RECORD ENROLLMENT FEATURES OPENING

Dr. Gregg Addresses Upperclassmen

PROF. HALL

Newly appointed Assistant Professor of Biology Professor Hall comes from the department of Zoology at Toronto University where he has been doing research on insulin. Prof. Hall graduated from Toronto in 1940 and received his M. A. from the University of Western Ontario in 1942.

A.A.A. Begins Active Year

A vigorous seven-point sport program was outlined to members of the Amateur Athletic Association by the Association President, Neil Elgee, at a meeting held last week. The faculty was represented at the meeting by Dr. Pacey, who is this year's faculty advisor to the A. A. A. Also present at the meeting was Howie Ryan, director of physical education at the university.

The first point was particularly noteworthy in that it stressed complete student participation in all classes of sports, in order to facilitate wider participation a motion was passed whereby the president of each of the four classes will appear and his task will be to acquaint the A. A. A. with the attitudes and opinions of his class insofar as interest in sports is concerned.

Residents Hear Prexy

Dr. Milton F. Gregg was the special speaker at the first meeting of the "inmates" of the Beaverbrook residence. The president of the Sigma Lambda Beta Rho, Reno Cyr, presided over the meeting and Melvin Jacobson, secretary, read the minutes of the previous meeting.

Dr. Gregg, in his opening remarks, commented on the unfortunate accident, which claimed the life of Hal Robinson. He expressed his intention to assist in improving the

(Continued on page five)

TOTAL PASSES 700 MARK 326 VETERANS

Last week U. N. B. officially opened its doors to the largest enrollment of students ever to enter the university. Men, freed from the armed forces, quickly took advantage of the opportunity to finish their education and swelled the enrollment past the 700 mark. With the university facilities strained to the utmost, many changes are in evidence on the campus this fall.

PROF. BLAINE

Replacing Dr. Petrie as Professor of Economics and Politics Professor Blaine comes from the Khaki University of Canada. He received his B. Comm. from Queen's and his M. S. in commerce and Ph. D. in economics from the University of North Carolina. Joining the Canadian Army in 1942 Captain Blaine has served in England, Italy and on the continent.

HAL ROBINSON

Many of U. N. B.'s students were saddened last week by the death of Robert "Hal" Robinson, in the fatal automobile accident which occurred near Stanley on Thursday morning.

Four other students, all of them veterans, were injured, Bruce MacMillan and Grahame Clarke are in serious condition, George Forsythe and Russell Bishop were only slightly injured.

"Hal" Robinson a Saint John boy, was an active and popular student up the hill. He returned to his sophomore year in engineering last year after service with the R. C. A. F., and was a member of the Veterans' Club.

"Hal" was also active in Interclass Basketball and in 1944 ably managed the basketball team to its Maritime Championship.

S. R. C. Convenes In First Session

The first meeting of the S. R. C. was held Friday, September 28 in the Memorial Hall with the new president Edward T. Owens ("Ted") in the chair. This year's S. R. C. vice-president is Otis Logue, the treasurer, John Baxter, and secretary Beaty Price, who read the minutes of the last meeting (in April) as its first business Council approved sending a wreath to the funeral of the late Hal Robinson.

A new setup for social and athletic activities was proposed. Henceforth classes, societies and clubs will meet and draw up some plans for activities, and the heads will submit them to the Social Committee. This group will unite with the Amateur Athletic Association and the S. R. C. executive to draw up in the near future a definite schedule for the term's social and athletic affairs. It is hoped to eliminate the conflicts that occurred last year.

A proposed amendment of all class constitutions (Art. V, Sect. 3) was suggested, namely that all the members of a class could vote for a candidate for the office of vice-president who must be a lady (in the broad sense of the term). To date only the ladies have been permitted to vote for the vice-presidents.

Permission was granted to Bernard Cain to operate a hotdog stand

STAFF STOMPS OFF

The Library Office-Bookstore was the scene of a delightful function on Wednesday, August 29, when the Library Staff entertained in honor of three of its departing members, the Misses Grace Love, Eileen Wallace, and Eleanor Belyea.

The office desk was attractively centred with the Cash-Box—as a tribute to Miss Wallace's efficient work in the Bookstore—flanked by Dewey's Decimal Classification. The walls were fittingly decorated with shelves of books ranging from "What Is Man?" to "Animals Without Backbones".

Due to the fact that there was no extension cord, the tea was made on the hot-plate, inconveniently placed under the desk, along with the waste basket, which contained a dead mouse.

While Miss Baxter scooped the ice-cream into cups (most of the saucers having been broken), Miss Moffett presided over the tea-cups from behind the door, and Miss Wallace struggled frantically to balance the budget.

After much hilarious discussion of future plans, the guests bowed gracefully, and, tripping over the chair, left in the doorway by Miss Belyea, tried to depart. Their departure was delayed, however, by the hostesses demanding that they wash the dishes. After a friendly argument, there were no dishes

(Continued on page five)

ONLY ONE COPY OF THE BRUNSWICKIAN PER STUDENT.

PROF. SMITH

Replacing Dr. Hoare as Professor of Zoology, Professor Smith comes from the National Research Council and the Department of Medical Research. Previous to that he was on the staff of the Atlantic Biological Station at St. Andrews, N. B.

Campus Heads Make Plans

The following list of campus organizations is supplied for the benefit of the students both old and new who are interested in any of them. They are your college societies and every student should take an active part in at least one of them.

President: Students Representative Council, Ted Owens; Amateur Athletic Association, Neil Elgee; Arts Society, George Boyd; Engineering Society, Otis Logue; Forestry Society, Lloyd Johnson; Pre-Med Society, John Lawrence; Senior Class, Al Cameron; Junior Class, John Baxter; Sophomore Class, Bev. McDougall; Co-Ed Choral Club, Kay Lyons; Ladies Society, Blanche

(Continued on page five)

S.C.M. Holds First Meeting

The first meeting of the Student Christian Movement was held in Miss Whimpster's lecture room, Sunday, September 30, at 8:45 p. m. Don Gammon, the president, welcomed the old and new members and wished them success during the coming year.

Several business matters were discussed. A guest book is being provided so that a record of the S. C. M. members will be kept. Henry Durost, who represented the S. C. M. at Lake Couchiching, because the president was unable to

(Continued on page five)

PRESIDENT'S MESSAGE

October 2, 1945
Message from the President.

Your Editor has asked me for a message for the first 1945-46 issue of The Brunswickian.

We are entering a University year teeming with interest. Getting it under way has required a great deal of effort on the part of the staff of the University. On their behalf I wish to thank all students, old and new, for the fine spirit with which they have accepted crowded conditions. I feel certain that the stimulation given by the attendance of so many men from the Services will compensate for the crowding.

Under these now conditions, in a world free at last from a bitter war, in a country fortunately spared the worst ravages of war and rich with potentialities for the future, there should be wide limits to your accomplishments in every field of college activity. If you are grateful for freedom, for youth, health and the opportunity of getting an education, you can show your gratitude by the zest and vigor with which you attack the year's work and play.

I wish the "Brunswickian" every success in its role as the interpreter of thought and activities on the campus, and I believe it will reflect one of the most momentous years in the history of U. N. B.

MILTON F. GREGG

SPORTS

U.N.B. EXPECTS BIG YEAR IN SPORTS

Foot Ball Squad Already Under Way

Holding her place among the important centres of Sport, U. N. B. once again opened another year with all the prospects of an active year in athletic achievements. With the close of the war, restrictions on interscholastic play-offs have been lifted and once more our college carries on in the search for Maritime laurels.

Already a hard-hitting well balanced football team is taking shape as each evening they may be seen plunging around College Field, getting ready for a great year in rugby. This year more than ever the team looms up brightly as many stars are returning after service in the armed forces and many of last year's New Brunswick champs still remain.

A check-up by Physical Director and Coach Howie Ryan and A. A. president Neil Elgee, shows that not only football, but every other sport on the campus will benefit by the 400 or more new students who have registered "up the hill" this year.

In Basketball U. N. B. will be out to repeat the preceding year's achievements of winning the Maritime and Canadian Intermediate Championships, and the return of a number of former college stars will help to a great extent.

It is too early to predict what boxing holds in store, but there will again be a large field to pick from and training will soon be underway.

Though there are many good players only too ready to turn out for Hockey, any plans for a successful year will be dampened again as in the past through lack of a rink. Last year a Campaign was introduced to raise funds for a memorial rink, but this campaign seems to have been discouraged over the summer months and it is hoped by all who are interested in the sport that the idea of a rink won't be forgotten. However with a bit of luck hockey can still be one of the major sports and once again we can have a team to be proud of.

Swimming, Ping Pong and Badminton will all be carried on as in the past with even more zest and vigour, and competition among the students in these sports will continue to grow keener.

1945-46 will see new names in each sport and old names forgotten. But as in the past we must all strive to uphold the name of sport in our college. To make those who have left us proud of what we are doing and

GRIDMEN SHOW GREAT FORM IN EARLY SEASON

With prospects for Maritime Intercollegiate finals this fall U. N. B.'s gridiron greets got away to an early start last Monday. Working with an average of 26 men all week Coach Ryan is conditioning his boys for a heavy season. Conditioning exercises, fundamental drills, ball handling topped off with a Red and Black scrimmage on Saturday afternoon featured last week's workout.

Charlie Weyman was elected captain of this year's team but due to a neck injury received last season will be unable to play. Charlie was a strong picking quarter and will be greatly missed.

Herb Lipshetz is this year's manager and is working hard to line up games for the season. Vernon Copp is assistant manager.

Out on the football field we see only a scattering of last year's undefeated squad, Elmer Scott, Jake Coveney, Bob MacDiarmid, Bert Miller, John Bell, Andy Anderson, Tom Crowther, Frank Dohaney, Ray Finnegan, Harry Watson and Ced MacDiarmid recently discharged from the services are back this year and should have a good season. Jerry Atyeo of U. N. B.'s Maritime Intercollegiate Championship team of 35-40 is also back this year. Among the old students turning out regularly we have Dave Stothart, Cec Garland, Bill Donnochie, Murray MacLean, Jack Scovil, George Crofoot, George Bond, Ralph Holmes. There is also a wealth of football material among the new students and although we don't know all their names now we're sure to hear more about them as the football season advances.

Although we have a fair turnout we still need more men. Coach Ryan expressed the hope of having a second team this year but unless more men show up very soon he will be disappointed. Football practice is held daily at 4.30 and your lab instructors have promised to let you go at that time if you wish to practice football.

The scarcity of football boots is so that we in the future may be proud of what we have done. To make this year a success will require the co-operation of every student in putting what ever energy he or she is capable of into one or more of the fields of sport.

JAKE

ON THE BENCH

with

ART

It is customary at the start of each year to bid "welcome" to all new students. But before we do that we are going to stop to pay tribute to an old student. The sad death of Hal Robinson took a good sportsman and a well-liked personality from us. He was a familiar figure in the gym and at all sports meets; the cheerful Hal was a colorful addition to most of the dances "up the hill". He was very interested in all student activities and was a leading participant in his favorite fields. U. N. B. will miss him.

To all new students we say "welcome"; may you find the hill a pleasant place to spend the next few years of your life.

If you are interested in sports you will find ample opportunity to participate. While you were registering you were given a questionnaire regarding your favorite sports. From your answers those in charge of your physical program learned of your likes and dislikes. If everything goes well we should have a big year.

Even now the results of your answers are blossoming forth. Softball proved a favorite of the majority of students interviewed and so now we have a very interesting league in full swing; any afternoon this week you could have witnessed softball games in Queen's Square.

Neil Elgee, President of the A. A. A., is working hard to make this a boom year in interclass and intramural sports. With the support of the student body this will be possible.

While we are writing this column it is being decided whether we play intercollegiate sports or not. Howie Ryan, President of the M. I. A. U., called a meeting of that body for this week. Neil Elgee accompanied him to Truro where delegates of Maritime colleges met to decide the sport year of the universities.

Football is well under way. Practises have been held and our team is beginning to take shape. It is regrettable that Charlie Weyman, Captain of this year's team, will be unable to play. An old neck injury will keep him on the sidelines for the season.

Old faces in the lineup are appearing. Frank Dohaney is back. Ray Finnegan, Ced MacDiarmid, Harry Watson and Jerry Atyeo have dug their old boots out of the closet and are out with the boys on Football Field.

FRESHMEN: if you want to play football get out there; the coach needs every available man in order to produce the best team possible to represent U. N. B. this fall in football.

The Forestry Society was formed in 1909.

That same year, 1909, the Ladies' Athletic Association was formed with Miss Emma Estabrooke as President. The Association had as its objects "the promotion of the various departments of Athletics,

as well for the physical benefits as for the actual pleasure to be derived from such sports." The girls were real he-men for a good many of them were in favour of such sports as—Hockey and Snowshoe Tramping; they even hoped that in the early summer months Rowing would become the popular sport. In 1908 the Ladies of the University after much serious deliberation over the feasibility of forming a Ladies' Glee Club decided that it would be more practicable to accept the invitation of the Men's Glee Club to co-operate with them. This was the beginning of the Glee Club as we know it.

FROM THE COACH'S CORNER

Following Saturday's practice at College Field prospects for a good football team to represent U. N. B. this year are exceedingly bright. Everything points to intercollegiate competition with the New Brunswick winners scheduled to meet the Nova Scotia winners for the Maritime Intercollegiate title. But we need every man reporting at 4.30 at College field in order to mold a team worthy of U. N. B.'s standards.

To do this all football men must observe the training rules. Condition in English Rugby is an important factor. It aids speed, timing and endurance which are being made for an exhibition game with the City team on Saturday, Oct. 6 at 8.00 p. m. Every student should give their full cooperation and back your Team.

NEIL ELGEE

Another figure in sports is Neil Elgee, who is President of the A. A. A. and, up to date, has been putting all his spare time and energy into the welfare of our athletic activities. Neil is well known as one of the key men in last year's championship basketball team. Besides sports he is one of the brighter students up the hill and shows a keen interest in other activities, being Secretary-Treasurer of his Class for the past three years and starting his fourth year in that position. Neil also is Business Manager of the Brunswickan this year.

STEAMED CLAMS

Do you like steamed clams? I do. Especially with plenty of butter. This summer I was visiting by the sea and I was assured by the inhabitants of the community that I could dig lots of clams, all I wanted. So I decided I would dig a pall of clams. The best place to get them was on a beach five miles away, and the best way to go was by horse and cart along the beach. I knew a man who lived there, and he promised me his horse any time I wanted it.

So one bright morning I drove over to his home. It was a French community, but the father and son of the house could speak English and I kept my fingers crossed that one of them would be there. But it was Madame who came to the door in answer to my knock. I knew she couldn't understand, let alone speak, a word of English, so hopefully I asked, "Ou est Fran- cois?" in my best Freshman French. The old lady just beamed, and out flowed such a torrent of French words that I was left breath- less. The only words I recognized were "Francois" and "peche". I didn't know whether Francois had gone fishing or climbing peach trees, so I asked brightly, "mack- erel?" and she nodded, "oui, oui." So far so good. Then I asked, "Ou est Monsieur?" but I still don't know where the father was.

We stood and looked at each other for a few moments. Then, with the customary French hos- pitality, Madame started again. Recognizing "entrez" I accepted the invitation and went in. I tried to

tell her what it was I wanted, and haltingly said, in French, "I would like—pause—your horse to go—pause—for clams." (In case you're wondering, I didn't know the word for dig). Madame became voluble again. She nodded, she shook her head, she waved her arms, and she talked, until I began to wonder if I had said the right thing! When she finished she looked at me expectantly, but I shook my head and retreated to my corner, defeated. I sat and thought of all the French words I knew. Once I got up to go, but the thought of those steamed clams sat me down again.

Suddenly I had an inspiration. There on the wall was the product of Alexander Graham Bell's in- ventive mind. Silently thanking Heaven that a telephone is a tele- phone in French, and pointing to that precious instrument, I got the idea across to Madame to phone my friend who lived five miles away. Juliette bless her, could speak both languages. When Juliette came to the phone, I told her to please ask Madame for the horse. Then I let Madame talk, and talk she did. When she had finished, I asked Juliette what had been said. And after all my trouble, I found out that all the horses were being used that morning and I couldn't have one anyway.

Dejectedly I hung up, thanked Madame by saying "Merci" several times, and left. I am thinking of taking French this year. And I am still thinking of a hot dish of steam- ed clams.

READING RUMORS

by "Mardie" Long

Hello, Reading Roomers! Here we are back again after a bee-oo-ful vacation, full of energy and good resolutions and ready to put our noses to the bridge table and go to work. Let's go—

On Monday afternoon, the 24th of September, a meeting of the Ladies' Society was held in the Reading Room with President Blanche on the table—pardon me—in the chair. (It was somebody else on the table). The purpose of this meeting was to welcome the new women students into our midst and this welcome was carried out in true traditional manner. How- ever, the former students received a slight shock and those of us who have studied "higher" mathematics are still trying to figure out how twelve first year students and four second-year students make twenty- six. And then some—

Here let us pause and wish Mr. and Mrs. Bob Forbes oceans of happiness and all the luck in the world. We really miss you in the Reading Room, Anne.

And then there's Helen Gilson who's gone into the banking busi- ness. We can still (in our mind's eye) see Helen perched on one of the window seats looking down toward the Residence (to see the time). We miss you too, Joan and Sylvia.

It's grand to have "young Mooers" back with us again. We thought she might decide to stay and take over the bank but we're so glad she didn't.

A bouquet of red roses—they'd be gardenias if we could afford them—to the Sophettes for their highly successful banquet Saturday evening. The food was really extra-special and I'm sure everyone will want to keep their attractive place-cards as a souvenir of a wonderful evening. We were honoured to have Mrs. Gregg as our guest speaker and let us again assure her that she will never be- come an "institution" at our little gatherings. It is, and always will be, a pleasure as well as an honour, to have her with us. Other honour guests were: Miss E. Mc-Leod, Dr. L. Thompson, Miss M. L. Whitmer and Miss R. Curming. Nancy McNair represented the Sophettes at the head table and her sincere little speech was very well received by the new students and by all. On behalf of those present Blanche Law expressed thanks for a most enjoyable evening. The banquet concluded with the custom- ary singing and the college yell. Thanks lots girls!

We're awfully glad to see Ruth Cumming around the corridors even if she isn't taking classes with us this year. Ruth is helping President Gregg in the office.

Feature Fans

In past years we have heard this page and this paper called almost everything. But did you ever stop to think that this is your paper and consequently it is just what you make it.

To be sure, we've heard a lot of griping, but we never seem to see those same critics do anything about it. It is not much good just to criticize if you don't try to im- prove it in any way.

You have all heard the oft-quoted phrase "You get out of anything just what you put in it" (we're leaving poker out of this discussion) and that is true for this page too. So all you pen- pushers who would like to see some of your own work in print get busy, write something and hand it in to the Feature Editor, and, as Dr. de Merten would say, "All contribu- tions will be gratefully received". So come on, kids, let's make this year's Brunswickan the best yet.

Girl: I've broken my glasses. Will I have to be examined all over again?
Optician: No, just your eyes.
—Queen's Journal.

CAMPUS PERSONALITIES

Ted Owens

Here we are, beginning a new year, and for the first issue of this new series let us introduce to you the head man of the campus, Ted Owens.

Ted came up the hill from Saint John in the fall of '42, and his popularity with the '48ers is evi- denced in his being elected Presi- dent of that class in his Freshman, Sophomore and Junior years.

A member of that faculty that takes to the woods, Ted haunts the halls of the Forestry Building, and in his Sophomore year kept the notes of the Forestry Association. That same year Ted kept the bills of the "Brunswickan" straight as he was the paper's Business Manager.

In his Junior year Ted once more showed his executive ability by being the able Treasurer of the S. R. C. This year he is again at the helm, holding the important and responsible position of Presi- dent of our Student's Representa- tive Council.

But it is the basketball court which is Ted's own stamping ground, or we should say "gallop- ing" ground, and here he needs no introduction. For the past three years he has been a member of the Varsity Basketball Team, and last year was one of the Dominion Basketball Champions. This year Ted captains the team.

Yet in spite of all his activities, Ted has not lowered his scholastic standard. He is an all-round student.

William M. Evarts, the disting- uished lawyer and statesman, was once riding on a Pullman car with a friend. When bedtime came the latter, who had always found it difficult sleeping on trains, remark- ed:

"Mr. Evarts, to sleep well, do you think it is best to lie on the right or the left side?"
"If you are on the right side, my friend," said the brilliant lawyer, "it usually isn't necessary to lie at all."

"Aren't those chimps beautiful? And I love that cute tude."
"You'll have to speak louder. Those damn bells are making so much noise I can't hear you."

COMPLIMENTS OF THE DOCTORS AND DENTISTS OF FREDERICTON

The Engineer

Who is the man designs our pumps with judgment, skill and care?
Who is the man that builds 'em and who keeps them in repair?
Who has to shut them down be- cause the valve seats disappear?
The hearing-wearing, gearing-tear- ing Mechanical Engineer.

Who buys his juice for half a cent and wants to charge a dime?
Who when we've signed the con- tract can't deliver half the time?
Who thinks a loss of twenty-six per cent is nothing queer?
The volt-inducing, load-reducing Electrical Engineer.

Who is it takes a transit out to find a sewer to tap?
Who then with care extreme lo- cates the junction on the map?
Who is it goes to dig it up and finds it no way near?
The mud-bespattered, torn and tat- tered Civil Engineer.

Who thinks without his products we would all be in the lurch?
Who has a heathen idol which he designates Research?
Who stinks the creeks, perfumes the air, and makes the landscape drear?
The stink-evolving, grass-dissolv- ing Chemical Engineer.

Who is the man who'll draw a plan for everything you desire?
From a trans-Atlantic liner to a hairpin made of wire?
With "ifs" and "ands", "Howe'ers" and "buts" who make his mean- ing clear?
The work-dissaining, fee-retaining Consulting Engineer.

Who builds a road for fifty years that disappears in two?
Then changes his identity, so no one's left to sue?
Who covers all the traveled roads with filthy oilr smear?
The bump-providing, rough-on-rid- ing Highway Engineer.

Who takes the pleasure out of life and makes existence hell?
Who'll fire a real good-looking one because she cannot spell?
Who substitutes a dictaphone for coral-tinted ear?
The penny-chasing, dollar-wasting Efficiency Engineer.

Who asks for information that he knows cannot be had?
And/or gives long opinions with deductions mostly bad,
And he tries to spell-bind juries, but can never make them hear.
The thought-elusive, non-conclusive Legal Engineer.

DID YOU KNOW?

King's College (name of the University before 1860) was opened for the reception of students in October, 1829. The resident stu- dents at that time took their breakfasts separately in their own rooms. The Steward was required to furnish them with a supply of bread, butter, milk and hot water. Dinner was served in the Refectory and the Steward was to provide "good and sufficient Board and Beer."

The Senate passed the following resolution in 1871, "that hereafter when the upperclassmen injure a Freshman during initiation the guilty parties shall be punished just as if they had injured a human being."

The Literary and Debating So- ciety was organized on September 16, 1862.

The first Hockey Team was formed in 1897 and practices were held in the George Street Rink.

In the old days students assem- bled for prayer at 8 a. m. Resident students had to be in their rooms at 10.30 p. m.

The Dramatic Society grew out of the Glee Club which was founded by Prof. Stockley, of the English Department in the early 90's. And in the early plays the men took women's parts. The present Mr. Justice W. R. Harrison once played the part of the leading lady and was dressed in red.

POEM

(With apologies to Masfield)

I must return to the hill again, to the college on its crest,
And all I ask is a friendly car to give my feet a rest;
A Tuck Shop (and a charge account), a room with an easy chair,
And an alibi for skipping when I haven't a spare.
I must return to the hill again, for the chime of the tower clock
Is a warning to the laggards that the prof. awaits his flock.
And all I ask is a back seat, some scandal to tell a friend,
And a sweet sleep to engulf me, till the lecture's at an end.

WHAT DO YOU PLAN TO BE?

Electrical Engineer?

You can't afford to be careless with a live wire. Nor can you afford to be careless about money matters when you enter the world of business. A sensible plan is to practice care- ful money management while you are still at college. Open a savings account of your own, even though deposits at first may be small. Thrift is a good habit now and for the future and can be an important factor in your success.

VOL. 65 Fredericton, N. B., October 4, 1945. No. 1

Welcome . . . Class of '49

A word of welcome is in order and goes to all the new students who are coming to U. N. B. for the first time, and particularly to all those who are coming back "up the hill" after a term of service with the armed forces. The 1945-46 Brunswickan staff welcomes you to the university and wishes you the best of luck in all your activities, scholastic, athletic, and extra-curricular, that you may undertake during your stay on the campus.

Along with this welcome we would also like to make a suggestion. It isn't hard to see that a great deal of cooperation is going to be needed to make things click around the campus. The faculty is under a great strain to provide adequate facilities for such an unprecedented enrolment. Cooperation with your professors in getting to labs and lectures on time, keeping your time table straight, and many other similar things, will help to ease this situation greatly. Facilities in the residence and gym are also under obvious strain, but with the help of all those who want to use those facilities, arrangements can be made to allow everyone as full use of everything as possible.

Watch the notice boards. This is an essential. Notices of society meetings, social and athletic events, are all posted on the boards. You should keep up to date on these. It will also help to make things run smoothly.

Support your own organizations. There are numerous societies on the campus which are worth joining. Of course the Engineering, Forestry and Arts societies are pre-requisites, but there are others also, such as the International Relations Club, Debating Society, Newman Club, S. C. M. and Dramatic Societies. Find at least one of these that you can take an active interest in, and get out to the meetings and work. They can be successful organizations only if all their members are putting their whole effort into the societies' functions. Extra-curricular activities are an essential part of college life, and play a considerable part in the all-round development of every student. Athletics naturally are equally important. Full turn-outs for the varsity, intramural, and interclass teams make for better college spirit. Not all find it possible to take an active part in athletics, but everyone can get out to the games and give the teams their vocal support.

We can all get the very best out of our college years by broadening our activities and keeping out of the ruts, scholastic or athletic, that we are liable to get into if we stick entirely to the one or the other. Cooperation among ourselves in our own activities, and with the faculty in academic fields will take us through the coming year with the minimum of discomforts, and the maximum of success.

DOIN'S

From Napadogan to Nauwiesewauk, from Shippegan to St. Stephen, this is Clear Malice bringing you the news behind the news at this University now teeming with life after a long summer siesta.

Well, B-Day (Book Day, last Monday) has come and gone and no one seems the worse for it. A few squashed bodies were found in the Book Store floor but, after all, what are a few bodies here or there. Congratulations to Shirley Sammers for having things so efficiently organized that there was a minimum of confusion. We sincerely hope that when the spring freshet comes she will not be lost if the flood invades her new quarters.

To the biggest class ever of new students we wish to extend our heartiest welcome. We are happy to have you with us and we are sure you will enjoy college life as we have for the last 2 or 3 (or 4!!!) years.

May we make an explanation about the deadness of the first week. Having no initiation really set things off badly. A reception was planned but at the last minute conditions prevented it from being held until this Friday. So . . . our apologies and we hope things will pick up soon.

Don't forget the Freshman Reception Friday and the Brunswickan dance next Friday. The reception is free for all students with partner and promises to be a "tres gay" do. The Brunswickan dance is held annually to raise money to support the paper which you are now reading. So, if you want to keep getting the paper, come to the dance next Friday and . . . BEING A WOMAN!

Things are really under way for the Dramatic Society which is planning a big year. This society deals with the promotion of campus dramatics on a friendly basis. The work, except in some cases directing, is entirely student effort and, as you know, the results have been highly successful in past years. There was a meeting last Sunday in the inner sanctum (Ladies Reading Room to you) to get organized and there will be another meeting in the same place at 7.30 to cast for plays and to get the make-up, advertising, staging, lighting, etc. committees started. If you are at all interested in any phase of dramatics it will be worth your while to go to the meeting. Remember the bigger the membership, the better the society. Anyone may belong.

Budget Meeting time is approaching and to the casual observer a lot of hungry chop-licking is being done by Team Managers, etc., who have been promised new uniforms for their teams now that the war is over. May it be a good fight and may the best man win.

With the prospects of evening labs and for some 8.00 A. M. lectures we may look forward to dances and games at the WIERDEST hours. The phone calls will sound something like this:—"Pick you up after lab, we will have breakfast and then go to the graveyard shift dance for an hour until my 8.00 o'clock lecture! Some Fun!

Hooray! Mrs. Mersereau is reopening the Tuck Shop in new quarters in the basement of the Arts Building. No more will the familiar "I'm Hungry" roar down the long corridors. Mrs. Mersereau, we salute you!
"That's all for a while". C. U. next week.

"But John . . . we'll miss the curtain rise . . ."
"Better than missing our intermission Sweet Cap."

SWEET CAPORAL CIGARETTES
"The purest form in which tobacco can be smoked"

U-Y MEETING

Last Saturday evening in the Community Y rooms the U. N. B. U-Y Club held its first meeting of the college year.

The president, Bill Donahoe, called the meeting to order and the first item of business was whether the U-Y would have a campus social event or not. It was moved the club would not hold any such event this term. Then the subject of the bicycle rack, slightly the worse for wear, was brought up and Don Boy-

aner was asked to look after the repairs.

The club decided to undertake a new project, that of a used book exchange. All students desiring to sell old books would leave their names and addresses in the library and students desiring second hand books would thus be able to find what was for sale. Raymond Yole is the chairman in charge. The president stated he hoped the campus would co-operate even if the exchange was off to a late start.

Three new members were introduced to the club, Vernon Copp, Roy Willis and John Catherine.

Compliments of Gaiety and Capitol Theatres

President Gregg

(Continued from page one) joined the forestry department from the army. Dr. Stephens has been replaced by Professor Wheatly as professor of mechanical engineering; Dr. Hoare has been replaced by Dr. Smith as professor of Zoology; Dr. Petrie has been replaced by Captain Blaine as professor of economics (Dr. Petrie is serving as vice-president of the Khaki University of Canada) and Dr. Stewart has been appointed as Professor of Philosophy, a new chair. The new assistant professors are: Professor Vail in electrical engineering, Professor Garnaise in chemistry, Professor Fleming in mathematics, Professor Kennedy in physics, Professor Grant in English, Professor Hall in biology and Professor Beattie in civil engineering. Miss Warren and Dr. Habeeb have both left.

Miss Firth has transferred from the English department and Miss Murray is the new assistant in English. Mr. Lewis (formerly known to most of the students as Sergeant Lewis) is assistant bursar, Miss Lutes is assistant librarian and Ruth Cumming (a freschete last year) has joined the secretarial staff.

The president also stated there will be no C. O. T. C. until after November 1.

He stressed the importance of looking forward into the future of our country in order to equip ourselves to play an important part in it. Then after thanking all those who have volunteered to help the University in the registration of students and other items during the first week of college the president departed. The assembly soon dissolved and retreated to its first classes of the new year.

Library Staff

(Continued from page one) left. The guests then departed in a shower of good wishes and a slightly audible murmur of "Good-bidance".

S. C. M. Meeting

(Continued from page one) attend the conference, will present a report to the group at the next meeting which is to be held on October 14. (There is no meeting Thanksgiving Sunday.) The financial position of the local S. C. M. was explained and the members were urged to contribute as much as possible in order to enable the group to fulfill its obligations to the National S. C. M. and to improve its organization on this campus.

Dr. Louise Thompson then spoke to the group about the aims and purpose of the S. C. M. She stressed the fact that somewhere between adolescence and adulthood one has to face a reorganization of his thinking, in social, ethical and religious lines as well as in other fields. "Religious thinking may result in some unorthodox ideas," said Dr. Thompson "but it is nothing to be worried about." She mentioned that a group in which each member, democratically, counted for one, was the most satisfactory type of organization, and urged cooperation along with frank discussion among the members.

The group then went to the Ladies Reading Room for the devotional and for some informal singing. Dr. Thompson suggested that the group try part singing, and recommended a hymn book for the purpose. Lunch was served and after a friendly dishpan conference the members went home.

A witty saying proves nothing.

S. R. C. Convenes

(Continued from page one) on a rental basis at the football field, and Otis Logue was named to look after the details.

The date of the preliminary budget meeting for the fall term was set at Thursday October 11, at 7 p. m.

Permission was given for the printing of student passes, which will be given to the students who have paid their levy. These passes will allow students to attend S. R. C.-sponsored activities, as athletics and certain dances free. The Council was reminded that the next meeting will see the election of a Faculty Advisor, and Honary President of the S. R. C., also that it should think upon a new name for the War Effort Committee. (Mr. Owens reminded us that the war is now over.)

Al Cameron was appointed chairman of a committee (of his own choosing) to look into a revision of the S. R. C. point system. Henry Durost heads a committee to arrange a list of people (faculty and local notables) eligible for complimentary tickets.

The following vacancies were filled by nomination or voting where there was more than one applicant: Business Manager of the 1946 Year Book, Hubert Seely; Assistant Manager of Men's Basketball, Robert McGowan; Rink Manager, Dick Sainsbury; Hockey Manager, Joseph Kaplan; Assistant Manager of Football Team, Vernon Copp; and Manager of the Badminton Club, Margaret Vince.

Donald Gammon was given permission for the Student Christian Movement to issue a supplementary Student Directory after Christmas (in addition to the regular Directory to be released soon).

Concerning the A. A. A., Nell Elgee proposed an amendment whereby a member of each class should sit with the A. A. A. to help promote interclass sports. He was also given permission to send a representative to the Maritime Intercollegiate Athletic Union at Truro, October 2., and was granted funds for that purpose. Discussion centered around the Photo Editor of Year Book, and it was decided to leave the matter in Mr. Horgan's hands.

The Council approved the membership of the Social Committee for 1945-46, and in its last breath approved the Brunswick Dance for Friday, October 12.

Campus Heads

Residence Meeting

(Continued from page one) living conditions of the residence in any way possible.

It was decided to leave the house levy at the usual sum of \$2.50. Newspapers coming to the residence for the present academic year will be three Telegraph Journals and one Montreal Star.

The possibilities of a house dance this fall were discussed and it was decided to consult on this matter with the dean and Dr. Gregg. C. Larry Mofford was elected to represent the freshmen in the residence.

A. A. A. Meeting

(Continued from page one) mural and interclass sport is concerned.

It was suggested by Ted Owens that the president of the A. A. A. and Howie Ryan represent U. N. B. at the M. I. A. U. meeting to be held in Truro on October 2.

Other points in the sport program advocated the maintenance of good varsity teams, participation in athletics sponsored by the M. I. A. U. and the maintenance of present regulations regarding student eligibility in athletics. It was also stressed that maximum possible effort should be made by the A. A. A. to arouse college spirit at games and to encourage better cheer leading. Recommendation was also made that the playing field and the gymnasium be kept in the best possible condition and particular reference was made about getting the ginning room off the gym floor.

A great amount of discussion centered around the point which advocated that all requisitions to the S. R. C. regarding athletics must first have the approval of the A. A. A. Under this set-up all budgets to be presented to the S. R. C. must first be approved by the A. A. A.

It was decided to introduce a motion at the coming M. I. A. U. meet-

ing suggesting the lifting of the ban which prohibits more than two trips for each sport.

A motion was passed at the meeting giving the president the authority to appoint a committee of three to revise the A. A. A. constitution. Also included on this committee will be the faculty advisor, Dr. Pacey.

The possibilities of a track meet this fall were discussed but due to the lack of time this suggestion was discarded. It was moved that a track meet for next fall be considered and that the U. N. B. representative at the M. I. A. U. conference be asked to bring up the matter of a fall track meet before the conference.

The president reported on the "sport-like questionnaire filled in by all new students, to indicate their sport preferences. The vice-president of the A. A. A. was appointed to act as captain and manager of the track team.

Those eligible for this position on the track team are those who won crests for their activities in track last year and who are still at U. N. B. Last year's crest winners are as follows: Stothart, Milton, R. Anderson, Worthen, Jeans and Morgan.

SOCIAL COMMITTEE

The first meeting of the Social Committee was held in the Observatory with Edith MacFarlane presiding. The Freshman Reception was the chief topic of discussion and after considering all the angles, it was decided to make it a little different from former years. Speeches from the heads of the societies are going to be dispensed with and more time will be devoted to dancing.

As the number of students has increased this year it was decided to recommend to the S. R. C. that the Fall Formal be just for the students, their partners and the faculty.

U. N. B'ers

By PAT RITCHIE

by Pat Ritchie

We all extend our deepest sympathy to the family of Haldane Robinson. Hal was a popular student and we will miss him at U. N. B.

Kay Bell '45, last year's writer of this column, is in training at Montreal General Hospital.

The university has been invaded by U. N. B'ers back to the old grind again. This time as veterans.

Among the returned men in the Freshman class are: C. W. McLenahan who left us in '38, A. R. Rogers, '40, George Jardine, and Harry Neilson, '41, Graham Clarke, James Duncan, Bruce MacMillan and Ollie Stillwell, '43, Charles Atkinson, Gerald Kolding, Robert Lanyon, J. E. Trambley and Lorne Mooers, '44.

Those in the Sophomore class include: A. L. Bond who left us in '39, Glen Hagerman and C. B. Miller, '40, James Fletcher, J. R. Lejeune, and Dalton Rideout, '41, Jim Ayer, Jack Johnston and Harry Watson, '42, Russ Bishop, Francis McAllister, John Peters, W. F. Raymond, George Robinson, Joe Titus, and Bob Weir, '43, Francis Anderson, R. L. Browne, John Busby, Ed Donahoe, Ray Finnegan, Cecil Garland, Walter Hatfield, Donald Henry, Brent Hooper, D. M. Johnson, James Kingston and Robert Myles '44.

The Junior Class also has many repeats including: Glen Davis, D. C. Horncastle, A. J. Lawrence, M. D. Seeley and J. C. Wade, who left us in '40, Gerald Aiyoo and D. E. Smith, '41, Dan Gorman, '42, Pat Claire, '43, Robert Beach, Frank Dohaney, Oliver Mersereau, A. C. Meurling, Emerson Moffitt, Jim Ross and Hubert Seely '44.

There are also eight seniors back this year, George Fletcher, W. Y. Smith and J. D. Vaughn who left in '40, Terry Dalton, Thomas Fortier and Bill Innis '42, G. A. Mackin '43, and J. V. Clark, '44.

Welcome back fellas! We hope you are as glad to be back as we are to have you.

SCOOP

by "Snoop"

The sparkle of Edith's diamond shone all the way to Boston. We are wondering when it will get to Niagara Falls.

Get Shirley Kinnie to tell you about how the sweater got so big. And while you're at it, see if you can get the lowdown on some of the parties that the Belleville "bugologist" were at.

Look at Ted Owens and Al Cameron's eyes. Sad isn't it. Freshmen take note. Don't get mixed up with any senior co-eds. They always graduate.

Available to twenty-five freshettes—three hundred hunks of human heart throbs. Never have so many been confronted by so few.

Warning to Rotheray freshman, and to a few upper class men too, the Boston Bombshell (Atomic at that) has the "Bah Bah-bah" look in her eye.

Has Spuddy heard about the Farmerettes yet, Ed.

HOWIE RYAN

In this our first issue of the Brunswickan let us introduce to you Howie Ryan, Physical Director, Coach and sports mentor who is greatly responsible for the championship teams that have been produced at U. N. B. during the last few years. Once again we are both proud and glad to have Coach Howie back with us to train and build up our teams with his non-stopping energetic coaching and we look to him to give us a future to more than equal our past.

Most girls have a skin they love to retouch.

My dear it was awful! Bill and I sat down on a newly painted seat and he absolutely ruined his clothes.

"And aren't you glad now," said the father, "that you prayed for a baby sister?"

"Yes," replied the son, after another glance at the twins, "and aren't you glad I quit when I did?"

Overheard in the Forestry Building on registration day: Two well known professors holding hands, one saying: "Daddy, gee Daddy, this here is the biggest building I ever saw, gee, Daddy, can I learn to paint pictures of my teacher in the bathtub at this here school, can I Daddy?"

"Constant Johnny" Holmes spent the summer taking "Law" courses. Wonder where he does his homework?

We hope that Bill Martin doesn't make Mary Lawson as sick as Benny Martin did see Medal for Benny).

The fog on the Saint John romance between Jennings and last year's freshette queen hasn't lifted yet. Someday they'll see the light.

Popular language professor to a most svelt lady from Boston. "I hope, mademoiselle, that you are taking at least five modern languages." Shades of Margaret Vince. If you think I haven't seen much this week wait till I fish my glass eye out of the gutter.

I'm the guy who plays first mooch with the girl friend. But don't worry, she doesn't like me any more than she likes you.

MAJOR SNOOPLE.

Brunswickan Staff Meets

The Brunswickan Staff held its first meeting of the new year in the library last Wednesday with the Editor-in-Chief presiding.

The first Business was the date for the Brunswickan dance. This will probably be held October 12. Next was the election of a representative of the Business staff, Gern Wheeler and a representative of the Editorial staff, Charlotte VanDine to the managing board of the Brunswickan.

It was announced that the Brunswickan would be coming out on Thursday this year instead of on Wednesday as it did last year. The assembly then adjourned and a meeting was held of the Managing Board.

The main topic of this discussion was finances and various motions were made regarding money, its spending and its saving.

The importance of procuring a large staff of reporters was stressed. The meeting was then adjourned.

Professor Wheatly

Replacing Dr. Stevens as Professor in Mechanical Engineering Professor Wheatly comes from the engineering staff of Consolidated Paper Corporation Ltd. He received a B. Sc. in mechanical engineering from McGill in 1930 and has served on the teaching staff of that department.

Nuts Gazoobis loved the bees He always was their friend He liked to sit upon their hives But they stung him in the end.
