Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur

						✓					

The copy filmed here has been reproduced thanks to the generosity of:

Medical Library
McGill University
Montreal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Medical Library
McGill University
Montreal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PACKER'S ALL-HEALING TAR SOAP

This Soap is confidently offered to the medical profession and the public as being a detergent which, from the nature of its composition, possesses UNDOUBTED HEALING QUALITIES.

It is a preparation of useful VEGETABLE OILS AND REFINED PINE TAR SAPONIFIED, in combination with CHEMICALLY PURE GLYCERINE. We thus produce a detergent absolutely free from the valid objections frequently discoverable in soaps compounded from animal fats, which HAVE BEEN KNOWN to be POSITIVELY INJURIOUS TO THE SKIN.

This soap has already been used in many public institutions; as Nurseries, Infant Asylums, Hospitals, Dispensaries, etc. and abundant evidence, from them and from private physicians, can be given those desiring it, which will bear out all that is claimed for the remedial excellence of PACKER'S TAR SOAP.

In the treatment of

DISEASES OF THE SKIN

this soap is of especial service: first, because while other soaps, if used, may and probably will exercise some injurious effect, this is the *least irritating of all soaps*; and second, because by virtue of its TAR and GLYCERINE, of which it contains a very large percentage.

SURGEONS find it the best soap for cleansing wounds, ulcers, etc., and for antiseptic and deodorizing purposes.

LONDON MFG COMPANY.

LONDON MFG CO.'S ESSENCES OF MEATS

FOR INVALIDS, INFANTS AND TRAVELERS.

ESSENCE OF BEEF, MUTTON, CHICKEN.

These Essences are the finest juices from choice meats, entirely free from fatty or injurious matter. They retain the fine flavor and smell of the meats. Are heavy liquids in a warm temperature and when placed upon Ice take a jelly form especially grateful to invalids. Children will readily take them, and in many of their complaints Essences are unequalled. Being used WITHOUT WATER, they do not cause nausea as does Beef Tea, and they will remain upon the stomach when all other nourishment is rejected. In mental or physical prostration they act as strong stimulants, without the subsequent injurious effects produced by alcohol. In Dyspepsia and all Chronic Diseases of the Stomach, they are easily assimilated and are helpful in Consumption and other wasting diseases. Natural, pleasant and refreshing in fevers. Afford concentrated meat stimulant after child-birth. Are convenient for persons boarding or traveling.

Taken cold direct from the can, needing no preparation whatever.

Sold by Druggists and Fine Grocers.

P R E F A C E .

IN compiling the present issue of the "Index," the importance of correctness was fully realized, and in its preparation the utmost care was exercised accordingly. Owing, however, to the great difficulty experienced in obtaining complete files of the medical journals, dependence, of necessity, was placed to a considerable extent upon the work of disinterested parties.

If errors have crept in through this cause, it should not be attributed to carelessness.

Complete files of American, Canadian, and the leading British journals are already in hand, from which the "Index" for 1878 is being compiled under the personal supervision of

THE AUTHOR.

“INDEX FOR 1878.”

The “INDEX” for 1878 is now in active preparation, and will be issued about the 1st of March, 1879.

To the *American* and *Canadian* list will be added the leading Journals of *Great Britain* and *Ireland*.

In the Author Classification, the *Address* as well as the *Name*, will be given, thus making a *Complete Register* of the Contributors for the current year.

The price will remain unchanged—viz: *One Dollar*.

PHYSICIAN'S MEDICAL COMPEND:—a pocket companion and memory prompter, invaluable to every Physician.

MAILED UPON RECEIPT OF THE PRICE, **\$1.00.**

TO SURGEONS AND GYNECOLOGISTS.

ABSORBENT COTTON.

• We offer to *Physicians and Surgeons a prepared cotton*, which will prove a valuable adjunct in practice—a *cheap, clean, and ready* mode of making all kinds of local applications, and a *substitute for sponge*; a rapid and effective desiccant, having such an affinity for moisture that it instantly and greedily absorbs any secretion with which it may be brought into contact. *Surgeons and Gynecologists* will at once appreciate the advantage possessed by this article over ordinary raw cotton, which is a repellent of moisture rather than an absorbent.

It is *absolutely pure*, free from any reaction and from any foreign matter.

As a *padding for splints*, etc., it facilitates the normal secretions of the skin, while retaining all the elasticity of the ordinary cotton.

MAILED UPON RECEIPT OF PRICE, 25 CTS. PER PACKAGE, OR \$1.00 FOR FIVE PACKAGES.

Bellevue Hospital Medical College,

CITY OF NEW YORK.

MEMBER OF THE AMERICAN MEDICAL COLLEGE ASSOCIATION.

SESSIONS OF 1878-79

THE COLLEGIATE YEAR in this Institution embraces a Preliminary Autumnal Term, the Regular Winter Session, and a Spring Session.

THE PRELIMINARY AUTUMNAL TERM for 1878-1879 will open on Wednesday, September 18, 1878, and continue until the opening of the Regular Session. During this term, instruction, consisting of didactic lectures upon special subjects, and daily clinical lectures, will be given, as heretofore, by the entire Faculty. Students expecting to attend the Regular Session are strongly recommended to attend the Preliminary Term, but attendance during the latter is not required. *During the Preliminary Term, clinical and didactic lectures will be given in precisely the same number and order as in the Regular Session.*

THE REGULAR SESSION will begin on Wednesday, October 2, 1878, and end about the 1st of March, 1879.

FACULTY.

ISAAC E. TAYLOR, M.D., Emeritus Professor of Obstetrics and Diseases of Women, and President of the Faculty.

JAMES R. WOOD, M.D., LL.D., Emeritus Professor of Surgery.

FORDYCE BARKER, M.D., Professor of Clinical Midwifery and Diseases of Women.

AUSTIN FLINT, M.D., Professor of the Principles and Practice of Medicine, and Clinical Medicine.
W. H. VAN BUREN, M.D., Professor of Principles and Practice of Surgery, Diseases of Genito-Urinary System and Clinical Surgery.

LEWIS A. SAYRE, M.D., Professor of Orthopedic Surgery and Clinical Surgery.

ALEXANDER B. MOTT, M.D., Professor of Clinical and Operative Surgery.

WILLIAM T. LUSK, M.D., Professor of Obstetrics and Diseases of Women and Children, and Clinical Midwifery.

WILLIAM M. POLK, M.D., Professor of Maternal Medicine and Therapeutics, and Clinical Medicine.
AUSTIN FLINT, JR., M.D., Professor of Physiology and Physiological Anatomy, and Secretary of the Faculty.

JOSEPH D. BRYANT, M.D., Professor of General, Descriptive and Surgical Anatomy.

R. OGDEN DOREMUS, M.D., LL.D., Professor of Chemistry and Toxicology.

EDWARD G. JANEWAY, M.D., Professor of Pathological Anatomy and Histology, Diseases of the Nervous System, and Clinical Medicine.

PROFESSORS OF SPECIAL DEPARTMENTS, Etc.

HENRY D. NOYES, M.D., Professor of Ophthalmology and Otolary.

JOHN P. GRAY, M.D., LL.D., Professor of Psychological Medicine and Medical Jurisprudence.

ERSKINE MASON, M.D., Clinical Professor of Surgery.

EDWARD L. KEYES, M.D., Professor of Dermatology, and Adjunct to the Chair of Principles of Surgery.

J. LEWIS SMITH, M.D., Clinical Professor of Diseases of Children.

LEROY MILTON YALE, M.D., Lecturer Adjunct upon Orthopedic Surgery.

A distinctive feature of the method of instruction in this College is the union of clinical and didactic teaching. All the lectures are given within the Hospital grounds. During the Regular Winter Session, in addition to four didactic lectures on every week day, except Saturday, two or three hours are daily allotted to clinical instruction.

The Spring Session consists chiefly of Recitations from Text-Books. This term continues from the first of March until the first of June. During this Session daily recitations in all the Departments are held by a corps of examiners appointed by the Faculty. Regular clinics are also given in the Hospital and in the College Building.

FEES FOR THE REGULAR SESSION.

Fees for tickets to all the lectures during the Preliminary and Regular Term, including clinical lectures.....	\$140 00
Matriculation fee.....	5 00
Demonstrator's ticket (including material for dissection).....	10 00
Graduation fee.....	30 00

FEES FOR THE SPRING SESSION.

Matriculation (ticket good for the following Winter).....	\$5 00
Recitations, Clinics, and Lectures.....	35 00
Dissection (ticket good for the following Winter).....	10 00

Students who have attended two full Winter courses of lectures, may be examined at the end of their second course upon *Materia Medica, Physiology, Anatomy and Chemistry*, and, if successful, they will be examined at the end of their third course upon *Practice of Medicine, Surgery, and Obstetrics* only.

For the Annual Circular and Catalogue, giving Regulations for graduation and other information, address

PROF. AUSTIN FLINT, JR.,

Secretary, Bellevue Hospital Medical College.

COLLEGE OF PHYSICIANS & SURGEONS

(Medical Department of Columbia College.)

Cor. of Fourth Avenue and 23d St., New York City.

SEVENTY-SECOND SESSION, 1878-79.

FACULTY OF MEDICINE.

ALONZO CLARK, M. D., President, and Professor of Pathology and Practical Medicine.	FRANCIS DELAFIELD, M. D., Adjunct Professor of Pathology and Practical Medicine.
WILLARD PARKER, M. D., Professor of Clinical Surgery.	JOHN G. CURTIS, M. D., Adjunct Professor of Physiology and Hygiene; Secretary of the Faculty.
JOHN C. DALTON, M. D., Professor of Physiology and Hygiene.	WM. DETMOLD, M. D., Emeritus Professor of Military and Clinical Surgery.
THOMAS M. MÄRKOE, M. D., Professor of Surgery.	WILLIAM H. DRAPER, M. D., Clinical Professor of Diseases of the Skin.
T. GAILLARD THOMAS, M. D., Professor of Obstetrics and the Diseases of Women and Children.	CORNELIUS R. AGNEW, M. D., Clinical Professor of Diseases of the Eye and Ear.
JOHN T. METCALFE, M. D., Emeritus Professor of Clinical Medicine.	ABRAHAM JACOBI, M. D., Clinical Professor of Diseases of Children.
HENRY B. SANDS, M. D., Professor of Anatomy.	FESSENDEN N. OTIS, M. D., Clinical Professor of Venereal Diseases.
JAMES W. McLANE, M. D., Adjunct Professor of Obstetrics and the Diseases of Women and Children.	EDWARD C. SEGUIN, M. D., Clinical Professor of Diseases of the Mind and Nervous System.
THOMAS T. SABINE, M. D., Adjunct Professor of Anatomy.	GEO. M. LEFFERTS, M. D., Clinical Professor of Laryngoscopy and Diseases of the Throat.
CHARLES F. CHANDLER, Ph. D., Professor of Chemistry and Medical Jurisprudence.	CHAS. MCBURNEY, M. D., Demonstrator of Anatomy.
EDWARD CURTIS, M. D., Professor of Materia Medica and Therapeutics.	CHAS. KELSEY, M. D., Ass't Demonstrator of Anatomy.

FACULTY OF THE SPRING SESSION.

JAMES L. LITTLE, M. D., Lecturer on Operative Surgery and Surgical Dressings.	MATTHEW D. MANN, M. D., Lecturer on Clinical Microscopy.
GEORGE G. WHELOCK, M. D., Lecturer on Physical Diagnosis.	H. KNAPP, M. D., Lecturer on Diseases of the Eye and Ear.
ROBERT F. WEIR, M. D., Lecturer on Diseases of the Genito-Urinary Organs.	T. A. MCBRIDE, M. D., Lecturer on Symptomatology.

The COLLEGIATE YEAR embraces a special *Spring* and a regular *Winter* Session, attendance at the latter only being required for the graduating course. The *Spring* Session begins near the middle of March, and continues till June 1st. The *Regular Winter Session* for 1878-79 begins October 1st, and continues till March.

TUITION is by the following methods:—

I. DIDACTIC LECTURES.—During the *Winter Session*, from five to six lectures are given daily by the Faculty. Attendance obligatory. During the *Spring Session*, two lectures are given daily by the Faculty of the Spring Session. Attendance optional.

II. CLINICAL TEACHING.—Ten clinics, covering all departments of medicine and surgery, are held weekly throughout the entire year in the College Building. In addition, the Faculty give daily clinics at the larger City Hospitals and Dispensaries (such as the Bellevue, Charity, New York, and Roosevelt Hospitals, the New York Eye and Ear Infirmary, &c.), as a regular feature of the college curriculum. Attendance optional.

III. RECITATIONS are held daily throughout both sessions. Attendance optional.

IV. PERSONAL INSTRUCTION.—Cases of *Obstetrics* are furnished without charge. Personal instruction is given in *Practical Anatomy*, *Operative Surgery*, *Minor Surgery*, *Physical Diagnosis*, *Ophthalmology*, *Otology*, and *Laryngoscopy*. Attendance optional, except upon *Practical Anatomy*.

EXPENSES.—The necessary expenses are a yearly matriculation-fee (\$5, good for a collegiate year), the fees for the lectures of the *Winter Session* (\$20 for the course on each branch, or \$140 for the entire curriculum), the *Practical Anatomy* fee (\$10, and a small charge for material), and a *Graduation Fee* of \$30. The graduating course requires three years' study, attendance upon two full winter courses of lectures, and upon one course of *Practical Anatomy*. Remissions and reductions of lecture-fees are made to graduates and students who have already attended two full courses. All fees are payable in advance. Board can be had for from \$6 to \$9 a week, and the Clerk of the College will aid students in obtaining it.

For the Annual Catalogue and Announcement, or for further information, address JOHN G. CURTIS, M. D., Secretary of the Faculty, College of Physicians and Surgeons, corner of Twenty-Third Street and Fourth Avenue, New York.

UNIVERSITY OF VERMONT.

MEDICAL DEPARTMENT,

BURLINGTON, VT.

TWENTY-SIXTH SESSION, 1879.

FACULTY OF MEDICINE.

- MATTHEW HENRY BUCKHAM, A.M., D.D., Burlington, Vt., President.
- SAMUEL WHITE THAYER, M.D., LL.D., Burlington, Vt., Emeritus Professor of General and Special Anatomy; Consulting Surgeon to Mary Fletcher Hospital.
- WALTER CARPENTER, M.D., Burlington, Vt., Professor of the Theory and Practice of Medicine; Physician-in-Chief to Mary Fletcher Hospital.
- JOHN ORDRONAUX, M.D., LL.D., New York City, Emeritus Professor of Medical Jurisprudence.
- WILLIAM DARLING, A.M., M.D., F.R.C.S., New York City, Professor of General and Special Anatomy.
- A. F. A. KING, M.D., Washington, D. C., Professor of Obstetrics and Diseases of Women; Consulting Physician to Mary Fletcher Hospital.
- HENRY D. HOLTON, M.D., Brattleboro, Vt., Professor of Materia Medica and General Pathology; Consulting Surgeon to Mary Fletcher Hospital.
- JAMES L. LITTLE, M.D., New York City, Professor of the Principles and Practice of Surgery; Surgeon-in-Chief to Mary Fletcher Hospital.
- A. P. GRINNELL, M.D., Burlington, Vt., Professor of Physiology and Microscopic Anatomy; Attending Physician to Mary Fletcher Hospital.
- RUDOLPH A. WITTHAUS, M.D., New York City, Professor of Chemistry and Toxicology.

PROFESSORS OF SPECIAL SUBJECTS.

- WILLIAM H. HAMMOND, M.D., New York City, Professor of Diseases of the Mind and Nervous System.
- ROBERT W. TAYLOR, M.D., New York City, Professor of Diseases of the Skin.
- A. T. WOODWARD, M.D., Brandon, Vt., Professor of the Surgical Diseases of Women; Consulting Physician to Mary Fletcher Hospital.
- D. B. St. JOHN ROOSA, M.D., New York City, Professor of Diseases of the Eye and Ear.
- STEPHEN M. ROBERTS, M.D., New York City, Professor of Diseases of Children.
- GEORGE M. GARLAND, M.D., Boston, Mass., Professor of Thoracic Diseases.
- LEROY M. BINGHAM, M.D., Burlington, Vt., Demonstrator of Anatomy; Attending Physician to Mary Fletcher Hospital.

HOSPITAL ADVANTAGE.—The Mary Fletcher Hospital, with its commodious amphitheatre, will be open for clinical instruction during the session. The Medical and Surgical clinics of the College will be held in the amphitheatre attached to the Hospital. In addition to these regular clinics of the College, instruction will be given at the bedside by the Professors of the Medical Department of the University.

LECTURES ON SPECIAL SUBJECTS.—These lectures by gentlemen well known as recognized authorities in their particular departments, will be delivered during the regular session.

CLINQUES.—Besides these Lectures, there will be Cliniques held as follows:

- SURGICAL CLINIQUE,** by Prof. Little, every Saturday, from 9 to 12, during the last half of the Session.
- MEDICAL CLINIQUE,** by Prof. Carpenter, on Wednesday morning, during first half of the term.
- CLINIQUE FOR DISEASES OF NERVOUS SYSTEM,** by Prof. Hammond, during his course.
- CLINIQUE FOR DISEASES OF EYE AND EAR,** by Prof. Roosa, during his course of Lectures.
- CLINIQUE FOR DISEASES OF SKIN,** by Prof. Taylor, during his course.
- CLINIQUE FOR DISEASES OF CHILDREN,** by Prof. Roberts.
- CLINIQUE FOR THORACIC DISEASES,** by Prof. George M. Garland, M.D.

THE PRELIMINARY TERM, consisting of a course of Lectures and Recitations in the various branches of Medicine and Surgery, will begin on the first Thursday of November, 1878, and continue until March 1st, 1879. Fee, \$30.

THE REGULAR WINTER SESSION will commence on the first Thursday of March, 1879, and continue sixteen weeks. This course will consist of from five to six Lectures daily, in the various Departments of Medicine and Surgery.

FEES FOR THE REGULAR SESSION.

Matriculation Fee, Payable each Term.....	\$5 00
Fees for the full Course of Lectures by the Professors.....	70 00
Graduation Fee.....	25 00

Material for dissection will be furnished at cost.

The tickets are to be taken out at the beginning of the Session.

Students who have already attended two full courses of lectures in their regular schools, are admitted on paying the Matriculation fee and \$25.

Students who have attended two full courses in this College, or who, having attended one full course in some regularly established medical school, and one full course in this College, are admitted to a third course of lectures on paying the Matriculation fee only.

GRADUATES of this school are admitted without fee. GRADUATES of other regular schools, and Theological Students, are admitted on general ticket, by paying the Matriculation fee.

Good Board can be obtained at reasonable rates.

For further particulars and circular, apply to the Secretary

Prof. A. P. GRINNELL, M.D., Burlington, Vt.

Woman's Medical College

OF PENNSYLVANIA.

North College Avenue and Twenty-First Street, Philadelphia.

TWENTY-NINTH ANNUAL WINTER SESSION.

October 3, 1878, to March 13, 1879.

FACULTY AND AUXILIARY INSTRUCTORS.

EMELINE H. CLEVELAND, M. D., 1800 Mount Vernon St., Professor of Obstetrics and Diseases of Women.

MARY J. SCARLETT-DIXON, M. D., 1603 Chestnut Avenue, Professor of Anatomy.

RACHEL L. BODLEY, A. M., DEAN, 1400 North Twenty-first St., Professor of Chemistry and Toxicology.

BENJAMIN B. WILSON, M. D., 842 Franklin St., Professor of the Principles and Practice of Surgery.

CLARA MARSHALL, M. D., 1524 Brown St., Professor of Materia Medica and General Therapeutics.

J. GIBBONS HUNT, M. D., 1802 Wallace St., Professor of Microscopy and Histology.

EDWARD T. BRUEN, M. D., 1631 Chestnut St., Lecturer on Pathology.

FRANCES EMILY WHITE, M. D., 725 N. Sixteenth St., Professor of Physiology and Hygiene.

JOHN M. KEATING, M. D., 232 South Twenty-second St., Professor of the Principles and Practice of Medicine.

ALICE BENNETT, M. D., 1727 Francis St., Demonstrator of Anatomy and Instructor in Physiology.

HANNAH T. CROASDALE, M. D., 238 North Twentieth St., Instructor in Surgery.

ANNA M. McALLISTER, M. D., 24 N. Merriok St., Instructor in Obstetrics.

MARY E. ALLEN, M. D., 524 Pine St., Demonstrator of Chemistry and Instructor in Materia Medica.

AMY S. BARTON, M. D., 818 N. Eighth St., Instructor in Practice of Medicine.

THE FEES ARE AS FOLLOWS:

Matriculation Ticket, paid but once	\$ 5 00	Practical Anatomy Ticket	\$10 00
Professors' Tickets, each \$15	105 00	Graduation Fee	30 00
Two tickets only required in each branch.			
Whole cost for two or more courses of Lectures and Graduation			\$265 00

For further particulars, address the Dean,

Professor RACHEL L. BODLEY, A. M.,
 Woman's Medical College of Pennsylvania,
 North College Avenue and Twenty-first Street, Philadelphia.

LEWIS A. STIMSON, M.D.,
Professor of Pathological Anatomy.

THE COLLEGIATE YEAR is divided into three sessions: A Preliminary Session, a Regular Winter Session, and a Spring Session.

THE PRELIMINARY SESSION will commence September 18, 1878, and will continue until the opening of the Regular Winter Session. It will be conducted on the plan of that Session.

THE REGULAR WINTER SESSION will commence on the 2d of October, 1878, and end about the 1st of March, 1879.

The location of the new College edifice being immediately opposite the gate of Bellevue Hospital, and a few steps from the ferry to Charity Hospital, Blackwell's Island, the Students of the University Medical College are enabled to enjoy the advantages afforded by these Hospitals, with the least possible loss of time. The Professors of the practical Chairs are connected with the Hospitals, and the University Students are admitted to all the Clinics given therein, free of charge.

In addition to the daily Hospital Clinics, there are eight Clinics each week in the College building. Five Didactic Lectures will be given daily in the College building, and Evening Recitations will be conducted by the Professors of Chemistry, Practice, Anatomy, Materia Medica, &c., Physiology, Surgery, and Obstetrics, upon the subjects of their Lectures.

THE SPRING SESSION embraces a period of twelve weeks, beginning in the first week of March and ending the last week of May. The daily Clinics, Recitations and Special Practical Courses will be the same as in the Winter Session, and there will be Lectures on Special Subjects by the Members of the Post-Graduate Faculty.

THE DISSECTING ROOM is open throughout the entire Collegiate year; material is abundant, and it is furnished free of charge.

STUDENTS WHO HAVE STUDIED TWO YEARS may be admitted to examination in Chemistry, Anatomy and Physiology, and, if successful, will be examined at the expiration of their full course of study, on Practice, Materia Medica and Therapeutics, Surgery and Obstetrics; but those who prefer it may have all their examinations at the close of their full term.

F E E S .

FOR COURSE OF LECTURES	\$140 00
MATRICULATION	5 00
PRACTICAL ANATOMY FEE, including material for dissection	10 00
GRADUATION FEE	30 00
POST-GRADUATE CERTIFICATE	30 00

For further particulars and circulars, address the Dean,

Prof. CHAS. INSLEE PARDEE, M.D.,

University Medical College, 410 East 26th St., New York City.

Long Island College Hospital,

BROOKLYN, N. Y.

COLLEGIATE YEAR 1878-79.

The **READING AND RECITATION TERM** will commence October 1, 1878, and close at the beginning of the Regular Term.

The **REGULAR TERM** will open February 1, 1879, and continue five months.

FACULTY OF THE COLLEGE.

DANIEL AYRES, M.D., LL.D.,
Emeritus Professor of Surgical Pathology and Clinical Surgery.

SAMUEL G. ARMOR, M.D., LL.D.,
Professor of the Principles and Practice of Medicine and Clinical Medicine, and Dean of the Faculty.

GEORGE W. PLYMPTON, A.M.,
Professor of Chemistry and Toxicology.

CORYDON L. FORD, M.D.,
Professor of Anatomy.

ALEXANDER J. C. SKENE, M.D.,
Professor of the Medical and Surgical Diseases of Women, and Diseases of Children.

JARVIS S. WIGHT, M.D.,
Professor of the Principles and Practice of Surgery and Clinical Surgery, and Registrar.

JOSEPH H. RAYMOND, M.D.,
Professor of Physiology and Microscopic Anatomy.

EDWARD SEAMAN BUNKER, M.D.,
Professor of the Principles and Practice of Obstetrics, and Clinical Obstetrics.

JOHN D. RUSHMORE, M.D.,
Professor of Materia Medica and Therapeutics.

COLLEGE HOSPITAL BUILDINGS.

THE LONG ISLAND COLLEGE HOSPITAL buildings are situated on Henry street, between Pacific and Amity streets. From New York they are most conveniently reached by crossing the East River at the South Ferry.

The original HOSPITAL has been recently greatly altered and improved; a large additional building, containing the most modern improvements in ventilation, etc., has been added, and increased facilities for bedside instruction and study have been thus provided.

THE NEW DISSECTING ROOMS are well ventilated and lighted, and supplied with water, etc., and will be opened during the Sessions of Reading Term and General Course, under the care of the Demonstrator. Material will be furnished at cost.

FEES.

For Tickets to all the Lectures during the preliminary and Regular Terms.....\$140 00

FOR THE REGULAR TERM.

Full Course of Lectures.....\$100 00
Matriculation.....5 00
Demonstrator's.....5 00
Graduation.....25 00

For further information address the Dean, **PROF. S. G. ARMOR**, or the Registrar, **PROF. JARVIS S. WIGHT**.

PROSECTOR TO THE PROFESSOR OF ANATOMY.

HENRY C. CHAPMAN, M.D.,
CURATOR OF THE ANATOMICAL MUSEUM.

FEE to each Professor, \$20—in all \$140. Matriculation Fee, \$5, to be paid once only. Gradu-
ation Fee, \$30. Students who have paid for two full courses are entitled thereafter to attend
free of all charge.

Students who have attended two full courses of lectures in other accredited medical col-
leges, are entitled to the tickets of a full course in the Jefferson Medical College for \$70. Gradu-
ates of three years' standing, of other accredited medical colleges, are required to pay the
matriculation fee only; to graduates of less than three years' standing, the fee for a general
ticket is \$50. To graduates of accredited Dental Colleges and Colleges of Pharmacy, the fee for
a general ticket is \$100.

One Hundred and Fourteenth Annual Session, 1879-80.

PROFESSORS.

CHARLES J. STILLE, LL.D., Provost.
GEORGE B. WOOD, M.D., LL.D., Emeritus Professor of Theory and Practice of Medicine.
HENRY H. SMITH, M.D., Emeritus Professor of Surgery.
JOHN NELL, M.D., Emeritus Professor of Clinical Surgery.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.

RICHARD A. F. PENROSE, M.D., LL.D., Professor of Obstetrics and Diseases of Women and Children.

ALFRED STILLE, M.D., LL.D., Professor of Theory and Practice of Medicine, and Clinical Medicine.

D. HAYES AGNEW, M.D., LL.D., John Rhea Barton Professor of Surgery and Clinical Surgery.

• HORATIO C. WOOD, M.D., Professor of Materia Medica, General Therapeutics, and Pharmacy.

WILLIAM PEPPER, M.D., Professor of Clinical Medicine.

WILLIAM GOODELL, M.D., Professor of Clinical Gynecology.

JAMES TYSON, M.D., Professor of General Pathology and Morbid Anatomy.

THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry.

JOHN ASHHURST, JR., M.D., Professor of Clinical Surgery.

HARRISON ALLEN, M.D., Professor of Physiology.

WILLIAM F. NORRIS, M.D., Clinical Professor of Diseases of the Eye.

GEORGE STRAWBRIDGE, M.D., Clinical Professor of Diseases of the Ear.

HORATIO C. WOOD, M.D., Clinical Professor of Nervous Diseases.

LOUIS A. DUHRING, M.D., Clinical Professor of Diseases of the Skin.

New matriculates are required to attend three winter courses of instruction of five months each, consisting of graded didactic lectures, clinical lectures, and practical work in laboratories and hospitals.

In the graded curriculum adopted, the elementary branches are taught in the *first* course, and students are finally examined at its conclusion upon General Chemistry, Materia Medica, and Pharmacy. In the *second* term, while a sufficient repetition of unfinished branches is secured, certain more practical ones are added, and the examinations on Anatomy, Physiology, and Medical Chemistry at the end of the term are final. In the *third* course is added practical bedside instruction in Medicine, Surgery, and Gynecology, with clinical facilities in the specialties; and, at its end, students are examined on General Pathology and Morbid Anatomy, Therapeutics, Theory and Practice of Medicine, Surgery, and Obstetrics.

Students who have attended one course in a regular* medical school, will be admitted as students of the second course in the University, after having satisfactorily passed an examination in General Chemistry and Materia Medica and Pharmacy. Students who have attended two courses in a regular medical school, will be admitted as students of the third course after examination in General and Medical Chemistry, Materia Medica and Pharmacy, Anatomy, and Physiology.

Graduates of other regular medical schools in good standing will be admitted as students of the third course in this institution without any examination.

Graduates of Colleges of Pharmacy and Dental Colleges in good standing are admitted to the second course in the University without an examination.

In the *Spring Session*, beginning the first Monday in April, a valuable course on practical and scientific subjects by a large corps of professors and lecturers is given, and the laboratories of Chemistry, Pharmacy, Histology, Physiology, and Pathology are open, affording a valuable post-graduate course.

The *Lectures of the Winter Session of 1879-80 will begin on the first day of October, and end on the last day of February.*

The *Preliminary Course will begin on the first Monday in September.*

FEES, IN ADVANCE.—1st course of lectures, including matriculation and dissection, \$155. 2d course, \$150, including dissection. 3d course, including operating and bandaging, \$110. Graduation fee, \$30.

For Announcement giving full particulars, address

JAMES TYSON, M.D., SECRETARY,
P. O. Box 2838, Philadelphia.

DENTAL DEPARTMENT.

The Trustees have established a Dental Department, which is designed to make the most complete school of Dentistry in the world. The professors include those of Anatomy, Physiology, Chemistry, and Materia Medica, in the Medical Department, with CHAS. J. ESSIG, M.D., D.D.S., Prof. of Mechanical Dentistry and Metallurgy, and EDWIN T. DARRY, D.D.S., Prof. of Operative Dentistry. Two years' study, two courses of lectures, and examination at the end of the second course, are the requirements for graduation. Graduates of the Dental Department of the University may become candidates for the degree of Doctor of Medicine after attending one additional course of lectures. But students in Dentistry who desire to take the medical degree also, must notify the Secretary of the Department of Medicine of such intention before the beginning of the second course of lectures, and add to the studies of the Dental Department those of the Medical.

FEES.—Matriculation \$5. For one course of lectures \$100. Dissecting fee \$10. Graduation fee \$30. Sessions commence as those of the Medical Department. For announcement address CHAS. J. ESSIG, M.D., D.D.S., Secretary Dental Department, University of Pennsylvania.

* Homeopathic and Eclectic schools are not recognized as being in this category.

HARVARD UNIVERSITY.

MEDICAL DEPARTMENT, BOSTON, MASS.

CHARLES F. FOLSOM, M. D., }
GEORGE M. GARLAND, M. D., *Assistant in Physiology.*

HENRY P. QUINCY, M. D., *Assistant in Histology.*
EDWARD N. WHITTIER, M. D., *Assistant in Clinical Medicine.*

The following gentlemen will give Special Clinical Instruction :

FRANCIS B. GRENOUGH, M. D., and EDWARD WIGGLESWORTH, M. D., *in Syphilis.*
JOHN O. GREEN, M. D., and CLARENCE J. BLAKE, M. D., *in Oology.*
CHARLES P. PUTNAM, M. D., and JOSEPH P. OLIVER, M. D., *in Diseases of the Children.*
SAMUEL G. WEBBER, M. D., and JAMES J. PUTNAM, M. D., *in Diseases of the Nervous System.*

DIVISION OF STUDIES.

For the First Year.—Anatomy, Physiology, and General Chemistry.
For the Second Year.—Medical Chemistry, Materia Medica, Pathological Anatomy, Clinical Medicine, Surgery, and Clinical Surgery.
For the Third Year.—Therapeutics, Obstetrics, Theory and Practice of Medicine, Clinical Medicine, Surgery, and Clinical Surgery.
Students are divided into three classes, according to their time of study and proficiency. Students who began their professional studies elsewhere may be admitted to advanced standing; but all persons who apply for admission to the second or third year's class must pass an examination in the branches already pursued by the class to which they seek admission. The examinations are held in the following order:—

At the end of the first year—Anatomy, Physiology, and General Chemistry.
End of second year—Medical Chemistry, Materia Medica, and Pathological Anatomy.
End of third year—Therapeutics, Obstetrics, Theory and Practice of Medicine, Clinical Medicine, Surgery, and Clinical Surgery.

Examinations are also held before the opening of the School, beginning September 23d.
REQUIREMENTS FOR A DEGREE.—Every candidate must be twenty-one years of age; must have studied medicine three full years, have spent at least one continuous year at this School, have passed the required examinations, and have presented a thesis.

COURSE FOR GRADUATES.—For the purpose of affording to those already Graduates of Medicine additional facilities for pursuing clinical, laboratory, and other studies, in such subjects as may specially interest them, the Faculty has established a course which comprises the following branches: Histology; Physiology; Medical Chemistry; Pathological Anatomy; Surgery; Auscultation, Percussion, and Laryngoscopy; Ophthalmology; Dermatology; Syphilis; Psychological Medicine; Oology; Electro-therapeutics; Gynecology; and Obstetrics. On payment of the full fee the privilege of attending any of the other exercises of the Medical School, the use of the laboratories and library, and all other rights accorded by the University will be granted. Single branches may also be pursued. Graduates of other Medical Schools who may desire to obtain the degree of M. D. at this University will be admitted to examination for this degree after a year's study in the Graduates' Course. Examination on entrance not required.

FEES.—For Matriculation, \$5; for the Year, \$200; for one term alone, \$120; for Graduation, \$30. For Graduates' Course, the fee for one year is \$200; for one Term, \$120; and for single courses such fees as are specified in the Catalogue. Payment in advance.

Members of any one department of Harvard University have a right to attend lectures and recitations in any other department without paying additional fees.

For further information, or Catalogue, address

Dr. R. H. FITZ, Sec'y, 108 Boylston St., Boston, Mass.

COPY OF DR. REDWOOD'S REPORT.

17 Bloomsbury Square,
London, Sept. 18th, 1878.

*Dr. Redwood's
Analytical Department.*

I have examined the Extract of Malt manufactured by the "Trommer Extract of Malt Company," and judging from its physical characters and chemical reactions, I am of opinion that it fairly represents what its name indicates, that is, that it is a preparation of Malt in which are contained the essential properties of that substance, with a slight addition of Aromatic Bitter of the Hop. It has the character of a soft Extract, in the sense in which that term is used pharmaceutically, and it has evidently been prepared with great care and judgment, as it retains the property of acting on amylaceous bodies, as diastase does, while the extract itself bears long keeping without change.

It also possesses the property of forming, with Cod Liver Oil, a permanent Mixture or Emulsion, in which the taste of the Oil is very effectually covered, and its administration thus greatly facilitated.

*T. REDWOOD, Ph.D., F.R.C.S., &c.,
Professor of Chemistry and Pharmacy to the
Pharmaceutical Society of Great Britain.*

Loeplund's Concentrated Extract Malt, Plain.

Also the following Compositions:

- LOEPLUND'S EXTRACT MALT WITH PYROPHOS. IRON.**
Each Tablespoonful Contains Six Grains Pyrophos. Iron, Formul. Ph. G.
- LOEPLUND'S EXTRACT MALT WITH CITRATE IRON AND QUININE.**
Each Tablespoonful Contains Two Grains Citrate Iron and Quinine.
- LOEPLUND'S EXTRACT MALT WITH IODIDE IRON.**
Each Tablespoonful Contains One Grain Iodide Iron.
- LOEPLUND'S EXTRACT MALT WITH HYPOPHOSPHITE LIME.**
Each Tablespoonful Contains Six Grains Hypophosphite Lime.
- LOEPLUND'S EXTRACT MALT WITH PEPSIN.**
Each Tablespoonful Contains Four Grains Pepsin, *Pure Germ.*
- LOEPLUND'S EXTRACT MALT WITH HOPS.**
Each Tablespoonful Contains Four Grains Hops.
- LOEPLUND'S EXTRACT MALT WITH COD LIVER OIL.**

An emulsion containing equal parts of best Norwegian Cod Liver Oil and Extract of Malt.

The therapeutic value of Extract of Malt is an established fact; therefore it is not necessary to repeat what has been said so often. The most important part for the *Physician*, who wishes to prescribe the *Extract of Malt*, is to procure the *best preparation*. It is acknowledged by all, that the difficulties attending the manufacture of Extract of Malt on a *large scale* can be overcome only by that skill which is acquired by experience. Mr. Loeplund having been in this branch of the business since 1866, is now the oldest and most experienced manufacturer of Extract of Malt. His establishment is the most perfect; his manufacture conducted on *scientific principles*. His preparations are endorsed by *all eminent physicians* in Europe and America. We therefore do not hesitate to say that in prescribing *Loeplund's preparation* the physician will do justice to himself and patients.

N. B.—*Loeplund's Extract of Malt is entirely devoid of bitter taste, as no Hops are added to the plain extract.* This preparation needs no disguise.

LOEPLUND'S CONCENTRATED FOOD FOR INFANTS.

This is Liebig's Soup for Infants in a concentrated form, ready for use; it is a *perfect substitute for Mother's Milk*. Sole Agent for America,

ALBERT C. DUNG, Druggist,
61 Bowery, New York.

GLYCERITE OF KEPHALINE.

PREPARED BY C. G. POLK, M. D.

The oxidizable phosphorus elements of animal brain, and the germinal portion of wheat, isolated without chemical change, and preserved in pure glycerine.

COMPOSITION OF ONE HUNDRED PARTS:

Isolated Hypophosphite of Ammonium.....	parts, 8
" " Potassium.....	" 6
" " Sodium.....	" 8
" " Calcium.....	" 8
" " Magnesium.....	" 3
Glycerate-Hypophosphorus Acid.....	" 5
Isolated Hypophosphorus Acid.....	" 5
Glycerine, C. P.....	" 60

The following are but samples of the general expression of appreciation given by physicians, who have employed Glycerite of Kephalline.

Dr. F. O. St. Clair, Washington, D. C., has found "Glycerite of Kephalline" a remedy of great power and unquestionable value in all disease expressed in vital deterioration, as phthisis, loss of memory, nervous debility, and nervous forms of dyspepsia.

Dr. Geo. B. Simpson, of Weston, West Virginia, has obtained excellent results from the use of the Glycerite of Kephalline in phthisis.

Dr. Goddings, in charge of the Sanitarium, at Aiken, S. C., says he has used the Glycerite of Animal Hypophosphites with satisfactory results in thirty cases of phthisis. He believes isolated hypophosphites superior to the usual remedies.

Dr. Edwards, editor of the Virginia Medical Monthly, has witnessed very satisfactory results with Glycerite of Kephalline in the case of a distinguished divine, suffering from nervous prostration, from overwork.

Dr. King, of Louisburg, N. C., says, "I am convinced by the therapeutical results, that isolated phosphorus elements form the most powerful nutrient tonic known."

Dr. C. W. Williamson, of Philadelphia, says, "Glycerite of Kephalline is surely a great chemical and therapeutical triumph. During the past five years I have used it in phthisis, dyspepsia, sexual exhaustion, and broken down conditions of female health, and so excellent has been the result, that I would not now know how to do without it."

Prof. Pepper, of the University of Pennsylvania, says he has found "Glycerite of Kephalline" a good nutrient tonic.

Dr. J. S. Ramsey, formerly Act. Ass. Surg. U. S. Navy, says, "Glycerite of Kephalline is the most efficient remedy known in tubercular phthisis."

Dr. H. E. Ashmead has used isolated phosphorus compounds since 1869, and holds them in very high esteem as remedial agents.—(Detroit Medical Journal, October, 1877.)

Dr. Wiley has used isolated phosphorus compounds since 1872, and esteems them of great value in phthisis.—(See Louisville Medical News, June 2, 1877.)

Dr. Percy says, "Although the nitrogenous hypophosphite has been isolated from brain and nerves, I believe it has never been formed in the laboratory, nor has it been used as a therapeutical agent."

Upon *hypothetical grounds alone* we should suppose it to be one of the most assimilable of all the preparations of phosphorus, because it most nearly resembles that form of phosphorus which is found to be the most active in the animal economy.—[Trans. A. Med. Association, 1872, page 638, Essay Phosphorus.]

Dose—10 to 20 drops thrice daily.

Sold by A. C. DUNG, Druggist,
61 Bowery, New York, Sole Agent.

F. G. OTTO & SONS'

PATENT

Spiral Spring Pessaries.

A Ring Pessary which will not break has long been looked for by physicians and patients.

The Spiral Spring Ring Pessary is one which will not break nor lose its shape; it can be doubled up in the shape of a figure 8, and then the two loops may be brought together without injuring it in the least. It gives a more easy pressure than any other, and parties who will give them but one trial, we are sure, will never again use any other.

The engravings show the manner of making them.

In a spiral spring of brass spring wire about 8 coils of rounded thin whalebone are inserted, which is bound loosely by the spiral spring, thus allowing the coils of whalebone to revolve around themselves, giving, as will readily be seen, more elasticity than they would were they bound tightly by a soft wire of any material. The ends of the spring are then screwed together

and covered with rubber of exceedingly smooth surface.

We also employ the above described manner in making Pessaries of all patterns, and they most certainly are far superior to hard rubber, which are very rigid, and therefore very inconvenient for the wearer.

The spiral spring Bow Pessary, Albert Smith's shape, and many others, will be found (on account of their elasticity) very easy for the wearer, and very durable.

F. G. OTTO & SONS' PATENT TRUSS.—Send for Circulars.

PRICES.

Ring Pessaries.....	75 Cents each.
Bow "	\$1 00 "
Albert Smith's Pessaries.....	1 00 "

34 Chatham St.,

NEW YORK.

Sole Proprietors of LEITER'S PATENT HYPODERMIC SYRINGE.

Codman & Shurtleff's Atomizing Apparatus.

PRICES REDUCED.

The Complete Steam Atomizer, No. 15 (Pat.).

All joints of the Steam Atomizer are hard-soldered. Every one is tested by hydrostatic pressure, to more than 100 pounds to the square inch. It cannot be injured by exhaustion of water, or any attainable pressure, and will last for many years.

It does not throw spurts of hot water; is convenient, durable, portable, compact and cheap, in the best sense of the word. Price, \$5.00.

Brass parts, nickel-plated, additional, \$2.00.

Neatly made, strong Black Walnut Box, with convenient handle, additional, \$2.50.

Shurtleff's Atomizer the most desirable Hand Apparatus. Rubber warranted of the very best quality. Valves imperishable: every one carefully fitted, and will work perfectly in all positions. Price, \$3.50.

The Bubs are adapted to all the Atomizing Tubes made by us.

Each of the above Apparatus is supplied with two carefully-made and annealed glass Atomizing Tubes, and accompanied with directions for use, and warranted perfect.

Fig. 91, The Safety Lister Antiseptic Atomizer, as made by Codman & Shurtleff, specially adapted to the requirements of Antiseptic Surgery. Spherical Boiler, hard-soldered, tested by hydrostatic pressure to more than 100 pounds to the square inch. Safety Valve, Atomizing Tubes with platinum nozzle and tube cleaner, 10 oz. Reservoir. Brass Safety Spirit Lamp, with Regulator. Non-Conducting Handles, N and E, will supply spray from three to four hours without replenishing boiler or lamp.

It has been termed the "Safety Atomizer," inasmuch as, under the severest tests, it has been found impossible either to ignite vapor from the anesthetic, or to cause any mishap from the spirit-lamp. We offer it with confidence that it will satisfactorily meet the want of a convenient, durable and practically perfect apparatus for the purpose intended.

PRICE, \$25.00.

We would also call attention to our Antiseptic Atomizer No. 90, an efficient and durable apparatus. Its Boiler, Reservoir and Handle are the same as in No. 91. The Lamp, of Japanned tin, has safety arrangement with reference to alcohol, and its flame is susceptible of easy regulation. The Atomizing Tubes are of brass, specially adapted in size and shape for this use. This apparatus has been thoroughly tested by practical use, and we believe will be found far superior to any hitherto offered at a price below that of No. 91. Price, \$12.00. Full descriptive circulars of Antiseptic Atomizer on application.

For full description of other Atomizers, see NEW PAMPHLET on Atomization of Liquids, with Formulas of many articles of the Materia Medica, successfully employed in the practice of a well-known American practitioner, together with descriptions of the best forms of apparatus, which will be sent, post-paid, on application.

Plaster Bandages and Bandage Machines, Articles for Antiseptic Surgery, Aspirators, Clinical Thermometers, Crutches, Air Cushions, Wheel Chairs and Articles for Invalids, Mechanical Appliances for all deformities and deficiencies, Trusses, Elastic Hose, etc. Electrical Instruments for all Medical and Surgical uses, Hypodermic Syringes, Ice and Hot Water Bags, Manikins, Models, Skeletons, Skulls, etc., etc. Naturalists' Instruments, Sphygmographs, Splints and Fracture Apparatus, Stethoscopes, Syringes of all kinds, Teeth Forceps, Test Cases, Transfusion Instruments, French Rubber Urinals, Urinometers, Vaccine Virus, Veterinary Instruments, Waldenburg's Pneumatic Apparatus, etc., etc.

Surgical Instruments and Medical Appliances of every description promptly repaired. Having our Factory, with steam power, ample machinery and experienced workmen, connected with our store, we can promptly make to order, in the best manner and from almost any material, new instruments and apparatus, and supply new inventions on favorable terms. Instruments bearing our name are fully warranted. With hardly an exception they are the product of our own factory, and made under our personal supervision, by skilled workmen, who, being paid for their time, are not likely to slight their work through haste.

To the Medical Profession.

LACTOPEPTINE

The most important remedial agent ever presented to the Profession for Indigestion, Dyspepsia, Vomiting in Pregnancy, Cholera Infantum, Constipation, and all Diseases arising from imperfect nutrition, containing the five active agents of digestion, viz.: Pepsin, Pancreatine, Diastase, or Veg. Ptyalin, Lactic and Hydrochloric Acids, in combination with Sugar of Milk.

FORMULA OF LACTOPEPTINE.

Sugar of Milk 40 grains
 Pepsin 5 grains
 Pancreatine 5 grains
 Lactic Acid 5 fl. drachms.
 Hydrochloric Acid 5 fl. drachms.

LACTOPEPTINE owes its great success solely to the Medical Profession, and is sold almost entirely by Physicians' Prescriptions. Its almost universal adoption by the profession is the strongest guarantee we can give that its therapeutic value has been most thoroughly established.

The undersigned having tested LACTOPEPTINE, recommend it to the profession.
