A "SPOTTER" IN SKIRTS

Detroit Paper Says Great Commotion is Created Here by Customs Official

Claims That Chatham Merchants Protested Against Smuggling—The "City" Watched

Says the Detroit Tribune:—A wall has come up from Chatham merchants! They have accused their fair patrons of coming to Detroit for a nice boat ride and then returning laden with Detroit dry goods! Whether this expression is mere ungallantry or whether it is only a whiff of national prejudice blown over from the Pere Marquette deportation row, none can say. But the fact remains that Inspector of Customs Allan has decided to occasionally place a woman searcher on board the steamer City of Chatham to watch for suspicious bulges in skirts and bodies of the fair Canadian women who have ventured for a few hours from under the protection of Edwardus Rex. The merchants of Chatham say they lose thousands of dollars every season, and that the women do all the smuggling.

No more as the City of Chatham feels her way between the near-lying banks of the Thames shall her pretty passengers lean over the rail to pluck flowers from the neighboring fields, for there will be a searcher aboard. Gone are the days when the woman from this tells the woman from that of the famous bargain she had made at So-and-So's in Detroit—for who knows who the spotter will be? Alas, that the feminine contingent who have made comfortable shopping tours via the City of Chatham shall have all their faith in their kind shaken by a spotter in skirts! And all because the merchants of Chatham miss a few paltry thousands, too!

A SPLENDID CAR

The Columbia, on Exhibition Last Night at the G. T. R.—A Marvel of Mechanical Skill

Throngs of people went through the palace car, "Columbia," on exhibition at the G. T. R. depot last night. The car is built by the American Palace Car Company and is being exhibited throughout the country, before being being put in use on the railroads. It is bound to supersede the Pullman and sleeping car now in use, being as much superior to these as they are in advance of the ordinary coach. The exterior of the car is very handsome, but it is its interior that amazes. The first thing met with on entering is an observation room, where passengers may get an unrestricted view of the scenery. Then there is the wash room, all done in white enamel and nickel. Following this is the body of the car. During the day time this space is filled with individual wicker chairs, very comfortable. These may be moved about at will. At night, a transformation scene takes place. The floor of the passengers' section is raised, forming walls on either side of the section, and the berths are raised by a cable, from their resting place under the floor of the section. The usual curtain is affixed screening the view from the aisle, and the parlor car has become a sleeper.

The upper berth is so far removed from the lower one that one may move around with more comfort in it than in the usual sleeper berth. Again, both upper and lower berths have individual windows, which the passenger may operate at will. While the berths are below the floor during the day a system of ventilators keeps a current of cool air moving through the bedding, thoroughly ventilating it. In the winter heating pipes pass under the berths, which the passenger may regulate at will. In the morning the berths are folded down beneath the floor and the metamorphosis is again complete. Sixty-five per cent. of the weight of the car is beneath it, and this prevents swaying while in motion. In fact, this company placed a glass of water in the top of one of their cars and it went from New York to Chicago without spilling a drop. The weight beneath also prevents the car being telescoped in a collision. Mirrors between the sections conceal cabinets where the silver, etc., is kept; tables are locked into place in the section and meals served from the well-equipped cuisine of the car. Sarah Bernhard has ordered one of these cars for private use; Julia Marjorie and E. H. Sothern have also done so. It costs about \$15,000 to build one.

GARNER SOLD

It is stated, upon good authority, that the Garner House has changed hands, the present proprietor, Alex. Eberts, selling out to Messrs. John McCoig and Walter Richards. The new proprietors will assume charge of the house on September 1.

EDITORIAL

THE WHEATLEY WHITECAPPERS

In deciding to call to judicial account the offenders in the Dulmage affair the Crown is taking the right and proper course—the only course to vindicate the honor of Canadian justice—and in bringing the matter emphatically to the attention of the Attorney General, Crown Attorney H. D. Smith has given further evidence of his true sense of the responsibilities of his office and the honesty of purpose and vigor with which he performs its duties. It may be—and doubtless is—true that the unfortunate man deserved much of what he got, but the fact remains that the proceedings were lawless and distinctly outraged all ideals of Canadian justice. And Canadian law must vindicate itself—and teach a lesson for the future.

It seems to be a fact that an officer of the law—a constable—was present to regulate the proceedings and "see that the peace was kept." If such was the case the man should be firmly disciplined. He certainly has no conception of his duty, and it would be unwise for the Crown to continue him longer in office.

The Toronto News aptly states the situation in an editorial yesterday. It says:

We are told that the Dulmage white cap affair was not so bad after all, because the white cappers were accompanied by a physician, and there was a constable present to keep the peace. We think that this makes the matter worse, for it gives an appearance of respectability and legality to lynch law. The constable certainly does not know his duty, and ought to be dismissed. We are governed in this country by law, not by the desire of certain persons to regulate the lives of their neighbors. There are personal habits and domestic duties which the law cannot reach, but the attempt to supplement the law by violence would result in intolerable tyranny and disorder. Under the pretence of doing justice, a man might be persecuted for unpopular opinions, or for mere eccentricities, or be made the butt of brutal practical joking. Lawlessness of this kind ought to be promptly stamped in the bud, and the Provincial authorities well deserve severe condemnation if they are influenced by the nonsensical plea that the proceedings were legalized by the presence of a doctor and a constable.

AFTER WHITECAPS

High Constable Coogan Left For Wheatley With Warrants for Guilty Ones in Dulmage Affair

High Constable Major Coogan left for Wheatley this morning under instructions from the Crown with warrants for the arrest of the various parties implicated in the Dulmage ducking and thrashing affair, which recently occurred there. The names were supplied by Inspector J. W. Murray, of the Provincial Detective force.

It is expected that the arrests will all be effected to-day, as it is understood there is no effort to avoid responsibility. The accused will then be brought to Chatham to take their trial or preliminary hearing before Judge Houston in County Court.

The Crown has expressed its intention of fully investigating the case.

AGAINST GAMBLING

Toronto, July 27.—The necessity for abolishing all gambling at agricultural fairs is enlarged upon in the annual report of fairs and exhibitions just issued by the Minister of Agriculture. Strong ground is taken in regard to racing.

Many of the fairs are said to be disgraced by the immoral characters and the tone of the side shows.

It is pointed out the horse races at fairs is illegal, and directors of fairs and those taking part where races are held are liable to a fine and imprisonment.

Trials of speed are interpreted as the usual events in judging single or double carriage or stable horses allowing them to drive around the ring.

AVOID LAW COSTS

"The position of The Planet in its editorial with reference to the city and railroad difficulties yesterday will, I hope, commend itself to the better judgment of our Council," said Dr. J. H. Dunsan this afternoon. "Chatham cannot afford at the present time to get entangled in expensive and useless litigation, and our aldermen will do their duty creditably towards the community they represent if they seek some such amicable solution as The Planet has suggested. The editorial was one which much pleased me and I trust it may bear good fruit."

PAIR ELOPED TO TILBURY

Young Wheatley Couple Were There Stopped by Pursuing Parent

Erring Girl Went Home With Her Father—Were En Route For Detroit

July 28.—Tilbury was the scene of a sensational elopement on Wednesday evening when Paul Legue, a Wheatley hotel porter, aged 28 years, arrived here about four p. m. in company with a 16-year-old daughter of Mr. Fitzgerald, of the Pere Marquette, the girl being employed as waitress in the same hotel. He left the girl at B. Ballard's hotel while he went to the M. C. R. to enquire as to when he could get a train to Detroit. Shortly afterward the couple were arrested in the hotel parlor, after leaving their rig at the livery, on a telephone message from the girl's father, who arrived shortly afterward and took the erring girl home. The man was held in the lockup all night to await the arrival of a Wheatley officer.

BEAT WHITE

Thamesville Herald Desires to Wager that Governor Davidson Can Wallop the Champion

Mr. John Davidson, the popular governor of the County Jail, Chatham, was in town Tuesday. John is so interested in the fat man's race which is to take place at Chatham soon, for a handsome silver trophy, that he could not refrain from giving his friends a trial dash on the back street. If the race is one hundred yards we will bet dollars to doughnuts John can distance the champion sprinter White, of Chatham. —Thamesville Herald.

PRETTY GIRLS

St. Thomas Extends Invitation to Aid. Edmondson to Pass Upon the Beauties of that Hamlet

The St. Thomas Times in yesterday's issue quotes the interview with Ald. John Edmondson, which recently appeared in The Planet, containing the gallant alderman's eulogy of Maple City maidens and good, substantial pavements.

The Times then proceeds to add the following invitation:—

"Ald. John Edmondson should pay a visit to St. Thomas. Whether our pavements will compare favorably with those of Chatham or not is a question for investigation by authorities on that line, but as to pretty girls the Maple City must take second place. Without doubt, and on the authority of travellers and strangers, it may be stated that St. Thomas takes the lead for pretty maids and handsome matrons. And our ladies dress becomingly and with a perfection of taste unexcelled. Chatham may beat us in lacrosse, but is simply out of the competition for handsome womanhood. The Times has stated this fact before, and, as our local cotem. would say, 'we have the goods.'"

COMRADE HONORED

Sergt. Jos. N. Harmer, of B Co. of the 24th Regiment, was presented, last evening, by the Non-Coms. of the Regiment, with a handsome watch chain and locket, the latter suitably engraved. Sergt. Harmer leaves Chatham shortly for Toronto to complete his course as a druggist.

The Non-Coms. gathered in the mess rooms, where, after a eulogistic address by Sergt. Major Flowers, in which he spoke of Sergt. Harmer's splendid work in connection with the mess and the regiment. He felt the regiment was losing one of its best workers and supporters, and voiced the sentiments of all the boys when he said he was indeed sorry to see Sergt. Harmer leave the Maple City. Col. Sergt. Geo. Smith made the presentation. Sergt. Harmer made a very feeling reply and expressed regret at leaving such good friends. He would always refer to his four years with the 24th as the happiest days of his life.

Col. Sergt. Smith followed with a few well chosen words on behalf of B Co.

HOW WE GOT EVEN

They have a strange way of doing things in Chatham. First they raise a howl when some Daggoes use the city basin for a lavatory. Then a short time afterwards they turn the waterworks hose on them. This is coming back at them with the same old dirt, a rather clever revenge.—Walden News.

NOW IS THE TIME TO ADVERTISE

THE REALITIES OF WAR.

Business Office 55
Editorial Room 102

S. STEPHENSON - Proprietor.

THE REALITIES OF WAR.

One by one the things which made up the pride and panoply of glorious war are being discarded, says the Montreal Witness. Brilliant uniforms, glittering appointments, plumes, feathers and gold lace may still be permitted for show occasions at home, but for the grim realities of war they are all abolished. British regiments no longer carry their colors into the field of actual war, and now the announcement is made that the French war ministry has decided to abolish the use of drums in the army. Like Othello, the soldier will have to say farewell to the ear-piercing life and the spirit-stirring drum. Though Russian regiments at the battle of Mukden went into battle to the use of brass bands, the lesson of modern warfare is that the regiment as well as the individual soldier must be as inconspicuous and make as little noise as possible. The soldier must not be a mark in the landscape for long-range arms of precision, but, in imitation of the wild creatures of forest and field, dress in the hues of nature the better to escape detection as he moves or lies in wait for the enemy. Of course old army men in France are indignant and declare that an army without drums would be anything but martial. They point out the important part played by drums in many a memorable engagement, and say that to do away with them would be to attack one of the most venerated of army traditions. Nevertheless, utility and necessity demand that the drums must follow the flags, because they draw fire where they are heard, and that means certain death for some and possible defeat for all. Thus fades the romance of war as its grim realities of exposure, suffering, dirt, disease and death come more plainly into view.

An extraordinary state of affairs is revealed in Wheatley, near Chatham. A short time ago a number of masked men took an alleged wife-beater from his bed, soaked him in a well, and then beat him unmercifully. It is now reported that the men were accompanied by a constable and a physician, the former to see that they did not go too far, and the latter to be available in case of need. It is further said that the victim has no desire to prosecute, his firm conviction being that he received no thing more than he deserved. The victim may be the proper judge of his own needs and desires, but he is scarcely to be trusted with the enforcement of the law. The law should be enforced, no matter how well satisfied the victim may be. There were two outrages, one against the alleged wife-beater, and one against the law. If the former is content the latter should not be. Woodstock Express.

RUN AWAY

Wm. McKinley's horse indulged in a mad gallop last night. The cart dissolved partnership with the horse on Park avenue west, and the unencumbered horse took its mad way down the street. Mr. Whalen tried to stop it by obstructing the road with a piece of board but the horse took to the sidewalk and escaped, rounding the corner at Queen street and turning up Edgar street, where it was caught.

Mr. McKinley, who was thrown out, sustained a few bruises but is at work this morning.

BRIGHT PROSPECTS

John Piggott has returned from Toronto, where he has been upon the solicitation of the promoters of the Windsor, Essex & Lake Shore Electric Railway, interviewing several financial concerns in reference to providing capital for the above road. "The prospects for the road are very bright," he told The Planet, "and I have no doubt the construction of the road will be started the last week in August or the early part of September."

CHOLERA INFANTUM.

Child Not Expected to Live From One Hour. Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one bottle she was well." This remedy is for sale by All Druggists.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

The impression has gone abroad that THE BELL TELEPHONE COMPANY OF CANADA is required to purchase its equipment from American manufacturers at high prices, and that subscribers are paying for this in their rates. There is absolutely no foundation for this.

THE BELL TELEPHONE COMPANY OF CANADA, is one of the large manufacturing concerns of the country and is also one of the largest employers of Canadian labor. Practically everything that goes into the construction of a modern telephone system is produced in the factories owned and controlled by the Company. The prices charged the Company are fixed by competition with the largest electrical concerns on the Continent. That the prices are reasonable and the articles of the highest merit is demonstrated by the fact that nearly fifty per cent. of the output of these factories is sold to other Canadian consumers in competition with producers in the United States and Europe. At the present time the Company's factories are being doubled in size and capacity to keep pace with the demand.

The Bell Telephone Company employs in its various interests about 5,000 people and pays out in salaries alone \$1,742,152.00 per annum.

These are facts of which the public is perhaps not aware, but which will, no doubt, interest all Canadians.

THE BELL TELEPHONE COMPANY OF CANADA.

A POOR GAME

The Chatham-Wallaceburg Lacrosse Game a Very Loose Exhibition
—Wallaceburg Wins by Score of 5-2—

There was a very small crowd at Agricultural Park yesterday afternoon to witness the lacrosse game between Chatham and Wallaceburg, and it was well for the locals a much larger crowd was not there, for they made themselves very unpopular with everyone who saw the game. Wallaceburg won by a score of 5-2, and the only excuse that can be made for the Chatham team is that they were all "off color." Webb and Pickering were, however, bright exceptions, and these men played good games. The rest, while they played well at times, were plainly not up to their usual mark and were visibly weak at critical times. The passing of the home team was slow and poor and the shooting was wild. There was no one to bore in with the ball and the Wallaceburg defense kept them well out, making passes that gained no ground whatever.

One fatal mistake was made in setting a goal keeper. Chatham played a man named McFadden from Port Arthur, a man of whom they knew nothing, and he turned out to be a farce, as is usually the result in such cases. Every one of the goals scored on him should have been stopped by a competent goal keeper. Grace, Marron and Laderoute had several chances but failed to connect, and during the latter part of the game the Wallaceburg boys bunched on their defense and it was practically impossible to get past them.

On the other hand it was Wallaceburg's day on. Every member of the team played well and they had all the luck. They, however, deserve credit for their victory, for they worked hard to win it.

Wallaceburg scored twice in the first quarter—the first in ten minutes and the second in fifteen. Chatham scored once in the second quarter in 13 1/2 minutes. Stewart scored in seven minutes in the third quarter and Wallaceburg scored twice—one in three minutes and the other in eleven minutes. In the last quarter Wallaceburg scored again in a minute and a half.

The game was quite clean and referee Cairns, of Wallaceburg, did not have to send many men to the fence. Special mention should be made of the playing of Eames, who goal hunting on the defense and Krabbing on the home, all for Wallaceburg. These men contributed much towards Wallaceburg's victory.

The game was played eleven men to a side as Wallaceburg came over a man shy. Chatham threw off a man to even matters up. It is understood that Wallaceburg played unregistered players, one of them from Port Hope, and that they gave the game to Chatham before it was played. In this case Chatham will be declared the winners as far as the C. L. A. goes, even while they were defeated on the field.

It is hoped and expected that the Chatham team will now get out and do some practicing before they enter into the finals.

The following was the line-up yesterday:
Chatham — McFadden, Pickering, Webb, Elliott, Chievers, Hutchinson, Cruickshanks, Grace, Marron, Laderoute and Stewart.
Wallaceburg — Tierney, Mooney, Huntington, McKee, Johnson, Taylor, Fairfield, Mohar, Krahling, Rose and Fairfield.

NARROW ESCAPE

Theophilus Faubert, of the 3rd concession of Dover, was unfortunate enough to fall from his hay mow onto a wagon standing beneath. The fall resulted in two broken ribs and severe bruises, but it is expected he will be around again very soon. The escape from worse injury is wonderful.

TO WIDEN BRIDGE

The Council Pass a Resolution Giving as their Opinion that the Aberdeen Bridge Should be Widened

A special meeting of the City Council was held yesterday afternoon at a quarter past three o'clock to pass the by-law granting the electric railroad certain temporary privileges as laid out in the agreement between the city and the railroad, a synopsis of which was published in last evening's Planet.

Those present at the meeting Mayor Cowan and Ald. Austin, Dunn, O'Keefe, Ainsworth, Potter and Edmondson.

In reference to the widening of the bridge the following motion was passed unanimously:
Moved by Ald. Austin, seconded by Ald. Edmondson, that whereas clause 7 of by-law No. 946, provides that before constructing its tracks across or over the Aberdeen bridge or the bridge on Queen street at Indian Creek, the Chatham, Wallaceburg & Lake Erie Railway Company shall strengthen the said bridges or replace the same said bridges with new bridges, the plans for which shall be first submitted to and approved by the City Engineer and the Council of the said city of Chatham, and whereas the company applied for and received permission to make a temporary crossing over the Aberdeen bridge for the construction purposes in order that the permanent work may be proceeded with and completed at as early a date as possible, that it is the opinion of this Council that all plans that may be submitted by the company to the Council for their approval, whether strengthening the present bridge or the building of a new bridge should provide for a bridge ten feet wider than the present Aberdeen bridge, that is to say that 28 feet be provided for the passage of the railway cars and vehicles, and that copies of this resolution be forwarded to the company, in order that they may be prepared to expediently carry on the permanent work, and also to the Railway Commission.

Moved, Austin, Edmondson and Potter spoke strongly in favor of the motion. The Council then adjourned.

The hot summer weather is now here and most people are thinking of a trip to some cool summer resort. We would advise you to call on W. E. Rispin, city passenger and ticket agent, 115 King street, who can issue tourist tickets for all summer resorts, including Muskoka, Georgian Bay, River St. Lawrence, Great Lakes and Atlantic Sea Coast points at particularly low rates, and will supply all information and pamphlets.

BAPTIST SOCIAL

A social in aid of the task of reducing the debt on the manse was held by the Baptist church of Raleigh on Wednesday evening on the grounds of Geo. Cromwell. Mr. Garl made a happy chairman. The speakers included H. S. Clements, M. P., Arch. McCoig, M. P., Dr. Thornton, R. L. Braekin, Mr. Shreeve and Dr. Bell, of Merlin. The speeches were not of a political nature.

Dr. J. B. McMurich, of Bothwell, was in the city yesterday.

Miss Murphy, Head street, is recovering from her recent illness.

Neil Watson, of Mull, called on his many Chatham friends yesterday.

Keep cool by using an Electric Fan—only a few left for rental at Gas Office.

Geo. Perry, formerly of the McKee & Trotter establishment, has accepted a position in Detroit.

Sons of England excursion to Niagara Falls on Civic Holiday, Monday, August 14th.

Dr. and Mrs. Wm. J. Holland, of Malden, Mass., were visitors in the city yesterday.

A fine cooling breeze quickly obtained by using an Electric Fan. Order one now from Gas Company.

Ross Hicklin has returned from a few days' visit in Detroit. He leaves to-day for St. Thomas, where he will visit a short time.

Dress Makers Wanted—First class skirt and waist operators for fall season. Apply at once. Miss Burke. The Northway Co., Ltd.

Mrs. J. P. Carson—nee Miss Eva Prosser—who has been visiting Mr. and Mrs. A. Sheldrick for the past three weeks, has returned to Niagara Falls, where she will spend the balance of the summer.

Messrs. Barber, McKensia and Jones, with their families, visited Chatham yesterday in their launch, the T. C. C. They were the guests of Mrs. J. Fox. Mr. Barber is one of the largest men on Detroit's police force.

Dr. Jennie Carson has returned from a three weeks' vacation spent at Hotel Goderich, Goderich. This popular summer resort is being newly whet from Mr. H. Pettit, Tilbury West. The wheat is a fine sample, and Mr. Pettit had 2,000 bushels of it. He received 80 cents a bushel for his entire crop.—Comber Herald.

Mrs. A. McPhillimy and Miss Bell McPhillimy, who have been visiting Mr. and Mrs. Harry Andrews, returned to Jackson, Mich. Tuesday. Mrs. McPhillimy is an old Chatham resident but for the past six years has been living in Jackson. She is 86 years of age and enjoying excellent health. Her many friends were pleased to see her again.

TILBURY

A fatal accident took place at Stoney Point crossing of the G. T. R. Wednesday by which Mrs. Christopher Stevenson, of Maresa, lost her life. Deceased was attending the annual Maresa Sunday school picnic on Lake St. Clair, and was on her way home in company with her son when the horse shied at a pile of gravel on the crossing, upset the rig, throwing the unfortunate woman to the ground and trampling her life out, as she died an hour later from a fractured skull.

Tilbury defeated Leamington in an interesting baseball game on Wednesday evening by a score of 20 to 8. Coming on the heels of the closely contested game with Chatham last week, the locals feel justly proud of their record.

Engineer Lamb, of Ottawa, and A. H. Clark, of Windsor, were in town yesterday in connection with the new dock at the lighthouse.

ONE DOLLAR SAVED REPRESENTS TEN DOLLARS EARNED.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, will save several dollars outlay later on.

It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a house of a doctor's bill of several dollars. For sale by All Druggists.

BLLENHEIM

July 28.—Mrs. Powers, of Washington, Penn.—nee Miss E. Morris—is visiting her father, T. K. Morris.

The sacrament of the Lord's supper will be dispensed at the close of the morning service in the Presbyterian Church on Sunday next.

Mrs. Ulleyette and Mrs. White, of Detroit, and Roscoe Baker, of Lawrence, are visiting at Mr. Jos. Steward's.

Ed. Nichol, of London, is visiting friends here.

Word was received from London that the Blenheim bowlers' team won three games in the Association match. The novice rink left for the tournament yesterday.

Mrs. White, Mr. and Mrs. L. H. Edmonds and Barbara Shillington are visiting in Windsor this week.

At the last regular meeting of the School Board Miss McCormick tendered her resignation, which was accepted. It was decided to have an assistant teacher to help in the continuation work, so new pupils will be able to write for their Junior Leaving and Matriculation exams at home.

In the list of marriage licenses recently issued the name of J. W. Gibson appears.

Rev. Dr. Mrs. Myland and son, of Columbus, Ohio, are visiting at Geo. Mylands this week.

Frank Lipscomb, of Dominion Bank staff, at Montreal, is visiting relatives at Erieau.

Chatham, Windsor and Detroit

TIME TABLE
CHANGE OF TIME
THE STEAMER CITY OF CHATHAM

Will make her regular round trip from Chatham to Detroit every MONDAY and WEDNESDAY, leaving Raskin Dock South Chatham, at 7.30 a.m., and returning leaves Detroit foot of Randolph Street at 3.00 p.m. Detroit time or 4 p.m. Chatham time.

Will also make round trips from Detroit to Chatham every FRIDAY and SATURDAY, leaving Detroit, foot of Randolph Street at 8 a.m. Detroit time or 9 a.m. Chatham time, returning will leave Chatham 3 p.m., Detroit time or 4 p.m. Chatham time, arriving in Detroit about 8 p.m. FARES—Round Trip 60c, Single Trip 50c. AGENTS—Stringer & Co., Chatham, W. H. Wherry, Windsor, John S. Stephenson, Detroit. JOHN FORKE, Captain WILLIAM CORNISH, Purser.

CARRIES TROUBLE
RIGHT WITH HIMFate of the Dyspeptic Who Has Not
Learned the Relief that is Found
in Dodd's Dyspepsia Tablets.

The Dyspeptic is the man who carries the troubles of the world on his shoulders. He is racked with pain and filled with despondency. Life is not worth living to him. It is his own fault. Relief complete and permanent is within the reach of all. It is contained in Dodd's Dyspepsia Tablets. They digest the food themselves so there can be no indigestion where they are used. Listen to what Mr. B. A. Barton, 23 Ryndall Avenue, Toronto, says: "I had indigestion in its worst form. The doctors could not do me any good and I began to think my case was hopeless. As a last resort I tried Dodd's Dyspepsia Tablets. I am thankful to say they had the desired effect. "I was afraid to eat many things that would have suited my taste. Now I can eat anything that is set before me, asking no questions."

The tallest shaft in the cemetery won't prevent a man from being forgotten after he is dead.

AMIAILITY.

One Need Be Neither Weak Nor Stupid
to Have This Quality.

By a process of false reasoning amiability has been connected both colloquially and in writing with weakness and stupidity. Strength and ability insure it to no one; consequently, says that hasty judge, the public, it usually exists without them. Nothing was ever more untrue. Stupid people and weak people may be—they very seldom are—amiably by nature, but they are the only people for whom it is nearly impossible to cultivate amiability. It is very difficult for a really weak man to be sweet tempered.

The first thing which the person who desires to be amiable must determine to do is never to produce fear among his own surroundings—to be willing, in a social sense, to let every one out, so that no one regrets too bitterly having said a foolish or ill judged thing before him, but comforts himself with the thought that it is forgotten; never, that is, to lower any one in his own esteem. The second is not to differ about matters of no importance, not to debate sincerely into contradictoriness, and not to set for other people a standard which it is unreasonable to suppose, from previous experience of their characters, that they will ever reach. The third is never to let his good principle interfere with some one else's harmless privilege, to remember that praise is a positive necessity to the spiritual and mental development of the young, and that injudicious blame acts as a blight.—London Spectator.

HOW TO SUCCEED.

When You Go to Work Take the Whole Man to the Task.

Only fresh, spontaneous work really counts. If you have to drive yourself to your task, if you have to drag yourself to your work every morning because of exhausted vitality, if you feel fatigued or worn out, if there is no elasticity in your step or movements, your work will partake of your weakness.

Make it a rule to go to your work every morning fresh and vigorous. You cannot afford to take hold of the task upon which your life's success rests with the tips of your fingers. You must not afford to bring only a fraction of yourself to your work. You want to go to it a whole man, fresh, strong and vigorous, so that it will be spontaneous, not forced; buoyant, not heavy. You want to go to your work with creative energy and originality—possessed of a strong, powerful individuality. If you go to it with faded faculties and a sense of lassitude after a night's dissipation or loss of sleep, it will inevitably suffer. Everything you do will bear the impress of weakness, and there is no success or satisfaction in weakness.

This is just where a great many people fail—in not bringing all of themselves to their task. The man who goes to his task with debilitated energy and low vitality, with all of his standards down and his ideals lagging, with a wavering mind and uncertain step, will never produce anything worth while.—Success.

Flying Fish.

Flying fish are very voracious. In their turn they are preyed upon by barracudas, sharks, dolphins, billfish, redfish and a hundred and one others. Nature has colored the flying fish protectively. The back is a deep blue, merging into the blue of the seas they frequent, so that they are invisible a few feet below the surface, while the underneath is a dazzling white, and to a fish that looks upward must merge into the light falling on the sea. In addition they possess the unique power of flight. Flying fish are about seven inches long, and the spread of wings is about equal to their length. The "wing" is of thin, gauzy substance, having stiffening sinews, like the fiber of a leaf, to strengthen it.

The Lilac.

Like the tulip, the lilac is believed to have come westward from Persia via Turkey in the sixteenth century. Its name is Persian. In the English language the color is called after the tree, but the tree originally received its name from a certain Persian and Sanskrit adjective meaning "blue" or "indigo colored." The "lilac" of Persia was the indigo plant. Probably the first mention of the lilac in English is in Bacon's essay on gardens. He favored the spelling "lelache."

Mixed History.

Around the great striking figures of history the small boy weaves curious answers. "Noises" mother pitched his little cradle within and without with pitch and left him there in the pool of Silem, but when the daughter of Solomon got the green leaf from the dove she hastened and brought food convenient for him, and the babe crowed thrice and grew up in her court.—Agnes Dean Cameron in Century.

How He Proposed.

It is told of Oliver Wendell Holmes that after many futile attempts to propose to the lady of his choice his courage failed. They were walking one pleasant afternoon on Boston Common and, coming to where the path separated, he asked, "Which path shall we take?" "This one," she replied, turning toward it. "For life?" he asked. And she said "Yes."

A Palpable Hit.

Osmond—Well, thank heaven, you've never seen me run after people who have money. Desmond—No, but I've seen people run after you because you didn't have money.

It is not necessary to tell all we know, but it is necessary to know all we tell.—Schiller.

To Make a Bride

Many a woman would make a beautiful bride but she is deterred from entering the married state because of ill-health.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"If women would study the laws of health and use a little more common sense there would not be such a large number today suffering with the ills peculiar to our sex," writes Mrs. Sallie Martin (President Mutual Social Science Club), of 30 South Halsted Street, Chicago, Ill. "Then when I received Dr. Pierce's Favorite Prescription, they would have a chance to get well. I used Dr. Pierce's Favorite Prescription three years ago and it cured me of female weakness of several years' standing. I know what I am talking about when I praise it and always know what the result will be where it is used."

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

TROT OR GALLOP?

What Do Fish Do, and the Seals and Insects and Worms?

Here is a problem for people with sharp eyes: As we all know, a horse when walking or trotting advances only one leg of each pair at a time, but when galloping lifts both fore feet together and then both hind feet. Now, the question is how other animals manage this matter. The birds, of course, flap both wings together, but which birds run and which hop? We human beings "trot" when we walk and "gallop" when we swim—that is, if we are using the plain breast stroke. The dog, however, "trotts" for both. Now, do the amphibious animals—the seals, otters and the rest—swim like men or like other four footed creatures?

Then there are the fish. One would rather expect that, as they move their tails from side to side, they would flap alternately with the fins, which are their hands and feet. Who can tell whether they do or not and whether all fish at all times follow one rule? By the way, how does a frog use its "hands"?

The great anatomist E. Ray Lankester has pointed out that, while the "thousand legs," such as our common gally worm, advance two feet of a pair together, the centipede, which are much like them, do exactly the opposite, and the swimming worms also alternate the stroke of each pair of paddles. I doubt if many people can tell on which system the caterpillar manages its dozen or so legs or whether the adult insect walks, trots, paces or gallops on its six. How does the spider use eight?

Altogether this is a large field for observation, a field, too, where any one may discover new facts as yet unrecorded, and thus add to the store of knowledge.—St. Nicholas.

TIGER HUNTING.

Luring the Fierce Animals by Imitating a Monkey.

To call a tiger the proceeding was as follows: The mikir, having first ascertained that a tiger was in the neighborhood, would climb into a well branched, leafy tree situated near where he supposed the tiger to be, and after hiding himself among the branches as best he could would commence to imitate the chattering of a monkey and break and drop twigs in the way that monkeys do.

Then he would let fall to the ground a bundle of rags weighted so that the thud when it struck the ground would sound as if a baby monkey had tumbled down from the tree, and at the same time would imitate the supposed baby monkey cries. This would be the supreme moment, for if a tiger were near it would often spring out in the hope of snapping up such a dainty morsel as a young monkey, and then a bullet from the gun of the hidden mikir might find its billet in the tiger's body. By this means the mikir was said to have killed a considerable number of tigers, and certainly the man's power of mimicry was wonderfully good.

The call for deer was of an entirely different nature, the sound imitated being the cry of a fawn, and as this cry sometimes attracted tigers, too, it had to be adopted with caution, because it was used only in open grass land, from which the caller would not have had much chance to escape were a tiger suddenly to put in an appearance.—London Field.

THE MAD DOG FALLACY.

With Some Suggestions on How to Treat a Bite.

In all my own experience with dogs I have not only never seen a "mad dog," but have never known a dog owner—and by that I mean a man who has had experience in keeping dogs—who has seen one. If, then, rabies is so exceedingly scarce, hydrophobia becomes really an impossibility, and the fear of it should be dismissed without a thought.

A person may get dog bitten; but, in the language of the New York tough, "Forget it!" If it is a bad bite it may twitch later on, and you may begin worrying, so it is a good plan to get rid of the twitching or throbbing in order to forget. I have been bitten so often that I think no more of it than a mosquito bite, and this is what I do:

If it is on the hand I put it under the faucet and wash thoroughly, with the object of cleaning the wound and preventing inflammation from any dirt or foreign substance. While doing this some one is getting the bicarbonate of soda and some clean rags or lint. With water a cream paste of the soda is made sufficient to plaster the wound well; then, putting some on a rag, it is applied to the wound and bound up. If in the course of an hour or more the application seems to be drying, a little water is poured on the bandage to soak through to the soda or the hand dipped in water.—James Watson in Country Life in America.

Fairy Rings.

Probably we have all seen in the fields or on the edge of the woods that circle called the fairy ring. Before fairy folk came to be doubted it was firmly believed these rings were the dancing ground of the fairies. In the moonlight the spirits danced, wearing down the grass under their feet. At least so our grandfathers said, but we must take science's simple explanation of it. A fungus plant will soon exhaust all the fungus food from the soil beneath it, so that only the spores which fall outside this barren spot will take root and flourish. So the ring is always widening outward, forming a perfect circle unless something interferes with it. The rings are abundant in wet weather, of a buff color or reddish.—St. Nicholas.

Evidence.

A green subaltern who was smoking while on duty was reminded by a sentry who had seen many years' service that it was against the regulations to smoke near his post, and he advised the subaltern to throw his cigar away. He did so and went on his rounds. The soldier then picked up the cigar and was enjoying it quietly when the subaltern returned.

"Why, how is this?" he asked. "I thought no smoking was allowed near your post?"

"That's true," replied the sentry. "I'm merely keeping this slight for evidence against you in the morning."

Trout Warnings.

In discussing whether or not trout hear a correspondent of the Amateur Sportsman asserts that they do not. In his opinion their sensitiveness to approaching danger is due solely to the vibration of the earth along the stream and the consequent vibration of the water. Thus persons standing perfectly still are able to talk and laugh with impunity, when the slightest bodily movement of either will frighten the shy fish.

The Real Victim.

"Was anybody punished for Gratton's misdeeds?"

"Yes."

"I understood he was acquitted."

"He was, but the business men on the jury lost money and missed their meals."

A Model Husband.

"Does your husband ever make you a promise and then break it?"

"Oh, yes. But Jack is so good! He's always more than willing to make me a new one."

Sorrow is a school of virtue. It corrects levity and interrupts the confidence of sinning.—Atterbury.

Nervous Women

Their Sufferings Are Usually
Due to Uterine Disorders
Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that Canadian women are nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly; or, 'Don't speak to me.' Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound. Miss Leah Stowell, of 177 Wellington St., Kingston, Ont., writes: Dear Mrs. Pinkham:—

"Your medicine is indeed a Godsend to suffering women, and I only wish that they all knew what it can do for them and there would be no need of their dragging out miserable lives in agony. I suffered for years with bearing down pains, extreme nervousness and excruciating headaches, but a few bottles of your Vegetable Compound made life look new and promising to me. I am light and happy and I do not know what sickness is, and I have enjoyed the best of health now for over four years. Lydia E. Pinkham's Vegetable Compound has sent sunshine into thousands of homes and hearts."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

Lucresia Borgia.

Lucresia Borgia was a singularly beautiful woman, with gray eyes and yellow hair. It was said of her that her upper eyelids drooped over more than half the iris, so as to give the eye a languid expression. She had a peculiar trick of looking steadily sideways at those with whom she conversed, and this peculiarity invariably excited distrust in those who observed it. She was singularly gifted in conversation and repartee and could hold her own in any company.

YOU MELANCHOLY WOMEN.

Can't even sleep—restless day and night—brooding over imagined trouble all the time. The disease isn't in the brain, but in the blood, which is thin and nutritious. Do the right thing now and you'll be cured quickly. Just take Ferrozone; it turns everything you eat into nourishment, consequently, blood containing lots of iron and oxygen is formed. Ferrozone makes flesh, muscle, nerve strengthens in a week, cures very quickly. You'll live longer, feel brighter, be free from melancholy if you use Ferrozone. Fifty cents buys a box of this good tonic—fifty chocolate coated tablets in every box—at all dealers.

The Average Storm Wave.

The average storm wave is thirty feet in height. The highest storm waves ever measured were between forty-four and forty-eight feet high. The gigantic force of storm waves is shown by the fact that at Skerryvore lighthouse, off the west coast of Scotland, a mass of rock weighing five and a half tons was once hurled to a height of seventy-two feet above the sea level, while a mass weighing thirteen and a half tons was torn from a cliff seventy-four feet high.

Words are in vain if there are not ideas under them.

Ayer's
Cherry Pectoral.

Doctors have prescribed this medicine for over sixty years. They heartily endorse it for all diseases of the throat and lungs, coughs, colds, bronchitis.

PROBABILITIES.

Toronto, July 28.—11 a. m.—Moderate southerly winds, fair and warm, followed by showers to-night and on Saturday.

THE LOCAL BUDGET

Minard's Liniment Cures Burns, etc. The good old annual it comes once a year—Sons of England excursion to Niagara Falls.

Miss McDermott, Miss Smith and W. H. Mitchell, of Wallaceburg, were visitors at the lacrosse game yesterday afternoon.

Inventor Mial E. Lilley, solicitor for the Electric Railway and the Power and Heating Company, is in the city to confer with the owners of business places on King street from the Power House to the C. P. R. station, and he will be pleased to meet any of our citizens in the Garner House parlors on Monday evening at eight o'clock, interested in the heating proposition.

Chas. Mahoney, Provincial Detective, of Windsor, who was in the city last evening, gives as his opinion that the young man who stole \$10 from Mrs. Douglas's boarding house last week came from Detroit. Mr. Mahoney seems to think that the young man came here intending to do a big job and was scared out and cleared back to Detroit.

Mial E. Lilley, with other gentlemen, is in this city to discuss with the property owners on King street situated between the Electric Railway power house and the C. P. R. station, the proposal for heating their properties. These gentlemen are thoroughly conversant with this proposition, and all those directly interested, or any others of our citizens, are requested to meet in the parlors of the Garner House at 8.30 on Monday evening to hear what these gentlemen have to say on the subject.

CLEVER WORK

Police Officer Dezella Lands a Man Named Metcalfe Who was Wanted on a Charge of Robbery.

Police Officer Peter Dezella has just completed a clever piece of detective work for which he deserves to be highly commended.

Yesterday morning the local police authorities received a card from detectives Campeau and Mahoney, of Windsor, warning them to be on the lookout for a young Englishman named Metcalfe, who was wanted on a charge of robbery. The information gave a description of the man wanted.

Dezella was given the description in the morning and he landed the man at the Grand Trunk station yesterday afternoon. Metcalfe tried to get away but it was useless to evade the big officer of the law. He was locked up and Mr. Mahoney took him to Windsor last evening.

After leaving Windsor Metcalfe had stopped at Stoney Point, got a clean shave, taking off his moustache, purchased a new suit of clothes, new cap and a pair of gaiter shoes. In spite of his changed appearance he was detected by Mr. Dezella. Metcalfe had been in Chatham only a short time when he was detected and caught.

STOLE THE MELONS

About a week ago Ed. Northwood was unloading a car of watermelons at the Grand Trunk station. A number of small boys took advantage of the opportunity to get some melons and stole about 30 of them. One of the boys has been caught and appeared in the Police Court this morning. The case was adjourned until Monday morning.

"The great difficulty is that there are too many boys in the city with nothing to do," commented Judge Houston. "The old saying that something will be found for idle hands to do, is quite true, General Booth made a wise statement when he said that people are given too much. The way he advised for treating such was to tell them there is a wood pile and here is a saw. Your breakfast is on the other side of the pile."

Peter Dezella has been working on this case for the past week and after much difficulty has managed to locate one of the boys.

Hot, Cold, Medicated and Electric BATHS

Massage (general and facial) electro massage and treatments for all functional troubles. Patients treated at office or at home as desired. The latest and best system of physical culture taught.

**KILLS 23 PASSENGERS**

Car, Lifted From Frame, Crushes 20 to Death Outright.

Electric Train Collides With Stationary Cars at Liverpool—Architect's Ready Wit Saves Others From Horrible Death—Immediately After Crash Came the Wreckage Burst Into Flames—Car Smash to Pieces.

Liverpool, July 28.—An electric express train on the Lancashire & Yorkshire Railroad, bound from Liverpool to Southport, collided last evening with an empty stationary train at the Hall road station, causing the death of twenty-three persons and the injury of many others. The first car of the express, which was crowded, was smashed to pieces and only six of its occupants escaped. The road was recently given an electric equipment.

This is the first serious accident that has occurred on an electric railway in England, and it filled with horror the numerous waiting passengers standing at the Hall road station, who were spectators of the disaster. The collision lifted the first car of the express completely off the steel frame and crashed it down again on the unfortunate passengers, twenty of whom were killed outright.

More of them would have been killed but for the presence of mind of a Liverpool architect, who seeing that a collision was inevitable, shouted to his fellow passengers to throw themselves upon the floor of the car.

Almost immediately after the crash the wreckage burst into flames. The mangled bodies of the dead and the cries of the injured vainly beseeching that they be extricated from the burning wreckage formed a terrible scene, and many women on the platform fainted. The victims included several women and children. Fortunately, the badly injured number comparatively few.

The cause of the collision is unknown. Fifty May Be Dead.

Detroit, Mich., July 28.—A Tribune special from Ironwood, Mich., says: "A passenger train is reported wrecked near here on the Duluth, South Shore & Atlantic Railroad. It is feared that fifty people have been killed. Most of the victims were Finns on their way to a temperance convention in Ironwood."

Six Killed and Three Hurt. Amsterdam, N. Y., July 28.—Six men were killed and three others probably fatally injured by being struck by train No. 58 on M. Y. C. at Tribe Hill, six miles west of this city, shortly before noon yesterday.

Woman Killed By Train. Belleville, July 28.—An accident occurred on the Bay of Quinte Railway, near Allan's. Mrs. Geo. Young, who had been out berry-picking, was walking on the track, and being deaf, did not hear the whistle of an approaching train, which struck and mangled her terribly. She died shortly after being picked up.

A boy, Elmer Williams, while picking wild raspberries on the river bank here, fell down the bank and broke his arm just above the wrist.

Harbor Drugged; Body Found.

Pictou, July 28.—Thomas Fegan was missing from his home since Monday night, when he was last seen going towards Rathbun's dock. His friends became alarmed and instituted a searching party to drag the harbor for his body. A grapple was put down off the Rathbun dock and the very first time the body was brought up. Deceased was 40 years old, the son of the late Capt. John Fegan. He was a sailor and carpenter.

Killed By a Slab. Bark's Falls, July 28.—While working in the Knight Bros. Co. mill a slab thrown upon a revolving saw was projected backwards with great velocity, striking Frank Hunter, a young man about 25 years of age, in the abdomen. Internal complications set in, and he died last night.

A Dynamite Pencil.

Guelph, July 28.—Edward Hefferman, a young man of this city, picked up what he thought to be the head of a pencil, and while hammering at it an explosion occurred, and his two hands were badly lacerated and his chest burned. The object contained dynamite. Blood poisoning may develop.

LOST IN ONTARIO WOODS.

Young Man Found After Eight Days a Raving Maniac.

Temiskaming Station, July 28.—District Engineer Molesworth has returned from a trip of inspection of the transcontinental surveying parties under his charge.

At one of the camps visited they found a young Englishman who had been lost in the woods for eight days, and it was only by chance some Indians had found him and brought him in. When found he was almost in a state of nudity and was a raving maniac. For several days he remained in this condition, but has gradually regained his mental balance.

Many such cases are reported from the north, and in two instances the searching parties found only the remains of the men who had gone astray.

Boy wanted, about 15 years of age, to work in bindery. Apply at Planet Office.

The Writing on the Wall

May not cause you despair, even if it reads "Your sight is failing." I have had long experience in correcting eye trouble, and will charge you nothing to make a scientific test and only moderate price for Glasses Properly Fitted.

THE LETTER BOX

ANOTHER TOM LAWSON.

To the Editor of The Planet: Dear Sir,—"Frenzied finance" is attracting a good deal of attention at the present time. The citizens of Chatham have now a chance to study it at "first hand" in the city's dealings with the electric railway.

I have taken some little pains to ascertain the facts which I here submit.

The city loans the railway company \$50,000, (fifty thousand dollars), which, at the expiration of five years, the company is to pay back to the city in twenty-five equal annual payments, without interest; that is, the company will apparently pay to the city two thousand dollars a year for twenty-five years.

I make the following statement, after careful thought, and after consultation with some of the leading financial experts of the city:

"THE CITY WILL NEVER RECEIVE ONE SINGLE DOLLAR OF THE ORIGINAL LOAN OF FIFTY THOUSAND DOLLARS. The plain facts are these:

"The city borrows fifty thousand dollars for the railway, for which it, the city, pays four per cent. per annum; that is, two thousand dollars a year for interest on the loan.

"At the end of that time the railway begins to pay two thousand dollars a year to the city, simply enough to pay the interest. The railway company pays this sum for twenty-five years, simply keeps the interest paid on the loan. At the expiration of thirty years the company has liquidated its debt to the city and the original loan has not been reduced by one cent. The city will have in the railway ten thousand dollars; first five years' interest on loan and original loan fifty thousand dollars, making in all sixty thousand dollars. And what does the city get for the investment?

"Certainly the citizens never contemplated any such scheme of 'frenzied finance' when they voted on the by-law, and just as certainly the Council which enters into such a business scheme is deserving of the severest censure.

"And yet in the face of such a condition of affairs The Planet openly advocates the shouldering of further heavy responsibilities on the ready overtaxed citizens by either widening the present Third street structure or building a new one. It is the most monstrous proposition that I have ever known to come from a reputable journal.

You are, etc.

A. W. THORNTON.

REVOLUTION BY REFERENDUM

Probable Recommendation of the Norwegian Government. Referendum. Christiansia, July 28.—The Norwegian Government yesterday proposed to the Storting the holding of a referendum on the dissolution of the union with Sweden. The proposal was referred to a special committee.

Britain and Recognition. London, July 28.—No application has yet been made to Great Britain for the recognition of Norway as an independent state, and it is not expected that such an application will be made until Sweden and Norway arrange their differences. The British Government feels it could with perfect propriety recognize Norway, but that out of regard for Sweden it will wait an agreement on the subject of the dissolution of the union.

To Treat With Norway. Stockholm, Sweden, July 28.—Both Houses of the Swedish Parliament yesterday morning approved the report of the special committee appointed by Parliament to deal with the crisis between Norway and Sweden.

BRITISH FLEET FOR BALTIC.

Admiralty Affirms That It Is Only For Ordinary Manoeuvres.

London, July 28.—The British Channel fleet sent for the Baltic Sea August 20 and will remain there through September.

It has been years since a British fleet appeared in that sea. The announcement is connected with the recent tour of Emperor William's recent tour and the visit of a German squadron to Scandinavian waters.

The cruise of the British fleet is regarded as designed to counteract the preponderance of German influence in Scandinavia.

The Admiralty, however, discourages the idea of politics having any bearing on the cruise, and says that the Baltic is an open sea and that the fleet is simply going there to execute manoeuvres, ceremonial visits not being contemplated.

DECLINE A QUICK HEARING.

Privy Council Again Rules in Canada's Alien Labor Appeal.

London, July 28.—(C.A.P.)—In the case of the Attorney-General of Canada v. Cain, arising from the Pore Marquet decision, Deputy Minister of Justice Newcombe, for the Dominion, made application to the Privy Council for speedy hearing of the appeal, leave for which was granted Wednesday.

McKenzie, for the respondents, opposed the application. The court declined Newcombe's application, which he is open to renew in November.

In granting the leave to appeal yesterday the Privy Council stated that it was not likely to be given within 12 months.

Judgment Reserved.

London, July 28.—(C. A. P.)—The Privy Council has reserved judgment in the Kitty D. v. the King appeal.

Excursion—Five hours in Detroit with the Victoria Avenue League on Tuesday, August 1st. Tickets 50c.

Union Must Not Interfere.

Toronto, July 28.—Unionism was given a sore blow yesterday in the decision of Judge Teitel in the Ber- in case, which has been hanging fire for the past two years. By the decision an officer of the union in coming upon the premises and ordering a man to quit work holds himself liable to a fine. The case just decided was one in which a contractor of the Town of Berlin was building a house, and the secretary of the Bricklayers' Union came upon the scene and stated that as the foundation had been laid by non-union men the union bricklayers employed would be forced to quit work. This was done and the suit resulted.

PACIFIC COAST EXCURSIONS.

During June, July, August and September the Chicago and North Western Railway will sell from Chicago round trip excursion tickets to San Francisco, Los Angeles, Portland, Ore., (Lewis & Clarke Expedition), Seattle, Victoria and Vancouver at very low rates. Correspondingly cheap rates from all points in Canada. Choice of routes, best of train service, favorable stopovers and liberal return limits. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King Street, Toronto, Ont.

THE LOCAL BUDGET

Five hours in Detroit August 1st. C. S. Coatsworth, of Romney, was in the city yesterday.

John Lee, of Highgate, is spending a couple of days in town.

H. M. Pardo, of Cedar Springs, was a visitor in the city yesterday.

County Commissioner Jas. Hornall, of Muirkirk, is spending the day in town.

Mrs. Burnie, of Dresden, is the guest of Mrs. W. M. Drader, Dufferin avenue.

J. H. Thompson and Robert Deyo, of London, are spending the day in the city.

Buy your fancy hosiery to-morrow at Thibodeau & Co., all our 25 and 35 cent quantities at 19c.

A new up-to-date house for sale or rent with all modern conveniences, within ten minutes walk of post office. Apply Box 239 or phone 316.

To-morrow 25 and 35 cent fancy house at Thibodeau & Co. for 19 cents, fast black hose worth 17 cents for 12 1-2 cents.

A pleasant event occurred at the Central-Drug Store this morning when Mr. J. N. Harmer was presented with a pearl set scarf pin by Miss Russell on behalf of the staff prior to his leaving for Toronto to attend the Ontario College of Pharmacy. Mr. H.'s reply was very suitable to the occasion.

Four goods—good crowd, good time, good people, good train service—this will be assured those who go to Sarnia and Lake Huron Park with the A. O. F. on Monday, August 14th. Train leaves G. T. R. depot at 8 a. m., arrives Sarnia 10.30 a. m. Returning, leaves Sarnia at 7 p. m. Fare, \$1.10.

Mr. and Mrs. R. A. Harrington, Mr. and Mrs. G. W. Wands and Mrs. Turner, leave to-morrow afternoon for Atlantic City, New Jersey, to attend the big convention of the Supreme Court of the Independent Order of Foresters. They will leave Detroit to-morrow evening on a special train and will be gone about two weeks.

Les Appleford, of Seaford, is calling on his old Chatham friends to-day. He has been visiting in Wallaceburg and is now on his way to Blenheim, where he will spend a few days before returning home. Mr. Appleford is proprietor of the Seaford News, a weekly paper. He was at one time proprietor of the Wallaceburg Herald. Les is not playing lacrosse now. He says he is getting too old for the game.

THE RIGHT STAND

"The Planet is to be commended for its wise counsel in the electric railroad difficulty," said Ald. Wm. Potter this morning, "and its thoughtful view of the situation is meeting with general public approval. The city can only prosper as it should if the Council and citizens honestly and sincerely seek first its best welfare."

"I think it should be pointed out, too, in justice to the present Council that it should not be blamed for the mistakes of its predecessors. If the former Council overlooked matters in the agreement and by-law it is hardly fair that the new aldermen should be made to assume the responsibility for the error."

Drew & McCallum's Excelsior ready mixed paints are guaranteed. Price per gallon, \$1.40.

It is much easier to profit by the mistakes of others, than by our own.

SUPPORT OF CITIZENS

"I was glad to see The Planet take such a thoughtful and wise editorial stand on the embroglio with the electric railway," said School Trustee John McCorvie this morning. Such a stand will have the hearty support of the citizens. The position adopted by your contemporary and some carelessly talkative citizens is only calculated to do our community harm. Chatham, with its present high tax rate, cannot afford to be thoughtlessly plunged into long and expensive litigation, and the wiser and more thoughtful counsels should prevail. I must congratulate The Planet on the careful and wise stand it has taken in this matter."

Mr. and Mrs. Baikie, Lansdowns avenue, took a trip to Detroit in their automobile. When returning home on Wednesday a fire bursted near Tecumseh, causing a delay of eight hours.

Five hours in Detroit August 1st.

Estimates promptly furnished. Twelve years experience. JOSEPH GALLIPPO near corner of Kent and Btch St. Chatham

IN the Imperial Oxford we have not only given to the women of Canada the most perfect baking and roasting range but we have also produced the most economical.

The oven of the ordinary range is raised to a baking temperature by the direct heat of the fire on the side of the oven. To keep that oven at a sufficiently high temperature to bake or roast by, you must be continually poking the fire and adding fuel to it.

As the oven of the Imperial Oxford Range is heated by our patented Diffusive Flue, the temperature of the oven remains steady until the baking is done, without the necessity of touching or adding fuel to the fire.

Imperial Oxford Range

This fact is easily demonstrated. If, when an Imperial Oxford is going, you were to stop the inlet of this flue in the bottom of the range you would find by the thermometer that the oven was getting colder, and that to keep it at a baking temperature you would have to keep poking the fire and adding more coal just as with an ordinary range.

If your dealer doesn't handle the Imperial Oxford, write to us for catalogue and information as to where you can see it.

ON EXHIBITION AND For Sale by Messrs. Drew & McCallum, Chatham

MUNICIPAL MATTERS.

Proceedings at Union of Canadian Municipalities at Winnipeg.

Winnipeg, July 27.—Features of the opening session of the Canadian Municipal Convention yesterday were addresses by Hon. Louis Beth, city comptroller of St. Paul, Minn., and by Mayor Ellis of Ottawa.

Mr. Beth spoke on "Municipal Financing and Accounting," a subject on which he has been invited to speak at the ninth annual convention of the League of American Municipalities, to be held at Toledo in August. "The Ottawa Electric Light" was taken up by Mayor Ellis.

The feature of the afternoon session was an excellent address by F. W. Dargatzis, telephone expert from Ottawa, which was listened to with deep interest. Joshua Dyke, ex-mayor of Port William, gave an able review of municipal ownership in the twin towns of Port William and Port Arthur, showing that municipal ownership had been made to pay.

At last night's session John T. Hall, assessment commissioner of Hamilton, delivered an address and Harry Bragg, editor of The Canadian Municipal Journal, entertained the delegates to a lecture on "Canadian Cities, Their Position, Location and Attractions." The convention will finish its work with this morning's session and the afternoon is to be spent at the fair.

MORE POWER FOR COMMISSION.

Ontario Government Hands Over Control of Temiskaming Town Sites.

Toronto, July 27.—The Government has handed over to the Temiskaming Commission the town sites along the railway, which will enable them to have a substantial reserve fund.

The commission has also been given power over the minerals. The road-bed, especially around Cobalt, abounds with mineral. In disposing of mineral claims they will retain a proprietary interest in them, enabling the Province to benefit by the mineral wealth.

T. J. Patin of Little Current will represent Ontario in the survey of the boundary line between Quebec and this Province from a point 46 miles north of Lake Temiskaming, near James Bay. The surveying party expect to set out about August 1 and will be engaged for only two months this year, as Lake Abitibi freezes over about the middle of October, rendering navigation impossible.

Fortune is apt to strike the man who keeps on the move.

You may have little power, but you can use it wisely.

No man has a narrower outlook than he who is on the lookout for himself alone.

Good Casters

ON

Ives' Brass Beds

The caster on a metal or brass bed is important. An imperfect caster is liable to injure carpets or rugs while on polished floors it always leaves marks.

Ives' Brass Beds have a double wheel ball bearing caster. The double wheel divides the weight and its wide face does not mark the floor, while it turns so easily to the motion of the bed that it never injures carpets.

It is attention to important small things that makes Ives' beds the finest in America.

Ask to see an Ives Brass Bed and examine it closely.

THE WORD STAPLE.

How It Came to Be Applied to Articles of Commerce.

The word "staple," applied as an adjective to distinguish certain articles of commerce, had its origin in England in the early part of the thirteenth century. The merchants of the staple were the first and most ancient and were so called from their exporting the staple wares of the kingdom—namely, wool, leather, skins, lead and tin. The king's staple was established in certain towns, and certain goods could not be exported without being first brought to those towns and rated and charged with the duty payable to the king. The grower of wool contented himself at first with the sale of it at his own door or at the next town. Thence arose a class of men who bought it from him and became a medium between the grower and the foreign cloth merchants. In 1319 the company had the legal form of a corporation and was the oldest mercantile corporation in England. Edward II. had for the better collecting of duty on wool ordained that the staple for it should be a certain town in the Netherlands, and Antwerp was fixed upon. It was afterwards successively removed to St. Omer's, Bruges, Brussels, Louvain, Mechlin and Calais. In 1353 the staple was fixed at Westminster, which caused so great a resort of traders that from a village it was raised to the dignity of a town. In 1373 it was removed to the place still named Staple Inn, in Holborn. Hence "staple goods" are such as have been duly appraised and have paid the regular customs duties.

MILLET'S INFLUENCE.

A Host of Painters Followed Him in Deploring Peasant Life.

In his own words Millet tried to depict "the fundamental side of men and life." His subject was the peasant, life—as one sees in opera or the pretty, sentimental aspect of it, but the actual drama of labor continuously proceeding through the four seasons, the "cry of the soul," echoing in the hearts of the patient, plodding, God-fearing toilers. Everything was typical. We have spoken of the "Sower." Of another picture the critic Castagnary wrote: "Do you remember his 'Reaper'? He might have reaped the whole earth!"

Everything that Millet did was full of a deep seriousness and sincerity. He never was an "easy" painter, so that his greatness as an artist is perhaps more clear in the black and white than in the colored subjects. Certainly in his crayon drawings, lithographs and etchings he proved himself to be one of that limited number of artists who may be reckoned master draftsmen. Moreover, the character that he expresses is of that grand and elemental quality which sometimes reminds us of Michael Angelo.

Millet's influence produced a host of painters of the peasant, among whom the strongest are the Frenchman L. Hermitte and Israel, the Dutchman. These, like him, have represented their subject with sympathy and with understanding also.—St. Nicholas.

The British Speaker.

Not only does the speaker of the house of commons enjoy the material benefits of a lordly residence at Westminster palace, a salary of £5,000 a year, £100 a year for stationery and two hogheads of claret and 2,000 ounces of plate on election, but he enjoys the less substantial advantage of taking precedence of all other commoners. By an act of 1689 it was provided that the lords commissioners of the great seal not being peers "shall have and take place next after the peers of the realm and the speaker of the house of commons."—London Chronicle.

An Eye Test.

Most people believe that they see the same with both eyes. That this is not the case one can easily convince himself by the following simple experiment: Cover one of the eyes with a hand or a bandage and let the experimenter attempt to snuff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching, under-reaching or putting the fingers too far to the right or left of the flame. With both eyes normal and open the accommodation for distance and direction is instantaneous.

A Curious Tablecloth.

The German emperor owns a curious tablecloth presented long ago by the women of Silesia-Holstein. It is entirely worked over with moral sayings that include the following: "Do not believe all you hear; do not say all you know; do not do all you would like." "With these here herte spass (fun)—be careful with thy glass." "First weigh and consider, then dare." "German house, German land—guard it, God, with mighty hand." "Contentment is a rare art."

Agreed With Her.

Tramp (at the door)—If you please, lady—Mrs. Muggs (sternly)—There, that will do. I am tired of this everlasting whine of "lady, lady." I am just a plain woman, and—Tramp—You are, madam—one of the plainest women I've ever seen and one of the honestest to own up to it.

A Reproof.

"Oh, children, you are so noisy today. Can't you be a little quieter?" "Now, grandma, you must be more considerate and not scold us. You see, if it wasn't for us you wouldn't be a grandma at all."

His Temper.

Bloobs—Wizwag was a frightfully bad temper. Slobbs—Well, it doesn't seem to make him any more amiable when he loses it.—Philadelphia Record.

... FOR ...

Diarrhoea, Dysentery, Colic, Stomach Cramps, Cholera, Morbus, Cholera Infantum, Seasickness, Summer Complaint, and all Looseness of the Bowels in Children or Adults.

DR. FOWLER'S
Extract of

Wild Strawberry

is an instantaneous cure. It has been used in thousands of homes for sixty years, and has never failed to give satisfaction. Every home should have a bottle so as to be ready in case of emergency.

Mrs. GEORGE N. HARVEY, Rosebush, Ont., writes: "I can recommend Dr. Fowler's Extract of Wild Strawberry as the best medicine I have ever used for Diarrhoea and all summer complaints. I always keep it in the house and praise it highly to all my friends."

LORD'S DAY LEGISLATION.

Privy Council Refuses Leave to Appeal the Case.

London, July 27.—Judgment was given yesterday by the Privy Council on the petition of the Dominion Government for leave to appeal the Lord's Day case, in which it was recently held that the major part of the Lord's Day legislation now in force in the various Provinces was beyond the powers of the Provinces. The application was refused, although Mr. Newcombe, Deputy Minister of Justice, said the matter was one of great public interest to the Dominion and the Provinces, which should know their representative jurisdictions. The court declined to hear Mr. R. U. Macpherson, who appeared for the Lord's Day Alliance, supporting the petition.

The meaning of this action, in absence of the reasons of the Privy Council in denying leave to appeal, is that the Dominion alone has the right to legislate in matters pertaining to Lord's Day observance.

Appeal Will Be Heard.

London, July 27.—(C. A. P.)—The Privy Council will hear the appeal for the Dominion Government against the judgment of Justice Anglin that the officials of the Pere Marquette Railway brought to Canada in violation of the Alien Labor law cannot be deported because of the Dominion's lack of power to do so. Yesterday morning the Privy Council granted the application of the Attorney-General of Canada for special leave to appeal the case against Cain and Ghahula. Their lordships said the Dominion must pay the respondents' costs in any event. The appeal is on a purely hypothetical case, as the court is not likely to give a decision within the statutory twelve months' period allowed for deportation.

No Truth in It.

Toronto, July 27.—Regarding the St. Thomas despatch which stated that the C. P. R. Railway had assumed complete control over the Pere Marquette, General Superintendent Timmerman has entered a complete denial.

Autosed Too Fast and Was Fined.

Brockville, July 27.—Herbert Vance, chauffeur for Douglas Ogilvie, who is summering in Brockville, was fined \$5 and costs yesterday for running his machine at speed exceeding ten miles an hour through the town, contrary to the provisions of the act recently passed.

Fall Wheat in Alberta.

Winnipeg, Man., July 27.—The latest estimate of the fall wheat yield in Alberta is placed at \$8,000,000. The fall wheat harvest has commenced. The yield is running thirty-two bushels to the acre.

Mr. Spencer on Duty.

Ottawa, July 27.—J. B. Spencer, the newly-appointed Deputy Live Stock Commissioner, has arrived in the Department.

Minard's Liniment Cures Dandruff

I WILL CURE YOU FIRST THEN YOU PAY ME

The physician who has not sufficient confidence in his ability to cure his patients first, and receive his pay afterwards, is not the man to inspire confidence in those who are in search of honest treatment.

My acceptance of a case for treatment is equivalent to a cure, because I never accept incurable cases. I am assisted to receive the money for the value I have given the patient, but I expect to prove my worth and show positive and satisfactory results before I ask for the fee. So, should I fail to cure the case, the patient loses nothing. I cure what I cure, and I give what is worth more than money—I have given him his health again. I am the very first specialist in the United States who has had sufficient confidence in his ability to say to the afflicted,

NOT ONE DOLLAR NEED BE PAID UNTIL CURED

There is no guess work, no experiment about my method. I am a known expert in my chosen specialties, and offer you the best and only the best treatment. When your life or your health is at stake, inferior treatment which leaves after-effects worse than the disease itself, is dear at any price.

I Have 14 Diplomas and certificates from the various colleges and I state boards of medical examiners, which should be sufficient guarantee to my standing and abilities. I make no difference who has failed to cure you, it will be to your advantage to get my opinion of your case free of charge.

PHYSICAL DEBILITY

The Latest Method Treatment is a heaven-sent boon to nervous sufferers. There are scores and hundreds of persons suffering from severe nervous disorders resulting from overwork, hurry, worry, business and domestic cares, bereavements, dissipation, etc. To them life is one continual round of misery, with peace, comfort and happiness are impossible. They suffer from headache, loss of memory, mental depression, strange sensations, dizziness, restlessness, irritability, constant indigestible fear, torpor, sleeplessness, weakness, trembling, heart palpitation, cold limbs, utter fatigue and exhaustion. In this class of cases almost immediate relief is afforded by my treatment. The use of narcotics and poisonous stupefying drugs is done away with, and permanent cures accomplished at a moderate charge.

I Cure Nervous Debility, Varicose, Stricture, Early Decay and Waste of Power, All Nervous, Chronic, Blood and Skin Diseases.

X RAY EXAMINATION, ADVICE AND CONSULTATION FREE

HOME TREATMENT

If you are in or near the city you should apply for treatment in person, but if you live too far away, write me a full and unreserved history of your case. You will receive as careful, conscientious and painstaking attention as if you were in my office daily. As men in different parts of Canada and Mexico, as well as all over the United States, are being cured by my system of home treatment, I feel fully justified in claiming that it is the most perfect and successful system ever devised. All physicians coming to me for consultation over obstinate cases which they are occasionally called upon to treat will receive the usual courtesies of the profession. Medicines for Canadian patients shipped from Windsor, Ont., all duty and transportation charges prepaid.

DR. GOLDBERG, 208 Woodward Ave., Suite 412 Detroit, Mich.

SURPRISE SOAP

G. T. R. MUST OBLIGE C. P. R.

Railway Commission Orders Inter-Switching at London

Ottawa, July 27.—The Railway Commission has handed out judgment in the London inter-switching case. The Grand Trunk is ordered to afford all reasonable and proper facilities to the Canadian Pacific for receiving, forwarding and delivering all traffic offered to it, and for the interchange of traffic between its lines and those of the C. P. R. Rates to be paid are to be those proposed for by any joint tariffs in existence between the railway companies interested. When such do not exist the figure authorized is one cent per hundred pounds, but not less than 35 per cent. For immediate switching between the point of connection and the connection of the G. T. R. with the Pere Marquette the rate is to be 35 per cent.

WEARING AWAY YOUR LUNGS?

Yes, and your strength, too. Stop coughing and get rid of that catarrh. The one remedy is "Catarrhazone," which goes to the diseased tissues along with the air you breathe; it can't fail to reach the source of the trouble; it's bound to kill the germ, and as for healing up the sore places, nothing can surpass Catarrhazone. If you don't get instant relief and your mate cure you will at least get your money back. For Catarrhazone is guaranteed to cure Catarrh in any part of the system. You run no risk—therefore use Catarrhazone—at our expense if not satisfied.

GREECE EXTENDS PREFERENCE.

Good For Britain and Colonies Under Reciprocal Terms.
London, July 27.—(C. A. P.)—An official statement has been issued by the Board of Trade giving particulars of the new commercial arrangement with Greece. Goods produced and manufactured in any part of the British Empire are to enjoy conditionally the most favored nation treatment in Greece so long as such portion of the British Empire accords to goods of Greek origin treatment as favorable as it gives the goods of any other foreign nation. The duty on cod and stock fish of 3s 6d a cwt has been reduced to less than half, as a concession to Newfoundland in return for the free admission of Greek currants.

A BAD BRUISE.

Often causes a good deal of trouble. The best cure is a prompt application of Dr. Hamilton's Pills, which instantly stops pain, prevents swelling, removes thickening and discoloration. Nervous system, no strong, so strong, so strong, so swift to destroy pain. It is a lot of comfort for not us—us—us. For nearly years it has been the standard of liniment of Canada.

Safe Blowers at Welland.

and, July 27.—Early yesterday morning the safe in the Welland post office was blown up by robbers, but were unsuccessful in securing any valuables. They covered the safe with mail to deaden the explosion, and Dr. Hamilton's Pills were upstairs in the safe. The safe was blown up, and then stole a sorrel mare and a wagon from Mr. McQueen's farm.

YOU'RE ONLY HALF SICK.

But nevertheless you feel pretty badly. Best prescription is Dr. Hamilton's Pills; they tone up the entire system, strengthen the stomach, elevate your spirits and make you feel better in one day. It's by cleansing the body of wastes, by purifying and enriching the blood that Dr. Hamilton's Pills accomplish so much. Very mild, exceedingly prompt and guaranteed in every case. Your druggist sells Dr. Hamilton's Pills of Mandrake and Butterbur in yellow boxes, 25c, each, or five for \$1.00. Get the genuine.

He who loves his home is never an absentee in spirit.

WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks, the sores have healed and best of all the mare is growing well, and is NOT WOUND. As is most always the case in horse wounds.

F. M. DOUCET.

Weymouth.

CANADA'S POPULATION.

Figures Which Show its Disposition and Indicate Latent Strength.

Canada's population is 74 per cent. rural; 26 per cent. urban.
Canada has 61 centres of 5,000 population and over, 31 of population of 10,000 and over.
Canada's centre of population is near Ottawa, and is moving west.
Canada's western population 50 years ago, 2,000. Today it is estimated at 800,000.
Canada's western population is 75 per cent. British and Canadian born; 25 per cent. foreign born.
One out of every 1.2 in Canada is of French descent.
Quebec Province has 1,323,115 of French descent and 290,000 British.
Ontario Province has 150,000 of French descent.
There are 10,000 of French descent in the Canadian west.
Density of population to square mile: Prince Edward Island, 51.6; Nova Scotia, 22.0; New Brunswick, 11.8; Ontario, 9.9; Quebec, 4.8; Manitoba, 3.9; British Columbia, 0.4.

Immigration Statistics.

Canada received 130,330 immigrants, fiscal year to June 30, 1904.
Canada has received half a million immigrants in nine years.
Canada received in 1904, 50,374 from Great Britain, 45,171 from United States.
Sixty per cent of the immigration of 1904 was agricultural in its character.

Seventy-five per cent of the immigrants of 1904 speak English.

Canada paid \$5.71 per head to bring in and locate the 1904 immigrants.
Canada will, it is estimated, receive 150,000 immigrants in 1905.

Each immigrant is estimated to be worth \$1,000 to Canada.

167,000 Americans have come to Canada in the past seven years.

They brought, in cash and settlers' effects \$5 millions—\$350 per head.

27 different nationalities were represented in the foreign immigration of 1904.

Canada has 60,000 Galicians from Austria (including 7,729 arrived in 1904).

The Doukhobor migration of 5,000 from Russia to Canada in 1899 was the greatest exodus of a whole people ever known.

The Doukhobors earned, in 1903, \$110,000 in railroad work and spent \$300,000 in trade.

The Doukhobors have 423,700 acres in land, of which 130,000 have been taken up by them as homesteads.

Canada has 7,000 Moravians, 20,000 Mennonites, 20,000 Hungarians.

Canada has 20,000 Chinese and 3,612 Japanese.

Canada has received 165,000 British immigrants in the last nine years.

For every British immigrant in nine years there has been an American.

Sixty per cent of total immigration for nine years has been English-speaking, 40 per cent foreign.

The British immigration of 1904 increased 5,562 over 1903, the American decreased 4,302.

The immigration of 1904 was double that for 1902; treble that of 1899.

The Country's Commerce.

Canada's total volume of trade, year ending June, 1904, 464 millions; imports, 253 millions; exports, 211 millions.

An increase of 5 millions over 1903, and 50 millions over 1902.

Canada's volume of trade has more than doubled in ten years.

Canada's total revenue, year ending June, 1904, 78 millions.

Canada's revenue, 1870, 15 millions.

Canada's expenditures, 1904, 55 millions.

Canada's surplus for year ending June, 1904, 15 millions.

Increase in Canada's trade, 12 years, 1893 to 1904, 230 millions.

Since Confederation the exports during 28 of the 38 years were greater to Great Britain than to the United States.

At Confederation 60 per cent of Canada's export trade was to the United States, 30 per cent to Britain.

In 1903, 58 per cent was to Britain and 42 per cent to the United States.

31 per cent of the goods bought, in 1904, goods from Canada to the value of \$4 per head; United States bought from Canada at the rate of less than \$1 per head.

Canada's volume of trade per head, 1904, \$35; United States volume of trade per head, \$33.

Canada's relative percentage of commercial growth for 7 years, 1895-1902, was 107 per cent, as against 47 of United States, 26 of Britain, 38 of Germany, 21 of France.

Canada's net public debt is 260 millions—\$45.55 per head.

Canada pays 11 millions annually as interest on her debt.

Britain is Canada's best customer—buying 58 per cent of Canada's exports.

The industries of Canada total \$2,349,717,000.

Value of products of industries (1901), \$962,987,759 on 41 per cent of capital invested.

Canada has 12 commercial agents abroad.

Canada's manufacturers have an invested capital of 441 millions.

One hundred millions of United States capital is invested in Canada.

Canada has 112 factories, employing 306,000 hands. Wages, 1901, 85 millions.

Value of manufacturing products, 1901, 452 millions.

Canadian banks have loaned 416 millions to Canadian manufacturers.

Our Wheat Fields.

Canada has the largest wheat field in the world, 300,000 miles.

Canada's wheat-growing area in the west is (per Prof. Saunders' estimate) 171 million acres in extent.

Canada has less than 5 millions of this area under cultivation, or only 3 per cent.

If one-fourth of the 171 million acres were under wheat, it would supply Britain three times over and the home market as well.

By 1915 there will, it is estimated, be 10 million acres under wheat, yielding 200 million bushels.

The Canadian west is capable of producing 3 billion bushels of wheat.

The Canadian west is capable of producing 20 times Britain's annual imports of wheat.

Canada's wheat crop, 1904, 80 million bushels (60 millions in the west).

Canada's grain crop of all kinds reached, 1903, 275 million bushels.

REMEDY FOR HAY FEVER

After Trying Other Treatments, Hyomei Was Used With Perfect Success.

Before the discovery of Hyomei the only advice a physician could give his hay fever patients, was to go away from home, but now anyone who is subject to this disease can, if Hyomei is used, stay at home without fear of the annual attack of sneezing, watery eyes, and other discomforts.

J. F. Forbes, a well known Western railroad man, whose home is at McCook, Nebraska, writes: "I have never had any relief from any remedy for hay fever, even temporarily, until I discovered the merits of Hyomei. I always recommend it when occasion requires."

There is no offensive or dangerous stomach-dosing when Hyomei is used. This reliable remedy for the cure of all diseases of the respiratory organs is breathed through a neat pocket inhaler that comes with every outfit, so that the air taken into the throat and lungs is like that of the White Mountains or other health resort, where hay fever is unknown.

The fact that the Central Drug Co. agree to refund the money to any hay fever sufferer who uses Hyomei without success, should inspire confidence in its power to effect only \$1.00 and extra bottles to 50 cents.

THE GREAT WEST.

Canada will give 160 acres of land free in the west to every adult applicant.

Western Canada's grain crop, 1904, yielded 75 million dollars to 25,000 farmers.

Northwest land companies and railways sold, 1904, 1,267,187 acres, at an average per acre of \$4.35.

Land sales in the west have increased twenty-five fold in eight years.

The 26,167 homestead entries of 1904 were taken: \$768 by Canadians, 7,730 by Americans.

Twenty-five foreign peoples made homestead entries in 1904.

Canada has given 57 million acres of land to railways in the west.

Canada has 10,000 miles of rivers west of Lake Superior navigable by steamers.

Winnipeg is Canada's half-way house between oceans.

Winnipeg's population—now 80,000—has doubled in ten years.

Natural Products, (Other Than Wheat)

Canada produces annually 125 million bushels of grain of all kinds.

Forty-five per cent of Canadians are engaged in husbandry.

Sixty-three million acres are occupied, one-half cultivated.

Eighty-seven per cent of Canada's farmers own their holdings.

Canada has 1 billion, 787 millions invested in agriculture (1901).

Canada has 1 billion in land, and 278 millions in live stock.

Annual value of farm crops and produce in Canada, 363 millions.

Total value of farm property, lands and implements, 11.2 billions.

For every British bushel of wheat, Canada's butter, 90 per cent, of cheese, 76 of poultry, 99 of bacon.

We sell Britain 24 out of 234 millions worth of cheese this buys.

We sell her 4 out of 101 millions worth of butter she buys.

We sell her 12 out of 66 millions worth of bacon she buys.

We sell her 13 out of 145 millions worth of wheat she buys.

We sell her 10 out of 44 millions worth of cattle she buys.

In 1904 Canada sold Great Britain 78 million worth of farm produce.

For every \$100 worth of natural products sold Great Britain by Canada in 1904, other countries sold her \$747 worth.

Cheese produced in Canada, 1903, 166 million pounds; 1901, 220 million pounds.

Canadian flour sold to Japan, 8 months of 1903, \$6,000 worth; same period 1904, \$82,000 worth.

Good root crops are grown on the Mackenzie and Yukon Rivers.

Capital invested in dairying, \$6,515,000.

Canada now exports hundreds of tons of honey.

Mineral Resources.

Practically all the valuable minerals are found in Canada.

Canada's mineral production in 1904 reached 60 millions.

Canada's mineral exports reached \$3.2 millions in 1904.

Canada has produced, in the last 20 years, 600 millions worth of minerals.

Canada has produced 200 millions in gold since 1862.

One-half of this has come from the Yukon since 1896.

Canada produced in 1904 \$16,400,000 in gold.

Canada ranks fourth among the world's gold producing countries.

Yukon placers have produced more gold than any other placer mines in the world.

Canada's mineral production has increased 600 per cent since 1886.

Nickel was accidentally discovered in Sudbury in 1882.

Canada has the greatest nickel deposits in the world.

Canada has the best and richest asbestos in the world.

Canada produced 141.3 millions worth of coal in 1903.

Fifteen thousand miners are employed in the Boundary country of British Columbia alone.

Mineral bounties paid, 1904: pig iron and steel ingots, \$93,641; lead, \$182,229.

Canada produced 512 millions worth of copper in 1904.

Canada produced 114 millions worth of iron ore and pig iron in 1904.

Canada supplies 85 per cent of the world's total product of corundum.

Canada produced \$1,637,000 worth of lead in 1904.

Canada produced \$2,127,000 worth of silver in 1904.

Canada produced nearly 1 million worth of petroleum in 1904.

Timber and Pulp Industry.

Canada has the largest white pine areas on the continent.

Canada's forest products totalled 80 millions in 1903.

Canada produced in 1904, 33 millions of forest products.

Canada has, it is estimated, a million square miles of standing timber.

Canada has over 100 paper and pulp mills.

Their product in 1903 reached \$5,315,000.

Of this, 57 per cent was exported, chiefly to the United States.

WORTH A LARGE SUBSIDY.

Pacific Cable Conference Has Scheme to Prevent Loss.

London, July 27.—The C. A. P. understands that at the final meeting of the Pacific cable conference on Friday a report will be submitted which it is hoped all the delegates will be able to sign.

No proposal will be made to stop operations of the cable in order to cut current losses on its working to the Treasury and the Colonies involved in the partnership, but various plans will be recommended whereby the cable may be placed on a sounder commercial basis.

The conference is agreed the cable is worth a large Imperial subsidy, taking into consideration the large reduction in cable rates to Australia, which the competition it introduced brought about.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Where laughter never comes, the doctor is sure to.

Wash greasy dishes, pots or pans with Lever's Dry Soap. It will remove the grease with the greatest ease. 3c.

The married man is seldom older than he looks.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one was a steady, reliable old gray mare, the other a fractious, balky black horse. On the way the wagon was stalled and the black horse snorted and refused to pull. "What'll we do, father?" said the younger man. "Well," said the father, "I guess we'll have to lay the gad on the old gray." "The gray mare's the better horse," suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she breaks down at last under the added weight of some "last straw." Women who are dragging along weakly through life can gain real strength by the use of Dr. Pierce's Golden Medical Discovery. It puts back in concentrated form the strength-making material which workingwomen use up more rapidly than it can be restored by Nature in the ordinary processes of nourishment and rest. Dr. Pierce's Pleasant Pellets are universal favorites with women, because they are easy to take and thoroughly effective in suring the consequences of constipation.

Usefulness is bound to follow in the wake of a cheerful disposition.

THE FAST TRAINS

To California are run over the Union Pacific, via Omaha, 18 hours quicker to San Francisco than any other line. No change of roads, no detours. "The Overland Route" all the way. Be sure your ticket reads over the Union Pacific. Inquire of H. F. Carter, T. P. A., 14 James Building, Toronto, Canada, or F. B. Ghouse, G. A., 126 Woodward Avenue, Detroit.

McADAM STATION HOTEL.

Situated in McAdam Junction, N. B., is especially convenient for commercial and other travellers owing to its location at the point of junction with the main line of the C. P. R. Company's branch lines intersecting New Brunswick.

For pamphlet descriptive of hotels, tables, write to C. B. Foster, D. P. A., C. P. R., 71 Yonge Street, Toronto, Ont.

Lots of good ten cent Cigars, but only one best—the Lord Lake.

CRICKET

Pittsburg, Pa., July 27.—Pittsburg won its match to-day against Chicago Wanderers in the cricket tournament at the Pittsburg Field club, 156 to 114, for one innings each. The visitors have played all their matches, and the tournament ends to-morrow with a match between Pittsburg and Zingari, another Pittsburg team.

On Saturday the east will play the west. No matter how it results, Detroit will be tied by a Pittsburg team for the Spalding trophy, and the tie will be played off at a day and place to be fixed.

To Boycott a Bank.

Shanghai, July 28.—The native bankers here have called a meeting to discuss a proposal to boycott the International Banking Corporation, which was organized in 1901 under the laws of Connecticut, receiving the charter by a special act of the Legislature. In 1902 it was made the agent of the United States Government for the receipt of the payments on account of the Chinese Boxer indemnity.

Seven Years Penal Servitude.

London, July 28.—Edward Long, found guilty at the Old Bailey of obtaining £700 by the confidence trick from Michael Blake of Portage La Prairie last winter, and was sentenced to seven years penal servitude.
