CURRENT TRADE CONDITIONS.

ONTARIO.

As each week goes by the lumber mar-
ket gathers additional strength. In com-
piling the report of stocks of pine lumber
on hand, the secretary of the Ontario
Lumbermen's Association finds that the
coarser grades have been disposed of
more largely than was generally antici-
pated. The market will thus be in good
shape to receive the new cut, and no
decline in prices is anticipated during the
next six months at least. There has re-
cently been some heavy buying of lumber
by American companies in the vicinity of
Sudbury. Log run pine is held at exceed-
ingly high prices. It is learned that the
cut of a particular mill which recently
changed hands at \$30 was secured by a
firm of Quebec exporters. Another lot of
logs on the Georgian Bay running five to
the thousand is being held at \$35, this
probably being the maximum figure that
has yet been asked. For 1 to 2 inch
uppers \$72 is being asked by some manu-
facturers. Box lumber ranges from \$13
to \$16, the latter for 12-inch and wider.
Dry mill culls are held around \$12.

Owing to expensive logging, the
production of hardwood logs this winter
has been light, and it is probable that
prices will gradually work higher. For
elm, basswood, and ash logs \$16 is being
offered for delivery at the mill. Birch logs
are worth about \$15, and maple \$14.

UNITED STATES.

Lumber conditions in the United States
are steadily improving. The consumption,
owing to severe weather, is not large, but
the buying for future delivery has been
heavy and indicative of a disposition on
the part of dealers and consumers to
arrange for the season's requirements as
early as possible. Higher prices are pre-
dicted for box lumber. Buffalo is scarce
of that grade, and at Ashland, Wisconsin,
there is a tendency to advance prices
beyond the current figure, which is the
highest for some years. No. 4 boards
are selling there at from \$10.50 to \$11.25
per thousand for next season's cut, and
No. 5 boards at \$6 to \$6.50. Yard dealers
in the Saginaw Valley predict that before
April 1st prices will have advanced from
50 cents to one dollar per thousand. The
lower grades have recently shown more

strength than the upper grades, probably
due to the fact that the advance in the
price of the former has been less relatively
than on the better qualities. An advance
in dimension is in prospect. Norway lum-
ber is growing in favor and has now
reached a price where competition from
southern pine is felt quite keenly. The
latter is about \$2 cheaper, and the ques-
tion has arisen whether it will be possible
to maintain the present price of Norway.
With about 15 per cent. of 12 inch the
average quotation is in the neighborhood
of \$14.50. There is a further improvement
in hemlock, which is meeting with a large
demand in the east. The North-western
Hemlock Manufacturers' Association, at
its annual meeting in Milwaukee last
week, advanced the price of 2x4, 2x6, 2x8,
and 2x10 in 16-foot lengths 50 cents per
thousand. According to the new list the
range on No. 1 piece stuff is from \$10 for
2x4 in 8-foot lengths to \$16.50 for 2x12 in
12, 14 and 16-foot lengths. Hemlock lath
was reduced from \$3 to \$2.75.

Hardwoods are in excellent demand.
For quartered oak \$73 to \$75 is easily ob-
tainable in New York and \$72 in Buffalo.
Maple is slightly higher, especially thick
cuts, of which the supply is very light.

GREAT BRITAIN.

The British timber market is excep-
tionally quiet for this season of the year.
The tone is firm, although importers are
strongly opposing the advance in prices
that has been made by shippers. It is
understood that sales of Canadian pine
have been made at an advance of from 10
to 15 per cent. over last year's prices.
The wintering stock is small, and dealers
recognize that it may be absolutely neces-
sary to meet the demands of the shipper
in order to secure the stock. As an
instance of the strength of pine, \$22 per
standard was recently realized at an
auction sale for a small lot of 7-inch first
quality. For Quebec spruce shippers are
asking £10 for seconds and £9 5s. for
thirds c.i.f. London and Liverpool. This
represents an advance of more than 10
shillings as compared with last year's
figures, as a result of which less than
the usual quantity of spruce has been
disposed of. The conditions, however,
favor the sellers, and it is believed that
they will be successful in placing their
stock at the higher values fixed upon.
During the past two months the stock on
hand has been considerably reduced. The
feature of the square timber trade is the
scarcity of first class waney pine, of which
there is practically none in first hands.
Birch and elm are in good demand.

STOCKS AND PRICES.

Taylor, Scott & Company, Toronto, are
buying large quantities of first and second
quality spruce boards.

Quotations on box lumber in car lots at
Buffalo are as follows: White pine box,
12-inch, \$20; white pine box, 6 to 12-
inch, \$17.50 to \$19.50; white pine cull,
\$15; poplar shipping culls, \$17 to \$18;
basswood shipping culls, \$16.

By order of the underwriter, 451,000
feet of spruce boards and scantling, now
stored in the warehouse of the Halifax
Dry Dock Company, is to be sold.
Tenders will be received by H. D. Mac-
Kenzie, Halifax, up to 20th inst.

It is reported that the Michigan Land
and Lumber Company, of Blind River,
Ont., have sold their entire cut of logs
running about 13 to the thousand at \$22.25
f. o. b. vessel. The logs will be sawn by
J. & T. Conlon, of Little Current.

The Shier Lumber Company, of Brace-
bridge, Ont., are taking out 6,000,000
feet of hemlock logs this winter. Their
birch stock will probably not exceed
100,000 feet, whereas last year they cut
600,000 feet.

The Turner Lumber Company, of
Midland, Ont., write us as follows:
"We beg to call your attention to
an item in your paper of February
11th, wherein it is stated that we have
sold all of the lumber we are to manufac-
ture at Midland this coming season, and
makes mention of 10,000,000 feet of white
pine logs of excellent quality belonging to
this company. We have sold 24,000,000
feet to be manufactured at Midland, but
still have unsold the 10,000,000 feet of
white pine logs referred to, which are also
to be manufactured at Midland. We have
also sold 25,000,000 feet to be cut at
South River. This is the 25,000,000 feet
referred to in the same paper as the
quantity which the South River Lumber
Company expect to manufacture this sea-
son at their new mill. We have just con-
tracted a large quantity of mill culls 4 to
11 inches in width at \$11 f.o.b. rail of vessel
here."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN).

"Not in the history of the local lumber
trade has stock been bought up so close
as it is for the mill cut of 1902," remarked
a dealer to-day. "Everything in the
better grades is off the market with the
exception of a few odds and ends. While
the stock is out of the hands of the manu-
facturers a portion is still offered for sale
by dealers, but a small portion only.
It is safe to say, moreover, that between
one-third and one-half the mill cut of 1903
has already changed hands."

The above sums up the lumber situation
in Ottawa and the Ottawa Valley as far as
the yard end of the business is concerned.
Good sidings, strips and shorts and ship-
ping cull strips and shorts are out of the
manufacturer's hands. The same applies
to shingles, and lath are scarce. Present
negotiations between manufacturer and
dealer are on next summer's cut, and the
Ottawa quotations on the market page
represent the former's estimate of the
worth of his future output. Movement
of lumber is only fair this month.

Will the present season's cut of logs all
be cleared before the break-up of winter?
This is the question that is agitating the
lumber mind. Amongst Ottawa operators
it is the impression that the first week in
March will see a cessation of teaming
operations that will compel the mill men
and others, reluctant though they may be,
to leave part of their log cut on the limits
over another year. There is plenty of
snow, but the ground beneath is free of
frost, and the first spring rains will play
havoc with the roads. Reports show that
early snow-falls prevented the ice on the
lakes and rivers attaining the usual thick-
ness, and an earlier break-up than usual
may be expected on water. Moreover,
teaming has been retarded, as the log

loads on account of the uncertainty of the
ice have had to be reduced. The different
firms report the loss of teams almost
weekly on this account. The writer while
in Pembroke this week made enquiries
and learned that the logs cut along the
Petawawa will probably all be taken out
before the "break-up."

An old and experienced lumberman who
returned from the Kippewa district to-day
said that the predictions of an early spring
would fall flat. "I never saw two early
springs in succession yet," he remarked,
"and I would not be surprised if winter
holds on till April. While the ice is not
very thick, there is plenty of snow and
teaming will be carried on for many weeks
yet."

Ottawa lumber operators who are get-
ting out square and waney timber now
regret that the 10 per cent. selling advance
made in the early part of the season was
not increased to twenty per cent. Unfore-
seen difficulties have increased the cost of
production fully thirty per cent. over
former seasons, and a second advance
may be looked for on future sales.

Trouble has been caused by the in-
experienced class of labor placed in
the camps by the Ottawa employment
agencies, and desertions are of daily
occurrences. It is said that some camps
resemble rural public schools from the
fact that youths are strong in number,
particularly in the road-making squads.
While more square timber is being taken
out this season than last, the quantity
forwarded to Quebec by water will be
considerably less. All the square timber
being manufactured in the Kippewa dis-
trict will be forwarded by rail, a branch
of the Canadian Pacific making such a
means of transportation convenient.

From a reliable source it is learned that
the production of pulpwood along the
Ottawa and its tributaries will be one-third
greater than it was last year. Early
sleighting made the movement easy and
the stock will probably all reach the rivers
and railways before the snow goes. A large
quantity of pulp wood is being taken out
this season on the Canadian Pacific Rail-
way branch between Sudbury and Sault
Ste Marie. Considerable poplar is being
secured on the line around Warren Station,
where settlers are busily engaged clearing
land.

The latest quotations on spruce and pop-
lar pulp wood are \$2.75 per cord, delivery
being made at the railway.

CORRESPONDENCE SOLICITED

THE GLASGOW MARKET.

Edmiston & Mitchells' Monthly Timber Circular reviews the Glasgow market as follows:

Business has been rather quiet during the month, but this is invariably the case at the beginning of the year, owing partly to the holidays and the fact that buyers are inclined to look into their stocks before making further commitments.

WHITE OAK YELLOW PINE.—Business has been quiet during the month. There have, however, been a few good lines cleared in Waney Deckwood and F. A. Square Pine, 400 loads of the former and 7,800 loads of the latter having been sold.

RED PINE.—We hear of no sales during the month. Stock is small but ample.

OAK.—There have been a few enquiries, but no sales as far as we can learn. Stocks are fairly large. Prices are firm.

ELM.—There has been a fair enquiry for 1st class rock, and a few sales have been made at prices round about 3s. to 3s. 1d. for 9,000 feet perpage. A few pages of soft elm have also been sold at about 1s. 3d. per cubic foot.

BIRCH.—Quebec logs. The stock on hand is now considerably reduced, and the comparatively small amount on hand unsold is being held for firm prices. 16 inch has been selling in retail lots at from 21d. to 22d., and 18 inch at 22s. "ex store."

ASH.—The market continues in a very

lifeless condition, very little business being done, and only then at unsatisfactory prices. The stock on hand consists mostly of old timber, and of more or less indifferent quality. Prices, which are nominal, are round about 1s. 6d. for small wood, up to 2s. for 14 inch.

DEALS, ETC.—A fair amount of business has been done. Parcels of broad first pine deals and sidings arriving per liners via Portland, &c., have found a ready sale "ex quay" at enhanced prices.

TRADE OPENINGS.

The following where among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 14th February, 1903. The names of the parties may be obtained from the publishers of this journal.

A London firm of wholesale and export cabinet-makers are desirous of being placed in direct touch with Canadian ex-

porters of timber suitable for their trade. A business house in Tunis is making inquiry for Canadian firms prepared to ship lumber, canned goods, &c., for which it is open to take up the agency.

TIMBER LIMIT TRANSACTION.

Henry Pedwell, of Thornbury, Ont., has closed a deal with the executors of the late Hon. G. W. Allan by which he becomes the proprietor of six hundred acres of magnificent timber land on the shores of Kempenfeldt Bay, close to the town of Barrie, known locally as the Allan estate. The purchase price was \$25,000 cash.

H. Gauvreau, of St. Sauveur, Que., has purchased Mr. Roger's mill and timber limits on Sixteen Island Lake for the sum of \$20,000.

The negotiations for the sale to American capitalists of the timber property of E. D. Davison & Sons, Bridgewater, N. S., are about concluded. Messrs. Davison will continue to operate the lower mill and the Alpena mill until the logs in the stream are cut.

S. P. Benjamin, of Wolfville, N. S., has bought a half interest in tracts of timber land in the vicinity of Hamilton Inlet, Labrador, held by Wm. Muir, Andrew Muir, James A. Calder, and Hugh A. Calder. The price is understood to be in the vicinity of \$100,000.

Dobell, Beckett & Company, of Quebec, have secured the contract for the supply of Canadian timber to the Imperial Government.

THE BOSTON MARKET.

There is an improved demand for spruce lumber for the yard trade in Boston. Frames especially are selling better and tending up. Trade is some hampered by the interruption to transportation caused by the recent severe snow storm in Maine. Prices hold firm: Ten and 12-inch dimensions, \$21 to \$22; 9-inch and under, \$19 to \$20; 10 and 12-inch random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9-inch and under, 10 feet and up, \$18 to \$18.50; 5-inch and up, merchantable boards, \$17; matched boards, \$18 to \$20; out spruce boards, \$12; bundle furring, \$17.

There is no change to note in hemlock lumber: Boards, 12, 14 and 16 feet stock, \$14.50 to \$15 for good eastern; Pennsylvania, No. 1, \$18 to \$19; No. 2, \$15 to \$16.

Western pine lumber is firm with a fair demand: Uppers, 1 to 2 inch \$84 to \$87; 2½ to 3 in. \$92 to \$97; 4-in. \$96 to \$100; se-

lects, 1 in. \$76; 1½ to 1¾ in. \$76 to \$78; 2-in. \$78; 2½ to 3 in. \$84; 4 in. \$83; fine common, 1-in. \$67; 1½ to 1¾ in. \$69; 2-in. \$72; 2½ to 3 in. \$80; 4-in. \$82; barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

There is a very firm market for hardwood lumber, though the demand is rather quiet still: Quartered oak, \$63 to \$75; plain oak, \$42 to \$47; common and rejects, \$20 to \$25; red oak, plain, \$43; whitewood, \$49 to \$55; sap and common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$33 to \$37; end-dried white maple, \$46; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; elm, \$29 to \$31.

Shingles are steady and unchanged: Extra cedar, \$3.35 to \$3.45; clear, \$2.85 to \$2.95; second clear, \$2.30 to \$2.40; extra No. 1, \$1.75 to \$1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, \$3.50 to \$3.60; 18-inch, five butts to 2 inches, \$4.25; five butts to 2½ inches, \$4.50.

Clapboards are very firm with only moderate offerings: Extra, \$42; clear, \$40;

second clear, \$37 to \$39; extra No. 1, \$30 to \$33.

Laths are lower, with only a fair demand: One and five-eighths inch, \$3.15 to \$3.25; 1½-inch, \$3.20 to \$3.25.
