AFTERNOON BOARD DEAD.

WAR EAGLE STRONG.

MORNING BOARD.

The strong opening in the London and New York markets gave courage to the local bulls, but as soon as the buying orders were filled the market eased off With the exception of War Eagle the market opened at its highest

With the exception of War Eagle the market opened at its highest.

Pacific when offered at 84½ was taken, next sale was at 84½, the others at 84½, it closed steady at 84½ to 84½.

Montreal Street Railway was dealt in at 266½ to 266, in this security there was also a disposition favoring buyers.

Toronto Railway showed the same symptoms of partial collapse opening at its best. War Eagle opened at yesterday's close but soon demonstrated its inherent strength. This stock will guard its own interests and some day reward its friends with a quick advance, similar to its jump of yesterday week. It closes with 267 bid, 270 asked.

CANADA'S SOUND FINANCIAL CONDITION.

Sufficient weight is not given to the remarkable soundness of the country.s business condition, as reflected in the low rate of commercial morality.

Whatever may be the margin of profit in any particular branch of trade or industry the records shew that solvency is preserved in an unusual degree.

A remarkable decrease in failures for small amounts shews that the retail trade is in an especially sound condition.

The prosperity of the country and its growth in activity, as reported by the Bank clearings and Railroad earnings, have been on the whole, devoid of excessive speculation.

What future gains may be made, will therefore be the developement of existing vigor and health.

The Traders are heavily long. At the start the most was made of the good war news to advance prices. On the rise a great deal of stock was offered which caused a quick re-action. The market closes generally above last night's quotations.

Sugar was taken hold of and opened at an advance of 2c, soon broke 14c recovered c then ran down fo about a cent under last night's close.

Brooklyn Rapid Transit, People's Gas and General Electric were strong stocks early in the day, but gave way later on with the rest of the market.

Grangers were no exception to the general rule and lost nearly all of their early strength. The market, all things considered, was dull; at the close the market was weak and looks like lower prices. Buy it on breaks.

New York, (9.55 a.m.), July 5.

The resumption of business on the New York Stock Exchange this morning, after a three days' holiday, is likely to be very favorably influenced by the glorious news from Cuba, and the sa-tisfactory accounts from the Philippines.

The overtures for peace, on the part of Spain, cannot now be much longer delayed, and the European powers are said to be urging such a policy on her

The influence of the news from scene of war, has had a marked effect upon the prices and the character of the dealings in the American securities abroad. Advances in American stocks in London today range from ½ to 2½ per cent. above the last night's closing prices.

New York, (noon), July 5.

The violent advance which took place in the London market, both yes-terday and today, was apparently due to the substantial victory gained by Commander Schley over Cervera's fleet on Sunday.

There is, however, a suspicion that part of the advance was due to the manipulative orders sent from this side, and this suspicion received some confirmation, from the way in which our local market acted immediately after

Although there were a good many outside buying orders, the pressure to sell was so heavy that opening quotations were the highest.

The buying came largely from Com-mission Houses, while the selling was

mainly by Brokers closely connected with two or three outside operators.

London was a buyer of most international stocks, but their purchases were not as heavy as might have been expected, considering the apparent difference between the London price and

The strongest stock was again Pullman, the strength being due to an announcement that the directors had decided to distribute, amongst the stock-holders, \$25,200,000 of the surplus. The distribution is to be made in the following manner:-A cash dividend of 20 per cent. will be paid to the stockholders of record on Aug. 15, in addition to the regular dividend.

In October a stock dividend of 50 per cent. will be distributed, and thereafter the dividend in the increased stock, will be 6 per cent.

the first hour's trading, the market became rather dull, there being a noticeable falling off in the volume of the professional operations.

NEW YORK STOCK MARKET.

The Bull element in New York are becoming very strong. They claim the railroads were never in a better position to take advantage of business which may present itself than they are at present. The granaries of the world being empty, America will be called upon to supply a vast amount of supplies from the interior, which will swell the profits of railroads.

The extreme ease of money in London and New York should make stocks cheap even at the advance of the last weeks. The annihiliation of Cerveras's fleet enabling, as it does, the attacking of Santiago by both land and water should speedily end the war. American stocks should then be great fav-orites with the European speculators, who are now bare of them.

The best railroad stocks will sell on a 41/2 investment basis and such stocks as New York Central will soon sell fifteen points higher than current prices.

MONTREAL RED MOUNTAIN GOLD FIELDS COMPANY.

It is not generally known that the Company has extended its business to the Klondike with remarkable cess. The expenses of the expedition have been comparatively trifling, yet the following placer claims have been located.

1. Discovery Claim, No. 1, on Golden Creek, which flows into the farfamed Eldorado at claim No. 42. Mr. Rooney, the Company's representative, says, in a letter dated Dawson City, March 29th. "I have some good news about the claim on Eldorado that I staked. Mr. Healey, who owns No. 42 Eldorado and did not get any pay on the right bank of his claim, went over to the left bank and put a hole down about 100 ft. above the mouth of the gulch that I staked on Eldorado, and began to drift under the bank. He has got as high as \$27.00 to the pan, so that looks good for the mouth of the gulch that I staked, as the pay must run down on the left

In a letter dated April 10th, he

writes, "The dump that they have taken out just about 100 feet on El-dorado above the mouth of our Gulch will pay \$24,000, and being on the same bank as the Gulch, it looks big anyhow." This may be taken as conclusive evidence of the value of the adjoining claim, No. 1 Golden Creek. This being the "discovery" claim, the Dominion Government has granted double the usual limit, making it 500 feet in length.

2., Claim No. 55 below Discovery, on Rosebud Creek, near Indian River, Yukon District.

Some idea of Mr. Rooney's energy and ability may be gathered from the following passage in his letter of January 20th:— "The biggest stampede that has taken place here, happened on the 2nd of this month, when the report got here that gold had been found on Rosebud Creek. I heard about it at 10 Rosebud Creek. I heard about it at 10 p.m., on the 2nd, and got a chance to pull out for Rosebud at midnight with some friends, who managed to get a dog team to take them up. We got there at 3 a. m., on the 5th. I staked No. 55, below Discovery, and by night it was staked clear to the mouth. Discovery is about ten miles from the mouth, and from what I am learn the covery is about ten miles from the mouth, and from what I can learn, the creek is about 40 miles leng, and comes into the Yukon 4 miles above Sixty Mile. The round trip from here on ice is about 175 miles, Rosebud is a fine looking Creek. I got No. 55 recorded on the 12th of this month."

3.—One half interest in Claim No. 56, below Discovery, Rosebud Creek, ad-joining No. 55.

4. One-half interest in Claim No. 28 above Discovery on Harris Creek, a tributary of Ophir Creek, Indian River Division of the Yukon.

Ample funds have been provided for the purpose of developing the Company's claims, and it is possible that there may have been already a "washup" on the Golden Creek Claim. News on this point cannot be expected for some time, owing to the difficulties of communication.

PROVISIONS DULL AND LOWER.

Chicago, July 5.

The steady European cables were not enough to support the Chicago grain market. From the start weakness was apparent. July, Sept., and Dec., moved pretty much together, breaking from 2c to 2½c. The longs have not yet, by any means, sold their holdings, on breaks they will sustain markets. On weak spots to-morrow, buy for a quick turn of a couple of cents. Corn and oats are controlled entirely by local influences, outsiners have little interest in them.

little interest in them.

Provisions are weak and neglected, outsiders where interested are generally long.
