# CANADA LUMBERMAN

## WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. XI.

TORONTO, MONTREAL AND WINNIPEG, JULY 27, 1904

No. 26

### CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co.'s  
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

22 GREAT ST. HUBERT'S, LONDON, E. C.

The Weekly Lumberman—Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman—A special journal, discussing fully and impartially subjects pertinent to the timber and wood-working industries. Contains interviews with prominent members of the trade, descriptive sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

### WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 25 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is not in duplicate type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

### SHINGLES FOR SALE

We will have for sale shortly about three millions of shing es. Clear, clear butts, and sound XX. CHASE & SPARKER, Smith's Falls, Ont.

### CURRENT TRADE CONDITIONS.

ONTARIO.

There has been a fair degree of activity in the lumber market during the past week. Some dissatisfaction is expressed in regard to United States shipments, but business locally compares very favorably with one year ago. Some dealers report that their facilities are taxed to the utmost to fill the large number of small orders which call for immediate delivery, which is an indication that consumers and retail dealers are carrying very light stocks. There is a very fair demand for bill stuff and some difficulty has been experienced in obtaining the necessary material to fill orders. The pine market as a whole is exhibiting strength, and any change in prices is likely to be in the direction of an improvement.

Buyers who have visited the hardwood mills have found that there is not a large quantity of stock offering nor any weakness in prices. Manufacturers seem to have become satisfied that the entire hardwood production will find a market at the prices now prevailing, and accordingly no concessions of consequence are being made. Hardwoods for interior finish are in good demand in Toronto. The furniture and implement factories are also willing buyers of stock. Lath and shingles are moving in some volume at unchanged prices. The consumption of No. 1 pine lath in Toronto is considerable, but there is very little demand for No. 2 excepting in the country districts.

QUEBEC AND NEW BRUNSWICK.

Considerable lumber is changing hands in the Eastern Provinces, notwithstanding the low prices, but it is composed chiefly of small lots, as buyers are not disposed to assume much risk until conditions improve. British deals are fully \$2 per thousand lower than one year ago, which leaves little or no profit for the producer.

Manufacturers will hold their logs and lumber rather than sell at the prevailing low prices, and it is probable that the market will recover later in the season. New Brunswick cedar shingles have not strengthened, but on the other hand larger quantities of Extras have been sold on the basis of \$3.20 for Boston delivery. As with lumber, the larger manufacturers are holding their stocks.

## UNITED STATES.

The good prospect of having a large yield of wheat and corn to sell at high prices has established a strong feeling of confidence in the business community and has perceptibly influenced the lumber market. Retail dealers are anticipating their demands and are laying in a stock for the fall trade. These remarks apply particularly to the agricultural districts, but a better feeling prevails in the Eastern States also on account of an improved outlook for the iron and steel trade. The Buffalo White Pine Association met last week and reaffirmed the price list. Common lumber still shows an advancing tendency and no sales are being made at cut prices. Eastern dealers have picked up several blocks of lumber in the Lake Superior district, which would seem to indicate that the idea of a further decline in prices has been abandoned. Spruce lumber is not being manufactured in large quantities, the supply being no more than equal to the demand. The random cargo market is quiet, but ordered cargoes are active and firm. Quotations at Boston are: 2 x 3-4, 10 feet and up, and 2 x 5-6-7, \$16.50; 2 x 8-9, 10 feet and up, and 4 x 4 and up, \$17.50; 2 x 10 x 12, \$20.

After weeks of inactivity the hardwood market is now showing more life. Soft elm in all grades and thicknesses is one of the best sellers. Plain sawed oak is also in good demand. Furniture manufacturing has not revived in full measure and consequently birch continues dull, but as the supply is not heavy, there is no pressure to sell.

## GREAT BRITAIN.

Lumber conditions in Great Britain have improved only in respect to consumption, which is a little more active. While prices are firm, there has been no material

advance, although it may be said that there is less pressure to sell. Buyers who deferred making contracts have been rewarded for their procrastination, but considering the present low basis of prices, it would seem unwise to further delay the making of contracts for requirements, and even buying for speculative account would seem to offer a good opportunity for profit. We are told that during the past fortnight prices of spruce cargoes have still further sagged, but that several cargoes have lately been sold to the Bristol Channel ports at the lower figures. It is stated that shippers regard the decline as temporary in character and look for a recovery of some proportions in the early fall. Spruce lumber is now lower than it has been for some years. A quantity of 3 x 9 inch second quality, of Breakey's manufacture, sold recently at public sale at £9 10s. per standard, which is practically c.i.f. prices.

## STOCKS AND PRICES.

Montgomery Bros., of Buffalo, have received 10,000,000 feet of lumber by lake this season.

Merabou, Schuette, Parker & Company have just purchased the unsold stock to be cut this season by Eddy Bros. & Company at Blind River, Ont., estimated at 20,000,000 feet. The lumber will likely be shipped to Saginaw.

At an auction sale held by Churchill & Sims, London, England, on July 13th, a small quantity of Canadian lumber sold as follows: 12-14 feet, 3 x 11 inch unassorted pine, £5 per standard; 12 feet, 3 x 9 inch second quality spruce, £9 10s; 13 feet, 3 x 11 inch third quality spruce, £7 5s.

The American Lumberman says: "Importations of lumber into Canada for April, 1904, were valued at \$588,087, as against \$436,128 in the like month of 1903. For the period of ten months ended April 30 of the present year, lumber was imported into Canada, largely from the United States, to the value of \$4,679,556, as against \$2,920,875 in the corresponding period in the year previous. Thus American lumber sent over the line into Western Canada almost doubled in value in the last ten months, as stated. It is not to be wondered at, therefore, that the British Columbians are anxious to dam back this inflow of American lumber by some sort of fiscal legislation."

Messrs. Denny, Mott & Dickson, London, Eng., say of the lumber market:

"There has been some demand for waney pine of good dimension but little enquiry for oak and elm. The latter, however, continues to harden in price—owing to the difficulty of shippers finding even the limited quantity to which they have committed themselves for the new season. Quebec oak continues to be difficult to sell, owing to the cheaper, if inferior, American oak being taken for many purposes where the dearer article used to be specified. The spruce market has shown an easier tendency for ordinary specifications but good prices have been realized by shippers for special requirements."

Messrs. S. P. Mussen, Son & Company, of Barbadoes, say: "The only arrivals during the fortnight ending July 16th were the schooner 'F. B. Wade' with 62,000 feet of white pine and 2,000 feet of spruce, and the schooner 'Nellie' with 15,000 feet of white pine and 32,000 feet of spruce, which were placed in Trinidad. The market is well supplied, and the demand, as usual after the crop, is very light. The lot of 820,000 of Cedar Laying shingles to which we alluded in our last, arrived on the 5th, and while \$2.09 was obtained for the bulk of the cargo, \$1.86 had to be accepted for the balance, which were not up to quality. The market for these is now well stocked, and although Long Cedar are not held in any quantity, we look to see lower prices in both these grades for next arrivals. Dimensions are in very light supply and a small lot would bring fair prices."

## BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., July 22, 1904.—Conditions in British Columbia, while not improving to any degree worthy of mention, are not getting any worse. Some lumbermen might say that the latter was impossible, still the mills are running, and though prices are not maintained in their integrity, yet they are sufficiently good that the sawing of the stock of logs on hand is continued. The 40-cent rate on spruce and hemlock to points east of the western boundary of Manitoba will be more of a benefit to the millmen of the interior, where these timbers are mainly sawn. Heretofore, the territory for the 40-cent rate extended only to the Manitoba line, but since American roads decided to extend the territory to all points west of the Missouri river, the C. P. R. was permitted to include Manitoba, which would under those circumstances be non-competitive territory. An extension of the 40-cent rate has been agitated for by the lumbermen, and now their hope is to have it apply to cedar. This the railway company will, however, not do, until the American roads take similar action. Coast lumbermen deal principally in fir and cedar, while spruce is one of the staples of those manu-

facturers who have their mills in the Kootenay. It is one step, though, to a betterment of rates, and in the present depression is of assistance.

The announcement of Hon. Mr. Fielding that next year something may be done for the protection of the lumber industry is not regarded so much as encouragement as a promise in view of the elections which may come off shortly. The necessity of preserving Canadian markets for the Canadian people, as is done in every industry except that of lumber, has been brought to the attention of the Liberal Government since 1866, and particularly within the last couple of years. The Government cannot plead ignorance of conditions, and in the late speech of Mr. Fielding, when he announced the dumping clause, he carefully excluded the west from any benefits, although providing that the people out this way should pay whatever extra could be charged on goods, and they are many, imported from the east. Hence, the statement that something may be done next year is not taken with all sincerity, and lumbermen here will believe nothing until they either see the duty imposed or have very definite assurance that it will be done.

A story was circulating in the up-country papers to the effect that the Kamloops Lumber Company had sold out their interests in the mills at Kamloops, Enderby and Annis, and had profited considerably by the transaction. Mr. George McCormick is head of this concern, and Mr. Wm. Irwin, of Peterboro, Lieut.-Col. M. Davidson and Lieut.-Col. John McGillivray,

both of Toronto, are also interested. Mr. D. C. Irwin, of this city, brother of Mr. William Irwin, and who also has shares, states that the deal was one whereby the company purchased several of the smaller holdings of stock, and thus have centralized interests instead of disposing of them.

**NEW BRUNSWICK LETTER.**

(Correspondence of the CANADA LUMBERMAN.)

St. JOHN, N.B., July 19th, 1904.—The lumber trade in this vicinity is quite brisk. Low prices prevail in all branches, but the feeling seems to be that they have reached rock-bottom. It is almost certain that when a change occurs it will be more favorable to the manufacturers.

English deals have shown but little change during the last month. Shipments from this port have been quite heavy and the wharves are being kept quite clean. Part of these shipments were the tail-ends of some 1903 contracts, but outside that the demand is fairly brisk. Still it is not so great as to warrant a too pessimistic view of the immediate future. Buyers are cautious, few contracts of any importance are being made, sales are small and mostly for early delivery. Few manufacturers have disposed of any lumber except in the way mentioned, as the prices avail-

able do not warrant their tying themselves up to any great extent. They are confidently expecting better conditions and want to be in a position to make the most of them when they do arrive.

According to information received from reliable sources, the principal dealers in the United Kingdom are carrying very small stocks; therefore any stimulation in the demand will be sure to have an immediate effect on prices. This is what the local dealers are hoping for and expecting. If, however, their expectations should fail to be realized, there is very little doubt that, preferring to hold their logs rather than carry a large stock of manufactured lumber or sell at a loss, they would cease operations entirely for a few months.

A specification of merchantable spruce deals of an average length say of 14 1/2 feet, containing say 50 per cent. of 7s and 8s, 35 to 40 per cent. 9s, and 10 to 15 per cent. 11s, would probably bring from \$11.50 to \$11.75 per M. S. F., f.o.b. St. John.

The logs being sawn in this section this year are somewhat smaller than was the case last year. The result will be a larger percentage of the narrower deals, which, of course, reduces the value of the specification in which they are included.

Freight rates from St. John to the West Coast range from 32s 6d to 35s per standard.

Very little pine or hemlock will be manufactured here this season. Both are growing scarcer year by year and the small lots which are available are mostly American, being cut on the Aroonook river or some of its tributaries. Very little is shipped, as all that is obtained is required for local use and brings a higher price than could be obtained elsewhere.

**CANADIAN LUMBER SHIPMENTS.**
