Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below.

L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de numérisation sont indiqués ci-dessous.

	Coloured covers / Couverture de couleur		Coloured pages / Pages de couleur
	Covers damaged / Couverture endommagée		Pages damaged / Pages endommagées
	Covers restored and/or laminated / Couverture restaurée et/ou pelliculée		Pages restored and/or laminated / Pages restaurées et/ou pelliculées
	Cover title missing / Le titre de couverture manque		Pages discoloured, stained or foxed/ Pages décolorées, tachetées ou piquées
	Coloured maps /		Pages detached / Pages détachées
	Cartes géographiques en couleur		Showthrough / Transparence
	Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)		Quality of print varies / Qualité inégale de l'impression
	Coloured plates and/or illustrations / Planches et/ou illustrations en couleur Bound with other material /		Includes supplementary materials / Comprend du matériel supplémentaire
	Relié avec d'autres documents Only edition available / Seule édition disponible		Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from scanning / II se peut que
	Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.		certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été numérisées.

MONTREAL, FRIDAY, DECEMBER 17, 1880.

No. 18.

Leading Wholesale Houses of Montresi

Canadian

MANUFACTURED SILKS.

The undersigned having made arrangements with the

"CORIVEAU & CO."

Silk Mills of this city, for their entire production, beg to intimate to the trade that they are prepared to receive orders for the goods manufactured by these Mills.

They now invite inspection of the goods, which will be found to be of very superior quality, make and design.

DIVIDEND No. 8.

The Eighth Quarterly Dividend, at the rate of Eight per centum per annum on the pad-up capital of the Company, will be due and payabe at the Head Of-fices of the Company, London, Camada, or at the office of the agents of the Company, London, Eng-land, on and after the first day of January, 1881.

During the month of March last, the Company made a new Issue of Stock to the amount of \$1.000.00 at ten per cent premium, half of which has been reserved for the Canadian market, the other half to be sold in Great British and Ireland. A considerable amount of this Stock has already been disposed of. Persons requiring it will be provided with forms of application and full information by applying to the Secretary at the Head Office, London, Canada.

The next Issue well be at a higher rate of premium.

MONTREAL AGENCY.

We have pleasure in announcing that JACKSON RAE Esq, has been appointed General Agent for the City and District of Montreal.

The first issue of the Bonds of the Company has now been made. They bear interest at the rate of five per centum per annum payable half yearly, application for the same may be made to the Head Office, London, Canada, or to JACKSON RAE, Esq. Montreal

Orchestral Organ-1st extra prize, Alexandre, of Paris.

THE OWEN SOUND POST-OFFICE has recently changed hands, Mr. R. Crawford having been appointed to the vacancy caused by the death of the late J. G. Francis, postmaster. Considerable improvements, it is said, have been made in the internal arrangements and management.

GEORGE BRUCKERT, saloon-keeper, this city, has sold out, and compromised with his creditors at 20 cents. P. Valiquette, a small grocer on St. Joseph street, this city, assigned to his largest creditors, and after the stock had been sold. 45 cents on the dollar was received by the claimants; his liabilities were about \$6,000.

A srone has been opened in Owen Sound, Ont., for the sale of bankrupt stock, at prices avowedly below the real value. The Owen Sound merchants obje t to the "cheap John" system, but they need have little tear of desirable customers withdrawing their patronage. R. Notter, Owen Sound, who sold out a few years si ce to Jas. Notter & Co., recently bought back the grocery and liquor business from that firm, and has resumed in the same stand. James Caton, for several years retired,

Leading Wholesale Trade of Montreal.

WAREHOUSE,

519, 521. ST. PAUL STRÉET.

MONTREAL.

has opened a general commission and auction store in Owen Sound.

SPECULATION in supplies is profitable in Canada this winter. The cold weather came so suddenly that lumbermen in many sections were unable to secure all their winter supplies in time, and prices for all the necessaries have since been steadily advancing. In the vicinity of Chatham, Out., bay is reported this month at \$25 per ton, and there is every prospect of it reaching a much higher figure, while in September last it could have been bought at \$14. Flour, oats, and all other supplies are equally high.

M. MENARD, retail grocer, corner of Lagauchetière and St. Dominique street, this city, has gone to seek his fortune in Uncle Sam's domains. He came to this city from Chambly, and commenced business at the above-named stand about two years ago. He worked al n g with considerable difficulty until a few days since when the store was closed for rent, and Menard left the city and a number of unsecured creditors, with nothing more to satisfy them than the understanding that he had gone to Chicago.

It is indeed satisfactory to meet with an assigned estate that pays 100c on the dollar, but when the assignee's statement shows a surplus besides the book debts clear, it is truly refreshing to the creditors. The latest illustration of such a settlement has been furnished in the case of Dingman & Humble, London, Ont., in which a second and final dividend was prepared, open to objection until the 13th inst., when the dividend was to be paid. The statement of the assignee, Mr. H. E. Nelles, showed a surplus, after paying all claims and accounts, of \$18.68, besides some book debts, all of which were returned to the insolvents. In order to obtain a portion of the assets, held by the Ontario Loan and Debenture Company as collateral security, bonds had to be given, guaranteeing certain payments to be made to the Company in November; a portion of these assets had to be retained until the bonds had been realized. This is the second estate recently entrusted to Mr. Nelles which has paid 100c on the dollar.

T. E. LACERTE, dry goods, Three Rivers, Que., has settled with his creditors at 55c secured, with time extending over a period of twelve months. He was formerly of the firm of Trepannier & Lacerte, but has been in business alone for the past three years, with one previous interruption. For a time he defied the keen competition which surrounded him in Three Rivers by selling goods without profit, and was of course finally attached, in April, 1879, owing then about \$20,000. In May following he effected a compromise at 45c, which he paid within the prescribed period, twelve months. Since then he was believed to be getting into easier circumstances, and was sold moderate bills, under the impression that he could show a small surplus. This impression however seems to have been ill-founded, and a Montreal firm, becoming dissatisfied with his account, a few days ago resolved to put a period to his career. His liabilities amounted to \$8.731, to meet which he had a stock valued at \$6,710, good accounts to the amount of \$2,309, bad book-debts, \$1,319, and doubtful ones, \$534. It is generally known that since the dissolution his partner in the original firm has also failed.

THE IMPERIAL Bank of Canada have opened a branch in Winnipeg, under the management of Mr. R. H. Hunter, a resident of that city for the past twelve years.

MONTREAL,

ADELAND ARCHAMBAULT, storekeeper, at St. Marcel, Que., referred to in a recent issue, has settled with his creditors at 374 cents, cash.

THE ONTARIO GLASS BUTIAL Case Co., of Ridgetown, Ont., have been obliged to add a new warehouse, 24 x 60, to their premises owing to the increased demand for these goods.

The York County Council have under consideration the advisability of advancing a loan of \$20,000 to Messrs. Wilby & Co., to assist them in rebuilding their woollen mill, recently burned down at Weston, Out.

Business in Ridgerows, Ont., is brightening Messrs. John Meody & Son have built a new flour and woollen mill on the corner of Main and Water streets which they purpose to occupy the beginning of the year. With their increased facilities they can turn out 100 barrels of flour a day.

The Ashburnham Council, Peterborough, have exempted Mr. D. G. Hatton, acting on behalf of a prospective General Produce Forwarding Company, from taxes for ten years on lot and Elevator to be built near the Grand Junction Depot in that village.

MESSAS. POLLOCK & BAIRD, dry goods merchants, St. Thomas, Ont., are offering to sell out, having, it is reported, "made money enough to retire."—Mr. C. A. Whitwan, for many years manager for Mr. J. E. Smith, a leading hardware dealer in the same town, has opened up business in company with his father under the style of Chas. Whitwam & Son.

An enterprising wholesale hardware merchant on west St. Paul street came very near selling his stock for cash to the fire insurance companies on Wednesday last. Cause: said to be an overheated furnace, but so barricaded with kegs of nails, probably some of that over-

Mills:-TAMWORTH, Ont

stock made before the late drop, that the incipient fire, although discovered early, defied the assailants for some time.

W., St. Thomas, Ont.—The "old man" you refer to as having solicited subscriptions in St. Thomas for the Journal of Commerce and a Toronto paper some three months ago, represented to be "in the employ of Belford Bros., Toronto," had no authority from this office, and is evidently an impostor. Mr. F. D. Shallow is the only representative we have had on the road for the last year or two.

A HARDWARK dealer, not a hundred miles from Montreal, is reported to be offering in Bradley? In plates at from Si to Si.50 below the regular price. It is suspected that he has been taking lessons from some of the wine and brandy makers who impose on the uncultivated palate of the luxurious farmer and mechanic who fancy they are getting in Hennessey? for their money cheup. But somebody expects to catch a rat or a Tartar one of these days.

AT A MEETING of the creditors of the estate of the late John Gallagher, shoefitter, this city, on Friday last, an offer of 50c., payable in four quarterly instalments without interest, was made by the insolvent's brother, Francis, which

GROCERS' SHELF GOODS

C. H. BINKS & CO.,

was agreed to on Saturday last. Mr. Gallagher never kept any books, nor took stock during the several years he was in business, and his affairs generally were left in an unsettled state. The liabilities amounted to about \$6,000, of which nearly \$4,000 were due to one creditor, who held a bill of sale on the sewing machines. The assets, including machinery, stock, etc., footed up to about \$5,000. The building and land on which it stands are mortgaged for a total of \$4,500, considered to be the full value.

MESSES. PINKERTON & Co., wholesale boot and shoe manufacturers of this city (see advt. on front page)-composed of Mr. Robt. Pinkerton senior member of the firm of Pinkerton, Whitham & Co., lately dissolved, and Mr. Robt. Turner, who had full charge of the manufacturing department,-claim to have discovered the cause of, and the remedy for, the too general ripping of sole sewing and the parting of sole and upper after a few days wear, which have been the cause of so much dissatisfaction to the trade, and which other leading houses are attempting to remedy also. The present firm are prepared to guarantee their work against these defects, which have been the source of so much annovance to wearers and consequent blame to the retailers.

A PETERBORO' grocer, Luke Fisher by name, quite recently moved to more commodious

ouarters in the market arcade, and was generally supposed to be doing a large business; his fellow-citizens were therefore surprised at the discovery last week that he had "skipped out." Attaching creditors are on the wing, but Luke's whereabouts or destination is a close

Norice of Mr. Henry Lye's plan for the apportionment of loss under non-concurrent fire policies is unavoidably postponed.

ALEX. JOHNSTON, of St. Stephen, N.B., liquor de ler, appears to have "left his country for his country's good," forgetting even to pay some of his little debts.

THE Insurance Spectator of New York is to be published weekly for the future. We congratulate our contemporary on the prosperity indicated, which few will deny he richly

A WINGHAM, Ont., correspondent writes-Dr. W. B. Towler has sold his farm in Morris Township, Co. Hi ron, of 100 acres, to Robert Graham for \$3000. A year and a half ago the Doctor refused two offers of \$3800 and \$4000 respectively for it. There is no prospect of the rise in price of land in this section.

Owing, doubtless, to the extensive malting business carried on in that town, Dundas, Ont., is becoming attractive as a market for barley; formers from far outlying districts team their barley to this market because, as they say, they get better prices than elsewhere. The anti-Scott Act party are now witnessing the truits of their efforts some time ago to persuade the farmers that if the Act were passed in the county, and no liquor consumed thereafter, their barley crop would be utterly unprofitable. In this they were successful, but now have to pay rather dearly for the success. The farmers in this county complain of having to pay toll at two or three gates, according to the distance, on the way to Dandas or Hamilton market.

GASPARD BRUNEL, general storekeeper at Batiscan, Que., failed a few days ago, and one of his Montreal creditors placed a man in charge of his effects, and to investigate his affairs. Brunel is an old merchant, having been in business at Batiscan about 30 years. He formerly

carried on a match factory in the same place in partnership with his son, to whom he sold out his interest; he was largely supplied with goods by a wholesale grocery firm in this city until 1878, when they forced him to pay up, and in order to do so he was obliged to realize upon real estate at a considerable sacrifice. He has since struggled along under difficulties, and at great disadvantage; finally, a few days ago, he was obliged to suspend payment. His liabilities amounted to \$1,189, chiefly due to two Montreal dry goods houses, and, after investigation, the creditors have agreed to accept 20c cash on the dollar, to be paid by the insolvent's brother.

Ir will be remembered that some time ago a retail dry goods merchant at Mile End was brought before the Court by a Montreal wholesale firm, condemned, and sentenced to nine months' imprisonment at Payetteville for obtaining goods under false pretences. His wife and friends, although quite able, were unwilling at that time to compromise the matter, and the poor culprit went to jail. His

THE SPECULATIVE MANIA.

It might have been supposed from recent consequences that speculative ventures had received a quietus for some time to come; on the contrary, no sooner has daylight gleamed through the rift and the country entered upon an era o' better times than people appear to cast prudence and common sense to the winds, falling an easy prey to the knowing ones who in times of depression lie in wait concocting new schemes to catch the unwary as soon as the weather permits. And people bite as eagerly as though like the card or diceplayer they expected to become richto recover all their losses, at a single throw. Like him who married in haste as though afraid lest the stock of women should

run out, they do not even wait to choose but grasp at the first chance in their way. It is hardly too much to say that the business people of the country are entering upon an era of speculation which will cast into the shade all former movements. The building of the immense Pacific Railway will give an impetus to business seldom witnessed, and new mercantile ventures will be rapidly undertaken till the supply again overtakes and goes beyond the demand, as was the case in 1874-5, and then -stand from under. Manufacturers, however, will be disappointed at the conditions entered into with the syndicate by which materials and supplies are admitted free of duty, especially those who have been preparing for a large access to their business from that source.

We do not write in this strain with the view of discouraging enterprise; it is rather that the people may make hay while the sun shines, and may perhaps be benefitted by the note of warning sounded in time. The country has just emerged from four years of declining prices, bankruptcies, narrowing production and falling wages. Two successive good crops have turned the tide, but the causes of the troubles had come to an end before the second harvest. Supply had fallen off to the level of demand, perhaps a little below it, but the tide of prosperity is again rising so rapidly that fears are entertained lest the heads of the people be turned, and the blessings of plenty be reconverted into the curse of debt. There were panics in 1837, 1847, 1857, 1867, while in 1876-7-8-9 it partook rather of the nature of a depression, but the evil came all the same. When will the next one come? It depends upon the people themselves.

In the United States the expansion of loans heralds its approach. All kinds of securities are apparently rising in value. Within the two years just expiring not less than \$750,000,000 worth of new securities have been put on the New York Stock Exchange. Europe is not behind in the general prosperity and speculation. The recent circular of a London banking house says that new companies are asking subscriptions in wonderful numbers, encouraged by cheap money and consols at par. There is the Great Eastern Fresh-Meat Company, which wants \$1,500,000 for the business of importing meat from America in the Great Eastern; of the London Land Company, which will take \$5,000,000 for operations in London realestate; of the Rhodes Reef Gold-Mining Company, which would like \$1,000,000 to dig gold in India; of another corporation which will use a million or more to mine asbestos in Italy, and so on.

Paris is overflowing with speculative enterprises; and some of them have reached Montreal. In the Panama Canal scheme subscriptions have been pouring in throughout France at a maddening rate, and shares originally allotted at 5.000 francs are now selling at 40,000. This is the South Sea bubble over again, In the United States, mines, manufactures, commerce, real estate, are all absorbing the loanable capital of the country. Prices are rising; cotton goes up a cent alb. in a day; raw silk advances 25c to 30c per lb. in a week; wheat rises on the purchases of lawyers, schoolteachers and other speculators. Some railroad bonds have advanced nearly 40 per cent. within the year; others 100 per cent.; real estate has doubled in some parts of New York and Chicago: the country is prosperous, and railroad earnings have increased at an unprecedented rate. In Canada we have a " Financial Assurance Mutual Society for the reconstruction of capital;" "Consolidated Mining Companies" in which the promoters are so generous to the people as to give them splendid opportunities of getting rich at a trifling cost of money down; and other royal roads to riches. Stocks are booming. Real estate will probably take a turn if depositors on call can get no interest for their money, and if stocks that pay 5 to 8 per cent. are kept considerably above par. Money is abundant; and there is as yet but very little extension of credits; but it is almost certain to come. The motto of every business man should be, "In good times prepare for bad." Banks should strengthen themselves still further and keep a restraining hand on borrowers: business men should keep the brakes down on over-trading and over-purchasing, and manufacturers should beware of over production, while above all, as the Chicago Tribune forcibly says, " every one should shun debt like the devil." The signs of the times portend an outburst of speculation, and now is the time to prepare to meet the panic whether it come soon or late. Every prudent business man should be able in the course of the era of prosperity which we have entered upon to feather his nest comfortably before the next storm breaks, and be able to ride it, if not unscathed, at least with tolerable safety.

PARLIAMENTARY PROCEEDINGS.

THE PACIFIC RAILWAY.

The public interest is concentrated on the Government scheme for the construction of the Pacific Railway, and although the fiscal state of the Dominion, an insolvent law, and immigration will doubtless

engage consideration at a later period. the absorbing question prior to the adjournment for the holidays will be the Pacific Railway. Already two divisions have taken place, the result having been that the opposition amendments were voted down by almost a strict party vote, the numbers having been 51 to 112. The Ministerial scheme is to divide the Railway into 3 sections, the Western of which, from Kamloops to Port Moody in the vicinity of New Westminster on Burrard Inlet, is to be constructed by the Government. The most difficult portion of this section, that from Kamloops to Yale, has been for some time under contract, and the remaining 90 miles is to be built by the Government, and the whole handed over to the syndicate. The subsidy, which has long been known, is \$25,000,000 in money and 25,000,000 acres of land. It is appropriated to the different sections it may be assumed according to the difficulties of the work. There is nothing yet to indicate any objection on the part of the opposition to the principle of handing the work over to a company. It was, of course, to be expected that the scheme of the Government would be severely critized, and it is highly probable that the votes already taken will turn out not to be test votes on the contract.

It was not likely that the supporters of the Government would join in a demand for papers which were moved for in order to embarrass the Ministry, and it was equally improbable that, after Parliament had been expressly summoned to discuss this measure, they would have postponed doing so until the 5th of January. The people of the country are anxiously awaiting a discussion of the scheme, and they hold, irrespective altogether of party. widely different opinions on the subject. There is a strong party, and especially among the French Canadians, which would like the Ministerial scheme carried in its integrity, and which objects altogether to connection with the United States system of railroads. Others again believe as sincerely that the branch line to the Sault St. Marie is indispensable for Montreal and Quebec, and that such a line will be the best feeder not only for Quebcc Government railroads but also for the Ontario and Pacific Junction Railway. They contend that we have sought connection with Chicago and the country tributary to that great centre of commerce, and have spent immense sums to obtain it, although from that point we have to compete on disadvantageous terms with the United States railroads. They argue that no one can glance at the map without perceiving that a railroad terminus at the Sault Ste, Marie

would bring by the northern route the traffic of the important rising States of Wisconsin, Minnesota, and Dakota, whether by Lake Superior or by the Northern Pacific and St. Paul and Minnesota railroads, which would at once extend their lines to the Sault if they saw a prospect of connecting with the Canadian system. They further contend that unless the Sault branch is constructed the traffic of Manitoba will be forced via St. Paul to the southern railroads and the ports of New York, Philadelphia, and Baltimore. In the opinion of the advocates of the Sault line the road north of Lake Superior might well be postponed, but as the Government is committed to that line, a subsidy to the Sault branch, which Sir Charles Tupper stated had been asked for, might probably satisfy all but the regular opposition, which of course will object to the construction of the line north of Lake Superior at present. We have endeavored to state fairly the views of parties, and we are much mistaken if they will not be brought forward by some of the supporters of the Government.

VALUE OF THE FRENCH LOAN.

In the prevailing uncertainty respecting the net proceeds to the Provincial Government of the loan contracted in Paris with the syndicate, the following calculation, based upon operations of a similar character effected during the last five months, is undertaken with the view of exhibiting what the returns of said loan to the Province might have been had the business been economically conducted. It will be remembered that against the issue of 43,930 bonds of £20 stg. or 500 francs each, the bankers were to remit to the Government a sum of £784,000, or its equivalent in francs in Paris at the rate of 25 francs and 211 centimes per pound sterling, in two equal instalments between the 1st and the 15th of July last; at least, the preliminary contract is said to have been altered so as to read in the manner pointed out in our columns.

The mansfer of the money from France to this side should have been effected as follows:

Amount in gold to be remittedFrancs, 19,743,850

Napoleons: 98,719½ pieces weighing grammes 6.45161 each. Total weight—kilos, 6,368,981 grammes, or in Troy weight, 17,064 lbs. 11 oz. 3 pw. 19 grains, sold in New York at \$18.60 per oz., or about \$3.858 per 20 franc p.ece

\$3,808,895,78

Less: Freight from Paris to York	New
Marine Insurance	do

 28 566.72 \$3,78°,829.06 4,725.41

Net proceeds in Montreal ...

\$3,785,054,47

As already stated, this calculation is based on real transactions. The gold money of France and the United States is of equal intrinsic value, being both 900 thousandths of fineness. American gold pieces are worth in London per ounce 76s. 3½d. The foregoing calculation gives to the French gold in New York per ounce a value of 76s. 5d. exact parity.

§ p. c.

La Minerve of the 23rd of October states that \$3,000,591.68 had yet to be received by the Government, and was expected between the 1st and the 3rd of November. In such case there were to the credit of the Government three months interest to be added to the said sum, amounting, at 4½ per cent. per annun, to \$33,756.74, and not, as La Minerve has it, 30,000 francs. On the 1st of January next the Provincial Government must provide for the semi-annuity due on the loan, amounting to £24,000.

THE CURRENCY REFORM LEAGUE.

One consequence of the recent decision of the currency advocates of fiat money at their meeting in Toronto, to change the name of their association has been the withdrawal of the Hon. Isaac Buchanan from their ranks. Mr. Buchanan has published a letter to Mr. Wm. Wallace. M.P., in which he maintains that the question of money should be kept senarate from the land or any other question. and, moreover, that it should not be encumbered by discussion as to the amount of Exchequer notes to be issued by the Dominion Government as legal tenders. Mr. Buchanan has got his own ideas on the subject, which he has frankly stated, but he thinks that details are of no comparative importance. " To get the "nature of our money changed is the "essential reform necessary." Mr. Buchanan invites discussion of his opinions when he proclaims them over his signature. Like other advocates of flat money, he labors under what appears to us a most extraordinary delusion, viz., that the laboring classes would gain by the inflation of the currency. "The poor man's capi-"tal is labor, and the less money there is. "in circulation compared to the quantity " of labor for disposal, the less money his "labor will bring." Mr. Buchanan is quite right in his assertion, that the greater tl.e

Paragraphic Company of the Company of the Company

amount of money the higher will be the price of labor, but he entirely forgets that money is only an instrument of exchange for the laborer, to whom the money is of nouse except as the means of procuring food, clothing, lodging, &c., Ac. Let us put the case plainly. Mr. Buchanan's scheme is, that notes should be issued which should be legal tender, to the extent of \$15 a head of the population, or, in round figures, \$60,000,000, "such "notes to be convertible into interest-"bearing obligations of the Government, "the interest being payable at the present " gold standard, though not in the article gold." It is, we submit, not very easy to comprehend the meaning of this scheme. On the assumption that it was at all practicable, and something of the same kind was suggested for the greenback circulation in the United States, the tendency would be to convert a large portion of the issue into interest-bearing obligations, but it is clear that this would involve a new issue so as to keep the notes up to the amount which Mr. Buchanan would fix "in the constitution of the country."

It must be obvious that it would be impossible to keep the notes at anything like the same value if the amount were to be increased or diminished. Mr. Buchanan believes that the laboring man would get higher wages in his flat money, but surely he cannot be so blind as not to perceive that the cause which would increase the price of labor would increase the price of bread, meat, clothes. house-rent, and everything else. Moreover, experience has proved that it is precisely the class, in whose interest Mr. Buchanan writes, that always suffer most from a depreciated currency. Those who gain by it are the wealthy operators in the commercial cities, who are able to take advantage of the almost daily fluctuations in the value of securities. Mr. Buchanan maintains that there is not half enough of money in the hands of the people "to buy by retail or to pay debts," in other words, wages are only half what they ought to be. We sincerely wish it were possible, without inflicting deep injury on the whole people, to give Mr. Buchanan an opportunity of trying his experiment, but we can refer him to some of the South American republics, and indeed, without going so far, we have had recent experience before our eyes of the practical effect of fiat money in the United States, and of its daily fluctuations in value, by which the very classes which Mr. Buchanan, we believe honestly, wishes to serve were most deeply injured, while the profit was gained by those who, in his opinion, profit by hard money. As if it were possible to make

his scheme, more absurd, Mr. Buchanan proposes that the Government should pay interest on the bonds issued for the redemption of a depreciated currency according to the present gold standard, so that, if the notes were only worth 40 or 50 in the market, the Government would be bound to redeem them at par not in gold, but in bonds bearing interest payable in flat notes according to their value in gold. The practical effect of this plan would be to make the Government redeem that par their own depreciated notes. We believe that Mr. Buchanan cannot serve the cause of sound currency better than by writing letters.

THE FORTUNE BAY DIFFICULTY.

Since our last notice of the fishery dispute, the text of Earl Granville's despatch has been published, and it will most assuredly allay the apprehensions which the article in the London Times on the subject was calculated to create. It is true that Earl Granville has admitted that the proceedings of the Newfoundland fishermen were quite indefensible and much to be regretted. This admission, however, is based on the principle that "no sense " of injury to their rights, however well " founded, could, under the circumstances, " justify British fishermen in taking the "law into their own hands, and committing " acts of violence." The weak point in the Newfoundland case has been that the people took the law into their own hands. With regard to the outrage, Earl Granville admits that the United States fisher men should be indemnified for any injuries and losses which, upon joint inquiry, may have been found to have been sustained by them. While, however, this admission is made, and no reasonable person can object to it, Earl Granville points out that the claim is pushed for a loss of fish which had been caught, or which might have been caught but for the interference of the British fishermen, by means of strand fishing, a mode of fishing to which, under the treaty of Washington, the Americans were not entitled to resort. This point is one of the greatest importance, and Earl Granville has in the most decided terms declared that the prosecution of strand fishing is clearly in excess of the Treaty privileges granted to citizens of the United States. There is no notice taken in the despatch of the fact that the American fishermen were, in defiance of law, fishing on Sunday, but it is probable that the fact that they were fishing illegally was deemed a sufficient objection to any damages beyond a fair compensation for an outrage.

Earl Granville has very properly separated the two questions, which are widely different; that of compensation for an irregular proceeding, which ought to be granted, and the pretension made by the United States that the treaty gives rights irrespective altogether of the municipal law of the colony. Eurl Granville has admitted that if the local statutes should be found inconsistent with the express stipulations, or even with the spirit of the treaty, they would not be within the category of those reasonable regulations by which American as well as British fishermen ought to be bound, and he refers to a despatch of Mr. Evarts to Mr. Welsh, the Minister in London, to the effect that there is no intention on the part of the United States Government that the privileges granted should be abused. It seems to us that this really disposes of the whole case. Mr. Evarts contends that it is unreasonable that the regulations of the fisheries should be given entirely to one party, and he suggests that the two Governments should co-operate together, to make the regulations "a matter of reciprocal convenience and right." Earl Granville responds, and, with a view to avoiding a future discussion and future misunderstandings, requests that Mr. Evarts be informed that Her Majesty's Government are quite willing to confer with the Government of the United States respecting the establishment of regulations, under which the subjects of both parties to the Treaty of Washington shall have full and equal enjoyment of any fishery which, under that treaty, is to be used in common. It is a bled that the duty of enacting and enforcing such regulations when agreed upon would of course rest with the powers having the sovereignty of the shores and waters in each case. It was satisfactory to learn from the President's message that Earl Granville's despatch had been deemed satisfactory by the United States. It seems to us that there is nothing in it to which the British Provinces can reasonably object, and we sincerely hope that this untoward dispute is at length in train of being amicably settled. While we entertain the opinion that we have expressed as to Earl Granville's despatch, which, though more conciliatory in tone, is in substance not repugnant to that of the Marquis of Silisbury, we must acknowledge that the English press seems to us quite willing to concede everything to the United States. The mode of dealing with the perpetration of the outrage is a question wholly irrelevant to the more important one which is, whether there are to be regulations for the fishermen of both nations, and that

there must be is admitted by Mr. Evarts. That the fishermen of both nations should be on a footing of perfect equality is likewise admitted. That strand fishing is not authorized by the Treaty of Washington is apparent from the text of that celebrated document. The treaty is silent as to fishing on Sunday, and so likewise is Earl Granville's despatch, and yet the prohibition to fish on Sunday is one of the regulations complained of. We shall ascertain before long whether on this point the two Governments find it difficult to agree. We hope that the English press will support their own Government in the diplomatic controversy which is likely to ensue.

COTTON TRADE AND MANUFACTURE.

(Continued.)

To arrive at the cost of making a pound weight of cotton cloth is not an easy matter, and the figures furnished herein should apply only to skilful and economical manufacture such as characterize the most successful establishments on this side of the Atlantic. Some of the items cost more in one mill than in another according to the knowledge and skill at command, and perhaps to the quantity of starch employed; but this, fortunately for the trade, is as yet but little practised in Canada. The gross adulteration which lost to Great Britain much of the eastern trade is not likely to find its way into Canadian cotton manufacture. So far as we have been able to learn-and the wearing qualities of the goods prove itthe use of starch in Canadian mills is confined to the minimum quantity required for dressing. The cost of making a pound of cotton cloth is as follows in decimals of one cent, according to a calculation made in one of the United States mills some years since:

Picking	.097
Carding	.762
Spinning	.658
Spool, warping and dressing	.515
Weaving	1.832
Baleing	.092
Sundries	.667
Waste	.117
Insurance, Sinking Fund for new	
machinery, commissions on sales,	
&c	1.000
· · · · · · · · · · · · · · · · · · ·	

has latterly become a source of profit rather than loss, being employed in the manufacture of batting, bags, twine, &c., and the refuse is sold to the paper manufacturers and to the railway companies for the oil of their car wheel boxes, so that the proportion opposite that item may be withheld. The foregoing table embraces the cost of all the labor in the mill from the superintendent down to the floor washers, as well as fuel, oil, starch, &c. It includes also repairs and change of machinery. By referring to the table giving the prices of cotton, as published in issue of Dec. 3rd, it will be seen that the margin of profit is ample :- or it may be stated as follows:

15.875 cts.

Product 3½ yds. at 9c, less discounts and commissions..... 26.775 "

10.9 cts.

or one mill (one-tenth of a cent.) less than eleven cents profit on each pound of piece goods manufactured; for, though we chose a particular brand for our calculations we fancy it will be found somewhat below the average profit, some of the cheaper brands yielding upwards of five yards to the pound. The profit per yard is shown to be three and one-ninth cents which, if correct, is, to say the least, enormous. The American Cotton Spinner estimates the cost of coarse goods in the Eastern mills as follows:

Total cost per lb...... 17.86 cts.

The HIII 36 inch Hochelaga brand gives 31 yards to the pound, as any person may ascertain for himself, and this, divided into the above total, gives the cost per yard to the manufacturers, equal to 5.1 cents, or five and one-tenth cents per yard. The agents' commission and the trade discount being deducted, a profit of 2.80 cents per vard is shown for the manufacturers. It is not surprising to learn that the Hochelaga mills are contemplating the erection of an addition to their premises equal to one-third of the present area; or that the Dundas mills, after appropriating \$37,500 towards the reduction of the bonded debt, purpose paying a ten per cent. dividend on the first of March next. Those who wonder at the recent success of the cotton manufacturing interests in Canada should bear in mind, however, that many of them have

been compelled to pass through a trying ordeal on the way, and the proprietors are deserving of much praise for their perseverance in the face of what appeared for a long time to be insuperable difficulties. There, are however, complaints on the part of the wholesale dealers in this city and elsewhere as to the high prices maintained by several of the factories, and according to the foregoing estimates there appear to be some grounds for the dissatisfaction.

THE CONSTITUTION OF CANADA—DOUTRE.

Mr. Doutre, Q.C., has, as is very generally admitted, rendered a great service to his countrymen by the publication of his recent work on the Constitution of Canada. We cannot better describe the work than by citing a brief extract from the introduction, which declares: "But this "work specially aims to be a legal record "of precedents and opinions of statesmen "on those parts of the Act (The Brit. "ish North America Act) which have "given rise to judicial contentions, and " which are liable to do so in the future." Mr. Doutre has not only furnished the legal records, but he has given a great deal of most interesting information as to the views of Imperial and Colonial statesmen prior to and at the time of the passing of the British North America Act which embodies our present Constitution. We have been often struck at finding, in the writings of persons, who may be looked on, at least comparatively, as new Immigrants, arguments in favour of a Legislalative Union which are urged without any reference whatever to the very full discussion which took place on that very point prior to Confederation. We have wondered whether such persons were aware of the fact that the present Dominion Premier, Sir John Macdonald, who, when the subject was engaging the earnest attention of the people in the four principal Provinces of the Dominion, occupied a political position not inferior to what he does to day, expressed himself in Parliament in the following terms: "I "have again and again stated in the "House that, if practicable, I thought a "Legislative Union would be preferable. "I have always contended that if we " could agree to have one Government and " one Parliament legislating for the whole " of these peoples it would be the best, the "cheapest, the most vigorous, and the "strongest system of Government we "could adopt. But in looking at the sub-"ject in the Conference, and discussing " the matter as we did, most unreservedly, "and with a desire to arrive at a satisfac"tory conclusion, we found that such a system was impracticable."

The main difficulty, it has always been supposed, was owing to the strong opposition of the Province of Quebec, but Sir John Macdonald said :- "We found, too, " that there was as great a disinclination "on the part of the various Maritime "Provinces to lose their individuality a "separate political organizations as we " observed in the case of Lower Canada "herself, therefore we were forced to the "conclusion that we must either abandon " the idea of Union altogether, or devise " a system of Union in which the separ-"ate provincial organizations would be "in some degree preserved. So that "those who were like myself in favor of "a Legislative Union were obliged to " modify their views and accept the pro-"ject of a Federal Union as the only "scheme practicable even for the Mari-"time Provinces." Although there are more cogent reasons for a Legislative Union between the Maritime Provinces than between all the Provinces embraced in the Dominion, the former have never been able to concur in any measure for giving effect to what many deem desirable.

We are reminded by references in Mr. Doutre's book that the British North America Act was not by any means deemed perfect by the British statesmen who gave it consideration, but in the language of Mr. Cardwell, an experienced authority in Colonial affairs, speaking then from the Opposition benches: "It is, as he justly said, not our arrangement but theirs. It has been made by men of great ability, patience and temper, and they have done it with a perfect knowledge of the circumstances with which they had to deal."

There is no reason whatever to suppose that there has been any change in public opinion during the period which has elapsed since the delegates met in Quebec on the subject of Legislative Union. The question of a nominated, instead of an elected Senate was discussed by Mr Bright, who undertook to reply to the Member who had charge of the bill, and who had contended that Canada "had a "right if they pleased to go back from an "elected Council to a nominated Council." Mr. Bright, in reply, said: "Well "nobody denies that, but nobody pre-"tends that the people of Canada pre-"fer a nominated Council to an elected "Council." And he added that the clause "enabling the Governor General and his "Cabinet to put seventy-two men in that "Council for life inserts into the whole "scheme the germ of a malady which will "spread, and which before very long will "require an alteration of this Act, and of "the Constitution of this new Confedera-"tion." There has been sufficient experience of the working of a single chamber in Ontario to lead all disinterested persons to believe that second chambers with our system of Government are the cause of very considerable unnecessary expense.

The present system of chambers nominated by the Crown, or practically by the Ministers of the day, was accepted by those who perceived the difficulty of introducing the elective principle in any form. Experience elsewhere justifies the belief that the true solution of the difficulty is the abrogation of the second chamber, not only in the Local Legislatures but in the Dominion Parliament. A plan was suggested for effecting the object in Quebec of the most liberal character, viz., that all existing members should continue to enjoy their honors and emoluments for life, with the single exception of the right of voting. They might sit and speak in Parliament, and even be Ministers, but should have no right of voting, and in acomparatively short space of time they would disappear. In drawing attention to a work on the Constitution, it is difficult to avoid referring to the principa points which engaged consideration. Mr Doutre's plan has been to publish the British North America Act in sections, and to cite the decisions of the various Courts of Justice on each disputed point. The principal points have been raised in connection with sections 91 and 92, having reference to the "Federal Legislative power," and the "Provincial Legislative power." There is likewise a most interesting notice of sec. 59, Provincial Executive Power, which gives the various authorities regarding the celebrated case of Lieutenant-Governor Letellier, including that of Mr. Todd in his work on Parliamentary Government, and the Bystander of Toronto. Mr. Doutre's work might perhaps have been better arranged. but it will be found most valuable not only to politicians and lawyers, but to all who are ever brought into the Courts of Justice.

"The Last Tournament."—There appears to have been an unusual demand in this city and elsewhere for the Toronto Globe of Saturday last, which contained a letter from Sir Francis Hincks in reply to the recent attacks of Professor Goldwin Smith in his pro-nnnexation organ, the Bystander. The professor's descent to personalities had already proved the weakness of his position, but we funcy there will now be found few to deny that he has been fairly unborsed. Professor Smith may say with Sir Andrew Aguecheek in the lunguage of Shakspeare—"An I thought he had been so cunning in fence, I'd have seen him dammed ere I'd have

challenged him." But the professor, like his prototype, will probably in his next monthly issue prove to his admirers that "even though vanquished he can argue still."

King Cotton Again.—Capitalists in all parts of Canada seem to have been seized with the cotton factory fever. At a recent meeting of representative citizens in Halifax, to consider the establishment of a factory in that city, Mr. Adam Burns was appointed to wait mean the principal merchants "with a view to forming a provisional committee to look into the practicability of the scheme and report the matter to the public." Mr. Alex. Gibson, with a view to creeting a cotton mill at Nashwaak, New Brunswick, is now on an inspecting tour through the United States.

Mr. J. J. WEBSTER, of the Eastern Townships Mutual Fire Insurance Co., has consented to undertake the control pro-tem of the Joliette Mutual of this city, and is endeavoring to realize sufficient from new assessments to pay off its indebtedness, and to liquidate or amalgamate, as may seem most desirable to the shareholders, who will be called together to decide the mat-The company has been obliged to borrow largely upon its premium notes from the first, and at high rates, to pay preliminary and other expenses, recourse having been had chiefly to the Mechanics' Bank, whence these securities reverted to The Molsons, who obtained judgment thereupon against the company lately. A carpet merchant who advanced some \$5,000, on the security of another lot of premium notes, meansecurity of another to to premium notes, mean-time is making every effort to prevent matters from falling to pieces, and it is probable that all parties will be paid in full, although at the cost of a heavy assessment of the policyholders, many of whom have scarcely had time to breathe since the recent assessment was made. of sufficient capital to pay current expenses at the outset, difficulty in collecting on assess-ments, and high commissions, are to blame.

A Dundas correspondent writes:—Fortune is once more smiling on us. Our manufacturers are much busier than for some time, and to some leading establishments, notably McKechuick Bertram's Tool Works, extensive additions are being made. The screw factory, which has been so long idle, is to commence operations shortly on a more extensive scale than formerly. An extensive knitting factory, for the manufacture of losiery, under the energetic management of Mr. Samuel, is about to be started. The Messrs. Lecuard employ a large number of workmen, and are running the establishment day and night. The shipment of live stock and produce from this town to Winnipeg continues on an extensive scale. Some local dealers and hotel-keepers are putting in their supply of ice, deeming it imprudent to trust to the weather towards the end of the season.

The Privy Council, it appears, has granted permission to appeal to the Imperial tribunals from the recent judgment of the Supreme Court of Canada in the case of Parsons vs. the Queen Insurance Co. and another test case, involving the right of the Provincial governments to compel companies working under a Dominion license to conform to local enactments as to the form of contract to be entered into with the insured, a subject on which we have already fully expressed our opinion under the heading of "Uniform Policy Conditions."

The people of Portage In Frairie, Man., have been exercised for some time past, over the doings of a local boot and shoe dealer named Wm. Gilliland who appears to have turned out rather a freebooler in his latter transactions in that vicinity. Gilliland was formerly a clerk in Sarnia whence he went to Manitoba some two years ago, having it is supposed some \$3,000 capital. Not succeeding rapidly enough in business, he possessed himself of keys fitted to his neighbors' watchouse doors, and is said to have made large hands of silks and whiskoy, the latter of which he sold to the Indiaus. The firm of Patterson & McLenaghan suffered especially from his pracks. In addition to the S1000 worth of silks he surrendered to them he said he had some \$3000 worth more hidden away in the country. Mr. McLenaghan who pursued him in his flight to the border is reported to have recovered some \$899 from him in part settlement. The runaway escaped from the builiff while the latter slept, and it is probable from lastaccounts that the people of Portage la Prairie have seen the last of him for some time. It is likely however that he will be made acquainted with the inside of the prison walls in Winnipeg to runinate upon his misdeeds, and to regret his want of success in horse-racing towards the land of the Dacotalis. The liquors were stolen from Messrs. Rigney & Carey, and in addition he is credited with laving stolen law books from the office of the local paper.

THE FINANCIAL ASSOCIATION OF ONTARIO.

The following circular has been issued by the above Company, having its head office at London:—

"After this date, not more than one thousand dollars stock of the existing issue of preference shares at one per cent, premium, (equivalent to a return of \$7.92 per annum, on each \$100 invested), will be allotted to any individual applicant. The object of this limit is to place the issue in the hands of as many investors as possible, in different sections of the Dominion. Subscribers thereto will be given the first opportunity of subscribing to the next issue, at such price as the Board of Directors may determine upon.

Ry order of the Board,
EDWARD LERUEY,
Managing Director."

On further enquiry of of the officials we learn that, although duly appreciating subscriptions to the stock, their aim in offering it on as liberal terms as they have done has been not so much for the direct advantages as to introduce it in various parts of Canada, so as to lay a good foundation for a strong company of a national character, insuring the highest possible degree of marketableness for the stock. This they have in great part accomplished, having placed over two hundred thousand in different sections of Ontario and the eastern Provinces, in the hands of nearly one hundred and fifty shareholders, and until the stock is advanced to a price which they consider more in accordance with its intrinsic merits than that now issued at, it will be allotted merely with a view to extend the influence of the Company. We are also informed the Company is negotiating for more commodious premises in the heart of the city; those at present occupied having been taken with a view to economy, the Directors preferring, and we think wisely, to expend in advertising what they saved in office rent.

—London Free Press.

FOR THE WIVES.

For many years we have been pegging away to some purpose at the male population of this country, and we have successfully reached a certain part of them. The majority remain obdurate, however, either wittingly orignorantly. A large proportion elude our convincing arguments by transferring the responsibility of the decision to their wives. They say that the matter will be discussed at home, and whatever the dear woman thinks about an insurance policy will be satisfactory to the husband. That is the last we hear from this convenient person, who finds

foronce that his wife is a useful attachment to the household. Now, we do not know what happens when the man consults his wife, and so we propose to have a taik with the wives and mothers direct. This is entirely a private matter, and therefore no gentleman will intrude his curious nose into the scerecy of this visit, Ludies, we hear it said that you are opposed

to life insurance upon superstitious and sentimental grounds. Now, we premise this talk by avowing that good, wholesome common-sense is the greatest of all your attributes, and we do not believe that such can be the case. We know whom we are addressing, therefore, when we ask you to take your work in your hand and talk over with us some matters per-taining to your welfare, the comfort of your family, and your future happiness; you will look at our position sensibly, and if you do not coincide with it we shall feel that it has been treated with fairness and candour. You are married, your husband is in business, and the children come and go like the heedless summer winds. Sentiment is gone with the fleeting exaberance of the honeymoon, and you discuss the details of the three meals with more enthusiasm than you do caresses and diminutives. Isn't it so? Of course it is. Your husband is providing for course it is. waste places in the pantry, rather than waste places in the back parlour. You have to live, and four object is to live as comfortably as you and four object is to live as comfortably as you can. That is right, and you know when your husbard is at his business that he is carning the actual dollars to pay expenses. You do not live on delliance and dew-drops, but on muscle and money. You talk over cutton cloth, beans, shoes, chairs, and general subsistence. Homely but true; isn't it? Of course it is. Everything is quiet and screne, and if it would always remain so our mission at your house would be suncrificous. You know as well as we that the You know as well as we that the superfluous. future is not for us to foresee, and the changes that will take place in your family or your neighbour's to-morrow are beyond any feeble human vision. As a sensible woman you will assent to this. You can recall by a little reflection the sudden break in the family circle of one of your old friends, when, without warning, the husband and protector was transferred to eternity in an instant. It happens every day and you know it, don't you? Of course you do. Well, what occurred then? A young widow with beautiful children left alone in the world without visible means of support, because the father was ent off in the prime of life, and the mother could not become mechanic or merchant. The result can be summed up in a few words,—she became a floating object of charity.

But you say that she went back to her father's. My dear woman, when her father consented to the maringe with her late husband, he henestly supposed that the present and future would be provided for. The first was, the latter was not; and the young widow goes back to her father with several children to be fed, clothed, and housed, because of the neglect to appropriate a few dollars for indemnification. She had neglected her duty as wife and mother. The hest part of her life was passed in a fulse sense of security. A comfortable widowhood is supplanted by an anxious motherhood. Her father has undoubtedly told her this; hasn't he? Of course he has, He has said to her that she foolishly refused to touch a cent of money that might come to her from a policy of insurance upon her husband's cherished aim—the comfort of herself and children in all contingencies. She becomes the object of pity for her impecunious condition, as

a matter of course. You know of this case. It may be yours tomorrow, and, as a sensible woman, you will represent the matter to your husband to-night in its true bearing. Away with false modesty. Tell him that he owes to you and his children a sense of security that only a policy of insurance in a sound company can give. Leave the choice of the company to him. This is a plain, homely matter, and yet it has a rosy side, giving you upon its tulfilment a view into a future whose horizon is calla and bright, instead of a sky of the uncertain forebodings of storm.—Ins.

FIRE RECORD.

Rentraw, Dec. 11.—Reid's woollen factory near here was totally destroyed, together with machinery. Total loss about \$15,000; no insurance. Orea Sound, 10.—Harness shop of John Coates destroyed. Insured in the Gore Mutual for \$400, which will cover the loss. Kingsvilla, 13.—Barn and sheds of J. Adams destroyed, together with a quantity of grain and farming implements. No insurance. Whitby, 15.—John Saunders' hoot and shoe store destroyed. Loss about \$2,800; insured in the North British and Mercantile for \$1,000, and in the Ganada Farmers of Hamilton for \$1,000. The building was owned by Mrs. Till, and was insured for \$1,000.

GREBEC

Montreal, Dec. 13.—Messrs. Cushing & Co.'s funcy goods store and Mr. John Watson's bardware store badly damaged, Cushing & Co.'s stock being nearly entirely destroyed. Loss estimated at \$15,000; partly insured in the Western and Royal Canadian. 15.—A fire which originated in the wholesale hardware store of C. C. Snowdon & Co., caused by the overheating of the furnace, was extinguished by means of a chemical fire extinguisher before any serious damage was done.

NOVA SCOTIA.

Halifar, Dec. 11.—The Artz tannery at Springfield totally destro, ed. The building was owned by Henry Artz and leased by J. F. Crowe & Co. Insured for \$2,500 in the Canada Fire Company. The tanacry, which belonged to the late James Brownrigg, at West River, and occupied by J. Ross, was totally destroyed with part of stock.

NEW BRUNSWICK.

St John, Dec. 11.—A brick buidt ig ow ted by Dr. Addy, and occupied by him and by Wm. Martin, grocer, badly damaged. The building was insured for \$8,000 in the Commercial Union, and Martin's stock in the Laurashire for \$400. Dec. 13.—Nathan Wilbur's saw and grist mill at Trite's Mountain destroyed.

Financial and Commercial.

MONTREAL WHOLESALE MARKETS.

THURSDAY, Dec. 16th, 1880.

As is usual towards the close of the year the volume of wholesale trade shows a falling off, as compared with preceding weeks. The mercantile and trading classes are more intent upon annual settlements than upon the inauguration of new enterprises. Nearly all the activity noticeable is centered in the retail departments, and in holiday goods the movement promises to be brisk; recent importations comprise a much better and more expensive stock than has been shown in this market for years. The purchasing power of the country is fully demonstrated by the flow of remittances, which have so far exceeded the expectations of wholesale merchants that many of them have been obliged to reduce their each discounts. The money market continues easy; the supply of available funds is still largely in excess of the demand, and accordingly capital continues to seek new channels for investment, and new enterprises are being developed. Should speculation not become too general the tendency. may be productive of the best results. Good commercial bills are readily negotiated at 6 to 7 per cent. discount, as to name and date; call and short-dated loans on acceptable collaterals made at 3 to 4 per cent, and time loans . at 4 to 5. In Sterling Exchange there is but

little business doing, as it can be bought i per cent. cheaper in New York; rates here nominally quoted at \$1 prem, between banks, and 81 do over counter. New York funds meet with a good demand, and, owing principally to the stringency of the New York money market and scarcity of American gold in Canada, greenbacks are much called for, at \$ to \$ prem.; drafts quoted at \$ to \$ do. The share market has been inactive, weak, and tending downward for the leading securities, since our last reference; the "bear" in erest, calling to their aid the opposition arguments to the Pacific Railway contract, obtained control and maintained it throughout the week; about the only stock holding its own is Bank of Montreal, which closes a fraction higher than on Thursday last, Commerce shows a decline for the week of 5 per cent., Ontario of 3 per cent., Merchants and Toronto of 2 per cent. each, City Gas of 31 per cent, and Canada Cotton a decline of 25 per cent. The principal raid was made upon Gas, which stock has partially recovered the heavy decline. Graphic stock has sold within the week at 70c, and sales of Graphic bonds were made to-day at 85c.

Sales on 'Change to-day were: Morning Board-66 Montreel at 1664; 100 Ontario at 951; 85 do at 951; 50 do at 96; 32 Molson's at 103½; 2 Merchants' at 115½; 25 Exchange at 63; 175 Montreal Telegraph at 1331; 15 Richelieu at 60%; 100 do at 61%; 100 City Gas at 147; 175 do at 148; 40 do at 1484; 25 Canada Cotton at 1221; and \$5,000 Graphic bonds at 85. Afternoon Board-51 Montreal at $166\frac{1}{2}$; 49 do at $166\frac{3}{4}$; 25 do at $166\frac{1}{4}$; 50 Ontario at 963; 50 do at 961; 290 People's at 91; 200 do at 911; 65 Toronto at 1401; 139 Commerce at 136; 75 Montreal Telegraph at 134; 50 do at 1331; 225 do at 1331; 60 do at 133; 50 Richelieu at 611; 40 City Gas at 1481; 150 do at 143; and 10 Canada Cotton

Asis.— The receipts are quite up to expectations, and a good demand existed early in the week at \$5.15 to \$5.20 for First Pots, \$4.65 for Seconds and \$4 to \$4.10 for Thirds, but the demand is weaker at the close, and we have to note a decline of 5c. to 10c. per 100 lbs. Pearls—A lot of 15 barrels Firsts has been received, but has been held over for the 1881 brand. No transaction has been reported during the week. Receipts since 1st January, 843 I brls. Pots, 1478 brls. Pearls. Deliveries, 8826 brls. Pots, 1636 brls. Pearls. Stock in store at six o'clock on Wednesday evening, 70 brls. Pots, 10 brls. Pearls, in addition to which 65 brls. Pots and 45 brls. Pearls are awaiting the new brand.

Graceries.—Sugars maintain a fair degree of steadiness for Raw and Refined. The changes for the week here are very trifling, and the business doing is light. Teas.—The balance of the lot offered at auction about a week since has been held for higher average price, and is likely sold. For the season there is a fair trade doing at buly previous prices. In Young Hysen and Black Teas there is not much activity, and prices are moderate. Molvisses and Syraps.—Nominally about as last reported. Rice dull at \$3.90 to \$4.39. Coffees.—A small business only to report, with a range of values fally lower. Spices firm for most articles in the line, with only a light trade doing. Fraits.—Valencias steady at 78c to 82c. Malaga Fr it is not active, and but very little changed in prices. A quantity of old Loose Muscatels sold from

about \$1.30 upwards to \$1.60 to \$1.70 as to quantity. Currents firm, and rather higher. Sullomas scarce and firm. Nats and almoads steady.

Boots and Shoes.—Stock-taking is over, and all our large dealers are manufacturing Spring goods freely. The books have not yet been balanced, but some houses inform us that sales for the year will aggregate fully 20 per cent. increase over those for 1870. Of course the present is between seasons, when trade is never active, but travellers are already forwarding orders for Spring good; and a good business is anticipated. Stock remains steady at former rates, and there will probably be no important change in last season's prices for boots and shoes. Payments continue prompt.

CATTLE.—Under a good local demand, prices have advanced since last week, and choice beasts are now worth from 4½c, to 5c, per lb., inferior bringing from 3½c, to 4c. Lambs are worth from 83 to \$4.50 according to quality. Live logs from \$5.12½ to \$5.25; dressed do. \$6.25 to \$6.60.

DREGS AND CHEMICALS.—Business is moderately active, the demand being chiefly for the lighter goods; heavy chemicals are dull and slow of sale. In prices there are no essential changes. Quinne has been a little excited, and its future course is a little uncertain, the probability being, however, that it will be higher. Opium has stiffened in New York, in consequence of reports from Smyrna of damage by frost to the young clauts. In England a good deal of business has been done, but at tolerably low rates. Sales were principally from second hand, makers not being auxious to sell.

Olls.—Market rules quiet, sales being confined to small lots, at about previously quoted rates. Linseed is a shade firmer, in sympathy with the advance in England, and about 150% barrels have changed hands at 55c wine measure; Imperial gallons quoted at 70 to 72½c. Cod quiet, at 58c to 60c Imperial gal., and steam refined seal has sold in small lots at 64c to 63c. Straw do dall and nominal, at 46c to 48c. In Naval stores no change can be noted; business is dull, and prices unchanged. Turpentine quiet, and held firmly at 70c Imperial gallon. The imports for Novembri were 26, 907 gallons at \$14,197, against 57,749 gallons \$14,197, against 57,749 gallons at \$14,197, against 5

Wool—Remans quiet and firm, at nominally unchanged prices; in domestic there have been no quotable sales reported, and Canada pulled is still quoted at 34c for a super, and 33c for B, do. Of foreign wools stocks in this market are light, and sales few; a lot of 250 bales Greesy Cape changed hands at 18c, and small lots are sold at 183c to 19c. The English wool sales just closed did not result as satisfactorily as was expected at the opening.

LUMBER.—Trade quiet as usual at this season, but, owing to the active appreciation of timber limits and lumber generally, prices have stiffened considerably, especially for the upper qualities of pine lumber. Several large sales were made in the Fall at high prices which had the effect of causing manufacturers to look for still higher figures and induced them to make extraordicary exertions to get in a vast quantity of logs and square timber. The season so far has been all that could be desired for working Should there not be too much snow, and the Spring drive favorable, the product will be enormous. We don't hear of many purchases for next season's delivery, buyers holding off, expecting that the large quantity being produced will favor them.

Hors.—No change to note in the local hop market; prices for Canadian, 1881 growth, range from 16c to 20c, as to quality. In New York the general disposition is to defer operations until after the holidays, and lower prices would be necessary to induce buyers to take more than current wants require. Holders do not appear to be forcing stock upon the market, and prices snow no quotable change, being q oted at 15c to 23c as to quality for New York State crop of 1880, and for Eastern and Wisconsin crop, 1880; and 20c to 23c for Cal fordia crop, 1880.

FLOUR AND GRAIN.-The grain markets on both continents have been dull and depressed during the week; yesterday there was a further decline in England of 6d. to 1s. per quarter for future deliveries of wheat, and spot offerings were also quoted 6d lower. Imports of wheat and corn to Great Britain during the past week amounted to 380,000 qrs , and of flour, 185,000 brls. Chicago market has been panicky this week, with a further decline in values, February wheat being quoted 133c per bush lower than a fortnight ago. New York wheat market declined 13c to 2c per bush yesterday, No. 2 red winter selling down to \$1.18 cash. In this market there has been virtually no business doing in grain, for which prices remain purely nominal. The local flour market has continued duil also, with a steady decline in values, as may be seen by a comparison of our " prices current;" and dealers admit that, in order to effect sales, still lower prices would have to be accepted. Superior Extra sold yesterday at \$5.521, but has been offered since at \$5.45.

STOCKS IN STORE IN MONTREAL.

	Dec 15.	Dec. 1.	Drc. 15.
	1880.	1880.	1879.
Wheat, bushels	114,494	125,049	1 0 505
Corn, bushels		25,500	10,000
Pens, bushel		3 4693	e6.027
O ts, bushels		4,5 0	129,914
Barley, busnels		19,597	17 974
liye, bashe's		7,297	11 611
Flour, barrels		2852	33,1-1
Catmeal barrels		283	200
Cornneal, b. rrels		2.0	126

Wines and Liquons.—Very little business doing; as is usual at this time of year, the demand is of a mere retail character. Stocks are generally light, and prices fairly maintained, especially for Brandies and Gins-Gonuine Brandies are likely to be dearer, after present stocks are exhausted, owing to the grape crop in France being an absolute failure; the leading European shippers will not name prices for Brandy in bulk. The recent advanced prices for Gooderham & Worts' brands, 5c per imperial gallon for 50 O. P. spirit, and 3c do for 25 U. P. Rye—referred to in our last report, will be found in reference to our "prices current." Remittances reported good. The imports for November were:

1879. 1880.

LEATHER —A good steady trade is being dote for the time of year. Manufacturers are buying moderate-sized lots of nearly all kinds for their Spring requirements, but no large sales reported. Prices on the whole steady, no quotable change to note; Sole leather may be reported a shade easier, although the best qualties are not over abundant, and for these values rule fairly steady. Shipments of Buff and Sole to England continue.

Damy PRODUCE.—The Butter market has remained lifeless all week; no demand from shippers, and scarcely any transactions of a reportable character. During the past couple of days

a few lots of the finest Townships and Morrisburgs have changed bands, at 20 to 21½c; one lot of 300 tubs of exceptionally choice Townships is reported to have brought 22c. A tot of 500 tackages Kamouraska at Quebec was sold to a Montreal dealer at 14½c. Latest mail advices from Liverpool report a slightly better feeling there, created, doubtless, by the unusually light receipts from America during the past formight. There is no improvement reported in New York; some little demond from local buyers prevails, and a few out-of-town orders are being filled, but exporters are not making much show. With the weakening on values a few are looking around on the possibilities of securing samething on their limits; they r port their ability to secure good firkins at 23c, and really fine factory at 20c, but do not appear to consider these figures low enough. Cheese remains quiet and uninteresting, with prices nominal; holders are firm, but do not anticipate any movement until after New Year's, when they expect to see a turn for the better. New York market is quiet, with holders firm, and asking 13c and upwards for fancy September. At Little Falls on Monday, quotations were 10c to 11½c, with the bulk sold at 10½c; and at Utica 1,200 boxes sold at 10 to 11c; bulk at 10c.

Day Goods.—The majority of houses are stock-taking, and stocks have been found considerably lower than at the like date last year. For the time of year the trade are kept fairly busy with sorting-up orders for cottons, woodlens, and fancy goods suitable for the Xmas trade. House-sales, however, are few, ensumers visits being confined pretty much to those of city retailers, who continue to do a good business, and expect to be busy until after the holidays. Country merchants continue to report trade good and make prompt payments; in fact wholesale merchants complain of the frequent demands for barge discounts for cash. With reference to the probable advance for colored cottons by Canadam mills, intimated in our last report, it may be stated that all orders taken now for these goods are at values at time of shipment, and the advanced quotations will probably take effect at the beginning of the new year.

Fish.—Labrador Herrings bee ming scarce, that is really good qualities, for which prices are reported firmer, at \$5.62½ to \$5.75, sales of good sized lots lawing been made at these figures. Lake Trout is now in stock, and No. 1 are selling at \$4.25 per half barrel. Green Cad quiet and firm, at \$4.00 to \$4.50, and Dry do at \$4 to \$4.25. Trade is generally quiet, and for other kinds prices remain nominal, at the figures last quoted.

Farights.—The rates from Montreal to Liverpool via Portland are: For heavy grain, 7s to 7s 6d per qr. of 480 lbs.; flour, 4s 6d per barrel; ashes, pots, 35s; pearls, 42s 6d; butter and cheese, 45s per gross ton.

FRUITS.—The consignments of Oranges, referred to in our last report, arrived in superior condition and met with a good demand, now selling at \$6.50 per case for Valencias and \$3.00 per box for Messinas; of the latter a sale is reported of 500 boxes at \$3.00. At a trade sale last Monday over 100 packages oranges sold by auction at from \$6.75 to \$8.75 per larl, and \$4.25 to \$5.75 per crate. Lemons scarce, and in good request at \$4.00 per box for Messinas. Apples.—Cheice, sound fruit firmer, worth \$2.50 per brl, but only a small jobbing business leing done. Inferior and damaged fruit sold at all kinds of prices, 500 brls of frozen apples, removed from \$8.00 box for frozen apples, removed from \$8.0 boxinion at Sorel, sold at \$1.00 to \$1.10. Cable advices received Thesday last report the average price of Canadian Apples in Liverpol 1a 15s; Conadian continue to be preferred to \$6.00 per brl; supply limited.

Cranberries firm, and in good request at \$7.00. New Dried Apples are becoming plential, but sales slow, at 52c to 6c per lb.

Funs. - Manufacturers continue very busy having more orders in hand than they can conveniently execute before the close of the season, and many more have had to be refused. The offerings of Raw Furs are not yet large, and all are readily taken at full prices, which we quote below. The market for Raccoon is strong and improving; in the course of another fortnight the supply of raw skins will likely be large. Latest London mail advices received amountee that the Hudson's Bay Co. will bring forward the Beaver, Marquash and Rabbits on the 18th January, and the remaining articles on the 14th, 15th and 16th March The United States and Canada fur sales, including Beaver, Musquash and Opossom, will take place in London on the 24th and 25th January, and the sale of other articles from the 15th to 30th March. The Hudson Bay Co's importations include 8,487 Bear skins, Co.'s importations include 8,487 Bear skins, 109,032 Beaver, 4,533 Fisher, 17,732 Fox, 14,658 Lynx, 42,847 Martin, 31,134 Mink, and 10,221 Otter. Bear, \$7 to \$10; Fisher, \$7 to \$9; Otter, \$10 to \$12; Beaver per lb, \$2,50 to \$3; Red Fox, \$1,25 to \$1.60; Cross, \$2 to \$5; Martin, \$1 to \$1.25; Mink, \$1 to \$2; Lynx, \$1.30 to \$2; Skunk, 50c to 96c; Raccoon, 40c to 60c; Fall Muskrat, 7c to 10c; Winter do, 9c to 11c; Kitts, 2c to 5c.

HARDWARE AND IRON -There is nothing of interest to report concerning hardware; dealers are tolerably busy stock taking, but no quotable sales have been made or expected to be until the beginning of the new year. Prices throughout the list are nominally unchanged, and remittances continue first-class. The English market for Tin Plates remains firm, with an upward tendency, but the demand here is confined to country dealers, and sales are quite small. The Pig Iron market has been somewhat easier, holders having shown more dispesition to sell; this is owing to slightly lower prices in Glasgow, together with the easy modes of transportation to this city or the West. Warrants in Glasgow are quoted by cable at 51s 9d, Coltness at 63s and Eglinton at 53s. Sales reported here include a lot of over 100 tons Eglinton at \$19.50; another of 200 tons do, at about the same ligure, and about 250 tons of Siemens, in lots, at \$19.50 to \$22 for No. 1. Some holders have receded 50c per ton within the week, and are offering to sell at the reduction. About 80 tons of Bar Iron and nail plates have changed hands at from \$1.80 to \$2.10, according to size of lot.

HIMES AND SKINS.—The offerings of green Hides have been slightly in excess of the demand the past week, and the market is a shade weaker, in sympathy with Western markets, where there has been a decline of \$10, but we have no change to note here, \$10, \$9, and \$8, being still paid to butchers for Nos. 1, 2, and 3, being still paid to butchers for Nos. 1, 2, and 3, with an advance of \$1 on these figures charged to tamers. Sheepskins not quite so plentiful; all offering have been taken at from \$1.10 to \$1.25, as to size and quality.

POULTRY, ETC.—The demand for choice dressed poultry has continued fairly good, but, owing to the thaw, the market closes rather casier. Receipts for the week have not been large, but stocks will likely be forwarded more freely if the present mild weather continues. Prices per lb.: turkeys, 7½c. to 8½c. (a very choice lot, 308 lbs., realized 9c.); chickens, 6c. to 7c.; geese, 4½c. to 6c., and ducks 7c. to 8½c. Deer plentiful, carcases selling at 4½c. to 5½c, and saddles at 8c. to 10c. Partridges warth 55c. to 60c. per pair, and quail, 82,59 per doz.

Phovisions.—The stock of mess park in Chicago is estimated at 170,000 to 175,000 barrels, and of lard, about 55,000 tierces; that market has been weaker this week, but yesterday closed

about steady, at for pork, \$12.95 Jan., \$13.10 Feb.; and for lard, at \$8 324 Jan, \$8.45 Feb. Receipts of hogs in Chicago are increasing, averaging for the past few days over 40,000 per cay. In this market trade has ruled quiet. Mess Pork in fair demand, and selling at \$16.50 to \$16.75 for old, and \$17 to 17.25 for small lots of new Canada. Lard steady; about 1,000 pails of Fairbanks have sold, in small lots, this week at 121c, and Canada is selling at the same price for kettle rendered. In Hams there is searcely anything doing; nominal quoted at 121c to 13c. Eggs.—fresh qualities extremely scarce, and worth 24 to 25c; limed eggs are becoming plentiful, and quoted at 20 to 21c, but the outside figure is seldom realized. Dressed Hogs dull, arrivals quite sufficient for the demand, as the mild, soft weather is depressing the market, and packers have not commenced winter operarecent sales on spot, but car loads of choice grades were sold this week at a point west for this market at \$6. The range is from \$6.25 to

Salt.—Liverpool coarse, being now in store, is quoted higher, at 574c to 60c per bag. Prices for other kinds analtered. Sales slow.

AMERICAN MARKETS.

Chicago, Dec. 16, 2.15 p.m.—Wheat, Dec. \$1.00\frac{1}{2}; Jan, \$1.07\frac{1}{2}; Feb., \$1.02\frac{1}{2}. Corn, 1.03 p.m., Dec., \$8\frac{1}{2}c.; Jan., \$1.67\frac{1}{2}c.; May, 13\frac{1}{2}c. ENGLISH MARKET.

Beerbohm, 16th Dec., 1880.—Floating cargoes Wheat, Maize, slow. Cargoes passage Wheat, Maize not much enquiry. London fair average 2 Red Winter, shipment present, following month was 468-3d, now 468. Red, prompt shipment, was 468-3d, now 468. Liverpool Spot Wheat dull. On passage U. K. ports (call and direct ports), Wheat, 2,050,000 qrs.; Maize, 440,000 qrs.

TORONTO WHOLESALE MARKETS.

(By Telegraph from our special corresponde t.)

TORONTO, Dec. 16th, 1880.

The movement of general merchandise the past week has been fairly active, act with standing the changeable weather and the near approach of the holiday season. The past year's trade is significant from the fact that wholesale merchants have experienced a steady and continuous demand throughout the several months. Orders have been small in bulk but numerous, which is looked upon as favorable to a healthy condition of affairs in the country. The dry goods trade is reported as quiet in staple goods, which is attributed to the time of year. Woollengoods, tweeds, &c., are firm in price, with a probability of slightly reduced figures for Spring makes as compared with a year ago. In cottons there is a moderate movement and indications point to higher prices. Manufacturers have advised dealers that on all future orders advanced prices will rule. All descriptions of Canadian manufactured goods are scarce, and sales have been unusually heavy during the year. Payments are good; and, what is somewhat unusual, country merchants are inclined to pay cash to save the discount. The money market has been firm, but business has slightly fallen off at the banks. Accommodation is not asked for to a large extent, and discounts are unchanged. Prime commercial paper rules at 6 per cent for large amounts and 7 per cent for the ordinary run. Call loans are firm at 5 and time loans at 6 per cent. Sterling exchange has been somewhat unsettled, but there is little doing among banks; sixty-day bitls over the counter are 1083 to 1084 and demand bills 1083. Gold drafts on New York are higher at 1 to 5 premium. The stock market has not been as active during the current week; and on account of a disposition to realize, prices are from 1 to 5 per cent. lower for banks, with the exception of Dominion, which is higher. Among sales the past few days were the following:-Merchants at 117, Ontario at 981 down to 96, Standard at 1042 and 105, Imperial at 1202 down to 1183, and Dominion at 142 and 1424. Loan and Savings stocks were quiet and firm, with sales of Building and Loan at 98%, Imperial Savings at 1191, Canada Landed Credit Company at 141 and London and Canadian at 150. Insurance stocks dull and firm; and miscellaneous shares easy. Consumers gas sold at 148, and Dominion Telegraph offered at 903, without

The following are to day's bids for banks and the leading loan companies as compared with last Thursday:

Sanks.	Bid. Dec. 0	Bid Dec. 16	Loan Cos. Dec. 9 Dec. 16
Montreal Toronto Ontario Merchants Commerce Dominion	141 995 117 1435 141	139 96 116 139	Can. Permanent 196 198 Freehold: 157 157 Wostern Can. 164 164 Bidg. & Loan. 981 91 Junp. Savings. 118 119 Farmers' Loan. 121 1213
Hamilton Standard Federal Imperial . Molsons	107 1013 120	132 1173	Lond. & Can'dn 149 149 148 146 148 146 148 148 146 148

BOOTS AND SHOES.—This business has been quiet during the week, with prices firm and unchanged. Orders are of a small sorting up description. Some houses have their travellers out with Spring goods, and stock-taking is about at an end.

COAL OIL.—This market has been quiet for the time of year, and the city trade has been affected by greater competition with western firms. Prices are still 25c per imperial gallon for five to ten barrel lots and 26c for single barrels.

Coal.—There has been a good business the past week, although orders have been chiefly for small lots. The comparatively high prices of this season and the agitation of the question by citizens led the public to believe that prices would surely fall. They consequently held off from buying early in the season when the price of hard was \$5.75. On account of the harmonious working of the producing companies in the states, higher freight rates, small stocks and immediate demand, prices have further advaced, to the sorrow of the consumer. Quotations are now \$7 for egg, stove, grate and chestunt; \$6.50 for the best soft coal and \$6 for second quality.

COUNTRY PRODUCE.—Apples.—The local market has been well supplied from farmers waggons, which has been unfavorable for rail lots. Choice fruit, selected, in barrels, sell at \$1.75 wholesale and inferior qualities at \$1.40 \$1.50. Beans are coming forward freely, and

are steady in price; msdium to good qualities sell at \$1.30 to \$1.35, and hand-picked at \$1.45. Country Lard is selling at 10c. Eggs are in moderate demand and lim at 19c to 20c for case lots of fresh, and 18c for limed; they sell as high as 25c on the street. Hogs are offering more freely and prices are easier; car lots, averaging 180 lbs., are now quoted at \$5.90, and 200 to 220 lbs. average, \$5 to \$6.10. Hops are steady, but brewers are not taking hold freely. Choice lots are held at 23c to 24c, but they are seemingly scarce; Medium, 20c; Inferior, 15c to 18c. Onlons are firm and unchanged at \$2.75 per barrel for large lots and \$3 to \$3.25 for barrel lots. Polatoes are in poor demand and easy; car lots offer at 35c, without sales being reported. Poultry is firm; Geese and Chickens bring 4c to 5c per lb., in boxed lots, and Turkeys, \$c to 9c, the latter prices for fresh killed. T those is quiet and prices unchanged; dealers pay 34c for rough and 6c for rendered, and sales have been made at 64c during the week.

Days and Chemicals.—Trade continues quite active in drugs, and prices are firm. The only quotable change is in Quinine, which is now selling at \$3.40. Option is firm at \$8.60 to \$8.75, but it is thought that higher prices in New York may be reported at any moment. Heavy Chemicals are moving slowly, and dyestuffs are firm and unchanged. Remittances are good, and the feeling generally among dealers is hopeful.

Whe ar.—The market this week has been even duller than the preceding one. The sales are limited to ear lots for immediate orders, which are few. The falling market in Chicago is the chief cause of the inactivity. No. 2 Fall Wheat is worth \$1.10 to \$1.11, and No. 1 about two cents higher. No. 2 Spring has been most enquired for at \$1.15 to \$1.16, but holders are asking \$117; and No. 1 Spring is nominal at \$1.18. Five cars of No. 2 Fall sold yesterday at \$1.10. Stocks of Fall increased while those of Spring decreased during the week; the total amount in store is 116,978 bushels against 252,645 tushels last year at this time. The feeling to-day is easy, and the only sale has been No. 2 Spring at \$1.15.

FLOUR AND MEAL.—Business during the week has been dull, there seemingly being no buyers in the market. The latter part of last week a few sales of Superior Extra were made at \$5.00 in store, and of Extra at \$4.95 f.o.c. On Monday an outside sale of Superior was made at equal to \$5.05 here, and on Tuesday, 5,000 burrels of were offered at the same price in bond. January delivery, without bids. There was no change yesterday, the only sale being Extra at equal to \$4.95 here. There is a slight increase of stock in store, the quantity now being 4,600 barrels, as compared with 11,300 barrels the corresponding week of 1879. No business reported to-day. Superior Extra offers at \$5, without buyers. Outmeat is quiet and firm at \$4 to \$4.10 per car load, according to brand. Cornmeat is unchanged, with business restricted to small lots at \$3. Brrn is apparently a little easier, offering at \$13.50; buyers would have to give \$13.

Coause Grains.—Banley.—The feeling has improved during the week, in consequence of higher prices and a good demand from the States. Sales were made the latter part of last week of No. 1 at 96c, No. 2 choice at 92c, No. 2 ordinary at 88c, No. 3 extra at 82c, and No. 3 at 78c. On Tuesday and yesterday the market was strong, with sales of No. 1 at 98c, No. 2 at 92c, and No. 3 Extra at 84c. The stock in store increased 45,000 bushels during the week, there now being 398,629 bushels against 153,920 bushels the corresponding period of last year. There is a fair inquiry to-day, but holders are not inclined to sell. No. 1 would bring \$1,05; No. 2 Choice sold at 98c. Outs are firm on small receipts, but the demand is only moderate,

Sales are being made at 35c on track. Peas are coming forward slowly, and the demand is apparently not as good as last week A few sales of No. 2 have been made at 68c, and No. 1 are worth 69c. Stocks increased 8000 bushels during the week Rype is in poor demand, with an easier feeling; car lots are nominal at 80c to 87c on track. Corn is firm, and business quiet. Car lqts are held at 60c on track.

Faggur.—Rail freights are firm, on the basis of 24c on flour to Belleville and 40c to Montreal. By Portland to Liverpool flour is \$1.18 per barrel; pork and meats, 5% per 100 ths.; and apples, \$1.36 for lots of 130 barrels and over.

GROVENIES .- There is a fair amount of business doing in this branch of business, and reports from travellers are satisfactory for this time of year. The demand for fruits has been active, and, as round lots cannot be had, prices are firmer than previously quoted. Valencias are firm at 8c, and Sultanas are firm at 10c, an advance of &c. Currents are unchanged at 6 lc. London layers are steady at \$2.75, black basket at \$3.50, and blue crown at \$4.75. Filhert nuts sell at 9c; walnuts, 10c; almonds 17c; Brazil, 10c to 11c, lemon pecl, 25c. Fish are in moderate demand and steady, at last week's prices, with the exception of Labrador herring and codfish; the former is now \$6.50, and the latter \$5. Proper is steady at 16c for white, and Hige for black. Sugars are fairly active and firm at last week's quotations. Teas are more steady, with prices not quotably changed. Liquors are in moderate demand and firm, at the advanced prices published last week. Tobuccos are unchanged at 43c to 45c for Navy 3s, 36c to 45c for Solaces, and 80c to 90c for Virginia

llaudware and Igon.—The demand for seasonable goods is reported fair, orders for sorting-up showing no cessation. A number of houses are engaged in stock-taking, and the tone of the market is strong. There has been a fair movement in Babbit metal on the basis of Sc for No. 3. Canada Plates are firm at \$3.75 to \$4 per box for Pen, and \$3.50 for Ilation. Nails are unchanged, with a fair movement reported. Manila Rope is higher, at 10½c to 11c, per lb., in sympathy with an advance in the raw material. Tin block is steady at 27c to 28c, and grain 28c to 29c. Tin Plates are slow of sale and unchanged in price. There is a much firmer feeling in iron, and prices of Pig are higher, although the movement is yet small; Eglinton is held at \$22, Summerlee at \$22.50, Coltages at \$23, and Siemens at \$23.50.

Hides and Skins.—Hides.—The market has been fairly supplied during the week, and dealers have reduced prices of green 1c. They now pay butchers 91c. for cows, and 10c. for steers. Inspected cows are steady at 10c to 101c. Callskins are not quotably changed, being nominal at 16c to 17c. Sheepskins are in fair demand and firm; dealers pay from \$1.35 to \$1.99 for green according to size; and dry are unchanged at 90c to \$1.30.

LEATHER.—Business has not been quite as active this week, but is fairly active for the season. Dealers as a rule anticipate a large movement at firm prices. There is a fair enquiry from manufacturers, and country orders are moderate. No. 1 Spanish sole is 29e to 30; heavy sole, 30c to 32c; oak belting leather. 30c to 31c; harness, 32c to 35c; heavy upper, 37e to 39e, and light to medium, 35c to 41c.

LIVE STOCK.—Cattle.—The receipts at the local market during the week have been small, and prices firm. The attendance of buyers the past few days was poor. There were only from twelve to fifteen car loads received since our last report: and among sales reported were 16 head at \$44, 21 head at \$34, 17 head at \$38, 28 head at \$47, and 21 head at \$34 each. There is

no shipping demand. Sheep have been in good demand and prices are firm; offerings mengre; sales were made at 3½ to 4½ per lb. Lambs are also in good demand, and several shipments have been made to the States; prices range from \$3.25 to \$4 each. Calves are unchanged, with few offering; first-class are worth \$8 to \$10, and second-class from \$5 to \$7. Hogs are rather easier, with sales at 4½ to 5c per lb.

Provisions.—Butter.—There is nothing new to report in the state of this market; shippers are out of the field, in absence of demand from Britain. Choice lots for this purpose are nominal at 18c in the country and about 20c here. Dairy tubs for city trade are unchanged at 18c to 20c for the best, and 14c to 18c for medium. Large rolls are plentiful at 16c to 18c. Bacon is quiet and unchanged at 8½c for Cumberland cut and 9c for long clear. Ilam is also quiet and prices steady at 10½c for smoked. Lard is moderately active and easy; Camadian sells at 11c to 11½c and American refined at 12c. York is inactive and price easy at \$16.5a. Cheese is dull and slightly easier in sympathy with Liverpool; choice qualities, 13½c., and medium 13c. Dried Apples are coming forward freely, but the demand for barrelled lots is slack; country lots, 3½c to 4c; and selected lots in barrels, 4½c to 5c.

Seeds.—Glover.—There have been no sales reported since our last, but the feeling is one of firmness. Old seed is worth from \$4.80 to \$5 per bushel. Timothy is quiet at \$4 to \$4.25 per cental, and flax seed at \$3 per cental.

Woot.—The demand for round lots of fleece has been active during the week on orders from the States; sales were made at 31c to 32c. Pulled wools are firm at 30c to 31c for supers and 35c to 37c for extra.

Special Notices.

Beaconsfield Vineyard G.T.R.—Near Point Claire, P.Q.—The Messrs. Gallagher & Gauthier are meeting with immense success in their new enterprise, as witnessed by the following important testimonial:—

"We have purchased (last fall) from Mr. Geo.
F. Gallagher several hundred plants of the Grane Vines—Beaconsfield."

"They are growing wonderfully—even beyond expectation. Some of those young Vines have already produced six and seven bunches.

"The vigorous growth of the plants surpasses that of almost all shrubs and vegetables of our garden, and promises great results for the future, with little trouble.

"LES RELIGIEUSES HOSPITALIÈRES
"DE 1/ HOTEL DIEU DE ST. JOSEPH.
Montreal, July 24th, 1880.

Such letters as the above are being constantly feecived, and indicate the care and attention which Messrs. G. & G. are devoting to the cultivation of vines, small fruits, etc. All orders should be addressed to Gallagher & Gauthier, Beaconstield, P.Q., or to their office in Montreal, No. 57 St. Gabriel street.

EMPLOYEES

IN POSITIONS OF TRUST.

THE CANADA GUARANTEE COMPANY I is specially devoted to the issue of the above Its Bonds are authorized to be accepted by the Dominion and Provincial Governments. It is the only Company which has made the required deposit of \$50,000 with the Government, and the only one authorized to transact Guarantee business throughout the Dominion.

In the past few years this Company has reimbursed, without a single contest at law, over \$100,000 to Employers for the defaults of Employees. 2 ...

SPECIAL TO BANK OFFICERS.

This Company has inaugurated a system of Bonus to the insured, which after a certain number of years gives an annually increasing reduction in the premium, the reduction this year varies from 15 to 35 per cent.

President:

SIR A. T. GALT, G. C. M. G. Vice-President:

> JOHN RANKIN, Esq. EDWARD RAWLINGS.

> > Manager.

HEAD OFFICE, 260 ST. JAMES STREET, Corner of McGill Street.

Walker's Improved Butter Worker,

Berlin, Ont., June 22nd, 1880.
Mesers. Hughes, Innes & Co Tormto.
Gentlemen,—I have used Walker's Patent
Butter Worner, which I purchased from you
lately. I am well satisfied with the working of it; it blends the different colours of butter well, without making it greasy, and I consider it to be the best Butter Machine made

ABSTRACT OF 33rd ANNUAL REPORT TO 30th APRIL, 1880. ABSUMA OF SOM ARROLD REPORT 10 cent AFRIL. 1800.

Assets 30th April, 1880. (exclusive of Capital).

1. Assets 30th April, 1880. (exclusive of Capital).

1. Assets 30th April, 1880. (2,768.)

1. Assets 30th April, 1880. (2,768.)

1. Assets 30th April, 1880. (2,768.)

1. Policies is store 30th April, 1880. (2,768.) upon 10,540 lives, for. 21,547.759

1. Ratio of expenses to income — per cent.

Business and Position from its f undation in 1847 to 1880 :--

Period.	Assuran es in force.	Annual Revenue.	Claims paid.	Total Funds.
1850	\$ 814,902	\$ 27.838	\$ 1,200	\$ 41,873
1860	3,365,407	133.446	226,773	664 929
1870	6 404,437	273,728	680,154	1,090,098
1880	21,547,750	835.856	1,845.862	4,297,852

1880 versus 1850.—The assurances now (1880) in force are twenty-five times greater. The annual revenue thirty times, and the total funds One hundred times greater than in 1850.

MIUTUAL I REFER The ASSOCIATION OF CANADA.

The Board of Directors of the Mutual Life Association of Canada announce that they have increased the Deposit of Securities in the hands of the Dominion Government for the protection of Policy holders to over \$90,000.00 (par value) or nearly 80 per cent. of the Reserve.

The Directors further announce that they propose to increase such Government Deposit from time to time to the full amount of Reserve required to cover policies in force, thereby giving absolute security to the Policy-holders. The investments of the Company are all held within the

Dominion of Canada.
