallen prematurely) are to be seen in handfuls on the ground. This comparative failure of the crop will be a very serious loss to the country. High prices are predicted for what may be marketed next fall and winter.

Detroit, Aug. 15.—Beans are in demand and up 5c offerings are very small. Quotations: Oct. and Nov., \$10 bid; Dec., \$10.50.

BAYLEY'S KITCHENER WILL REMAIN!

Chamberlain Says the General Is Not Going to Leave South Africa—The Government Raked Over the Coals—Serious State of Affairs in Cape Town.

London, Aug. 15.—The waning session of the House of Commons was enlivened yesterday by a vigorous tilt between Sir William Vernon-Harcourt, Liberal, and Mr. Chamberlain, the colonial secretary, over Lord Kitchener's proclamation. Sir William characterized it as "a mischievous document, the inspiration of neither Lord Kitchener nor Lord Milner, but of the ministry of Natal." He declared the government in arming the natives was reverting to a practice which had left the darkest stain on the history of the war between England and America. The new policy of the government, he said, was neither credible nor effective, and was in contravention of all the fundamental principles of the St. Petersburg convention. The country would welcome an anti-adornment statement on the status of the war on which they are still spending £5,000,000 a month, although it was declared ended at the close of the last session.

Mr. Chamberlain declared that the use of native troops was no new policy. It had been pursued without adverse criticism. The Indian troops in China had been co-operating with the troops of five of the highest civilized powers.

Regarding the banishment of burghers, Mr. Chamberlain said Great Britain had a perfect right to enact laws she chose for the government of a country acquired by conquest. The Boers must be taught that they can no longer carry on a guerrilla war at no personal risk while Great Britain fed their women and children. He compared the conditions in South Africa and the Philippines, and said the policy of America, as declared by Gen. MacArthur's proclamation, would certainly be the policy of Great Britain.

THE I. O. O. F.
Further Proceedings of the Grand Lodge—Special Agent to Organize New Lodges Recommended.

Guelph, Aug. 15.—The Grand Lodge of the Independent Order of Oddfellows continued its session. The committee on the Rebekah Degree, presented by Representative Isaac Unsworth, of Florence, reported favorably on the request of the Rebekah Assembly that the grand representative to Sovereign Grand Lodge be instructed to ask from that body the privilege for the Rebekah lodges of this province to pay sick benefits. The report was adopted.

The committee on judiciary ruled that no brother who had not received and paid for the third degree is eligible for benefits of any kind. This was approved.

The grand master was recommended to employ a special agent in organizing new lodges where necessary.

Rep. W. J. Johnston, of Toronto, presented the report of the committee on districts. It concurred with the grand master's opinion that no brother be chosen for the office of district deputy who is not possessed of ability to enable him to discharge the duties and uphold the honor and dignity of a responsible position.

Orillia district asked that all past grand patriarchs in good standing be permitted to vote at district meetings when the number of the lodges in the district is less than four. This was not upheld by the committee's report, which was adopted.

Past grand sire, Dr. C. T. Campbell,

NO CUT IN IRISH VOTE IS FEARED

Redmond Says Ireland Is Guaranteed 100 Members.

Naval Bill Appropriating \$137,000,000 Gets a Second Reading—Westbound Atlantic Steamers Crowded.

London, Aug. 15.—In an interview, William Redmond, Irish Nationalist, said he was not disturbed at the threat of Colonial Secretary Chamberlain to have the Irish representation in the House of Commons cut down, as the act of union guarantees that Ireland should have 100 members. Mr. Redmond said further that it would be unjust to consider the population of Ireland now as a basis for representation, because on this basis, once within the last century, Ireland ought to have had 200 members. Mr. Redmond declared that any attempt to reduce the Irish representation would be resisted to the utmost.

OCEAN LINERS CROWDED.
It is stated that many Americans are unable to secure passage on homeward bound steamers and will be compelled to wait for several weeks before they can obtain transportation. \$137,000,000 FOR WARSHIPS.

An interesting feature of the coming German army maneuvers is the large number of motor cars that will be used. Fifty thousand dollars has been appropriated for an armored motor car that will carry two Maxim guns and will be bullet proof.

THE KING'S HEALTH.
A Homburg dispatch says: It is not that King Edward is showing signs of the recent strain to which he has been subjected, and he apparently needs care. He went riding in an automobile this afternoon and rode at a very fast pace. The detectives who were shadowing him were unable to get near him.

VANDALISM IN MALTA.
At Malta, the statue of Queen Victoria, commemorative of the jubilee, was covered with corrosive acid. Respectable inhabitants condemn the act. There has been trouble in Malta over the language question. The people desire to use Italian, while Colonial Secretary Chamberlain insists that English must be the official language. An account of this trouble the Maltese executive council refused to vote money for supplies, whereupon the British Government, through Mr. Chamberlain, ordered the governor-general of Malta, Sir Francis W. Grenfell, to levy the necessary taxation through an order in council.

THE LATE SIR WILLIAM LAIRD.
Sir William Laird, K.B., the ironmaster, whose death on Wednesday has been announced, was a member of the firm of W. Laird & Co. He entered the service of the firm many years ago, and was made a partner in 1873. He was chairman of the North British Railway Company, to which post he was elected in 1880. Early in life Sir William was trained to the legal profession, but abandoned that to enter the firm of Laird & Co. He took a keen interest in politics and was elected president of the National Union of Conservative Associations for Scotland in 1895.

ELEVEN YEARS' MARTYRDOM.
Health and Happiness Restored at Last by Dodd's Kidney Pills.

St. Patrick, Lotbiniere, Que., Aug. 12.—(Special)—The experience of Philippe Boissonneault, of this place, should be a lesson to all who suffer from Kidney Pills they have a sure and permanent relief.

"For eleven years," he writes, "I have suffered from headache, dizziness, and general debility. I have taken all sorts of remedies, nothing doing me any good."

"I read in Dodd's Almanac that Dodd's Kidney Pills would cure any fault in the kidneys and the rest of the body would then be healthy. I decided to send for six boxes of Dodd's Kidney Pills, though without confidence."

"But today I am completely cured. I feel better than I have for eleven years, and I thank Dodd's Kidney Pills for it."

TRAVELERS WILL HAVE GREAT DAY

Knights of the Grip Annual Picnic Tomorrow.

Everything in Readiness for the Big Fete at Springbank.

Toronto and Hamilton Guests Will Arrive at 11:30 A.M.—Elaborate Programme at the Park.

The Commercial Travelers' second annual picnic, under the auspices of the Canadian Order Knights of the Grip at Springbank tomorrow, promises to be the most elaborate affair of the kind ever held in London. It has come to be a trite saying that gripmen never do things by halves; but never before was the truth of the assertion so apparent. Not the smallest detail has been overlooked. The work of the committees has been prodigious, but nothing has been neglected; and tomorrow should witness the greatest gathering of traveling men from Toronto, Hamilton, London and other Western Ontario points in the history of grip organizations. Special excursion rates will be issued tomorrow at all points within a radius of 85 miles from London at single fare for the round trip, and good to return on any train on Monday.

THE PROGRAMME.

The programme for tomorrow's fete is an elaborate one. The visiting fete men will leave Toronto at 7:15 a.m., and, journeying by way of Hamilton, where they will pick up the Ambitious City contingent, will arrive in London at 11:30 a.m. The guests, who will bring with them a band from Toronto, will be met by a committee and tendered a reception and dinner at noon. At 1 o'clock the visitors and the local gripmen will assemble at the headquarters, Duffield block, corner of Dundas and Clarence streets, where a procession will be formed, headed by the visitors' band and the band of the 7th Regiment. The visitors will then be taken to Springbank Park, where the real festivities are to take place.

AT SPRINGBANK PARK.

The programme at Springbank Park will begin with a baseball match between the traveling men of London and the traveling men of the world, in which will be made to feel as it had collided with a comet.

The most spectacular feature of the sports, however, will be the game of rounders between teams representing the London and Toronto travelers. The Cockneys will be garbed in grotesque uniforms specially designed for the occasion, and the good old English game will be played as it was never played before.

The programme of sports proper, with the prizes for each event, is as follows:

1.30 p.m.—Baseball game, Toronto Travelers vs. London Travelers. Rounders, London Travelers Men vs. Traveling Men of the World.

No. 2, 2:30 p.m.—100 yards, travelers only. First prize, gold-mounted silk umbrella; second, set carvers.

No. 3, 2:40 p.m.—75 yards, gold-mounted silk umbrella; second, pipe and case.

No. 4, 3 p.m.—25 yards, wheelbarrow; second, lunch pail.

No. 5, 3:10 p.m.—100 yards, travelers and employees. First prize, cigar case; second, knife in case.
