THE CANADIAN POULTRY REVIEW

DEVOTED TO POULTRY, IN ALL ITS BRANCHES

FOR THE FANCIER, THE FARMER AND THE SMALL BREEDER.

Vol. XXIII.

124 VICTORIA STREET, TORONTO, MARCH, 1900.

No. 3

NOTES AND COMMENTS

Mr. E. H. Perrin, Newmarket, has just added three grand buff Wyandottes, from a specialty breeder in the United States, to his pens.

I am pleased to be able to congratulate you on the steady improvement in the Review as well as on your outspoken methods of dealing with shows and judging. Poultry judges are only human and should never be allowed to think they are the particular stars at shows where they officiate. Careless judging can do the fancy more harm than all of us can good. So writes Mr. John F. Hill of Welland.

Mr. John F. Hill, Welland, sent us an extra ad. for last issue with instructions, "don't drop my regular ad. out." It was passed on to the printer, who thought he knew better than Mr. Hill or the editor and promptly "killed" the ad. Printers are queer birds!

Mr. Gisborne, although retiring from the secretaryship of the Eastern Ontario Association, still remains one of its most active members and so his experience and advice will not be lost. It would not surprise us to see Mr. Gisborne

a hot competitor in the Indian Game ranks.

Mr. Ben Harris, Woodbridge, is short a black Java hen from Owen Sound show. He would like to hear from whoever has got her. The bird has a punch mark on the left foot between the outer toes.

Mr. G. W. Kinder has purchased all the Red Caps formerly owned by Mr. F. P. McDonnell, of Watford, including his winners at the winter shows. We might add that these birds were from eggs purchased from Mr. Kinder last season.

Mr. C. A. Mayhew, Thamesville, is importing a pen of black Minorcas from Messrs. Abbott Bros, England, and is paying a long figure to secure good birds.

For "barring" see Miller's cuts in this issue.

My hens have been laying well all winter. On January 1st I placed four barred Plymouth Rock eggs under one of my Jap hens and on January 21 I found four fine healthy chicks. They are doing finely. They were hatched in a cold outside building where water was frozen solid every cold day.

L. A. HAYARD.
Charlottetown, P.E.I.

A meeting of the delegates ap-

pointed to interview the government re assistance for local associations, has been arranged for February 28th, at 11.30 a.m. Hon. J. R. Stratton, will introduce the deputation to the government. The delegates will meet at the Albion Hotel at 10 a.m., preparatory to the meeting.

Mr. Butterfield judged the show in Winnipeg last month. From what we can learn the show was a great success. Mr. Butterfield has been greatly overworked this winter and will be glad of a rest to recuperate. He already has about three times as many applications for his judging services for next season as he can accept.

Mr. Geo. H. Northup has bought all Messrs. Bicknell & Whittings black Minorcas.

A bill has been introduced in the house at Ottawa by Mr. John McMillan, M.P., to provide that eggs for export be sold to a weight standard of one and one half pounds to the dozen.

That this is a step forward we gladly admit, and hope before long to see a similar enactment applied to the local trade. The grower of large eggs is handicapped by present conditions. The motto should be, "more eggs, bigger eggs, better eggs," and

this bill if made law, will help to this end

One result may temporarily follow, and that is, that the smaller eggs alone will be placed on the local market, but time and breeding up should obviate this.

Uplands Poultry Farm may indeed be considered a "large" farm, when we say that no less than forty pens of barred Rocks are being bred from this season and fifteen pens of white Wyandottes. All this plant is under the control of Mr. M. P. Jarvis, late of Guelph, a son of the well known judge of that ilk.

Just as we go to press we learn that Mr. John Chambers, Park Commissioner and President of the Toronto Poultry Association has been elected chairman of the Poultry Committee of the Industrial Exhibition.

Farmers

Have you ever threatened to "SHOOT THAT TREE AGENT" if he ever showed up on your place again?

There are hundreds of farmers all through this country that in the early days have planted trees which some unscrupulous tree jobber sold him for first-class winter fruit that after years of patient toil and care turn out to be worthless crabs or naturals. You have all seen those cases. There is now no necessity for such a thing. You can get

TREES OF ALL DESCRIPTIONS

fruit and ornamental, that are guaranteed true to name and first-class in every respect. Write for catalogue.

Good opening for respectable men only, as agents.

ADDRESS **E. D. SMITH,** (Established 1882, 400 acres in extent)

HELDERLEICH FRUIT FARMS NURSERIES, WINONA, ONT. 800

CORRECTIONS

Dear Sir: Will you kindly correct an error in Ontario prize list at Peterboro' on R.C.B. Leghorn pullet. You have Mr. Colville credited with first prize pullet. W. Stewart & Son were the winners. Mr. Colville did not exhibit in that class at all. J. A. Stewart, Jr., Menlo, Ont.

You did not mention my name in prize list for Galt on S.C.B. Leghorn cock. I got second on cock and tied for third place, just one point behind 1st cock.
Galt, Ont. W. J. POWELL.

Kindly correct the following: My wins at Galt should read, "Brantford Bantam Yards" instead of "Bantam Poultry Yards." Brantford Bantam Yards.

Toronto Show. S. S. Hamburg pullets should read 2nd Fortier, 3rd Rush and not the reverse.

Stratford show. W. Elwood Pollock was an exhibitor here and won 1st on pen Houdans as well as others mentioned.

Woodstock show. A. W. Graham, St. Thomas, claims 2nd (tie for 1st, score 93 1-2) on white Wyandotte hen. The secretary says 1st scored 94, Mr. Graham's 93 and 92 1-2, Mr. Dinner (2nd) 93. We can't untangle it.

You will please correct mistake made in report of Galt show. I took 1st prize on S.C. white Leghorn pullet, score 94 1-2, and 2nd prize of S. C. white Leghorn cockerel, score 91 1-2. The Mr. Mueller you have down showed brown Leghorns and not white. I spoke to our secretary about it and he said he would write you. For fear he has forgotten I thought I would mention it.
Yours truly

GEO. W. BROWN.
Box 22, Galt Ont., February 9, 1900.

NOTE.—These paragraphs were accidentally omitted from "The Advertiser's Helps" on page 124, and should have appeared under head of "Distance no object." As it now reads it fails to convey our meaning.

Vancouver, B.C., Jan. 29, 1900.
H. B. DONOVAN, Esq., Toronto, Ont.

Dear Sir.—Many thanks for referring my wire to Mr. Kiley, who is now shipping me a pair of black Cochins Bantams, and which I expect to arrive on Wednesday.

Please send me The Canadian Poultry Review for three years, and for which please find enclosed the sum of \$1 in payment of same.

Will send you down shortly a couple of Cocker registrations.

Yours very truly,
D. A. TWEEDIE.

St. Therese, Que., Feb. 5, 1900.
Enclosed please find order for new subscribers at St. Jerome, viz.: Jos. Lachance, Jos. Depatie, X. Dostie, Dr. D. Longpre, Jos. Savard, Jos. Naud, F. X. St. Michel, A. Beriault, H. Godmer, M. Gagnon, Max Dufresne, fils, from February 1, 1900, to February 1, 1901.

Yours truly,
VICTOR FORTIER.

If you have anything to sell we should be able to help you.

HANDY CHICKEN ROOST.

ARRANGED SO THAT THEY CAN BE LET DOWN WHEN THE HOUSE IS BEING CLEANED.

In many poultry houses the manner in which the roosts are placed in position is a source of annoyance when time comes to clean out the house. In order to avoid the difficulty of getting around under the roosts, they should be placed crosswise on a frame made of about two by four-inch material, six feet wide and

nearly as long as the building in which they are to be placed. Hang the frame, a, at one side to the wall by heavy strap or T-hinges and support the other side by props, d, placed under it or a couple of pieces of stout wire rope, c, hung from the roof. The roosts can then be let down out of the way when the house is being cleaned and they also can be scraped off and washed with lime, either with a brush or spray pump. If both house and roosts are whitewashed frequently the filth will be lessened. A spray pump is excellent to use for this whitewashing process.—American Agriculturist.

CKACKLE.

THIS is our growing time. Don't you see it? Never before were there so many enquiries for pure-bred stock. Never before were sales so numerous as during the past year.

POULTRY FROM A PRACTICAL STANDPOINT

Conducted by A. G. GILBERT, Manager Poultry Department, Dominion Experimental Farm, Ottawa.

NOTE.—Mr. Gilbert is nothing if not practical and experimental. He will from his rich store of information on the subject of "Practical Poultry" give Review readers each month the result of his experience for the past thirty years. He will be glad to answer questions or afford information on any particular subject.

CANNED CHICKEN.

WHEN I was in Murray Harbor South, a seaport town in the eastern part of Prince Edward Island, we put up at Mrs. Clement's comfortable hostelry. We had driven from Montague Bridge that morning, a distance of fifteen miles, over a fairly good road in a bracing sea air and were in fairly good appetite. Dinner was partly composed of a steaming dish of stewed chicken. When I saw the chicken I mentally remarked, "The old and veteran fraud of boiled old fowl passed off as chicken." However, I took some and it was just delicious.

"What tender — fo—ch—." I tried to say.

"Chicken if you please," said mine hostess. "Stewed chicken at end of January?" I queried.

"Yes," she said, "I killed and canned my Plymouth Rock cockerels when they were six months old."

Then the murder was out.

"But why did you not put them up a month or a month and a half sooner and they would have been still more tender?" I asked.

"I will do so another year," said she.

Canned chicken! What possibilities does it not open up to the Island folk. They put up lobsters in cans and why not chickens!

When at Alberton, at the other end of the Island a man said that he had canned a quantity of chickens the fall previously. "What I noticed," said the man, "was that I could put up a scrub chicken in one can, but it took three cans to hold one barred Plymouth Rock

cockerel. That man from Ottawa was right when he advised our people, at the meeting last night, to adopt the Plymouth Rock as the standard breed for the Island."

And what did you advise in their interests? I strongly advised the farmers of Prince Edward Island to adopt a fowl that would be of uniform excellence as winter egg layers and rapid flesh formers. In other words to breed a type that would give the twin results. And our old friends, the Plymouth Rocks, come right in to fill the bill. The idea of a uniform type of fowl of uniform excellence as layer and flesh former for the Island, seemed to please the Island folk. A uniform type of fowl of excellence for the Island would mean reputation for a superior quality, and such reputation, once earned, would simply mean wealth, for a good name certainly brings trade.

I have mentioned that the farmers of Prince Edward Island are intelligent above the ordinary. Proof was given of this in the

discussion of the different subjects spoken or written about at the meetings. There were very few farmers in the different audiences who could not discuss with clearness and terseness, in three to five minute speeches, the different subjects brought to their attention. They seemed to be quick in catching on to the different points and they were not slow in stating their reasons for concurrence in, or difference from, the views of the different speakers. Pity the man who was not up in his subject. He was sure to be picked to pieces. On the other hand their expressions of satisfaction were fully and loudly expressed when they realized that the speaker was speaking in their interests, which meant the interests of the whole province.

For three weeks, dating from 15th of January last, I have been in Prince Edward Island addressing meetings at different points on poultry as a revenue making department of farm work. I was much gratified at the large attendance at the meetings and the interest taken in the subject by the farmers of the island, who are intelligent above the ordinary and who are wide awake to the benefits to be derived from mixed farming. The cow has done much to improve their condition financially and they think the hen can also be made, by intelligent management, an equally good revenue producer.

1st Ck. Ontario, '99. 1st Pullet, Owen Sound, Ont., '99, score 96.

ELMVALE FARM

Norwood, Ont.

W. H. Brethen & Son, Props.

White Leghorns and Wyandottes. 1 pen each variety and that the best. 1st prize male heads each pen.

S. C. W. LEGHORNS:—1st cock, Great Ontario, '99. Woodstock and Ingersoll under 3 different judges, Davenport, Smelt and Butterfield. This bird is very strong in color, and carries a low-down tail, with that most desired concave "sweep" on back. With him are twelve "pure white" females, scored to 96, winners at Owen Sound, Ontario '99, and Ottawa. Chicks from this pen will win anywhere. Eggs, \$2.00 per 13, \$5.00 per 30.

W. Wyandottes:—1st cockerel, Eastern Ont. (Ottawa), 1900, mated to imported Dunston hens and Blassie-Dunston pullets. These are slow white typical Wyandottes that will surely please you. Eggs \$2.00 per 15.

D. SURE and WHITE

BRETHEN & SON.

The export of eggs has for years brought no little money to the Island and the development of poultry flesh, of a superior quality, should be another source of emolument, and doubtless it will be so.

A RESULT OF THE RECENT ONTARIO SHOW AT PETERBORO'.

At the beginning of the present month the following letter was received from a Montreal dealer. The letter, which speaks for itself, is an early and striking result of the practical work done in the way of fattening, killing and dressing of poultry, which was a new feature at the Ontario show.

held in Peterboro' from 9th to 12th of January last. It may be remembered that the majority of the chickens killed on that occasion were barred Plymouth Rock cockerels, which when dressed, but not drawn weighed from 5 1-2 lbs to 7 lbs. each. The letter is as follows:

Montreal, 25th January, 1900
Dear Sir,

My father, who is a resident of Peterboro', sent me some of the chickens which he purchased from some one in connection with your department. The chickens were some of those killed and dressed at the Ontario show. Anytime you have an overplus of such chickens, I WILL TAKE ALL YOU

HAVE and pay you market price for them. Yours truly,

C. H. WINCH.

A gentleman from Toronto, who saw three of the chickens which I had brought home, said they would be worth one dollar each in Toronto. At a private sale, I presume he meant. At any rate the direct result of having the chickens killed and dressed at the show, was to draw attention to their superiority over the ordinary market chicken, on the part of a visitor to the show and create a demand for them from the far away Montreal market. Surely this result alone was worth the expense in giving the object lesson.

ARNOLD WINS

ON BUFF LEGHORNS at Madison Square Gardens, N.Y. 2 Silver Cups, 6 Gold Specials, 1st and 2nd pens, 1st and 2nd cocks, 1st, 2nd and 4th hens, 3rd, 4th and 5th cockerels, 1st, 4th and 5th pullets.

Buff Plymouth Rocks At the great Hagerstown Fair our birds tied for largest and best collection. At Philadelphia we won silver Medal for largest and best collection. We bought all of Frank Khen's birds which won at Poughkeepsie, N.Y.—cock, 1st and 2nd; hen, 1st and 2nd; cockerel, 1st; pullet, 1st and 2nd pen, 1st. Rock eggs, \$1 per 15 straight. Buff Leghorn eggs, \$5 per 15, \$9 per 30, \$12 per 45. We guarantee to chicks to each setting. Ang. D. Arnold, Box 422, Dillsburg, Pa.

500

EXPERIMENTS WITH GEESE.

MATING BREEDING STOCK.

Whenever geese were purchased each one was marked on arrival by a numbered metal band around one leg, and a record made of the number. As metal bands frequently become loosened and lost, each bird was also marked by punching one or more holes in the web of the feet, and a record was made of such foot marks in connection with the band number.

The matings for the season of 1896 were as follows:

YARD No.	GANDER.	GOOSE OR GEESE.
1....	Toulouse	and 2 African
2....	Embden	" 2 Brown China
3....	Embden	" 2 Toulouse
4....	African	" 2 Toulouse

22....	White China	" 2 Embden
22....	White China	" 1 Toulouse

Pen No. 18 was intended for a pure Toulouse mating, but as the birds selected never mated, the pen is omitted from this and following tables.

The 4th edition of James Rankin's Book, NATURAL AND ARTIFICIAL DUCK CULTURE,

is just out. It has been enlarged, revised and illustrated. A question bureau has been added, designed to answer all questions concerning the diseases, cure, management and feeding of the duck from shell to market. Price 25 cents

Address H. B. DONOVAN, Toronto.

FEEDING.

Twice a week during the laying season the geese were fed a cooked mash made by mixing about two parts Indian corn meal, two parts wheat bran, two parts wheat middlings, and one part beef scraps by measure with boiling water. At other times they were fed whole grain—usually about two-thirds oats and one-third wheat. They were fed what they would readily eat up clean twice daily, morning and afternoon. Oyster shells, cracked rather coarsely, were kept in the pens at all times. Waste cabbage, consisting of outer leaves, trimmings and loose heads, were purchased and fed in small quantities several times a week. A little salt and charcoal were frequently used in the cooked food.

EGG RECORDS.

The nest barrels were kept well supplied with straw, and a strip of board three or four inches wide, fastened across the open end at the ground, kept it from being pulled out. As soon as the geese began laying care was exercised to collect the eggs frequently, so that none should be chilled. The number of the pen as recorded on the barrel was immediately written in pencil upon the egg, and later the number was stamped on with a stencil, and the date was added. The eggs were kept in trays, in a moderate, uniform temperature, and turned daily until wanted for incubation.

(To be Continued.)

WILD turkeys sent across from Canada by the Marquis of Lorne, and turned loose in Argyllshire, are said to have taken kindly to the climate, and an optimistic correspondent of The News says he looks forward to the time when turkey shooting will be added to the many attractions of the Highlands.—Fowls.

A BRONZE TURKEY PROTEST.

Editor Review:

As you have omitted giving the minutes of the Directors' meetings of Ontario Poultry Association in February Review, I ask leave to present at least a part of them to your readers.

Immediately after the awards were placed on bronze Turkeys, I protested the 1st prize pullet as being an old hen. The directors considered the protest on Thursday morning, January 11th, and I have been informed "that they had all the female turkeys up for inspection and had all whom they could find in the building experienced in handling turkeys give their opinion." It was moved by Dr. Bell, seconded by Mr. Trew and carried "that my protest be sustained and my pullet awarded 1st prize." That is some of the minutes of one Directors' meeting. Now for the next.

It was held on Thursday afternoon and the first business done was a motion to sustain the judges awards on Bronze Turkeys. It was carried without the slightest explanation or information to two new members on the board or rescinding the former motion carried in the forenoon. The funny part about it was that there was not a

AFRICAN GEESE

25 FINEST YOUNG AFRICAN GEESE
\$3 each. Pick of the lot for exhibitions, \$8 each. A few old breeders, fair quality and heavy; a few Embdens, young and old at same price to close out; 50 common market breeding geese that were great producers last season, and will probably do better this, at \$3 pair; or male and four females now for \$12. Spare ganders all varieties on short notice. Fair African ganders that will mate promptly with any geese, \$3, \$4, \$5. Won 1st and 2nd on all three varieties at Boston, 1899; 1st and 2d on all three at last Brockton fair, and R. I. state fair, in strong competition; 1st on African and Embden at last New Bedford and South Framingham shows. 1st and 2d on Toulouse geese; and 2d and 3d on Toulouse ganders; 2d and 3d on Embden ganders, and 3d and 4th on Embden geese, at Boston, 1900. Eggs for hatching from finest old geese, either variety, March 1st to May 15th at \$4 per hen sitting of five eggs. Eggs from young geese, same varieties, if we have them, \$2.50 for five; from common market geese, \$1 for five. No guaranty, but old stock has been on the place two seasons without change, have stream to swim in every day of the year; winter has been most favorable, and chances are unusually good for success. None but cash orders booked. Inspect stock at the farm, West Mansfield, Mass., or write Samuel Cushman, Pawtucket R. I. 500

UNION POULTRY YARDS

Home of the noted prize winners in Golden Wyandottes, White Wyandottes and White Rocks. In Golden Wyandottes we have the best Keller and Maison Strain. 4 entries in Owen Sound and 3 first prizes, first and special for cockerel, first hen and first pullet. Jarvis pronounced them the best he had seen White Wyandottes, we have one fine pen; Hawkins and Duston strains, White Rocks, 2 pens Capps strain, grand birds, winning at leading shows.

Eggs from Prize Matings. Golden Wyandottes.

No 1 pen, \$2.00 per 15. No. 2 pen, \$1.25 per 15. White Wyandottes, \$1.00 per 13. White Rocks, No 1 pen, \$1.50 per 15. No 2 pen, \$1.00 per 13

Do you Keep a Dog?—THE CANADIAN KENNEL GAZETTE will tell you just how to care for him, and will also give you all the news of the month, portraits from life of the best dogs living, and many other good features. \$1 a year, 10c. a copy. Address—H. B. Donovan, Publisher, Toronto.

dissenting voice although the board was composed of practically the same men both times. I handed in my resignation as Director which they very kindly would not accept. But I fancy they will have to.

I expected you would have given the minutes of both Directors' meetings, but as you have not done so I wish the particulars of my resignation to be made known and in doing so I have confined myself to "facts" as I have no desire to start an unpleasant controversy.

Yours truly,

W. J. BELL.

Angus, Feb. 15, 1900.

We have deleted from above a personal paragraph that does not appear to us to bear on the subject matter. There were no minutes before the Board at the second meeting and we were not present at the first meeting and did not know that the matter had been carried on a motion. Mr. Bell is quite correct in stating that the members of the Board unanimously decided to leave the awards as originally placed by the judge and for this reason we presumed the action required no comment.—Ed.

THE JARVIS TESTIMONIAL FUND.

AS the response to this has not been as general as we should wish, we have decided to keep it open for a short time longer. Full particulars will be found in February Review, to which we would refer those who may desire to subscribe.

AT OWEN SOUND.

A GRAND SUCCESS—ONE THOUSAND ENTRIES—GOOD STUFF—MR. JARVIS EXPRESSED HIMSELF AS HIGHLY PLEASED WITH THE QUALITY—TOO MANY BIRDS TO SCORE.

Editor Review.

Dear Sir,—We have had a grand success with our show, about 1,000 entries and all good birds at that. Everything went off well and I think we will come out all right financially. We had a very fine banquet on Thursday evening. One of the features was a presentation to Mr. Jarvis of a purse with a nice amount of money. We had to have the show judged by comparison as Mr. Jarvis had to get through by Thursday night.

JOHN RAMSAY.

LIST OF EXHIBITORS.

Courtney & Wilson, Wm. Ormiston, George D. McLaughlan, Beaton Bros., George Preston, Wright Bros., Barnard & McReynolds, John Ramsay, Hart & Grimoldby, Struthers & Glass, J. C. Benner, W. H. "The Best" INCUBATORS

GOLD MEDAL AWARDED.
The Highest Award Given

These Incubators have been thoroughly tested and proved to be what we claim. They are not a cheaply gotten-up machine, but the aim throughout has been to get up the BEST incubators and brooders ever put on the market. We have spared no expense whatever to make "THE BEST" the best in construction and application as well as in name. We furnish only the very best thermometers, which are well seasoned, tested, and guaranteed correct.

Some of the excellent points about "THE BEST."

1. Absence of moisture pans.
2. Diffusive ventilation and no stagnant air.
3. Nursery for the little chicks.
4. Proper application and immediate control of the temperature.
5. Absolutely fire-proof.
6. Perfectly self-regulating.
7. Uniformity of temperature all over egg tray.
8. Small consumption of oil, thereby saving you enough in a few years to pay for the machine.
9. The moderate price we ask for it.
10. It is made in Canada by a Canadian.

OUR POPULAR BONE CUTTERS

What OUR MACHINES WILL DO. They will successfully cut GREEN BONES as they come from the market with meat and gristle upon them; DRY BONES of all kinds; PRESSED SCRAPS or cracklings, however hard; INDIAN CORN or corn on the cob; VEGETABLES of all kinds—potatoes, beef, turnips, cabbage, squash, onions, etc.

WILL CUT MOST ANYTHING These Cutters are designed expressly for green bones, but will also cut without difficulty any substance for food which has body enough to retain its position while the knives are passing through it.

Prices from \$5 to \$12.50 each

According to Size

INCUBATORS and BROODERS.

We invite correspondence for this important department of commercial poultry raising, which is growing so rapidly in Canada.

INCUBATORS AND CHICKS.

SO much has appeared in the poultry press of late regarding the rearing of young chicks by artificial means, that if my limited experience will be of benefit to anyone, they are entirely welcome to it. The first thing to be remembered and never lost sight of is that, regardless of the quality of the brooder, the long list of testimonials which the manufacturers offer and how near to the natural hen the machine really is, at the same time it is nothing more or less than a machine and as such must be run according to atmospheric conditions. The best brooder manufacturers send with their machines a set of rules regarding the operation, which are all very good, but at the same time in this climate no set of iron-clad rules can be laid out and then followed without any variation. Good, common, horse-sense is what is required, and must be exercised or disaster will surely follow. I have found to my sorrow this past spring and summer that you must not feel that because you have a good brooder, it will do your

thinking for you, and adjust itself to different conditions. It cost me several batches of chicks to learn that, but I think I have it learned at last.

The next thing on the list is the feed. There are probably as many different methods of feeding chicks as there are different batches of chicks being fed and, of course, everybody thinks their way the best. The method I have followed this season with good results is this: When the little fellows come from the machine (which is about as soon as the last ones out of the eggs are thoroughly dry, or, perhaps, twenty-four hours after the hatch has commenced in good shape) they are put in the brooder, care being taken that they do not get chilled in the transit from one machine to the other. I try to have the temperature of the brooder very nearly that of the incubator and then lower it gradually every day or two. The first feed, which is not given until they are twenty-four hours out of the shell, consists of bread crumbs, dry. For about two days that is all they get, and at the end of that time they are fed steel-cut oat meal, commonly known as "pin-head" oat meal. I cover the floor of the brooder about an inch thick with chaff from a hay-mow, which is, principally seeds of different kinds, and in this is sprinkled, a little at a time, this oatmeal, and it does not take them long to find it. They have water before them all the time after the first day. A small platform is built outside of the brooder, with sides about six inches high, and over this is laid half-inch mesh wire. If early in the spring they are kept off the ground for ten days or two weeks. When they are allowed on the ground, I make a yard for them, using sixteen foot boards, twelve inches wide and a quarter of an inch thick. These cost about twenty cents apiece. They are kept in this yard until they commence to use their wings and then they are allowed to run

with, all over the place. They are kept on oat-meal for about two weeks and then it is alternated with whole wheat. For grit I give them nothing for the first day or two then take a flat stone and pound up crockery to a fine powder and put it in the chaff in the brooder, or, if the weather is settled, in chaff on the platform. This crockery can be pulverised much finer than the commercial chick-grit usually is and I have had very good results from its use. It is frequently stated that the first feed the little fellows get is grit. That does not seem right to me and my experience is that they will take the crumbs and oat-meal first and then tackle the grit.

After they are two weeks old and have been allowed to wander and there are larger chicks on the place, I always make a pen of lath with space between the lath for the

SAFETY INCUBATORS

Are warranted self-regulating, self-ventilating, to supply their own moisture, and to be absolutely fire-proof. The safety LAMP for 1900 is the best and SAFEST ever put in an incubator. For further particulars, write

EGGS FOR SALE.

From white-crested B. Polish (Taylor stock), Silver Wyandottes that are right, Red Caps that are beauties, brown and white Leghorns, white Rocks and buff Bantams, \$1.50 per 13 straight Stock scores as high as 94 to 96 points. Walter and Thomas E. Blanchard, Grand View P.O., Ont. 300

In the country, village, or in the suburb money may be made in the poultry business by the employment of correct methods. You can't afford to keep hens to hatch and brood your chicks. A better and more economical plan and one more certain of good results will be found in the use of the

RELIABLE INCUBATOR & BROODER.

The remainder of the story and plan of procedure is in our Book on Incubation and Poultry. Send 10 cents for it.

RELIABLE INCUB & BROODER CO., QUINCY, ILL.

it would soon make a sticky mass, call a swarm of flies and quickly sour.

Corn in any condition does not enter very largely into my bill of fare, and I think little chicks do better without it. Wheat and oats I consider the best but, of course, the oats must be in the shape of the meal mentioned above, or hulled. The outer husk on the oats contains little if any nourishment and is very indigestible for the chicks and I think they make better frames* and size from the wheat and oats. In my opinion the chicks will do very well for the first two weeks on crumbs, oat-meal and wheat, either cracked or whole, when they are large enough to eat the latter, without any animal food. If, later than that, it is inconvenient for them to be at large where they can pick up the animal food in the shape of insects, then it might be advisable to feed it, either as cut fresh bone, or the meat and bone meals. Cut fresh bone is the finest thing in the world for fowls of all kinds, but as it is a very rich food, would not think it advisable to feed much of it until the chicks are at least a quarter or half grown.

By following the above method I have had very few deaths in the flock of chicks, from any of the troubles so common to them. Hatch out chicks from eggs laid by healthy, vigorous hens, or mature pullets, keep the chicks warm and snug—be sure that they are—and feed them something like the above and you will have very little trouble in raising a large percentage of the strong ones. The weak-

is most scientifically constructed and most perfect working. It has received first premiums at all the biggest shows and hatching contests. 310 First Awards for incubators and brooders. Write for the biggest, best illustrated incubator book ever sent free. 50 colored plates.

PRAIRIE STATE INCUBATOR CO., Homer City, Pa.

FIRST TRIAL WITH AN INCUBATOR.

BY W. J. GORDON.

THE following is my first experience with an incubator. On January 9th I put 52 eggs in my incubator, 46 white Wyandottes and 6 white Rock. The Rocks were for another gentleman.

On the first test, tenth day, I tested out 11 clear eggs. On the seventeenth day, tested out 14 eggs with dead chicks in them, they were all apparently dead on the seventh say, or possibly the tenth day, probably due to my testing them, although I thought I was very careful and only tested part of them in the morning and balance at night. On the eighteenth day, I closed up or quit turning and airing and on the twenty-first day 19 fine strong chicks hatching, 8 dying in the shell on the twentieth or twenty-first day, owing to a chill, I think.

First test, 10 days, 11 clear eggs.

began turning and cooling. I only turned and cooled once in twenty-four hours, in place of every twelve hours. I kept an eye on air cell to see it did not get too large, as nature provides sufficient moisture to hatch them if not evaporated too much, therefore I did not put any moisture in at all.

chicks were uncomfortable, I was forced to open the door and replace it, but by doing so the heat fell down to 90. Although this should not have killed them, it is the only reason I can give, without it was by the chicks running over the eggs. I am perfectly satisfied—19 chicks and three week's experience for \$1.75, for eggs and oil.

Thirty hours after chicks were hatched, I placed them all in my new brooder, it being heated to 90 in hover and 80 in runs, and the building at 50. This remember is all heated with one lamp, common large burner, and last night it was very cold here, just 14 below zero.

Any time of the day I go to the brooder, all the chicks are content and at home. There is no chirping and calling. At 10 o'clock last night, I went in to see how everything was. I listened but could not hear a sound nor see a chick. I looked under the hover and they

of the success of those who advertise in the Review is proved on page 124. Try it.

CYPHERS' OUTDOOR BROODERS.

In the Cyphers Outdoor Brooder Style A (with a total floor space of 30x60 inches), we not only have a double apartment arrangement, consisting of the hover and the well-lighted apartment surrounding same, but we have for daytime use what amounts to a separate, cooler brooder, or two brooders in one (see illustration). The front half of this brooder is reached by a runway, and the chicks during the day time have

curtain being provided, which retains most of the heat in the rear part of the brooder, thus giving them three different temperatures: one the warmest, under the circular hover; another, some eight to ten degrees cooler in the rear apartment, outside the hover, and another, still cooler by ten or twelve degrees, in the front apartment. At any time when the weather is stormy, or it is too cold for the chicks to be out on the ground, they can be fed and watered in this front apartment with both safety and convenience.

access to this part, which is also lighted by two panes of glass. In other words, both the back part, or brooding chamber, and the front part or feeding rooms are well lighted, and if the weather is extra severe day or night, the runway connecting with the front part may be closed, thus confining all the heat to the rear apartment, where the chicks are brooded under the circular hover, with its heavy, fringed curtain. During the day time this runway is let down, and the chicks may run back and forth at will, a heavy woollen

TORONTO POULTRY ASSOCIATION.

THE regular monthly meeting of Toronto Poultry Association was held in Temperance Hall, on Thursday February 8th, with the president Mr. John Chambers, in the chair.

The president and Dr. A. W. Bell were appointed delegates to wait upon the Provincial Government relative to securing grants to assist local associations to hold annual shows.

Messrs. L. H. Baldwin, J. M. Purvis, F. A. Woodward, O. Pearson and ex Ald. Crocker.

The report of the late show was presented and adopted.

Mr. Bennett scored the barred Rocks on show and it is needless to add, did it satisfactorily.

The Industrial Exhibition prize list was discussed and the delegates were instructed to endeavor to have the following changes and additions made:

1. That classes be added for white and buff Orpingtons.

2. That Guinea Pigs be shown singly instead of in pairs, and that prize money on Pigeons and Rabbits be increased to \$2.00 for 1st prize and \$1.00 for 2nd.

3. That a medal be awarded for best collection of buff Leghorns.

4. That exhibition pens be provided for white Wyandottes, also one for buffs or blacks.

5. That the money which was unnecessarily taken off last year (about \$80), be added to the prize list this year.

6. That exhibition pens be kept on the prize list, but in the event of their being cut off, an admission pass be granted to any exhibitor making eight entries.

The president explained to the meeting that as he was already a delegate to the Industrial Exhibition, he was willing that the association appoint another member as delegate and thus give the poultry department increased representation. Ex Ald. Crocker was elected delegate. Mr. Crocker has been a director of the Industrial since its inception and will, doubtless, be able to do considerable to further the interests of the poultry department at the Industrial.

Mr. Wm. Barber brought to the meeting about a dozen ribbons which he won at Madison Square Garden on two of his birds, and it is needless to say was congratulated on all sides on his continued

success at such an important show as New York.

The Executive Committee met on February 15th and arranged a program for the year. The following varieties will be shown at the different meetings—March, buff Wyandottes; April, Orpingtons; May, Leghorns; October, light Brahmas; November, Games.

It was recommended that the next show be managed by the Executive Committee.

E. J. DEWEY
Secretary.

show a greater mortality among the whites than among the barred variety. There was simply one answer, that the whites appeared to be weaker. When asked why? I suggested that it might be due

THREE-APARTMENT CYPHERS UNEQUALED OUTDOOR BROODER, STYLE A (FRONT VIEW)

MR. GRAHAM'S REPLY.

Editor Review:

Most cheerfully do I explain the statement which appeared in the Weekly Sun. While I do not purpose advocating one variety above another, for I believe all are good, yet under the circumstance I was obliged to answer. I found the facts.

A party who claimed to have bred both the white and the barred Plymouth Rock spoke very strongly in favor of the latter and asked me how I had found them since I came to Guelph. Our books

to the breeding for the "dead white" plumage. I simply suggest this as a factor. Whether the white Rock is weaker than the barred Rock in constitution is a point upon which I cannot state conclusively. The answer to the question was given as I had found them during the few months that I had been at Guelph. It might be the fault of our particular strain.

Yours truly,

W. R. GRAHAM.

OUR ILLUSTRATION.

A few years ago the only Japanese Bantam known here was the black-tailed white. Now the pure white are fairly common, and the black, though few, are not the novelty they were.

The bird depicted was sketched by Mr. Sewell for the English Feathered World, and he says of him: "The black Jap cock is the best solid black Jap we have ever seen. Fine in form and typical in carriage, with rich, greenish lustre through the entire plumage, he was a superb little Jap, with round, short body and beautifully furnished tail, which was carried continually in fashion for judging day."

Mr. Oke showed a sweet little pullet of this color at the "Ontario" with grand, lustrous color.

THE DARK BRAHMA BANTAM.

BY H. S. BARCOCK, PROVIDENCE, R.I.

TO the skill and labors of the late W. F. Entwistle, of England, the poultry fraternity owes the production of the dark Brahma Bantam. According to his own account he had a gray Aseel cock running in a yard with some small Cochin hens, white, buff, partridge and black, and a few white booted hens. From the cock and a white Cochin hen he reared some pullets that closely resembled the light Brahma, and from the black Cochin hen some chickens which bore some resemblance to the dark Brahma, and these two kinds, having been bred together, produced the steel gray color of the variety under consideration. By selection and careful breeding the size was

further reduced and the shape and markings further perfected. This beginning was made some fifteen years ago, as nearly as we can judge from the producer's writings, exact dates not being given.

A number of years ago, some seven or eight, the first dark Brahma Bantams were imported into this country by J. D. Nevius of Philadelphia, Pa., but the birds were then so imperfect that the results of the importation were nil. Within the last two or three years further importations have been made and birds having the shape and color of dark Brahmas are now bred and exhibited at the leading exhibitions in this country.

At the annual meeting of the

American Poultry Association, held in Boston, Mass., in January 1898, the two varieties of Brahma Bantams, light and dark, were admitted to the Standard.

While the dark Brahma Bantam has been recognised as a standard variety, much yet remains to be done for its perfection. It is still, on an average, considered too large to satisfy the exacting requirements of American fanciers of Bantams, and, so far as I have been able to learn, there is still work to be done to secure a perfection in color of both sexes, and especially in that of the males. While America is indebted to England for the first production of this variety, I predict that England may yet be in-

MR. RICHARD OKE'S (LONDON) BLACK JAPANESE COCK.

debted to America for the earliest perfection of it, thus reversing the case of the large fowls of the same name. American breeders, like other citizens of this country, do not like to remain too long in debt to the mother country.

If we cannot yet write of this variety that it has become perfectly established, I think we can congratulate ourselves upon having the foundation well and securely laid and can reasonably anticipate the time when we can write perfected on it.

While tastes differ as to what constitutes real beauty, the verdict seems to be pretty unanimous that the dark Brahma Bantam possesses all of the elements which make for beauty in feather-legged fowls. The shape is attractive and the coloration even more attractive. When the cocks are produced with beautifully striped hackles and saddles and solid black breasts, and the hens with from three to five dark pencilings upon each feather, the ground color of which is a pure steel grey, there will be, I believe, few Bantams that can be called more beautiful.

It will be many years before the size is reduced to that of our smallest Bantams, if ever such a result is obtained. But in a few years more birds ought to be bred which are not materially larger than the Cochon Bantams, and that is a sufficient reduction in size for most purposes. All Bantams do not need to be of a size. If a Bantam is not more than one-fifth the size of the large fowl, which it represents, it is certainly entitled to be ranked as a Bantam. To go much below this is to incur the danger of the loss of other qualities, quite as desirable as smallness. At the present time the birds are probably about one-fourth of the size of the larger fowls.

If one should ask of what value it is to have Brahma Bantams the answer would be that many admire the large fowls, but are unable to keep them because of the lack of

suitable accommodations. But when the Brahmas become Kantams in size, their accommodations are sufficient, and they are no longer deterred from gratifying their tastes. Bantams of all varieties have this advantage, that they can be kept in limited quarters, and by reason of this fact the number of poultry keepers, can be greatly increased. And, as every accession to the ranks of poultry keepers, adds one more to the number of producers, the poultry products of the nation have an increased value. If one could take an accurate census of the Bantam breeders of the country and of the value of their annual productions, the sum total would probably astonish even the most extravagant estimates. Hundreds of thousands of dollars annually are probably added to the wealth of the nation through these little fowls. And the end is not yet reached, for with each new variety of Bantams, and the new varieties of Bantams, and the greater number of Bantam breeders continues to increase. Where it will end no one can predict, but so long as good alone can result, this increase can be viewed without fear. The more varieties of Bantams, and the greater the number of breeders, the better it is for them and for the country. In this good work, for it can not be regarded as anything else, because of the real beauty and the not inconsiderable utility of the fowls, the dark Brahma Bantam bids fair to be an important factor.

THE National Bantam Association held its seventh annual meeting at Madison Square Garden on Thursday evening, February 1st, during the progress of the New York Poultry and Pigeon Association's eleventh exhibition. Twenty-three members responded to the roll call. President Williams presided.

There being no changes necessary in the minutes of the last annual meeting the members voted promptly to accept them and they were ordered filed.

The annual report of the treasurer showed total assets of \$163. Out of this amount nearly \$100 were paid out in cash specials, and after paying for the special ribbons and expenses of the secretary, the Association will have a cash balance of about \$20. This statement was favorably received without the formality of a report from an auditing committee, as the Association has never doubted the sterling

Will buy a setting of 15 eggs
from pen of seven

IMPORTED BLACK MINORCA

hens, which were imported direct from three leading breeders in England and average 7 pounds each pen, headed by grand large cockerel I purchased from Andrews and Santee, of Canadaigua, New York winners. This is a grand pen and should give excellent results.

C. A. MAYHEW,
Merchant, Thamesville, Ont. 500

You Get More Eggs

twice over by feeding the hens on Green Cut Bone than by any other means. It makes them lay double the number either winter or summer. Green bone is rich in all the elements necessary to egg production and at the same time imparts strength and vigor to the hen. It makes early layers of the pullets and makes broilers and chickens grow beyond comparison.

**ADAM'S
GREEN BONE CUTTER**

the easy running, ball-bearing cutter, cuts bone in finest form. Will not clog on bone, meat or gristle. Easy to keep sweet—cleans itself. Works so easy a woman or child can run it. Made in several sizes or hand and power. Send today for free Catalogue No. W. J. Adam, Joliet, Ill.

Lock Box A.

P.S.—Berkshire Pigs, and all kinds of Bee Supplies for Sale. J. B. Lewis snow-white section, best in the world.

was formally moved and carried without dissent.

Mr. McGrew suggested that members be requested to use the emblem of the Association as a part of the embellishment on their stationery and on motion of Mr. Cornman that electrotypes of the design be sold at one dollar each, the members acquiesced and the secretary was authorized to procure enough of the cuts to supply the demand.

Mr. Oke stated that he thought it in the interests of the Association to nominate the judges for 1901. The discussion on this business was most interesting, and many fine points were handled by such men as Blunck, McNeil, Glasgow and Williams. Mr. Blunck made the following motion which was seconded by Mr. Glasgow. "That the judge be not allowed to judge a class which contains birds previously sold by him to exhibitors." A lively debate followed. Some were in favor of the man who does not possess breeding yards and therefore cannot dispose of show birds to exhibitors. Mr. McNeil, however, was quite sure that he could in all honesty place the awards in a class where he would come in contact with specimens of his own breeding, without prejudice, and give the best birds their just awards even at the expense of these he formerly owned. Mr. Blunck was not sure he himself could do so well and thought it wrong to allow such a condition to exist. Mr. Glasgow argued in his most persistent fashion and informed Mr. McNeil that we must "avoid the very appearance of evil" and select judges who are disinterested parties. At this point in the discussion, the president, after calling Mr. Cornman to the chair, addressed the meeting. President Williams argued against the idea of requesting a judge to handle a class in which his interests were involved and did not think it would be fair treatment

qualities possessed by treasurer A. A. Parker, whose care and judgment regarding the finances of this body of fanciers are well known and cannot be too highly praised.

The report of the committee on appropriations was read by the secretary, as the chairman of the committee, Hon. D. A. Nichols, could not be present. Senator Nichols sent a communication to secretary Crawford, soliciting an amount in cash to be placed by this body as cash specials. In reply to this letter the honored secretary of the New York Show stated that inasmuch as the management provided the finest building in the country for holding a show, and as they are annually put under an enormous expense in order to maintain the present high standing of the New York Show, could not donate any amount in cash, notwithstanding the fact that they would very much like to do so.

The board of directors had previously voted to stand by the New

York Show and the committee was discharged with thanks.

The report was made of the vote for judge, by mail, which resulted in the selection of Mr. F. B. Zimmer, who placed the awards throughout the long line of ornamental Bantams in time to have the ribbons flying the first evening of the show. The rule was suspended and fourteen new names were added to the list of members. Resignations from Mr. Ensign and Mr. Ballard were received and accepted with regrets. It was explained that the only reason these gentlemen had for severing their connection from the Association was because their business interests compelled them to give up the fancy. Such resignations are the only kind the National Bantam Association has received. It was unanimously agreed to elect officers at the termination of the transaction of new business; whereupon the suggestion that one vice-president be elected from each State and Canada, to the limit of ten,

of the judge. He stated in a very convincing manner, that had he ever been called upon to judge a class of light Brahmas, where his own interests would become involved, he would immediately refuse to accept the appointment. Mr. Glasgow eulogized the president on the stand he had taken and complimented him for his display of such refined fancy qualities. Mr. Blunck was inclined to believe that some such method should be adopted, but he had become convinced that the plan could not be carried out, and therefore requested the privilege of withdrawing his motion. The members believing that some benefit had been derived from the discussion, assented and the subject which had occupied an interesting period was laid aside. Mr. Oke's motion to nominate judges for 1901 was seconded by Mr. McNeil—amendment by Mr. Cornman, "That the meeting select three judges to be voted for at the annual poll and in the event of a vacancy the board of directors shall have the power to fill it." Mr. Oke accepted the amendment and the motion was put and carried. The nominations for judges resulted in the naming of six fanciers; namely, H. J. Quilhot, F. B. Zimmer, C. E. Rockenstyre, W. J. Andrus, Wm. McNeil, who declined in favor of Sharp Butterfield, and George Perdue. In order to facilitate in voting, the chair was authorized to appoint a teller to canvas the vote. Mr. Louis P. Graham was appointed and secured the silent votes from the members. Each member had the privilege of making a mark opposite the names of three of the six nominees. The first vote resulted in H. J. Quilhot receiving 17; C. E. Rockenstyre 15; and a tie between F. B. Zimmer and W. J. Andrus with 12 each, scattering 4. Another vote was ordered on the tie which resulted in W. J. Andrus receiving 12 and F. B. Zimmer 6. After attesting to the accuracy of the

count Mr. Graham received the thanks of the meeting for acting as teller. The election of officers followed. Mr. Jehl moving to nominate by acclamation the present occupants of the office respectively of president, secretary and treasurer. It was so ordered. The chair appointed a nominating committee consisting of Messrs. Cornman, Parker and Corson who selected a slate comprising members for the board of directors and a list of vice-presidents. The selections made by the committee were read and Mr. Glasgow was ordered to cast one vote for the election of these officers which was done. The list of officers has already been published. Before adjournment the members, by a rising vote, thanked the poultry press throughout the country for the assistance it had rendered the Association in the past by liberally donating its valuable space in the dissemination of news concerning Bantams and their breeders.

The meeting was graced by the presence of Mrs. E. S. Starr, representing the "Philadelphia Public Ledger," and by Mrs. Louis P. Graham. On motion the meeting adjourned. E. LATHAM, Secretary National Bantam Association. Flatbush, L.I., N.Y., February 13, 1900.

NATIONAL BANTAM ASSOCIATION.

THE officers elected to serve the National Bantam Association for 1900 are as follows:

President, Philander Williams, Taunton, Mass.; Secretary, E. Latham, Flatbush, L.I., N.Y.; Treasurer, A. A. Parker, Dunellen, New Jersey.

The Board of Directors consists of:

B. C. Thornton, So. Vineland, N.J.; J. D. Nevius, Philadelphia, Pa.; T. F. McGrew, New York City; George Corson, Plymouth Meeting, Pa.; Richard Oke, London, Canada; H. O. Havemeyer, Jr., New York City; the President, Secretary and Treasurer.

Vice Presidents from the several States and Canada are:

New Hampshire, A. F. Peirce; Massachusetts, Dr. W. Y. Fox; Connecticut, Hon. D. A. Nichols; New York, C. E. Rockenstyre; New Jersey, M. M. Fullarton; Pennsylvania, Chas. F. Cornman; Ohio, H. A. Bridge; Georgia, M. Mayer; Canada, Wm. McNeill.

The following fanciers, applying for membership were unanimously elected:

C. H. Pope, Brocton, Mass.; M. Mayer, Brunswick, Ga. F. W. Mercer, New London, Conn.; H. Warren Stevens, Ridgefield, Conn. M. T. Burn, Tilsonburg, Ont.; W.

W. BARBER & CO.

Importers and Breeders of all kinds of

GAMES AND GAME BANTAMS AND FOX TERRIER DOGS.

OUR RECORD AT THE PRINCIPAL SHOWS:

Jan. 1891—New York. 18 firsts, 7 seconds, 4 V.H.C., 4 H.C., 3 ten dollars in gold, also 3 five dollars in gold. 1893—The World's Fair, Chicago. On 45 entries, won 33 firsts, 7 seconds, and 3 thirds. 1895—January—Buffalo, N.Y., 19 firsts out of 20 on Games. First on Game pen; also ten dollars in gold for best collection, also a good share of firsts on Bantams. 1895—January—The Ontario Show at London. We won more specials than all the Game and Game Bantam breeders, including the Champion Game Cup, the Cham-

pion Game Bantam Cup, and a waggon load of other specials, too numerous to mention. 1898—September—The Toronto Industrial, 16 firsts, 14 seconds, 12 thirds and two medals. 1898—September—The Western Fair, London, 14 firsts, 12 seconds and 10 thirds. 1898—September—Ottawa Central Fair, 16 firsts, 14 seconds and 15 thirds. "Ontario," Toronto, 1899, 9 firsts, 12 seconds, 14 thirds, and 6 specials. At the great New York Show, 1899, 8 firsts, 6 seconds, 3 thirds, 4 fourths and 7 specials

Flatbush, L.I., Feb. 1, 1900.

AN AUTOMATIC NEST.

IT ACTS SOMEWHAT LIKE THE CASH REGISTERS TO BE SEEN IN MANY CITY STORES.

THE cut shows a nest for confining each hen as she goes on to lay. Several times a day the nests can be examined and those hens which have laid can be liber-

ated, after taking the hen's number and marking her eggs. Thus one can find the best layers, and breed for better layers each year. The nest tilts enough when the hen steps on the edge of the opening to tip down the thin door that will shut her in. The wedge behind slips down and holds the nest firm, so it will not rock back and forth. —Orange Judd Farmer.

MONTREAL'S SHOW.

THE EXHIBITORS—THE AWARDS—THE CUP WINNERS.

OUR correspondent's report of Montreal Show has been delayed, owing to his absence from home. It will appear in next issue, possibly in another part of this if we get it later.

EXHIBITORS.

Fairfield Plains, Ont.

POULTRY AILMENTS.

We invite questions and correspondence for this department.

CHICKEN-POX.

CHICKEN pox rarely attacks mature birds, but it is seen on half-grown stock, and during the fall of the year. A wet dark season seems to cause an increased number of cases, and a more severe type of the disease. The prominent feature of chicken pox is the sores or ulcers that appear upon the bird. These at first are little red points; then matter forms, and the spots have a white appearance. The centre dries a little, leaving a depression. The scabs are scratched or rubbed off, leaving a raw surface. If the ulcer forms near and extends to the eyes, the sight of one or both may be lost. In severe cases, where there are large numbers of the ulcers, the bird loses appetite and strength. Chicken pox commonly runs a mild course and the birds recover with little or no treatment. The ulcers ordinarily appear on the head, face and underside of wing, but in some epidemics are found on all parts of the body. To save irritation apply carbolated vaseline to the ulcers every day. Keep the sick birds indoors on wet days, and in a dry house. Feed lightly a mash that is made largely of animal food, such as meat-meal and ground grain, mixed with boiling milk. Coop in orchard, if possible, in

summer, and in the cold shut-in days do not forget to give cut clover.

ECZEMA.

This is a disease showing itself by an eruption on the skin, and is apparently caused or aggravated by too much stimulating food. It is not contagious. The eruption appears first on the wattles and may only be noticed there. First, you notice white points, then they grow larger, run together, burst and discharge a thin liquid that dries, forming a crust. The sick bird has little appetite and moves about aimlessly. Two grains calomel and one each of citrate iron and quinine, given morning and night, for ten days, will do for internal medication. To the wattles and other parts having the eruption, apply an ointment of the oleate of zinc. Feed plain food, with cut clover, or grass, and give the birds a good roomy house and ample run outside.

THE COMB.

The appearance of the comb is a reliable index to the general condition of the body. When you find the comb looking bloodless, light colored and limp, you know you have an anaemic bird. On the contrary, when you see the comb dark colored, purple and tense in substance, you have the opposite plethora. Between these two extremes you will find in perfect

birds a comb with plump look and healthy color. The condition of wattles and earlobes will confirm your opinion as formed from the comb. Changes in comb are nearly all due to some disturbance or disease in some other part of the body.

FUNGOID.

Fungoid is a rare disease in this country, but is seen at times, in birds kept in city barn basements. It is somewhat contagious, but does not seem to spread rapidly, except in flocks badly debilitated from unhealthy surroundings. Fungoid presents at first a few bead-like swellings on the comb (and wattles), hard to the touch. These little bodies in a day or two grow soft and break, discharging a yellow fluid. Before these sores heal other points appear, grow soft and follow the course of the first crop. Lot after lot appear, the head swells and the eruption spreads to the neck. The discharge dries and is mixed with dust, giving an unsightly appearance to the bird. You are not likely to see this disease among your own birds, unless in some extraordinary way it has been introduced from outside. Persons who care enough for hens to take a poultry paper or attend instruction in poultry culture will not so feed and care for birds as to get them in condition to develop fungoid. Birds with this disease are not fit to eat, and if in a badly debilitated state should be

Use Guest's Roup or Tonic and Condition Pills.

If your fowls or pigeons have Roup, even if almost dying, give one Pill every day, for four or five days.

They are especially suited for Roup, Rousy diseases, Bad Moulting, Bad Fledging, Weak Young Pigeons, Chickens, Turkeys or Ducks, &c. For general Unhealthiness in Birds, either young or full grown. Skin diseases, Inflammatory diseases, Colds, with great difficulty of breathing. Indigestion, Cramps, Pip, when apoplexy is feared, and going Light if given before the vital organs are too much affected. As a tonic give an occasional dose when required. For pain and Inflammation in the Egg-producing organs. When used for Egg-bound, oil must also be applied in the usual way. From weakness and prostration from overlayering. For Scour or Diarrhoea in Chickens, young Pigeons, Turkeys, etc. Canker. Leg-weakness.

Since the introduction into Canada of these Pills, the Agent has received numerous letters from Fanciers all over the Dominion endorsing the Pills in the highest manner.

WARDSVILLE, ONT., Jan., 1897.

READ THIS—Dear Sir,—I can recommend them to be the best. I tried several other receipts, but no good. I had one hen nearly blind, I gave her three Pills. She is now in good trim. Send me another packet.—B. J. YORK.

Dear Sir,—Please find enclosed one dollar for your celebrated Roup Pills. A brother fancier met me in the street to-day, he wished to get the pills as he has some sick birds. He used them last winter and found them good. A good article always will recommend itself.—JOHN FINCH.

SEAFORTH, ONT., Oct., 6th., 1886.

Sold in Packets for 25 cents and one dollar. Address James H. Cayford, Box 1168, Montreal.

killed and burned. On the other hand, if your birds are in good health, and yet there are a few cases of this disease, you can probably handle it without great trouble. All sick birds should be quarantined. Tie the legs of each bird together just loose enough to allow walking, but tight enough to stop all scratching of head. Sponge the sores with a wash of carbolic acid crystals, five grains to a pint of water. Feed well balanced rations, not forgetting to add black pepper to the mash.

WHITE COMB.

White comb, like fungoid, is a disease of city rather than country, and hence not likely to be met on a poultry farm. It is also caused by bad air, little or no sunlight, and fostered by the lack of green food. It makes its appearance on the comb in the shape of little white pin-headed points, that soon break down, run together and form a thick, whitish crust, that comes

off in flakes. When the disease extends to the neck, the feathers come off, giving a grotesque look to the bird. These cases cannot be cured unless removed from the dark basement to green fields and this can seldom be done. Like fungoid, the single cases that may now or then creep into an otherwise healthy flock, can be cured by a like treatment, but I doubt whether it will pay for the time needed.

BLACK ROT.

This is gangrene of the comb, met with occasionally in any of the tall comb varieties, but most often in the black Spanish. Whether it comes from disease of the liver or not, it is true that in every severe case the liver is badly congested. Any part of the comb may be effected, but it is at the points that it first begins to show. The part diseased is purple, then blue, lastly black. Circulation ceases in the part and it rots. Few birds live long enough

ROUP CURE GUARANTEED. ROUP

CONKEY'S ROUP CURE is the only remedy that will cure roup in all its forms as long as the fowls can see to drink. For canker, especially in pigeons, this cure excels all others. It is simply put up in drinking water and the fowl takes its own medicine. The lives of two chickens is enough to pay for one tube which will cure a hundred or more Directions in every package. If this fails we will refund the money Sent postpaid Small size 50 cents, large size \$1.00

for the diseased parts to drop off. With the comb symptoms there is a bowel discharge, somewhat loose and yellow in color. The sufferer has no desire for food or exercise. Paint the comb twice a day with a lotion made of one ounce of water, one-half ounce glycerine, two grains carbolic acid crystals. Have in reach at all times green food in some form.

FROST BITE.

Frost bite looks much like black rot, but the bird is wide awake and shows a desire for food. The parts that have been frozen, comb or wattles, are purple. If not too badly injured, little by little the blood supply returns and the parts regain the usual condition. If long frozen, or too suddenly thawed out, the parts grow darker in color and at last black, and may drop off, adding deformity to the defects of the bird. Birds with tall, thin combs need a lower and warmer house than the rose-comb varieties, but even with the best of care a bird occasionally gets the comb frozen. To reduce the swelling and hasten the return of the circulation, apply to all frozen parts twice a day, the following mixture. Vaseline, 5 tablespoonfuls; glycerine, 2 tablespoonfuls; spirits of turpentine, 1 teaspoonful.

FISH SKIN DISEASE.

This is a dry and rough condition of the skin of the shank. There is an absence of the oily constituent causing the scales to be brittle and crack, allowing dust and filth to get between and under the scales and give an unpleasant appearance. Fish skin disease is not caused by an insect, as is scaly legs, but does seem to be found in certain lots of birds, giving the impression that it may be largely a trouble of hereditary taint. Softly rub the dry spots of shank and toes with some petroleum jelly, as vaseline or cosmoline, or an ointment of vaseline, two parts; oleate of zinc, one part. This will soften the skin and restore the natural condition. — American Poultry Journal.

I wish you would kindly answer this question in the Review. There is some disease among my fowls and I do not know what it is. A large barred Plymouth Rock rooster has just died. While sick he would lie down all the time. He had a white matter coming from his mouth. Please answer this question. W. J., Ridgeway, Ont.

Answer.—It looks like a case of canker, it is so if the matter was cheesy in consistency.

FROM A MANITOBA READER.

THIS is a new country just opening up and it is adapted to the raising of poultry, both for the market and showroom. Consequently if you have not got an agent already, I will be pleased to act as such.

J. H. WISNER, PORT ELGIN, ONT.

When spring opens I intend entering into the poultry business, first for market purposes, secondly for exhibition purposes. We have a very fine exhibition at Winnipeg each summer, also a Poultry Breeders and Exhibition Stock Association.

ARTHUR A. ROBERTSON.
Swan River, Manitoba (via Dauphin).

HURON SHOW IN SEAFORTH.

GOOD ALL-ROUND QUALITY—NOT AS LARGELY SUPPORTED AS IT SHOULD HAVE BEEN—WHO WAS THERE—THE AWARDS

WE had not quite as many entries as expected but the quality all round very good. Unfortunately the weather was unfavorable which was against a large turn out of the farmers in the district who we think should be interested in the improvement of their poultry. You will notice some of the classes are not scored which is explained by the judge not having time to finish scoring which we regretted.

Yours truly,
JOHN A. WILSON,
Secretary.

DUNNE'S SPECIALTIES

Buff Leghorns, Rose Comb Black Minorcas.

Buff Leghorns. - This is my eighth season with this popular variety. My breeders are the best I ever raised, the pick of over 100 birds. Eggs \$1.50 per 13.

Rose Comb Black Minorcas. - I believe I was the first to exhibit this "come to stay" variety in Canada. My breeding pen is selected from birds I raised from the four best strains on the Continent, being good in shape, size and color. Fine winter layers. Headed by imported cockerel, a typical specimen (see January "Review") Eggs \$2.00 per 13. Satisfaction guaranteed.

H. Dunne, 1432 Queen W., Toronto. 509

The Eastern Ontario Association's Show at Ottawa.

The Birds—The Annual Meeting—The Exhibitors—The Awards.

THE BIRDS.

THE accompanying is a correct list of the prize winners at the Eastern, Ontario Poultry Association, held in Ottawa, 23rd to 26th January, 1900.

Owing to either some misunderstanding or bad management on the part of the officials of the Montreal Show a large number of birds entered for the Eastern Ontario only arrived at the exhibition hall on Tuesday at noon. This delayed the cooping of the birds, and judging was only commenced on Wednesday.

Every exhibitor was more than pleased with the arrangements made for the cooping of their birds, and some of them said the contrast with some of the recent shows and the neat wire coops recently imported by the association tended to make the contrast all the more striking. All exhibitors from outside cities and towns were so struck with the arrangements made by the superintendent, Mr. W. Gray that they expressed their opinions in his praise in a complimentary manner. As each exhibit came in the coop was ready. It is in no boasting manner, but the Eastern Ontario Poultry Association are now the possessors of the finest and best coops of any association in the Dominion.

There were some eleven hundred entries exclusive of Pigeons.

VINELAND POULTRY YARDS

Breeder of Pure bred

BARRED and W. P. ROCKS, SILVER and W. WYANDOTTES and I. BRAHMAS
EGGS 1 — 2 — 3 — 4 — 5 — 6 — 7 — 8 — 9 — 10 — 11 — 12
per setting, \$2.00; 2 settings, \$3.50; 3 settings, \$5.00. S. Wyandottes pen headed by 1st prize cockerel at St. Catharines Fair; also pen of W. Wyandottes mated, direct from C. C. Shoemaker and birds of Hawkin's strains, B and W. Rocks.

C. FRETZ,

Jordan Station, Ont.

The entries in some of the more useful varieties was not as large as usual, but the quality of the exhibits made up for it. The barred Rocks was an unusually small class, but what there was was good, and A1; and as usual Messrs. Devlin and Jacques, of this city, carried off the honors. It may not be known to some that

MR. C. J. DEVLIN, OTTAWA, PAST PRESIDENT EASTERN ONTARIO POULTRY ASSOCIATION.

these gentlemen have supplied some of the winning birds at exhibitions in some of the Western States.

White Rocks were good. Mr. Gray, of Ottawa, had some fine birds, and those by Mr. J. C. Daniels. In the buff variety J. H. Parsons carried off the lion's share of the prizes. Mr. Daniel's exhibit was good, but not good enough to take the first place.

In the Cochins there was a large exhibit and some really fine birds. The first prize buff, owned by the Ottawa Poultry Yard, was a fine

bird. The honors in this variety were divided up between A. W. Bell, of Toronto, and W. B. Nantel, St. Jerome. In the partridge variety a fair class. Blacks, a small entry. White a large and good class. The awards were divided between W. B. Nantel and the Ottawa Poultry Yards.

Wyandottes.—Gold laced a good class. Magill, of Port Hope, gathered in the largest number of prizes. F. J. Blake, of Almonte, had two fine pullets. In the silver variety F. J. Blake carried off first for cock and hen, second and third for pullet. This was not a large class. In the buff there were some fine birds, C. J. Daniels patronizing the first. Second was equally divided between W. H. Reid, of Kingston, and Will Bailey of the same place. Whites, small in number. Fine birds, usually entered by Mr. F. H. Gisborne, were missed; still there were fine birds amongst those competing. Mrs. G. Holland, of Ottawa, secured the largest number of prizes.

Leghorns were a large class, and some really fine birds, especially amongst the young birds. The successful competitors were Gilbert & Jardine, of Almonte, Stewart & Son, S. N. Graham and Ottawa Poultry Yards divided up the prizes. In the browns there was a good class. Amongst them were some new exhibitors, J. A. Mills, of Ottawa, securing first on cock and hen and first and second on pullet, and J. Halpenny first on cockerel. Blacks, a good class. For first on cock W. M. Osborne, of Brockville, and C. J. Daniels, of Toronto, shared; the other winners were V. Fortier, Osborne and Daniels coming in for first and

DUNDAS POULTRY YARDS

B.P. Rocks—Four hens, year old, six pullets, \$1 each; three cockerels, \$2 each.
S.C.B. Minorcas—Two hens, year old, eight pullets, \$1 each; one Minorca cock, \$3, won first at all Fall shows and second at Hamilton Winter show, Dec. 1899.
L. K. MILLARD,
Dundas, Ont., Can.

Ralph Williams, Sec. Poultry Association, Ingersoll, Ont.

Breeder of **High-class Poultry—Light Brahmans, Golden Wyandottes, Golden Spangled Hamburgs.** My this year's matings are superior to any of my former. At Ingersoll, Galt and Petrolea winter shows I won 39 prizes on 39 entries—twenty 1sts, thirteen 2nds, five 3rds, one 4th, also several specials. My Brahma pens are headed by two grand imported cocks, also an imported cockerel, mated with the best females to be had, several imported specimens among them. Golden Wyandotte pen, headed by cock, winner wherever shown this year, score 92 1-2 (Jarvis), 3rd at Ontario, 1899, mated with eight fine females, among them 1st pullet at Petrolea, winner of special for best Wyandotte in class, score, 96 G.S. Hamburg pen, headed by a 94-point McNeil cock, mated with a pen of 21 hens, all of which have won in good company. Eggs from any of the above pens, \$2 per 13. Write for fuller description. 500

second on cockerel and pullets. Osborne first and second for hen. Buffs were good, what there were. S. N. Graham, J. H. Parsons and J. W. Neilson were the winners. Rose comb browns a good and large class. G. S. Oldrieve and Stewart & Son were the chief winners.

Dorkings were a good class. Daniels, Stewart & Son, J. W. Neilson, C. W. Palliser and D. Cummings competing. They all came in for a share of the prizes.

Langshans, a good class, and some very fine birds were in the lot. E. J. Dewy, of Toronto, secured first on cock, hen and pullet; the remainder of the prizes were divided amongst W. F. Garland, of Ottawa, Ottawa Poultry Yards, W. M. Baillie, of Kingston, and C. J. Daniels.

Javas, a fair class. W. H. Eves, of Kingston; W. H. Reid, of the same place, and C. J. Daniels were the successful winners.

Black Spanish a small class. J. W. Neilson securing all the firsts.

Andalusians a good class. W. A. Knight, W. M. Osborne and Ottawa Poultry Yards secured the cards.

Minorcas were good, Ottawa Poultry Yards securing first and third for cock and first for hen, Stewart & Son and E. R. Frith securing the first for cockerel and first for pullet, A. A. Fraser, W. M. Osborne, W. F. Garland and C. J. Daniels coming in for the other cards.

Games.—Taking all the varie-

ties made a good representation, but taking each variety by itself the entries were small, Mr. G. S. Oldrieve, of Kingston, securing the greater number of prizes, the Ottawa Poultry Yards coming next; in fact, they were the only competitors.

In the Cornish Indian Game there was a good display and fine birds amongst them. J. H. Parsons, of Osaca, secured the greater number of prize cards. r. H. Gisborne and J. W. Neilson each secured the same number of cards.

In the A.O.V. or white was good, V. Fortier, C. J. Daniels and J. H. Parsons all securing cards.

MR. A. P. MUTCHMOR, OTTAWA, SECRETARY - E. L. T. EASTERN ONTARIO POULTRY ASSOCIATION.

Old English Games brought out this time a strong competition. There were some twenty-four or twenty-five entries, and amongst them were two very fine cocks. One weighed eight pounds, the other seven, and a third five. This class is gradually growing in popularity, and each year the entries increase. This variety is a very useful one for cross-breeding, especially with the brown Leghorn—in fact with almost any strain of fowl. Mr. Benjamin secured three firsts and two seconds, Mr. J. W. Neilson first and two seconds.

Hamburgs as usual kept up their reputation, both in numbers and quality. The honors in the various varieties were divided amongst Stewart & Son, V. Fortier, J. W. Neilson, W. H. Reid and E. F. Murphy.

Polands, taking in all the varieties, made a big show, and as usual were a fine lot, Mr. V. Fortier as usual securing the majority of prizes, Stewart & Son coming in for some firsts. Houdans were good. Fortier, Reid, Osborn and Daniels all gained honors. Red Caps about as usual. Stewart & Son, C. J. Daniels and W. M. Osborne carried off the prizes in the A.O.V. C. J. Daniels secured all the firsts and seconds.

Bantams as usual made nice classes. In Game varieties the only competitors were Mr. G. S. Oldrieve and the Ottawa Poultry Yards. A reference to the prize list will show the winnings of each. A stronger competition, or I should say, a more numerous entry, would make the competition all the more interesting. Sebrights, G. and S., were good, and good entry. The list will also show the winners in this class. In the Rose Comb black there is always a keen and close competition. Mr. E. F. Murphy, of Ottawa, again carried off the laurels, having secured three firsts and two thirds. Mr. Murphy with this variety gained high honors in strong competition at one of the Montreal

MAPLE LEAF STOCK FARM

JEROME C. DIETRICH, Proprietor.

Maple Leaf Stock Farm.—Breeder of Black Leghorns, Black Minorcas and Barred Plymouth Rocks, one pen of each variety made up as follows: **Leghorns**, one cockerel, score 94, two pullets 94 1-2 each, one 96 and one 97, two hens 94 1-2 each, average score for the pen 95. **Black Minorcas**, one cock weighs 8 1-2 lbs. score 92 1-2; three hens, one imported from England, and three pullets all over standard weight, scoring from 92 to 94. My Minorcas are noted for their large size, grand color and excellent shape, eggs from these two excellent pens only \$2.00 for 13. One pen **Barred Plymouth Rocks**, one cockerel, two hens and four pullets, two pullets imported from two of the best breeders in the United States, the others were selected for me at the Galt show out of a class of 70 at a very high price. Eggs from this pen \$3.00 per 13. Address all communications to Wm. G. Lovell, Box 357, Galt, Ont. Hanover, Ont.

exhibitions. All exhibitors are pleased when they see the red cards on his coops. Buff Cochins, what there were, were good. The other classes of Bantams were as usual.

I must now come to the Turkeys, Geese and Ducks. The display was fine, and some fine specimens. As usual Mr. A. Thompson, of Allan's Corners, who is by far the largest exhibitor in this class, carried off the greater number of prizes. D. Cummings and Stewart & Son competed against him in the Turkeys and Geese, and in the Ducks he had as worthy competitors W. R. Knight, J. W. Neilson, Stewart & Son and the Ottawa Poultry Yards.

In the farmers' heavy breeds A. Thompson first and D. Cummings second. In the light breeds A. A. Fraser, Methu. & Son and Stewart & Son gained the honors in the order here given.

White eggs—First, E. R. Frith; second, Mrs. Holland; third, J. Halpenny; fourth, D. Cummings. Colored—First, Stewart & Son; second, C. J. Daniels; third, D. Cummings; fourth Mrs. Holland.

E. H. B.

THE MEETING.

THE 16th Annual Exhibition held in Ottawa, Jan. 20th to 26th, 1900. The show was held at the Ottawa Fruit Co's buildings. The show occupied two flats. The exhibit was the best in the history of the Association. The Association's new coops arrived from England in good time and were pronounced a decided success. The writer thinks it the best benched show this season. Lord Minto visited the show.

The members held their annual meeting on Thursday evening, December 25th, at the office of A. P. Mutchmor, President C. J. Devlin in the chair. The minutes of previous meeting were read and confirmed. The Treasurer's report was read and adopted. Fred Blake, Almonte, moved that next show be held in the town of Almonte. Carried.

Moved that Mr. Fred Blake be President—Carried. G. S. Oldrieve, Kingston, 1st vice-president; J. C. Smith, Ottawa, 2nd vice-president; Directors: Ottawa district, C. J. Devlin; Cornwall district, W. H. Osborne; Belleville district, Mrs. G. C. Holland, Ottawa. Selection of poultry and pigeon judges was left to directors. Names of H. B. Donovan and C. F. Wagner were mentioned as pigeon judges.

Chas. Blatch, Ottawa, was appointed auditor.

Messrs. Gisborne and Devlin were appointed representatives for Central Exhibition.

It was moved and carried that on account of charges of dishonest dealing etc., against G. Wood that his entries on pigeons be not accepted at future exhibitions. A vote of thanks was tendered Mr. A. P. Mutchmor for the use of office.

Mr. Gisborne tendered his resignation as Secretary of the Association. The President, Mr. F. Blake called the meeting to order and Mrs. G. C. Holland read the following address and presented

Trees FOR Orchard, Lawn and Garden, Ornamentals, Shrubs, Roses. See Illustrated Catalogue

for Prices, Varieties, etc. **20th Year.** Choice Seed Potatoes.

Best Eggs for Hatching. At the Central Nursery.

A. G. Hull & Son, St. Catharines, Ontario.

American Poultry Food Co.,
Box 942, York, Pa.

Mr. Gisborne with a very handsome gold-headed cane. The address read: "We, the members of the Eastern Ontario Poultry Association, here assembled at the annual meeting desire to express our appreciation of your services to the Association, more especially as Secretary. The high position it now holds is due to your energy and the interest you have taken in furthering the poultry industry. In your retirement from the position the Association loses its most valuable officer, but feels that at all times if your advice is needed to further advance its interests and place it still more prominently before the public and the poultry men of the Dominion it will be cheerfully given."

Mr. Gisborne thanked the members of the Association for their appreciation of his services. The position had enabled him to make many friends whom he valued, and he regretted that the demands upon his time and energy obliged him to resign. He objected to the term "fancy poultry" as applied to the birds exhibited by the members of the Association. They were not parrots or canaries, but practical poultry, suitable for egg production or for the table and the members of the Association were really aiding in the development of an important industry. He hoped that this view of the matter would be taken by the public generally and especially by the farmers who would be greatly benefited by attending these exhibitions.

C. J. DANIELS.

P.S.—At a subsequent meeting of the Board of Directors, Mr. A. P. Mutchmor was unanimously appointed Secretary of the Association.

ST. JEROME SHOW.

A NICE SHOW IN QUEBEC—FULL LIST OF AWARDS AND NAMES OF EXHIBITORS.

Breeders!

A card like this

(1½ inches) will be inserted in REVIEW 3 mos. for \$3.00, 6 mos. for \$5.00, or one year \$8.00. Cuts may be used where we have them. 5 per cent. off for yearly contracts where paid in full in advance.

BRANTFORD'S SHOW A BIG SUCCESS.

HALF AS BIG AGAIN AS LAST YEAR—THE AWARDS IN FULL.

WE had a splendid show, the entries numbering one-half more than last year. Our judge, Mr. Geo. H. Northup, gave entire satisfaction. The show was well managed in every detail and outside exhibitors expressed their pleasure at having been here and expressed the hope of again being with us another year.

W. W. TELFER,
Secretary.

CACKLE.

Too crowded this month to say much. Prefer to let others do the talking, and they do talk loudly.

Note dates and addresses. No distant ones, none in South Africa or the North Pole.

April, May and June are good egg months in Canada.

WE DID NOT ASK FOR THESE.

"I had great success with my small ads. last month." W. G. MURRAY.

Strathroy, Feb. 20, 1900

"We are making good sales, and many of them through the Review."

HENDERSON & BILLINGS.

St. Marys, Ont., Jan. 22, 1900.

"We feel that we should add our token of appreciation at the unlooked-for return from our small space in your paper by mentioning the fact when renewing. We have had responses from North-West Territories to Halifax, and feel we could not spend our money more profitably."

Wishing you success,

THE CANADIAN POULTRY RAISERS SUPPLY CO.

Toronto, Feb. 15, 1900.

"I find if I have anything for sale, all I have to do is to advertise it in the Review."

R. T. KNIGHT, Guelph.

Feb. 15, 1900

"I have had a most prosperous year, both in sales and winnings. My sales have been large and good, and a great demand for good stock, with a good demand for eggs in setting season; and the Review is the only paper I advertise in. Thanks to our Canadian Review! May she still grow with our fair-minded editor."

J. H. MINSHALL.

Brantford, Jan 20, 1900

see that if a person don't get good at once they should not get discouraged, for it will come after a while."

AMOS KELLY, Sr.
Quinn, Ont., Feb. 3, 1900.

DISTANCE NO OBJECT.

The Review does not claim to cover the earth but it does say that it covers Canada pretty thoroughly and a good deal more too.

The following letters were received, amongst others, in one mail last month, and are given as an illustration of what we mean. Locations, dates, names, etc., are given in full; in fact, as the showman would say, "There is no deception":

Grand Rapids, Mich., February 5, 1900.

Enclosed find order for \$1.00 for 3 subscriptions for Canadian Poultry Review, sent to the following addresses for one year:

J. W. Vande Vooren, Rural Route No. 1, Box 2, Grand Rapids, Mich. J. W. Hansen, 1023 Union Boulevard, Grand Rapids, Mich. R. & T. Scott, Rural Route No. 1, Grand Rapids, Mich.

and oblige yours truly,

L. SCOTT.

Peterboro', Feb. 6, 1900.

February 6, 1900.

I am very much pleased with reports of meetings, etc., at Peterboro'. Kindly send me 20 copies of Review—February number—and I will remit price to you. I want to distribute them to aldermen and County Council. Yours in haste,

WM. COLLINS.

And so on ad lib., but we must draw the line here for this month.

WHAT A. C. HAWKINS SAYS.

FOLLOWING is a letter from Mr. Hawkins, who is breeding poultry as a business. The

Review is the only medium in Canada that he uses. He has now been with us one year and renews his advertisement indefinitely.

A. C. HAWKINS,
Riverview Stock Farm.

Cambridge Mass., Feb. 10, 1900

Mr. H. B. DONOVAN,

Dear Sir:

I enclose check for adv. to date.

'Am very glad to say that my business in Canada has been good during the past year, and I trust the stock I have shipped there will be a benefit to the country and a credit to the breeder.

Truly yours,

A. C. Hawkins.

Sample Free. Rates same to all, and printed in each issue. No special rate, no cut rate so please don't ask for it.

H. B. DONOVAN, Toronto

SECOND ANNUAL MEETING
OF THE NATIONAL EXHIBITION GAME
AND GAME BANTAM CLUB.

The second annual meeting of the club was held in Chicago, January 25, 1900.

The following report was read

our last meeting. The membership of the club reached forty-three during the year, but in November Messrs. Hamilton, Fuller and Howley resigned and on December 1st eight members were dropped because of failure to pay annual dues. These members were each notified in writing three times by your Secretary that the dues must be paid by December 1st if they wished to remain in the club. As none of them paid or even replied to the communications mentioned, and as the by-laws are explicit in their instructions on the point, your Secretary had no choice but to comply.

Twenty-two members were se-

Five articles have been written by your secretary and each of them published in about sixty papers.

The 1899 circular was mailed to about 400 Game breeders besides club members.

B. C. Thornton and T. J. Price were reinstated as members.

The election of officers was then held and resulted as follows:

President and Director, W. E. Walden; First Vice-President, F. C. Wright; Second Vice-President, A. E. Blunck; Secretary, Treasurer and Director, W. W. Withee; Directors, J. C. Pratt; D. C. Buckstaff, E. J. W. Dietz.

Motions were made authorizing

WHITE PLYMOUTH ROCKS, OWNED BY MR. J. F. N. KENNEDY, AGINCOURT, ONT.

by the Secretary and Treasurer, J. C. Pratt.

"The club now consists of thirty-two members.

This is a net gain of eleven since

cured during the year which would have about doubled our roll of members if all who joined had had the good of the club and its interests at heart.

Board of Directors to make all necessary arrangements regarding next annual exhibition, and after discussion the club adjourned.

W. W. WITHEE,
Sec.-Treas.

L. H. DAVIS,

THE TWO SCIENTIFIC COMPOUNDS

Dr HESS
POULTRY

PAN-A-GE-A

GREIG MANUFACTURING CO.,

More sold in the DOMINION each year than all quack goods combined DR. HESS' POULTRY PAN-A-GE-A is not a poultry food. Don't take any poultry food as a substitute. PAN-A-GE-A possesses special merit peculiar to itself, cures diseases and makes hens lay. It is not a stimulant, but a reliable tonic.

FOR POULTRY

DR. HESS' POULTRY PAN-A-GE-A AND INSTANT LOUSE KILLER

INSTANT LOUSE KILLER KILLS LICE

It is in powder form, does not stain the plumage, nor taint the eggs and meat. A great advantage over liquids. Put up in round cans, with perforated top, most convenient to use. If you cannot procure them of your local dealer, it is manufactured by DR. HESS & CLARK, Ashland, O.

Canadian Agents
MONTREAL, CANADA.

NINTH ANNUAL MEETING OF THE AMERICAN PLYMOUTH ROCK CLUB.

THE ninth annual meeting of the American Plymouth Rock Club was held in the reception room at Tattersall's at Chicago, Ill., January 24, 1900, the President, Mr. W. S. Russell, presiding, with 25 members present.

The applications for membership of 159 breeders were read and they were duly elected to membership. The new ideal cuts by Sewell were discussed at length, the female being adopted, the male is to be revised. Messrs. Russell, Bicknell & Schwab, committee in charge. The emblem of the Club as presented by the Secretary was adopted.

The following officers were elected: President, W. S. Russell, Ottumwa, Io.; Vice-Presidents, F. J. Marshall, Middleton, O., J. Y. Bicknell, Buffalo, N.Y., Victor Bradley, Lee, Mass., Robert Downs, Toronto, Ont., Philander Williams, Taunton, Mass., J. F. Crangle, Fisher's Island, N.Y., D. T. Heimlich, Jacksonville, Ill.; Secretary and Treasurer, H. P. Schwab, Rochester, N.Y.; Executive Com-

mittee, A. C. Smith, Waltham, Mass., C. H. Welles, Stratford, Conn., F. H. Shallabarger, West Liberty, Io., W. B. Gibson, West Alexander, Pa., H. S. Fletcher, Watertown, S.D., Wm. Towler, Vancouver, B.C., W. A. Noal, Walton, Ind., Hon. Vice-Presidents, Mrs. C. A. Damon, Chicago, Ill., Mrs. E. J. George, Pewaukee, Wis., Mrs. Robt. Holloway, Alexis, Ill., Miss Cora Rickards, Ogden, Utah, Mrs. A. P. Montross, Galien, Mich. Hon. State Vice-President, M. S. Gardner, N.Y., A. W. Marburger, Penn., Chas. McClave, Ohio, E. M. Durham, Mo., C. L. Hogue, Mich., S. S. Noble, Ill., C. J. Devlin, Ottawa, Canada, I. T. Cox, Ind., W. H. Palmer, Mass., J. M. Holt, Iowa.

The annual dues were not increased, they remain at 50 cents.

Club silver cups will be awarded for competition by State members only in every State having more than ten members. It was decided to issue a club catalogue, the members being requested to furnish articles and also to take advertising space. It is our aim to make this an instructive and valuable work; we have the material, now give us your hearty support, we want every barred Rock breeder with us in this undertaking.

Addresses were made complimenting the officials on the club's grand condition and the excellent record made the past year, many other affairs received action, send for circular giving full particulars of the meeting.

The club is in capital shape, it is progressive, it is full of value and help to each and every member.

During the past year our work has extended throughout the United States, Canada, British Columbia, and Mexico. We have members in every section. We urge all breeders and fanciers of barred Plymouth Rocks to consider the value of membership an honor if nothing more, and join although we prefer you to take active part in club matters, use the club cuts and emblems for the buyers well know that our club emblem is the sign of reliability.

The initiation fee is \$1. Annual dues, 50 cents. Lady breeders are admitted free from all charges, send in your application to-day.

H. P. Schwab, Secretary and Treasurer, Rochester, N.Y.

[When finally adopted the ideal engravings will appear in Review. —Editor.]

THE NEW YORK SHOW.

THE entry at New York in the open classes of fowls was 1,829. Dressed poultry and eggs made a big display, and the exhibition yards were a show in themselves, numbering no less than 129. The number of Canadian exhibitors was larger than usual and of course they did well. In white Cochins McNeill and Oke won first cock and first hen. J. H. Magill was second in gold Dot. pullet. On buff, do., Mrs. Shales won fifth on cock and fifth on cockerel and second on black Minorca cock with the Toronto winner. McNeill and Oke won again in black Wyandottes, strongly in Javas, Polish, Hamburgs and Bantams, etc., taking seventy-five firsts and over thirty specials.

Newton Cosh won all firsts on Andalusians including pen, and al-

so second on cockerel. Jas. Dundas won second on buff Leghorn pullet and fifth on cock. J. N. O'Neil won first cockerel and first pullet in white Minorcas. John Crowe, Guelph, and W. Barber, Toronto, were both large winners in the Game classes, and the latter was also a heavy winner in Game Bantam classes, including several specials. He also won the \$250 Game challenge cup.

I had the pleasure of attending the New York Show for the

White Minorcas

O'NEIL'S WHITE MINORCAS AGAIN TO THE FRONT

Madison Square Gardens, New York, February, 1900, on two entries, 1st cockerel and 1st pullet Toronto Poultry Show, December, 1899, six entries, two 1sts, two 2nds, two 3rds and all specials in class, old and young competing, Toronto Industrial, September, 1899, ten entries, three 1sts, three 2nds, two 3rds. Stock and eggs for sale. Orders for eggs now being booked. Stamp for reply. J. N. O'Neil, 53 Elm Grove, Toronto. 300

first time. It was certainly a model slow and is well worth going to see. The three hottest classes in the show were perhaps the Brahmas, barred Rocks and black Minorcas. Of the latter I had the pleasure of handling the most of the winners, as I was anxious to see how they compared with our best, and while they have some excellent birds, I think our friend Minshall could have mixed it up fairly well with them.

I have two chickens out and doing well. I consider this very good for the first hatch, being the only two fertile eggs in the lot. The pen had not been mated a week, so the unfertility did not surprise me any. Wishing the Review continued success, I remain,

Yours truly,

NEWTON COSH.

SIMCOE, ONT.

AMERICAN BUFF PLYMOUTH ROCK CLUB.

THE third annual meeting of the American Buff Plymouth Rock Club was held at Madison Square Garden, New York, January 31, 1900, with the President, F. C. Shepherd, in the chair. Many members were present and matters of interest discussed, among them the question of color. 'Twas the sentiment of all "that the more the debate the further we got away from the question." It was suggested that three judges, who agreed as to the proper shade of buff, should be selected to judge at the different shows, and that associations should be asked to engage one of them. This would give all breeders a knowledge of the shade preferred, after being present at one show.

The officers for 1900 are: President, H. E. Benedict, Elmira, N.Y.; Vice-President, H. W. Higgins, Orange, Mass.; Secretary and Treasurer, W. C. Denny, Rochester, N.Y.; Executive Committee, F. C. Shepherd, Toledo, Ohio; R. G. Buffinton, Fall River, Mass.; D. H. Foster, Gowanda, N.Y.

The Secretary's report shows 220 members in good standing and a

large sum in the treasury after paying for ten state cups and the club cup at New York, which was won by W. C. Denny. The club had a large list of cash specials, \$60 being offered by the club and members. The exhibit was the best and one of the largest classes yet brought together, 82 single birds and 6 pens competing.

A new catalogue will be issued as soon as possible. All who have not yet joined and who want their names in the new list of members should send their names at once, with \$1 each for membership fee and dues, to

AMERICAN LEGHORN CLUB

AT the annual meeting held in Boston, February 18, 1900,

the following officers were elected: President, W. E. Bright; Vice-Presidents, Jas. Forsyth, Ezra Cornell, W. W. Harrington, L. S. Bache; Secretary-Treasurer, Geo. H. Burgott; Executive Committee, Geo. H. Morris, Aug. D. Arnold, Geo. Kraft, W. B. Wiebke, W. A. Gibson, J. G. Underhill, H. W. Weeks, W. W. Kulp, J. Emlin Smith, Jas. C. Cheston, F. A. Rogers.

The following resolutions were also adopted: that at shows where a reasonable amount is donated for Leghorns, by the society or by its friends, that the secretary is instructed to furnish such societies with special prize ribbons, to be competed for by members of the club only as follows: special ribbons for the best colored male, best shaped male, best colored female, best shaped female, most typical male head, most typical female head, in each variety of Leghorns.

These ribbons will be gotten up in the same manner as the New York and Boston show prize rib-

bons are, and will be a valuable prize and worth winning. Secretaries of the different shows will please correspond early with the secretary, giving full information as to their specials on Leghorns, and as to how many members of the club will compete at their show, as near as possible, thus giving us time to decide as to the number of ribbons we shall need. The cups offered this season at New York and Boston were won as follows, at Boston, cups on S.C. browns, W. E. Bright; S.C. whites, Elm Poultry Yards; S.C. buffs, Ezra Cornell; at New York: cups on S.C. browns, Geo. H. Burgott; S.C. whites, The Highlands; S.C. buffs, Aug. D. Arnold.

GEO. H. BURGOTT.

Sec.-Treas.

Lawton's Station, N. Y.

What the New Ads. say this Month.

In this column we note from month to month new display advertisements, changes for same and the advent of yearly "For Sale" ads.

Itenable Poultry Yards offer eggs from many popular breeds at \$1, or two settings, \$1.75; 109 for \$9.

* * *

Newton Cosh won largely at New York on his famous Andalusiens. A few choice specimens for sale.

* * *

Uplands Poultry Farm, of which Mr. M. P. Jarvis, late of Guelph, is manager, takes a large space in this issue. A description and engraving of the principal house on this farm appeared in last Review. Eggs and birds for sale.

* * *

Aug. D. Arnold has made a remarkable record in his buff Leghorns at the late Madison Square Garden Show, and has also made a grand record with his buff P. Rocks at Hagerstown and Philadelphia. This is the first time he has had his birds in the show room since 1897. See his ad in this issue.

* * *

Lynnhurst Poultry Yards are so well known that we need but to mention the appearance of their ad. Cochins and Bantams are their specialties.

* * *

Nethaway & Miller offer a medicated nest-egg, warranted to prevent vermin appearing in the nests of laying hens.

* * *

Hy. Dunn makes a specialty of white Plymouth Rocks, and made a grand record at the recent Montreal show. He has stock for sale, and eggs at \$2, or three settings for \$3.

* * *

W. A. T. Blanchard offer eggs from several high-scoring varieties.

* * *

Yukon Poultry Yards give a list of the many varieties bred. Birds and eggs for sale. Their wins have been many this season.

* * *

Northern grown trees grow. All sorts sold by J. H. Wismer.

* * *

The "mis-sus" would appreciate a few nice flowering bulbs. John A. Campbell has them in Cannas and Gladioli.

* * *

J. E. Meyers "Safety Incubators" are warranted. Write for full particulars.

* * *

Samuel Cushman, the goose breeder, offers geese and eggs—all kinds and various prices to suit many pockets. He has made a study of this business, and knows all about it.

* * *

John Ramsay has grand white Leghorn cockerels for sale.

DUNDAS POULTRY YARDS

Breeder of BARRED PLYMOUTH ROCKS and S.C.B. Minorcas and S.C.W. Leghorns. Have won 21 first prizes and 23 seconds and 4 thirds at Fall and Winter Shows this season. One cockerel mating and 2 pullet of Rocks. Two matings of Minorcas and one of Leghorns.

My matings were purchased and suggested by S. Butterfield, Judge, London, Ont. for this season.

EGGS, \$3.00 for 13; \$5.00 for 26.

I. K. MILLARD,

Dundas, Ont.

Proprietor.

Geo. H. Burgott adds, "Eggs for hatching, \$2 per 13," to his card. Brown Leghorns his specialty, but he also breeds buff and white Rocks.

W. M. Reynolds breeds Al "stay white" white Wyandottes. You can buy eggs from him at reasonable rates.

J. W. Kedwell has added B.B.R. Game Bantams and Belgian Hares to his regular space, and in his "special notice" draws attention that he is selling eggs from the same pens he is breeding from.

W. H. Brethen & Son have one grand pen each of white Leghorns and white Wyandottes, and offer eggs from both at reasonable rates. Their new ad. gives some of their recent wins.

Denton Park Farm, of which Mr. F. R. Webber is poultry manager, offers eggs from several breeds at \$2 per 15. None but good stock in the pens. The varieties bred here are all money makers.

Fisher's Island Farm made a notable record at New York last month on their famous white Plymouth Rocks, winning no less than three out of the five first prizes on this breed. They will sell eggs from them, and also from their other breeds, and still have some young stock for sale. Send for catalogue.

John F. Hill has a most interesting announcement of his black Langshans in this issue. He has a few eggs to spare from his very best pen, and others at lower rates. Brantford is the only show his birds were entered for this year, and this is the record: Cock, 1st, 94 1-2; cock, 2nd, 91, cock, 3rd, 93 1-2; hen, 2nd, 94 1-2; cockerel, 2nd, 95, cockerel, 3rd, 94 1-2; pullet, 1st, 96 1-2, pullet, 2nd, 95.

"White Plymouth Rocks exclusively," says Albert Edwards' ad. He has birds for sale, and will also sell eggs at \$1.50 he since informs us.

James Arthurs' new ad got misplaced last month. It will now be found under "Wyandottes." Gives a grand record of his Silvers, and will sell eggs at \$3.

Nelson Wagner breeds Golden Wyandottes exclusively, and has good ones. He offers eggs from two pens at graded prices. Write him.

G. J. Lovell gives fuller particulars of the Economic Incubators and Brooders, and also pushes the claims of "Germoderelde."

Hertel Bros. breed Wyandottes and Rocks. For colors see their large ad. In this issue. Eggs from special matings at low rates.

Henderson & Billings are after a share of the egg business, and have six of the most popular breeds. Their birds won all over. Eggs at \$2.

I. K. Millard's nice card offers eggs from matings suggested by Mr. Butterfield. He has barred Rocks, black Minorcas and white Leghorns. Can supply eggs at \$3, or two settings for \$5.

C. Fretz is selling eggs at \$2 with a reduction for quantity. He breeds several popular and useful varieties.

A. W. Bell's buff Cochins won many prizes this past winter. Eggs \$3. A few cockerels to spare.

I. K. Millard has several barred Rocks and black Minorcas to spare. Good birds at low figures.

J. N. O'Neil gives a list of his recent wins on white Minorcas, including those at New York. Orders for eggs booked now.

E. H. Perrin (buff Dotte-) is guaranteeing his eggs this season. Will replace unfertile. Send for circular of matings, prices, etc.

Mrs. Shales, in increasing her regular space, gets in a long list of the winnings made by her birds at the Ontario, Toronto, New York, etc. She is offering eggs at moderate prices from good birds, and guarantees satisfaction.

"My Hobby" is offering window plants in collections of twelve for \$1, or six for 50c., dirt cheap.

John McDougall in his attractive announcement gives as his specialties the ever popular white Rocks and black Minorcas. We presume he will sell eggs.

C. A. Mayhew is offering black Minorca eggs from an imported pen at \$2 for 15. Full particulars in his new ad.

"Two hundred birds for sale cheap." So says E. H. Donnelly in renewing his ad. He made a big splash in the prize list at Detroit in all his varieties. He is offering something special in buff Cochins eggs.

F. C. Hare is offering high class black Spanish and buff Cochins eggs, and guarantees them satisfactory. He has won the highest honors at the largest Canadian and American shows, and any readers desiring new blood in these varieties will do well to write him.

L. Sage (late Sage & Garstide), light and dark Brahma breeder, is prepared to fill orders for stock and eggs. His birds win.

L. H. Davis, in renewing his ad for a year offers eggs at \$3 per 15 from his prize-winning Golden Wyandottes, which he breeds exclusively. He also has some stock to spare.

Write A. G. Hull for trees. Catalogues free.

J. F. N. Kennedy offers eggs in large and small lots from his white Rocks.

Chas. B. Gould breeds light and dark Brahmas, and has some high scoring birds in his pens. He has eggs for sale at \$3, or two settings for \$5.

"Berners' buff Leghorns," see testimonial attached to his ad. In this issue. He has eggs for sale and some stock yet.

E. C. Parker makes a specialty of S.C. and R.C. black Minorcas and white Dots. In his ad, he gives a partial list of wins at Sherbrooke and Quebec. A few good cockerels for sale, and eggs at \$1.50.

"Dunne's specialties" are rose comb black Minorcas and the popular buff Leghorns. He offers eggs at \$2 per 13.

Ralph Williams breeds several varieties, and has won a lot of prizes. Full particulars see his new ad.

Maple Leaf Stock Farm in their new ad, give full particulars of their winning pens of black Leghorns, black Minorcas and barred Rocks.

C. L. Smith changes his business card this month, and is offering eggs from several breeds.

Kirchener & Flanagan are new claimants for favor. They breed popular varieties, and are offering stock and eggs.

"Blood will tell," says F. Bettschen; and we have it in our yards. Eggs \$1, from good birds.

A. H. Lake, barred Rock specialist, is offering eggs for sale at \$2.

J. S. Taylor breeds brown Leghorns exclusively and gives a good record of his wins this winter. He offers eggs at \$1.50 or \$10.00 per 100, and has birds for sale. He won first on breeding pen at the "Ontario."

Crum and Bogston, in their new ad, draw attention to the many wins made by their birds at the Ohio State show and others. Birds and eggs for sale.

W. B. MacLennan has four Cyphers 300 egg-machines for disposal at \$25.00 each; also brooders.

J. B. Woodhall breeds several of the popular varieties and offers eggs at \$1.00 per setting.

C. J. Daniels changes his page ad. this month and has just had printed a new 24-page catalogue of his goods that will be sent free to all who apply for it. Anything in the way of poultry supplies. Also stock and eggs.

W. H. Bessey still has left some good white Rock cockerels and pullets and offers eggs at \$3.00 per 15.

"Miller's Barred Rocks", see their record at the last "Ontario"—all firsts and 8 specials. Eggs \$3.00; 2 settings \$5.00.

Will Secker offers eggs for hatching from his popular breeds including Rhode Island Reds. He guarantees a good hatch and invites early orders.

S.C. Brown Leghorns a Specialty

At Winnipeg, '09, on 3 entries, 2 first, 1 second; at Woodstock, 1900, Cock first, score 92, second 91, Cockerel, first, 91 1-2; at Ingersoll, 1900, 8 entries, 4 firsts, 3 seconds, 1 third; at Peterborough, Hens second and third, Pullets third, first and special for Breeding Pen.

Birds for sale at all times, and EGGS in season at \$1.50 per setting, or \$10.00 per 100.

Address all correspondence to

J. G. TAYLOR,
Box 385, Woodstock, Ont.
S.C. Brown Leghorn Specialist. 500

Aqueduct Poultry Yards

Black Langshans. Matings for 1900.

YARD A, Headed by "Aqueduct Chief" (94 1-2 by Butter field, weight 12 pounds. Mated with six choice pullets. (Of the cock heading this yard, Mr. Sharp Butterfield said—see June '09 Review—'about the best I ever saw in color and very neat all over.') Will spare 3 settings of 15 eggs at \$4 per setting.

YARD B, Headed by Ingersoll (93 1-2 as an immature, cockerel, 91 1-2 as cock) weight 11 pounds. Mated with ten grand females. Eggs, \$3 per 15.

YARD C, Headed by Emerald II (91) weighs 10 1-2 pounds. Is a very strong colored, high station cock. Mated to 8 females. Eggs, \$3 per 15.

One yard Buff Wyandottes. Eggs, \$2 per 15.

A few choice birds on hand at all seasons.

"SOME OF LEE'S IDEAS."

—H. B. DONOVAN, Toronto, Ont.

A NEW BOOK ON POULTRY.

In "Poultry Craft," by John H. Robinson (I. S. Johnson & Co., Boston, Mass., publishers), we have an American book prepared especially for American poultry keepers. The whole make-up of the book reveals a design to make it serviceable. It has been a common fault in the best previous works on this subject, that information on one topic would appear in several different places, and sometimes subjects were so mixed that readers experienced great difficulty in finding what they wanted, or in referring a second time to something which had impressed them. It is also noticeable that great care has been exercised in making the index very complete and so arranging it that any given topic can be found in an instant. As showing the completeness of the work, it may be added that though the matter has been so thoroughly condensed, the book actually contains 50 per cent. more reading matter in its 272 pages, than any other of its kind, a fact which would not appear from a comparison of the number of pages, for the pages of "Poultry Craft" are larger than common. The price is \$2.00 and the book is sold on approval. Write to I. S. JOHNSON & CO., Boston, Mass., for full description sent free.

CANADIAN POULTRY REVIEW

IS PUBLISHED AT

TORONTO, ONTARIO, CANADA,

BY H. B. DONOVAN.

Terms—50c. per year, payable in advance.

TWELVE ADV. \$2.50

An advertisement of 30 words will be inserted EACH MONTH for one year in this column for \$2.50, paid in advance. Advertisements may be changed every month if desired.

This coupon is good for one advertisement of 30 words in the "For Sale and Exchange" column.

THE CANADIAN POULTRY REVIEW.

Toronto.

To meet the wants of advertisers who are continually using this column, and who find it a great trouble to be constantly remitting small amounts, we have adopted the plan of issuing Coupons (as above) good for 30 words each, 4 for \$1. Anyone buying these Coupons can use them at any time in lieu of money when sending in an advertisement. Not less than four coupons sold.

THESE RULES must be followed:

1. Payment MUST be made in advance, the amounts are too small to permit of book-keeping.
 2. Write copy for ad. on a separate sheet from any other matter, and on one side of the paper only.
 3. See that ads. are fully prepaid as per rate above.
 4. Say plainly how many times ad. is to be inserted.
 5. Give heading under which it is to appear.
 6. Changes must reach us not later than the 15th. New advertisements not later than the 20th of each month.
- Unless above rules are followed we cannot guarantee correctness.

BOOKS, ETC.

Abbott Bros.

EAST OF ENGLAND LIVE STOCK AND POULTRY FARMS,

Thurton, Hingham, Norfolk, England.

The largest and most successful prize poultry breeders in the world. Almost all varieties of Poultry, Ducks, Geese, Turkeys and Bantams are kept, and have taken more cups, medals, diplomas and prizes than any other breeding establishment in England. Also

fancy and common English Pheasants, Messrs. Abbott Bros. being frequently called on to judge at the largest poultry shows in England, have rare opportunities of purchasing for customers any variety of poultry which they do not keep themselves.

ALSO BREEDERS AND EXPORTERS OF THE MOST

Fashionable Hackney Horses

Stallions and Mares of all ages and several prize-winners for sale, all registered in the Hackney Stud Book.

PURE BRED DAIRY SHORTHORNS AND RED POLLED CATTLE
THE OLD FASHIONED BOB-TAILED SHEEP DOGS.

Prize winners and first class specimens always on hand.

This is the largest and oldest established Poultry Farm in England. Illustrated De-

scriptive Catalogue, containing list of prizes and testimonials from customers in all parts of the world free on application.
