### UNIVERSITY COUNCIL.

, i somewhat breezy passage between the Medical Examiners and the Rev A. A. Cherrier, Editor-in-Chief of The Northwest Review.

The following is from the Free Press with some emendations and additions, and constitutes part of the report of the work done at the University Council on Dec. 6th, 1900:---

#### FRENCH M. D. CANDIDATES.

Dr. Chown, speaking to a question of privilege, read two articles from the Northwest Review, and complained that these reflected on the examiners in medicine. He brought this matter up as one of the members of the examining board in medicine, and at the request of the other members, who did not believe that the insinuations made could be justified or verified. The articles charged the medical examiners with an anti-Catholic bias, such that a candidate who was a Catholic with a French name or an Irish name was likely to be plucked. The case was mentioned of Fortunat Lachance, and it was said if he had been a Protestant and had his name been freely translated into English, "happy-golucky," he would have been passed. One of the examiners was reported to have said: "I'm glad I plucked that Frenchman." Above the editorials, Dr. Chown went on to say, was the name of Rev. A. A. Cherrier, editorin-chief, who was chairman of the board of studies, and the examiners were appointed by the board of studies. Referring to the paper as edited by the chairman of the board of studies, Dr. Chown was corrected by Father Cherrier, who said: "No, not by the chairman of the board of studies, but by Rev. A. A. Cherrier."

Dr. Jones said this was the first time he had heard the article. He had not been at the meeting of the examiners referred to, so the subject was new to him. He regretted this extraordinary article, reflecting on the honor and integrity of a class of men who had done a great deal for medical education, having started the college and worked for seventeen years, some of them receiving no remuneration. He was very sorry a paper emanating from so grand church and under its auspices, should have cast such reflections. The examination papers being numbered, an examiner could not tell who was a Frenchman if he wrote in English. Two men whose papers he had received had written in French; he got Father Guillet to translate them, and these two men had passed. Father Cherrier, in reply, maintained that it was not as chairman of the board of studies or as a member of the university council that he should be held responsible for the articles in question. He was editor-in-chief of the Northwest Review, and as such he claimed liberty to admit to publication articles that might come to him. Since the question had been raised, he was prepared to say, as a member of the university, that there was circumstantial evidence to justify the article. Thus, here was a student who had been very successful in the study of classics, and a regular attendant at lectures in medicine, having seventy tickets out of seventy-two; who had been successful in partial examinations carried on during the session; yet had been plucked, not in one subject only, but in all. There was a report in circulation that a certain doctor had boasted he would pluck all French students. A student in attendance at the same time stated three months before the examination that that student would be plucked. At this very meeting of the council a report of the board of studies had been adopted, whereby standing in chemistry was granted to two candidates who had been reported by a medical examiner as having failed. The board of

The same examiner, it was, who once rose, on a question of privilege also, in the board lor; Dr. Laird, registrar; Rev. Dr. of studies, to defend himself, and seemingly had his point carried in his favor. Circumstances, however, have since come to light which more than confirm the former charge. The members of the faculty may perhapsotell this council why the said doctor had turned out to be a disgrace both to Dr. Chown, Rev. S. Cleaver, Rev. A. them and the university. There was reason for feeling uneasy. Another

case was that of Dr. Dubuc. He pursued his classical studies with extraordinary success; went east, followed a medical course and came out very near the most successful of the candidates. He came here and had to pass examination, and it was three years before he got a license to prac- A Large Sum Realized as the Result tice. Years ago he (Father Cherrier) asked Dr. Iones whether it was not possible to have some one who thoroughly understood both languages on the staff of examiners. The doctor answered that he would try. But so far nothing had been done. The French students were at a great disadvantage in being unable to write in French and have their papers examined. The article was perhaps strong, but they have suffered so much, and there are cases when men stabbed in the back will be exasperated. Belonging to an imposing body worthy of the praise of the whole civilized world, they felt they had suffered of late years from many different quarters.

Dr. England held Father Cherrier as chairman of the board of studies, responsible to the university. No cloak of Dr. Jekyll and Mr. Hyde could cover him. He (Dr. England) had come into intimate connection with Fortunat Lachance, and the latter had been a poor attendant on the lectures in anatomy when his duty was to be in the dissecting room and not visiting around the streets with a doctor.

Here Father Cherrier interrupted: Why, then, did you certify his tickets of attendance?" to which Dr. England vouchsafed no reply.

Dr. Laird held that if the chairman of the board of studies had the slightest inkling of wrong work done by any examiner, and especially if he could give the name of any man who had said Frenchmen were going to be plucked, he should give the information to the council. If any member of the board of studies knew of an instance in which an examiner had been dishonest, he should state the facts, or he should not retain his position. The chancellor said it was very unfortunate that this had occurred. He thought Father Cherrier had made a very great mistake in allowing such an article to appear in his paper. Whether he should have given information of the names of individuals depended upon the evidence. He might have suspicions only; if that was the case, still less should he have brought them through the vehicle he used before the public. He, had done a wrong and unfortunate thing in allowing such an article to appear. No doubt if Father Cherrier had inquired he would have found out that there were good reasons for the unfortunate positions of these students. Students might take a good position in one branch and be a failure in another. Rev. Dr. Patrick thought His Grace had admirably interpreted the sentiment of all. He thought Father Cherrier had misconceived his duty. The fact that he was chairman of the board of studies gave the article weight and authority it would not otherwise have had. It was incumbent on him to raise in the council the important question that he had raised in the newspaper. He was responsible for the appointment of the examiner referred to, and he would have been within his rights in raising the question. The aspersion was on the university. The broad charge was against the medical examiners, not one merely, that no Frenchman, and especially no Roman Catholic, could get justice. studies found itself in justice bound They wished to exclude racial, denoto overrule in this case the report of minational and social considerations, question on either side was: How dard and Times.

### THE CATHOLIC BAZAAR IN CALGARY.

### of the Week's Labors.

The spacious store in the Norman Block, which will be occupied next week by Messrs. Glanville & Robertson, has been a busy centre during the past week. As readers of the Herald are already aware, Messrs. Glanville & Robertson kindly placed their new and handsome premises at the disposal of the ladies of St. Mary's church, so that the bazaar in aid of the church might be located in a central position.

As a result, the bazaar has been largely patronized throughout the week, and every evening it was somewhat difficult for the unwary visitor who found himself inside, to work his passage out again, a poorer but wiser man.

Every temptation was placed before the unsuspecting visitor. A really choice assortment of fancy work hung upon the walls at the opening, and was disposed of without difficulty. Raffles without number were organized, and one might tempt fortune on any side in the hopes of winning a horse, or a cushion, a cow, or a cosy, or even a town lot. Indefatigable workers awaited the arrival of the men, who pay no attention to the visitor and swooped down upon him printed notices to trespassers. with the most brilliant offers, abandoning the pursuit only when the lone unprotected man was left with "the clothes he stood up in," as one visitor was heard to say.

The most exciting as well as the most successful feature of the bazaar was a contest between three young ladies for the right to be known as the most popular young lady, the outward and visible sign being a handsome gold watch valued at \$135 and presented by Mr. P. Burns, the well known cattle king. The ladies engaged were Miss M. Grace Cameron, chief of the C. P. R. Commercial Telegraph department; Miss Mamie Robinson, of the Elbow Park ranche: and Miss Walker, a young lady recently arrived from Medicine Hat. The lady last named was very much handicapped by the fact that she had been a resident of the city for only a few months, but in spite of this difficulty she polled quite a respectable vote. The real contest, however, lay between Miss Cameron and Miss Robinson, and each young lady had many friends who took a very deep in terest in her success, and who now had an opportunity of showing that even in the matter of admiration 'money talks." Every vote cost ten cents, and every available ten cents. was gathered in. Mr. G. N. Toller, of the Bank of Montreal, acted as returning officer, and Mr. P. J. Nolan as his election clerk. Each candidate was represented by an agent whose duty it was to hand over to the returning officer all the money he could around. Well-bred persons who get hold of to buy votes for his candidate. The poll opened at 9 o'clock, when the figure stood Cameron 700, Robinson 500, Walker 200. At frequent intervals up to 10.30 the figures flucutated. Sometimes Miss Cameron led, sometimes Miss Robinson. Between 10.30 and 11 the excitement was intense. Each party was believed to have a large sum in reserve to be rushed in at the last moment, and the thirty odd dollars .-- Catholic Stan-

And the friends of the successful candidates sent up a rousing cheer.

Mrs. Costello, president of the bazaar committee, made the presentation to Miss Cameron, as well as of a handsome jewelled ring to Miss Robinson, and a service of silver plate to Miss Walker.

The many more votes could have been polled in her behalf had they been needed.

Miss Robinson, although not being a resident of the city, did splendidly, and her total was not a little of a relief, but in vain. We thus throw surprise, while Miss Walker's total out the subject for the consideraafter a few months' residence was highly creditable. The competition incidentally meant \$1,037.15 for St. matter. ### PROTESTANT TRIBUTE TO THE CONFESSIONAL.

(From the Christian at Work.)

There is no question that the confessional as a means for relief to a sin-burdened soul has its advantage. It must be a great relief to one bearing the burden of some peculiar sin, to be able to go into a closet, and there, through a small screen door, whisper into the ear of the faithful priest the story of To be sure, there is the feeling in Protestantism, "Go and tell Jesus." But even here perplexity and doubt tions arise: What must I do? tempter assails me irresistibly at times; what shall I, what can I do? The agonized cry often comes up from the troubled soul that seeks tion of those having interest in the " Go and tell the minister." But often the minister is the very last one to whom one would confide the distressing secret. So far as the Roman confessional is concerned, it is inseparable from the dogma of priestly absolution with which it is connected. But it would undoubtedly be a great source of comfort at times if some sin-burdened one could find some judicious friend who could serve him in this critical time of spiritual depression and conflict.

### CURRENT COMMENT.

The first copies of "The Little Manitoban" were turned out by the binder yesterday. It is a beautiful book in every sense, cover, paper, printing, illustrations, etc., above all, in the sense of containing beautiful and artistic thoughts in all the moods of gentle melancholy, joviality, sheer childish nonsense, stern morality and deepest wisdom.

It is all very fine, in a charitable work like this, to be able to say that not one single copy was given away, not even to the contributors, nor to the newspapers for review, and that not one of the contributors received any

pay; but we believe the receipts would have been larger had a small percentage of the profits been granted to booksellers and advertisers. \* \* \*

The biography of Thomas Huxley, the great agnostic professor, by his son, smashes another non-Christian idol. Huxley never tired of proclaiming to the world that he was a fighter of shams, and yet, on the filial testimony of his admiring son, the Tahlet shows (Nov. 24) how full Huxley's own life was of mean insincerities and shams. Self-love and intolerance were the least repulsive of his faults.

Our forecast about the mayoralty has, as usual, been verified. Mr. Arbuthnot deserves to be congratulated on having polled so large a vote, more than both his opponents combined. Two out of the six aldermen whom we singled out for probable election Messrs. Chaffey and Cockburn, have been returned by large majorities. We trust all the elected members of the city council will be worthy of inaugurating the twentieth century by an honest and intelligent administration of civic affairs.

### UNIVERSITY COUNCIL.

#### Rev. Father Cherrier and the Medical Faculty.

Our readers will see in another columin of the Review what we consider a fairly impartial report of a charge made by Dr. Chown against the Reverend A. A. Cherrier, for the publication of two editorials, in the Northwest Review, which reflected on the examiners in medicine. The result was, first, an indirect invitation, made by Dr. Laird, to the reverend gentleman to resign his position on the Board of Studies; second, a motion from Dr. The full title is "The Little Mani- Patrick, Principal of Manitoba Coltoban, a child's story-book, issued un- lege, seconded, after quite a time of der the distinguished patronage of anxious expectation, by Dr. Sparling, Her Excellency the Countess of Min- of Wesley College, expressing regret to for the benefit of the Children's Aid that the Rev. The discussion might much sooner have been brought to a close by the mere statement that the articles published in the Northwest Review, which had wounded the doctors' feelings, had neither been written nor read by its editor-in-chief, though they do represent his views; but that statement, albeit quite true, would hardly have been a manly course. Father Cherrier chose to stand the brunt of the fire and he must feel he has gained rather than lost in the esteem of those who know him well enough to appreciate his character. A reverend gentleman, a Protestant minister, referring to the matter the day following the meeting of the University Council, said to Father Cherrier: "Have patience, it will all come right in the end." Let us hope so, and may the day soon dawn on us, when the Review may be at liberty to congratulate the Medical Faculty on their impartial and fair treatment of all the French students who may choose to pursue their medi-

cal course in Manitoba.

At the last meeting of the University Council Father Cherrier was reproached with not having laid his grievances before the Board of Studies instead of ventilating them in public in the columns of this journal. Our answer is that we wanted to have those grievances redressed, not glossed over, pooh-poohed or denied. Several cases in our past experience had taught us that an appeal to the Board often defeats the ends of justice. One case in particular is worth mentioning. Last spring, in a small committee of the Board of Studies, when arrangements were being made for the medical examinations, Father Drummond suggested that they should try to appoint a proper superintendent.

This was **a** suggestion which information he had received as to the preceding examination made most opportune and prudent. It was not an impossible suggestion, as there must surely be some examiners who are habitually sober. It could not be considered unwise by his hearers who were apostles of temperance, and who could not help seeing how ineffectual would be the supervision exercised by a man possibly under the influence of liquor. Yet, far from adopting the implied advice that the matter should be investithe meanness to inform the superintendent himself, who made a point to

marks on the parallel case of Mr. in reforming the Army Medical Department in South Africa, not by futile representations to the War Office, but by making the matter public. Alluding to this we said:

"Interested people complained to us as they did to Mr. Burdett-Coutts, 'Why didn't you go to the Board of Studies quietly and inform them?' Our answer is, 'Because it would have No prejudiced exambeen useless. iner will admit that he has been unfair. But you may get him to change through fear of public opinion.' And Shipments to all R. R. points. they have changed. Twice they had plucked a brilliant medical graduate, who had won the Previous medal of the University of Manitoba, and had secured his M. D. with high honors at Laval University, a man who had been most successfully through that training in classics and philosophy which most of the medical examiners so sadly lack and which is the best preparation for any profession. But, after our editorial notes of September 12th, they have come to the conclusion that their dogmatism was a triffe too ridiculous and so they let the Laval doctor pass. They have also behaved more rationally towards other Catholic candidates. For all which let us be duly thankful."

### THE FREE PRESS AND THE ST. BONIFACE BY-ELECTION.

An evil spirit, fomenting discord and fanaticism among the various elenients of our community, has too often revealed its guiding influence in the editorials of the Free Press. Of late especially this ridiculous persistence in fostering the most unreasonable prejudices was apparent in that journal's comments on the recent byelection of St. Boniface.

### PERSONS AND FACTS.

The death of Robert J. B. Shearer, aged 31 years, occurred in St. Boniface hospital on Monday. Deceased consider its magnanimous and novel had been suffering from consumption during the past six months. He leaves a father and one brother residing in Winnipeg. The remains were removed to the undertaking parlors of Clark Bros. & Hughes. The funeral took place from the above premises on Wednesday, at 2 p.m., to St. Mary's cemetery.

St. Mary's church was the scene of some excitment last night, when the wire which connects with the electric light above the figure of the Blessed Virgin on top of the building became fractious and threatened to set fire to the church. An electritian had to be sent for to cut the wire.-Calgary Herald.

The beautiful church of Our Lady of the Rosary, Vancouver, was solemnly dedicated last Sunday by His Grace Archbishop Christie, of Oregon City, assisted by their Lordships the Bishops of New Westminster and Vancouver's Island.

### MODERNITY AND MODESTY.

Catholic Standard and Times.

It is perhaps not singular that the chief speakers at the recent Sacred Heart centenary celebrations should have struck an identical note in their interpretation of the "signs of the times." The phenomena in connection with the subject of woman's advance and the trend of modern thought are too conspicuous to escape even the most superficial observer. The terriments. ble danger which all good society has to guard itself is the force of use. Once let the spirit of deterioration be suffered and accepted as something inevitable, there is no setting a bound to the flood or moral decline. We may vainly hope to fight against that poison which is imperceptible in its working. The standards of manners are intimately related to the standards of morals, and these, again, are so related to intellectual ideas which are sought by either sex from different starting points that in the pursuit of these often unattainable ends the hunters lose sight of the true conditions of success. It is a curious anomaly in this ideal-chase that it should be forgotten, apparently, by many that the chief ideal, woman herself, should be regarded as if her status were of no particular value in the equation. The ttempt to ignore the distinction he tween the two great branches of the human kind simply means the destruction of the most beautiful of all ideals; and to this end the vogue of the present day is undoubtedly tending. What between the system of coeducation and the elimination of many of the old landmarks which separated the feminine from the masculine ideal in studies, dress, pastime and all else, a perceptible change has taken place in the general moral standard. Custom is a deadly opiate. Let society once get used to the daily sight of things that ought to shock and its ears grow accustomed to the mode of speech and the class of ideas of which slang is the most ready medium, there can be no hope of recovering lost grond. It is a case of "facilis descensus Averni." The world could better afford to lose a continent, like another Atlantis, than lose its standard of womanly superiority. How long it will be able to retain it at the present rate of change in educational systems it is not easy to foretell. But that the symptoms threaten destruction no intelligent observer can deny. Even inside the Church there are disquieting symptoms. The advocates of perpetual change are clamorous and insistent. We are being constantly reminded of being "behind the times" and the inexorable necessity of adapting ourselves to new conditions. ed out to her upon the map the States, When all this outcry is examined and rivers, towns, etc. Edith proved a rereduced to mathematical terms, it is markably apt scholar, and seemed to generally found to crystallize itself in understand it all. introduction to his special theme, "Madame Barat and the Higher Education of Women," the eminent Jesuit had this to say about the false notions

of those who clamor about progress: "The world is very much exercised at present over what it is pleased to conception of the higher education of women. Never was so much money expended in a multiplicity of schemes to further it, never was so much of what, by courtesy, may be called thought, bestowed to perfect it, and in view of all that was expected never were such unsatisfactory results obtained. It could not be otherwise, for all the splendid endeavors are one-

sided, ill-advised and incomplete. "It is beyond peradventure true that the scholastic triumphs which consti-tute the glory of the nuns of former days have failed of accomplishment in our own. But the blame is to be put where it belongs. It is the fault of the age in which we live. It is a threefold combination of a shirking of labor, a squandering of time in frivolous occupations and an unconquerable dread of even temporary se-

clusion from the world. "Much is said about the necessity of convents adapting themselves more than they do to the requirements of the times in which we live. If adapting themselves to the requirements of the times means yielding more than they have already done to the clamor- seph's church in all parts last cus demands of parents for interrup- ing when Rev. These are pregnant observations. They are not mere flowers of rhetoric. spoken for the purpose of illustrating a theme with noble figures or giving empty comfort for the future by recalling the glories of the past. They open up before the mind's eye of the Catholic parent the most solemn of vistas and the most responsible of problems. It swer to the question, Why are Secret Societies Condemned by the Church? the statement was made that some of them, the Freemasons, for instance are condemned, because constituting in themselves a secret religion. Another reason given was that many of the oaths were at variance with the teachings of the Catholic church. Can We Adore the Sacrament in the "Ian Maclaren" is the pen name Greek Church? was the text of another question. In answer to this Rev. Father Younan stated that he believed Christ to be present in the Greek church, the priests of which, he further contended, had the power to administer the sacrament because validly ordained. Why Are Not Women Allowed to Preach the Gospel, was another query. In answering this the priest quoted the words of St. Paul: Let women keep silent, for it is not permitted unto them to speak. The subject of the evening's sermon was The Marks of the True Church. The discourse was a scholarly and searching one and held the large congregation spellbound. The subject of this evenings sermon will be The Sacrament of Penance, the Secret of the Confessional. Further questions will be answered. The series of sermons and dscussions is proving highly interesting and instructive and is much appreciated by the large congregations. of Rev. Dr. Watson, a Presbyterian minister of Liverpool. In the Potter's Wheel he writes:

"When one enters the dimness of a foreign cathedral, he see nothing clearly for a while, save that there is light from the eastern window, and it is shining over a figure raised high above the choir. As one's eyes grow accustomed to the gloom, he identifies the crucifix repeated in every side of the chapel. and marks that to this Sufferer all kneel in their trouble and are comforted. From age to age the shadow hangs heavy on life, and men walk softly in the holy place; but ever the crucifix faces them, and they are drawn to His feet, and goodness by the invitation of the pierced hands."

### IS THIS TOO RADICAL? NOT NOW-A-DAYS.

A reader, noting the following passage in a recent issue, asks whether it is not stating the case too strongly:

пнинининининининининини "The son of the man who says 'I don't read a Catholic paper,' a will say, 'I don't go to church.'' 

would not be true; nor would it, perhaps, apply to the conditions existing in a Catholic country. But, here, in the conditions of society which sur- entrenchments. And so awful is the round us. it has its force:

The company are giving a choice of routes to the various points in the east, and are making arrangements for tourist cars being put on every train. These cars will go through to Toronto and Montreal daily, while there will also be a service to Halifax for the accommodation of passengers going to the Maritime Provinces and the Old Coantry. A very small charge is made for a berth in these sleeping cars, while they are also provided with a range, by which passengers can cook their own food.

A porter is in charge of it to destination.
