#### Psychologist Beach:

# Human behaviour ... is it predictable?

cester, Mass., in 1953, no prior will do, and we can often alter warning was issued by the Boston the conditions ahead of time and Weather Bureau, partly because so provide for a different kind officials there did not believe of response. in the likelihood of a tornado in that part of the country; they tended to question their scientific information, to perceive that the weather around them wasn't so bad, and to be hesitant about using the word "tornado" because of the fear that the public

might well panic. Wives whose husbands or nearrelatives were not in the mine at the time of the Springhill 'bump'' did not interpret the heavy ground tremor as a bump, whereas nearly all of those who had a husband or a brother in the mine, immediately thought the mine had been devastated.

These are but two examples of human behaviour and its predictability in time of disaster. According to Dr. H.D. Beach, professor of psychology at Dalhousie University, behaviour is reasonably predictable.

Whether it is that of braking it a stop light, turning up for work at a given hour, a mother's response to her injured child, or the shock reaction to impact a disaster, behaviour is predictable in terms of internal and external conditions which produce and maintin it.

'Assuming that we can anticipate the conditions, then we can

When a tornado struck Wor- generally predict what people few seconds between the blinding

"Furthermore, human behaviour is acquired or learned, so that feelings, thoughts, and action responses can be modified to meet new situations," said Dr.

Dr. Beach, who delivered at the first senior officers' briefing on emergency planning conducted by the Emergency Measures Organization, a comprehensive paper on human behaviour and its management in time of disaster, said that fortunately today there was a small body of systematic research on such behaviour.

One of the first formal investigations, he recalled, was by Professor Samuel Prince, who studied conditions after the Halifax Explosion in 1917.

could be divided into time phases: pre-disaster period, warning period (alert, then threat), impact, emergency (isolation, then assistance), and recovery.

People's responses to warning signs differend widely; and early warning would generally arouse mild apprehension; a late warning might evoke fear and immediate protective action.

Universities and Colleges of Can-

stack of stationery, shouts fre-

quently into his constantly-ring-

ing phone, and summons his sec-

There were exceptions. In the

flash and the first impact of the shock waves from the nuclear explosion over Hiroshima, a few people did cover their eyes, throw themselves to the floor or dive into a shelter. But in such extreme and sudden disaster, the more common response is to pause, take a second look, to check what others think and are doing, even as they experience apprehension and fear.

A major problem is that warning signals are interpreted in the light of a variety of other conditions, such as an individual's past experience, the likelihood of the event, what others are saying and doing, where a person's family is at the time, and the individual's training and role in an organization.

In three false air raid alerts sounded in the United States five years ago, an analysis showed that people were more likely Dr. Beach said that a disaster to take the sirens seriously if they thought that international tension was high or that war was imminent.

> If, with an event such as the Springhill mine disaster, an individual's family is considered to be in a potentially dangerous situation, warning signals are taken more seriously.

short.

momentary cessation of activity. personnel.

DR. BEACH

There is no behaviour. People are immobilized, a great hush descends. But in most natural disasters, this stunned condition lasts only for a moment or so, Then comes the recovery; survivors respond to the urgent problems around them.

But behaviour during the recovery period can present a picture of confusion, even chaos. And, in a few regrettable cases emergency service organizations have even competed for "ownership" of the disaster, with the net result that the whole recovery operation is considerably slower and less efficient than it

What is the answer? Apart from preventing a disaster, there is no substitute for preparation and training. It is not necessary that everyone be highly trained. The key is organization and ade-The typical human reaction is quate training of organizational

#### Approve test for dental applicants

Dalhousie University's Faculty of Dentistry has approved a dental aptitude testing program for screening prospective applicants to the school for 1968.

The test program which has been established at most universities in Canada, is designed to provide a further guide to the probable success of students who enter dental schools.

At a time when there is a serious shortage of dentists and an ever-increasing demand for more trained men, students selected for admission must be capable of completing the dental education

program, said L.V. Perry, administrative secretary of the school. If a school is to employ their facilities in the most capable manner possible, each class must operate at full capacity. -drop-outs in first year can only mean reduction in the total number of graduates.

As for a prospective student, Mr. Perry pointed out that the dental aptitude test would indicate whether or not he will succeed in his course of study and thus avoid loss of time and expense on profession for which he is not suited.

#### Hicks elected to UNESCO executive

Dr. Henry D. Hicks, president of Dalhousie University and president of the Canadian National Committee for Unesco, has been elected a vice-president of the Unesco Conference, now holding its annual sessions in Paris.

Dr. Hicks, president of the Canadian delegation since 1963, is one of 15 vice-presidents of the international conference. Each from different member-countries, they and the Unesco president constitute the general committee which regulates and controls the workings of the conference.

Dr. Hicks arrived in Paris last week for the annual Unesco meeting. He returns to Halifax in early December. In his absence from Dalhousie, Dr. Horace E. Read is acting president.

#### Faculty of Medicine plans clinical conferences

A series of six clinical conferences, part of the continuing refresher program of the postgraduate division of Dalhousie University's Faculty of Medicine, will be held at Colchester County Hospital, Truro, beginning next month. Members of Dalhousie's Faculty of Medicine will be guest

clinicians at the conferences, which have been arranged by the Following are the dates, topics and speakers for the series:

Nov. 10, 7.30 p.m. — Discussion of obstetrical and gynae-cologic case presentations, Dr. M. M. Davis, lecturer in obstetrics and gynecology;

Dec. 8, 7.30 p.m. - Discussion of case presentations of portunity to sponsor two or three chest injuries and cardiac arrest - Dr. C.E. Kinley, assistant Topics and speakers for further conferences, on Jan. 12,

Feb. 9, March 9, and April 6, will be announced later.

#### English Dept. to host poet Alfred Purdy

Dear Halifax:

Congratulations for being Canadian! It must give you a sense of pride and security in our high standard of living. If living means appreciation of life, we Canadians have the lowest standard of living in the world. in spite of the fact that it costs more to live in Canada than in any country in the world (ask Bill Powers) with the exception of the United States.

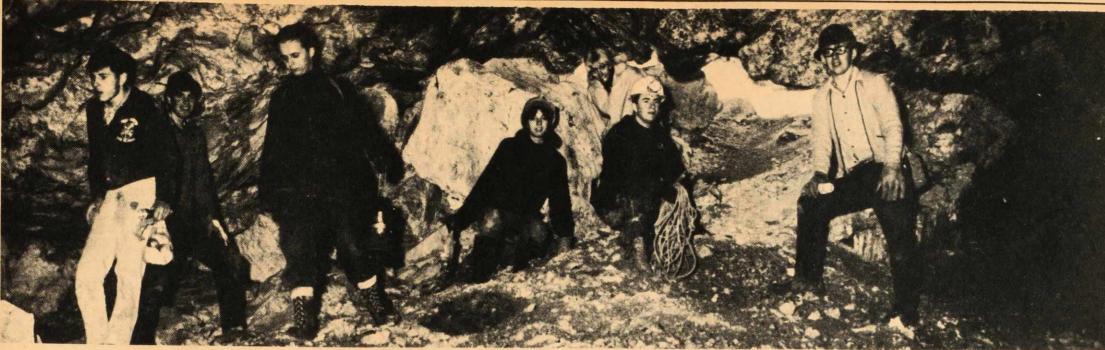

I refer to the situation in Africville, where money talks against equality, where the white majority has printed on 'clean white' paper (I presume) "I'm white, cleansed color" and where pressure is being pressed upon Kwatcha and the few persons that are trying to do some good.

I wonder if any of you belong to the KKK Halifax branch (of that tree of evil fruits). More than likely you don't for being a typical individualistic student you probably will not get off your 'Royal Canadian' to do anything pro or con in respect to the previously mentioned cause. I wonder if any of you people belong to the Canadian Nazi party, Dalhousie branch (of a very warped tree) or here again I may be hovering under another oath of misunderstanding for you probably pull a sinofommission, or perhaps, 'I didn't know.' Just to prove the validity (or invalidity) of my accusation get in touch with Kwatcha and see for yourself. Then: sit on your 'Royal Canadian', drink your coffee, discuss your small town college philosophy or weather.

D.B.J. Snyder, Arts III Graham Hall, United College Winnipeg 2, Manitoba

Students of Manitoba conform to Canadian ways.

The Science Ball will be held November 18 at the Lord Nelson Hotel. Music will be provided by Arne Benson and his Orchestra. Tickets \$3 per couple will go on sale in the canteen from November 8 to 18 between 12:30

Just inside the entrance to the cave the Gazette's two fearless female reporters and their faithful guides stop to survey the depths, which lie before them. From this point on there was no turning back - only advance into the dark unknown. Past this point the girls knew their fate rested in the gloved hands of their male guides.

Cave exploring is a real sport. It presents the thrills and challenges of mountain climbing with the added handicaps

The Gazette's two beautiful staffers escape from the cave after losing their guides. They

are now organizing a search party to look for survivors next weekend.

#### The Bluenose Grotto Cave **Exploration Society asks:**

# Are you interested in a "spelunking" expedition?

The russet leaves had fallen around us and the last rays of sunlight were dying; Don told me with his eyes and his soothing words not to be afraid, and his twenty two friends knew that it was my first time and they would all be careful, and stop whenever we wanted. We wanted to go back but it was too late; he held one hand tightly and his friend held my other; we wanted to go back but we knew that it would break up the party. We closed our eyes as the darkness began to surround us and we ould feel his strength as he sliped into the inviting warmth; hen his twenty two friends one y one followed him into the arkness. Then with the whole lub inside Don passed around

The group of people who decided to go on this unique adventure consisted of a wide cross-section of students and

Public Relations

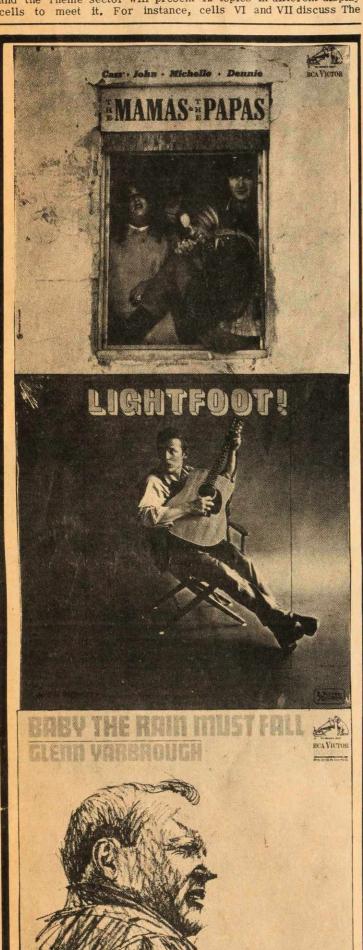

"It is an exhibition for youth. We would like to see Canada's young people welcome those from all over the world. We hope they will exchange views and ideas. Here is a wonderful opportunity to discover the world. This can be their exhibition.

The speaker was Philippe de Gaspe Beaubien, Expo's director of operations. His enthusiasm is contagious and with reason, it's that kind of Exhibition.

It is even more "that kind" of Exhibition for university students. The fast-moving, dynamic, technological era Expo will represent the age they will inherit and mold. Students can learn, amuse and be amused. The main area for participation will be the Youth Pavilion, which is geared to appeal to the 15 to 30 age

In the two sectors, Theme and Activity, young people will be introduced to themselves and to their contemporaries of 70 nations, they will meet and exchange points of view. . . in casual chats or fierce debates, it doesn't matter. . . it is the challenge

The present day world will be illustrated. What are the effects of this 1967 world on youth? How does youth react to it? What does youth want to do with it? It is an impressive challenge, and the Theme sector will present 12 topics in different display cells to meet it. For instance, cells VI and VII discuss The

# expo67 Youth Pavilion, a haven for students

2) divisions and opposition between older and younger generations, 3) delinquency. Other topics include the scientific and technological environment, the differences between youth on the six continents, and how these differences affect their social, economic and

Differences in age and education of visitors require that Expo's appeal be of an emotional rather than strictly intellectual "Teaching" will be indirect and the emphasis placed on participation. The Activity sector of the Youth Pavilion has been planned with this in mind, and also as a complement to the Theme

The Lobby-Gallery can serve as a rest area, as well as a waiting room between shows; visitors can refresh themselves at the adjoining snack-bar counter. The lobby will also be used as permanent art gallery. The art pieces and other exhibits which will be shown here will be the works of young people (paintings, sculptures, photographs, graphic art, etc.) There will be at least a dozen shows, lasting from one to two weeks each.

#### THEATRE AREA

The theatre area offers the best equipment and is the most suitable sector for first-quality cultural events. Its multipleuse function and its architecture enable it to shelter many different kinds of activities.

The program will include an international amateur film festival, theatre (plays by young authors; experimental and "avanttheatre), music (recitals, soloists, small ensembles), meetings, lectures, etc.

facilities to transform it into a discotheque and "boite a chansons". Jazz, folk singing, folk-rock groups, popular singers will be featured. At times, the cafe-dansant will also become a television

Crisis: 1) the different forms taken by the restlessness of youth, studio; rehearsals for some youth programs will take place there,

and the programs will be Transmitted live from that sector. The Amphitheatre of the Agora is the third key sector of activity. Most events will call for an active and spontaneous participation from the visitors: choirs, hootenanies, drama, folk dances and songs, gymnastics and sports demonstrations, festivals, integrated art shows. The selection of many of the participants in these different areas is not yet definite. Requests for information about participation should be addressed to: Youth Pavilion, Administration Building, Expo 67, MacKay Pier, Montreal, P.Q.

Swooshing rides, exotic boutiques, de luxe and inexpensive restaurants, very "in" bars and discotheques; La Ronde, Expo's amusement area, swings.

In Fort Edmonton, visitors will be swept away by the flurry of the gold rush and the Gay Nineties - sheriffs and cowboys running through the streets, honky-tonk piano, barber-shop quartets and dancing girls in the Golden Garter Saloon, snacks in the Wake-up-Jake Saloon. The bright lights and "happenings" of Fort Edmonton contrast with the hide-away atmosphere of Le

The buildings are old, the streets narrow, and the doorways lead to darkly lit caves, smoky, noisy and provocative. This is the "forbidden" area where nothing is really sin but everything fun. . . If the impression visitors get is one of entering a sin bin, the Exhibition will be pleased. That's what they paid the architect

#### LE VILLAGE

In the heart of Le Village, the discotheque shakes with the The cafe-dansant is equipped and organized with all the big beat sounds. The bar and restaurant in the building are more subdued, but for the discotheque proper the motto is the louder the better, . . and if the "noise" filters into the other

Chez Rose Latulipe, is where poor Rose's sad tale is told, how she danced herself to death while under the spell of the devil's violin. It's a dance hall mostly for square-dancing and jigs, and while no food will be served, the bar may be a consolation. Then to repent, revelers can go to Le Refectoire de l'Abbaye where monks will serve wine and cheese, and serenade them with accordions.

For international entertainment, Expo has the Garden of Stars. Teenagers will use it as a dance hall in the early evening, later, it becomes a night-club. The International Carrefour, with its series of restaurants, and small shops, the dancing waters and fireworks at midnight, the flume ride (log-shaped cabins shooting down towards Dolphin Lake), the Gyrotron: these are

but a few of the attractions in La Ronde. Expo's employment opportunities will offer students an effective and interesting means of participation. It has been estimated that 3,000 new employees will be needed, 650 of which could be students. Concessionnaires will need approximately 2,300 people for restaurants, boutiques, etc., and exhibitors might hire up to

A spokesman in the Personnel Office stressed that the Corporation "intends to make every human effort possible to hire university students." This point was emphasized in view of the problems that arise: hiring dates (April 17-21) and training periods will fall before the end of the academic year, and students

will have to return to lectures before the end of the Exhibition. Once the study of personnel needs is complete and once the government has approved the positions, more details (where to

apply, etc.) will be available. Students will be required for such jobs as ticket collectors.

ushers, parking lot and ride attendants, waiters, etc. It is a two-way process, if young people, students, benefit

from Expo, so will Expo, and indirectly the world we live in, benefit from their participation.

#### South Africans to be deported?

# From Cape Town to Canada...

BY ELIZABETH HISCOTT Gazette Features Writer

"It is sad to read that refugees from injustice should be threatened with deportation instead of being welcomed with open arms by our authorities."

This remark by Mr. Norman Lipschutz, author and publisher of Glace Bay and a man familiar with the Nazi oppression of the Second World War, echoes the feelings of many Haligonians.

The free and friendly port of Halifax is host to a young South African couple, Michael Neill 24. and his wife Eefke 20, who have chosen Canada as the country in which they hope to find freedom to live as individuals. Michael, of white South African ancestry and Eefke, whose ancestors were Dutch and French, have been ordered deported to Africa.

The Neills left Cape Town because they had the courage to dis- write a book in the future called, agree with the apartheid policy of the South African government and

#### In Praise of Older Women... **Books: Terry Donnelly**

In Praise of Older Women: the amorous recollections of zev Ballantine (95¢) 225 pp.

Unlike most Canadian writers, Stephen Vizinczey has not chosen to write of things distinctively Canadian, such as small prairie towns or Torontonian pseudosophistication. In fact, the subject matter of this little novel is something distinctively un-Canadian - sex, or, more explicitly free sex.

In Praise of Older Women purports to be the sexual autobiography of one Andras Vajda, a philosophy professor at the University of Saskatoon. With this deliberately prosaic setting ends the "Canadianity" of the book. Vajda takes us back to his boyhood in wartime Hungary and Austria, where he began his career at the tender age of twelve, acting as a pimp for the American

That's only the beginning. As he grows up, he has experiences with young girls, matrons, virgins, and just about every other subspecies that might be imagined. He gets involved in the 1956 revolution, flees to Italy for a quick affair with a frigid woman, and finally ends up emigrating to Canada, where he continues his hobby as best he can.

So far, the book sounds like just another Frank Harris-type sexual diary. But it isn't - and this, as I see it, is where the book leaves the common run of sex-obsessed novels and emerges into uniqueness.

For the past fifty years people like D.H. Lawrence have been trying to make physical love an acceptable subject for treatment in fiction. They succeeded, but unfortunately many novelists have never realized this, and are still carrying on the campaign. As a result, the average novel

in its own self-consciousness is apt to offend us either by hedging or by being crudely blunt. And it will probably never get further into its subject than mere anatomical descriptions.

Vizinczey, however, is not out to win any battles. He recognizes he is dealing with what is now a legitimate theme in literature, and this new theme can be handled in countless ways. He works

art from art rather than from individual perception. Since forgers paint only for the commercial market, their work lacks the life and spirit of a creative

within the theme, exploring its various aspects, and emphasizing one: that older women are in-Andras Vajda By Stephen Vizinc- finitely better lovers than giggly young girls.

The result is that he has written mature, tasteful book, fascinating to read and perhaps even significant as a didactic novel. One does not necessarily have to be a proponent of free sex to enjoy the treatment Vizinczey has given to this theme. He never bores us with page-

long medical lessons ala John Cleland. He doesn't euphemize about anything, nor does he offend us by using vulgar terms out of context. The language at all times is the language of Andra Vajda and the people he encounters. And Vajda is quite a character. He is extremely frank, as quick to point out his failures as he to note his successes. An

whole book, and parts of it are extremely funny. Nonetheless, nothing detracts from the moral Vajda wants to put across. The book is "dedicated older women and addressed to young men" - with the purpose of connecting the two. No incident fails to teach the young men

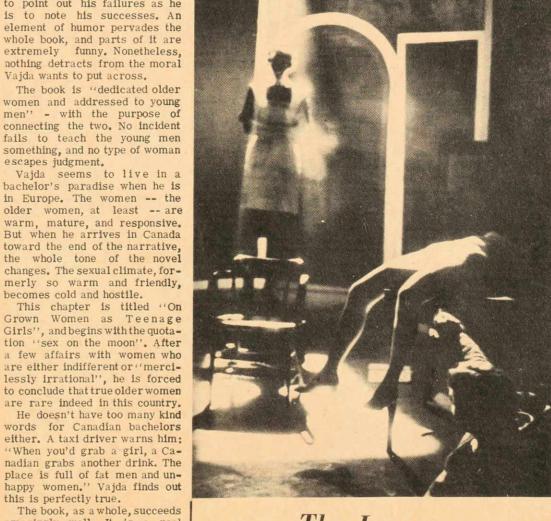

element of humor pervades the

escapes judgment. Vajda seems to live in a bachelor's paradise when he is in Europe. The women -- the older women, at least -- are warm, mature, and responsive. But when he arrives in Canada toward the end of the narrative, the whole tone of the novel changes. The sexual climate, formerly so warm and friendly, becomes cold and hostile.

This chapter is titled "On Grown Women as Teenage Girls", and begins with the quotation "sex on the moon". After few affairs with women who are either indifferent or "mercilessly irrational", he is forced to conclude that true older women are rare indeed in this country.

He doesn't have too many kind words for Canadian bachelors either. A taxi driver warns him: 'When you'd grab a girl, a Canadian grabs another drink. The place is full of fat men and unhappy women." Vajda finds out this is perfectly true.

The book, as a whole, succeeds amazingly well. It is a real pleasure to see Canadian writing leap into popular fiction of an international sort. It is an even greater pleasure to see sex discussed like any other theme in literature, without blushing selfconsciousness or dull cata-

The Lesson

The end of 'The Lesson' as is it was presented in Arts and Administration building. Using the confined and limited facilities provided by the lecture hall student director Chris Brooks managed to create a challenging piece of drama.

#### Richard II BY INGRID LEFORT

The convention of presenting an annual Shakespeare spectacular unfortunately seems to be becoming established at Dal. Shakespeare has limited audience appeal, and always demands a large cast which means that the individual actor gets a proportionately small share of director-actor contact. Thus actors and hence the production cannot be as good as an equiva-

Theatre didn't die with Shakespeare - it lives yet. Period plays are interesting to see occasionally, but if we're going to have a university drama program, surely its staple fare should be real, live, modern theatre experiences.

However, The Dal Drama Workshop production of Richard II was far more refined than their Shakespeare debacles of pre-

#### Ripley, excellent,

John Ripley, as Richard, was excellent. This actor has a fine voice and knows how to use it. His movements, however, were not up to the same standard and his footwork often distractingly inappropriate.

Ripley's Richard obviously paced the other actors, particularly Messrs. McClymont, French, Dunphy and Blake who turned in remarkably good performances as Bolingbroke, York, Gaunt, and Northumberland respectively. Mr. McClymont has an excellent voice but gave it and his character little range. We hope to see Mr. Blake in Dirty Work at The Crossroads next

Nancy White was badly miscast as Richard's queen. Whilst the "stage picture" was often quite lovely, the play was generally static. Stage movement was a little too obviously point to point - even Richard was guilty in this. We like to see nice groupings on stage, but they should not be preserved at the expense of motivated movements.

Gestures were used far too seldom. The focal point of the stage picture should be interesting to watch - in this production it rarely was. Movement, both of groups and individuals, was unrealistically sparse.

#### Costumes

The costumes aided this style and proved that Carnaby Street colours are nothing new. But although they were too new, and at times clashingly fluorescent, they made statements about the characters and the play, and once they established themselves, their cut and colours were quite fascinating.

The whole play came strikingly together in the second act "mirror" scene. It was awesome to watch costumes, blocking, lighting, and Ripley's acting blend, settle and close in on the

key scene of the play.
On the whole, Richard II was a good production. Its main fault was the choice of play.

#### Films

### Do Fakes Matter?

though the film was shown at All fakes are exposed by time.

ST. MARY'S 55 - TIGERS NIL

Last Saturday marked the close of the Dalhousie Tiger's football season. It ended on a sad note and hence the less said the better.

emblematic of Halifax college football supremacy. We lost to the St. Mary's Huskies 55-0.

SPORTS EDITOR

What happened? Well, a number of things. First and foremost was inkey situations. Also we threw our injury problem. Of course, Bill Stanish was out, but as if John Tilley had "one of those that was not bad enough, Cam Trotter and Keith Kingsbury Mel Ritcey was not blessed with were injured early in the first any luck either. Our punting re-

through for the day. Early in the first half, Dave Crocker was re-It was the Lobster TrapGame, altogether.

and lost the ball three times, two of which were after fine gains and two interceptions. Sure-handed days when nothing goes right."

appearance by Keith, both were punts for an average of only 25 yards a punt. The punter was not handed the best of snaps nor given duced to hobbling while Barry the greatest blocking. Along with De Ville was out of the lineup this, the penalties came at bad this, the penalties came at bad

Secondly, it just wasn't our day Thirdly, the game unfortun-for breaks. We fumbled five times ately was anti-climatic after last week's great performance against Acadia. Spirit displayed by our Tigers in the Acadia game is "a once a season thing"; it is almost impossible to get that fired-up more than once a season,

# Let's Talk Hockey

#### Walford steps up practice tempo

The past week saw the Tigers working very hard in order to make up the time they have lost to the other teams in the league. Dal was the last club to take the ice as a result of the rinks being used for social events. The delay has forced coach Walford to intensify the amount of material to be covered in each practice session. This is exemplified by the fact that the first time a full equipment practice was held, just three days after the first on ice drills, they had a scrimmage. The remainder of the week was spent on exercising specific skills and the initial aspects of the system coach Walford plans to use this season.

MAJOR PROBLEMS

The major problem facing the coach is the ability of his numerous rookies to learn the various routines that are contingent upon specific game conditions. The seriousness of this problem was partially allayed by the results of an intra-squad game held last Saturday night. The allocation of personnel to the Black or White teams was based primarily on the results of a series of speed and agility tests held during the afternoon practice. All players showed that they had grasped the basic fundamentals of the system and the

result was a well played game. IMPRESSIVE FORWARD The most impressive forward line of the night was the Black team's combination of Mahoney, MacPherson and Levitz. These three could provide Dal with much needed scoring power if they can learn to think and act as a unit and not as individuals. When one of them breaks from the pattern, as happened during Saturday's game, the other two rendered ineffectual. Another performer of interest for the Black team was defenseman Bob Cyr. He has a good shot and the ability to lug the puck out of his own end. However, Cyr too often gets caught up ice after his rush and must learn to hustle back into position after making his play. If he is able to achieve this then Bob will provide a definite asset to the club.

The White team's defensive duo of Moore and Rogers also showed definite possibilities. Rogers has good size and speed while Moore is a good playmaker and has an excellent shot.

John Bell, who has the first string net minding job, showed a marked tendency to going down too often and too soon. However, towards the end of the scrimmage he was staying on his feet -Sunday, November 6. Inter- which resulted in many fine shots. At the other and Dave Andrews squad Meet (Black Bombers vs and Peter Hebb were vying with one another for the second string

COACH PLEASED

In the final analysis the coach was well pleased with the progress that has been displayed so far. Another intra-squad game is scheduled for the Saturday prior to the Tigers initial league encounter with the Acadia Axemen on November 19 at 8 p.m. in the Dal rink. mentioned last week that goaler Mike Kennie and veterans Dave McClymont and Bill Stanish would more than likely be lost to the Tigers this season, Apparently this will not be the case, Mike Kennie has decided to give his knee a good tryout and if the results are favourable he will join the fight for the back-up goaltending job. after a week of rest. He will rejoin the team this week and if Dave can take care of his health he will certainly be the cornerstone of the Dal defense. Bill Stanish, injured during the football game against Acadia, expects to have the pin in his shoulder removed within two weeks and hopes to be ready to go early in December.

SLAPSHOTS After Saturday's intra-squad game Coach Walford will make his final cuts. Those not making the Varsity will come under the able direction of coach Bellemere for further training. At any time luring the season a junior varsity player, showing the necessary skills, can move up to the Varsity.

The girls varsity hockey team took to the ice last Monday morning with such cries as "I'll never smoke again" following the initial workout. If there are any girls who have not yet signed up to play but would like to will they please contact Miss Paddy
