P R E F A C E .

THIS edition of the *Medical Register for Upper Canada* contains a correct list of the names, residences, qualifications and additions of all persons appearing on the Register as existing on the first day of January, eighteen hundred and sixty-seven.

I avail myself of this opportunity to make some remarks in explanation of the delay which has taken place in the publication of this edition. During the second week of June, several hundred applications were received by post from persons desiring to be registered. It was impossible to attend simultaneously to every application, for the majority of the certificates received were unsatisfactory, and entailed, in addition to the usual acknowledgment, the writing of a letter of explanation. In many cases a lengthened correspondence was necessary, so that some of those who made application early in June were not registered until December, and in several cases correspondence is still going on. This was a source of great labor and delay. On referring to the pages of the Register it will be seen that a majority of those whose names appear there, preferred several distinct claims to registration, each of which claims required to be carefully scrutinized, and in those cases where the evidence of the certificates was not corroborated by the records in the office of the Provincial Secretary, or the Calendars of the Universities, I wrote to the applicant for a second statement and to the other authorities to ascertain whether the certificates were correct. By this means I detected many errors and unsubstantial claims to registration. The writing and mailing of certified transcripts to each registered person consumed much time, owing to the care which was necessary in copying dates, names, &c. I regret exceedingly to add, that the completion of this work has also been very much delayed during the last four months by my own ill health, for which I can only ask the indulgence of the profession.

In compliance with a very general desire on the part of the profession to have some authentic record of the proceedings of the Council, the minutes thereof are published, and are to be found at the end of the Register.

HENRY STRANGE, M.D.,
Registrar.

Office of Medical Registration,
Hamilton, January 19, 1867.
