FRENCH EVANGELIZATION.

MR. EDITOR -

In your last issue you published the decisions of the General Assembly regarding the work of French Evangelization. From these it will be seen that the funds for the Kunkikee Mission, and for French work in Canala, are united; that the Chatham Presby ery, and not Mr. Chiniquy personally, is to settle all legal questions a facting Church property at St. Anne, and that Canala is hereafter to enjoy the services of Mr. Chiniquy. The mission at Kankikee is not to be abandoned. It continues under the care of the Presbytery, and will receive such attention from Mr. Chiniquy as may be deemed necessary, while he is set free to labour chiefly thoughout

the Dominion. These arrangements, I feel sure, will meet with the cordial approval and support of our ministers and people. It has long been felt. by many that the Christian people of the United States are quite able to deal with the spiritual destitution of their own country, and that instead of contributing largely for this purpose, we are rather called to expend our means and efforts in seeking the enlightenment of the million Roman Catholics in Canada. But whatever may be thought of the financial aspects of the case, one thing is certain, that the services of Mr. Chiniquy are urgently required in our Dominion; and it is no exaggeration to say that he can here do a work which no other man can accomplish. Ordinary missionaries find it difficult to get a fair hearing from the French people. They are taught to close their doors against the messengers of Christ, and they refuse to come together in public assemblies for religious instruction. But Mr. Chiniquy is usually able to annihilate this difficulty. He possesses. somehow, a power over his countrymen which the priests can neither resist nor destroy. They will assemble in multitudes to hear his exposures of Romanism and faithful proclamation of the gospel. When a few years ago he visited Montreal thousands of Roman Catholics thronged to listen to his addresses. In view of this pecutiar power with which God has favoured him, it is manifestly his vocation to pass through the country, opening new fields which others may occupy ; and it must be truly gratifying to Mr. Chiniquy to see his own converts who have passed through our College hele, or are still pursuing their studies, ready to second his efforts and attend to the work of pastoral oversight and instruction. Two of these young men, Mcssrs. M. Paradis and T. Brouillette, have been licensed to preach the gospel, and are doing a noble work at important mission centres where both French and English are required. At Grand Falls, N.B., their labours were attended with such success that a Presbyterian congregation has been organized among the converts, and a church erected and paid for. Mr. Paradis is in charge of this church, and two rival fields of great promise are at this moment petitioning for the services of Mr. Broullette. I could speak in equally cheering terr. s of the success of the labours of other young men who are still students at our College, and I may, in future numbers of the Record, give definite information in this Let me add in the meantime that this is, without question, the respect. greatest Home Mission work our Church can undertake. Its magnitude and difficulty are such as to tax to the utmost all the resources and energies. which the Church can command. Let it therefore be clearly understood that we have but the ONE FUND FOR FRENCH WORK, and that we have, under the direction of the Assembly, a distinctive mission of our own to this people, by which we aim, not only at the conversion of Roman Catholics. but also seek to care for the souls of hundreds and thousands of Protestants who are scattered among the Romanists of the Dominion, and many of whom have lost their language and their religion through long continued It is truly sad to meet, in the neighbourhood of Cacouna, Riviereneglect. du-Loup, Murray Bay and other places on the Lower St. Lawrence, the descendants of Scottish Presbyterians speaking French, and knowing no religion but that of the Pope of Rome. God has surely placed us in this land to remedy this state of things. He has given us wealth, and men to preach the gospel amid the abounding superstitions of these provinces. Let us consecrate both to His service. Many who may read these lines could not speak the gospel to these people did they meet them face to face, be-cause they are ignorant of their language. But they have money at their command, in some cases so much as to be at a loss what to do with it. Let

200

them serve God with the gift they possess. Let them send others to teach and to preach. It is an easy service we ask them to render. It is infinitely easier to give away a little superfluous wealth, or to give even from a straitened income, than to toil and suffer, to be despised and abused while preaching the Saviour to these perishing souls. We have men ready to undergo all these hardships. Six young Frenchmen, in addition to those already under instruction, are now asking to be admitted to our classes to be trained as missionaries. Shall we receive them, or shall we, through luck of means, be obliged to reject them ? The matter is in the hands of our people.

Contributions for this whole work, including Mr. Chiniquy's, should be sent to the Rev. W. Reid, Toronto, or to Warden King, Esq., 645 Craig Street, Montreal. Of the collection throughout the Church on the fourth Sabbath of September, I shall have something more to say in the September *Record*. Yours truly,

D. H. MACVICAR,

Convener, Assembly's Com. on French Evangelization. PRESBYTERIAN COLLEGE, MONTREAL, July 16th, 1874.

Missionary Jutelligence.

MISSIONS OF FREE CHURCH OF SCOTLAND.

INDIA.—Missionaries in Bombay in their letters refer to conflicts which are taking place between the Parsees and the Mohammedans. The latter shun the mission schools and even the Government schools, and are becoming less and less tolerant of preaching and of tracts. In connection with this, it may be stated that at Constantinople there is an attempt to suppress the sale of the Bible.

In southern India Christianity has been during the last fifteen years steadily increasing. The whole population has been advancing. The Mohammelans have increased 33 per cent., the Hindoos 37, and the Christians 57, and this is inclusive of adherents not yet actually baptized.

MISSIONS OF UNITED PRESBYTERIAN CHURCH.

INDIA—RAJPOOTANA MISSION.—The following is a statement of the mission agencies connected with this mission :—Ordained European Missionaries, 11; European Medical Missionaries, 5; European Catechists, 2; European Female Teacher, 1; Native Evangelists or Colporteurs, 15; Native Male Teachers, 75; Native Female Teachers, 4; other agents, 2; Principal Stations, 6; Native Communicants, 122; Christian Community, 262; Inquirers, 57; Day Schools, 77; Pupils, 3058; average attendance, 2,461.

The population of the country is 400,000, surrounded by native Rajpoot States, with a population of 8,000,000, all existing in heathen darkness. The Rajpoots are a bold and energetic race, "the chivalry of Northern India." Eminent service was rendered by the missionaries during the famine, one consequence of which is that now the mission is regarded as a beneficent power. Five orphanages are sustained, in which there are in all about 400 orphans. There are also five medical missions, which have been greatly blessed in curing and alleviating disease, and in introducing the gospel into many quarters which it might not otherwise have reached.

JAPAN.—In Japan there are two ordained missionaries and one medical missionary. The locality of the mission is scarcely determined yet. The missionaries write quite hopefully of the prospects of the work.

SPANISH MISSION .- The following is the state of the Spanish Mission : Ordained Missionaries, 3; Native Evangelists or Students, 3; School-Masters and School-Mistresses, 9; Principal Stations, 3; Members, 72; Candidates, 3; Day Schools, 5; Pupils, 423. Various circumstances have retarded the progress of the work. The recent reverse to Carlism, it is supposed, will give wider scope for missionary agencies. Rev. Mr. Benoliel, at Cadiz, says :- " There has been no actual interference with places already opened for evangelical worship, but it is evident that there is a determination in high quarters to prevent the opening of new places. At Seville, after the inauguration service of a chapel lately purchased and altered, the mayor writes lorbi ding its opening, without assigning any other reason than that of his whim and pleasure. At San Fernando other tactics have been employed to accomplish the same purpose. The greatest misfortune to the cause of the extension of the gospel in this land is that its very friends and welt-wishers have been retuquishing field after field, thereby rendering it all the more easy to abolish religious liberty by a stroke of the Of course that is not their intention or desire-far from it; but it is pen. the practical result of giving up occupied ground. As far as my informati m goes, Malaga is given up, and Cordova. The sad and lamentable death of Senor Carrasco is a great loss to the cause of the gospel in Spain; and now I hear that the Rev. Mr. Moore, of the Irish Presbyterian Church, is about The jealousy of foreigners, so characteristic of Spaniards, to return home. has done much to retard the progress of the gospel, and to prevent cordial and harmonious co-operation throughout. These and similar causes are and harmonious co-operation throughout. contributing largely to discourage and dishearten the few earnest and devoted labourers that remain in Spain."

MISS.ONS OF IEISH PRESBYTERIAN CHURCH.

INDIA.—The following is a summary of the statistics of the India mispon: Principal stations, 5; branch stations, including Christian villages, 6; ordained European missionaries, 7, two of these being at home on sick leave; European lay teachers, 1; native catechists and colporteurs, 12; native Christian teachers, 25; other native teachers, 28; native communicants, 166; baptized but not communicants, 386; baptized during 1873, 154 (adults, 99, children, 55); total number baptized, 552; unbaptized adults, 188; total number in native church, 740; total number of scholars, 1,307; orphans, 81, in three orphanages. When compared with last year, these statistics show an increase of I catechist and 16 teachers. The proportion of Christian teachers is much greater, being 25 out of 53, instead of 10 out of 40. There are 28 more communicants, nearly five times as many baptisms, and an increase of 108 pupils in the schools.

MISSIONS OF ENGLISH PRESBYFERIAN OHUBOH.

JEWISH MISSION.—The Rev. Mr. Meyer, who labours in London among the Jews, tells of another convert, whose family belongs to the Portuguese community. He began to atten 1 the meetings last winter, and some time ago mought special instruction. He was also a diligent teacher of the Scrip-

His baptism took place on the 19th April, in the church of the Rev. tures. J. T. Davidson, Islington. Mr. Meyer says :-- "Mr. Davidson preached a most suitable and impressive sermon from Psalm lxxii., 19, 'Let the whole earth be filled with His glory,' by which the congregation were well prepared for the subsequent service. After the singing of a hymn, I addressed to the congregation some observations on Jeremiah xlvi., 27, 28, setting before them the claims of the Jews on our active sympathy and interest, and the prospects of Jewish missions; and after having given a short account of Mr. S--- and his conversion, put to him the usual questions. They were answered in so firm and unfaltering a voice as I have rarely heard-an evidence of the firmness of his conviction, and I then haptized him in the name of the Triune God, and blested him with the Auronitic benediction. From Psalm cxxvi. some suitable exhortations and consolations were addressed to the convert, and he himself and the cause of Israel were recommended to the warm sympathy of the congregation. With prayer by Mr. Davidson, the singing of hymn 182 ('Great God of Abram, hear our prayer'), and the benediction, the solemn service was brought to a The large congregation was most attentive and seemed deeply close. interested, as many, by shaking hands with the convert and addressing to him some kindly words, gave expression to their interest and sympathy, while the convert himself was full of joy, and could not find words to describe his happiness. He is still full of joy and love, and is walking worthy of the vocation wherewith he has been called.

If, however, I make our people partakers of my joy, in order that with me they may thank the Lord for His goodness, I may expect that they will sympathise and bear with me in my so rows and disappointments also. Three persons who had been instructed for a considerable time, and promised well—indeed, in the case of one of them the day of baptism had been fixed—there yielded to the adverse influences and temptations brought to bear which jetts. But although they no more walk with us, or rather with jetts. But although they no more walk with us, of or up rayers, nor hiddler from the eye of jetus, nor beyond the reach of our prayers, nor hiddler from the eye of jetus, nor beyond the reach of the influences of His Holy Spirit. Let us therefore not judge severely or uncharitably of them, but remembering that the obstacles in the way of inquiring Jews are enormous—much more so than Gentile Christians can be convinced of—let us pray for them all the more earnestly, that they may yet return; and be brought into the fold of Christ.

INDIA.— The mission in India is likely to take a fresh start on the return of Rev. Behari Lal Singh. He has been for about a year in England. Many friends specially interested in India are resolved to strengthen his hands and to enable him to employ colporteurs, assistants, &c., a.d there is the hope that a medical missionary may are long go out.

CHINA.—Dr. Gould writes from Swatow under date April 24, 1874 :--I have a full hospital, and have commenced to give my three assistants regular lessons in anatomy, practice of medic ne, and surgery, which they seem to enjoy. The anatomy instruction is confined to books, as we cannot get the human subject to demonstrate from as at home. I have been trying to teach the school girls singing, and they get on pretty well. I also superintend the building of the "College," so that I have little inclination left for friendly correspondence.

We are bereft of the help of our dear friends Mr. and Mrs. Mackenzie, who have gone to Amoy for rest, which they much needed. Another of our experienced assistants have fallen sick, so that we are very short-handed indeed. The work is the Lord's, however, and His are the arrangements. May He give us ever what is good, and glorify Himself in His own work.

I go to Kityang for Sabbath, to take the place of the sick helper, and Dr. Duffus will have his hands full here. I sometimes long to have the frame of a steam-engine, with bones and muscles of iron and brass, instead of this fruit tabernacle, so feeble amidst endless calls to labour, many of which have to be disregarded. You must send us help as soon as you can. I am sorry to hear that Mr. Smith's health is far from being re-established, but am hopeful of his entire restoration. It is a great pleasure to him to be at home at such blessed time, I am sure.

We have been privileged to see something of the Spirit's work among our countrymen here. The *Hornet*, a British gun-Loat, has been here for a few weeks. There are a few decided Christians on board, and many others who have lately formed a temperance society. We furnished them with a reading-room in my study, and some of them came ashore almost every night, and we regularly had worship with them. At our weekly prayermeetings there have been as many as twelve or fourteen of them. We had a delightful time of hymn-singing almost every evening, sometimes temperance songs, but more frequently such favourite hymns as—"Safe in the arms of Jesus," "Hold the fort," "Now I can read my title clear," "Just as I am," "Gates ajar."

General Beligious Intelligence.

THE REVIVAL IN SCOTLAND.—The revival in Scotland continues and extends. In the month of June, Messrs. Moody and Sankey visited Perth, Dundee, Aberdeen and other places. The same interest was manifested as in Edinburgh and Glasgow. In Dundee Mr. Moody spoke on one occasion to an assemblage of about 12,000 persons. In Aberdeen, on the Broad Hill, there were still larger congregations. The results of the meetings were as in other places—many were roused to earnest inquiry as to the way of salvation.

¹⁵²⁵ DEATH OF THE EARL OF DALHOUSIE. — The Earl of Dalhousie, for many years an office-bearer and tried friend of the Free Church of Scotland, has lately been removed by death. He had occupied a prominent place both in the political and ecclesiastical world. He was a warm friend of Dr. Guthrie and Dr. Candlish.

LORD RADSTOCK'S LABOURS IN RUSSIA.—Lord Radstock, an English nobleman, who some years ago visited Canada, has been holding for two or three months evangelistic meetings in St. Petersburg. Many have been awakened to a sense of their sin and need of salvation, and not a few have been brought to a saving knowledge of the truth. Among these are some high in office. It is noted that one effect has been to lead to increased attention to the Word of God.

SMEETING OF EVANGELICAL ALLIANCE IN MONTREAL.—The Canadian branch of the Evangelical Alliance will hold a stries of meetings in Montreal in the early part of October. Several distinguished visitors are expected from Britain and from the United States. Not a few leading men connected with the different Canadian Churches will take part in the proceedings. ROMISH PILGRIMAGES.—A number of American Romanists have recently visited Rome and given Pio Nono a tribute of their zeal and devotion. No less a sum than $\pounds 20,000$ has been presented to the Pope by these pilgrims.

BISHOP OF MADAGASCAR.—The new Bishop of Madagescar, Dr. Kestell-Cornish, has been consecrated, and taken his departure for his new sphere. It is apprehended that his situation will be attended with many difficulties, which probably may be less in consequence of the withdrawal of the Missionaries of the Church Missionary Society,

REV. PROF. PATTON.—We regret to understand that Rev. Prof. Patton of Chicago has been suffering from a severe illness, probably occasioned by the great labours which he has undergone during the past few months. Latest accounts state that he is recovering. In the stand which he has taken for the truth as set forth in the standards of the Presbyterian Church, Prof. Patton has the warm sympathy of sound Presbyterians in Canada.

SCOTTISH ANTI-PATRONAGE BILL.—Several ministers of the various Churches in Scotland have been giving expression to their views with reference to this Bill. Principal Tulloch thinks the Church of Scotland will on the whole be strengthened by the Bill, although he sees the possible elements of evil in it. Rev. G. McAulay of the Free Church looks forward to nothing as the result but disestablishment. Like a young lion, he says, it will not rest till it has obtained that of which it is in pursuit. Dr. Begg speaks in favourable terms of the Bill, and thinks that the great majority of the Free Church people will warmly welcome the measure.

SYNOD OF THE PRESBYTERIAN OHURCH OF THE LOWER PROVINCES.

The Synod of the Presbyterian Church of the Lower Provinces began its sittings on the last Tuesday of June, at Halifax, N. S. The Synod of the Church of the Maritime Provinces in connection with the Church of Scotland met at the same time and in the same city. We note a few items in connection with the proceedings of our sister Church.

The total receipts for missionary objects, &c., in connection with the Presbyterian Church of the Lower Provinces, was \$23,682, showing an increase of \$26 on the whole. We regret to note a decrease in the Foreigr. Mission receipts of \$2323. On the other hand, there is an increase in the receipts for the Educational Fund of \$1399.

There are on the list of the Synod 139 congregations, all of which, with the exception of 8, have sent in annual reports. There are probably double the mumber of stations. There are 74,461 adher-ents; 13,870 families; 18,082 communicants; 249 churches; stipend promised, \$70,301; stipend paid, \$68,400. Stipends range from below \$400 in the country to \$2,600 (the highest stipend given) in the city. The total amount raised in 1873 was \$168,818. Public education took up a considerable share of the attention of the Synod, and resolutions were adopted strongly in favour of free non-sectarian schools, calling upon the people to guard the interests of their educational system, protesting against all attempts to deprive the Local Parliaments of their constitutional rights, in forcing upon the Lower Provinces a system of education repugnant to a vast majority of the people, and recording emphatic disapproval of the past and present administration of the school law in Nova Scotia. Strong resolutions were passed with reference to the Antigonish riots of last summer, and complaining that there had been a failure of justice in the

matter. The report of the Foreign Mission Committee gave much interesting information as to the progress of the cause in the New Hebrides, and also in Triniclad. In regard to the latter, the report state 1 that during the past six years £3000 sterling had been expended on the Mission, a sum not sufficient to buy an estate, built one mile of railway, or purchase one locomotive, nor pay for one ship. But for the amount expended they had 12 schools, with 408 scho'ars receiving a Christian education, nine native teachers, a church formed with 23 members who were but recent y in a state of heathenism, besides many other results. The Basis of Union with the Canadian Presbyterian Churches and the Church of Scotland in the Lower Provinces was unanimously agreed to. A special meeting of Synod was appointed to be held in October. The Synod in connection with the Church of Scotland has come to the same conclusion.

Kay, who has been ordained for Sault Ste. Marie, and Rev. D. J. Caswell, who has been ordained for Silver Islet, have reached then fields of labour.

ELORA KNOX CHURCH.—The handsome and commodious CBurch erected for the congregation of Knox Church, Elora, under the pastoral care of Rev. A. D. McDonald, was opened for public worship on the 26th ult. The services were conducted by the Rev. J. G. Robb, B.A., of Cooke's Church, Toronto, and Dr. J. B. Fraser, missionary to Formosa. The services were highly impressive, and the congregations large.

STANLEY STREET CHURCH, MONTREAL.—The Stanley Street congregation, Montreal, was recently organized by the Presbytery of Montreal, and has, we are happy to understand, very favourable prospects of success.

FARNHAM CENTRE.—Since the settlement of the present paster, Rev. J. McFarlane, a neat and substantial brick church has been erected. Means were lately taken to raise money to liquidate the balance of debt by a soiree and bazaar. The effort was quite successful, as a sufficient amount was raised to meet all demands. We are glad to hear of the success of the church in Farnham and the country around.

SASKATCHEWAN MISSION.—Letters have been recently received from Rev. J. Nisbet, Mr. Vincent having resigned his connection with the mission there, Mr. Nisbet looks for additional labourers. Mr. Flett is labouring with encouraging prospects of success at Fort Pelly.

HAMILTON-NEW CHURCH OFENED.-The new place of worship erected in the east section of the city of Hamilton has been completed

206

and opened for public worship. On the occasion of the opening of the church the services were conducted by the Revs. J. G. Robb, B.A., of Toronto, D. H. Fletcher of McNab Street Church, and A. B. Simpson, of Louisville, Ky., formerly of Knox Church, Hamilton. The prospects of the new congregation are very promising.

STATED COLLECTIONS-1874-1875.

1.-Aged and Infirm Ministers' Fund-1st Sabbath in August.

2-French Evangelization Fund-4th Sabbath in September.

3.-Assembly Fund-not later than 31st October.

4.-Colleges Fund-1st Sabbath in December.

5.-Home Mission Fund-4th Sabbath in January.

6-Foreign Mission Fund-3rd Sabbath in March.

It will be seen from the above that the first collection for the financial year will be on the 1st Sabbath of August in behalf of the Fund for Aged and Infirm Ministers. Formerly the collection was divided equally between the Widows's Fund and the Fund for Aged and Infirm Ministers. For the present year the collection will be devoted entirely to the latter fund. This change has been made with a view to meet the increasing demands on the fund, and to enable the Church to give if possible a larger allowance than the small sum hitherto given Every year it may be expected that the number of claims on the Fund for Aged and Infirm Ministers will be increased; and it is of the utmost importance that the committee may be in a position to meet the cases brought before them. The call for a collection, it is hoped, will be promptly and liberally responded to, and the amount remitted to the Treasurer as soon as possible.

Proceedings of Presbyterics.

PRESEVTERY OF MONTREAL .- This Presbytery held a quarterly meeting at Montreal, in the Presbyterian College there, on the 8th and 9th days of July, 1874. The Rev. James S. Black, lately a minister of a Congregational Church in the United States, was received as a minister of the Canada Presbyterian Church; and Mr. Gavin Sinclair, a licentiate of the Free Church of Scotland, was received as a probationer of the Canada Presbyterian Church. The Presbytery received the resignation of his charge of Chalmers' Church, Montreal, by the Rev. John Jones, and testified to the zeal, fidelity and success with which he had cultivated a difficult though very hopeful field of !..bour. The Rev. Kenneth Macdonald was authorized to moderate in a call at Indian Lands. A call from Erskine Church, Montreal, signed by 280 members and 57 adherents, accompanied with a promise of \$3,000 for salary, and addressed to the Rev. James S. Black, was sustained, and ordered to be presented. The quarterly Home Mission Report was read and disposed of; and the Home Mission Committee was instructed to prepare a revised list of grants to supplemented congregations and mission stations, and forward the same in due time to the general Home Mission Committee. The forward the same in due time to the general Home Mission Committee. Home Mission Committee was also instructed to prescribe to students of theology within the bounds, subjects of written exercise to be delivered at the next ordinary meeting of Presbytery. Mr. John Scringer having submitted for Presbyterial sanction a constitution prepared by the congregation of the Presbyterian Church, Stanley Street, Montreal, the Presbytery sanctioned it as the constitution of said Church. The Presbytery having resolved to take up at next ordinary meeting of court the General Assembly's Remit on Union, ordered that sessions and congregations be instructed by circular to s and in their returns to said remit on or before the first Wednesday of October next. Mr. James Cameion, A.M., and Mr. Telesphore Brouillette, having delivered their public probationary trials, JAMES WATSON, Pres. Clerk. were heensed to preach the Gospel,

PRESENTERY OF KINGSTON.—This Presbytery met on the 23rd day of June last, and inducted the Rev. David Beattie into the pastoral charge of the congregation of St. Columie and St. Paul, Madoc. The quarterly meeting of this Presbytery was held at Picton, on the 14th and 15th days of July.

The list of weak congregations and mission stations was revised. The former grants were recommended to be continued except in the cases of Trenton, St. Columbia and Glenvale. An effort is to be made to render Trenton congregation self-supporting; a supplement of \$150 is to be sought for St. Columba, and the grant to Glenvale was reduced to \$100.

Quarterly reports are hereafter to be required from missionaries labouring within the bounds.

The following were appointed to dispense the sacrament of the Lord's Supper at the places mentioned, namely, —Mr. Coulthard at Lansdowne, Mr. McMechan at Consecon, Mr. Chambers at Wilton; and Messrs. Wishart, Beattie and Burton at North Hastings.

Union on the new basis, and the resolution of the General Assembly anent the new constitution of the Supreme Court for the purpose of effecting the consummation of the union, were approved of After an examination on the several subjects prescribed, Mr. R. W. Leitch was licensed to preach the gospel.

In compliance with the applications from the congregations of Camden and Sheffield, Mr. Gallaher was appointed to moderate in a call in the 5th concession church, Camden, on the 29th of July, at 2 p.m.

The Presbytery adjourned, to meet at Amherst Island on Wednesday the 12th day of August, at seven in the evening, for the purpose of holding a Presbyterial visitation. THOMAS S CHAMBERS, Pres. Clerk.

PRESENTERY OF COBOURG .- This Presbytery met at Cobourg on the 7th of July. Mr. Lochead was appointed Moderator for the ensuing twelve months. The congregation of Port Hope requested to be allowed to dispose of the manse, which is found to be too small. The request was granted, with the understanding that the money obtained by the sale of the property be not diverted to any other purpose than the purchase or crection of another manse. The clerk reported that he had moderated in a call at Perrytown and Oakhill. The call was unanimously in favour of the Rev. W. Hodnett, and was found to be signed by 56 communicants and 36 adherents. Commissioners from the congregations appeared, and stated that they would raise \$400 by way of salary, together with a manse. The call was sustained, and it was agreed to hold a special meeting of Presbytery at Port Hope, on the second Tuesday in August, at three o'clock in the afternoon, to dispose of the same. The clerk was instructed to renew the application to the H. M. Committee for a grant to Perrytown and Oakhill of \$150 per annum. Mr. McKay was appointed to give two Sabbaths' supply to the mission stations of Chandos and Burleigh, and to dispense the Sacrament of the Lord's Supper at those places, arranging, if possible, to be in the field on the first Sabbath of September. W. DONALD, Pres. Clerk.

PRESEVTERY OF ONTARIO.—This Presbytery met at Prince Albert on 7th of July. Calls from Ashburn and Stern, and from Utica and Greenbank a favour of Mr. John McClung, probationer, were before the Court. Both were sustained as regular gospel calls duly proceeded in. In both cases the congregations were entirely unanimous; and commissioners from each stated that a speedy settlement was most important for their interest. Mr. Edmondson was appointed to supply at Utica one Sabbath, and endeavour to encourage the people to their duty. The clerk communicated the substance of a note from Mr McClung to the effect that having been made aware of the action of the above congregations, and desiring to expedite matters and free from anxiety, he has resolved, in the event of the call from Wick and Greenbank being sustained by the Presbytery, to accept it, declining that from Ashburn and Utica. The Presbytery therefore declared said call set aside, and appointed the ordination of Mr. McClung at Wick on Tuesday, 4th August.

Mr. J. Campbell delivered with acceptance his trial discourses, and having been examined in the several subjects appointed in such case, was duly licensed to preach the gospel.

A special meeting was appointed to be held at Woodville to receive a call from Cannington and Manilla, and deal as may seem requisite with a view to settlement.

The next meeting of Presbytery was appointed to be held at Port Perry, on Tuesday, 8th September, at 11 o'clock a.m., and congregations and sessions were instructed to have forward by that time their returns to the General Assembly's remit regarding union. R. H. THORNTON, Pres. Clerk.

Mr. Benson will be settled in October next. Mr. Porteous also reported a call from the Kilbride congregation to Rev. Isaac Campbell. lately of Knox Coll-ge, Toronto. REPORT OF THE COMMITTEE ON STATISTICS.

To the General Assembly of the Canada Presbytzrian Church :

In presenting their Report to your Venerable Assembly, your Committee feel themselves called on, in the first place, to express their sense of the loss sustained through the translation of Dr. Waters, who has been for so many years Convener, and upon whom has devolved the preparation of the Annual Report for a long period, from his pastoral charge in this Province to the city of St. John, New Brunswick. Dr. Waters was one specially qualified for such work, and the acquaintance which he had acquired with the state and working of the Church, as brought under his attention f om year to year of his convenership, by the returns of Congregational statistics and Financial Statements, gave hi a facility in dealing with the subject, rendering the service lighter to him than it can possibly be to one attempting it for the first time. The Committee feel it due to him and to themselves thus to put in the very commencement of their present Report this acknowledgment of Dr. Waters' worth and ability.

Owing to other circumstances, to which it is unnecessary to allude except in the most general manner, the person by whom this Report has been prepared has not been able to present it in a form satisfactory to himself, nor, it is feared, doing full justice to the Church. A carefully prepared Report from full and accurate Returns is necessary to a full and proper understanding of the progress, position and influence of the Canada Presbyterian Church. Your Committee would have been highly gratified had they been able to bay such upon your table; but having failed in this, they must express the hope that soon, even next year, there may be furnished, what has never yet been supplied, complete returns, consistent in all their parts, from every Congregation, whether with or without a settled pastor, and Mission Station of the Canada Presbyterian Church.

While deeming i, their duty to make this remark, and to hold out such an object as not only desirable but attainable, they would speak with pleasure of the neat and finished state of some of the returns they have received, owing, beyond all question, in a considerable degree to the pains taken by the Clerks of Presbyteries from which they have come, and of the promptitude with which they have been forwarded, so as to be in hands close upon the time assigned in the blank forms furnished.

STATISTICS.

According to the Reports received, the number of Ministers on the rolls of Presbyteries is 329. Last year the number returned was 315, thus showing an increase of 14, and an increase of 22 over the year immediately preceding that. Evidence is thus presented that the Lord of the harvest is answering the prayer of his disciples to send forth labourers into His harvest. Some of these, more than in some former years, have come from the Church in Britain, others have been trained in the halls of our own institutions. May they all prove workmen not meeding to be ashamed, rightly dividing the word of truth.

The number of REGULAR CHARGES is reported to be 645, an increase of 12 over the number reported last year; and in connection with these there are 48 Stations (2 fewer than last year) receiving supply of the gospel, but not forming part of the regular pastorate. In the Report of your Committee for 1871-72 there was an increase of these stations amounting to 12 over that of the prior year. In the Report for 1872-73 there was a decrease of 20. This year shows a further slight falling off. The VACANCIES are returned as 78, and the MISSION STATIONS at 37, an increase of 14 over the one immediately preceding, and that year showed an increase of 14 over the one immediately preceding, and that again of 5 over 1870-71. It will thus be seen that there is still a wide door and effectual set open to the Church by her King and Head, while the Mission Stations may soon, through the blessing from on high, rank among vacancies calling for pastors to take the oversight of them in the Lord. The number of FAMILIES connected with the Church is returned as 27,918, only 571 more than last year, not taking into account the allowance made for nonreporting settled congregations; but that the increase has been considerably greater we may warrantably conclude from the fact that some of the congregations which gave the number of families belonging to them last year have not given them this year. Proceeding on the assumption that each family contains on an average five persons—the assumption adopted in some of the previous Reports of your Committee—it may be affirmed that upwards of 140,000 persons, young and old, are under the pastoral oversight of a stated ministry, or enjoy such occasional means of grace as Presbyteries are able to afford.

SINGLE PERCONS not connected with congregations number 4,175. It might be expected that these would be found in the Reports of Congregations in the larger towns and cities, and reference to the Statistical Tables will show that this is the case.

Your Committee has still reason—and for this they would express their thankfulness to the Redeemer of His people—to congratulate the Assembly on the increase of COMMUNICANTS, the number this year being given at 49,815, apparently less, it is true, than the numbers reported for either of the previous years, but actually greater when account is made of the congregations from which reports have not been received at all, or which have not made any entry in the column designed for such information. In confirmation that there is an increase, a reference to the Tables shows that 5,847 have been added to the Church in the course of the year; of these, 2,924 on their own profession of their faith in Christ, and the diminution has been 3,533, thus leaving a gain of 2,314, or 141 more than last year.

Of the BAPTISMS, amounting to 4,703, those of adults were 123, and of children 4,530, being 122 fewer than those reported last year.

Of the numbers in Religious Classes, 34,267 are in SABBATH SCHOOLS, and 9,269 in BIBLE CLASSES.

ELDERS are reported at 1,087; OTHER OFFICE-BEARERS at 3,091; and SAB-BATH SCHOOL TEACHERS at 4,094, giving an average of between eight and nine scholars to each teacher.

The aggregate VOLUMES IN LIBUARIES amount to 98,189, and of these 86,658 belong to Sabbath Schools.

SITTINGS IN CHURCH add up to 141,190, an increase over those of last year.

MISSIONARY ASSOCIATIONS reported 163, or one less than for the previous year.

Forty Churches and twenty Manses have been built or repaired during the year.

FINANCIAL STATEMENT.

Taking next the "Financial Statements" forwarded by Presbyteries, and collecting the aggregates, we have the following results:

The STIPEND PROMISED was \$229,855, and the amount actually paid was \$232,554.75, an increase of \$2,679.75, and an increase over the amount paid last year of \$11,293.01. This gives each Ministers an average of \$700 on the whole sum paid, but last year the average was \$702. It is pleasing to observe that, on the whole, the Church is improving in the matter of ministerial support, although there is great room yet for advancement in that direction. A glance at the Returns from Congregations will show that in some instances a most inadequate remuneration is paid; and your Conmittee cannot but think that if Presbyteries would deal with these as they should, they would be awakened to a sense of their duty, and communicate in all good things as the Lord has prospered them for the support of those by whom they are taught in the Word.

It is painful to have to state that there is an increase of ARREARS OF STIPEND over the amount reported last year, the entire sum being \$4,301.66. It is bad to have such an entry at all, it is worse to hear of its increase. And it is to be feared that the facts are worse than figures for the Committee have simply collected the arccars reported without correcting discrepancies between the columns in congregational returns headed "Stipend Promised" and "Stipend Paid." In the case of some these arcears must be of more than one year's standing, as the report of stipend paid for 1873-74 is in excess of stipend promised. The only Presbyteries in which there are no arrears are Kingston, Hamilton, Paris, Chatham and Huron --five out of nineteen.

Passing to the amount raised for building CHURCHES AND MANSES, we find 'the large sum of \$155,876.97, somewhat less than the amount raised for the same purpose last year, but still proving that the people are exerting themselves to provide comfortable edifices in which to worship the God of their fathers, or for those who minister to them in word and ordinance.

Other expenditure for strictly congregational purposes has been \$\$9,540.27, and the total contributed for Stipend, Church and Manse building and the purpose just mentioned, was \$477,981.99, or an increase over the sum raised for the same objects last year of \$14,591.66. Taking the clear gain in the membership of the Church to be 2,314, this would give an average of about \$6 to each.

The total amount contributed for the SCHEMES OF THE CHURCH has been $$55, 155, 29\frac{1}{2}$, a considerable failing off from last year. This stun is made up as follows:—For the COLLEGE FUND, \$11, 972.17; for the HOME MISSION FUND, \$17, 484.25; for the FOREIGN MUSION FUND, $$3, 711.69\frac{1}{2}$; for the WIDOWS AND ORPHANS', AGED AND INFIRM MIN.STERS' FUND, \$3, 836.37; for the ASSEMBLY FUND, $$2, 966.80\frac{1}{2}$; for FRENCH EVANGELIZATION, \$4, 073.05; for the KANKAKEE MISSION, \$2, 149.98. The contributions from Sabbath Schools for Missionary purposes were \$4, 428.69. On the following Schemes the returns show an increase to a smaller or larger amount over the contributions reported last year: Foreign Missions, Widows and Orphans', &c., Assembly Fund, Subbath School; on all the others there is a decrease.

A column had been added to the blank forms prepared for the purpose of ascertaining the amount raised for COLLEGE BULLINGS, and the returns give \$28,645.49. If we suppose that the sum raised in the Synod of Montreal went towards the building of the Presbyterian College in the city of Montreal, and which amounts to \$13,127.61, there would remain for Knox College \$15,617.88. But there is evidently some mistake in the division thus made, or in the reports given in, or it may be in both, as the statement of the Treasurer of the Church, in the May number of the *Home and Foreign Record*, gives the amount received for the new College building in Toronto as \$24,569.15.

Under the heading "Benevolent objects not otherwise specified," \$24,448.20 have been reported.

Total contributions for all purposes amount to \$585,899.91, or an increase over the sum reported last year of \$34,998.19.

One hundred and ninety-six congregations, or twenty more than last year, report Mauses for their Ministers, and three rented houses.

The average contributions for Missions by Sabbath Schools, reckoned on the basis of attendance, and including those in Bible Classes, is \$0.10.

Tables have been prepared from the congregational returns giving a summary according to Presbyterics and Synods of the Statistical Reports and Financial Statements.

To the Table of Averages columns have been added showing the smount contributed per family as well as per communicant, for each purpose. It was thought only proper to do so, because in some Presbyteries the number of families is large in proportion to the number of communicants as compared with others, and it is by rate per family that some Presbyteries, if not all, raise their funds for local purposes, and that the General Assembly assesses for the expenses of its meetings.

A perusal of this Table is suggestive of some gratifying reflections, and of others of an opposite character. The Presbytery standing highest in average contribution per family for stipend prid is that of Hamilton, \$13.15; the next that of Ontario, \$10.45; the third, Paris, \$9.95; and the fourth, Chatham, \$9.78; while the four lowest are Manitoba, Stratford, Dusham and Bruce. The four Presbyteries raising most liberally per communicant for stipend are Chatham, \$6.45; Kingston, \$6.03; Cobourg, \$5.71; and Toronto, \$5.30; and the four lowest are Stratford, Guelph, Huron and Durham. For Schemes of the Church, Hamilton, Montreal, Toronto and Ontario contribute most largely per family, and Bruce, Durham, Owen Sound and Manitoba give least, while Montreal, To-ronto. Ontario and Kingston give most liberally per communicant, and Guelph, Durham, Manitoba and Owen Sound least so. For all purposes the Presbyteries of Hamilton, Ottawa, Toronto and Montreal stand highest, and those of Stratford, Huron, Owen Sound and Durham lowest per family, and Ottawa, Bruce, Toronto and Manitoba highest, and Guelph, Owen Sound, Huron and Durham lowest per communicant. It will be seen that for the purposes mentioned Hamilton stands first in average contribution per family, as it does also for congregational purposes. It must be acknowledged too that the distant Presbytery of Manitoba, that is strictly speaking Missionary, is exerting itself nobly, and affording promise of greater things at no remote date. Looking at all circumstances, may it not be said that while some have done well-and the remark must be put in this modified form, for, looking at the figures in that Table, it cannot be affirmed that αl have done well—it has excelled them all. Certainly Manitoba may put to the blush more than one of the Presbyteries of the Province of Ontario.

A survey of the whole field presented in this Report calls upon us to thank God, and entitles us to take courage. God has done great things for us, whereof we are glad. May He continue to grant peace within the walls and prosperity within the palaces of our beloved Zion.

RECOMMENDATIONS.

I. That Presbyteries be enjoined to procure from congregations, and forward to the Convener of the Committee on Statistics, their annual returns at the dates specified in the blanks furnished.

II. That vacant congregations and Mission Stations he required to forward full and accurate reports, as well as those having settled Pastors, and that Presbyteries see to it that these he set in. III. That Presbyteries be enjoined to take the earliest opportunity of dealing with those congregations that are in arrears for stipend.

ROBERT TORRANCE, Convener.

GUELPH, 25th May, 1874.

P.S.—Taking account of returns which were too late of being received to be entered in their proper places, we find that the number of regular charges is 650; of families, 28,260; of communicants, 50,702; of S. S. pupil, 35,020; of vols. on libraries, 103,707; of sittings in Churches, 143,575, and of missionary associations 165.

Stepend paid amounted to \$237,901.25. Total contributions, for strictly congregational purposes, \$103,247 82; for schemes of the Church, \$55,994.124, and for all purposes, \$619,359.30; an increase over the amount reported last year of \$68,457.58. R. T.

REPORT ON THE STATE OF RELIGION.

In earnest desire for the advancement of Christ's cause, Paul said to Barnabas, "Let us visit our brethren in every city where we have preached the Word of the Lord, and see how they do." Similar to the interest which Paul expressed in the spiritual welfare of those among whom he and Barnabas had preached the Word and instituted the ordinances of Christ's appointment, is that of the Assembly in the spiritual welfare of all the congregations under their care. What cannot be accomplished, nor attempted, in the way of visitation by superintendents or by deputies, is sought to be effected by the instrumentality that may readily be employed in all the congregatious. It is the desire of the Assembly to "see how they do;" and for this end questions, framed in no inquisitorial spirit, but prompted by carnest solicitude about the welfare of those of whom they have the oversight, are addressed to all the sessions within the limits of the Assembly's operations.

To these question's answers have been returned by 164 sessions. This, it is believed, is the largest number of returns sent in infany year in reply to similar inquiries. But, with anything like the ea nest attention which the importance of the subject demands, this number might have been doubled. The returns were furnished by the sessions to the derks of their respective Presbyteries. Reports based upon these were prepared by the great majority of the Presbytery clerks for their several Synods; and reports, more or less complete, have been forwarded to your committee by each synod, either through its clerk, or the convener of its Committee on the State of Religion. From this it is obvious that to the state of religion much attention has been given by the Presbyteries and Synods of the Church.

Your Committee would now present a synopsis of the Synodical Reports, supplementing these, in some instances, by information or by suggestions from the reports of Presbyteries, many of which have been forwarded along with the Synodical Reports. The attention of the Assembly is solicited to this fact, with which your committee have been much impressed in studying the reports and tabular statements which it was their duty to analyze; namely, that those Presbyteries which, during the previous years that have passed since the Assembly was constituted, have been giving much attention to this subject, seem now to be giving still more, while those which, during the period referred to, have given little attention to it, seem now to be giving less. From the Presbytery of Huron and that of Simcoe, the returns are singularly complete. From the former of these Presbyteries, 18 returns have been sent in, equivalent to one from each of its pastoral charges; and from the latter 19 returns, equivalent to one from each of its pastoral charges, and, in addition to these, from a number of its mission On the other hand, the Presbytery of London, with 30 congregations, stations. . which, according to the tabulated statement of 1872, sent in 5 returns, this year sends in 4.

SYNOD OF MONTREAL.

The report from the Synod of Montreal is complete and explicit. From it we learn that in the Presbytery of Montreal much attention has been given to the state of religion during the past year. "A committee was appointed, and certain recommendations presented by it were adopted by the Presbytery, urging congregations to send in reports; enjoining ministers to call the attention of their people especially to the duties of family worship and the observance of the Sabbath; calling for special efforts to check intemperance and to elevate public sentiment on this question; and recommending a communicants' class in each congregation, if practicable. Fifteen congregations returned answers to the ques-tions of the Assembly's Committee." In the Presbytery of Ottawa, "a measure of progress in things spiritual appears to have been enjoyed ; and in more than one congregation the past year will be memorable for the marked advancement in grace." Fourteen congregations send in returns, against twelve last year. From the Presbytery of Brockville two congregations have sent in returns. Up to the meeting of Synod, no conference had been held in this Presbytery on the state of religion; but your committee are happy to learn from an authentic source that, since the Synod, a very interesting conference has been held. Three congregations in the Presbytery of Kingston send returns. At a recent meeting, "a solemn and impressive conference was held, after which it was decided to make a similar conference part of the business at each meeting of the court."

In the Synod of Montreal, there has been much earnest labour in connection with evangelistic services. "These services, we have reason to believe, have been productive of much spiritual benefit to the people as well as to the ministers engaged. The reports which come from the deputations conducting these services give decided encouragement for the furth *x* prosecution of this god work"

SYNOD OF TORONTO.

From this Synod comes a full and carefully prepared report, containing statements and suggestions which, before concluding, your committees will take leave to present to the Assembly. In the Synod of Toronto, the Presbytery of Toronto sends in 10 returns from sessions, Owen Sound 5, Simble 19, Ontario 10, and Cobourg 8. "All the reports concur in setting forth an increase of membership, greater interest in Church work, and a better attendance on ordinances, growing liberality, decrease in Subbath profanation and intemperance." Meetings of special interest are referred to as having been held in Peterborough, Cobourg, Millbrook, Port Hope, Baltimore and Cold Springs.

SYNOD OF HAMILTON.

Owing to the absence of the convener of the Synol's committee, the tabulating of the returns and the collation of the facts presented had to be entrusted to another brother, who cheerfully and efficiently discharged the duty thus unexpectedly devolved upon him. In the Presbytery of Hamilton, returns come from 8 sessions; Paris, 12; Guelph, 14; Darhum, 4; Boner, 4. "There is a spirit of waiting desire for times of refreshing from the Lord's presence breathed in some of the returns, while others 'lament coldness and absence of spiritual life and power. Let our acknowledgments be made to the Lord that His presence is felt among us, by His work making silent but stealy onward progress."

SYNOD OF LONDON.

The Presbytery of Huron sends returns from 18 sessions, with a remarkably full and instructive report. It is surprising that the Presbyteries of London and Chatham should present returns from only 4 and 3 sessions respectively, since in these Presbyteries the subject has obviously not been overlooked, and reports are furnished by them both, as well as by the Synol with which they are connected. In the Presbytery of Stratford returns have been received from 9 sessions. In the report of that Presbytery reference is made to "an interesting and an important work of grace in the congregation of Mitchell," of "the origin, nature, extent, and results of which, however, no definite information his been received." Your committee would respectfully suggest that, in the conference on the state of religion, ample time should be given for verbal reports from those who are able to speak of the movement in Mitchell, Fullerton, and in other places in which "times of refreshing" have been enjoyed.

From a conjunct view of the reports just referred to, your committee gather these facts : That, in the congregations from which returns have been received, there has been in most cases a considerable increase in the membership; that family worship is generally observed by heads of families that are members of the Church: that in almost every congregation there is a congregational prayer meeting, and that in some there are district meetings for prayer, conducted by Elders or other members of the Church, in which considerable interest has been manifested; that the congregations, with few exceptions, have a Sabbath school or schools, in which many of the Elders as well as other members of the Chursh engage in the instruction of the young, and that the schools are, in some degree, although not so fully as they should be, sustained by the sympathy and aid of the congregations; that in the congregations there is a growing liberality in the support of Gospel ordinances among themselves, and that in many cases a more liberal support is given to the schemes of the Church; that the Sabbath is on the whole well observed, although complaints come from various quarters of temptations to disregard the holy day which are too readily yielded to; that intemperance is on the decrease, but that, in many communities, the drinking usages of the day are still exerting a most baneful influence; that in ma y congregations there is a growing interest in the cause of Christ, as well as a more regular attendance on public ordinances; and that, among young men and young women, there is a greater readiness to improve the opportunities afforded them for Bible-class inst uction, while a goodly number of them have joined themselves to the Lord in a perpetual covenant that shall not be forgotten.

Your Committee rejoice in referring to these tokens for good; but they cannot conceal from the Assembly that those sending in returns lament, in some cases, the discertation of the Subbath, the prevalence of intemperance, and the neglect of family worship.

In reply to the question addressed to sessions, whether any particular hindrances to the advancement of Christ's cause could be specified, the answers have been, for the most part, to the effect that no hindrances could be specified as peculiar to their own neighbourhood—hone but such as are obvious to all, and lamented by Christ's people in all parts of the land. This, from the Report of the Paris Presbytery, expresses a conviction which seems to be strong in the minds of all who are longing for days of revival: "The one great hindrance to the approad of Christ's Kingdom appears to be prevailing worldliness, manifesting itself either in an inordlinate desire to acquire earthly riches, or in a disposition to seek the highest happin as in the pleasures and guieties which the present world offers."

A very noticeable feature in the reports of Synods and Presbyteries is the expression of deep interest in Evangelistic services—continuous meetings held in congregations on successive days or evenings under the superintendence of the partor, aided by Elders or such other Ch. stan triends as he may invire. Such meetings have frequently beer, held with the happiest results; and the blessings which has rested upon them leads us to doubt whether the general abandonment of many of the time-honoured days of preaching in connection with sacramental occasions has been a wise thing.

In the carefully prepared report of the Toronto Synod, we find suzgestions to the effect that confirmences on the state of religion should be held in all the inferior Church Courts, beginning with the Session and ending with the Synod, and that all interested be invited to take pat in them; that a special sederunt of the General Assembly be set apart for a unsidering the state of religion, and vie ving it in all its important especia; that the holding of Evangelistic Services should be encouraged; that special efforts should be made to render the ordinary weekly prayer-meetings more attractive and profitable; and that the auswers to the questions on the state of religion should be read from the pulpit, and a sermon bearing on vital religion preached at the same time.

The Presbytery of Huron is "of opinion that interesting information might be elicited by the question, 'Is the work of prayer obs-ryred ?' and that a question of the following kind might be useful, not only as a means of drawing forth information, but also as a means of suggesting a profitable exercise :—' Are any special means adopted for making the congregations more intimately acquaint

232

ed with the Home and Foreign Missionary operations of our Church, or with missionary operations in general?"

Your committee are of opinion that all the above suggestions of the Toronto Synod are well worthy of the earnest attention of the Assembly. With respect to those of the Huron Presbytery, they would hesitate to recommend that a specific question should be addressed to congregations respecting the observance of the week of prayer, but they believe that much interesting information respecting the observance of the "week of prayer" might well be given in reply to a general question about circumst mees or events favourably affecting the advancement of Christ's cause in the various congregations of the Church. As to "special means adopted for making the congregations more intimately acquainted with Home and Foreign Missionary operations," your committee are of opinion that the suggestion of the Presbytery of Huron as to a question in reference to these may with ...uch advantage be acted on.

Your committee do not offer any special recommendation in regard to Evangelistic Services, inasmuch as that subject is to be brought in another form under the consideration of the Assembly.

Your committee would recommend that Ministers should be enjoined by the Assembly to give special prominence in their preaching of the Gospel to the all-sufficiency of Christ's work for the redemption of His people. To many questionable theories and speculations of many kinds the attention of men is now being called even from the pulpits of the Christian Church. But let our Ministers be more than ever determined not to know anything among those to whom they minister save Jesus Christ and Him crucified. There is only one Saviour : there is only one way of subvation ; there is no subvation in any other ; "neither is there any other name under heaven given among men whereby we must be saved." They would recommend, moreover, that our people should ever be reminded by their ministers of the neces ity of humble and habitual dependence on the gracious influences of the Holy Spirit And besides being reminded of this, our people should be reminded of the large encouragement which is being given in those very days to wait upon God in earnest and importunate prayer for times of refreshing from His presence. "Awake, O north wind. and come thou south, and blow upon my garden, that the spices thereof may flow out."

All of which is respectfully submitted. THOS. WARDROPE Convener.

THE MYSTERIES OF CHRISTIANITY: BEING THE BAIRD LECTURE FOR 1874. BY T. J. CRAWFORD, D.D., F.R.S.E., &c., &c. Edinburgh and London: W. Blackwood & Sons. Toronto: Willing & Williamson.

We have in this volume the second series of Baird Lectures, the first having been delivered by Rev. Dr. Jamieson on the Inspiration of the Holy Scriptures. Dr. Crawford's object is to consider "whether the mysteriousness of certain doctrines can of itself be a sufficient reason for excluding them from the articles of the Christian faith, or for discrediting the Christian system on account of them as unworthy of the divine origin and authority which it claims to possess." In the discussion of the subject he considers the various respects in which doctrines may be to us mysterious, showing that on various grounds it is reasonable to expect that truths about God may be beyond our comprehension. He then proceeds to apply the results of the general inquiry to some of the more important mysteries of Christianity, such as the doctrines of the Trinity, the Incarnation, the Atonement, Regeneration, and Predestination. Dr. Crawford discusses the various points which he takes up with great ability and clearness. His statements on the subject of predestination are good, and well calculated to remove the difficulties which some may feel in regard to the doctrine. On the whole, the volume may be regarded as a valuable addition to our theological literature.
