The copy filmed here has been reproduced thanks to the generosity of:

Thomas Fisher Rare Book Library,
University of Toronto Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Thomas Fisher Rare Book Library,
University of Toronto Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Six hundred and fifty Dollars
Countersigned Payment of disability claim in office policy 173 Parker Block.

\$ 1650 ⁰⁰/₁₀₀

W. Ambrose, Sec-Manager

J. H. Munroe, President

E. H. Kilbuck, Treasurer

The above is a fac-simile of the cheque by which Mr. Reuben Petch, of Griersville, Ont., was paid his Total Disability Claim. Read the particulars of this remarkable cure on the opposite page. No other medicine in the world has ever offered such undoubted proof of merit.

The Cure Was Permanent.

The Story of a Man who Suffered the Agonies of a Living Death.

Medical Experts pronounced him Incurable, and he was paid a large Disability Claim.—The Case probably the Most Remarkable in the History of Medical Science.—Brought from Hopeless, Helpless Inactivity to Health and Strength.

From the Meaford, Ont., Monitor.

About two years ago the Monitor procured an interview with Mr. Renben Petch, of Griersonville, in order to ascertain from his own lips if the reports were well founded that he attributed his most astonishing return to health to the use of Dr. Williams' Pink Pills for Pale People. The result of the interview was published in the Monitor under the date of Jan. 17th, 1896. Mr. Petch's case was certainly one of the most

extraordinary in the annals of medicine in Canada, if not in the world. He had been ill for five years, and in that time he consulted no less than six of the best physicians he could find, but none could give him the least relief. His limbs and body were puffed and bloated to such an extent that he could not get his clothes on, and for two years he had not dressed. He had lost the use of his limbs entirely. His flesh seemed to be dead, and pins could be stuck into various parts of his body without being felt or creating the slightest sensation. He could not move about, and if he attempted to get up would fall and would have to be lifted up. He was unable to open his mouth sufficiently to take solid food, and had to be fed with a spoon like a child. The doctors said his trouble was spinal sclerosis, and that he could not possibly get well. He was, in fact, nothing more or less than an animated corpse, so helpless was he. He was a member of the Canadian Mutual Life Association, and was, under their rules, entitled to disability insurance, and made a claim for it. Two doctors on behalf of the Association were sent to examine him, and they pronounced him incurable and permanently disabled, and in accordance with their report he was paid a disability insurance of \$1650.00. This was about two years after his sickness began. For three years more he lingered in the

condition above noted, utterly helpless, and a burden to himself and friends. He was then induced to try Dr. Williams' Pink Pills. He did not hope that they would help him, but in his sad condition he was prepared to grasp at anything that afforded the prospect of even a slight relief. The first change noted in his condition after he began the use of the pills was a disposition to sweat freely. Then life began to return to his hitherto dead body, and from that time on his progress towards recovery and activity was steady and certain.

The publication of the interview containing the facts above noted created unusual interest, not only in this section but throughout Canada. That a man whose limbs and body were all but dead, who had been examined by medical experts and pronounced incurable, and on the strength of their report paid a large disability claim, should afterwards be cured by Dr. Williams' Pink Pills, was looked on as a marvel. Many were skeptical; not as to the cure, for the fact that he was actively going about proved this, but they did not believe it would prove permanent. In view of the doubts then expressed the Monitor determined to watch the case closely, and now, nearly two years after the cure was first published, has again interviewed Mr. Petch, with the result that we are in a position to say most emphatically that this remarkable cure has proved permanent.

On being questioned Mr. Petch said: "You see those hands—the skin is now natural and elastic—once they were hard and without sensation. You could pierce them with a pin and I would not feel it, and what is true of my hands is true of my whole body. Perhaps you have observed that I have now even ceased to use a cane, and can get about my business perfectly well. You may say there is absolutely no

doubt as to my cure being permanent. Indeed I am in even better health than when I gave you the first interview."

"Do you still attribute your cure to the use of Dr. Williams' Pink Pills?" asked the Monitor.

"Unquestionably I do," was the reply. "Doctors had failed as had also the numerous remedies recommended by my friends. Nothing I took had the slightest effect upon me until I began the use of Dr. Williams' Pink Pills. To this wonderful medicine I owe my release from a living death. I have since recommended Dr. Williams' Pink Pills to many of my friends, and the verdict is in their favor. I shall always bless the day I was induced to take them."

The above are the chief statements made by Mr. Petch in this latest interview, and the Monitor may remark, from a long acquaintance with him, that we consider his statements absolutely true and reliable. He has no interest to serve other than a desire to recommend the medicine that has done so much for him, and we feel sure that if any sufferer will write Mr. Petch, enclosing a stamp for reply, he will endorse all the statements made above. We may further add that Mr. Petch's remarkable recovery leaves no doubt of the wonderful curative powers of Dr. Williams' Pink Pills, and it seems reasonable to infer that they will do for others what they have done for him—restore health and vitality.

The check on the inside front cover page is a reproduction of the one by which Mr. Petch's disability claim was paid, and is given in further corroboration of his statements.

A LUMBERMAN'S LIFE.

Constantly Exposed to Inclement Weather.—He Falls an Easy Victim to Rheumatism and Kindred Troubles.

From the Richibucto N.B., Review.

Mr. Wm. Murray, of Cormiersville, N.B., is an old and respected farmer, and a pioneer settler of the thriving little village he now makes his home. While Mr. Murray was yet a young man he, together with his father and brother, founded one of the best mill properties to be seen in those early days. The mills consisted of a sawmill and gristmill, and were operated and managed by the two brothers. Labor saving appliances being then comparatively unknown, the young men were exposed to dangers and difficulties almost

unknown to the present generation. One of the greatest evils in connection with the business was exposure to wet and cold, which, though unheeded at the time, have crippled its victim with rheumatism. In a late conversation regarding his disease, Mr. Murray told the following story of his long misery and final cure by the use of Dr. Williams' Pink Pills: "For over twenty years I have been a sufferer from rheumatism. I attribute the cause of the disease to the time when, as a young man, I worked at our mills. In the winter we would haul logs on the pond where the alternate thaws and frosts of early spring would imbed them in the ice and slush. When the time came for starting up the mill, I would go out on the pond, sometimes in water up to my knees, and work away from morning till night chopping logs out of the slush and ice. I was generally wet from head to foot, and every second night of the week I would, without changing my clothes, stay up and run the mill till daybreak. So you see I was for two days at a time in a suit of partially wet clothes, and this would

last till the ice had melted in the pond. After a few years, rheumatism fastened itself upon me, as a reward for this indiscretion, and at last became so bad that for weeks in succession I could only go about with the aid of crutches. At other times I was able to hobble about the house by the aid of two canes, and again at other times it would ease off a little and I was able to do some work, but could never stand it for more than a couple of hours at a time. The least bit of walking in damp weather would overcome me, and I remember one stormy night when I tried to walk from Cocagne Bridge to my home, a distance of five miles, that I had to sit down by the roadside six times, to ease the terrible pain that had seized my legs. During all those years of agony I think I tried all the patent medicines I could get a hold of, but they did me no good at all. I consulted doctors, but my sufferings remained undiminished. In the fall of 1895 I went to a doctor in Buctouche, to see if there were any means by which I might at least be eased of my suffering. The doctor said frankly, 'Mr. Murray you cannot be cured, nothing can cure you.' I was not satisfied; and then I determined to try Dr. Williams' Pink Pills. I procured half a dozen boxes and began taking them at once. I soon felt a change for the better, and after my supply had been finished I got another half dozen boxes and continued taking them according to directions. That dozen boxes was all I took and you see me now. I am alive and smart and can do any kind of work. I did my farming this spring and could follow the plough for days without feeling any rheumatic pains. Yes, Dr. Williams' Pink Pills did me a world of good, and I strongly recommend them for the cure of rheumatism."

DO YOU NEED A TONIC?

Are you easily tired, lack energy, feel weak in the back; do not care for food; cannot relish your work and take no interest in life? Are you nervous and subject to headaches? If so it is a tonic you need.

Dr. Williams' Pink Pills for Pale People—the best tonic in the world—can not harm the most delicate.

They make people strong.

Dr. Williams' Pink Pills for Pale People.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE are not a patent medicine in the sense in which that word is generally understood. They are a prescription, the result of almost a life-time of study in the treatment of diseases having their origin in a depraved condition of the blood or in a weakening or wasting of the nervous forces. These pills were used in private practice for years before being offered to the public in their present form, and it was the unvarying success attending their use that led to their being put up in the present shape, in order that all ailing may avail themselves of their marvellous curative properties, and enjoy new health and a lengthened lease of life.

Dr. Williams' Pink Pills are offered with a confidence that there is no disease arising from a Watery or Impoverished Condition of the Blood, or a Shattered State of the Nerves, which they will not cure if the directions are followed and the treatment persisted in. Give the pills a fair trial and they will not disappoint you; but remember you should not expect from a single box of pills that which it may be months of medical treatment has failed to accomplish. While good effects will undoubtedly follow the use of a box of pills, it is only by the faithful use, according to the directions, that difficult or stubborn cases can be cured. In cases where nothing more than a tonic is required, one or two boxes of Dr. Williams' Pink Pills will be found to fully restore the vital forces, and will enable the system to thoroughly resist the inroads of disease. If the blood is kept pure and is supplied with its life-giving properties, thus assisting it to absorb oxygen, disease can make no inroads on such a constitution. To maintain this condition Dr. Williams' Pink Pills should be occasionally resorted to. They will be found a positive cure for the following troubles:

Poor and Watery Blood,	Sclatoca,
Anæmia,	Chronic Liver Complaint,
Chlorosis or Green Sickness,	Neuralgia,
Dizziness,	Chronic Erysipelas,
Palpitation of the Heart,	Kidney Troubles,
Nervous Headache,	Catarrh of the Stomach,
Loss of Appetite,	Nervous Fits,
Indigestion and Dyspepsia,	St. Vitus' Dance,
After-Effects of LaGrippe,	Consumption of Bowels and Lungs,
Eruptions and Pimples,	Swelled Glands,
Sick Headache,	Scrofula, Fever Sores,
Pale or Sallow Complexion,	Rickets,
Swelling of Hands or Feet,	Recovery from Acute Diseases, such as Fevers, etc.
General Debility,	All Female Weakness,
Depression of Spirits,	Tardy or Irregular Periods,
Insomnia or Loss of Sleep,	Leucorrhœa,
General Muscular Weakness,	Suppression of the Menses,
Shortness of Breath on Slight Exertion,	Loss of Vital Forces,
Spinal Troubles,	Loss of Memory,
Partial Paralysis,	Ringings in the Ears,
Locomotor Ataxia,	Chronic or Acute Rheumatism, Hysteria, etc.

Pink Pills are unrivalled for their action in invigorating the Blood and System when broken down by Overwork, Worry, Disease, Excesses and Indiscretions of Living.

PARALYSIS.

Do your hands tremble? Are you liable to tremors that you cannot control? Have you lost the full power of using your hands? Do you stagger or falter in walking? Is the face distorted? Is all one side of the body affected? These symptoms indicate the beginning of paralysis. There will follow agonizing pains, complete disability and death, unless you take it in time. Dr. Williams' Pink Pills will cure you. Read the evidence of the cured.

A TROOPER'S STORY.

Awoke One Night to Find Himself Speechless, and His Body Paralyzed—Could Touch a Red Hot Stove without any Sensation of Pain.

From the Huntingdon, Que., News.

Mr. Donald McNaughton, of Hemmingford, Que, is not only known to all the residents of that town, but also has a reputation throughout the country as an expert marksman, having on one occasion been a member of the Canadian Rifle Team at Bisley, England. Mr. McNaughton is a member

of the 6th Hussars, and takes part in all the leading shooting matches in Canada, having last year stood third in the grand aggregate at the Quebec Provincial Matches. Mr. McNaughton has passed through a very trying experience, the particulars of which he recently related to a correspondent of the Huntingdon News. He said:—"About the end of December, 1893, I awoke one night having completely lost the power of speech, with a ringing sensation in my head, and a feeling of extreme cold in every part of my body except in the immediate vicinity of my head. A physician was at once called in, but despite all he could do the power of speech did not return for two days, and my body remained partially paralyzed. In this condition I continued under the doctor's care until about the last week in March, 1894, sometimes having two doctors in attendance. During that time my appetite was very capricious, sometimes very good and at others loathing the sight of food. What food I took did not digest, causing me much discomfort. When resting on my right side the blood in my body all appeared to circulate in my left side, causing great pain in my lungs, and when lying on my left side I appeared to have no blood in circulation on that side. My body was at times without sensation, and I have actually burned my hands on a red hot stove without feeling any sensation of pain. As I was not getting better under the treatment I was undergoing, I got low spirited and despondent, and saw nothing before me but a miserable life, and perhaps early death. About the last week in March, 1894, my brother brought me a box of Pink Pills, given him by Mr. McFee, postmaster, and urged me to give them a trial. I began taking them, carefully following the directions, and before I had finished the box I felt they were helping me. I continued taking the pills, and continued to gain in health and strength, my weight increasing some 19 pounds. Complete vigor and sensation returned to my body, my stomach ceased to trouble me, and I felt better than at any previous period in my life. I have not had the slightest recurrence of my trouble, and I feel that I owe my present health and strength to Dr. Williams' Pink Pills, and with feelings of gratitude recommend them as a medicine worthy of all confidence."

AN INVALID FOR YEARS.

Mrs. Davis, wife of Mr. Levi Davis, proprietor of the Central Hotel, Irish Creek, Ont., has been more or less an invalid for years, and is another of the vast number who owe renewed health to the use of Dr. Williams' Pink Pills. Mrs. Davis says:—"About a year ago I had just partially recovered from a long siege of illness, but felt that I should never regain my usual health and strength. I was weak, and could do little or no work. I seemed to have no blood in my body, and felt much like giving up, when one day I read a testimonial of a lady whose case was similar to mine and who had been cured by the use of Dr. Williams' Pink Pills. This decided me to try them, and I was no less astonished than gratified at the benefit I soon derived from them. They literally made a new woman of me and I am now enjoying better health than I have done for years. I now value Dr. Williams' Pink Pills above all other medicines, and if feeling the least unwell at any time I at once resort to them, and always with the best results. I will be glad if my statement will help some other sufferer.

A REMARKABLE CASE.

A New Brunswick Lady the Victim—Suffered for Thirty Years—The Attack Caused Partial Blindness and a Feeling of Semi-Paralysis.

From the Woodstock, N.S., Sentinel.

Mrs. E. P. Ross, of Riley Brook, N.B., says:—"I have been a sufferer for thirty years, and I am sure I would still be in the same lamentable condition had it not been for Dr. Williams' Pink Pills. I was married at the age of twenty and am now fifty-one years old. I had always enjoyed good health until after my first child was born. About a month later the illness attacked me which has since made my life miserable. I consulted different doctors, but they did not agree as to the nature of my trouble. One said it was a species of paralysis, others said symptoms of fits. I would be feeling very well when I would suddenly have a sensation of partial blindness, and everything before me would sparkle. Then my hand and arm on one side would become numb, and after about ten minutes this sensation would pass to my lower limbs, then my tongue would become affected, as would also my hearing. Voices, no matter how close to me, would seem dim and far away. These symptoms would last for about forty minutes, I would have a violent pain over the eyes, which would continue for twelve hours or more. Notwithstanding all that was done for me, these spells were coming more frequently, and at last I would sometimes have two attacks a day. I was also troubled with bronchitis, which added to my misery. I could not sew or knit, or do any work that required close attention to it. All this trouble had never left me for years, and at the age of 48 I consulted another doctor. The medicine he gave me, however, made me worse instead of better.

Then I was advised to try Dr. Williams' Pink Pills; I was using the third box before I found any benefit, but then there was a decided change. By the time I used twelve boxes I felt as well as I did in my young days. Every symptom of the trouble that had so long made my life miserable had disappeared. For eighteen months I did not use the pills and was as well as ever I had been in my life. Then one morning I felt a slight attack of the old trouble and determined to try Dr. Williams' Pink Pills again. I got a box and took an occasional pill, and have never since had a symptom of the trouble. To say that Dr. Williams' Pink Pills have done wonders for me is putting it mildly, and I strongly urge their use on all who may be ill. Dr. Williams' Pink Pills were also of great benefit to a niece of mine, Miss Effie J. Everett. Her mother died when she was quite young, and naturally much of the care of the household developed upon her, and as she grew up she became weak, easily tired, subject to headaches, and her complexion was pale and wax like. A young lady teacher who was boarding with the family, and who had used Pink Pills with great success, urged her to try them. The result was that she soon was enjoying the best of health and is a fine robust young lady who shows no traces of her former illness.

INCIPIENT PARALYSIS.

The Peculiar Experience of a Pubnico, N.S., Lady—Attacked with Diphtheria, the After Effects of which were Developing into Paralysis.

From "The Light," Yarmouth, N.S.

There are many diseases looked upon as dangerous to life from which the victim apparently recovers, but which in reality have left behind after effects that make life miserable. Such a sufferer was Mrs. Elias Goodwin, of Pubnico, N.S. She was first attacked with diphtheria, and when the virulence of that trouble had ended, it was found that it had left behind the seeds of disease, which not only made her life miserable but threatened her with permanent invalidism. Concerning her illness, Mrs. Goodwin says:—"Shortly after I had apparently recovered from an attack of diphtheria, I found myself in a weak and almost helpless condition. I soon became so bad, and my hands, feet and limbs were so numb as to leave me almost helpless. In fact I could scarcely walk even a short distance. At times this feeling of numbness would attack my throat, causing a sensation such as I hope never again to endure. I was attended by several doctors, and I tried a number of remedies, but all proved useless. One of the doctors who attended me stated that my trouble was incipient-paralysis, and that I might expect a stroke that would render me utterly helpless at any time. I was greatly discouraged at this, and despaired of ever being well again. Some of my neighbors advised me to give Dr. Williams' Pink Pills a trial, and I finally decided to do so. In the course of a few weeks there was a decided improvement in my condition, and after using them for a few weeks more the change they wrought was marvellous. All the feeling of numbness had passed away, and my limbs were as strong and vigorous as ever they had been. I also found that in other respects I had derived much benefit from the use of Pink Pills, and I have no hesitation in saying that they raised me from my helpless condition and made me the strong and healthy woman I am to-day. I sincerely trust that the virtues of this medicine may become more generally known, for I feel that disease must vanish when Dr. Williams' Pink Pills are given a fair trial.

It is Rheumatism

Have you a
severe pain in
the joints or in
the muscles?
Is the pain
aggravated by
cold?
Does it arise
from exposure
to cold or
damp, or from
a wetting?
These signs
indicate
Rheumatism.
It may develop
into Rheumatic
fever, or if not
checked, may
occur again
and again
every winter.

on this page.

A CRIPPLED SHADOW.

The Statement of Jas. Davis, of Vittoria—Stricken With Rheumatism He Wasted to a Pain-Stricken Shadow—Doctors and Hospital Treatment Failed to Help Him—Dr. Williams' Pink Pills Restore Health and Strength.

Proof upon proof accumulates that Dr. Williams' Pink Pills are the greatest medical discovery of the 19th century, and the following story told in the grateful patient's own words, again substantiates the claim that they cure when other medicines fail.

"Knowing that I am a living monument of the wonderful curing properties of Dr. Williams' Pink Pills, I deem it my duty as a grateful man, to give my testimony for the aid of such as are afflicted as I was. I am a resident of the village of Vittoria, Ont., and have lived in the town or neighborhood all my life, and am therefore well known and what I say can be easily proved. Three years ago I was stricken with and partially paralyzed by rheumatism, and after being under the care of two physicians I was given up to die. I wasted to a human skeleton; nothing more than a crippled shadow. I lost the use of my limbs entirely and food was given me by a spoon. Life was not worth living and such an existence was indeed miserable. Thus I awaited the end to come,—an end of human suffering too awful to depict. As a last resort I was persuaded by my friends to try medical treatment in the General Hospital in Toronto, and after spending several weeks there came home disheartened and even worse than before. While writhing in the pangs of pain, discouraged and ready to die, I heard of Dr. Williams' Pink Pills and of the marvellous cures they effected. While doubting that they would cure me, I was prevailed upon to take them. The effect was marvellous. For two long years I had not enjoyed a single night's rest and I then slept a sweet sleep, which seemed like heaven to me. I revived, could eat, and gradually grew stronger, and as I gained strength my hope of living increased. I have taken forty-one boxes, which may seem a large quantity to some, but be it remembered I had taken many times their value in other medicines and had been declared incurable by doctors. The result is I am now able to undergo hard physical exercise. The fact is beyond all question that Dr. Williams' Pink Pills as a last and only medicine, proved successful in reaching the germs of my disease and saved me from a life of misery and pain. Again I say as a grateful man that I cannot too strongly recommend this remarkable medicine to all fellow beings who are afflicted with this terrible malady.

JAMES DAVIS.

The above testimony is signed in presence of

ERNEST WEBSTER MAYBEE.

LONG STANDING RHEUMATISM CURED.

Mr. Wm. Hopkins, Ninga, Man., says:—"Twelve years I was almost constantly afflicted with rheumatism of the muscles, at times the pains being so severe that I was unable to work. I tried electric belts and numerous medicines, but got no relief. While in Boissevain during the winter of 1894, the druggist there advised me to try Dr. Williams' Pink Pills, as he knew of a number of cases in which they had cured rheumatism. I got half a dozen boxes and took them back home with me and began their use. I was on the fourth box when I began to get relief, and I continued taking Pink Pills until I had used ten boxes, by which time no trace of the rheumatism remained, and I have not since suffered from rheumatic pains. I cheerfully recommend Dr. Williams' Pink Pills for rheumatism, as I have proved they will cure it

A FIGHT FOR LIFE.

The Experience of Mr. Samuel Sparks of Napanee—A Terrible Sufferer from Sciatic Rheumatism—At Times as Helpless as a Child.

From the Napanee Beaver.

The life of one afflicted by rheumatism is at times almost unbearable. The sufferer is racked with pain until he thinks even death would be a relief from this painful malady. Among those who have suffered much and found relief is Mr. Samuel Sparks, a market gardener well known in Napanee and vicinity. Mr. Sparks recently related to a reporter how he was restored to health and strength. He said:—"For several years I have been a great sufferer from rheumatism in my limbs. The doctor who attended me called it sciatic rheumatism, and the trouble was always worse in the spring than at any other season. In the spring of 1895 I had a very severe attack, and was much worse than I had ever been before. I was not able to do work even of the lightest kind. I suffered the greatest agony and could get no relief either sitting up or lying down. At times I was as helpless as a little child, for my legs felt as though they had become paralyzed. Then the trouble seemed to settle in my bowels, and the doctor said it was consumption of the bowels and that I could not live much longer. As the doctor could do nothing for me I determined to make another fight for life and try Dr. Williams' Pink Pills. I felt that even if they would give me relief it would be a blessing. Great was my astonishment, however, when within forty-eight hours after beginning the use of the pills I found relief. I kept on taking Dr. Williams' Pink Pills, every day growing stronger and stronger, until at last I was a new man, and again able to do as hard a day's work as any man in the township. I cannot praise Dr. Williams' Pink Pills too much, as in my case they restored health after all other means had failed.

RHEUMATISM SINCE CHILDHOOD.

Mrs. John W. Larder of Chester, N.S., says:—"I have been troubled with rheumatism since I was 15 years old. In the mornings I suffered so much that it was agony to move my limbs. My limbs would swell, my feet would get very cold, I was troubled with shortness of breath and my heart would palpitate violently. I tried many medicines, and while some of them would ease my pains temporarily, none of them gave me permanent relief, and I was steadily growing worse, and despaired of a cure. One day a little book containing testimonials from those who had been cured through the use of Dr. Williams' Pink Pills was left at our house, and looking through it I saw testimonials from a number who had suffered similarly to what I was doing, who were cured by this medicine. This determined me to give them a trial and I procured six boxes. Before I had finished three boxes, the pain was leaving me, and I could sleep better than I had done for years. I continued using Dr. Williams' Pink Pills until I had taken nine boxes, when all traces of my trouble had vanished, and I was enjoying a condition of health I had not known for years. I gladly give you this testimonial, hoping that my experience may be the means of inducing some other sufferer to try Dr. Williams' Pink Pills and obtain relief from pain.

A BAD CASE OF RHEUMATISM CURED.

Mr. Isaac J. Zimmerman, who has filled the position of assistant postmaster at Beamsville for the past sixteen years, is one of the best known men in that section. His many friends know that he has for years been a sufferer from rheumatism in a severe form, but now, happily, he is nearly freed from his pains through the use of Dr. Williams' Pink Pills. Mr. Zimmerman says:—"Five years ago I was attacked with inflammatory rheumatism in a very severe form, and was laid up for four months. Indeed so severe was the attack, my friends scarcely expected I would recover. The disease seemed to have fastened itself upon my system, and in the winter especially, I suffered a great deal from it. About three years ago I decided to give Dr. Williams' Pink Pills a fair trial, and to my great satisfaction they drove (almost entirely) the disease from my system, and I have since been troubled but little with it. Naturally I feel grateful for the relief I have obtained from Pink Pills, and recommend them to others."

Mr. G. C. Britton, St. Martins, N.B., says:—"I was troubled with rheumatism in my back and shoulders for fifteen years. I tried many medicines but got no relief, until I began using Dr. Williams' Pink Pills, and they have wrought a cure. It is over a year since I discontinued them and I have not had a twinge of rheumatism in that time."

A BOY'S SUFFERINGS.

Attacked with Inflammatory Rheumatism at an Early Age.—Each Successive Year Brought Fresh Attacks With Increasing Severity Until He was a Physical Wreck.

From the Belleville Sun.

Mr. and Mrs. W. R. Kelly are people who are deeply grateful for a kind intervention of Providence whereby the life, health and happiness of their twelve year old son, Master Harry, have been restored and preserved. Mr. Kelly is one of the best known conductors on the Midland division of the G.T.R., and is now residing in this city. A Sun reporter having heard of the cure of the little fellow and the joy of his

parents, called at their home and was met by Mrs. Kelly, who on being informed of the object of his visit, at once told the story of the cure and how the results were attained. "We were living in Madoc when our boy was about five years of age, and in the spring I went to call him one morning. He replied to my call by saying he could not rise. I at once went to him and found that he was unable to walk. Medical aid being summoned we discovered that inflammatory rheumatism had our little boy in its grasp. All that attention and doctors could do was done and the attack passed off, but the following spring while in Peterboro he was again seized with the dread disease and again we were in terrible dread of losing the child. When the warm weather came again he rallied, but was very weak and only a shadow of his former self. Despite all we could do he was again attacked in the next spring. You can imagine the fear and dread with which we watched these recurring attacks, each one more severe than the last, and each one leaving our boy in a worse condition than those that went before. His last attack confined him to bed for three months, and his heart

was dangerously affected. His sufferings were terrible, and it was pitiful to see him trying to carry food to his mouth. His nervous system was so shattered that a form of St. Vitus' Dance had affected him, and his hand and arm trembled so that he could not feed or aid himself. Some friends advised me to try Dr. Williams' Pink Pills and recommended them so highly that my husband and myself decided to try them. We gave them to Harry for several months, and when the spring came watched anxiously, fearing a return of the trouble, but he was thankful and delighted to see no symptoms of it, nor has he been troubled for the past three years." "What is the condition of his health at present?" asked the reporter. "He is as sturdy and as healthy a boy as parents could wish for. I attribute his recovery and present health to nothing but Dr. Williams' Pink Pills, and I cheerfully recommend them to all."

RENEWED HEALTH.

Easily Obtained by the use of Dr. Williams' Pink Pills.—Grateful Letters from all Parts of the Dominion Testify to their Wonderful Power.

Dr. Williams' Pink Pills have done more to alleviate suffering than any other medicine yet discovered. They have effected cures in hundreds of cases pronounced incurable by physicians, and they have brought rejoicing into the homes of thousands throughout the Dominion. Among those who speak of this wonderful medicine in terms of gratitude is Mr. Lemuel McCready, of Shannon, N.B. He says:—"A year ago I was taken with a pain in my hip, which gradually worked down to the knee, where it settled. At first I thought it an attack of rheumatism and treated it with the medicine ordinarily used for that trouble, but with no benefit. The knee began to swell and the pain became excruciating. I wasted away to a mere shadow, and was no better than a cripple. I then consulted a physician, but still got no relief. Then I went to an hospital at St. John. The physician who examined me there said my trouble was consumption of the blood, and that it might be necessary to amputate my leg. Thoroughly discouraged, I returned home. Then my mother urged me to try Dr. Williams' Pink Pills. After using two or three boxes I found the pain greatly diminishing, and by the time I had taken seven boxes, the limb had regained its normal condition, the pain had all disappeared, I had gained greatly in flesh and was as well as ever I had been in my life. I feel very grateful, for I believe Dr. Williams' Pink Pills saved me from a life of helplessness."

It is such wonderful cures as Mr. McCready's that have given Dr. Williams' Pink Pills their great reputation and made them the favorite medicine in thousands of families throughout the land

LADIES' AILMENTS

Many women suffer in silence for honorable reasons.

They alone know the pains which afflict them—continuously or at regular intervals. Agonizing backaches, headache, prostration; irregularity of vital functions; the change of life; weakness easily accounted for.

All these things have been cured by Dr. Williams' Pink Pills.

They cannot harm the most delicate girl or woman of advancing age.

Read the cures opposite.

Ladies Cured by Dr. William's Pink Pills.

[NOTE.—For obvious reasons these cases are not given at very great length, and our lady readers will appreciate and understand our reserve in respect to them. The greatest honor is due to the ladies who have courageously permitted the publication of their cure for the benefit of their sisters in suffering. Without going into details unsuitable for general circulation, it may be said that Dr. Williams' Pink Pills, more than any other remedy ever discovered, have proved a boon to women of all ages in the disorders which afflict nearly all women, and the wretchedness of which they alone can fully appreciate.]

LADIES SUFFER IN SILENCE.

One who has been relieved from the Agonies of Troubles Peculiar to the Sex, Speaks for the Benefit of Her Suffering Sisters.

The following strong letter, one of many which we are constantly receiving, ought to bring joy and hope to every woman suffering from those ailments that make the lives of so many of the sex miserable:

"Dear Sirs:—I feel that I would not be doing your grand medicine (Pink Pills) justice if I did not express my gratitude for what they have done for me. I suffered for many years, as thousands of other women are doing, with troubles peculiar to my sex. I was irregular in my periods, and constantly suffered much pain, which became more intense at the period of menstruation. My life was one of constant misery, and at times I felt that I might better be dead. I was continually doctoring, but instead of getting better I was getting worse. I had heard that Dr. Williams' Pink Pills were recommended for troubles of this kind, but I was prejudiced against what are known as proprietary medicines, and only decided to try them when I had reached a stage of suffering when I felt that I would give the

world, were it mine, for release from the constant agony I was undergoing. Determined that Pink Pills should have a fair trial, I purchased a dozen boxes. I very carefully followed the directions; I saw that I had at last found a medicine that would release me from pain, and I thanked heaven for it. I took the Pink Pills faithfully and steadily for about four months, by which time I was not only entirely free from pain, but was enjoying the blessing of perfect health. I still use the Pink Pills at each monthly recurrence, and know them to be of great benefit. I know that there are thousands of women who are daily undergoing the same suffering that made my life miserable, and out of gratitude for what Pink Pills have done for me, it is to urge other sufferers to give them a fair trial that I write this letter. You are at liberty to publish it to the world, and I am sure my silently suffering sisters will appreciate my action, even though motives which they will comprehend compel me to ask you not to publish my name. With feelings of the deepest gratitude, I remain, sincerely yours," M. L. B

NERVOUS PROSTRATION.

Mrs. Abraham Garlough, North Williamsburgh, Ont., says:—"A few years ago I found my health giving out, and the trouble developed into a nervous prostration, which wholly unfitted me for household duties. I suffered to such an extent that for some years I was much of the time confined to my bed. During that time I was doctoring constantly, and after the skill of seven or eight doctors was exhausted, I was in no better condition than when I began the treatment. Finally I read of a case very similar to mine cured by the use of Dr. Williams' Pink Pills, and I determined to give them a trial. Two years ago I began their use, and after a short time I felt very much better. During that time I have since occasionally used Dr. Williams' Pink Pills, and to them I entirely attribute the good health I am to-day enjoying, and I heartily recommend this fine medicine to others."

HEADACHES AND DIZZINESS.

Mrs. C. C. Bailey, of Martinville, Que., writes:—"After several years of continual suffering, I was persuaded to try Dr. Williams' Pink Pills, and have reason to bless the day I began their use. Prior to

beginning the use of Pink Pills I had been under doctors' care, and had tried other remedies, but with no effect beyond occasional temporary relief. I suffered from extreme headaches, dizziness, loss of appetite and palpitation of the heart. I got so weak that frequently I could scarcely move about, and my whole nervous system appeared to be in a state of complete prostration. When I began the use of Dr. Williams' Pink Pills, I doubted very much if any medicine would restore my health, but I determined to give them a trial. After I had taken several boxes, I noticed that I could sleep better, and that my nervous troubles were growing less. My illness had been going on for about four years, so that I did not anticipate that it would be easily eradicated, especially as doctors' treatment had failed, but after I had taken something over a dozen boxes, I was again in the full enjoyment of health. I think people using Dr. Williams' Pink Pills should pay strict attention to the directions, and not always expect a cure from one or two boxes. Had I been so unreasonable I would not to-day be enjoying the good health I have, and I hope this message may benefit some poor discouraged sufferer."

THE CHANGE OF LIFE.

The most critical period in the life of woman is that attending the cessation of menstruation, or as it is more generally termed, the change or turn of life. The symptoms attending this period are fainting spells or attacks of faintness, as giddiness, headache, general debility, exhaustion, a feeling of melancholy, hysteria, pain in the loins or limbs, hypochondria, etc. The change is a gradual one—for better or worse—for the former if the patient is wise enough to fortify the system against the ravages of the system attending the change. For this purpose no remedy ever discovered equals Dr. Williams' Pink Pills. They purify the blood by acting directly upon the sexual system, lessen the severity of this critical period, and finally leave the patient in the enjoyment of robust health. All ladies approaching this critical period should take Dr. Williams' Pink Pills.

TWO DOCTORS ATTENDED HER.

Mrs. A. Ross, of Paris, Ont., is a lady well known and much esteemed by a large circle of friends. Regarding a serious illness and subsequent cure she says:—"When we think of the many fellow sufferers we should not hesitate to let them know the means of cure when we have found one. My trouble began four years ago when I was ill, and had to undergo an operation for ulceration. Afterwards, I suppose from the coming change of life, I became so weak that I could not move more than a few steps without suffering from palpitation of the heart, and sometimes fainting spells. I was as pale as death, and not able to do my housework. Two doctors attended me, and although they did all in their power for me I felt that I was sinking into my grave. What I underwent can scarcely be described. Finally the doctor told me that he had done all he could for me, and could hold out no hope of a recovery to health. Then my friends urged me to try Dr. Williams' Pink Pills, and while in this desperate condition I began their use. By the time I had taken six boxes I was wonderfully improved. The fainting spells had gone and the pains had almost disappeared. I could eat a hearty meal and had increased in weight. By the time I had taken ten boxes I was able to do my own housework, and from that out I have enjoyed the best of health. I have recommended Pink Pills to many others, and they say they never used any medicine that did them so much good. I am not anxious for publicity, but suffering as I did, I am anxious that others shall have the benefit of my experience to help them to a cure."

FEMALE WEAKNESS CURED.

Mr. John Decaire, Sahanatien, Ont., writes:—"I take the liberty of writing you a few lines in praise of your Dr. Williams' Pink Pills. For some time my wife was a great sufferer from trouble peculiar to females. She was very weak, suffered from dizziness and headache, and her complexion was sallow. She was not able to do any work, and friends were almost hopeless of her recovery. She was urged to try your valuable medicine, and I decided to get two boxes as a trial. In the course of a week her appetite began to improve and she felt more hopeful. She continued using the pills, and under the treatment has fully recovered her health and activity. We both strongly advise women suffering as she did to use Dr. Williams' Pink Pills."

EXTREME NERVOUSNESS.

Frequently brings its Victim to the Verge of Insanity.—The Case of a Young Lady in Smith's Falls who Suffered Severely—Given Up by Two Doctors.
—Dr. Williams' Pink Pills Have Restored Her Health.

From the Smith's Falls News.

Many cases have been reported of how invalids who had suffered for years, and whose cases had been given up by the attending physician, have been restored to health and vigor through that now world-famed medicine, Dr. Williams' Pink Pills, but we doubt if there is one more startling or more convincing than that of Miss Elizabeth Minshull, who resides with her brother, Mr. Thos. Minshull, of this town, an employee in Frost & Wood's Agricultural Works. The News heard

of this remarkable case, and meeting Mr. Minshull asked him if the story was correct. He replied:—"All I know is that my sister had been given up as incurable by two physicians. She is now well enough to do any kind of housework, and can go and come as she pleases, and this change has, it is my honest conviction, been brought about by the use of Dr. Williams' Pink Pills." Mr. Minshull then related the following story to the News:—"My sister is twenty years of age. She came to Canada from England about ten years ago, and resided with a Baptist minister, Rev. Mr. Cody, at Sorel, Que. In April of 1896, she took ill and gradually grew worse. She was under a local physician's care for over five months. The doctor said that she was suffering from a complication of nervous diseases, and that he could do little for her. The minister with whom she lived then wrote me of my sister's state of health, and I had her come to Smith's Falls, in the hope that a change and rest would do her good. When she arrived here she was in a very weak state and a local physician was called in to see her. He attended her for some time, but with poor

results, and finally acknowledged that the case was one which he could do very little for. My sister had by this time become a pitiable object; the slightest noise would disturb her, and the slightest exertion would almost make her insane. It required someone to be with her at all times, and often after a fit of extreme nervousness she would become unconscious and remain in that state for hours. When I went home I had to take my boots off at the doorstep so as not to disturb her. When the doctor told me he could do nothing for her, I consulted with my wife, who had great faith in Dr. Williams' Pink Pills, as she knew of several cases where they had worked wonderful cures, and I concluded it would do no harm to try them anyway, and mentioned the fact to the doctor. The doctor did not oppose their use, but said he thought they might do her good, as they were certainly a good medicine. In September of last year she began to use the Pills, and before two boxes had been used, she began to show signs of improvement. She has continued their use since, and is to-day a living testimony of the curative power of Dr. Williams' Pink Pills." Mr. Minshull has no hesitation in sounding the praises of a remedy that has worked such a change in the health of his sister, and cheerfully gave the "News" the above particulars, and when asked to do so, most willingly signed the following declaration:—

SMITH'S FALLS, Sept. 11th, 1897.

I hereby make declaration that the statements in above as to the condition of my sister, and the benefit she received from the use of Dr. Williams' Pink Pills, are absolutely correct.

Witness, J. H. Ross.

THOS. MINSHULL.

RESTORED HER SON'S HEALTH.

Mrs. E. H. George, Belleville, Ont., writes:—Dr. Williams' Pink Pills for Pale People have done wonders for my son Fred. He is now thirteen years of age, and until the fall of 1896 was always strong and healthy. Then he began to fail and grow weak. His appetite forsook him, and he did not care for or relish his food. While in this condition he had an attack of la grippe, which further weakened him. Under the doctor's care he at first appeared to grow better, but shortly the improvement ceased and he grew worse. He became so weak that I had to keep him from school for weeks, and I was afraid he was going into a decline. While he was in this condition, a pamphlet describing the cures effected by Dr. Williams' Pink Pills was left at our house, and I decided to give them a trial. I bought a box and they helped him so much that I saw we had at last found a medicine that could cure him. His appetite grew better, pains in the back, and headache, from which he had suffered, disappeared. In a few weeks he was able to return to school, and since then has enjoyed the best of health. I believe that Dr. Williams' Pink Pills saved my son's life, and I trust that this may be a benefit to some other sufferer.

ANÆMIA,

Or Poverty
of the Blood

A trouble chiefly affecting young girls between the ages of 13 and 20 years. Symptoms: Pale or sallow, waxy complexion, headaches, indisposition to exertion, loss of appetite, fluttering of the heart, dizziness, sometimes fainting spells, complete loss of ambition, shortness of breath. Anaemia develops into consumption. Check it in time by taking Dr. Williams' Pink Pills—always successful in curing this grave trouble. Read the cures on this page.

ADVICE TO MOTHERS

Young Girls Susceptible to Troubles that May Result In Decline—Pale Faces, Headaches and Fickle Appetite the Symptoms of Early Decay.

From The Sun, Orangeville, Ont.

Some months ago Maggie, the fifteen year old daughter of Mr. and Mrs. J. Sweeney, of John Street, of this town, began to fail both in health and spirits. Her face was almost as white as chalk, her appetite very fickle, and her limbs began to swell. Notwithstanding her growing weakness she persisted in attending school, until one day her teacher advised her to go home, and not to return until she felt better. At the same time the teacher, who

knew the value of Dr. Williams' Pink Pills in such cases, advised her to take them. The advice was followed and Mrs. Sweeney told our reporter that almost from the outset there was an improvement in her daughter's condition. Her appetite became better, the color returned to her face, and the severe headaches that had made her so miserable, vanished, and she is now feeling better than she has done for many months.

It is quite evident that this young maiden was suffering from a lack of blood, as do so many young girls who are just at a critical point in life, and it is quite as apparent that there is no other remedy the equal of Dr. Williams' Pink Pills in such cases. They enrich the blood, stimulate the nerves, and build up the entire system, and mothers will act prudently if they insist upon their daughters taking an occasional box. We know from experience that Dr. Williams' Pink Pills have done great good in Orangeville and vicinity, and there is scarcely a day that our reporter does not come in contact with some one who has a good word to say for this wonderful medicine.

WEAKNESS AND DEBILITY CURED.

Mrs. J. A. Craig, Watson's Corners, Ont., writes:—"At the age of fifteen my daughter Teresa began to show symptoms of weakness and debility, which were all the more remarkable as before that time she had been unusually well and strong. We consulted a physician, who prescribed for her, and for a time she seemed to improve a little, then the improvement ceased, and she became worse and grew so weak that the least exertion seemed to tire her out completely and her heart would palpitate so violently that we feared she had heart disease. This state of affairs continued for two years, during which time she suffered a great deal, and at times we despaired of her getting better. Having read a great deal about Dr. Williams' Pink Pills, we at last thought it might be worth while to give them a trial. There was an improvement in her condition almost before the first box was completed, and after using seven boxes she was well and strong. Other members of my family have since tested the merits of Dr. Williams' Pink Pills with success, and I have pleasure in recommending them to any who are suffering from general debility.

A HAPPY GIRL.

Miss Amina Kelly Tells of Her Illness and Subsequent Cure—A Statement That Should be Read by Every Girl in Canada.

Miss Amina Kelly, a well known and much esteemed young lady living at Maplewood, N.B., writes:—"I consider it my duty to let you know what your wonderful medicine has done for me. In April, 1896, I began to lose flesh and color; my appetite failed and on going up-stairs I would be so tired I would have to rest. I continued in this condition for three months when I was taken suddenly ill and not able to go about. Our family doctor was called in and he pronounced my illness chlorosis (poverty of the blood). At first his treatment appeared to do me good, but only for a time, and I then began to grow worse. I continued taking his medicine for three months, when I was so discouraged at not regaining my health that I declined taking it any longer. I then tried a liquid medicine advertised to cure cases like mine, but did not obtain the slightest benefit. I had become terribly emaciated and weak. There was a constant terrible roaring noise in my head; my feet and ankles were swollen and I was as pale as a corpse. One day while in this condition my father brought home a box of Dr. Williams' Pink Pills and asked me to try them. In less than a week I could sit up, and in a couple of weeks I could walk quite a distance without being tired. My appetite returned, the roaring in my head ceased. I began to gain flesh and color, and before I had used a half dozen boxes I was as healthy as I had ever been in my life. My friends did not expect me to recover and are now rejoicing at the wonderful change Dr. Williams' Pink Pills have wrought in me. If my statement will be the means of helping some other discouraged sufferer you are at perfect liberty to publish it."

The above statement was sworn before me at Maplewood, York County, N.B., this 14th day of May, 1897.

TIMOTHY W. SMITH, J.P.

WEAK AND RUN DOWN.

Miss Jessie Lowry, Marathon, Ont., writes:—"It gives me much pleasure to acknowledge the benefit I have derived from the use of Dr. Williams' Pink Pills, for I sincerely believe but for their use I would now be in my grave. My health was completely broken down. The least work or exertion would fatigue me, and I was subject to headaches, dizziness, and palpitation of the heart. I was pale and my appetite fickle. I had read so much concerning Dr. Williams' Pink Pills that I decided to try them—and after using five or six boxes I was once more as strong as ever I had been. I now regularly use a box of the pills every spring as a tonic medicine, and always find myself the better of them."

HEADACHE AND DIZZINESS.

Miss Mary Dowser, Grimsby, Ont., says:—"Some months ago I was troubled with severe headaches, accompanied by pains in the stomach. These grew worse until finally I was confined to bed. If I moved about I would grow dizzy and I was also subject to spells of vomiting. A doctor was called in but the aches and pains refused to disappear. Then I decided to try Dr. Williams' Pink Pills, and after taking them for a week or two there was a decided improvement in my condition, and after using the pills for a few weeks longer my health was fully restored, and I have not since had any return of the trouble."

Miss Bessie Fullerton, Halfway River, N.S., says:—"For several years I was in a very poor state of health, and my friends feared that I was going into a decline. I was induced—after many other medicines had failed—to try Dr. Williams' Pink Pills, and their effect in my case has been almost magical, and they have restored me to perfect health."

Miss Aglae Caret, St. Joseph, Que., writes:—"I have used Dr. Williams' Pink Pills with the most gratifying results. I am a teacher by profession, and last winter as a result of hard work, I became weak and run down. My appetite was very poor, and I had hardly the courage to undertake my occupation. I was advised to use Dr. Williams' Pink Pills and their effect was marvellous. I have never enjoyed better health than I am doing now. In recommending them to others I feel that I am only doing a service to our common humanity?"

Miss Grace McMillan, Chesley, Ont., writes:—"We have used your Dr. Williams' Pink Pills in our household as a blood purifier and have proved them to be a first-class medicine."

KIDNEY TROUBLE.

Symptoms:

Irritability of
the bladder;
frequent
desire to
urinate; scald-
ing sensations;
pain in the
region of the
kidneys; appe-
tite variable;
spirits
depressed;
sediment in
the urine.

These indicate
Kidney
Trouble, which
is speedily
cured by the
use of Dr.
Williams' Pink
Pills.

KIDNEY TROUBLE CURED.

A Well-Known Hotel-Keeper Relates His Experience—He Suffered Greatly from Kidney Trouble and Indigestion.

From The Standard, Cornwall.

James Macpherson, hotel keeper in the village of Lancaster, Glengarry County, has done business for a number of years in Lancaster, and having successfully catered for the patronage of the travelling public, therefore is favorably known not only at home but also abroad. In conversation with a newspaper reporter he enumerated some of his ailments and how he was cured. "About two years ago," he said, "my whole digestive apparatus seemed to become disordered. Some days I could move around, then again I would be obliged to go to bed. I tried several things but with indifferent success. Occasionally I felt relieved, but in a day or two the old symptoms would return with a more depressing effect. This kind of thing went on until I became troubled with my kidneys, which was a very annoying addition to my sufferings. I was restless, with a sensation of sickness at the stomach, with intermittent pain in the small of my back. I was miserable enough when I consulted the doctor, who probably

did me some good, because I felt relieved. The doctor's medicine was taken and his directions obeyed, but I did not improve. I had heard of the fame of Dr. Williams' Pink Pills. My wife believed in them and urged me to try them. I am glad I did so, for after taking one box I felt better, and I continued taking the pills until I was completely cured. This summer I had an attack of the same complaints and I found Dr. Williams' Pink Pills as effective as before. I had this advantage, my knowledge and belief in the pills saved me from costly and tedious experimenting such as I had undergone previously, I may further add that both myself and Mrs. Macpherson have derived much benefit from the use of Dr. Williams' Pink Pills, and I can cordially recommend them to those who are suffering similarly."

KIDNEY TROUBLE CURED.

Mrs. Collin Campbell, who lives near Fort Stewart, says:—"I suffered very much from kidney trouble, which caused a severe pain in my back, making it very difficult for me to go about or attend to my household duties, I had read so much of the virtues of Dr. Williams' Pink Pills that I decided to give them a trial, and by the time I had used three boxes I found the trouble had disappeared. I can recommend Dr. Williams' Pink Pills to anyone who is similarly afflicted."

DIABETES CURED.

Mrs. Isalah Gillard, Wales, Ont., writes:—"My niece, who has lived with me for four years, suffered from troubles incident to girlhood and from what the doctors said was diabetes. In fact two doctors attended her for eight months and she was taking their prescriptions, but all the time getting weaker. We then decided to give Dr. Williams' Pink Pills a trial. When she began taking them her complexion was yellow, she was troubled with shortness of breath, and seemed to have no blood, and no relish for food. When she had completed the third box she was very much better, and when she had taken nine boxes her health was fully restored, and she is to-day as healthy a looking girl as you would wish to see. We have recommended Dr. Williams' Pink Pills to our acquaintances, and they are the most popular medicine in this section of the country."

Mrs. Wm. Buchanan, Pakan, N.W.T., writes:—"I have used your Dr. Williams' Pink Pills for kidney troubles with the most satisfactory results, and I strongly recommend them to those similarly afflicted."

AN ENGINEER'S STORY.

Mr. Wm. Taylor, of Kentville, Attacked with Kidney Trouble—So-Called Cures Proved Useless, but Dr. Williams' Pink Pills Restored his Health.

From the Kentville Advertiser.

There are very few employments more trying to the health than that of a railway engineer. The hours of labor are frequently long, meals irregular, and rest and sleep hurriedly snatched "between runs." One of the troubles which very frequently attacks railway trainmen is kidney disease, which up to a late period has been looked upon as a disease difficult, if not impossible, to totally cure. Although there exist numerous remedies claimed to be cures, the truth is that nothing had been found to successfully cope with this terrible disease until the advent of the now world-famed Dr. Williams' Pink Pills. Chancing to hear one day that Mr. William Taylor, a resident of this town, had been cured of kidney trouble through the agency of Dr. Williams' Pink Pills, a reporter called upon him at his home to hear from him personally what he thought of his cure. Mr. Taylor is an engineer on the Dominion Atlantic Railway, his run being between Halifax and Kentville, and he is one of the most popular drivers on the road. When asked by the reporter concerning his illness, he said:—"It was in the spring of 1896 that I had a severe attack of kidney trouble, brought on by continuous running on the road, and I suppose it is caused by the oscillation of the locomotive. It affected me but slightly at first, but gradually grew worse. I consulted a doctor and then tried two or three varieties of so-called cures. Some helped me for a time, but after stopping the use of them I grew worse than ever. I had noticed numerous testimonials in the papers concerning Dr. Williams' Pink Pills, and reading of one cure that was almost identical with my own I decided to give them a trial, and purchased four boxes at a cost of \$2. But it was \$2 well spent, for I was completely cured by the use of the pills, and have not been troubled with my kidneys since. I can therefore recommend them to others similarly afflicted.

ILLNESS FROM OVER-EXERTION.

Mrs. Alexander McWilliams, of Duart, Ont., says:—"From lack of rest due to nursing relatives through severe illness, I became completely run down. Appetite and sleep almost completely deserted me. The smell of cooking victuals became offensive and often I would not get more than one hour's sleep out of the twenty-four. My nervous system seemed completely shattered, and at times speech almost failed me. Many times during the day I would be attacked with weak spells, which seemed like waves smothering me. Several physicians were consulted and prescribed, but no relief was experienced. I gave up all hope of getting better, and those who waited upon me did not think I would live long. My father had used Dr. Williams' Pink Pills successfully and persuaded me to try them. Almost from the start I experienced relief, and after using six boxes I was able to be up and go about. I still took the pills for some time longer, and my excellent health to-day testifies to the good they have done.

HIS BOY COULD NOT WALK.

Mr. Ezra A. Book, Silverdale, Ont., says:—"I have every reason to speak in terms of the warmest praise of Dr. Williams' Pink Pills for Pale People. My little son George, now nine years of age, was weak from infancy, and until his sixth year was not able to walk, and I doubt if he could do so to-day had it not been for Dr. Williams' Pink Pills. We tried several doctors, but no beneficial results ensued, and we had about given up hope, when we decided to try Dr. Williams' Pink Pills. He had not taken them long when an improvement was noticeable, and thus encouraged we continued giving him the pills for nearly a year, by which time he was as strong and active as other boys of his age. We shall always feel very grateful for what your medicine has done for him."

THE BEST OF ALL MEDICINES.

Mrs. John O'Donnell, North Onslow, Que., writes:—"I have unfortunately had to take a great deal of medicine in my life, but no other medicine has ever helped me as your Dr. Williams' Pink Pills have done, and I consider them the best blood purifier in the world, and would not be without them in the house for anything."

What Is Consumption?

Do you spit
blood? Are
you also weak,
languid, and
easily tired?
Are you
slightly fever-
ish—especially
at night?
Do you have
profuse
perspiration
in the night?
These are
signs of
Consumption.

It is regarded
as incurable;
do not let it
become so in
your case.

Many cases
declared
"incurable"

WAS SLOWLY DYING.

The Strange Case of Mr. James Owen, of Johnville—Doctors Told Him His Lungs were Affected and He Could Not Recover—Now in Good Health.

From the Sherbrooke Gazette.

When a man faces what medical authorities tell him is certain death, and regains health and strength, he is naturally grateful to the medicine that has restored him. Such a man is Mr. James Owen, one of the best known farmers in the vicinity of Johnville, Que. Mr. Owen tells his story as follows:—"On the 17th of December, 1894, I was attacked with la grippe. A week later the trouble developed into pneumonia in its worst form, and I did not leave my bed until the first of March, 1895, and then I was so weak that I was unable to walk alone. All winter my life hung in the balance. Summer came, and I was still weak and feeble, though with the warm weather I gained a little strength, I had however, but very little power in my legs, and I could not ride a mile in a buggy owing to the pain they caused me. My lungs also troubled me and I raised a great deal of matter. I then consulted

the best doctor we had in this section of the Province. He told me candidly that I was past medical help. He said that my left lung was in a state of collapse, and that my right lung was also affected. This was in July, 1895. For the next three months every day seemed to draw me nearer and nearer the end. I was so pressed for breath at times that I could not walk any distance without stopping to regain it. In the month of November I began to take Dr. Williams' Pink Pills. It was certainly a forlorn hope, and I admit I did not expect much benefit from them, but took them rather to please a friend who urged me to do so. The result is they have made a well man of me. I have not a pain about me. My breath comes as freely as it ever did, and I am strong and vigorous. Dr. Williams' Pink Pills have given me a new lease of life, and I am glad to let everybody know it.

INCIPIENT CONSUMPTION—CURED.

Mr. James Weir, a well-known blacksmith of Boissevain, Man., says:—"When I came to Manitoba some years ago, I entered into partnership with a friend in a threshing outfit. Aside from the work being hard it was attended with constant exposure, and many a night we were compelled to take the warm side of a straw stack for our night's lodging. The result was I contracted a very heavy cold, and was obliged to quit work, and coughed all through the winter. In the spring I attempted to work again, but could not stand it, so I sold out my share of the outfit and settled down at my trade as a blacksmith. I did not improve, however, although I was steadily taking medicine. I thought I was in consumption. I fell off in flesh from 158 to 123 pounds, and looked like a walking skeleton, and suffered from nervousness and a constant hacking cough. My wife made a trip to Winnipeg, and while in a drug store there told the druggist my condition, and he advised her to take home some of Dr. Williams' Pink Pills. She brought back a half dozen boxes and I began taking them. After I had taken four boxes there was a considerable improvement in my condition and I continued taking them until I had used ten boxes, when my health was fully restored. My case is one of those which substantiates the claim that Dr. Williams' Pink Pills cure when other medicines fail."

CONSUMPTION OF THE GLANDS CURED.

Mr. C. Eaves, of Queensville, Ont., says:—"My little daughter, Cora, eight years of age, was attacked with what the doctors called consumption of the glands. A lump came on the side of her neck half the size of a hen's egg. Among the doctors who attended her was a leading Toronto physician, but she was constantly growing worse, and we feared she would not recover. Finally we began to give her Dr. Williams' Pink Pills, and soon to our great delight she began to get better. During last summer she gained ten pounds in weight and has not missed a day at school. We are sincerely grateful for what Dr. Williams' Pink Pills have done for her."

CONSUMPTION OF THE BLOOD CURED.

Mrs. J. N. Gordon, Catarqui, Ont., writes:—"If I could not have got Dr. Williams' Pink Pills I do believe I would now be in the land of the living. I had what one of my physicians—for I tried a number—called consumption of the blood. I was wasted away to a shadow, and my hands were literally transparent. I had a hacking cough, could not sleep and could scarcely eat. Doctors having failed to help me, I determined to try Dr. Williams' Pink Pills, and was soon gratified to find that they were helping me. I continued their use for several months, and am thankful to say that they have fully restored my health. I consider Dr. Williams' Pink Pills a blessing to humanity."

DOCTORS SAID IT WAS CONSUMPTION.

Mrs. Chanley Thompson, Housey's Rapids, Ont., says:—"I was pronounced by a Peterboro physician to be in consumption. I was fearfully emaciated and looked and felt as if I had not a drop of blood in my body. I had scarcely strength enough to walk across a room. I could not sleep at nights for the pain in my lungs and the cough that racked me. I began taking Dr. Williams' Pink Pills and they have restored me again to health and strength. They are the best medicine I know of and I believe they saved my life."

NERVOUS PROSTRATION CURED.

Mr. P. Lapointe, proprietor of the St. Louis Hotel, St. Anne de Beaupre, Que., says:—"My daughter Josephine is another of the many whom Dr. Williams' Pink Pills have restored to perfect health. She became very weak, lost her appetite, was pale, had no energy and was not able to do any work about the house. I called in a doctor, but he did not help her, and I feared that we would lose her. One day I read in a newspaper of a young lady whose symptoms were the same, who was cured by Dr. Williams' Pink Pills, and I decided to employ them in my daughter's case. After using three boxes she was decidedly better, and after four more had been taken her health was fully restored, and she now enjoys as good health as any young girl can do."

CHRONIC LIVER COMPLAINT CURED.

Miss M. A. Smith, Napanee, Ont., says:—"I suffered for four years from liver complaint with all its attendant misery. I tried quite a number of medicines, but they only seemed to aggravate the trouble. I was much inclined to flesh, and it was only the exercise of considerable will power that I was enabled to go about at all. Food disagreed with me, my complexion was of the sallow hue peculiar to this trouble, and I was the frequent victim of headaches and dizziness. One day I decided to try Dr. Williams' Pink Pills, and by the time I had used two boxes I could see that they were helping me. I continued taking them until I had used six boxes, when I was as strong and as healthy as ever I had been. I have no hesitation in attributing my good health to the use of Dr. Williams' Pink Pills."

UNDERMINED HEALTH CURED.

Mr. Jas. Stamp, Kinmount, Ont., says:—"My wife was troubled with indigestion for two years, and became so bad that her system was undermined, and she lost her strength completely. She looked as if there was not a drop of blood in her body, and to aggravate matters she contracted a cold, which left her with a cough that threatened consumption. She was attended by three doctors, but their medicine failed to help her. Her stomach became so bad that at times it would retain nothing, not even a glass of hot water, and she would be obliged sometimes to go several days without tasting solid food. She saw Dr. Williams' Pink Pills advertised so much that she decided to try them. By the time she had used three boxes she could eat better, and I could take food such as she had not tasted before for two years. By the time she had taken six boxes more her health was fully restored, the cough had left her and her weight had increased eighteen pounds. I consider Dr. Williams' Pink Pills the cheapest and best medicine in existence, and they can always be found in our home."

SCIATICA.

Have you
acute darting
pain—a pain
almost like hot
needles—in the
hip, down the
back of the
thigh? Does
it extend to
the knee and
perhaps
sometimes to
the ankle?
Is the course
taken by the
pain tender to
the touch?
Cure it—it is
Sciatica.
Read on this
page the case

who was cured
of this painful
disorder by
Dr. Williams'
Pink Pills.

A VICTIM OF SCIATICA.

The Sufferings of a Well Known Guelph Citizen—Could Not Move
About Without the Aid of a Stick—Again as Strong and Healthy
as Ever.

From the Guelph Mercury.

There is perhaps no business or occupation that any man could follow that is more trying to the health—particularly in the winter—than that of moulding. A workman leaves the shop with his clothes wringing wet from perspiration, and a cold wind chills him to the marrow, making him a ready

mark for lumbago, sciatica, and kindred troubles. A moulder requires to be a man of more than ordinary strength, and to continue at his work must always be in good health, for the moulding shop is no place for an invalid. Sciatica is by no means an uncommon affliction for men of this craft, and once the dread disease has lanced a victim he seldom shakes himself free from it again.

In fact some people declare that it is incurable, but that it is not we are able to testify by a personal interview with one once afflicted with the trouble, but who is now in perfect health, thanks to his timely use of the famous remedy. There are few workmen better known in Guelph than Chas. W. Waldren, perhaps better known as "Charley Waldren," for he has lived in Guelph almost

continuously since he was three years of age, and he has now passed the 38th mile post. Mr. Waldren is a moulder, and has worked at that business for 22 years; and besides being noted as a steady workman, he is a man whose veracity is unquestioned. It is a well known fact here that Mr. Waldren had to quit work in January, 1896, on account of a severe attack of sciatica, and for eleven weeks was unable to do a tap. Knowing that he was again at work a Mercury reporter called at his residence one evening to learn the exact facts of the case. Mr. Waldren, when spoken to on the subject, replied quite freely, and had no hesitation in crediting Dr. Williams' Pink Pills with his remarkable recovery. "I am not one of those people who are seeking newspaper notoriety," said Mr. Waldren, "neither have I been snatched from death's door, but from the day when I quit work, until March 30th, when I started again, I was confined to the house with sciatica. It located in my hip and would shoot down my leg to my foot and was very painful. I could not move about the house without the aid of a cane, and then only with great pain. I was totally useless as far as doing my work was concerned, was never free from pain, and it made me feel very much depressed, for beyond that I felt strong and anxious to be about. I am a member of three benefit societies, from which I drew pay, viz.: The Three Links, the Iron Moulders' Association, and the Raymond Benefit Society. People came to see me, and of course everybody recommended a sure cure. I didn't try half of them. It was not possible, but I tried a great many—particularly remedies that I had been in the habit of using for lumbago—but I found no relief. I tried Dr. Williams' Pink Pills. After using two boxes I noticed an improvement, and I kept on using them. When I had used six boxes I was back at work again. I kept on until I had finished the eighth box, and I never felt better in my life." "Have you noticed any recurrence of trouble since?" queried the reporter. "I have not," he replied, "suffered a single twinge since." Mr. Waldren has worked in all the moulding shops in the city, and was never in his life laid off sick as long as he was from the attack of sciatica. He hardly knew what it was to be sick, and is of that tough wiry nature that he can stand much greater physical strain than most people would imagine. Almost any person in the city can verify his story. Mr. Waldren said, as the reporter got up to leave, "I only hope some poor fellow who has suffered as I did may notice my case and get relief as I did."

Mr. John M. Prest, postmaster at Mooseland, N.S., says:—"I am fully convinced that Dr. Williams' Pink Pills are the very best pills on the market."

A CRIPPLE FOR LIFE.

So Doctors Said Concerning Richard B. Collins—He Spent Months in the Toronto Hospital Without Any Benefit—Dr. Williams' Pink Pills Cure Him After All Other Treatment Failed.

From the Echo, Warton, Ont.

The Echo presents to its readers the following plain statement of fact, with the simple comment that a medicine that can perform so remarkable a cure is invaluable, and it is no wonder that the aggregate of its sales throughout the country is enormous.

I, Richard B. Collins, hereby make the following statement, which can be confirmed by any number of witnesses in this section of the country. I first began to complain about five years ago. I had been then working in a fish shanty, and was wet almost the whole time, summer and winter. I was then confined to the house for three months. This was my first attack, and on getting better I commenced work again the first of the following February and continued at it until the next January, when I took a much worse attack. The doctors pronounced it rheumatism, and after treating me for that disease until about the first of May, they discovered that my trouble was disease of the hip joint, and advised me to go to an hospital. I went to Toronto and stayed in the hospital five weeks and then returned home. I, however, did not recover, and was compelled during the following summer to go back to the hospital, where I remained three months, getting worse all the time. I was told I could not be cured, and when I left was only able to walk by the aid of crutches. I then came home and was not there long before I was taken to my bed. I continued in this state until January following, when I was advised by several friends to try Dr. Williams' Pink Pills. I took their advice, and before I had finished the fifth box I began to improve, and by the time I had completed a dozen boxes I was able to walk without crutches, and have never used them since. I was able to do light work in a short time, and in January last (1897) I commenced working in the woods, and have no trouble from the hip unless over exerted. During the last three years I have spent \$300.00 in doctors' bills and medicines, trying everything recommended, but without any good results until I took Dr. Williams' Pink Pills, to which I owe my restored condition, as the doctors gave up all hopes of ever seeing me out of bed alive and well. I may say that before I began taking Dr. Williams' Pink Pills during my last attack, I put in many a night so bad that I never expected to be alive in the morning.

A LAME BACK.

One of the Most Painful of Maladies—Mr. Peter Millar Suffered for Years, and Experimented with Many Medicines Before Finding a Cure.

From the Brockville Recorder.

Perhaps no prettier place is to be seen in Ontario than that at Newman's upper lock on the Rideau Canal. At this station for a quarter of a century resided Mr. Peter Millar, who during that period acted in the capacity of lockman, and was perhaps the best known man on the canal. Mr. Millar is now a resident of Merrickville, having retired from active life. To a correspondent of the Recorder he related the following experience:—"For many years I was troubled with a lame back, which gave me great pain at times, and caused me much loss of sleep. I tried different kinds of medicine, but found little or no relief. The spring of 1895 I was assisting at getting out ice one day when I felt something snap or give way in my back, and it was some time before I could straighten myself up. I now became so bad that when I laid down I was unable to rise without assistance, and I fully made up my mind that I had become a chronic invalid, and never expected to see a well day again. A couple of weeks after my back had almost entirely given out, I saw by an article in a paper that Dr. Williams' Pink Pills had cured a person troubled similarly, and I immediately sent and procured a box to test them. Before I had finished the box I found my back somewhat stronger, so I procured five boxes more, and by the time they were used I found myself completely cured. Since I took the last box I have not had a pair or particle of lameness, and my health has been far better than it had been for years before."

To ensure obtaining the genuine always ask for Dr. Williams' Pink Pills, as there are many pink-colored imitations.

Palpitation and . . . Heart Disease.

After Climbing
a hill, or run-
ning up-stairs,
are you out of
breath?

Does your
heart beat vio-
lently on such
occasions?

The beat felt
even in the head
and wrists?

Do you feel
faint when out
of breath, or

ferers.

HEART DISEASE.

A Trouble no Longer Regarded as Incurable—An Orangeville Lady
Who Had Suffered Severely Speaks of Her Illness and Tells
How She Found a Cure.

From the Orangeville Sun.

A remarkable case recently came under the notice of our reporter, and for the benefit it may be to some of our readers, we are going to tell them about it. In the south ward of this town lives Mrs. John Hubbard, a lady much esteemed by these who know her. Mrs. Hubbard has been a great sufferer from heart trouble, and ultimately became so bad that it would not have surprised her friends to have heard of her death.

But a change has come, and she is once more rejoicing in good health. When our reporter called upon Mrs. Hubbard, and made his mission known, she said she would be delighted to tell him of her "miraculous cure" as she styled it. "Of course no one thought I would get better. I thought myself I could not last long, for at times it seemed as if my heart was going to burst. Oh, the dreadful sensations, the awful pains and weakness, together with a peculiar feeling of distress, all warned me that my life was in danger. I consulted a doctor, but he could do absolutely nothing for me.

My friends saw me gradually sinking, and many an hour's anxiety I caused them. My strength waned, my nerves were shattered; I could not walk, for every step caused my heart to palpitate violently. It is utterly impossible to fully describe my condition. One day a friend brought me a box of Dr. Williams' Pink Pills, and to'd me to use them, but I said there was no use—they could do no good. To this my benefactor replied, that if they did not, they at least could do no harm; so to please her I took the box of pills. Then I procured another box and began to feel that they were doing me good. I took in all eight boxes, and now I feel strong and hearty, each day doing my housework without fatigue or weariness. For anyone who suffers from weakness of the heart, I believe there is no remedy so sure, or that will bring such speedy results, as Dr. Williams' Pink Pills. Had I only used these wonderful pills at first I would have been spared months' of intense suffering." Mrs. Hubbard but re-echoes the experience of scores of sufferers, and what she says should bring hope to many who imagine there is no relief for them in this world. Dr. Williams' Pink Pills have saved more lives than we will ever know of.

HEART TROUBLE CURED.

Mrs. George Raymond, of Rosseau, Ont., says that Pink Pills helped her wonderfully when other medicines failed to give her relief. She says:—"My system having been completely run down from over-work and worry, about two years ago I was greatly alarmed when symptoms of heart trouble set in, causing my life to be despaired of several times, and my case was given up as hopeless by a good physician. I decided (on the strength of testimonials which I saw in a book one day) I would give Dr. Williams' Pink Pills a trial, and accordingly did so with most satisfactory results. I took something in the neighborhood of one dozen boxes, and can truthfully say that I gained constantly in health and strength, besides being now perfectly free from heart trouble. I can cheerfully recommend Pink Pills to people in need of a blood tonic, or a general builder-up."

Mr. Jas. Gage, Brookdale, Que., says:—"We have always found Dr. Williams' Pink Pills a good family medicine, and think they should be kept in every home."

Mr. Peter McIntosh, postmaster, Pleasant Bay, N.S., writes:—"I have used Dr. Williams' Pink Pills in my own family, and have sold them to others, who have been greatly benefited, and I have no hesitation in saying that I know of no more valuable medicine."

FOR... CHILDREN.

A question
often asked is
this:—

“Can
Dr. Williams’
Pink Pills be
given to child-
ren?”

They can.

For young
children the
dose is one-
third of a pill.

Children over
ten may take a
half pill. The
pill can be cut
with a knife,

and may be dis-
solved in water
if necessary.

A YOUNG LIFE SAVED.

Florence Sturdivant, of Grindstone Island, Saved from an Untimely Death—Her Parents Saw Her Dangerous Predicament, but Were Helpless to Aid Her—How She was Rescued.

Among the Thousand Islands is one called Grindstone. It is seven miles long and three wide. The inhabitants of this island are a well-informed class of people who devote their energies to farming and quarrying for a livelihood. In the home of one of these islanders resides Florence J. Sturdivant, the four-year-old daughter of Mr. and Mrs. William H. Sturdivant. In February, 1896, she was taken with scarlet fever, and after the usual run of the fever she

was left with a weak back and gradually began to lose strength, until finally despite the best efforts of physicians, her life hung in the balance. It was at this crisis, when all seemed darkest, that an angel of health appeared on the scene and released little Florence from pain and suffering, and restored her to strength and health. This remarkable occurrence is best told in the words of the father.

Mr. Sturdivant said: “Florence was taken sick with scarlet fever, and we immediately called a physician. He prescribed for her and we followed his directions closely, giving our little patient the best of care. After two weeks the fever subsided, but Florence was left with a very weak back. Severe pains were constantly in the back and stomach. We did all that possibly could be done to relieve our little sufferer, but to no avail. The difficulty seemed to baffle the efforts of the physician. Finally, at the end of four months of treatment, we found our patient completely prostrated. At this time we called another physician, who agreed with the diagnosis of our own doctor, and said that the trouble resulted from the scarlet fever. He prescribed a course of treatment, and we followed it faithfully for three months, but instead of improving, Florence failed. Mrs. Sturdivant and myself were completely discouraged. A brother of my wife, who was visiting us, advised us to use Dr. Williams’ Pink Pills for Pale People, and I purchased a box of the pills and began to give them to Florence. This was in October, 1896. After using the pills a short time we could see an improvement. Her strength began to return, and she would sit up in bed. Her appetite was restored and she ate heartily. We also noticed a gradual brightness in her eyes. We eagerly purchased a further supply of pills, and watched with delight the change for the better that was wrought daily. From sitting up in bed at times during the day, and at times standing on her feet, Florence finally became strong enough to walk a little. She gained in flesh and strength rapidly and the pains gradually left her. In a month’s time she had recovered her health and strength. We cannot praise too highly the value of Dr. Williams’ Pink Pills. I am positive that without their use our child would have been to day in the same sad condition of her early sickness—a confirmed invalid—if indeed she had had the strength to withstand so long the ills of her affliction.”

(Signed) WILLIAM H. STURDIVANT.
Subscribed and sworn to before me, this sixth day of April, 1897.

H. W. MORSE, Notary Public.

Mrs. A. Babcock, Dresden, Ont., says:—“I was afflicted with general debility, my appetite was poor, and I was constantly tired. I began using Dr. Williams’ Pink Pills, and they have completely restored my health, and I am feeling stronger than I have done for years.”

Mr. W. Walsh, Upper Pockmouche, N.B., says:—“I used Dr. Williams’ Pink Pills for la grippe, and they proved very effectual. I would recommend them to all suffering from this complaint.”

A DANGEROUS SEASON.

Nature Requires Aid in Throwing off the Poisons of Winter—Close Confinement Leaves Old and Young Weak, Nervous and often Despondent.

At this season of the year, young and old feel the need of some assistance from the medical world to help nature in her work of renewing and rebuilding the system after the trying months of winter. Teachers and students especially feel the effects of long months of mental toil that have been rendered more dangerous to

health by hours of study in close, ill-ventilated rooms, and exposure to cold and storm, and chills from wet and bedraggled skirts. The following letter from a well known lady teacher in the west tells how she made use of one of the most wonderful medical discoveries of the age, with happy results.

"Every spring for the last eight years I have suffered from attacks of what the doctors called nervous prostration. The attacks were generally heralded by nervous headaches which lasted for three or four days, causing untold agony, palpitation and pain at the heart, loss of appetite and a general feeling that life was not worth living. Only those who have suffered in this way can imagine what I endured or how great has been my joy to find that I have learned of a means of escape from all those horrors. This wondrous medicine, which doctors acknowledge to be a good tonic and of great benefit to weak people, was brought to my attention by a niece who had herself been cured of a dangerous malady by this remedy. She had become weak and unable to continue her studies, her blood turned to water and her face lost every trace of its once fresh, healthy color, and a general "breaking up" of her system caused her friends to fear that she was in the first stages of consumption. She became tired of hearing thoughtless people tell her how pale she looked, and seeing an advertisement of Dr. Williams' Pink Pills for Pale People, she bought some, in the hope that they might restore a little color to her cheeks. She was surprised and delighted to find that after using them for a few weeks her face regained its bright, healthy color and her strength and vitality also returned, and to-day she is perfectly strong and healthy. Knowing how I had suffered she strongly advised me to try them. I did so, and instead of feeling "worn out" as usual at this season, I feel stronger and better in every way than I have done for years. Those dreadful headaches and other distressing symptoms have entirely disappeared and I feel years younger than I did a year ago, and my friends say I look ten years younger. I feel so happy that I can perform my duties with zeal and pleasure, that I wish to recommend Dr. Williams' Pink Pills to all teachers and students who wish to escape what I have suffered."

Gratefully yours,

H. S. KER.

A YOUNG GIRL'S RELEASE.

Mrs. W. J. Lyons, of Harrowsmith, Ont., says:—"For a year and a-half my daughter Eleanor was troubled with a malady that we thought would end her life. She became thin, pale, tired all the time, and utterly unfit for the least exertion. She suffered from pains in the back, sick headaches, swollen limbs, palpitation of the heart, and all the other miseries doctors attribute to a lack of blood. She was growing worse and worse, until one day a lady friend urged her to try Dr. Williams' Pink Pills. After using only four boxes her health was fully restored, and she has not had the slightest return of the trouble since. You may make this statement public, as it may help someone else similarly suffering.

IN A DECLINE—HEALTH RESTORED.

Mrs. W. Goodwin, Argyle Sound, N.S., says:—"After the birth of my first child I was in poor health and unable to recover my strength. I had a severe pain in my left side and lung, which almost made it impossible for me to breathe. I had a bad cough day and night, and was troubled with night sweats, and on awakening found myself very weak. My complexion was sallow, and my appetite entirely gone. All my friends believed me in a decline. Our family physician attended me for a long time but I got no better. Then a friend advised me to try Dr. Williams' Pink Pills. Acting on this advice I bought a supply, and continued their use until my health was fully restored. I am sincere in saying that I believe Dr. Williams' Pink Pills saved my life."

STOMACH TROUBLE.

Mrs. J. B. Samuels, Fox River, Que., writes:—"I have been troubled for years with a weak stomach, and found no relief from any medicine until I began the use of Dr. Williams' Pink Pills for Pale People. It gives me pleasure to speak in their favor.

Have You Indigestion?

YEARS OF MISERY.

Caused by an Attack of Acute Dyspepsia—The Sufferer's System
Almost a Complete Wreck.

From the Drumbo Banner.

Among the residents of Blenheim township, in the County of Oxford, none are better known than the Dawsons, who settled in the county while it was an almost unbroken wilderness. Mr. S. Dawson is a leaping member of the Baptist church and a prominent temperance man, and is esteemed and respected by the whole community. There are few in the country who do not know that Mrs. Dawson was for years a great sufferer, who now, happily,

has been restored to health. To a reporter who recently called at the Dawson home, the lady gave the following particulars of her illness and cure. She said:—"I have been a sufferer for a great many years. The first symptoms appeared to be pains darting through my system. I consulted a doctor who told me my stomach was very weak and that my trouble was dyspepsia. I was given medicine, but it did not do me any good, and I discontinued it and tried different advertised medicines. They did not prove of any benefit and I went to another doctor. I would go for days without eating a meal, my heart at times would almost cease to beat, and I would become so dizzy that I thought I would die. I was but a mere shadow of my former self.

I tried other doctors, but the result was no better. Then again I tried other advertised medicines, but still got no help. At times my stomach would swell to twice its normal size and would not even retain the medicine I was taking. A little over two years ago while in this wretched state, my husband suggested that I should try Dr. Williams' Pink Pills. I was willing to try anything that might help me and yet I did not expect any good from them when all other medicines had failed. However, my husband got a few boxes, and by the time I had taken three or four boxes I was perceptibly better, my pains began to vanish and I could relish a meal. I continued using the Pills until I had taken twelve boxes, when all my trouble had disappeared, and I was once more enjoying the blessing of health. Dr. Williams' Pink Pills have done for me what years of other treatment failed to accomplish, and I shall warmly recommend them."

DYSPEPSIA CURED.

Miss Lila Laughlin, a young lady who is teaching in the Fort Stewart public school, says:—"Some months ago I was suffering with a severe attack of dyspepsia. I procured some medicine from the doctor which seemed to help me for a time, then it apparently lost its effect and I became worse. I had a terrible pain in the stomach which caused me much distress. Then vomiting set in and continued until I was so weak I could scarcely stand, and at times my sight would seem to leave me. While in this state one of my friends advised me to try Dr. Williams' Pink Pills, and I procured a half dozen boxes. By the time I had used them I had fully recovered my health, and I can recommend them to others similarly suffering."

'THE PANGS OF INDIGESTION.

Miss Alzina Bishop, Chisholm, Ont., says:—"For years I suffered from the pangs of indigestion, for which I tried many remedies without obtaining any beneficial results. I could eat but little and that had to be carefully selected from among the plainest foods, and even then I frequently endured much agony. One day I came across a pamphlet containing the testimonials of those who had been cured by the use of Dr. Williams' Pink Pills, and made up my mind to try them. The result is that I am to-day a living testimonial to the great curative power of this medicine. All traces of my indigestion have vanished and I am enjoying better health than I have done for years before."

DOCTORS COULD NOT AGREE.

Mr. Thos. E. Webb, Wolverton, Ont., says:—"Mine was a case as to the nature of which the doctors could not agree, and it is perhaps under the circumstances not to be wondered at that they failed to cure me. My illness began some years ago. The first doctor whom I consulted said that my trouble was due to catarrh. I took his treatment but was getting worse. Then I went to another doctor, and he told me that my liver was out of order, and that I had indigestion, but he did no good. Then I consulted another doctor who told me my stomach was all wrong and that I was in a bad shape—which latter I already realized. I took his treatment, but it did me no good, and then, as if my cup of misery was not already full I was attacked with acute rheumatism. How much I suffered, tongue cannot tell. I consulted still another doctor who told my friends that I would not survive a year. I then began using Dr. Williams' Pink Pills, but the doctor opposed it and I stopped. Some time after the doctor told me he could do nothing more for me, and then on the advice of a friend I again began taking Pink Pills. After a few weeks I could see that they were helping me, and I continued their use until I am again able to do a good day's work, and my misery has passed away. If I ever require medicine again it will be Pink Pills that I will resort to."

THE AGONY OF SCIATICA.

Mr. Ronald McCormack, of St. George, P.E.I., an influential, well-to-do farmer, says:—"About fifteen months ago I took a heavy cold and as a result sciatica settled in my hip and leg, and for three months I could do nothing. I suffered intense pain and could get no rest, and at times I was fairly doubled up with agony. After trying some other remedies without getting any benefit I decided to give Dr. Williams' Pink Pills a trial. I bought four boxes, and before they were all gone found they were doing me much good. I then got six boxes more and before they were all used the pains which had caused me such intense agony for months were all gone, and I was again enjoying the blessing of good health. I take much pleasure in endorsing Dr. Williams' Pink Pills."

AFTER EFFECTS OF LA GRIPPE.

Mr. Albert E. Wood, foreman of a carriage factory at Margate, P.E.I., says:—"I was attacked with la grippe which left me in a weak and emaciated condition. Many of my friends thought I was in consumption, and some of them predicted that I would not last long, but I am here yet, and that in a hale and hearty condition. Before beginning Dr. Williams' Pink Pills I had used two bottles of a compound that cost me a dollar a bottle, but from which I derived no benefit. Pink Pills however, did the work, and restored me to my former health and strength. I still use them occasionally for regulating my system, as I believe that an ounce of prevention is better than a pound of cure, and I believe there would be very little sickness if people renewed their vitality by the occasional use of Dr. Williams' Pink Pills."

GENERAL DEBILITY CURED.

Mr. Jas. Purtlelle, a well known farmer living near Crofton, Ont., says:—"For several years I have been a sufferer from general debility. I believe my trouble originated in overwork, aggravated by a severe cold. I had advice from doctors in Picton and Belleville, but did not get any better. Then I went to Toronto for treatment, and for a time I experienced some relief, but it was only temporary, and soon I was worse than before. Some of my neighbors advised me to try Dr. Williams' Pink Pills, and eventually I followed the advice. Before the first box was gone I found relief, and after I had used a few boxes more I was rejoicing in complete recovery, and my health has since been excellent. Words fail to express the value I now place on these little Pink messengers of health, and I only hope other sufferers will follow my example."

STOMACH TROUBLE CURED.

Miss Hattie Chase, a well-known and much esteemed young lady residing in Consecon, Ont., says:—"About two years ago I was attacked with dyspepsia, and for more than a year I suffered greatly. I had pains, or rather a burning and gnawing sensation in my stomach all the time, which increased every time I ate a morsel of food. The consequence was I had to forego solid foods, and was reduced almost to a skeleton. It was while in this condition that I began to use Dr. Williams' Pink Pills, and after the use of a few boxes I found my health fully restored. I can now eat as heartily as can be desired, and experience none of the disagreeable symptoms that formerly caused me so much misery. I would advise other dyspeptics to take heart and give Dr. Williams' Pink Pills a fair trial."

GENERAL WEAKNESS CURED.

Mr. Jas. Canavan is a well-known resident of Maxville, Ont. He suffered for a long time from general weakness, approaching an almost complete collapse. A friend advised the use of Dr. Williams' Pink Pills, and a judicious course restored his health. Mr. Canavan says:—"After having used your Pink Pills I am glad to recommend them to the world as a cure for extreme weakness and debility, and I am sure that if those who feel the first approach of such trouble will only take a box or two, much misery may be averted."

ST. VITUS' DANCE.

This trouble usually occurs in the young. Irregular and involuntary movement of the arms, legs or head. Languidness, trembling of the hands. Sometimes older persons have it. In either case the surest, speediest Cure is Dr. Williams' Pink Pills. Read the testimony offered on this page.

HARD STUDY IN SCHOOL

Brings on a Severe Attack of St. Vitus' Dance—Could Not Use Her Hands, and Found it Difficult to Walk.

From The Napanee Express.

Nervousness is the frequent cause of much misery and suffering. One of the effects of this breaking up of the nerves, particularly among young people, being chorea or St. Vitus' dance. A correspondent tells of a young lady at Selby who was badly afflicted with this trouble. He says:—"I never saw anyone suffering so badly before from nervous disorder. She was violently jerking and twitching all the time, and could not use her right hand at all. Anything she would try to pick up with it would instantly fall. When she

would attempt to walk, her limbs would twist and turn, the ankle often doubling down and throwing her. Lately I heard that she had been cured but doubted the truth of the statement and went out to see her. The statement proved quite true, and believing that a recital of the facts of the case would be of advantage to some one who might be similarly suffering, I asked permission to make them known, which was readily granted. The young lady is Miss H. M. Gonyou, a general favorite among her acquaintances, and it is thought that her trouble, as is not infrequently the case, was brought on by hard study in school." Miss Gonyou gave the following statement:—"All through

the fall of 1894 I had been feeling unwell. I did not speak to anyone about it, for I was going to school and was afraid if I said anything about it to my parents they would keep me at home. I kept getting worse, and at last grew so nervous that I could not hold my pencil. My right side was affected most, though the trouble seemed to go through my whole system. In January I was so bad that I had to discontinue going to school, and I was constantly growing worse. I could not use my hands, because I would let everything drop, and frequently, when I attempted to walk, I would fall. My brother had been ailing for a long time and was then using Dr. Williams' Pink Pills and getting better, so I thought as they were helping him so much they would be a good medicine for me. Before the first box was done I was feeling much better, and after using the pills for about a month, my health was fully restored. It is now more than a year since I discontinued the use of the pills, and I have not had the slightest trace of the malady since. I am satisfied Dr. Williams' Pink Pills saved me from a life of misery, and I would strongly recommend them for nervous troubles."

COULD NOT LACE HER SHOES.

Miss Dolena McLeod, Tarbotvale, N. S., says:—"In September, 1895, I was attacked by a twitching in my hand and arm. I at once went to see a doctor, who gave me some medicine and rubbed some liniment on the affected part. As the days went by I was constantly getting worse instead of better, and again sent for the doctor. This time he told me I had St. Vitus' dance, and left some more medicine. This I took according to directions every day, but did not find any benefit; on the contrary my condition was growing worse. The disease worked down my side and leg, and my tongue was also badly affected and interfered with my speech. It was impossible for me to keep still and I could not dress myself without assistance. I was advised to use Dr. Williams' Pink Pills, and had only been taking them for a few weeks when I had improved so much that I could lace my shoes, and after taking them for a short time longer I was perfectly cured. My case was a very severe one and Dr. Williams' Pink Pills have certainly done wonders for me."

LOCOMOTOR ATAXIA.

A kind of Paralysis. The symptoms are--staggering and inability to stand erect in the dark, or when the eyes are closed. Spinal weakness; loss of control over the muscles, especially of the legs. Darting pains in the back, also symptoms like those of "Early Decay." These lead on to constant and excruciating suffering. Locomotor Ataxia used to be incurable, but Dr. Williams' Pink Pills have cured many cases in its most severe form. Read the evidence.

HORRIBLE SUFFERING.

A Well-known Lady Stricken with Locomotor Ataxia—Her Agony so Great She Longed for Death.

There is probably no one better known in Sedalia, especially among the members of the first Baptist Church, than Mrs. Mollie E. Roe, the wife of Mr. Roe, nurseman, and nothing is better known among the lady's acquaintances than that for the past few years she has been a physical wreck from locomotor ataxia, in its severest form. That she has recently recovered her health, strength, and normal locomotion has been made apparent by her being seen frequently on the street; and in church, and this fact induced a representative of the Capitol to call on Mrs. Roe to enquire into the circumstances of her remarkable recovery. Mrs. Roe was seen at the Roe mansion at the corner of Ohio Avenue and Twenty-fourth Street, and seemed only too glad to give the following history of her case for publication:

"Four years ago," she said, "I was attacked with a disease which the physicians diagnosed as 'Locomotor Ataxia,' and I was speedily reduced to a mere wreck. I had no control of my muscles, and could not lift the least thing. My flesh disappeared until my bones almost pierced my skin, and when trying to walk with the aid of a cane, it seemed as if they hit everything I approached. The sense of touch became so exquisitely sensitive, that I believe I could by walking over the softest carpet blindfolded, have counted every seam. The most eminent physicians were consulted, but they gave me no relief, and I was without hope, and would have prayed for death but for the thought of leaving my little children. All thought of recovery had gone, and it seemed but a question of time when my trouble would end in the grave. One day while in this condition I received a newspaper from some friends in Denver, with a news item marked. While reading it my eyes fell upon an account of a remarkable cure of locomotor ataxia, by the use of Dr. Williams' Pink Pills for Pale People, and the case as described was exactly similar to my own. I at once made up my mind to try the remedy, and began according to directions to take the Pills. The first box had not gone when I experienced an improvement, and as I continued I grew better and better, until I was totally cured, and after two years of the most bitter suffering was as well as I ever was. Not only my feelings but my appearance underwent a change. I gained flesh, and though now forty-three years old, I feel like a young girl. You can say that Mrs. Roe owes her recovery to Dr. Williams' Pink Pills."

MOLLIE E. ROE,

Subscribed and sworn to before me this 24th day of August, 1896.

GEORGE B. DENT, Notary Public,
Pettis Co., Mo.

ALL RUN DOWN.

Mr. and Mrs. Wm. Reep live in the township of Caradac, Middlesex Co., Ont., and their home has been the scene of one of those remarkable cures which follow the fair use of Dr. Williams' Pink Pills. Mrs. Reep says:—"My daughter Dora, became weak and gradually lost flesh until she was merely a living skeleton. She was so weak that she could not walk across a room without the most serious effort, and her heart would beat so rapidly and violently that we feared she would die. After trying a number of medicines without benefit, we gave her Dr. Williams' Pink Pills, and five boxes completely restored her health, and I can assure you we are grateful for what your medicine has done for her."

AFTER MANY YEARS.

A Sufferer from Weak Heart is Restored to Health and Strength.

From the Cornwall Freeholder.

The romance of unwritten facts of real life far exceeds the rich elaborations of fiction. A peep behind the scenes would furnish us with adequate proof that there is more of care, trial and severe anxiety in human life than floats on the surface. We find many whose experience has almost incessantly fluctuated between health and sickness; little, if any, of this is obtruded upon the notice of the world, or breathed into human ear. You may secure the confidence of some of these sufferers who will rehearse to you dark catalogue of pains and aches that are often ill understood by the friends, and inadequately treated by the physician. Thanks be to the mighty genius that discovered the now famous panacea for the ills to which humanity is subjected when suffering from impoverished blood, or a shattered nerve system. Thousands have, and thousands are still using to the greatest advantage Dr. Williams' Pink Pills. They have passed the ordeal of experiment again and again with ever increasing honor. The following statement is from one who was rescued from seeming permanent enfeeblement and distressing heart action.

Mary Fisher, of Lancaster township, Glengarry county, is a maiden lady. About eight years ago Miss Fisher was seized with weakness and a distressing sensation in the region of the heart. It was attributed to several causes, all possibly more or less true, they were overwork, exposure, etc. She was certainly weak, and the action of the heart was abnormally rapid. The doctor in attendance pronounced the ailment nervous palpitation of the heart, and she received treatment accordingly for two years. At this stage she took to her bed she was so low. For twelve months she lay, receiving only domestic attention. She improved somewhat, however, and was able to be taken to a friend of hers near Lancaster village, Mrs. J. Hancy, where she was under medical attendance and took medicine for about three years. At the end of this time she could not safely venture to walk out even a short distance. All this time she complained of her heart. About two years ago she began taking Dr. Williams' Pink Pills, from this date she began what proved a steady restoration of nervous energy. During the summer of 1896 the improvement was marked. She was able by the middle of the summer to do as much work and walking as most ordinary women, and so satisfactory and apparently permanent is the cure, that Miss Fisher has gone to her former home. Such are the unvarnished facts of a remarkable case. The malady was persistent, tenacious and hard to fight. But the constant use of Dr. Williams' Pink Pills wrought a marvellous change, which Miss Fisher's friend said might be profitably known to many others.

HEART AND STOMACH TROUBLE CURED.

Mrs. James W. Heaslip, Wellandport, Ont., says:—"For five years I have suffered from organic disease of the heart and neuralgia of the stomach. In the spring of 1896 I was attacked with typhoid fever, and after the doctor succeeded in breaking it up I still remained so weak that I did not believe I would survive long. Through the persuasion of my brother I began the use of Dr. Williams' Pink Pills about the first of June, 1896, and now, after using them for a couple of months, I can state with pleasure that I feel like a new person, and for the first time in two years I can attend to my household duties, and feel well and strong. I have gained in weight fully twenty pounds since I began the use of the pills, and I have every reason to feel jubilant for the remarkable restoration they have worked in me."

A WEAK HEART.

Mr. Joseph Bectad, Martintown, Ont., says:—"About thirteen years ago I suffered from an attack of inflammatory rheumatism, which left me with a very weak heart. I doctored now and then, but did not appear to get any relief. About two years ago I was advised to try Dr. Williams' Pink Pills, and after using them for some time I felt better than I had done for years. I have had no return of the trouble, and feel safe in saying that my cure is permanent, and I can heartily recommend this great medicine to those who are similarly suffering."

A MINISTER'S ADVICE.

Rev. John Perry, Baptist minister, Wickham, Ont., writes:—"I have much pleasure in recommending your valuable medicine. I was troubled with indigestion for more than twenty years, and at times suffered much. I tried many medicines during that time, and found no cure until I began using Dr. Williams' Pink Pills. They have not only fully restored my health, but have made me feel ten years younger. I therefore advise their use to all who are run down in health, or feel old age coming on. I am now seventy-six years of age and have been preaching for fifty-four years."

A KINGSTON MERCHANT.

Afflicted with Rheumatism for Upwards of Ten Years and Many Remedies were Tried in Vain—Dr. Williams' Pink Pills Effected His Release.

From the Freeman, Kingston, Ont.

Fifteen years ago Mr. Alexander O'Brien, the popular Princess street tailor, was one of the most athletic young men in Kingston, both as a foot racer and otherwise. Eleven years ago he commenced business, and shortly afterwards was stricken with rheumatism, which caused him much pain, loss of rest, and neglect of business. He states that he tried many doctors and many medicines, all to no avail. Over a year ago a friend advised him to try Dr. Williams' Pink Pills, and though he had but little confidence in them, or advertised medicine of any description, at the urgent request of his friend he decided to give the pills a trial, and according to Mr. O'Brien it was a lucky venture. After the first box had been taken, customers noticed the change, and when three boxes had been finished the result was marvellous. His strength had returned, impoverished blood renewed, muscles developed, rheumatism almost disappeared, barring a slight stiffness in knee joints, which is gradually going, and in the last six months he has done more work in his tailoring establishment than he had accomplished in the previous four years. A Freeman representative noticing the change in Mr. O'Brien's condition, asked him to what he attributed his apparent good health after such a long siege of illness. Without hesitation he replied, "Well, I have taken no medicine in the past year other than Dr. Williams' Pink Pills, therefore I attribute my present condition solely to their use. They had such a good effect in driving rheumatism out of my system and building up my shattered constitution, that my wife, whose health was not any too good, also tried the pills. A few boxes remedied her illness, and she, too, is as loud in her praise of them as I am. Many of my customers and friends who witnessed the effect of the pills on my constitution commenced to use them, and they relate the same story as I have told you. I am as well now as ever I was in my life."

on my constitution commenced to use them, and they relate the same story as I have told you. I am as well now as ever I was in my life."

EXPOSURE BROUGHT ON RHEUMATISM

Nervousness and Stomach Troubles Followed—Sleep at times was Impossible—Health Again Restored.

From the Amherst, N.S., Sentinel.

The little village of Petitcodiac is situated in the south-easterly part of New Brunswick, on the line of the Intercolonial Railway. Mr. Herbert Yeomans, who resides there, follows the occupation of a hunter and trapper. His occupation requires him to endure a great deal of exposure and hardship, more especially when the snow lies thick and deep on the ground in our cold winters.

A few years ago Mr. Yeomans tells our correspondent that he was seized with a severe bilious attack and a complication of diseases, such as sour stomach, sick headache and rheumatism. Mr. Yeomans' version of the facts are:—"I became very ill and suffered the most excruciating pains in my arms, legs and shoulders, so much so that I could not rest in any position. I frequently could not sleep nights, and when I did I awoke with a tired feeling and very much depressed. My appetite was very poor, and if I ate anything at all, no matter how light the food was, it gave me a dull, heavy feeling in my stomach, which would be followed by vomiting. I suffered so intensely with pains in my arms and shoulders that I could scarcely raise my hands to my head. I tried different remedies, but all to no purpose. A neighbor came in one evening and asked, "have you tried Dr. Williams' Pink Pills?" I had not, but then determined to try them, and procured a box, and before the pills were all gone, I began to improve. This encouraged me to purchase more and in a few weeks the pains in my shoulders and arms were all gone and I was able to get a good night's rest. My appetite came back and the dull, listless feeling left me. I could eat a hearty meal and have no bad after-effects, and I felt strong and well enough, as though I had taken a new lease of life. My old occupation became a pleasure to me and I think nothing of tramping eighteen or twenty miles a day. I know from experience and I fully appreciate the wonderful results of Dr. Williams' Pink Pills."

YEARS OF PAIN AND SUFFERING.

Doctors Utterly Failed to Help Her, and Morphine was Continually Resorted to—Became so Weak She Could Scarcely Perform Her Household Duties.

From the Beaver, Napanee.

Mr. and Mrs. Robt. Stone have been residents of the township of Ernestown, about ten miles east of Napanee, for a period of about three years, and in that time have gained the esteem of all their neighbors. For six years previous to this time they had lived in Glenwood Springs, Colorado, and it was during their residence there that Mrs. Stone was attacked with an illness that made her life miserable for years. To a reporter, who recently interviewed her, she told the following story:—"During the early part of our residence in Colorado, my illness first came on. At the outset, every two or three weeks I would be attacked

with a pain in my stomach. Later on it greatly increased in severity, and at times was so bad that I would scream aloud with the pain. A doctor was called in, but the only benefit I ever received from his treatment was through the injection of morphine into my arm, as a result of which the pain would gradually pass away. The medicine which was given me, however, had not the slightest effect, and the doctor appeared to be greatly perplexed, and thereafter continually resorted to injections of morphine whenever the attacks came on. These attacks continued at intervals until our return to Canada, when they increased in frequency and intensity. The result was that I grew very weak, and my whole system appeared to be giving out. My complexion turned a yellowish hue, and I had little or no appetite. Latterly I would be attacked with fainting spells, preceded by attacks of dizziness. I became utterly unable to stand fatigue, and could with the greatest difficulty perform my household duties. A doctor was called in, who treated me for some time without benefitting me any. Then he gave me what I now know to be Dr. Williams' Pink Pills, and after I had used two boxes I felt somewhat better. I then purchased the pills myself, and continued the treatment. I found that the pain was gradually decreasing. I could get rest and sleep at night, which had hitherto been almost impossible. I continued using Dr. Williams' Pink Pills for several months, and the result is that they have effected a complete cure, and I am now enjoying the best of health. I can assure you it is a great relief to be free from the trouble that made my life miserable for so many years, and I have to thank Dr. Williams' Pink Pills for succeeding when doctors had failed."

NERVOUS AND RUN DOWN—CURED.

Mrs. C. Roblin, of Kingsville, Ont., says:—"I have derived much benefit from the use of Dr. Williams' Pink Pills. My nervous system was completely run down, and the nerves of my eyes were so much affected that I could scarcely see, and I had to go to an oculist and have glasses made to order so I could walk about. I tried many kinds of medicine without any beneficial effect whatever. One day a little book advertising Dr. Williams' Pink Pills was left at my house, and after reading it I determined to try this medicine, and to my surprise I began to feel better before I had finished the first box. I have used three boxes and find my nervous system as strong as ever it was, and my eyesight has improved to such an extent that I go around half the time without using my glasses."

SEVERE RHEUMATIC PAINS—CURED.

Mr. Oliver Ireland, a farmer living in West Garafraxa township, Wellington county, says:—"In the fall of 1894, one damp afternoon, I was engaged for almost three hours setting out strawberry plants. Of course I felt uncomfortable, but I was so intent on transplanting that I did not desist until I had done the work. In a few days I began to feel the painful effects in my joints, and realized that I was suffering from a severe attack of rheumatism. At first I thought the attack would pass away, and did not take any medicine. But instead of passing away the pain grew worse. I applied to a doctor, and took his treatment for some time, but got no relief. When spring came I was unable to do any farm work, and in my circumstances were anything but enviable. When my case was about as bad as it could be I began the use of Dr. Williams' Pink Pills. My malady was a stubborn one, and I had used nearly six boxes before I began to find relief, but the Pink Pills did their work, and I am to-day a well man, with no trace of my former trouble. I freely permit the publication of this letter, for the good it may do some other sufferer."

Rev. David Forbes, whose missionary work in Algoma has been productive of much good, writes:—"Mrs. McPhail, who resides at Marksville, wishes me to thank you for the great benefit her daughter has derived from the use of Dr. Williams' Pink Pills. For some months she was very much run down, and looked like death, but as a result of using the pills she is better and stronger than she has been all her life. I have often recommended Dr. Williams' Pink Pills while on my mission visitations, and can attest the good effects which follow their use."

Early Decay.

This is a man's disorder. Loss of manly strength; the energy and desires of manhood deficient; you are languid and lack spirit. A dull pain hangs about the small of the back—the knees are weak, perhaps, and tremulous. You have tried to get mentally and physically stronger, but lost hope. There is no occasion to despair. Dr. Williams' Pink Pills give just the kind of strength needed. They strengthen the back, improve the appetite, enrich the blood, and give tone to the system.

DR. WILLIAMS' PINK PILLS FOR MEN YOUNG AND OLD.

Every man who finds his mental faculties dull and failing, or his physical powers flagging, whether from overwork or worry, or as the result of early indiscretions or excesses, should promptly take Dr. Williams' Pink Pills. They will restore his lost energies, both physical and mental, build up

the blood, restore the shattered nervous system, and ward off insanity—the too frequent outcome of excesses.

YOUNG MAN

You are committing suicide, or fitting yourself for a place in an insane asylum. You are indulging in habits which, if persisted in, will cause premature decay and death. The result of your evil practice is a broken constitution. You are suffering from Nervous Debility, Loss of Power, Failing Memory, Weak Eyes, Self-distrust, Lack of Energy, Aversion to Society, Stunted Development, Palpitation, Dizziness, Loss of Appetite, Indigestion, Impoverished Blood, Pimples, etc. Your ambition and hope are gone. Be warned in time. See to it that

the evil habits are stopped at once, and the Springs of Life restored by the only SAFE and SURE Blood Builder and Restorative, Dr. Williams' Pink Pills for Pale People. We have many testimonials which tell of the efficiency of these Pills in the treatment of excesses and evil habits. Such correspondence is private and we are not permitted to use the names, but we may briefly summarize a few of the letters received:—

Mr. A.—P—Pain in back and loins. General weakness. Melancholy. Losses at night. Doctoring for over a year without benefit. The Pills cured him in two months.

W. J. B. writes:—"Have suffered for years from the results of early indiscretions and have tried many remedies, but got no relief until I took your Dr. Williams' Pink Pills, used six boxes, and am perfectly restored. Would recommend them to similar sufferers."

D. J. G. writes:—"My constitution was completely shattered from overwork aggravated by early excesses. Doctored for several years in vain. Finally took your Pink Pills, and after using them for three months, all traces of my troubles have disappeared. Dr. Williams' Pink Pills are a blessing to humanity."

W. P. writes:—"I believe I was on the verge of insanity or the grave. My troubles were the result of foolish, suicidal habits which grew upon me. A friend who knew my condition, and knew that I had used other remedies in vain, advised me to try Dr. Williams' Pink Pills. I did so, and experienced relief from the first box, and after six months' faithful treatment I am fully restored and a man again. I most earnestly advise those who are in a condition similar to what mine was to use Dr. Williams' Pink Pills."

NERVOUS HEADACHE AND RHEUMATISM.

Mr. Thos. Scott, a successful farmer who lives on the second concession of Delaware township, Middlesex Co., Ont., says:—"I have always been a skeptic as regards the virtue of advertised medicines, and when a friend advised me to try Dr. Williams' Pink Pills for nervous headache and rheumatism, I looked upon the suggestion as a joke. I had suffered for years from nervous headaches, and when you add to that affliction chronic rheumatism you can have no idea how I felt, unless you have suffered similarly. Doctors did not appear to help me, and at last in sheer desperation I began taking Dr. Williams' Pink Pills. After I had taken ten boxes I felt as good as new. My headaches have disappeared, and my rheumatism has been gone for a year. I am now convinced that Dr. Williams' Pink Pills are all that is claimed for them, and they have my hearty endorsement."

You Have Catarrh

If You are
Suffering from
Any of the Follow-
ing Symptoms:

Does your voice have a husky, thick sound and nasal sort of twang?

Is your breath frequently offensive from some unaccountable cause?

Have you a dull, oppressive headache, generally located over the eyes?

Do you have to hawk and cough frequently in the effort to clear your throat?

Are you losing your sense of smell, and is your sense of taste becoming dull?

Does your nose always feel stopped up, forcing you to breathe through your mouth?

Do you frequently feel dizzy, particularly when stooping to pick anything off the floor?

Are you annoyed by a constant desire to hawk and spit out an endless quantity of phlegm?

NASAL BALM
CURES**

NASAL BALM

A POSITIVE CURE FOR
COLD IN THE HEAD AND CATARRH

AS an almost instant relief for cold in the head, and a positive cure for Catarrh, no other remedy can take the place of Nasal Balm. It is speedy in its effect, soothing, cleansing and healing, and at the first symptoms of cold in the head—always a forerunner of Nasal Catarrh—Nasal Balm should be at once applied, and all traces of this disagreeable malady will soon pass away. Where Catarrh has become seated, there is a great danger that it will develop into consumption, and treatment should be persisted in until all the symptoms have passed away. Among the evils which attend Catarrh are constant hawking and spitting, loss of senses of taste and smell, partial and sometimes entire deafness, dizziness, dull, heavy headaches, and offensive breath. A faithful use of Nasal Balm, according to the directions, will soon effect a thorough cure.

That Nasal Balm is all we claim for it is conclusively proved by the following testimonials from well-known people:

James Smart, Esq., Sheriff of the United Counties of Leeds and Grenville, says: "It would be impossible to speak too extravagantly of the wonderful curative properties of Nasal Balm. I suffered for upwards of a month from a severe cold in the head, which, despite the use of other remedies, was becoming worse and developing into Catarrh. I procured a bottle of Nasal Balm, and was relieved from the first application, and thoroughly cured within twenty-four hours. I cheerfully add my testimony to the value of Nasal Balm."

Captain D. H. Lyon, manager and proprietor of the C.P.R. and R.W. & O. R. Car Ferry, Prescott, Ont., and Ogdensburg, N. Y., says: "I used Nasal Balm for a prolonged case of cold in the head. Two applications effected a complete and thorough cure in less than twenty-four hours. I would not take \$100 for my bottle of Nasal Balm if I could not replace it."

Mrs. Kennedy, Clover Hill, says: "I have much pleasure in saying that your Nasal Balm has done more good for my little girl than any remedy I have ever used. I believe Nasal Balm to be unequalled for Catarrh."

Mrs. R. A. Harrison, Dunnville, Ont., says: "I used your Nasal Balm in my own family, and find it by far the best remedy we can get. When baby gets cold we rub his forehead and nose well at night, and in the morning he is all right."

Mr. P. J. O'Hara, American House, Sherbrooke, Que., says: "Having used your Nasal Balm, and having derived the greatest benefit from it, I consider it my duty to make known to the public its great worth. I have been a sufferer from Catarrh for several years, and have tried a number of so-called Catarrh cures, but without any benefit. I then gave Nasal Balm a trial, and one bottle has completely cured me. You are at liberty to publish this, and I think it will be the means of helping other sufferers."

Rev. W. B. Turner, Margaree, C. B., writes: "It gives me great pleasure to testify to the value of Nasal Balm as a cure for Catarrh. Some time ago I was suffering from this loathsome disease, but after using two small bottles of Nasal Balm I felt completely cured. I had before this tried three remedies, but they were of no help to me."

Isaac Waterman, of the Imperial Oil Co., Petrolia, Ont., says: "Nasal Balm gave me the most perfect satisfaction of any medicine I have ever used for cold in the head. I found it easy to use, quick in giving relief, and effected a complete cure in a few hours."

Sold by all dealers, or sent postpaid at 50c. for small size, or \$1.00 for large size, by addressing

HANSON'S Magic Corn Salve.

A Certain, Safe and Painless Remedy for the
Removal of Corns.

The directions say

*"The Salve is to be applied just before
retiring."*

And that

*"On arising, if the foot be soaked in warm
water, the corn may easily be removed."*

There are hundreds of preparations for Corns, some that will relieve for a time, others that in ninety-nine cases out of a thousand are utterly worthless. Persons have been known to spend from \$1 to \$25 with corn specialties and not receive permanent relief. Temporary relief from a corn seems good, but what has been looked for is something that would TAKE THEM OUT, ROOT, SEED AND BRANCH, "never to come again." Hanson's Magic Corn Salve will do it every time, in from two to four days, without causing any pain, discomfort or injury to the tenderest foot. Having the largest patronage of any corn medicine in the world, with the least advertising, is the best proof of this. Sold everywhere at 15 and 25 cents per box, or sent postpaid by addressing

HOBART, Tasmania
PERTH, West Australia
ST. JOHN'S, Newfoundland
KINGSTON, Jamaica
HAVANA, Cuba
GEORGETOWN, British Guiana
ALGIERS, Algeria

HONEST ADVICE FREE OF CHARGE.

In further evidence of our absolute good faith, we invite persons interested to write to us concerning their own ailments, when we will candidly reply to their questions and tell them whether Dr. Williams' Pink Pills have cured similar cases. It must be understood that we do not examine or prescribe for people; we simply tell you what Dr. Williams' Pink Pills have done in the past in particular disorders; but we promise to be perfectly frank in the matter, and if they are not suitable we will not only tell you so, but we also back up our opinion by refusing, even if asked, to supply the Pills. We do not sell Pills in cases that we do not think they will cure. This is not the way of a quack. Our reputation is built up on the fact that we are perfectly candid and straightforward, and this is the reason why so many well educated persons and clergymen of all denominations so constantly befriend us.

A WORD OF... CAUTION

needs to be added. A few unscrupulous tradesmen—their cupidity excited by the great reputation of Dr. Williams' Pink Pills—make up, or buy in the wholesale market ready made, some cheap pills, colored pink, which will sell as "Pink Pills," and offer them as a substitute for Dr. Williams' Pink Pills. Such pills are a fraud. They are frequently offered at a price which makes the fact self-evident. The recipe for Dr. Williams' Pink Pills is known only to the Dr. Williams' Medicine Co. All substitutes are therefore useless. To be sure of having none but the genuine Pills, purchasers should not ask for Pink Pills, but for Dr. Williams' Pink Pills for Pale People, and see that they are put up in a package similar to the illustration on the outside back cover of this pamphlet, the wrapper around which is printed with red ink on white paper. Inside the wrapper are Dr. Williams' directions for use. Pay no attention to any dealer who claims to have "the same thing under another name," or something else "just as good." In case of doubt it is better to write (enclosing price, 50 cents for one box, or \$2.50 for six boxes) to the Dr. Williams' Medicine Co., Brockville, Ont.

FOR EXPORTATION TO HOT AND DAMP CLIMATES THESE PILLS ARE PUT UP IN SEALED GLASS BOTTLES.
