PUBLISHED BY

The C. H. Mortimer Publishing Co.'s
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman Monthly, A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 1,334 square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the best quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Bouchette station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

CURRENT TRADE CONDITIONS.

ONTARIO.

It would be hard to conceive of more satisfactory conditions than those which prevail in the white pine trade of Ontario. Manufacturers who have any stock of the upper grades are in a position to fix their own prices, knowing that if these prices are not accepted by the buyer, the probability is that higher prices will be realized before spring. Numerous inquiries are being received from the Eastern States for small lots of stock, apparently for evening-up purposes, while there is a disposition on the part of dealers to contract for the coming season's cut that is not often exhibited at this season of the year. Building operations in the leading cities of the province are likely to be of a satisfactory volume, and better prices for building lumber are expected. It is a question, however, whether it would be in the interest of the lumber trade that there should be a marked advance in the price of lumber, as it might restrict the volume of building. A satisfactory car trade in hardwoods is reported, with prices stiffening in a moderate degree. The returns from the production of hardwood lumber last year were not very satisfactory. This has caused some manufacturers to turn their attention to pine and hemlock, and the production of hardwoods during the coming sawing season promises to be very light.

There are practically no shingles on the market, and if the demand was more active, a sharp advance in prices would be experienced. Lath is more plentiful than shingles, although by no means in large supply. Prices remain steady.

QUEBEC AND NEW BRUNSWICK.

It is learned that the total stock of spruce deals wintering at the port of Quebec is slightly below 7,000,000 feet. At the close of 1901 the wintering stock was 25,000,000 feet. These figures confirm the prediction that was made by some shippers early in the fall that the wintering stock would be exceptionally small. The condition of the spruce market is, on the whole, very satisfactory, and it is the opinion of the trade that the spring will witness considerable activity and a strong demand. Inquiries are being received by manufacturers almost daily for spruce clapboards, the supply in the Eastern States having become short. On Boston rate

of freight they are selling at \$35 to \$36 for extra spruce, and \$33 to \$34 for clear. Shingles remain firm on the basis of the previous quotation of \$3.25 to \$3.35 for extras.

UNITED STATES.

An indication of the trend of white pine prices is found in the heavy buying for future delivery that has taken place in the Lake Superior district. The conditions so strongly favor higher prices that dealers and consumers are satisfied that they will make no serious mistake by buying at the present market price. A sale was made at Duluth last week of 4,000,000 feet of No. 3 and better at \$18, or about \$2.50 per thousand more than the same company realized for its lumber one year ago. There is a decided shortage in dry lumber, and those who have stock on hand have no difficulty in disposing of it at their own figures. In Buffalo and Tonawanda a large business is doing. Uppers have advanced during the past two months fully \$3 per thousand. Selects \$4, and fine common and No. 1 cuts \$2. There has been no advance in barn boards and box lumber, although these have shown more strength of late and may follow in the path of the higher grades as soon as the spring demand develops. As far as can be estimated the volume of building this year will be heavy, as the architects universally are busy. Logging conditions in the white pine district have been favorable, although a greater supply of snow would facilitate hauling.

A steady improvement in both demand and inquiry for hardwood lumber is reported. The cautious buying policy that has been pursued by factories has brought their stocks down to a point where they must be replenished. Maple is likely to improve, since Michigan manufacturers have taken united action towards obtaining a more remunerative price. Black ash is in good demand and some elm and basswood is moving, though prices of the latter show no improvement.

GREAT BRITAIN.

British importers are pursuing a cautious policy, and while there has been increased activity since the first of the year, the feeling seems to be strongly in favor of a very gradual recovery rather than a sharp advance in prices. At the recent auction sales Canadian pine and spruce showed a distinct improvement. Second quality Quebec

spruce brought \$9.55 for 3x9 inch and third quality \$9.55. Third quality battens also sold well at \$7.15 for 3x8 and \$7.10 for 3x7. For best quality pine deals as high as \$28 per standard has been realized by private sale, the supply being comparatively light. Prices of second and third qualities are less firm and the stock heavier. Red pine deals have recovered to some extent. During the summer months 9 inch sold as low as \$8.55 per standard, whereas the current quotation is about \$10. In timber, waney pine is in light supply and selling at advanced prices, while elm and ash are held in large quantities and are slow of sale.

The annual timber circular of Churchill & Sim furnishes interesting statistics of the import of timber into the United Kingdom during the past seven years. The quantity of Colonial deals and battens imported last year was the same since 1896. The total quantity of timber imported from all countries was 9,193,934 loads, a decrease of 700,000 loads as compared with 1900, and of 250,000 loads as compared with 1889. No complete figures of the stock on hand are obtainable, but the public docks in London show a decrease in deals and battens of 1,600,000 pieces. The figures of London consumption make a very satisfactory showing, being 60,000,000 pieces in 1901, as against 55,000,000 pieces in the previous year.

STOCKS AND PRICES.

The schooner Congo is loading lumber at Weymouth, N. S., for Buenos Ayres. George Morrow, of Murillo, Ont., has just commenced work on a contract to get out 30,000 ties. Dickey & McGrath, Tucket, N.S., shipped 12,000,000 feet of deals last year, and will operate about as extensively this season. W. H. Crowe, of Welland, Ont., has purchased 250,000 feet of pine and hemlock lumber from John Goodwillie. Milne & Platt have sold their timber limits and saw mill at Jack Lake to William Train, of Burk's Falls. Mr. Collwell is taking out 2,000,000 feet of logs in the vicinity of Jerusalem, N. B., which have been sold to Andre, Cushing & Company, of St. John.

At a meeting of the shingle manufacturers held in Seattle, Wash., on January 15th, prices of red cedar shingles were advanced to \$3 for Clears, \$2.55 for Stars, and \$1.90 for Standards on 50-cent rate.

The government of British Columbia is asking for tenders up to February 1st for a license to cut timber on a timber limit situated north of the Strait of Georgia and west of Howe Sound, and containing 14 square miles.

J. Willis & Company, of Sackville, N. B., have been given a contract to supply 65,000 ties for the electric railway to be constructed in Sydney, N.S., by the Cape Breton Electric Company. Col. Granger, of Beechmont, N.S., will supply 10,000 ties for the same purpose.

Prices quoted by jobbers at Buffalo continue on a basis of \$7.75 to \$8 for elm flour barrel staves, 5-2 to 5-34 cents for basswood heading, and \$8.50 to \$8.75 for 6-foot coiled hoops. Tight stock is quiet, with tierce staves \$30, hoops \$14 and heading in cents.

The following shipments of lumber were made from the port of Pictou, N. S., last year: W. M. MacKay, 423,000 feet; P. A. & J. D. McGregor, 1,259,000 feet; Primrose Bros., 1,179,000 feet; Road & McGregor, 1,059,000 feet; Geo. MacKay, 3,075,000 feet; W. J. Kent, 796,000 feet.

Two lumber-laden vessels which sailed recently from Vancouver, B.C., are reported to have put into Honolulu in distress. The American barque Benjamin Sewell loaded at Moodyville and cleared for Sydney, Australia, on December 29th. The barque Hesper was bound for Fremantle, Western Australia.

A Detroit company who owns St. Ignace and other Islands in Nipegon Straits is about to commence the cutting of the timber. It is estimated that the land contains 500,000 cords of woods, of which 440,000 cords is spruce. The intention is to cut about 10,000 cords this season. The manager of the company is J. S. Bishop, of Detroit, who will make his headquarters in Port Arthur.

The Cleveland Saw Mill & Lumber Company last week sold to Ralph Gray its entire stock of lumber at Cleveland, consisting of white pine, Norway, hemlock, fir and yellow pine, in all about 14,500,000 feet. The company also sold to W. S. Olds, of Cheboygan, Mich., its remaining pine holdings, comprising about 10,000,000 feet, located on the shore of lake

Michigan. The consideration for the latter was \$40,000.

Joseph Walsh, late of the Delta Lumber Company, Detroit, is this winter taking out 1,000,000 feet of spruce logs and 1,000,000 feet of pine logs which will be watered in Lake Joseph and go down the Moon river to Georgian Bay; also 2,500,000 feet of pine logs which will come out of the Seguin river. The timber being cut on deeded lands, will be exported to the United States. Mr. Walsh is making his headquarters at Parry Sound.

Of the Barbadoes markets Messrs. S. P. Musson, Son & Company say: The only arrival of white pine and spruce is the "Elma" on December 23rd, with 227,000 feet spruce and 103,000 feet shippers and second quality pine. We sold the former at \$18 round, boards 7 inches and up wide, 10 feet and up long, shippers quality; and the latter at \$20 round, without deductions for shippers, and \$17 for second quality. Other cargoes are on the way and the market is amply supplied. There have been no receipts of cedar shingles.

CANADIAN LUMBER SHIPMENT.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Halifax, N. S.: Steamer Grecian, for Liverpool, Eng., 1,094,578 feet deals etc., value \$11,049. Str. Loughrigg Holme, Braw Head, England, 1,432,930 feet deals, etc., value \$12,521. Str. Ionian, for Liverpool, 309,142 feet, value \$2,960. Str. Concordia, for Liverpool, 202,931 feet, value \$2,013. From St. John, N. B.: Str. Ionian for Liverpool, 978,786 feet deals, 6,042 feet, scantling, 74,536 feet boards, 25,468 ends, 67,983 feet birch deals, 1,403 birch scantlings, 13,260 feet birch ends, by George McKean; 484 pcs. lumber, by William Thompson & Co. William Jones, for New York, 131,595 feet plank, 52,739 feet scantling, 5,495 feet deals, 529,000 laths, by Stetson, Cutler & Co. Sch. John C. Cottingham, for Boston, 24,839 feet plank, 46,112 feet deals, 81,667 feet scantling, 90,947 feet boards, by Stetson, Cutler & Co.

THE PINE OUTPUT.

According to the estimates received by the Department of Crown Lands from the timber agents, 808,000,000 feet board measure of pine logs will be cut in Ontario this winter. Last year the quantity was estimated at 700,000,000 feet, but proved to be only 630,000,000 feet. The chief increases this year are 50,000,000 feet in each of the Webbwood and Sault Ste. Marie districts. The cut in the various districts is estimated as follows:

Pine logs.	Feet B. M.
Parry Sound	168,000,000
Webbwood	139,000,000
Pembroke	113,000,000
Sault Ste. Marie	110,000,000
Sudbury	100,000,000
Arnprior and Whitney	60,000,000
Rat Portage	35,000,000

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 10th January, 1902. The names of the parties may be obtained from the publishers of this journal.

Inquiry is made for Canadian exporters of furniture in knock-down condition, chair seats, backs and legs; also broom handles, brush heads, sashes, flooring, boxes etc.

A London importer has asked to be referred to Canadian makers of turned wood boxes and other similar wood goods, also spindles, broom handles, etc. To parties who could fill orders promptly, considerable business might result.

Jones Bros. will ship about 4,000,000 feet of lumber this year from Apoauki, N.B.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you promptly and in large quantities with a high-grade shingle would not only be a fish and a bear story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a great deal longer than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to our knowledge.

Our old mill was burned down in May last, and in its place we have built what is at the present time the Largest Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about 100 Million a year.

Competent judges who have seen our new mill, tell us that it is one of the most substantial, carefully constructed, and best planned mills in this province. We ourselves think it is the very best shingle mill in B. C.; and we know that it is equipped with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closes at the end of this year. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have prompt attention.

We want our share of your shingle business, and can guarantee you satisfaction in every particular.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.

We make a fine 18-inch Shingle.

We make a fine 24-inch Shingle.

We make all thicknesses from 6-2 inch to 6-3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED.

THE BOSTON MARKET.

The spruce lumber market at Boston is quiet, since it is in the midst of the quiet season. But there is no weakness, except possibly on some randoms that have come forward and must be sold. On the contrary, the position is very firm on schedules and anything that has to be ordered: Ten and 12 inch dimensions, \$20; 9 inch and under, \$18 to \$18.50; 10 and 12 inch random lengths, 10 feet and up, \$19 to \$19.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, \$16.50; all other randoms, 9 inch and under, 10 feet and up, \$17.50; 5 inch and up merchantable boards, \$15 to \$16; matched boards, \$17.50 to \$18.50; out spruce boards, \$12.50 to \$13; bundle furring, \$16 to \$17.

Hemlock holds very firm, but the immediate demand is still light. Boards, 12, 14 and 16 feet, \$14 to \$15.50 for good eastern; Pennsylvania, No. 1, \$16 to \$17; No. 2, \$14.50; random, \$13 to \$13.50.

White pine is stronger, with western shippers advancing prices. The claim is that prices "can never be any lower" on account of the small and decreasing sup-

ply; uppers, 1 inch, \$70 to \$72; 2 1/2 and 3 inch, \$75; 4 inch, \$80; selects, 1 to 1 1/2 inch, \$63 to \$65; 2 inch, \$65 to \$67.50; 2 1/2 to 3 inch, \$72 to \$75; 4 inch, \$75 to \$80; fine common, 1 inch, \$48; 1 1/4 to 1 1/2 inch, \$44; 2 inch, \$55; 2 1/2 and 3 inch, \$63 to \$65; 4 inch \$70; barn boards, \$23 to \$32; coffin boards, \$25 to \$28.

Shingles are very firm, with California redwood shingles advanced: Extra cedar, \$2.25 to \$3.30; clear, \$2.85 to \$2.95; second clear, \$3.35 to \$3.40; sap, \$2.10 to \$2.20; extra No. 1, \$1.75 to \$1.80; Washington and British Columbia, 16 inch, five butts to 2 inches, \$3.46 to \$3.50.

Clapboards are scarce and firm, and sell at higher prices: Extra spruce, \$35 to \$36; clear, \$33 to \$34; second clear, \$29 to \$32; extra No. 1, \$20 to \$24; pine extra, \$50 to \$52; clear, \$45 to \$48; second clear, \$40 to \$42.

Laths are easier: One and five-eighths inch, \$3 to \$3.05; 1 1/2 inch, \$2.95 to \$3.

The dissolution is announced of G. A. Corriveau & Frere, lumber dealers D'Israeli, Que.
