## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below.

Coloured covers /
Couverture de couleur
Covers damaged /
Couverture endommagee
Covers restored and/or laminated /
Couverture restauree et/ou pelliculée

Cover title missing /
Le titre de couverture manque
Coloured maps /
Cartes géographiques en couleur
Coloured ink (i.e. other than blue or black) /
Encre de couleur (i.e. autre que bleue ou noire)
Coloured plates and/or illustrations /
Planches et/ou illustrations en couleur
Bound with other material /
Relié avec d'autres documents
Only edition available /
Seule édition disponible
Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.

Additional comments /
Commentaires supplémentaires:

L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-étre uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la methode normale de numérisation sont indiqués ci-dessous.

Coloured pages / Pages de couleur

Pages damaged / Pages endommagées

Pages restored and/or laminated /
Pages restaurees et/ou pelliculees
Pages discoloured, stained or foxed/
Pages décolorees, tachetées ou piquées
Pages detached / Pages détachees
Showthrough / Transparence
Quality of print varies /
Qualité inégale de l'impression

Includes supplementary materials /
Comprend du matériel supplémentaire

$\square$
Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from scanning / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été numérisées.

## ©ommertia Summay.

Eugexe Provost, retnil grocer, this city, is in trouble for the second time, and lans assigned to two of his principle creditors. The business will be wound up.
The grain crops in the Ottama district are still backward. The hay crop, however; was very lirge and of five quality, and has all been harvested in good condition.
We regret to have to announce the death on Mondry last of Mr. C. F. Smith, manager of the Quebec branch of the Bank of British North America.
A. B. Sieraton, dealer in carpets and house furnishings, St. John, N.B., is reported to have failed, owing from $\$ 80,000$ to $\$ 100,000$. The creditors are chiefly Canadian, and understood to be preferred.
A London cable says : It is estimated that the English home grain crop will be two million quarters less than last year. Some English papers are building hopes of an active grain competition from India and Siberia.

IT is stated that the fruit crop of the Annapolis Valley, Nova Scotin, will be $\Omega$ failure this year, from various catses, among other, the previlence of the canker-irorm, late frosts and blighting winds.
The Festern Extension of the Canada Atlantic Rallway is expected to be in running order next week, and a large business will probably be done in lumber to Montreal and the East.

Joserh Nixon, retail boot and shoe dealer, Winnipeg, is secking an extension, and will shortly visit this city to intervicr his principal creditors. He bought heavily in the Spring, and sales having been small, is understood to be carrying a large stock.
The firms of Smith, Burch \& Co and O. H Cordingly \& Co, of this city, have amalgamated, but will still continue urider both firms ${ }^{\text {i }}$ names as heretofore. Mr. Smith will take to "the road," and we entertain no doubt will give a good account of himself.

mandfactured by
WM. LUNAN \& SON, sorel, que.
Sold by leading Grocers in Canada, NewfoundInnd, the West Indies, Bermuda and South A merien

The season in Prince Edward County up to within a few days ago has been wet, cold and unfavorable for barley and corn. Lately, however, things have begun to look better, and, if favorable weather continues, there will be a tolerably good harvest. Fruits, especially apples, appear to be doing well.
Tus coal output of Nora Scotin for this year promises to exceed that of any former period. In the six montls ending June $30 t h$, the product was 642,511 tons, against 520,063 tons for the like period of 1882, an increase of 113,448 tons or about 21 per cent. The annual output has been increased during the past four years by about 700,000 tons.

Tin Oanada Pacific Railway is reported to be completed to Calgarry, Man., and it is expected that the summit of the Rocky Monntains will be renched some time in November next.- The ground will be broken, and active operations commenced on the Canada and Onited States Railrond, which is to connect Fort Covington with the.M. \& C. I. R. R. next Thursday, 23rd inst.

Thetony Sykes, of Bloomfield, Ont., who has carried ona tannery at that place for a number of years, recently made an assignment, showing liabilitics, it is reported, of $\$ 7,000$ to $\$ 8,000$. The total of nssets is nut $k n 0$ mn, but supposed to be about $\$ 5,010$. [t is thought by some that Sykes is nole to pry in full. A mumber of writs have been issued and served, notwithstanding his assignment.

TuE Montreal firm of Guenette \& Nelson, furniture dealers, assigned in trust last week. They have only been in business some two years, and hare been in doubtful circumstances for some time; recently a writ of saisic arrat before judgment was issued against them for $\$ 1,973$, and they were compelted to assign. They showed a deficiency of nbout $\$ 3,000$, on liabilities amounting to $\$ 9,000$.

Thr strike of 300 coal miners in the Wellington Colliery, at Departure Bay, B C., will, it is said, necessitate the closing of the mine, thus throwing 900 men out of employment. The strikers demand a large increase of pay, which has been refused. The average monthly shipments of conl from the mine to Victoria, B.C., amount to 14,000 tons. Ships are unable to obtain cargoes, and have to go to Seattle to get coal.
A mering of the wholpsale crockery firms from and between Montreal and London was held at the City Hotel, Kingston, on the 7 th inst., to form an association of the crockers trade, which will be known as "The Crockery and Glassmare Association of Canada." Mr. Adam Darling, of Montreal, was elected the first president; Mr. W. J. Reid, of Messrs. Reid © Co., of London, vice-president, and Mr. John Edgar, of Messrs. John Edgar \& Son, Toronto, sicretary-treasurer, with an excellent executive cominitte to manage the details of the association. The deliberatious of the meeting were cordial and manimous.

We have learued, with deep regret the death of the Hon. James Gockburn, of the law firm of Cockbirn \& McIntyre, Ottawa, who was speaker of the House of Commons in the first and second Partaments of the Duminion. Mr. Cockbnen was born in Scotland in 1819, and was called to the Upper Canada bar in 1846. He entered public life in 1861, as member $\mathrm{t}_{\mathrm{o}}$ or West Northumberland, defeating the Hon.

Sidney Smith, and was, in 1864 , Solicitor General in Sir John A. Macdonald's Government. He made an excellent speaker, and possessed the confidence and esteem of all who enjoyed his acquaintance.

Mhs. Delaney, of Kingston, fracy goods dealer, referred to Inst week, has made an assignment to Mr. John A. MeMahon, of that city. Her stuck in trade (nominal ralue $\$ 1,500_{\text {, }}$, renl value $\$ 500$ ) constitutes the whole assets, and the liabililies, as far as ascertained, foot-up \$1,800. - The offer, alrendy made, of 35 c on the dollar is said to be more than she can pay. The assignee attributes her failure to living under too henvy expenses, she having afforded a home for tro near relatives and their families. It may be mentioned that her husband, also an unsuccessful merchant, some monllis ago opened a store at Perth, presumably with stock partly supplied by the Kingston store.

The silk manufacturing industry in this city has grown to such proportions as to render necessary extensive enlargements to the factories in operation. Messrs. Belding, Paul \& Co, are laying the foundations of a new building with double the capacity of the present one at St. Gubriel. It will be 150 feet long by 45 feet wide, and four storeys high, with basement: The firm at present employ about 300 persons, which number will be considerably increased When the new factory is completed.

Following is a return of the Post Office Sarings Banks of Canada, for the year ending 30th June, 1883, compared with the previous year:-

millions, including loans of about one million, secured by collaterals.-F. O. Stedman \& OO. hare also suspended, with liabilities of about $\$ 200,000$. Mr. Stedman is well known to the literary world as a poet of no mean order.
E.B.D. LAFLEUR, general storekeeper, Bryson, Ont., held a meeting of his creditors in this city last Wednesday, and showed a statement of liabilities footing up $\$ 5,876$, to pay which he claimed assets of $\$ 5,219$. He offered 50 c on the dollar, secured, and 5 c , unsecured, which the creditors seem disposed to accept in the absence of a better paying alteraative. This is the second time Mr. Lafleur has failed during a career extending over several years; the present difficulty is attributed to general speculation, frilling-off in trade, and disproportionate expenses.

THe press despatch published last week concerning the failure of the Boston firm of Shaw Bros. was evidently sent by one of the new and inexperienced telegraph operators, At a mectiog of their creditors held in that city on Wednesday last, the direct linbilities were stated to be somewhat over $4 \frac{1}{2}$ millions, contingent $\$ 2,897,000$, with assets nominally $0^{\circ}$ oyer $5 \frac{1}{2}$ millions. "Trying 10 do too much" is

the banks more cautious in their dealings, even with deserving, legitimate conterprises, and business men will consequently be obliged to contract the volume of trade within assured resources and limits. There appears to be no apprehension of any panic such as that of 1873. A few bunk have given way, to be sure, bat they are confined to those whose funds bave been employed for speculative purposes. These things are not without their lesson, and should commend themselves to one or two illegitimate concerns in Oantada, the managers of which thiak themselves beyond the influence of natural caues.

Aduliterated Wines.-The American Consul at Ronen returns to a previous charge of his on the adulteration of Frenol wines, which has causel alverse comment in France. He says: "Ithe filsification of wine is carried on to $n$ considerable extent in France, and a portion of the wiue thus frlsified is sent to the United States. To beller argument can be furnished of the existence of this practice than the establishment by the French Government, in the iaterest of public health, of the ercll-organized laburatories fur the analysis of wines and other liquids which are disurbuted chroughont the principal towns of France. Ibis step was not taken whthout due consideration. It was known and admitted that these falsifications

were increasing to such an extent that some. thing had to be done to protect the people toward whom the French Government seldom ceased to exercise a parental relalion. Many of the mixtures referred to were inoffensive, but some were not, and this justified the action of the Government in the determination to protect its eitizens. . The Frenchegovemment having taken this ground, it appears illogical on its part to complain of the Inited Slates Governmert for taking advisory mensures looking to some similur action fur the protection of the people of the United Sintes, to whom a certain portion of falsilied wine is exporied. If ihis liquid is considered injurions to the French people it must necessarily be ennsidered injurions to the American people. For some years France has been laboring under the misfortune of constantly decreasing production in her vineyards. The presence of phylloxera and the demind at home, and abroad has been grenter than during the period of wine prosperity. The

Finance and Insurance Review.
MONTREAL, AUGUST 17, 1883.
inflation in manitoba.
There is, we imagine, very little difference of opinion in the older Provinces of the Dominion, as to the fact that there has been serious inflation in the Province of Manitoba, but we have reason to believe that an idea prevails in that region that the stringency which has been felt of late has been caused by what is termed a "bad Bank Policy," in other words that the agencies of the banks in the Tastern Provinces have uunecessarily curtailed their loans in Maritoba. This is said to have been done under instructions from the head offices of the banks, and accordingly the managers and directors of those banks are charged with endeavoring to destroy their customers, a course of action which would simply be suicidal. Fortunately; we are furnished, by those who complain of the Enstern banks, with a statement of their own views as to what policy bankers, with a proper sease of
their duty to their shareholders, ought to adopt. It is admitted that Manitoba merchants are overstocked with goods, the reason assigned being that farmers cannot get the same money accommodation as in older communities. Their lands cannot be mortgaged for enough to materially assist them in purchasing, and in many crses cannot be mortgaged at all because of incomplete titles. It is said that in the East farmers are allowed by the banks to fly kites, or to get accommodation by bills based on prospective crops. Eastern bankers, we apprehend, will not admit the correctness of the allegation that they are in the habit of making loans to farmers on prospective crops, and the admission that their agents in the Noith West have declined such loans will cause no surprise. We find a truly deplorable account of the state of affairs in Manitoba in the Winnipeg Free Press. It is admitted that there have been quite a number of adventurers who have obtained goods "beyond all proper proportion to their "resources, eredit, and opportunities for "making sales," but then the necessary insolvencies of such men should not have led to the general restriction complained of. On the contrary it is held that while the stocks of those properly made bankrupts are being got rid of, "unusual liber"ality should ba shown to traders of good "capacity, good character, and good "assets." Now, it is clear from the foregoing admission that there has been serious inflation in the North West, and that credit has been given to parties who were not entitled to it. It is quite possible that one of the consequences of this improvident credit has been what is described as a disturbance of prices by bankrupt stocks, "the rush of buyers to forced "sales, the consequent withdrawal of " eash custom from sound traders, the " tendency of housekeepers to hold off in "anticipation of future 'bargains' when "bankruptcies are numerous," but it by no means follows that the banks who are but slightly, if at all, responsible for the improper credits, should incur any unusual risks. We are told that "every "compromise causes new slaughtering, "that each additional bankrupt stock "takes cash, or good custom from mer"chants struggling bravely," but the remedy is that the "banks should not "refuse the small increase of credit neces. "sary to steady trade." There is an admission that an "increase of credit," beyond that which the banks had been previously asked to give, has been demanded, and this completely demolishes the position of the complainants. We venture to hazard the assertion that the
banks having agencies in the Province of Manitoba have not withdrawn from it any of the capital which they have hitherto employed there, and as they all have agencies in a number of other places, it is hardly reasonable on the part of their customers in the North West to claim that they should curtail their loans elsewhere, in order to increase them in places where it is admitted there has been overtrading. The relations between bankers and their customers are of that character that it is simply impossible for writers in the press to undertake to give advice to the former. The banks must of necessity be guided in each case by circumstances of which they have a cognizance, of which the press cannot pretend to form even the faintest iden. We doubt if any legitimate business paper has been refused by the banks notwithstanding all the complaints that have been made.

## THE COTTON TRADE.

Cotton manufacturers seem no less impressed with the necessity of regulating the product of those lines of goods which have hitherto received most attention in Canadian mills, and those who possess the requisite capital, skill and machinery are applying themselves more than ever to the production of lines heretefore chiefly obtained from Great Britain and the United States. The errors of the last year or two are not likely to be repeated. The bleached goods_now made at some of the mills compare with the very best fabrics of New England. We have already alluded to some of the new brands quoted elsewhere, notably the "N. P." Hochelagn; the "Night Gown Twill" made at the same factory is pronounced by the trade superior to the best imported article. In dress fabrics some excellent goods are being turned out at other mills.

It has hitherto been somewhat doubtful whether some of the smailer mills would find it possible to take part in the effort to reduce the product of grey fabrics, to which they are almost neces sarily confined. The Coaticooke mill has led the way out of the difficulty by devoting one hundred looms-about half their number-to the manufacture of the class of light greys required for print goods, an arrangement entered into for supplying the Magog Print Works which begin operations in February next. This diversion will make a difference of some 1,200 bales or 24,000 pieces per annum. This, however, should prove but a small proportion of the requirements of the Print manufactory,

Notwithstanding the still prevailing hand-to-mouth purchases of grey cottons, the demand for a few brands has already overtaken the supply, and in one or two instances have stepped beyond it. The XXX Hochelaga Standard Sheeting is scarce, and some orders during the present week could not bo filled. Nevertheless, wholesale men are buying only in small quantities, some of the larger houses preferring to send orders three times a day rather than stock up.
The condition of things in the domestic cotton trade, which is gradually being remedied, is one that can scarcely be profitable : to either the manufacturer or the retailer. The consumer has both at a disadvantage but little contemplated by honest party journalists and their disciples only a fer years ago. Were the thousends of operatives now employed in the various cotton mills of the Dominion still moping the winter months at home, a burthen on the family, or were they employed at Lowell, Biddeford or Lewis: ton, the consumer would be obliged to pay much higher for every article of clothing or domestic need made from cotton, and the retailer be deprived of many a dollar which would pass over the counter of the storekeeper in the towns referred to and other places. As itis, a large amount of money is sent out of the country every season to purchase certain classes of wide bleached sheetings, as well as towelings, muslins, and other goods, which our leading manufacturers will probably enter upon ere long, so that it is extremely probable that out of the evil of the last few seasons will arise a new state of things more beneficial to the country, as well as to the enterprising manufacturers.

## ARGUMENTL NOT FOR'THCOMING.

Such is the heading of an article in the Toronto Mail on the disputed boundary, and it is added:-"What we desire is frank argument and honest confronting of dacts." The Mail likewise declares that "when our facts are met and our "arguments are answered, there will bo "an opportunity for fair meeting." Wo own that we have failed to find in the Mail anything deserving of an answer. It is said that the arbitration was "a wanton waste of time and money," because Ontario has always maintained that she had those territorial rights, which Sir John Macdonald's Government had invariably contended for, up to the time when Colonel Dennis made a report to him, dated 1st Oct., 1871, describing wholly different boundaries, and which
report, although containing a gross error in $\Omega$ description, was concealed from the public until the year 1880 , when it was published in the report of the select committee of the House of Commons. That report was the foundation of the claim of the Dominion, and was made shortly after a formal agreement between the Dominion and the Ontario Governments that two Commissioners should be appointed to dotermine the boundary line between Ontario and the "North West Territories." The Commissioners appointed were, for the Dominion, Mr. Eugene W. Taché, of Quebec, and for Ontario the Hon. William McDougall, C.B., the former by order in Council of 28th July, 1871, and the latter by order in Council of 19 th September of same year. It appears therefore that after agreeing to the appointment of two gentlemen, one by each Government, to determine the boundaries, the matler in dispute was secretly left to the aljudication of Colonel Dennis. On OLh March, 1872, Mr. McDougall reported to the Ontario Governnent that "having twice visited Oltawa "in the hope of meeting him (Mr. Taché), "and having conferred with certain mem-
"bers and oflicers of the Dominion "Government on the subject of the "Commission, I have formed an opinion "as to the nature of the instructions "prepared for him." And he then refers to a confidential memorandum which embolied the Doninion claim as urged before the arbilutors in 1878, and which is in accordance with Colonel Dennis' report, and at variance with all the preceding claims of the Government of Canada.

Mr. McDougall, under the very embarrassing circumstances in which he was placed by the extraordinary proceedings just described, suggested the appointment, " before the Comunissioners began "their discussion, of a third person of abil"ity and position, unconnected with Cana"da, to act as umpire in case of dispute, "and the giving to the report of the Com"mission thus constituted, the character "of an award, subjectof course to the final "approval of Parliament." He ards, "So "far as I coull judge both Sir John A. "Aracdonald and Sir G. Cartier, to whom "I made the suggestion, viewed it favor"ably." Two days later, viz, Il th March, 1872, Sir Joha A. Macdonald hransmitted to the Ontario Government a draft of instructions for the guidance of the Commissioners, which determined the boundaries which they had been appointed to determine, according to the very minute of Council which Sir John Macdonald had agreed to. The result
was precisely what might have been anticipated. The Ontario Government promptly withdrew from further action, declaring that the claim of that Province was to a very different boundary. The next step was to invite the Ontario Government to state its boundaries, and it at once suggested a western line not materially different from that subsequently awarded, and proposed to make the northern line the subject of a compromise. The object of the foregoing references to the past history of the negotiations is to establish the perfect good faith of Ontario from their very commencement. The Mail seems to think it inconsistent to maintain the justice of the claim, and yet to be willing, finding it disputed, to leave it to arbitration. It can see no improprietyat all in Manitoba incorporating Rat Portage in the disputed tervitory, and erecting a gool there, and sending there constables and magistrates; but when Ontario adopts a similar policy, its ministers are charged with " cowardice, cunning and falsehood," with "lawless and unjustifiable usurpation." Manitoba has precisely the same right to assume jurisdiction over the entire tervitory awarded to. Ontario that it has to Rat Portage, and the Mril, and many other Ontario journals, seem inelined to encourage that Government to take the law into its own hands.

The Hamilton Spectrtor is more argumentative than the Mail, but unfortunately for the cause which it has espoused it has only injured it. It commences by an assertion for which there is no foundation in truth, viz, that the arbitrators were appointed for a single purpose" to determine the true boundaries of Ontario." As a great point has been made of the word "true," it is desirable to point out that it is an interpolation. No such word is to be found in either of the orders in Council appointing the arbitrators. They were to determine the boundaries, the very object being to decide between a number of conflicting lines, ando the language adopted by Sir Francis Hincks at the conclusion of his lecture at Toronto, conveys the view which they took. It was that "the boundaries set forth in the "award were supported to a larger extent "than mny other line by these facts, and "by the considerations and reasons, "which should and would guide and "govern the determination of the ques"tions by any competent legal or other "tribunal." The Spectator is wholly mistaken in his assertion that "the arbi"trators were never authorized to make "the award," which they did make. The Spectator proceeds to submit reasons for
his opinion that the northern boundaries can be determined. Again, he is unfortunate. In No. 1 he declares, in accordance with the false statement of Colonel Dennis, repeatedly pointed out and never defended, that the charter of the Hudson's Bay Coupany conveyed to it "all "the country draining into Hudson's "Bay." Nosuch words are to be found in the charter. 2ud. The Spectutor thinks that it is capable of proof whe ther the French Dominion extended north of the height of land. of course it is, and there is no dnubt of the fact. 3rd. The Treaty of Utrecht contains no such words, nor any bearing such a construction, as the restoration of "all the territories within the watershed of Hudson's Buy." It is rather too bad in the Spertator to invent such language merely to suit a purpose. A line or two from one of the numerous French documents should convince him of his error : "The English have never possessed " the lands that the French have at Hud"son's Bay, therefore, it is impossible for "the King of France to restore them to "them, for one cannot restore more than "that which has been taken by usurpa"tion." Again, another writer says: "The treaty speaks only of restitution"let the English show that which the "French have taken from them, and they "will restore it.". The other statements of the Spectator, 4 and 5 , are correct, but have no bearing on the point in contro. versy. As the Spectator, though confident that the true southern boundary of the Hudson's, Bay territory can be found, and as he has studied the subject and brought only incorrect quotations to aid him, be had better give up honestly, and, as he admits that "nobody doubts" that the arbitrators believed they were right in this award, and also that "most people think they were right," support his Government in its efforts to provent another Province, without a vestige of a legal claim, from endangering the public peace by assuming the Governmont of the disputed territory.

We fear that we must apply the title of the Muil's article "argument not forthcoming" to the Montreal Gazetle's criticism on our article of last week on the Boundary question. The Gazette asserts that our "position" is that the appoint:ment of arbitrators "did not require the sanction of Parliament, nor did their decision." Not a line in our article can be cited to support such an assertion as that the award did not require the sanction of Parliament. Our position was that the Governor General representing the Crown, having approved of the reference to abitrators, and both parties having
agreed that "the determination of auch three referees be final and conclusive," the Ministers which succeeded were bound, according to the invariable usage of the Imperial Government, as well as according to honor and good faith, to stake their own existence on procuring the assent of Parliament to the nward. As to the quotations from the $G$ lobe, which are brought forward to disprove our assertion that Mr. Mackenzie bound his Government to abide by the award, we will only remark that the Gazeite should have given his opinion as to the effect of the orders in Council, and not newspaper articles. On the whole, we may congratu:late ourselves that our article has drawn forth such a mild criticism from our able daily contemporary.

## HOTELS AT SUMMER RESORTS.

Rotelkepprs at the seaside and other summer resores close a rather inopportune season to alymace prices this year when one Ameriom neighburs have begun to feel the edge of a busincss depression which, hovever, it is hoped may be warded offor deferred by the unexpected, because late, improvement in the harvest. There are scores of hotelkepers on both sides of the line whose principal conception of a first-class hotel is the price per day. These men, having been brought up themselves at second or third rate hostelries, or having developed from the frugal simplicity of farm or village life, have but little iden of the modern requirements of a well appointed hotel ; and as the high figures charged at realiy first-class establishments, which they sometimes risit, constitute the principal difference that strikes them, they fancy that by simply increasing prices they can adrance their hitherto unpretending though possibly comfurtable house into a first place among the hotels of the country. The seaside hotelkeepers who advunced prices some 25 to 30 per cent the present season, thus driving away a number of their old customers, were glad to till their empty rooms by the beginning of August with guests at even less than the former rates. Many people who visit summer resorts do not object to paying first-class rates for first-class atcommodation, but they do and will object to phy first-class putces for second or third rate firb. Fur example, no one who can afford it objects to pay the price demarided by the best hotels in the White Mountain and Franconia ranges, - Fabyans, (Jrawfurd, Profile, etc., where, altiough the season is nolonger than at the seaside, everything is served and supplied with as good laste as is possible at the best houses of Boston, Montreal or Torouto. It is an old remark that-" It takes a smart man to keep hotel; " it takes more than mere smartness or business ability; the landlord himself must be a man of taste, and able to judge of the requirements of his guests, whatever be their status. Such landlords are not always exclusively to be found in large cities; some of the most successful hotelkespers we
have ever known carried on business in some of the maller towns or villages of the Dominion, but it was not because of the "stanu" or the structure, but because the proprietor was a man of tact and taste. There are hotels outside of Montreal and Toronto, as well as in these cities, making money for the owners that bad ruined the former proprietors. The most deservedly popular hotelkeeper probably in Canada finds himself in the present proportion ately quiet season doing a business considerably in advance of that of last year, and there are a fer similar exceptions in other places. When a hotel is not prying one of the first causes to look for is in the landlord himsclf or his partner, where he has one. It is no paradox to remark that the proper man to keep a hotel must be born as well as made.

## CO-OPERATIVE LIFE ASSURANOE.

In referring to co-operative life as surance, it is obvious that there must be some definition given of what is meant by this expression. It happens that discredit has been brought upon a word that otherwise is full of intelligent and waluable meaning, by the misuse which bas been made of it by certain disreputable persons in the United States. All life assurance is, ns a matter of fact; co-operative; but it has been reserved for speculators in a kind of business which is nothing more or lezs than an organized swindle to render the very pame of co-operative life assurance "a hissing and a mockery" tbroughout all the nations of the earth. It has been cuntended by the managers of these fraudulent institutions, that they are based upon principles which have been in existence in Great Britain for centuries, and which have been successfully carried out by many large and powerful associations in this country, not to speak of societies which are obviously unsound, and which can never by any possible stroke of luck recover themselves. Reference has been made to institutions like the Odd Fellows, Foresters, and kindred essociations, which bave not merely power to retrace any false steps made in the past, but the resolution to do so. It must be premised, howerer, that co-operative assurance on what is called the assessment plan is not practised by theso societies. The rssessment plan has been found by experience to be cumbrous, expensive, and unreliable. It is, therefore, not used in this cólutry, in which, it may be observed, every possible kind of insurance has been tried and tested to the uttermost. The assessment plan of assurance is the name which should be substituted for co-operative, and, in future, it would be well that this definition strould be drawn. But how his it fared with even those large sucieties which were doing their best 10 ensire the solvency of their reaerves, and which have been working with this intention for s: loug? As a matier of fact, it was discovered some yeurs agu, after careful iivestigation, that the majority of the Friendly Societies of Great Britain were more or less insolvent, -lint is io suy, they were insolvent as regards theip contingent labilities, although up to now they have been able to meet all claims as they fall due. Fortunately, these socicties anticipried the danger before any strain was nctually experienced, and after a cireful review of their position the proper steps were taken to bring them into a solvent condition.

As an illustration of how true this view of the case is, we may refer to a sjeeeh recently? delivered by Mr. G. H. PNCEAnd an actuary of great experience, who has fourd it necessary to state thit the Ancient Order of Foresters, vith a revenue of $£^{5} 73,639$ and expeaditure of $£ 138$;40, and which put by during the twelve months $£ 135 ; 224$, was yet not in a satisfactory state,-in fact, that the society was insolvent.

As the Odd Fellows had airendy been reported to be in the same condition, he thought that his hearers shoinld not be downherted. He further pointed out, that a contribution of the aggregate of $£ 2$ from each membet would place them in a thoroughly sound condition.: Under these circumstances, therewas no great difficulty to get over, altbough they were a million sterling on the wrong side. With half a million taembers the work was easy, and the average subscriptions had therefore been raised with a view to gradually making both ends meet. The greai difference, however between the forest ers, the Odd Fellows, and the co-operative or assessment companies of the United States is, that the former are honestly and loyally working with the intention of doing the straightforward and proper thing by their members. If they hare been misled by defective information, it is an error which experience will rectify, and the consequences of which are now distinctly seen, and in lime to permit of their being obrinted. This is precisely what the assessment offices in the United States do not do. It is possible that the promotion of the original companies might have been based upon a certain amount of commercial probity; but we lave no hesitation in stating, that for many years past not one of these associntions has been started with any more intelligible reason than that of filling the pockets of the managers and enjoying a brief but merry existence. When, with all the experience and care taken by the Foresters and O.Id Fellows, such mistakes can be made as those shown by recent reports, it is not difficult to understand how the public, who, after all, are the sufferers in the long run, should in the United States have frllen ersy victims to the wiles of the managers of these now properly-named graveyard insurance companies. One thing we wish to emplatically repent, and that is, that the assessment mode of lifo assurance as practised by these companies in the States is absolutely unknown in this comntry, and that any person claiming for his society that it is based on similar lines to institutions which have worked successfully in Great Britain, is stating that which is absolutely untrue, and which he probably also personally knows to be false.London Insurance Review.

## FIRE RECORD.

## ONTARIO.

Schomberg; July 26-W W. Hughes' storebouse, store, and dwelling destroyed. The fire spread to P.J. Keena's hotel which was wood, was destroyed with stables and shed. Total loss $\$ 13,000$. Hugles was iusured for $\$ 8,000$, and Keena for $\$ 600$, on stock and furniture none on building. Orangeville, Aug. 1-The brick stables of the Gordon house destroyed with conterits Lioss on contents $\$ 6,550$, on building $\$ 700$; insurance sninll. Barrie, Aug 7.-The building owned by E. B. Compton, with stock partly burnt, Iusurance not known. Paris, Aug. 8.-A. J. Halter \& Co., button fuctory, tolaily destroyed with contents. Insured for 88,400 in following commanies: Qucen, S2,400; Gitizens, $\$ 2,600$; Phoenix, $\$ 1,610$; Waterloo Mutunl, $\$ 1,800$. Total loss 510,000 . Toronto, Aug. 8.-Two small buildings on Dutferin st. destroyed. Insured for $\$ 300$ in Scollish Imperial. Midland, Alig. 10. -The new mill, with contents and adjoining nouses, owned by the British Canarian Limber Oompany, totally destroyed.. Total loss, $\$ 130,000$. The total amount of insatance is : 63,000 ; of which the Commercial Union hold $\$ 30,000$. Stratford, July 10--A large fire broke out liere, destroying three houses nid a factory, and doing considerable damage to a cluteh. The buitdings burned were, one briak and one frame owned by Mr. Oshorne, totally destroyed, lass $\$ 3,000$; insiured for $\$ 1,200$ in Preth Mitinul ; one fiame dvelling owned by Mr : Wond, loss $\$ 1,000 ;$ uninsured; the Methodist Ohurch, damaged to the extent of $\$ 430$;
insured. The punp fuctory ownicd by Mr . Osborne, totally destroycd. Loss $\$ 900$. Meuford, Aug. 12.-A fire in Landry \& Agnew's brick building spread to the adjuining house. The following are the losers:-Messrs. Noble \& Gibbon's, botels, Wilcox's shoe shop, Landry \& Agnew's butcher shop, printing odifice, Well's ary goods, Bulliment's hariuess, Cleriman's hardwnre, Wood, jewellery, Manby, druggist, J. Stewart's, residence, Canada Methodist Cburch. Loss heavy ; insurance not known. Chatham, Aug. 13.-A bire broke out in the Gurner Honse, it spread to the house occupied by Mrs. Wilson, and thence to Atkinson's row. The losses are as follows :-Masonic Hall, $\$ 200$; insured in the Royal. Stables of the Garuer bouse, S400; insured in Royal. Wilson's boarding house, owned by Mrs. Garber, $\$ 1,500$; insured in Royal. Six houses owned by C. R. Atkinson, $\$ 2,500 ;$ no instrance. Loss on Post Ufice block $\$ 300$; insured in Hariford, Etna, North British and Mercantile and Royal. Mr. Perrin, proprictor of the Garner house, $\$ 700$; including tiree valuable horses.

## quebec.

Montreal, July 29.-H. Gauthier's lime kiln destroyed. Loss $\$ 300$. The stables owned by W. G. O'Hara with two houses destroyed. Loss not known. J. Picard's grocery store burnt. Loss large but not known: July 30.J. Cochenthaler's, tobacco store, stock destroyed. Loss $\$ 2,000$; insured in Scottish Union and National. Montreal, Ang. b.-Messrs. Remillard $\&$ Quigley's confectionary damaged to the extent of a few hundred dollars. D. Plame's stable and contents burnt. Loss $\$ 500$. Quebec, Aug. 7.-The brick building owned by G. Germain, and occupied by Messrs. U. Germain \& Bro. as a tannery, and 0 . Begin, as a currier shop, partly burnt. Begin loses $\$ 1,500$ on stock; insured for $\$ 1,400$. G. Germain's loss on build ing $\$ 1,000$; fully insured. U. Germain \& Bros. lose $\$ 4,000$ on stock aud tannery ; fully insured. Quebec and Phonix are interested, Hull, Aug. 8.-Gilmour's large nuill at this place totally destroyed. Loss $\$ 100,000$; partly insured. Bergerville, Aug. 10.-A fire occurred in the hotel owned by J. B. Taillon, and quickly spread to the adjoining buildings. The insurance are as follows :-Mr. Rondena, $S 800$ in Queen; $P$. Carbray, $\$ 750$ in the Quent $F$. Houde, $\$ 400$ in Lancasliire; T. Eariy, $\$ 200$ in Hartford; E. Beamont, \$100 in Gaturdian ; J. Amyot, $\$ 1,200$ in Quebec; E. Poitras, $\$ 600$ in Royal and $\$ 800$ in Latcashire ; S. Barrette, \$600 in Lancashive. St. P'ierre, Ange 11.-The house of Victor Paradis, destroyed with contents. Loss $\$ 1,200$; no insuraice.

## NOVA SOOTA.

Margaretsuille, Aug. $5 .-\mathrm{H}$. MeMarker's house and barn destroyed. Loss $\$ 1,000$; no insurance. Shring Hill Mines, Aug. 10-Browall's saw and shingle mills destroyed. Loss $\$ 1,500$; no insurance.

## NEW BRUXSWICK.

St. (george-July 20.-The dwelling-house owned by D. Riordan destroyed. Building and furniture insured for $\$ 1,620$ in North British and Mercantile. Bloomfield, Jily 29.-d barn with contents, owned by Dr. Gilchrist destroyed. Loss $\$ 6,000$; no insurance. Woodstoch, Aug. 13.-G. Peter's saw will and parit of contents destroyed. Loss $\$ 4,000$; insured in London is Luncashire for $\$ 1,500$; and Lancasbire for $\$ 600$, St. Leonard, Aug. 13.G. Y. Bammond's residence and store destroyed. Loss $\$ 10,000$. Suchville, Alist 13.-O. Disou's house burnt. Insured for $\$ 750$ in Liverpool, London \& Globe:-Aug. 14.-The Brunswick house, owned by Estabrook \& Son, totally destroyed. Loss $\$ 6,000$; insurance \$3,000, Newcastle-E. Sinclairs saw mill destroyed. Loss $\$ 20,000$; insurance only $\$ 5,000$.

## Cortesyoumence.

## BEET SUGAR INDUSTRY.

Mr. Editor,-In the Jourial of Commeroe of the $27 t h$ July, under the heading of "Manufacturing Depression " you don't approve of the Governments of Ottawand Quebec for having encouraged the beet sugar industry. I think this industry should be encouraged to the utmost limits, because we send every yenr to foreign countries over six millions of dollars for an article that we can produce here. Like every new industry the beet sugar wants a protective policy at the starting; it has been so in France, and now, not only does the revenue derive a large income from the tax levied on sugar made from the beet, but, it is exported in large quantities, 280,000 tons having been exported in 1880. The concessions granted to beet manufacture in Canada have induced capitalists to embark in that indusiry, but unbuppily, not knowing that it is very difficult to make our farmers change their old method of furming, they conld not get the supply of the beets they wanted; to thisis due the fillure of the beet sugat factories. Now the best way to obtain the beets, is for the factories to buy between 3,000 to 5,000 acres of land, to cultivate 1,000 acres every year, and take from the farmers such quantities as they will condescend to furnish; and if our Government could give, for a fow years, the samo encouragement as that given by the Massachusetts Legislature thit is $a$ bounty of $\$ 1$ per ton of beets raised for manufacturing purposes, I am sure it would, assure the establishment of beet sugar manufacture in this conntry, and not only keep in Ganada millions of dollars, but also prove very beneficial to farming interests.

## Alarket lipporta.

## MONIREAL WHULESALE MARKETS. Thorsday, 16th Alig., 1883.

There is nothing specially new to note in the busines:s situation this week. All branches partake, nore or less, of the usun midsummer quietude, and many of our leading merchants arestill absent from the city on racation. In those departments in which the Pall trade begins in August nbout the usual progress is being madc, save perhaps dry goods, referred to specially below ; remitances are fair, and with a continuance of the present week's favorable barvest weather there will be no need for distrust regarding the season's turnover. Not much increased activily, however, can be expected before next month. The demand for money continues moderate, and rates of discount remain ensy at 62 to 8 per cent, and of call lonns at 5 to 52 per cent. Sterling Exchange rules for the most part nominal, at $108 \frac{3}{8}$ between banks, and $108 \frac{1}{2}$ over the counter. The Stock market has shown little sigus of vitality, and the fluctuations in vulues for the week have, with few exceptions, been-only fractional. To-day, howerer, the market has been stronger than for a weck past Oity Gas commanding hecchef attention; and the lame "short " interest in this stock becoming squeezed, values advanced 3 per cent, 725 shares selling this p.m. at 177 to 1772. St. Panl, N. \& M. bas decliued lo per cent, and North West Land has dropped 1s. od. for the week, closing at 51s. Cd. Oanada Pacitic has advanced $\frac{1}{2}$, buyers closing at 50 d. See table on unother page.

Asues.- Receipts are very light. Sales of First Pots ap to $\$ 0.15$, and a round lot at still higher figures. Seconds have been selling at $\$ 4.60$, but more would now be paid. Pearls have been sold at 86 for First sort, and at this price more wonld be taken. Receipts since lst January, 5,222 bartels Pots, 294 barrels Pearls. Deliveries, 4,527 barrels Pots; 313 burcels. Pearls. Stock in store at six o'clock on Wednesday evening, 1,010 barrels Pots, 73 barrels Pearls.

Boots and Shoes.--The travellers will probably all lave returned home by the end of this week, and although the leading houses are quite busy, it is doubiful if the general trude have found the volume of business thus far as large as for the like period last year. Urders are chiefly from the older provinces, but limited attention having been given to the field in Manitoba and the North-west this senson. Prices continue stendy, and remittances fair for midsummer.

Catthe, ero.-Latest cattles advice from the English markets report a decline in prices of from $\frac{1}{4} \mathrm{~d}$ to $\frac{1}{2} \mathrm{~d}$ per lb , owing to the concinued large shipments; good Canadian steers being quoted at $8 d$ per lb. Sheep remains steady at 9d. At the local markets last Monday, trade was dull ; shipping cantle sold at from 6e to 6de per lb., live weight. 'The offerings of butchers' stock coumprised about 200 head, the best qualities bringing from 4 de to 5 ec , and grood to fair from 3 c 10 4de. Abont 500 sheep and Lambs were on the market, the hatter selling at from $\$ 2.50$ to $\$ 4 \mathrm{per}$ head, aud the former at $\$ 5.50$ per 100 lbg . A few colves changed hands ant from $\$ 4$ to $\$ 5$. Live hogs were quoted at from 6 de to 7 c per lb.

Dairy Produce,-The bulk of the season's make of Butter remains in the hands of the farmers, who contimuestubborbly to bold it until it has become almost a dend letter in this market. The only transactions reported bere this week were in creamery, of which some 400 packages changed hands at 19 c ; it is quoted at 19 c to 20 c , but duiry butter is merely noniont; at nbout last week's quotulions, which however are casy. Advices from points between Morrisburg and this eity state that there is scarcely enough buter olfering to supply the local demund of the small towns. The locil Cheese market rules dull and unsetted, partly for want of' stock and pirtly becanse shippers have few or no orders in hand at the moment. Prices are weaker, if anything; a round lot for which 9 de was bid and refused yesterday, is said to be offering to-day at 9c. Finest colored cheese is quoted at 84 c to 9 c , and funcy at 9 c , while sules were made yesterday of good to choice French make at $8 \frac{1}{2} \mathrm{c}$ to 8 ? c . The prospects for helty fall make of butter and cheese were perhaps never belter; a traveller just retumed from the principal sections in the Eastern Townships states that "the aftergrowth will be the finest shown for years." At Ingersoll this week, eighteen factories otfered 5,290 boxes cheese, being last half of July make. Owing to the declining market in Great Britain, and lower prices reported from New Yurk; buyers mere not able to meet factorymen's riews, although oc to 918 was offered, and we hear of no transnctions; the bulk of the last balf July make in that section remains unsold. 30 factorymen and 0 buyers present. At Little Falls, 13ib inst.-10,000 boxes sold : 3,500 at $940 ; 2$ lots special at 9 合e to $9 t \mathrm{c}$; balance at 9 c ; white $f$ o under; colored very dill. At Utica, 13 th inst., 12,000 boxes sold at 8 ac to $9 \frac{1}{\mathrm{~A}} \mathrm{C}$; ruling price 9c.
DuY Goods. The travellers are returning home this week, and the stafis of the wholesale houses are now busy shipping prders. With some in the trade, the volume of business has not been as large as usual this season, but whilo a more conservative feeling and cautious policy
seems to have chanaterized the whole retail community importations have been liglter, also, and, as previously stated in these columns, it is generally admitted that the present circumstances are decidedly in favor of a bealthier condition of trade,-much to be desired: There hive been few customers in the market yet, but it is ratber early; applications for the reduced railway tickets are being received daily, and Western buyers are expected down some time next week. There are no lines in spacial demand yet. On the contrary, tweeds, shirts and drapers, Hannels, etc., are not moving off quite so freely as usual at this period, buyers eridently having concluded to defer their principal purchases of these goods. until the proper season, during September and October. Payments for the time of year are fairly good, although better with some houses thau ohers. Messrs. Thos. Walls \& Sous, of this city and Toronto, offered by auction yesterday 300 bales of unbleacled cottons, Coaticook und Kingston mills. The following prices were realized in bale luts: 28 inches, 44 c to $4 \frac{1}{\mathrm{c}}$ per yard; 30 inch, 51 c to $5 \frac{1}{2} \mathrm{c} ; 31$ inch, 54 c 10 $6 \mathrm{c} ; 34$ inch, $6 \mathrm{te} ; 35$ inch, 7 c to $7 \mathrm{tc} ; 36$ inch, 7 tc to 7tac. This is a furtber indication that pricos are bardening.

Paeronts are firm and bigher, for both flour and grain. The lowest rate for grain to Liverpool is 3 s 3 d , some agents asking 3s 6d; rates to Glasgow 3 s 6 d , and to London, 3 s 6 d to 3 9d.

Fhour and Gran.-The weather in England having become wet and unsettled again, the Koglish wheat markets are cabled much firmer, with an advance to.day in Liverpool of 18 to. $2 s$ per qr. for all kinds of wheat. Imports in the United Kingdon for the week show an iucrease of 10,000 barrels flour, 115,000 grs. whent, and a decrease of 85,000 qra. corn. The Mark Lane E'xpress reviews the British grain trade as follows: "Grain has ripened slowly, owing to unsetiled weather. Rust and mildew hive increased. Wheat is losing in quantity and quality daily. Barley and onts have much improved. English wheat improved is on the week. The trade in whent offestands was slow. Barley was steady and prices unchanged. Oats were 3d dearer: The trade in wheat off the const was more active." The American wheat markets have ruled quiet for the week, with in adyance the last two days of 1 c to 2 c per bush. To-day Uhicago was firm but unsettled; Jew York was a shade stronger. The local grain market is firmer, but business has been limited; denlers have been buying chiefly in the West, and Canuda wheat being scurce, are asking higher prices for all coning forward, -too high, buyers say, for shipment. Peas hure declined, and are now quoted at 98c to 90c. There was un improved demand for flour today, and several round lots sold at slightly advanced prices; holders are firm, in sympathy with the strongr tone of foreign markets and buyers lind it dithent to execute orders a imits in band.
Enuirs.-Trade is fairly brisk. Peaches, which continue to command the chief attention, are arriving freely und selling at $\$ 3$ per crate, or St per box of six small baskets. The new peaches grown in the vicinity of London, Ont., are said to be very fine fruit, but the crop this year will be largely a failure, owing to the late unfavorable weather. This market is gluted with Bartlett Pears from New York, which are selling slowly at from $\$ 7$ to $\$ 8$ per barrel. Bell pears in small barrels, bring $\$ 2.50$ to $\$ 5$ per harrel, and California pears are selling at $\$ 6$ per box; of the latter the supply is light while the demand is good. Some 55 boxes of Calitornia Plums, extra stock, were received this morning, and are held at $\$ 4$ per bos. Concord Grapes, in baskets, are moving off at loe per lb. A single case of Delawares arrived to-day; no price jet established. A shipment of about live carloads Apples from

Chicago and the southern States arrived yesterday, and is being sold out at $\$ 3.50$ to $\$ 4$ per bri.; as to quality. Lemons continue in fair request for the seasou, at $\$ 7$ per box. Blueberries are in plentiful supply, and realize 75 c to $\$ 1$ per box for Saguenay fruit.

Grooshess.-Business rather quiet. Sugars and Tobacco selling very freely, at our quotations. There has been a fair business doing in new Japan Teas, but the turn-over bas not been large. In Coffees only the usual distiibuting trade passing, at unchanged prices. In Fruits a good enquiry for currants is experienced, but the stock is, light, and Lolders are firm. An advance of to per 1 t . has been established, and our inside quotations represent bottom price. Market for Valentia raisins dull, and the stock of Malaga fruit is rather light, but demand is proportionately small. Nothing of consequence doing in Spices. The demand for Syrups slack, and only the usual output of Rice to note, without change in prices.

Hardware and Iron-August is usually a dull month in this branch, business being pretty much restricted to filling small sorting-up orders, but a fair trade is being done in general assortments at uualtered quótations. The travellers are returning home to prepare their samples for the full trip. Remitiances generally fair. Buildiag material is moring out fairly well this season Nails continue in good request, at the lagt revised list prices, and it is noticeable that the demand is prompted by the wants of farmers and others building throughout the country. Sheet Lead. hus decilined, owing to competition, and is now quoted at $\$ 4.50$ to \$4.75. Pig Iron has ruled very quiet the past week. Consumera are buying from hand to mouth only, and the lirger buyers are still bolding buck. Snles are confined to smail jobbing lots at last week's prices, and advices from Scotland also report prices steady. The Londonderry ifon agents repoit that they have sold the make up to the 1st January next; it is still quoted at $\$ 21$. Oanadu Plates rule very firm but unchanged, and other metals remain quiet and steady, as last quoted.
Leatber.-Market is reported in a healthy condition, under a steady demand for nearly all the staple kinds, but generalls sjeaking trade is not as active as usual at this neriod, and manufacturers are buying only for present requirements; no large transactions are therefore reported. The wisdom of the present hand-to-moith policy of buyers may be called in question when the present prospects of higher prices, especinily for Sole leather, of which ctoice lots are scarce, are, taken into consideration. [n black leathers there bave been stendy sales of small parcels of Upper, Buif and Pebble, at our quotations, and the tendency would seem to be towards increased activity:
Luaber.-The usual summer dulness exists at present in the lumber trade. Stocks in the States which were very large in the spring are thinning out, snd purchasers are appearing to atock up while navigation is open to save freight. The yards at mills are getting crowded; concessions are made on coarse and cull lumber, which is plentiful, but prices for upper grades are fully maintained, and in some cases have shown quite an advance on last year's prices. I'be yercentage of clear lumber is gradually getting less, and prices will continue to go up. Taking all together the trade in lumber has been failly. good, except in the trade with Nanitobn which has fallen off entirely from this quarter; the last two years there was a brisk rade done which now amounts to nothing. The demand that now exists is supplied by local mills, and from points nearer hand. Retail prices for lumber remain as formerly.

Oles. Trado reported about as active as usual at this time of year. Stocks of most kinds are light, and values firm. Receipts of steam refined Seal are light, and holders firm at about 70 c to 75 c , as to quantity. In Straw Seal notbing of consequence doing. Cod oil continues in moderate request, at $62 d \mathrm{c}$ to 65 c , with supplies ample. In Linsee $i$ business is prelty mach confined to supplying the wants of consumers, no large sales trauspiring, and the market rules quiet and steady, at 59 c to 61 c for boiled, and 56 c to 58 c for raw. Spirits of Turpentine in good request, at adranciag prices. Following the upward movement at places of production in the South, Liverpool and other toreigo markets have advauced, and in sympathy values here have risen to 62c to 63c per imperial gallon, while stocks are reported ligot.

Petroleom-Trade is at present brisk, a steady demand haviug set in this last week, which has had a tendency to stiffen price.

Provisions.-An advance of 3 d for lard, and a decline of 1 s . 6 d . for bacon constituted the changes in Liverpool market yesterday. Chicago market has coutinued downward with a rather depressed feeling; pork has declined about $\$ 1$ per brl., und lard about 25 c per 100 lbs for the werk. Yesterday the marke closed 27 c higher for September pork, but $7 \frac{1}{2} \mathrm{c}$ lower for October option, Laid, however, closed $7 \frac{1}{2} \mathrm{c}$ per 100 lbs. ligber. The hog market also advanced yesterday 10 c to 25 c per 100 lbs . for light grades., la the local murket business has rulid quiet, confined to filling small country and jobbing orders, at $\$ 17$ to \$17.00 forWestern Jleys Park, and 12 c to $12 \frac{1}{2} \mathrm{c}$ for American Lurd. Hatms are scarce, and higher, city cured being held at 15 c to $15 \frac{1}{2} \mathrm{c}$, and canvassed at $15 \frac{2}{2}$; stocks are pretiy well exlanusted. Bacon nominally quoted at 1 Ac to $1 \overline{\mathrm{c}} \mathrm{c}$. Receipts of tigys continue light, and under a fair enguiry the market has grown firmer; sales of cases have transpired at 19 c to 2 (1c, and the market to-day may safely be quoted at 18c to 19 c per dozen. Oanadian eggs are weaker in New York, quoted there at 20 c to 21 c .

Wooc.-Market quiet and unchanged. Trans\&ctions have been confined to small lots, manufacturers not yet laying in fall supplies. Stocks in this market light; und values steady and unchanged.

## TORONTO WHOLESNLE MARKETS.

(Revised by Telegraph.)
Tononto, August 16, 1883.
Reports continue to represent business as improving, but not beyond what might be called a very moderate degree. The prospects for a good harvest continue, but the hopes of a moder. ate yield will not be more than fulalled. There is enough in the oulook to prevent anything like despondency; but not enough to create a buojant feeling. Still, trade is certainly better, and general credit is so good that business is proceeding without embarrassment. There are no changes to note in funneinl matters. Call loans are negotiated at 6 to 62 per cent, the latter being the rate to brokers. But the demand froni brokers has not been pressing lately. Commercial pajer is discounted at 7 for firstclass, and it to 8 for lower grades. Strrling Exclange very quiet, at $108 \frac{1}{2}$ belween banks and 1083 uver the counter for 60 days; and demand bills 1002 to 1093. New York drafts buve been in light denand at a premium of $1-16$ between banks and $\frac{1}{4}$ ovel the counter. The Stock market was unusually dull during the week, but values sulfered little change. On Tuesday, after the holiday on Monday, the entire sales of shares, of all sorts, reached only to 165 . Brokers way be truly said to have nothing to do, as far as the Stock Exchange is concerned. Speculation is uterly dead, and even in investments there are none who çare to operate. Following are the bids to-day, compared with last Thursday :-

| Banks. | Bid Alig. 10 | Bid Aug. 9. | Loan Cos. | \|rid $\begin{gathered}\text { Aug } \\ \text { Aug. } \\ 16 .\end{gathered}$ | $y_{\text {Pid }}^{\text {Aus }}$ |

Floud $A N D$ Mese-There is nu shipping demand for Flour at prices ruling here at present, nor is the local demand sufficient to make a stiff market. There is known to be a large quantity of flour in the country which cannot go into consumption here, and which is held at present rates, in hopes of higher prices in future, although it is said to be not too high with wheat at $\$ 1.10$ per bushel. Sollers are now asking $\$ 4.90$, but buyers can get generally what they want of inspected Superior Extra at $\$ 4.85$. Extra is worth $\$ 4.75$ to $\$ 4.80$ for choice brands. There have been sales of small lots of Superior at $\$ 4.8$. At the market to-dny flour was firmer. A lut of 500 barreis Superior Extra, inspected, sold at $\$ 5$, and two car loads Medium bakers, Spring Extru, sold nt $\$ 4.80$, It is said that flour will be stenly for some time. The stock here on Monday last was 1,340 bbls, agai: ast 1,3411 bels. Allg. 6 ; against 1,051 bbls.; Aug. 14, 1882; and 375 bbls., Aug. 15, 1831, Othmeal is ensier, offered in car lots at $\$ 5.10$ for Smendard. Cormneal is quoted in car lots at $\$ 3.40$; nad small lots at $\$ 3.75$. Bran is not in much demand, quoted at $\$ 10$ to $\$ 10.50$ in car lots, on the track.

Wheat.-The market is very stendy owing to an opinion that prices are more likely to advance than to recede. This opinion is based on the fact that Great Britain will have a deficiency of some $15,000,000$ bushels from the yicld of 1882 ; and that there will be a deficiency of some $75,000,000$ bushels in the United States, or a yield of $425,000,000$ bushels. Against this there are large reserves, both in the United Kingoom and the United States, but the strength of the position indicates stendy prices, and no decline from the present. Prices have adyanced 2 c to 3 c during the week. On Saturday No. 2 Fall was held at $\$ 1.10$; and No. 3 Fall at $\$ 1.08$; No. 2 Spring at $\$ 1.12$ and No. 3 Spring at $\$ 1.09$ to $\$ 1.10$. On Tuesday No. 2 Fall was quoted at $\$ 1.12$ and No. 3 Fall at $\$ 1.09$, but buyers would not bave given the outside figures. Millers buy choice No. 2 Spring at $\$ 1.13$ to $\$ 1.14$, and No. 3 Spring at 1.10 . These prices are paid only by millers. At the marketjto-dny gonse wheat was quoted at $\$ 1$. No. 2 Fall is morth $\$ 1.11$; No. 3 Fall sins; No. 2 Spring quoted at $\$ 1.13$ and No. 3 Spring at $\$ 1.10$. The nurket was steady ; is is expected to continue so for the local trade. Stocks are being reduced: On Mouday hast there were 117,845 bushels, ggainst 153,200 Aut. 6,1883 ; against 111,497 , bubhels Ang. 14, 1882; and 43,080 bushels, Ang. 15, 1881.

Coarse Graiss.-Barley is quoted nominal at 75 c for No. $1 ; 70 \mathrm{c}$ for No. 2 ; and 50 c for No. 3. Thresting is going on in some parts already, and the yield is expected to be average only, but the quality to be good. The weather for the harvesting has been excellent. Stocks on Monday were 25,576 bushels, against a like quantity on the Monday previous; against 5,432 bushels Aug. 14, 1882 ; and 18,574 busliels Aug. 15, 1881. Oats are easier, and the demand quict. Westernare quoted at 42 c in car lots on the track; and eastern at 40 c . There are ni stocks. There were 2,195 bushels , Aug. 14, 1882 ; against 2, 180 bushels Aug. 15, 1881 . Peas are not quoted in trananctions, with the price nominal at 80e for No. 1, and 78 c for No. 2. The stocks on Mlonday last were 1,083 bushels, ggninst 642 bushels Aug. 6,1883 ; - against 4,723 bushels Aug. 14, 1882 ; and 631 busliels Aug. 15, 1881. Rye is guoted worth 56 c , but there is nothing doing. The quantity in store is 341 bushels, ugainst 341 Aug. 6,1883 ; and 5,525 bushels Aug. 15, 1881.

Boots and Slioms.-There are btill better things reported, but no large orders are coming in, and prices current are needed for a week or two till the narket has got to be better supplied. Quotations are:-Men's calf boots, $\$ 3.50$ to $\$ 4$; men's stogas, $\$ 1.50$ to $\$ 3$; men's kip, $\$ 2.25$ to $\$ 2.75$; men's pegged gaiters, $\$ 1.50$ to $\$ 2.50$; machine sewed, $\$ 1.50$ to $\$ 2.50$; men's cobnurgs, $\$ 1.10$ to $\$ 1.75$; boy's congress gaiters, $\$ 1.35$ to $\$ 1.75$; pegged balmorals $\$ 1.40$ to $\$ 1.75$; stogas, $\$ 1.25$ to $\$ 2$; women's prunelln buls, 50 c to $\$ 2$; petbled and buff negged bals. $\$ 1.10$ to $\$ 1.60$; pebbled and bulf sewed, $\$ 1.25$ to $\$ 1.75$; women's congress, $\$ 1$ to $\$ 2.50$. Misses' work ranging from pobbled and buff bals. 90 c to $\$ 1.30$; calf bals. $\$ 1.30$.
Dry Goons. - The trade lins not submitted to any outwred change, but dealers say the chnnces now are favor of a good fall business. Indeed the only trouble that is beyond control is the large quantity of stock, of nearly all kiads, thas is seeking for an outlet. Cottons are still dull. The demand for woollen goods, tweeds, etc., is not lurge, but said to be an improvement on that of the same period of 1882.

Drues.-Business is reported very good in severalilings, nad qenerally satisfactory. Quoteborax, refined, 17 c per lb ; Camphor 35 c to 38 c ; Oamomile fiour, 50 c ; Cubeb berries 90 c per 1 b . Gum Arabic, 20c to $3 \overline{\mathrm{c}} \mathrm{c}$ per Ih; Aloes, Oape, 20 c to 25 c per lb ; Opium $\$ 4.40$; Glycerine 35 c to 40c. Oils-Almouds 60 c per 1 b ; Lemon $\$ 2.75$; Neroli about $\$ 7$ per oz.; Peppermint $\$ 3.75$ to \$4.00. Wornmood $\$ 7.50$ per 1b. Turpentine, weak, 60 c to 65 c per gal. Linseed 0 il . 65 c for raw; 70c for boiled; Cod Liver Oil; Nowfoundland, $\$ 2.25$; Nurwegian $\$ 4$. Beeswax 45e per lb.
Groceries.-There are still fair reports of the business promising but it cannot be said that they are improving:-Quote.-Coffees, Tava, 18c to 25c; Rios, 10c to 11c; Mocha, 30 e to 38 c ; Ceylon, 23 c to 25 c . Fruits dull, and prices continue low. Valentins bave sold in large quantities at 5c. Sugnrs, Porto Rico, dark to fair, 7 c to 7 fe ; bright to clonice, 7 Th c to 8 c ; Canada refined, 6 ac to 8 lac Standard granulated, $8 \frac{1}{5} \mathrm{c}$ to $9 \mathrm{c} ;$ Paris lump, inc to 10 tc ; Scotch refined, 63 a to 7 the. Syrups unchanged. Teas steady, but promising firmuess. Tobaccos, dark, 31 d c to 3 :2de; Western Leaf, 312 c to 34 c c ; bright, 48 c to 53 c ; choice, 70 c to 75 c .

Hardanke-Trade is still reported to be as good as is usual at this season; but there is reported a good-prospect in most lines, and a certainty of good trade in some others for the fall trade. Quotations:-Barbed fencing wire, galvanized, 82 c , painted, 7 c ; Onnada plates, Boar's head, $\$ 3.35 \mathrm{c}$; Ponty pore, $\$ 3.35$; cut nails, per keg, 10 d to 60d, $\$ 3.10$; 8d and 9d, $\$ 3.35$; 6d and 7d, $\$ 3.60$; 4d and $5 \mathrm{~d}, \$ 3.85 ; 3 \mathrm{~d}, \$ 4.60$. Copper, ingot, 19 c to 20 c ; sheet, 25 c to 26 c ; bar, 30e to 33e. Bar iron, Nora Scatia, $\$ 2.50$; ordinary, $\$ 2$ to $\$ 2.10$; lioops, coopers', $\$ 2.50$ to $\$ 2.60$; band, $\$ 2.50$. Manilla rope, 13 c to 132 c per lb ; deep sea, 14 c to 16 c . Window glass is rather quiel and unchanged. Steel is steady, at prices 12 c to 13 c for cast, and 3 e to 2 fe for sleigh shoe. Tin, steady, bur, 26 c to 28 c ; ingot, 240 to 3 c c .
Live Stock Trade-The large dealers and exporters here say they expect to be embarrassed by regulations in England., A consignment of Canadian cattle having been attacked by foot and month disease after landiag at Liverpool. Cnmanian shippers look for trouble, and perhajs loss on cargoes of cattle going over there now. Prices here are lower in consequence. Beasts of 1,300 lbs and up wards would
not bring over $\$ 6$ to $\$ 6.25$ per 100 lbs live weight. There are large supplies of cattle coming in for local cousumption. There were about 250 head in on Tuesday, the bulk of them selling at $\$ 4$ to $\$ 4.50$ per 100 lbs., live weight, but good to choice beasts sold up to $\$ 5$ and $\$ 5.25$ There was a large piopurtion of the number that were poor and light. Heavy sheep are in good demand for expolt, and are bought outside at 5de to 6 c per lb live weight. 'lbere are yery few sheep sold for local consumption. There were about 450 lambs at Tuesday's market sold in lots at valuations of from $\$ 3$ to $\$ 4 \Omega$ hoad. Calves are offering at lower prices also; worth from 7c to 9c per ib, dressed weight.
Provisioxs, etc.-The markets are quiet, but there is a fair local trade doing. Meats are stendy, but less active for outside orders. Long clear bacon is quoted at 92 c for car lots, and 10 c box lots. Cumberland is quoted at nearly the same figures. Ilams are steady, and in good demand. A car lot of sweet pickled sold at 124e; smoked in small lots are sold at 14c. Lard is wrak, owing to decline in the west, and cheap butter here; tubs are quoted at, 12e; with pails nt 124 c to 12 c , in lots of 25 park ages. bef moderately active at Sle for prime, and $\$ 17$ for mess. Pork is quoted nominal, at 819 for single barrels. Budter is flat ; cummission merchants here are complaining of large stock; sales are made of storemoked at 13 c to 14 c ; and dairy at 15 c . biges stendy, nt lise to 16 c tor gunranteed. Jried Apples, common, selling for 10 c to 102 c . Scans are in some demand, at $\$ 1.50$ to $\$ 1.80$ per bushel. P'olatoes easier, selling an the street at 80 c to 90 c per bag i and Si.75 per barrel. Hops are quiet, with single bales selling at 35 c . Salt steady; coarse Liverpool iu bags, 65e in car lots ; line Liverpool, 5 bilbs bags, at 50 c in small lots; Canadian $\$ 1.35$ per barrel in car lots dairy salt in 3 lb bngs, at $\$ 3.75$ per barrel, in small lots. Fruil, green, is steady, with only moderate demand. Pelroleum, refined, 16 f for common; 17 c for carbon sufety.
Woon.-The market continues dull and without any profitable outlook. Stocks in the hands of country dealers are hanging on without any offer being made for them. Merchants in Toronto say they have been paying too much for wool, and think of offering $a$ cent less. The United Stales markets shory no sign of improvement, and the stocks lere are diagging on account of the absence of blyers. Fleece is unclinged, and selected Leicester would find sale bere at 10c, with 20cfor choice. Cotsmold are cheaper at 17 c ; and rejects at-14e. Southdown is worth 26 e ; and part bred cilp is worth 23 c to 24 c . The mills are not busy, and the demand is light. : Pulled wools are easy at 250 to 20 c for supers ; and 30 c for extre sumers. There is a small demand for blanket wools at 17 c to 18 c .

## CENTRAI BANK OF CANADA.

The promoters of the Central Bank of Canada, in presenting this enterprise to the public, do so in tho belief that the great increase of general business thronghout the Dominion renders the present period extremely favorable for the fornation of a now bank.
The stocks of all the banks doing business in Toronto stand at a high premium, on account of the large rests they hive accumulated, the satisfactory dividends tiey pay, and the great demand existing anong our moneyed classes for such inexistments.
At lio time in the history of the Dominion has the country made such rapid progress as it is now making and is likely to make tor some years to chac. rapid onging up and settlennent of Manitoba and rapd onening ap and sethencht or Manitobar and iudustlies of mauy liuds it all parts of Cauada mincusities of many kiukls in all paris of Canada, and the large infilux of immigrante, many of them possessed of means, and who are setting to a considerable extent in Ontario-render necessary en arged facilities for business by the provision of additional Banking Capital.
The standing, ebsaracter, asd reputation of the Provisional Jirectors of the Centhal bank of Cavaida, and of the gentlemen selectrd by them to ake the management of the bunk, warrmit the belief that its initiation will be received with favour, and that under catuous, wise and prudent inanagement its success will not be less marked than thist of the other prosporous institutions of similar id. d .
It is the intention to place the whole capital on the market, and when the requisite nunount las been subseribed, and 20 per cent phid in, to commence operations. Ten per cent to be paid on subscription, and ten per cent on allotment, and further calls as business may require; provided that such calls shall be made at inervals of not lebs than thirty days, and not to exceed ten por cent of ench share subscribed. If more han the authorized eapital is subscribed, allolments will be reduced pro rata.
Calls on Stock are to be paid at the Bank of Montreal nnd its Agencies, with whom arringements for this purpose have been made.
Suitable promises for the bank have bepn secured on zonge streot, immediately north of the Bank of British North Americh.
Stock Booky have been opened at the offices of the under-mentioned, where further information respecting the Banks, copies of Prospectus, and furms of application for shares can be obtained.

WHAT THE PUBLIC WANT.

## PRIVILEGES,

## NOT CONDITIONS

On theia Life Policies.

## Tue unconditional pollcies of the

SUN LIFE ASSURANCE CD, of Montreal, contain not one condition, but have the following privilages on them:

1. Liberty to travel anywhere without extra.
2. Liborty to engage in any occupition without extra.
3. I'hirty days of grace for promiums.
4. Policy may bo revived within a year after lapse.
b. Pad up policies given for detinite amounts after three yours.
5. Lonus made after two years.
6. Policy findisputable after two years.
7. Any difference to be referred to arbitration. Compare this with ordinary polloies.
Tho Company is very strict in admitting persons to these benefits, but it is evident those who get them got privileges no other Compray in Canadu gives.

QSPFIt is universally admitted to be by far the aimplest and most straight-forward poliey in use in this country.

Mavaging Director.

## THE ONTARIO NUTUUL LIFE ASSURANCE CO.

 Head Office, Waterloo, Ontario.DOMINION DEPOSIT, • - - - \$56,207.00.
The only Purely Mutual Life Company in Canada.
Total number of Policies in force, Dec. 31, 1882, - $\quad$. 385 Covering Assurance to the amount of - - - $85,504,47800$ Net Gagh Assets 365,328 7I Net Reserve to Credit of Policy-holders, —— - $\quad$ - 383,04459

The Company's reserves are babed on the Actuaries' "Table of Mortality," and four per cent. interest-the minest standard adopted by any life company in Canada, and one-half per cent. higher than the standard used by the Dominion nsurance Departinent.
The rapid growth of the Compnny may be seen from the fact, that in 1870, the first year of its business, the total assets amonnted to only $\$ 6,216$; while last year they renched the handsome total of $\$ 427,429$ II

[^0]:    Specify early. Specify now and avoid disappointment in deliveries.

[^1]:    The premises of G. V. Hammond, Saint Leonard, Madnwaska, N.B., consisting of store and dwelling-house, storehouse and barn, were burnt out last Sunday. The fire took in the storehouse and burn, presumbly through a man smoking, or from matehes in sterehonses. Me: Hammond carried a heavy stock; and hat done a thriving and increasing business. His loss must be very benvy, and the insurance is light. The conntry will suffer inconvenience as lhmmond was a reduly caterer, He is a young man of good business ability, and it is to be hoped will soon recover and get on bis feet again. He lad just got home in time to suve the greatest part of the dry goods in the first store, but all in the storeliouse was destroyed.
    L. Goulat, genernl trader at Binbrui, Ont., met his creditors last Wednesday in this city, and endervored to effecta compromise at 3 aco on the dollar, which was at once refused. In May last Goulet showed a surplus of about $\$ 1,500$, which has since been converted into a deliciency, his stintement slowing liabilities to be about 83,500 , and assots only some $\$ 2,000$, in stock and book-debts. The delicioncy is partially acconnted for by the statement that he preferred
