**MARKET STEADY TO FIRM -- BUYING ORDERS FOR THE LIST ARE GOOD
LARGE DEPOSITS AT NEW YORK**

Montreal, Jan. 27.

For a Saturday market and that just after bad news, the session today was as active and as strong as could well be expected, the market being from steady to firm and with some activity especially in mining stock. So long as cash loans receive so good interest there will need to be some very decided improvement in the Trans-Canada before bank deposits decrease and the money in them goes into securities. Bank deposits are increasing enormously and are in good case with money as it is at present. The N. Y. bank statement with 15 millions increase of deposit tells just the same story that the week's dull business does. Canadian Pacific on a broken lot came below 94, but in the two sales of 25 and 50 shares, it secured 94 and 94 $\frac{1}{4}$, declining just a little from yesterday's mark. At 287½ Montreal Street was unpanicked. Richelieu and Ontario was quite as firm as yesterday at 109 to 109 $\frac{1}{4}$, and Toronto's exceedingly good earnings secured for it $\frac{1}{4}$ advance. Farno traded in to the amount of 7500 shares vouchered for the activity in mining stocks, but 99 at which the largest block changed hands. To-day was 1 point below yesterday's lowest. Republic was down about 2 points, while Montreal, London at 27 advanced 2 points. War Eagle was unchanged. Twin City at 64 $\frac{1}{4}$ was $\frac{1}{4}$ higher than yesterday's closing and was traded in to the amount of 225 shares. There is good buying demand, which is likely on Monday with probably better news from the seat of war will take shape in larger business at higher values. Brokers in New York are beginning to consider that there is really little in the war that should now have any influence on Wall Street business at all. Should more business be done in Wall Street it is not unlikely that markets will strengthen here.

STRAWS.

The Ymir Miner of date January 18, says: "The effects of the miners' strike upon the mining industry in this province (B.C.) is well exemplified in the output of the Slocan mines last year and that of previous years. The total output for 1899 was 19,500 tons, against 30,691 in 1898, and 38,567 in 1897.

Bank of Montreal posts rates 3.35-4.88
Bank B.N.A. posts rates 4.85-4.98.

Subsidy bill is being opposed by Pres. Hill of the Great Northern Ry. His party thinks the bill will not pass.

Commercial Cable announces: We are advised that the cable between St. Thomas and Lomanda (west coast of Africa) is interrupted.

People's Gas interests say December was the largest month in the company's history and January bids fair to equal it.

The readmission duty of 15 p.c. upon Canadian lead refined in the United States has been removed and in consequence lead industries are more active. There are no lead refineries in Canada which made the tax particularly oppressive on lead producers. The removal is all the more agreeable to the Exchange News because it has several times inveighed against the tax, maintaining that the revenue resulting was detrimental to Canadian lead industries. The Trail smelter purchasing ore from the

Slocan, Lake and East Kootenay districts has resumed smelting work because under the new arrangement bullion can be refined in the United States and in the form of pig lead can be imported to Canada again duty free.

MONTREAL MINING EXCHANGE.

MARKET CLOSES WEAKER — PAYNE AND REPUBLIC HEAVY — MONTREAL-LONDON STEADY — BUSINESS QUIET.

Montreal, Jan. 27.

There was a much weaker feeling on Change to-day. The market has long been waiting for good news, but it is not forthcoming, rumors are still prevalent of discord throughout the Slocan districts. The Payne arrangement by which 60 men are employed, it is said to be unsatisfactory and trouble is feared in consequence and may be damage to property. This morning 1000 shares sold at 100, but the stock was offered lower on the local Stock Exchange.

The Monte Christo property is now being actively operated. Work was resumed upon the property about two months since and ore is being taken out and sent to the smelter at Northport. The ore is not of a high grade, but the management seems to be pleased with the results so far attained, and it now looks as though the mine will be made to yield a profit to the stockholders. There has been some improvement of late in the character of the ore encountered.

A small lot of Decca sold at 8 cents, 340 shares changing hands.

Big Three sold for western account to the amount of 1500 shares at 7 cents.

There are sixty men on the Republic mine pay roll. D. C. Jacklin, the cyanide expert arrived lately, so that work on the construction of the new mill will be rushed. The ore maintains its value, when the new mill is working it will save, it is said, by the new cyanide process at least 60 per cent. At present stoping is going on on No. 3 tunnel, the ore being assayed and sacked. There are nearly 3,000 sacks of ore ready to be hauled to the smelter at Grand Forks.

Montreal London was steady at 15, a point decline from the close of yesterday it sold repeatedly at 27 cents.

MORNING SALES.

NEW YORK EXCHANGE.

NO RELIABLE FRESH NEWS FROM SEAT OF WAR — BURK COCKRAN WILL SUPPORT BRYAN'S CANDIDATURE — SKETCH OF NEW DIRECTORS OF B. R. T. — BANK STATEMENT SHOWS VERY LARGE NET GAIN, LITTLE CHANGE IN LOANS, AND GAIN IN RESERVE.

New York, Jan. 27.

There is nothing fresh from South Africa. A despatch which is said to have arrived at Berlin, is from Pretoria, saying that Gen. Warren had lost 17 guns. The news coming from Pretoria, however, is not always reliable.

British Consols remain unchanged. Americans are steady and only slightly below our parity.

The most important news of this morning is that Mr. Burk Cockran has decided to support Mr. Bryan in his campaign for the presidency. Mr. Cockran bases his action on the belief that the free silver question is not an issue, and that the real question before the country is the imperialism. It will be remembered that Mr. Cockran was extremely active in the last presidential campaign in supporting Mr. McKinley, and it is generally believed that by the speeches which he delivered in various sections of the country, he contributed but little to Mr. McKinley's success.

Although the Street did not approve or professed not to approve of yesterday's election of directors to the B.R.T. Co., the board is in reality a very strong one. Mr. August Belmont and Mr. Oakman are thought to represent Mutual Life interests.

Mr. E. H. Harriman is associated with some of the largest capitalists in the Street, while Mr. H. H. Porter is universally recognized as a reliable expert on all matters pertaining to transportation. The bank statement will no doubt make a good showing.

The New York News Bureau estimates the net gain of the banks at about \$6,500,000, while the Financial Chronicle puts it as high as \$9,000,000. The market has been so dead during the past week that there is little likelihood of much increase in loans. Consequently the surplus reserve should show a substantial increase.

MINING NEWS.

CAPE NOME GOLD FIELDS.

Washington, D.C., Jan. 25.

United States Consul Smith, at Victoria, B.C., writes to the State Department that there is great excitement over the recent discoveries in the Cape Nome gold fields and that there will be a large emigration to that new Eldorado in the spring. Mr. Smith says:

"The indications are that there will be a great rush to Cape Nome in the spring, something like that to the Klondike in the spring of 1898. It is evident that a number will go there from Victoria and this province, in preference to either Atlin or the Northwest Territory. The transportation companies here and on the Sound are all actively engaged in preparing steamers for the long trip. The distance from Victoria to Cape Nome is 2,500 miles, entirely by water."

"But, notwithstanding that fact, the transportation companies have already booked all the passengers that can be carried on the first trips, on every vessel that can be secured. At a recent meeting of the representatives of the companies it was computed that 65,000 people desired to go to Cape Nome as soon as it is possible.

"The reports that had been circulated in regard to the gold discoveries were generally disputed, the opinion being that the Atlin and Klondike countries were more promising, and also easier of access, but the last two steamers from the North effectually dispelled all uncertainties, the passengers bringing with them undisputable evidence that all along the beach in the vicinity of Cape Nome gold in paying quantities can be had for the digging.

"A number of these men have called at the consulate, exhibiting specimens of the gold, saying they dug it on the beach, near the water's edge; that men with only hand shovels, and the rudest and simplest of pans, cleared from \$50 to \$100, and even \$300 a day, while sometimes a clean-up of from \$1,000 to \$1,500 has been reported. Nuggets worth from \$200 to \$400 were found near Anvil Creek, and it is believed from \$800,000 to \$400,000 in Gold was taken out of Snow Gulch last summer; one man, it is said, took out \$100,000, while other claims still more.

Every one of the men who came down expressed his resolve to return in the spring—some even engaging return passage on the steamers on which they came down. According to their statements the gold does not extend to a great depth, five or six feet being as low as any have yet found 'pay dirt.'

Complaints have been made by some of the returning miners that claims—twenty miles each — were staked for miles around, and virtually embraced the whole shore from Cape Nome to Cape York, some forty miles distant, had been staked. This, however, has been much changed by the decision of Commissioner Herrmann, which is understood to mean that no land below the ordinary high tide can be disposed of to individuals or corporations; but is open to the public to operate on; that the right to dig in these tidal lands is as free as the right to fish in the adjacent waters, and that anybody may wash gold out of the sands between the high and low waters, while no authority can give any person an exclusive right to do so, so that the land cannot be obtained by corporations or syndicates.

Somewhat apprehension is felt that there may be some clashing of interests on that point, and it is generally desired that the Government establish regulations and have sufficient police to enforce them. Anxiety is also expressed here regarding the establishment of a port of entry at Cape Nome. Captains all practically agree that there is no anchorage or harbor at the cape itself, but that at Port Clarence, only a few miles distant, there is a harbor safe and commodious.

WORK ON THE REFERENDUM.

Contracts Have Been Let for Work on the 100-Foot Level.

Rossland, Jan. 19.

Mr. Charles Parker, M.E., returned yesterday from a visit to the properties of the Referendum Mining Company in the Nelson division. The shaft has been unwatered and is now being retimbered. A contract has been let for drifts, etc., on the 100-foot level. Later on the shaft will be extended to the 200-foot level. It is anticipated when the contracts are completed that there will be plenty of ore in sight to keep the mill in continuous operation for a long period. The contracts are to be finished in May. The five-stamp mill which the company recently purchased, will be put up in June and will be ready for operation by the 1st of July. The ore averages \$15 to the ton and there is a seam four inches wide that goes \$82 to the ton. The ore is absolutely free milling and consists of a quartz carrying free gold.

COLORADO FOR 1900.

The increasing interest that is being taken in mining in all sections of the state at this time is the harbinger of better things to come. Reports from every mining centre of Colorado are to the effect that never before in their history were such strenuous efforts being put forth to develop these camps. The possibilities of these several sections are being heralded far and wide, and eastern capital is being attracted as never before. The presence of the representative of the Rockfeller interests in the San Juan region during the past three months, the visit of Joe Leiter in person to Leadville, and of others of almost equal prominence in the financial world to other sections, bespeaks the fact that this state is to receive attention in a most substantial way from men who are able to put millions in the ground before receiving a cent in return. But that this latter condition is to be the result is not to be supposed; for in almost every case of late, where money has been put into the ground, judiciously, returns have been almost instantaneous. Gilpin county, on the north, to San Miguel, the other extreme of the state, indicate that the investor is receiving most substantial returns upon his investment. The year closes with a bright record and a future full of hope for 1900.

THE OKANOGAN STAMP MILL GRINDS OUT \$5,400 IN 24 DAYS.

Rossland, Jan. 19.

News of the fourth clean-up of the quartz mill of the Okanogan Free Gold Mines was received yesterday by Mr. K. K. Peiser, the secretary. This last clean-up of the series with the concentrates, aggregates \$5,400. The first two, made last fall, were of good sized amounts and then followed a smaller one, which was the result of a few days' run and now comes one which is the largest yet. The average value of the ore is good—459 tons yielding \$5,400, or averaging \$10.02 per ton. There has been but little cessation in the working of the mill for the past month. The only let up was during the holidays at the Christmas and New Year's season. The crushing represents a run of 24 days, and the mill, having now secured plenty of fuel, is still running, so that another clean-up may be expected about the middle of February, and as the mill will be kept in operation all the month a result larger than \$5,400 may be expected. There is ample ore in the property to keep the mill going for a year. The steady output of the mine continuing in this manner should go far toward confirming the value of the shares.

NOTICE

Is hereby given that the Annual General Meeting of the

Knob Hill Gold Mining Co. of British Columbia, Limited;

will be held at the President's office, 45 Victoria Square, in the City of Montreal, on Monday, the

5th DAY OF FEBRUARY

next at 2 p.m.

A. L. WHITE, Secretary.

CHICAGO MARKET.

WHEAT ADVANCES 4 CENTS IN A FORT
NIGHT. GENTS DURING THE WEEK
COUNTING FROM LOW TO HIGH.
PROVISIONS EASIER — SHARP AD-
VANCE FIRST HOUR TO-DAY.

Chicago, Jan. 27.
Closings at Liverpool were 1½d. higher than the opening yesterday for March wheat which closed strong at 5-10½. In May wheat the advance was ¾d.; but for two successive days now advances have been considerable.

May wheat opened weak at New York being 7½c. as against 74½c. as the closing bid. July, however, was ½ higher, its quotation being 74½c. Chicago grain market opened rather weakly at ¼ and ½ decline for wheat on the previous closing.

Corn and oats in sympathy with wheat began to be traded in at ½, ¼, and ¾ lower. The May wheat was very active on domestic and outside demand; and beginning to advance caused a rush of covering by shorts which raised price ¾c. so that within the hour 68½c. was the p. co quoted. This is ⅔ of an advance on the highest of yesterday and makes for the week an advance of at least 3 cts. Compared with the low of the week before, 64½c. the gain today, is 4 cents. Although some reduction is anticipated from profit taking, it seems to many that the easier money condition on the other side, is making it possible for bidding to come nearer yet to sellers' prices.

Provisions opened rather easier, but later the demand became good.

Receipts 16-day. Primary:

Last week 899,594, shipments 178,661.
Last year 672,810; shipments 219,804.
Four ports 545,882, shipments 241,504.
N. W. Cars.—Minn., 264, Duluth 25.
Last week 874, last year 482.
Provision receipts — Hogs 18,000; cattle 1000 sheep, 2000.
