Montreal Stock Market.

INDECISIVE RETREAT OF THE WHOLE LINE THIS MORNING. — BUSINESS ACTIVE IN C. P. R., MONTREAL ST. AND TOR. RY.

Montreal, Sept. 21.

The rally yesterday can be traced partly to stockbroking houses holding back stock which could have been, owing to exhausted margin, sold in the continued liquidation. After the severe depression the rally was natural and went as far as might have been expected under present conditions which are favorable to bearish interests. London assists them, and the money market will not fail to be used in making preparations for another decline. The reaction, if it was really this and not merely a breathing space in a downward movement which has much further yet to travel ere the return and upturn action sets in, will not go further likely till after the bank statement. From the recessions in all classes of stock today it would seem that the market is not yet out of the wood and that its action will be indecisive the one day progressive, the next recessive, till money and the central markets show up better. Losses today were comparatively small. Can. Pac. to the amount of 725 shares sold from 92 to 91½, closing demand and price being almost the same. To the extent of 2 or 3 points Montreal St. was lower on deals totalling 250 shares and in this security the closing bid and demand did not seem pointing to higher figures. Toronto Ry. in a deal of 900 shares may be said to have sold at a little decline; Montreal Gas brought less selling at 200, this being ¼ less than yesterday. War Eagle, Payne and Republic could not well advance in a market generally weak and dropped each a point or so. Royal Electric, which has withstood the pressure fully as well as any stock, yielded a point, and the two Cottons, Dominion and Montreal, sagged also to the extent of two points. Yesterday's advance movement was a timely relief, today's indecisive retreat is a clear

enough sign that in view of present uncertainties, one sided extremes are finding no favor. There is much liquidation on the local market, but Wall Street seems to have turned.

FOR A NEW PROCESS.

(Republic Miner.)

Spokane, Wash., Sept. 9.—Major R. G. Edwards Leckie, the manager of the Republic Mine, who has been here attending the meeting of the Republic company, leaves at once for Mercur, Utah, where he will spend a fortnight at Captain de Lamar's Golden Gate mill. Shipments of Republic ore have already been made there and they will be treated with the cyanide process in use at Mercur. While there Major Leckie will, with De Lamar's expert, D. C. Jacklin, engage in a study of the treatment best adapted to the Republic quartz. It is believed that with some slight modifications it will prove the best process now known for handling the output of the great reservation mine. On his return to Republic, Major Leckie will probably be accompanied by Mr. Jacklin.

THE MINNEHAHA, CAMP MCKINNEY.

Professor Henry Montgomery, President of the Minnehaha Mining Company, writing to the Toronto Globe, says:

"In view of the recent decline in the market price of the Minnehaha stock, as quoted in newspapers, I desire to state that I know of no good or sufficient reason for such decline. After spending eleven days in and upon the Minnehaha property I am of opinion that the prospects of the Minnehaha were never better than they are at present. There are at least three strong well defined ore veins upon the Minnehaha claim alone, not saying anything of the other six claims owned by the company. It is only right that the public should be warned against any unfounded or false rumors that may possibly be the cause of the decline in the price of the stock. The air compressor is being rapidly placed in readiness for work under the supervision of Engineer Coakley, of the Cooper Manufacturing Company of Montreal, and work is being pushed with vigor."

MONTREAL MINING EXCHANGE.

CALIFORNIA AND DEER TRAIL IN THE LEAD — MARKET BECOMES MORE BUOYANT — BUSINESS MORE ACTIVE.

Montreal, Sept. 21.

There was a distinct improvement all along the line this morning, although business was confined mostly to the specialties, buying orders were fairly numerous and the whole market assumed a stronger tone.

The demand for the higher priced stocks was in fresh evidence, 118 being freely offered for Republic, and 122 for Payne, War Eagle has not yet taken any active part since its late slump, but seems to be gradually recovering.

Virtue and Montreal-London remain firm, 43 being bid for the former and 53 for the latter.

A block of 2000 shares of Big Three found a buyer at 20, 19 being bid for smaller lots. Evening Star was also quite firm on news from the West. The stock was offered at 11 with 9½ being bid.

Golden Star still remains indifferent and is rather of a drag on the market. It was freely offered at 38½ with buyers offering 35½. There were no transactions made.

In Slocan Sovereign a block of 600 shares sold for 35. There seemed to be several buyers at these figures, although holders of the stock were firm at 30.

Business, however, centered itself in California and Deer Trail. In California no less than 23,000 shares changed hands at prices ranging from 15½ to 14½. The demand in this case can be called quite good, and towards the close of the market there was a general scramble for the stock, 15 being bid all over the room.

Deer Trail was firm and active, 6000 shares being sold, mostly in small lots of 500 shares each. The price remains unchanged, the stock being well held, there being no attempt to sell any large blocks. Any stock coming on the market is rapidly absorbed and the demand continues good. It appears to us as if this stock was one of the most promising of the lower priced securities, and should be bought on every occasion.

Mr. E. T. Bartlett has returned from his stay in Michipicotten, and made his first appearance on the Board this forenoon. He was welcomed by his confreres on 'Change.

MORNING SALES.

California—13,500, 15. 3,500, 15½. 6000, 14½.
Rathmullen—1000, 8½.
Slocan Sov.—600, 35.
Big Three—2000, 20.
Deer Trail No. 2—4000, 23½. 2000, 23.

AFTERNOON SALES.

California—6500, 14½.
Deer Trail No. 2—2000, 23½.
Montreal-London—1000, 54.

NEW YORK EXCHANGE.

ON RUMORED FORD TAXATION OF EARNINGS B. R. T. IS BOUGHT HEAVILY — MARKET STRONG ALSO ON REPORT OF £100,000 GOLD IMPORT — GRANGERS ARE FIRST DEPRESSED, THEN RECOVER — MONEY UNCHANGED.

New York, Sept. 21.

The London market seems to be in a waiting position. Pending further developments in the Transvaal there is not likely to be any fresh activity in any of the divisions in the London market.

The Herald came out this morning with a statement to the effect that the State Board of Taxation Commissioners had arrived at a method for the imposition of the Ford franchise tax.

The method was said to be the capitalization of the net earnings for the purposes of taxation. Such a method would of course be extremely favorable to the corporations and the result of the publication of this was very heavy buying of B.R.T. at the opening and subsequently a sharp advance in the price of the stock.

The Herald statement, however, does not seem to be reliable. In fact, one of the news agencies quoted a number of the State Board absolutely denying the truth of what the Herald says.

He states that the method of assessing the tax has not yet been arrived at and that no decision will be made for some time to come.

Another piece of news which had a stimulative effect on prices was that 100,000 pounds gold had been engaged in London for export to this country.

This transaction has called forth considerable comment in banking circles, as taking the present rates for exchange there is no money in the transaction. Nevertheless some banking houses profess to believe that we shall hear of further gold importation during the next week or so.

The bears were inclined to oppose the advance in B.R.T. at the opening, but after a little while their opposition was swept away.

It is currently reported in the Street that a large proportion of the buying of B.R.T. during the last few days has been for a prominent Broadway house which is well known to have extremely close connections with the Metropolitan Street Ry of this city.

The fact that this same house has for a month past been a heavy seller of A.M.T. has given rise to the rumor that some large interests had been selling out their A.M.T. and putting their money into B.R.T.

There were some little pressure on the Grangers and also on P. O and F. S. A somewhat easy recovery took place, however, after the first hour or so.

One of the most active and strong stocks was So. Pac. During the weakness of the early part of the week the stock acted remarkably well, there being evidence of very solid support around 35.

Today the buying has been more or less aggressive, and the amount of stock offering below 37 has been comparatively small. The newspapers continue to reiterate the story that Speyer & Co. are representing Huntington interests, and have bought out all the Crocker holdings in the company.

The money market remains unchanged, loans varying from 5 to 7 p.c.

The former rate is generally made on collateral consisting of dividend paying railroad stocks.

MINING NEWS.

MINES AND FISHERIES.

INTERESTING STATEMENT CONCERNING BRITISH COLUMBIA'S GREAT INDUSTRIES.

Vancouver, B.C., Sept. 18.—Dominion Fisheries Superintendent W. W. Stumbles, was in Vancouver yesterday, and after visiting Victoria, will return to Ottawa to report upon the fisheries of the Pacific coast. During his official visit to British Columbia, Mr. Stumbles has made a complete inspection and investigation into the salmon fishing and canning industries, from the fish hatcheries and spawning grounds, to the canned or frozen article ready for the market. One of the main objects of his visit was the inspection of the dam erected across the Quesnelle river by the Quesnelle Company, Limited, of which Mr. J. S. Hunter, ex-M.P.P., is manager, and in the construction of which no provision for a fishway was made, as required by the law, and it was for the purpose of having the law complied with in this respect, and a good stream for salmon preserved uninjured, that the Minister of Marine and Fisheries sent Mr. Stumble to that locality. Mr. Hunter is now having the fishway constructed.

The mining operations on the Seventh Fork of the Quesnelle River, are very extensive. The Cariboo Hydraulic Mining Company has two large mines, fully equipped with all the necessary plant for hydraulic mining. Part of Mr. Stumble's duty was to ascertain whether the tailings from these hydraulic mines, which fall into the river, form an obstruction to the ascent of the fish. He says there is no great difficulty, as the tailings pass down stream some distance, carried by a swift current which sweeps almost everything before it in the spring of each year.

The Golden River Quesnelle Company, limited, is now operating in the bed of the river, and employs a large number of men for that purpose. The mining enterprises there are being carried on in a most extensive way. For instance, the dam above referred to cost about \$400,000; while in connection with the hydraulic mining works a much larger amount has been expended, and the Gold Point Company has also expended very large sums in establishing its plant. Mr. Stumbles saw in operation the apparatus of De Keyser, which, he was informed, worked satisfactorily. It is placed at the end of a sluice-box, and catches the fine gold which would otherwise escape.

NEW RICH MINING SECTION.

CLAIM MADE FOR A TRACT OF LAND ON THE EAST SHORE OF HUDSON BAY.

Winnipeg, Man., Sept. 18.—J. A. Osborne, editor of the Rainy Lake Herald, Dr. Pelton, and E. O. Brown, of Boston, have on behalf of a Boston company, made a claim to the Interior Department for a tract of land on the east shore of Hudson Bay, known on the maps as East Moine, between Cape Jones and Little Whale River, which they want for mining purposes. They have just returned from that country and state that it abounds in mineral wealth; gold, copper, silver and iron, the latter in immense quantities, is found everywhere. Pure anthracite coal was also discovered. The gentlemen state that this is probably the most highly mineralized territory in the world.

Ottawa, Sept. 18.—Mr. A. P. Low, of the Geological Survey, has returned to the city from Hudson's Bay, where he has been on an exploring trip for the past fifteen months. Mr. Low left Ottawa in the spring of 1898, and travelled to the Atlantic coast where he took the Hudson Bay steamers. He went up the Hudson Straits to the eastern mouth, where the party took a yacht and started to explore. On the way up the straits, Mr. Low says that very little ice was encountered and that there was nothing to hinder any vessel from navigating the straits at that season of the year. When they left the steamer, Mr. Low's party started down the east coast of Hudson's Bay and explored down to Great Whale River. This portion had never been explored before, and several large rivers were discovered. In the bay all sorts of fish were to be found, especially at the mouths of the rivers. The fish discovered were Arctic salmon, whitefish and trout. In the bay a quantity of cod were found. Mr. Low thinks that these fisheries are worthy of further investigation. An inland fishery in this part, Mr. Low says, would undoubtedly pay well. The winter of 1898 was spent on Great Whale River, where the party were quartered in snowhouses. There are only six hours of daylight during the winter days in this region, so that the party was prevented from doing much work. This summer, Mr. Low and his party did considerable inland exploring and found a quantity of valuable mineral, which he will give full details of in his report.

CHICAGO MARKET.

WHEAT 1/4 HIGHER AT LIVERPOOL —
ROAD EARNINGS DECLINE BE-
CAUSE CROP IS NOT MOVING —
HIGHER WHEAT PRICE WANTED.

Chicago, Sept. 21.

In the absence not so much of domestic and export demand as in the absence of prices sufficiently high lies the cause of the market being inactive, narrow and confined to professional scalpers. Export demand has been increased of late owing, it is believed, to the continued unsettled state of the Transvaal and to the war prospects there, but the prices of wheat have scarcely benefited any. Increased demand should have brought about increased price and probably would have done so had not visible supply as reported by Bradstreet shown a decided increase. The stock of grain, however, is in the hands of traders and of farmers who are showing much stubbornness in refusing to move their grain to market when prices seem to them lower than they should be. Business of Western roads, Rock Island and C. B. & Q. in particular shows a marked falling off in the matter of grain movement, and the large decrease of C.P.R. earnings as compared with last week's earnings tell the same tale. Holders of grain stock are not needing money just now, and being able thus to refrain from rushing their grain to market are producing a very serious loss of freight to railway companies.

In accordance with Liverpool cables of wheat 1/4 higher, of corn 1/2 higher, Chicago openings were strong. Wheat was from 1/2 to 3/4 higher; while corn and oats advanced 1/4 each. The inactivity in Liverpool indicated by the holding off by buyers was reflected in the morning sales. They were not movements marked with decision, though a few seemed to think they tended to firmness and advance. December wheat opened 71 1/2, Sept. 72 and May 74 1/2, all of which are well over the 70 mark.

It was today wired to Bartlett Frazier, 10 St. Sacramento Street :

Barret, Farnham & Co. have failed. This Barret was the reported seller of wheat for the Pillsbury interests and buyer of 2 1/2 millions for export. The great advance today has been caused by this. Barret had sold 3 1/2 millions short and was trying to cover, but failed.
