## Montreal Stock Market.

GOOD, NOT TO SAY HEAVY BUSINESS — VIRTUE THE FEATURE AND VERY STRONG — ELECTRIC UP 1½ —. PACIFIC FIRM ON AVERAGE BUYING.

Montreal, April 2.

Amount of business at morning session was about average proportions. It was in twelve stocks but unequally divided among these Virtue, Pacific, Electric and Montreal Street, being most active.

Virtue was also the feature of the session. Its first sale secured 99½ which was ¼ higher than Saturday's closing sale and prices in the other sales ascended by halves and quarters to 102. This is the highest mark yet reached by Virtue. Concluding sale was a little weaker, but the bid and demand prices returned to positions that hinted at further advance.

Bidding for Pacific was almost strong, and the highest price for a standard sized lot was 97½. Closing price, however, was ¾ lower than Saturday's.

Values for Electric started out this forenoon with 196½, which was ¼ lower than the one price of Saturday. They then moved upwards with regularity till in the last two sales they reached 198½. This price is 1½ above the price at preceding close.

Three prices were registered for Montreal Street which showed declines from 300 to 299½ and the closing bid 299 was one step further in the same depression.

Toronto Ry. at par was at previous mark.

Bell Telephone sold 1½ lower.

Payne was unchanged in price.

Pennion Coal (psd.) on a broken lot was lower.

Two Cottons, Montreal and Canadian Colored, in small lots, were taken at former prices, which in the case of the latter was the highest of the year.

Montreal Telegraph (ex-div.) at 160 sold at the year's lowest and three below the year's highest.

One share of Montreal Bank was sold two points higher than last week's price.

According to Cable news there was not very much activity on the London market

though American stocks were strong and Atchison was leading. Wall Street opened vigorously and in spots maintained strength in no great trading. Heaviness of Ford Bill assessments and labor troubles in the West acted depressingly on N. Y. Traction stock and on the Steel stocks. Thus the markets everywhere did no differ much from one another.

### MORNING SALES.

Can. Pacific—230, 97½ 20, 97½. 23, 97½. 125, 97½.

## MONTREAL MINING EXCHANGE.

MARKE SLOW -- VIRTUE EASILY CROSSES PAR--DEER TRAIL LOWER--DECCA AND SUNSET NEGLECTED.

A usual Monday market, with only a moderate amount of business, and prices mostly stationary, with no great change either in sentiment or in the way of news.

Virtue easily crosses par and closes with 102 being freely bid and sellers scarce. Time sales are frequently made at an advance of 10 to 15 per cent., according to the time allowed, which goes to show how bullish the general public sentiment has lately become on the stock.

Payne continues dull, selling at 130. There will, in all probability, be two months yet before the dividends are paid and in the meantime the stock acts quiet and remains dull, it should, however, be bought on any recession.

The Okanagan Free Gold Mines, Limited, which is to be re-organized and made accessible, is a Rossland corporation. The company owns a group of claims near Oro, which might well be called a second Homestake from the ease with which a tract of ground 1,200 by 3,000 feet in dimensions and on an average depth of 200 feet can be sent to the mill, g, concentrating and cyaniding plant which is to be erected. The ore is practically free milling and carries values of from \$20 to \$120 in gold. The extraordinary general meeting of the shareholders is to be held to-morrow for the purpose of sanctioning the reconstruction of the company. The stock sold today at 2c.

Deer Trail Cons. is selling a half per cent. cheaper at 10c, 500 shares changing hands. The stock was offered at the close at the same figure.

Big Three was quite heavily traded in, one block of 5,000 shares selling at 10c, for future delivery. The regular sales were made at the same price, the closing quotations being 9 1/2 to 8 1/2.

A sale of 500 shares was made in Knob Hill at 50 cents. This is the best price which has been paid of late. The stock was offered at 60 on the last call.

Decca was entirely neglected, the quotations being 10-9.

Golden Star was dull, buyers being indifferent. There were no sales accomplished in Sunset, which was quoted at 5 to 7.

## MORNING SALES.

Knob Hill--500, 5s.

# NEW YORK EXCHANGE.

STRENGTH OF LONDON MARKET REVIVES ON BETTER NEWS FROM AFRICA—PENNSYLVANIA ACQUIRES REPRESENTATION IN NORFOLK, ALSO IN C. & O.—SUGAR WAR, LABOR TROUBLES AND FORD ASSESSMENTS RECEIVE ATTENTION

New York, April 2.

The London market is again strong with a fairly active business, Atchison preferred and common being strong. Public cables say that some good news has been received from Transvaal which has offset the announcement of capture of six British guns. The only news of importance that has come over night is the definite announcement that the Penna. Co. has acquired a very large block of Norfolk common and preferred. The block is not large enough to place the control of the Company in the hands of the Penna., but it means that the Penna. will secure considerable representation in the directorate. In as much as this road is already represented in directorate of C. & O. it is evidently that the chances for stability of rates in soft coal trade are extremely good.

The financial writers in Sunday's papers are almost unanimously bullish, although in some cases references are made to the Sugar war. The labor troubles in the Steel stocks and the tremendous assessment that have been levied on the local companies under Ford Bill.

The references to the R. R. stocks show the earnings exceedingly satisfactory.

The local traction stocks showed considerable strength during the last half of last week, but this was due rather to a successful campaign against shorts.

## MINING NEWS.

### MAYOR OF GRAND FORKS TALKS OF THE KETTLE VALLEY ROAD AND ITS PROMOTERS.

Some inside points were obtained yesterday relative to the much-talked of Kettle River Railway Bill, which .. is expected will come up before the committee on Tuesday, and which necessarily creates a great deal of interest in the House of Commons and throughout the country. Mr. Lloyd Manley, Mayor of Grand Forks, B. C., and chief promoter of the Bill in question, was at the Windsor yesterday, where he discussed the measure at some length. He repudiates the statement that either Jim Hall or Corbin is at the bottom of the bill and he vouchsafed the information that the request for a charter is made by a Canadian Company.

"I am asking for the charter," continued the Mayor, "in the interest of a Canadian company, and when the reporter suggested that names were a guarantee of good faith, he Mayor said he had no objection to give some of the names. He mentioned Hon. Mr. Stratton, provincial secretary of Ontario; the Toronto Trust and Guarantee Company, and others, and added that the Trust Company, just named, had guaranteed to finance the enterprise. The Mayor proceeded to say that they had no intention of fighting the Canadian Pacific, for, if the road was built, it would bring a very extensive grist to the C. P. R. mill, both during construction and after completion. He explained that it was the intention of the company to build a road from Grand Forks to the Republic camp and elsewhere. Republic, he added, was owned by Canadians, and he said that it was of the utmost importance that the Republic ores should be brought over this side for treatment. Very soon, there would be three smelters in operation in the Boundary country, and it was most desirable that the ores of Republic camp, should be smelted in Canada."

"But, it is said that your road will carry Canadian ores into the United States for smelting purposes?"

"Yes, I know that has been said, but I will tell you what we are ready to do. We are prepared to insert a clause to the effect that our charter shall be forfeited if we should carry a single ton of Canadian ore into the United States."

He states that the Boundary ore is low grade, compared with some others, but the immense quantities make up for this, yet it is most desirable that transporta-

tion rates shall be as low as possible. Mr. Manley says that the Granby people, as well as the owners of the Mother Lode, will soon have their smelters ready, and the third plant is a patent, which has been very successfully used in Colorado, and that exceedingly low grade ore has been successfully treated in the north-western states. Mr. Andrew Laidlaw, the Mayor adds, has formed a company in the city of Quebec and that a new 200 ton plant will soon be installed at Grand Forks, where the Graves syndicate has given the newcomers a site, saying that if the new and cheap process is a success they, as well as all others in the district, will be immense gainers. The Mayor of Grand Forks says that most prosperous times are in store for their town, as soon as the smelters are completed, and such immense propositions as the Knob Hill and Old Iron-sides begin to move. He estimates that one miner will give work to eight other consumers, and adds that this means a great deal when thousands of men are constantly at work.

# CHICAGO MARKET.

CHICAGO MARKET—April 2, 1900.

From the Bartlett Frazier Co., Chicago. H. J. Coon, Manager, 39 St. Sacramento St.

WHEAT OPENED STRONG, STEADY ALL DAY, CLOSED  $\frac{1}{2}$  HIGHER — CORN VERY ACTIVE AND STRONG, CLOSED AT THE HIGHEST — PROVISIONS DULL BUT STRONG AT 15 CENTS ADVANCE.

Chisago, April 2.

A Chicago house says it would take very little to start a general buying wave in Wheat, which, if well developed, would carry everything before it regardless of the legitimate situation. It is believed there has been considerable insect damage to the growing Winter Wheat in Ohio, Indiana and Michigan, and some well-posted people believe the damage from frost to the French crop would advance foreign markets, as the French are always quick buyers when they want Wheat. Considering this situation, but more particularly the fact that sentiment amongst leading local operators is very generally bearish and the market becomes easily congested, we feel like buying upon the weak spots occurring every two or three days until we get past what we consider the present sensitive condition period.

Liverpool—Wheat and corn opened  $\frac{1}{8}$  lower, steady. Stocks very small for both. World's shipment, 7,000,000. Opening, wheat, 5.10; July, 5.9 $\frac{1}{2}$ . Closing, wheat, May, 5.10; July, 5.9 $\frac{1}{2}$ . Opening, corn, 4.1; July, 4.0 $\frac{3}{4}$  do., May, 4.1; July, 4.0 $\frac{3}{4}$ .

New York—Wheat opened unchanged. Now  $\frac{1}{4}$  higher, steady.

Chicago—Wheat opened up  $\frac{1}{4}$  and strong all morning. Around noon reacted  $\frac{1}{2}$  from steady and strong at 67 $\frac{1}{4}$ . Would buy wheat on any breaks.

Corn opened strong and steady. July corn is the strongest, now selling over 40. As we have said before, keep on buying corn for a good profit, at least ten cents before long.

Oats strong in sympathy with wheat. Think oats will sell very much higher.

Provisions opened unchanged and sold 25 cents higher than the opening first half hour.

Speculatively the market is uncertain for near futures, but we believe in much higher prices later on.

Visible supply—Wheat, increase, 111,000. Corn, increase, 447,000. Oats, increase, 657,000.

Primary receipts—Last week receipts, 916,908; shipments, 301,599. Last year receipts, 891,836; shipments, 182,765. Four ports last year, receipts, 116,823; shipments, 224,194. Exports flour last year, 16,425 barrels.

Car lots—Wheat, estimates 17, receipts 60, Cont. 0. Shipments, 29,352 winter, 179,060 spring. Corn, estimates 325, receipts 362, Cont. 91, shipments 424,025. Oats, estimates 156, receipts 224, Cont. 35, shipments none.

26,000.  
Northwest cars—Minn. 504, Duluth 165. Last week 781. Last year 861.
