Montreal Stock Market.

DULNESS PREVAILS—WAR EAGLE AND REPUBLIC STRONG.

The market this morning was positively dead, and during the first call the only business done was the selling of 200 Pacific. This security sold in London at 151½ this morning which was fractionally below yesterday's prices. There is good buying of this stock in Berlin.

The mining issues were strong, War Eagle sold up to 378 but reacted toward the close to 375 Republic sold at 133 and 131 and Montreal-London brought 69. Duluths were inclined to strength and while the tone at the close of the market was confident, sales with one or two exceptions were small and peddling.

Canadian Pacific—All the trading in this security was done at 9½, sales only amounted to 365 shares the closing quotations being 97½ and 98.

Montreal Street was neglected, the only business done in it being 16 shares of the old at 325 and 6 of the new at 320. Increase in earnings yesterday amounted to \$548.63.

Toronto Rails was dealt in to the extent of 50 shares at 118 and it closed 117½ to 118½.

Richelieu & Ont. bought 113½ for 25 shares and 113½ for 50 shares. The closing bid and asked bring 113 to 114.

Royal Electric sold at 188½ for 50 shares and closed 188 to 188½.

War Eagle was the feature of the trading this morning. Opening at 375 it sold up to 378, then reacted to 375 and closed at 375 to 377. 7725 shares were dealt in.

Republic was also strong and dealt in to the extent of 13000 shares. 3000 of which brought 133 and 10,000 131, the closing quotations being 132½ to 133½. News to hand from this mine is most encouraging and we are more satisfied than ever that Republic is the purchase of the mining list especially around present prices.

The railway to the camp is practically assured this fall and when that is in operation big returns will be in order. As it is, today the returns are such that they have a surplus over dividends every month of nearly \$20,000.

The balance of the trading consisted of 3000 shares Montreal-London at 69. 25 Ontario Bank at 140½ at 125 Duluth pd at 12½.

AFTERNOON BOARD

The market no doubt suffered in sympathy with the sharp break in New York. Rumors were in circulation in Wall street of exports of gold having taken place and the market suffered in consequence.

In our local securities Canadian Pacific closed at 97½ and Street Railway at 322, buyers offering 320.

Twin City, although only traded in to the amount of 25 shares sold at 69 it closed in New York at ½ better than this.

In other stocks prices were steady with fractional losses in such stocks as Royal Electric and Richelieu.

A few shares of Duluth's were traded in at 12½ and 4½ for both issues.

HALIFAX HEAT AND LIGHT.

The report of the annual meeting of the above company, which was held in Halifax on the 10th of May, is just to hand, and must be disappointing to the shareholders, who were led to expect great things. The report, after giving a general synopsis of the business of the company for the year, states that the company earned \$30,396.66 over operating expenses, which is apparently not sufficient to pay the interest on their bonds. It is unfortunate that the profit and loss account was not given in the report, for then the shareholders would have been able to judge for themselves as to the future.

CHICAGO MARKET.

CHICAGO MARKET—May 18, 1899.

FROM OUR SPECIAL CORRESPONDENT.

WHEAT STRONG—REPORTS OF INSECT DAMAGE—CORN QUIET.

Chicago, May 18.

Wheat opened firm on the full response in cables and the talk of insect damage. Trade, however, was of a limited character, foreign houses doing little or nothing. The question of equal importance with the crop outlook, is how much demand there is to be from Europe for the next crop. The clearances have for some time maintained a rate of about 3,000,000 bushels weekly, but primary receipts are free and for the past ten days have only been exceeded but once in a decade.

Weather conditions are reported from the north-west generally favorable. As regards the spring grain situation, the ground is now moist and in excellent condition, frequent rains having occurred generally. In a few sections the planting of corn has been retarded by wet weather, but generally corn planting is progressing rapidly and will be practically finished within a week. Farmers regard the prospects as very encouraging.

Corn showed signs of early strength, but trading was exceedingly dull, and prices very stationary. Stocks in sight are still decreasing and so far there has been no material increase in primary receipts.

NEW YORK EXCHANGE.

NEW YORK STOCK MARKET.—May 13, 1899.

ST. PAUL, B.Q., AND ATCHISON LEADERS—SUGAR ACTIVE—METROPOLITAN REACTS.

New York, May 18.

The London market for Americans is active and fairly strong. The most actively dealt in shares show advances ranging from $\frac{1}{2}$ to $\frac{3}{4}$, and the only decrease of note is in N.Y.C. of $\frac{1}{2}$.

It is thought that the market will continue good here until to-morrow, when they close for the Whitsuntide holidays.

Yesterday's market, with its steady rise from the opening to the close, did a great deal towards establishing confidence. It is a question in the minds of conservative people, however, whether or not the rise from last Saturday's low figure, has not been too rapid to be maintained.

Flower & Co. were large buyers of the market, but in the late afternoon when the rise was sharpest, the market seemed to be taking care of itself, as far as any inside support was concerned, and the largest buying seemed to come from the short interest.

Last night's loan crowd rather confirmed this, in that it showed a slightly decreased demand for stocks that have recently been in very good demand. People who were loaning stocks claim that they had a good many returned on balance.

One of the most encouraging features of yesterday's market was the strength and activity in the bond market and the better demand for all investment securities. New high records were made yesterday in Un. Pac. 4s, B. & O. 3½, R. I. 4s. This demand for high class bonds and the increasing easiness in Money market shows that there is a large amount of money seeking profitable investment.

There was an increase in activity in some of the stocks that were recently very dull, the most noticeable of which was Chicago Terminal and com. pfd., There was renewed talk of a deal with the Alto, by which Chicago Terminal people will be benefited materially.

There can be no doubt but that the market to-day while it is almost as high as it was a week ago is in a much healthier condition, but the rapid advance which we have seen in the last three days, if continued, will undoubtedly cause renewed pyramiding which can only result in another sharp break.
