PROSPECTUS.

Campbell's "COMMERCIAL GAZETTEER AND ATLAS" has been prepared with a view to furnish a general compendium of useful information for the use of Merchants, Bankers, Traders, and business men throughout the Dominion of Canada.

A special feature of the work is the COMMERCIAL MAPS, which have been secured expressly for this work; also SECTIONAL MAPS of all the COUNTIES of Ontario.

A carefully prepared Index has been compiled, showing every Post Office, with the nearest Railway Station, Banking Town, Express Office, and Telegraph Office in Ontario, each of which is shown on the Maps. Similar information is also given of the other Provinces, although with less detail.

Tables showing the extent of the COMMERCE OF CANADA with other countries are given in detail; and the progress made by the Dominion since Confederation is shown by a comparative table.

The Tariff of Customs and Excise has been corrected up to the present date, and tables are given for computing Foreign Money according to the Custom House standard. The Postal Guide is also given in a succinct form; and in the Index all the Money Order Offices and Post Office Savings Banks in Canada are distinguished by the type, capitals or italics, in which they are printed.

Lists of all the Railways in Canada and their branches, Inland and Ocean Steamship routes, and Stage routes are given; also a list of all the Newspapers published in Canada, with the details referring to them, making it a valuable help to advertisers.

Statements of the Finances of the Dominion and of the Provinces are given, with comparative statements of the assets and liabilities of Canada for the past seven years.

A valuable feature will be found in the INTEREST and DISCOUNT TABLES, and the tables for computing the number of days from any one date to another.

Statistics of Fire, Life, Accident, Marine, and other Insurance Companies doing business in the Dominion are supplied, and a large amount of general information, given in the form of tables and otherwise, in regard to the Finances, Shipping, and Commerce of the Dominion, and of the various Provinces.

For the use of AGRICULTURISTS, tables are given for measuring land, timber or scantling, and grain; and giving the standard weights of grain in Canada and other countries.

For the use of MANUFACTURERS, a large number of valuable tables are given, showing the strength, specific gravity of metals and timber, and their breaking strain, and other information in a concise and useful form; also tables for computing wages by the day or week.

MENSURATION.	
Circumference of a circle	= Diameter × 3.1416, or by 3 $\frac{1}{7}$.
Length of arc of circle	= Take span from 8 times the chord of half the arc, and $\frac{1}{8}$ remainder = length of arc required.
Length of arc containing 120°	= Span × 1.2092
Area of circle	= Square of diameter × .7854.
Area of segment of a circle	= To twice square root of span, + square root of rise, add chord of half arc, and the result multiplied by $\frac{1}{6}$ of rise = area.
Area of segment of a circle, when it contains 120°	= Square of span multiplied by .20473.
Area of sector of circle	= Radius × $\frac{1}{2}$ length of arc.
Area of ellipse	= Product of the 2 diameters × .7854.
Area of egg-shaped sewer	= Square of transverse diameter × 1.1597.
Area of triangle	= $\sqrt{s(s-a)(s-b)(s-c)}$ where a, b, c are sides and s is half their sum.
Solidity of cone	= Area of base × $\frac{1}{3}$ perpendicular height.
Solidity of globe	= Cube of diameter × .5236.
Surface of globe	= Square of diameter × 3.1416.
Prismoidal formula	= Sum of end areas + 4 times middle area multiplied by $\frac{1}{6}$ of length.
Prismoidal formula, applied to earthworks, casks, and truncated cones.	

TIME.	
Seconds.	
60 =	1 Minute.
3600 =	60 = 1 Hour.
86400 =	1440 = 24 = 1 Day.
604800 =	10080 = 168 = 7 = 1 Week.
2419200 =	40320 = 672 = 28 = 4 = 1 Month.
	12 = 1 Year.

MISCELLANEOUS ARTICLES.	
Cable's length	= 240 yards.
The old Wine Gallon	= 231 cub. in.
The old Ale Gallon	= 281 cubic inches.
1 Stone	= 14 lbs.
20 Articles	= 1 score.
12 Dozen	= 1 gross.
1 Cord of Wood	= 128 cubic feet.
1 Faggot of Steel	= 120 lbs.
1 Cask of Black Lead	= 11 $\frac{1}{2}$ cwt.
1 Pig of Ballast	= 56 lbs.
1 Truss of Straw	= 36 lbs.
1 Truss of Hay	= 56 lbs.
1 Load of Hay or Straw	= 36 trusses.
A Firkin	= 1,444 cubic ft.
A Corn Bushel	= 1,284 cubic ft.
A Barrel of Tar	= 25 gallons.
1 Ton of Portland Cement	= 6 casks.
1 Ton of Portland Cement	= 10 sacks.

LIQUIDS.	
WATER.	
1 Cubic inch	= .0361 lbs.
1 Gallon	= 10,000 lbs.
1 Cubic foot	= 62,3210 lbs.
1 Cubic foot	= 6,2321 gallons.
35.943 Cubic feet	= 1 ton.
(Approx.) 1 Cu. ft.	= 6 $\frac{1}{4}$ gallons.
Ice, 1 Cubic foot	= 58 $\frac{1}{2}$ lbs.
OILS.	
Seal Oil	= 9 lbs per gallon.
Sperm Oil	= 8 $\frac{1}{2}$ lbs per gallon.
Acid, Sulphuric	1850 18.5
Acid, Nitric	1271 12.7
Acid, Muratic	1200 12.0
Alcohol of Commerce	825 8.2
Alcohol, Proof Spirit	922 9.2
Oil, Linseed	940 9.4
Oil, Whale	923 9.2
Oil of Turpentine	870 8.7
Naptha	848 8.4
Petroleum	878 8.7
Tar	1015 10.1
Water from Mediterranean	1029 10.2
Water from Irish Channel	1028 10.2
Water from Ice	1001 10.0
Water, Distilled	1000 10.0
Vinegar	1009 10.0

THERMOMETERS.	
FREEZING POINT.	
Fahrenheit	= 32°
Centigrade	= 0°
Reaumur	= 0°
BOILING POINT.	
Fahrenheit	= 212°
Centigrade	= 100°
Reaumur	= 80°
TO CONVERT.	
Fahr. to Cent.	$\frac{5(F - 32)}{9} = C.$
Cent. to Fahr.	$\frac{9C}{5} + 32 = F.$
Fahr. to Reaum.	$\frac{5(F - 32)}{9} = R.$
Reaum. to Fahr.	$\frac{9R}{4} + 32 = F.$

WEIGHT PER BUSHEL OF GRAIN, ETC.
The following Table shows the number of pounds per bushel required, by law or custom, in the sale of articles specified in Canada and the United States. (Official.)

STATES.	WEIGHT PER BUSHEL OF GRAIN, ETC.													
	Barley.	Buckwheat	Coal.	Corn sh'd	Corn Meal.	Onions.	Oats.	Potatoes.	Rye.	Wheat.	Salt.	Turnips.	Beans, wh.	Cloverseed

POST-OFFICE SAVINGS BANKS, CANADA.

1. The following Post-office Savings Banks in Ontario and Quebec are open daily for the receipt and payment of deposits, during the ordinary hours of Post-office business.

2. The direct security of the Dominion is given by the Statute for all deposits made.

3. Any person may have a deposit account, and may deposit, yearly any number of dollars, from \$1 up to \$300, or more with the permission of the Postmaster-General.

4. Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

5. As respects children under ten years of age, money may be deposited—
FIRSTLY—By a parent or friend as Trustee for the child, in which case the deposits can be withdrawn by the Trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipt of both Trustee and child.

SECONDLY—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

6. A depositor in any of the Savings Bank Post-offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him. For instance, if he makes his first deposit at the Savings Bank at Cobourg, he may make further deposits at, or withdraw his money through, the Post-office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continues to reside at Cobourg or remove to some other place.

7. Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

8. Each depositor's account is kept in the Postmaster-General's Office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

9. Every depositor must send his book, once a year, viz., on the anniversary of his first deposit, for comparison with the Books of the Department, and for insertion of interest. The book will be returned to him by first mail. At no other time should a depositor suffer his book to be out of his own possession.

10. When a depositor wishes to withdraw money he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post-office the depositor may have named in his application.

11. Interest at the rate of four per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

12. Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

13. No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage on communications with the Postmaster-General in relation to their deposits.

14. The Postmaster-General is always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post-office Savings Bank business.

15. A full statement of the Regulations of the Post-office Savings Bank may be seen at any of the post-offices named in the following list:

DIVISIONS OF TIME.—Owing to the difficulty experienced by travellers in regard to the Time-Tables of the different railways in North America, a Railway Time Convention was held in Chicago, Ill. (U.S.), on Oct. 11th, 1883, and a **Standard Time** was decided upon for the Continent.

Five meridians of time were adopted, each regulating the time of its own division of longitude; they are 15° of longitude apart, which is equal to an hour in time. Thus, Intercolonial Time is taken from the 60th meridian W. of Greenwich; Eastern Time from the 75th meridian, or one hour slower than Intercolonial Time; Central Time from the 90th meridian, or another hour slower; Mountain Time from the 105th meridian; and Pacific Time from the 120th meridian, or 4 hours slower than Intercolonial Time.

NOTE—The red lines on the map show the limits of the different time divisions.
