The copy filmed here has been reproduced thanks to the generosity of:

W.K. Kellogg Health Sciences Library
Dalhousie University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

W.K. Kellogg Health Sciences Library
Dalhousie University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

MEDICAL EDUCATION AND MEDICAL COLLEGES IN THE UNITED STATES AND CANADA: 1765-1889.

In an address delivered, as Chairman of the Section of State Medicine, at the session of the American Medical Association in 1886,* certain considerations, therein set forth, led to the following conclusions:

1. That the best interests of the public welfare demand the highest attainable standard of educational qualifications, skill and ability, as well as of professional and personal honor, integrity and morality, among those engaged in the practice of medicine.

2. That it is the duty of the State to exercise the inherent plenary power and authority which it possesses for the protection and promotion of the public welfare, to secure such standard.

3. That uniform State laws, exacting of every one aspiring to practice medicine, proof of personal fitness and professional competency, would prove the most potent agency in improving the standard of medical education and in enhancing the dignity and usefulness of the medical profession.

In order to give practical effect to the foregoing conclusions, it was specifically suggested—

That the American Medical Association should put itself upon record at this session as recommending the extension of the period of study to four years, and of attendance upon lectures to three full terms, with ample hospital practice and clinical instruction, as the requirements for graduation in medicine.

That the Section of State Medicine be instructed to frame a law for the regulation of the practice of medicine, which law, when endorsed by the Association, shall be the standard with which all existing legislation on the subject should be made to conform as speedily as practicable, and which shall be urged for adoption by those States where no such law now exists.

Two sessions of the Association have been held since these suggestions were made, and at the last one, in Cincinnati, May 8, 1888, the President of that body—the late Dr. A. Y. P. Garnett, of Washington,—devoted the larger share of his address to a discussion of the same general theme, and to emphasizing the mission and the duty of the Association in working out “a radical and thorough reform in the present medical education of the United States.” The marked prominence given to this theme in such an address was a timely and appropriate recognition of the general interest now felt in a subject to which the ILLINOIS STATE BOARD OF HEALTH is enjoined to devote its

*ADDRESS IN STATE MEDICINE. Delivered at the Thirty-Seventh Annual Session of the American Medical Association in St. Louis, May 6, 1886. By JOHN H. RAUCH, M. D., Chairman of the Section.

efforts by the terms of its organic law—a law which was “designed to require a reasonable amount of education to fit one for the practice of medicine before he should be allowed to enter that profession so intimately concerned with the lives, the health, and the happiness of the people.”

In this, the twelfth year of its existence, the BOARD is fairly realizing that its labors have not been without result. The changes, especially within the last few years, in the scope and methods of medical instruction, and the standard of attainments, have been marked and beneficial; and the work of the BOARD during the past decade has attracted an amount of attention and awakened an interest which is now to be seen, not only in the pages of medical periodicals and the expressed sentiment of members of the profession, but in the columns of the secular press, and the utterances of thoughtful men of all classes of the community.

This interest is by no means confined to America. High as is the standard of medical requirements in England and France, attempts are now being made to still further perfect the methods in those countries and to arrive at an understanding as to the best course by which to prepare medical men for their duties. For this purpose commissioners are studying the systems of medical education, and medical teachers have been sent from France to other countries of Europe to study their systems and methods.

As to medical education in this country, the general drift of opinion to-day is decidedly in favor of “the extension of the period of study to four years, and of attendance upon lectures to three full terms, with ample hospital practice and clinical instruction,” as recommended in the address cited, and subsequently endorsed in the address of the President of the American Medical Association. Nor is this movement monopolized by any one school of practice. At the last annual meeting of the National Institute of Homeopathy, Dr. T. G. Comstock, chairman of the Committee on Medical Education, and Dr. I. T. Talbot, chairman of the Inter-Collegiate Committee, strongly advocated four years of study and three terms of lectures; and resolutions were finally adopted unanimously in favor of three courses of lectures after the sessions of 1890. Similar resolutions were also adopted by the National Eclectic Medical Association, at its last annual meeting. The Minnesota law, which went into effect July 1, 1887, has also exercised a good influence in promoting the cause of higher medical education.

COMPARISON of this—the Fifth Report of the ILLINOIS STATE BOARD OF HEALTH on Medical Education—with the Reports of 1885 and 1886, will show a marked and most gratifying progress in the direction of a higher standard of instruction and of qualifications for the practice of medicine in this country. Many of the bars to the attainment of this result have been removed, others show signs of yielding, and the prospect of the

medical profession, and the public, in this respect is now a subject for congratulation. It is not alone in the pages which follow that this is shown, although the facts and figures are herein fully and authoritatively set forth.

In a country having the form of government of the United States, higher medical education has been necessarily a product of slow growth, and it was not until some of the methods and State regulations of the practice of medicine had been tried, that the wisest and most practicable course could be determined by which to secure results at all commensurate with the necessity.

The effects of some of the State laws regulating the practice of medicine, have now shown two things: 1. That there was and still is a necessity for such legislation. 2. That under this legislation the colleges that have failed to comply with the demand for better work, must improve their methods or shortly close their doors.

A study of this report will show that while there is an increased number of medical institutions that have recognized their duties in this regard, there are still some which seem wedded to as low a standard as is at all compatible with even scant recognition by the medical profession. On the other hand, the improvements in the methods of instruction and in the practical facilities for study, not less than in the exaction of a preliminary test of fitness for the study of medicine—have been more marked during the period which has elapsed since the publication of the last report of the BOARD on this subject than during any similar period in the history of the country.

Summarizing and comparing the tables which follow, it will be seen that—

There are 267 medical institutions embraced in this report, as against 252 in the report for 1886—251 being in the United States. In the report for 1886, the total number of colleges in existence was 129—117 being in the United States. The total number now in existence is 131; in the United States 118. In 1886 the number of extinct institutions in the United States was 120; the number now known to be extinct is 130, including two that have been extinct for many years, but information concerning which has only recently been received.

In 1886 the number of colleges exacting certain educational requirements for matriculation was 114; in 1888-89 it is 117, against 45 in 1880. In 1880 the number of colleges requiring attendance on three or more courses of lectures was 22; in 1886, 41; and 47 in 1888-89. In 1880, 53 colleges recommended and provided for, but did not exact attendance on three or more courses; 48 in 1886, and 40 in 1888-89. In 1880, but 42 colleges had chairs of hygiene, and 61 had chairs of medical jurisprudence; in 1886, 110 had chairs of hygiene, and the same number had chairs of medical jurisprudence; in 1888-89, 117 teach hygiene, and 112 teach medical jurisprudence.

There are now in the United States 12 Licensing and examining bodies that do not give instruction. Since the report of 1886, the number of colleges for women only has been increased by one, and the number of colleges for both sexes has decreased by three.

The summary of matriculates and graduates shows that there has been a gradual increase in the number of matriculates since 1884-85, both in the United States and Canada, while the number of graduates in the United States has been about the same. Thus the percentage of graduates to matriculates has steadily diminished in the United States, from an aggregate average of 36.3 in 1881-82, to 30.3 per cent. in 1887-88. The percentage of graduates to matriculates in the different schools in 1887-88 was as follows:

Physician,* 29.6; homeopathic, 35.3; eclectic, 32.9; physio-medical, 36.5; miscellaneous, 45.4. Examination of the percentage of matriculates to graduates in the individual schools in this country shows that the variation is very great, being for 1887-88 from 6.6 to 52.1 per cent. The largest percentage of graduates of all schools by States is 45.4 for Indiana, the smallest 8+ for North Carolina. Examination of the data in the following pages will show that the percentage of graduates to matriculates is kept at a high point largely by the colleges in Atlanta, Baltimore, Louisville, Nashville and St. Louis, and those in Indiana.

The average duration of lecture terms has increased since the report of 1886. The average for all the physician schools—sessions of 1888-89—is now 25.3 weeks, against 25+ in 1886-87, and 25.1 in 1887-88. For the 14 homeopathic schools it is 26.2 weeks, against 26.3 in 1886-87. For the 10 eclectic schools the lecture-term is now 22.5 weeks, against 21.6 in 1886-87, and 22.3 in 1887-88. The lecture-term of the 3 physio-medical schools is now 23 weeks, having been 22 in 1886-87, and 23.3 in 1887-88. The average for the physician schools is cut down by the 17 weeks' term of the Medical College of Georgia, and the 19 weeks' course of the Woman's Medical College of Cincinnati. The number of schools having terms of five months and more is now 115, against 110 in 1886-87. The number having six months and more is now 66, against 63 in 1887-88, and 55 in 1886-87.

COLLEGES, the titles of which are printed in *italic* in the following list, have provided for a three years' course and four years' study in the future; those printed in Roman have similarly provided for three courses of lectures.

<i>Chicago Homeopathic Medical College</i>	1890-91
<i>Medical College of Indiana</i>	1890-91
<i>Medical College of Ohio</i>	1890-91
<i>Miami Medical College</i>	1890-91

* In the following pages the term *Physician* has been substituted for the designation "*Regular*."

American Medical College, St. Louis	1883-89
Bennett College of Eclectic Medicine and Surgery	1890
Eclectic Medical Institute, Cincinnati.....	1890
Homeopathic Hospital College, Cleveland	1888-89
Iowa College of Physicians and Surgeons.....	1888-89
Iowa Eclectic Medical College.....	1888-89
Jefferson Medical College.....	1890
Kansas City Homeopathic Medical College.....	1889-90
Physio-Medical Institute, Chicago.....	1889-90
Physio-Medical College of Indiana.....	"Near future."
Toledo Medical College.....	1889-90
University of Kansas City, Medical Department.....	"Soon."
Woman's Medical College, Cincinnati	1890

A number of other colleges have also signified their intention of soon conforming with the requirement of four years' study and three years' lecture course; and it is probable that it will be generally adopted.

The following is the text of the

SCHEDULE OF MINIMUM REQUIREMENTS.

I. CONDITIONS OF ADMISSION TO LECTURE-COURSES.—1. Credible certificate of good moral standing. 2. Diploma of graduation from a good literary and scientific college, or high school—a first-grade teacher's certificate. Lacking this—a thorough examination in the branches of a good English education, including mathematics, English composition, and elementary physics and natural philosophy.

II. BRANCHES OF MEDICAL SCIENCE TO BE INCLUDED IN THE COURSE OF INSTRUCTION.—1. Anatomy. 2. Physiology. 3. Chemistry. 4. Materia-Medica and Therapeutics. 5. Theory and Practice of Medicine. 6. Pathology. 7. Surgery. 8. Obstetrics and Gynecology. 9. Hygiene. 10. Medical Jurisprudence.

III. LENGTH OF REGULAR GRADUATING COURSES.—1. The time occupied in the regular courses or sessions from which students are graduated shall not be less than five months, or twenty weeks, each. 2. Two full courses of lectures, not within one and the same year of time, shall be required for graduation with the degree of Doctor of Medicine.

IV. ATTENDANCE AND EXAMINATION OR QUIZZES.—1. Regular attendance during the entire lecture courses shall be required, allowance being made only for absences occasioned by the student's sickness, such absences not to exceed twenty per centum of the course. 2. Regular examinations or quizzes to be made by each lecturer or professor daily, or at least twice each week. 3. Final examinations on all branches to be conducted, when practicable, by competent examiners other than the professors in each branch.

V. DISSECTION, CLINICS AND HOSPITAL ATTENDANCE.—1. Each student shall have dissected during two courses. 2. Attendance during at least two terms of clinical and hospital instruction shall be required.

VI. TIME OF PROFESSIONAL STUDIES.—This shall not be less than three full years before graduation, including the time spent with a preceptor, and attendance upon lectures or at clinics and hospital.

VII. INSTRUCTION.—The college must show that it has a sufficient and competent corps of instructors, and the necessary facilities for teaching, dissections, clinics, etc.

Diplomas of colleges whose educational requirements and methods of instruction fall short of the above Schedule are not recognized as entitling their possessors to certificates authorizing them to practice in the State of Illinois. (This does not apply to diplomas issued prior to the sessions of 1883-84, but only to those issued at the close of said sessions and subsequently.) The only way in which holders of such diplomas may legally enter upon practice in this State is by passing a satisfactory examination before the BOARD on the branches or subjects of the Schedule omitted.

This Schedule is, therefore, the test of the "good standing" of a medical college in Illinois. Only colleges which come up to this minimum standard are accounted as in "good standing." To determine the status of any given institution, it is only necessary to compare the summary of the institution set forth in the following pages with the above Schedule.

At the April, 1886, meeting of the BOARD, the following preamble and resolution were adopted:

WHEREAS, The continuous graduation of forty-five (45) per cent. of the total number of matriculates of a medical college—due allowance being made for the average annual loss—must be accepted as *prima facie* evidence that, practically, every candidate is graduated without regard to competency or qualification; therefore, be it

Resolved, That no medical college be recognized as in good standing within the meaning and intent of the "Act to Regulate the Practice of Medicine in the State of Illinois," the aggregate graduates of which college amount to forty-five (45) per cent. of its aggregate matriculates during any period of five (5) years ending with a session subsequent to the session of 1885-86.

At the July, 1887, meeting of the BOARD, the following resolution was adopted:

Resolved, That the phrase, "medical colleges in good standing," in the 1st section of the "Act to Regulate the Practice of Medicine" in the State of Illinois, approved June 16, 1887, is hereby defined to include only those colleges, which shall, after the sessions of 1890-91 require four years of professional study including any time spent with a preceptor, and three regular courses of lectures, as conditions of graduation, and shall otherwise conform to the Schedule of Minimum Requirements heretofore adopted by the BOARD.

SUMMARY OF INSTITUTIONS AND STUDENTS.

MEDICAL COLLEGES

OF THE

UNITED STATES AND CANADA--1765-1889.

Embracing the Titles: Locations: Addresses of Corresponding Officers: Organizations: Curricula of Study: Requirements for Admission and for Graduation: Fees: Number of Matriculates and of Graduates—of all Existing Medical Schools in the United States and Canada.

The Titles: Locations: Dates of Organization: Periods of Existence and other Historical Data—of all Extinct Medical Schools in the United States and Canada.

Arranged Alphabetically as to States, and Chronologically as to Dates of Organization.

ALABAMA.

THE MEDICAL ASSOCIATION OF THE STATE OF ALABAMA.

JEROME COCHRAN, M. D., Mobile, Senior Censor.

The Board of Censors of the Medical Association of the State of Alabama, and the Boards of Censors of the several County Medical Societies in affiliation with the State Medical Association, are, under the law, the authorized Boards of Medical Examiners. The State Board is composed of ten members, elected by the State Association, and each County Board of five members, elected by the County Society. Diplomas of Medical Colleges confer no right to practice medicine in Alabama. Nothing does except the certificate of one of the examining boards, based upon actual examination of the applicants. The County Boards examine none but the graduates of reputable medical Colleges, the diplomas serving simply as a means for getting before the Boards. The State Board alone examines non-graduates. The rules for the government of the examining boards, including the standard of qualifications and the branches of medicine to be included in the examinations, are all prescribed by the State Association. The examinations are both oral and written, but the principal stress is placed on the written examination, which usually occupies about one week. The answers to the questions are valued according to their completeness and accuracy, and an aggregate of 75% out of a possible 100% is necessary to pass the applicant. The examination papers are carefully written and bound, and are filed in the State Board of Health office. They are all carefully reviewed by the State Board, which makes to the State Association a special report on the character of the examination of each separate applicant.

The Alabama law to Regulate the Practice of Medicine was enacted in 1877. It was applicable only in counties having medical societies holding charters from the State Association, and at the time of its enactment not more than one-half of the counties were thus organized. From year to year new societies have been organized and at the present time (1888) there is a medical society and a board of examiners in every county in the State. This system seems to be very complex, but in practice is found to work well. A large number of incompetent and ignorant practitioners are still left in the State, because the law was not made retrospective; all who were actually engaged in

practice at the time the law was put into operation, received *pro-forma* certificates without examination. These, in the course of time, will die out, and better men will take their places. The records show that from the beginning of the administration of the law the county boards on an average have rejected 20% of the applicants examined—or one in five—and all of them college graduates. The State Board has examined 25 non-graduates, of whom 6 passed and 19 were rejected; and 7 graduates, 4 of whom passed and 3 were rejected.

GRAFFENBERG INSTITUTE.

ALABAMA.

Chartered by the Legislature of Alabama for a period of ten years, in 1852. Some six or seven sessions were held, and the charter not being renewed, it expired by limitation, in 1862. Says a correspondent: "The Institute itself was entirely regular—although on account of the want of clinical material, and the small number of teachers, it was considered as not strictly a first class medical college." The buildings of the Institute were burned during the war. The number of graduates are not known. There are supposed to be about twenty of them in Alabama, and but very few in other States. The Medical Association of the State of Alabama recognizes its degrees. [Information furnished by Dr. Jerome Cochran, Senior Censor, Medical Association of the State of Alabama.]

MEDICAL COLLEGE OF ALABAMA.

MOBILE, Ala. GEO. A. KETCHUM, M. D., Dean, 7 N. Conception street.

ORGANIZED in 1859. Closed during the war and re-opened in 1868. There were no graduates during the years 1862-68, inclusive.

The faculty embraces nine professors, three lecturers and one demonstrator.

COURSE OF INSTRUCTION: The regular course of lectures for the session of 1888-89 commenced November 6, 1888, and continues until the 29th of March, 1889. A preliminary course began October 22, 1888. A three years' graded course is recommended, and provided for, without cost as to lecture tickets for the third year.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics and diseases of women and children, ophthalmology and otology, histology, hygiene, medical jurisprudence, clinical and genito-urinary surgery, and practical pharmacy. Examinations are held daily on the various lectures. Clinics at the hospital and the college dispensary.

REQUIREMENTS: For admission, none.

For graduation: 1) age, twenty-one years; 2) good moral character; 3) three years' study; 4) attendance on two full courses of lectures; 5) pass before the members of the faculty a satisfactory examination; 6) certificates of at least one course of practical anatomy or dissections.

FEES: Matriculation (annually), \$5.00; lectures, including hospital, \$75.00; dissecting, \$10.00; graduation, \$25.00.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentage of graduates to matriculates—

SOUTHERN UNIVERSITY, MEDICAL DEPARTMENT.

GREENSBORO, Ala.

ORGANIZED in 1872.—Extinct. Last session closed in 1880.

* Not including two graduates and one pharmacy student.

ARKANSAS.

MEDICAL DEPARTMENT, ARKANSAS INDUSTRIAL UNIVERSITY.
LITTLE ROCK, Ark. R. G. JENNINGS, M. D., Secretary of the Faculty.

ORGANIZED in 1879. First class graduated in 1880. Classes have graduated each subsequent year.

The faculty embraces fourteen professors and lecturers, and a demonstrator.

COURSE OF INSTRUCTION: Lectures begin the first Wednesday in October, and continue twenty weeks. Five lectures will be delivered daily during the six days of the week. "A voluntary graded course of three years has been established from the organization of this college,"—but "students who prefer to continue their studies on the repetition system can do so." Didactic and clinical lectures, practical work in the dissecting room, chemical and physiological laboratories, daily quizzes upon subjects of preceding lectures.

Lectures embrace practice of medicine, institutes and practice of surgery, obstetrics, diseases of women and children, physiology, general, descriptive and surgical anatomy, materia medica, therapeutics, hygiene, botany, institutes of medicine, clinical surgery, dermatology, medical chemistry, toxicology, ophthalmology, otology, diseases of the genito-urinary organs, physical diagnosis and clinical medicine, gynecology, meteorology and climatology.

REQUIREMENTS: For admission, "Applicants must be eighteen years of age and present a credible certificate of good moral character; a diploma of graduation from a good literary and scientific college or high school; a first-class grade teacher's certificate, or, lacking this, a thorough examination in the branches of a good English education, including mathematics, English composition, and elementary physics or natural philosophy."

For graduation: 1) satisfactory evidence of good moral character; 2) age, twenty-one years; 3) a satisfactory certificate of having pursued the study of medicine for at least three years under a regular graduate, or licentiate and practitioner in good standing; 4) attendance on two full courses of lectures, with thorough dissection of the whole body; 5) satisfactory examination; 6) thesis on some medical subject, or a full report of any of the clinics. Two years and nine months are accepted in lieu of three years' study, if the three years will expire not later than three months after graduation.

FEES: Matriculation (paid once only), \$5.00; lectures, \$50.00; demonstrator, \$5.00; hospital, \$1.00; graduation, \$25.00.

CALIFORNIA.

COOPER MEDICAL COLLEGE.

SAN FRANCISCO, Cal. HENRY GIBBONS, Jr., M. D., Dean, 920 Polk street.

ORGANIZED in 1859 as the Medical Department of the University of the Pacific. Ceased to exist in 1864, but was revived in 1870, under the same name. In 1873 it became the Medical Department of the University College of San Francisco, and was given the specific designation of the Medical College of the Pacific. In 1882 the institution received its present name—The first class was graduated in 1860. No classes were graduated in the years 1865-69, inclusive. A class was graduated in 1870 and in each subsequent year.

The faculty embraces twelve chairs, two adjuncts, a demonstrator of anatomy, and a demonstrator of pathology.

COURSE OF INSTRUCTION: Three annual summer courses and one intermediate course are required to complete the curriculum. The regular course begins June 1, and ends October 30; the intermediate course begins January 11, and ends May 4. During the first year the student attends all didactic lectures, but gives special attention to descriptive anatomy, physiology, chemistry, surgery, microscopy and practice of medicine

* Not including one graduate who matriculated.

and is examined in these branches at the end of the term. In the second year, all lectures and clinics must be attended, and examination in all branches are held at the close, those in descriptive anatomy, physiology and chemistry being final. All lectures and clinics must be attended during the third year, except lectures on chemistry and physiology, if examination in these has been successfully passed. Special attention must be given to clinics. Final examinations, written and oral, in the third year.

The principal branches taught are principles and practice of medicine; clinical medicine and diagnosis; surgery, surgical anatomy, clinical and operative surgery; descriptive and practical anatomy; microscopy and histology; pathology with practical illustrations; obstetrics, diseases of women and children; gynecology; theoretical and practical physiology; ophthalmology, otology, didactic and clinical; chemistry; toxicology; materia medica and therapeutics; hygiene; insanity; medical jurisprudence; physical diagnosis; laryngoscopy.

REQUIREMENTS: For admission, eighteen years of age, an examination in English composition, physics, arithmetic and Latin rudiments (declension of nouns and grammar.) Graduates of literary, scientific, medical, or pharmaceutical colleges or universities in good standing, graduates of high schools, and applicants who have passed the examination for admission to any recognized literary college or university, or who hold first-grade certificates from any public school board, as properly qualified teachers, on producing proper evidence of the same, are admitted to matriculation without examination.

For graduation: 1) good moral character; 2) twenty-one years of age; 3) three regular courses of lectures, and the intermediate course preceding the student's last year; 4) two courses of clinical instruction; 5) one course of practical anatomy, dissecting the entire subject; 6) satisfactory thesis; 7) successful passing of all examinations.

FEES: Matriculation, paid but once, \$5; lectures (three courses), \$260; single course, \$130; demonstrator, \$10; graduation, \$10. A charge of \$25 is made for each intermediate course, which amount is credited upon the succeeding regular course fees.

MEDICAL DEPARTMENT, UNIVERSITY OF CALIFORNIA.

Toland Medical College.

SAN FRANCISCO, Cal. ROBERT A. McLEAN, M. D., Dean, 603 Merchant street.

ORGANIZED in 1863 as the Toland Medical College. Became connected with the University of California in 1872.

The faculty embraces fifteen professors, three assistants, one curator, one demonstrator, and the dispensary staff.

COURSE OF INSTRUCTION: "Three regular courses of lectures of five months each, attended through three several years," are required. Students are also required to attend clinics regularly throughout the term. At the beginning of each session examinations are held to determine the progress of the student during the year past; his advancement depending on the result of such examination. The preliminary term of 1888 opened on March 5, and closed May 12. The regular course of lectures commenced June 1, and closed October 31. Senior class compelled to attend preliminary course.

STUDIES: First year—anatomy, physiology, histology, microscopy, materia medica, medical chemistry, pharmacy, dissections, dispensary and laboratory work. Final examinations in pharmacy and laboratory work at end of first year. Second year—anatomy, physiology, materia medica, medical chemistry, principles and practice of medicine, principles and practice of surgery, therapeutics, histology, obstetrics, pathology, dissection and surgical and medical clinics, hygiene, dispensary. Final examinations at end of second year in physiology, materia medica, medical chemistry, histology and hygiene. Third year—principles and practice of medicine, principles and practice of surgery, therapeutics, medical jurisprudence, ophthalmology and otology, obstetrics and gynecology, with special clinics, anatomy, clinical medicine, surgery, diseases of children and mental diseases.

*Not including 4 graduates who matriculated.

REQUIREMENTS: For admission, an examination in English composition, arithmetic, geography and elementary chemistry.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three full years' study; 4) three regular courses of lectures; 5) successful passage on all subjects by written and oral examination; 6) practical anatomy during two sessions, and having dissected all parts of the cadaver.

FEES: Matriculation, once only, \$5; demonstrator, \$10; first and second courses of lectures, \$130 each; third course, free; graduation, \$10.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

CALIFORNIA MEDICAL SOCIETY AND COLLEGE OF PHYSICIANS.
SAN FRANCISCO, Cal.

INCORPORATED October 21, 1876.—Extinct, 1877.

CALIFORNIA MEDICAL COLLEGE (*Eclectic*).

SAN FRANCISCO, Cal. D. MACLEAN, M. D., Dean, 330 Sutter street.

ORGANIZED in 1879, and located at Oakland. Removed to San Francisco after the close of the session of 1886-87. The first class was graduated in 1880.

The faculty embraces eight professors and a demonstrator.

COURSE OF INSTRUCTION: One intermediate and one regular term annually. The regular term commences on the first Monday in June (annually), and continues six months. The intermediate term commences on the first Monday in March (annually), and continues twelve weeks. Three years' graded course required.

Lectures embrace principles and practice of medicine, obstetrics, surgery, anatomy, surgical anatomy, physiology, materia medica, therapeutics, chemistry, clinical and operative surgery, clinical medicine, pathology, gynecology, medical jurisprudence, clinical midwifery, diseases of children, clinical diseases of women, clinical diseases of children, mental diseases, hygiene, ophthalmology, otology, clinical diseases of the eye and ear, toxicology, physical diagnosis, laryngoscopy, diseases of the heart and lungs, and nervous diseases. Clinics at hospital and dispensary.

REQUIREMENTS: For admission, 1) certificate of good moral standing; 2) diploma from a high school, college or university, or a thorough examination in the branches of a good English education, including mathematics, English composition and elementary natural philosophy.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) "such education as shall give him proper standing with the public and profession;" 4) three regular courses of lectures; 5) practical anatomy at least two sessions, and present tickets of having dissected every part of the cadaver; 6) "satisfactory examination upon the essential points in the general practice of medicine;" 7) thesis.

FEES: Matriculation, \$5; lectures, \$120; demonstrator, \$10; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

HAHNEMANN HOSPITAL COLLEGE OF SAN FRANCISCO (*Homeopathic*).

SAN FRANCISCO, Cal. W. A. DEWEY, M. D., Registrar, 834 Sutter street.

ORGANIZED in 1884 as the "Hahnemann Medical College." Name changed to "Hahnemann Hospital College" in 1888.

Faculty embraces twenty professors, one lecturer and a demonstrator of anatomy.

COURSE OF INSTRUCTION: Graded, extending over three years. Session begins first Tuesday in May, and continues six months.

Lectures embrace, first year, departments of anatomy, chemistry, physiology and materia medica. Second year—departments of anatomy, materia medica, surgery, practice and obstetrics. Third year—departments of materia medica, surgery, practice and obstetrics.

REQUIREMENTS: For admission, 1) certificate of good moral character; 2) diploma from a good literary and scientific college or high school, or a first grade teacher's certificate; 3) lacking this, a thorough examination in the branches of a good English education.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three full courses of lectures; 4) certificate of having dissected three parts; 5) satisfactory examination in each department.

FEES: Matriculation (once only), \$5; lectures (three courses), \$250; demonstrator, \$10; graduation, \$40.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentage of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1884	23	7	30.4

1886	24	10	41.6
1887	12	7	58.3
1888	21	9	42.8

Percentage of graduates to matriculates for past five years, 39.1.

THE COLLEGE OF MEDICINE OF THE UNIVERSITY OF SOUTHERN CALIFORNIA.

LOS ANGELES, Cal. J. P. WIDNEY, A. M., M. D., Dean, Widney Block, First street.

ORGANIZED November, 1883. The faculty embraces seventeen professors, one lecturer and one demonstrator.

COURSE OF INSTRUCTION: Graded, extending over three years. Term commences the second Wednesday of October, and continues to the third Wednesday of April. An intermediate term commences the first Wednesday of May, and ends last Wednesday of June. Attendance upon the intermediate term is not obligatory, except for the last year.

Lectures embrace principles and practice of medicine, clinical medicine, principles and practice of surgery, clinical surgery, anatomy, surgical anatomy, histology and microscopy, materia medica and therapeutics, obstetrics, gynecology, physiology, chemistry and toxicology, pathology and diseases of the skin and genito-urinary organs, diseases of the mind and nervous system, diseases of children, hygiene, ophthalmology and otology, and medical jurisprudence.

REQUIREMENTS: For admission, the student must pass a matriculating examination, unless he is a graduate of some university, college, high school, academy or normal school, or holds a first grade teacher's certificate for the public schools. The examination will cover English composition, and other ordinary English branches as taught in the public schools. An acquaintance with the rudiments of Latin will be required. If the applicant has never studied Latin, he will be allowed to make this up after commencing his medical studies.

For graduation: 1) twenty-one years of age and good moral character; 2) must have studied medicine three full years and attended three regular courses of medical lectures, the last of which must have been in this college, and he must have also attended the intermediate course of his last year; 3) must pass satisfactory examination, must have dissected the entire cadaver, done the necessary amount of laboratory and chemical work, and submit a satisfactory thesis.

FEES: Matriculation, \$5; lectures (three courses), \$200; demonstrator, \$10; graduation, \$40.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentage of graduates to matriculates—

CANADA.

PRACTITIONERS of medicine in Canada must be registered, and the requirements demanded vary in different provinces. The possession of the degree of Doctor of Medicine, granted by a recognized university, entitles its holder to registration in all the provinces, except Ontario. The curriculum of studies required of a university, in order that its degrees may be registered, is set forth in the following sections of the Quebec Medical Act, and are applicable, with slight changes, to all the provinces:

§ 8. From and after the passage of this act, no person shall be admitted as a student of medicine, surgery or midwifery, unless he shall have obtained a certificate of qualification from the said Provincial Medical Board. And no one shall be entitled to the license of the college, on presentation of a diploma, unless he shall have been previously admitted to the study of medicine, in accordance with the provisions of this act, or unless he shall have passed an equivalent preliminary examination before a college, school or board, authorized by law to require and cause such preliminary examinations to be passed in Her Britannic Majesty's possessions, elsewhere than in the Province of Quebec, and acceptable to the board created by this act. * * * The subjects of the preliminary qualifications to be English and French, Latin, geography, history, arithmetic, algebra, geometry, belles-lettres, and any one of the following subjects: Greek, natural or moral philosophy; and the candidate to present a certificate of good moral character.

§ 15. The qualifications to be required from a candidate for obtaining a license, authorizing him to practice medicine, surgery and midwifery, shall consist in his holding a certificate of study from a licensed physician, for the period intervening between the courses of lectures which he has followed; that he is not less than twenty-one years of age; that he has followed his studies during a period of not less than four years, commencing from the date of his admission to the study of medicine by this board, and that, during the said four years, he shall have attended, at some university, college or incorporated school of medicine within Her Majesty's dominions, not less than two six-months' courses of general or descriptive anatomy, of practical anatomy, of surgery, of practice of medicine, of midwifery, of chemistry, of materia medica and general therapeutics, of the institutes of medicine, of physiology and general pathology, of clinical medicine and of clinical surgery; one six-months' course or two three-months' courses, of medical jurisprudence and of hygiene; one three-months' course of botany; one three-months' course, and a course of not less than twenty-five demonstrations, upon microscopic anatomy, physiology and pathology; also, that he shall have attended the general practice of a hospital in which are contained not less than fifty beds, under the charge of not less than two physicians or surgeons, for a period of not less than one year and a half, or three periods of not less than six months each; and that he shall also have attended six cases of labor, and compounded medicines for six months. And to remove all doubts with regard to the number of lectures which the incorporated schools of medicine of the Province of Quebec are bound to give, it is enacted and declared that each six-months' course shall consist of one hundred and twenty lectures, except in the case of clinical medicine, clinical surgery and medical jurisprudence. Of the four years' study required by this act, three six-months' sessions at least shall be passed in attendance upon lectures at a university, college or incorporated school of medicine recognized by this board, the first whereof shall be so passed the session immediately succeeding the preliminary examination, and the last during the fourth year of study, and the candidate shall undergo an examination, on the final subjects of the curriculum, at the end of the session in his fourth year of study.

It is optional in Quebec with the provincial board to accept or reject the degree of a university outside the province, and the test of an examination is sometimes imposed upon its holder.

In Ontario all, except registered practitioners of Great Britain, must pass an examination in the required branches before registration. The remainder of the provinces accept recognized university degrees without examination.

Graduates of United States medical schools, in order to register in a province of Canada, unless holding an academical degree, must 1) pass the matriculation examination; 2) attend a Canadian school one or more full winter courses, so as to complete the curriculum of the province; and 3) pass the professional examination.

Manitoba is an exception, the regulation there being as follows: "American students in medicine [meaning graduates of medical colleges in the United States] obtain a license by passing a practical examination satisfactory to the board on the following subjects, viz: Anatomy, physiology, theory and practice of medicine, surgery, midwifery and diseases of women and children; chemistry; materia medica and therapeutics; medical jurisprudence and toxicology." For this examination, and subsequent registration, a fee of \$100 is charged.

STUDENTS attending Canadian colleges are subject to the following rules:

1. In the case of disorderly conduct any student may, at the discretion of the professor, be required to leave the class-room. Persistence in any offense against discipline, after admonition by the professor, shall be reported to the dean of the faculty. The dean may, at his discretion, reprimand the student, or refer the matter to the faculty at its next meeting, and may in the interval suspend from classes.

2. Absence from any number of lectures can only be excused by necessity or duty, of which proof must be given, when called for, to the faculty. The number of times of absence, from necessity or duty, that shall disqualify for the keeping of a session, shall in each case be determined by the faculty.

3. While in the college students are expected to conduct themselves in the same orderly manner as in the class-rooms.

4. When students are brought before the faculty under the above rules, the faculty may reprimand, impose fines, disqualify from competing for prizes and honors, suspend from classes, or expel from the college.

Ontario.

TORONTO SCHOOL OF MEDICINE.

(Affiliated with the University of Toronto and the University of Victoria College.)

ORGANIZED in 1863. Incorporated by act of parliament in 1851. Degrees were first conferred upon its students by affiliated universities, in 1845. Degrees have been so conferred each subsequent year. Suspended in 1887.

UNIVERSITY OF TORONTO MEDICAL FACULTY.

TORONTO, Ont. ADAM H. WRIGHT, B. A., M. D., Secretary, 20 Gerrard street, East.

ORGANIZED in 1863 as the Medical Faculty of King's College. Soon after its organization the name was changed to the Medical Faculty of the University of Toronto. The faculty was paid by the State. After an existence of ten years, the endowed chairs were abolished by an act of the legislature, and in 1853 the school became extinct. In 1887 the Government of Ontario granted the University authorities power to establish a Medical Faculty, without expense to the government. Provision was immediately made, and the school reopened in 1887.

The faculty embraces seventeen professors, two lecturers, one instructor, six demonstrators and two assistant demonstrators.

COURSE OF INSTRUCTION: The regular course of instruction will consist of four sessions of six months each. Graduates in Arts may complete full course in three years, if they choose. The session of 1888-89 opened October 1, 1888.

Lectures embrace surgery, principles of surgery and surgical pathology, clinical surgery, theory and practice of medicine, medical pathology, dermatology, clinical medicine, gynecology, obstetrics, pharmacology, therapeutics, medical jurisprudence, toxicology, sanitary science, medical psychology, ophthalmic and aural surgery, laryngology, rhinology, pathological histology, descriptive and surgical anatomy, biology, physiology, chemistry, medical chemistry and physics.

REQUIREMENTS: For admission, "candidates presenting themselves for examination must produce satisfactory certificates of good conduct, and of being sixteen years of age." The following classes of applicants are exempt from the matriculation examination: 1) possessing a degree in arts, not being an honorary degree from any Dominion or British University; or 2) having already matriculated in the faculty of arts or in the faculty of law in this University; or 3) matriculants in the College of Physicians and Surgeons of Ontario. Matriculation examinations will be held annually in June and September, and embrace Latin, and either Greek, French or German, mathematics, English composition, history, geography and chemistry.

For graduation: "The requisites for admission to the degree of M. D. are: Having been admitted to the degree of M. B., being of one year's standing from admission to the degree of M. B., and having composed an approved thesis upon some medical subject."

FEES: Matriculation (once only), \$5; for annual examination (each), \$5; lectures, first year, \$73; second year, \$76; third year, \$74; fourth year, \$76; graduation, \$20.

TRINITY MEDICAL COLLEGE.

(Affiliated with the University of Trinity College, the University of Toronto, Queen's University, Victoria University, and the University of Manitoba.)

TORONTO, Ont. W. B. GEIKIE, M. D., C. M., Dean, 52 Maitland street.

ORGANIZED in 1850 as the Upper Canada School of Medicine, which, in its first session, became the Medical Faculty of Trinity College, and after an existence of four years ended by the resignations of the professors, who refused to submit to certain test enactments of a religious nature demanded by the corporation. In 1870 the Faculty of Medicine of Trinity College was reorganized, and it exists now as a separate corporation. Until 1888 it was known as the Trinity Medical School, when, by an act of the legislature, the name was changed to the above title. The school confers the degree of "Fellow by Examination of Trinity Medical School," which is "in every respect the equivalent of M. B., M. D., or M. D., M. C., at Trinity College." [GEIKIE.]

The faculty embraces ten professors, four lecturers, and two demonstrators.

COURSE OF INSTRUCTION: The winter session of 1888-89, beginning October 1, 1888, continues for six months; the summer session begins May 1, and ends June 30, 1889. Four years' attendance is required for graduation.

Lectures embrace the principles and practice of medicine and surgery, materia medica, therapeutics, anatomy, obstetrics, diseases of women and children, chemistry, botany, sanitary science, medical jurisprudence, physiology, histology, pathology, ophthalmology, otology, laryngology. Three examinations are held during the course, viz. at the close of the first, second and fourth years.

REQUIREMENTS: Students are advised to pass the matriculation examinations of the Medical Council of Ontario, or those of the affiliated universities, before entering; but are allowed to attend lectures without any examination, though none such can obtain a degree. Students not matriculated elsewhere, and who desire to take the Fellowship Diploma, are required to pass an examination on the following subjects: 1) writing and dictation; 2) English language, including grammar and composition; 3) arithmetic; 4) algebra, including simple equations and Euclid, Latin, and either Greek, German, French, or natural philosophy.

For graduation: a) a recognized matriculation examination; b) four entire years' pursuit of medical studies; c) attendance on at least two full courses of primary, and two full courses of final lectures during either three or four winter sessions; d) satisfactory examination in all required branches, and e) certificate of good moral character.

FEES: Registration, \$5; lecture courses, each chair, \$12, excepting practical anatomy, practical chemistry, normal and pathological histology, each, \$8; medical jurisprudence, \$6; hygiene and botany, each, \$5; examinations, \$15; summer session, \$20; Toronto general hospital, \$20; ticket lying-in-hospital, \$5 per six months.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

MEDICAL DEPARTMENT OF VICTORIA COLLEGE.

(Also known as "Rolph's School.")

TORONTO, Ont.

ORGANIZED in 1853.—Extinct since 1869.

ROYAL COLLEGE OF PHYSICIANS AND SURGEONS.

(Affiliated with Queen's University and University of Trinity College.)

KINGSTON, Ont. FIFE FOWLER, M. D., L. R. C. S., Edin., President of the Faculty.

ORGANIZED as the Medical Faculty of Queen's University in 1854. First class graduated in 1855, and classes graduated in each subsequent year. Being separately incorporated, the college confers the diplomas of "Licentiate" and "Fellow." Its students obtain the degrees of M. D. and C. M., from the Queen's University, and the University of Trinity College, Toronto, upon passing the required examination.

The faculty embraces twelve professors and three demonstrators.

COURSE OF INSTRUCTION: The winter session of 1888-89 began on Monday, October 3, 1888, and will continue six months; the summer term begins on the first Monday in May. The course of study is graded, covering four years, and fulfills the requirements of the provincial board. See excerpt from Quebec Medical Act.

REQUIREMENTS: For admission. "Candidates for the degree of the university or the diploma of the college must have completed a period of four years' study, and passed the matriculation examination of Queen's college, which is as follows: English language, grammar and composition; arithmetic with vulgar and decimal fractions; algebra, including simple equations; geometry, first two books of Euclid; Latin grammar and translation (Cicero, Cato Major, Virgil, *Æneid*, Bk. I, 1-304; Ovid *Fasti*, Bk. I, 1-300); natural philosophy, as in Stewart's *Physics*. (Graduates and matriculates in arts from a recognized university, and those who have passed the matriculation examination of the Medical Council of Ontario, are not required to pass the above matriculation examination.)

For graduation: 1) twenty-one years of age; 2) good moral character; 3) thesis; 4) certificate of attendance on the full course of instruction, as above, for four years, excepting graduates in arts and those who have passed a full year's pupillage in the office of a

medical practitioner, of whom only three years' study is required; 5) evidence of having compounded medicines for a period of six months; 6) evidence of having attended six cases of midwifery. For the fellowship: 1) a degree in arts, or an equivalent examination; 2) evidence of having been engaged in the practice of the profession for five years.

FEES: Registration (payable once only), \$5; tuition, per session, nine chairs, \$12 each; three chairs, \$6 each, and one chair, \$1; two chairs, \$8 each; hospital, \$4. For graduation: diploma of licentiate, \$20; degree of M. D. and C. M., \$30; fellowship of college, \$50.

MEDICAL DEPARTMENT OF THE WESTERN UNIVERSITY.

LONDON, Ont. WM. WAUGH, M. D., C. M., Registrar, 447 Biltout Street.

ORGANIZED in 1882. First class graduated in 1883. Faculty embraces fifteen professors, one demonstrator of anatomy and two lecturers.

COURSE OF INSTRUCTION: One annual graduating session of six months' duration. The session of 1888-89 began October 1, 1888. The course is graded and extends over three years, but a four years' course is recommended. Lectures embrace anatomy, physiology, materia medica, chemistry, botany, histology, toxicology, therapeutics, medical jurisprudence, sanitary science, pathology, theory and practice of medicine, theory and practice of surgery, midwifery and diseases of women and children, clinical medicine and clinical surgery, ophthalmology and otology, microscropy, nervous and mental diseases and zoology.

REQUIREMENTS: For admission, (a) certificate of graduation or matriculation in any recognized British university; (b) certificate of having passed the provincial examination; (c) English language, including grammar and composition, writing and dictation, correct spelling and legible writing are imperative, arithmetic, algebra, including simple equations, geometry, Latin, and upon one of the following subjects, Greek, French, German or natural philosophy, including mechanics, hydrostatics and pneumatics. Graduates or matriculates in any recognized university in Her Majesty's Dominions, are exempted from this examination.

For graduation: 1) certificate of having passed a recognized matriculation examination; 2) four years' study; 3) two sessions of six months each upon anatomy, practical anatomy, practice of medicine, surgery, theoretical chemistry, midwifery, diseases of women and children, materia medica, therapeutics, physiology, clinical medicine, clinical surgery; 4) one six months' course on medical jurisprudence; one three months' course on botany; twenty-five lectures on chemistry and toxicology; twenty-five practical demonstrations on histology and pathology; twenty lectures on sanitary science and botany; 5) attendance for at least eighteen months on the practice of some recognized hospital; 6) six months' attendance on the practice of lying in hospital, and charge of six cases of confinement; 7) compounded medicines for six months; 8) good moral character; 9) twenty-one years of age.

FEES: Matriculation, \$5; registration, \$2; six chairs, \$12 each; six chairs, \$6 each; four chairs, \$5 each; and three chairs, \$10 each; hospital, \$5; graduation, \$25.

WOMAN'S MEDICAL COLLEGE.

(Affiliated with the University of Trinity College, Toronto.)

TORONTO, Ont. A. McPHEDRAN, M. B., M. D., C., M. President, 84 College Ave.

ORGANIZED in 1883. The college does not confer degrees, but is intended for "the education of ladies in the science and practice of medicine so as to fit them to undergo the examination of the College of Physicians and Surgeons of Ontario which are required for the provincial license, and for degrees in medicine in the several universities."

The faculty embraces thirteen lecturers, one demonstrator and an assistant demonstrator.

COURSE OF INSTRUCTION: One annual lecture term of six months' duration, beginning on the first of October, 1888, and continuing until April 1, 1889. The course is graded, and extends through three years.

Lectures embrace the principles and practice of medicine and surgery, obstetrics, diseases of women and children, materia medica, botany, anatomy, microscopv, sanitary science, medical jurisprudence, toxicology, chemistry, ophthalmology, otology and sanitary science.

REQUIREMENTS: For admission, certificate of having passed the matriculation examination of the provincial board. Graduates in arts, or students having matriculated in arts in any recognized university in Her Majesty's Dominions, are exempt.

For graduation: 1) four years' study; 2) four courses of lectures of six months duration; a graduate in arts three courses; 3) two courses of six months each upon anatomy, dissection, physiology, histology, chemistry, materia medica, therapeutics, principles and practice of medicine and surgery; midwifery, diseases of women and children, and clinical medicine and surgery; one six months' course on medical jurisprudence one course of three months upon practical chemistry, toxicology, botany, pathology and hygiene; 4) dissect the whole human body; 5) six months' practice in compounding medicines; 6) twenty-four months, attendance on hospital; 7) six cases of midwifery.

FEES: For eight chairs, including practical anatomy, \$12 each; normal histology, pathological histology, \$8 each; medical jurisprudence, practical chemistry, clinical medicine and clinical surgery, \$6 each; sanitary science, botany, physical diagnosis, disease of children, \$5 each. Registration, once only, \$5. Third course on any branch, free. Examination, first year, \$5; second and third, \$3 each. Final including diploma, \$5.

1887-88	26	3	11.5

WOMEN'S MEDICAL COLLEGE, KINGSTON.

(Affiliated with Queen's University.)

KINGSTON, Ont. M. LAVELL, M. D., President of the Faculty.

ORGANIZED in 1883.

The faculty embraces eight professors, two lecturers, and one demonstrator, in addition to which two professors of Queen's College give instructions in chemistry and botany.

COURSE OF INSTRUCTION: The session of 1888-89 began the first Monday in October, 1888, and will continue for six months.

Lectures embrace obstetrics and diseases of women and children; principles and practice of surgery; materia medica and therapeutics; medical jurisprudence and sanitary science; theory and practice of medicine; physiology and histology; anatomy, descriptive and surgical; chemistry, botany, practical anatomy, clinical surgery, clinical medicine.

REQUIREMENTS: For admission, "Before entering the student must decide where she intends to practice medicine. If in Ontario, then she should, before entering college, either pass the teacher's second class certificate examination, with Latin included, or she should matriculate in arts in some university in Her Majesty's Dominions. If outside of Ontario, then she must, not later than the beginning of her second session' pass the matriculation examination of Queen's University, which includes English language, grammar and composition, arithmetic, algebra, geometry, Latin grammar, natural philosophy. Graduates and matriculates in arts from a recognized University, and those who have passed the Matriculation Examination of the Medical Council of Ontario, are not required to pass the above matriculation examination.

For graduation: The degree of M. D. is conferred upon students who take lectures for four years and pass the requisite examination. Except that graduates in arts will be required to attend lectures for three years only, must have compounded medicines for six months, and have attended at least six cases of midwifery, and six post mortem examinations; practical knowledge of the microscope; twenty-one years of age; good moral character, thesis.

FEES: Registration, once only, \$5; nine chairs, \$12 each; practical anatomy, \$8; three chairs, \$6 each; sanitary science and histology, \$4 each. Hospital fee four sessions, \$10; graduation, \$30. Except in practical anatomy, chemistry and botany, the third and subsequent courses in any branch, free.

MCGILL UNIVERSITY, FACULTY OF MEDICINE.

MONTREAL, Que. R. PALMER HOWARD, M. D., Dean, 47 Union avenue.

ORGANIZED in 1824 as the Montreal Medical Institution; became the Medical Department of McGill University in 1829. No class graduated during the Canadian Rebellion, 1837-40.

The faculty embraces fourteen professors, four demonstrators, three instructors, one lecturer, and one assistant to chair of clinical surgery.

COURSE OF INSTRUCTION: The complete course of study extends over four winter sessions of six months, and one summer session of three months in the third academic year. The collegiate year of 1888-89 began October 1, 1888, and the summer session will begin April 9, 1889.

The examinations at the end of each session are arranged as follows: First year, pass examination in histology and botany; sessional examination in anatomy, chemistry and physiology. Second year, pass examination in anatomy, chemistry, practical chemistry and physiology; sessional examination in pharmacology and therapeutics. Third year, pass examination in pharmacology and therapeutics, medical jurisprudence, hygiene and pathology. Fourth year, pass examination in medicine, surgery, obstetrics, clinical medicine and clinical surgery.

REQUIREMENTS: For admission, see section eight of the Quebec Medical Act.

For graduation, see section fifteen of the Quebec Medical Act,—except that McGill requires attendance on lectures for four winter sessions of six months and one summer session of three months, and examinations in clinical medicine and surgery are conducted at the bedside.

FEES: For first year, \$69; for second year, \$97; for third year, \$97; for the fourth year, \$65; summer session, \$25; hospital, \$28; university matriculation, \$5; graduation, \$30; separate lecture course, \$5 to \$16.

ECOLE DE MEDICINE ET DE CHIRURGIE.

(Affiliated with the University of Victoria.)

MONTREAL, Que. L. D. MIGNAULA, A. B., M. D., C. M., Registrar, 155 rue Bleury.

ORGANIZED in 1843, and incorporated in 1845. Degrees were first conferred on its students in 1845. Degrees have been conferred each subsequent year.

The faculty embraces fifteen professors, two lecturers and three demonstrators.

COURSE OF INSTRUCTION: One annual session of six months duration, attendance upon which is compulsory. Students are not received after the first month. The complete course extends over four years, but the law allows the student to spend the second or third year with a practitioner. An optional summer course of two months has been added.

Lectures embrace chemistry, pharmacy, toxicology, materia medica, therapeutic, midwifery, diseases of women and children, physiology, pathology, principles and practice of medicine and surgery, medical jurisprudence, botany, hygiene, histology in ophthalmology, anatomy, physics, dermatology.

REQUIREMENTS: For admission, see section eight of the Quebec Medical Act. For graduation, see section fifteen of the Quebec Medical Act.

FEES: Matriculation, \$2; two courses of lectures, fee \$60 for each course; general hospital and maternity hospital, each \$4; graduation, \$30.

ST. LAWRENCE SCHOOL OF MEDICINE.

QUEBEC, Que.

ORGANIZED in 1851.—Extinct, 1852.

LAYAL UNIVERSITY, MEDICAL DEPARTMENTS.

QUEBEC, Que. ARTHUR VALLEE, M. D., Secretary, 22 rue Ste. Anne.

MONTREAL, Que. E. P. LACHAPPELLE, M. D., Secretary, 132 rue Ste. Laurent.

ORGANIZED in 1852. The department in Quebec is the successor of the Quebec School of Medicine, which was organized in 1848, and existed four years. The department in Montreal is known as a "Succursale," and was organized in 1878. The first class was graduated in 1855, and a class has been graduated each year since.

The faculty embraces twenty-six chairs; thirteen in each school.

COURSE OF INSTRUCTION: One annual session of about thirty-five weeks' duration; attendance is compulsory; the course is graded, and extends over four years.

Lectures are divided into two sections, primary and final. Primary—descriptive anatomy 240 lectures, practical anatomy 180 lectures, of two hours each, microscopic anatomy and histology 120 lectures, physiology 150 lectures, general pathology 80 lectures, hygiene 60 lectures, chemistry 240 lectures, botany 60 lectures; examination at the end of this course. Final section includes materia medica and general therapeutics 240 lectures, surgical, pathology and theoretical surgery 240 lectures, medical pathology and special therapeutics 240 lectures, gynecology and diseases of children 240 lectures, medical jurisprudence 60 lectures, toxicology 60 lectures, diseases of the eye and ear 60 lectures, practical operative surgery 40 lectures, clinical surgery 270 lectures, clinical medicine 270 lectures, clinical studies of the diseases of the eye and ear 60 lectures, clinical midwifery not less than six cases, clinical study of diseases of women and children; examination at the end of this course.

REQUIREMENTS: For admission, see section eight of the Quebec Medical Act. For graduation, see section fifteen of the Quebec Medical Act.

FEES: Annual fee, \$54; diploma, \$20.

UNIVERSITY OF BISHOP'S COLLEGE, FACULTY OF MEDICINE.

MONTREAL, Que. F. W. CAMPBELL, M. A., M. D., Dean, 10 Phillips Place, Beaver Hall.

ORGANIZED in 1870. The first class was graduated in 1871, and a class has been graduated each year since.

The faculty embraces sixteen professors and a demonstrator of anatomy.

COURSE OF INSTRUCTION: The eighteenth annual session commenced October 2, 1888, and will be continued to the end of March, 1889. The course is graded and extends over three years in four years' course is advised as follows: First year, anatomy, physiology, chemistry, materia medica, histology, botany, hygiene, dissections and clinics. Second year, same as first year except botany, hygiene and histology omitted and midwifery added. Third year, medicine, surgery, pathology, obstetrics, gynecology, diseases of children, medical jurisprudence, Hospital practice and clinics. Fourth year, same as third, except pathology and medical jurisprudence omitted, and ophthalmology added.

REQUIREMENTS: For admission see section eight Quebec Medical Act.

For graduation, see section fifteen Quebec Medical Act.

FEES: Registration each session, \$4; seven chairs, \$12 each; one, \$10; practical histology, \$16; six chairs, \$6; practical anatomy, \$10; practical chemistry, \$12; degrees (C. M., M. D.) \$20; registration of degree, \$5; hospitals, \$4.

Nova Scotia.

HALIFAX MEDICAL COLLEGE.

(Affiliated with Dalhousie University.)

HALIFAX, N. S. A. W. H. LINDSAY, M. D., Registrar, 241 Pleasant street.

ORGANIZED in 1867 as the Halifax School of Medicine, united the same year with Dalhousie University as its Medical Faculty, separately incorporated under its present title in 1875. In 1876 it was affiliated with the University of Halifax but this body becoming inoperative it affiliated with Dalhousie University in 1885. (See Medical Department, Dalhousie University.)

First class graduated in 1872, classes graduated in each subsequent year (except 1873) to 1885. No courses of instruction were given during the session of 1885-86 and 1886-87. During the session of 1887-88 instruction was given in the primary branches only, and such will be the case for the session of 1888-89 after which it is expected the course will again be made complete by the resumption of the final subjects of the curriculum. Being affiliated with Dalhousie University the medical college refrains from conducting degree examinations or conferring degrees, both being left to the University.

Faculty embraces four professors and one lecturer.

COURSE OF INSTRUCTION: One annual course of six months duration beginning in last week of October; attendance ascertained regularly and certified at end of session.

Lectures embrace principles and practice of medicine, clinical medicine, obstetrics, gynecology, principles and practice of surgery, clinical surgery, physiology, anatomy, dermatology, botany, diseases of children, practical chemistry, materia medica, therapeutics, microscopy, pharmacy, medical jurisprudence, toxicology, insanity and public hygiene.

REQUIREMENTS: For admission as an undergraduate, a certificate of having passed the matriculation examination of the Nova Scotia Medical Board. Compulsory: English language, including grammar, composition and writing from dictation; arithmetic, including vulgar and decimal fractions and the extraction of the square root; algebra to the end of simple equations; geometry,—first three books of Euclid; Latin, one book,—translation and grammar. Elementary mechanics of solids and fluids. And one of the following optional subjects: History of England, with questions in modern geography. French translation; German translation; one Greek book; History of Nova Scotia; History of the Dominion of Canada. b) certificate of having passed either of the medical

matriculation examinations of Dalhousie University. Exemptions: a degree in arts or science from any chartered university or college exempts from further preliminary examination. The matriculation, sessional and degree examinations of any regularly chartered university or college, and the preliminary examination of any medical licensing board authorized by law in Her Majesty's Dominions, are recognized *pro tanto*. Persons are also admitted as general students without any preliminary examination, but such attendance does not qualify for graduation.

For graduation: Students of the Halifax Medical College receive the degrees M. D. C. M., from Dalhousie University. For requirements, (see Medical Department Dalhousie University.

FEES: Registration, annual \$2.00 (or perpetual \$5.00), matriculation examination (Nova Scotia Medical Board), \$10.00; lectures, \$12.00 each; anatomy, materia medica, physiology and clinical medicine, clinical surgery, medical jurisprudence, practical anatomy, \$8.00 each; and practical chemistry, practical pharmacy, botany, \$6.00 each; histology, \$1; graduation fee, \$20.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

DALHOUSIE UNIVERSITY, FACULTY OF MEDICINE.

HALIFAX, N. S. GEO. LAISON, Ph. D., LL. D., Secretary of the Senate of the University ORGANIZED in 1867 with full teaching staff and maintained until 1876; incorporated as the Halifax Medical College in 1876.

REORGANIZED under its present title in 1885, mainly as an examining body. Teaching is provided in the University in chemistry and botany. In professional subjects students obtain instruction at the Halifax Medical College, which is affiliated with the University. The academic year, session of 1888-89, commenced October 29, and will continue six months.

MATRICULATION EXAMINATIONS.—I. Candidates for medical degrees must give evidence of having obtained a satisfactory general education before entering upon the course of study qualifying for the degrees, by passing either one or other of the matriculation examinations of this faculty or some other examination recognized by the senate as sufficient.

II. The following are the subjects of the Lower Matriculation Examination: 1) English language, including grammar and composition; 2) Latin including grammar, translation from specified authors and translation of easy passages not taken from such authors; 3) elements of mathematics, comprising a) arithmetic—including vulgar and decimal fractions; b) algebra—including simple equations; c) geometry—including the first book of Euclid or the subjects thereof; 4) elementary mechanics of solids and fluids, comprising the elements of statics, dynamics and hydrostatics,—as treated in Blake's Elements of Dynamics (Thin, Edinburgh); 5) one of the following subjects: a) Greek including translation* from the original and grammar; b) French, including translation* from the original and grammar; c) German, including translation* from the original and elementary chemistry; f) botany.

III. The following are the subjects of the higher matriculation examination: 1) English, including a) writing a passage of English from dictation; b) English composition, with the correction of sentences of bad English; c) questions in English grammar with analysis of sentences and derivation and definition of some common English words; d) questions in geography and history especially in the history of the British Islands; and of English literature; 2) Latin, including grammar and translation of a single passage (translated from a Latin author) the more difficult Latin words being given; 3) arithmetic, the common rules including vulgar and decimal fractions; 4) elements of mathematics, comprising a) geometry, Euclid, Books I, II and III; b) algebra, including simple equations; 5) elements of dynamics (mechanics), comprising elementary kinematics, statics,

*The following books are prescribed for October, 1885: In Greek, Xenophon's Anabasis, Book I, or Book VI; in French, Voltaire's Charles XII., Books I and II; in German, Adler's Reader, Zweiter Abschnitt, Nos. 14-17 (inclusive).

†These books are mentioned to show the extent of knowledge expected. Other books may of course be used by candidates.

†These may of course

optics and hydrostatics, as treated in Blakie's Elements of Dynamics (Thin, Edinburgh); 6 and 7 any two of the following subjects: a) Greek; the subjects of the lower examination together with the translation of easy English sentences into Greek prose; b) French; the subjects of the lower examination together with translation of easy English sentences into French; c) German; the subjects of the lower examination together with translation of easy English sentences into German; d) natural philosophy; as in William Stewart's Elementary Physicist (Macmillan & Co.); e) logic; Jevons' Elementary Lessons in Logic (Macmillan & Co.).

IV. These examinations will be held on the 10th-13th of October, 1888, in the college hall. They will be conducted by the instructors of the arts faculty. Persons who wish to appear as candidates are required to give notice to the secretary of the faculty at least fourteen days before the date of examination (stating in such notice whether they are candidates for the lower or higher examination, and specifying the elective subjects which they wish to be examined), to enter their names in the register of candidates, and to pay a fee of ten dollars.

V. The lower examination satisfies the requirements of the General Medical Council of Great Britain as to the preliminary examination which must be passed by persons wishing to register as medical students. The higher examination satisfies the requirements of the University of Edinburgh in the same respect. Certificates will be issued to candidates showing the subjects in which they passed and the extent to which their knowledge of these subjects was tested.

VI. A certificate of the possession of a university degree in arts or of having passed the matriculation examination of the Provincial Medical Board of Nova Scotia shall be considered by this university sufficient evidence of satisfactory general education.

DEGREE EXAMINATIONS.—Candidates for the Degree of M. D., and C. M., shall be required to pass two examinations—the Primary and the Final M. D., C. M., examinations, and to have satisfied at the dates of the examinations certain conditions as to the attendance on classes, etc.

Primary M. D., C. M., Examinations.—I. Candidates for this examination shall be required to produce certificates to the following effect: 1.) of having passed the matriculation examination, or other examination recognized as sufficient, at least two academic years previously, and of having completed their sixteenth year at the date of passing said examination; 2.) of having, after passing the matriculation or other equivalent examination, attended the Halifax Medical College or in some school of medicine approved by the senate, two courses of 100 lectures each, in each of the following subjects, viz:—Anatomy, chemistry, materia medica, and physiology; and two courses of instruction of the same duration in practical anatomy, in the course of which they shall have dissected the whole body (*i. e.*, the head and neck and upper and lower extremities) at least twice; 3.) of having, after passing the matriculation examination, attended either in this university, in the Halifax Medical College, or in some other university or college approved by the senate, one course of instruction of fifty lessons each, in each of the following subjects, viz:—Botany and practical chemistry and one course of twenty-five lectures or demonstrations in histology; 4.) either of having, after passing the matriculation examination, attended at the Halifax Medical College or at some college approved by the senate, one course of instruction of fifty lessons in practical pharmacy, or of having had three months' practice in the dispensing of drugs with a recognized apothecary or dispensing medical practitioner.

II. Candidates shall be required to pass written and oral examinations in chemistry (including practical chemistry), botany, anatomy (including practical anatomy and histology), physiology and materia medica (including practical pharmacy).

III. Candidates may appear for examination in botany one academic year after passing the matriculation examination on presentation of the certificates specified above so far as they apply to this subject.

IV. The Primary M. D., C. M., examinations will be held in the third week of April. Candidates are required to transmit the certificates specified above to the secretary of the senate at least fourteen days before the date of the examination, to enter their names in the register of undergraduates of the university before the date of the examination, and to pay before the date of the examination half the amount of the graduation fee. Should the candidate fail to pass, the fee will not be returned to him, but he will be admitted to any one subsequent primary examination without fee.

Final M. D., C. M. Examination.—I. Candidates for this examination shall be required to furnish certificates to the following effect, viz: 1.) that they have completed their twenty-first year or that they will have done so on or before the day of graduation. This certificate shall be signed by themselves; 2.) of having passed the primary M. D., C. M., examination at this university, or having passed the same examination at the Halifax Medical College prior to its affiliation with this university, or having been admitted to the standing of an undergraduate who has passed this examination on certificates from recognized medical schools; 3.) of either a) having attended during four academic years at least two courses of lectures per year in subjects of the primary and final M. D., C. M., examination either in this university or at the Halifax Medical College, or at some other recognized medical school, or b) having spent one calendar year in the study of medicine in the office or offices of one or more registered medical practitioners, and having subsequently attended during three academic years courses of lectures as above; 4.) of having attended at least two courses of lectures during at least one academic

†These books are mentioned to show the extent of knowledge expected. Other books may of course be used by candidates.

year at the Halifax Medical College, and of having paid the fees for one course of lectures; 4) of the subjects of the M. D., C. M., examinations at that college; 5) of having after passing the matriculation examination, attended at the Halifax Medical College, at some school of medicine approved by the senate, two courses of one hundred lectures each, in each of the following subjects, viz: Principles and practice of surgery, obstetrics and diseases of women and children, and principles and practice of medicine; two courses of lectures, of fifty lectures each, in each of the following subjects, viz: (Clinical medicine and clinical surgery; and one course of fifty lectures in medical jurisprudence; 6) of having after passing the matriculation examination, attended during one calendar year the practice of the Victoria general hospital, or that of some other hospital approved by the senate; 7) of having attended at least six months the practice of a lying-in hospital, approved by the college, or of having attended at least six cases of midwifery under a recognized practitioner; 8) of having obtained proficiency in the practice of vaccination under a recognized practitioner.

II. Candidates shall be required to pass written and oral examinations in the following subjects: Principles and practice of medicine, obstetrics and diseases of women and children, principles and practice of surgery, and medical jurisprudence. The oral examinations in medicine and surgery shall include clinical examinations conducted at the bedside, cases being submitted for diagnosis and treatment.

III. Candidates may appear for examination in medical jurisprudence alone, the academic years after passing the matriculation examination, on presentation of the certificates specified above, so far as they apply to this subject.

IV. This examination will be held in the third week of April. Candidates are required to transmit the certificates specified above to the secretary of the faculty at least fourteen days before the date of the examination, to enter their names in the register of undergraduates before the date of the examination, and to pay before date one-half of the amount of the graduation fee. Should the candidate fail to pass, the fee will be returned to him; but he will be admitted to any one subsequent final examination without fee.

FEES: The following fees, payable by candidates for the degree of M. D., C. M., in all cases payable in advance. Registration, \$2; matriculation examination fee, \$10; chemistry class fee, \$12; anatomy laboratory fee (three months' course), \$6; botany class fee, \$6; graduation fee, \$20.

STUDENTS: Number of matriculates for 1885-86—4.
Number of matriculates for 1886-87—0.
Number of matriculates for 1887-88—14.

Manitoba.

MANITOBA MEDICAL COLLEGE.

(Affiliated with the University of Manitoba.)

WINNEPEG, MB. J. WILFORD GOOD, M. B., Dean of the Faculty, 456 Main street.

ORGANIZED in 1881. The faculty embraces twelve professors, one demonstrator, and one lecturer.

COURSE OF INSTRUCTION: One yearly session; that of 1888-89 began October 1, 1888, and will continue for six months.

Lectures embrace principles and practice of medicine, principles and practice of surgery, obstetrics, diseases of women and children, anatomy, descriptive, surgical and practical, physiology including histology, chemistry and chemical physics, materia medica and therapeutics, sanitary science, medical jurisprudence and toxicology, clinical surgery, clinical medicine, ophthalmology and otology, and botany.

A fellowship degree is granted.

REQUIREMENTS: For admission—*Compulsory Subjects*—1) Latin, a prose author; 2) Latin, a second prose author; 3) history, assigned subjects in history; 4) arithmetic, the end of cube root; 5) Algebra, to the end of simple equations (including fractions); 6) Euclid, definitions, books I and II, with simple deductions; 7) natural science. *Optional Subjects*—A student is also required to pass a satisfactory examination in two of the following: 8) a selected English poem; 9) a selected French poem; 10) Greek, one prose author; 11) German, one prose author; 12) mechanics. There shall be nine papers in this examination, corresponding to the numbers given above, for each of which three hours shall be assigned. In place of the above entrance examination the University, or the Faculties of Medicine, have agreed to accept the matriculation examination of the Colleges of Physicians and Surgeons of the Provinces of Quebec and Ontario, and also the Ontario High School Intermediate examinations, except that the Latin of the entrance examination of this University, must be taken by those who have not taken these subjects in the said High School examinations. A bachelor of arts of any University in Her Majesty's dominions is admitted to medicine without further examination.

For graduation: 1) twenty-one years of age; 2) two full courses of lectures; 3) eighteen months attendance at some incorporated general hospital; 4) six months practice in lying-in hospital or its equivalent, with a certificate of attendance upon at least six cases of labor; 5) three months' practice compounding medicines in a drug store or laboratory of hospital.

FEES: Registration, \$5; seven chairs, each \$16; five chairs, each \$6; botany, \$6; practical anatomy, \$8; graduation, \$10.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

COLORADO.

STATE BOARD OF MEDICAL EXAMINERS OF COLORADO.

T. A. HUGHES, M. D., Secretary and Treasurer, Denver.

The Colorado State Board of Medical Examiners, authorized by legislative enactment, approved March 14, 1881, has a membership of nine practicing physicians, appointed by the Governor of the State, who hold their positions for a term of six years.

It is required of every person practicing medicine, in any of its branches, that he shall present his diploma to the Board of Medical Examiners for verification, or furnish other evidence conclusive of his being a graduate of a medical school in good standing. If not a graduate, the applicant is required to present himself for examination by the members of the Board, who may question him in whole, or in part, in writing, on the subjects of anatomy, physiology, surgery, obstetrics, chemistry, pathology and practice of medicine.

All persons who have made the practice of medicine and surgery their profession or business continuously for the period of ten years, and can furnish satisfactory evidence thereof to the Board of Medical Examiners, shall receive a license to continue practice.

The meetings of the Board are held quarterly, at the city of Denver, the first Tuesdays in January, 2d, 4th, July and October.

During the year 1888, 118 certificates were issued. Fee for certificate, \$5; for examination, \$10.

UNIVERSITY OF DENVER, MEDICAL DEPARTMENT.

DENVER, Col. SAMUEL A. FISK, M. D., Secretary, Barth Block.

ORGANIZED in 1881. First class graduated in 1882.

The faculty embraces seventeen professors, one adjunct professor, one assistant to chair of chemistry.

COURSE OF INSTRUCTION: Instruction is given by lectures, recitations, clinical teaching and practical exercises. The eighth annual session that of 1888-89 commenced October 3, 1888, and will close April 3, 1889. Three years' graded course recommended, but not required.

Lectures embrace: For the Junior, or first year, anatomy, physiology, histology, materia medica and therapeutics and chemistry. For the Middle or second year, anatomy, physiology, materia medica and therapeutics, chemistry principles and practice of medicine and clinical medicine, principles and practice of surgery and clinical surgery, obstetrics, diseases of children, gynecology and general pathology. For the Senior or third year, principles and practice of medicine and clinical medicine, principles and practice of surgery and clinical surgery, obstetrics, diseases of children, gynecology, ophthalmology and otology, laryngology, diseases of the chest, climatology, physical diagnosis, mental and nervous diseases, microscopy, medical jurisprudence and public hygiene and diseases of the genito-urinary organs.

REQUIREMENTS: For admission, "An entrance examination will be required of all applicants for admission to the school who are not able to present a diploma from a high school or college or a certificate of proficiency from some well recognized teacher. In this examination special attention will be paid to writing, spelling and composition."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years study; 4) two full courses of lectures; 5) satisfactory examination.

FEES: Matriculation, \$5; lectures, \$75; demonstrator, \$5; dissecting material, at cost; graduation, \$30.

MEDICAL DEPARTMENT, UNIVERSITY OF COLORADO.

BOULDER, Col. JAMES H. KIMBALL, M. D., Denver, Col., Secretary of the Faculty.

ORGANIZED in 1883. The faculty embraces six professors and six lecturers.

COURSE OF INSTRUCTION: Graded, and extends over a term of three years, with session of nine months in each year. Session of 1888-89 began September 5, 1888, and will end May 28, 1889. Women admitted on the same terms as men.

Studies embrace: First year, anatomy and dissection, chemistry, physiology, histology, materia medica, therapeutics and botany. Second year, first year's studies, except botany and pathology, practice of medicine, surgery and obstetrics. Third year, practice of medicine, surgery, obstetrics, diseases of woman, diseases of children, ophthalmology, otology, clinical medicine and surgery, clinical gynecology, hygiene and public health and medical jurisprudence; oral examinations precede each lecture and clinic.

REQUIREMENTS: For admission, "all students entering the college will be required to pass a satisfactory examination in the branches of a good English education. Students who present a diploma or certificate of graduation from a literary or scientific college or a high school, shall be exempt from this preliminary examination."

For graduation: 1) twenty-one years of age; 2) a good moral character; 3) oral and written examinations satisfactory to the faculty; not less than three full years of study, including time spent with preceptor and attendance upon clinics at hospital, and lectures which shall consist of not less than three full courses.

FEES: Matriculation, \$5; demonstrator, \$5; graduation and diploma, \$20; tuition free.

GROSS MEDICAL COLLEGE.

(*Medical Department of the Rocky Mountain University*)

DENVER, Col. CLAYTON PARKHILL, M. D., Secretary, cor. Lawrence and 17th streets

ORGANIZED in 1887. The faculty embraces sixteen professors, one demonstrator and one director of clinics.

COURSE OF INSTRUCTION: The collegiate year for 1888-89 began September 26, 1888, and will close in April, 1889, a continuous term of seven months. Instruction will consist of didactic and clinical lectures, given in the College building and at the various Dispensaries and Hospitals with which the members of the faculty are connected. Three years graded course recommended, but not required. Women admitted upon the same terms as men.

Lectures embrace principles and practice of medicine, surgery, anatomy, obstetric gynecology, materia medica and therapeutics, chemistry, physiology, ophthalmology and otology, diseases of the nervous system, diseases of women and children, laryngology, rhinosecopy, dermatology, climatology, and medical jurisprudence.

REQUIREMENTS: For admission, "Candidates for matriculation who can not present a diploma from some college, normal school or high school, will be required to give satisfactory evidence of a fair English education."

For graduation: "Each candidate must be at least twenty-one years of age, and of good moral character. Evidence must be given of his having studied medicine three years, and of having attended two full courses of lectures, the last of which shall have been in this college. Examinations will be both written and oral, and satisfactory proficiency will be demanded."

ed. FEES: Matriculation, \$5; lectures, \$75; demonstrator, \$5; graduation, \$10; dissecting material at cost.

CONNECTICUT.

YALE UNIVERSITY, DEPARTMENT OF MEDICINE.

(Yale Medical School.)

NEW HAVEN, CONN. HERBERT E. SMITH, M. D., Dean of the Faculty, 150 York street.

Charter granted, 1810. Organized in 1812, as the Medical Institution of Yale College. Instruction began 1813. In 1879 a new charter changed the title to the Medical Department of Yale College. In 1884 the college authorities assumed the entire control of the school, the Connecticut Medical Society retiring from the board of examiners.

The faculty consists of nine professors, and one assistant professor and demonstrator of anatomy, seven lecturers and two assistants to chairs.

COURSE OF INSTRUCTION: Graded, extending through three years and consisting of three lecture terms annually; the first commences the first Thursday in October and continues eleven weeks; the second begins three weeks after the close of the first and continues twelve weeks; the third begins in April and continues eleven weeks. Instruction is given to graduates and special students.

Lectures embrace, in the first year, general chemistry, qualitative analysis; physiological chemistry, anatomy, dissections; normal histology; physiology. The second year, anatomy, dissections, physiology, pathology, materia medica and therapeutics, theory and practice of medicine, clinical medicine, obstetrics, surgery, clinical surgery. Third year, pathology, theory and practice of medicine, physical diagnosis, clinical medicine, surgery, clinical surgery, obstetrics, diseases of women and children, ophthalmology, medical jurisprudence, insanity, nervous diseases, diseases of the skin, bacteriology, sanitary science and public health, toxicology.

REQUIREMENTS: For admission, candidates for admission to the course leading to the degree of Doctor of Medicine, must be at least eighteen years old, and must present satisfactory testimonials of moral character from former instructors or physicians in good standing. As evidence that he has had a sufficient preliminary education, each candidate must present proof that he has passed the matriculation examination of some scientific, literary, or professional college in good standing; or present testimonials from the proper officer that he has pursued the course at some high school, academy, or preparatory school approved by the faculty; or he must pass an examination in the following subjects: 1. Mathematics; algebra to quadratics; geometry, euclid, two books or its equivalent; metric system of weights and measures. 2. Physics; Balfour Stewart's elementary Physics, or some equivalent work. These examinations are conducted in writing. Grammar, spelling and construction are considered in judging of the papers. These entrance examinations are also held in Chicago, Cincinnati and San Francisco on the Thursday following the June commencement. Students of any recognized medical school or of private preceptors of good standing, "may present themselves for examination three weeks before commencement and enter the examinations of the first one or two years, as they see fit"—the result of such examination determining their admission.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years medical study, "two of which must have been in a recognized medical college and the last of which must have been at this school;" and 4) pass the required examinations in all the studies of the three years' course; 5) satisfactory thesis.

FEES: Matriculation (paid once only) \$5; tuition for one year, \$125; for the third year to those who have paid for and attended two full courses, \$75; graduation, \$30; anatomy, \$10 first term; \$5 second term.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

DISTRICT OF COLUMBIA.***NATIONAL MEDICAL COLLEGE.***(Medical Department of the Columbian University.)*

WASHINGTON, D. C. A. F. A. KING, M. D., Dean, 726 Thirteenth street.

ORGANIZED in 1821, as the Medical Department of Columbian College. It was also authorized to use the title of National Medical College. In 1873 Columbian College became Columbian University. The first class was graduated in 1822. Operations were suspended from 1831 to 1838, and from 1861 to 1863. With these exceptions, classes have been graduated each year since its founding.

The faculty embraces seven professors, five demonstrators, three assistant demonstrators and two prosectors.

COURSE OF INSTRUCTION: The curriculum of study consists of three graded annual courses of lectures. The regular yearly term began October 1, 1888, and will end March 1, 1889. A spring session is held during April and May. Women admitted upon the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, toxicology, medical jurisprudence, dermatology, ophthalmology, otology, diseases of women and children, and histology.

REQUIREMENTS: For admission, "Matriculantes will be required to show that they are fitted, by previous education, for the study of medicine, and for this purpose they must either submit themselves to an examination, or in lieu thereof present a satisfactory certificate of their attainments from some college, seminary or high school." Students who have attended one course in any other regular medical school are placed on the same footing as first-course students of this college, and those who have attended two courses are admitted to the third-year class after passing a satisfactory examination on anatomy, physiology, chemistry and materia medica.

For graduation: 1) three years' study; 2) twenty-one years of age; 3) good moral character; 4) attendance on three courses of lectures, and satisfactory examinations at the end of second and third years; 5) dissection, at least two sessions; and 6) attendance on two courses of clinical instruction.

FEES: Matriculation (paid once only), \$5; lectures, \$100; examination, primary, \$20; final, \$10; demonstrator, \$10.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	53	6	11.3

UNIVERSITY OF GEORGETOWN, MEDICAL DEPARTMENT.

WASHINGTON, D. C. G. L. MAGRUDER, M. D., Dean, 815 Vermont Ave., N. W.

ORGANIZED in 1850. First class graduated in 1851; classes have been graduated each subsequent year.

Faculty embraces seven professors, nine professors of special departments, two demonstrators and two assistant demonstrators.

COURSE OF INSTRUCTION: Graded, extending over three years, and consisting of didactic and clinical lectures, recitations, demonstrations, and of dissecting and other practical manipulation during seven months of each year. Students are divided into first, second and third year classes. The session of 1888-89 commenced October 1, 1888—a recess will be had during the month of March, 1889—and it will close May 25, 1889.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene

* The low percentage of graduates in the District of Columbia is owing mainly to the fact that a large number of the matriculates are government clerks, some of whom attend four or more courses of lectures, and, of necessity, do not devote their whole time to study.

and state medicine, histology, medical jurisprudence, ophthalmology, otology, laryngology, diseases of children, microscopy, toxicology. Class recitations are conducted by the members of the faculty, one hour every week being devoted to each branch; and at the close of each session class examinations are held upon the subjects of study of each of the three classes.

REQUIREMENTS For admission, a written preliminary examination upon the ordinary branches of an English education, "for the purpose of ascertaining whether the candidate can profitably pursue the technical study of medicine, and of preventing those not qualified from wasting time and money." Graduates of colleges, high schools and academies are exempt from this preliminary examination. Students having attended one term at other medical colleges in good standing, will be admitted to the second course upon passing the examination exacted of students at the end of the first year; and candidates presenting certificates of examination from other medical colleges in good standing are admitted to the respective higher classes without further examination.

For graduation: 1) good moral character; 2) twenty-one years of age; 3) not less than three years' study; 4) three full courses of instruction; 5) two courses of practical anatomy.

FEES: Matriculation (paid but once), \$5; first class (four tickets), \$60; second class (seven tickets), \$105; third class (three tickets), \$45; demonstrator, \$10; examination fee (final) \$15.

HOWARD UNIVERSITY, MEDICAL DEPARTMENT.

WASHINGTON, D. C. CHARLES B. PURVIS, M. D., Secretary, 1118 Thirteenth street, N. W.

ORGANIZED in 1867. The first class graduated in 1871, and classes have been graduated each subsequent year.

The faculty embraces nine professors and one assistant professor, one lecturer, two demonstrators and two assistant demonstrators.

COURSE OF INSTRUCTION: Comprises lectures, recitations, clinics and practical exercises. The twenty-fifth annual course of lectures commenced October 1, 1888, and will close March 1, 1889. Three courses of lectures are required to complete the curriculum. The student is allowed to devote his first term to anatomy, physiology, chemistry and materia medica, but the second year must be given to all the subjects. The school has a summer session of six weeks beginning in April. Women admitted upon same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, pharmacy and botany, microscopy, histology, dental surgery and toxicology.

REQUIREMENTS: For admission, matriculates must be of good moral character; present a diploma from some good literary or high school, or a first-grade teacher's certificate, or a civil service examination certificate, or pass an examination sufficient to show that they have a good common school education.

For graduation: 1) twenty-one years of age and of good moral character; 2) three years' study including three courses of lectures; 3) attended clinical lectures and dissections; 4) written and oral examination on required branches.

FEES: Demonstrator, \$9; lectures, \$50 per session.

* Not including two graduates who matriculated.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

MEDICAL DEPARTMENT, NATIONAL UNIVERSITY.

WASHINGTON, D. C. H. H. BARKER, M. D., Dean, 1116 H street, N. W.

ORGANIZED in 1884. The faculty consists of seven professors, one assistant to chair of chemistry, one demonstrator, one prosecutor to chair of anatomy, and seven lecturers on special branches.

COURSE OF INSTRUCTION: The fifth annual session began on the first Monday in October, 1888, and will end the last Thursday in April, 1889. Instructions will be given by lectures, recitations, clinics and practical exercises. "It is deemed advisable to divide the course of studies into three years, advancing the student as he passes the required examination of his respective class." Students who have begun their professional studies elsewhere are admitted to advanced standing upon passing the necessary examination.

Lectures embrace: First year—anatomy, physiology, general chemistry and materia medica; Second year—practical and topographical anatomy, practical chemistry and toxicology, materia medica and therapeutics, physiology, practice of medicine, surgery, and obstetrics; Third year—practice of medicine, pathological anatomy, surgery, obstetrics and the diseases of women and children. A course of lectures will also be given on medical jurisprudence.

REQUIREMENTS: For admission, "All candidates must pass an examination in English, or present a certificate of proficiency in the same from some recognized institution of learning."

For graduation: 1) three years' study; 2) satisfactory examination in all the subjects of the three years' course, "the last of which must have been in this college;" 3) certificate of demonstrator that the necessary dissections of the human body have been made.

FEES: Matriculation (once), \$5; lectures, first year, (four tickets), \$60; second year, (seven tickets), \$105; third year, (three tickets), \$45; demonstrator, \$10; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Percentage of graduates to matriculates for past four years, 9.6.

FLORIDA.

UNIVERSITY OF FLORIDA, MEDICAL DEPARTMENT. JACKSONVILLE, FLA.

ORGANIZED in 1883. Removed from Tallahassee to Jacksonville in 1885. Extinct, 1886.

GEORGIA.

MEDICAL COLLEGE OF GEORGIA. (Medical Department, University of Georgia.)

AUGUSTA, Ga. EDWARD GEDDINGS, M. D., Dean of the Faculty.

ORGANIZED in 1829, as a Medical Academy, and has been in constant operation ever since, except during the period of the war. In 1873 it became the Medical Department of the State University of Georgia.

The faculty embraces seven professors, one professor of special subjects, four clinical assistants and two demonstrators of anatomy.

COURSE OF INSTRUCTION: One course of lectures annually, beginning on the first Monday in November, and ending on the first of March. Graded course of three terms recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, ophthalmology, otology, laryngology, diseases of children and pharmacy.

REQUIREMENTS: For admission, none.

For graduation: "A candidate for the degree of Doctor of Medicine must have attended two full courses of lectures in this or some other college in good standing, and pass a satisfactory examination on all the branches taught in this institution."

FEES: Matriculation (paid once only), \$5; tickets, \$75; practical anatomy (paid once only), \$10; diploma, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

Percentage of graduates to matriculates for past five years, 43.4.

SOUTHERN BOTANICO-MEDICAL COLLEGE. FORSYTH—MACON, Ga.

ORGANIZED in 1839 at Forsyth. Removed to Macon in 1846. First class graduated in 1841, and classes were graduated every year until 1854, when the name was changed to the Reform Medical College of Georgia—*vide infra*.

TEOMPSONIAN COLLEGE. BARBOURVILLE, Ga.

ORGANIZED about 1850.—Extinct.

SAVANNAH MEDICAL COLLEGE. SAVANNAH, Ga.

ORGANIZED in 1853. Suspended during the civil war, 1861-66.—Extinct since 1880.

REFORM MEDICAL COLLEGE OF GEORGIA. MACON, Ga.

ORGANIZED in 1854, as the successor of the Southern Botanic-Medical College—*vide supra*. Classes were graduated every year until 1861; suspended during the civil war; resumed in 1867; classes graduated in 1868 and each subsequent year until 1874, when the school assumed the name of the College of American Medicine and Surgery—which see.

ATLANTA MEDICAL COLLEGE.

ATLANTA, Ga. W. S. KENDRICK, M. D., Proctor of the College.

ORGANIZED in 1854. Closed during the rebellion, 1861-65. Reorganized in 1865. Classes were graduated from 1855 to 1861, inclusive, and each subsequent year.

The faculty embraces nine professors, two assistants, two lecturers and one demonstrator.

COURSE OF INSTRUCTION: One course of lectures annually; the thirty-first session of which extends from October 3, 1888, to March 1, 1889. A graded course of three years is recommended but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics, gynecology and diseases of the eye and ear and medical jurisprudence. Instruction is also given in venereal diseases, diseases of the throat, minor surgery, and in laboratory work in chemistry.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years study; 4) two full courses of lectures; 5) thesis, or a report of any of the clinics; 6) satisfactory examination on subjects mentioned above.

FEES: Matriculation, \$5; demonstrator, \$10; full course, \$75; graduation, \$90.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

1887-88	114	54	47.3

Percentage of graduates to matriculates for past eleven years, 37.

OGLETHORPE MEDICAL COLLEGE.

SAVANNAH, Ga.

ORGANIZED in 1885, and continued its sessions until 1861.—Extinct.

COLLEGE OF AMERICAN MEDICINE AND SURGERY.

ATLANTA, Ga.

ORGANIZED in 1874 as successor to the Reform Medical College at Macon. Removed to Atlanta in 1881—*vide supra*. The first class under this name was graduated in 1874. There was no graduating class 1877, '78, '79, '80 or '81. During the session of 1882-3 there was a class of 24 matriculates, of whom 14 were graduated at the close of the session; percentage of graduates to matriculates, *fifty-eight*. In 1884 the charter and effects of this institution were transferred to the Georgia College of Eclectic Medicine and Surgery.

GEORGIA COLLEGE OF ECLECTIC MEDICINE AND SURGERY.

ATLANTA, Ga. W. M. DURHAM, M. D., Secretary, 55½ Peachtree street.

ORGANIZED in 1877 as the Georgia Eclectic Medical College. After acquiring the charter of the College of American Medicine and Surgery, it assumed its present name in 1886 by virtue of an act passed by the State Legislature. The first class graduated in 1877, and classes have been graduated each subsequent year.

The faculty embraces nine professors and one demonstrator.

COURSE OF INSTRUCTION: The forty-ninth annual session commenced on October 3, 1888, and will close March 1, 1889. Three years' graded course recommended but not required. A spring course commencing about the middle of March has been provided for women who will not in the future be admitted to the regular courses.

Lectures embrace physiology, anatomy, pathology, chemistry, toxicology, surgery, materia medica and therapeutics, theory and practice of medicine, medical jurisprudence and hygiene, nervous and venereal diseases, obstetrics, diseases of women and children, clinical surgery and urinary analysis.

REQUIREMENTS: For admission, 1) The applicant must have read medicine at least one year under a competent instructor or preceptor. 2) Students must bring with them proper evidence of a competent knowledge of the branches of a preliminary education, such as English language and composition, mathematics, elementary physics, chemistry, etc., etc., or they will be required to pass a satisfactory examination on the same before a committee of the faculty. Any applicant holding a diploma from a reputable college or scientific school, or a literary high school, or a first grade teacher's certificate will be excused from this examination.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) thesis; 5) must have dissected the best part of the term; 6) "must have been diligent in attending the lectures and clinics;" 7) "thorough examination on the respective branches taught in the college."

FEES: Matriculation, \$5; lectures, \$70; demonstrator, \$5; graduation, \$25. Dissecting material at cost.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

CLARK UNIVERSITY, MEDICAL DEPARTMENT.

ATLANTA, Ga.

CHARTERED in 1886. Organization never completed.

* Not including 8 graduates who matriculated.

ILLINOIS.**AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF ILLINOIS.**
Passed June 15, approved June 16, and in force July 1, 1887.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly* That no person shall practice medicine in any of its departments in this state unless such person possesses the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Health for verification as to its genuineness. If the diploma is found genuine, and from a legally chartered medical institution in good standing, and if the person named therein be the person claiming and presenting the same, the State Board of Health shall issue its certificate to that effect signed by all the members thereof, and such certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this state. If not a graduate, the person practicing medicine in this state shall present himself before said board and submit himself to such examination as the board may require, and if the examination be satisfactory to the board, the said board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

§ 2. The State Board of Health shall organize within three months after the passage of this act, it shall procure a seal, and shall receive through its secretary, applications for certificates and examinations; the president and secretary shall have the authority to administer oaths, and the board to take testimony in all matters relating to its duties; it shall issue certificates to all who furnish satisfactory proof of having received diplomas or licenses from legally chartered medical institutions in good standing as may be determined by the board; it shall prepare three forms of certificates, one for persons in possession of such diplomas or licenses, the second for candidates examined and favorably passed on by the board, and a third for persons to whom certificates may be issued as hereinafter provided in section 12 of this act; it shall furnish to the county clerks of the several counties a list of all persons receiving certificates. In selecting places to hold its meetings, it shall, as far as is reasonable, accommodate applicants residing in different sections of the state, and due notice shall be published of all its meetings for examination. Certificates shall be signed by all the members of the board, and the secretary of the board shall receive from the applicant a fee of five (5) dollars for each certificate issued to such graduate or licentiate. Graduates or licentiates in midwifery to pay the sum of two (2) dollars for each certificate. All such fees for certificates shall be paid by the secretary into the treasury of the board.

§ 3. The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal; and any person swearing falsely shall be deemed guilty of perjury, and punished accordingly. Graduates may present their diplomas and affidavits as provided in this act, by letter or by proxy, and the State Board of Health shall issue its certificate the same as though the owner of the diploma was present.

§ 4. All examinations of persons not graduates or licentiates, shall be made directly by the board, and the certificates given by the board shall authorize the possessor to practice medicine and surgery in the State of Illinois.

§ 5. Every person holding a certificate from the State Board of Health shall have it recorded in the office of the clerk of the county in which he resides, within three months from its date, and the date of recording shall be indorsed thereon. Until such certificate is recorded as herein provided the holder thereof shall not exercise any of the rights or privileges conferred therein to practice medicine. Any person removing to another county to practice shall record the certificate in like manner, in the county to which he removes, and the holder of the certificate shall pay to the county clerk the usual fees for making the record.

§ 6. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue of the certificate. If the certificate be based on a diploma or license, he shall record the name of the medical institution conferring it, and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

§ 7. The fees for the examination of non-graduates shall be as follows: Twenty (20) dollars for an examination in medicines and surgery; ten (10) dollars for an examination in midwifery only; and said fees shall be paid into the treasury of the board. If an applicant fails to pass said examination his or her fees shall be returned. Upon successfully passing the examination the certificate of the board shall be issued to the applicant without further charge.

§ 8. Examinations may be made in whole or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

§ 9. The State Board of Health may refuse to issue the certificates provided for in section 2 to individuals guilty of unprofessional or dishonorable conduct, and it may revoke such certificates for like causes. In all cases of refusal or revocation the applicant may appeal to the Governor, who may affirm or overrule the decision of the board, and this decision shall be final.

§ 10. Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat, operate on, or prescribe for any physical ailment of another. But nothing in this act shall be construed to prohibit service in cases of emergency, or the domestic administration of family remedies. And this act shall not apply to commissioned surgeons of the United States Army, Navy or Marine Hospital Service in the discharge of their official duties.

§ 11. Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of disease or injury, or who shall, by writing or printing or any other method, profess to cure or treat disease or deformity, by any drug, nostrum, manipulation or other expedient, shall pay a license of one hundred (100) dollars per month into the treasury of the board, to be collected by the State Board of Health, in the name of the People of the State of Illinois, for the use of said Board of Health. And it shall be lawful for the State Board of Health to issue such license on application made the State Board of Health, such license to be signed by the president of the board, and attested by the secretary of the board, with the seal of the board. Any such itinerant vendor who shall vend or sell any such drug, nostrum, ointment or appliance without having a license so to do, shall, if found guilty, be fined in any sum not less than one hundred dollars, and not exceeding two hundred dollars for each offense, to be recovered in an action of debt before any court of competent jurisdiction. But such board may for sufficient cause refuse such license.

§ 12. Any person practicing medicine or surgery in the State without the certificate issued by this board in compliance with the provisions of this act, shall for each and every instance of such practice forfeit and pay to the People of the State of Illinois for the use of the said State Board of Health the sum of one hundred (100) dollars for the first offense, and two hundred (200) dollars for each subsequent offense, the same to be recovered in an action of debt before any court of competent jurisdiction, and any person filing or attempting to file as his own the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and upon conviction, shall be subject to such fine and imprisonment as are made and provided by the statutes of the State for the crime of forgery. *Provided*, that all persons who have been practicing medicine continuously for ten years within this State prior to the taking effect of the act to which this is an amendment, and who have not under said original act obtained a certificate from the said Board of Health to practice medicine in this State, shall upon proper application to said Board of Health receive such certificate, unless it shall be ascertained and determined by said Board of Health that the person so applying for a certificate is of immoral character, or guilty of unprofessional or dishonorable conduct, in which case, said Board of Health may reject such application: *And, Provided*, that such application for a certificate shall be made within six months after the taking effect of this act, and all persons holding a certificate on account of ten years' practice shall be subject to all the requirements and discipline of this act, and the act to which this is an amendment, in regard to their future conduct in the practice of medicine the same as all other persons holding certificates, and all persons not having applied for or received such certificate within six months after the taking effect of this act, and all persons whose applications have for the causes herein named been rejected or certificates revoked, shall, if they shall practice medicine, be deemed guilty of practicing in violation of law and shall suffer the penalties herein provided.

§ 13. Upon conviction of either of the offenses mentioned in this act, the court shall as a part of the judgment, order that the defendant be committed to the common jail of the county until the fine and costs are paid, and upon failure to pay the same immediately, the defendant shall be committed under said order. *Provided*, that either party may appeal in the same time and manner as appeals be taken in other cases except that when an appeal is prayed in behalf of the people, appeal bond shall be required to be filed, whether the appeal be from a justice of the peace, or from the county or circuit court, or from the appellate court. But it shall be sufficient, in behalf of the People of the State of Illinois, for the use of the State Board of Health, to pray an appeal, and thereupon appeal may be had without bond or security.

§ 14. All acts and parts of acts inconsistent or in conflict with this act are hereby repealed.

ILLINOIS STATE BOARD OF HEALTH.

SPRINGFIELD, ILL. JOHN H. HAUCH, M. D., Secretary of the BOARD.

ORGANIZED July, 1877. Consists of seven members, appointed by the Governor of the State, for terms of seven years each. Its relations with medical education and medical colleges arise from the duties devolved upon it, and the powers and authority vested in it, by the Act to Regulate the Practice of Medicine in the State of Illinois, approved June 16, 1887, in force July 1, 1887. Among such duties, powers and authority are the examination and verification of diplomas presented as the basis for certificates entitling their lawful holders to practice medicine within the State, and the issue of such certificates; the determination of the standing of legally chartered medical institutions; the examination of non-graduates as to their qualifications as practitioners, and the issue of certificates or licenses to practice to such as pass satisfactory examinations; the refusal of certificates to individuals guilty of unprofessional and dishonorable conduct, and the revocation of certificates for like causes. The law also applies to midwives.

Since its organization, and up to the date of this revision, January 1, 1889, the BOARD has examined and verified the diplomas and licenses of 267 institutions and licensing bodies. Of this number it has definitely rejected the diplomas of 25 institutions, on ground of fraud or other gross invalidity; it has required the diplomas of 26 other institutions to be supplemented by examination; and it has issued certificates based on the diplomas of legally-chartered medical institutions in good standing to 8217 practitioners, and to 215 others on diplomas supplemented by examination. These last (the 215) have only been issued since the enforcement of the Schedule of Minimum Requirements; that is, to graduates of the sessions since 1882-83.

Of the total number of applicants for certificates on diplomas, 2181 were rejected, or withdrew their applications, or were unable to complete them, or in some other manner failed to comply with the requirements of the law; and these, as a rule, either abandoned practice or left the State. In a number of cases, however, the rejected or defective candidates subsequently attended lectures at a reputable medical college, were graduated therefrom, and certificates were issued them upon their diplomas.

The foregoing figures and comments refer only to applicants for certificates based upon diplomas, and do not embrace the non-graduates and exempta. Including these the law has applied to a total of nearly 11,000 individuals, exclusive of midwives. Of this number there are now in practice in the State, in round numbers, about 5850 physicians, classed as follows: 1. Graduates holding certificates based upon diplomas of legally chartered medical institutions in good standing as defined by the BOARD. 2. Graduates since the sessions of 1882-83, whose diplomas were required to be supplemented by examination in order to conform to the standard of Minimum Requirements of the BOARD. 3. Non-graduates who have passed the examination prescribed by the law. 4. Non-graduates exempt by reason of having been engaged in practice in the State upwards of 22 years.

The number of rejected applicants shows a diminution of late years, as the requirements of the law come to be more clearly defined and more generally understood. For the entire period the percentage of rejections and withdrawals has been 16, but during the past two years they have averaged only 12.1 per cent.—In 1884 there were 117 in 597 applicants, in 1885 there were 114 in 553 applicants. In 1886 there were 74 in 514 applicants. In 1887 there were 69 in 523 applicants, and in 1888 there were 50 in 455 applicants. Refusals of certificates are based upon one or more of the following grounds:

1. Failure to present a diploma from a legally-chartered medical institution in good standing, as defined by the BOARD.
2. Failure to sustain a satisfactory examination sufficiently strict to test the qualifications of the candidate for the practice of medicine.
3. Personal or professional antecedents, habits or association, warranting the charge of unprofessional and dishonorable conduct.
4. Proved intent to practice in an unprofessional and dishonorable manner, as by claiming to cure incurable maladies; to possess unusual skill, experience or facilities; and similar claims involving deceit and fraud upon the public.

The BOARD has revoked 41 certificates for unprofessional and dishonorable conduct.

Non-graduate applicants for license to practice in Illinois are required to submit to examination, in accordance with the following provisions of the Medical-Practice Act:

The STATE BOARD OF HEALTH * * * shall receive through its Secretary applications for certificates and examinations. * * * If not a graduate, the person practicing medicine in this State shall present himself before said BOARD, and submit himself to such examination as said BOARD shall require; and if the examination be satisfactory to the examiners, the said BOARD shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

§ 3. * * * It shall prepare three forms of certificates, one for persons in possession of diplomas or license; one for candidates examined by the BOARD; and a third for such persons who have been engaged in the practice of medicine for upwards of 22 years, and shall furnish to the county clerks of the several counties a list of all persons receiving certificates.

§ 8. Candidates for examination shall pay a fee of twenty dollars, in advance, which shall be returned to them if a certificate be refused.

§ 9. Examinations may be made wholly or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

All examinations of persons not graduates or licentiates must be made directly by the BOARD, and the certificate given by the BOARD authorizes the possessor to practice medicine and surgery in the State of Illinois.

Where the candidates have any special views of theory and practice of medicine or of therapeutics, respect is paid to such views, and they are allowed, upon request, to appear before individual members of the BOARD for special examination in such branches. Examinations are conducted in the English language. If made in another language, interpreters must be furnished at the expense of the applicant.

All candidates must pass a preliminary examination, such as is indicated in the "Minimum Requirements," and must fill out the following:

Application for Examination before the Illinois State Board of Health, under the Act to Regulate the Practice of Medicine in the State of Illinois.

1. Name in full.....
2. Nativity and age—(must be at least twenty-one years of age).....
3. Residence and postoffice.....
4. Time spent in professional studies—(must be at least three years).....
5. Physician or preceptor under whom the studies were pursued, with postoffice address—(must be a licentiate of the BOARD or reputable practitioner).....
6. Courses of medical lectures attended.....
7. Name of medical school attended—(time spent at schools not recognized by the BOARD will not be counted).....
8. Time spent in hospital, if any.....
9. Time of practice, if any.....
10. School of practice chosen.....
11. References as to character (must present certificate of good character from two licentiates of the BOARD or other reputable practitioners).....

Approved.....188....

.....
President of the BOARD.

Subjects of Examination.

1) Anatomy; 2) materia medica; 3) theory and practice; 4) gynecology; 5) physiology; 6) pathology; 7) obstetrics; 8) chemistry; 9) surgery; 10) hygiene; 11) medical jurisprudence.

Eighty percent. of correct answers required.

We have examined this applicant and find him to stand as above.

Signed by the members of the BOARD.

NUMBER of candidates examined, 762. Number of candidates licensed, 242. Of these two-thirds have since graduated.

These examinations are independent of those of graduates of colleges that do not fully comply with the Schedule of Minimum Requirements of the BOARD, and which examinations are confined to the branches or subjects omitted by the given college.

At the April, 1886, meeting of the BOARD, the following preamble and resolution were adopted:

WHEREAS, The continuous graduation of forty-five (45) per cent. of the total number of matriculates of a medical college—due allowance being made for the average annual loss—must be accepted as *prima facie* evidence that, practically, every candidate is graduated without regard to competency or qualification; therefore be it

Resolved, That no medical college be recognized as in good standing within the meaning and intent of the Act to Regulate the Practice of Medicine in the State of Illinois, the aggregate graduates of which college amount to forty-five (45) per cent. of its aggregate matriculates during any period of five years ending with a session subsequent to the session of 1885-86.

At the July, 1887, meeting of the Board, the following resolution was adopted:

Resolved, That the phrase "medical colleges in good standing," in the 1st section of the "Act to Regulate the Practice of Medicine in the State of Illinois," approved June 16, 1887, is hereby defined to include only those colleges which shall, after the sessions of 1890-91, require four years of professional study, including any time spent with a preceptor, and three regular courses of lectures, as conditions of graduation, and shall otherwise conform to the Schedule of Minimum Requirements heretofore adopted by the Board.

An examination of this Report will show the wide range of these percentages and the varying characteristics of the schools—conditions which bear a close relation to each other.

RUSH MEDICAL COLLEGE.

(The Medical Department of the Lake Forest University.)

CHICAGO, Ill. JAMES H. ETHERIDGE, A. M., M. D., Secretary, 1631 Michigan avenue.

ORGANIZED in 1842. First class graduated in 1843, and classes have been graduated each subsequent year.

Faculty embraces fourteen professors, two professors of special departments, and nineteen adjunct professors, lecturers, assistants and demonstrators.

COURSE OF INSTRUCTION: "Instruction is given in this institution by lectures, clinics, practical work in the dissecting room and laboratories, and by repeated oral examinations. The faculty desire that the matriculates shall pursue their studies in the college during three spring and three winter terms. To encourage the complete curriculum of study, such students will be registered as special faculty students, and at the end of their second winter term, they will be admitted to final examinations in anatomy, physiology, chemistry, materia medica and therapeutics." The forty-sixth (winter) session began September 25, 1888, and will continue twenty-one weeks. The spring session of 1889 begins February 26, 1889, and will continue fourteen weeks.

Lectures embrace anatomy, physiology, chemistry, materia medica, surgery, principles and practice of medicine, obstetrics, hygiene, medical jurisprudence, genito-urinary diseases, diseases of women and children, dermatology and venereal diseases, ophthalmology, otology, laryngology, dental pathology and surgery, and toxicology, and one course of practical pathology and physiology.

REQUIREMENTS: For admission, "Students who commence their course of studies in Rush Medical College are required to furnish testimonials of sufficient preliminary education, either in the form of a diploma from a literary or scientific college, academy or high school, or of a certificate of examination for admission to such an institution, or a teacher's certificate of the first grade. Graduates in medicine, previous matriculates of this college, and students who desire to pursue a special course without graduation, will be admitted without credentials or examination. Students who have completed a full course of preparation for admission to the college, may, by special arrangement, be received on the certificates of their instructors. Students who can not furnish other evidence of a sufficient preliminary education, will be admitted on condition of passing an examination in writing in the elementary principles of physics and mathematics, as taught in the public schools of the country. The written paper will be a sufficient indication of the student's knowledge of orthography and grammar, as well as of the subject given."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; "The lectures of the spring term cannot be considered as a course of lectures in this requirement;" 5) clinical instruction for two terms; 6) dissection of each region of the body; 7) one course in practical chemistry; 8) one practical course in the laboratory of physiology and pathology; 9) full and satisfactory examination on each branch taught in the college.

FEES: Matriculation, \$5; lectures, \$80; demonstrator, \$10; chemical laboratory, \$7; laboratory of physiology and pathology, \$7; final examination, \$30. The materials for laboratory work are furnished at cost price. For the annual spring course—matriculation, \$5; lectures, \$20; (this amount will be deducted from the fees of the next following winter session); chemistry, \$7; demonstrator, \$10; laboratory of physiology and pathology, \$7; hospital and infirmary, \$5 each. "Graduates of the college are admitted on the payment of the matriculation fee only; graduates of other regular medical colleges on payment of matriculation fee and ten dollars."

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	379	128	33.8

* Not including twelve graduates who matriculated.

MEDICAL DEPARTMENT OF ILLINOIS COLLEGE.

JACKSONVILLE, Ill.

ORGANIZED in 1843. Suspended lectures in 1848.

During its existence instruction was given to about seventy-five students, and thirty-seven were graduated.

MEDICAL DEPARTMENT, UNIVERSITY OF ST. CHARLES.

ST. CHARLES, Ill.

ORGANIZED in 1847. One course of lectures was delivered, when the institution was transferred to Rock Island, and subsequently, in 1850, to Keokuk, Iowa, when it became the College of Physicians and Surgeons.

ROCK ISLAND MEDICAL COLLEGE.

ROCK ISLAND, Ill.

ORGANIZED in 1848.—Extinct 1849.

CHICAGO MEDICAL COLLEGE.

(Medical Department of the Northwestern University.)

CHICAGO, Ill. FRANK BILLINGS, M. D., Secretary, 25 State Street.

ORGANIZED in 1859, as the Medical Department of Lind University, it continued under that name until 1864, when, severing this connection, it assumed the name of the Chicago Medical College. The school entered into its present university relations in 1869.

The faculty embraces twenty professors, one lecturer, four demonstrators, one assistant demonstrator and one assistant to chair of surgery.

COURSE OF INSTRUCTION: Graded, comprising three annual consecutive courses of lectures. The thirtieth annual session began September 25, 1888, and ends March 26, 1889.

Lectures embrace: First year—Descriptive anatomy, physiology, normal histology, general chemistry, laboratory work in chemistry and normal histology, and practical anatomy. Second year—surgical anatomy and operative surgery, general pathology and pathological anatomy, materia medica and therapeutics, state medicine, physical diagnosis, medical chemistry, obstetrics, laryngology and rhinology, laboratory work in chemistry and pathological histology and hospital and dispensary clinics. Third year—theory and practice of medicine, and clinical medicine, theory and practice of surgery and clinical surgery, gynecology, diseases of children, ophthalmology and otology, nervous and mental diseases, medical jurisprudence and college dispensary and hospital clinics.

REQUIREMENTS: For admission, Applicants for admission must present diplomas or certificates from recognized colleges, schools of science, academies, high schools, or teachers' certificates of the first or second grade, or sustain an examination in the following subjects: English composition, arithmetic, geography and at the option of the candidate either one of the following subjects: a) Latin; b) German; c) Physics. Accredited certificates of one year's study entitle holders to enter as second-course students after satisfactory examination in studies of first-year course. Certificates of two years' study and of attendance on one full course of lectures entitle to entry as third-course students after examination in studies of first and second years.

For graduation: 1) evidence of good moral character; 2) three years' study; 3) required age, twenty-one years; 4) attendance upon three courses of lectures, unless admitted to advanced standing; by examination; 5) dissection of three parts of the human body; 6) two terms of hospital attendance; 7) passing all examinations; 8) satisfactory thesis.

FEES: Matriculation, \$5; lecture fees for first and second collegiate years (the third year being free), \$75; demonstrator, \$10; laboratory, \$5; deposit against breakage in laboratory, \$5; hospitals, \$5 and \$6; final examination, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	153	50	32.6

HAHNEMANN MEDICAL COLLEGE AND HOSPITAL.

CHICAGO, Ill. E. S. BAILEY, M. D., Registrar, 3634 Michigan avenue.

ORGANIZED in 1859. The first class was graduated in 1860. Classes have been graduated each subsequent year.

The faculty embraces eleven professors, seven adjunct professors, two lecturers and a demonstrator of histology and microscopy.

COURSE OF INSTRUCTION: One annual graduating course of lectures. The twenty-ninth regular session began September 18, 1888, and ends February, 1889. The plan of teaching is "largely clinical and objective." "A post-graduate course, chiefly designed for physicians, is held in the spring months." Daily and weekly quizzes are conducted by the professor in person. Women admitted upon the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine and medical jurisprudence, pathology, surgery, obstetrics and gynecology, hygiene, toxicology, ophthalmology and otology, histology, minor and operative surgery.

REQUIREMENTS: For admission—"Upon application for admission each student must present to the registrar satisfactory evidence of a good English education. Such as are graduates of a literary or scientific college, academy or high school, or who have passed the entrance examination to a literary college in good standing; who have a county or first-grade teacher's certificate; graduates in medicine; and students who desire to pursue a special course of study—other than for the purpose of securing the degree—will be exempt from this requirement, providing they furnish the documentary evidence to the registrar. Lacking such credentials from former teachers, the student must pass a fair but not a technical examination, before a committee of faculty appointed for that purpose.

For graduation: 1) twenty-one years of age; 2) must have pursued the study of medicine for at least three years, attended two full courses of lectures and dissected at least two parts or during two courses; 3) candidates must pass all the regular examinations.

FEES: Matriculation, \$5; lectures, \$50; final examination, \$25; demonstrator (including material), \$10; perpetual ticket, \$95; chemical laboratory, \$5; microscopical laboratory \$5; Cook County Hospital (optional), \$5; post-graduate course, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	165	94	56.9
1878-79	197	67	34.4

*Not including 1 graduate who matriculated.

BENNETT COLLEGE OF ECLECTIC MEDICINE AND SURGERY.

CHICAGO, ILL. MILTON JAY, M. D., Denn, N. W. corner of State and Madison streets.

ORGANIZED in 1868. First class graduated in 1869. Classes have graduated each subsequent year.

The faculty consists of eighteen professors and one demonstrator.

COURSE OF INSTRUCTION: Extends over two annual lecture terms, but a three years' graded course recommended. After the session of 1890, three courses of lectures will be the requisite for graduation. Instruction is imparted by didactic and clinical lectures, daily quizzes and laboratory work. The session of 1888-89 began September 25, 1888, and continues six months, closing March 26, 1889. The practitioners' course begins February 11, 1889, and continues six weeks.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, orthopedy, ophthalmology and otology, diseases of the teeth and adjacent structures, venereal diseases and dermatology, diseases of children, electro-therapeutics, pharmacy, toxicology and insanity.

REQUIREMENTS: For admission, credible certificates of good moral character, and a good elementary English education, "including mathematics, English composition and elementary physics, or natural philosophy, as attested by the presentation of a diploma of graduation from some literary and scientific college or high school, or a first-grade teacher's certificate, or by a creditable examination upon those branches by a committee appointed for that purpose."

For graduation: 1) the candidate must possess satisfactory references as to good moral character and have attained the age of twenty-one years; 2) three years' study; 3) must have attended not less than two courses of lectures, the last of which must have been in this college; 4) must have completed the prescribed course of analytical chemistry and practical anatomy; 5) sustain a satisfactory and honorable examination in every department; 6) two terms of clinical and hospital instruction.

FEES: Matriculation, \$5; lectures, \$50; demonstrator, \$10; analytical chemistry, \$10; examination, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

CHICAGO NORTHWESTERN COLLEGE.

CHICAGO, ILL

INCORPORATED 1862. Re-chartered in 1864, and in 1870 became the Edinburg University. Fraudulent.—Extinct.

EDINBURG UNIVERSITY OF CHICAGO AND ST. LOUIS.

CHICAGO, ILL.

INCORPORATED September 23, 1870, under the general incorporation act of the State. A fraudulent institution, exposed by the ILLINOIS STATE BOARD OF HEALTH, and since defunct. It was also incorporated under the laws of Missouri.

WOMAN'S MEDICAL COLLEGE OF CHICAGO.

CHICAGO, ILL. MARIE J. MERGLER, M. D., Secretary, 29 Waverly Place.

ORGANIZED in 1870. The first class was graduated in 1871. No class was graduated in 1872. Classes have been graduated each subsequent year.

The faculty embraces nine professors and eight lecturers and assistants.

* Not including one graduate who matriculated.

COURSE OF INSTRUCTION: The session of 1888-89 began September 5, 1888, and ends April 2, 1889. A graded course of three years recommended, but not required. Instruction is given by didactic lectures, recitations, clinical lectures, practical work, and attendance on hospitals.

Lectures embrace anatomy, physiology, chemistry, toxicology, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, medical jurisprudence, hygiene, ophthalmology and otology, diseases of women and children, diseases of the throat and chest, renal diseases, diseases of the nervous system, histology, dental surgery, dermatology.

REQUIREMENTS: For admission—"Students must present, before matriculating, satisfactory proof of a good English education. A certificate of graduation from high school, academy or college, or a teacher's certificate from a county superintendent of schools, will be accepted as sufficient evidence of such education. Students without such credentials will, in every case, be required to pass an examination before a committee of the faculty. Certificates of character are required."

For graduation: 1) twenty-one years of age; 2) three years' study; 3) two full courses of lectures, one of which must have been in this college; 4) two courses in practical anatomy; 5) one course in practical chemistry, and one course in histological and pathological laboratory; 6) one course in hospital clinical instruction; 7) a satisfactory examination.

FEES: Matriculation, \$5; lectures, \$60; demonstrator, \$10; chemical laboratory ticket, \$5; chemicals at cost; microscopical laboratory, \$5; hospital tickets, \$5 each; final examination, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

CHICAGO HOMEOPATHIC MEDICAL COLLEGE.

CHICAGO, Ill. J. R. KIPPAX, M. D., Secretary, 3154 Indiana avenue.

ORGANIZED in 1876. The first class was graduated in 1877. Classes have been graduated each subsequent year.

The faculty embraces sixteen professors, two adjunct professors, two lecturers and one demonstrator.

COURSE OF INSTRUCTION: A regular session of twenty-two weeks' duration, commencing September 18, 1888, and ending February 19, 1889. Three years' graded course recommended, but not required. A junior and a senior course (two separate and distinct courses) are delivered during each college term. Clinics at hospital and dispensary.

Lectures embrace: Junior year—Anatomy, physiology, microscopy, materia medica, chemistry, toxicology, pathology, histology, sanitary science and dental surgery. Senior year—Principles and practice of medicine and surgery, gynecology, pedology, materia medica, obstetrics, ophthalmology and otology, mental and nervous diseases, medical jurisprudence and clinics.

REQUIREMENTS: For admission, "A credible certificate of good moral character, a diploma of graduation from a good literary and scientific college or high school, or a first-grade teacher's certificate. Or, lacking this * * * a thorough examination in the branches of a good English education (including mathematics, English composition, and elementary physics or natural philosophy), before the examining board of the faculty."

For graduation: 1) twenty-one years of age; 2) three years' study; 3) two full courses; 4) practical anatomy to the extent of having dissected at least two parts; 5) pass all the regular examinations.

FEES: Full course of lectures, including matriculation, \$55; perpetual ticket, \$90; final examination, \$25; partial course, each chair, \$10; demonstrator's ticket, \$10; hospital, \$5.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

After the session of 1890-91 four years of study and three full courses of lectures will be required for graduation.

COLLEGE OF PHYSICIANS AND SURGEONS OF CHICAGO.

CHICAGO, Ill. W. E. QUINE, M. D., Corresponding Secretary, 3160 Indiana avenue.

ORGANIZED in 1882. The first class was graduated in 1883. The faculty consists of twenty-four professors, ten lecturers and one demonstrator of anatomy, one of chemistry.

COURSE OF INSTRUCTION: The regular session of 1888-89 commenced September 25, 1888, and continues twenty-two weeks. This is followed by a Spring term of ten weeks. A graded course of three years recommended, but not required. "Instruction will be given by didactic lectures, clinical teaching, quizzes, recitations and practical work in subjects involving manipulation or the use of instruments and appliances."

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics, gynecology, hygiene, medical jurisprudence, histology, microscopy, dermatology, genito-urinary diseases, dental surgery, orthopedies, ophthalmology and otology, diseases of children, nervous and mental diseases, laboratory work in chemistry and physiology.

REQUIREMENTS: For admission, 1) a credible certificate of good moral character; 2) diploma of graduation from a good literary and scientific college or high school, or a satisfactory county or State teacher's certificate, or, lacking this, he will be required, 3) to pass a thorough examination in the branches of a good English education, before a member of the faculty.

For graduation: 1) good moral character; 2) attainment of twenty-one years of age; 3) three years' study of medicine under the direction of a recognized physician or medical college; 4) attendance upon two full winter courses of lectures, in a recognized medical college, the last of which must have been in this college; 5) having dissected during two sessions, including dissections of each part of the cadaver; 6) attendance upon two terms of clinical and hospital instructions; 7) satisfactory examinations.

FEES: Matriculation (paid annually), \$5; lectures, \$60; dissecting ticket, \$10; chemical laboratory, \$5; microscopical laboratory (optional), \$3; final examinations, \$30; Cook County Hospital, compulsory, \$5; eye and ear infirmary (optional), \$5.

CHADDOCK SCHOOL OF MEDICINE.
QUINCY, Ill. R. J. CHRISTIE, M. D., Dean.

ORGANIZED in 1882 as the Quincy College of Medicine. Reorganized in 1888 under above title.

The faculty embraces six professors, two lecturers and one instructor.

COURSE OF INSTRUCTION: One lecture session is held annually. The session of 1888-89 began October 9, 1888, and will close March 13, 1889. **Three years' graded course required.**

Lectures, clinical and didactic, embrace anatomy, physiology, chemistry, materia medica and therapeutics, pharmacy, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene and medical jurisprudence, toxicology, ophthalmology and otology.

REQUIREMENTS: For admission, "All applicants who can present evidence of a good English education, sufficient to enable them to understand medical literature, and to readily and thoroughly comprehend the necessary technicalities of our profession, are eligible to our class. This may be made apparent by diploma of graduation from a good literary and scientific college or high school, or, lacking this, a thorough examination in the branches of a good English education, including mathematics, English composition and elementary physics, or natural philosophy." A committee will be appointed for the examination of applicants. Female students admitted on the same conditions as male students.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three courses of lectures; 4) two courses of instruction in anatomy, including dissections and demonstrations; 5) three years' study; 6) creditable examination in all the branches taught in the institution.

FEES: Matriculation, \$5; lectures, \$40; demonstrator, \$10; examination, \$25.

Percentage of graduates to matriculates for past five years 29.7.

PHYSIO-MEDICAL INSTITUTE.

CHICAGO, Ill. H. P. NELSON, M. D., Secretary, 605 W. Van Buren street.

ORGANIZED in 1885. The faculty embraces eleven professors. Five of the faculty reside in other states.

COURSE OF INSTRUCTION: The session of 1888-89 began September 27, 1888, and will continue twenty-four weeks. A graded course of three years is recommended, but not required. **"This college will, after the session of 1888-89, require three full terms of college attendance before students will be entitled to receive its diplomas."**

Lectures embrace anatomy and physiology, materia medica, chemistry and toxicology, science and practice of medicine, surgery, obstetrics, gynecology, diseases of children, hygiene, medical jurisprudence, ophthalmology and otology, insanity and nervous diseases.

Schedule of studies for three years' course: "First year, anatomy, with dissections; physiology with histology and laboratory work; materia medica.

"Second year—Anatomy, with dissections and surgical anatomy; sanitary science; toxicology, with medico-legal analysis; materia medica; pharmacy; practical medicine, with medical and physical diagnosis; surgical institutes, with minor surgery; obstetrics; hospital clinics.

"Third year—Practice of medicine; surgery; obstetrics; gynecology; ophthalmology and otology; insanity; hospital clinics."

REQUIREMENTS: For admission—"Students must, either by high school certificate or suitable examination, give evidence of having a good English education; furnish satisfactory evidence of proper preparation and of good moral character." "Attendance must begin with the opening of the lecture term, and be punctual throughout. Women admitted upon the same terms as men."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) pursued medical studies three full years, including two full terms of college lectures and hospital attendance, and two courses of dissections; 4) punctual attendance on all college lectures, graduates' quizzes, and two terms of hospital clinics; 5) satisfactory written examination in all the departments of instruction.

FEES: Matriculation, \$5; lecture fees, \$65; demonstrators ticket, \$10; hospital ticket, \$5; graduates' examination, \$25.

INDIANAPOLIS, Ind. C. T. BEDFORD, M. D., Secretary, 290 Massachusetts avenue.

ORGANIZED in 1873. The first class was graduated in 1874. Classes have been graduated each subsequent year.

The faculty embraces nine professors, three lecturers, and two demonstrators, and one instructor.

COURSE OF INSTRUCTION: The session of 1888-89 began September 1, 1888, and will continue twenty-four weeks, closing March 7, 1889. Women admitted upon the same terms as men.

Lectures embrace practice of medicine and clinical medicine, surgery, obstetrics, gynecology, diseases of children, materia medica and therapeutics, botany, electro-therapeutics, histology and physiology, general and descriptive anatomy, surgical anatomy, microscopy and pathological histology, chemistry and toxicology, medical jurisprudence, diseases of rectum, diseases of the eye, ear and throat, and sanitary science.

REQUIREMENTS: For admission, "An education that will enable them to comprehend and use their teaching is indispensable, and must be attained before entering the class. A diploma or certificate from a university, college or academy, or a certificate from a board of school examiners, will be taken, in part, as evidence of the required literary qualification. In lieu of any of these, applicants must sustain a satisfactory examination by a member of the faculty before being permitted to enter the class."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) must have attended two or more full courses of lectures not delivered in the same twelve months, the last of which must have been in this school; 4) must have attended hospital clinics and received clinical instruction during at least two college terms; 5) must have dissected each region of the body; 6) must have at least two courses in practical chemistry. Every candidate must undergo a full and satisfactory examination, written on each branch taught in the college.

FEES: Matriculation (paid but once), \$5; hospital, \$3; lectures, \$75; demonstrator, \$5; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Per cent.
1877-78	19	8	42+
1878-79	15	7	46+
1879-80	15	8	53+
1880-81	20	10	50
1881-82	24	10	41.6
1882-83	26	17	64

1885-86	30	18	60
1886-87	21	7	33.3
1887-88	26	10	38.4

Percentage of graduates to matriculates, for eleven years, 45.4.

Diplomas recognized conditionally. Names of matriculates not given in announcements.

NOTE:—"The trustees and faculty are seriously contemplating the advisability, of not only recommending and advising a three years' course of lectures, but making it one of the requirements."

MEDICAL COLLEGE OF FORT WAYNE.

FORT WAYNE, Ind.

ORGANIZED in 1876. Classes were graduated in each year from 1877 to 1883, inclusive. Extinct 1883.

MEDICAL COLLEGE OF INDIANA.

INDIANAPOLIS, Ind. FRANKLIN W. HAYS, M. D., Secretary, 19 E. Ohio street.

ORGANIZED in 1878, when the Indiana Medical College (organized in 1868) and the College of Physicians and Surgeons of Indiana (organized in 1873) were united to form this college. It was formerly the Medical Department of Butler University, but severed its connection with that institution in 1883.

The faculty embraces fourteen professors, six lecturers, four assistants to chairs, one curator, and one demonstrator.

COURSE OF INSTRUCTION: The session of the 1888-89 began October 1, 1888, and will close February 28, 1889. Three years graded course recommended but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica, therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, toxicology, pharmacy, dermatology, syphilis, diseases of the mind and nervous system, laryngology, clinical medicine and surgery; ophthalmology, and otology, genito-urinary and venereal diseases.

REQUIREMENTS: For admission. 1) candidates, before commencing the first year of study, must present to the faculty a credible certificate of good moral standing; 2) diploma of graduation from a good literary and scientific college or high school, or state or county teacher's certificate. Or, lacking this, 3) a thorough examination in the branches of a good English education, including mathematics, English composition, and elementary physics or natural philosophy.

For graduation, "He must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years. He must file a satisfactory certificate of having studied medicine for at least three years under a regular graduate, or a licentiate and practitioner of medicine in good standing, using the word 'regular' in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination for graduation unless his term of three years' study shall have been completed, or shall expire at a date not later than three months after the close of the final examination. He must file the proper official evidence that during the above-mentioned three years he has matriculated at some affiliated college or colleges for two regular sessions, and in the course of the same has attended two full courses of instruction. The candidate must have passed a personal examination before the faculty in the seven essential branches of medicine.

FEES: Matriculation, \$5; laboratory, \$85; lectures, 40; demonstrator, \$10; hospital, \$6; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1878-79	143	66	46+
1879-80	182	60	33-
1880-81	290	83	41.5
1881-82	164	58	35+
1882-83	131	53	40.4

1884-85	60	28	46.6
1885-86	66	27	40.9
1886-87	65	35	53.8
1887-88	66	26	39.3

Percentage of graduates to matriculates for past ten years, 41.7.

After the session of 1890-91 each student will be required to furnish evidence of having studied medicine at least four years, and have attended three graded full six months' courses of lectures, before he can come up for graduation.

CENTRAL COLLEGE OF PHYSICIANS AND SURGEONS.

INDIANAPOLIS, Ind. SAMUEL E. EARP, M. Sc., M. D., Secretary, 24½ Kentucky avenue.

ORGANIZED in 1879. The first class was graduated in 1880.

The faculty embraces nine professors, one assistant professor, one demonstrator, and one prosector.

COURSE OF INSTRUCTION: The regular winter session of 1888-89 commenced October 1, 1888, and continues to March 1, 1889. A three years' graded course is recommended, but not required. Clinical instruction at college and hospital. Women admitted on the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, sanitary science, medical jurisprudence, ophthalmology, otology, histology and diseases of the nervous system, clinical medicine and surgery, and genito-urinary diseases.

REQUIREMENTS: For admission, "Students must present, before matriculating, satisfactory proof of a good English education." 1) credible certificate of good moral character; 2) diploma of graduation from a good literary and scientific college or high school, or a first-grade teacher's certificate; or, lacking this, a thorough examination in the branches of a good English education, including mathematics, English composition, and elementary physics or natural philosophy.

For graduation: 1) good moral character; 2) twenty-one years of age; 3) three years' study; 4) two full courses of lectures; 5) must have pursued the study of practical anatomy, under the guidance of a demonstrator, making dissections of at least two parts.

FEES: Matriculation, \$5; lectures, \$40; laboratory, \$5; demonstrator, \$5; hospital, \$6; graduation, \$25.

Percentage of graduates to matriculates for past nine years, 36.4.

FORT WAYNE COLLEGE OF MEDICINE.

FORT WAYNE, Ind. C. B. STEMEN, M. D., Dean, 74 Calhoun street.

ORGANIZED in 1879. The first class was graduated in 1880.

The faculty embraces ten professors, one lecturer and two demonstrators.

COURSE OF INSTRUCTION: The collegiate year of 1888-89 began September 25, 1888, and closes March 12, 1889. A three years' graded course is recommended, but its acceptance is optional with the student. Clinics at hospital and college. Women admitted upon the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, toxicology, ophthalmology and otology, diseases of children, orthopedic surgery, genito-urinary and rectal diseases, mental and nervous diseases and laryngology.

REQUIREMENTS: For admission, "Each student must present satisfactory evidence on examination or otherwise, of proficiency in the fundamental branches of an English education. Graduation from a college, academy or high school, or a license to teach in the public schools, will be evidence of such proficiency."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) "satisfactory certificate of having studied medicine three years under a regular graduate or licentiate and practitioner of medicine in good standing. No candidate shall be eligible for final examination for graduation unless his or her term of three years' study shall have been completed, or shall expire at a date not later than three months after the close of the final examination;" 4) two full courses of lectures, not within the same twelve-month; 5) dissection for one session; 6) instruction in chemistry during one session; 7) must have followed the practice of a hospital; 8) must pass monthly and terminal examinations; premature examination will be granted if good and sufficient reasons are given for requesting it.

FEES: Matriculation, \$5; lectures, \$40; demonstrator, \$5; laboratory, \$5; hospital, \$5; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Diplomas recognized conditionally.

CURTIS PHYSIO-MEDICAL INSTITUTE.

MARION, IND. D. B. SNODGRASS, M. D., Dean of Faculty.

ORGANIZED in 1881 under a general act of the State Legislature passed in 1885. The unit embraces six professors.

Diplomas not recognized.

HOSPITAL MEDICAL COLLEGE OF EVANSVILLE.

EVANSVILLE, Ind.

ORGANIZED in 1882.—Extinct in 1886.

BEACH MEDICAL COLLEGE.

INDIANAPOLIS, Ind.

ORGANIZED in 1883. In 1884 this college was merged into the Indiana Eclectic Medical College.

BEACH MEDICAL INSTITUTE.

INDIANAPOLIS, Ind.

Merged into the Indiana Eclectic Medical College at the close of the session of 1885.—The institution graduated one class in 1885.

IOWA.

STATE BOARD OF MEDICAL EXAMINERS.

J. F. KENNEDY, M. D., Secretary, Des Moines, Iowa.

As will be seen by reading the "Act to Regulate the Practice of Medicine and Surgery" in the State of Iowa, the physicians of the State Board of Health and its Secretary are made the State Board of Medical Examiners. Their duties are entirely independent of the State Board of Health. By this Act, which went into effect April 9, 1886, every person practicing medicine, surgery or obstetrics within the state is required to have a certificate from the State Board of Medical Examiners. These certificates are of three classes: 1st. For graduates in medicine; 2d. For persons who have been in continuous practice within the state five years, three of which have been in one locality; 3d. For those who shall have passed an examination before the Board of Examiners, giving not less than 80% of correct answers to all questions.

At one of the early meetings of the Board, the schedule of "Minimum Requirements" of the ILLINOIS STATE BOARD OF HEALTH, as to the good standing of medical colleges, was adopted almost verbatim, also the list of medical colleges recognized and not recognized by the same.

The laws of Iowa and Illinois being almost identical, the rules, regulations and forms adopted by the former are similar to those of the ILLINOIS BOARD.

* Not including 2 graduates who matriculated and upon whom the *Ad eundem* degree was conferred.

Under the Pharmacy law of Iowa, itinerants, specialists and vendors of drugs, trunks or anything to treat diseases, or who profess to cure any disease, are required in addition to the certificate to practice, to pay a license fee of one hundred dollars a year.

To December 15, 1888, the Board issued 3,249 certificates of all kinds; 2,490 on diplomas; 769 on length of practice; 90 on examination, and 20 to midwives. The law permits all women who had been engaged in the practice of midwifery for one year prior to enactment, to continue such practice without certificate. The persons to whom certificates to practice midwifery were issued, presented diplomas showing graduation in midwifery, or examination before a State Board of Medical Examiners, legally constituted as such. The law was so amended by the last legislature as to permit the Board to issue certificates to those furnishing satisfactory evidence of having passed a satisfactory examination before a legally constituted State Board of Medical Examiners.

COLLEGE OF PHYSICIANS AND SURGEONS.

KEOKUK, IOWA. J. C. HUGHEE, M. D., Dean of the Faculty.

ORGANIZED in 1850; four years after it became the Medical Department of the University of Iowa, and upon the organization of the Medical Department of the State University of Iowa, at Iowa City, in 1870, the original name was assumed.

The faculty embraces nine professors and one demonstrator of anatomy.

COURSE OF INSTRUCTION: The regular annual session of 1888-89 commenced October 10, 1888, and continues twenty weeks. A three-years' graded course recommended, but not required. Clinics at college infirmary; daily quizzes conducted by the faculty. Women admitted upon the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, toxicology, clinical medicine and surgery, ophthalmology and otology, histology, diseases of the nervous system, diseases of women and children and laryngology.

REQUIREMENTS: For admission, "A diploma from a literary college, academy, high school, a first or second class teacher's certificate, or a matriculation examination in the branches of a good English education, embracing written composition, arithmetic, geography, history of the United States and physics."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) three years' study; 5) no thesis required; 6) satisfactory examination, either oral or written, at the discretion of the faculty, in anatomy, physiology and pathology, chemistry, materia medica, therapeutics, obstetrics, practice of medicine, surgery and hygiene; 7) must have dissected during two courses.

FEES: Matriculation, \$5; demonstrator, \$5; lectures, \$20; graduation, \$30; hospital ticket, \$3.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Percentage of graduates to matriculates for the past eight years, 43.9.

Diplomas recognized conditionally.

IOWA MEDICAL COLLEGE.

KEOKUK, IOWA.

ORGANIZED in 1858.—Extinct since 1860.

* Not including seven practitioners who matriculated.

MEDICAL DEPARTMENT, STATE UNIVERSITY OF IOWA.

IOWA CITY, Ia. R. W. HILL, M. D., Secretary of the Faculty.

ORGANIZED in 1870. First class was graduated in 1871. Classes have been graduated each subsequent year.

The faculty embraces seven professors, one demonstrator, three lecturers, and one sector.

COURSE OF INSTRUCTION: The annual graduating session of 1888-89 began October 28, and closes March 6, 1889. Two courses of study are provided, a two years' course and a three-years' course, one of which the student is required to select at the beginning of the second year. Daily quizzes; clinics at hospital. Recitations, practical work in laboratory, didactic and clinical lectures constitute the mode of instruction. All students in the advanced classes will receive special practical instruction in physical diagnosis, mechanical obstetrics, application of splints, bandages and surgical dressing. Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, insanity, toxicology, ophthalmology and otology and dentistry.

REQUIREMENTS: For admission—"All candidates for admission to the course of medical lectures must give evidence of a good English education. If the applicant is a graduate of a literary or scientific college, or presents the certificate of having passed an entrance examination of such an institution, or the certificate of graduation from a high school or academy, it will be accepted in lieu of an examination. In any other case, the candidate must pass an examination before a committee of the faculty, as follows: 1) A written composition, not to exceed a page of foolscap, on a given subject, which will be the test of orthography, grammar, etc.; an examination in common arithmetic, history of the United States, in geography and elementary physics, or natural philosophy. Students from other schools not requiring preliminary examinations must present credentials, or be examined for admission."

For graduation: 1) twenty-one years of age; 2) unexceptionably moral character; 3) three years' study; 4) two courses of lectures; 5) satisfactory examination in all the branches taught; 6) must have completed two courses in practical anatomy. In cases where the three-term course is adopted, a certificate of time of study is not an absolute requirement.

FEES: Matriculation, \$5; lectures, 20; demonstrator, \$10; final examinations, \$25; hospital, \$3.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

Percentage of graduates to matriculates for the past eleven years, 27.1.

HOMEOPATHIC MEDICAL DEPARTMENT, STATE UNIVERSITY OF IOWA.

IOWA CITY, Ia. A. C. COWPERTHWAIT, M. D., Dean of the Faculty.

ORGANIZED in 1877. The first class was graduated in 1878; classes have been graduated each subsequent year.

The faculty consists of four professors and one curator. The teaching of this department is supplementary, the peculiar views of the school only being taught. The lectures on subjects common to both schools are delivered by the professors in the regular department.

COURSE OF INSTRUCTION: The annual session of 1888-89 commenced October 3, 1888, and closes March 1, 1889. A two years' course and a three years' graded course are offered and the student is required to select one or the other upon registration. Women admitted upon the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, toxicology, ophthalmology and otology, dermatology.

REQUIREMENTS: For admission—same as in the medical department.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; 5) must have been engaged in the study of prac-

tical anatomy and practical chemistry;" 6) satisfactory examination in all the branches taught in the department. "The final examinations will be conducted in writing, by the faculty of the department, subject to approval or rejection by a board of examiners selected for that purpose from the homeopathic physicians of Iowa. The *ad eundem* degree in this department may be conferred under the following circumstances: The candidate must be in possession of an accredited diploma, and must present letters from two respectable physicians in regard to his moral character and professional standing. An attendance upon lectures from time to time during the session, and a satisfactory examination must be passed on all subjects taught in the department."

FEES: Matriculation, \$5; lectures, \$20; demonstrator, \$10; graduation, \$25; hospital,

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

IOWA MEDICAL COLLEGE—ECLECTIC.

DES MOINES, Ia.

ORGANIZED in 1881 as the Iowa Eclectic Medical College, Medical Department of Drake University; assumed its present name in 1883. The first class was graduated in 1882. Extinct in 1887.

IOWA COLLEGE OF PHYSICIANS AND SURGEONS.

(Medical Department of Drake University.)

DES MOINES, Ia. LEWIS SCHOOLER, M. D., Dean, 620 Walnut street.

ORGANIZED in 1882. The first class was graduated in 1883.

The faculty embraces thirteen professors, four lecturers and one demonstrator.

COURSE OF INSTRUCTION: The seventh annual session commenced October 2, 1888, and closes March 1, 1889. **A three years' graded course required after the session of 1888-89.** Clinics at hospital and dispensary. Women admitted upon same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, toxicology, histology, ophthalmology, otology, metology, diseases of children and orthopedic surgery, laryngology, dermatology and genito-urinary diseases.

REQUIREMENTS: For admission, "Before matriculating each student shall pass a written examination in the common English branches, mathematics and natural sciences, or he shall possess a teacher's certificate or a certificate of graduation from some literary college."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) three full courses of lectures; 5) satisfactory examination in the several branches taught in the college; 6) two courses in practical anatomy.

FEES: Matriculation, \$5; lectures, \$45; graduation, \$25; laboratory, \$5; dissecting material, \$10.

Note:—After 1889 no one will be graduated unless he or she has attended three full terms of six months each.

KANSAS.**KANSAS MEDICAL COLLEGE.**

INDEPENDENCE, Kansas.

ORGANIZED in 1872. Was in existence three years and had two graduating classes.—**Extinct** in 1875.

UNIVERSITY OF KANSAS, PREPARATORY MEDICAL COURSE.

LAWRENCE, Kas. J. A. LIPPINCOTT, A. M., D. D., Chancellor of the University.

ORGANIZED in 1889.

COURSE OF INSTRUCTION: Two terms of twenty weeks' duration annually, making a preparatory medical course which is claimed to be "accepted by all the leading colleges of the West as the first of a three years' course, and students passing examinations in these classes will be admitted to the second year in those colleges on the certificate of the faculty of this institution."

First term—Chemistry lectures and recitations daily, for twenty weeks; laboratory practice for twenty weeks; physiology lectures daily, for ten weeks; comparative anatomy, dissections, etc., chemical arithmetic ten weeks. Second term—Botany recitations for ten weeks; physiological chemistry recitations for twenty weeks; toxicology ten weeks; materia medica recitations and lectures, twenty weeks.

REQUIREMENTS: A full collegiate course is recommended for all professional students. Any student admitted to the special course in medicine must be prepared for at least the freshman class in all English studies.

FEES: A contingent fee of \$10 is required for all students. An additional fee of \$15 is required for admission to the preparatory medical course.

KENTUCKY.**MEDICAL PRACTICE ACT.**

SECTION 1. *Be it enacted by the General Assembly of the Commonwealth of Kentucky,* That an act, entitled "An act to protect the citizens of this Commonwealth from empiricism," approved February 21, 1874, be so amended as to provide that it shall be the duty of the County Clerk of each county to purchase a book of suitable size, to be known as the "Medical Register" of the county, and to set apart one full page for the registration of each physician; and when any physician shall depart this life or remove from the county, he shall make a note of the same at the bottom of the page; and said Clerk shall (on the first day of January in each year) transmit to the office of the State Board of Health a duly certified list of the physicians of such county, registered under this act, together with such other information as is hereinafter required, and perform such other duties as are required by this act, and such Clerk shall receive the sum of fifty cents from each physician so registered, which shall be his full compensation for all duties required under this act.

§ 2. That on and after the first day of April, 1889, it shall be unlawful for any person to practice medicine in any of its branches within the limits of this State who has not exhibited and registered in the County Clerk's office of the county where he is practicing or intends to commence the practice of medicine his authority for so practicing medicine as prescribed in this act, the name and location of the college issuing the same if it be a diploma, the date of same, together with his age, residence, place of birth and the school or system of medicine to which he professes to belong. The person so registering shall subscribe and verify by oath before such Clerk an affidavit containing such facts, and that he is the person named in the authority so registered, which, if willfully false, shall subject the affiant to conviction and punishment for perjury.

§ 3. That authority to practice medicine under this act shall be: (a) A diploma from a medical school legally chartered under the laws of this State. (b) A diploma from a reputable and legally chartered medical school of some other State or country, certified and endorsed as such by the faculty of a legally chartered medical school in this State or a legally incorporated State Medical Society. (c) An affidavit from the person claiming the same that such person is exempted from obtaining a diploma under section two of the act to which this is an amendment, and stating where he has so practiced: *Provided,* That no college shall charge or receive more than one dollar for the certificate and endorsement required by this section.

§ 4. That nothing in this act shall be so construed as to discriminate against any peculiar system or school of medicine, or to prohibit women from practicing midwifery, or to prohibit gratuitous services in case of emergency, nor shall this act apply to commissioned surgeons of the United States army, navy, or Marine Hospital service.

§ 5. That sections three, four, five, six and seven of the act to which this is an amendment, and any portion of other sections of said act in conflict with the provisions of this act, are hereby repealed, and that section eight of said act is hereby reaffirmed and made a part of this act.

§ 6. Nothing in this act shall be construed to limit the period for which a certificate may run, issued in pursuance of section eight (seven) of the act to which this is an amendment, but said certificate may run the full period for which it was issued.

§ 7. This act to take effect from and after its passage.

Approved April 25, 1888.

Following will be found the portions of the original act still in force:

SECTION 1. *Be it enacted by the General Assembly of the Commonwealth of Kentucky,* That it shall be unlawful for any person, for reward or compensation, within the limits of this State, to practice medicine in any of its departments, or to prescribe, or to attempt to prescribe, medicine for any sick person, or perform or attempt to perform any surgical operation upon any person within said limits, who has not graduated at some chartered school of medicine in this or some foreign country. * * *

§ 2. Any person who has been regularly and honorably engaged in the practice of medicine in any of its departments for ten years shall be deemed to have complied with the provisions of this act. Any person having been so engaged for five years will be allowed one year to comply with its provisions.

§ 8. Any person living in this State, or any person coming into this State, who shall practice medicine or attempt to practice medicine, in any of its departments, or who shall perform or attempt to perform any surgical operation, for or upon any person within the limits of this State, for reward or compensation, in violation of the provisions of this act, shall, upon conviction thereof, be fined fifty dollars, and upon each and every subsequent conviction shall be fined one hundred dollars and imprisoned thirty days, or either, or both, in the discretion of the jury; and in no case, where any provision of this act has been violated, shall the person so violating be entitled to receive compensation for services rendered.

§ 9. *Provided,* That nothing herein shall be so construed as to apply to persons practicing dentistry.

§ 10. This act shall be in force from its passage.

Approved February 23, 1874.

MEDICAL DEPARTMENT OF TRANSYLVANIA UNIVERSITY.

LEXINGTON, Ky.

ORGANIZED in 1817. Lectures were delivered at Lexington until 1859, when the institution became extinct. From 1850 to 1859 lectures were delivered during the summer only, the winter session being intermitted to establish the Kentucky School of Medicine at Louisville.

UNIVERSITY OF LOUISVILLE, MEDICAL DEPARTMENT.

LOUISVILLE, Ky. J. M. BODINE, M. D., Dean, Eighth and Chestnut streets.

ORGANIZED in 1837. No lectures were delivered from June, 1862, to June, 1863, and no class was graduated in 1863.

The faculty embraces eight professors, two lecturers, two demonstrators and two assistant demonstrators, and three clinical assistants.

COURSE OF INSTRUCTION: The fifty-second regular annual session began September 24, 1888, and continues until March 1, 1889. A preliminary session free to all medical students began September 3, 1888, and continued until the opening of the regular session. The spring course for 1889, will commence on the fourth of March and terminate on the first of June. Clinics given at dispensary and hospitals. Frequent quizzes are conducted by the faculty.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene and medical jurisprudence, clinical medicine and surgery, diseases of women and children, microscopv, diseases of the throat and chest, ophthalmology and otology.

REQUIREMENTS: For admission, "Some of the States have recently enacted laws, by the requirements of which students not provided with literary degrees, or other certificates of scholarship necessary to the study of medicine, must undergo an examination before a State board in the subjects of such preliminary study, as a prerequisite for a license to practice medicine within their borders. That the graduates of this college may be spared the trouble incident to compliance with these regulations, all students intending to engage in practice in those States and such others as may desire it, will have the opportunity of undergoing such an examination before a committee of the faculty, and will receive a certificate therefor."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two complete courses of lectures; 5) one course of practical anatomy; 6) one course of clinical instruction; 7) examination in all the branches taught in the college.

FEES: Matriculation, \$5; lectures, \$75; demonstrator, \$10; hospital, \$5; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

ECLECTIC MEDICAL COLLEGE.

LOUISVILLE, Ky.

CHARTERED in 1848.—Extinct.

KENTUCKY SCHOOL OF MEDICINE.

LOUISVILLE, Ky. WM. H. WATHEN, M. D., Dean, Fourth Avenue and Chestnut street.

ORGANIZED in 1850. As the lineal descendant of and the successor to the Medical Department of Transylvania University, at Lexington, Kentucky. The first class was graduated in 1851. Classes have been graduated each subsequent year.

The faculty embraces eight professors, two lecturers, one demonstrator, one assistant demonstrator and six assistants to chairs.

COURSE OF INSTRUCTION: The thirty-third annual session begins February 1, 1889, and will continue twenty weeks. A three years' graded course is recommended, but not required. Clinics at hospital and college. "Each professor quizzes the class on his own lectures as they proceed."

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, microscopy, ophthalmology, otology, laryngology, dermatology, venereal diseases, diseases of children, diseases of the rectum, clinical medicine and surgery.

REQUIREMENTS: For admission, "No reading or studying of medicine is required before entering college. Students who fail to bring with them proper evidence of their preliminary education are required to pass a satisfactory examination, before a committee of the faculty, in mathematics, English composition, elementary physics, etc.; any student holding a diploma from a good literary or scientific school, or a first-grade teacher's certificate, will be excused from this examination."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years study of medicine and two full courses of lectures, the interval between the beginning of the first and the close of the second course must be at least fifteen months; 4) "dissection of the several regions of the body;" 5) hospital clinics each year of attendance; 6) one course in practical chemistry; 7) examination on all branches taught in the college. "If, after examination for the degree, he be found to have received three negative votes, he shall be entitled to another examination. Should he decline this he may withdraw, and will not be considered as rejected. The degree will not be conferred upon any candidate who is often absent from the regular lectures of the college, or who absents himself from the public commencement without special permission of the faculty."

FEES: Matriculation, \$5; demonstrator, \$10; hospital, \$5; lectures, \$75; graduation, \$30; laboratory, \$5.

* Not including 2 graduates who matriculated.

LOUISVILLE MEDICAL COLLEGE.

LOUISVILLE, Ky. C. W. KELLEY, M. D., Registrar, Second and Green streets.

ORGANIZED in 1869. The first class was graduated in 1870. Classes have been graduated each subsequent year.

The faculty embrace nine professors, four adjunct professors, one lecturer and one demonstrator.

COURSE OF INSTRUCTION: The collegiate year of 1888-89, which began September 1, 1888, embraces a preliminary course of three weeks and a regular winter session extending from September 20, 1888, to the last week in February, 1889. Daily quizzes are held by the faculty. "The plan of instruction includes lectures, clinics, quizzes and practical demonstrations."

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene and medical jurisprudence, clinical medicine and surgery, ophthalmology and otology.

REQUIREMENTS: For admission, "A preliminary examination will be required hereafter, as a condition of admission to the regular winter course. Gentlemen who are graduates of a literary or scientific college, academy or high school, or who have passed the entrance examination to a literary school in good standing; who have a county or State teacher's certificate; graduates in medicine; previous matriculates of this college; and students who desire to pursue a special course of study—other than for the purpose of securing the degree—will be exempt from this examination. The examination will include the writing of a brief paper on a subject to be given; and an examination in the elementary principles of physics and mathematics as taught in the public schools of the country."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures (not within the same twelve months); 5) two courses of hospital clinics; 6) dissection of each region of the body; 7) one course in practical chemistry; 8) satisfactory written or oral examination on each branch taught.

FEES: Matriculation, \$5; demonstrator, \$10; lectures, \$50; examination, \$30; hospital, \$5.

HOSPITAL COLLEGE OF MEDICINE.

(Medical Department, Central University.)

LOUISVILLE, Ky. WM. H. BOLLING, M. D., President, 324 E. Chestnut street.

ORGANIZED in 1873. First class was graduated in 1875. Classes have been graduated each subsequent year.

Faculty embraces ten professors, two lecturers, two assistants, two demonstrators, and one adjunct professor.

COURSE OF INSTRUCTION: The seventeenth annual graduating course begins January 26, 1889, and ends June 18, 1889. The clinics continue throughout the year.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology, otology and laryngology, toxicology, clinical medicine and surgery; diseases of children, orthopedic surgery, surgical pathology, diseases of the rectum, normal and pathological histology, including a study of bacterial pathology.

REQUIREMENTS: For admission—1) "credible certificate of good moral character; 2) diploma of graduation from a good literary and scientific college or high school, or a first-grade teacher's certificate; or, lacking this, an examination in the branches of a good English education, including mathematics, English composition, and elementary physics or natural philosophy."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) "satisfactory evidence of having studied medicine for at least three years, under a regular graduate or licentiate and practitioner of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination unless his term of three years shall have been completed, or shall expire at a date not later than three months after the close of the final examinations; 4) two complete courses of lectures (not within one and the same year); 5) practical anatomy, two sessions; 6) two courses of clinical and hospital instruction; 7) regular attendance upon the daily lectures, quizzes, dissections and clinics; 8) examination on all branches taught in the college.

FEES: Matriculation, \$5; lectures, \$75; demonstrator, \$10; dissecting material at cost; hospital, \$5; graduation, \$30; "unofficial course for students who have attended one course of lectures in winter schools, not entitling to graduation, \$30."

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1878	64	19	29+
1879	87	24	27+
1880	95	38	40.

1888	71	20	28.1

Percentage of graduates to matriculates for past eleven years, 39.4.

REMARKS: "To encourage diligence in study and reward the meritorious, the faculty have established the Roll of Honor, open to any candidate for graduation who will undergo written examinations and attain a standard of ninety in one hundred. The diplomas will be marked **DISTINGUISHED**, and the names will be so published in the list of the alumni of the college."

JEFFERSON SCHOOL OF MEDICINE.

LOUISVILLE, Ky.

ORGANIZED in 1882. This school graduated one class (in 1882) and then suspended.

LOUISIANA.

MEDICAL DEPARTMENT, TULANE UNIVERSITY OF LOUISIANA.

[Formerly (1847-84) the University of Louisiana.]

NEW ORLEANS, La. STANFORD E. CHAILLE, M. D., Dean of the Faculty, P. O. drawer 261.

ORGANIZED in 1834 as the Medical College of Louisiana. Transferred to the Medical Department of the University of Louisiana in 1847. The civil war caused a suspension during the years 1863, 1864 and 1865. This institution was reopened and its annual course of instruction resumed in October, 1865. In 1884 it assumed its present title.

The faculty embraces seven professors, two lecturers, two demonstrators and eleven chiefs of clinics.

COURSE OF INSTRUCTION: The annual course of instruction in this college, now in its fifty-fifth year, commenced October 22, 1888, and closes March 30, 1889. A three years-graded course is recommended but not required. Daily rounds of the Charity Hospital wards are made by all the professors and chiefs of clinics, accompanied by the students.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, ophthalmology, otology, pharmacy, clinical medicine and surgery, diseases of women and children and dermatology.

REQUIREMENTS: For admission, none—For graduation: 1) good moral character; 2) twenty-one years of age; 3) three years' study; 4) two complete courses of dissection and of lectures; 5) thesis; 6) pass satisfactory examination.

FEES: Matriculation, \$5; lectures, \$140; demonstrator, \$10; graduation, \$30.

No instruction was ever given.

MAINE.

MEDICAL SCHOOL OF MAINE, AT BOWDOIN COLLEGE.

BRUNSWICK, Me. ALFRED MITCHELL, M. D., Secretary.

ORGANIZED in 1820. The first class was graduated in 1820. Classes have been graduated each subsequent year.

The faculty embraces nine professors and two demonstrators.

COURSE OF INSTRUCTION: One annual course of lectures of twenty weeks' duration, commencing February 7, 1889, and ending June 26, 1889. Clinics are given once a week. Daily examinations are made by the faculty.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, medical jurisprudence, hygiene and histology, diseases of women and children.

REQUIREMENTS: For admission—"Candidates for matriculation will be required to give evidence that they possess a good English education. Those who are graduates of colleges, normal schools, high schools, or who have passed the entrance examination to any recognized college, on presentation of their diplomas or matriculation tickets, will be exempt from examination."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study under a regular practitioner, and two full courses of lectures, dissection of not less than two parts; 4) satisfactory written and oral examination on subjects of the lectures; 5) thesis.

FEES: Matriculation, \$5; lectures, \$78; graduation, \$25; laboratory, \$10.

*Includes pharmacy students.

†Includes pharmacy graduates.

PORTLAND SCHOOL FOR MEDICAL INSTRUCTION.

PORTLAND, Me. C. O. HUNT, M. D., Registrar.

ORGANIZED in 1855. No diplomas are conferred. "The aim of the school is to afford to medical students greater facilities for obtaining a higher grade of professional education than can usually be given under the direction of a single preceptor."

The faculty embraces ten instructors and one demonstrator.

COURSE OF INSTRUCTION: Two terms of thirteen weeks each, annually.

Systematic recitations will be held in anatomy, materia medica and therapeutics, theory and practice of medicine, surgery, chemistry and obstetrics.

Lectures embrace, in addition to the foregoing subjects, physical diagnosis, minor and operative surgery, gynecology, physiology and dentistry.

REQUIREMENTS: For admission—"Students will be required to satisfy the instructors that they are possessed not only of a good common school education, but also of such familiarity with the Latin language as may be acquired by the study of Harkness' Introductory Latin Book and of a knowledge of physics equal to that which may be gotten from Norton's Elements of Natural Philosophy. The fact of graduation from a college or from a high school or academy, whose curriculum requires the study of these books or the equivalent, will be taken as evidence of these requirements; but in the absence of such evidence a written examination will be held in which the orthography and syntax will be taken into account. A practical acquaintance with the metric system must be possessed on entrance or made up within the first month of study in the school."

FEES: For summer term, \$35; for winter term, \$40; for the year, \$60; demonstrator, \$7.

ECLECTIC MEDICAL COLLEGE OF MAINE.

LEWISTON, Me.

ORGANIZED in 1881. Charter revoked by the Legislature of Maine in 1887. Diplomas not recognized.

THE DRUIDIC UNIVERSITY OF MAINE.

LEWISTON, Me.

INCORPORATED in 1880. Charter revoked by the Legislature of Maine in 1887.

MARYLAND.

UNIVERSITY OF MARYLAND, SCHOOL OF MEDICINE.

BALTIMORE, Md. J. EDWIN MICHAEL, M. D., Dean, 937 Madison ave.

ORGANIZED in 1807, as the Medical College in the City of Baltimore. In 1812, faculties of law, theology and arts were added, and the whole chartered under the name of the University of Maryland. The degree of M. D. was conferred in 1810, and degrees have been conferred each year since.

The faculty embraces ten professors, five lecturers, four demonstrators, three professors, and ten dispensary physicians and chiefs of clinics.

COURSE OF INSTRUCTION: The eighty-second annual session began October 1, 1888, and closes about the end of March, 1889. Clinical lectures introductory to the regular session, were held through September. A three years' course recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics, gynecology, hygiene, toxicology, ophthalmology, otology, diseases of the throat and chest, diseases of women and children, diseases of the nervous system, dermatology, clinical medicine and surgery.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) two full courses of lectures; 3) thesis; 4) evidence of attendance on clinical lectures on medicine and surgery; 5) practical anatomy course; 6) good moral character; 7) faithful and regular attendance on lectures and clinics; 8) examination in all the branches taught.

FEES: Matriculation, \$5; lectures, \$120; demonstrator, \$10; graduation, \$30. "In accordance with a usage which has arisen in other schools, a number of scholarships has been created, to which are appointed students unable to pay the full rates. The holders of these scholarships pay only \$60 for the professors' tickets."

WASHINGTON UNIVERSITY SCHOOL OF MEDICINE.

BALTIMORE, Md.

ORGANIZED in 1827, as the Medical Department of Washington College, Pennsylvania. Classes were graduated under the auspices of Washington College until 1840, when the Maryland Legislature empowered the institution to assume the above title. Became extinct in 1851. In 1867 the institution was reorganized and lectures were delivered until 1877, when the institution was merged into the College of Physicians and Surgeons, Baltimore (*vide infra*).

COLLEGE OF PHYSICIANS AND SURGEONS.

BALTIMORE, Md. THOMAS OPIE, M. D., Dean, N. W. corner Calvert and Saratoga streets.

ORGANIZED in 1872. The first class was graduated in 1873. Classes have been graduated each subsequent year. In 1877 the Washington University School of Medicine was united with this college.

The faculty embraces eleven professors, two lecturers and four demonstrators.

COURSE OF INSTRUCTION: Two courses of lectures are given during the year. The winter graduating sessions of 1888-89 began October 1, 1888, and will end March 15, 1889. The spring course begins March 16, 1889, and continues until June 16. A three years' graded course is recommended, but not required. Clinics in hospitals and dispensary.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology, otology, pharmacy, dental surgery, diseases of the chest and throat, diseases of children, diseases of the nervous system, genito-urinary diseases, pathological histology, orthopedic surgery, and clinical medicine and surgery, dermatology.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) good English education; 4) three years' study; 5) two courses of lectures; 6) satisfactory examination.

* Not including 4 graduates who matriculated.

FEES: Matriculation, \$5; lectures, \$120; graduation, \$30; laboratory materials, \$4; spring term, \$15.

BALTIMORE MEDICAL COLLEGE.

BALTIMORE, Md. DAVID STREET, M. D., Dean, 403 N. Exeter street.

ORGANIZED in 1881. First class graduated in 1882, and classes have been graduated each subsequent year.

The faculty embraces twelve professors, three lecturers, one demonstrator and one preceptor.

COURSE OF INSTRUCTION: A preliminary fall course will be held during the month of September. The regular winter session for 1888-89 commenced October 1, 1888, and will end about the middle of March, 1889, and will be followed with a spring course commencing about the middle of March, and ending on the first of June, 1889. Three years' graded course recommended, but no required.

Lectures embrace surgery, anatomy, pathology, chemistry, materia medica and therapeutics, theory and practice of medicine, physiology, obstetrics, orthopedic surgery, gynecology, diseases of children, hygiene and sanitary science, medical jurisprudence, ophthalmology and otology, diseases of the nose, throat and chest, diseases of the nervous system and insanity, practical pharmacy, diseases of the genito-urinary organs, microscopy, and the usual clinics held in every school.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) regular attendance upon lectures; 5) satisfactory examination.

FEES: Matriculation, \$5; lectures, \$100; graduation, \$30.

"Special privileges are sometimes granted to poor but deserving young men in conformity with the usages of the times, and these are only required to pay one-half the regular fees."

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Percentage of graduates to matriculates for past seven years, 32.3.

WOMAN'S MEDICAL COLLEGE OF BALTIMORE.

BALTIMORE, Md. RICHARD HENRY THOMAS, M. D., Dean 714 N. Howard street.

ORGANIZED in 1882. The first class was graduated in 1883.

The faculty embraces eleven professors, two lecturers, five demonstrators and instructors and six clinical assistants.

COURSE OF INSTRUCTION: One annual graduating session; that of 1888-89 began October 3, 1888, and continues until the 1st of May, 1889. The course of study is graded and a three-years' course is recommended, but students are allowed, upon preceptor's certificate of twelve months' medical study, to pursue a two years' graded course.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, principles and practice of medicine, pathology, surgery, obstetrics, gynecology, hygiene, medical jurisprudence, ophthalmology and otology, diseases of throat and chest, diseases of women and children, pharmacy, clinical medicine and surgery.

REQUIREMENTS: For admission—"Every student entering this institution will be required to present, 1) a credible certificate of good moral character; 2) a diploma from a respectable institution of learning or a first-grade teacher's certificate. Lacking this, she must pass a satisfactory examination before a committee of the faculty on the usual elementary English branches taught in public schools, and write a composition of at least twenty lines upon some subject dictated by the committee."

For graduation: 1) twenty-one years of age; 2) three full courses of lectures or two full courses of lectures after one year's study under a preceptor; 3) one full dissection; 4) evidence of having attended the clinics; 5) examination on all the branches; 6) good moral character.

FEES: Matriculation, \$5; lectures, \$75; graduation, \$30.

BALTIMORE UNIVERSITY SCHOOL OF MEDICINE.

BALTIMORE, Md. Z. K. WILEY, M. D., Dean, 721 N. Carey street.

ORGANIZED in 1884. First class graduated in 1885.

The faculty embraces twelve professors, one demonstrator and three clinical assistants.

COURSE OF INSTRUCTION: One annual graduating session; that of 1888-89 opened October 1, 1888, and will terminate about the 15th of March, 1889. A one month's course of preliminary lectures preceded the regular term. Three years graded course recommended but not required.

Lectures embrace anatomy, physiology, pathology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics, gynecology, microscopy, diseases of throat and lungs, nervous diseases, ophthalmology and otology, diseases of women, diseases of children, dermatology, medical jurisprudence, hygiene.

REQUIREMENTS: For admission, "Students must be possessed of good moral character, and, unless matriculates of some literary institution or medical college, will be required to furnish sufficient evidence of possessing a good English education."

For graduation: Candidates must have attended at least two courses of lectures. "The fitness of a candidate for graduation will be based upon good moral character and regular attendance upon instruction afforded by the college, and upon the result of a final examination, to be determined by a majority of all the votes of the faculty. Thesis, or clinical report of cases drawn up from personal observation, required."

FEES: Matriculation, \$5; demonstrator, \$10; lectures, \$120; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Diplomas recognized conditionally.

*Not including one graduate who matriculated.

JOHNS HOPKINS UNIVERSITY, MEDICAL DEPARTMENT.

BALTIMORE, Md. D. C. GILMAN, LL. D., President of the University.

The latest official utterance with respect to the organization of the Medical Department, is as follows: "The completion of a noble group of buildings for the Johns Hopkins Hospital, its large, separate, and unimpaird endowment, and, above all, the enlightened and far-sighted vision of its managers, are signs of progress upon which the eyes of the medical and surgical world are fixed. It was the injunction of the founder that the hospital when completed should form a part of the medical school of the university of which he was also the founder; and, accordingly, while every appliance which science and humanity can suggest for the relief of the sick and wounded has been provided, the hospital authorities have constantly borne in mind the prospective requirements of a high school of medicine. The time has not yet come for the complete unfolding of their purposes. What they will do is largely a question of money. But every step that has been taken indicates a consistent and determined purpose to contribute to the advancement of medicine and surgery, with an enlightened regard to the welfare of mankind. It is certain that in the future of Johns Hopkins, the medical faculty will hold a rank not in the least inferior to that of philosophy."

"Some recent announcements are significant. From the beginning the university has provided a liberal course of studies antecedent to medicine, including (after the fundamental study of Latin, mathematics, and English) French and German, physics, chemistry, and biology. As the sciences named are taught by laboratory methods and through prolonged periods, the discipline they afford is an admirable training for the hand, the eye, and the brain of those who are afterward to be engaged in the study of disease and the relief of suffering. More recently the university has established a chair of pathology, which is filled by a professor of rare qualifications, and the laboratory that has been fitted up for him in the autopsy building at the hospital affords every facility for the study of the most recent developments in bacteriology and the theories of disease. An associate professor of human anatomy has been designated, and he is to spend a year in Europe perfecting himself in the latest methods employed in the continental schools. Within a very few days the hospital trustees have been so fortunate as to enlist in their work one of the most distinguished physicians of the country, now a professor in the University of Pennsylvania, and he has also been appointed a professor of the Principles and Practice of Medicine in the university. The administration of the hospital will continue to be guided by the Medical Adviser of the Trustees, who has already rendered distinguished service. The choice of a surgeon will be made before long. It is easy to see that several of the chairs of a School of Medicine will thus be provided—chemistry, physiology, comparative anatomy, human anatomy, pathology, medicine, surgery. Other chairs will, of course, be requisite before a medical school can be thoroughly organized; but, at present, while the attention of the authorities is directed to the proper beginning of the hospital, medical education is in abeyance. Before many years, when the means of the university are enlarged, perhaps when a special endowment is received, Baltimore seems destined to become the seat of a school of medicine, such as does not now exist in the country."

[From a recent letter by President Gilman on the "Future of the Johns Hopkins University," published in "The Independent," (N. Y.) of October 25, 1888, and reprinted in pamphlet form by the university.]

The gentlemen named below constitute the nucleus of the medical faculty:

DANIEL C. GILMAN, LL. D., President; WILLIAM H. WELCH, M. D., professor of pathology; WILLIAM OSLER, M. D., professor of the principles and practice of medicine; H. NEWELL MAP TEN, Dr. Sc., M. D., professor of physiology; IRA REMSEN, M. D., Ph. D., professor of chemistry; JOHN S. BILLINGS, M. D., LL. D., lecturer on public hygiene; WILLIAM T. COUNCILMAN, M. D., associate professor of anatomy.

MASSACHUSETTS.

HARVARD UNIVERSITY MEDICAL SCHOOL.

BOSTON, Mass. H. P. BOWDITCH, M. D., Dean, Boylston and Exeter streets.

ORGANIZED in 1782. The first class was graduated in 1783, and classes have been graduated in each subsequent year.

The officers of instruction are nine professors, nine assistant professors, one curator four demonstrators, one assistant demonstrator, nine instructors, two lecturers, eight assistants to chairs and thirteen special clinical instructors. The faculty consists of the professors, assistant professors and other officers of instruction appointed for a longer term than one year.

COURSE OF INSTRUCTION: Instruction in this school is given by lectures, recitations clinical teaching and practical exercises; uniformly distributed throughout the academic year. The year begins on the Thursday following the last Wednesday in September, and ends on the last Wednesday in June. The course of study recommended by the faculty covers four years, but the degree of Doctor of Medicine continues to be given upon the completion of three years' study. The degree of Doctor of Medicine *cum laude* is given to candidates who have pursued a complete four years' course, and obtained an average of 75 per cent. in all the examinations of this course; and a certificate

of attendance on the studies of the fourth year will be given to such students, desirable, as shall have attended the course, and have passed a satisfactory examination in the studies of the same.

The division of studies in the three years' course is as follows: First year—*anatomy, physiology, general chemistry, materia medica and hygiene.* Second year—*practical and topographical anatomy, medical chemistry, pathological anatomy, clinical medicine, surgery and clinical surgery.* Third year—*therapeutics, obstetrics, theory and practice of medicine, clinical medicine, surgery, clinical surgery, ophthalmology, otology, syphilis, otology, laryngology, mental diseases, diseases of the nervous system, diseases of women, diseases of children, and forensic medicine.*

In the four years' course, the first and second year's studies are the same as in the three years' course; and in the third year of the four years' course attention is confined to *therapeutics, obstetrics, theory and practice of medicine, clinical medicine, surgery and clinical surgery.* During the fourth year the subjects are *ophthalmology, otology, dermatology, syphilis, laryngology, mental diseases, diseases of the nervous system, diseases of women, diseases of children, obstetrics, clinical and operative obstetrics, clinical medicine, clinical and operative surgery, forensic medicine, hygiene and bacteriology.*

Opportunities for original research are offered to advanced students and graduates in the laboratories of anatomy, physiology, chemistry, histology and pathology. Facilities for clinical study are afforded in the Massachusetts General Hospital, the Boston City Hospital, the Massachusetts Charitable Eye and Ear Infirmary, the Marine Hospital at Chelsea, the Boston Dispensary and the free Hospital for Women. There are twenty-five appointments annually for *internes* in the various hospitals, and as many more for assistants in the out-patient departments.

REQUIREMENTS: "All candidates for admission, except those who have passed an examination for admission to Harvard College, must present a degree in letters, science or medicine from a recognized college or scientific school, or pass an examination in the following subjects: 1) every candidate will be required to write, legibly and correctly, an English composition of not less than two hundred words, and also write English prose from dictation; 2) the translation of easy Latin prose; 3) a competent knowledge of physics; 4) each candidate must pass an approved examination in any one of the following subjects: French, German, the elements of algebra or plain geometry, botany. Students who began their professional studies elsewhere may be admitted to advanced standing, but all persons who apply for admission to the advanced classes must pass an examination in the branches already pursued by the class to which they seek admission, and furnish a satisfactory certificate of time spent in medical studies. No student shall advance with his class or be admitted to advanced standing, until he has passed the required examination in the studies of the previous year or a majority of them; nor shall he become a member of the third class until he has passed all the examinations of the first, in addition to a majority of those in the second year."

For graduation: "Every candidate must be twenty-one years of age, and of good moral character; must give evidence of having studied medicine three or four full years; must have spent at least one continuous year at this school; must have presented a satisfactory thesis, and have passed the required examination." Written examinations on all the main subjects of instruction are distributed, for regular students, through their entire course of study. "In addition to these written examinations, each student is required to present a written report of the analysis of a solution containing inorganic substances, and a specimen of urine, to examine and report upon a clinical case in surgery, and to take charge of and report upon two cases in obstetrics; each student must also have satisfactorily dissected the three parts of the body."

FEES: Matriculation (payable once only), \$5; lectures, full year, \$200; one-half year, \$120; special courses, \$15 to \$30 each.

Six scholarships of the value \$200 or \$300 are annually awarded to needy and deserving students.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

BERKSHIRE MEDICAL COLLEGE.
(Medical Department of Williams College.)

PITTSFIELD, Mass.

ORGANIZED in 1843. Lectures were delivered until 1867, when the college became extinct. During its existence 1138 students were graduated.

NEW ENGLAND BOTANICO-MEDICAL COLLEGE.

WORCESTER, Mass.

ORGANIZED in 1848. Reorganized in 1852 as the Worcester Medical College, Eclectic.

WORCESTER MEDICAL COLLEGE.

(Eclectic.)

WORCESTER, Mass.

ORGANIZED in 1852.—See above. In 1857 it was decided to remove this school to Boston, where one course of lectures was given (1857-58). It was moved back to Worcester again the following winter, and became extinct in 1859.

NEW ENGLAND FEMALE MEDICAL COLLEGE.

(Homeopathic.)

BOSTON, Mass.

ORGANIZED in 1848. Lectures were delivered and classes graduated until 1874, when it was merged into the Boston University School of Medicine, (*vide infra*).

BOSTON UNIVERSITY SCHOOL OF MEDICINE.

(Homeopathic.)

BOSTON, Mass. I. TISDALE TALBOT, M. D., Dean, 66 Marlborough street.

ORGANIZED in 1873. The first class was graduated in 1874. Classes have been graduated each subsequent year. In 1874 the New England Female Medical College was united with this school.

The faculty embraces thirteen professors, sixteen lecturers, four assistants, one demonstrator, two assistant demonstrators, and one librarian.

COURSE OF INSTRUCTION: The school year is divided into three terms, as follows: The first term began October 11, 1888, and continues to December 22, 1888; the second term begins January 2, 1889, and continues to March 9, 1889; the third term begins March 25, 1889, and continues to June 5, 1889. A three-years' graded course is required, and a four-years' graded course is recommended. The degrees of Bachelor of Medicine and Bachelor of Surgery are granted to students of the four-years' course at the end of the third year. To each term and each year certain studies are assigned, in which the student is required to become proficient, as shown by examination before entering upon more advanced studies.

The arrangement of studies for the three-years' course is as follows: First year—anatomy, physiology, general chemistry, minor surgery, microscopy, histology, methodology and dissections. Second year—medical chemistry, surgery and surgical pathology, general pathology and pathological anatomy, special pathology and therapeutics, materia medica and pharmacetics, obstetrics, gynecology, pedology, diseases of the chest, diseases of the throat, and sanitary science. Third year—operative surgery, general pathology and pathological anatomy, special pathology and therapeutics, materia medica, practical and operative obstetrics, ophthalmology and otology, dermatology, insanity and nervous diseases, medical jurisprudence, "ethics and esthetics," clinics and clinical reports in various departments, thesis.

In the four-years' course the studies of the first year are the same as in the three-years' course; special dissections, histology and microscopy are substituted for gynecology and pedology in the second year; operative surgery, practical and operative obstetrics, materia medica, special pathology and therapeutics, general pathology and pathological anatomy, pedology, gynecology and clinics occupy the third year; and the fourth year continues materia medica, clinics and clinical reports, and takes up ophthalmology, otology, dermatology, insanity, nervous diseases, medical jurisprudence, "ethics and esthetics," and dispensary practice.

REQUIREMENTS: For admission—"Candidates who have taken their first degree in arts, philosophy or science are admitted without examination. All others, before matriculation, are examined in the following branches: 1) in orthography, English composition and penmanship, by means of a page written at the time and place of examination; 2) arithmetic, geography and English grammar, if there be any doubt whether the candi-

date has sufficient attainment therein; 3) in elementary physics, by an examination in Stewart's Primer of Physics; 4) in Latin, by requiring a translation from Harkness' Latin Reader at sight. Candidates must be at least nineteen years old, or, if they intend to pursue a four-years' course, within six months of nineteen.

For graduation: "Candidates for the degree of Bachelor of Medicine or Bachelor of Surgery must have studied medicine three full years, the last of which was in this school, and must have passed examinations in all the branches of the first three years of the four-years' course in this school with a minimum average of eighty per cent. Candidates for the degree of Doctor of Medicine must be twenty-one years of age and of good moral character; must have studied medicine at least three years under competent instruction; must have attended at least three full and reputable courses of lectures, the last in this school," and must sustain a satisfactory examination. The candidate must also furnish a thesis in which shall be cited the authorities for all statements of fact and opinion advanced, other than original, and these latter he must be prepared to publicly defend.

FEES: Matriculation, \$.; laboratory, \$5; practical anatomy, \$10; lectures, \$100; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	169	48	28.4

COLLEGE OF PHYSICIANS AND SURGEONS.

BOSTON, MASS. C. P. THAYER, M. D., Registrar, 34 Boylston street.

ORGANIZED in 1880. The first class was graduated in 1881.

The faculty embraces seven professors, four lecturers, one demonstrator and one prosector.

COURSE OF INSTRUCTION: The college term for the year of 1888-89 began Wednesday, October 3, 1888, and will end on Wednesday, April 3, 1889. Course of study is graded and extends over three years, but three courses of lectures are not absolutely demanded. Instruction consists of didactic lectures with demonstrations, clinical teaching, recitations and practical teaching on subjects involving manipulation.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, diseases of the nervous system, ophthalmology and otology, histology, dermatology, laryngology, diseases of children, orthopedic surgery, clinical medicine, clinical surgery, genito-urinary diseases.

REQUIREMENTS: For admission, "Candidates for matriculation will be required to give evidence that they possess a good moral character, and a good English education, including a knowledge of elementary physics (heat, light and electricity), and must have sufficient knowledge of Latin as is necessary for a medical education. Persons who have studied medicine with a regular physician one or more years, or who have attended one full course of lectures at a recognized medical college, or students who have taken two full courses of lectures, may be admitted to the second or third years' course after examination in the branches of the first course." Women are admitted upon the same terms as men.

For graduation: 1) twenty-one years of age; 2) thesis; 3) three years' study; 4) two full courses of lectures; 5) dissected three parts; 6) fulfill all requirements of laboratory work; 7) satisfactory examination.

FEES: Matriculation, \$5; lectures, \$85; demonstrator, \$5; anatomical material for each part, \$3; laboratory, \$5; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

NEW ENGLAND UNIVERSITY OF ARTS AND SCIENCES.

BOSTON, Mass.

Fraudulent.—Extinct. Exposed by the ILLINOIS STATE BOARD OF HEALTH.

†BELLEVUE MEDICAL COLLEGE OF MASSACHUSETTS.

BOSTON, Mass.

ORGANIZED in 1880. A fraudulent institution, exposed by the ILLINOIS STATE BOARD OF HEALTH in 1882. In 1883 the charter was repealed.—See below.

†MEDICAL DEPARTMENT OF THE AMERICAN UNIVERSITY OF BOSTON.

†FIRST MEDICAL COLLEGE OF THE AMERICAN HEALTH SOCIETY.

†EXCELSIOR MEDICAL COLLEGE.

MICHIGAN.

DEPARTMENT OF MEDICINE AND SURGERY OF THE UNIVERSITY OF MICHIGAN.

ANN ARBOR, Mich. W. A. CAMPBELL, M. D., Secretary.

ORGANIZED in 1850. The first class was graduated in 1851. Classes have been graduated each subsequent year.

The faculty embraces eleven professors, two assistants to the professors, two demonstrators, two instructors and two lecturers.

COURSE OF INSTRUCTION: The thirty-ninth annual session began October 1, 1888, and will end the last of June, 1889, continuing nine months, and being divided into two semesters. At the end of each semester written examinations are held. The course of study is graded and extends over three years. Women admitted upon the same terms as men.

Lectures embrace: First year—anatomy, practical and descriptive, physiology, materia medica, chemistry general, qualitative and physiological, osteology, embryology, sanitary science, histology, microscopy. Second year—a continuation of descriptive anatomy, physiology, materia medica, general chemistry, with organic chemistry, medical jurisprudence, theory and practice of medicine, surgery, obstetrics and gynecology, practical anatomy, analysis of urine and optional courses in practical physiology, electro-therapeutics, advanced histology. Third year—a continuation of theory and practice of medicine, surgery, obstetrics, gynecology with pathology and special courses in ophthalmology, diseases of the nervous system, surgical anatomy, diseases of women and children, sanitary science, minor surgery, physical diagnosis, diseases of the skin, etc.

* Not including one graduate who matriculated.

† These four institutions were organized under the "Public statutes relating to manufacturing and other corporations." The passage of the act of June 30, 1883, forbade such corporations conferring medical degrees without special authorization by the legislature. This exposure of the character of these so-called medical schools by the ILLINOIS STATE BOARD OF HEALTH resulted in the above legislation, and their virtual extinction.

REQUIREMENTS: For admission, 1) eighteen years of age; 2) good moral character; 3) no previous study of medicine required for admission, but candidates will be examined as to their elementary education, and their fitness to pursue properly and profitably the technical study of medicine. The examination will be in writing. The candidate will be asked to give an account of his previous educational advantages, and will be examined on the following:

1st—"A good English education, comprising a competent knowledge of arithmetic, spelling, grammar, the art of composition, and a respectable acquaintance with English literature, such, for instance, as may be found in Shaw's Manual of English Literature, or other similar work."

2d—"A competent knowledge of political and physical geography, such as is contained in advanced school geographies, and in Guyot's Physical Geography."

3d—"An outline of the history of modern civilized nations, and especially of American history, such as may be found in manuals of history."

4th—"A competent knowledge of elementary zoölogy, including an acquaintance with the characteristics of the principal divisions of the animal kingdom. Packard's Zoölogy may be cited as an illustration of a work to be studied."

"In addition to the above requirements, *which alone* will be insisted upon, it is recommended that students obtain such a knowledge of the Latin language as will enable them to read and write correctly current or ordinary prescriptions, and appreciate the technical language of the natural sciences and of medicine. It is also considered highly desirable that they have a general grammatical knowledge of the German and French languages. A similar knowledge of Greek will also be serviceable, and is highly recommended."

"Graduates or matriculates of a university or college, or of any academy or high school approved by this faculty; persons holding first-class or approved certificates from any reliable public school board as being properly qualified as teachers; and persons having certificates, based upon an examination by some recognized medical society, of being properly qualified to engage in the study of medicine, will not be required to pass the above examination."

For graduation, "To be admitted to the degree of Doctor of Medicine, a student must be twenty-one years of age and possess a good moral character; he must have completed the required course in practical anatomy, and practical chemistry, and, unless the full course of study has been taken in this college, he must have been engaged in the study of medicine for the period of three years, including the time spent in attendance upon lectures. He must also have passed satisfactory examinations on all the studies included in the full course of instruction; or if admitted to advanced standing, he must have attended at least two full courses of medical lectures, the last of which was in this college, and must have passed the required examinations."

FEEs: Matriculation, for residents of Michigan, \$10; for non-residents, \$25, to be paid but once; lectures, for residents of Michigan, \$25; for non-residents, \$35; graduation, for all alike, \$10; demonstrator, \$20; laboratory, \$20.

MICHIGAN HOMEOPATHIC MEDICAL COLLEGE.

LANSING, Mich.

ORGANIZED in 1872.—Extinct, 1873.

HOMEOPATHIC MEDICAL COLLEGE OF THE UNIVERSITY OF MICHIGAN.

ANN ARBOR, Mich. JAMES C. WOOD, M. D., Secretary of the Faculty.

ORGANIZED in 1875. The first class was graduated in 1877. Classes have been graduated each subsequent year.

The faculty embraces five professors and four assistants to chairs, eight professors of the department of medicine and surgery (regular school) give instructions to homeopathic students.

COURSE OF INSTRUCTION: One annual session; that of 1888-89 began October 1, 1888, and will end the last of June, 1889. The course is graded, extending over three years, although two courses *may* suffice under certain conditions (see requirements for graduation). Daily quizzes by the assistants of the several chairs. Women admitted upon the same terms as men.

Lectures as follows: The first year of the course will include anatomy, histology, general chemistry, minor surgery, materia medica, principles of medicine, preparation of medicines and their action, descriptive and anatomical botany, clinics, physical diagnosis, with the necessary practical work in the chemical and physiological laboratories. This year's work in materia medica will be devoted to teaching the source, nature, origin and method of preparing remedies, with their physiological action, and a general survey of their pathogeneses. In the second year the above studies, including histology and minor surgery, will be reviewed, and the student will take up general and special therapeutics, in connection with materia medica, diseases of women and children, with clinical work, materia medica, qualitative chemistry and analysis of urine, pathological anatomy, principles and practice of medicine (including hygiene or preventive medicine), principles of surgery, and ophthalmology and otology. The materia medica work of this year will consist of special analyses and syntheses of drug-provings. In addition, the student will attend such didactic and clinical lectures on the practical branches as his progress shall render advisable. In the third year the student will enter upon the study of operative surgery, electro-therapeutics, spinal diseases and curvatures, and review obstetrics, materia medica, diseases of women and children, the principles and practice of medicine, and ophthalmology and otology, and receive practical instruction in diagnosis and treatment, both theoretical and clinical.

REQUIREMENTS: For admission, 1) eighteen years of age and good moral character, and must have sufficient primary education to make good use of the advantages offered; 2) students who are graduates of some accredited college, academy or high school, or who possess a teacher's certificate, qualifying them to teach in the common schools of the State in which they reside, will be admitted upon presentation of such certificate; 3) lacking this, must submit to an examination in writing in the branches of a common school English education. Students who have studied elsewhere at least one college year, and who possess superior qualifications, may be admitted, on examination, to advanced standing.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) must have attended at least seventy-five per cent. of the regular lectures; 5) must have spent the required time in practical anatomy, chemical analysis, etc., in the various laboratories and hospitals; 6) must have attended the usual quizzes and drills by the assistants of the several chairs; 7) must also have passed satisfactory examinations in all the studies included in the curriculum; or, *if admitted to advanced standing*, he must have attended at least *two full courses* of medical lectures, the last at this college, and pass the required examinations. Students who, in the first year, are allowed by a special vote of the faculty to take all the lectures of which two courses are required, and who also take a suitable number of those required but once, may, after examination, obtain permission to pursue their studies with a competent preceptor out of the college during their second year, and after completing the course required by strict attendance during the full third year, may present themselves for examination for the degree at the end of that year. Students who have completed full college courses for the first and second years in an accredited medical college will be permitted, upon examination, to enter the third year and complete the studies of that year in this department, and to present themselves for examination for the degree at the end of the year.

FEES: Matriculation, for residents of Michigan, \$10; for non-residents, \$25, (paid but once). Lectures, for residents of Michigan, \$25; for non-residents, \$35. Graduation, for all alike, \$10. Course in chemical laboratory, \$20; in histological laboratory, \$5; in electro-therapeutics \$1; in anatomy, \$10.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percnt.
1877-78	73	22	30+
1878-79	63	25	40—

MICHIGAN COLLEGE OF MEDICINE.

DETROIT, Mich.

ORGANIZED in 1880.—Extinct in 1885.

See *Detroit College of Medicine*.

DETROIT COLLEGE OF MEDICINE.

DETROIT, Mich. H. O. WALKER, M. D., Secretary, 33 Lafayette avenue.

ORGANIZED in 1885 by the consolidation of the Detroit Medical College and the Michigan College of Medicine, and incorporated by act of Legislature, June, 1885.

The faculty embraces twenty-six professors and eight assistants, two lecturers and one demonstrator.

COURSE OF INSTRUCTION: The regular session began September 26, 1888, and will close March 26, 1889. The spring session will begin April 3, and close June 12, 1889.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, state medicine and hygiene, otology, ophthalmology, dermatology, laryngology, clinical medicine and surgery, genito-urinary diseases, dental surgery, diseases of women and children and orthopedic surgery.

REQUIREMENTS: For admission—"All matriculates of the Detroit College of Medicine will be required to show, on examination, a satisfactory knowledge of the English branches. In place of this examination the college will accept the degree of A. B., B. S., Ph. D., certificates of having passed the entrance examination of any incorporated literary college, or any recognized medical college in which an examination is required for admission; also certificates of having graduated at any high school or academy."

For graduation: 1) evidence of good moral character; 2) twenty-one years of age; 3) three years' study of medicine; 4) two full courses of lectures; 5) dissected every part of the cadaver; 6) a satisfactory course of practical work in the chemical laboratory; 7) practical clinical work for one term in hospital and out-door clinics; a final examination.

FEES: Matriculation, \$5; lectures, \$50; hospital, \$10; graduation, \$30.

STUDENTS: Number of matriculates and of graduates, and percentage of graduates to matriculates—

Session..	Matriculates.	Graduates.	Percnt.

MICHIGAN COLLEGE OF MEDICINE AND SURGERY.

DETROIT, Mich. J. J. MULHERON, M. D., Dean, 79 High street, east.

ORGANIZED in 1888.

The faculty embraces six professors, four lecturers and one demonstrator.

*Not including one graduate who matriculated.

COURSE OF INSTRUCTION: The first course of lectures began on Tuesday, September 11, 1888, and will continue twenty-two weeks. This will be followed by a spring course commencing the first Tuesday in March and closing last Friday in May, 1889. Three years' graded course recommended but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, surgery, pathology, theory and practice of medicine, obstetrics, diseases of children, ophthalmology, laryngology, histology, venereal diseases, hygiene.

REQUIREMENTS: For admission—1) diploma from a literary or scientific college or high school, or a first grade teacher's certificate; 2) lacking these an examination in the branches of a good English education.

For graduation: 1) twenty-one years of age and of good moral character; 2) three years' study of medicine; 3) two full courses of lectures; 4) satisfactory examination.

FEES: Matriculation, \$5; lectures, \$50; graduation, \$25; spring course, \$10.

MINNESOTA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE.

CHAPTER IX.

Be it enacted by the Legislature of the State of Minnesota:

SECTION 1. The Governor of this State shall appoint a board of examiners, to be known as the State Board of Medical examiners, consisting of nine (9) members, who shall hold their office for three (3) years after such appointment and until their successors are appointed.

Provided, That the members thereof first appointed under this act shall be divided into three (3) classes, each class to consist of three (3). The first class shall hold office under said appointment for the period of one (1) year, the second class for two (2) years and the third class for three (3) years from the date of their appointment.

It is further provided that no member thereof shall be appointed to serve for more than two (2) terms in succession, and no member of any college or university having a medical department shall be appointed to serve as member of said board, two of which shall be homeopathic physicians.

Sec. 2. Said board of medical examiners shall elect a president, secretary and treasurer; shall have a common seal. The president and secretary shall have the power to administer oaths. Said board of medical examiners shall hold meetings for examination at the Capitol of this State on the first (1) Tuesday of January, April, July and October of each year, and such other meetings as said board may from time to time appoint. Said board shall keep a record of all the proceedings thereof, and also a record or register of all applicants for a license, together with his or her age, time spent in the study of medicine, and the name and location of all institutions granting to such applicants degrees or certificates of lectures in medicine or surgery. Said register shall also show whether such applicant was rejected or licensed under this act. Said books and register shall be *prima facie* evidence of all the matters therein recorded.

Sec. 3. All persons hereafter commencing the practice of medicine and surgery, in any of its branches in this State, shall apply to said board for a license so to do, and such applicant, at the time and place designated by said board, or at the regular meeting of said board, shall submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry, histology, materia medica, therapeutics, preventive medicines, practice of medicine, surgery, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence, and such other branches as the board shall deem advisable, and present evidence of having attended three (3) courses of lectures of at least six (6) months each; said board shall cause such examination to be both scientific and practical, but of sufficient severity to test the candidate's fitness to practice medicine and surgery. When desired, said examination may be conducted in the presence of the dean of any medical school or the president of any medical society of this State. After examination, said board shall grant a license to such applicant to practice medicine and surgery in the State of Minnesota, which said license can only be granted by the consent of not less than seven (7) members of said board, and which said license shall be signed by the president and secretary of said board, and attested by the seal thereof. The fee of such examination shall be the sum of ten (10) dollars, and shall be paid by the applicant to the treasurer of said board, to be applied by said board towards defraying the expenses thereof; and such board may refuse or revoke a license for unprofessional, dishonorable or immoral conduct. In all cases of refusal or revocation the applicant may appeal to appointing power of said board.

Sec. 4. The person so receiving said license shall file the same, or a certified copy thereof, with the clerk of the district court in and for the county where he or she resides, and said clerk of the court shall file the said certificate or copy thereof, and enter a memorandum thereof, giving the date of said license and name of the person to whom the same is issued, and the date of such filing, in a book to be provided and kept for that purpose; and said clerk of the court shall each year furnish to the secretary of said board a list of all certificates on file in his office, and upon notice to him of the change of location or death of a person so licensed, or of the revocation of the license

granted to such person, said clerk shall enter at the appropriate places in the record so kept by him, a memorandum of said fact; so that the records so kept by said clerk of the court shall correspond with the records of said board as kept by the secretary thereof. In case a person so licensed shall move into another county of this State, he or she shall procure from the clerk of the court a certified copy of said license, and file the same with the clerk of the district court in the county to which he or she shall so remove. Said clerk shall file and enter the same with like effect as if the same was the original license.

Sec. 5. This act shall not apply to commissioned surgeons of the United States army or navy, to physicians or surgeons in actual consultation from other States or Territories, or to actual medical students practicing medicine under the direct supervision of a preceptor.

Sec. 6. Any person practicing medicine or surgery within this State without first having obtained the license herein provided for, or contrary to the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction shall be fined not less than fifty (\$50) nor more than one hundred (\$100) dollars, or by imprisonment in the county jail not less than ten (10) days, nor more than ninety (90) days, or both fines and imprisonment. Any person shall be regarded as practicing within the meaning of this act who shall append the letters "M. D." or "M. B." to his or her name, for a fee prescribe, direct or recommend for the use of any person any drug or medicine, or other agency for the treatment, cure or relief of any wound, fracture or bodily injury, infirmity or disease; provided, however, this act shall not apply to dentists. Justices of the peace and the respective municipal courts shall have jurisdiction over violations of the provisions of this act. It shall be the duty of the respective county attorneys to prosecute violations of this act.

Sec. 7. Chapter one hundred and twenty-five (125) of the General Laws of eighteen hundred and eighty-three (1883) is hereby repealed. It is, however, provided that all persons licensed under said act shall be taken and considered as licensed under this act. And the secretary of the board herein provided for shall enter the names of such persons upon the register so kept by him as licensed physicians and surgeons, without application or fee upon the part of the persons so licensed.

Sec. 8. This act shall take effect and be in force from and after July 1, 1887.

Approved February 28, 1887.

STATE BOARD OF MEDICAL EXAMINERS OF MINNESOTA.

E. S. Wood, M. D., Secretary and Treasurer, 10 East Third street, St. Paul.

The first annual report of this Board, issued on November 26, 1888, shows that there are in Minnesota 1,291 practitioners of medicine, 834 being physicians, 151 homeopaths, 44 eclectics, and 263 irregulars, (persons not graduates but having *pro forma* certificates on account of length of practice in the State). The report shows that in 1883, there were 350 non-graduates practicing in the state; in 1888 there were 269 non-graduate practitioners. Under the Medical Act of 1883, from July 1, 1885, to July 1, 1886, 151 licenses were issued; and 278 from July 1, 1886, to July 1, 1887, making a total of 429. Under the present act of July 1, 1887, during the 18 months it has been in operation, 51 licenses have been issued. "This diminution in the influx of physicians to this state is due largely to the fact that the present act does not recognize any diploma as entitling the possessor to practice." Every candidate for license must come before the State Board for examination. Since July 1, 1887, the Board has held 7 regular quarterly examinations, at which 86 have applied. Of these, 6 have been debarred on account of lectures being too short, and not having attended three courses. Among the remaining 80, 78 were graduates, and the two non-graduates had taken the required length of study. Of the 80 examined, a number failed at first examination, but subsequently passed. In all, 89 have been examined, and 51 passed, all being graduates.

All those thus far debarred from the examinations were graduates of Rush Medical College, Chicago, for the reason that they had not attended three courses of lectures. The colleges from which the rejected candidates were graduated were as follows:

Missouri Medical College,
University of the City of New York,
Rush Medical College,
Bowdoin College, Medical Department,
Chicago Homeopathic College,
Chicago Medical College,
College of Physicians and Surgeons, Chicago,
Queen's University, Kingston, Ont.,
New York Homeopathic Medical College,
Iowa State University,
University of Pennsylvania,
Bellevue Hospital Medical College,
Bennett Eclectic College,
Syracuse University,
College unknown,
Non-graduates.

The Board has revoked two licenses: One for unprofessional and immoral conduct—drunkenness while in attendance upon a person dangerously ill; the second for having presented a forged diploma and obtaining a license to practice.

WINONA MEDICAL SCHOOL.
WINONA, Minn.

ORGANIZED in 1872.—Extinct. No diplomas were issued. It was a school of instruction only.

MINNESOTA HOSPITAL COLLEGE.
MINNEAPOLIS, Minn.

ORGANIZED in 1881 as the successor of the St. Paul Medical College, founded in 1858. Reorganized in 1885 under its present title. In 1888 it was merged into the Medical Department of the University of Minnesota.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1881-82	25	5	20.
1882-83	58	4	7.
1883-84	50	7	14.
1884-85	51	19	37.2
1885-86	53	9	16.9
1886-87	59	11	18.6
1887-88	62	10	16.1

Percentage of graduates to matriculates for past seven years, 18.1.

MINNEAPOLIS COLLEGE OF PHYSICIANS AND SURGEONS.

MINNEAPOLIS, Minn. J. T. MOORE, M. D., Dean, 24 Washington avenue, South.

ORGANIZED in 1883.

The faculty embraces nineteen professors, one adjunct professor, two instructors and a demonstrator of anatomy.

COURSE OF INSTRUCTION: The session of 1888-89 began September 21, 1888, and will end March 26, 1889. Three years' graded course required. Women admitted upon same terms as men.

Lectures embrace: First year—Anatomy, descriptive and surgical; physiology; chemistry, theoretical and practical; materia medica, including botany; diseases of children; obstetrics. Second year—Anatomy, descriptive and surgical; pathology and histology, physiology; chemistry, theoretical and practical; materia medica; medicine, theoretical and clinical; surgery, theoretical, operative and clinical; gynecology, theoretical and clinical. Third year—Medicine, theoretical and clinical; surgery, theoretical and clinical; gynecology, theoretical and clinical; obstetrics, theoretical and clinical; pathology and histology; diseases of children; ophthalmology and otology; laryngology; preventive medicine; medical jurisprudence; genito-urinary diseases; orthopedic surgery; massage.

REGULATIONS AND REQUIREMENTS: 1) Preliminary examination. This will be required of all students before matriculation. * * * The examination shall consist of: (a) English language, including grammar and composition (this shall include spelling, writing, grammatical construction of sentences, and derivation of words in common use); (b) United States history, or history of applicant's native country; (c) modern geography; (d) elements in mathematics; (e) Latin, medical (optional, to be passed at any time before the final examination). "Satisfactory" evidence of having passed a similar examination before any authorized body, will be accepted in lieu of the above." 2) "Students, to obtain certificates of attendance, must attend seventy-five percent, of all the lectures on every branch taught; 3) the medical course shall consist of three winter sessions of six months each * * * the last course must be spent in this college; a properly certified year's study in a regularly qualified practitioner's office, upon passing a satisfactory examination before the faculty, will be taken in lieu of one year's study; 4) a certificate of having attended two winters upon practical anatomy, and of at least having gone over one lateral half of the human body; 5) a certificate of two winters' attendance upon clinical instruction; 6) evidence will be required of having attended two obstetrical cases; 7) upon completion of the above course the candidates may come before the faculty for the degree of Doctor of Medicine and Master of Surgery.

FEES: Matriculation, \$5; demonstrator's ticket, \$5; lecturer's fees (full course), \$40; final examination, \$10. Students having paid fees in full for two years are admitted to third year upon payment of matriculation fee only.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1883-84	6	1	16.6
1884-85	13	2	15.3
1885-86	16	3	18.7
1886-87	15	1	6.6
1887-88	20	2	10.

Percentage of graduates to matriculates for past five years, 12.8.

ST. PAUL MEDICAL COLLEGE.

ST. PAUL, Minn.

ORGANIZED in 1885. The present college is a reorganization of the school of the same name founded in 1878, but which during the years 1886-1888 was associated with the Minnesota Hospital College. In 1888 it was merged into the Medical Department of the University of Minnesota.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1885-86	26	13	50.
1886-87	37	1	2.7
1887-88	34	5	14.7

Percentage of graduates to matriculates for past three years, 19.5.

MINNESOTA HOMEOPATHIC MEDICAL COLLEGE.

MINNEAPOLIS, Minn.

ORGANIZED in 1886. Held two courses of lectures, and in 1888 was merged into the Homeopathic Medical Department of the University of Minnesota.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentage of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1886-87	20	2	10.
1887-88	26	4	15.3

THE COLLEGE OF MEDICINE AND SURGERY.

(Medical Department of the University of Minnesota.)

MINNEAPOLIS, Minn. PERRY H. MILLARD, M. D., Dean, of the Department of Medicine.

ORGANIZED in 1883. The faculty were limited to the examination of applicants for the degrees of M. B., and M. D. Re-organized in 1888—under a new medical law passed by the legislature of 1887—absorbing the Minnesota Hospital College and the St. Paul Medical College.

The faculty embraces twenty-six professors, two adjunct professors and a demonstrator.

COURSE OF INSTRUCTION: One annual lecture term of six months. That of 1888-89 began October 1, 1888, and will close March 30, 1889. This is the essential part of the college year and consists of didactic lectures, practical demonstrations, laboratory work and clinical teaching in the lecture rooms and in the dispensaries and hospitals. Frequent class examinations, or "quizzes," will be conducted by each professor and are considered an important feature of the course. Attendance upon at least four-fifths of the lectures under each chair is requisite in order to entitle the student to enter for final examination or to a certificate of attendance. This will be followed by a spring term extending from April 1, to June 6, 1889. Graded course extending over three years required.

Lectures embrace: First year, anatomy, chemistry, histology, physiology, materia medica, laboratory work; second year, continuation of first year studies, and pathology, medical jurisprudence, theory and practice, clinical medicine, obstetrics, diseases of children, physical diagnosis, hygiene, surgery, clinical surgery, gynecology, clinical instruction; third year, continuation of second year studies (without those of the first year), neurology, ophthalmology, dermatology, laryngology, electro-therapy, otology, genito-urinary diseases, orthopaedia and clinical instruction in all branches.

REQUIREMENTS: For admission—applicants for admission to the College of Medicine and Surgery will be required to prove their fitness to enter the college: 1) by writing legibly and correctly an English composition of not less than two hundred words; 2) by translation of easy Latin prose, or, in lieu thereof, by passing an examination upon one of the following subjects: French, German or one of the Scandinavian languages; 3) by passing an examination upon either the elements of algebra, plane geometry, or botany; 4) by showing such a knowledge of physics as may be obtained from the study of Gage's, Avery's, or Balfour Stewart's Elements of Physics. It is provided, however, that no examination for admission shall be required of matriculates or graduates of any reputable college of science, literature and arts; of graduates of state high schools or normal schools; of persons holding a first-class teacher's certificate, or the certificate of the

high school board of the state of Minnesota. Students from other colleges may be admitted, however, to the second year of lectures in the college which corresponds to their previous course of study, by furnishing evidence, 1) of their possession of the specified preliminary education or its alternatives; 2) of the prosecution of their medical studies for one year; and 3) of attendance upon one full course of lectures in some recognized college of medicine. Admission may, similarly, be gained to the senior year by furnishing evidence, 1) of the necessary preliminary qualifications; 2) of the continuance of their professional studies for two years; and 3) of attendance upon two full courses of instruction in some recognized medical college, and, finally, by sustaining satisfactory examinations, or giving evidence of having already successfully passed examinations in the studies of the first and second years.

For graduation: Candidates for graduation and for the degrees conferred by the university upon graduates of the college, must possess the following qualifications: 1) they must be upwards of twenty-one years of age; 2) they must be of good moral character; 3) they must have spent three full years in the study of medicine; 4) they must have attended three full courses of lectures, the last of which, at least, must have been in the university, and the two former in this or some other recognized university or college of medicine; and 5) they must have sustained satisfactory examinations in the various branches of study, in accordance with the rules of the general faculty.

FEES: Matriculation (annually) for residents of Minnesota, \$10; for others, \$25; lectures, for residents of Minnesota, \$25; for others, \$35; graduation, \$10; material for dissection at cost.

COLLEGE OF HOMEOPATHIC MEDICINE AND SURGERY.

(Homeopathic Medical Department of the University of Minnesota.)

MINNEAPOLIS, MINN. PERRY H. MILLARD, M. D., Dean of the Department of Medicine

ORGANIZED IN 1888, absorbing the Minnesota Homeopathic Medical College.
The faculty embraces fourteen professors.

COURSE OF INSTRUCTION: Same as the College of Medicine and Surgery.

Lectures embrace: First year—Anatomy, physiology, chemistry, materia medica. Second year—Anatomy, physiology, chemistry and toxicology, materia medica, theory and practice, clinical medicine, obstetrics, surgery and clinical surgery, gynecology, physical diagnosis, paedology. Third year—As the second year, without the three first studies, and in addition, ophthalmology and otology, dermatology and venereal diseases, mental and nervous diseases, medical jurisprudence.

REQUIREMENTS: For admission and graduation, same as the College of Medicine and Surgery.

FEES: Same as the College of Medicine and Surgery.

MISSISSIPPI.

LICENSE TO PRACTICE MEDICINE.

In this State two Medical Censors in each Congressional district are chosen annually by the State Medical Association, who meet twice each year to examine applicants for license. All have to submit to examination regardless of diplomas. Section 17 of the "Act to Regulate the Practice of Medicine" permitted all physicians in the State to procure license, within four months after its passage, without examination. Under this section 1,785 physicians obtained license. About twenty old physicians who failed to apply until it was too late, have been permitted to practice by special act of the legislature. About one hundred have obtained license by examination since the passage of the law.

MISSOURI.

STATE BOARD OF HEALTH OF MISSOURI.

ST. LOUIS, MO. GEO. HOMAN, M. D., Secretary of the Board.

REORGANIZED July 2, 1885, having been then in existence two years. The provisions of the acts creating the Board and defining its duties and powers are, in all material points, the same as those in Illinois. Its standard of recognition of medical colleges as in good standing, is also the same as that established by the ILLINOIS BOARD.

Since its reorganization the Board has pursued the policy of issuing licenses to practice, or certificates, only to graduates—their compliance in every particular with existing requirements being insisted upon. The granting of certificates to non-graduate applicants upon examinations held by the Board to test their fitness to practice, is viewed with disfavor; and by a resolution passed at the meeting held in October, 1885, it was declared as the sense of the Board that this feature of the law should be repealed.

by the legislature—it being deemed provisional in nature and no longer beneficially operative; the course advised being that those seeking the legal right to practice in the State should prepare themselves in, and be duly vouched for as to fitness, by accredited medical schools, before coming before the Board for official recognition and license.

The possession by the Board of delegated police power, and its judicious exercise in the regulation of medical practice, the licensing of practitioners, the refusal to issue certificates to applicants guilty of unprofessional or dishonorable conduct, and the revocation of licenses for such cause, has been fully sustained and confirmed by the Supreme Court of the State in a decision rendered in December, 1884.

In the exercise of its discretion in the determination of what shall be held to constitute unprofessional or dishonorable conduct in physicians, the Board is declared to be beyond the reach of mandatory authority; and the same view is affirmed in regard to its power to deal with medical colleges, provided no element of discrimination in favor of or against particular systems or schools, legalized by the State, enters into its decisions.

MISSOURI MEDICAL COLLEGE.

(Medical Department of the University of the State of Missouri, Section No. 2.)

ST. LOUIS, MO. P. GERVAIS ROBINSON, M. D., LL. D., Dean, 311 Washington ave.

ORGANIZED in 1840 as the Medical Department of Kemper College. In 1845 it became the Medical Department of the University of the State of Missouri. In 1855 it became the Missouri Medical College.

The first class was graduated in 1841. It was suspended during the war, and no students were graduated in 1862, '63, '64 or '65. It is sometimes called, after its founder, The McDowall Medical College.

Under a contract of co-operation entered into June 2, 1886, between the University of the State of Missouri at Columbia and the Missouri Medical College at St. Louis, the College resumes its connection with the University. The following extracts from the contract set forth the material features of the present arrangement.

1st—The present Medical School of said University shall be designated and known in this arrangement of association as Section No. 1, of the Medical Department of the University of the State of Missouri, and the said Missouri Medical College at St. Louis shall be designated and known as Section No. 2, of the Medical Department of the University of the State of Missouri.

2d—Students who shall complete the preparatory studies and also the studies prescribed in the Junior year of Section No. 1, shall receive a certificate to that effect, properly signed by the President, and also the tickets of the several professors of said Section No. 1.

3d—Any student, on the presentation of such certificate and tickets to the said Missouri Medical College, designated as Section No. 2, shall be entitled to all the privileges of said Section No. 2, but shall be required to pursue only the subjects of study not complete in Section No. 1, and shall be required to pay only for the matriculation ticket, and for the tickets to the subjects of study and instruction required of him in Section No. 2.

4th—Each student, from Section No. 1, who completes the course of study and instruction in Section No. 2, as provided in these articles of agreement, upon passing satisfactory examination shall be entitled to a diploma jointly issued by the authorities controlling both sections, and all diplomas of Section No. 2, as well as the joint diplomas shall be signed and delivered by the President of said University.

5th—In the event of prizes, medals, or distinctions being awarded, the standing of students from Section No. 1 shall be credited to them in all such contests.

6th—The authorities controlling Section No. 2 are to exercise an active influence in all circulars and catalogues, to induce students to first complete their Junior course in Section No. 1 at Columbia.

It should be observed that students are not compelled to attend the school at Columbia, but may matriculate as heretofore at the College—there being no change in the requirements for graduation upon students so entering. The faculty, however, "strongly recommend that as many as can do so take the course of Section No. 1."

The faculty embraces thirteen professors, one adjunct professor, one demonstrator and seven clinical assistants.

COURSE OF INSTRUCTION: The forty-eighth regular graduating course began October 1, 1888, and will continue five months; the spring course will begin on the 11th of March, 1889, and continue until June 1. This course will consist of clinics and didactic lectures. A three years' graded course is recommended, but not required. Clinics are given at hospitals and dispensary.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology, otology, histology, biology, clinical medicine, clinical surgery, diseases of the nervous system, diseases of children, pharmacy and microscopy.

23 WEST MAIN STREET
WEBSTER, N.Y. 14580
(716) 872-4503

REQUIREMENTS: For admission—"A preliminary examination is required as a condition of admission to the regular winter course of lectures. This examination will be held at the beginning of the winter or spring term, as the student enters. It will embrace the branches of a good English education, such as are taught in the public schools, namely: mathematics, elementary principles of physics and English composition.

Gentlemen who are graduates of a literary or scientific college, academy, or high school, or who have passed the entrance examination of a literary college in good standing; those who have a county or state teacher's certificate; graduates in medicine; and students taking lectures for a special purpose other than securing the degree, will be exempt from this examination."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures and attendance upon clinics and dissections so long as a student of this college; 4) a satisfactory examination.

FEES: Matriculation, \$5; lectures, \$60; graduation, \$30; demonstrator, \$10.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Percentage of graduates to matriculates for past eleven years, 42.1.

ST. LOUIS MEDICAL COLLEGE.

ST. LOUIS, Mo. J. S. B. ALLEYNE, M. D., Dean, 3132 Washington Avenue.

ORGANIZED in 1841, as the Medical Department of the St. Louis University. In 1855 it was chartered as an independent institution under its present name. The first class was graduated in 1853. Classes have been graduated each subsequent year.

The faculty embraces fourteen professors, two adjunct professors, two directors, eight lecturers and six instructors.

COURSE OF INSTRUCTION: The forty-seventh annual session began on Tuesday, September 25, 1888, and will close on Friday, May 24, 1889. The course of study extends over a period of three years, and is graded. **Each session is eight months in length.**

Lectures embrace chemistry, anatomy, histology, physiology, materia medica and therapeutics, pathology, principles and practice of medicine, principles and practice of surgery, clinical medicine, clinical surgery, obstetrics, hygiene, medical jurisprudence, diseases of women and children, ophthalmology, otology, dermatology, nervous and mental diseases, diseases of the genito-urinary organs and syphilis, laryngology, and orthopaedic surgery.

REQUIREMENTS: For admission, candidates for admission will be received upon the presentation of a degree in letters or science from a college or scientific school, a certificate of graduation from a high school or of a first grade teacher's certificate; lacking these, must pass an examination upon the usual branches of a good English education. Students who have attended one or two courses of lectures in an accredited regular school of medicine may enter middle or senior class upon passing an examination in the studies of the first and second years.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) must have attended three regular courses of lectures; 5) satisfactory examination.

FEES: Matriculation, (paid on 2 only), \$5; term fee, including demonstrator, laboratory and hospital tickets, \$90; spring session, \$25; laboratory and anatomical material, \$10 yearly.

* Not including 2 graduates who matriculated, and 3 others who matriculated but did not attend lecture.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Percentage of graduant matriculates for past eleven years, 25.9.

MEDICAL DEPARTMENT, UNIVERSITY OF THE STATE OF MISSOURI.—Sec. No. 1.

COLUMBIA, Mo. WOODSON MOSS, M. D., Secretary.

FOUNDED in 1845. The first class was graduated in 1846. From 1845 to 1855 the medical department was situated at St. Louis. See Missouri Medical College. No degrees were conferred during the war, 1861-65.

The faculty embraces six professors.

COURSE OF INSTRUCTION: Only a junior medical course is now given, consisting of two semesters—October 1, 1888, to January 18, 1889, and January 18 to May 30, 1889. During the first semester the principles of obstetrics, anatomy, chemistry, physiology, medical botany, materia medica, the use of the microscope and experimental laboratory work are taught. During the second semester the studies embrace physiology, chemistry, toxicology, general and surgical pathology, materia medica, therapeutics, history and philosophy of medicine, and laboratory work. Dissecting is pursued through both terms.

"In addition to the above course, all students, before receiving the certificate which secures to its holders certain important advantages in Section No. 2 (see Missouri Medical College), as matriculates from Section No. 1 must pass a satisfactory examination upon the following subjects, to-wit:

"The first semester's work in Latin, physics, zoölogy and drawing, English composition, arithmetic and metrical system. Second semester, chemistry, political science, English composition, botany and book-keeping. These subjects are arranged in a continuous year's course for such as may have an imperfect common school education. Those who fail to make good this elementary academic work will only have, as hitherto, their tickets to show for work done in the junior medical course."

FEES: For the junior medical course, including demonstrator's ticket, \$50; for the year of academic work, \$20.

HUMBOLDT MEDICAL COLLEGE.

ST. LOUIS, Mo.

INCORPORATED February 28, 1855, as the St. Louis College of Medicine and Natural Sciences. It was an attempt at reform in medical education, and in addition to the ordinary studies, especial attention was paid to mineralogy, geology and general botany. The classes were divided into junior and senior, and the student was required to attend four courses of lectures. In 1859 it became the "Humboldt Institute, a German college for the promotion of Natural Sciences and Medicine." Under this name it was kept up until 1866, when the name of Humboldt Medical College was assumed. In 1867 the college terms were extended to two regular terms of seven months each, and two summer terms of two months each, making the whole term of attendance upon lectures eighteen months. There were thirteen professors and one lecturer in the faculty, and eleven matriculates for the session of 1866-67; four graduates in 1867 and twenty-eight matriculates, and four graduates in 1868.

Before the lectures commenced for the session of 1869-70 a split occurred in the faculty, a portion of the body organizing the College of Physicians and Surgeons. No lectures were delivered after the session of 1869-70.

HOMEOPATHIC MEDICAL COLLEGE OF MISSOURI.

ST. LOUIS, Mo. S. B. PARSONS, M. D., Dean, 2246 Washington avenue.

ORGANIZED originally in 1859; re-organized in 1882. Between the years 1869 and 1881 the following homeopathic colleges were organized in St. Louis, viz: The St. Louis

* Not including four graduates who matriculated.

College of Homeopathic Physicians and Surgeons, organized in 1869; held two sessions and suspended after session of 1870-71. The Homeopathic Medical College of St. Louis, organized 1873. The Hering Medical College, organized in 1880. In 1880 a portion of the faculty of the Homeopathic Medical College of Missouri seceded and revived the St. Louis College of Homeopathic Physicians and Surgeons, which again held two sessions; but after the session of 1881-82 this college and the Hering were consolidated with the Homeopathic Medical College of Missouri.

The faculty of this college embraces thirteen professors.

COURSE OF INSTRUCTION: The thirtieth annual course of lectures commenced September 17, 1888, and will continue six months. Women admitted upon the same terms as men. Clinics at hospital and at dispensary. Three courses of lectures recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology and otology, diseases of the nervous system, pedology, clinical medicine, clinical surgery, histology, neurology.

REQUIREMENTS: For admission—"The applicant must present a certificate of moral character; pass an examination in all the branches of an English education, or furnish evidence of scientific and literary qualifications."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; 5) satisfactory examination in all the branches taught.

FEES: Matriculation, \$5; lectures, \$50; graduation, \$25; demonstrator, \$10. For graded course, three years, in advance, \$100.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1882-83	41	11	27.
1883-84	39	18	48.7
1884-85	32	9	28.1

1886-87	39	14	35.9
1887-88	40*	16	40.

Percentage of graduates to matriculates for past six years, 37.1.

KANSAS CITY MEDICAL COLLEGE.

KANSAS CITY, MO. E. W. SCHAUFFLER, M. D., President of the Faculty.

ORGANIZED in 1869 as the College of Physicians and Surgeons of Kansas City. The first class was graduated in 1870; classes have been graduated each subsequent year. The school assumed its present name in 1880.

The faculty embraces thirteen professors—three lecturers, two demonstrators and one instructor.

COURSE OF INSTRUCTION: One graduating session annually of six full months; that for 1888-89 began September 12, 1888, and will close March 12, 1889. A graded three years' course is recommended, but not required. Hospital and dispensary clinics are given.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, ophthalmology and otology, histology, urinary chemistry, clinical medicine, clinical surgery, diseases of children and hygiene.

REQUIREMENTS: For admission—"A preliminary examination in English composition, mathematics and elementary physics will be required."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of instruction; 5) personal examination on the seven principal branches of medicine.

FEES: Matriculation (paid but once), \$5; lectures, \$50; demonstrator, \$10; graduation, \$20.

* Not including four graduates who matriculated.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

ST. LOUIS COLLEGE OF HOMEOPATHIC PHYSICIANS AND SURGEONS.

ST. LOUIS, Mo.

ORGANIZED in 1869. Suspended after the session of 1870-71. See Homeopathic Medical College of Missouri.

ST. LOUIS COLLEGE OF PHYSICIANS AND SURGEONS.

ST. LOUIS, Mo. LOUIS BAUER, M. D., Dean, 515 Pine street.

ORGANIZED in 1869, and in active operation until 1873, when it became extinct. Reorganized in 1879.

The faculty embraces sixteen professors, and three adjunct professors.

COURSE OF INSTRUCTION: The tenth annual regular session began September 10, 1888, and will close the second Saturday in March, 1889. A spring session will begin on the second Monday following the close of the regular session, and continue eight weeks. The spring sessions are optional. A three years' graded course is recommended but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, military surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology and otology, dermatology and syphilis, laryngology, clinical medicine, clinical surgery, toxicology, diseases of the nervous system, genito-urinary surgery, diseases of women and children, histology.

REQUIREMENTS: For admission—1) diploma of graduation from a good literary and scientific college or high school, or a first-grade teacher's certificate; or lacking this, a thorough examination in the branches of a good English education, including mathematics, English composition and elementary physics or natural philosophy; 2) not less than eighteen years of age; 3) credible evidence of good moral character.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) at least three years' study of medicine; 4) attendance on two courses of lectures.

FEES: Matriculation (paid once only), \$5; lecture tickets, (including demonstrator's fees), \$50; examination fee (not returnable), \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

MEDICAL COLLEGE OF KANSAS CITY.

KANSAS CITY, Mo.

ORGANIZED in 1869. Three sessions were held.—Extinct in 1873.

HOMEOPATHIC MEDICAL COLLEGE OF ST. LOUIS.

ST. LOUIS, Mo.

ORGANIZED in 1873. Extinct. Fraudulent.

ST. LOUIS HAHNEMANN MEDICAL COLLEGE.

ST. LOUIS, Mo.

ORGANIZED in 1873. One course of lectures delivered. Matriculates, 10; graduates, 4. Extinct in 1874.

AMERICAN MEDICAL COLLEGE.

(Eclectic.)

ST. LOUIS, Mo. E. YOUNKIN, M. D., Dean, 1015 Garrison Avenue.

ORGANIZED in 1873. The first class graduated in 1874. Classes were graduated twice annually from that date up to 1883, but only one annual graduating session is now held. The faculty embraces ten professors, four lecturers and one demonstrator.

COURSE OF INSTRUCTION: The regular graduating session of 1888-89 commenced September 3, 1888, and will continue until June 5, 1889; any twenty weeks of said period are considered as attendance upon one full session. Clinics are given at hospital and college. Women admitted upon the same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics, gynecology, hygiene, medical jurisprudence, pharmacy, ophthalmology, otology, diseases of children, clinical medicine, clinical surgery, diseases of the genito-urinary organs, toxicology, venereal diseases and diseases of skin, diseases of the nervous system.

"It is probable that after this college year, the time of instruction will be lengthened in all medical colleges in good standing, and the AMERICAN will not be inferior in these respects."

REQUIREMENTS: For admission—"Students who desire to enter this college must have at least fair literary attainments. Those who hold diplomas, or certificates of examination, from good literary or scientific colleges or high schools, or first grade teachers' certificates, will be accepted upon presenting their papers; lacking these, they will be required to pass the preliminary examination. This examination will be practical rather than technical, its objects being to determine the candidate's general knowledge and natural capacity, and whether his previous acquirements have been sufficient to enable him to pursue the study of medicine to advantage."

For graduation: 1) good moral character; 2) fair English education; 3) three years' study; 4) two full courses of lectures; 5) twenty-one years of age; 6) satisfactory final examination.

FEES: Tickets for the session of twenty weeks, including matriculation and demonstrator's ticket, \$75; for one college year of ten months, \$100; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

Percentage of graduates to matriculates for past eleven years, 41.7.

ST. LOUIS ECLECTIC MEDICAL COLLEGE.

ST. LOUIS, Mo.

ORGANIZED in 1874.—Extinct in 1883. Closed by legal process.

*Not including ten practitioners who matriculated.

ST. JOSEPH HOSPITAL MEDICAL COLLEGE.

ST. JOSEPH, Mo.

ORGANIZED in 1876. Five classes, containing forty-five students, were graduated. In 1882 this college was merged into the St. Joseph Medical College (*vide infra*).

COLLEGE OF PHYSICIANS AND SURGEONS OF ST. JOSEPH.

ST. JOSEPH, Mo.

ORGANIZED in 1878. Three classes, containing fifty students, were graduated. In 1882 this college was merged into the St. Joseph Medical College (*vide infra*).

JOPLIN COLLEGE OF PHYSICIANS AND SURGEONS.

JOPLIN, Mo.

ORGANIZED in 1880. The first class was graduated in 1881. The school became extinct in 1884. None of its diplomas recognized.

HERING MEDICAL COLLEGE.

(Homeopathic.)

ST. LOUIS, Mo.

ORGANIZED in 1880. See *Homeopathic College of Missouri*.

NORTHWESTERN MEDICAL COLLEGE, ST. JOSEPH, MO.

ST. JOSEPH, Mo. T. E. POTTER, M. D., Secretary, 513 Francis street.

ORGANIZED in 1880. The first class was graduated in 1881.

The faculty embraces nine professors, three lecturers and one demonstrator.

COURSE OF INSTRUCTION: The regular graduating term begins the first Monday in October and continues five months. Attendance on three courses of lectures is recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, toxicology, materia medica and therapeutics, theory and practice of medicine, pathology, obstetrics, and gynecology, hygiene, medical jurisprudence, diseases of children, diseases of the nervous system, clinical medicine, clinical surgery, diseases of the chest, diseases of women, dermatology.

REQUIREMENTS: For admission—"Proper evidence of a good common English education must be furnished by matriculants. These evidences must consist of diploma from high school, academy, literary college, or teachers' certificate from county or state superintendent of public schools. Lacking in some one of these evidences, a preliminary examination by the president of the faculty."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses; 4) satisfactory examination; 5) thesis.

FEES: Matriculation, \$5; demonstrator, \$10; each full course of lectures, \$30; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

1886-87	31	13	41.9
1887-88	30	11	36.6

Percentage of graduates to matriculates for past eight years, 47.1.

Diplomas recognized conditionally.

JOPLIN MEDICAL COLLEGE.

JOPLIN, Mo.

ORGANIZED in 1881.—Extinct in 1882.

AMERICAN ANTHROPOLOGICAL UNIVERSITY OF ST. LOUIS.

A diploma from this University was presented for record in Indiana in 1885. Diplomas of this institution were sold in Scotland several years ago, and the attention of the Board was called to the same by Hon. John Eaton, then U. S. Commissioner of Education. This is the first instance that has come to the knowledge of the Board of any diplomas of this school being held in this country, and presented as a qualification to practice medicine. Through prosecutions during the year 1885, in Germany, it has been ascertained that parties held diplomas from this institution in that country.

UNIVERSITY OF KANSAS CITY, MEDICAL DEPARTMENT.

KANSAS CITY, MO. S. EMORY LANPHEAR, M. D., Secretary, Cor. 9th and Main sts.

ORGANIZED in 1881. The first class was graduated in 1882.

The faculty embraces seventeen professors and a demonstrator.

COURSE OF INSTRUCTION: The eighth annual session commenced September 17, 1888, and continues twenty-six weeks. The spring course opens about the middle of March, and continues ten weeks. Instruction is given by lectures, clinics, practical courses in the dissecting room, laboratories, and by repeated examinations. A three-years' course is recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, surgery, obstetrics and gynecology, normal histology, medical jurisprudence, ophthalmology and otology, dermatology, nervous and mental diseases, orthopedic surgery, diseases of the throat and chest, diseases of women and children, pharmacy, genitourinary diseases, clinical medicine and clinical surgery.

REQUIREMENTS: For admission—"Every applicant must be of good moral character, and possess the evidence of a good English education. He should also possess a sufficient knowledge of Latin to read and write current prescriptions. Every candidate for matriculation, unless a graduate of some college, high school or academy, or holding a certificate of some literary institution, will be examined to ascertain his fitness for entering upon and appreciating the study of medicine."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; 5) clinical instruction during one term; 6) dissection of each region of the body; 7) full and satisfactory examination in each branch.

FEES: Matriculation, \$5; lectures, \$50; demonstrator, \$10; practical chemistry, optional, chemicals at cost, \$10; graduation, \$20.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1881-82	25	11	44.
1882-83	28	8	38.6
1883-84	45	14	31.1
1884-85	35	16	45.7
1885-86	30	17	56.6
1886-87	24	6	25.
1887-88	29	8	27.5

Percentage of graduates to matriculates for past seven years, 37+.

NOTE:--A three years' course will soon be made obligatory.

ENSWORTH MEDICAL COLLEGE.

ST. JOSEPH, MO. JACOB GEIGER, M. D., Dean.

ORGANIZED in 1882, as the St. Joseph Medical College, by the union of the St. Joseph Hospital Medical College and the College of Physicians and Surgeons of St. Joseph. Re-organized in 1888 under above title. First class was graduated in 1883.

The faculty embraces twelve professors, two lecturers and one demonstrator.

COURSE OF INSTRUCTION: The twelfth annual session began October 1, 1888, and will continue five months; a three years' graded course is recommended but not required.

Lectures embrace gynecology, obstetrics, surgery, diseases of children, principles and practice of medicine, materia medica and therapeutics, physiology, hygiene, chemistry, toxicology, anatomy, descriptive and surgical anatomy, practical anatomy, medical jurisprudence, ophthalmology and otology, pathology and microscopy, diseases of the nervous system, military and railroad surgery and dental surgery.

REQUIREMENTS: For admission—1) good moral character; 2) a diploma of graduation from a good literary or scientific college or school or a first grade teachers' certificate; 3) lacking this must pass an examination in the branches of a common school education, before a committee of the faculty.

For graduation: 1) twenty-one years of age and of good moral character; 2) have studied medicine for three years; 3) two full courses of lectures; 4) must have dissected each region of the body; 5) must have attended lectures regularly; 6) satisfactory examination in all branches.

FEES: Matriculation (paid but once), \$5; lectures, \$35; demonstrator and material, \$10. graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1882-83	21	8	38.3
1883-84	35	6	17.1

WOMAN'S MEDICAL COLLEGE OF ST. LOUIS.

(Homeopathic.)

ST. LOUIS, MO.

ORGANIZED in 1883. Extinct, 1884.

OCCIDENTAL COLLEGE OF PHYSICIANS AND SURGEONS.

JOPLIN, MO.

INCORPORATED, 1886. Extinct, 1887.

BEAUMONT HOSPITAL MEDICAL COLLEGE.

ST. LOUIS, MO. W. B. OUTTEN, M. D., Dean, 16th and Walnut streets

ORGANIZED in 1886. The faculty embraces twenty professors, one demonstrator and four clinical assistants.

* Not including 1 graduate who matriculated.

COURSE OF INSTRUCTION: A preliminary session free to all students was held during the month of September. The regular winter session commenced October 3, 1888, and will continue until March 31, 1889. Three courses of lectures recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, mental and nervous diseases, ophthalmology, pathology, dermatology, syphilology, otology, diseases of children, orthopedic surgery, diseases of the throat and chest and climatology, genito-urinary surgery, clinical medicine and clinical surgery.

REQUIREMENTS: For admission,—“Before matriculating every student must present evidence of a fair common school education and of good moral character.”

For graduation: 1) good moral character; 2) twenty-one years of age; 3) two full courses of lectures; 4) three years' study; 5) satisfactory examinations.

FEES: For first course students, in full, \$70; for second course students, in full, \$90.

No charges for matriculation, demonstrator's or hospital tickets. Diplomas gratis to those passing satisfactory examination.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

KANSAS CITY HOMEOPATHIC MEDICAL COLLEGE.

KANSAS CITY, MO. F. F. CASSEDAY, M. D., Dean, 548 Main street.

ORGANIZED in 1888.

The faculty embraces eleven professors, two lecturers and one demonstrator.

COURSE OF INSTRUCTION: The first annual session began October 1, 1888, and will continue until the last of March, 1889. This will be followed by a spring course commencing April 15, and continuing until June. A three years' graded course is recommended but not required. Women admitted upon same terms as men.

Lectures embrace anatomy, practical anatomy, physiology, chemistry, toxicology, pharmacy, materia medica and therapeutics, practice of medicine and pathology, ophthalmology, otology, physical diagnosis, surgery, obstetrics, gynecology, diseases of the nervous system, medical jurisprudence, hygiene.

REQUIREMENTS: For admission, 1) good moral character; 2) diploma from some literary or scientific college, high school or academy, or a county or State teacher's certificate, or the certificate of the examining board of any accredited medical society; 3) for those, a satisfactory examination in elementary mathematics, English composition and elementary physics and natural philosophy.

For graduation: 1) twenty-one years of age; 2) good moral and professional standing; 3) three years' study of medicine; 4) one course of practical anatomy; 5) two courses of lectures; 6) satisfactory examination.

FEES: Matriculation (once only), \$5; lectures, \$10; graduation, \$25.

NOTE:--During and after the session of 1889-90, three full courses of lectures will be required for graduation.

NEBRASKA.

OMAHA MEDICAL COLLEGE.

OMAHA, Neb. P. S. LEISENRING, M. D., Secretary, Sixteenth street and Capital avenue.

ORGANIZED in 1881. The outgrowth of a preparatory school, established in 1880, under the name of the Nebraska School of Medicine.

The faculty embraces fifteen professors, one adjunct professor and a demonstrator.

* Not including two graduates who matriculated and upon whom the *ad eundem* degree was conferred.

COURSE OF INSTRUCTION: The regular graduating session of 1888-89 began October 2, 1888, and will close March 27, 1889. A three years' graded course is recommended, but not required. The members of the faculty devote a portion of each day to examinations in the subjects of the previous lectures. Clinics are given at the college and in the hospital.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology and otology, laryngology, toxicology, diseases of children, diseases of the mind, clinical medicine and clinical surgery.

REQUIREMENTS: For admission, "All candidates must present to the faculty satisfactory evidence of a good moral character, and must be at least eighteen years of age, and unless holding a certificate or diploma from some literary institution, must pass an examination showing a fair English education."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) "such primary education as is clearly requisite for a proper standing with the public and the profession;" 4) three years' study; 5) two full courses; 6) clinical instruction for two sessions; 7) practical anatomy (to the extent of having dissected all the regions of the body), and chemistry, one course; 8) full and satisfactory written and oral examination in each branch taught; 9) close attendance on all lectures.

FEES: Matriculation, \$5; demonstrator, \$5; lectures, \$45; graduation, \$25; hospital, \$5.

NEW HAMPSHIRE.

DARTMOUTH MEDICAL COLLEGE.

(New Hampshire Medical Institute.)

HANOVER, N. H. CARTON P. FROST, M. D., Dean of the Faculty.

ORGANIZED in 1797. The first class was graduated in 1798. Classes have been graduated each subsequent year.

The faculty embraces eleven professors and one lecturer.

COURSE OF INSTRUCTION: The collegiate year is divided into a lecture course and a recitation term. The regular lecture course for 1888 began July 12, and will close December 1; the recitation term begins January 4, 1889, and continues until June 20. "Clinical instruction will be given to as large an extent as circumstances will permit."

Lectures as follows: The courses in surgery and practice consist of seventy lectures each, with quizzes in addition; in physiology, obstetrics and therapeutics, fifty lectures each; in gynecology, of twenty-five lectures; shorter courses in medical jurisprudence, mental diseases, ophthalmology and hygiene; the course in chemistry consists of lectures and laboratory work.

REQUIREMENTS: For admission—"Applicants must be eighteen years of age, and unless already matriculates of some regular medical college or graduates of some reputable college, academy or high school, will be examined as to their fitness for entering upon and appreciating the technical study of medicine."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) three full years' study; 5) dissected all parts of the cadaver; 6) shall pass satisfactory written examination on all branches taught in the school—anatomy, physiology, chemistry, surgery, obstetrics, therapeutics, gynecology and practice. Two examinations annually.

FEES: Matriculation, \$5; lectures, \$77; graduation, \$25; chemicals, \$2; recitation term, \$10; chemistry, extra, \$15; anatomical material at cost.

NEW JERSEY.

MEDICAL SOCIETY OF NEW JERSEY.

ORGANIZED in 1776. The society does not give instruction. It was authorized to confer the degree of M. D., in 1866. The section of the act to reorganize the Medical Society of New Jersey and conferring this power, is as follows: "And be it enacted that the society shall have the authority to confer the degree of M. D., under such rules and regulations as they may adopt, which degree shall be deemed sufficient evidence of a regularly educated and qualified practitioner of the healing art."

Regulations of the society concerning the conferring of the degree of Doctor of Medicine and honorary membership:

SECTION 1. Candidates for the degree of Medicina Doctor may apply to any district society of this State, and shall be admitted to examination under the following rules and regulations—

1st. Each district society shall appoint annually, or *pro re nata*, a committee of not less than five members, who shall conduct the examination.

2d. All examinations shall be in the presence of the society at a regular meeting and no candidate shall be examined until he has given satisfactory evidence of having reached the age of twenty-one years, is of good moral character, and has pursued his medical studies under the care of some regular practitioner for the term of three years, including two courses of lectures in some medical institution in affiliation with the American Medical Association. If he has not graduated at some academic college, then the society shall be satisfied that his preliminary education has been such as to qualify him for the study and practice of medicine.

3d. The examination shall extend to all the branches taught in the medical school recognized as aforesaid; and the candidate shall then be balloted for by the society; and if he shall receive the approving votes of two-thirds of all the members present, the presiding officer shall give a certificate to that effect to the candidate.

4th. This certificate may be presented at the next or any subsequent regular meeting of this society, not extending beyond the period of three years, with a written thesis upon some medical subject; and if upon a ballot they shall be approved by a majority of the members present, the candidate, upon the payment of fifteen dollars, shall be entitled to receive a diploma.

The honorary degree of M. D. may be conferred by the society, by a vote by ballot of three-fourths of the members present; provided the nomination shall have been made at a preceding meeting, and provided the candidate has been a regular practitioner for the period of seven years.

§ 2. Practitioners of medicine of this or any other State may be admitted as honorary members by a vote by ballot of the society, provided that the nomination be made at a previous meeting. The nomination shall be referred to a special committee of three appointed by the president, and the nominee shall not be considered as eligible to election till the committee reports. The privilege of honorary membership shall not confer the right to vote.

During the past year one of the licentiates of this society took out a certificate from the Illinois State Board of Health.

GRADUATES: Eight or ten diplomas have been conferred. Two were conferred in 1881, and one at the meeting of the society in 1883.

NEW YORK.

AN ACT TO REGULATE THE LICENSING AND REGISTRATION OF PHYSICIANS AND SURGEONS, AND TO CODIFY THE MEDICAL LAWS OF THE STATE OF NEW YORK.

The People of the State of New York, represented in Senate and Assembly do enact as follows:

SECTION 1. No person shall practice physic or surgery in this State who shall not have attained the age of twenty-one years; and no person shall practice as aforesaid unless he or she shall be, at the time this act shall take effect, a person lawfully engaged in such practice in this State under license or authority conferred by its laws then in force, and lawfully registered pursuant to chapter five hundred and thirteen of the laws of eighteen hundred and eighty, and the acts amendatory thereof, or unless he or she shall be licensed or authorized so to practice by the provisions of this act, and registered as herein prescribed.

§ 2. From and after the date of the taking effect of this act, no person not theretofore licensed or authorized to practice physic or surgery in this State shall be deemed so licensed or authorized except one of the three following classes:

First. All who shall have been graduated from an incorporated medical school or college in this State with the degree of doctor of medicine, after substantial compliance with all the requirements of the general laws and of the charter of said corporation regulating the term and amount of study, attendance and attainment requisite to obtain said degree; provided that no person shall receive the degree of doctor of medicine, or be licensed to practice physic or surgery in this State unless after the age of eighteen he shall have pursued the study of medical science for at least three years, in a chartered medical school or with some physician or surgeon duly authorized by law to practice physic or surgery; and shall have attended two complete courses of lectures in some legally incorporated medical school or college, in good standing at the time of such attendance, prior to the granting to him or her of a diploma or license; provided, further, that two courses of lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirement.

Second. All who have received said degree from the regents of the university of the State of New York, after substantial compliance with the legal requisites preliminary to its attainment, and after examination by a legally constituted board of medical examiners of this State.

Third. All who, having been graduated from incorporated medical schools or colleges without the State as doctors of medicine, or licensed to practice physic or surgery under the laws of those European countries in which said degree does not confer the right so to practice, shall procure their diplomas from said corporations or their licenses from such countries, to be indorsed by the faculty of an incorporated medical school or college within this State, or by the regents of the university on the recommendation of a legally constituted board of medical examiners of this State. Every such indorsement shall be in form of schedule A or of schedule B provided by the tenth section of

this act. Every corporation or board so indorsing shall keep a record of their indorsements, and may require applicants to verify their statements under oath; any indorsement made with fraudulent intent, or gross carelessness or ignorance, shall be deemed a misdemeanor, and shall subject the indorser or indorsers, upon conviction thereof, to a fine of two hundred and fifty dollars.

§ 3. Every person who, at the time this act shall take effect, shall be practicing lawfully physic or surgery in this State, under the authority and license conferred by the laws then in force, but who shall not be then duly registered in the county where he or she practices; and every person who shall thereafter become lawfully authorized or licensed to practice physic or surgery in this State, shall register in a book to be kept in the clerk's office of the county in which such practice is carried on, his or her name, residence, place and date of birth, and authority for practicing as aforesaid. Every person who shall apply to register as a physician or surgeon shall be required, before registration, to subscribe and verify by oath or affirmation, before a person qualified to administer oaths in this State, an affidavit which shall be filed and preserved in a bound volume. This affidavit shall be in the form prescribed in schedule C, provided by the tenth section of this act. Every person registering as aforesaid shall exhibit to the county clerk his or her diploma or license, or in case of loss, a copy of either, legally certified as are copies of documents admitted in evidence, or a duly attested transcript of the record of its conferment from the body conferring it, upon which the said clerk shall indorse, or stamp, his name and the words "Presented and registered as..... authority to practice physic and surgery by..... on the..... day of..... in the clerk's office of..... county." The said clerk shall also give to every registered physician or surgeon a certificate in the form of schedule D, provided by the tenth section of this act, for all of his said services the county clerk shall receive, as a total fee for registration, affidavit and certificate the sum of one dollar. It is provided, however, that nothing in this act shall require any physician or surgeon who shall have duly registered lawful authority to practice as such, conformably to the provisions of chapter five hundred and thirteen of the laws of eighteen hundred and eighty, and the acts amendatory thereof, to register again under the provisions of this act, in any county where he or she shall have registered already.

§ 4. A practicing physician or surgeon, having registered lawful authority to practice physic or surgery in one county, who shall remove his practice or part thereof to or regularly engaged in practice or open an office in another county, shall exhibit in person to the clerk of such other county, or shall send to him through the mail by registered letter, his certificate of registration, and if such certificate shows lawful authority to have been registered, said clerk thereupon shall register said applicant in said latter county, on receipt of a fee of twenty-five cents. The clerk shall stamp or indorse upon such certificate the words "Registered also in..... county," and return the same; and every certificate and indorsement made pursuant to the provisions of this act shall be *prima facie* evidence in any legal proceeding that the person named has registered in the office issuing the same the authority stated in the transcript.

§ 5. Every person now licensed to practice physic or surgery, in this State under the laws thereof in force at the time of the conferment of such license, unless he or she already shall have registered his or her name, residence, place of birth and authority so to practice pursuant to the provisions of section two of chapter five hundred and thirteen of the Laws of eighteen hundred and eighty and the acts amendatory thereof, shall comply with the requirements of said chapter on or before the first day of October, eighteen hundred and eighty-seven, and thereafter no person shall be entitled to register any authority to practice physic or surgery, except the license conferred under this act, and the laws enacted hereafter, and no registration shall be considered valid as such unless the authority registered constituted at the time of registration a license under the laws of this State then in force; provided that nothing in this section shall be construed to prohibit or suspend any prosecution for non-registration under said section instituted prior to said first day of October, eighteen hundred and eighty-seven; and further provided, that no diploma or license conferred upon a person not actually in attendance at the lectures, instruction and examination of the corporation conferring the same, or not possessed at the time of its conferment of the requirements then demanded of medical students in this State as a condition of their becoming licensed so to practice, shall be deemed lawful authority to practice physic or surgery in this State.

§ 6. No person shall be licensed or permitted to practice physic or surgery in this State who has been convicted of a felony by any court of competent jurisdiction; and if any person who is or hereafter shall be duly licensed to practice physic or surgery in this State, shall be convicted of a felony, as aforesaid, his or her license so to practice, if any, shall be revoked by the fact of such conviction having been had. Any person who shall willfully swear falsely to any statement contained in any affidavit made pursuant to the provisions of this act shall be deemed guilty of a felony, and subject to conviction and punishment for perjury; any person who falsely and without authority shall counterfeit, make or alter any diploma, certificate or instrument constituting a license to practice physic or surgery within this State, or any certificate or indorsement given in pursuance of this act, shall be deemed guilty of a felony, and be subject to conviction and punishment for forgery in the second degree; any person who shall practice physic or surgery under a false or assumed name, or who shall falsely personate another practitioner of a like or different name, shall be deemed guilty of a felony, and shall be subject to conviction and punishment for false personation; and any person guilty of violating any of the other provisions of this act, not otherwise specifically punished herein, or who shall buy, sell or fraudulently obtain any medical diploma, license, record or registration, or who shall aid or abet such buying, selling or fraudulently obtaining thereof, or who shall practice physic or surgery in this State under cover of a diploma or license that shall have been illegally obtained, or that shall have been signed or issued unlawfully or under fraudulent representations, or mistake of fact in material regard, or who, after conviction of a felony, as aforesaid, shall attempt to practice

physic or surgery in this State, and any person who shall assume the title of doctor of medicine, or append the letters "M. D." to his or her name, without having received the degree of doctor of medicine from some school, college or board empowered by law to confer said degree or title, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than two hundred and fifty dollars, or imprisonment for six months for the first offense, and upon conviction of a subsequent offense, by a fine of not less than five hundred dollars or imprisonment for not less than one year or by both fine and imprisonment. Any person who, not being then lawfully authorized to practice physic or surgery, in this State and so registered according to law, shall practice on or after the first day of October, eighteen hundred and eighty-seven, physic or surgery within this State without the license and registration provided for in this act, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than fifty dollars for the first offense, and for each subsequent offense by a fine of not less than one hundred dollars, or by imprisonment for not less than one hundred days, or by both fine and imprisonment. When any prosecution under this act is made on the complaint of a lawfully incorporated medical society of this State or a county society entitled to representation in a State society or association, the fines when collected shall be paid to the society making the complaint, and any excess of the amount of fines so paid over the expense incurred by the said society in enforcing the medical law of this State, shall be paid at the end of the year to the county treasurer, for the use of the poor of said county.

§ 7. The duly incorporated medical societies of any county in which any person shall practice physic or surgery without lawful authority or registration may, upon proof of such practice, recover from such practitioner, in an action before any justice of the peace, a penalty of twenty-five dollars and the costs of the action for the first judgment, and upon every subsequent judgment for the same offense a penalty of fifty dollars and the costs of the action; provided that said societies shall pay to the county treasurer for the use of the poor of said county any surplus that may accrue in their hands from the excess of fines and penalties collected over the disbursements of said society for counsel fees and the expenses incident to the enforcement of this act by them.

§ 8. Nothing in this act shall be construed to punish commissioned medical officers serving in the army or navy of the United States, or in the United States marine hospital service, while so commissioned, or any one while actually serving as a member of the resident medical staff of any legally incorporated hospital, or any legally qualified and registered dentist exclusively engaged in practicing the art of dentistry, or interfere with manufacturers of artificial eyes, limbs or orthopedical instruments or trusses of any kind from fitting such instruments on persons in need thereof; or any lawfully qualified physicians and surgeons residing in other states or countries meeting registered physicians and surgeons of this State in consultation, or any physician or surgeon residing on the border of a neighboring state, and duly authorized under the laws thereof to practice physic or surgery therein, whose practice extends into the limits of this State; providing that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of the State of New York; or physicians duly registered in one county of this State called to attend isolated cases in another county; but not residing or habitually practicing therein.

§ 9. The following acts and parts of acts are hereby expressly repealed, to-wit: Sections eight to twenty-two inclusive, of title seven of chapter fourteen of part one of the Revised Statutes; also, of chapter one hundred and thirty-eight of the laws of eighteen hundred and six, that provided for the examination and admission of medical students to practice, and for penalties for practicing physic and surgery without a diploma or other lawful authority; also section or paragraph fifth of chapter one hundred and four of the laws of eighteen hundred and seven; also sections nine, ten, eighteen and all of section eleven following and including the words "whose duty" of chapter ninety-four of the laws of eighteen hundred and thirteen; also sections one, two, four and all of section three following and including the words "any three" of chapter two hundred and six of the laws of eighteen hundred and eighteen; also section two of chapter two hundred and thirty-seven of the laws of eighteen hundred and nineteen; also chapter one hundred and twenty-six of the laws of eighteen hundred and thirty; also sections one, two and four of chapter five hundred and thirty-two of the laws of eighteen hundred and thirty-six; also chapter sixty-four of the laws of eighteen hundred and forty-one; also chapter two hundred and seventy-five of the laws of eighteen hundred and forty-four; also chapter four hundred and thirty-six of the laws of eighteen hundred and seventy-four; also chapter five hundred and thirteen of the laws of eighteen hundred and eighty; also chapter one hundred and eighty-six of the laws of eighteen hundred and eighty-one; also chapters four hundred and eleven and four hundred and forty-five of the laws of eighteen hundred and eighty-four; also section three hundred and fifty-six of the Penal Code. And also all acts or parts of acts authorizing any incorporated school or college to confer the degree of doctor of medicine *causa honoris* or *ad eundem*, or otherwise, than upon duly graduated students in course; and all other acts or parts of acts inconsistent with this act are hereby repealed. And it is provided that the degree of doctor of medicine conferred *causa honoris* or *ad eundem gradum*, shall not be a qualification for the practice of physic and surgery in this State. And whereas, it is the purpose of this act to codify the statutory provisions of this State regulating the admission of individuals to the practice of physic and surgery, and the punishment of those practicing either physic or surgery without authority. It is further provided that the specific repeal herein of any portion of an act that may have been heretofore repealed, expressly or by implication, shall not be construed to revive the remaining part thereof.

§ 10. Section ten shall embrace the following schedules, namely, A, B, C and D:

SCHEDULE A.

To all whom it may concern, greeting:

A. B., having on the day of eighteen hundred and presented to the faculty of a diploma, purporting to have been issued on ... day of to said A. B., conferring on.....the degree of doctor of medicine, and it being made certain to us by inquiry and examination that the said..... at the date of said diploma, was a medical college or school, duly incorporated, in good standing and authorized to confer the degree of doctor of medicine, and also that the said A. B. is the identical person upon whom the said diploma was conferred, and is also a person of good moral character, who has pursued a course of study equivalent to that required of a doctor of medicine by said faculty, and is sufficiently well versed in the knowledge of physic and surgery to qualify.....to practice the same.

Now, therefore, the said faculty have caused this indorsement and the seal of the said..... to be placed upon said diploma.

(Signed) by the dean or proper officer.

[SEAL.]

SCHEDULE B.

To all whom it may concern, greeting:

A. B., having on the ... day of presented to the faculty of a license purporting to have been issued to said..... a authority to practice physic and surgery in all branches; and it being made certain to us by inquiry and examination that A. B. is the identical person on whom the license was conferred; that it is not necessary in the country in which it was conferred that a licensed practitioner of physic and surgery should have the degree of doctor of medicine, and that a license in form and substance such as the one hereby endorsed is the usual and sufficient authority to practice physic or surgery therein; and, further, that said A. B. is a person of good moral character, who has pursued a course of study equivalent to that required of a doctor of medicine by our faculty, and is sufficiently versed in the knowledge of physic and surgery to practice the same.

Now, therefore, the said faculty have caused this indorsement and the seal of the said..... to be placed upon said license.

(Signed) by the dean or proper officer.

[SEAL.]

SCHEDULE C.

STATE OF NEW YORK,) ss.
COUNTY OF)

..... being duly sworn, says that h..... name is; that was born in on the day of in the year; that now resides at number ... street, in the city of and intends to practice physic and surgery in the county of; that h..... authority so to practice is a license (or diploma), conferred upon h..... on the day of in the year by a duly incorporated medical school (or college), or a legally constituted board of medical examiners of the State of New York, authorized at the date of conferring said to confer the same and being then in good standing (or in case of a European license, describe the source thereof), and the authority under which it was conferred. Affiant further says that is the person named in the said and had before receiving the same, fully and substantially complied with the requisites as to attendance, terms and amount of study and examinations required by the laws of the State and the charter and regulations of said as preliminary and necessary to the conferment thereof. Affiant further says that no money was paid by for said except the regular fees paid by all applicants therefor; that no fraud, misrepresentation or mistake in any material regard was employed by any one, or occurred, in order that said should be conferred on affiant. (Where indorsement has been made of a license or diploma granted without the state, this additional clause shall be verified.)

And affiant further says that the said diploma or license was indorsed on the..... day of eighteen hundred and by the faculty of upon satisfactory proof by affiant of all the facts hereinabove recited, and that had followed a course of study equivalent to the curriculum of said,, and was competent to practice physic and surgery.

Sworn to before me, this)
..... day of)

SCHEDULE D.

To whom it may concern: Know ye, that on the day of A. B. having first subscribed and verified an affidavit in the form of schedule C of chapter.... of the laws of eighteen hundred and eighty-seven, made an entry in the register of physicians and surgeons, kept in the office of the clerk of county, of which entry I certify the following to be a transcript:

NAME.	Birthplace.	Residence.	Date, source and character of license or diploma.	Indorsed by what faculty.	Remarks.

In witness whereof I have set my hand and official seal this day of

..... county.

[SEAL.]

§ II. This act shall take effect immediately.

COLLEGE OF PHYSICIANS AND SURGEONS IN THE CITY OF NEW YORK.

(*Medical Department of Columbia College.*)

NEW YORK CITY. JOHN G. CURTIS, M. D., Secretary, 437 West 59th street.

ORGANIZED in 1807, by the regents of the University of the State of New York, as their medical department, under the name of the College of Physicians and Surgeons in the City of New York. The institution was connected with the Columbia College for a short period in 1814, and became permanently connected with it in 1869, when the Medical Department of Columbia College was added to the original title. The original Medical Department of Columbia College was organized in 1767; it was suspended during the war of the Revolution, and became extinct in 1813. The first class was graduated by this college in 1811. Classes have been graduated each subsequent year.

The faculty embraces sixteen professors, two adjunct professors, seven clinical professors, two clinical lecturers, two adjunct lecturers, one demonstrator, six assistants to chairs, one instructor in histology, one director of laboratory, nine chiefs of clinics and thirty-three clinical assistants.

COURSE OF INSTRUCTION: The session of 1888-89 began October 1, 1888, and will end June 15, 1889. Instruction consists of didactic lectures with demonstrations, clinical teaching, recitations, and practical teaching in subjects involving manipulation. Clinics at hospitals and dispensaries free to matriculates and optional. Many special courses, fees varying from \$12 to \$20. A three years' graded course is required.

Instruction embraces: First year—Didactic lectures in: 1) anatomy; 2) physiology; 3) physics and chemistry. Practical work in: 1) dissection; 2) normal histology; 3) physiological and medical chemistry. Second year—Didactic lectures in: 1) anatomy; 2) physiology; 3) physics and chemistry; 4) materia medica and therapeutics, including hygiene; 5) pathology and practical medicine; 6) principles and practice of surgery; 7) obstetrics and gynecology. Dissection. Clinical lectures at the Vanderbilt clinic in: 1) general medicine; 2) general surgery. Practical clinical work in: 1) general medicine; 2) general surgery; 3) pathology and practical medicine; 4) principles and practice of surgery; 5) obstetrics and gynecology; 6) ophthalmology. Clinical lectures at the Vanderbilt clinic in: 1) diseases of the mind and nervous system; 2) gynecology; 3) diseases of children; 4) genito-urinary diseases, including syphilis; 5) diseases of the skin; 6) diseases of the throat; 7) diseases of the eye; 8) diseases of the ear. Practical clinical work in the eight subjects enumerated immediately above under the head of "clinical lectures," and in obstetrics. Practical work in pathology and pathological histology.

REQUIREMENTS: For admission—For the session of 1888-89, and thereafter, persons who seek to matriculate at this college for the first time, are required to undergo examinations for admission, with the following exceptions, viz: 1) applicants who declare themselves not to be candidates for the degree of M. D. from this college; 2) applicants who present certificates of having been successful at examinations for admission to the School of Arts or School of Mines of Columbia College; 3) applicants who present diplomas or certificates of graduation in arts, philosophy, science, or medicine, from recognized colleges or schools of science; 4) applicants who present certificates from recognized colleges or schools of science, to the effect that they have studied satisfactorily any or all the subjects required for admission to this college, are admitted without examination in the subjects so certified to. The examinations for admission are in writing, and in the following subjects, namely: 1) English—The writing of a composition, in the form of a letter of not less than three hundred words, the subject to be announced at the time of the English examination. 2) Latin—At the option of the candidate, either a) the translation into English of a short passage of average difficulty from one of the first four books of Caesar's "Commentaries on the Gallic War," and the answering of elementary questions relating to the grammar of the passage; or, b) the translation of, and questions upon (as above) a short passage of average difficulty from the "Jugurtha" of Sallust; or, c) requirements as for b), but the passage from the "Catilina" of Sallust; 3) Arithmetic—Prime and composite numbers; factors, divisors, and multiples; proportion; decimals, including percentage, simple and compound interest, and discount, but not the technical parts of commercial arithmetic; compound numbers and the metric system—the necessary tables and data being given on the papers; 4) Algebra—definitions and notation; entire quantities; fractions; simple equations; as treated in the first two sections of Robinson's "New Elementary Algebra," or its equivalent; 5) Plane geometry; Book I of Wentworth's "Elements of geometry," or its equivalent. According to the results of his examinations, each candidate is either a) admitted unconditionally; or, b) admitted conditionally; or c) rejected. A candidate who has passed a satisfactory examination in each of the five branches is admitted unconditionally. A candidate who has passed a satisfactory examination in each of three out of the five branches is admitted conditionally. A candidate who has failed in three out of the five branches is rejected; but proper consideration is shown to candidates whose mother-tongue is not English. A person rejected, or "conditioned," in any branch or branches, is eligible for re-examination at any regular subsequent semi-annual examination, but at no other time, except by special vote of the authorities. No person admitted conditionally is permitted to appear for examina-

tion at this college in any one of the eight branches of medical study, until he shall have been re-examined successfully, at this college, in all the "entrance" branches in which he shall have been "conditioned," except by special vote of the authorities.

For graduation: I.—A. Candidates who are not already graduates in medicine of recognized institutions must have pursued the regular three year's curriculum at this college; or, the regular curriculum of the second and third years at this college, and such a course at some other medical school as shall have been recognized by the faculty as an equivalent for the first year's curriculum at this college. No course at another medical school will be so recognized, which shall have been begun during the same calendar year as that in which the student who shall have attended it shall have entered this college. B. Graduates in medicine of recognized institutions must have pursued at this college at least the regular curriculum of the third year. II.—All candidates, whether already graduates in medicine or not, must pass at this college examinations satisfactory to the faculty in: 1) anatomy; 2) physiology; 3) physics and chemistry; 4) materia medica and therapeutics, including hygiene; 5) pathology and practical medicine; 6) principles and practice of surgery; 7) obstetrics and gynecology; 8) clinical studies. III.—Candidates must present satisfactory evidence of good moral character, and of having attained the age of twenty-one years. IV.—Candidates must have studied medicine thirty-six months under the direction of a regular practitioner or practitioners of medicine. The three years of medical study with a preceptor include the time spent in attendance upon medical schools, and must be exclusive of any time spent as an undergraduate at a non-medical institution; but the two years' course styled "Preparatory to the Study of Medicine," at the Cornell University, the Sheffield Scientific School of Yale College, or the Johns Hopkins University, is accepted in place of six months' study with a preceptor, in the case of a student who afterwards attends three sessions at this college. The phrase "regular practitioner or practitioners" is used in the sense commonly understood in the medical profession. Certificates of preceptorship from eclectic, homeopathic, or other so-called "irregular" practitioners will not be received, even if such practitioners be graduates of regular medical schools. The examinations for the degree of Doctor of Medicine are in writing, and are held twice a year, viz: 1) immediately after the close of the lectures of the college year in May; 2) during the early part of October. According to the merits of his examinations, three results of the latter are possible in the case of a candidate for the degree of M. D.: 1. He is "passed" when his examinations have been satisfactory in each and all of the eight principal branches of medical teaching. 2. He is "conditioned" when the average merit of his eight examinations has been satisfactory, while in one or more branches he has been found deficient. In this case the candidate can proceed to his degree only on the condition that he first pass a re-examination in the deficient branch or branches, not sooner than at the next regular examination. 3. He is "rejected" when the average merit of his eight examinations has been unsatisfactory; in this case the candidate must be re-examined in all the eight branches.

FEEES: First year—Matriculation, \$5; fee for all the required exercises of the year, \$150; anatomical material, \$1 each part. Second year—Matriculation, \$5; fee for all the required exercises of the year, \$150; anatomical material, \$1 each part. Third year—Matriculation, \$5; fee for all the required exercises of the year, \$150; graduation fee, \$30.

COLLEGE OF PHYSICIANS AND SURGEONS OF THE WESTERN DISTRICT OF NEW YORK.

FAIRFIELD, N. Y.

ORGANIZED in 1812.—Extinct since 1810. During its existence it afforded instruction to 3123 students, and graduated 589.

NEW MEDICAL INSTITUTION.

(Medical Department of Queen's College, New Jersey.)

NEW YORK CITY.

ORGANIZED in 1814; suspended in 1816. In 1826 the Medical Institution was revived, under the auspices of Rutgers's (formerly Queen's) College, N. J., but became extinct in 1830. It is probable that the diplomas issued after its revival were illegal.

*Not including 54 graduates who matriculated.

NEW YORK SCHOOL OF MEDICINE.

NEW YORK CITY.

ORGANIZED under the auspices of the New York County Medical Society in 1831.

NEW YORK REFORMED MEDICAL COLLEGE.

(Eclectic.)

NEW YORK CITY.

ORGANIZED in 1836.—Extinct, 1838.

AUBURN MEDICAL SCHOOL.

AUBURN, N. Y.

EXTINCT.—Date of organization and extinction unknown.

ALBANY MEDICAL COLLEGE.

(Medical Department of Union University.)

ALBANY, N. Y. WILLIS G. TUCKER, M. D., Registrar, 4 Lancaster street.

ORGANIZED in 1838. Incorporated and graduated its first class in 1839. It became connected with the Union University in 1873, when the present title was assumed.

The faculty embraces thirteen professors, one adjunct professor, one demonstrator and eight assistants to chairs.

COURSE OF INSTRUCTION: The regular graduating session of 1888-89 began September 25, 1888, and will close March 20, 1889. Written examinations are held monthly; clinics at hospitals and dispensary. A three years' graded course is substantially required for graduation.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, dermatology, psychological medicine, ophthalmology and otology, diseases of women and children, diseases of the throat and chest, and diseases of the nervous system.

REQUIREMENTS: For admission—"Graduates from recognized colleges, scientific schools or medical institutions, and students presenting certificates of competency from the censors of the medical society of the county from which they come, will not be required to pass the preliminary examination on joining the school. All others will be required to pass the examinations by a paper written at the time, of which the orthography, grammatical construction and penmanship will be considered, and in arithmetic, grammar, geography and the elements of natural philosophy."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) "three years' graded course in this college or the equivalent of the first two courses elsewhere and the last in this college," except as hereafter provided; 5) thesis; 6) "satisfactory examination in the several branches of medicine and surgery, final examination being conducted chiefly in writing." Regular and punctual attendance is required.

The proviso above referred to is as follows: "1) That graduates of recognized literary colleges, scientific schools or colleges of pharmacy will be allowed to present themselves for graduation at the end of their second full course if all other requirements for graduation are fulfilled; 2) that students desiring to enter the second year class may do so if they successfully pass an examination in anatomy, materia medica, chemistry and physiology, and are deemed competent so to enter; and 3) that students who have attended a full course of lectures in this college or elsewhere may enter the senior class on passing a satisfactory entrance examination in all the departments. Students entering the second year class, in either instance as above provided, must attend the full course of lectures each year, and are examined in all the branches at the end of their second course. Students entering the senior class as above provided must attend the full course of lectures, and are examined in all the branches at its close."

FEES: Matriculation, \$5; lectures, \$100; demonstrator, \$10; graduation, \$25; laboratory, \$10.

GENEVA MEDICAL COLLEGE.

GENEVA, N. Y.

ORGANIZED in 1839. Extinct. Merged into the College of Medicine of Syracuse University in 1872—which see.

UNIVERSITY OF THE CITY OF NEW YORK, MEDICAL DEPARTMENT.

University Medical College.

NEW YORK CITY. CHARLES INSLEE PARDEE, M. D., Dean, 410 E. Twenty-sixth street.

ORGANIZED in 1811. First class was graduated in 1812. Classes have been graduated each subsequent year.

The faculty embraces thirteen professors, six clinical professors, two adjunct professors, fourteen instructors, two demonstrators, fifteen clinical assistants and eleven lecturers.

COURSE OF INSTRUCTION: The collegiate year is divided into three sessions; a preliminary term, which began September 19, 1888, and continued until October 3; the regular winter course then began, and will continue to the first of March, 1889, to be followed by a spring session of ten weeks immediately thereafter. Instruction consists of didactic and clinical lectures, recitations, practical demonstrations of subjects involving manipulation and practice at the bedside and in the laboratories.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology, otology, orthopedic surgery, dermatology and mental diseases, and bacteriology.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) "two winter sessions of lectures;" 4) three years' study; 5) one course of practical anatomy; 6) satisfactory written examinations on surgery, chemistry, practice of medicine, materia medica, anatomy, physiology and obstetrics. Rejected candidates will not be permitted to apply for a re-examination for one year. Honorary degrees are not granted. Two commencements take place annually, at either of which the candidates who have complied with the above requirements may graduate; the first is at the close of the winter, the second at the close of the spring session.

FEES: Matriculation, \$5; lectures, \$140; demonstrator, \$10; graduation, \$30; private instruction in practical branches, averaging \$12 per course.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

1887-88	634*	163	25.7

Percentage of graduates to matriculates for past eleven years, 31.1.

* Not including seventeen graduates who matriculated.

REMARKS: "With a view to the final establishment of a systematic graduated scheme of tuition, students who have attended two full courses of lectures, and who have completed two years of study, may be admitted to a special examination in chemistry, anatomy and physiology, and, if successful, will be examined at the end of the next winter session on practice, materia medica and therapeutics, surgery and obstetrics."

MEDICAL DEPARTMENT OF THE UNIVERSITY OF BUFFALO.

BUFFALO, N. Y. CHARLES CARY, M. D., Secretary, 340 Delaware avenue.

ORGANIZED in 1846. The first class was graduated in 1847. Classes have been graduated each subsequent year.

The faculty embraces thirteen professors, two adjunct professors, six clinical professors and one demonstrator. The spring faculty consists of ten lecturers.

COURSE OF INSTRUCTION: The regular term of 1888-89 began September 24, 1888, and will continue six months. The spring course begins the first Monday after commencement, and continues eight weeks. The course of instruction includes scholastic and clinical teaching, with systematic recitations and special instructions. A three years' graded course is recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, clinical medicine, obstetrics and gynecology, hygiene, medical jurisprudence, toxicology, ophthalmology and otology, psychological medicine, dermatology and microscopy, genito-urinary and venereal diseases, nervous diseases, diseases of children, orthopedic surgery and laryngology, and clinical surgery.

REQUIREMENTS: For admission—"A certificate from the student's preceptor, of his moral character, and that he is duly entered and properly qualified to study medicine, must be presented, on matriculating. The responsibility of sufficient preliminary education rests, of necessity, with the private instructor. No matriculation examination is held. Persons purposing to practice where a matriculation examination is required, may, on matriculating, pass a preliminary examination and receive a certificate thereof."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) "dissection of the lateral half of the subject, either here or elsewhere;" 5) two full courses of lectures; 6) satisfactory examination in the several departments; 7) thesis; 8) one laboratory course in pathology and chemistry.

FEES: Matriculation, \$5; lectures, \$100; demonstrator, \$10; graduation, \$25; spring course, \$15.

CHARTERED, 1856.—Extinct, 1866.

LONG ISLAND COLLEGE HOSPITAL.

BROOKLYN, N. Y. J. H. RAYMOND, M. D., Secretary of the Faculty, Henry street,
between Pacific and Amity streets.

INCORPORATED in 1858. First class was graduated in 1860; classes have been graduated each subsequent year.

Faculty embraces twelve professors. There are eight professors of special subjects, one demonstrator of anatomy, and twenty-one assistants to the various chairs. During the reading term there are engaged eleven lecturers.

COURSE OF INSTRUCTION: The collegiate year is divided into a regular term and a reading term; the former for the session of 1888-89, began September 26, 1888, and continues until March 13, 1889. The reading term will begin March 11, 1889, and end June 7, 1889. A graded course, extending over two collegiate years of nine months each, is recommended, but not required; fifty per cent. of the entire class have taken this course for the past six years. It is also recommended, that where possible the student spend three years at college work.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics, gynecology, hygiene, medical jurisprudence, laryngology, toxicology, ophthalmology and otology, diseases of children, dermatology, nervous diseases and genito-urinary diseases, histology, clinical medicine and clinical surgery.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures, not completed in the same twelve months; 5) practical anatomy, to the extent of having dissected each region of the body; 6) one course of practical chemistry and urine analysis; 7) one practical laboratory course in normal and pathological histology; 8) pass satisfactory examinations in chemistry and urine analysis, histology, anatomy, and pathological anatomy, physiology, materia medica, therapeutics, gynecology, obstetrics, surgery, operative and clinical surgery, and practice of medicine.

FEES: Matriculation, \$5; demonstrator, \$5; chemical laboratory, \$10; pathological laboratory, \$10; lectures, \$100; reading term, \$0; graduation, \$25.

NEW YORK HOMEOPATHIC MEDICAL COLLEGE.

NEW YORK CITY. L. L. DANFORTH, M. D., Secretary, 149 W. Forty-fourth street.

ORGANIZED in 1860. The first class was graduated in 1861. Classes have been graduated each subsequent year.

The faculty embraces twenty-two professors, two assistant professors, two lecturers, six clinical assistants, and three demonstrators.

COURSE OF INSTRUCTION: The session of 1888-89 opened October 2, 1888, and terminates April 18, 1889. The course of instruction is graded, and provision is made for three classes of students—a junior, a middle and a senior class.

Lectures embrace anatomy, physiology, chemistry and toxicology, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, medical jurisprudence, hygiene and sanitary science, diseases of the heart and lungs, diseases of children, laryngology and rhinology, mental and nervous diseases, ophthalmology and otology, orthopedic surgery, dermatology and genito-urinary diseases, histology, microscopy, diseases of the kidney, pharmacuties, and laboratory drill.

REQUIREMENTS: For admission—"Students must present credible certificates of good moral character and a diploma of graduation from a good literary and scientific college or high school, or a first-grade teacher's certificate. Or, lacking this, he must pass a thorough examination in the branches of a good English education, including English grammar, rhetoric, spelling, etc., as shown in written examinations, arithmetic as far as square root, U. S. history, geography, elementary physics or natural philosophy, as given in Prof. Balfour Stewart's Science Primer (Physics)."

"Any student who presents his diploma of graduation from a reputable literary and scientific college, or high school, or a first-grade teacher's certificate, or a certificate of having passed the entrance examination for either Harvard or Yale college, will be excused from further entrance examinations."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) three full courses of lectures; 5) one course of practical anatomy; 6) satisfactory examination in each department.

FEES: Matriculation, \$5; lectures, \$100; graduation, \$30.

BELLEVUE HOSPITAL MEDICAL COLLEGE.

NEW YORK CITY. AUSTIN FLINT, M. D., LL. D., Secretary of the Faculty.

ORGANIZED in 1861. First class was graduated in 1862. Classes have been graduated each subsequent year.

The faculty embraces twelve professors, six professors of special departments, four lecturers, three demonstrators, twenty-four assistants to chairs, and three prosectors. Members of the faculty and others, to the number of twenty-one, give instruction during the spring term.

COURSE OF INSTRUCTION: The collegiate year is divided into two sessions. The winter session of 1888-89 began September 26, 1888, and will close about the middle of March, 1889. The spring session will begin the latter part of March, 1889, and continue until the middle of June. Attendance upon three courses of lectures is recommended, but not required, and provision is made for the examination of those pursuing this plan. Hospital clinics are numerous. Regular weekly quizzes are held by members of the faculty upon the subjects of the lectures; these examinations are confined to candidates for graduation.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, orthopedic surgery, ophthalmology and otology, cutaneous and genito-urinary diseases, diseases of children, toxicology, diseases of the throat. Private courses on practical subjects are given by the faculty and instructors; average fee, \$20.

REQUIREMENTS: For admission—None, except for those who expect to present their tickets or diplomas for recognition in Great Britain. For such, a special matriculation examination is provided, upon the following subjects: English language, including grammar and composition; arithmetic, including vulgar and decimal fractions; algebra, including simple equations; geometry, first two books of Euclid; Latin, translation and grammar. In addition to the above, one of the following optional studies is required: Greek, French, German or natural philosophy, including mechanics, hydrostatics and pneumatics; text-books; Latin—Caesar (De Bello Gallico), first two books; natural philosophy—Peck's, Gannot's or Parker's Philosophy; Greek—first chapter of St. John's Gospel; French—first chapter of Télémaque, or Charles XII; German—Adler's Reader, first part. From those who expect to practice only in this country this examination is not required. *It is assumed that preceptors sending students to the college have satisfied themselves that their pupils have received proper preliminary education, and the college does not require a matriculating examination; but students who intend to practice in States in which the laws require a preliminary examination for those not provided with literary degrees or other evidences of scholarship as one of the conditions for a license to practice medicine, may pass the required preliminary examination at the college, and will receive a certificate of having passed such examination from the secretary.

For graduation: 1) twenty-one years of age; 2) proper testimonials of character; 3) three years' study; 4) two full courses of lectures; 5) satisfactory examination in each of the seven departments of instruction, viz: practice of medicine, surgery, obstetrics, materia medica and therapeutics, physiology, anatomy and chemistry—the examinations upon practice of medicine and surgery include diseases of the nervous system, pathological anatomy, ophthalmology and otology, genito-urinary surgery, syphilology and dermatology; 6) one course of practical anatomy; 7) one course of normal and pathological histology and microscopical examination of urine.

FEES: Matriculation, \$5; lectures, \$140; demonstrator, \$10; pathological laboratory, \$10; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates--

Percentage of graduates to matriculates for past seven years, 34+.

REMARKS: There are three regular examinations for the degree: one at the close of the winter session, one at the close of the spring session, and one during the first week in October. The June and October examinations are exclusively for the benefit of those

* Not including 50 graduates who matriculated.

† A considerable proportion of the students of this school have already attended one course of lectures elsewhere.

students who have attended the courses of lectures required, the last course being at this college, but whose time of study does not expire until the summer or fall. Graduates of other accredited colleges are examined in all the departments, the same as undergraduates, and must fulfill all the requirements demanded of undergraduates. The faculty will not grant a degree to any graduate of three or more years' standing who does not exhibit to the secretary a certificate of membership in some regular medical society. This rule is invariable.

Names of matriculates not given in announcement.

NEW YORK MEDICAL COLLEGE AND HOSPITAL FOR WOMEN.

(Homeopathic.)

NEW YORK CITY. PHOEBE J. B. WAIT, M. D., Dean, 9th ave. and 34th st.

ORGANIZED IN 1861. The first class was graduated in 1864. Classes have been graduated each subsequent year.

The faculty embraces fifteen professors, three adjunct professors, two lecturers and a demonstrator.

COURSE OF INSTRUCTION: The regular session of 1888-89 began October 1, 1888, and continues twenty six weeks. The curriculum of studies extends over a three-years' graded course, and is arranged as follows: "First year—theoretical and inorganic chemistry, physiology, general and descriptive anatomy, histology, hygiene—dissections will be obligatory on all students of this year.—Second year—organic chemistry with toxicology, histology, and pathological anatomy, physiology, anatomy, hygiene, materia medica, surgery, gynecology, diseases of children, obstetrics, pathology and practice of medicine. Students of this year are expected to finish their dissections to the satisfaction of the professor of anatomy, they will also be required to attend the lectures in ophthalmology and otology, diseases of the chest, medical jurisprudence and mental and nervous diseases, but will not be subject to quizzes in these branches. Third year—continuation of pathology and practice of medicine, materia medica, obstetrics, gynecology, diseases of children, surgery, ophthalmology and otology, diseases of the chest, medical jurisprudence, pathological anatomy, mental and nervous diseases. During the year students are required to attend the various clinics of the college. Each student will also be required to take charge of obstetrical cases." Actual attendance on lectures is required.

REQUIREMENTS: For admission—"Applicants for matriculation are required to give satisfactory testimony of moral character, together with proof of having arrived at the age of eighteen years; they must present a certificate of graduation from some reputable school or pass an examination in the English branches."

For graduation: 1) twenty-one years of age; 2) three full years' study; 3) three complete courses of lectures; 4) thesis; 5) satisfactory examinations both before the faculty and the board of censors.

FEES: Matriculation, paid but one, \$5; lectures, per session, \$75; demonstrator, \$10; demonstration in histology, \$5; graduation, \$30.

ECCLECTIC MEDICAL COLLEGE OF THE CITY OF NEW YORK.

NEW YORK CITY. GEORGE W. BOSKOWITZ, M. D., Dean, 1 Livingston Place.

ORGANIZED IN 1865. The first class was graduated in 1866; classes have been graduated each subsequent year.

The faculty consists of eight professors, eleven lecturers, one instructor and one assistant to chair of chemistry.

COURSE OF INSTRUCTION: The twenty-seventh annual session began September 19, 1888, and will continue six months; clinics in hospital, and dispensary.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and diseases of women and children, medical jurisprudence, toxicology, and diseases of the eye, throat and skin, nervous diseases and insanity, hygiene, electro-therapeutics and forensic medicine.

REQUIREMENTS: For admission—"Candidates for matriculation must be at least eighteen years old, and must present satisfactory testimonials of moral character from former instructors or physicians in good standing. As evidence that he has had a sufficient preliminary education, each candidate must present proof that he has passed the matriculation examination of some scientific, literary or professional college in good standing; or present testimonials from the proper officer that he has pursued the course at some high school, academy or preparatory school, approved by the faculty."

For graduation: 1) twenty-one years of age; 2) three years' study under the supervision of a reputable physician; 3) two full terms of instruction; 4) a thesis on some medical subject.

FEES: Matriculation, \$5; lectures, \$100; demonstrator, \$10; analytical chemistry, \$5, pathological laboratory, \$5; graduation, \$30.

BROOKLYN ACADEMY OF MEDICINE.

BROOKLYN, N. Y.

(Auxiliary to the Eclectic Medical Society of N. Y.) Incorporated April 24, 1865. Charter revoked about 1880.

WOMAN'S MEDICAL COLLEGE OF THE NEW YORK INFIRMARY.

NEW YORK CITY. EMILY BLACKWELL, M. D., Dean, 128 Second avenue.

ORGANIZED in 1868. The first class was graduated in 1870. Classes have been graduated each subsequent year.

The faculty embraces nine professors, four clinical professors, five lecturers, two lecturers adjunct, one demonstrator, one assistant demonstrator, and eight instructors.

COURSE OF INSTRUCTION: "The college year is divided into two terms of four months each, and half of the studies appropriate to the year are allotted to each of these terms. The first term lasts from October 2 to January 25. The second, from January 28 to May 15. The course of study required to render a student eligible for graduation covers three college years. Those students who wish to do so, may, however, divide the second of their three years into two, thus completing their course in four years.

Division of studies: "First year—Anatomy; chemistry; physiology; materia medica and histology; students will also dissect and work in the pharmaceutical, chemical and histological laboratories. Second year—Anatomy, physiology, chemistry, pathological anatomy, practice, surgery, obstetrics, therapeutics and hygiene. Third year—Practice, pathological anatomy, surgery, hygiene, obstetrics and therapeutics. During this year each student enjoys the privilege of attending upon ten cases of obstetrics in the infirmary wards; of witnessing operations at the infirmary, as also at other hospitals in the city, and may listen to the clinical lectures at Bellevue." Each professor quizzes on his own lectures, and an instructor is attached to each chair to assist in quizzing.

* Not including five graduates who matriculated.

REQUIREMENTS: For admission—Students entering the graded college course, unless they bring a diploma from some recognized literary school, will be required to pass a preliminary examination in the following branches: 1. Orthography, English composition and penmanship, by means of a page written at the time and place of examination. 2. Definitions and synonyms as found in "The Scholar's Companion." 3. Latin, through declensions and conjugations. 4. Arithmetic in denominate numbers, fractions, proportions, percentage and the roots. 5. Algebra, Davies' Elementary, through simple equations. 6. Geometry, Davies' Legendre, first and second books. 7. Botany, physics and chemistry, as found in "Science Primers," edited by Profs. Huxley, Roscoe and Halfour Stewart. A competent knowledge of German or French will be received in place of Latin or mathematics at the option of the candidate.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) must give evidence of having studied medicine during three years, have spent at least one continuous year at this school (if only one this must be the last year); 4) a thesis on some medical subject; 5) satisfactory examinations before the faculty and the board of examiners will also be required.

FEES: Matriculation, \$5; professor's fees, \$60 first year, \$105 second year, \$65 third; demonstrator's, \$10 first and second year; laboratory fees, \$15 first year, \$5 second; dissection, \$10 first year, \$5 third; reading room, 50 cents per year; graduation, \$30.

NEW YORK FREE MEDICAL COLLEGE FOR WOMEN.

NEW YORK CITY.

ORGANIZED in 1871.—Extinct, 1877.

COLLEGE OF MEDICINE OF SYRACUSE UNIVERSITY.

SYRACUSE, N. Y. W. H. DUNLAP, M. D., Registrar, 108 East Genesee street

ORGANIZED in 1872, as the College of Physicians and Surgeons of Syracuse University. In 1875 assumed its present title. The Geneva Medical College, organized in 1836, was merged into this institution. The first class was graduated in 1873. Classes have been graduated each subsequent year.

The faculty embraces fourteen professors, five lecturers and six instructors.

COURSE OF INSTRUCTION: The college year begins the first Tuesday in October and ends on the second Thursday in June. Attendance at college during a three years' graded course is recommended, but not absolutely required. Students are divided into three classes, according to their proficiency and time of study. Studies—"First year: anatomy, physiology, chemistry, histology and botany. Second year: anatomy, physiology, medical chemistry, materia medica, surgery and clinics. Third year: therapeutics, practice, surgery, obstetrics, pediatrics, pathology, gynecology, forensic and state medicine, ophthalmology and clinics."

REQUIREMENTS: For admission—All students who join the school for the regular course are required to exhibit evidence of possessing a fair preliminary education. Graduates of recognized colleges, scientific schools, academies, or like institutions, or those who are able to present certificates from such institutions certifying to their proficiency in the preliminary studies, are not required to pass the entrance examinations. All others will be required to pass an examination in 1) Arithmetic—entire—including the metric system; but not the technical parts of commercial arithmetic; 2) Algebra, through simple equations, as treated in Wentworth's complete algebra, or its equivalent; 3) Geometry, first book of Wentworth's "Elements of Geometry," or its equivalent; 4) English grammar; 5) natural philosophy, Dr. J. D. Steele's text book, or its equivalent; 6) composition; every applicant will be required to write a letter of not less than three hundred words; the subject will be announced at the examination; the orthography, construction and penmanship will be factors for consideration; 7) Latin: the translation of a passage selected from one of the first four books of "Caesar's Commentaries," and

questions relating to the grammar of the passage; an equivalent from another Latin author may be substituted if desired. [Arrangements have recently been made by which candidates not prepared in Latin will receive instruction in this language, without extra expense and without interfering with their medical studies.] These examinations are in writing.

Regent's certificates are accepted for the studies which they cover. Candidates who pass all of the seven requirements for entrance are admitted unconditionally. Those who pass in four out of the seven subjects are admitted conditionally. Candidates who are conditioned are allowed to enter the classes with the other students, but cannot appear for the annual examinations until they have passed in the studies in which they were conditioned. Candidates rejected or conditioned can be re-examined at any of the June annual examinations by giving due notice to the Registrar of the intention to do so, or, without notice, at the yearly entrance examinations in October.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study, the last of which, at least, must have been spent in this school; 4) satisfactory examinations.

FEES: Matriculation, \$5; lectures for the year, \$80; anatomical laboratory, \$5; graduation, \$25.

THE REGENTS OF THE UNIVERSITY OF NEW YORK STATE.

OFFICE AT ALBANY, N. Y. DAVID MURRAY, Secretary.

From the law conferring the power of granting diplomas passed in 1872, the following is taken.

The regents of the University shall not grant a diploma conferring the degree of Doctor of Medicine upon any one who has not, for at least three years, pursued the study of medical science with some physician or surgeon duly authorized to practice. The regents of the University in the State of New York are authorized to appoint one or more boards of examiners in medicine, which shall consist of not less than seven regularly licensed physicians and surgeons in the State. This board shall examine all candidates referred to them by the chancellor, in anatomy, physiology, materia medica, pathology, histology, clinical medicine, chemistry, surgery, midwifery and therapeutics.

All persons who are over twenty-one years of age, of good moral character, and can produce to the chancellor satisfactory proof that they have competent knowledge of all the branches of learning taught in the common schools of the State, and of the Latin language and have diligently studied medicine for not less than three years, can apply to the chancellor for an examination by the board of examiners. The fee for an examination shall be \$35. The regents grant, to any candidate who has been recommended by five members of the board of examiners, a diploma conferring the degree of Doctor of Medicine from the University of New York, which diploma shall be a license to practice physic and surgery. Ten dollars must be paid for this diploma.

Under authority of the Statute passed in 1872 the Board of Regents has appointed three Medical Examining Boards. The first one represents the State Medical Society. Its headquarters are at Albany. Dr. Abraham Jacobi of New York City, is President and Dr. Henry Hun of Albany, Secretary. With the exception of Dr. Jacobi all the members reside at Albany. The Second Board represents the Homeopathic State Medical Society. Dr. Searle of Brooklyn is President and Dr. Bacon of New York City is Secretary. It holds its meetings for examination in New York City. The Third Board represents the Eclectic State Medical Society. Dr. Boskowitz of New York City is President. This Board has not held any meeting for examination as yet.

The Board of Regents has only granted ten diplomas since the system was established in 1872. One in 1880; one in 1881; two in 1882; three in 1883; one in 1884; two in 1886. Quite a number of persons have been examined but failed to pass. The Secretary of the Board says: "The system is of small moment in our State, because the examination and licensure are not obligatory. Only those who desire an additional degree, or those who have practiced heretofore without a degree, and whom the stricter laws have driven to seek some kind of degree, apply to the Boards of Regents for examination.

UNITED STATES MEDICAL COLLEGE.

(Eclectic.)

NEW YORK CITY.

ORGANIZED in 1878 in a manner which has since been declared illegal by the State Supreme Court.—Extinct since 1882. Diplomas not recognized.

COLLEGE OF PHYSICIANS AND SURGEONS OF BUFFALO.

BUFFALO, N. Y. Extinct.

ORGANIZED in 1879 in a manner which has been decided illegal by the Supreme Court of the State. The first class was graduated in 1880. No class graduated in 1882. Diplomas not recognized.

MEDICAL DEPARTMENT OF NIAGARA UNIVERSITY.

BUFFALO, N. Y. A. A. HUBBELL, M. D., Secretary, 212 Franklin street.

ORGANIZED in 1883. The faculty embraces twelve professors, five lecturers, and two demonstrators, and one assistant to chair of surgeon.

COURSE OF INSTRUCTION: The sixth regular course of lectures began September 29, 1888, and will continue until April 9, 1889. The time of study required is three years, including three full terms of medical lectures of six months each, and an extension to four years is recommended.

Division of studies: First year—general chemistry, materia medica, pharmacy, histology, anatomy, physiology, dissections, laboratory work. Examinations at the end of the year in general chemistry, materia medica and pharmacy and in part in anatomy. Second year—medical chemistry, anatomy, physiology, pathology, pharmacology, hygiene, obstetrics, principles and practice of medicine, principles and practice of surgery, dissections, laboratory work, clinics. Examinations at the end of the year in medical chemistry, anatomy, (completed,) physiology (completed), pathology, pharmacology, obstetrics, in part general medicine and general surgery. Third year—therapeutics, surgical anatomy, principles and practice of medicine, principles and practice of surgery, obstetrics, diseases of children, diseases of women, diseases of the eye, ear and throat, diseases of the skin, diseases of the nervous system and insanity, medical jurisprudence, clinical instruction in each department. Examinations at the end of the year for the degree. Students who have attended one full course of lectures elsewhere will be admitted to the second year of this school, after passing examinations of the first years' studies.

REQUIREMENTS: For admission—"Students desiring to be admitted to this school must present evidences of a good moral character; they must possess a sufficient knowledge of the fundamental branches of education to enable them to profitably pursue the study of medicine. Candidates not presenting such evidences of preliminary qualifications will be required to pass an examination in the branches of a good English education, including mathematics, English composition, and 'elementary physics or natural philosophy, and in Latin, including Arnold's 'First Latin Book' or its equivalent." Students not possessing the required amount of Latin may enter conditionally "upon their qualifying themselves by the beginning of the second year." Those who have received a collegiate degree, who have passed the matriculatory examination of a recognized college, or who have a certificate covering the required subject from a recognized normal or high school, or other institution, may enter without examination.

For graduation: 1) twenty-one years of age; 2) at least three years' study of medicine; 3) a good moral character; 4) at least three full courses of medical lectures; 5) completion of the curriculum of this school; 6) satisfactory final examinations before the faculty and board of examiners

FEEs: Matriculation, \$5; lectures, \$75; graduation, \$25.

NORTH CAROLINA.**BOARD OF MEDICAL EXAMINERS OF NORTH CAROLINA.**

WILMINGTON, N. C. W. J. H. BELLAMY, M. D., Secretary.

INCORPORATED 1859. The Board of Medical Examiners of the State of North Carolina is a body separate and distinct from the State Board of Health—its duty being to examine all applicants for license to practice medicine or surgery, or any of the branches thereof, in the State. It is composed of seven members, who are elected by the State Medical Society, and who serve for a period of six years. Its powers are derived from acts of the Legislature, which have been amended at different times since the year 1859, when the first act creating a Board of Medical Examiners was passed. No penalty originally attached to the failure to comply with the provisions of the act, except inability to collect a medical bill by law. In the year 1885, an amendment was passed fixing the penalty at a minimum of twenty-five or a maximum of one hundred dollars, or imprisonment for each and every offense.

Each applicant for license must give written evidence that he is of good moral character and twenty-one years of age; must submit to an examination in 1) surgery and surgical pathology and diseases of the eye and ear; 2) chemistry and pharmacy; 3) anatomy; 4) physiology and medical hygiene; 5) materia medica and therapeutics; 6) obstetrics and diseases of women and children; 7) practice of medicine and medical pathology. Applicants must answer seventy per cent. of all the questions satisfactorily.

Temporary licenses may be issued in the interim between the regular annual meetings, by any two members of the Board, (examination can be conducted by only one member, and papers forwarded to another for approval), to hold good only until the next annual meeting thereafter. The fee for temporary license is \$5; for permanent license, \$10.

The annual meetings are held at the same time and place as those of the State medical Society. At the April, 1888, meeting, there were 53 applicants; 36 were granted licenses. Of these 35 were graduates, and 1 non-graduate; 17 were rejected; of those 12 were graduates and 5 non-graduates. The next meeting of the Board will be held at Elizabeth City, in May, 1889.

MEDICAL DEPARTMENT OF THE UNIVERSITY OF NORTH CAROLINA.

CHAPEL HILL, N. C.

ORGANIZED in 1796. It granted diplomas in former years, and does not now give medical instruction.

EDINBOROUGH MEDICAL COLLEGE.

INCORPORATED 1868. The college was located in the backwoods of Robeson county, near Lumberton, a small town of five hundred inhabitants. When the only professor (Dr. McLean) died a few years ago, the school became extinct. A number of its diplomas are found in North Carolina and adjoining States.

LEONARD MEDICAL SCHOOL.*(Medical Department of Shaw University.)*

RALEIGH, N. C. C. S. PRATT, M. D., Dean of the Faculty.

ORGANIZED in 1882, for the education of colored students of both sexes. The faculty consists of seven professors.

COURSE OF INSTRUCTION: The session of 1888-89, beginning November 1, 1888, continues five months. Graded course of study, extending over four years.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, laryngology, ophthalmology and otology, diseases of children, dermatology and diseases of the nervous system.

Order of studies: First year—anatomy, physiology, general chemistry, and materia medica; second year—practical anatomy, medical chemistry, physiology, pathological anatomy, practice of medicine and surgery; third year—therapeutics, obstetrics, theory and practice of medicine and surgery; fourth year—ophthalmology, otology, dermatology, syphilis, laryngology, diseases of the nervous system, diseases of women, diseases of children, operative surgery, forensic medicine.

REQUIREMENTS: For admission—"Applicants must be at least eighteen years of age" and will be required to pass a preliminary examination sufficient to show their fitness to enter upon the study of medicine, unless they can furnish a certificate of their pre-

vious standing in school from some principal or president of a reputable institution of learning." A literary course of two years' duration, preliminary to the medical course, has been established by the university.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) four years' graded course; 4) dissect the entire cadaver; 5) thesis; 6) satisfactory examination, an average of seventy-five per cent being required to pass.

FEES: Matriculation, \$5; lectures, \$60; graduation, \$10; incidentals, \$3.

OHIO.

MEDICAL COLLEGE OF OHIO.

(Medical Department, of the University of Cincinnati.)

CINCINNATI, O. JAMES C. EDMAN, M. D., Secretary, 22 W. Ninth street.

ORGANIZED in 1819. The first class was graduated in 1821. Classes have been graduated each subsequent year. In 1858 the Miami Medical College was merged into this institution, and continued in this relation until 1865, when the Miami was re-established. (See Miami Medical College, *infra*.) In 1887 it became the Medical Department of the University of Cincinnati.

The faculty embraces ten professors, twelve assistants to chairs, two adjunct professors, two lecturers and three demonstrators.

COURSE OF INSTRUCTION: The collegiate year embraces a winter and a short spring course. The former, for the session of 1888-89, began September 25, 1888, and will close March 1, 1889. The spring course will begin about the middle of March and continue for six weeks. Clinics at hospital and dispensary, and private courses for advanced students and practitioners on special topics in medicine and surgery.

Lectures embrace ophthalmology, otology, anatomy, clinical surgery, materia medica, therapeutics, clinical medicine, theory and practice of medicine, principles and practice of surgery, obstetrics, diseases of children, gynecology, physiology, medical chemistry, clinical laryngology, pathology, dermatology, histology, hygiene and medical jurisprudence. Daily examinations or quizzes are conducted by the assistants to the respective chairs. No fee is charged for this quiz, and all students are required to attend regularly.

REQUIREMENTS: For admission—"Applicants for admission to the college must bring certificates of good moral character, and must give evidence of at least a good English education, including mathematics and elementary principles of physics. An examination on these subjects, as taught in the common schools, will be conducted by a committee of the faculty. Graduates of a literary or scientific college, high school or academy, gentlemen having a county or State teacher's certificate, graduates in medicine will be exempt from this examination.

"The general demand for a good preliminary education of those about to enter our profession is shown by the recent utterances of the American Medical Association and the enactments of several State boards of health. We desire to call special attention to the fact that in several States the diplomas of such schools as do not require an examination preliminary to entrance are not accepted as qualifying for practice."

For graduation: 1) satisfactory evidence of good moral character, and having attained the age of twenty-one years; 2) satisfactory certificate of having studied medicine for at least three years under a regular graduate, or licentiate and practitioner of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession. "No candidate shall be eligible for final examination for graduation unless his term of three years' study shall have been completed, or shall expire at a date no later than three months after the close of the final examinations;" 3) at least two full courses of instruction; 4) dissections of at least two regions of the body; 5) clinical instruction (hospital) during each year's attendance; 6) a satisfactory examination in each branch taught in the college.

After the session of 1890-91 four years professional study and three regular courses of lectures will be required as conditions of graduation.

FEES: Professors' tickets, \$75; matriculation ticket, \$5; dissecting ticket (including material), \$10; practical chemistry (including material), \$10; practical histology (including material), \$10; practical pathology (including material), \$10; hospital ticket, \$5; graduation fee, \$25.

BOTANICO-MEDICAL COLLEGE OF OHIO.

CINCINNATI, O.

CHARTERED in 1838.—Extinct in 1850.

AMERICAN MEDICAL COLLEGE.

(*Eclectic.*)

CINCINNATI, O.

ORGANIZED in 1839. Merged into the Eclectic Medical Institute in 1857.

WESTERN RESERVE UNIVERSITY, MEDICAL DEPARTMENT.

(*Cleveland Medical College, Medical Department of Adelbert College of the Western Reserve University.*)

CLEVELAND, O. HUNTER H. POWELL, M. D., Registrar, 467 Prospect St.

ORGANIZED in 1843 as the Cleveland Medical College, Medical Department of Western Reserve College, by Profs. Ackley, Cassels and Delameter of the Willoughby University Medical Department; Prof. Kirtland of Cincinnati and Prof. St. John, Chemist of Western

Reserve College at Hudson. Reorganized in 1881 by a union of the faculty of the Cleveland Medical College and a majority of the faculty of the Medical Department of Wooster University, as the Medical Department of Western Reserve University. In March, 1882, the Board of Trustees of Western Reserve University conferred the ad eundem degree of Doctor of Medicine upon all graduates of the Cleveland Medical College, and upon such graduates of the Wooster Medical Department prior to 1881, as desired it.

The faculty embraces fifteen professors, two lecturers, one demonstrator, three assistants to chairs and one prosector.

COURSE OF INSTRUCTION: The college year embraces a special spring and a regular winter course. The spring term of 1888 opened the first Wednesday in April and continued twelve weeks; the regular winter term opened September 19, 1888, and will close March 6, 1889. The plan of instruction includes lectures, clinics, recitations, quizzes and practical demonstrations. Three years' graded course required.

Lectures embrace: First year—The course will include descriptive anatomy with dissections, physiology, with exercises in the physiological laboratory; histology with the examination of the minute structure of all the organs and tissues of the body; practical microscopy with instruction in the preparation, mounting and examination of objects; in organic chemistry with laboratory exercises and materia medica. Students will be examined at the close of the year in chemistry, osteology, histology, microscopy, elementary physiology and dissections.

Second year—During the second year instruction will be given in descriptive anatomy, surgical anatomy, physiology, materia medica and therapeutics, medical chemistry and toxicology, general pathology and morbid anatomy, principles and practice of medicine, principles and practice of surgery, obstetrics and diseases of children. Examinations will be held at the end of the year in toxicology, anatomy, physiology, materia medica and therapeutics, obstetrics and diseases of children.

Third year—During this year the instruction is directed to the practical departments of general medicine and surgery and their specialties. The course includes the principles and practice of medicine and clinical medicine, principles and practice of surgery and clinical surgery, operative surgery and surgical pathology, gynecology, ophthalmology, otology, hygiene and medical jurisprudence.

Students are required to attend the general medical and surgical clinics at least during the second and third years and the clinics in special departments only during the last year.

REQUIREMENTS: For admission—1) credible certificate of good moral standing; 2) diploma of graduation from a literary and scientific college or high school or a teachers' certificate, or, lacking this, a thorough examination in the branches of a good English education.

For graduation: 1) good English education; 2) twenty-one years of age; 3) three years' study; 4) two full courses of lectures. **All students entering the college for the session of 1888-89 must attend three years' course of lectures.** 5) satisfactory examination to the faculty and board of censors.

FEES: Matriculation, \$5; lectures (including hospital), \$50; graduation \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1879-80	86	27	31.4
1881-82	188	83	44.1
1882-83	161	50	31.
1883-84	167	54	32.3
1884-85	126	56	44.4
1885-86	119	47	39.4
1886-87	142	38	26.7
1887-88	134	45	33.5

Percentage of graduates to matriculates for the eight years reported, 35.6.

ECLECTIC MEDICAL INSTITUTE.

CINCINNATI, O. JOHN M. SCUDDER, M. D., 228 Court street.

ORGANIZED in 1845 as the successor of the Worthington Medical College (organized in 1832.) The American Medical College was merged into this school in 1857, and the Eclectic College of Medicine and Surgery in 1859. The first class was graduated in 1845 and two or more classes have been graduated each subsequent year.

The faculty embraces nine professors, one adjunct professor, one lecturer, and a demonstrator; the professor of pathology and the practice of medicine also lectures upon hygiene.

COURSE OF INSTRUCTION: Two sessions annually. The regular session of 1888-89 commenced September 1, 1888, and continues twenty weeks; the spring session will commence January 14, and close June 1, 1889. A three years' graded course is recommended, but not required. Clinics at hospital and college.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, clinical medicine, pathology, surgery, obstetrics and gynecology, hygiene and medical jurisprudence.

REQUIREMENTS: For admission—1) credible certificate of good moral character; 2) diploma of graduation from a good literary and scientific college, or high school, or a first-grade teacher's certificate; lacking this, a thorough examination in the branches of a good English education, including mathematics, English composition and elementary physics or natural philosophy.

For graduation: "Students applying for graduation must have read medicine for three years and attended two full courses of lectures in different years, the last of which has been in this institution; or have read two years and attended three courses of lectures; or have attended four courses of lectures without previous reading, attended one hospital term and dissected two parts. Examinations for the degree of Doctor of Medicine will be held at the close of both winter and spring sessions, but there will be but one public commencement yearly—at the close of the spring session, and all diplomas will bear date of the first Tuesday in June."

FEES: Lectures, including matriculation and demonstrator's fees, \$75; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	267	121	45.3
1878-79	200	71	35.4
1879-80	243	50	20.5
1880-81	316	114	36+
1881-82	272	100	36.7
1882-83	225	64	28.4
1883-84	190	83	43.6
1884-85	169	69	40.8
1885-86	161	58	36+
1886-87	170	63	37+
1887-88	187	61	32.6

Percentage of graduates to matriculates for past eleven years, 35.5.

Names of matriculates not given in announcement.

Note:--Commencing with 1890, no student will be graduated in this institution unless he has attended three full courses of lectures.

STARLING MEDICAL COLLEGE.

COLUMBUS, O. T. C. HEEVER, M. D., Registrar, 249 East State street.

ORGANIZED in 1817. The Medical Department of Willoughby University was merged into it the same year. The first class was graduated in 1818. Classes have been graduated each subsequent year.

The faculty embraces ten professors, two lecturers and one demonstrator.

COURSE OF INSTRUCTION: The regular session of 1888-89 began September 19, 1888, and closes March 7, 1889. A three-years' graded course is recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, medical jurisprudence, diseases of women and children, venereal diseases, ophthalmology and otology, toxicology, histology and hygiene.

REQUIREMENTS: For admission, "Applicants for admission into the college must give satisfactory evidence of having, at least, a fair English education."

For graduation: 1) twenty-one years of age, and certificate of good moral character; 2) three years' study; 3) two full courses; 4) successful examination; 5) thesis; 6) one course of dissection.

FEES: Matriculation, \$5; demonstrator, \$5; lectures, \$50; laboratory, \$5; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	65	26	40.

1887-88	89	37	41.5

Percentage of graduates to matriculates for past eleven years, 37.5.

HOMEOPATHIC HOSPITAL COLLEGE.

CLEVELAND, O. WILLIAM T. MILLER, M. D., Registrar, 661 Superior street.

ORGANIZED in 1849, as the Western College of Homeopathic Medicine. In 1857 the name was changed to the Western Homeopathic College, and in 1870 the corporation assumed the present title. In 1870 the Homeopathic College for Women was merged into this institution. The first class was graduated in 1853. Classes have been graduated in each subsequent year.

The faculty embraces thirteen professors, one adjunct professor, and one demonstrator.

COURSE OF INSTRUCTION: The regular annual term of 1888-89 began September 26, 1888, and closes March 27, 1889. A three-years' graded course is recommended, but not required. Previous to each lecture the class will be daily questioned upon the subjects of the preceding lecture. Women admitted upon same terms as men.

Lectures embrace anatomy, physiology, chemistry, toxicology, materia medica, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, medical jurisprudence, hygiene and sanitary science, ophthalmology and otology, microscopy and histology, nervous and mental diseases, and diseases of women.

REQUIREMENTS: For admission, "All applicants must present a degree in letters or science, a diploma from a high school or academy, or a teacher's certificate, or pass a creditable examination in orthography, penmanship, composition, arithmetic, English grammar and United States history."

For graduation: 1) twenty-one years of age; 2) two full courses of lectures; 3) three years' study; 4) good English scholarship; 5) well sustained written examinations.

FEES: Matriculation, (paid once only), \$5; lectures, \$60; demonstrator, \$10; hospital, \$5; graduation, \$30; chemistry, \$5.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	106	34	32.
1878-79	108	25	23+
1879-80	130	25	19.2

1881-82	129	26	20+
1882-83	131	55	50.9
1883-84	91	40	43.9
1884-85	84	30	35.7
1885-86	82	26	31.7
1886-87	83	20	24+
1887-88	92	34	36.9

Percentage of graduates to matriculates for past eleven years, 29.2.

Note:—"All new matriculates after the session of 1888-89 shall register for the three-years' course."

CINCINNATI COLLEGE OF MEDICINE AND SURGERY.

CINCINNATI, O. WILLIAM R. AMICK, M. D., Secretary, 164 George street.

ORGANIZED in 1849. First class was graduated in 1852, and one or more classes have been graduated each subsequent year.

The faculty embraces eleven professors, eleven special and adjunct professors and demonstrators.

COURSE OF INSTRUCTION: The regular graduating session of 1888-89, began September 18, 1888, and closes the first of March, 1889. Students may, if they desire, have their course of instruction graded.

Lectures embrace anatomy, physiology, chemistry, toxicology, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, ophthalmology and otology, laryngology, oral surgery, and diseases of children, orthopedic surgery, genito-urinary diseases, histology and microscopy, pharmacy, diseases of the nervous system.

REQUIREMENTS: For admission—"Students applying for admission must present satisfactory evidences, by examination, diploma or teacher's certificate, of an adequate English education. Students having attended one or more courses of lectures in some other regular medical college, will be admitted on presentation of tickets to this effect."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) three years' study; 5) satisfactory examination; 6) practical anatomy for one session; 7) hospital clinics for one session.

FEES: Matriculation, \$5; demonstrator, (including material), \$10; hospital, \$5; chemical laboratory, \$5; lectures, \$40; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

1886-87	42	15	35.7
1887-88	49	15	30.6

Percentage of graduates to matriculates, for past ten years, reported in full, 40.6.

MIAMI MEDICAL COLLEGE.

(Medical Department of the University of Cincinnati.)

CINCINNATI, O. WM. H. TAYLOR, M. D., Dean, 329 West Seventh street.

ORGANIZED in 1852. Classes were graduated from 1853 to 1857, inclusive. In 1858 this college was merged into the Medical College of Ohio—which see, *ante*. In 1865 the Miami Medical College was re-established and a class was graduated in 1866, since which time classes have been graduated annually.

The faculty embraces twelve professors, one adjunct professor, one lecturer, three demonstrators and one assistant demonstrator.

COURSE OF INSTRUCTION: The winter session of 1888-89 began September 25, 1888, and continues for five and a half months. A three years' graded course recommended but not required—see "Remarks" appended. Special hours are devoted by each professor to review examinations of his preceding lectures. Clinics at dispensary and hospital.

Lectures embrace (by chairs) clinical medicine, principles and practice of surgery, ophthalmology, nasal surgery and clinical ophthalmology, obstetrics and clinical midwifery, principles and practice of medicine and clinical medicine, materia medica and therapeutics, diseases of women and children and clinical gynecology, chemistry and toxicology, clinical surgery, physiology, clinical laryngology and hygiene, descriptive and surgical anatomy, and clinical medicine.

REQUIREMENTS: For admission—"The student must give evidence of educational qualification in the form of a diploma from a college or high school, or a teacher's certificate. In the absence of any of these he must submit to an examination by a committee of the faculty."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; 5) one course of practical anatomy; 6) of practical chemistry; 7) clinics at the hospital; 8) full and satisfactory examination on each branch taught in the college.

FEES: Matriculation, \$5; demonstrator, \$5; practical chemistry, \$7; practical physiology and histology, \$7; lectures, \$75; graduation, \$25; hospital, \$5.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	129	50	38.7
1878-79	120	33	27.5
1879-80	147	48	32.7
1880-81	126	34	27—
1881-82	124	41	33+
1882-83	114	41	36—
1883-84	104	28	26.9
1884-85	103	27	25.9
1885-86	100	37	37.
1886-87	99	29	29.2
1887-88	83	21	25.3

Percentage of graduates to matriculates for past eleven years, 31.1.

Remarks: After the session of 1890-91 the student will be required to furnish evidence that he has studied medicine four years, and attended three courses of lectures, before he will be permitted to come up for graduation.

ECLECTIC COLLEGE OF MEDICINE AND SURGERY.

CINCINNATI, O.

ORGANIZED in 1856. Classes were graduated in 1857, 1858 and 1859.—Merged into the Eclectic Medical Institute in 1859.

PHYSIO-MEDICAL INSTITUTE.

CINCINNATI, O.

ORGANIZED in 1859.—Extinct, 1885.

MEDICAL DEPARTMENT OF THE UNIVERSITY OF WOOSTER.

CLEVELAND, O. B. B. BRASHEAR, M. D., Vice Dean and Registrar, 375 Prospect street.

ORGANIZED in 1863, as the Charity Hospital Medical College. It was transferred to its present connection in 1870. The first class was graduated in 1865. One or more classes have been graduated in each subsequent year, excepting 1881.

The faculty embraces twelve professors, four assistants to chairs, two lecturers, and one demonstrator.

COURSE OF INSTRUCTION: The faculty have changed their calendar to the "one session a year" plan. The summer or graduating session commenced March 1, 1888, and continued twenty-one weeks. Five recitations are held each week by professors to review their lectures.

Lectures embrace anatomy, physiology and histology, chemistry, materin medica and therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, dermatology, diseases of children, ophthalmology and otology, laryngology, pathology and microscopy.

REQUIREMENTS: For admission—"Applicants for admission to this school are required to give evidence of possessing a good English education, and a certificate of good moral character."

"An examining committee has been appointed in order to comply with the requirements of the laws of the various States, and State boards of health, demanding a preliminary examination before admission to medical lectures. Students possessing academic degrees, or who have graduated at high schools, or who have received a teacher's certificate, will do well to bring evidence of that fact with them."

For graduation: 1) twenty-one years of age; 2) three years' study; 3) complete dissections of the human body during two courses; 4) two full courses of lectures; 5) satisfactory written examinations on all branches taught. "Candidates [for graduation] having no registration in this college must furnish the following: 1) a certificate of character and prior educational attainments; 2) a certificate of time of study with the date of beginning; and 3) certificates showing what lectures—if any—they have attended, and with whom, and to what extent they have studied practical anatomy."

FEES: Matriculation, \$5; general ticket, including hospital and demonstrator's ticket \$60; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

1888	50	22	44.

Percentage of graduates to matriculates for past eleven years, 39.4.

PULTE MEDICAL COLLEGE.

(Homeopathic.)

CINCINNATI, O. J. M. CRAWFORD, M. D., Registrar, 136 W. Eighth street.

ORGANIZED in 1872. The first class was graduated in 1873. Classes have been graduated each subsequent year.

The faculty embraces thirteen professors, one lecturer one demonstrator, and one assistant.

COURSE OF INSTRUCTION: The session of 1888-89, began September 26, 1888, and closes March 12, 1889. A three years' graded course is recommended but not required. Clinics at hospital and dispensary; quizzes by professors and students' society.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, histology, microscopy, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, ophthalmology and otology, diseases of nervous system, pedology, medical jurisprudence, pharmacology, hygiene and sanitary science and genito-urinary diseases.

REQUIREMENTS: For admission—"An entrance examination will be held preliminary to matriculation, covering the common English branches. Any student presenting a college or high school diploma, or a certificate of admission to any literary college, or a teacher's certificate, will be exempt from this examination."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) three years' study; 5) thorough examination on all subjects taught in the school; 6) dissection of two parts.

FEES: Matriculation (paid but once), \$5; lectures, \$50; hospital, \$5; demonstrator, \$5; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

AMERICAN HEALTH COLLEGE.

CINCINNATI, O.

ORGANIZED in 1874-'6. The faculty embraces one person who teaches "the great vitaphic system, which he originated and copyrighted."

The possessor of one of these diplomas was arrested in Illinois for practicing without the certificate prescribed by law—the STATE BOARD OF HEALTH having refused to issue such certificate on the diploma. On trial the man was found guilty and left the State.

The following is taken from the *Chicago Tribune* of July 22, 1886:

Troy, N. Y., July 21.—Mrs. Hoyt some time ago obtained a diploma from the American Health College of Cincinnati, claiming to be incorporated under the laws of Ohio, authorizing her to practice the vitapathic system of medicine, and conferring power to solemnize marriages, preach the gospel, and perform all other duties as a minister. She has married two couples, in one case the parties being a Boston spiritualist, a medium named Donnelly, and a seventeen-year-old girl. Mrs. Hoyt's cousin who was divorced from her first husband, was the principal in the other marriage; and Mrs. Hoyt says she was graduated from the college after attending it eight weeks and has a certificate from the institution proclaiming that she has been ordained a minister of the gospel for life.

COLUMBUS MEDICAL COLLEGE.

COLUMBUS, O. J. M. DUNHAM, A. M., M. D., Secretary, 222 East Town street.

ORGANIZED in 1875. The first class was graduated in 1876. Classes have been graduated each subsequent year.

The faculty embraces thirteen professors, two adjunct professors, and one demonstrator.

COURSE OF INSTRUCTION: The fourteenth annual course of lectures commenced October 2, 1888, and will close April 1, 1889. This was preceded by a preliminary term of two weeks commencing September 15, 1888, and will be followed by a recitation course of twelve weeks. Instruction consists of didactic and clinical lectures, with daily quizzes. Three years graded course recommended but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology, otology, histology and diseases of women and children and toxicology.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two course of lectures; 4) three years' study; 5) complete dissection of the human body; 6) thesis; 7) satisfactory examination; 8) one course clinical lectures at hospital.

FEES: Matriculation (each term), \$5; lectures, first course, \$40; second course \$40; third course, \$20; demonstrator, \$5; demonstrator of chemistry, \$5; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Percentage of graduates to matriculates for past eleven years, 37.9.

PHYSIO-ECLECTIC MEDICAL COLLEGE.

CINCINNATI, O.

ORGANIZED in 1876.—Extinct. A fraudulent institution, engaged in the sale of diplomas. In 1879 the name was changed to the American Eclectic Medical College, and a new charter was obtained, but the same practices were continued under the new title.

Diplomas not recognized.

ZANESVILLE ACADEMY OF MEDICINE.

ZANESVILLE, O.

ORGANIZED in 1877. Under the laws of Ohio the Academy had authority to examine candidates who wished to practice medicine, and if found qualified issue certificates to that effect. This right was exercised in six or seven instances after a written and oral examination. Owing to internal dissensions the Academy was closed by order of Court in 1881.

TOLEDO SCHOOL OF MEDICINE.

TOLEDO, O.

ORGANIZED in 1878, as a school of instruction only, and did not confer degrees. It held three sessions and was then suspended. See Northwestern Ohio Medical College.

AMERICAN ECLECTIC MEDICAL COLLEGE.

CINCINNATI, O. B. K. MALTBY, M. D., Dean, 192-194 W. Fifth street.

ORGANIZED in 1883.

The faculty embraces twelve professors and one lecturer, six lecturers in special departments.

COURSE OF INSTRUCTION: The thirteenth annual course of lectures began September 1, 1888, and will continue until June 4, 1889. It is divided into two terms of twenty weeks each. Examinations for the degree held at close of each term. Three courses of lectures recommended but not required. Women admitted upon same terms as men.

Lectures embrace anatomy, physiology, pathology, histology and microscopy, materia medica, principles and practice of medicine, surgery, obstetrics, gynecology, chemistry, toxicology, therapeutics, clinical medicine, electro-therapeutics, dermatology, ophthalmology and otology, sanitary science and medical jurisprudence.

REQUIREMENTS: For admission—"Applicants must bring acceptable testimonials as to moral character and of the time spent in medical studies. They must give evidence of attainments equal to a good common school education, which includes grammar, elementary mathematics and physics. In this college lectures will be delivered teaching so much of classic language as is necessary in writing prescriptions, and to be able to understand Greek letters and words used in medical dictionaries and text books."

For graduation: 1) the applicant must have attained the age of twenty-one years by the time of graduation; 2) a final and satisfactory examination must be passed on all the branches of the lecture course at this college; 3) two full courses of dissection under a demonstrator must have been attended, also clinical hospital instruction during each year of college study; 4) the certificates of good moral character, and of the time spent in previous medical studies, required and received at registration, will be satisfactory for graduation, in the absence of any impairment of standing. So also the certification of previous lecture course or courses, furnished on admission to the graduating class, need not be repeated, it being always understood that the graduating session has been in this college, with at least five months of vacation preceding it, or with a lecture course intervening.

FEES: Matriculation, \$5; lectures, each session, \$60; Cincinnati Hospital fee, \$5; demonstrator, each session, \$5; dissecting material, each session, \$5; graduation, \$25.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

TOLEDO MEDICAL COLLEGE.

TOLEDO, O. H. S. HAVIGHORST, M. D., Secretary, 325 Cherry street.

ORGANIZED in 1883. The first class was graduated in 1888.

The faculty embraces fourteen professors, one instructor, and one demonstrator.

COURSE OF INSTRUCTION: The regular session of 1888-89 began September 12, 1888, and closes March 12, 1889. A three-years' graded course is recommended but not required. Women admitted on same terms as men.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, physical diagnosis, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology and otology, toxicology, diseases of children, histology and pathology, and pharmacy.

REQUIREMENTS: For admission—"Students before being admitted to the class, must present a diploma from some literary and scientific college or high school, or a teacher's certificate, or in lieu thereof pass an examination before the examining committee of the faculty, on the branches of a good English education, including mathematics, English composition and natural philosophy."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; 5) complete dissection of the body; 6) satisfactory examination on all branches taught; 7) one course of practical chemistry and urinalysis.

FEES: Matriculation, \$5; lectures, \$40; demonstrator, \$10; practical chemistry, \$5; graduation, \$25.

1887-8	29	9	30.6

Percentage of graduates to matriculates for past six years, 31.7.

NOTE: Beginning with the session of 1889-90 the college will demand of its students three full courses of lectures before graduation.

NORTHWESTERN OHIO MEDICAL COLLEGE.

TOLEDO, O. C. A. KIRKLEY, M. D., Secretary, Jefferson and Eleventh streets.

ORGANIZED IN 1883. This college is an outgrowth of the Toledo School of Medicine, which see *ante*.

The faculty embraces fifteen professors, one lecturer and one demonstrator.

COURSE OF INSTRUCTION: The session of 1888-89 began September 19, 1888, and will continue six months. Didactic lectures, clinical instruction in hospital and dispensary. A three years' graded course recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, principles and practice of medicine, pathology, surgery, obstetrics and gynecology, toxicology, histology, hygiene and state medicine, medical jurisprudence, ophthalmology and otology, diseases of children, diseases of the mind and nervous system, laryngology, orthopedic surgery, diseases of throat and nose, and physical diagnosis.

REQUIREMENTS: For admission—"Students desiring to attend the lectures of this college must furnish: 1) satisfactory certificates of good moral character; 2) diploma of graduation from a literary and scientific college or high school, or, in absence of this, 3) must pass a satisfactory examination in the branches necessary to a good English education, including mathematics, English composition and elementary physics or natural philosophy."

For graduation: 1) good moral character; 2) three years' study; 3) twenty-one years of age; 4) two full courses of dissection; 5) two full courses of lectures; 6) attendance during at least two terms of clinical and hospital instruction; 7) must pass a satisfactory examination on all branches, to be conducted, when practicable, by other competent examiners than the professors in each branch; 8) regular attendance during the entire lecture courses, allowance being made only for absence occasioned by the student's sickness, such absences not to exceed twenty per cent. of the course; 9) attendance upon regular examination, or quizzes made by each professor, daily or at least twice each week; 10) thesis.

FEES: Matriculation, \$5; demonstrator, \$5; laboratory course in chemistry and histology, \$10; lectures, \$25; graduation, \$25.

MEDICAL UNIVERSITY OF OHIO.

CINCINNATI, O.

CHARTERED IN 1883. Only one session held, that of 1886-87.—Extinct in 1887.

WOMEN'S MEDICAL COLLEGE OF CINCINNATI.

CINCINNATI, O. D. D. BRAMBLE, M. D., Dean, 165 Broadway.

ORGANIZED in 1887. First class graduated in 1888.

The faculty embraces thirteen professors, one demonstrator, one lecturer, and one clinical lecturer.

COURSE OF INSTRUCTION: The third annual session will begin on February 19, 1888 and terminate about July 1, 1889.

Lectures embrace anatomy, physiology, materia medica, chemistry, toxicology, pathology, surgery, theory and practice of medicine, gynecology, obstetrics, ophthalmology, laryngology, otology, diseases of women and children, laboratory work and dissecting.

REQUIREMENTS: For admission—"Students applying for admission must present satisfactory evidence, either by examination, or diploma, or teacher's certificate, of an adequate English education."

For graduation: 1) good moral character; 2) twenty-one years of age; 3) have studied medicine for three years; 4) two full courses of lectures; 5) must have been adequately engaged in the study of practical anatomy; 6) satisfactory final examination (a system of grade quizzes will be established during the term in all departments as an adjunct to the formal final examination).

FEES: Matriculation, \$5; lectures, \$40; demonstrator, including material, \$20; laboratory, \$5; hospital, \$5; graduation, \$25.

MEDICAL DEPARTMENT WILLAMETTE UNIVERSITY.

PORTLAND, Ore. E. P. FRASER, M. D., Dean of the Faculty.

ORGANIZED in 1864, and located at Salem. It was removed to Portland in 1878. The first class was graduated in 1867. Classes have been graduated in each subsequent year.

The faculty embraces thirteen professors, four lecturers and one demonstrator.

COURSE OF INSTRUCTION The session of 1888-89 began October 2, 1888, and will continue six months. A three-years' graded course is advised, but not required. Instruction imparted by didactic and clinical lectures, practical work in dissecting room, elemental and physiological laboratories, and by daily quizzes upon the subjects of the preceding lectures.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, diseases of women and children, medical jurisprudence, diseases of the mind and nervous system, hygiene, ophthalmology and otology, microscopy and psychological medicine.

REQUIREMENTS: For admission—1) credible certificate of good moral character; 2) diploma of graduation from a good literary and scientific college or high school or a first grade teacher's certificate; or, lacking this, a thorough examination in the branches of a good English education, including mathematics, English composition, and elementary physics and natural philosophy. Women admitted on the same terms, with the same advantages as men.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) must have been engaged in the study of medicine at least three years, and attended two full courses of lectures; 4) must have attended dissections at least one term; 5) thesis; 6) successful examination as to professional attainments.

FEES: Matriculation, \$5; demonstrator, \$10; lectures, \$120; graduation, \$30.

UNIVERSITY OF THE STATE OF OREGON, MEDICAL DEPARTMENT.

PORTLAND, Ore. S. E. JOSEPH, M. D., Dean, 135 First street.

ORGANIZED in 1887.

The faculty embraces fifteen professors, and one demonstrator.

COURSE OF INSTRUCTION: The second regular session began October 3, 1888, and will continue until April, 1889, a period of six months. A three-years' graded course recommended but not required. Women admitted upon the same terms as men.

Lectures embrace surgery, chemistry, toxicology, theory and practice of medicine, anatomy, materia medica and therapeutics, microscopy, obstetrics, gynecology, physiology, psychological medicine, ophthalmology, otology, diseases of throat and nose, genito-urinary diseases, clinical surgery, diseases of children, dermatology, hygiene, medical jurisprudence.

REQUIREMENTS: For admission, candidates having a degree in the arts or sciences or presenting a certificate from a high school or other institution in good standing, and matriculants of regular medical colleges requiring preliminary examination, will be admitted, without examination; lacking any of these, must give satisfactory evidence of knowledge of the common English branches, including reading, writing, spelling, grammar, geography, arithmetic.

For graduation: 1) good moral character and twenty-one years of age; 2) three years' of study; 3) two full courses of lectures; 4) one course of dissections; 5) one course in practical anatomy and clinical instruction; 6) satisfactory examinations.

FEES: Matriculation, (once only), \$5; lectures, \$120; demonstrator, \$10; graduation, \$30.

PENNSYLVANIA.

UNIVERSITY OF PENNSYLVANIA, DEPARTMENT OF MEDICINE.

PHILADELPHIA, Pa. JAMES TYSON, M. D., Dean, Thirty-sixth street and Woodland ave.

ORGANIZED in 1765 as the Department of Medicine of the College of Philadelphia, the sixth in the order of succession of American colleges, being chartered chiefly through the influence of Dr. BENJAMIN FRANKLIN and Dr. WILLIAM SMITH. The first medical diploma issued in America was granted to Dr. JOHN ARCHER, in 1768, by this department, then known as the College of Medicine in Philadelphia. On the organization of the University of Pennsylvania, in 1782, the college assumed its present title and relations, the successor of the College of Philadelphia. Classes have been graduated each year since 1768, except in 1772 to 1779, inclusive, during the War of Independence.

The faculty embraces twelve professors, one assistant professor, two auxiliary professors, six clinical professors, forty-two demonstrators and lecturers.

COURSE OF INSTRUCTION: Sessions of 1888-89—"The spring session began May 7, and ended June 15, 1888; the preliminary session began September 17, 1888, and ended Sep-

tember 30, and the winter session began October 1, 1888, and ends May 1, 1889. Attendance upon three winter sessions is obligatory. The course is graded, and extends over three years. A four-years' graded course is recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology and morbid anatomy, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology and otology, dermatology. This enumeration is to be understood as including the collateral studies and special branches of the general subjects.

REQUIREMENTS: For admission—A collegiate degree, or a certificate of having passed the matriculation examination of a recognized college; or a certificate, covering the required subjects, from a recognized normal or high school, or from a duly organized county medical society that has instituted a preliminary examination; or a preliminary examination embracing first, a brief essay, not exceeding a page of foolscap, which will serve as a test of qualifications in orthography and grammar; second, an examination in the elementary principles of physics, on the subjects considered, in Part I of Fownes' Chemistry.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) three full courses of lectures; 5) satisfactory examinations.

Students who have attended one course in a regular medical school are admitted as students of the second course in the University of Pennsylvania, after having passed a satisfactory examination in general chemistry, materia medica and pharmacy, and the elements of general pathology. Students who have attended two courses in a regular medical school will be admitted as students of the third course in this institution, after having satisfactorily passed an examination in general and medical chemistry, materia medica and pharmacy, anatomy and physiology, and the elements of general pathology. Graduates of other regular medical schools, in good standing will be admitted as students of the third class without examination. Graduates of colleges of pharmacy and dental colleges in good standing are admitted to the second course on passing the admission examination only.

FEES: Matriculation, \$5; lectures, including laboratory and dissection, for each year, \$150.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

1886-87	429*	99	30.9
1887-88		118	21.7
			27.5

Percentage of graduates to matriculates for past eleven years, 29.4.

REMARKS: During the first and second years, much of the student's time is occupied with practical work in the various laboratories of chemistry, pharmacy, osteology, histology and pathological histology, and in dissection; but throughout the second and third sessions he is required to attend the general medical and surgical clinics of the University and Philadelphia hospitals, while special clinical and surgical clinics of the third year. In this year each student receives bedside instruction in clinical medicine and surgery, in physical diagnosis, laryngology, surgery, and gynecology. Opportunities are afforded for the practical study of diseases of the eye, ear, throat and skin, and for acquiring proficiency in the use of the various instruments employed in their treatment. For this purpose the third year class is divided into sections of convenient size, each of which receives direct personal instruction in the various practical subjects above mentioned. Advanced students may make original researches in the laboratories of pharmacy, chemistry, physiology, pathology, and experimental therapeutics.

JEFFERSON MEDICAL COLLEGE.

PHILADELPHIA, Pa. J. W. HOLLAND, M. D., Dean, 1914 South Rittenhouse Square.

CHARTERED in 1826 as the Medical Department of the Jefferson College at Cannonsburg, Pa. The first class was graduated in 1826. Classes have been graduated in each subsequent year.

The faculty embraces eight professors, one honorary professor, one lecturer, five clinical lecturers, twelve demonstrators and thirteen assistant demonstrators.

* Not including six graduates who matriculated.

COURSE OF INSTRUCTION: Session of 1888-89—A preliminary fall session began September 17, and continued until the opening of the winter session; the regular winter session commenced October 1, 1888, and ends the last of March, 1889; the spring session begins early in April and ends the last day of May, 1889. Daily clinics at hospital and dispensaries. A three-years' graded course, for which provision is made, is recommended, but not required.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology, otology, diseases of children, dermatology, toxicology, histology, genito-urinary diseases, pharmacy.

REQUIREMENTS: For admission—"Some of the States have recently enacted laws by the requirements of which students not provided with literary degrees, or other certificates of scholarship necessary to the study of medicine, must undergo an examination before a State board in the subjects of such preliminary study, as a prerequisite for a license to practice medicine within their borders. That the graduates of this college may be spared the trouble incident to compliance with these regulations, all students intending to engage in practice in those States will have the opportunity of undergoing such an examination before a committee of the faculty, and will receive a certificate therefor. The examination will include all branches requisite to a good English education, comprising mathematics, composition and elementary physics."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) three years' study; 5) one course of clinical instruction and practical anatomy. Students of dental colleges where a five months' winter session is held, and where full courses are given on anatomy, materia medica, physiology and chemistry, may become candidates, after attendance on two courses at such colleges, and one full course at the Jefferson Medical College, with another on surgery, practice of medicine and obstetrics. Students of colleges of pharmacy where full courses are given on materia medica and chemistry, may become candidates, after attendance on two courses at such colleges, and one full course at the Jefferson Medical College, with another on anatomy, surgery, practice of medicine, physiology and obstetrics.

FEES: Matriculation (paid once only), \$5; lectures, \$140; demonstrator of anatomy, \$10; all other practical courses free; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

NOTE: With the session of 1890 attendance upon three courses of lectures will be required as a condition of graduation.

PENNSYLVANIA MEDICAL COLLEGE.

PHILADELPHIA, Pa.

ORGANIZED in 1839 as the Medical Department of the Pennsylvania College, at Gettysburg, by Dr. George McClellan. In 1859 it merged with the Philadelphia College of Medicine and Surgery, the faculty of the latter becoming the faculty of the former under the name of the former. It closed in 1861 on account of the confused state of the country, and the desire of many of the professors to enter the medical staff of the army.

PHILADELPHIA COLLEGE OF MEDICINE AND SURGERY.

PHILADELPHIA, P^a

ORGANIZED in 1846, by Dr. James R. McClintock, and in 1859 it was merged into the Pennsylvania Medical College.

* Not including 37 graduates who matriculated.

† A number of the students of this school have attended one or more courses of lectures elsewhere.

FRANKLIN MEDICAL COLLEGE.

PHILADELPHIA, Pa.

ORGANIZED in 1847.—Extinct in 1852.

HOMEOPATHIC MEDICAL COLLEGE.

PHILADELPHIA, Pa.

ORGANIZED in 1848. On April 2, 1869, the faculty of this institution united with the faculty of the Hahnemann Medical College of Philadelphia, under the latter title.

HAHNEMANN MEDICAL COLLEGE AND HOSPITAL.

(Homeopathic.)

PHILADELPHIA, Pa. A. R. THOMAS, M. D., Dean, 1733 Chestnut street.

ORGANIZED in 1848. The first class was graduated in 1849. Classes have been graduated each subsequent year.

The faculty embraces nine professors, eleven lecturers and three demonstrators.

COURSE OF INSTRUCTION: The session of 1888-89 embraces a preliminary course of one week's duration, which precedes the regular winter course. The latter began the first Monday in October, 1888, and continues until the last of March, 1889. A spring course begins on the Monday following commencement and continues until June. A three-years' graded course obligatory. Clinics at hospital and dispensary. "Quizzes, demonstrations, experiments and other practical exercises will be called into requisition as aids in the work of imparting instruction."

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, institutes of homeopathy, microscopy and histology, botany and pharmacy, toxicology, ophthalmology and otology, paedology, laryngology, diseases of children, history of medicine and insanity.

REQUIREMENTS: For admission—"Each student will be required to present a preceptor's certificate that he possesses a good moral character, and that he is otherwise qualified for the study of medicine. He must give evidence of a good education, and pass a satisfactory examination in elementary mathematics, composition and elementary physics or natural philosophy. Candidates exhibiting the diploma of a literary or scientific college or high school, or a county or State teacher's certificate, or the certificate of an examining board of any accredited medical society, will be admitted without examination."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) three full courses of lectures; 5) at least one course of practical anatomy, chemistry, obstetrics and surgery.

FEES: Matriculation, \$5; lectures, \$100 per year; practical courses, free; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

WOMAN'S MEDICAL COLLEGE OF PENNSYLVANIA.

PHILADELPHIA, Pa. RACHEL L. BODLEY, M. D., Dean, North College avenue and Twenty-first street.

ORGANIZED in 1850. The first class was graduated in 1851. Classes have been graduated in each subsequent year.

The faculty embraces ten professors, seven lecturers, four instructors and six demonstrators, one assistant demonstrator, a curator of museum and professor.

COURSE OF INSTRUCTION: The regular winter term of the session of 1888-89 began October 4, 1888, and closes March 14, 1889. The spring term will begin March 18, 1889, and close May 21. A three-years' graded course is required for graduation, and a four-years' course is earnestly recommended. Weekly examinations on each subject, as presented in the lectures. The spring term is devoted mainly to laboratory work, to demonstrative and clinical teaching.

Lectures embrace anatomy, physiology, chemistry and toxicology, materia medica and therapeutics, principles and practice of medicine, pathology, principles and practice of surgery, obstetrics, gynecology and diseases of women and children, hygiene, medical jurisprudence, histology and microscopy, laryngoscopy and rhinoscopy, dermatology, ology and ophthalmology and pharmacy.

REQUIREMENTS: For admission—

"All applicants for admission to the college, before matriculating, must pass an entrance examination in the following branches: 1) penmanship, orthography, and English composition by means of a page written at the time and place of examination; 2) elementary physics as presented in Part I of Fownes's Chemistry. Applicants bringing a diploma or a certificate, from a recognized college or school, or from a duly organized County Medical Society which has instituted a preliminary examination (such as that adopted by the Medical Society of the State of Pennsylvania), or a teacher's certificate from a County Superintendent of Schools, will not be required to pass the entrance examination, provided such diploma or certificate shall include the subjects of the examination as stated above. No examination will be required of students desiring to pursue special branches in the College who do not intend to apply for the degree in medicine."

For graduation: 1) twenty-one years of age; 2) three years' study; 3) three winter courses, including, at the least, two full courses of lectures on each of the following subjects—chemistry and toxicology, anatomy, physiology and hygiene, materia medica and general therapeutics and pathology, principles and practice of medicine, principles and practice of surgery, obstetrics, gynecology and diseases of children, and one course of lectures on histology, two courses in practical anatomy, having made creditable dissection of each part of the cadaver; one course in the chemical, the physiological, the histological, the pharmaceutical, and the pathological laboratories; one course in operative and minor surgery, in practical obstetrics and gynecology, and satisfactory evidence of having attended two courses of clinical instruction each, in medicine, surgery, obstetrics and gynecology; 4) good moral character and mental fitness for the profession; 5) thesis; 6) satisfactory examinations.

FEEs: Matriculation (paid only once), \$5; lectures, \$105; demonstrator, \$10; graduation \$30.

ECLECTIC MEDICAL COLLEGE OF PENNSYLVANIA.

PHILADELPHIA, Pa.

INCORPORATED in 1856.—Extinct. After being in operation a few years, this institution passed into the hands of Buchanan and his colleagues, and became fraudulent. The sale of diplomas was stopped by legal process and the arrest of Buchanan in 1880.

PHILADELPHIA UNIVERSITY OF MEDICINE AND SURGERY.

(Eclectic.)

PHILADELPHIA, Pa.

INCORPORATED in 1859. Fraudulent. The sale of diplomas was stopped by legal process and the arrest of Miller and others in 1880.

AMERICAN UNIVERSITY OF PENNSYLVANIA.

(Eclectic.)

PHILADELPHIA, Pa.

INCORPORATED in 1867. Fraudulent.—Extinct. The sale of diplomas was stopped by legal process and the arrest of Buchanan in 1880.

LINCOLN UNIVERSITY, MEDICAL DEPARTMENT.

OXFORD, Pa.

ORGANIZED in 1870.—Extinct, 1872.

PENN MEDICAL UNIVERSITY.

PHILADELPHIA, Pa.

CHARTERED February 2, 1853. Lectures were delivered until 1867. Reorganized in 1874.—Extinct, 1881.

MEDICO-CHIRURGICAL COLLEGE OF PHILADELPHIA.

PHILADELPHIA, Pa. E. E. MONTGOMERY, M. D., Secretary, 1818 Arch street.

ORGANIZED in 1881. The first class was graduated in 1882.

The faculty embraces fourteen professors, one adjunct professor, fifteen lecturers, eight demonstrators, and eleven chiefs and assistant chiefs of clinics.

COURSE OF INSTRUCTION: The college year is divided into two sessions—the winter session, on which alone attendance is required, preceded by a preliminary session of three weeks, and the spring session. The introductory course for the session of 1888-89 began Monday, September 10, 1888. The winter session began Monday, October 1, 1888, and ends on April 4, 1889. The spring session begins on Thursday, April 10, 1889, and lasts until the middle of June. A three years' graded course is required to complete the curriculum, while a four years' course is recommended. Daily quizzes by the professors.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics, gynecology, hygiene, medical jurisprudence, histology, ophthalmology and otology, orthopaedic surgery, laryngology, nervous diseases, pharmacy, diseases of children, dermatology. Clinics at hospital, and full facilities for laboratory work afforded.

REQUIREMENTS: For admission—Candidates for admission shall be required: 1) to write an essay (one page of foolscap) as a test of orthography and grammar; 2) pass an examination in English history, elementary physics, and Latin grammar. A candidate who has received a degree in arts, philosophy, or science; a certificate of examination and graduation from an academy, high or normal school which does not confer degrees; or a certificate of having passed a satisfactory examination of a duly organized county medical society may enter without examination.

Students having attended one course in a regular medical college are admitted to the second year of the college course upon passing a satisfactory examination in the studies of the first year. Students who have attended two courses are admitted to the third year upon a satisfactory examination in anatomy—osteology, syndesmology, myology, and endesmology—physiology, general and medical chemistry, materia medica and pharmacy, and the elements of general pathology. Graduates of regular medical schools

in good standing are admitted to the third year without an examination. Graduates of colleges of pharmacy and dental colleges in good standing are admitted to the second year after passing the entrance examination only.

□ For graduation: 1) twenty-one years of age and good moral character; 2) thesis; 3) satisfactory examination in all the branches of the curriculum, and that his last course of instruction shall have been spent in this school; 4) present at the commencement, unless excused by the faculty; 5) three full courses of lectures.

FEEs: Matriculation (paid but once), \$5; general ticket first and second years, \$75 each; \$5 each for the departments of histology, pharmacy and chemistry.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

WESTERN PENNSYLVANIA MEDICAL COLLEGE.

PITTSBURG, Pa. W. J. ASDALE, M. D., Secretary, 2107 Penn avenue.

ORGANIZED IN 1886.

The faculty embraces twenty-two professors, four demonstrators, twelve assistants to chairs, and one prosector to chair of anatomy.

COURSE OF INSTRUCTION: The session of 1888-89 began on the last Tuesday in September and will end on the last Thursday in March. This will be followed by a spring course of ten weeks. Instruction imparted by didactic and clinical lectures, recitations, demonstrations, laboratory work and practice in diagnosis. Lectures to be illustrated by clinical cases, charts, manikins, models, prepared specimens, dissections, microscopical and chemical experiments and other practical demonstrations. A three years' graded course is recommended, but not required.

Lectures embrace materia medica and therapeutics, chemistry, histology, anatomy, physiology, hygiene, principles and practice of medicine, principles and practice of surgery, obstetrics, clinical medicine and surgery, orthopedic surgery, surgery of genito-urinary organs, ophthalmology, otology, laryngology, dermatology, diseases of women and children, mental and nervous diseases medical jurisprudence and microscopy.

REQUIREMENTS: For admission—"Students will be required to show the possession of an education, sufficiently comprehensive to enable them to pursue the study of medicine with advantage. A preliminary examination will not be required of those holding degrees from recognized colleges, nor diplomas from normal or high schools in good standing, or certificates from examiners of any county medical society conforming to the requirements of the Pennsylvania State Medical Society, or having passed the matriculation examination of any other regular medical college in good standing."

For graduation: 1) twenty-one years of age and good moral character; 2) must have studied medicine three years and have taken at least two full courses of lectures; 3) satisfactory examination in all branches taught in the college.

FEEs: Matriculation, annually, \$5; lectures and clinics, \$100; demonstrator, \$10; graduation, \$25.

†Not including one graduate who matriculated.

RHODE ISLAND.**MEDICAL DEPARTMENT OF BROWN UNIVERSITY.**

PROVIDENCE, R. I.

ORGANIZED in 1811. "Lectures were delivered and classes graduated annually from 1814 to 1827, inclusive, except the year 1820-21, when it is believed that no classes were graduated.

SOUTH CAROLINA.**MEDICAL COLLEGE OF SOUTH CAROLINA.**

CHARLESTON, S. C.

ORGANIZED in 1824; charter obtained in 1823. Permanently closed in 1839. During its existence its graduates numbered 313.

Dr. J. FORD PRIOLEAU, dean of the Medical College of the State of South Carolina, writes: The Medical College of South Carolina was organized under the auspices and control of the Medical Society of South Carolina, which elected the professors and examined the candidates for graduation of the college. In filling two vacancies the society gave offense to the members of the faculty, which was increased by a difference of opinion relative to the status of some of the applicants for graduation; and in 1833 the faculty resigned in a body, and established another school under the title of the Medical College of the State of South Carolina—having obtained a charter in 1832, and giving its first course in 1834. The Medical Society elected the members of the faculty of the college, which continued in activity in the city of Charleston until 1839, when, having gradually declined in number of students, the Medical College of South Carolina promised with the Medical College of the State of South Carolina and permanently closed its doors.

MEDICAL COLLEGE OF THE STATE OF SOUTH CAROLINA.

CHARLESTON, S. C. R. A. KINLOCK, M. D., Dean, 285 Meeting street.

ORGANIZED in 1832. In 1839 the Medical College of South Carolina was merged into it, the Medical College of the State of South Carolina receiving all the apparatus, buildings and other property of the former. (PRIOLEAU—see Medical College of South Carolina.) Classes were graduated annually until 1863, when operations were suspended during the war, and until 1865, when they were resumed. Classes have been graduated annually since 1865.

The faculty embraces eight professors, three lecturers and two demonstrators.

COURSE OF INSTRUCTION: The session of 1888-89 began October 15, 1888, and will close early in March, 1889, embracing a period of twenty weeks. Clinics at hospital. Graded course of three years recommended, but not required.

Lectures embrace principles and practice of surgery, medical jurisprudence, clinical surgery, pathology, practice of medicine, clinical medicine, physiology, chemistry, hygiene, anatomy, ophthalmology, otology, obstetrics, gynecology, materia medica and therapeutics, microscopy, pathology, laboratory instruction (compulsory on first course students.)

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) preliminary education satisfactory to the faculty; 3) three years' study; 4) two full courses of lectures and dissections; 5) examinations in all the branches. Attendance upon lectures, habits and general character must be satisfactory to the faculty.

FEES: Matriculation \$5; lectures, including demonstrator's and one hospital ticket \$100; graduation, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	60	17	28.3
1878-79	71	20	28.

1887-88	61*	17	27.8

Percentage of graduates to matriculates for past three years, 30.4.

REMARKS: Pharmacy students are included in the number of matriculates here given prior to the session of 1885-86, thus affecting the proportion of graduates to matriculates.

UNIVERSITY OF SOUTH CAROLINA, MEDICAL DEPARTMENT.

COLUMBUS, S. C.

ORGANIZED in 1866. Extinct in 1876.

TENNESSEE.

MEDICAL DEPARTMENTS OF THE UNIVERSITY OF NASHVILLE AND VANDERBILT UNIVERSITY.

NASHVILLE, Tenn. W. L. NICHOL, M. D., Registrar, Cor. Cedar and High streets.

ORGANIZED in 1850, as the Medical Department of the University of Nashville and assumed its present relation in 1871. The first class was graduated by the University of Nashville in 1852; and the first diploma was issued by the Vanderbilt University in 1875. Classes have been graduated annually by the respective universities since these dates.

The faculty embraces ten professors, five lecturers and one demonstrator.

COURSE OF INSTRUCTION: The course of 1888-89 opened with a preliminary session commencing September 3, 1888, and continuing until the opening of the winter session October 1, which ends on the first Thursday of March, 1889. A three-years' graded course is recommended, but not required. Daily examinations held by professors. Clinics at hospital.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, ophthalmology and otology, psychology, histology, pharmacy and toxicology.

REQUIREMENTS: For admission none.

For graduation: 1) twenty-one years of age; 2) good moral character; 3) three years' study; 4) two full courses of lectures; 5) dissection during one session.

FEES: Matriculation, \$5; demonstrator, \$10; lectures, \$75; graduation, \$2.

* Not including one graduate who matriculated.

JEFFERSON MEDICAL ASSOCIATION.

DANDRIDGE, Tenn.

In 1854, this association obtained a charter from the Legislature of Tennessee giving it power to confer the degree of M. D. upon applicants who would present themselves before the members of said association for thorough examination, and if the examination was satisfactory to these gentlemen they could grant them a diploma. The degree of M. D. was conferred upon five persons a number of years ago. No degree has been conferred of late years, the association simply exercising the functions of a Medical Society. A diploma granted by this association in 1869 was recently filed for record in Indiana.

MEMPHIS MEDICAL COLLEGE.

(Medical Department, Cumberland University.)

MEMPHIS, Tenn.

ORGANIZED in 1854. Lectures were suspended from 1861 to 1868. A reorganization was effected in June, 1868, and a session was held every winter until the close of the session of 1872-3, when it became extinct.

BOTANIC MEDICAL COLLEGE.

MEMPHIS, Tenn.

ORGANIZED in 1857.—In 1859 reorganized as the Eclectic Medical Institute, and became extinct in 1861.

SHELBY MEDICAL COLLEGE.

NASHVILLE, Tenn.

ORGANIZED in 1858.—Extinct in 1862.

MEDICAL DEPARTMENT, UNIVERSITY OF TENNESSEE.

(Nashville Medical College.)

NASHVILLE, Tenn. DUNCAN EVE, M. D., Dean of the Faculty, 700 Church street.

ORGANIZED in 1876. Became connected with the University of Tennessee in 1880. The first class was graduated in 1878. Classes have been graduated each subsequent year.

The faculty embraces twelve professors, two demonstrators and two assistants.

COURSE OF INSTRUCTION: The session of 1888-89 began September 3, 1888, with a preliminary course, which continued until the beginning of the regular winter course, October 1, 1888, the latter continuing five months. Provision is made for a three years' graded course, which, however, is not obligatory. "The instruction at this college consists of didactic lectures with demonstrations, clinical teaching, examinations or quizzes and practical teaching in subjects involving manipulation, by the regular faculty."

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology, medical jurisprudence, genito-urinary and venereal diseases, toxicology, diseases of children oral surgery, ophthalmology and otology, pathology and laryngology.

REQUIREMENTS: For admission—"Certain States having enacted laws requiring literary qualifications of their students, all students hailing from such States who have not received a literary collegiate degree, or have not a certificate covering the required subjects from a Normal or High School, will be required to undergo an admission examination, such as is contemplated by the laws of said States."

For graduation: 1) twenty-one years of age; 2) good moral character; 3) two full courses of lectures; 4) dissections during attendance in this school; 5) satisfactory examination by the faculty.

FEES: Matriculation (paid but once), \$5; demonstrator, \$10; lectures, \$75; graduation, \$25.

MEHARRY MEDICAL DEPARTMENT OF CENTRAL TENNESSEE COLLEGE.

NASHVILLE, Tenn. G. W. HUBBARD, M. D., Dean of the Faculty.

ORGANIZED in 1876. The first class was graduated in 1877. Devoted to the education of colored students, male and female.

The faculty embraces eight professors, one assistant professor and one demonstrator.

COURSE OF INSTRUCTION: The session of 1888-89 began October 1, 1888, and ends February 21, 1889. A three years' graded course is required. Recitations in anatomy, chemistry and physiology, with laboratory work during first year's attendance.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology, medical jurisprudence, microscopy, histology, botany, pharmacy, ophthalmology, otology, laryngology, toxicology, dermatology, electro-therapeutics and hygiene.

REQUIREMENTS: For admission—"Applicants must be at least eighteen years of age, of good moral character, and pass examinations in arithmetic, geography, grammar, reading, writing and spelling. Graduates of other recognized colleges and normal schools will, on presenting their diplomas, be admitted without examination."

For graduation: 1) twenty-one years of age; 2) three courses of lectures of not less than twenty weeks' each; 3) must pass a satisfactory written examination in all the branches laid down in this course, "including the outlines of Bible history and doctrine;" 4) present an acceptable original thesis on some medical subject.

FEES: Tuition, \$25; graduation, \$10; materials for practical anatomy and chemistry at cost.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates	Percent.

TEXAS.

TEXAS MEDICAL COLLEGE AND HOSPITAL.

GALVESTON, Tex. J. F. Y. PAINE, M. D., Dean, P. O. Box 329.

ORGANIZED in 1864.—Re-organized in 1873. Became extinct in 1881 and again re-organized in 1888. Formerly known as the Galveston Medical College.

The faculty embraces seven professors, one instructor, one lecturer and a demonstrator.

COURSE OF INSTRUCTION: The session of 1888-89 began October 15, 1888, and will continue until March 30, 1889. The method of teaching consists of didactic lectures, recitations and clinical instruction. Three years' graded course required.

Lectures embrace: First year—anatomy, physiology, histology, chemistry, materia medica. Second year—anatomy, physiology, chemistry, materia medica and therapeutics, pathology, bacteriology, theory and practice of medicine, surgery, obstetrics, medical and surgical clinics. Third year—pathology, anatomy, bacteriology, therapeutics, theory and practice of medicine, surgery, obstetrics, diseases of women and children, general clinics, diseases of the eye, ear and throat, and gynecology.

REQUIREMENTS: For admission, none.

For graduation, 1) twenty-one years of age and good moral character; 2) three years' study; 3) three full courses of lectures; 4) two courses of dissection and hospital clinics; 5) thesis; 6) satisfactory examination in anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, obstetrics and diseases of women and children, and surgery.

FEES: Matriculation, \$5; lectures, first year, \$100; second and third year, each \$150; graduation, \$30.

MEDICAL DEPARTMENT

SAN ANTONIO UNIVERSITY.

VERMONT.

VERMONT ACADEMY OF MEDICINE.

CASTLETON, Vt.

ORGANIZED in 1818. Suspended instruction from 1837 to 1841.—Extinct since 1861. During its existence it graduated 350 students.

MEDICAL DEPARTMENT OF THE UNIVERSITY OF VERMONT.

BURLINGTON, Vt. A. P. GRINNELL, M. D., Dean of the Faculty.

ORGANIZED in 1823. The first class was graduated in 1823. Sessions were held and classes graduated annually, excepting in 1835, until 1837, when the sessions were suspended. In 1854 the department was re-organized. A class was graduated in 1854, and each subsequent year.

The faculty embraces eight professors, nine professors of special subjects, and a demonstrator.

COURSE OF INSTRUCTION: The regular session begins the last Thursday in February and continues twenty weeks. A preliminary course, opening the first Thursday in November, precedes the regular course each year, and continues to the following February. A three years' graded course is recommended, but not required. Clinics at hospital and dispensary.

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, medical jurisprudence, diseases of the mind and nervous system, ophthalmology, and otology, orthopedic surgery, dermatology, diseases of children, venereal diseases and gynecology.

REQUIREMENTS: For admission, none.

For graduation: 1) twenty-one years of age; 2) three years' study; 3) two full courses of lectures, in different years, of twenty weeks each and furnish evidence of having pursued the study of practical anatomy; 4) good moral character; 5) satisfactory examination before the faculty and State Medical Board of Examiners.

FEES: Matriculation, \$5; lectures, \$75; demonstrator, \$10; final examination, \$25.

VERMONT MEDICAL COLLEGE.

WOODSTOCK, Vt.

ORGANIZED in 1827, under the name of the Clinical School of Medicine, by Dr. Joseph A. Gallup, and was under his management until 1835. For several years the degrees were conferred by the Waterville College, Maine. In 1830 an arrangement was made with the Middlebury College, Vermont, and the degrees were conferred by that institution up to 1836. In 1835 the State Legislature passed an act incorporating the Vermont Medical College. By this act the Supreme Court was directed to appoint a Board of Examiners. The school was quite prosperous and well patronized; had a strong faculty and more than one hundred students in 1850-51-52-53.

Professor B. R. Palmer, Dean of the Faculty and Professor of Anatomy, removed to Louisville, Kentucky, in 1854. He was the leading spirit in the institution and in 1856 the school became extinct.

VIRGINIA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY, Approved January 31, 1884.

1. *Be it enacted by the General Assembly of Virginia,* That there shall be for the State a Board of Medical Examiners, consisting of three members from each Congressional District in the State, and two from the State at large, whose term of office shall be for four years, or until their successors are appointed and qualified. The term of office of the Board first appointed shall commence on the first day of January, eighteen hundred and eighty-five.

2. The said Board shall consist of men learned in medicine and surgery, and shall be appointed by the Governor on the first day of November, eighteen hundred and eighty-four, and every fourth year thereafter, from a list of names to be recommended by the Medical Society of Virginia. He shall also appoint five homeopathic physicians who may be nominated to him by the Hahnemann Medical Society of the Old Dominion in the manner hereafter provided. Vacancies occurring in such Board for unexpired terms, shall be filled in the same manner. Such recommendations shall be by the vote of a majority present at some meeting of the said Societies, and the same shall be certified to the Governor by the President and Secretary of such meeting; provided, however, that in case the Governor shall consider any of the persons so recommended unsuitable, he may decline to appoint such person or persons, and communicate the fact to the presiding officers of the Society presenting the nomination, and such Society shall, within ninety days thereafter, make other recommendations, in the manner hereinafter prescribed, which shall stand on the same footing in all respects as those first made; and provided further, that if such Society fail to make such recommendations prior to the time of appointment, or within ninety days, aforesaid, then the Governor shall appoint such Board members in whole or part, without regard to such recommendations. If any of said Officers shall cease to reside in the district for which he was appointed, it shall vacate his office.

3. The members of said Board of Medical Examiners shall qualify and take the usual oath of office before the County or Corporation Court of the county or corporation in which they shall respectively reside. The officers of said Board shall be a President, Vice-President, and Secretary (who shall also act as Treasurer), said officers to be members of and elected by said Board. The first meeting of the same shall be at Richmond, and at such time as the Governor shall notify the members by mail to assemble. Subsequent regular meetings shall be held at such times and places as the Board may prescribe, and special meetings may be held upon the call of the President and five members, but there shall not be less than one regular meeting per annum. Eleven members of said Board shall be a quorum. Said Board may organize at its first meeting, and may, at its first or any subsequent meeting, prescribe rules, regulations and by-laws for its own proceedings and government, and for the examination of candidates for the practice of medicine and surgery by its individual members.

4. *Be it enacted by the General Assembly of Virginia,* That section 4 of an act, entitled An Act to regulate the Practice of Medicine and Surgery, approved January 31, 1884, be amended and re-enacted so as to read as follows: (Approved March 1, 1888.)

4. It shall be the duty of said Board, at any of its meetings, to examine all persons making application to them, who shall desire to commence the practice of medicine or surgery in this State; and when an applicant shall have passed an examination satisfactory as to proficiency before the Board in session, the President thereof shall grant to such applicant a certificate to that effect. A fee of \$5 shall be paid to said Board, through such officers or members as it may designate, by each applicant before such examination is had. In case any applicant shall fail to pass a satisfactory examination before the Board, he shall not be permitted to stand any future examination within the next three months thereafter, nor shall he have again to pay the fee prescribed as aforesaid; provided, however, no applicant shall be rejected upon his examination on account of his adherence to any particular school of medicine or system of practice, nor on account of his views as to the method of treatment and cure of diseases; and provided further, that when, in the opinion of the President of the Board, any applicant has been prevented by good cause from appearing before the Board, he shall appoint a Committee of three members, who shall examine such applicant, and may grant him a certificate, which shall have the same force and effect as though granted by the full Board.

(2. This act shall be in force from its passage.)

5. The fund realized from the fees aforesaid shall be applied by the Board toward its expenses, including a reasonable compensation to the President and Secretary.

6. Any person who shall obtain a certificate as aforesaid from the President of said Board shall cause his name to be registered in the clerk's office of the County or Corporation Court for the county or corporation in which he shall reside; and it shall be the duty of said clerk to register the name of every such person, describing such certificate, together with the date thereof, and the name of the President of the Board, signing the same in a book kept for the purpose, as a part of the records of his Court,

which shall also give the date of each registration, and his fee for each registration, shall be one dollar, to be paid by the person whose name is registered.

7. No person who shall commence the practice of medicine or surgery after the first day of January, eighteen hundred and eighty-five, shall practice as physician or surgeon for compensation without first having obtained a certificate and caused his name to be registered as aforesaid. Any person violating the provisions of this section shall pay a fine of not less than fifty nor more than five hundred dollars for each offense, and shall be debarred from receiving any compensation for service rendered as such physician or surgeon.

8. Any person who shall have been assessed with a license tax as a physician or surgeon by any Commissioner of the Revenue in this State at any time prior to the first day of January, eighteen hundred and eighty-five, shall be taken as having commenced the practice of medicine or surgery prior to that date; but any person who shall not have been so assessed, shall be taken as not having commenced such practice prior to that date.

9. Any physician or surgeon who shall commence to practice after the first day of January, eighteen hundred and eighty-five, and who shall reside in an adjoining State, within ten miles of the boundary line of this State, shall be entitled to stand the examinations and receive the certificate hereinbefore provided for, and such certificate shall be registered as hereinbefore provided, in that county in this State, which is nearest his place of residence, and such certificate and registration shall make it lawful for him to practice medicine or surgery.

10. Nothing in this act shall be taken as including or affecting in any way the practice of dentistry, nor shall it include physicians or surgeons residing in other States, and called in consultation in a special case with a physician or surgeon residing in this State. Nor shall it be construed as affecting or changing in any way the laws in reference to the license tax to be paid by physicians, surgeons and dentists.

11. Provided the provisions of this act shall not apply to any midwife.

As a further law on the subject of attempting to practice in Virginia without previously having a proper license, we append:

AN ACT to * * * provide for the Mode of Applying for License to Transact any Business in this State—Approved March 6, 1886. Acts of Assembly 1885-6, p. 512.

§ 80. No person shall, without a license authorized by law, practice as attorney-at-law, physician, surgeon or dentist, and no person who shall hereafter apply for license to practice as a physician or surgeon, shall have such license granted to him, unless he shall have complied with the provisions of an act, entitled An Act to Regulate the Practice of Medicine and Surgery, approved January thirty-first, eighteen hundred and eighty-four; provided, that no person who was licensed to practice as physician or surgeon, at any time prior to January the first, eighteen hundred and eighty-five, need comply with the provisions of said act in order to be again licensed as a physician or surgeon.

MEDICAL EXAMINING BOARD OF VIRGINIA.

CHARLOTTESVILLE, Va. HUGH T. NELSON, M. D., Secretary.

ORGANIZED November 15, 1884. The law first became operative January 1, 1885.

COMPOSITION OF THE BOARD: The Board consists of three physicians from each Congressional district in the State, and two from the State at large, making thirty-two members, and in addition, also five homeopathic physicians. Members of the Board, except homeopaths are nominated by the State Medical Society and appointed by the Governor every four years.

PERSONS REQUIRED TO BE EXAMINED: Every applicant for the practice of medicine in Virginia, who has not been assessed with a license tax as a physician or surgeon in this State at some time prior to January 1, 1885, is required to pass a satisfactory examination before he can commence practice. Graduates and non-graduates are subjected to the same examination.

APPLICATION FOR EXAMINATION: Any person wishing to be examined with the view of practicing medicine in Virginia, is required to fill out and file with the Secretary of the Board a form of application stating: 1) age; 2) residence; 3) college where graduated (if a graduate), and date of graduation. The application must be accompanied by recommendations from two citizens of the county in which applicant resides, and a fee of five dollars.

MODE OF CONDUCTING EXAMINATION: Examinations are held by the Board in session regularly twice each year. During the recess of the Board, if any person has been prevented by sickness, or other good cause, the President may order three members of the Board to examine him. The cause is discretionary with the President. The PLAN OF EXAMINATION is as follows:

1. Examination questions and answers are to be in writing or printing.
2. The applicant is required to answer at least three-fourths (75%) of the questions satisfactorily, and show a fair general knowledge of all the branches upon which he is examined.
3. Applicants can neither give nor receive information relating to the subjects under consideration during the examination.

4. No examiner is permitted to tell the applicant the result of his examination until after the examinations are all over and have been passed upon by the Board.

The examinations are in: 1) chemistry; 2) anatomy; 3) physiology; 4) hygiene; 5) medical jurisprudence; 6) materia medica and therapeutics; 7) obstetrics; 8) gynecology; 9) practice of medicine; 10) surgery.

The examiners report the result to the President of the Board, who issues the license or notifies the candidate of his rejection, as the case may be.

The Virginia laws require that no person shall be rejected on account of his adherence to any particular school of medicine or system of practice.

Number of applicants examined from January 1, 1885—when the law went into effect—to December 31, 1888, 243. Of this number 52 were rejected and 6 withdrew without completing the examination; 186 hold certificates from the Board, all but 5 being graduates of colleges in good standing. Of the 52 rejected all but 4 were graduates. 11 non-graduates were applicants, 5 passing.

The following table shows the number of applicants from various medical colleges which have appeared before the Board, the number passing, the number rejected, etc.:

Institutions (Colleges, Schools, etc.) represented before the Medical Examining Board of Virginia, from January 1, 1885 to December 31, 1888, being the First Quadrennium of said Board. § For colored students only.

UNIVERSITY OF VIRGINIA, MEDICAL DEPARTMENT.

CHARLOTTESVILLE, Albermarle County. CHARLES S. VENABLE, LL. D., Chairman of the Faculty.

ORGANIZED in 1825. The first class graduated in July, 1828. There was no graduating class in 1862.

The faculty embraces four professors and a demonstrator of anatomy.

COURSE OF INSTRUCTION: One annual graduating session of nine months' duration. The session of 1888-89 began October 1, 1888, and will close June 30, 1889. Daily examinations on the subjects of preceding lectures. Course is graded, extending over two years. Lectures embrace anatomy, physiology, chemistry, materia medica, theory and practice of medicine, obstetrics, medical jurisprudence, surgery and pharmacy. "The arrangement of the lectures is such that the student acquires a competent knowledge of anatomy, physiology and chemistry before he enters upon the study of the principles and practice of medicine and surgery."

REQUIREMENTS: For admission, the faculty are required by law to be satisfied by actual examination or by certificate that applicants are sufficiently proficient to avail themselves of the advantages afforded by the university.

For graduation: "Graduation in medicine, as in the other departments and schools of the University of Virginia, does not depend upon the time which has been spent in the study of medicine, but upon the preparation of the student, as indicated by rigid examinations, which he is called upon to stand. Hence it is possible for a diligent student to graduate in one session. But the severe and protracted labor necessary for this purpose is attended with ³ of which the medical faculty is fully conscious; and it is considered far better for a student to attend lectures for two sessions, giving his attention during the first session to the subjects of chemistry, anatomy and physiology especially, and endeavoring to obtain only such a general knowledge of the other branches, as will better enable him to complete the course and to profit by the instruction of the second year."

FEES: Matriculation and use of library, \$25; tuition, \$110; graduation, \$15; infirmary fee, \$7.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.
1877-78	—	17	—
1878-79	—	21	—

1887-88	82	23	28+

Percentage of graduates to matriculates for past eight years, 30.1.

WINCHESTER MEDICAL COLLEGE.

WINCHESTER, Va.

CHARTERED by the Legislature of Virginia in 1826. The school was organized by Dr. Cook a celebrated physician of Virginia at that time. It continued in operation but a few years when it became extinct. In 1850 it was revived by Dr. Hugh McGuire and was operated with moderate success until the buildings were burned during the war. During its latter career it had an attendance of from 25 to 30 students annually, and up to 1857 had graduated 47.

MEDICAL DEPARTMENT OF RANDOLPH MACON COLLEGE.

Prince Edward Court House, Va.

ORGANIZED as a private medical school by Dr. John P. Mettauer, presumably about 1840-45. In 1849 it became the Medical Department of Randolph Macon College, located then at Clarksville, afterward at Richmond, Va. Extinct, 1855.

MEDICAL COLLEGE OF VIRGINIA.

RICHMOND, Va. J. S. DORSEY CULLEN, M. D., Dean.

ORGANIZED in 1838 as the Medical Department of Hampden Sidney College, under which name it continued until 1854, when a new charter was obtained and the present name assumed. The first class was graduated in 1840. Classes have been graduated each subsequent year. The faculty embraces nine professors, nine adjunct professors and two demonstrators.

COURSE OF INSTRUCTION: One annual course of six months' duration. The fifty-first annual session began October 1, 1888, and will continue six months. Daily examinations by each professor or assistant. Clinics at hospital. "The instruction consists of didactic lectures with demonstrations, clinical teaching, recitations, examinations and practical teaching in subjects involving manipulation."

Lectures embrace anatomy, physiology, chemistry, materia medica and therapeutics, theory and practice of medicine, pathology, surgery, obstetrics and gynecology, hygiene, diseases of women and children, diseases of the eye, ear and throat.

REQUIREMENTS: For admission, "No student applying for matriculation will be admitted, if, in the opinion of the faculty, his preliminary education is insufficient to justify his entering on the study of medicine."

For graduation: 1) two full courses of lectures; 2) dissection of all parts of a subject; 3) satisfactory examination upon all subjects taught in the college, good moral character.

FEES: Matriculation, lectures and demonstrator, \$90; examination for degree, \$30.

STUDENTS: Number of matriculates and of graduates at each session reported, and percentages of graduates to matriculates—

Session.	Matriculates.	Graduates.	Percent.

1887-88	46	15	32.6

Percentage of graduates to matriculates for past four years, 25.7.

WASHINGTON TERRITORY.

UNIVERSITY OF WASHINGTON TERRITORY, MEDICAL DEPARTMENT.

SEATTLE, W. T.

Organization not perfected.

WISCONSIN.

MILWAUKEE COLLEGE OF PHYSICIANS AND SURGEONS.

MILWAUKEE, Wis.

INCORPORATED in 1881. Fraudulent. Known also as the "Coney Medical Institute." Exposed by the ILLINOIS STATE BOARD OF HEALTH in June, 1883. Charter annulled in October, 1883.

* Includes pharmacy students. † Includes one pharmacy graduate.

Auxiliary, Polyclinic and Post-Graduate Institutions and Courses.

AUXILIARY DEPARTMENT OF MEDICINE, UNIVERSITY OF PENNSYLVANIA.

PHILADELPHIA, Pa. SAMUEL G. DIXON, M. D., Dean.

ORGANIZED in 1865.

The faculty consists of five professors.

COURSE OF INSTRUCTION: Although strictly collateral to medicine, and essential to the thorough education of the physician, the course is largely scientific in its character, and the degree of Bachelor of Science (B. S.) is conferred upon those graduates in medicine of the University, or of other recognized schools, who attend two full courses of lectures in the Auxiliary Department, pass a satisfactory examination before the faculty, and present an original thesis on some one of the subjects taught.

Lectures comprise medical jurisprudence and toxicology; mineralogy and geology; (including a practical course on mineralogical and geological chemistry); botany; hygiene; comparative anatomy and zoology. The session begins the first Monday in October and ends in May. The professor of comparative anatomy conducts, during the summer months, at a place on the Atlantic coast, a practical laboratory for special work in the subjects of his chair.

FEES: The lectures are free to students and graduates of the Department of Medicine of the University of Pennsylvania; to other matriculates, \$15 for each professor's ticket, or \$35 for the course; graduation, \$10.

There were ten students in attendance at last session.

NEW YORK POLYCLINIC.

NEW YORK CITY. JOHN A. WYETH, M. D., Secretary, 214 and 216 East Thirty-fourth street.

ORGANIZED in 1882.

The faculty consists of nineteen professors, thirty-six instructors and twenty-eight clinical assistants.

COURSE OF INSTRUCTION: The winter session of 1888-89 began September 17, 1888, and will continue into the month of June, 1889. The summer session will open at the expiration of the regular session in June, 1887, and will continue into September.

Clinics are held daily throughout the year in diseases of the chest—of children—of general medicine—of the skin—of women—general and orthopedic surgery, gynecology, ophthalmology, diseases of the mind and nervous system, three each week—laryngology, and rhinology, four each week; otology, obstetrics, genito-urinary diseases and physiological chemistry will also receive much attention. The chair of pathological histology and state medicine has recently been added, and a new laboratory equipped for the purpose of such instruction.

FEES: General ticket for the year \$350; general ticket for six months, \$250; three months, \$150; six weeks, \$100. Special courses for six weeks, \$15, excepting diseases of the chest and general medicine, \$25; general surgery, \$35; diseases of women, \$35; throat, nose and ear, \$20; surgical operations upon the cadaver, \$5.

REMARKS: This is strictly a school of clinical medicine and surgery. There are no didactic lectures, and none but practitioners admitted.

A Patho-Biological Laboratory has been fitted up in which special attention is paid to teaching bacteria culture.

During the session of 1887-88 there were 337 physicians in attendance.

NEW YORK POST-GRADUATE MEDICAL SCHOOL AND HOSPITAL.

NEW YORK CITY. CLARENCE C. RICE, M. D., Secretary, 226 East Twentieth street.
 ORGANIZED in 1882. The faculty consists of thirty-two professors, four associate professors, thirty-seven instructors and forty-four assistants.

COURSE OF INSTRUCTION: The regular term began September 17, 1888, and continues until June 15, 1889, the summer term begins June 15, 1887, and continues until September 17.

Lectures are all clinical and include the following courses: Clinical and orthopedic surgery and mechanical therapeutics, operative surgery, diseases of the mind and nervous system and electro-therapeutics, anatomy and pathology of the nervous system, ophthalmology and otology, diseases of the nose and throat, pathology, physical diagnosis and clinical medicine, urinary analysis, histology, pathological histology, diseases of children, obstetrics and gynecology, venereal and skin diseases, applied anatomy, practical pharmacy and medical chemistry, military, naval and state hygiene, diseases of women.

FEES: Annual ticket, \$350; semi-annual ticket, \$250; ticket for three months, \$150; special courses, of six weeks each, \$10 to \$35.

During the session of 1887-88 there were 337 students in attendance. No undergraduates are admitted.

PHILADELPHIA POLYCLINIC AND COLLEGE FOR GRADUATES IN MEDICINE.

PHILADELPHIA, Pa. R. F. BAER, M. D., Dean, Broad and Lombard streets.

ORGANIZED in 1882. The faculty consists of fourteen professors, four adjunct professors, one instructor and thirty-two assistants, three demonstrators.

COURSE OF INSTRUCTION: Clinical and practical instruction in medical and surgical specialties is afforded, to physicians only, during the whole year. In addition to the clinical facilities of the college, the professors utilize, for purposes of instruction, their services in the Philadelphia, Pennsylvania, Wills, Howard, Episcopal, Presbyterian, German, St. Mary's and St. Christopher's hospitals. Clinical instruction is given in electro-therapeutics and well-appointed laboratories furnish opportunity for practical work in chemistry, anatomy, pathology, microscopv and surgery.

FEES: General ticket for thirteen courses, for six weeks, \$100; special courses for six weeks' duration, each \$15, or any two courses for \$20.

REMARKS: Students, after finishing a complete course, may, by examination, become Fellows of the College.

COLLEGE FOR MEDICAL PRACTITIONERS.

ST. LOUIS, Mo.

ORGANIZED in 1882.—Extinct in 1884.

THE CLEVELAND POLYCLINIC AND POST-GRADUATE MEDICAL SCHOOL.

CLEVELAND, O.

ORGANIZED in 1834.—Extinct in 1885.

BALTIMORE POLYCLINIC AND POST-GRADUATE MEDICAL SCHOOL.

BALTIMORE, Md.

ORGANIZED in 1884.—Extinct.

CINCINNATI POLYCLINIC.

CINCINNATI, O.

ORGANIZED in 1886.

POST-GRADUATE MEDICAL SCHOOL OF CHICAGO.

CHICAGO, Ill.

ORGANIZED in 1886.

CHICAGO POST-GRADUATE MEDICAL SCHOOL.

CHICAGO, Ill.

ORGANIZED in 1888.

CHICAGO OPHTHALMIC COLLEGE.

CHICAGO, Ill.

INCORPORATED March 19, 1886.

DEPARTMENT OF BIOLOGY OF THE UNIVERSITY OF PENNSYLVANIA.

PHILADELPHIA, Pa. HORACE JAYNE, M. D., Secretary.

ORGANIZED in 1885. The faculty consists of five professors and two instructors.

COURSE OF INSTRUCTION: Extends through two years of two terms each, and consists of practical laboratory exercises accompanied by explanatory lectures. No degrees are conferred.

Studies embrace: First year—General biology, mammalian anatomy and botany. Second year—Botany, zoology, animal histology, embryology and physiology.

FEES: For full course, \$150; for partial courses, \$25 to \$90.

CHICAGO POLICLINIC.

CHICAGO, Ill. WILLIAM T. BELFIELD, M. D., Secretary, 612 Opera House Block.

ORGANIZED in 1886. The faculty consists of fifty-six professors and assistants.

COURSE OF INSTRUCTION: Systematic courses of daily clinical instruction, embracing all departments of practical medicine and surgery at the hospital and dispensary of the Polyclinic. These courses will be of about six weeks' duration, and will be continued throughout the year. The teaching will be entirely clinical, didactic and formal lectures on practical branches being strictly excluded. Tickets may be taken out at any time, each good for one continuous course of six weeks from date of issue.

FEES: Matriculation (paid but once), \$5. Special courses of six weeks' duration, \$10 to \$30. A reduction of ten per cent. is made on three courses taken by one person, and of twenty per cent. when five or more courses are taken. General ticket, good for six weeks, \$100; for three months, \$150; for six months, \$250; for one year, \$300.

ST. LOUIS POST-GRADUATE SCHOOL OF MEDICINE.

ST. LOUIS, Mo. H. W. HERMANN, M. D., Secretary, Lucas and Jefferson avenues.

ORGANIZED in 1882. The faculty consists of ten professors and nineteen clinical assistants, one lecturer.

COURSE OF INSTRUCTION: The course of instruction began October 15, 1888, and continues in six weeks' courses until June 14, 1889.

Lectures embrace practical medicine and principles of diagnosis, surgery and genitourinary diseases, diseases of the skin, diseases of the chest and throat, ophthalmology and otology, orthopedic surgery and joint diseases, diseases of women, nervous diseases and diseases of children.

FEES: One full course of six weeks, \$50.

THE NEW ORLEANS POLYCLINIC.

NEW ORLEANS, La. J. H. BEMISS, M. D., President, 158 Canal street.

ORGANIZED in 1888.

The faculty consists of twelve instructors.

The term will open first Monday in April, 1889, and continue for two full months.

COURSE OF INSTRUCTION: Mostly ward work and clinical teaching to graduates and advanced students of medicine; only lectures are given in the amphitheatre of the Charity Hospital.

Lectures embrace clinical, orthopaedic and operative surgery and applied anatomy; histology; urinalysis; physical diagnosis and clinical medicine; gynecology; diseases of the nervous system; venereal diseases; and those of the skin, eye, ear and throat; chemistry.

FEES: Each single ticket, \$15; whole course, twelve tickets, \$100.

The following named institutions also have post-graduate courses, or other facilities for instruction for practitioners:

HAHNEMANN MEDICAL COLLEGE, Chicago, Ill.—A six-weeks' course; fees, \$30.

BENNETT COLLEGE OF ECLECTIC MEDICINE AND SURGERY, Chicago, Ill.—A six-weeks' course; fees, \$25.

UNIVERSITY OF MARYLAND, SCHOOL OF MEDICINE, Baltimore, Md.—A six-weeks' course; fees, \$7 to \$20 for each branch.

HARVARD UNIVERSITY, MEDICAL SCHOOL, Boston, Mass.—Six months' courses, in histology (\$20), physiology (\$30), medical chemistry (\$30), pathological anatomy (\$20), surgery (\$25), laryngology (\$25), ophthalmology (\$25), otology (\$15), dermatology (\$25), syphilis (\$15), diseases of the nervous system (\$15), gynecology (\$25), obstetrics (\$25). Graduates of other medical schools may obtain the degree of M. D. at this University after a year's study in the graduates' course, and by passing the examinations of the three-years' course. Fee for full year \$200.

BELLEVUE HOSPITAL MEDICAL COLLEGE, New York City.—Private instruction in medicine and in physical diagnosis (\$20 each), surgical operations (\$15), operative surgery (\$15), physiological laboratory (\$50), practical chemistry (\$10), diseases of the eye and ear (\$30), pathological laboratory (\$15), diseases of the heart, lungs and throat (\$12), laryngoscopy (\$10). "Intended mainly for the benefit of practitioners."

LIST OF COLLEGES FOR BOTH SEXES.

The following institutions either announce that they are open to both sexes, or had both in attendance during the last session.

Cooper Medical College, San Francisco, Cal.

Medical Department of the University of California, San Francisco, Cal.

76. College of Homeopathic Medicine and Surgery, Minneapolis.

* Teaching Schools. Do not grant degrees.

77. Missouri Medical College, St. Louis.
78. St. Louis Medical College, St. Louis.
79. Medical Department, University of the State of Missouri, No. 1, Columbia.
80. Homeopathic Medical College of Missouri, St. Louis.
81. Kansas City Medical College, Kansas City.
82. St. Louis College of Physicians and Surgeons, St. Louis.
83. American Medical College, St. Louis.
84. Northwestern Medical College of St. Joseph.
85. University of Kansas City, Medical Department, Kansas City.
86. Ensworth Medical College, St. Joseph.
87. Beaumont Hospital Medical College, St. Louis.
88. Kansas City Homeopathic Medical College, Kansas City.
89. Omaha Medical College, Omaha.
90. Dartmouth Medical College, Hanover.
91. College of Physicians and Surgeons in the City of New York.
92. Albany Medical College, Albany.
93. University of the City of New York, Medical Department, New York.
94. Medical Department, University of Buffalo.
95. Long Island College Hospital, Brooklyn.
96. New York Homeopathic Medical College, New York.
97. Bellevue Hospital Medical College, New York.
98. New York Medical College and Hospital for Women, New York.
99. Eclectic Medical College of the City of New York.
100. Woman's Medical College of the New York Infirmary, New York.
101. College of Medicine of Syracuse University, Syracuse.
102. Medical Department of Niagara University, Buffalo.
103. Leonard Medical School, Raleigh, N. C.
104. Medical College of Ohio, Cincinnati.
105. Western Reserve University, Medical Department, Cleveland.
106. Eclectic Medical Institute, Cincinnati.
107. Starling Medical College, Columbus.
108. Homeopathic Hospital College, Cleveland.
109. Cincinnati College of Medicine and Surgery, Cincinnati.
110. Miami Medical College, Cincinnati.
111. Medical Department, University of Wooster, Cleveland.
112. Pulte Medical College, Cincinnati.
113. Columbus Medical College, Columbus.
114. American Eclectic Medical College, Cincinnati.
115. Toledo Medical College, Toledo.
116. Northwestern Ohio Medical College, Toledo.
117. Woman's Medical College of Cincinnati.
118. Medical Department Willamette University, Portland, Oregon.
119. University of the State of Oregon, Medical Department, Portland.

120. University of Pennsylvania, Department of Medicine, Philadelphia.
121. Jefferson Medical College, Philadelphia.
122. Hahnemann Medical College and Hospital, Philadelphia.
123. Woman's Medical College of Pennsylvania, Philadelphia.
124. Medico-Chirurgical College of Philadelphia.
125. Western Pennsylvania Medical College, Pittsburg.
126. Medical College of the State of South Carolina, Charleston.
127. Medical Depts., University of Nashville and Vanderbilt University, Nashville.
128. Medical Department University of Tennessee, Nashville.
129. Meharry Medical Department of Central Tennessee College, Nashville.
130. Memphis Hospital and Medical College, Memphis.
131. Texas Medical College and Hospital, Galveston.
132. Medical Department of the University of Vermont, Burlington.
133. University of Virginia, Medical Department, Charlottesville.
134. Medical College of Virginia, Richmond.

LIST OF EXAMINING AND LICENSING BODIES.

1. Medical Association of the State of Alabama.
2. Colorado State Board of Medical Examiners.
3. Illinois State Board of Health.
4. Iowa State Board of Medical Examiners.
5. Minnesota State Board of Medical Examiners.
6. Mississippi State Medical Association, Board of Censors.
7. Regents of the University of New York State—3 Boards.
8. Board of Medical Examiners of North Carolina.
9. Medical Examining Board of Virginia.

INDEX.

 MEDICAL EDUCATION IN THE UNITED STATES AND
 CANADA.
