The Victoria Prices Current, AND SHIPPING LIST.

Vol. 4. VICTORIA, VANCOUVER ISLAND, TUESDAY, FEBRUARY 18, 1866.

No. 11.

MARKET AND GENERAL REPORT

There has been little or no alteration in the state of this market since our last issue. As yet, there is no actual demand for supplies; quotations seem however to be firmer, with a tendency to go up. Holders of goods have reason to think that the supplies this season will be fully demanded, with the demand, and it is anticipated, rather from the gold fields, more particularly from the big Bend & Garry lands, than to expect that there will be a heavy business done during the season. Any goods that have been sold at public auction, have realized full value according to quality, but no large amount has been disposed of.

FLOUR.—A report has been current during the last few days that flour had gone up at San Francisco, from 2 to 3 dollars a barrel; should it do so, and bakers able to maintain prices, we may anticipate an upward tendency here, although quotations still remain as formerly.

GOLD.—Gold digging was discovered at Sooke just before the winter set in, and they may prove to be the source from which the gold hitherto found in the river has been supplied. Gold is said to have been recently discovered on Salmon river, near Fort Rupert.

COPPER.—Mining for this metal has been suspended generally, with the exception of a tunnel which is being driven at Alberni; it is not that co. is unable to find the copper mines, but so many had been engaged in it, that with the dulness of trade, shareholders have been unable to pay their assignments, and the board of directors have been unwilling to contract debts while they could not see how they were to be paid.

COAL.—Nanaimo has as much as it can do to supply the demand, which is and will be constantly increasing. This kind of mining is at present attracting most attention; a company has been formed and considerable money already spent in opening a mine of Anthracite coal in Queen Charlotte Island, and a second company has been formed for working the same vein, on the opposite shore of the harbour where the claim of the first company has been located; there is a third company organized to work a mine situated a short distance up one of the rivers of Vancouver Island, where there are said to be various veins of large dimensions of superior bituminous coal, with every facility for getting it out by tunnelling, as the spot presents a series of benching, attaining a very considerable elevation. The impression seems to be that coal alone will ere long suffice to make Vancouver Island a place of great importance.

VESSELS.—“Prince Royal” H. B. Co., arrived in Esquimalt harbour on the 2nd instant, 150 days from London, bringing a large miscellaneous cargo for the company, and 9 passengers.

“Glaramara”—this vessel was lowered out of the harbour on the 19th January, for London, with a cargo of furs, &c., to value from 160,000 to 200,000 dollars, one of the most valuable shipments ever made from this port.

Since our last issue the contract for dredging the Hudson Bay Company, who intend to place on the route for the present their steamer Labouchere. The Labouchere will start on her first trip Thursday, 14th inst. The conditions of the contract are as follows: Three trips at least every two months; Cabin Fare, \$10; Steerage, \$5; Freight, \$10 per ton. This is another movement in the right direction from which we may anticipate good results.

The *Severn*, Craigie, from London, arrived on the 10th instant, bringing a assorted cargo, con-

LOADING AND ON THE WAY.

From London—*Albatross*, London.
do. *Princess Royal*, sailed Sept. 21.

From Liverpool—*Eastern Star*, sailed Nov. 9.

RATES OF EXCHANGE.

London.—60 days. \$1.00—£1 sterling
do. 80 days. .50—do.
do. 8 days. .50—do.
do. on Demand. .50—do.
San Francisco—per cent. premium
Canada and New Brunswick—4 per cent.
Nova Scotia—2½ per cent. premium
New York—4 per cent. premium.
