Awards Made In Rosenwald Story Contest

ATLANTA, Ga., Dec.—The Commission on Interracial Cooperation today announced twelve of the twenty awards in the Rosenwald contest for the best stories of the economic efforts of Negroes. The winners announced four each in the classes of agriculture, industry and personal service are as follows:

Agriculture: R. L. Philyaw, farmer, Evergreen, Ala.; Bilbo Willies, 4-H club boy, Wiggins, Miss.; Miss B. L. Colbert, truck grower, Minden, La.; W. M. Ware, farmer, Queen City, Texas.

Industry: B. W. Whiting, engineer, Raleigh, N.C.; Samson Downing, Tangipahoa, La.; James A. Parsons, Jr., metallurgical engineer, Dayton, Ohio; J. C. Stubbs, sign painter, Detroit, Mich.

Personal service: Joe S. McLane, hotel man, Jacksonville Fla.; Miss Lula Rogers, domestic, Chattanooga, Tenn.; Miss Josephine Britt, maid, Wellington, Kansas; D. F. Marshall, student, Prairie View, Texas.

The four awards in each class range from \$25 to \$100 each. Checks are being mailed to the winners this week. The stories in the classes of business and professions are still in the hands of the judges but the eight awards in these classes are expected in a few days.

Many excellent stories were submitted in the several classes and the judges had great difficulty in choosing between them. What final disposition will be made of the stories has not yet been decided.

TWO STUDENTS GET GUGGENHEIM AWARDS

NEW YORK—(C)—Two colored students, a woman and a man, were included in the list of 60 who received fellowships from the Guggenheim Memorial Foundation, 551 Fifth avenue. Miss Zora Seale Hurston was one of two recipients under the Sociology section, and Dr. Abram L. Harris was one of three in the Economics section.

— IF —
If you can keep you head when all about you
Are losing theirs and blaming it on you,
If you can trust yourself when all men doubt you
But make allowance for their doubting too;
If you can wait and not be tired of waiting,
Or being hated don't way to hating
Or being lied about not give way to lies
And yet don't look too good, nor talk too wise.
If you can dream and not make dreams your master
If you can think and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two imposters just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make trap for fools;
Or watch the things you gave your life to, broken
And stoop and build 'em up with worn-out tools;
If you can make one heap of all your winnings
And risk it on one turn of pitch and toss,
And lose, and start again at your beginnings,
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And so hold on when there is nothing in you
Except the Will which says to them "Hold On!"
If you can talk with crowds and keep your virtue,
Or walk with Kings, nor lose the common touch;
If neither foes nor loving friends can hurt you;
If all men count with you, but none to much;
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth, and everything that is in it,
And—which is more—you'll be a man, my Son!

Many Charged Black vs White Are Innocent Is Powder Keg

ATLANTA, GA.—Forty-one per cent of the eighty-four persons lynched in the last five years ere either unaccused of crime or else were charged only with minor offenses, according to a report made public today by the Commission on Interracial Co-operation, summarizing the results of a careful study of all the lynchings of that period.

Appearing as a twenty-four page pamphlet, entitled "The Mob Still Rides," and citing numerous illustrative cases, the report states further that of the other fifty-nine per cent of mob victims many were innocent of the crimes with which they were charged.

Only one-fourth of the victims were accused of actual or attempted assault upon women, commonly thought of as the chief cause of lynchings, and in a number of these cases the Commission's investigators could find no convincing evidence of guilt.

Officers sometimes connive at lynchings or even participate in them, courts rarely indict lynchers and more rarely convict, and mobs sometimes so dominate the courts as to bring about "legal lynchings," according to the report. On the other hand, a number of cases are cited in which officers successfully resisted or outwitted mobs.

Though the number of lynchings has declined from a yearly average of 124 thirty-five years ago to an average of seventeen for the last ten years, the study reveals that the lynching habit fades more slowly from the South than from other sections of the country and becomes increasingly a racial phenomenon.

Among the remedies suggested by the report are more adequate police service, stronger jails, change of venue in the trial of lynchers and of persons threatened by mob violence, the lifting of community levels in lynching areas, and the building of a better public opinion.

African Subsidy Carries Grave Repercussions

CAPE TOWN, South Africa—"The present principle of granting a special subsidy on meat intended for large bodies of mobilised troops has already had grave repercussions, and has resulted in members of our Native population refusing to carry out their duties, and being arrested simply for following a natural impulse," states a letter addressed to the Prime Minister from the Union League of Women Voters.

"We are sure that the danger of setting black against white in our country need hardly be pointed out to you. We would remind you that, had the Union Government not first placed itself in a false position by paying a special subsidy on a grade of meat which could not otherwise have been economically delivered and the destination of which must have been well known, the contract would have fallen through without giving Italy any cause for offense."

NEGRO VARIETY HOUR STILL A FIXTURE OVER AIR

The last program marked the 21st broadcast of the Negro Variety Hour over station WJBK. The program has been running along week after week, rousing interest in the public, in the sponsors who allow the talent of the city an outlet over the ether.

The last few programs have feature choirs from various of the churches.

The Bethed Church Choir sang and their program was very good. The program was devoted to the Legionnaires. Mrs. Bernice Griffin sang a beautiful contralto solo, and Beatrice Allen sang My Buddy, that old war song.

The poem "Cru Blind Buddies," by J. Edward McCall, was read to the accompaniment of music by Charles Diggs. Mrs. Ida Russell sang, "I Couldn't Hear Nobody Pray."

CANADIAN CITIZENS

We colored folk are deeply interested in the welfare and in the prosperity of our country. Although, unlike any other people, there are many barriers between us and the high rewards for good citizenship and efficiency, we have never failed, when called up, to prove our love and loyalty to Canada. Our forefathers helped to construct the highways and railways, to clear the land and to build many villages, towns and cities. Whenever danger threatened from within or from without we were among the first to volunteer our services. History does not record an instance in which a person of Negro descent has ever even been suspected of traitorous designs. Our people have been content to labor and to live by the sweat of their brows, even though their labor and their lot were of the hardest kind.

In the matter of crime, statistics prove that our record compares favorably with any other class of citizens. We have been trained in Canadian schools, our aims, our objects, our standard of living, our ideas and ideals are purely Canadian. Africa is the home of our forefathers, but Canada is our own home. And so, it is just as natural for us to be filled with patriotism for Canada as it is for any other class of citizen. And yet how often we are called upon to close our eyes to petty insults, to mean discrimination and to small prejudice. The wonder is that we can and do overlook this smallness in life and that our lamp of inspiration keeps ever burning. How many other races could come out of this severe test, this fiery crucible without spot or blemish? We hear of our Government doing everything possible to encourage the RIGHT kind of immigrants to come to Canada. This is right and proper. But would it not be a little "more right" and proper, just a little more humane, just a little more Christian-like, to assist and encourage our colored citizens who have proven themselves worthy of our high standard of citizenship?

TUSKEGEE'S PROGRESS

An optimistic view of the Negro's opportunities is taken in the annual report of the Tuskegee Normal and Industrial Institute. Less may have been heard of this educational institution since the passing of the distinguished Booker T. Washington, who

labored so effectively for the advancement of his race. He was succeeded by Dr. Robert R. Moton, who served as President for nineteen years. The latter upheld the ideals of his predecessor and elevated the Institute from high school level to collegiate standing.

Tuskegee's third president is Dr. F. D. Patterson, an educator whose training and experience fit him for the specialized tasks of the institution. He has received several university degrees, including the Ph.D. from Cornell in 1932. The new president is an agricultural expert and veterinarian. He is familiar with the peculiar needs of Tuskegee, having begun his work there in 1928.

The progress of that institution is a matter of national concern to a degree not encountered in the public's relationship with the average college and university. The improvement of the Negro's economic status should be the goal of all thinking citizens. Tuskegee has had to contend with the problems of the depression, with reduced income necessitating budgetary readjustments. It should be a source of general gratification that the school is again on the upgrade, prepared to realize the opportunities for advancement of the race.

—Tuskegee Messenger

For Board of Education

WHY?

- (1) Because of the obvious need of new blood on the board — Life memberships are not in keeping with up-to-date, efficient administration.
- (2) Because the Board of Education should not attempt to establish or conduct public playgrounds. That is the work of the Public Utilities Commission.
- (3) Because there should be no more super pensions added to teachers' retiring allowances which are determined by regulations.
- (4) Because the Board needs members in daily touch with school work through children attending.
- (5) Because the Board needs a taxpayer with business experience to safeguard this million-dollar expenditure.

EUROPE BETWEEN SHIPS

By W. E. Harrison

When is a Negro a Negro, What is a Negro. Anybody who has traveled outside the United States to South and Central America, to the West Indies, or to Europe, soon asks himself these questions. In the United States the answer is definite and even curt. A Negro, in America, is anybody who admits that he has African blood.

Let a white person say in jest today "My grandfather was a Negro," let him be believed by his associates and tomorrow he will incur all the civil and social disabilities of the Negro. "Friends" will become less cordial and more patronizing; his daughter's engagement will be broken; his son may lose his job as an accountant or professor in a non-Negro concern or university. Therefore, as Dean Pickens has declared, the same potency in Negro blood which is claimed, by believing citizens, for the blood of Jesus Christ; it takes only one drop to make you whole.

In other countries a Negro is a black person; all other shades of colour are designated as "colored." Members of the brown, yellow and red races, are of course "colored," too as a Chinese eloquently indicated during the Harlem riots of 1935 when he hung a sign in his store window, "Me cullud too." Generally however, they are called by the name of their nationalities, as Japanese, Burmese, Korean. The English in general have a prejudice against ALL the colored races, and that prejudices only in the degree of intensity. Some colored persons, especially in the West Indies, congratulate themselves on the superior status which they occupy above the shades darker than their own color. They are too stupid to observe how lowly is their position, which hardly provides them a vantage point from which to look down upon anybody. On the other hand, some Japanese, having no African blood, in turn despise all West Indian colored people as dependent subjects to British rule, and look with contempt upon American Negroes as the descendants of bonded slaves. All this nonsense has been slowly disappearing with the increase of knowledge among all races

and racial varieties. For centuries savage enemies of people of African white and colored thinkers have labored to destroy the abysmal ignorance of the masses all over the world. Opposed firmly by reactionary politicians who profit from inter-racial and intra-racial hate, the thinkers had won signal victories before the advent of Hitler to powers and the enforced return of millions to barbarism. Nazis, in theory and practice, are

blood. Hitler's own statements read like the ravings of a Georgia crack-er. Yet, because Hitler needs an ally in the Far East to harry Russia's eastern frontier while his armies push East to attack the western border of the Soviet Union, the Nazis have not scrupled to make overtures to Japan for a military alliance. Jones Book On Negro Affairs

The Advisor on Negro Affairs, Eugene K'nekle Jones, of the Department of Commerce, has ready for distribution a study on Negro Trade Associations prepared by Joseph R. Houchins, Assistant Business Specialist, Negro Affairs Division, Bureau of Foreign and Domestic Commerce.

This report, which indicates the nature and scope of activities of Negro trade associations is based on material made available to the Division of Negro Affairs by officials of some of the larger and more important national groups of Negro business men. Some trade associations may profit from the experiences of other groups related in this study, which contains suggestions and recommendations for the improvement of these bodies. Manufacturers, distributors and other business groups interested in the Negro market should find the pamphlet helpful.

A list of government publications dealing with marketing and other commercial subjects is also given.

The publication is available upon request from the Division of Negro Affairs, Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D.C.

SINGER REFUSES RADIO OFFER TO STAY IN SCHOOL

TARRYTOWN, N.Y.— As interested as 17-year-old Caleb Peterson, Jr. is in music and as desirous as he is of having a career in music, he turned down this week a contract for a radio engagement. He gave as his reason his school-work which he said will require all the attention he can give it.

The youth endowed with a rich baritone voice which has been highly praised by Edward Mathews and Harry T. Burleigh, is likewise a good athlete and holds berths on the varsity football, basketball and track teams of Peekskill high school which he attends.

At present he broadcasts every Sunday from 6:30 to 7 p.m. over WFAS, in White Plains. He also has a standing commercial offer from WOR in Newark, N.J., which he says he will consider accepting when he is graduated from high school.
