Montreal Stock Market.

MUCH BUSINESS PUT THROUGH TODAY — RECESSIONS FROM 2 TO 7 POINTS — CENTRAL MARKETS STRONGER.

Montreal, Dec. 19.

It was about the time when each day brought word that war had actually been declared that Canadian Pacific was so far down among the SO's as the stock was today. Two months and more have elapsed since that time. Cables were lower today again and prices here were about parity with the cabled price. The activity in C.P.R. was equalled or surpassed by the activity in other stocks which all, except Payne, and Republic, which were bought better, were under their yesterday's valuations. Twin City on considerable trading was 2 lower. Montreal Street Railway sold 5 lower and was traded in very heavily at constantly lowering values. There was liquidation one broker said probably. Toronto made a backward movement of 6½ points to-day, that 10½ points for the two days, and the trading was exceedingly heavy even for Toronto. Virtue's recession amounted to 7 points, while Royal Electric, Gas and Richeneu & Ontario were each weaker by 4 points. Dominion Cotton and Commercial Cable each sold 3 points lower. The amount of business transacted was very great, as if an evidence of liquidation had seized on holders of stocks of all kinds and which intensified the evil which caused the panic.

It was something extraordinary to find in such general depression that Bell Telephone stuck fast to 175, its former price, that Payne advanced 1½ points and that Republic gained 4 points on previous price. Probably locally as well as in London and New York the stream of liquidation for the present has abated. In these markets the tone has grown steadier and prices are working their way slowly upwards. This will no doubt be the case also in Montreal. Here as in other places it is not expected that business will be otherwise than very quiet until the holidays have been ended.

MORNING SALES.

STRAWS.

We are told that 130,000 shares of S. Pacific have been shipped to Europe in ten share certificates within the last ten weeks.

Formal arrangements for the payment of the January coupons on the bonds of the New Amsterdam Gas Co. were made at a meeting of the directors of that company Friday.

Bank of France reserve is normally two and a half times greater than that of the Bank of England and against its note issues of \$800,000,000 it now holds over 100 per cent in "hard money." It is not required to hold a fixed percentage.

New York Board of Trade will enjoin the Trunk Line Association from putting the reclassification of merchandise into effect Jan. 1. The reclassification would increase rates on 500 classes of goods from 5 p.c. to 45 p.c. Interstate commission will be appealed to.

Boston (special)—Lake Superior people understand that Calumet and Hecla Co. proposes removing its stamp mills 12 east to Traverse Bay point where it has purchased a large area of the shore front. Here it can have plenty of water and plenty of dumping ground.

Cotton market said to be in excellent shape viewed from every standpoint. English spinners have small reserve supplies. Southern States holding cotton above a shipping parity and it looks as if spinners would be compelled soon to come into the market for supplies to meet present requirements.

THE CONNER'S SYNDICATE.

In connection with the Conner's syndicate it might be well to notice that a vigorous campaign is being made in English papers especially trade journals, against the introduction of the trust system.

FEELING OF SECURITY MORE MANIFEST—NO REASON FOR RECKLESS SLAUGHTER OF PRICES.

After the storm a calm—Stocks were exceedingly quiet during this morning session. The early tenor of the room was almost as bearish as it was last night, but during the session a better feeling asserted itself, and towards the close a general recovery took place.

Transactions were limited to four issues, of which Virtuo enjoyed the greatest popularity. The early sales were made at 50, but finally 51 was paid, and bid for more, the stock being offered at 52 $\frac{1}{2}$. Altogether 2,500 shares changed hands. This stock should be a good purchase from this out.

California was the next to come under the hammer; it sold lower than it has sold of late, but was not under any great pressure. It sold at 11 $\frac{1}{2}$ for 1,000 shares. There are plenty of buying orders round these prices, and we do not think it likely that it will sell any lower. It was offered at 12, with 11 $\frac{1}{2}$ being led at the close.

The feeling in Republic was better although the actual sales do not show any improvement, the reason being that they were made early in the session. 500 shares sold at 94 $\frac{1}{2}$, the rest sold at 95, but 97 was freely bid towards the close without causing any sales, it was not offered under 90.

Payne likewise showed signs of greater strength, the undertone being firmer.

There was a sale of Montreal-London at 37 this is at a recession, but it is not to be wondered at considering the late weakness in other stocks.

There were no transactions in Deer Trail, the demand for the present being limited, considering the quantity that has been sold lately this is not to be wondered at it was offered at 12 $\frac{1}{2}$.

Golden Star remains stationary, no stock being offered, holders of this security are willing to wait developments and are in no hurry throw over any stock which they may hold at a sacrifice.

NEW YORK EXCHANGE.

STOCKS RECOVERS BRISKLY — UNDERTONE ONE OF CONFIDENCE.

New York, Dec. 19.

The situation is in my opinion much clarified. London is all the way from $\frac{1}{2}$ to $2\frac{1}{2}$ better. The action that will be taken by the N. Y. Clearing House to-day effectually relieves the money market, in my opinion, and there was even at the decline yesterday and there will be to-day, I think good buying of stocks.

Latest English advice suggest probability that further drafts of gold for Argentina will be made in France, thus relieving the Bank of England.

Berlin Bank rate has been advanced to 7 p.c.

The London and Northern Bank suspended payment. This is unimportant, as the bank was not of the recognized London banks.

Markets for Americans opened steady and is now comparatively strong, average gains being $\frac{1}{4}$. Berlin is a very heavy buyer of Pacific issues. While Downing Street has given out no particular of favorable reports from Africa. Operators there are inclined to believe that more fortunate news is at hand.

New York — Secretary Gage will allow the entire collection from internal revenue for next thirty days to go into banks instead of the sub-treasury. This will amount to about 30 to 40,000,000.

At a meeting of the clearing house held at 11 a.m. it was decided by the New banks to lend their reserves which they have for just such an emergency as the present. This is a very important and reassuring step, in our opinion. Clearing House is said to have subscribed \$10,000,000 to lend on the Exchange to-day.

MINING NEWS.

DEER TRAIL.

A mining broker says that public feeling in Toronto about Deer Trail is somewhat as follows:

Re slum in this stock. In my opinion it seems pretty hard to get at the bottom of ALL the reasons. The recent shuffle among the Board of Directors, President Theis having sold out his interests as well as one or two other directors, accounts in a large measure for starting the decline. Then the rumors of a break in the vein came out, also still helped to make matters worse. In the face of these rumors came another which had a steady influence on prices, that Vice-President Chaplin, of St. Catharines, Ont., had so much faith in the property that he increased his holdings by 100,000 more acres, which he picked up at current prices.

Now, as to "the vein being lost," I cannot quite understand how such can be the case, as I have a copy of the tunnel plan workings of this property which show 15 different tunnels (besides drifts from them) into the face of the mountain, which lead me to believe that the vein or more properly veins, are of a "blanket" formation. It is quite possible that they have exhausted the ore out of some of those tunnels which pierced the blanket formation or veins. This might account in a measure for the report that the vein gave out or is lost. But when you consider that the company has more than one half interest in several adjoining claims to the original or Deer Trail No. 2 claims, and their last report of Sept. 21, 1899, says they have about 700 acres and have traced the original vein or veins into those claims, I don't quite see how they have exhausted all the ore. It might be possible they did on the first claim, but then they have the adjoining ones to fall back on.

It depends altogether what reliance is to be placed on their report and on the management whether it is honest or crooked.

One thing is certain, when one sees the directors or some of them selling out their holdings in a supposed first class property paying dividends, shareholders and others are inclined to think something is wrong. Especially when they say the proceeds are going into a BREWERY. At any rate, a large number of shareholders here are disgusted with the past Board of Directors, (Chaplin excepted), and I understand he wants a reorganization with men on whom he can depend to act squarely in the interests of all concerned.

The above are simply my opinions gathered from current rumors. If the property is all right then the stock is a great bargain at present, and higher prices, and especially if they keep up the dividends,

and which the directors say (if we can believe them) they have a balance on hand and ore on the way to the smelter to pay at least 6 or 8 dividends more without doing any more work.

ARTHUR.

Rossland, Dec. 10.

A syndicate of local business men has been formed to take over the Arthur mine on Sophie mountain, about two miles from the Velvet. The terms have been arranged and the deal concluded. A company is being formed to be known as the Arthur Mines, Limited. The promoters just as soon as the control was acquired sent out men to erect buildings suitable for a winter camp and these will be completed in a few days. Early this week it is intended that development work shall be commenced by running a tunnel in the main vein, which is four feet wide. The slope of the mountain is such that when the tunnel has been driven 100 feet in it will have a depth from the surface where the original find was made of from 100 to 125 feet.

MONTE CHRISTO.

Rossland, Dec. 10.

The Monte Christo started shipping during the past week, and sent down seven boxcar loads of ore to the Trail smelter. The returns from these shipments have not yet been received, but the character of the rock is such that there can be no doubt of favorable results. Just as soon as the roads get into good shape the manager expects to ship two carloads of ore to the smelter daily. There are now nine men working in the mine developing and stoping ore.

DEER PARK

In the Deer Park mine 22 men are at work regularly, and the south drift is being driven from the 300-foot level on the No. 1 shaft to tap the new find at depth. The men are working in three eight-hour shifts, and 31 feet was made during the past week, and the breast is now within 40 feet of coming directly under the new shaft, where an upraise will be started to connect with the new shaft. The property is looking well.

VIRGINIA.

During the excessively wet autumn that has prevailed in the Kootenay, the water has been seeping into the workings of the Virginia, especially in the new shaft, and general development work has been practically stopped until the cold weather sets in.

COXEY

A contract has been let for driving a tunnel on the Coxey as far as needed and six men are now at work under this arrangement. There is nothing new to report further excepting the character of the rock is looking better as the work progresses.

GERTRUDE

Men are now working on the Gertrude property drifting north and south. There is a slight improvement in the appearance of the rock through which the work is being done.

SUNSET NO. 2.

In the Sunset No. 2 property drifting on the No. 1 and No. 3 veins west is being actively prosecuted, and 27 men are at work. Two machines are running and the outlook is daily becoming more promising.

I. X. L.

Work is being actively pushed in the crosscut from No. 3 tunnel in the I. X. L. The crosscut has been driven about 60 feet and it is expected that the ledge will be reached shortly.

CHICAGO MARKET.

LESS STRONG MARKET TO-DAY -- ON LOWERED CABLES BOTH WHEAT AND PROVISION FELL -- NO VIGOROUS DEMAND.

Chicago, Dec. 19.

The improved wheat market of yesterday was owing to the unfavorable war news that broke most securities and to the decrease of wheat in sight and on passage reported of in the American visibles. Export business is not yet commensurate with the surplus of the country, notwithstanding the small primary movement and the clearances of the week have indicated that Europe still is importing below her requirements. A despatch from Sydney, N.S.W., says: The official estimates of the wheat area of the colony are 1,361,511 acres, with a probable yield of 13,660,700 bushels; available surplus for export 90,000 tons.

Liverpool March and May wheat opened at 5-11 $\frac{1}{4}$, both which was $\frac{1}{4}$ d higher than previous close. These strong openings, however, were not supported and wheat sold later at $\frac{1}{8}$ lower. Corn also was $\frac{1}{2}$ lower. It opened firm, but on no demand declined.

New York Dec. wheat opened $\frac{1}{8}$ lower at 78 $\frac{1}{4}$, March $\frac{1}{2}$ lower at 75 $\frac{1}{4}$, May $\frac{3}{4}$ lower at 75 $\frac{1}{2}$, and July $\frac{1}{8}$ lower at 75 $\frac{5}{8}$. There was but little buying demand for home trade or for export and these weak openings were followed by transactions working to lower levels.

In Chicago wheat openings were from $\frac{1}{2}$ to $\frac{1}{4}$ lower. The tendency of succeeding sales was downward. Selling in May was more plentiful than buying and this consequently depressed prices later.

Provision market was less strong yesterday, openings being from 2 cents to 5 cents lower than previous close. Movement here was undecided, with a slight tendency, if anything, to lower values.
