Mercantile Summary.

John Dabrach, an undertaker at Stayner, has been overtaken by his principal creditor, R. Philp of this city, who sold him out. His stock realized 50 per cent. of his debts.—Wm Cummings, tanner, at Tilsonburg, has been sold out by the sheriff.—Wm. Watson, dry goods dealer, in this city, is again trying to compromise with creditors. This time he offers 65 cents. -At Trenton, G. S. Bonter & Co., general storekeepers, have assigned. They had been doing a large trade.

JOSEPH COUTURE, general storekeeper, knitted goods manufacturer etc., etc., whose embarrassment we noticed in last issue, has assigned. and is offering 50 cents on the dollar. Liabilities probably \$50,000, while assets are placed at about \$30,000----Moreland & Son, crockery and glass men of Ottawa, have assigned. In 1882, they compromised at 25 cents on the dollar. -An Eganville Present liabilities not stated.shoemaker, W. H. Byers, has failed with liabilities of nearly \$3,000, and assets of \$1,800. He is quite a young man and had little if any means when starting in 1880. He is said to be offering 50 cents on the dollar.

W. M. McMillan, general storekeeper, at Listowell, has got into difficulty for the second time. About a year ago he settled claims of over \$10,000 for half that amount, now he has failed, we suppose on his last payment, and has assigned.—B. K. West, blacksmith, Stayner, has assigned, and the sheriff is in possession of the effects of J. & Thos. Teevens, blacksmiths in this city.——Messrs McClung Bros., dry goods dealers, Bowmanville, made a settlement with their creditors about a year ago at 65 per cent., on liabilities of \$45,000. The firm appears to have failed to meet its composition paper and has assigned. The liabilities will, it is thought, not exceed those of a year ago.

In Port Elgin, the store of Mesers. Isaac, Dunlop & Co., general dealers, has been closed at the instance of one of the relatives of the firm, who obtained a judgment for \$25,000. The sheriff is now in possession.—At Cookstown, Masters & Banting, general dealers, have got into difficulties. Some months ago they gave a chattel mortgage to a wholesale firm in this city. The stock of Frank They have now assigned.— H. Bell, dealer in boots and shoes, Learnington, is advertised for sale under a chattel mortgage. J. M. & A. Climie & Co., millers, Listowel, who were supposed to be in a pretty good position, are now in difficulties, and have assigned in -A furniture dealer in the same place, trost.-W. M. Climie, has been compelled to hand over his effects to satisfy kind friends who had endorsed for him. His affairs are not in good A NEW building is to be erected in Perth for the office of the Bank of Montreal. The dimensions are to be 33 feet on Gore street, with a depth of 73 feet.

THE firm of Messrs. Fisher & Fisher, dealers in mens' furnishings at wholesale in this city, has removed from Wellington street to 32 Front street west, where they have a more roomy warehouse.

THE New Brunswick Cotton Mills are manufacturing the "Lansdowne Tweeds," which a St. John paper describes as "strong, durable, and handsome. For boys' wear they are unequalled."

Ir is stated by the Perth Expositor that Mr. Neil McLean, of Cornwall, has been appointed manager of the Bank of Montreal at Brockville, and Mr. B. Tassie takes Mr. McLean's place as agent at Cornwall.

THE Montreal Loan and Mortgage company has taken out a warrant for the arrest of Geo. W. Craig, ex-Manager of the Company, for the embezzlement of \$1,600. The accused is at present a refugee in New York.

THE retiring manager of the Ontario Bank in Winnipeg, Mr. James F. Field, was made the recipient of a presentation, at the hands of his friends, of an address and purse. The presentation was made at the Board of Trade rooms in that city.

Job Abbot, President of the Dominion Bridge Company, has awarded sub-contracts to Fleming and Sons, for the manufacture of all the material for the iron trestle along the wharves of the St. John bridge and railway extension. The erection of the main bridge will be commenced about the first of July.

THE Canadian branch of the Edison Electric Light company, has now orders for dynamo lamps, etc., equal to 1,700 lights, for steamships, sugar refineries, factories, hotels, etc. Osborne, Killey & Co., late Killey & Co., are now running with nearly their full force on the work to get it out in time.

It is estimated that about 5,000,000 cubic feet of cottonwood, sycamore, basswood and elm have been cut this winter in Essex county, along the shore of Lake St. Clair, for manufacture into hoops and heading. It will all be rafted next summer and floated d wn the river to Detroit and Trenton mills.

At the Little Rock, Arkansas, Telephone Exchange lately a call came in from a residence for a feed store. "Hello!" "Hello! What is it?" "Mamma says send up a sack of oats and a bale of hay," in a child's voice. "Who is it for?" inquired the feed man. "Why, for the cow," drawled the youngster, and closed up.

THE Hamilton Gas Light Company has held its annual meeting. A good year was reported and the report was unanimously adopted. At a special meeting held afterwards, the by-law framed for an increase in the capital stock was adopted. The members of the late board of directors were re-elected as follows:—James Cummings, John Eastwood, F. W. Fearman, F. W. Gates, D. Martin, John Proctor and John Riordon. Mr. Gates has been chosen president, and Mr. Cummings, vice-president.

At a Methodist conference held recently in Ohio the first aubject discussed was life inturance. A clear-headed divine, Rev. Mr. Hammell, vigorously sat down on a plan for co-operative insurance, showing that "denominational enterprises are short-lived and lacked the strength necessary to inspire confidence," and that "the principles of life insurance, as formulated by recognized authorities, are such that unless they are acted upon, there can be no real insurance upon life."

A furniture dealer in Brockville, T. McEwan, late of Bell & McEwan, who failed several years ago, has suspended, owing \$5000 and having \$4000 assets. He was burnt out recently without insurance. —— Another furniture concern, that of Long & Bailey, of Sherbrooke, is in difficulties, and is offering fifty cents on the dollar, payable in four and six months. They also were burned out lately and claim to have lost \$5,000, with only \$1,000 insurance.

By S. S. Australia which arrived at San Francisco on the 25th Feb., mails from N. S. Wales and New Zealand were received, which consisted of: 42,502 letters, 1,001 registered letters, 4,328 books, and 46,355 newspapers. These were contained in 201 bags from New Zealand and 157 bags from N. S. Wales, the weight of the whole being 4½ tons. These figures give some idea of the extent of the correspondence and the commerce of our antipodean brethren.

HARVEY A. GREEN, a grocer in a small way in Montreal, has assigned with limited local liabilities.—Edward Laferriere, a cigar and tobacco dealer of the same place, who recently sold his stock, was capiased by one of his creditors with whom he settled; a second capias however has now been issued, on which he is held.—The Misses Benjamin, doing a millinery business at St. Johns, Que. have failed, and are offering 25 cents on the dollar, which most of the creditors have accepted. Liabilities are about \$1,000.—A carriage maker at North Augusta, Ont., Solomon Manhard, has written to his creditors offering a compromise of 25 cents. Liabilities small.

That tobacco, as usually prepared by the manufacturers, is often sweetened with molasses, honey, licorice, etc., is not doubted, but few people know that a considerable percentage of sugar is a natural constituent of tobacco. Yet Prof. Attfield, F. R. S., finds that eight samples obtained from planters in different parts of Virginia, Kentucky, North Carolina gave to 100 parts of leaf, from 5.57 to 9.60 parts of tobacco sugar, and from 8.23 to 12.80 parts of total saccharoid matter. In tobacco grown in unfavorable conditions, or without sufficient heat, the amount of sugar is often but a mere trace, while for light colored or bright Virginia leaf it will average about ten per cent.

A DEPUTATION of Kingston aldermen and citizens interviewed the Minister of Railways with reference to the Rideau canal, so as to open navigation to the westward to a chain of small lakes, Lake Devil, Knowlton, Mud, Canoe, and Birch. In support of the scheme, to cost say \$10,000, it was urged that 150 square miles of land would be increased in value, and that a large area now under water would be reclaimed. Some 500 miles of coast line would become accessible to navigation, and some 50,000 acres of land, well wooded, and rich in iron and phosphate, would be brought within the reach of the market. It was also stated that the waters of the canal are yearly becoming lower, and new feeders must soon be acquired.

DESPITE the quantities of whiskey produced by the great distilleries of Toronto, Windsor and elsewhere in Ontario, "crooked whiskey" continues to be made. The officers of the inland revenue department of Hamilton sent officers to Ancaster the other day, and in the house of M. T. Evans found Evans, David Davis, and W. Fox, with a handsome thirty gallon copper still, charged, and just fired up in the cellar, ready to make a particularly fiery brand of crooked whiskey. The three men were arrested and placed in gaol in Hamilton, charged with infraction of the revenue laws. The still was seized and brought to headquarters. Two barrels of whiskey were found and destroyed. A Toronto by the said to contain have already been quantities of these in quantities of these in the mining interest line of the propose if the propose in the propose in the propose of the propose in the propose of the propose in t

saloon-keeper name Orpen is implicated, it appears.

The Railroad Gazette gives the following list of meetings and conventions of railroad associations and technical societies to be held: Western Association of General Passenger & Ticket Agents, at the Burnett House in Cincinnati, O., on Monday, March 17. National Association of General Passenger & Ticket Agents, regular annual meeting, at the Burnett House in Cincinnati, O., at 11 a.m., Tuesday, March 18. Master Car-Builders' Club, regular monthly, on Thursday evening, March 20, at 8 o'clock. Subject for discussion: Car Wheels and Axles. including the Seating of Wheels to Gauge on Axles. Railway Car Accountants' Association, annual convention, in Richmond, Va., on Tuesday, May 20. Master Car-Builders' Association. annual convention, in Saratoga, N. Y., beginning on Tuesday, June 10. Master Mechanics' Association, annual convention in Long Branch, N. J., beginning on Tuesday, June 17.

One of the most unexpected failures that we have had to report for some time past, is that of E. Donahue & Co., general dealers at Farnham, Que. Their business was the leading one in that place, having been established years ago by Mr. William Donahue, now a wholesale merchant of Montreal. Mr. E. Donahue continued the business after his brother's departure, and has always been active in any enterprise calculated to advance the interests of the town. He was a promoter and director of the Farnham Beet-root Sugar Co., in which he may have risked too much capital, and it is feared that he may have been involved by the failure of Bradley Barlow, of the South Eastern Railway, in which road Mr. Donahue evinced a lively interest. Liabilities must be pretty large, though not yet stated definitely. An offer of forty cents on the dollar has been made to creditors. The standing of the firm was good to the very last moment, and it could have readily got large credits, immediately previous to the failure.

THAT Port Arthur is growing fast will readily appear from the following figures furnished by the Collector of Customs: The increase of population at Port Arthur during last season was about 1,000, and about 200 new buildings were erected. Four large docks are being built by private enterprise. The works being carried on by the railway company are giving great satisfaction to the citizens. Some of the stores have done a business of over \$100,000 per month. One butcher's bill for meat supplied to contractors on the Canadian Pacific Railway construction amounted to \$100,000 for one month. The value of goods entered at the port during 1883, \$1,079,920; duty collected, 115,321. Other revenues collected, \$2,130. Goods exported, \$61,878. The number of Canadian vessels entered was 485; tonnage, 217,608; weight of cargoes, 81,124. Total of American vessels, 188; tonnage, 85,291; weight, 115,498. The crown timber agent, is now engaged in examining the timber limits of the district, to arrive at estimate of its extent. Districts said to contain 300,000,000 feet of timber have already been examined. Considerable quantities of these logs are being taken out this winter for manufacture during the coming season. The mining interests, west and south, on the line of the proposed Thunder Bay and Duluth mailroad, are promising. Immense deposits of iron ore have recently been discovered on the line of this road and distant about 39 miles from Port Arthur. This ore is said to be equal to the renowned Vermillion Lake iron mine in Minnesota. The ore is supposed to contain about 68 per cent. of metallic iron. A new discovery of silver ore has been made adjacent to the RabMANUFACTURERS' NOTES.

We learn that the Nova Scotia forge company is making 400 steel railway car axles for the Canadian Pacific Road.

The evaporating factory of S. Kerr & Sons of Canning, N.S., has just been put in operation and has 25 hands in its employment; in a short time to be increased to 40. The articles evaporated are potatoes, turnips, carrots, cabbage and unions. "These articles are combined in suitable proportions, and flavored, so that a dish of vegetable soup may be prepared at a moment's notice."

Die Muchle gives a table of all mills totally or partially destroyed by fire and the estimated damage during the month of December, 1883. In this we find one fire for America, one for Germany, two for France, two for England, three for Italy, three for Russia, and eight for Austria-Hungary. Of all these twenty fires, their causes have remained unknown in eighteen cases, and only two allowed of a tracing of the origin of the fire.

It appears that a Philadelphia concern has succeeded in producing cotton belting from hard cotton twist which can be woven to any desired size, and is then submitted to a process of finish which renders it durable and free from effects usually produced on other belting by damp or wet coming in contact with it. It is claimed to be especially adapted to saw mills, brick machines, elevator, or any heavy drawing, or where belting is exposed to all kinds of weather.

The amount of capital invested in flour millling in the United States is given by the United States census of 1883, at \$178,361,878, representing 24,338 large and small mills-a daily capacity of 4,730,106 bushels. The astonishing total product of the census year, \$505,185,712representing 304,775,737 bushels of wheat and 284,957,220 bushels of other grain. Employment was given to 58,239 men, 42 females above sixteen years of age, and 126 youths and children.

An American paper makes the statement that "in 1880 the South had only 180 cotton mills, with 713,989 spindles and 15,222 looms. Since then there has been an increase of 134 mills, with an addition of 562,483 spindles and 9,651 looms, from which rate of increase the conclusion is drawn that the South may, at no remote period, spin the greater portion of the cotton raised within her borders and supply the markets of the world with ready-made goods instead of the raw cotton. If Southern looms can effect such results, it is evident that they need no artificial protection." Horror struck at such boldness, the ultra protectionist Chicago Journal of Commerce cries out : "But would you suddenly let Germany and England loose in our markets and commence direct taxation on these new mills ?"

TORONTO, CAN., FRIDAY, MAR. 21, 1884

COURSE OF THE TARIFF DIS-CUSSION.

The National Policy protective tariff is beginning to have a history. Already it has passed into the second stage. The author of this tariff—if Sir Leonard Tilley is to be regarded, more than any other member of the Ministry, as its author-set out with the idea of a re-arrangement without an increase of duties. This was the official text on which tariff reform was preached; this is the idea that was embodied in the resolution moved in the House of Commons, by Sir John Macdonald, the last session in which the party now in power was in opposition. During the electoral campaign that followed, the imputation that tariff re-arrangement carried with it the idea of an increase of duties was resented with some warmth. The hope of forbearance held out was a little strained. Ev ry one knew that there had been a succession of deficits, and that to obtain the requisite revenue, some increase of duties was necessary.

When the tariff of 1879 was framed, there was much in it that was experimental. But it was obvious that the duties were raised, though it was less certain what would be the effect on the revenue. No one anticipated the large surpluses which have since been gathered in; and it is probable that the Minister of Finance was about as much in the dark as other people, as to what the effect, in the production of revenue, would be. The result of the experiment was that the government got not only enough revenue to meet the ordinary expenditure, but a great deal more. And now the plans of the government were altered so as to embrace a policy of surplusses. The accidental surplus was converted into an estimated surplus. The Minister of Finance ventured to count upon a surplus for many years to come. It is of course a debateable question whether a government which, by the construction of costly public works, is rapidly increasing the public debt, may fairly take from the people a considerable surplus, year by year, as a means of slightly checking the progress of the debt. Provision for the payment of public debt is a wise policy; but the construction of public works out of revenue is possible only to a very limited extent, and it is impossible to raise a revenue which shall year after year, give a surplus of six or seven millions, over and above ordinary expenditure, without producing in the long run, considerable industrial derangement. showed great weakness. Some of his state- tended for in the suit.

Such a surplus is abnormal and must produce an abnormal state of industry; since the increased duties are sure to give an artificial stimulus to different kinds of manufacture. An abnormal condition of the revenue cannot always be maintained; and when the change comes, the removal of the props will let down the industries which they had held up.

With the surplus policy came avowed protection. It was no longer a question of rearrangement. That stage of the tariff movement had been passed; and protection for its own sake had arrived. This change of policy did not, perhaps, sufficiently arrest public attention. At a time when capital was being rapidly attracted to manufactures, when profits were good and hopes high, the people were called upon to say, through a general election, whether they approved of the tariff policy. This was a trying moment. Even free traders disliked the idea of playing a losing game, and some of them showed symptoms of temporizing; others, who stuck to their colors did not always escape the condemnation of their own partizans they were blamed for what was represented as the folly of playing a losing game. Trade champions of other days, were heard to say that there were no free traders in this country, and could not be, so long as it was necessary to raise a large revenue from customs' duties.

But this period of hesitation has been The state of the cotton industry, nassed. in which over-production was patent, enabled the free traders to claim that the block-up was merely a fulfilment of their predictions. Sir Richard Cartwrig t has returned to the House, after his temporary eclipse, in his old character. If he had secured a seat, at the general election, it is probable that strong pressure would have been brought to bear upon him to modify the expression of his views. For two years it was no uncommon thing to hear him spoken of-by political opponents, it is true—as the Jonah of the party; and it is not improbable that his opposition to the National Policy, on its initiati n, was for a while, found to be a hindrance to his party. Now, all his colleagues hold the same language as himself; and a merciless criticism of the tariff has been the result.

It is impossible to deny that upon many points of the tariff discussion, this session, Sir Richard Cartwright and Mr. Patterson have had the best of the argument. Protection and Free Trade has been fought as a party issue, with the result that the protec ion of to-day, as distinguished from the rearrangement on which the National Policy was originally founded has suffered to some extent, in public estimation. As usual, the thing was over-done, and in this way the effect of the economic arguments was lessened. Sir Richard weakened the force of a powerful speech by extravagances of statement, when he came to deal with the political aspect of the question. We venture to think that his speech would have been much more effective, if he had c nfined himself as nearly as it can be done, in practical questions, to the economic aspect of the case.

On his side, too, the Minister of Finance,

ments were feeble in the extreme. He said of certain steel works, that they could not exist without protection, and yet that those engaged in them made a return to the country for what they got. If the profits of this industry depend upon protection, these people have nothing to give back to the public, in any form, except what they get, in the form of an indirect gift. Their expenditure will not benefit the public more than equal amount of expenditure, the means of which are derived from legitimate profits.

But the most striking fact connected with the progress of the protective policy, is the way in which the Minister of Finance admits he deals with people who go to him and say that they want a particular venture protected. He listens to their story and tries to give them what they want, up to the point of making the particular industry possible by means of a duty which checks importation. Such a policy cannot be justified, in the initial stage, if at all. Every time the Minister of Finance yields to one of these demands, he ensures to private persons advantages at the cost of the community, in the expectation, or on the theory, that somehow and at some time, the effect of establishing, at this cost, of a particular industry, will be to pay back the public, who made the advance, with interest. What is certain is the present sacrifice. The future recompense is not at all certain. If there were some national object to be attained, by following a particular line of policy, the merely economic view would be too narrow a guage to test it by. But in most of these cases, there is nothing of the

But the tariff is a long way from the point of prohibition. It is revenue-producing, in a large degree. But, in the opinion of Sir Leonard Tilley, we are reaching the stage of protection where domestic production sensibly checks importation. The experience of the United States shows that revenue may be squeezed out of the people by means of a tariff higher than some manufacturers have the conscience to ask. Certain supporters of the tariff, in the House of Commons, have expressed the fear, in a mild sort of way, that protection may be run into the ground. It is now quite clear that, when there is a change of government, the party that will come in will be pledged to reform the tariff, in the direction of Free Trade; to adopt a revenue tariff, in the place of one of avowed protection. Against g ing very far in this direction, many things will tell. Every new obligation contracted by the government which requires for its discharge an addition to the ordinary revenue, will make against tariff reform, in this direction. The influence exerted by those who have capital at stake in manufacturing ventures will be felt, in the same direction. The force of these modifying influences will prevent any such radical change as one might conclude from opposition criticism, would follow a change of government, at Ottawa.

-In the suit of Carnegie against the Federal Bank, the master, on taking accounts, shows a balance against the plaintiff. Against this decision notice of appeal has been given. decision on the matter of accounts, whichever way it may be, does not affect the principle con_

THE DOMINION LICENSE ACT.

M. Houde, a French member from the Province of Quebec, has proposed the repeal of the Dominion License Act of 1883. takes the ground that the Act is an encroachment on the rights of the Local Legislatures. On the other hand, one of the French organs, L' Etendard, of Montreal, expresses the opinion that the measure is not, as a whole, unconstitutional; and that the proper thing to do is to amend the Act, leaving untouched such parts of it as are clearly within the competence of the Parliament of the Dominion. As a rule, the Province of Quebec is more tenacious of its rights than any other Province; a fact explained by its French nationality and separate civil laws. The French journal, which treats the question at great length, and with much fairness, argue that all the minor licenses-retailfall within the power of the local legislatures, while those for the wholesale trade, coming under "the regulation of traffic and commerce," properly come under the control of the general legislature. This is not an unreasonable view of the matter; but it is not the view on which either Government has hitherto acted. But the Ontario Government may possibly now take the same view, since in the new license law, now before the Legislature, no provision is made for issuing shop licenses. If this be so, the Ontario Legislature is taking a stop in the direction in which the French journal advises the Dominion Parliament to move. Is it not possible that, by mutual action of this kind, some accommodation could be arrived at ?

The Dominion Government has just obtained the consent of the House of Commons to submit the question of legislative competence to the Privy Council. A bill will be brought in providing that no penalties be imposed till a decision be had. But will this preclude the Canadian courts from acting if they belive the local license laws to be constitutional? The Dominion Act will be amended in several particulars.

The division of legislative power, over this question, is probably more minute than has been generally assumed; and it is quite possible that neither legislature has, in its action, been wholly in the right, or wholly in the wrong. We know, from the decisions of the Privy Council, that the Crooks Act is constitutional, and that the regulation of billiard tables, in taverns, is within the powers of the local legislatures. It has been assumed that the general legislature can, by passing a general law, take from the local legislature the power to grant certain licenses which have been specifically granted to them. But may not this assumption rest on a misapprehension? It was decided, by the Privy Council, that the legislature of one province could not pass a law affecting the property of the Temporalities Fund of the Scottish Church, because the property lay in two provinces. The reason of this can be understood. But does it follow that the power to authorize the issue of certain licenses, specifically mentioned, vested in the local legislatures, can be annulled by the general legislature providing for the issue of all licenses, in all the provinces? The reason seems far fetched.

Another question may possibly arise on the right of a local legislature to put a discriminating duty on Dominion licenses. But this question could scarcely arise unless a concurrent right in regard to certain licenses, were decided to exist in the two legislative authorities. In that case, would the discrimination against Dominion licenses be held to derogate from the rights of the Dominion? The right to put a duty on licenses for the purpose of raising a provincial revenue, is not doubted; but it may become a question whether such duties are not required to be uniform.

CO-OPERATIVE LIFE SOCIETIES.

The Minister of Finance last week brought in a bill to amend the Insurance Act of 1877 with respect to companies transacting life assurance in Canada, under the title of "Co-operative Life Companies" or "Mutual Benefit Associations." These companies having increased in number, and some of them having of late greatly extended their operations, it was deemed necessary to bring them under the operation of the Act relating to life assurance, from which they have hitherto been exempt, in so far as no license was required to be taken out, nor was any deposit required from them. The Superintendent of Insurance in his report uses the following language respecting co-operative or mutual benefit concerns: "Many organizations under these or similar titles are believed to exist in Canada and to have largely extended their operations of late. Some of these have their headquarters in the Union and are debarred by law from operating in many of the States. schemes presented by them to the public are various, but are mainly founded on the principle of levying, on the death of a member, an assessment on the surviving members, thus professing to give what they term life insurance at cost. The Department of Justice has given an opinion that these companies come within the scope of the Canadian statutes relating to life insurance, and are required to take out a license, without which their proceedings are illegal and subject the parties concerned to the penalties prescribed by the statute." Mr. Superintendent Cherriman does not enter into the question whether the theory upon which these cheap insurance concerns are based, is sound, but admits it to be important that full information should be obtained as to their practical working and its results, "not only as furnishing a test of the soundness of their principles, but also because it is unfair to the regular life insurance companies, with whom they are entering into vigorous competition, that the latter should be subjected to governmental supervision, and compelled to lay before the public the fullest details of their condition and operations, while these are free of all control and can keep their operations completely concealed.'

It was certainly time that something was done, not only to remove the injustice which subjected sound and well-conducted life companies to restrictions not imposed upon these ephemeral competitors, but to protect honest or credulous persons who are too often ready to pay money to any sort of swindle which is plausibly put before them.

Sir Leonard Tilley's bill will make a distinction between companies of this kind having their head quarters in the States and those incorporated in Canada. The latter are, by its provisions, required to make returns to Government, to be included in the annual report of the Insurance Department, and their titles must be duly registered in that department. If their condition and modes of business are deemed satisfactory they may be exempted from the operation of the general act requiring a deposit of \$50,000.

The fifth section of the bill provides, however, that no such company shall do business in Canada without having either made the deposit or been registered, under penalty of its officers as cited in the Act. The deposit having been made, we presume these American companies will then be, in so far as government supervision goes, on the same footing with regularly organized life assurance companies; they will likely establish local boards, and set themselves more vigorously than ever to canvass for business.

But the formation of a respectable board of directors, while it may be an evidence of propriety of intention, is not by any means a security that the principle of such companies' operations is sound or the indemnity which they offer secure. Very few business men, for example, have taken the trouble to inform themselves adequately upon the proper price to pay for safe insurance. The investments of merchants in the policies of some of these cheap benefit concerns proves this. Men jump at cheap life insurance as they do at cheap fire insurance, and the victims of both are numerous enough. It should be apparent to a reflective business man that if a fire insurance company which cuts premiums to a point below that which experience has shown to be necessary, cannot succeed—and there are instances enough of failure of such companies and loss to their policy-holders—no more can a life company succeed or indemnify its policy-holders if it does not charge adequate rates, or if it builds on the sandy foundation of assessment contributions. A large element in the success of some such companies in Canada has been the paraded names of well-known persons who have been persuaded into taking policies for large amounts in them.

BANKING REVIEW.

The figures of the February bank statement will be found in condensed form below, and are compared with those for the previous month:

INSURANCE COMPANIES' MEETINGS.

The sensible policy laid down in the report for 1882, of the Citizen's Insurance Company, which was, in brief, "prudence in underwriting and economy in management," has not, if followed, produced its expected effect upon the business of that company for 1883. "A review of the business of the company for the past year," says Mr. Henry Lyman, the president, in the opening sentence of the report of the directors, submitted on the 3rd inst., "is, I regret to say, not so satisfactory as I anticipated it would be. * * The fire and accident losses were unusually large, and the rates of insurance lower, probably, than ever before." And, indeed, after doing so well in securing a surplus revenue of \$41,000 in fire and accident in 1882, it is disappointing to find the balance \$11,000 the other way in that department in 1883. There is comfort, however, in the fact that the Life Branch shows a profit of \$21,700 on the year; so that, on the whole, the company's expenditure was \$10,000 within the revenue. And this is doing better than in 1881, when total expenditure exceeded rev-placed the money in the speaker's hands, p. 17: "Are not all kinds of business at loose enue by \$14,000.

As the fire and accident figures are still umped together, one cannot tell with any xactness the ratio of loss sustained by fire, out it appears to be something near 65 per ent. of the premiums, as against 48 per ent. in 1882, and 70 per cent. in 1881. The e-insurance of the Canada's risks may have o do with this. Losses paid and outstandng in the Fire and Accident Branch were \$143,602, and the premiums taken \$231,-319. The assets of this branch remain, but or the shrinkage in value of some stocks, about as they were a year ago, the differences shown being that smaller amounts are in bills receivable and sundry debtors, and larger amounts in agents' balances, and cash in bank. In the Life Branch, premiums were \$46,699, against \$42,336 in the previous year, and death claims \$14,502, a sum far below the expectation. The expenses, we observe, are nearly \$2,000 greater than in 1882. Total assets in this branch are increased to \$177,328, which is sufficient to provide a reserve as required by law, and have a surplus of \$11,248. This showing, and the more liberal terms mentioned as offered to policy-holders, should prove an effectual stimulus to the company's life business.

An expression of regret at the circulation of anonymous and untruthful circulars aimed against the company, finds place in the report. This policy of stabbing in the dark is to be condemned, no matter who adopts it or There are some other what its object. features of insurance competition which would be more honored in the breach than in the observance. For example: we have seen an alleged copy of a private circular sent by the managers of a new competitor in that line to the agents of an old company, asking them to leave the service of the latter and become the servants of the former company. "What of that," says some brazen canvasser, "it is done every day among merchants, who steal one another's travellers or seduce their book-keepers on the quiet." Not so bad as that, friend, not every merchant would do that; and if they would, that does not make it right. The golden rule has still some hold upon the consciences of men.

-A serious charge of conspiracy to bribe members of the Ontario House of Assembly, is [now under investigation. The parties against whom the charge has been made, are: Mr. J. A. Wilkinson, a local politician, Mr. F. S. Kirkland, an American, from Wisconsin, Mr. Edward Meek, barrister, of Toronto, and Mr. C. W. Bunting, manager of the Mail. Mr. Kirkland had an axe to grind in connection with timber limits; and he expected to succeed through political influence, which, he seems to have thought was a purchasable commodity. He was willing to pay in solid cash. Mr. Kirkland fell in with local politicians, who wanted to displace the Mowat Government; and, as the story goes, the two joined forces. Mr. McKim and Mr. Balfour, members of the local legislature, relate several offers of bribes, that were made to them, to change sides. These members resolved to turn detectives and allowed \$1,800, in two sums, \$1,000 and \$800, to be paid to them. They

and an investigation commenced in two places: before the Committee of Privileges, and the police court. Bail was refused by the Police Magistrate, for Kirkland and Wilkinson; and they were only admitted to bail on application to a superior court, yesterday. Dr. Dowling, another M.P.P. was also approached. How far the ramifications of the plot extended cannot at present be ascertained; and impartial persons will wait till the fact is established before they connect the Ottawa Government with it. letters, found on Kirkland, show that he was drawing on associates, in the States; and it looks as if the money were his. But, on this, and several other points, judgment must, for the present, be suspended.

PROPHESYING "SURE THINGS."

Mr. Samuel Benner, an Ohio farmer, has written a book. That is, he wrote one some eight years ago, entitled "Benner's Prophecies of Future ups and downs in Prices," which has gone through various editions, and now he issues some "Addenda for 1884," to comply, he says, with "an urgent demand from many business men." Mr. Benner takes and maintains the startling ground that "the advance and decline in the average prices of pig-iron, hogs, corn and provisions in the markets of our country for a series of twenty years past, and for certain periods, have been as alternately certain as the diurnal revolutions of the earth upon its axis." So that, it is quite possible to know in what years to make money on pig-iron, hogs and corn. By the way, we must not, in the interest of our readers, pass over what the author says about "Panie" on page fifteen of Messrs. Robert Clarke & Co's. Cincinnati edition of February 1884 (12 mo. pp 177, price \$1.00,) This it is: "I predict that there will be a commercial revulsion and a financial crisis in the year 1891." Reader, be warned in time, you have only seven years to prepare. A little further on he says that while he has not such data as Joseph's Egyptian weather statistics, nor such divine backing as that seer had in his interpretation of Pharsoh's dream to make his interpretation come true, " still on our part, we base our predictions of the future upon records of the past," a proceeding in which he follows Lord Byron, Patrick Henry, Walpole and other philosophers who have said the same thing more neatly. We must make a practical quotation or two, however, recommending those who want to know more about this method of prediction by rule of zig-zag, to buy the book for themselves. Among the Signs of the Times we read: "1884—Iron will continue to droop, with * There will be lower prices. an increased number of failures, over and above the number for 1883, before we get a turn in Reasoning . business affairs. from what we know, railroad stock have been low enough in this year for this decline so far, and therefore we should not have lower points until after next year. The low point for corn and hogs is for this winter; that is, for the packing season of 1883.— 84, which no doubt will show a lower average price than for the packing season of 1882-83. The further prophecies are for a higher average in these staples after this winter till the packing packing season of 1886—87. The prospective supplies and probable demand for wheat indicate that this country will have cheap bread for this year, 1884." As a speciman of the author's occasional quaintness of style we quote from his paragraph on "Panic,"

ends, astray, tossed on the uncertain sea of uncertainty, from our imperfect knowledge of natural causes, etc.—Is there anything certain and settled in farming, except that a broomhandle is sure cure for hoven in cattle?"

NOVA SCOTIA MINES.

It is pleasing to find the mineral wealth of Nova Scotia increasingly developed, as appears from the annual report of the Department of Mines for 1883. The report of the commissioner, Mr. Gilpin, was laid before the Legislature on this day week, and shows an increased out-put of metals and coal compared with the year 1882.

For example, the quantity of iron ore mined during the year was 52,410 tons, in addition to 6,972 tons of ankerite quarried for flux. An increase is here shown of 10,000 tons over the quantity mined in 1882, and over 22,000 tons above what was mined in 1879. The yield of gold was 15,446 oz. last year, which is 1,889 oz. more than the preceding year. This result, be it noted, was secured with 9,151 days less labor than in 1882, making the average earnings per man per day \$2.84, instead of \$2.37 as in

But a much greater increase is shown in the out-put of coal, which is the most prominent and most important of the mineral interests in that province. It is claimed by the Halifax Herald that the sales of Nova Scotia have doubled in every decade for the past fifty years. And that journal adds: "We are now selling in the upper provinces nearly as much coal as we ever sold in the United States in the most prosperous years before the abrogation of the reciprocity treaty." The quantity of coal raised in 1883 was 1,422,553 long tons, ten per cent. more than in 1882. Of this large quantity there came from Cape Breton 668,293 tons; from Pictou 505,626 tons; from Cumberland, 247,861 tons, and from other counties 773 tons. Of the respective mines, the Spring Hill raised 193,161 tons; the Albion Mines, 168,231 tons; the Sydney Mines, 162,866 tons; Intercolonial (Picton), 147,711 tons: Acadia, 115,028 tons, and Reserve (C.B.), 110,456 tons. The quantity of coal sold during the year reached 1,297,523 tons, being about 47,000 tons more than in 1882. The sales were made to countries as follows, in the two years 1878 and 1883:-

	1883.		1878.

—The secretary of the Toronto Board of Trade and Corn Exchange has received from the publishers, Messrs. Watson, Ferguson & Co., of Brisbane, a copy of the Brisbane Post Office Directory and Country Guide for 1884. This convenient volume gives information not only as to residents of Brisbane itself but as to tariffs, railways and telegraph rates, and the constitution of banks and commercial companies, in the province of Queensland. Books of this kind are often of use for reference, to those who have occasion to know what our Australian cousins are deing. It shows the enterprising spirit of the publishers that it was sent to our representative body.

—The last issue of the Canada Gazette, contains a statement of the circulation of Dominion notes and amount of specie held, as at the end February. The following are the figures;—

Fractional notes	173,670
Provincial do	48,735
Dominion 4's	488,180
Montreal issue	6,866,159
Toronto do	5,877,034
Halifax do	2,420,000
St. John do	719,548
Victoria do	48 443

Total.....\$16,641,709

The specie held by the several assistant receivers on the 29th of February, 1884, was \$2,052,866; additional at Montreal, \$452,000.

—The Halifax Chamber of Commerce protests against an American port being made the Atlantic port of the Canadian Pacific Railway. In the opinion of that body, Halifax should be made the winter port. There are some who contend that Louisburg should receive the distinction. The chances are that this great railway will, in the end, reach the Atlantic seaboard, by several different routes. The Grand Trunk has its terminus in a foreign country; but that was inevitable before the Intercolonial was built. But since then there has been no disposition to exchange Portland for some place within the Dominion, as the Atlantic seaport of the road.

—Mr. George B. Holland, well known in life insurance circles, decided, some time ago to leave the service of the Union Life Insurance Co., here. He opened an office for the purpose of doing a general fire and life brokerage business. But when this intention became known, overtures were made to him by other Life companies to accept a position. He has now given up his brokerage office, to become local assistant manager for the Ætna Life in this city.

—We note the appointment of Mr. G. H. McHenry, to the position of manager of the Royal Canadian Insurance Company, rendered vacant by the regretted death of Mr. Davison. Mr. McHenry was in former years one of the inspectors of the Royal Canadian, and has more recently occupied the position of secretary to the Fire Insurance Association in Canada. He is an underwriter of experience, and the company may be congratulated on having made a good appointment.

HALIFAX CHAMBER OF COMMERCE.

The annual meeting of the Halifax Chamber of Commerce, as newly invigorated, was held on the 13th inst., and was largely attended. The report for the past year stated that the trade of our port for the past year did not present any striking contrast to that of previous years. The fisheries have been largely successful, and now more than ever are they regarded as the great source of wealth and dependence. Respecting trade with the West Indies regret is expressed that the sanguine expectations entertained by many as to the advantages to result from the change in the sugar duties, have not been realized, and the proposed modification will if accomplished, it is believed, lead to considerable extension of trade with the West Indies.

"It appears that while import of sugar from

"It appears that while import of sugar from countries with which we have no trade relations has been steadily increasing, imports from the West Indies, which are the only markets for our exports, have been correspondingly decreased. It is obvious, therefore, that shipments of fish to the West Indies cannot be successfully carried on unless the product of such shipments can be invested in return cargoes, and your committee are strongly of opinion that the policy of the Government should encourage the trade with

the natural consumers of our chief exports rather than with other countries." The increasing traffic on the Intercolonial Railway is dwelt upon. "Canadian cattle shippers, find that their cattle shipped via Halifax escape restrictions at the destination to which they would subjected if shipped via United States, while disease exists among the cattle of that country. The regular steamer sailings recently established between Antwerp, Hamburg, and the Dominion, using Halifax as their winter port, have already been an advantage." Fault is found by the committee with the alleged more favorable conditions allowed to the Allan Line of steamers than to other lines sending freight over the Intercolonial railway and the govern-ment is to be asked to remedy this injustice. As to the increasing deal and timber trade of our port through the facilities offered by the Intercolonial Railway, gratification is expressed that this trade has been prosecuted to an increased extent the past season, and promises to be of importance, especially in affording to ships, freighted with sugar and other products to our port, a chance of freights to Europe and an inducement to accept a low freight on sugar for our refineries from the West Indies and Brazil. The dry dock matter is referred to in another report, committee strongly recommending that the Halifax member at Ottawa should pre s the demands of Halifax. As to the treaty lately made between the United States and Spain whereby the flag of the United States is placed on the same terms regarding customs duties as that of the latter country. "The conditions of this treaty to not apply to British chinal that of the latter country. "The conditions of this treaty to not apply to British shipping, and we are consequently placed at great disadvantage in Cuba Porto Rico, the difference in favor of the American flag being equal to an average of about 20 per cent., on the whole tariff. On fish, which is our chief export to these Islands, it amounts to mo e "

The discussion of the report was then taken up, J. C. Mackintosh reading it clause by clause. On the reading of the first section he moved the following resolution:—Whereas, that in view of the manifest importance Nova Scotia naturally has in the question of a winter port terminus of the C. P. R., this Chamber views with alarm the disposition of that corporation to make an American port the terminus of a strictly Canadian enterprise and that a petition be at once forwarded to the Dominion Government protestorwarded to the Dominion Government processing against the granting of any subsidy, or of advocating or assisting any railway until such time as it shall be proved by actual survey which is the best commercial line to reach a port in the Maritime Provinces; Resolved,-That in opinion of this meeting, the route now exhibited from Montreal and Quebec to Houlton and Fredericton and to St. John and Halifax seems in point of distance the best line to adopt in interest of the Maritime Provinces, and that the executive committee be authorized to place themselves in communication with Dominion and Local Governments, as well as with the mayor and corporation of this city, with the idea of obtaining the fullest information and and pressing our views on the general Govern-

Hon. A. G. Jones seconded the resolution, and on being put it was carried, only eleven voting against.

The succeeding sections of the report as above were then read and passed.

Hon. Mr. Jones explained how the Government had assisted the Allan line in carrying their freight at a lesser rate from Montreal by 16 to 20 cents per ton than the Dominion Furness or Halifax steamship lines, while the Dominion line at least charged 50 cents per ton less freight than the Allan line. He did not blame the Allans at all, but blamed the Government for yielding to them.

John Doull was elected President of the Chamber and the meeting then adjourned. It is expected that regular monthly meetings of the new Chamber will be held.

Meetings.

CITIZENS' INSURANCE CO.

The annual meeting of the Citizens' Insurance Company was held on the 2nd inst. There were present Mr. Henry Lyman, president, in the chair; Hon. Judge Berthelot. A. Cantin, John H. R. Molson, E. J. Barbeau, D. Desjardins, G. W. Simpson, representing E. M. Hopkins, of London, Eng.; Adolphe Masson, representing estate Masson; H. Montague Allan, representing estate late Sir Hugh Allan; John McIntosh,

representing Marchioness de Bassano; Jackson Rae, John J. Day, Hon. D. A. Smith, John Turnbull, for self and George Stephen; Charles Bruce, St. Zotique; William Smith, James Donnelly, R. W. Shepherd, Hector Prevost. Jesse Joseph. Andrew Allan, Robert Anderson, C. D. Proctor, J. B. Rolland, N. B. Corae, M. S. Foley, Arthur Prevost, T. Simpson, representing estate Forneret; Arch. McGowon and Gerald E. Hart. The president read the following

REPORT.

A review of the business of the company for the past year is, I regret to say, not so satisfactory, as I anticipated it would be at the date of our last annual meeting. The Fire and Accident losses especially were unusually large, and the rates of insurance were lower, probably, than ever before. The Fire Losses for the City of Montreal for 1883 were greatly in excess of those for ten years previously. Under these circumstances it is a matter of thankfulness, that the year's business, on the A review of the business of the company for Under these circumstances it is a matter of thankfulness, that the year's business, on the whole, shows but a trifling deficiency, which however, will be reduced in the ultimate settlement of outstanding claims in the Fire Branch.

THE LIFE DEPARTMENT.—This department shows a gratifying increase of business, and a handsome halance of \$21.719.77 upon the year's

handsome balance of \$21,719,77 upon the year' operations.

RATE OF MORTALITY.—The report of our con sulting actuary shows that the mortality during the year was much less than the expectation would have justified, in the proportion of fourteen to twenty-one, or seven thousand dollars in favor of the company.

VALUATION OF POLICIES.—The company has had a double valuation made of its Life Policies, one by Professor Cherriman, of the Government Insurance Department, Ottawa, and one by the company's Consulting Actuary; and as the former was slightly in excess of the latter, Professor Cherriman's valuation for Reserve, being the higher, has been adopted.

Conditions of Life Insulance.—Carefu attention has been directed to the conditions of our Life Policies, and several changes have been made tending to greater liberality of terms, and offering inducements to insurers which will compare favorably with those of any other company doing business in the Dominion Dominion.

New Applications.—11,196 new applications for Fire Insurance. exclusive of Renewals were received during the year, of which 934 were

RATES OF INSURANCE.—The low rate of premium upon the fire insurance which has obtained of late has engaged the serious consideration of Underwriters in Canada and the United States, and a movement has been inaugurated in both countries, looking to a reasonable in-crease of rates of premium. This, carried into effect, will doubtless operate to the advantage of Insurance Companies, in which we may expect to secure our full share.

RIVAL COMPANIES.—It is a matter for regret that rival insurance managers and agents have been found, who have not scrupled to available themselves of the free circulation of anonymous and untruthful circulars, to the prejudice of the reputation of this company, and with the object to promote their own interest thereby. Such conduct deserves the unqualified condemnation of all honorable men, and will, no doubt, ultimately recoil upon those who resort to such unwarrantable practices.

to such unwarrantable practices.

INVESTMENTS —A comparison of the company's investments for the past and previous years, shows an apparent falling off of \$13,-914; this, however, it will be observed, is for the most part due to a depreciation in market value on \$2st December last, which will be but of temporary duration, while any subsequent appreciation will appear to the credit of the assets in succeeding statements. The company has further provided for an increased liability of \$21.877.68, over the Reserves of last year. The Auditors' certificate is upon the table. The retiring directors are Robert Anderson, N. B. Corse, and Henry Lyman, who Anderson, N. B. Corse, and Henry Lyman, who are eligible for re-election.

HENBY LYMAN, President.

*In the previous year the income included the reinsurance of the Canada Fire business.

A motion for the adoption of the report having been put by the president was carried

The retiring directors were unanimously re-elected, Mr. Henry Lyman being re-elected president, and Mr. Andrew Allan, vice-president. The meeting shortly afterwards adjourned.

SUN LIFE ASSURANCE CO.

The annual meeting of the shareholders of the Sun Life Assurance Company of Canada was held yesterday at 1 p.m. There was a large attend-ance of shareholders, the Board Room being

filled to overflowing.

The chair was taken by Mr. Thos. Workman, the president, who commenced business by ap-pointing Mr. Macaulay and Mr. James Tasker

scrutineers.

Mr. Macaulay then read the notice calling the meeting, which, he said, was in accordance with the act of incorporation.

The chairman said that before reading the annual report he would read a letter from Mr. M. H. Gault tendering his resignation as a director for the remainder of the term. The chair-man then read the report for the year ending 31st December last, which is as follows:

REPORT. The directors have pleasure in informing the shareholders that the company has, during the past year, done a large and in most ways a satisfactory business.

The applications for assurance received during The applications for assurance received during the year in the Life Department were, 1,411 for \$2,328,990.48 an increase over the previous year of 466 for \$366,528.47. Of this amount 165 for \$360,630.09 were declined, withdrawn or not completed, leaving 1,246 policies for \$1,968,560.43 written. In the Accident Department, 1551 applications for \$2,912,600.00 were received being an increase of 618 for \$1,220,083. Of these, 1,534 for \$2,893,100.00 were approved and written. The total applications for the year written. The total applications for the year were thus, 2,962 for \$5,248,590.43, being an in-crease of \$1,586,611.47 over the business of 1882.

The assurances in force at the close of the year are as follows :-

	Number	•	Amount.		
Life Department	4,007	8	6,685,161	22	
Bonuses thereon		_	94,404		
Total Life Assurances		8	6,779,565		
Accident Department	1,875		3,367,050	00	

Total...... 5,882 \$10,147,615 77 The progress made by the company in the Life Department during the last ten years, may be seen from the following statement :-

	Applications. Received.	Amount. in force.
1874	\$ 621,342 00	\$1,786,092 00
1876		2,414,063 00
1878	. 1,606,301 00	3,374,683 43
1880	2,142,343 92	3,881,479 24
1882	1,962,461 86	5,849,889 19
1883	2,328,990 43	6,779,565 77

The usual financial statements are appended The usual financial statements are appended hereto. The total income of the yea: was \$273,749.87, the largest amount ever received in any one year. In the Life Department, the death claims were \$49,529.10. In the Accident Department they were rather heavier than usual, amounting to \$10,388.06. This was caused mainly by one large death claim. The premiums in this department, however, were \$17,058.80, being a large increase on any previous year. All death claims are paid promptly, and there is not a single disputed claim on the Company's books. During the year the bonuses on policies which

a single disputed claim on the Company's books.

During the year the bonuses on policies which
were less than two years old at the quinquennial
division of profits at 81st December 1881,
"vested," and the present value of them had of
course to be deducted in the regular way, from
the surplus at the beginning of the year. The

amount was \$7,157.35.

The Directors regret to have to state that, The Directors regret to have to state that, during the year, the Company has lost on some of its investments. The Exchange Bank stock which was taken in the last report at \$8,850.00 has had to be written off entirely, the actual loss without the double liability being \$10,642.50. The stock of the Montreal Loan and Mortgage Company, which was taken at \$64,200.00 has been written down to 60 per cent. The course of writing everything down to its intrinsic value is one which will commend itself to the shareis one which will commend itself to the share holders as the only true one.

The liabilities have been valued by the Govern-

the surplus would have been about \$20,000 more. The directors who retire this year are: A. F. Gault, E. J. Barbeau and Hon. Jno. Boyd. As. Mr. Cassils resigned during the year, the Board appointed Mr. Macaulay Managing Director in his place, and his name therefore comes before von for confirmation.

you for confirmation.

To the President and Directors of the Sun Life Assurance Company of Canada.

Assurance Company of Canada.

Gentlemen,—During the past year I have reriodically audited your books and ascertained the correctness of the entries made therein. The vouchers for disbursements are complete, and the sources of revelue have been carefully exhausted.

The annual statement above I have much pleasure in certifying to be correct, according to the books of the company.

PHILIP S. Ress.

PHILIP S. Ross Chartered Accountant and Auditor.

The chairman continued that it was well known that there had been some misunderstand The liabilities have been valued by the Government Superintendent of Insurance on the basis of the Hm. Institute of Actuaries Table, and 4½ say, had been honorably and amicably arranged. per cent. interest. This is the strictest test in use in Canada. Had the New York Standard been used as is done by American companies, for the future they hoped to have everything.

right. The statements in some of the papers

were gross exaggerations. He concluded by moving the adoption of the report.

Mr. E. J. Barbeau seconded the adoption of the report. He said the accounts showed the condition of the Company to be good and that it enjoyed public confidence. But it is also condition of the Company to be good and that it enjoyed public confidence. But it is also necessary not only to build up a good business, but to see that the investments are properly placed. The Company had made some losses and he accepted his full share of the responsibility for them. He hoped, however, that in the future, profiting by the lessons they had learned they would be more careful. He was quite willing to relinquish his position on the Board and let a new man take his place if the shareholders thought it would be for the benefit of the Company.

of the Company.

Mr. John McLennan expressed his pleasure at learning that the difficulties in the Company were at an end. He thought, however, there ought to be a little more explanation. He saw by the statement that the insurance business of by the statement that the insurance business of the Company was doing well, but that there had been a loss in the investments. That was not a serious matter, but it would be a serious matter if there were any differences between the Directors and the Manager. The Company could not stand that and it would be very satisfactory to be able to report that the differences had been brought to an end. He concluded by moving a vote of thanks to the President, Directors, Manager, and officers of the Company.

Mr. Tasker seconded the motion, and it was

Mr. Tasker seconded the motion, and it was carried unanimously.

Mr. Workman responded and thanked the stockholders for passing the resolution. He said the Directors would in future do everything in their power to advance the interests of the Company. He read a letter from the agent of the Company in Winnipeg, showing that the Company was very popular in Manitoba and doing well. He expressed his belief that there was a bright future before the Company.

Mr. Andrew F. Gault thanked the stockholders for the motion which had just been passed. If re-elected he would do all he could to promote the welfare of the Company. The differences as to the sale of their investments in Loan and Mortgage Co. stock has been merely in matters of judgment. He had thought that the Loan and Mortgage Co. was as safe as the Bank of Montreal, and he had thought that as they were getting 7 or 8 per cent. for them they should be retained.

Mr. Barbeau said he thought Mr. Macaulay should have an opportunity of speaking, and he took occasion to express the high appreciation which the Directors had of his services.

Mr. Macaulay, in behalf of the officers thanked the stockholders for their votes. In regard to the stockholders for shell voses. In logard the position of the Company the report showed a great increase of business in both departments, which showed that the company enjoyed the confidence of the public. The company had received applications during the year for nearly 3,000 persons. The Company to-day stands in 3,000 persons. The Company to-day stands in a very strong position financially, and he had great hopes for its future. One reason for their popularity was that they paid their claims very promptly, and that they had elminated from their policies all clauses which led to litigation. The surplus had been reduced below what it would otherwise have been by the loss on the Exchange Bank stock and the reduction of value of Loan and Mortgage Company stock. The of Loan and Mortgage Company stock. The chief object of the Board and himself had been, chief object of the Board and himself had been, first to protect the policyholders, for while they protected them they were protecting the shareholders. He referred to the articles that had appeared in the Witness and Star the evening before, but repudiated any responsibility on his part for them. For his part he had never for a moment thought of being independent of the Directors; the idea was ridiculous. The amicable relations that had always existed between himself and all the Directors, with, perhaps, one himself and all the Directors, with, perhaps, one exception, still existed to day. He did not rejoice that Mr. M. H. Gault was going out, although he had not always seen eye to eye with him. He believed he had resigned in the interest of the Company. For his part he could promise the shareholders that he would always be found doing his duty.

After some explanations had been given in regard to the real estate of the Company, a vote of thanks to the medical officer and agents was unanimously passed.

Mr. Macaulay then mentioned the names of Messrs. Gilbert, the Toronto agent, Gilroy, of Manitoba, and Sutherland, of Halifax as indefa-tigable workers for the Company, and concluded

by a flattering reference to the services of Dr. Wilkins, the medical adviser.

Mr. Gilbert returned thanks on behalf of him-

self and the agents of Western Ontario for the vote of thanks passed to them. They had one and all the interest of the Company at heart. He wished also to acknowledge the great assistance given them in their work by the managing directors and other directors when required.

Mr. Garner was satisfied that a large business could be done in Western Ontario. Mr. Smith, of Toronto, the Company's inspector, also made

a few remarks to the same effect.

The election of five directors was then pro-seeded with, and, on motion, the President cast a single ballot, by which the following gentlemen were elected:—Messrs. A. F. Gault, E. J. Barbeau, B. Macaulay, W. J. Withall and J. S. McLachlan.

Mr. Robert Anderson then moved, seconded by Mr. M. McKenzie, that a vote of thanks be tendered to the Chairman for so ably presiding at the meeting. This was carried unanimously, Mr. Workman briefly replying.

The meeting then adjourned.

INSURANCE NOTES.

The Fire Committee of the Montreal Council met on Friday, last and decided to advertise for tenders for 8,000 feet of hose. The chairman, declared his intention to get a new fire hall built at Chaboillez Square, the present one he hall built at Chaboillez Square, the present one being a disgrace to the city. The Star having stated that the Clapham—Jones steam fire engine was not in good working order, the Chief was instructed to have it placed in proper shape. The committee decided to ask an appropriation from the council to cover the following estimate of expenditure of the department for the ensuing Year;—One chief, \$1,400; two assistants, at \$1,000, \$2,000; twelve guardians, at \$600, \$7,200; three engineers, at \$600, \$1,800; one \$7,200; three engineers, at \$600, \$1,800; one hose-maker, \$600; one, foreman salvage crops, \$700; one ditto., Skinner ladder, \$550; three men, salvage corps, at \$550, \$1,650; forty-four fremen, at \$500, \$22,000; one guardian, Hochelaga station, eight months, \$400; two firemen, ditto., eight months, \$666; one fireman, ditto., one year, \$500; making a total of \$39,466. Add to this for uniforms, \$3,350; horse keep, \$8,300; supplies, \$600; light, \$950; fuel, \$1,050; repairs to stations, \$800; repairs to apparatus, \$900, repairs to stations, \$600; repairs to apparatus, \$900, exchange of horses, \$500; contingencies, \$500 new hose, say 8,000 feet Paragon, \$1.05 per foot, \$3,150; ten new salvage covers, \$15 each, \$150; grand total, \$54,716.

German insurance companies are considering the advisability of a reduction of premiums to those mills and other establishments which are fitted up with a plant for electric lighting. This question is of consequence to millers and is at present freely discussed by the Budapest mill owners on one hand and the leading Austrian insurance companies on the other hand. No decision has as yet been published.

The Almonte council has agreed to purchase a Button steam fire engine, the machine to be tested before it is accepted. The cost is to be

roughest manner, and several were assisted to leave in a style more hurried than graceful. The boys, however, rather enjoyed it, and a ring was formed among them, with a solemn agreement to keep calling on the grocer until he gave some one an order. One day, eight or ten months ago, an agent for a Detroit house entered the grocery prepared for the worst, but what was his amazement to be received with a smile of welcome. This was followed by kind words and come. This was followed by kind words and later on by an order of about \$800 worth of goods. The agent was so elated that he telegraphed the news home and to several of his acquaintances and it was a week before he recovered his usual equilibrium of spirits.

'And did he continue to buy of your house?'

asked one who had listened to the drummer's

story.
'Well, no.

'Why not.' 'Because within ten days after he got our goods he failed and couldn't pay five cents on the

Commercial.

MONTREAL MARKETS.

MONTREAL, March 19, 1884.

The weather has not, thus far, proved favorable to any decidedly increased movement of general merchandise, but a week or so of mild springlike weather, would no doubt work a noticeable change, in some lines at least. Dry goods men are all complaining of the quietness that has ruled in their line all this month; but as the season advances, and travellers get out any their senting which some of them will on their sorting trips, which some of them will be doing very shortly, matters must improve. Payments in this latter line are rather complained of, but in other lines there does not seem so much of a disposition to grumble, especially considering the general dullness. The money market continues to be well supplied at rates ranging from 4 to 5 per cent. for call loans; assount rate, on good commercial paper, 7 per cent. Sterling exchange is rather firmer, at about 9\frac{3}{2} for 60 day bills. The stock market shows a fair business doing, with prices rather stronger. Last quotations for Bank Montreal 193\frac{1}{2}; Commerce, 126\frac{3}{2}; Toronto, 185; Ontario, 105.

Ashes.—The market has fluctuated som what since last report, and No. 1 Pots, which were sold at from \$4.42\frac{1}{2}\$ to \$4.45, are now quoted at \$4.20 to \$4.30, the latter being an outside figure. Receipts continue to be only moderate, but shipments are still very light, (we hear of only 50 brls. being shipped since last writing,) and stocks in store are something over 1.600 brls. Seconds may be quoted at \$3.60 to \$3.70. Pearls about \$6.10.

Dry Goods.—March trade this year, in dry goods, has been very dull, and some houses report a much larger shortage, than even was calculated on. A good many western buyers, who spoke of coming down, have evidently changed their minds. Wholesale millinery men report a good trade doing, but say that there have been few buyers from west of Kingston. City retail trade is not active, and some continued mild weather is needed to induce buying of spring goods. The latter end of last week was balmy and spring like, but St. Patrick, usual, was greeted with storm and bluster. Payments are on the slow side, some houses reporting a falling off of some fifteen per cent., from last year. There is nothing strikingly new in cottons, but there does not seem to be the same disposition to force sales, that was apparent a short time ago. Wholesale men generally, seem to order fall tweeds, underwear, &c., sparingly, and mill men are grumbling thereat.

DRUGS AND CHEMICALS.—Trade is fair in a quiet DRUGS AND CHEMICALS.—Trade is fair in a quiet way, but as in all other lines, there is a disposition to put off buying. Payments are reported fair, all sorts of heavy chemicals are pretty well reduced, and from what we hear it is probable that spring shipments will be lighter than usual, there being fewer consignments expected. Quinine continues to be very unsettled. We quote ine continues to be very unsettled. We quote Sal Soda, \$1.20 to 1.25 per 100 lbs.; Bi. Cb. Soda, \$2.50 to 2.60; Soda Ash \$1.50 to 1.75; Bichromate tested before it is accepted. The cost is to be about \$6,500.

How the grocer gave in.—There was, up to a year or two ago, a young man in the grocery business in one of the villages of Western Michigan who was famous for his hatred of drummers. Travellers from Chicago, Detroit and other houses were ordered out of his store in the \$2.50 to 2.60; Soda Ash \$1.50 to 1.75; Bichromate of Potash per 100 lbs., \$10.00 to 11.00; Borax refined, 14½0. to 15½0. Cream Tartar crystals, 30½ to 2.60; Sougar Of Lead, 11 to 12½0.; Bleaching business in one of the villages of Western Michigan who was famous for his hatred of drummers. Travellers from Chicago, Detroit and other houses were ordered out of his store in the

\$2.40 to \$2.60; Sulphate of Copper, \$5.50 to \$5.75; Epsom Salts, \$1.25 to \$1.40; Saltpetre, \$9.00 to 9.50; Quinine, \$1.75 to \$2.10; as to makers, per oz. bottles; Opium, \$4.10 to \$4.25; Morphia, \$2.15 to \$2.80. Gum Arabic, sorts, 25 to 30c. White, 40 to 45c.

FLOUR -Nothing outside a local demand to be noted, and prices show little change. We quote Superior Extra, \$5.55; Extra Snperfine, 5.35; Fancy, \$5.00; Spring Extra, \$4.90 to \$5.00; Superfine, \$4.25; Canadian Strong Bakers' \$5.25 to \$5.50; American do., \$5.45 to \$5.55.

-Beyond light receipts of fox, skunk rat and mink, there is nothing doing yet, and last week's revised prices still hold. At the moment of writing, reports as to the result of the great London sales of the 17th inst., have not been received, but no great changes are looked for. Wholesale manufacturers are workup fall goods, and some few travellers have started out for instant points.

GROCERIES.-With settled fine weather there is no question of a marked improvement in this line, as it is there is a fair business doing, but mainly with city jobbing and retail firms. In Teas there is still a lively movement and stocks of desirable grades are getting exhausted. Japan teas ranging from 23 to 30 cents are in good deteas ranging from 25 to 30 cents are in good de-mand and scarce. We hear of one lot of teas changing hands four times in ten days, each time at an advance. Blacks are coming more into consumption; London stocks of these are evidently not very full, as out of an order for 1800 packages recently cabled for, only 400 could be got. In Sugars there is nothing fresh as regards prices, but there are a good many selling, and refiners' stocks are low, bright yellows. selling, and renners' stocks are low, bright yellows are scarce. Molasses still 43 to 44 cents; Rice steady at old rate. Stocks of Currants light and prices unchanged; they are reported as offering lower at Patras, but quality is probably off. Valencias are lower at 5 to 62 cents. Prunes easier at 53; Spices pretty firm all round.

HARDWARE AND METALS.—General hardware men do not report much improvement in business, but payments are by no means bad. Travellers west of Toronto find it hard to do business owing to the discriminating railway rates. A representative of a leading house, writing from a town equidistant from Montreal and Chicago, says that a customer on whom he called showed him a freight bill on lead pipes from Montreal at the rate of 57c. per hundred, while on iron piping received at same time from Chicago the rate was only 17c. In Pig Iron there is rather more doing, but the demand is all for small lots, founders and others buying cautiously in the expectation of lower prices. In Tin Plates there is pectation of lower prices. In Tin Plates there is rather an easier feeling but there is no change in pectation of lower prices. In Tin Plates there is rather an easier feeling but there is no change in local quotations except for large lots. Other metals are unchanged. We continue to quote Gartsherrie, & Summerlee \$20.00 to \$20.50; Calder, \$20.00 to \$20.25; Langloan, \$20.50; Coltness, \$20.50; Dalmellington, \$18; Eglinton, \$18; Hematite, \$28.00 to \$25.00; Stemens, \$20.50 to \$21.00, nominal; Bar Iron still \$1.85 to \$2; Canada Plates \$3.15 to \$3.25 as to brand Tin Plates Charcoal I C \$4.90 to \$5.25 as to brand; do. I X. \$6.75 to 7.00; Coke I C., \$4.40 to \$4.75, Galvanized Sheets, No. 28, 6½ to 7½c. according to brand; Tinned Sheets, coke, Nos. 24 to 26, 7½ to 7½c.; Hoops and Bands per 100 lbs., \$2.50 to \$2.75; Sheets, best brands, \$2.50 to 2.75; Boiler Plate per 100 lbs. Staffordshire, \$2.75 to \$3.00; Steel Boiler Plate \$3.25 to \$0.00; heads \$4.50; Russian Sheet Iron, 10½ to 11c. Lead per 100 lbs.:—Pig, \$3.75 to \$4.00; Sheet; \$4.00; Shot, \$6 to \$6.50; best cast Steel, 11½ to 12c., firm; Spring, \$3.50, firm; Tire, \$3.50, firm; Sleigh Shee \$3.50, firm; Tire, \$3.50, firm; Sleigh Shee \$3.50, firm; Tire, \$3.50, firm; Sleigh Shee \$3.50, firm; Tire, \$3.50, firm; 12c., firm; Spring, \$3.50, firm; Tire, \$3.50, firm; Sleigh Shoe, \$2.50 to \$2.75. Ingot Tin, 22 to 28c. Bar Tin, 24 to 25c.; Ingot Copper, 164 to 17c.; Sheet Zinc, \$4.75 to \$5.50; Spelter, \$4.75 to \$5. Bright Iron Wire, Nos. 0 to 6, \$2.75 per 100 lbs.

Bright Iron Wire, Nos. 0 to 0, \$2.75 per 100 lbs.

LEATHER.—Trade is a little improved but is still far from active. There is a firmer fealing held with regard to sole leather, the Boston market is decidedly stronger, and with a good demand prices would go up. Good light upper continues in limited supply, and is if anything firmer. Weekly shipments of splits to the British market continue to be made and continues in limited supply, and its to the firmer. Weekly shipments of splits to the British market continue to be made and realize fairly. We quote: Hemlock Spanish Sole B. A. 24½ to 27c.; ditto, No. 2 B A 22 to 24c; No. 1 Ordinary Spanish 24 to 25½c; No. 2 ditto 21 to 28c; No. 1 Okina 28c. No. 2 20 to 21c. ditto Buffalo Sole No. 1, 21 to 22c; ditto No. 2, 19½ to 21c. Hemlock Slaughter, No. 1, 26 to 27½c; Waxed Upper, light and medium, 38 to 38c; ditto ditto heavy, 38 to 35c.; Grained, 34 to 38c. Splits, large, 21 to 80c.; ditto small, 14 to 20c. Calfakins (85 to 46 lbs.) 70 to 80c; ditto (25 to 84 lbs.) 60 to 70c.; Russet Sheepskin Linings, 80 to 50c; Harness, 24 to 83c; Buffed Cow, per ft., 14 to 15c. Enamelled Cow, 15 to 16c. Patent Cow, 15 to 16c. Pebbled Cow, 11 to 15½c. Rough, 28 to 28c. Imitation French Calfakins. 75 to 85c; Russet & Bridle, 45 to

OILS AND PAINTS.--Linseed oil has developed quite an advance, and is now quoted at 60c. for raw in small lots, 63 to 64 for boiled. Turpentine unchanged at 5½c.; Olive oil \$1.05 to 1.10 -Castor oil 10½ to 11c. per lb. Steam refined seal is, virtually "cornered" and as high as 77½ to 80c. is being asked; there is also an attempt to corner cod oil which is very firm at 67½c. for Nfid. A., Shellac D.C., 33 to 34c. other grades in Nfid. A., Shellac D.C., 33 to 34c. other grades in proportion. In paints and colors there is some little more business doing, but business won't be really active till opening of navigation. Leads are steady at old prices. We quote White Lead (genuine and first-class brands only) \$6 50 to 7.00; No. 1, \$5.75 to 6.25; No. 2, \$5.25 to 5.75; No. 8, \$4.75 to 5.00. Dry White Lead 6 to 6½c. These prices for round lots. London Washed Whiting 60 to 65c; Paris White \$1.25 to 1.50; Cookson's Venetian Red \$2.00 to 2.50; Yellow Ochre, \$1.50 to 1.75; Spruce Ochre, \$2.25 to 4.00 as to quality.

2.50; Yellow Ochre, \$1.50 to 1.75; Spruce Ochre, \$2.25 to 4.00 as to quality.

Provisions.—The butter market rules quiet with only a moderate demand, and that from local sources. Prices are if anything easier. We quote Eastern Townships 19 to 21c.; Morrisburg 18 to 20½c.; Western 16 to 18c. Cheese, choice fall make 18½ to 14c., other grades 11 to 18c. Eggs are down in price, sales being reported at 19c. In hog products there is only a light trade passing. We quote Canadian short cut \$22.00; Western mess \$21.00 to 21.50; hams 14 to 14½c.; bacon 13 to 14c.; lard, western, 12½ to 13c; Canadian, 12 to 12½c.; dressed hogs \$9.00 to 9.40.

Wood. -Trade in this line is not livening up Manufacturers complain that wholesale at all.

men are very slow in ordering, and the fact that the banks are stringent in their dealings with mill men. just now, also tends to curtail operations. We quote: Cape, 16½ to 18c., as to grade; Australian, 23 to 32c., for very fine; Canadian A. Supers, 27½ to 28½c.; B. ditto, 22½ to 24c.; Black and Unassorted, 20 to 22 cents.

ENGLISH MARKETS.

London, Mar. 19 1884.

Beerbohm's report says: "Floating cargoes-Wheat, quiet; maize, none offering. Cargoes on passage—Wheat and maize dull. Mark Lane on passage—Wheat and maize dull. Mark Lane—Wheat and maize slow. Arrivals off coast—Wheat small; maize, nil. English country markets quiet but steady; French quiet. Imports into the United King the past week—Wheat 180,000 to 185,000 qrs; maize 90,000 to 95,000 qrs; flour, 150,000 to 165,000 brls. Liverpool—Spot white wheats firmly held, but reds very dull; maize, heavy, id cheaper. Paris—Wheat and flour quiet."

LIVERPOOL, Mar. 19 1884.

LIVERPOOL, Mar. 19 1884.

The cotton market is steady, quotation for Uplands 5 and 15s. 16d.; Orleans 6 and 1s. 16d. Quotations for Uplands April and May three farthings higher. Afternoon, futures closed firm and still higher. Quotations flour and wheat unchanged for the week at 11s. 6d. for flour; 8s. for spring and 8s. 6d. for red winter; 7d. 10s. for No. 2 Cal.; 8s 4d. for No. 1 ditto.: corn lower, closing at 5s.; barley and peas steady; pork close at 74s. which is 1s. lower, bacon at 46s., which is higher. Cheese steady at 71s.

AMERICAN MARKETS.

NEW YORK, March 19th, 1884.

Cotton is firm at unchanged prices: Wheat Cotton is firm at unchanged prices: Wheat irregular, sales being made at \$1.08½ for No. 2 red April, and 872,000 bush. at \$1,10½ May and \$1.12½ June. Flour dull and unchanged at \$6.25 to \$6.50 for Western Extra. Barley quiet and steady, Oats better, sales 510,000 at 39½ to 41c. for mixed; Pork weak in morning, steady in afternoon at \$17.62 to \$17.75. Lard 5c. easier since morning, quoted \$9.72½. Hops quiet, Coffee dull, Rice steady. Sugar nominal, Tallow dull, Petroleum unchanged, Beef steady.

CHICAGO, March 19th, 1884. Quantities of wheat offering, market opened at 95c for May, closing 94½c.; 96 ½c. June closing at same. Corn ruled lower in sympathy, closing at 56½c. May. Pork for May delivery opened at \$18.02 and closed at \$17,90, April lard ruled steady throughout the day at \$9.37\frac{1}{2}, closing at \$9.50 for May, having opened at \$9.60. Oats are \frac{1}{2}c. lower at \$5c. for June. Bulk meats

TORONTO MARKETS

TOBONTO, March, 20 1884.

The present dull weather, alternated with rain and snow, has a very depressing effect on trade; this is especially so in millinery, in which line the number of buyers, despite the cheap trips, is less than was expected. Not much activity is expected until the bright days come,

There is not much fluctuation in the share market. Bank stocks are quiet and Loan and Savinga' stocks are steady. Sixty-day bills on New York, were yesterday quoted at \$4.88. The cable announces Hudson Bay shares at 25\$, and North West Land at 60s.

BOOTS AND SHORS.—Demand is slack, sales in BOOTS AND SHORS.—Demand is elack, sales in the country being disappointingly small and payments in many cases unsatisfactory. The threatened trouble with J. D. King & Co.'s operatives has subsided, and the "kickers" were few in number. The Bill of Prices adopted in February by this firm is substantially the same as was adopted last Fall by W. B. Hamilton and ought to be estifactory. ought to be satisfactory.

DRY GOODS.—The influx of buyers has not ceased, and the demand for return tickets, under the Board of Trade arrangement with the railways, continues. There were eighty-eight tickets sold on one day recently, ninety-eight on an-other, one hundred and fifteen on a third and the number already issued is estimated by the Secretary at 1,000. With all these millinery and dry goods buyers in town, however the aggredry goods buyers in town, however the aggregate of business done is not great; parcels bought are small, and the general disposition, one of caution. Prices of domestic cottons are still low; there is a good enquiry for prints and for summer fabrics of nouveaute. Tweeds are steady and do not appear to be in excessive supply. This cannot be said of knitted goods or blankets. One factory in Toronto has given notice to its employees of shortened production and another mill not far away is following suit, We note elsewhere the failure of a knitting mill in Quebec. in Quebec.

DRUGS AND CHEMICALS.—Our quotations are without change, and the market void of any noteworthy features.

FLOUE AND MEAL.—This market is exceedingly quiet, and the quantity of Canadian flour offering, very limited, scarcely sufficient for requirements. There is not a little American in market. We quote: Superior Extra, \$5.05 to \$5.10; Extra, \$4.75 to \$4.80; Strong Bakers',

GROCERIE		ars are in	noderate	demand.

The market has opened so low that planters declined to sell any more at present, rather pre-ferring to wait for a rise. Teas are steady, and are said to be lower here than elsewhere; in New York and London the feeling is very firm. Quite an active demand exists for Syrups, they are steady at last week's quotations. Fruit is very slow of sale, although no decline in quotatiors can be noted. Now that the Lenten season is past, the movement in Fish is very limited. Coffees, Rio is dull and drooping, the market being in sympathy with New York, where a heavy decline is expected in consequence of the recent gambling in the article. General trade is fair.

HARDWARE AND METALS.—Prices still favour buyers, and stocks are light. Prospects for the immediate future are fair, and large consumers and country stores are looking ahead, but it is not expected that business will come up to last year. In consequence of this, the trade is not particular about anticipating wants to any great

HIDES AND SKINS.—Demand is active but offer-Geographies.—Sugars are in moderate demand. Ings are of poor quality. Steers are 8c. as bePorto Ricos are expected in market shortly. fore and Cows 7c.; Cured and Inspected sell at

8½ to 9½c. Calfskins green 11 to 18c.; ditto cured 18 to 15c. Sheepskins 75c. to \$1.10. Tallow rough 8½c.; ditto rendered 7 to 7½c.

Wool.—There is a moderate enquiry from fac-tories. Sales though small are at fair figures. For Fleece there is an improved demand with steady prices and decreasing stocks.

LEATHER—A decided movement upwards in Sole Leather in the U. S. is announced; it has advanced 1 to 1½c. and is still "booming." To what extent our market may be affected and how soon it is a difficult matter to say, but it must soon react here more or less. With this exception the market is in the same condition as it has been for the last two months. Opportune are been for the last two months. Quotations are without change.

Provisions.—Trade generally has been very quiet. Choice Butter is selling fairly well, while Eastern Townships of faultless quality brings 24c. Cheese continues firm with a very light stock. The Hog produce market is quiet with quotations firmly maintained; Dressed Hogs have declined materially and are now quoted 8 to 8½c. Eggs sell at 21c. and are a shade firmer.

THIN CIRCULAR SAWS.

Give us a chance to estimate for you before you place your order for Circular Saws this year, and we advantages of our will explain the American Damascus tempered solid Saws, and inserted-tooth Saws, and how it comes that we can save you money by using them.

Intercolonial Railway.

Railways

GREAT THE CANADIAN ROUTE! TO AND FROM THE OCEAN.

FOR SPEED, COMFORT AND SAFETY IS UNSURPASSED.

Pullman Palace Day and Sleeping Cars on all through Express traina. Good Dining Rooms at convenient distances.

No Custem Hense examination.

Passengers from all points in Canada and Western States to Great Britain and the Continent, should take this Houte, as hundreds of miles of Winter Navigation are thereby avoided.

EMPORTERS and EXPORTERS will find it advantageous to use this route, as it is the quickest in point of time and the rates are as low as by any other. Through freight is forwarded by fast special trains, and experience has proved the successmal route to be the quickest for European freight to and from all points in Canada and the Western States.

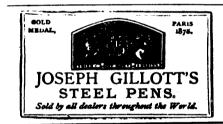

The Pullman cars which leave Montreal on Monday, Wednesday, and Friday run through to Halifax without change, and those which leave Montreal on St. John, N.B., without change.

Tickets may be obtained, and also information about the route and about freight and passenger rates from

rates from

ROBT. B. MOODIE. Western Freight and Passenger Agent, 98 Rossin House Block, York St., Toronto. D. POTTINGER,

Chief Superintendent. Railway Office, Moneton, N.B., Dec. 10th, 1868.

Canadian Pacific Railway Co.

LAND REGULATIONS.

The Company offers land within the Railway Belt along the main line, and in Southern Manitoba, at prices ranging from

\$2.50 PER ACRE

upwards, with conditions requiring cultivation.

A rebate for cultivation of from \$1.25 to \$3.50 per acre, according to price paid for the land, allowed on certain conditions. The Company also offers Land WITHOUT CONDITIONS OF SETTLEMENT OR CULTIVATION.

THE RESERVED SECTIONS

along the Main Line, i.e., the old numbered Sections within one mile of the Railway, are now offered for sale on advantageous terms, to parties prepared to undertake their immediate cultiva-

TERMS OF PAYMENT:

Purchasers may pay one-sixth in cash, and the balance in five annual instalments, with interest at SIX PER CENT. per annum payable in advance.

Parties purchasing without conditions of cultivation, will receive a Deed of Conveyance at time

of purchase, if payment is made in full.

Payments may be made in LAND GRANT BONDS, which will be accepted at ten per cent.

premium on their par value and accrued interest. These Bonds can be obtained on application at the Bank of Montreal, Montreal; or at any of its agencies.

FOR PRICES and CONDITIONS OF SALE and all information with respect to the purchase

of Lands, apply to JOHN H. McTAVISH, Land Commissioner, Winnipeg.

By order of the Board. Montreal, December, 1883.

Government Deposit at Ottawa, -**\$130.000 00** Assets, Dec. 31, 1889, -86,279,379 77 Surplus over all Liabilities, (N. Y. Standard) - 8700.911 99 Dividends to Policy-holders, to 31st Dec., 1882, Total Payments to Policy-holders, \$4,068,886 15 - 819.354.271 76

This is the only Company that issues Policies giving the benefits of the Maine non-forfeiture law, and specifying in definite terms by its Policy Contract, that there can be no forfeiture of the insurance by nonpayment of premium after three annual premiums have been paid, until the value provided for is exhausted in extended insurance, and every policy issued, states in plain figures, the extended insurance and cash policy issued, states in plain figures, the extended insurance; and cash value as the case may be (after the third year), according to the number of full annual premiums paid. NOT MERELY ESTIMATES BUT ACTUALLY GUARANTEED and after being in force THREE FULL YEARS the policy BECOMES INCONTESTABLE. Matured policies are payable at once without rebate of interest on receipt of satisfactory proofs of death, together with a valid discharge from proper parties in interest, the Company waving the usual delay of ninety days required by most Companies. most Companies.

The guaranteed extensions and each values do not include the Dividends which will accrue to the Policy.

Agents wanted in unrepresented districts.

Unconditional Policies.

No other company in Canada issues Unconditional Policies. They are entirely free from all vexatious restrictions regarding travel, occupation, habits, suicide, etc., and are absolutely indisputable when two years in force. They are thus the best commercial securities of their kind, as they cannot be forfeited by the acts of the assured.
