JOHN RHYNAS,
COMMISSION AND SHIPPING
MERCHANT, Montreal.—Cash advances made
on Consignments to myself, or to friends in England.

**TO THE MAKERS AND PURCHASERS OF
BUTTER THROUGHOUT CANADA.**

At the beginning of another season we take the liberty of respectfully reminding our customers and the trade generally, that we have for many years given special attention to the Butter Trade of Canada, no inconsiderable portion of which has passed through our hands, and consequently that we have an established connection for the sale of Butter to the best advantage, that we have extensive cellars, remarkably suitable for the storage and sale of Butter, and that our charges are as low as those of any house of standing. Consignments are respectfully invited, and will receive our best attention.

JOHN DOUGALL & CO.
Montreal, 1st June, 1865.

JAMES DOUGLAS & CO.,
DEALERS IN TEAS AND TOBAC-
COS; attend to sales of Butter, &c., &c.

Ashes, and all Descriptions of Produce, promptly
relied.

BROWN & CHILDS,
MANUFACTURERS OF BOOTS,
SHOES, AND LEATHER, Montreal.
OFFICE AND WAREHOUSE—Corner St. Peter and
Lemoine etes.
MANUFACTORY—Corner Queen and Ottawa sts.
TANNERY—Corner Bonaventure and Canning sts.

The articles manufactured by us are under one general superintendence during the whole process of manufacture, beginning with the raw hide, and ending with the finished boot and shoe. By this arrangement we secure uniform quality throughout. Orders received by post promptly executed and should the goods sent not be approved of, they may be returned at our expense. To occupy the extensive facilities which we have at our command for the manufacture of Boots and Shoes, it is necessary that we should send goods to all sections of the Province, however remote; every inducement allowable in commerce will be granted to this end.

THOMAS W. RAPHAEL,
COMMISSION MERCHANT,
Montreal. Consignments of Flour, Grain, Leather,
Ashes, Butter, &c., receive personal attention.

16 St. Nicholas Street.
Agent for Hamilton Powder Company

LINTON & COOPER,
MANUFACTURERS AND WHOLE-
SALE DEALERS IN BOOTS AND SHOES,
306, 308 & 310 St. Paul st., Montreal.

We invite the attention of Merchants, East and West, to our large and varied stock of Boots and Shoes now on hand, and in process of manufacture for the Spring trade. Goods in every conceivable style will be found in our establishment, from the finest Kid or Satin Gaiter, to the strongest Stoga or Hungarian Boot. Men's, Boys', Youths', Ladies', Misses' and Children's wear, in over 200 different patterns. Special notice is requested to the fact that all our goods are hand-made, and of the very best material. The introduction of Peggung machines having thrown a large number of workmen out of employment, and consequently reduced the cost of labor, we are thereby enabled to manufacture neater and more substantial Boots and Shoes, at no greater cost than if made by machinery and are prepared to offer the choicest goods at the very lowest possible figures. Orders personally or by Post, will have our immediate and most careful attention.

J. TIFFIN & SONS,
GENERAL MERCHANTS, IMPORT-
ERS OF TEAS, SUGARS, and GENERAL GRO-
CERIES, WINES, BRANDY, &c., Nos. 184 and 186 St

KERSHAW & EDWARDS,

ESTABLISHED

YEAR 1838

IMPROVED FIRE PROOF SAFE.

The favor these Safes have won by their many and severe trials during the last quarter of a century, from the fact that not one has ever failed in preserving its contents, thoroughly establishes their reliability, and with recent improvements made during the past two years, we offer them as the most perfect Fire Proof security extant, and free from dampness.

Our Burglar Proof Specie Boxes made of combined iron and steel in a manner peculiarly our own, the steel so highly tempered and placed as to be beyond the reach of, and defy the tools of the most ingenious burglars, and when placed inside of one of our Fire Proofs produce a most perfect Fire and Burglar Proof security. Merchants having large amounts of silver on hand should not be without one.

We also manufacture Patent Combination Bank Locks, and the most modern Bank and other securities.

Lists of sizes and prices mailed on application.

KERSHAW & EDWARDS,
82, 84 & 86, St. François Xavier street, Montreal.

THE EUROPEAN ASSURANCE SOCIETY,
 Empowered, by Special Acts of British and Canadian Parliaments
 HEAD OFFICE IN CANADA - MONTREAL
 In addition to Life Assurance, this Society issues Bonds of Security for persons holding GOVERNMENT, or other situations of trust
LIFE DEPARTMENT—Persons for whom this Society is Surety can Assure their lives at considerably reduced rates.
 Life Policy-holders in this Society can avail themselves of the Society's Suretyship, to a proportionate amount at any time, free of expense.
 All Premiums received in Canada, invested in the Province.
 EDWARD RAWLINGS, Secretary.

THE LIVERPOOL AND LONDON AND GLOBE INSURANCE CO
 Chief Offices.—Liverpool, London, Montreal.
 CANADA BOARD OF DIRECTORS.
 T B Anderson, Esq. chairman (Pres B of Montreal)
 Alex. Simpson, Esq., Dep. chairman, (Ch. Ontario Bk.)
 Henry Starnes, Esq., (Manager Ontario Bank)
 Henry Chapman, Esq. (mer) R S Trice, Esq. (mer)
 E H. King, Esq., (General manager Bk of Montreal)
 Capital paid up \$1,350,000; Reserved surplus Fund, \$5,000,000; Life Department Reserve \$7,250,000. Un-
 divided Profit \$1,000,000, Total Funds in hand \$15,250,000.
 Revenue of the Comp'y.—Fire Premiums \$2,000,000; Life Premiums \$1,050,000. Interest on Investments \$800,000. Total Income, 1893, \$4,750,000.
 All kinds of Fire and Life Insurance business transacted on reasonable terms.
 Head office, Canada Branch, Company's buildings, PLACE D'ARMES, MONTREAL.
 G. F. C. SMITH, Res. Secretary

RINGLAND, EWART & CO.
 IMPORTERS OF
STAPLE DRY GOODS,
 HOSIERY, GLOVES, AND SMALLWARES
 MANUFACTURERS OF
 READY-MADE CLOTHING SHIRTS
 COLLARS, &c
 WHOLESALE
 244 ST. PAUL STREET, MONTREAL.
 GEO. RINGLAND, JOHN S SHEARER,
 JOHN EWART.

THE COMMERCIAL UNION ASSURANCE COMPANY,
 Chief Office, 19 Cornhill, London, England.
 Capital, \$12,500,000. Invested, over \$2,000,000.
FIRE DEPARTMENT.—The distinguishing feature of this Company is the introduction of an equitable adjustment of charges, proportionate to each risk incurred instead of being bound to an indiscriminating and unvarying tariff
LIFE DEPARTMENT.—For the pre-eminent advantages offered by this Company, see Prospectus and Circular—50 per cent. of profits divided among participating Policy Holders—Economy of management guaranteed by a clause in the Deed of Association
MORLAND, WATSON & CO.,
 General Agents for Canada
 FRED COLE, Secretary
 Office, 221 and 223 St. Paul street, Montreal
 Agencies in all the principal towns in Canada

THE COLONIAL LIFE ASSURANCE COMPANY
 CAPITAL—ONE MILLION POUNDS, STERLING
 Head Offices—Edinburgh and Montreal
 Manager for Canada, W M Ramsay
 Inspector of Agencies, R Bull
 Income of Company, £144,824 8/6
 Accumulated Fund, 552,753
 Unconditional policies granted. Claims settled without delay and liberally.
 No expenses connected with obtaining policies.
 Profits divided every five years. As an example of the additions to policies by profits—A policy taken out in 1847 for £1,000 is now increased to £1,310.
 Agencies in every town in Canada.
 W. M. RAMSAY,
 Manager for Canada,
 Montreal, 19 Great St. James street.

THE HOME AND COLONIAL ASSURANCE COMPANY, Limited.
 Chief Office, 69 Cornhill, London, England
 Authorized Capital, \$10,000,000. Issued \$5,000,000.
 All kinds of Fire and Life Insurance business transacted on reasonable terms.
 Losses promptly and liberally adjusted without reference to England. General Agents for Canada,
MESSRS TAYLOR BROTHERS.
 All Premiums received in Canada, invested in the Province.
 HEAD OFFICE—CANADA BRANCH,
 Nos 13 and 15 Merchant's Exchange, Montreal
TAYLOR BROTHERS,
 Brokers for Sale and Purchase of Stocks, Securities and Real Estate.
 Brokers and Commission Merchants for purchase and sale of Produce.
 Agents for the Merchant Banking Company of London (Limited).
 Nos. 13 and 15 Merchants' Exchange, Montreal

WILLIAM NIVIN & CO.
COMMISSION MERCHANTS AND SHIPPING AGENTS, purchase and sell all descriptions of Produce on Commission, and likewise advance on consignments of same made to their friends in London, Liverpool, and Glasgow
 Also are prepared to import on Commission and on favorable terms, all description of Groceries, Drugs, oils and Fruits, having first class connections in Great Britain for the execution of such orders
 Montreal, St. sacrament and St. Nicholas streets

THE TRADE REVIEW.
 MONTREAL, FRIDAY, JUNE 23, 1893

PRIZE ESSAYS
THE RECIPROCITY TREATY.

The Convention of the Boards of Trade from nearly all the cities of the United States and Canada to be held in Detroit in July next, will afford an excellent opportunity for the dissemination of correct ideas regarding the Reciprocity Treaty. The great importance of the subject to Canada, and the necessity of having the question clearly apprehended by the public mind of the United States, render it essential that this opportunity should be improved. The publishers of THE TRADE REVIEW, desirous of contributing to the general fund of information upon the subject, offer the following prizes for Essays or Articles on the subject thus stated.—
RECIPROCITY
 Its Advantages to the United States and Canada
 First Prize \$50 00
 Second Prize 25 00
 The articles should not exceed two pages or six columns of THE TRADE REVIEW, and to be published therein. The publishers undertake to circulate, gratuitously, a large number among the delegates to the Convention, and their constituents. The Essays to be sent in to "Editor Trade Review," by Saturday, July 1st
 The following gentlemen have kindly consented to act as Judges:
 PETER KEAPATH, Esq., President Board of Trade
 ROBERT ESPANIE, Esq., President Corn Exchange Association
 Hon. T. H. HOLTON, late Finance Minister

OIL LANDS.
 The necessity for strict control over our public departments is manifest. The disclosures in recent cases of the grossest frauds committed by men placed in situations for the very purpose of preventing frauds, show how little watchfulness is exercised by the heads of departments over their subordinates. When in a small matter like the Quebec gaol, false certificates, false measurement and work done which was entirely contrary to contract, could be passed over, and never detected until a quarrel took place between the guilty parties what assurance have we that more care is taken in branches of the public service where the interests are more involved, the accounts more complicated, and the operations scattered over the whole country, and in the hands of numerous agents? Frequent complaints have been made against the Crown Lands office by those who have had to transact business there, but as most of these charges were brought by men of slender influence, they were generally allowed to drop, any of a more serious nature being usually "arranged." A charge of a grave character has, however, been now brought forward, which it will be necessary to probe to the bottom. If it has the effect of calling attention to the whole subject of the Public Lands, we may congratulate the country, much as we shall regret the blow struck at the confidence which ought to be placed in public servants.

MORLAND, WATSON & CO.,
HARDWARE MERCHANTS, Importers of all descriptions of
HEAVY AND SHELF HARDWARE.
 Manufacturers of
SAWS
 Circular, Gang, Crosscut, Billet Webb, &c.
 Moccok's celebrated

 Warehouse and Offices, and Office of the Montreal Saw Works, 221 & 223 St. Paul street, Montreal
 Manufactories on Lachine Canal.

Lately there were advertised for sale at Sarna 30,000 acres of Oil lands, of which 15,750 acres were sold, one-sixth of this for 25 cents an acre! Some have stated that this was managed through connivance with subordinates of the department. We know that the lowest priced Government Lands for ordinary purposes and of average quality, are held at not less than from fifty to sixty cents an acre, although some may occasionally be got at land sales for a less figure. How is it possible, then, that, without some gross fraud, for it is folly to talk of carelessness, such sales as those made of these oil lands could have been allowed? The highest price obtained, and that apparently in only a few cases, was seven dollars and a-half an acre. What the selling price of these lands is in private hands, most of us know. We have our own opinions as to the policy of deriving a revenue directly from the sale of Crown Lands, but so long as they do form part of the revenue, they must be honestly dealt with for that end. It is impossible that a charge of this kind can be allowed to be passed unnoticed, or that a clerk or two holding inferior positions should be sacrificed, while the guilty parties escape. We would not for a moment charge the Hon. Mr. Campbell, head of the department, with malversation of office, or with wilful neglect. But if a man undertake a charge, he cannot throw the responsibility off his own shoulders, and merely receive the honours and emoluments of the office. This is a matter of grave import to the country. The bungling and mismanagement connected with our Public Lands have stopped the influx to this country of wealth, muscle, bone and sinew, and turned the tide to the Republic alongside of us. Hagglng about a paltry half dollar, we have neglected to see that even the half dollars were honestly gathered in, and have for years been "looking after the pence" while the pounds have been taking care of themselves elsewhere.

THE U. S. 7-30 LOAN.
 THE third series of this great loan is now fairly upon the market, and we believe it is being rapidly taken up
 The enterprising subscription agent, Mr Jay Cole of Philadelphia, is operating in all quarters, and we observe that even Canada has not been overlooked
 Mr P. D. Browne, and Messrs Prentice, Moat & Co. two highly respectable banking houses of this city, have been appointed agents for the loan in this Province; and although we have recently explained its nature, as some of our readers may probably be disposed to invest in it, now that the securities are for sale here, we again refer to it.
 It is called the 7-30 loan because the annual interest on every \$100 is \$7.30, but, as we before observed, the government reserves the option of paying the interest in gold at the rate of six per cent. instead of 7.30 in currency
 These securities are redeemable in currency in July, 1893, or convertible into the 5-20 six per cent. gold interest bearing bonds. The amount of this third series is \$20,000,000, and it is expected that the whole will be taken up in two months.

IS THERE NO CURE?

MARTIN F. TUPPER, in his celebrated "Proverbial Philosophy," asks: "Who can furnish a cause for the epidemic force of fashion?" and who, indeed, can? Fashion is the great Jurist and administratrix. She makes the laws and compels their observance, she tells us what we shall eat, and we eat it, what we shall wear, and we wear it. She demonstrates what is virtue and what is vice, and as such we regard them. She changes the crime of to-day into the virtue of to-morrow, her influence being so potent, that her behests obtain all but universal and willing consent. "The epidemic force of fashion," whether it comes as a blessing or a plague, is all-powerful to work its will. At various times in the history of the world, and in different nations, fashion has made her appearance in the shape of some crime, and all readers of history are aware of the dreadful roads she has made on the morality of the community in which she appeared in that hideous shape.

Just now in Canada we are experiencing the "epidemic force of fashion" in the shape of a crime which we seem utterly powerless to check. A number of causes, but mainly extravagance,—also the effect of fashion,—has operated to place a very large portion of our business people in difficulties, out of which they are unable to extricate themselves, but fashion has come to their aid and lent her powerful influence,—baneful influence to work out their salvation. To this end she is at present operating in two ways. In the first place she is encouraging a general reputation of indebtedness, or rather a general system of bankruptcy and compromise, which is working infinite mischief, and in the second place she is inciting the rogues and rascals amongst us—and we should say the whole of them—to utterly destroy what little extravagance has left, in order that they may become legally, not dishonestly, entitled to a sum of money sufficient to pay a dividend to their creditors and set themselves up anew. The Insurance Companies assert that sixty per cent of all the fires that take place in Canada is the wilful work of those respectable ruffians who have become embarrassed financially, and who know that by applying the match they can with impunity, not only get rid of their difficulties, but secure a sufficient sum to start afresh with. If this is true, and there is too much reason to believe it, what a state of things does it reveal? Just think of a man, being so situated that it is all but impossible for the law to reach him, light a match and apply it to those fruits of some honest man's labour, which the scoundrel chances to be possessed of, and burn them to ashes. And for what? that he may, with comparative safety, pick the pockets of his more honest neighbours. For however we may try to conceal the fact, defrauding an Insurance Company, of whatever class, is neither more nor less than defrauding our nearest neighbour who happens to be insured in it. And to think that such a heinous crime as this has actually become fashionable in Canada, where we boast of our civil, religious, and educational institutions as being very paragons of perfection! Oh! if we could but conjure up and chronicle all the crimes that have been committed, even here among ourselves, during the last ten years, what a record we would have!—what a book of crime for devils to laugh at, for angels to weep over! and after all, would it not be a most imperfect mirror of humanity, a mere water-tub, where fashion's visage were but dimly reflected.

But is there no cure for this fiendish work of fashion? Is there no possibility of staying this dreadful epidemic? Can the law not reach and punish the miscreant who sets fire to the house he lives in? or can the cause which induces the crime not be removed? We are decidedly of opinion that the Insurance Companies themselves possess the power to check this crying evil, if they would only act with prudence and decision. We have watched the matter closely for some time past, and made ourselves pretty well acquainted with its working; and we feel convinced that if the subject of Assurance was better understood, the evil might be overcome. The Insurance Companies want the co-operation of the wholesale trade, and without this they are almost powerless. As it is, we know for a fact, that when a "suspicious fire" occurs in the country, if the Insurance Company disputes the claim and institutes an investigation, the claimant, who is almost invariably in difficulties, and largely indebted to the wholesale trade, is seldom without a number of merchants to back up his demands on the Company, who do not scruple to enforce the immediate payment of the claim on pain of withdrawing their own business from the office. We do not say that all wholesale

merchants—or even a large proportion of them—are guilty of such mean and contemptible conduct, but we know that it is far from being an exceptional occurrence, and if those gentlemen who use their influence thus, in order to defeat the ends of Justice, only knew, or could appreciate, the disastrous effect it has upon their own interests and the interests of the country, they surely would not be foolish enough to persist in such a course. An Insurance Company is not like a Government institution, at which conscientious politicians may peck as long as they can. It is a confederation of men, each owning a quantity of consumable property, who, by annual subscriptions, create a fund for the purpose of indemnifying any of the number who may, through some unforeseen accident, have his property destroyed. The premium at present charged by Insurance Companies on "good risks," say wholesale stores, do not exceed, after deducting the expense necessary to work the Institution, a quarter per cent. on the amount assured, so that if more than one store is burned out of every four hundred insured, the Company must lose money. Now we are certain that there is not a single Company doing business in Canada whether local or foreign—who can fairly balance their books for the last ten years, without showing a large loss on the Canadian business. This is the experience of every one of the English Companies, and it is patent to everybody, that the whole of the American Companies, except the old *Etua*, and one other, withdrew from Canada on account of the heavy losses they sustained. And though the English Companies are more persistent, yet there can scarcely be a doubt that unless the business is made to pay, they will ultimately withdraw also. Indeed we believe that things have now come to such a pass, that they must either withdraw or raise the rates for Insurance, and we would not be at all surprised to hear of the leading British Companies having come to some understanding of the kind.

Is it not, then, the interest as well as the duty of every man, but especially the wholesale merchant, to co-operate with the Insurance agents in their endeavours to root out this dreadful crime of arson? The importance of Fire Insurance in the Province is only second to banking, and scarcely a heavier blow could be dealt against us than the withdrawal of the English Companies. If these matters were thoroughly impressed upon the merchants and traders of the country, we doubt not but a general reformation would be worked, and that this foul stain upon our reputation would be wiped out.

THE BANK OF UPPER CANADA.

"do evil that good may come," seems the maxim of one of our city papers. The *Herald* believes that Mr. Galt is the wrong man in the right place, and nothing pleases that journal better than an opportunity of canvassing his financial ability, or rather inability, and his financial fallacies. We do not object to this. The *Herald*, no doubt, has the welfare of the Province in view, and if it believes that Mr. Holton, "or any other man," would make a better "Chancellor of the Exchequer" than Mr. Galt, it is quite right in inciting a supplanting process with all its vigour. But admitting that the *Herald* is right in this view—a question on which we do not venture an opinion—is it justified in doing evil that good may come out of it? This is the question. It has become generally known that the Bank of Upper Canada, with the management of which Mr. Galt's name is closely allied by the Journal referred to, will not pay any dividend for the current half year, and the *Herald*, while admitting that this is wise and conservative policy on the part of the directorate, embraces the coveted opportunity of "exposing" the rottenness of the institution, and condemning and ridiculing its management for the purpose of destroying confidence in Mr. Galt. This is conduct which any public journalist should be ashamed of. Nothing could be more disastrous to the interest of the Province than the failure of one of our leading Banks—a circumstance which we hope and believe will never occur—and such articles as the one which we refer to, dishonest, both in principle and purpose, are the very things calculated to create such a result.

We are not desirous of being considered the champion of the Bank of Upper Canada, an institution in which we are interested only so far as it is identified with the trade of the country, but a certain respect which we have for truth-telling and fair play, compels us to say that, judging by the evidence which we possess, the Bank of Upper Canada is in as good a position

to-day as it was twelve months ago, or as it was three years ago, and even the *Herald* will not deny that under Mr. Cassels' management the lands and other property which it holds has been valued with as much fairness, and the result placed before the public with as much frankness, as those of any other institution in the Province. But we will defer making any remarks on the position of the Bank until after the Directors' report has appeared, when we will take an opportunity of again placing the matter before our readers.

As far as we are concerned ourselves, the *Herald*—or any other journal—is quite at liberty to make as many accusations against us—of bolstering up Stocks, &c.—as may satisfy the appetite it has got for such things. We do not think our reputation will suffer much on this account, unless indeed the disease from which so many of our public journals appear to be suffering is taken, in which case it may be dangerous to come in contact with persons so affected.

The remarks we before made on the Bank of Upper Canada, and which the *Herald* characterises as a spasmodic attempt to bolster up the stock, were as follows:—

"In view of the depreciation in the market value of the stock of this Bank, it becomes particularly interesting not only to know who are the chief stockholders, but also to observe whether they and other people likely to know the true state of the Bank's affairs are buying in or selling out. For this purpose we have procured one of the lists published in 1861, and are thus enabled to make our tables comparative. Carrying out our plan of giving the names of all stockholders owning \$20,000 worth of stock (nominal), or, in this case, 635 shares, we have the annexed statement.

Name	Residence,	Shares held in 1855.	Shares held in 1861.
Bur-stall, Ed	Quebec	805	None.
Cassels, R. (trustee)	Toronto	2031	None.
C. & D. Savings-Bk	Montreal	728	None.
Street, T. C.	Niagara Falls	1176	721
Furner, C. H.	England	770	770

The list, since the reduction of the shares from \$50 to \$20, is but small, yet it should give some confidence to the holders of stock. Mr. Bur-stall, of Quebec, is a man who has means of knowing the prospects of the Bank; so, surely, has the City and District Savings Bank, with whose management Mr. Simpson and Mr. Starnes are, we believe, connected, and so certainly has Mr. Street himself the President of a Bank which has successfully emerged from an ordeal like that through which the Bank of Upper Canada is now passing. Mr. Cassels, the new Manager of the Bank, of course holds a number of shares as trustee, but he also owns 70 in his own name, bought since 1861. To carry out our idea a little further, we proceed to give a few other names of leading shareholders.

Name.	Residence.	Shares held in 1855.	Shares held in 1861.
Bosanquet, Rich. Godf.	London, Eng.	200	200
Cameron, Hon. W.	Toronto	557	637
Foot, S. B.	Quebec	133	None.
Glyn, Geo. G., A.P., & Glyn, St. Leger, R.	London, Eng.	500	600
Gzowski, C. S.	Toronto	234	53
Hamilton, George	Toronto	407	467
Heath, J. G., deceased	England	270	540
Joseph, A.	Quebec	140	None.
Kirkpatrick, Thomas	Kingston	153	153
Macbeth, George	London	642	435
Fire and Life Ass. Co.	Montreal	333	148
McGreavy, Thomas	Quebec	200	None.
*Ridout, J. W.	Toronto	63	40
Woodruff, Richard	St. Davids	648	432
Wurtelo, R. V.	Quebec	267	51

"The inference appears to follow from the above facts, that the persons who have been selling are not the large capitalists, but the small holders, whose fears have got the better of their judgment. The estate of Mr. Heath (late of Rednal, Staffordshire, England), which has reduced its shares, has done so in pursuance of a policy now being carried out with reference to other Canadian bank-stock held by that gentleman, and not from any greater distrust of B. U. C. shares than of shares in the other Banks of the Province. When the Glyns, the Bosanquets, the Gzowski, and the Streets hold or buy in, the shareholders at large ought, we think, to avoid sacrificing their property."

Of the truthfulness of these statements our readers can satisfy themselves by referring to the "Returns of the Banks of the Province," since issued by order of the Government, and of the soundness of the conclusions we have drawn from the facts which will be found there, a very moderate supply of common sense will enable anybody to judge.

We do not object to the *Herald's* making any use it pleases of the figures we have furnished, neither will we be dissatisfied with any comments which it may make on our remarks, but we always will object to any journal, of whatever party, attempting to sacrifice one of our most important financial institutions at that shrine on which many vital interests have already been consumed—the accursed shrine of Canadian politics.

BANK STATEMENTS.

GENERAL POSITION OF THE BANKS.—MAY 31st, 1865.

Assets Invested	
Loans.....	\$43,179,039
Other debts	3,601,219
Government Securities.....	5,911,024
Landed property.....	2,855,965
	<u>\$55,547,247</u>
Available.	
Specie	\$7,377,592
Banks, not due by	332,024
	<u>\$7,709,616</u>
Liabilities	
Deposits not bearing interest	\$11,280,765
" bearing interest	13,946,759
Circulation	8,695,615
	<u>\$33,923,139</u>

1. **LOANS**—These are decreased for the month, \$931,504, which is pretty evenly spread over all the Banks, the Bank of British North America having the largest reduction, \$244,424, no doubt arising chiefly from the great falling off in the demand for money by importers here, and the very conservative character of the management of this institution, leaving it to reject the only kind of business to be had at present in the depressed state of matters in the Western Province.

2. **OTHER DEBTS**—Are increased \$174,259, although we might have expected a decline, as the Banks are writing off at this season, but we hope it is the last increase we shall have to chronicle. Our Bankers should have touched bottom by this time in *probing old sores*. One or two good harvests will work wonders with these suspended debts. We cannot avoid congratulating the Ontario Bank and Bank of Toronto on account of the small amount of overdue paper they appear to have,—only about 3 per cent. of their loans,—commencing business, as they did, at a time when the temptation to extend Banking was great, and the business since proved to be in the main fallacious.

3. **GOVERNMENT SECURITIES**—Are increased \$102,605, all in the Bank of Montreal. A satisfactory indication of confidence in the forthcoming Budget of the Finance Minister.

4. **SPECIE**—Is increased \$1,191,831, showing the return of loans to some extent, and the difficulty of re-investing.

The chief increases are: Bank of Montreal, \$505,383; Bank British North America, \$176,724, the Ontario Bank, \$163,581, and the balance spread pretty equally over all the Banks.

5. **CIRCULATION**—Is decreased \$100,208, nearly all in the Montreal Bank. We expected that the transfer of the Government account to the Bank of Montreal, some two years ago, would have increased the circulation of that Bank, though others might fall off, but instead it has decreased nearly half a million.

Bank circulation will not increase till after harvest, except through the payments to the farmers for wool, estimated worth some \$3,000,000 for the season's clip. But it is probably no disappointment to the Banks, except on account of the internal exchanges of the country—capital and investments going together, and the latter are not to be found. So the specie in the safes of the Banks is sufficient to meet nearly the whole circulation, without the need of resorting to any other securities—a fact not equalled in other countries, as far as we know. The circulation in 1868 was \$11,000,000, and after the great harvests of 1850 and 1851, touched \$15,200,000. The specie then being about one-third currency in future, in countries supplied with railways, will assume the form of deposits for uninvested bank indebtedness.

6. **DEPOSITS**—Not bearing interest, are increased \$1,667,392, of which \$977,385 is in the Montreal Bank, the balance, \$690,007, is shared by all the banks in proportion to their business, except the Banque Nationale, which has lost \$29,170.

The large increase in the deposits of the Bank of Montreal need not excite surprise, when the magnitude of the Military and Government finances are taken into account, and that money seeking investment finds its way in greatest proportion to the richest bank.

7. **DEPOSITS BEARING INTEREST**—Have decreased \$137,452, not a good sign, though one of the times. This class of deposits touched their highest point in Sept. 1864, \$16,608,000, gradually declining to the present amount, \$13,946,759. We regret to see this barometer of thrift and savings falling, but the deficient harvests of the last few years have compelled thousands to resort

to the little herds of more prosperous days. It is a matter of surprise that the Banks have not lost more of this class of deposits.

8. **OTHER BANK BALANCES**.—There is an increase in the amount due to other Banks of \$172,262, and in the amount due by other Banks \$564,852, nearly all in the leading Bank. This naturally follows the increase of deposits above referred to, and also as to the increase of specie remarked upon under that head. It is worthy of remark that the promissory notes and bills of other Banks, held by the leading Bank, amount to one-half the whole sum held by the others—say \$400,000, against \$800,000.

At the close of another monthly review, we can congratulate the country on the very strong position of our banking institutions. That they are equally respected on the change in London and New York, as with ourselves, leads to the conclusion that they are under honorable, intelligent and prudent management, and to which, we feel assured, the institution criticised by a contemporary this week, will not prove an exception under its later management.

CREDIT FONCIER.

THE Bill brought forward a few years ago by Mr Bouclerville, M.P., for the establishment of a Bank of Credit Foncier at St. Hyacinthe, having broken down, people have allowed the matter to drop. Whether this is resulted from a sense of the 'utility of such schemes, or whether from the defects of that particular one, it would be impossible to say. But certain it is, that since the failure to establish that very complicated arrangement, nothing has been said in this country about the establishment of any Bank of Landed Credit.

The wisdom of that particular scheme was made so manifest by the press of this and other cities in this Province, that people appear to have resolved themselves into the notion that all such establishments are materially bad or useless. This is far from being the case. They are one of the most valuable descriptions of institutions, when founded on a proper basis, which it is possible to conceive. On the continent of Europe they are almost universally adopted, and especially in those parts in which agriculture has made most progress. In Germany they have been conducted with business tact and have been very successful. Whereas in France, to the sicker business of lending and borrowing money, they have added the chances of the lottery, and even with that drawback they have been of great service to the landowners of that country. The trouble and expense attendant on borrowing money on land make it particularly desirable that such Banks should be established in this country. No capitalist, at present, who can find any other investment for his money at a reasonable rate of interest, will lend it on land. The extreme uncertainty with which interest is paid, makes it anything but a desirable operation for those who wish to have their interest at stated periods. Neither is it a more pleasant transaction to those who desire to borrow. They are met at every turn by difficulties and suspicion. It would be impossible to estimate the number of farms in Lower Canada which are heavily mortgaged, by reason of the difficulty and expense of borrowing money on land, but it is certain that a very large portion of the land of our *habitant* farmers is in that state. The rate of interest which prevails in country districts in Lower Canada ranges, according to the amount and length of time, at from 20 to 50 per cent. per annum, and that in spite of our barbarous law limiting the rate to 7 per cent. Thus the farmers who are obliged to borrow small sums, occasionally allow them gradually to accumulate (by renewing their *bons*) at compound interest, until they are obliged to grant a mortgage to their creditors for the amount due, and interest for a term of years, and it is almost unnecessary to say that such a mortgage is only paid by eventually selling the property.

A proper system of Credit Foncier would do a great deal to avert the evils which are continually arising from a combination of circumstances, which almost preclude the possibility of money passing directly from the capitalist to the landowner. And it is not too much to say, that millions of dollars could be profitably employed in improving and stocking the worn-out lands of Lower Canada. The system adopted in Germany appears to answer its purpose very satisfactorily. A Society is formed, having a certain quantity of capital to insure its respectability, and having a proper charter. Such societies do not depend entirely on their own capital; in fact their own capital is only

a very small proportion of the money which they lend. They are a description of Savings Banks, or rather, perhaps, an agency. They borrow as fast as they lend. When a person desires to borrow from this Society, he has to satisfy it that his security is good for the amount he requires. They then take a mortgage for that amount on his ground, and issue a description of bonds called *1^{er}* and *Briefs*, bearing interest, and which are sold to parties having money to invest. It is in this latter particular that the bonds issued by such societies in France differ from those of Germany. In France the holders of these bonds derive a low rate of interest from them, and lots are drawn by which a further rate of interest is divided amongst a few who happen to hold the lucky numbers drawn by lottery. To the capitalist there could be no more desirable security than the bonds issued by such societies in Germany. Every dollar of them represents a mortgage held on land of much greater value. The holder looks to the Society for his interest and receives it on the day on which it is due. To the borrower nothing could be more advantageous. He derives from the Society a certain sum which he is at liberty to apply at once to the improvement of his land. The expenses and trouble are reduced to the lowest amount, and, in return, he pays a certain sum for a certain number of years, and when that time is expired his debt is cancelled. He is not, therefore, ever called upon to pay back the principal in one sum unless he so desires. The Society, meanwhile, not only receives interest on its own capital, but receives a profit on all the capital which it can realise on its bonds and lend to land owners. These bonds are of all amounts. In Germany they range from about \$15 of our money upwards, and are purchased by every class of people who have money to invest. The mechanic or laborer who has saved his few shillings finds for them a profitable and safe investment, and the capitalist who has his thousands to invest, feels that no security in which he could place them would be more advantageous to him.

BUSINESS CONNECTIONS.

OUR connection with Britain, and our proximity to the United States, should enable us, Canadians, by a careful selection, to possess the best qualities of both nations, and strike the reasonable mean between conservatism and volatility, between reserve and indiscriminate cordiality. We may, however, by the natural tendency which we have, in common with all mankind, to prefer evil to good, and ourselves making choice of the worst characteristics of our neighbours, instead of the best. The constant changes to which society in a young country is prone, owing to the new and promising openings which are ever offered to the eye of enterprise, bring men into close contact with multitudes of their fellows, which, were they like the Englishmen, to do business all their lives in the establishment in which they were brought up, they would never know except as strangers. Public life, too, in which every American indulges more or less, adds another large circle of friends. The result of having many friendships without any principle of selection is, that none of them are likely to be deep, and our opinion of our friends is formed as much from the average standard of the wicked world, as from the individual virtues of those whom we can only partially know. A business connection is like a friendship. In the old world, once formed it is often formed for life, in the new, it only lasts so long as an active correspondence is maintained, after which those who have done business for one another, are no more to each other than to any other man. The tradesman in the old world who loses a customer, searches what want of attention may have brought about a loss which he grieves over as a matter which seriously affects him, not so much on account of the pecuniary loss as the principle involved. In America the shoemaker or tailor knows that, although his work be done ever so well, there is only half a chance of his ever seeing his customer again. The same rule is followed through all ranks and kind of business, and that not only in the neighbouring Republic, of which we have hitherto spoken, but also in Canada. A commission merchant, when he visits a consignee whom he has served to the best of his ability for years, is condescendingly told that he will have his share of the business, or the consignee is waited on by some one whom he never saw or heard of before, and the result of the interview is, a promise to give him a trial, and the same thing being repeated in a good number of cases, the desire for independence of any one man, turns the consignee round from agent to agent, the buyer from house to house, until no one is interested in doing his work well, or serving him with more than the barest honesty. It is unnecessary to enlarge upon the evils of this instability, for how little is it likely to produce that mutual respect, out of which spring lasting friendships between man and man; and on the other hand, how likely it is to breed that class of strangers who are said to infest the Mississippi valley, living upon first transactions, and never even aiming at obtaining that confidence which might secure permanent business. We leave it for those interested to draw conclusions as to which course is the most profitable to pursue.

The past week has exhibited very little activity in this branch of trade, and the volume of business transacted has been meagre. Limited sales have been made of general groceries to fill immediate requirements and some staples have changed hands, but the jobbing houses appear to be holding off from adding to their stocks, and are awaiting the trade sales of next week, at which a large lot of teas are to be offered. It is expected that the "Shelburne" with cargo of tea, will daily arrive, in which event Messrs. Gillespie, Moffatt & Co. will offer it on the 30th inst., along with the teas arrived by the "Princess of Wales." On the 25th inst., Messrs. A. Urquhart & Co. will sell the balance of their Mediterranean cargo, ex "Cauny Scot." Messrs. D. Torrance & Co. also will offer on the 25th inst., about 5000 packages Teas, so that we may fairly anticipate a good influx of buyers in market, and a busy week. At auction sales of Messrs. Mitchell, Kinnear & Co., and Messrs. D. Mason & Co., held on 21st inst., particulars of which will be found elsewhere, only limited lots were placed, and prices realized were not satisfactory; buyers were entirely local. We report prices realized yesterday, by auction, of groceries on account of V. Hudon.

TEAS.—The usual local demand for immediate wants has existed, and small lots have been taken to sort up, but the market is inactive, though very firm. All grades of Teas on offer by private sale are in good supply, if we except fine Moyune, Young Hysons, and Gunpowders. We anticipate at the coming sales considerable lots will be placed, as some grades are known to be very short in stock in Western Canada. Our English advices report Teas firm.

SUGAR.—Firm, and slightly advanced. Stocks in market light; sales during the week have been limited, and only moderate lots have been placed. We observe the New York market is stiff, and *q. c.* better.

COPPER.—Some enquiry, but stocks very low, and desirable kinds difficult to be met with. No transactions to report. We do not alter our last quotations.

TOBACCO.—Has partaken of the dulness of the week, and very little has changed hands. A few limited orders from the country have been received, but we report this commodity sluggish, stocks of 10's of well known and favorite brands are getting low in stock. Bright 1/2 lbs are scarce, and somewhat enquired for. We do not report any change in prices.

RISE.—Slightly easier; several late shipments to our market have sorted up stocks, and as demand from United States markets for the present has ceased, holders here are not so firm, and we alter our quotations from 10s. 6d. to 17s.

MOLASSES.—Demand moderate. We hear of some 70 puncheons of Muscovado Molasses having been placed at 33c. by private sale. Stock in market ample for all requirements.

SALT.—Unchanged, and without any sales to report. FLOUR.—A great paucity of stock in market. A late shipment of Raisins from England was sold in bond for American market.

WINES & SPIRITS.—In good supply, and fair lots are being moved in execution of orders from the country. Local demand limited, if we except Holland Gin, which is somewhat active. Some good round sales have been made during the week of Du Kuyper's in wood. At our advanced quotations, holders are very firm.

BRICK TEA.—The manufacture of Brick Tea, which is so important to all our Hill planters, has been much more successful than we were recently led to represent. Mr. Melver, the manager of the Koussanio Tea Company, Almora, has for several seasons succeeded in preparing it in perfection by means of machinery which he himself devised. The specimens which he exhibited in Lahore, Lucknow, and the London market, met with marked approbation from the most competent judges. One brick weighing about 6 lbs., compressed into the size of 2 lbs., is now before us. It is made of the purest China Tea grown on the Himalayan slopes, well cemented and hardened into a form like that of ordinary tiled flooring, but three times thicker. So solid is it that a hatchet is required to cut it, and the Tea made from it is quite equal in flavour to the finest mixture that can be produced. More important than this is the success with which these bricks have been introduced into the marts of Central Asia by Cashmere and Afghan traders. The Kumaon planters, with an energy not surpassed by those of Assam and Kangra, lately deputed Mr. Lyall, one of their number, to undertake the overland journey to Russia through Central Asia, so as to develop a trade in Himalayan Teas. The bricks are of such a shape and weight that two of them can be slung over a sheep or goat, the usual way of carrying merchandise over the snowy range.—From the "Friend of India"

Petroleum.

Latest advices from Petrolera report the boring of the wells progressing rapidly, but as yet without any satisfactory result. It is useless to speculate upon the probable production of oil; the test of experiment must be left to decide the matter. There is scarcely any arriving in this market, and quotations are unaltered,—say from 31 to 33c. per gallon.

THE BRITISH MARKETS.

NEWS to the 8th June report money easy. Discount at the Bank of England is 3½ per cent., with the prospect of a further reduction.

The Joint stock banks and discount establishments of London allow 2½ per cent. for money at call, 2½ per cent. at 7 days, and at 14 days 3 per cent. A comparison of the bullion reserve at the Bank of England and France, with last year at this time, shows:

	1865.	1864.
Bank of England	£15,838,491	£14,652,761
Bank of France	19,435,254	11,735,688
Total	£34,273,745	£26,388,449

An augmentation of ten million pounds sterling at the present time it had been thought that the finance companies would have, in the use they create for money, arrested the downward tendency of interest, but it has turned out otherwise. The means of said companies have become so locked up by old engagements that new projects are not entertained—hence the stagnation in the Money market.

The range of the rate of discount at the Bank of England during the last two years

	1863.	1864.	1864.	1865.
May 16 3½	Jan. 20 8	June 10 6	Jan. 12 5½	
" 21 4	Feb. 11 7	July 25 7	" 26 5	
Nov. 2 6	" 25 6	Aug. 4 8	Mar. 2 4½	
" 5 6	Apr. 16 7	Sept. 8 9	" 23 4	
Dec. 2 7	May 2 8	Nov. 12 8	May 4 4½	
" 3 8	" 5 9	" 21 7	" 25 4	
" 24 7	" 19 8	Dec. 16 6	June 1...3½	
	" 26 7			

And it is worthy of remark that Consols have not shown any appreciable sympathy with the changes in the value of money.

COTTON.—The trade during the month May had been steady, and prices had a tendency to advance, caused, in some measure, by the favorable Money market. Owing to conflicting statements regarding the stock of Cotton actually existing in the Southern States, considerable anxiety is manifested as to prospects. A correspondent of the Times writes from New Orleans that there must be over five million bales of Cotton in the South. Another estimates the quantity at nineteen hundred thousand bales. Such discrepancies in the judgment of those who have given a good deal of attention to the subject, only show how very unreliable are opinions formed upon insufficient data, and no satisfactory conclusion can be arrived at. The stock of Cotton on hand in Liverpool is estimated at 491,600 bales, against 357,400 same time last year. To June 2nd the total sales of the year were 1,161,290 bales, against 1,127,000 in 1864. Total imports this year, 892,222 against 961,163 bales in 1864.

The total quantity received this year, as compared with last, shows a decrease of 201,100 bales short staple, and an increase of 126,400 bales long staple, being a net decrease of 74,700 bales this year. The Cotton market in Bombay has been paralyzed by the news of the collapse of the American rebellion, and it was difficult to obtain money on securities of any kind. This locality had profited lately to the extent of eighty million sterling over ordinary prices, and this circumstance had favored the wildest speculation. The staple, however, was still held at prices affording a handsome profit on the cost of production. And all the loss ultimately sustained would be merely that of wealth in expectation.

BREADSTUFFS.—Circulars of June 7th report the market for Wheat and Flour quiet. Canadian No. 1 Superfine, 22s. 6d. to 23s. 6d.

The Imperial weekly average of Wheat sold in London, June 9th.

1860,	was 70,413 quarters at 41s 11d.
1861,	" 68,739 " at 37s. 6d.
1862,	" 64,528 " at 46s. 5d.
1863,	" 44,067 " at 55s. 2d.
1864,	" 47,693 " at 55s. 5d.

CROP PROSPECTS.—We are favored with the following extracts from private letters:

"Liverpool, June 7th.—Nothing can equal the splendid weather we have had the last three days, and reports from all parts of the country affirm that the Wheat crop never looked better or finer. In the South of England it is reported to be already in the bloom in many places, this is several days in advance of the earliest season known. This is not the case in the midland or northern portions of the country, such places being rather behind last year. Present appearances are in favor of a good crop, and with large imports, concur to make markets dull."

"Glasgow, 8th June.—We have had wonderful fine weather here the last few days, and the crops have made great progress. It looks as if we are to have a very early harvest. The fine weather has been too much for the Corn market to stand up against."

Raw Furs.

Since our last Report, there has been some change in the prices of Furs. The favourable result of the Leipsic fair, and the short catch, have created a considerable activity both in Canada and the United States in certain kinds of Furs. Beaver and Mink are in good demand for the American markets \$2.50 per lb. is readily paid for fair grade of Beaver, and in some instances as high as \$2.75 has been paid for choice lots. Mink also are in good demand, and full rates are likely to be maintained during the season. Quotations will be found in our prices current.

Boots and Shoes.

So far as this branch is concerned, under the best circumstances, business is always dull at this season. From the fact of spring purchases having been light, a good fall business may reasonably be expected, especially, since the crops have such a fair appearance. Quotations unaltered.

WOOL.

IN the Western markets of the Province Wool continues to come in freely, and meets with ready sale at previous quotations—say 41 to 41c., according to quality.

At present there is not much competition among buyers, the quantity in the hands of farmers being supposed to be still large. The producers of Wool are not generally holding back for a rise, having probably learned by experience that "a bird in the hand is worth two in the bush," and having good reason to be satisfied with the handsome profit which is realized at present prices.

FOREIGN WOOL MARKET.

LIVERPOOL, 31st May, 1865.

Since the close of our public sales of sundry Wool on the 6th inst. there has been a moderate but not a large demand for common and middle class Wools, prices being generally unchanged, though in some qualities there has been a tone of improvement. Sales have transpired to a fair amount in Peruvian, at rather above public sales rates, and in Alpaca large lots have been moved on the spot and to arrive from 2s 3d to 2s 8½d., and the market is nearly bare. Some parcels of inferior Iceland have also found buyers. Opoto, Cordova, Santiago, Angora, etc., have gone at former rates. In the River Plate Wools there has not been a large business. Mogadore washed fleeco is scarce; unwashed and pieces have again been neglected. Some sales of Donskol have transpired at full rates. Nothing has been reported in East India Wool from first hands. A few small sales only of Spanish Frontier.

TRADE SALES.

June 21.—Sale of Groceries on accounts of D Masson & Co., Cuvillier & Co., Auctioneers.

16 brls. Table Salt	2s 6d to 2s 7d
19 cases Jars	6s 6d to 5s 3d
50 brls. Copperas	4s 0d to 4s 3d
20 casks "	0s 0d to 4s 3d

Bordeaux Vinegar	39c
Indigo, Madras	61c to 63c per lb.
M. R. Rasius	11s to 11s 3d
Champagne (pints)	\$5 to \$5½ per case
Japan Teas	43c to 46c per lb.
Hhd's Cuba Sugar	\$8 80 to \$8 90
Hhd's Porto Rico Sugar	\$9 per 100 lbs.
Brls. Redpath, crushed A	11c
Do dry crushed	11½c
Yellow	9½c
Muscov. Molasses, (in puns.)	34c
Clayed do	29c
Golden Syrup	49c
Portland do	30c

IMPORTS FOR FIVE MONTHS.

PORT OF MONTREAL.

We present herewith a table showing the Imports at Montreal, of the leading items in trade, from 1st January to 17th June of present year as compared with the same period last year—

	1864	1865	Decrease.
Cottons	31,543,080	\$814,655	\$1,021,425 = 25½ per cent.
Woolens	1,527,351	86,766	633,195 = 42 "
Silks, &c.	213,599	174,235	33,663 = 16½ "
Sugars	432,311	411,861	89,359 = 16½ "
Teas	1,212,211	65,011	586,780 = 47 "
Coffee	53,939	397,763	33,196 = 61½ "
Hardware	324,443	187,211	178,314 = 48 "
Iron	328,012	191,577	136,468 = 41½ "
Total	46,933,167	43,329,479	42,700,688 = 45 "

FAILURES-MEETINGS OF CREDITORS FOR THE APPOINTMENT OF ASSIGNEES UNDER THE INSOLVENCY ACT OF 1864.

Table with columns: NAME AND RESIDENCE, TO BE HELD AT OFFICE OF, DATE. Lists various creditors and their meeting locations and dates.

ASSIGNEES APPOINTED.

Table with columns: NAME OF INSOLVENT, RESIDENCE, NAME OF ASSIGNEE. Lists insolvent names and their appointed assignees.

APPLICATIONS FOR DISCHARGE.

Table with columns: NAME, RESIDENCE, WHERE TO BE HELD, DATE. Lists names and details of discharge applications.

WRITS OF ATTACHMENT ISSUED.

Table with columns: DEPENDANTS NAME AND RESIDENCE, PLAINTIFFS NAME, DATE. Lists dependants and plaintiffs.

STOCK MARKET.

Table with columns: Name of institution, Closing price, Last Week's, Corresponding week, 1864. Lists various banks and their stock prices.

AVERAGE PRICES OF GRAIN.

Table with columns: Grain type, Price per bushel for various dates (Friday, Saturday, Monday, etc.). Lists average prices for different types of grain.

WEEKLY PRICES CURRENT-MONTREAL, JUNE 23, 1866.

Large table with columns: NAME OF ARTICLE, CURRENT RATES. Lists a wide variety of goods including groceries, hardware, oils, and produce with their current market rates.

THE PRODUCE MARKET.

THE general inaction last noted has continued unbroken. Receipts are light, and the outward movement of the most trilling character.

FLOUR.—Arrivals from all sources are small for the season, but in the continued absence of export inquiry and the caution shown by local buyers, the supply has kept in advance of the demand, and sales have been exceedingly dragging, and the general tendency slowly but steadily downwards. The higher grades have ceased to engage attention for export, and the arrivals greatly exceed the limited city demand. We quote superior Extra, \$6.10 to \$6.30; Extra, \$5.75 to \$5.90; and Fancy, \$5.65 to \$5.70. It is, however, difficult in the absence of demand to give the exact figures which would induce wholesale operations. Western States Supers, though in diminished quantity, are still offered freely, and being found unsuited to the wants of bakers, from sufficient strength, is placed with difficulty now at relatively low prices, the range being \$4.70 to \$5.00. Strong fresh ground Canada No. 1, though participating in the general depression, is more readily moved, but winter ground is avoided or only bought in retail lots for present use. We give as the range for old \$5 to \$6.20, and for new \$5.10 to \$5.35, according to strength. No. 2 and lower grades are in full supply, though not in excess, and may be quoted for No. 2, \$4.60 to \$4.60; Fine \$4.25 to \$4.40, and Middlings \$3.75 to \$4.00.

WAG FLOUR.—City brands from Western Wheat constitute the bulk of the offerings, and being found too soft to be generally substituted for the strong, lively samples from U. C. Spring Wheat, with which the trade is familiar, difficulty is experienced in getting them into consumption, even at a considerable reduction on rates obtainable for strong. The supply from Upper Canada is small, and holders are firm at \$2.95 to \$3, which rates are, however, reluctantly given, and in most cases only for broken parcels.

WELLAND CANAL FLOUR.—During the week there has been no transactions, and what little arrived has gone into store, agents being unable to find purchasers.

WHEAT.—Arrivals continue light, and transactions unimportant, quotations, which are mostly nominal, are as follows:—U. C. Spring, \$1.14 to \$1.18; Milwaukee, 97c. to \$1; Chicago, 97c. to \$1.

PORK.—Without any alteration in the demand, and with moderate receipts, holders are firm at full rates.

BUTTER.—The weather during the past week has been very unfavourable for forwarding, and a considerable portion of the late arrivals have been more or less heated, and as the demand at present is of the merest retail, holders in the West, especially those living at a distance, will do well to retain what Butter they may have on hand until cooler weather, or at least until the shipping demand has fairly begun the make, both in Britain and on the Continent of Europe, has been large, and with abundant supplies, Jersey, Irish, and Dutch Butters have been freely offered within the range of 70s. to 98s. per cwt. The risk of heating and consequent heavy loss of weight and deterioration in value, together with the unsettled condition of the British markets, deter shippers from operating; and until such time as prices appear sufficiently settled in Britain to enable them to calculate contingencies with reasonable accuracy, little movement can be looked for here. From present quotations in Liverpool, and from the prospect of a large make on this Continent, as well as in Europe, owing to the abundant crop of grass, it seems likely that prices will open low, and country merchants will do well to exercise caution in their early purchases especially, carefully avoiding being misled by the very exceptional rise in the price of last year, which was owing to causes, the reverse of which are in operation this season. Special discrimination in the matter of quality is also imperatively called for amongst Western merchants, if Canadian Butter is to engage attention in the British market to any extent. Owing to the inferiority of this country's make, which has been so often alluded to, it is in growing disrepute in all the principal home markets, and in the face of a large yield of European Butter, said to be of very superior quality, shippers will only consent to engage in any transaction after the most rigid examination of the parcel, complaints, claims and law suits, some of them as yet unsettled, being the result, in several instances, of the business of last season. Quotations are, as yet, entirely nominal, no wholesale parcels having lately changed hands. For good to choice 1½ to 15c. is asked, but to move a parcel less would be accepted.

ASLES.—A continuance of advices of dull and drooping markets in Britain, with but few orders on hand, is gradually depressing prices here for both Pots and Pearls, quotations closing very dull at last week's figure, in some instances lower rates having been accepted.

Gold Reports.

From Friday 16th, inclusive, highest and lowest:—

	HIGHEST.	LOWEST.
Friday . . . June 16	145½	142½
Saturday . . . " 17	145½	144
Monday " 19	142½	140½
Tuesday " 20	141	138½
Wednesday " 21	142½	138½
Thursday " 22	143	141½

It will be seen to have an upward tendency

Stock Market.

There has been more demand for stocks this week, and prices generally have advanced, and are firm at quotations. Bank of Montreal having been purchased freely at 107½, City Bank at 93, and La Banque du Peuple at 97½. Government Sterling 5 per cent. Debentures have been sold at 89. The transfer books of several of the Banks are now closed, to prepare for the payment of the half-yearly dividends on 1st July. It is understood that the Bank of Upper Canada will not pay a dividend for the past six months. Sterling Exchange is more plentiful this week, and is procurable at 10½ to 10½ for Bank Bills.

NOTICE.

For the present we refer our friends to the Produce Article of this paper, in lieu of our usual Weekly Circular.

LEEMING & BUCHANAN.

Friday, June 16th, 1865.

NOTICE.

Our correspondents are, for the present, referred for Prices Current of Produce and Provisions to the Produce article of this paper, which will be found full and reliable

AKIN & KIRKPATRICK,
General Commission Merchants

Montreal, 15th June, 1865.

NOTICE.

For the present, we would refer our friends to the carefully compiled "Prices Current" of "THE TRADE REVIEW," which will be found on another page.

KIRKWOOD, LIVINGSTONE & CO.
Montreal, 16th June, 1865.

NOTICE.

For the present we refer our friends to the Prices Current of the "TRADE REVIEW," which will be found thoroughly reliable

THOS HOBSON & CO
Montreal, June 22, 1865.

THOMAS HOBSON & CO.,
COMMISSION MERCHANTS.

486 & 488 ST PAUL STREET, AND
427 COMMISSIONERS STREET.

CIRCULAR.

Montreal, June 8th, 1865.

Having removed to the more commodious premises (486 & 488 St Paul street, and 427 Commissioners street), we again, with increased facilities for doing business, offer our services as Commission Merchants, for the sale of Flour, Pork, Butter, Eggs, Ashes, Leather, &c., &c. In doing so, we feel confident that we can offer inducements to consignors surpassed by no other House in the city; we have had many years' experience in the business, we pay strict and personal attention to all consignments, we have an intimate acquaintance with the principal buyers of this and other markets—our premises are admirably located and arranged for a Produce trade, while our financial position is such, that we are not obliged to force sales to meet advances, and, when sales are effected, we make remittances with the utmost promptitude.

We make liberal advances upon all descriptions of Produce, and accept Drafts against Bills of Lading to the extent of two-thirds or three-fourths the value of consignments. Cash advances will also be made against consignments to our correspondents in Manchester and Liverpool, and consignors will have the option of having their goods sold here or in either of the abovenamed markets. Our rates of commission will be as low as any House in the trade, and all other charges will be avoided as far as possible.

We have made special arrangements for doing a large Butter business, and, as this has become one of the staple articles of export, and one of the most valuable products of Canada, we beg to offer the following suggestions:—

PACKING BUTTER.—Use none but new packages. White Ash preferable; let them be well seasoned and thoroughly cleaned and soaked in brine, mark distinctly the correct dry tare on each package; use fine salt only; pack the butter closely; let the various colors be carefully selected; fill the kegs as full as possible, place a clean linen cloth over the top, carefully tuck it down; then put on a handful of fine salt and a little brine, head up immediately, mark neatly with your own initials and address in full to the Consignee. (A brass stencil-plate is best for marking; if you desire one, by applying to us, we will supply it free of charge.)

PACKAGES.—The tinnet holding from 50 to 60 lbs. is most suitable; it suits the retailer, and is preferred by English buyers, they also arrive in better condition; they cannot be rolled like kegs, therefore they are generally much cleaner. Kegs with loose or slip covers are also much sought after, and are always taken in preference to the ordinary keg;—where large packages are used, we would in all cases recommend the slip covers. We would also advise that, as far as possible, packages should be given out to the farmer to be filled by one maker, where this cannot be done, and where packing in the store is unavoidable, the Butter should never be allowed to remain exposed to the damp atmosphere of a cellar, which, perchance, contains every description of Soap, Candles, Oils, Liquors, &c., but it should be packed the earliest opportunity, and, when packed, should be immediately headed up.

It is expected that the demand from England will be very large this season for FINE QUALITIES, for which comparatively higher prices will be paid, but inferior will probably be a greater drug than ever, so that we would advise great care in taking in Butter.

We also pay special attention to the sale of Ashes, and will furnish circulars with directions for manufacturing, &c., on application to us.

Hoping to receive a share of consignments,
We are yours obediently,
THOS. HOBSON & CO.

7-30 U. S. LOAN.

PRENTICE, MOAT & CO.,

HAVING been appointed Agents in Canada, are duly authorized to receive Subscriptions for this Loan, and are prepared to supply the fullest information to intending purchasers.

The usual commission will be allowed to Brokers and others who may buy to sell again.

All descriptions of American Securities bought and sold.

MERCHANTS' EXCHANGE, }
Montreal, June 20, 1865. } 22-35

THE GREAT 7-30 U. S. LOAN.

THE undersigned, having been appointed Agent in Canada for the sale of this popular Loan, is prepared to receive Subscriptions for the same.

ADVANTAGES OF THIS INVESTMENT:

With gold at a premium of 40 per cent. (as at present) \$71.44 Canadian Currency will purchase \$100 of this loan, on which amount the U. S. Government pays \$7.33 interest annually. Should U. S. Currency reach par in two years—and now that the war is over there is every reason to believe that it will do so much sooner—the hundred dollar bond, which to-day costs \$71.44 in gold, will then be worth, interest included, \$115.10 in gold, which would be equal to 30 per cent per annum on the investment. And for the payment of this the whole funds and other property of the United States are pledged.

DIRECTIONS TO PARTIES WISHING TO OBTAIN BONDS.
Remit the amount you desire to invest to the undersigned, or apply through any of the Banks of Canada, stating the exact amount in U. S. currency you wish Bonds for, the interest on which will date from the day of your order, and the Bonds will be furnished you as soon as obtained from the Treasury Department at Washington.

Cash advanced on Warehouse Receipts and negotiable paper. Collections made in all parts of Canada and the United States

STEAMER

**FOR KINGSTON, TORONTO,
HAMILTON and INTERMEDIATE PORTS.**—
The Steamer "Huron," Taylor, Master, will leave for the above Ports on Monday, 5th instant
JAQUES, TRACY & CO

**DICKINSON'S
OTTAWA, RIDEAU AND LAKE CHAMPLAIN
FORWARDING LINE.**

Stock composed of 11 Steamers and 45 Barges.

THIS old and well-established LINE is prepared to receive Freight as formerly at reduced rates.

For LOCAL FREIGHT between MONTREAL, OTTAWA and RIDEAU CANAL, four First Class Steamers will afford a daily departure from MONTREAL and OTTAWA (Sundays excepted), thus securing greater despatch than formerly; and connecting at Ottawa with the Upper Cabin Passage and Freight Steamers "City of Ottawa" and "Bytown," running between OTTAWA and KINGSTON, affording four departures per week from each place.

For Transport of Sawed Lumber and other property to and from all Ports on Lake Champlain and to Quebec, an efficient Line of Tug Steamers with Barges will as formerly be employed.

For particulars, apply to GEO. HEUBACH, Acting Agent, Montreal; JAS. SWIFT, Agent St. Lawrence Wharf Kingston; JAMES RAFF, Agent, Smith's Falls; W. D. WADDELL, Agent, St. Peter Street, Quebec, or to the Proprietor, M. K. DICKINSON, Canal Basin, Ottawa

IRELAND'S

THROUGH FREIGHT LINE.
For TORONTO, HAMILTON, ST. CATHERINES and Intermediate Ports, the first class Steam Propeller "MAGNET," Captain Malcolmson, will leave the Subscriber's wharf for the above Ports, on Friday the 2nd instant, at 6 o'clock p.m. Freight at lowest current rates.

HELMBOLD'S FLUID EXTRACT BUCHU and
SARSAPARILLA for Non-retention or Incontinence
 of Urine, Irritation, Inflammation, or Ulceration of
 the Bladder, or Kidneys, Diseases of the prostate
 Gland, Stone in the Bladder, Calculus, Gravel or Brick
 Dust Deposit, and all Diseases of the Bladder, Kid-
 ney, and Dropsical Swellings.

HELMBOLD'S FLUID EXTRACT BUCHU, for
Weaknesses arising from Excesses or Indiscretion.
 The constitution once affected by Organic Weakness,
 requires the aid of medicine to strengthen and invigo-
 rate the system, which Helmbold's Extract Buchu
 invariably does. If no treatment be submitted to,
 consumption or insanity may ensue.

HELMBOLD'S FLUID EXTRACT BUCHU and
IMPROVED ROSE WASH will radically exterminate
 from the system Diseases of the Urinary Organs,
 arising from habits of dissipation, at little expense,
 little or no change in diet, no inconvenience and no
 exposure, completely superseding those unpleasant
 and dangerous remedies, Copaiba and Mercury, in
 curing these unpleasant and dangerous diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU,
 in all diseases of the Urinary Organs, whether existing
 in male or female, from whatever cause originating,
 and no matter of how long standing. It is pleasant in
 its taste and odor, immediate in its action, and more
 strengthening than any of the preparations of Bark or
 Iron.

Those suffering from Broken-down or Delicate con-
 stitutions, procure the remedy at once.

The reader must be aware that, however slight may
 be the attack of the above diseases, it is sure to affect
 his bodily health, mental powers, happiness, and that
 of his posterity. Our flesh and blood are supported
 from these sources.

PHYSICIANS, PLEASE NOTICE.—We make no
 secret of ingredients. **HELMBOLD'S FLUID EX-**
TRACT BUCHU is composed of Buchu, Cubebs, and
 Juniper Berries, selected with great care, and pre-
 pared in vacuo, by H. T. HELMBOLD, Druggist and
 Chemist of sixteen years' experience, in the city of
 Philadelphia, and now prescribed by the most eminent
 Physicians, has been admitted to use in the United
 States army, and is also in very general use in State
 Hospitals and Public Sanitary Institutions throughout
 the land.

Price One Dollar per Bottle, or Six Bottles for Five
 Dollars, delivered to any address, accompanied by
 explicit directions.
