VOL. I.

TORONTO, ONTARIO, OCTOBER, 1889.

No. 10.

NOTES AND COMMENTS

CHEAP TRANSPORT.

The Cambrian Steamship Co. whose boats run from Swansea and Bristol will deliver dogs in New York at twenty-five shillings per head, enough food being provided for the voyage; about fifteen shillings additional will cover all cost of consuls fees, etc.

"BOB OBO."

Another good Cocker has recently been imported by Mr. G. P. Keyes, of the Rideau Kennels, Ottawa. This is Bob Obo, E 18491, a full brother to his well known Obo Jr., Sire, Champ. Oho, dam, Nellie. Bob is also a champion in the land of his birth, having won 1st at Crystal Palace, 1885, 1st London, 1885, 1st Warwick, 1886 and 1st Barn Elms, 1887, the only times shown. He is the sire of Champion Jennie Obo, acknowledged by all Spaniel Judges to be the best Cocker bitch in England. His first appearance on the bench in this country was at the recent Industrial Exhibition where he captured first and special in a large class of fourteen competitors. He is solid black, heavy in bone and feather, has a perfectly flat coat and plenty of it, grand carriage and if mated with light headed bitches, must tend to improve this popular breed in Canada. We congratulate the proprietor of the Rideau Kennels in securing such a good dog, and trust the enterprise manifested may be rewarded in a substantial manner.

C. K. C. ANNUAL MEETING.

A report of the annual meeting of the Canadian Kennel Club will be found in our last special. It was the unanimously expressed wish of the members present that the Club should become thoroughly Canadian, not merely Provincial and with this object in view the list of officers and committee was as freely distributed as possible.

WE TRUST THAT

any little friction that has hitherto existed between the eastern and western members of the fraternity may subside and that all may work to make the club really national in character.

TORONTO A SUCCESS.

We are pleased to be in a position to announce that financially the dog show at Toronto has been a most pronounced success, which we trust will encourage the directors to increase the list next year and lead to the erection of a building more suited to the exhibit.

MODE.

The Mastiff dog Mode illustrated in our Sept. issue won first in the open class at London and 2nd at Toronto. Now that we have seen the dog we can candidly say the portrait does not do him justice.

ONTARIO COLLIE CLUB.

The above club held a meeting on the 19th ulto, at the office of the Secretary of the Dog Show at Toronto, the President, Capt. Harston, in the chair. On motion, it was decided to change registration fee to 25c. to non-

members and 10c. to members of the club, annual subscription to be \$1.00 Annual prizes of \$10.00 will be given to Toronto, London, Ottawa, or any other dog shows that may be held in Canada, for the best Collie dog and two of his get owned by a member of the Ontario Collie Club. The Secretary was instructed to write the Industrial Exhibition Board and the Western Fair Board requesting them to hold Collie trials under the auspices of the O. C. C. Owners of Collies wishing to register their dogs, are requested to write to the Secretary, Mr. A. Burland, at Grimsby, Ont.

STOLEN?

Editor Kennel Gazette:—

On the 19th Sept., the Clumber Spaniel bitch, Lass disappeared from the stables where I kept her, and thinking some of your readers perchance might come across her, I write to you, hoping that in that event, they will do as they would be done by and put me in the way of recovering her.

She is a small bitch, about 40 lbs. in weight, head very heavy, one eye marked around with lemon, the other white, ears partly white, and body white. When going up to anyone she crouches close to the ground. She is very low on the leg, and body of good length. She was clipped recently, but the hair was beginning to grow again. Lass, is one of the last of the Piers strain—consequently I would be loth to lose her, as she is valuable for breeding purposes.

REASONING POWERS OF DOGS.

Editor Kennel Gazette :—

"Sportsman's" letter in your last number is in itself an evidence of what "Science" holds, applies to not a few of his class.

To him at least a dog is like a gun, a means of getting game and little more; while all the glory of intellect, whether displayed in hunting or otherwise belongs to man, and is not shared by the dog.

But first to convict "Sportsman" out of his own mouth. He says: "A Greyhound will course by sight. A Fox-hound hunts its game by smell and different kinds hunt by instinct." We happen ourselves to know something about Greyhounds, and having one now that we raised from a puppy, we have proved that in intelligence, attachment, etc. this breed of dogs is underrated. We have demonstrated that his smell is as good as that of almost any dog in our kennel. He hunts by sight in the main, of course because his nose would not be fast enough, so to speak, for his legs. But has not "Sportsman" heard of a Greyhound "running cunning," and is this not unusual in the younger less experienced dogs, but more common in the older ones that have profited by experience? Now if it were *all* due to instinct there would not be this *adaptation to circumstances*, which is evidence of reasoning.

And after all what is that which sportsmen call appropriately enough "Dog Sense," but intelligence? (not instinct). By instinct I mean unintentional adaptation; by reasoning intentional adaptation to circumstances. If "Sportsman" denies the latter to dogs then he has observed I fear to little purpose. Again "Sportsman" says "Science" may as well say that a horse is like a man because men are more with horses than dogs."

"Science" does maintain that a horse is like a man, and the difference

between the horse and the wagon and the dog and the gun is just this—that association with the living objects is a real companionship—there is something in common. You may handle a gun for fifty years and it will get no nearer to your feelings or intellect than at first. Will "Sportsman" say that of his dog? Now the difference in *degree* between the dog and the man is immense; but we repeat that without they were fundamentally alike in nature, there could be no companionship. But the truth is "Sportsman" whom I do not think is a good representative of the best of his class in this matter, is about 25 years behind the age and we only take time to reply to him because there are so many who have given as little consideration to the subject as himself. That man should still consider himself "the centre for whom all things exist" is striking evidence of his unbounded conceit.

Yours truly,
SCIENCE.

THE OTTAWA SHOW.

Special Report.

The Ottawa Show opened to the public at 11 o'clock on Wednesday morning the 11th inst. Quite a number of dogs were benched on the previous day but the inevitable stragglers did not put in an appearance until late in the morning. The judge Mr. J. Otis Fellows commenced his arduous duties at 11.15 and with but a short interval for lunch worked steadily until after six in the evening finishing all the regular judging and leaving only a few specials to be decided the next day.

About 8000 persons paid their money at the turnstiles and the Dog Show will clear upwards of \$200. Much interest in the exhibit was evinced by the spectators and it is safe to say that the Ottawa Show was a success. The building is well lighted and airy, but lack of space was apparent. However the benching was admirably arranged and no room was wasted.

The Committee found it impossible to secure a sufficient number of competent attendants, but endeavoured by their own efforts to take their place.

The committee consisted of the following gentlemen: F. H. F. Mercer, Capt. Veith, H. B. O. Bruce, C. E. Living, T. C. Bate, W. P. Lett, Alfred Geddes, Superintendent. While some of them worked for all they were worth, others again appeared to have no idea of working. But 'tis ever thus on Committees; so why expect this to prove an exception. But we must set about our report of the judging without further delay.

MASTIFFS,

In Mastiffs the undersized, though typical, Wyoming Count walked over.

ST. BERNARDS (SMOOTH.)

Prizes rightly withheld. There was more mongrel Mastiff than St. Bernard in the specimens entered. ROUGH. The Hon. Edgar Dewdney's splendid dog Bernard, defeated, in Lord Dalhousie, an English winner. He beats him easily everywhere save in back, where he is slack and behind, where he is slightly cow-hocked. Lord Dalhousie is sour-faced, but a good one, as is also Blake, V. H. C. (no third prizes were given) who is rather small and bad colour. In bitches all prizes should have been withheld, but as the better looking of the two entries was owned by a lady, the judge in the kindness of his heart awarded her second. The other entry looked like a cross between a Collie and a Newfoundland.

NEWFOUNDLANDS.

Four entries, but no *Newfoundlands*. First was awarded to the finest looking of the quartette, a splendid animal that is half St. Bernard, but solid black in colour.

ENGLISH SETTERS.

Dogs a wretchedly poor class. Puppies, Glen has a lovely head, but we do not think will make a good one when she matures; Ben 11, second prize, is a very promising, three months old Blue

Belton. His brother took V. H. C. over a black and white, that was protested by Mr. F. H. F. Mercer, in the name of the Canadian Kennel Club as being over age.

IRISH SETTERS.

Bang and Zero faced the judge. In body and color they are pretty even, but Bang's head is the best, Zero is a splendid mover and his opponent so bad a one that the judge placed them equal first.

GORDON SETTERS.

The best of a poor lot won.

POINTERS.

Roy in dogs and Ada in bitches walked over. Ada rightly won the special.

GREYHOUNDS.

Were a wonderfully good lot and took a lot of picking to find the winner, who was finally fixed upon in the well-known Volunteer, with same owner's Fly second. Edgewood would have had a look in but for his bad hind leg. All in the class received a card. Galatea, H. C. is very young, but will make a splendid bitch if she grows up as she promises.

FOX-HOUNDS.

As usual, were a motley crowd. The best won.

BEAGLES.

The well known Fitzhugh Lee beat his kennel mate Tessie. The bitch beats him badly in ear.

IRISH WATER SPANIELS.

The judge would have done well to have with-held first as well as second prize.

CLUMBER SPANIELS.

These were the strongest classes in the show and the strongest both in point of numbers and quality ever seen in America, Champion Johnny, having been retired, was for exhibition only. He looked very thin and out of feather but handsome as ever, especially his superb head. The Clumber Kennels Drake (the noted prize winner) was so out of condition that his owners would

not allow him to compete. Boss III. the English crack, rightly won in dogs. His head is not a Clumber head, and he is out in coat, with crooked fore-legs, still his body and lowness on the leg, and feather are wonderfully good and would redeem a multitude of short comings. Top, 2nd, is a nice dog, but coarse all over, and shown in shocking condition. He will be invaluable as a mate for weedy bitches. In bitches it was a close thing between the lately imported English crack, Bromine and Lucy II. But for the latter's blind eye the decision might have been different. She loses to Bromine in size. Bromine we were disappointed in, her head is not right, the skull being too long and the nose too short, she is also slightly pig-jawed. Her eyes and expression are not right. As she is out of condition now, we will not criticise her body. Madge looked wretched beside her opponents and was clearly out classed. In puppies two wonderfully good three month's puppies, Quester & Bustler won, they are both very typical and, the former especially, cannot well fail to make good dogs. Mina and Meta are very handsome eleven month old pups.

FIELD SPANIELS.

Bruce won over his kennel mate Kafir. Bitches, Blackie was alone or virtually so, for Moera being an overweight and typical Cocker, the judge would not notice her. In puppies Punch walked over.

BLACK COCKER SPANIELS.

In dogs the handsome Bronte won over the well known Obo Jr. He has far the best coat and legs and is altogether the best Cocker. The other entries were rightly placed behind the winners. In bitches, Judy won. She could be improved in coat, feather and ear, but is a Cocker all over with simply a perfect head. She also won the special for the best bitch, any color, over Lena. In puppies, Tiney Obo, a very pretty pup was rightly first.

COCKER SPANIELS, OTHER THAN BLACK.

Rufus beat Tory, who is black save for a little tan about the vent. This is sailing rather close to the wind. In bitches Lena won over Senora. She is the best Cocker, but not the prettiest bitch. Puppies, we liked Rover better than Rideau Mite for the place.

COLLIES.

Dogs, prizes rightly with-held. Bitches and puppies were a very poor lot.

BULL-DOGS.

The only entry, Nettle, is fair in head, but all wrong in body.

BULL-TERRIERS.

There were several mongrels entered in this class, but only one bull-terrier, Count Dick, was shown and received first and special.

FOX-TERRIERS.

Zig Zag, that grand little dog, had no trouble in disposing of Charlie who is not a show dog. In bitches, the judge was entirely wrong in placing Clytie over Elora Tatters. They are actually not in the same class. Clytie is wonderfully terrier-like and playful in the ring and this caught the judge's eye. Puppies, Royal Dart rightly won over Brit who will grow too large we fear.

SKY-TERRIERS.

Mave was alone.

AIREDALE-TERRIERS.

Weaver, a typical Airedale, walked over.

BLACK AND TAN TERRIERS.

Squaw beat Desdemona, and the rest of the class are nowhere with them.

PUGS.

Judy was a better Pug than Trixie and took the premier award. There was quite a large class shown.

POMERANIAN.

Fred, the best Pomeranian we have ever seen, beat Flora without any trouble.

TOY SPANIELS

Four were entered by E. Bradford of Montreal, and formed an attractive feature of the show. In the Miscel

laneous class Snow-flake, the White English Terrier, had no thoroughbred opponents and won.

LONDON KENNEL CLUB.

SECOND ANNUAL SHOW.

Special Report.

CONTINUED FROM SPECIAL EDITION.

Duke has a good head and well carried ears, he is decidedly evenly built. Belvoir Bacchanal placed 3rd has a better coat than any of the others, but is scarcely up to show form. He should be a good one to breed from, as he has plenty of bone and looks a thorough workman. Virgil 1st in bitch class shows good terrier character, but is rather soft in coat. The puppies were better than usual with Oxford Duke 1st in dogs. Oxford Veda, 1st bitch. Wire-haired terriers had three entries: Billet 1st in dogs has been often shown before, he was not looking his best. Patch 2nd, is only a puppy but he has the makings of a good dog in him, his head might be a little flatter in skull, his coat is rather out of order, which his very late importation accounts for; he got 1st in puppy class in Liverpool this year and ought to be an acquisition to the Wire-hairs of Canada. Capsinn was alone in bitch class.

No Bull-dogs.

BULL TERRIERS.

Three large white dogs faced the judge and looked game enough. The awards were correct.

BLACK AND TAN TERRIERS.

This was the best class of black and tan terriers ever exhibited in Canada, and there was very little difference between the three winners, but the judge managed to decide between them and his decisions were well received.

Dandy Dinmonts absent.

BEDLINGTONS.

Five entries, one absent, Zulu II,

a fair all round bitch, won, with Gimlet a good 2nd.

IRISH TERRIERS.

Had two entries—the bitch the better of the two, although her coat is a bit soft, and she could do with more bone.

DACHSHUNDS.

A very even lot of tawneys in this class, with little distinction between them, as they were all one litter.

YORKSHIRE TERRIERS.

Two absent, with Dolly placed 1st, she is a very good one, and shows great care in her coat, which is very long and beautiful.

PUGS.

In the Pug class there was nothing of great merit, but a decided improvement on the whole at their former shows, the judge's decisions were well received.

TOY TERRIERS.

Only one nice little black Terrier was shown, and she was given 2nd.

TOY SPANIELS.

Were a poor lot, and the prizes withheld.

MISCELLANEOUS.

A smooth-coated Collie 1st, a Harrier 2nd and 3rd, the rest were not any particular breed.

THE TORONTO BENCH SHOW.

Special Report.

An addition to the Industrial Exhibition of Toronto for 1889, was the dog show, and no feature of the whole perhaps has been a greater success, whether considered financially, with reference to the number or quality of the exhibits, the management or general attractiveness.

Over 300 dogs were benched, and there were not a dozen downright poor ones in the whole lot.

We regret that we are not able to speak of the excellent London Exhibition from personal observation, so that we might contrast the three Canadian shows of this year with one another, in order to draw some useful lessons. The Toronto Committee had a number of paid assistants, who greatly relieved the Management, and might have been still more serviceable if some members of the Committee had been detailed to see that these men actually did carry out the instructions given them. As a matter of fact, we know that they did not do all that the Superintendent believed. Dogs were, for example, allowed to lie for hours in their own filth, instead of the kennels being at once cleansed. This, and the absence of disinfectants of suitable kind and quantity were among the most important defects in the management; and we shall not be surprised if some disease ensues in consequence.

Spratt's fed well, and the dogs did not lack water. The ventilation of the building was also fair. Superintendent Harston deserves credit for the energy and ability he displayed. He believes in, and understands system, and the

importance of rules and of adherence to them. But in some instances this principle, excellent in itself, was carried out with harshness, and the worthy Captain turned a deaf ear to reason.

The dogs were well placed, easily identified by number, and made interesting by the catalogue of entries and prizes furnished.

In many details of management, Toronto excelled Ottawa, but in the matter of disinfection, and in the showing of the dogs, Ottawa was far ahead of Toronto. We never saw dogs worse shown than at Toronto in certain classes. Men apparently, out of all sympathy with the animals simply hauled the poor creatures about in some classes, e.g., Irish Setters; while in Ottawa, members of the committee, experts in handling dogs, showed them in the absence of owners better perhaps than their nervous masters would. The Committee in Toronto should personally do more during show days, in Ottawa less, and employ assistants to relieve them in part. The Toronto committee was courteous, but scarcely cordial; the Ottawa one was, so far at least as some members go, both. Fine prizes do not make a dog show an entire success; though it must be confessed good management and perfect integrity are of the utmost importance—but all these most desirable things are enhanced by a little evidence of good-fellowship. We saw no very great willingness on the part of the Toronto Management to court or to take suggestions; and when unpleasant errors occurred as they did in some cases, not the slightest attempt at an apology or explanation was offered by the Superintendent.

The judge for the sporting classes and Collies was Mr. John Davidson, of Monroe, Mich., and for other breeds Mr. C. H. Mason, of New York.

Mr. Davidson's awards were in our opinion singularly correct; though we venture to suggest that no judge should ask as did this gentleman, "was this

one shown at——?" A little more of the *suaviter in modo* than Mr. D. sometimes shows would be a help to nervous exhibitors, and tend to set them and their dogs more at their ease.

Mr. Mason, is no doubt, a very good judge of dogs; but we doubt if he has the judicial mind, and some of his judging was rather capricious—like, we may remark, some of his comments in "Our Prize Dogs." Nor has any judge it seems to us a right to ask an exhibitor questions about the breeding of his dog. A dog whether old or young should be judged precisely on his merits and present status.

The judges properly withheld prizes when they considered they were not deserved, and were sufficiently chary of the V.H.C., H.C. and C. cards. In fact not a few dogs to our own knowledge were passed by that certainly deserved some sort of recognition. We shall have space for mention of only a few such cases.

The dogs were judged in a tent in the rear of the building, and we would suggest that in future some better plan be devised of notifying those in charge of the animals when they are to be called, and also of getting them to and from the judging ring. With proper management no dog should be left unjudged. Nor should any exhibitor be excluded from the judging ring. A dog show is above all things for instruction.

The specials were numerous and many of them valuable. It would have looked better if so large a number had not been reserved for Toronto dogs, and it would be much more to the mind of the winners to receive cash (even if the prizes were smaller) than kind; all men do not smoke, use rifles, etc.

To speak very briefly of the different classes:

MASTIFFS.—Sears Monarch 1st, is a grand dog; Mode 2nd, is a respectable competitor but distinctively infer-

ior. He is too much undershot and sags in the back. The 3rd prize winner R. Bruce is a good deal below both of the above. The bitches and puppies were as a class not equal to the dogs.

ST. BERNARDS.—The rough and smooth divisions were classed and judged together, a rather unsatisfactory plan. 1st went to Plinlimmon Jr., a large and fine specimen generally. We could not see him except as he lay on his bench. He has a fine back, chest, neck, and straight and strong forelegs. His head though on the whole good is not perfect. His brows do not rise abruptly enough and this in part accounts for a rather sullen expression. The others fall many points behind this specimen, though by no means poor ones. Among rough bitches Lady Wellington scored first; an animal with a more pleasant expression than the 1st dog, though not equal to him on the whole. Garibaldi is an exceedingly pleasing puppy. We must not omit to mention Nora among the bitches as a nice one of good quality. So many St. Bernards move badly that we regret we did not see the dogs in the judging ring.

NEWFOUNDLANDS.—How sad is the decay of this noble breed! It looks as if it were about to become extinct. Only 4 specimens in a show of 300 dogs—and these not all good ones—in fact not one thoroughly first-class specimen. The winner of 1st, Lead, reminds us of the true type but has many faults.

GREAT DANES.—More numerous than good. The first dog, a blue or dark slate, was decidedly in advance of the others, but he was not that tight and tidy specimen we could wish. Many of the others were of bad color and unattractive in appearance. The 1st bitch was a fair specimen. The ears of some of the dogs were uncut and thus an opportunity was afforded of comparing cropped and uncropped specimens.

ENGLISH SETTERS.—A large class with many good dogs. Head is still a defective part in this class, even the winners being capable of much improvement in this respect. The 1st dog, Locksley, is a very nice one but his ears could be greatly improved in carriage. All the other winners are dogs of fairly good body. There were some nice specimens among the bitches notably the winner of 1st Genevieve, a blue belton. The puppy that won 1st has a really good head and a perfectly lovely expression.

IRISH SETTERS.—This class was not equally strong though there were some good ones, but not one really grand dog. However, the 1st prize winner is a dog of good size, strong and if not of the best quality, at least a fine Irish Setter. His muzzle is excellent, and if his skull were equally good, he would be a hard dog to beat. The 1st bitch was not the equal of the first dog. The puppies were fairly good in form and right in color.

GORDON SETTERS.—An excellent class, not a poor specimen in the whole lot, though they were not in as good condition, as either the English or Irish breeds. Champion Bellmont had no rival in his class. In the dogs Heather Harold won readily enough, but with the others a good 2nd and 3rd. They are not his equal in head-points. Among the bitches, Beckey Sharp won 1st though in wretched condition. Among her competitors were two of her own offspring which neither she nor her master need be ashamed to acknowledge. Of these, Queen Ann excels in head and quality, Hilda in color and substance.

POINTERS.—The first dog is every inch a pointer, with a finely moulded head and a body that looks like work. He is points ahead of the first bitch though she is good. The 2nd dog, Shot is not a bad one but not of the quality of the winning dog.

FOX-HOUNDS.—A pretty large class,

many handsome and some well-made dogs fit for work. The winners were not difficult to select.

BEAGLES.—There were only two or three really good ones.

IRISH WATER SPANIELS.—A small class, and no thoroughly typical dogs. If the 2nd dog were a little heavier, and of darker color he would be nearest the ideal.

CLUMBER SPANIELS — Champion Boss. III. was present looking well. He is a grand specimen, too large we think, however, not straight enough in coat and with a head that could be improved. The other pair were nice ones that looked small beside this big fellow.

FIELD SPANIELS.—Were a small and rather poor lot. They were quite overshadowed by the next class.

COCKER SPANIELS —It is a pity these had not been divided as at Ottawa into (1) Blacks and (2) Other than Black. The competition in the "open dogs" was keen, and the judge clearly chose the low and long and rather large type of dog for the first prize. It was close between him and the 2nd one however, and it will be interesting to note whether Bob Obo stands first in other showings. In this class some good dogs were passed over without a card. The 3rd dog is considerably smaller than the winners but a very nice little fellow. There were a few beautiful bitches though it was not so difficult to decide how they were to be placed. The Cockers as a class were decidedly good.

COLLIES—A fine large collection. Dublin Scot and Scotilla being quite a show in themselves. Scotilla though not equal to her mate in bone, size, &c., has the best head and far the best expression; she rightly got first in the Challenge class. The winners in the other classes were all beautiful dogs of a type we would like to see multiplied, though too much attention must not be paid to coat to the neglect of other points.

Some very promising puppies were exhibited.

GREYHOUNDS.—Champion Balkis was not in perfect condition. He however remains unexcelled in many points still. No dog among the hounds shown at Toronto approached him in the way he was ribbed, or in the let-down of his legs at the hock and in various other points. In the open class, the winning dog was readily enough first, though the 2nd is a good one, shown too thin. He is also defective in loin, but has grand legs and feet. The 3rd dog an immense brindle, well made, but a little loaded in shoulder and with a head and neck looking too small for his body. We liked better the 3rd prize winner among the bitches, also a dark brindle. The 1st bitch is a strongly made and symmetrical specimen.

BULL-DOGS.—There were three good ones. Lion excels Portswood Tiger in head and forelegs and carriage, but is very weak in hind parts especially. P. Tiger stands badly on his fore legs which are anything but straight. Met is a bitch of good general proportions and has few glaring faults.

BULL-TERRIERS.—Dogs and bitches were included in one class. The winners of 1st were decidedly better than the others.

FOX-TERRIERS.—This class was disappointing to the expert. Not a single one of them could be pointed to as illustrating exactly the right thing in head; upon the whole we preferred the best of the wire-haired. In judging, the best dog and the best bitch for the special, they should have been more carefully compared. The 1st puppy is a dog of fine body and quality; the only other one noticed got only a V. H. C. and was hardly treated, she should have stood higher. The 1st and 2nd dogs in the wire haired class were both good but the bitches all inferior to the dogs.

BEDLINGTON AND IRISH TERRIERS.—Were few and only fair in quality. There

were no Skyes, Airedales, &c., but a riot of Scottish, the winners being first rate.

YORKSHIRE TERRIERS.—Had several entries, 1st went to Champion Dolly, a dog of fair body and long and most beautiful coat, but not approaching the standard in colour. The 2nd is a beautiful dog, though it were better that his black were a blue. Every dog in the class deserved recognition, and the one passed over would have had a card if the judging had been uniform.

TOY TERRIERS.—A weak class in both the smooth and rough haired varieties.

TOY SPANIELS.—Were but few and only moderately good.

PUGS.—As a class were small enough but not squarely enough built, or large enough in head. The 1st dog had beautiful ears and mask, but the muzzle was too long and shallow. He was generally good in colour but smutty in parts. The 2nd was much behind in color and some other points.

BLACK AND TAN TERRIERS.—A pretty strong class. The 1st dog excels in quality, head, muzzle, chest, and carriage. He is a little too tucked up in loin; the 3rd a bitch, Desdemona, is too cobby and does not move quite well. The 2nd lies intermediate in excellencies and faults. Why are there not more of these handsome little dogs?

There was only one **DANDIE DINMONT**,—a fairly good specimen, from the Meadowthorpe Kennels which have sent so many fine dogs to this show and have thus placed us all under obligations. This Kennel also sent a first rate curly coated Retriever.

We hope the management next year will provide some place where the dogs' crates may be kept dry.
