CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } \$1.00 PER YEAR (The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX.

TORONTO, CANADA, SEPTEMBER 23, 1903

No. 34

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman—Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman—A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—HARDWOOD LUMBER OF all kinds and sizes. If you have any to offer, write me. R. R. KINSMAN, Hamilton.

WANTED—TO CORRESPOND WITH MILL. Men having bright Spruce, first quality, suitable for piano sounding boards. THE MASON & LEECH PIANO Co., Limited, Toronto.

WANTED—TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER Co., 23 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care Box 22 CANADA LUMBERMAN.

FOR SALE.

One 30" x 24" Waterous engine, 8 ft. driving wheel, 2" face, 11 ft. x 4 ft. Sullwell & Hierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,300 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)

TIMBER LIMIT FOR SALE

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar, balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

CURRENT TRADE CONDITIONS.

ONTARIO.

There is a fair movement of all kinds of lumber, and particularly of low grade pine and hardwoods. Orders appear to be a little more plentiful than earlier in the month. It is generally believed that consumers are carrying light stocks, as their policy for some time past has been to buy conservatively in the hope of being in a position to take advantage of the expected decline in prices, which up to the present time has not materialized. Manufacturers of pine lumber do not anticipate lower prices in the near future. Even if the demand this winter should fall below normal, it is not likely that the effect upon prices would be material, as the pine manufacturers are in a strong financial position. Unless there should be a permanent decline in the volume of trade, prices will not yield. Hardwood manufacturers are equally certain of being able to maintain present prices. The quantity of unsold stock at the mills is exceptionally light, and the supply will be shorter this winter than during the corresponding season a year ago. The stumpage price for hardwoods has advanced in full sympathy with the higher prices for lumber, which consideration warrants the view that present values will continue. By some advance in the price of the thicker sizes of hardwoods is predicted. A manufacturer who has been selling his basswood at \$20 for mill run culls out writes that he has just received an offer of \$22, which clearly in-

icates an upward tendency. Plain red oak is held at \$30 at the mill for log run, dead culls out.

QUEBEC AND NEW BRUNSWICK.

In spruce lumber the market is largely in the hands of the seller. The supply of dry stock is below the average of recent years, and the steady demand from New York has induced some manufacturers to advance their prices. For extra quality of spruce clapboards there is a steady and urgent inquiry, the average selling price being \$45 for 4-foot boards on Boston rate of freight. Clears are quoted at \$43 and second clears at \$40. Narrow boards do not find a market so readily.

The cedar shingle market is still uncertain. Extras are freely offered by practically all the small dealers at \$3.40 for Boston delivery, while some of the more important manufacturers are still holding their stocks for \$3.50. It is believed that the market will work back to a \$3.50 basis within a few weeks. Strength is shown by spruce lath, which brings about \$3.20 for 1 1/2-inch and \$3.40 for 1 3/8-inch.

MANITOBA AND BRITISH COLUMBIA.

The lumber market of the North-West is seasonably active. Dealers are increasing their stocks in anticipation of a steady demand during the fall and winter months, the abundant crop yield having inspired confidence in business generally. It is now reasonably certain that the wheat production of Manitoba and the Territories will exceed sixty million bushels, against sixty-five million bushels last year. This yield will net the producer more than last year on account of increased prices. The lumber market generally is firm, although some United States manufacturers are said to be taking orders for pine for delivery at Manitoba points at about \$1 less than the prices which have been prevailing. Local manufacturers have not as yet met this competition. There is no change in British Columbia shingles. The manufacturers notified shingle sawyers that a cut of 1 1/2 cents a thousand would be made in wages, and trouble has arisen at some of the mills. Should a general strike be inaugurated it would enable the market to right itself from a serious overproduction.

UNITED STATES.

Based on reports of serious damage by frost to the corn crop, the news was last week spread abroad that lower prices for lumber had been decided upon by the pine manufacturers of the Mississippi valley. This proved to be premature, for the result of a meeting of such manufacturers was an agreement to hold prices at the basis which has ruled for some time past. In view of the reduced cut it was felt that there would be no large surplus of stock. At the same time, it was admitted that the

demand was not all that could be desired, and that there had been a curtailment in the buying of lumber for building purposes. Some slight concessions have been made on northern pine and on shingles and lath. The box business, on the other hand, is in a flourishing condition, the buying of box lumber continuing to be a feature; in fact, all low grade white pine and Norway are strong, while the better grades are exhibiting signs of weakness. It is said that inch No. 1 cuts which a short time ago were held in the eastern markets at \$42 can now be obtained for \$39. Heavy rains in Michigan brought business almost to a stand till last week, but the recent favorable turn has caused an improvement. Chicago dealers report a better inquiry for lumber in cargo lots. Norway piece stuff is held at \$16 to \$16.50, and Norway inch, common, at \$14.

The hardwood market exhibits more activity than any other branch of the lumber industry. It is almost needless to specialize, as all kinds and grades are in demand. The Wisconsin Hardwood Lumbermen's Association, at a meeting held on September 15th, after mature consideration, reaffirmed the March list, although many of the members were in favor of an increase in the price in the case of a majority of the items on the list.

Prices of shingles and laths do not improve, notwithstanding that the demand is considerable. The Wisconsin Valley Lumbermen's Association have reduced the price of No. 1 pine lath 25 cents, and that of No. 2 50 cents. In Chicago No. 1 pine lath is held at \$3.25 and No. 2 mixed at \$3.

GREAT BRITAIN.

We cannot report conditions in the British market to be materially different from those of a week ago. The effect of the extremely cautious buying by importers is becoming visible, there being a gradual improvement in the price of what is termed "spot goods," that is, lumber in stock. At the recent auction sales all first class lumber has been taken at firm prices, and if there should be no quantity of consignment goods sent forward there is not likely to be any difficulty in maintaining prices. Pine deals of first and second quality are now held at an exceptionally high figure, but there is no large accumulation and little prospect of any important addition to the stock this season, for the consumption is almost certain to keep pace with the import. Spruce deals are held at stiff prices. At the last London sale fourth quality 3 x 9, 12 feet in length, brought £9, and fifth quality £8, which figures cannot be regarded otherwise than satisfactory. The flooring market is exceptionally strong, prices having gradually advanced during the past two months. Narrow boards are also firmer, a run upon these sizes having been experienced.

STOCKS AND PRICES.

The steamer Loughrigg Holme is loading a cargo of deals at Baie Verte, N. B., for Manchester.

The steamer Fashoda sailed from Montreal last week for Glasgow with deals, calling at Three Rivers to complete cargo.

W. & A. McArthur, of Little Current, Ont., are making preparations for work in the woods and expect to cut about 30,000,000 feet this season.

All manufacturers in the Georgian Bay district report a good demand for pine: all culls and box lumber, one or two large lots having recently changed hands at high prices.

Hemlock lumber is reported somewhat more plentiful than at any other time this season. Chicago dealers claim that they have received offers of concessions in price to the extent of \$1 a thousand.

Keenan Bros., of Owen Sound, Ont., are reported to have bought the saw and shingle mill of Hickling Bros., Artemesia township, with the timber on the property, amounting to about 1,750,000 feet.

The largest cargo of Canadian lumber ever received at Tonawanda, N. Y., arrived on September 15th. It consisted of 1,150,000 feet of white pine for Dodge & Bliss and Silverthorn & Company, and was carried by the schooner Burma from Parry Sound, Ont.

The logging camp recently operated by G. H. Finlay & Company, on the Squamish river in British Columbia, will be opened shortly and operated by the E. K. Wood Lumber Company. Improvements will be made to facilitate the booming of logs at the mouth of the river.

At the Crown Lands Office, Fredericton, N. B., on September 16th a timber berth of two square miles on the west side of the Magaguadavic river was sold to Robert Anderson at the upset price of \$8 per mile. Another berth of two and a half square miles at north branch Salmon Creek was sold to George S. Dykeman at \$8.50 per mile.

George McKean, of St. John, N. B., has this season loaded three steamers and one sailing vessel with deals at West Bay, N. S., and has yet a considerable quantity for export. W. M. Mackay has sent from that port five steamers, which carried 17,000,000 feet of deals, and three sailing vessels with a smaller quantity. There yet remain for removal two cargoes.

The price list of the Wisconsin Hardwood Lumbermen's Association fixes the following prices f.o.b. Wausau: Ash, 1 inch log run, No. 3 common out, \$20; birch, 1 inch log run, No. 3 common out, \$18; soft elm, 1 inch log run, No. 3 common out, \$16; rock elm, 1 to 2 inch log run, No. 3 common out, \$18;

hard maple, 1 to 2 inch log run, No. 3 common out, \$13; soft maple, 1 to 2 inch log run, \$14.

Arthur Hill, who is largely interested in the St. Anthony Lumber Company at Whitney, Ont., states that much difficulty has been found in securing the necessary labor. It has been necessary to shut down a portion of the mill in consequence of the scarcity of help. He expresses the opinion that this scarcity will shorten the output of the mills fully one-third and will equally affect the operations in the woods the coming winter. He believes that this will prove beneficial to the market, indicating no glut, and consequently all the lumber manufactured will be wanted.

A new list has been issued by the Wisconsin Valley Lumbermen's Association making the following price changes, f.o.b. Wausau: D selects, all lengths and widths, reduced \$2 a thousand; D flooring, all lengths, reduced \$2; No. 1, 8 and 10 inch boards, rough, increased 50 cents; Drop siding, No. 1, 8 and 10 inch, and plain shiplap D and M, No. 1, 8 and 10 inch, increased 50 cents; D siding, tied, reduced 50 cents; piece stuff, 2 x 4, 10 foot, reduced \$1; No. 1 white pine lath and No. 1 mixed, reduced 25 cents; and No. 2 lath, reduced 50 cents.

There has been a considerable slump, says the British Timber Trades Journal, in the price of American white oak planks, partly due to the slack condition of the wagon-building industry and partly to the large quantities sent forward on consignment to Liverpool and elsewhere. The fall in price affords shippers a temptation to somewhat exceed their contracts, the result being, in one instance at least that has come to our knowledge, that a parcel cut to the particular lengths and dimensions suitable for the construction of a certain type of wagon, and useless, except

at a great waste, for any other sized rolling stock, has been refused, and subsequently offered at tempting prices to clear, which, of course, only tends to further depress quotations. We are getting to understand the benefits of standardization in this country, but, unfortunately, oak wagon sets have not yet come under the beneficial movement, and no two specifications of different manufacturers of rolling stock can be got to agree.

A. Dobell & Co., Liverpool, quote the following cargo prices:

The McGillivray Company, Limited. OTTAWA, CANADA. PINE, BIRCH AND HEMLOCK

COOPERAGE STOCK.

The Sutherland-Innes Company, of Chatham, Ont., referring to the cooperage stock market, say: The whole situation in respect to slack barrel stock can be pretty well covered by saying that at the present time the demand is greater than the supply. This situation has been brought about by conditions over which the manufacturers had very little control. The winter of 1902-1903 was a very poor one for lumbering, the woods being full of water when snow came, and the snow coming on top of the soft wet ground prevented the frost reaching the ground to freeze it and make it passable for teams. What little time there was when the woods would bear up teams was so short that very little timber was put in. Timber now has to be hauled long distances to mills in most cases, and consequently a long lumbering season is necessary to stock up. This the mill men did not get, but had an unusually short one.

The output being so limited and the demand being so great, not only in staple lines, but for apples, of which there are an unusually good crop of excellent shipping apples, everything that can be produced finds a ready market.

Owing to the increased price of timber, heavy cost of summer hauling and higher wages demanded by men, manufacturers have been obliged to ask high prices for stock, and there is no possibility of prices coming down this season; the tendency is upward.

The conditions in the tight cooperage-stock industry are very much the same as in the slack-barrel branch. The weather so far this season has been unfavorable for getting out raw material. The demand for all classes of tight-barrel stock

has been very heavy. The prices in tight-barrel stock have gone up by jumps; in fact, in proportion, have increased even more than in slack stock. The demand for fall and winter trade promises to be heavy, and the difficulty will be to get enough stock to supply the market. The cooperage-stock manufacturers in both lines of the trade are not in a very happy frame of mind at the present time, as most of them have to turn down orders which they would very much like to fill.

THE BOSTON MARKET.

Spruce lumber continues to improve slowly in the demand, but prices are not changed. Large dimensions are difficult to place, owing to the scarcity of logs at the mills supplying Boston: Ten and 12 in. dimensions, \$21; 9 in. and under, \$19; 9 and 12 in. random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9 in. and under, 10 feet and up, \$18 to \$18.50; 5 in. and up, merchantable boards, \$17; matched boards, \$18.50 to \$20; out spruce boards, \$13 to \$14; bundle furring, \$17.

Hemlock lumber is steady and unchanged: Boards, 12, 14 and 16 feet stock, \$14.50 for good eastern; Pennsylvania, No. 1, \$18.50 to \$19.50; No. 2, \$15 to \$16.50.

There is a very firm market for western pine lumber, though the demand is quiet: Uppers, 1 to 2 in. \$84 to \$87; 2 1/2 to 3 in. \$92 to \$97; 4-in. \$96 to \$100; selects, 1-in. \$76; 1 1/4 to 1 1/2 in. \$76 to \$78; 2-in. \$78; 2 1/2 to 3 in. \$84; 4-in. \$86; fine common, 1-in. \$67; 1 1/4 to 1 1/2 in. \$69; 2-in. \$72; 2 1/2 to 3 in. \$80; 4-in. \$82;

barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

Hardwoods continue in good demand for choice finishing stock. The quotations are: Quartered oak, \$75 to \$83; plain oak, \$42 to \$45; common and rejects, \$20 to \$25; red oak, plain, \$43; white-wood, \$51 to \$53; sap, \$43 to \$48; common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$33 to \$37; end dried white maple, \$46; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; northern elm, \$29 to \$31.

Clapboards are steady and unchanged: Extra, \$45; clear, \$43; second clear, \$40; extra No. 1, \$30.

The difference in quality accounts largely for the selling of shingles at a wide range, but uncertainty about the future is a decided factor. For extra cedar \$3.35 to \$3.50 is asked, and for clears \$2.85 to \$3.

Laths are firm at the advance, with sales being made at full quotations: One and five-eighths in., \$3.25 to \$3.40; 1 1/2-in., \$3.15 to \$3.25.

CANADIAN LUMBER SHIPMENTS.

From Sorel, Que.: Str. Braintingband, for London, deals, value \$13,000, by Tourville Lumber Mills Co. Str. Britannia, for Bristol, deals, value \$8,214, by Tourville Lumber Mills Co.
