BOER GENERALS TALK TO JOSEPH

Botha Presents Their Case to Mr. Chamberlain.

PROPOSALS FOR BETTER TERMS

British Traders Are Too Slow, Losing Bulk of the Trade With South Africa.

London, Nov. 12.—At the conference at the Colonial Office yesterday between Mr. Chamberlain and Generals Botha and Delarey, General Botha presented Mr. Chamberlain with a written statement of the general's case for the betterment of the Boers under the peace settlement, and explained verbally their proposals. He expressed the hope that Mr. Chamberlain, in the course of his visit to South Africa,

THE NORTH GREY ELECTION TRIAL

An Unintentional and Technical Violation of Act.

TRIAL LASTED VERY BRIEF TIME

Voters Were Carried in a Hired Livery Rig the Day Before the Election.

As briefly mentioned yesterday the North Grey election trial, held here, at Owen Sound, before Mr. Justice Macdennan and Mr. Justice Macdennan, was short, lasting less than half an hour, and resulted in the election of Mr. A. G. Mackay (Liberal) being declared void on a technicality. When the court opened Mr. Walter Cassels, K.C., who, with Mr. W. D. McPherson, appeared for the appellant, Mr. Boyd, announced that they wished to proceed with charge 140 and the first witness called was Mr. W. J. Robinson.

WILL RUSH EDUCATION BILL.
Premier Balfour's motion to apply automatic closure by compartments to the Government Educational Bill, was agreed to in the House of Commons by 22 votes to 103. Following this method the bill must be passed by Nov. 23.

A vigorous amendment to the motion, made by Sir Henry Campbell-Bannerman, the Liberal leader, which drew fighting speeches from Colonial Secretary Chamberlain, Mr. Balfour, Mr. Asquith and many others, was defeated by 234 to 112.

BRITISH TOO SLOW.

The report of the commissioners sent to South Africa by the South African Trade Committee to investigate trade conditions confirms the previous statements of the progress of American and German exports at the expense of the British. The latter yet hold the bulk of the trade, but the enormous enterprise and energy of their rivals are enabling them to make rapid headway. The report, speaking generally, is a new sermon on the old text of the dilatoriness and conservatism of British manufacturers and exporters, whose goods, nevertheless, are often preferred, owing to their excellence of construction. The variety, cheapness and lightness of the American and German machinery are among the principal causes of its success. The engines, however, sometimes err in over-lightness, resulting in collapse. The extent of the field for enterprise in one direction only can be gathered from the commission's prediction that the Rand alone will consume in the

summer, and the damage has been increased by great floods swamping the fields before the harvest was in.

Thousands of families are suffering from starvation and attendant disease. In one village in the Province of Ulster, 200 persons are in a state of destitution, and 300 are living from hand to mouth. In many places the peasants have been forced to sell everything they possessed to obtain food, and are eating bread made of trees.

AROUSES INDIGNATION.

The Victorian ministry is deliberating a bill depriving public servants of votes in ordinary constituencies, but allowing them to elect two special representatives in the Legislative Assembly and one in the council. This measure is proposed in order to minimize the political influence of public servants. Disclosure of government's intention has aroused intense indignation among public servants.

RADICAL REMEDIES NEEDED.

A Rome correspondent says Baron Sonnino, the well-known economist and leader of the constitutional opposition in the Italian Parliament, in an address on the miserable condition in Southern Italy, proposed drastic and radical remedies. The baron described the reduction of the peasantry by emigration, saying that more than 100,000 persons had left Naples this year. He told of the ravages caused by deforestation, and spoke of excessive taxation and usury which peasants suffer in addition to losses caused by the outbreak of phylloxera. The speaker deprecated reliance on public relief works. He proposed a reduction of the land tax and of interest on southern land mortgages, the introduction of perpetual leaseholds of small holdings at low rent in order to break up huge uncultivated estates, and a reform of agricultural labor contracts in favor of peasants.

He deposed that he had been active in the election for Mr. Mackay, that in May 28, the day before the election, he had brought several voters from Meaford to Owen Sound in a hired livery rig, that it was contrary to the law, that it did not know at the time, he said, that it was contrary to the law.

Mr. W. J. Hatton, who was Mr. Mackay's financial agent, was then called and stated that he had paid the bill of the Meaford liveryman without knowing that the conveyance had been hired for the purpose of carrying voters. He had no knowledge, he asserted, of any other wrongful act in connection with the election.

Mr. Mackay, the successful candidate, was the only other witness. He said that in going over the accounts he had passed the one in question, supposing the rig to have been used, as it was not on election day, for legitimate election work by the Meaford Association. He explained that Meaford had an organization of its own, and that it was only three weeks ago he had become aware of the irregularity in this instance. Asked if there had been any such carriage with this charge in connection with this protest, he had found no trace of wrongdoing.

Mr. Geo. H. Watson, K.C., who appeared for Mr. Mackay, then addressed the court, and said there had been no doubt an unintentional but technical violation of the act. It had been stated in the beginning that Mr. Mackay's majority was five, and as there were five or six of these improperly carried voters, the effect was necessarily to void the election.

Mr. Cassels said that in face of the small majority it would be hopeless to attempt to uphold the election, and he deemed it in the interest of both parties that the election be declared void without the expense of a long trial.

Mr. Watson said he was confident the other charges would be dismissed if the trial went on.

Mr. Justice Macdennan said that under the circumstances the court thought the election could not be sustained, and therefore declared it void, without costs, and dismissed the other charges. The cross-petition was also dismissed.

Considerable attention was directed to North Grey shortly after the election by the accidental discovery during the re-count of four Boyd ballots from polling subdivision No. 9, St. Vincent, that bore other very light marks on the face of them. Mr. Boyd and his assistants raised a great outcry, but not the slightest proof of corrupt intention on the part of anyone was proved.

THE JOHN EATON ESTATE

End of the Litigation Begun in 1895
Seems in Sight.

Toronto, Nov. 12.—There appears in sight now an ending to the litigation over the John Eaton Company, which began here in 1895 when the company failed for \$340,000, and also was forced to sue the insurance companies, after a fire, the latter resisting the claims, and pleading that the proprietors started the fire.

The Bank of Toronto carried on the litigation on behalf of the liquidator, agreeing to pay the estate 70 per cent of what might be recovered. The bank got judgment for \$299,500. The liquidator issued a writ last January for 10 per cent of this amount, claiming that he had never received an itemized statement.

The bank claims, however, to have paid \$4,554 in law costs, of which \$42,000 went to Beatty, Blackstock & Co., and \$9,750 to Hon. S. H. Blake & Co., leaving a balance of about \$154,000 on which the percentage was due—about \$15,400. Of this the bank claims to have already advanced \$9,000, and that a balance was due of \$5,400. Rather than go to trial to investigate the legal expenditure of the \$15,400, the bank has agreed to pay the estate \$3,000 in settlement of the action.

Canadian Wireless Telegraph Co.

Montreal, Quebec, Nov. 12.—Montreal capitalists are stated to be interested in a million-dollar company, for which M. Marconi is seeking incorporation in Ontario to operate his wireless telegraph system. New York and London men are also in the scheme.

Halifax, N. S., Nov. 11.—Marconi will commence his short-distance tests tomorrow. The warship Carlo Alberto will be stationed off the coast, and an attempt made to communicate with the Table Head station.

TORE OPEN THE WOUNDS

Chicago Suicide Would Not Let Doctor Save His Life.

Chicago, Nov. 12.—Tearing open the wounds which he had inflicted a few hours before with suicidal intent, Detective Edward Niland of the South Englewood police station, died Monday night at the Englewood Union Hospital.

In the morning Niland, in the presence of his sister, cut his throat, and when taken to the hospital, declared he would not leave that institution alive. He fought with those at his bedside for nearly an hour, and resisted the efforts of two policemen and two physicians to keep him quiet.

Finally his right hand was freed, and in another instant the wound in his neck was opened. Every effort was made to save his life, but without success.

Niland had been despondent for several weeks, provoked, it is said, by sickness and repeated transfers in the police department. He was a widower, 32 years old, and had been on the force for 10 years.

J. J. YOKOM TALKS

Welland Merchant Tells How Dodd's Kidney Pills Brought Back Splendid Health.

Welland, Ont., Nov. 10.—(Special).—Mr. J. J. Yokom, the well-known grocer and provision merchant of this place, has come out with a statement that is of peculiar interest to all those suffering from Kidney Disease in any form.

"I had been suffering from Kidney Complaint for a year or more," Mr. Yokom states, "and I was very depressed feeling in my head, little or no appetite, a constant feeling of languor and I lost a lot of weight. I spent money on medicines and doctors to no benefit, and I was greatly discouraged.

"One lucky day, I heard of Dodd's Kidney Pills and started to use them. They did me good almost from the first and five boxes completely cured me. I am now in splendid health."

William E. McHenry, one of the oldest members of the Chicago Board of Trade, was expelled by the directors today on the charge of dishonesty and uncommercial conduct preferred by John Hill, jun.

If you take a Laxa-Liver Pill at night, it will work while you sleep without a gripe or pain, curing biliousness, constipation, dyspepsia and sick headache.

Steamer Burned.

Detour, Mich., Nov. 11.—While the steamer R. A. Packer, of Chicago, was bound down Lake Huron with iron ore yesterday, it took fire. The crew, driven to the yawl boats, is supposed to have effected a landing at some other point along the shore. The burned steamer was towed to this port.

IMPORTANT CONCESSION

Made to United States in the Treaty With Newfoundland.

Washington, Nov. 12.—An important feature of the reciprocity treaty negotiated with Newfoundland is a safeguard against the differential, in favor of all goods entering Newfoundland from England or any of the British colonies. This differential in the case of the Dominion amounts to 25 per cent, which is a very heavy handicap upon imports from the United States. It is true that the differential has not yet been imposed by Newfoundland upon United States goods, but it is feared that it was the purpose to do so, and that the result would be the loss of most of the trade with Newfoundland is not doubted here.

As it is the treaty provides against the imposition of the differential duties. This in the case of four amounts to a margin large enough to warrant the expectation that the United States will continue to command the trade in that line.

The attitude of the New England senators to the new treaty is problematical, they have committed themselves to a treaty in theory, but it is not yet known whether they will accept the details of the new arrangement.

Chamber of Commerce Dedicated.

New York, Nov. 12.—With the President and ex-President of the United States as its guests of honor, and with representatives of foreign governments and other distinguished persons present, the New York Chamber of Commerce formally dedicated its building in this city yesterday. The new building, a handsome structure of white marble, is situated in Liberty street, between Nassau street, and Broadway.

SWALLOWED A WATCH

Actress Lillian Berri Has Queer Accident in Iowa.

Quincy, Ill., Nov. 12.—Maude Lillian Berri, the prima donna of the Sultan of Sulu Company, has been under the care of a physician since Saturday morning, when she arrived here.

While asleep in Keokuk, Ia., Friday afternoon she swallowed a Swiss watch about the size of a silver dime, and did not know it. After the Keokuk performance a search was made for the missing timepiece, but it could not be found.

Saturday evening Miss Berri could scarcely get through with her performance owing to an excruciating pain. Dr. Henry Hatch, one of the leading physicians of the city, was sent for yesterday, and he prescribed for her, but during the afternoon the pains increased and he was summoned again. He induced her to submit to an X-ray examination and the missing watch was found in her intestines.

It will be several days before Miss Berri will be able to play.

EAST RIVER BRIDGE FIRE

All the Missing Men Are Accounted For—Loss, \$75,000.

New York, Nov. 11.—All of the men who it was feared perished in the fire which swept over the great tower of the new East River bridge last night have been accounted for. The contractors place the loss at not more than \$75,000.

This estimate was made this afternoon by the contractors, who also say that the delay in completing the structure will not exceed two months. None of the great cables was harmed. The fire was caused by the carelessness of a workman. It was about grinding time when the fire started. The men grind their tools in the New York tower, and one of the men there carelessly threw a lighted match into some oily rags.

Aches and Pains.

You know by experience that the aches and pains of rheumatism are not permanently relieved only temporarily, relieved by external remedies.

Then why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood, on which rheumatism depends, and cures the disease? This medicine has done more for the rheumatic than any other medicine in the world.

Fish Inspector Suspended.

Toronto, Nov. 12.—J. B. Cousineau, Ontario Government fishery inspector, at Windsor, has been suspended for failure to enforce the law in his district.

HIS WIDOW GETS \$300,000

An Old Campaigner of 70 Years
Marries Woman of 24.

Was Deserted by His Wife, Won Her Back and Died in a Year.

Kalamazoo, Mich., Nov. 12.—The death of Miles Beebe, a former Kalamazoo man, at Paw Paw, Saturday night, is the denouement of a romance which began about a year ago.

Mr. Beebe was a wealthy farmer, living two miles east of Paw Paw. He was 70 years of age, a widower, and anxious to spend his last years in domestic happiness. Last year he wrote to a matrimonial paper for a wife, which ended in his meeting the train from the south one evening and escorting Miss Mae Burns, an Indiana young woman, to his home on the farm. Mae was quite a pretty girl, of some 24 summers, a brunette with shrewd black eyes. The bride-elect liked the farm and the evidences of the old man's money, and was well pleased when the minister pronounced them married. To all appearances they seemed happy and contented until this summer.

The aged husband, coming in from the field one day, found that his wife had left the country, taking along some \$7,000 of his money. Later in Chicago she attempted to cash checks on his account in Paw Paw and Kalamazoo banks. The veteran husband tried to win back his wife and money, but for a time she refused to do so. Two weeks ago he again went to her Indiana home, however, and persuaded her to return. Peace was evidently restored to the household, and the young wife will receive all his property, amounting to perhaps \$300,000, by will, despite the threats of the daughters to begin legal proceedings.

Last summer, it is said, Mr. Beebe's former housekeeper drove out to the farm to remove some of her belongings, but was forced to leave immediately at the muzzle of a gun in the hands of the young wife, now widow, who was very jealous of her husband.

KILLED HIS PHYSICIAN

Horrible Murder and Suicide by an Ex-Policeman.

Assassin Charged the Oculist With Having Destroyed His Eyes.

Kansas City, Nov. 12.—Dr. W. H. Kimberlin, a pioneer citizen and a prominent oculist, was shot and killed in his office in this city yesterday by John Scanlon, formerly a policeman, who then shot and killed himself. The bodies of both men were found in the doctor's office. Dr. Kimberlin was shot three times.

Scanlon is a brother of a prominent politician. He left a note in which he had written: "Notify my brother at this hall. I did this because he destroyed my eyes." Scanlon had been receiving treatment from Dr. Kimberlin for about two weeks. He entered the physician's office unseen, and it is not known how long he had been there.

Another patient who was waiting in an outside office, said: "I heard Scanlon go into the doctor's private office. I heard him and the doctor talking. There was no quarrel or loud words, however, until Dr. Kimberlin cried out, 'Oh, don't John!' The shots followed immediately. A bullet came through the wall and passed over the chair from which I jumped when the shooting began." The first person to enter the room was Dr. Kimberlin's son, also a physician, who is proprietor of a drug store on the ground floor of the building. Both men lay on the floor covered with blood and dead. Scanlon had shot himself through the temple.

MURDERED ON HER WAY HOME.

Albany, N. Y., Nov. 12.—Anna Mitchell, 17, employed by Capt. Adrian W. Mather, at Loudonville, three miles from this city, was murdered Sunday night when she left to visit her parents, whose home is about a mile from the farm where she was employed. Her body was found in a field in the rear of Capt. Mather's home with the head crushed in. She had been criminally assaulted before the murder. Fred Knapp, a farm hand, is under arrest.

TONS ON TONS OF WHEAT

Nearly 17,000,000 Bushels Already Marketed by the C. P. R.

Montreal, Nov. 12.—Up to Nov. 8 the C. P. R. had marketed 16,825,000 bushels of grain this season compared with 11,325,000 bushels for the same period last year. The number of cars handled was 10,734, compared with 9,377 last year, but the cars this year have a greater capacity than a year ago by 100 bushels each.

MICHIGAN'S CROP.

Lansing, Mich., Nov. 12.—The crop report issued today by the Secretary of State shows that the condition of wheat as compared with the average is 73 per cent in the southern counties, 86 in the central, 94 in the northern and 83 in the state. The estimated yield of corn for the year is 25 bushels. The potato crop for the year is below the average. The estimated yield of bushels per acre for the state is 68.

New Militia Order.

Ottawa, Nov. 12.—In a militia order it is notified for the information of all concerned that the supply of gallery ammunition will not admit of the issue on repayment of more than 5,000 rounds per annum to any association or unit of the active militia. District officers commanding will be good enough to recommend the issue of larger quantities. It is notified that charges for freight from the arsenal to destination must be paid for by the consignee. District officers commanding will be good enough, when sending recruits to units of the permanent corps, to notify the officer commanding the unit of the number and the train by which they will arrive at their destination.

Ontario Oil Industry.

Chatham, Ont., Nov. 11.—The developments in the oil situation in Raleigh are lively and exciting interest in the city and county. The well, being on what oil men call a "good" site, an abrupt elevation in the geological formation, it is regarded as promising a supply of the territory. No oil elsewhere in the territory. No oil elsewhere in the territory. No oil elsewhere in the territory.

Petroleum, Ont., Nov. 11.—The latest in the oil speculation market is that new stock operations are being rapidly formed. The promoters secure a few hundred acres of land, with a few oil wells attached, then they form a company, advertise for stock, and put the stock on the market. All investors in stock do well to give a careful consideration to these affairs before one dollar's worth of stock is invested.

Bank Robbery at Niagara.

Niagara-on-the-Lake, Nov. 12.—The private bank of R. E. Denison, located in the town hall, was entered by burglars Monday night. The vault was blown open, and the contents, which Mr. Denison claims did not amount to a large sum, were taken. The door of the vault was a new one, having been put on about three weeks ago, and was said to be both burglar and fire-proof. The job was no doubt done by professional safe-blowers. The lively stable of Simpson & Greene was also entered, and a number of robes and blankets were stolen, supposedly by the same gang. No clue to the robbers has been found as yet. The postoffice is in the same building as the bank, and adjoining it, but was not disturbed.

Sarnia Thieves Convicted.

Sarnia, Ont., Nov. 11.—Edward Oliver, arrested in Hamilton a few weeks ago on a charge of stealing a horse and buggy from Charles McFee, liverrman, of this town, was convicted today before Judge MacWatt. Sentence was reserved.

Wm. Calvert pleaded guilty to the theft of \$75 from Mr. Robinson, of Enniskillen Township, and was allowed to go on suspended sentence. Calvert was arrested in Hamilton a short time ago, where he was being held for extradition proceedings. Calvert, on being released, was again arrested on a charge of theft alleged to have been committed in Port Huron, Mich., and remanded to await extradition proceedings.

WINTER HAS COME!

Winnipeg Reports Navigation Closed—Prospect of Heavy Snow.

Winnipeg, Man., Nov. 11.—Lake Winnipeg navigation has closed and the fishing fleet is tied up. The weather this morning is much milder and looks like heavy snow.

Port Arthur, Ont., Nov. 11.—A heavy snow storm is prevailing on Lake Superior today. The steamer Oriskany from Cleveland, with coal, came into port this morning, having experienced bad weather all the way up. From White Fish Point she kept to the north shore. When near Silver Islet, Capt. Answorth discovered a vessel which had evidently stranded on the rocks. The water was rolling over it. Owing to the heavy sea, it was impossible to get near the steamer.

Resignation of Mr. Hoskins, K. C.

Toronto, Nov. 12.—John Hoskins, K. C., of the legal firm of McCarthy, Osler & Harcourt, has resigned his position as official guardian, an office he has held since 1874, and which he was created from 1881 to 1876, during which time Sir Henry Strong and the late Mr. Justice Gwynne performed the duties as official guardian. Mr. Hoskins will be official guardian. Mr. Harcourt has been Mr. Hoskins' assistant for more than twenty years, and is thoroughly conversant with its many details. He is a brother of the Minister of Education.

Improving Soo Canal.

Sault Ste. Marie, Mich., Nov. 12.—General Superintendent Ripley, of the ship canal, has received a telegram stating that the Secretary of War has approved the project of the Hay Lake and West Neeshish Channels, and the deepening of the Middle Neeshish. The work of construction of the West Neeshish Channel and deepening the Middle Neeshish will take four years to complete, at a cost of four million dollars. The West Neeshish Channel will be 300 feet in width, and is designed to be used exclusively for down bound boats, thus lessening the danger of a blockade at the encampment. In case of an obstruction to either channel, however, the other could be used for both up and down bound craft.

First Ontario Beet Sugar.

Toronto, Nov. 12.—Premier Ross said yesterday that he had received the first barrel of sugar manufactured from Ontario beets, and it was as "sweet as a majority of ten would be." The beet sugar is from a Berlin factory, and the Premier speaks very highly of its appearance and quality. It is impossible to tell it from the high-grade granulated sugar. Sugar from beets has been made before in Quebec, but this is the first made in Ontario of this quality.

We're Known as the Linen House of the West.

We have won this splendid position by honest endeavor, by the unrelenting and watchful care we give to the importation of Linens of quality, and by placing unequalled values within reach of the public at prices exceptionally low. We do considerable advertising, but none is more productive of lasting good than the worthy linens we sell—each piece going forth as a messenger to advertise this store and back up our paper statements. Thus it is that people from all over the country flock or send to us for Linens, realizing that none but worthy goods ever enter our stocks.

Awakened Just in Time.

Ottawa, Nov. 11.—Fire this morning completely destroyed the house of P. H. Carleton County, situated about two miles from the city. The fire originated from the furnace and the inmates were awakened just in time to save their lives. The family plate and valuables were destroyed, the total loss being about \$15,000.

EXPRESS MESSENGER

Had a Most Peculiar Complaint—His Physicians Wanted to Operate on Him for Tumor—The Pains in His Stomach at Times Were Almost Unbearable.

He Found Relief in Nature's Own Remedy—Celery King.

Peculiar diseases are sometimes acted on through the stomach. A healthy stomach will do more towards curing troubles seemingly remote than local treatment. Get at the root of the disease. Aliments which have anything of mystery as to their origin can be removed quickly by taking Celery King. The following letter speaks for itself.

"For ten years I have been troubled with my stomach. I had pains that I could not describe which could only be relieved by the application of hot water bandages, and as these pains captured me at times when it was impossible for me to procure hot water, I thought I would try Nature's Own Remedy, but I was afraid to undergo anything so severe. I was at that time a messenger for the Canadian Express Company, on a long run, and then continued riding making the pain worse, caused me to give up my position. Sometime later I saw Celery King advertised in the Mail and Empire and seeing a case there something similar to my own, determined to start taking it. The result was marvelous, and it was not long before the pains stopped completely, and I now can say that I am practically a cured man. Yours very truly,

"E. M. WINSTER,

"St. Marys street, Winnipeg, Man."

SLEEPLESSNESS—When the nerves are unstrung and the whole body given over to wakefulness, when the mind is filled with gloom and dismal forebodings, the result of derangement of the system, sleeplessness comes to add to the distress. If only the subject could sleep, there would be oblivion for a while and temporary relief. Farmelee's Vegetable Pills will not only induce sleep, but will act so beneficially that the subject will wake refreshed and restored to happiness.

DARING BALLOON TRIP

London Aeronaut Attempts to Cross English Channel.

London, Nov. 11. — Rev. J. M. Bacon, the aeronaut, accompanied by official representatives of the naval and military authorities, ascended in a balloon from Douglas, Isle of Man, yesterday, with the object of crossing the channel. The balloon is fitted with a sail and a trail-rope, for purposes of steering. The gunboat Renard is following so as to be of assistance in case of mishap. The balloon started in a northeasterly direction.

WAGES ARE HIGH

in Northern Ontario and the Demand for Labor is Great.

Toronto, Nov. 12.—Robert McCallum, provincial engineer, who has just returned from Northern Ontario, says that men are being paid \$25 a day, with jobs begging workmen. He says, "Shantymen, he says, are getting \$40 a month as a maximum, and ordinary rates run around \$30. Time was recently when \$25 was a big wage for a shantymen, and lots of them got only \$16. At Fort William laborers on elevators are getting 22 cents an hour and carpenters \$3 a day, with jobs begging workmen. Mr. McCallum inspected works on Manitoulin and in the Mississauga River. At the Soo he inspected the system of sewage which is being installed in the provincial buildings. The street railway is ready to begin operations. He reports, in brief, that the town now excels its American competitor in many respects. The streets are paved and a complete new sewerage system installed.

CANCERS AND TUMORS

Permanently Cured by the New Constitutional Medication.

The new system of treating cancers, tumors, lupus, and all malignant growths, has done away with the need of the Surgeon's Knife and the painful plaster. Besides this, it is effectual, when these and all other forms of treatment fail.

It is a simple vegetable compound, which, when taken into the system, neutralizes and destroys the cancer germs and poisons and expels them from the system.

Complete details of this pleasant home method of treating malignant growths will be sent to anyone on receipt of two stamps. Address: A. STOTT & JURY, BOWMANVILLE, ONT.

During the hot summer season the blood gets overheated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system and restores lost appetite.

BOSTON MURDER INQUIRY

Alan G. Mason, the Boston Clubman, Released.

The Negro, G. L. O. Perry, Held for the Crime.

Cambridge, Mass., Nov. 11.—The discharge of Alan G. Mason, the Boston clubman, accused of the murder of Clara A. Morton, at Waverley, a week ago last Saturday night, was ordered by Judge Charles Almy.

The Government lawyer announced that investigation did not disclose evidence sufficient to hold the accused man, and the court at once ordered the discharge of Mason.

Almost immediately after, in the same court, George L. O. Perry, the young negro who was charged with the murder of Miss Morton, was pleaded not guilty, and was remanded without bail for a hearing Nov. 18.

After his release, Mason held an informal reception, and was then driven to his home in Boston.

Before Perry was taken back to jail a number of persons were permitted to have a look at him. One of the witnesses in the Mason case, Miss Albertine Whiting, who had been at a Waverley restaurant, identified him as the negro woman who saw in Waverley on the night of the assault upon Miss Morton.

At Perry's hearing, the judge, at Perry's request, ordered that he be held in lieu of \$10,000.

He was then taken to the state police last night.

"Mason is not right mentally is easy to prove by the best alienists in New England," an attorney stated. "Mason will never again be long at large, but that his friends will see that he is forcibly restrained."

Sudden Death of Two Brothers.

Golden, B. C., Nov. 12.—Pat J. J. Golden, a well-known resident, was found dead about ten days ago his younger brother, Charles, dropped dead on the street.

A Winnipeg dispatch says: Chas. D. Bruce, while on a hunting and trapping expedition in the Rainy River district, was accidentally drowned in Shoos Lake.

MASCAGNI RETALIATES

Composer Has Sued Mittenhal Bros. for \$50,000 Damages.

Boston, Nov. 12.—Pietro Mascagni, the composer-conductor, who was arrested Saturday night on a meagre process issued by the Mittenhal Bros. for alleged damages for alleged false arrest.

The court ordered the composer's discharge, and he is accordingly free to leave the state. His bondsmen also are relieved from liability. The only thing that remains to be decided is the return here is the \$4,000 given as surety to answer to suit of Mittenhal Bros. his late managers, in their action for breach of contract.

New York, Nov. 12.—Commissioner of Immigration Williams received from the treasury department at Washington a decision in the case of the Mascagni orchestra musicians. The department decides that the musicians were admissible to the United States, and being here lawfully, were not subject to arrest and deportation. The decision is based on that clause of the immigration laws which exempts "professional actors, musicians, lecturers and singers" from the exclusion clause. Musicians of this city sought the deportation of the Mascagni players under the alien contract labor law.

Arrested in Stratford.

Stratford, Nov. 12.—The Stratford police have arrested a man who gave his name as Edward Walker, said to come from Cleveland, 22 years old. The arrest was made on the information of the police of Galt and several other places, where bogus checks have been passed on merchants. He has been lodged in jail.

AN EASY WAY To Keep Well.

It is easy to keep well if we would only observe each day a few simple rules of health.

The all important thing is to keep the stomach right and to do this it is not necessary to diet or to follow a set rule or bill of fare. Such pampering simply leads to indigestion, flatulence and a feeling that capricious appetite articles of food must be avoided.

Prof. Welchold gives pretty good advice on this subject, he says: "I am 68 years old and have never had a serious illness, and at the same time my life has been largely an indoor one, but I early discovered that the way to keep healthy was to keep a healthy stomach, not by eating bran crackers or dieting of any sort; on the contrary I always eat what my appetite craves, but daily for the past eight years I have made it a practice to take one or two of Stuart's Dyspepsia Tablets after each meal and I attribute my robust health for a man of my age to the regular daily use of Stuart's Tablets."

A physician first advised me to use them because he said they were perfectly harmless and were not a secret medicine, but contained only the natural digestives, pepsines and diastases, and the fact that I felt better weeks I have never ceased to thank him for his advice.

I honestly believe the habit of taking Stuart's Dyspepsia Tablets after meals is the real health habit, because their use brings health to the sick and ailing and preserves health to the well and active.

Men and women past 50 years of age need a safe digestive after meals to insure a perfect digestion and to ward off disease, and the safest best known and most widely used is Stuart's Dyspepsia Tablets.

They are found in every well regulated household from Maine to California and in Great Britain and Australia are rapidly pushing their way into popular favor.

All druggists sell Stuart's Dyspepsia Tablets, full sized packages at 50 cents, and for a weak stomach a 50 cent package will often do \$50 worth of good.

LABOR UNIONS SCORED

President Elliot, of Harvard, Says the "Scab" is a Hero.

Boston, Mass., Nov. 11.—It was to the great surprise of the members of the Economic Club of Boston at their banquet last night that President Elliot, of Harvard, denounced the labor unions of the country as opposed to the education of young men, and what he termed their fight against the development of manly instincts.

In closing he characterized the strike breaker, or "scab," as he called him, as "a good typical American hero."

The speakers included John A. Hobson, the English political economist; Frank K. Porter, of the American Federation of Labor; and Prof. Frank Parsons, president of the National Public Ownership League. The principal objection to the labor unions from the educators' point of view, he said, was their objection to young men becoming competent mechanics. That they do prevent this is evident from the fact that all unions attempt to limit the number of apprentices employed in any industry. The right to labor is considered the most sacred right of the American citizen.

President Elliot's objection to the American labor union was, he said, that the prime object of the labor union seemed to be to work as few hours as possible, produce as little as possible during that time, and to receive as much money as possible for the service given.

The last chapter of the Doukhobors' pilgrimage began when the Government officials started the Swan River contingent on their way home. Early this morning Mr. Pedley, Mr. Speers, an interpreter, went through the cars and told them that they would be taken out. Wagons were provided for them, and they were told that if they wished to avail themselves of the chance they might ride, but if not they would be compelled to walk.

About 8:30 a.m. a number of North-west Mounted Police were lined up in front of the cars, and the people were given the choice of coming willingly. Mr. Speers started off with one of the leaders, and the others reluctantly followed. Everything went fairly well for about a quarter of a mile, when they halted, and were found necessary to load several of the leaders, very much against their will, into wagons, where they were kept. Again the procession started, this time slowly, as though they were anxious to turn back.

Later reports say the men are getting along easily toward their villages.

THE EXPENSE INCURRED.

Ontario, Nov. 13.—The expense incurred by the Government in providing for the Doukhobors who started out on a pilgrimage, but returned to Yorkton, was, according to Mr. J. A. Smart, deputy minister of the interior, borne by the Doukhobors themselves.

NOT ALL TO BLAME.

"It is utterly absurd," said Mr. Smart, "to condemn the whole Doukhobor population of the west for the attitude of even those who were led into the pilgrimages, as they do not form one-fifth of the Doukhobors who have settled in the Northwest Territories. From the reports in the department, as well as from personal observation, I am of opinion that these people have prospered beyond their own expectations or the expectations of others."

A TEACHER'S HEROISM

She Stopped Runaway, Saved Two Young Women, and Won't Talk.

Hammond, N. J., Nov. 12.—Miss Naomi Caldwell, a teacher in the public schools of Woodbury, and who is visiting friends here, with rare presence of mind and at the risk of injury or loss of her own life, stopped a runaway horse drawing a carriage, in which were seated Miss Annie Lyngner and Miss Anna Condy yesterday.

The young women were out carriage riding when their horse took fright at the noise of escaping steam and started off at a gallop. Miss Caldwell saw the team coming and tried to stop the horse by standing in the road and waving her arms.

Of course she failed, but she promptly grabbed its bridle and held fast while the animal dragged her across the road, over a ditch and into the woods, where it stopped.

In crossing the ditch the carriage was upset, and the young women were thrown out, but they were more frightened than injured. Miss Caldwell's arms are badly scratched and her clothing was torn, but she didn't mind that. She is a tall, athletic young woman, and refused to talk on the subject.

Death of Former G. T. R. Conductor.

Windsor, Nov. 12.—Wm. Hafford, aged 75, a former G. T. R. conductor, is dead here. Mr. Hafford owned considerable real estate in Windsor and an orange plantation in Florida.

DEADLY FUN

Participant in a Charivari Shot in the Leg—Charge of "Intent to Kill."

Barrie, Nov. 12.—Mr. and Mrs. Eber Graham, a bride and groom, of Guilford, were charivari shot by a crowd of young men, and the consequences were such that the date will prove to be a memorable one for many of those who participated.

The bride and groom, who were horse fiddles, with musical instruments, played such an important part in the charivari that the din was heard for many miles around, and attracted many of the neighbors to the scene. Among the latter was Mr. John Harper, of Stratford, who was arrested at a point on the road opposite Graham's house, he was shot down by George Hattenly, one of the wedding guests, who was trying to disperse the crowd, which had gathered about the premises. The charge took effect in Harper's legs, and as blood poisoning is feared has been refused for Mattenly, who was arrested by High Constable Beardsley, and lodged in the Simcoe County jail at Barrie. The charge laid against him is "shooting with intent to murder."

The prisoner has acknowledged firing the shot which did the damage, but claims that he did not see the victim, and only fired the gun to disperse the crowd. Fifteen of the young men who participated in the charivari were brought before Magistrate Taylor, but the charge against them was withdrawn on payment of the costs, amounting to about \$100. Mattenly has been remanded to the 17th, until the case of the injured man has an opportunity of developing.

Cock-Fighting in Cuba.

Havana, Cuba, Nov. 12.—A public demonstration was held here on Monday in the heart of legal cock-fighting in Cuba and rescinding the military order prohibiting it. There were five bands of music in the procession and 500 countrymen on foot and on horseback turned out for the occasion. The demonstrators were refused an audience by President Palma, but presented their petition to the Senate.

DOUKHOBOR EXODUS ENDS

The Erratic Pilgrims Return to Their Village.

Made Some Show of Resistance, But Now Going Along Quietly.

Yorkton, Nov. 10.—The train containing the returned Doukhobors arrived here at noon yesterday. The men from the Yorkton villages were immediately unloaded and placed in the aerometer and stables, where they were made comfortable. On the train were Mr. Frank Pedley, superintendent of immigration, and Mr. W. Speers, traveling immigration agent, besides a detachment of over twenty of the Northwest Mounted Police. The men presented themselves in a very unimpressive manner since they left home. They are in better condition, generally speaking, besides being better and more warmly clothed. Carson's hall has been turned into a barracks room for the detachment of mounted police.

The last chapter of the Doukhobors' pilgrimage began when the Government officials started the Swan River contingent on their way home. Early this morning Mr. Pedley, Mr. Speers, an interpreter, went through the cars and told them that they would be taken out. Wagons were provided for them, and they were told that if they wished to avail themselves of the chance they might ride, but if not they would be compelled to walk.

About 8:30 a.m. a number of North-west Mounted Police were lined up in front of the cars, and the people were given the choice of coming willingly. Mr. Speers started off with one of the leaders, and the others reluctantly followed. Everything went fairly well for about a quarter of a mile, when they halted, and were found necessary to load several of the leaders, very much against their will, into wagons, where they were kept. Again the procession started, this time slowly, as though they were anxious to turn back.

Later reports say the men are getting along easily toward their villages.

THE EXPENSE INCURRED.

Ontario, Nov. 13.—The expense incurred by the Government in providing for the Doukhobors who started out on a pilgrimage, but returned to Yorkton, was, according to Mr. J. A. Smart, deputy minister of the interior, borne by the Doukhobors themselves.

NOT ALL TO BLAME.

"It is utterly absurd," said Mr. Smart, "to condemn the whole Doukhobor population of the west for the attitude of even those who were led into the pilgrimages, as they do not form one-fifth of the Doukhobors who have settled in the Northwest Territories. From the reports in the department, as well as from personal observation, I am of opinion that these people have prospered beyond their own expectations or the expectations of others."

A TEACHER'S HEROISM

She Stopped Runaway, Saved Two Young Women, and Won't Talk.

Hammond, N. J., Nov. 12.—Miss Naomi Caldwell, a teacher in the public schools of Woodbury, and who is visiting friends here, with rare presence of mind and at the risk of injury or loss of her own life, stopped a runaway horse drawing a carriage, in which were seated Miss Annie Lyngner and Miss Anna Condy yesterday.

The young women were out carriage riding when their horse took fright at the noise of escaping steam and started off at a gallop. Miss Caldwell saw the team coming and tried to stop the horse by standing in the road and waving her arms.

Of course she failed, but she promptly grabbed its bridle and held fast while the animal dragged her across the road, over a ditch and into the woods, where it stopped.

In crossing the ditch the carriage was upset, and the young women were thrown out, but they were more frightened than injured. Miss Caldwell's arms are badly scratched and her clothing was torn, but she didn't mind that. She is a tall, athletic young woman, and refused to talk on the subject.

No General Corruption.

Mr. McKay has been unseated in North Grey because one of his supporters hired a livery rig to drive voters to the polls, an illegal act of which Mr. McKay and his financial agent had no knowledge. Counsel for Mr. Boyd did not wish the trial to proceed further and each party paid its own costs. Mr. Whitney's friends promised that the Province would be scandalized by the revelations in North Grey, but if there had been any basis for the charges made, they would have been only too anxious for a full exposure, for the sake of the moral effect on the country. So far nothing has been revealed in the courts which lends any color to the theory of gross corruption in the general election. It has been proved that the Opposition had a central campaign fund, \$500 being put into one constituency, North Norfolk, but there has been no evidence to show the extent of this fund, or the use to which it was put in other parts of the Province. It is a matter for public congratulation that no elections have been voided for serious offenses. It is perhaps too much to expect from Mr. Whitney a retraction of the calumnies which he spouted so freely against the Government and the Liberal party in the bitterness of his defeat, but it should teach him to moderate his violence. In the Legislature and on the hustings Mr. Whitney has done a great deal to lower the tone of public discussion. He has never seemed to realize that a public man, especially the leader of a party, owes something to the dignity of his station and should put himself under a decent restraint. He has allowed himself the fullest license in slandering the members of the Government individually and collectively, in which respect he has presumed altogether too much on the shelter offered him by his position as a member of the Legislature.

Our Unequaled Forest Wealth.

The third annual report of the Canadian Forestry Association, which has just been received, is an exceedingly interesting one, and contains a great deal of practical information on a subject about which too little attention is given by the general public.

The immense possibilities of our northern forest resources are shown by the following extract from the paper by Mr. Thomas Southworth, Director of Forestry for Ontario:

"Although we have at present only 2,540,000 acres in forest reserves, I do not think it unreasonable to expect that ultimately the crown forest of Ontario will comprise fully 25,000,000 acres, a state of affairs which would be possessed by any other country I know of. What a forest of this size, owned by the people as a whole, will mean to the revenue of the Province when placed under scientific control and systematically worked is difficult to conjecture. Already with our careful methods, and when only a small part of this territory is being operated, the Province receives in revenue about \$1,000,000 per year, and that this sum could be enormously increased under the conditions referred to, no one, I think, will entertain any serious doubt. The composition of this vast forest, such as to make it the most valuable in the world. While it contains a large quantity of spruce and birch, the paper and furniture woods par excellence, it is the natural habitat of the most valuable tree of them all—the lovely white pine, the tree that has already been so largely the cause of the untimely death of the Province of Ontario in being a country without a debt, and where the people are not subject to any direct tax for state purposes."

The management of such a reserve on a permanent basis will necessitate some changes in the method of disposal of the timber, and the question arises as to whether the Government should undertake its removal by a staff of men of its own, or if it should dispose by public sale to lumbermen of the right to cut specified quantities over certain areas within a specified time, the cutting to be done under the control of the Government officers. Either way is would be necessary to have a staff of forest officers sufficiently trained to be able to manage the cutting properly, so that the least possible loss or damage to the young growth would be occasioned and the continuous reproduction of the forest would be provided for. Ontario should stand by the white pine for, in the words of Emerson:

"It grants to dwellers with the pine Dominion o'er the palm and vine. Who leaves the pine tree leaves his friend. Unnerves his strength, invites his end."

Another phase of the forestry question as it affects this Province is dealt with by Mr. W. N. Hutt in a paper on "Management of the Farmer's Woodlot." The recent scarcity of coal has brought the wood question prominently to the fore, and it is remarkable how many of the farming population not only have no wood for sale, but actually have to purchase coal or wood for their own use. On many farms there are poor pieces of land that are of little use for agricultural purposes that could very profitably be allowed to grow up in wood. As Mr. Hutt says:

"Nature, if left to herself, will gradually change a scanty copice

into a forest of value, but at best her methods are slow and somewhat irregular. However, by careful thought and practical management, nature may be so assisted that the woodlot may be made to supply not only all present needs for fuel, but to give regular crops of merchantable timber, and to be year by year increasing in permanent value. Growing forest trees are very susceptible of management; the crooked may be made straight or the straight crooked, the spreading may be made close or the close spread, just as we wish. While the prices of wheat and other farm products have been decreasing and are likely to decrease still more, the price of lumber, owing to increasing scarcity, has been continually going up. We are painfully reminded of this fact if we wish to put up any building, however small. Any woods under careful handling may be made to produce regular, if not annual, crops, about the expenditure of a single dollar for replanting."

As shown by other papers in this report, the Dominion Government has adopted the plan of assisting the settlers in Manitoba and the Northwest Territories in obtaining shelter belts and woodlots, by supplying them with tree seeds and seedlings and giving instruction and supervision in the setting out and management of their lots. This opportunity is being taken advantage of by a large number in the West, and in view of the extent to which denudation has proceeded in some parts of the Province, it might be well to consider whether the example of the Dominion Bureau of Forestry should not be followed to some extent in Ontario.

The papers by Messrs. McGibbon and Joly de Lotbiniere on the pulp industry relate primarily to the Province of Quebec, but are of special interest in view of the increasing importance of the manufacture of pulp and paper. Both these gentlemen take the stand that the export of pulpwood to the United States should be prohibited.

Independence Or Imperialism?

The Boston Herald, which always discusses Canadian affairs with intelligence and in a friendly spirit, very truly says that the position of the great colonies in relation to the mother country is one which most Americans do not understand. The Herald adds:

"We live almost within stone's throw of Canada; we are in constant business and social communication with the Canadian people, and yet we imagine that the great majority of the people of this state believe that England taxes Canada, and that the Canadian people are compelled to pay for the support of the British Government. The position of the Dominion of Canada and the Commonwealth of Australia, in their relations with the home Government, is that of almost complete independence. The Canadian people pay to the Governor-General who represents the King, a salary of \$50,000 a year, but at this point their contributions to the imperial expenses stop, and with the exception of this \$50,000 England gets no more towards paying its government expenses out of Canada than it obtains from the United States. The Canadian people receive the international protection which the British army and navy afford without having to advance a single penny to meet the costs."

The Herald goes on to say that if Canada were under the control of the United States, this constitutes treatment in the eyes of public opinion which is something which its people could hardly hope to receive, but the Canadians would never consent to come in under an imperial system of taxation without equal representation in the Imperial Parliament.

The facts are truly stated by the Herald, but we are chiefly interested in our contemporary's deductions. It says, and says truly, that Canadians believe they have before them a great future; that Canada is to a large extent sufficient unto itself; and that they must consult their own interests first, and in judging of external matters make this interest paramount. For this reason, the Herald declares, Canadians think it would be a mistake to tie themselves down in such a way that they would be compelled to take an immediate and direct share in Imperial policy.

The Canadians are in sentiment intensely loyal to the British crown; but one risks little in saying that, if the alternative of complete independence or full union in the expenses and responsibilities of the British Empire were offered to them, even though this were accompanied by representation in Parliament, a large majority of the Canadian people would vote in favor of independence. This would not mean that they were tired of the English connection, or did not realize how much Great Britain had done for them; but simply that Canadian wellbeing could be better served by attending strictly to Canadian affairs than by having Canada submerged as a section of a great, world-wide empire.

The Herald here states a case that may never be more than hypothetical. What Canada would do under a certain set of circumstances is of no practical concern at present, and we do not think imperialism will ever be presented to Canada in a form so repugnant as to make independence a welcome alternative. Great Britain is too wise for that. In fact the idea of imperial federation is much more vigorous at present in the colonies than in the mother country. When British connection interferes with the self-development of Canada, Canadians may turn toward independence, but so far there has been nothing in the existing relationship which has conflicted with Canada's freedom or interest. If independence ever comes it will be as a natural result of growth and strength, not because of any attempt to impose on this country the restrictions of some imperial system. British sentiment in Canada is now stronger than it ever has been and the question of independence is decidedly in the background.

The Builders.

[Henry Wadsworth Longfellow.]

All are architects of Fate,
Working in these walls of Time;
Some with massive deeds and great,
Some with ornaments or rhyme.

Nothing useless is, or low;
Each thing in its place is best;
And what seems but idle show
Strengthens and supports the rest.

For the structure that we raise
Time is with materials filled;
Our to-day and yesterday
Are the blocks with which we build.

Truly shape and fashion these,
Leave no yawning gaps between;
Think not, because no man sees,
Such things will remain unseen.

The Hamilton Spectator has it that Hon. G. W. Ross will be the next lieutenant-governor. When a man's opponents nominate him for an office, it is a pretty sure sign that they want him to vacate the one he holds. Mr. Ross doesn't intend to oblige them.

Mr. J. W. St. John, M.P.P., says that Dr. Routledge will be "unseated and disqualified." Mr. St. John is a barrister, too. The only inference is that either he hasn't read much of the evidence or he isn't much of a lawyer.

The London Daily Mail says Morgan is shaking United States credit. Not so much, perhaps, as he has shaken British nerve. It is surprising what a bogeyman the British press has made of him.

Anyone who has encountered a band of Toronto students on a public thoroughfare will not be inclined to harshly judge the police in the present investigation.

India's budget shows a surplus of \$40,000,000 in spite of the famine. Isn't that wringing blood out of a stone?

The Ross majority has suffered a little relapse, but it's merely a growing pain.

Afterward.
[Chicago Chronicle.]
There's never a storm so wild
But after it follows a calm;
There's never a hurt so great
But somewhere's provided a balm;
There's never a night so dark
But after it follows the dawn.

There's never a shadow falls
But after it follows the light;
There's never a sorrow comes
But after it comes delight.
There's never a sky so gray
But after it follows the blue;
There's never a failure found
But later you'll find it true.
There's never a heart that breaks
But after awhile 'twill heal;
There's never a moan of pain
But after a laughter peal.

There's never a sin so black
But forgiveness is found at last;
There's never a weary day
But some time 'twill all be past;
There's never a night so dark
But after it follows the dawn.

Another Murder Trial.

[Woodstock Sentinel-Review.]

In most cases the confession of a supposed accomplice is expected to settle a prisoner's fate. But this is by no means the only instance in which it has not. In the Hyslop murder at Ancaster, some twelve years ago, it was the confession of the independent witness, the venerable township treasurer, that they and two white men, Bartram and Lottridge, were engaged in the burglary exploit which ended in the venerable township treasurer's death. But in the face of the stories of the two of them, an acquittal was secured. Bartram had not even the advantage of a good record. He was known as one of the most desperate characters in the country. "He Won't Die"

Of consumption" is a remark often made of a fleshy man. The remark expresses the popular recognition of the fact that the sign of consumption is emaciation, loss of flesh. On the other hand, a gain in flesh is a sure sign that wasting diseases are being cured.

Emaciated people with obstinate coughs, bleeding lungs, night-sweats and weakness, have been perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. The several steps of the cure were recorded in ounces and pounds of increasing weight. When there is gain in flesh the wasting disease is being surely cured.

Mr. Will H. Whitmore, of Arden, Ontario, writes: "Our son contracted a deep cold about the first of July, 1899, and had a terrible cough. We called a doctor and he pronounced it irritation of the bronchial tubes with asthmatic trouble, and he informed me that my son was liable to die at any time. He told me that if we could keep the bronchial tubes open, he might cure him. But after treating him several weeks and my son growing worse all the time, I concluded to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I had seen several almost miraculous cures brought about by the use of these medicines, and of course I bought a bottle. I gave him three bottles of Golden Medical Discovery at home and one of the 'Pellets,' and was then well. I feel like I quote: 'I am well and happy and getting very fat.'"

The Builders.

[Henry Wadsworth Longfellow.]

Each minute and unseen part;
For the gods, see everywhere.
Let us do our work as well,
Both the unseen and the seen;
Make the house where gods may dwell,
Beautiful, entire and clean.

Else our lives are incomplete,
Standing in these walls of Time,
Broken stairways, where the feet
Stumble as they seek to climb.

Build today, then, strong and sure,
With a firm and ample base;
And ascending and secure
Shall tomorrow find its place.

Thus alone can we attain
To those turrets, where the eye
Sees the world as one vast plain,
And one boundless reach of sky.

A Town That Did.

[Toronto Star.]

The town of Nelson, in British Columbia has not been afraid to venture into the field of municipal ownership, and the first results are of a most encouraging nature. According to one of the local papers, the town—or, as they prefer to call it, the city—paid \$5,000 for \$10,000 in improvements, collected \$64,639 in water rates at an operating expense of \$9,573. After providing for all charges, the people of Nelson are \$18,966 in pocket through owning their waterworks service, and \$23,076 ahead through owning their electric light service, since 1897. The town was incorporated in that year, and the electric light and waterworks is kept over by the municipality, and these two services since then have profited the municipality to the aggregate of \$42,643.

The rates have not been raised to the public, the services have been good, and the town has received the profits that would have gone into private pockets.

A Painful Incident.

[Dundas Banner.]

They say that the expression on Mr. Whitney's face as the judges bowl his following over, one after another, in the election court, is as like painful and pathetic. It is akin to that of the cow when the butcher takes away her calf.

Comparative Values.

"So," queried the man who had just been refused a ton of coal at \$14.87 per chunk.

"Yes, so," retorted the philosophic gent. Just think what a land-office business somebody could do by starting a heated waiting-room and charging 5 cents to warm your hand and feet and 10 cents to back up to the stove."

The C. P. R. Believed to Have

Given Orders for Four

Fast Boats.

Montreal, Nov. 12.—At the last meeting of the stockholders of the C. P. R. a resolution was submitted giving power to the directors to acquire, by lease, purchase or otherwise, a line of fast freight steamers to be used on the Atlantic in order to place the business of the C.P.R. on an independent basis. Since then, the C. P. R. executive has not been idle. While the authorities will not admit it, it is understood that an agent of the company has been quietly looking over the great shipbuilding yards in the old country, with a view to ascertaining the conditions as to labor, time, prices, and it is also being learned by those who are in position to know, that if the company has not actually given an order for four fast steamers for the Atlantic trade, it will very shortly do so.

Indeed, it has been asserted that the orders have been given, and that the fleet will shortly be commenced upon the new boats, four in number, which will be up-to-date in every respect, and which will place the company in a commanding position as to the strengthening of the Pacific fleet of the company, a question which the company has been for some time, and which is now being added to the fleet of two new vessels.

OUR ADVICE—Don't buy Carpets until you see the greatest stock and know the right prices.

We only advertise what we have. We don't place a visionary value on our goods to make reduction attract attention.

We don't sell cheap-made, low goods, and call them best.

We can sell you Carpets much less than the small dealers can buy them.

COUNTERFEITER'S SON ARRESTED

Young Stuart Admits That He

Circulated the Bogus

Bank Bills.

Ottawa, Nov. 11.—Constables Parkin-

son and Vannasse, of the Dominion

police, brought into the city today

under arrest, Wm. Stuart, son of the

old counterfeiter, now in jail in To-

ronto. The prisoner was found on the

farm of the Stuart family in the

Township of Ponsonby, Ottawa County.

The charge against him is that of

circulating counterfeit bills in Mont-

real and elsewhere. Stuart admits his

guilt. He is 30 years of age and un-

married. He will appear before the

magistrate in Hull tomorrow.

Toronto, Nov. 12.—William Stuart,

the aged counterfeiter, was again

arraigned in the police court yester-

day and further remanded for

a week. When closeted in the

crown attorney's room prior to be-

ing taken into the court room, and

questioned by Mr. Curry, the prisoner

maintained a stubborn silence, refusing

to implicate anyone in his crimes. In

the detective office the old man's violin

was handed him, and he began playing

a plaintive air, but suddenly put the

instrument down, saying, "I can't do

it." He is fretting a great deal and the

prisoner fare does not agree with him.

Detective Forrest got \$5 yesterday

morning to purchase some dainties for

the prisoner.

"Do not mind it so much, dear," Mrs. Sherman said, smiling. "Alice seems to be unusually ruffled over Mr. Keith's attention to you. I admit, but she has been ill so long, it is not strange that she should be a little more than usual. I was both brave and kind in you to relieve Mr. Keith, and I am sure that your motives were pure and disinterested. It would have been just as well, perhaps, if you had not gone to the summer house with him afterward. Mr. Keith has the appearance of being a gentleman, but you must remember that we know nothing about him save what he himself has seen fit to tell us, and a young girl cannot be too careful about forming acquaintances."

"But, mamma, I feel sure that he is just as true and noble as he can be," Queen Bess returned, with downcast eyes and flushed cheeks.

"He certainly seems so, I admit," Mrs. Sherman responded, searching her daughter's beautiful face with some anxiety. "But it is not always safe to trust to appearances alone. Dear, do not give any more over what has occurred to-day. Alice will soon get over her unreasonable displeasure, and be ashamed, no doubt, of having been so unreasonable."

"Alas! she reckoned without her host, for she was never to see her prophecy fulfilled."

The incidents which followed served only to increase Alice's jealousy and make her more bitter and unreasonable toward Queen Bess.

That night a fire broke out in the hotel.

It originated in a small room over the entrance where a gentleman was allowed to go to smoke, if they wished to be quiet, and did not want to go to the regular smoking-room.

A lighted cigar had been carelessly left upon a table near a window, a face curtain had been drawn against it, ignited it, and the flames were thus communicated to the lambrequins above, while everyone in the room was being asleep, and fire made sad havoc before it was discovered.

In the second and third stories a hall ran through the house, with rooms opening into it on either side.

Mrs. Sherman and her two daughters had rooms in the third story on the front of the house, just over the room where the fire started, and it will readily be seen that they were in great danger.

After the fire was once started, the cheaply-built hotel, which was built upon the ground by means of ladders; others crawled along the roof of the piazza and got down in the same way, but those three poor women at the front of the house were hemmed in by the flames, which were leaping upward like red demons, hungry for their prey, that it seemed as if they would be doomed to a frightful death. They could not get out of their rooms by way of the hall, for it was full of smoke and flames, and they could not crawl out upon the roof of the piazza, as others had done, because that, too, was burning so rapidly that its supports were liable to give way at any moment, and thus precipitate them upon the concrete below.

When the frightened trio gathered at one window and gazed helplessly upon the sea of upturned faces, a sixth man went up from a hundred throats, for their fate seemed sealed, and a moment

ONTARIO JOCKEY CLUB.

Toronto, Nov. 11.—The annual general meeting of shareholders of the Ontario Jockey Club was held here today, when a statement of accounts for the past year was presented, which showed the affairs of the club to be in a satisfactory condition. The president, William Hendrie, congratulated the shareholders that they were enabled to pay a dividend exceeding \$58,000 in prize money in the encouragement of the thoroughbred horse in Canada. The following were elected directors for the coming year: President, William Hendrie; first vice-president, Robert Davies; second vice-president, Joseph E. Seagram, M.P.; executive committee, Dr. Andrew Smith (Chicago), George W. Tunnage, L. W. Alexander, E. B. Osler, M.P., Hon. L. Melville-Jones.

AT BENNING'S.

Washington, Nov. 11.—There was another good crowd assembled at the Benning track in four of the races were unusually large, making it hard for the talent to pick the winners, but they were successful in doing so in three of the six events. The track continues very fast, and several favorites were recorded in the afternoon. In the third race beating the mile and 60 yards record by two seconds. Jockeys McFadden and McFadden, the former for the remainder of the week and the latter for three days, for turning their horses at the post in the field. The race was lined up to start. The first race was captured by Emshere, the favorite, who won by a head. The second race was captured by Moskov, the third by eight lengths. William C. Whitney's Blackstock, who was played the same money as Moranda in the fifth race, beat the latter by a neck in a field of twelve.

SUMMARY.

First race, selling, 3-year-olds, 7 furlongs—Emshere, 105 (Lyne), 7 to 2 and 7 to 1; Valley Forge, 103 (J. J. AT CINCINNATI.

Cincinnati, O., Nov. 11.—The best race on the card at Latonia today was the handicap, at one mile, for all ages. An overcast day, with a light breeze, and the track started, and the betting was brisk. To the surprise of the talent, Piring Line, a 12-1 shot, captured the event in the hands of the favorite, finished in the rack. Weather fine, track fast. The summary:

FACTS FOR BUSINESS MEN.

Much money is wasted in advertising for the reason that there are many who set apart huge amounts for publicity under a vague sort of an impression that it will bring a fair sort of return, however it may be distributed. They do it as unsystematically as they bestow charity, and under an equal impression that it will be accounted to their favor however and which way it goes. But advertising judiciously directed is money thrown away.

TO DINE A REGIMENT. Lieut.-Col. Little will mark the completion of the season's drill of the Seventh Regiment on Monday night next by giving the officers and men of the regiment a dinner at the armory. The arrangements are now in the hands of the sergeants of the corps.

RECEIVED JUST REWARD. The efficient manner in which Detective Robert Northgreaves rounded up and secured the conviction of the gang of Caradoc cattle thieves was recognized by the council of that township at their meeting on Monday, when they paid him the sum of \$50 and told him that his services were highly appreciated and that he had shown much skill in this work.

CIVIL SERVICE EXAMS. The civil service examination commenced yesterday at Somerset Hall, under the direction of Mr. George Duncan, examiner. Only three persons are writing the preliminary, while fourteen or fifteen are trying the qualification examination. The names of those writing are withheld because of the fact that last year many whose names were published were unsuccessful. Fifteen persons tried the preliminary and 38 the qualifying examinations last year.

MEDICAL BANQUET. The medical students at the Western University are preparing for their annual banquet, now one of the pleasantest annual features of college life. It will be held Dec. 11, and the officers elected to complete arrangements for it are: President, William F. Babb; first vice-president, Wynn Anderson; second vice-president, Fred Bear; third vice-president, Fred Adams; secretary-treasurer, R. W. Bucke; executive committee, Messrs. Abbott, Spence, Rowntree, Brown; reception committee, Messrs. Charles Byers, Wright, Shoebottom, Walsh; delegate to Toronto University, Mr. F. Campbell; to Trinity University, Mr. Tack Armstrong; Toastmaster, Messrs. Class, Mr. Armstrong; "Undergraduates," Mr. Charlton; "The Ladies," Mr. Elliott.

TRIED ANOTHER PAPER. In Monday night's Advertiser an advertisement appeared of a lost silver watch. When Miss Durkin, 365 Hill street, handed in the ad she passed the remark that she had advertised in another London paper last week for three days. The reputation of The Advertiser is well established for the recovery of lost articles. Miss Durkin was happy to watch on Tuesday, and again reiterated the remark "The Advertiser is the best paper."

She tried last week to get it and paid for three insertions in another paper and you find it with one insertion." Don't forget this fact, if you should be un-

CHANGE OF LIFE. Some sensible advice to women passing through this trying period.

The painful and annoying symptoms experienced by most women at this period of life are easily overcome by Lydia E. Pinkham's Vegetable Compound. It is especially designed to meet the needs of woman's system at the trying time of change of life.

It is no exaggeration to state that Mrs. Pinkham has over 5000 letters like the following proving the great value of her medicine at such times.

"I wish to thank Mrs. Pinkham for what her medicine has done for me. My trouble was change of life. Four years ago my health began to fail, my head began to grow dizzy, my eyes pained me, and at times it seemed as if my back would fall me, had terrible pains across the kidneys. Hot flashes were very frequent and trying. A friend advised me to try Lydia E. Pinkham's Vegetable Compound. I have taken six bottles of it and am today free from those troubles. I cannot speak in high enough terms of the medicine. I recommend it to all and wish every suffering woman would give it a trial."—Bella Ross, 88 Montclair Ave., Rosindale, Mass. —\$5000 per bottle if original of above letter proving genuineness not be produced.

fortunate, that The Advertiser is the best city medium as has been proven in hundreds of cases.

AUDITORIUM ATTRACTION. The attraction at the Auditorium tomorrow and Friday is Roney's Boys, concerning whom the Richmond, Va., News says: "Roney's Boys captured the hearts of Richmond. Such continued and spontaneous applause is rarely heard in the concert hall, because the company far exceeded expectations. Roney's Boys' exquisite singing and playing, probably excelled in artistic finish and intelligent interpretation any performances ever heard by little people in these parts. Their elegant costumes and their military uniforms, their artless, unconscious and high-bred manners, coupled with winning smiles, all completed a stage picture that did the heart. It was small wonder that people nearly smothered with their attentions at an impromptu reception at the close of the concert."

WOULD KILL HIMSELF. Former Resident of London Attempts it at Port Arthur.

A dispatch from Port Arthur says that on Sunday, John O'Leary, of this city, was committed to jail on a charge of insanity, having that morning attempted to commit suicide by hanging himself with his blanket.

His brothers named O'Leary, who formerly worked here on the Grand Trunk, and it is thought that the man referred to is one of them. The O'Learys are a family well known to one to leave London is understood to be working in Stratford.

INTERRED AT POND MILLS. Obsequies of the late Mrs. Govenlock, of Westminster.

The remains of the late Mrs. James Govenlock, of Westminster, were interred on Tuesday at Pond Mills Cemetery, when a very large number of the friends of the bereaved family were present. Rev. J. D. Moyer, of the Belmont Methodist Church, conducted impressive services at the family residence and at the grave. Mrs. Govenlock was an estimable woman and her death on Sunday caused great regret among a large circle of friends.

McINTOSH DISCHARGED. Charge of Incendiarism at Strathroy Falls Through.

Alexander McIntosh, the Strathroy hostler who was charged with setting fire to the Commercial Hotel stables in that town last June, was last night discharged from custody. He was given a hearing at the court house here before Police Magistrate Noble of Strathroy. The evidence showed that while McIntosh had made suspicious remarks both at the time of the fire and subsequently, it was while he was in a state of intoxication. Crown Attorney Magee said he would not ask for a conviction on the evidence. The prisoner was accordingly discharged.

HEARD ON NOV. 28. Resignation of Rev. Thomas Wilson Comes Up on That Date.

It was decided at a meeting of the Presbytery of London, held at Glencoe yesterday, that the resignation of Rev. Thomas Wilson, pastor of the King Street Presbyterian Church, be considered at a meeting of the Presbytery to be held on Nov. 28. In this city, at the First Presbyterian Church, at 10:30 a.m. Representatives of Mr. Wilson's congregation will be notified to be present. Thirty-five dollars was granted to each of the commissioners to the General Assembly in June next.

THE SUPERINTENDENTS W. C. T. U. Prepare for Work During Coming Season.

A very fruitful and interesting meeting of the W. C. T. U. was held yesterday at Somerset Hall, when it was decided to give the association's rooms to the campaign committee during the coming struggle. A report of the delegates to the provincial convention was received. Miss Horton gave an interesting address on physical culture, after which the appointment of superintendents took place with the following result: Systematic giving, Mrs. Tennant; unfermented wine, Mrs. Patterson; narcotics, a committee of twenty ladies and gentlemen, instead of the usual superintendent; parlor meetings, Mrs. H. Ashplant; railroad work, Miss Maggie Burgess and Mrs. Plewes; hygiene, purity and mothers' meetings, Mrs. D. A. McDermond; Mrs. (Rev.) C. T. Scott; Mrs. Winna and Miss Horton; franchise, Mrs. (Dr.) Weekes; fair work, Mrs. J. Darch; missionary, Mrs. Norton Udy and Mrs. William Escott; flower missions, Miss Burgess; Mrs. G. N. Weekes; scientific temperance, Mrs. Wilson; work amongst Africans, Mrs. Leggett; hospitals, Mrs. J. M. Williams; jail, Mrs. Wallace; prayer league, Mrs. (Dr.) Rae; library, Miss Ingram.

CAMPAIGN IS UNDER WAY

Referendum Campaign Association Holds a Meeting.

The Referendum Campaign Association held a meeting at Somerset Hall last night, when for the purpose of perfecting the organization for the coming campaign, President Rev. D. S. Hamilton, of the First Congregational Church, occupied the chair. The sentiment of the meeting was that special stress should be laid upon the fact that the campaign is one of the churches against the liquor traffic, and it should be fought along church lines. Considerable preliminary business was transacted during the evening. The various conveners of committees were appointed. Arrangements were begun for the holding of special prayer meetings, while the plan for the distribution of temperance literature and pledge cards were also discussed.

MUSIC AND DRAMA AT THE LONDON TONIGHT.

The Carroll Comedy Company will present the sensational drama, "The French Spy," their third offering at the London Opera House. A change of specialties will be given.

MELODRAMA AT THE GRAND. The successful melodrama, "The Span of Life," will be presented this season by the strongest company yet engaged in its production, including the daring and skilful acrobats, the Donazzettas. The success of the piece is greater now than ever before. It will be seen at the Grand on Friday night and this will probably be the last chance offered for seeing it, as the company is engaged for an Australian tour next season.

INTERESTING OPERATION. Skin-Grafting Case at St. Michael's Hospital in Toronto.

Toronto, Nov. 11.—A rather romantic episode has just taken place within the walls of St. Michael's Hospital. In September last a young woman named Catharine Lawley, of Hamilton, while employed in the laundry at Upper Canada College, unfortunately had both arms drawn into a mangle. The results were disastrous. Not only were her arms crushed terribly, but the skin between her elbows and wrists was destroyed forever. On Sept. 26 she was removed to St. Michael's Hospital, and there she still is, but in the meantime she has become the subject of two skin-grafting operations, the latter of which is of a specially interesting nature.

When it became apparent that the grafting was absolutely necessary, an area of skin on her thigh was stripped off and laid on her arms. This was a fair success, but more of the same sort of operation was necessary, and she could ill afford to either stand the pain or spare the skin.

At this juncture, a young man named Hugh O'Connell, who is reputed to be the young lady's lover, came forward and gallantly volunteered to provide enough skin for the second operation. Drs. Oldrege and Mackenzie, who have been untiring in their efforts to alleviate the young lady's condition, did the work. Young O'Connell is himself in St. Michael's Hospital, and in suffering terrible pain, though it is believed that all will now turn out well. When Miss Lawley first came to the hospital, no hope of saving her arms was entertained.

DROPSICAL SWELLINGS. An Accompaniment of Kidney Disease—Most Frequent in Advanced Age—Mr. Trene-man Cured by

DR. CHASE'S KIDNEY-LIVER PILLS.

The kidneys when in health filter from the blood the urea which is in reality poisonous waste matter. When the kidneys are weak and deranged the urea remains in the blood and causes it to become watery and deficient in nutritive quality.

Dropsical swellings are the result. At times the ill-effects are felt about the heart and death comes suddenly in the form of heart disease or apoplexy. With others the legs swell until they become of unwieldy proportions and require to be kept banded.

Dr. Chase's Kidney-Liver Pills prevent, and cure dropsical swellings and all the dreadful symptoms of kidney disease. They cure thoroughly by striking directly at the root of the trouble and setting the kidneys right.

Mr. James Trene-man, 53 Adelaide street, London, Ont., states: "Two years ago I was laid up with kidney disease and urinary troubles. Besides the pain and inconvenience caused by these troubles, I had dropsical swellings, and my legs would swell up so that I could scarcely go around at all. Hearing of Dr. Chase's Kidney-Liver Pills, I procured a box and continued the use of this valuable medicine until now I can say for a certainty that I am entirely cured. I never took any medicine that did me so much good, and am firmly convinced that it had not been for this medicine I would not be working today."

As a family medicine of tested and known worth, Dr. Chase's Kidney-Liver Pills have never been approached. They act directly on the kidneys and liver, regulate the bowels and insure the perfect action of the digestive and filtering systems. One pill a dose; 25 cents a box. At all dealers or Ed-manson, Bates & Co., Toronto.

The Germ Theory of Cancer. French and German scientists, after careful investigation, have come to the conclusion that cancer is produced by a specific germ and microbe. This has been the contention for years of chemists here in Canada. Messrs. Stott & Jury, of Bowmanville, and they are to be congratulated on having confirmation of their theory by such high authority. Their new book, "Cancer, Its Cause and Cure," gives their views in detail, and will be sent to any reader of this paper on receipt of two stamps.

Among the material used in the construction of the new Christ's Hospital at Horsham, England, were 40 miles of hot water pipes, 88 miles of electric wire, 20,000,000 bricks, 1,500,000 tiles, 5 acres of wood flooring, 100,000 cubic feet of stone and 60,000 tons of cement, sand and breeze.
