are cashed, not at one particular office only, but anywhere, by Express and Ticket Agents, Bankers, Merchants ; in fact by any business man who knows you.
If lost, destroyed or stolen the money is promptly refunded or a new order is promp without additional charge.

Dominion Express Money Orders
are the safest and most convenient means of sending money by mail.

## THE WESTERN HOME MONTHLY

Published Monthly
By the Home Publishing Co., McDermot and Arthur Sts., Winnipeg, Canada.

## A Chat with our Readers.

About Advertising. We wish to impress upon our army of readers the great advantage to each and advertising columns of the Western Home Monthly from month to month. The Monthly, being a special favorder ful the wealth of information that can be gathered from even a hurried study of the advertising in one issue. Just try the experiment with the June number and you will unquestionably benefit by thought in the country.
It may never have occurred to you,
in this light before, but it is a fact, nevertheless, that much of what the public knows about late inventions, for example, is ga. Has not much of your To illustrate: Has not much of your
knowledge of all kinds of machinery and implements, to say nothing of such special articles as fireless cookers, oil stoves, acetylene and gas plants, washing machines, piano players, phono graphs, automobiles and vacuun
cleaners, been obtained from reading the advertisements of the concerns engaged in the manufacture of thes pieces of machinery. I dare say thast your earkes from the reading of adverwas gained from the reading on much of
tisements. Is it not true that what a great many of us know concerning distant and foreign lands is obtained from the reading of literature that has been published by the vacaroads,
So thoroughly has this advertising been done that if one will caretully read what comes to hand, he can get a pretty fair knowledge of every corne of the earth. Half of what motion and
know about hygiene, sanitation know about hygien, save learned from physical cultue advertising pages of reading the and periodicals.
Thus it is that the man who confines
himself strictly to the reading columns himself strictly to the reading columns
of a publication or magazine is getting of a publication or magazine is gett
only a part of what he pays for. The most skilful experts in the counTry are continually striving, in a thousand ways, to find out something that
will attract and interest you, and if will attract and interest you, and if
you do not read what they say, but you do not read what they say, but
fling their work into the waste basket fling their work into the loser. Almost everything that one can think of that has helped to make our homes more pleasant, that has assisted in broadening our visions of man and
things, and that has made our lives things, and come to us because of advertising, providing the way through which we can all be reached, all of us at the same time.

## About Subscribers.

As the result of a recent appeal to our readers in which we requested them
to let us know what features in our to let us know liked and which, if any, were not palatable, we believe tha within the next two or three month our sur excellence to the palm of magazine par excellence to the
Western Home Monthly. Since our readers have in such large number made known their likes and dislikes a steay on, and those features which in tunitie
defence to public request are now discontinued, have been replaced by others especially asked for. We want to draw we are here to publish a magazine ve are here to publish a magazine
destined to be of the greatest possible help and courtesy to our readers and e are always grateful for advice an suggestions for future development.
It is no unusual thing for us to receive by a single mail, twenty or fication of our subscribers. We appreciate these kind missives and we are especially well pleased with the knowl dge that our readers really have the interests of the Western Home Montly
at heart. We are going to further encroach on the good nature of every reader and solicit his or her help to further add to our circulation. As you are probably aware your favorite
periodical enters an enormous number periodical enters an enormous number
of western homes every month. Having regard to western conditions, this is heghly gratifying but we are not satisfied. Like Oliver Twist"we |wan
more, and we believe you, you are the more, and we believe you, you are the
only person that can be of any material assistance to us in achieving this object. Suppose for instance that one of our present readers succeeded in getting us
only one new subscriber-surely a very only one new subseriber-surely a very
simple thing-our circulation would double-in other words our figures would jump to considerably over 70,000 . Suppose you try this. The majority of our readers live in well settled ditring
and we believe that many of ther and we believe that mould gladly sub-
friends and neighbors woul scribe to the Western Home Monthly if they saw a copy so that we are not asking you to do any canvassing or your -simply to show the magazine to your some friends in a distant part of the country who might be interested in our publication. Just send us their names and addresses and we will send them a sample copy. We know that the ap-
H . M. has only to be seen to be apH. M. has only to be seen to be ap-
preciated and the sending of a sample copy usually means a year's subscription by return mail. With very little effort, we should have a circulation of
100,000 in a short time. Let us 100,000 in a short time. Let us
determine that this become an accomplished fact.

Every mail brings us in a large stack of answers to our Post Office competition. We are anxious to determine
the result as soon as possbile but owthe result as soon as possbie work ining to the large amoule to say just at present the exact date the prize winners will be announced. We might remark, by the way, that this competition has been an enormousced in it. Coupons
liest interest evinced have arrived from such widely diverhave arrived as Newfoundland and gent pask.
Mlaska
As a special inducement during the summer months, we are publishing a
number of very attractive clubbing offers, the very low rates which we obtain from other papers enabling us, in many instances, to offer two periodi cals for the price of one. Those of our
readers who are of a thrifty turn of readers who are of a thrifty turn of
mind, do not need to be told of the conomical advantages of such oppor tunities.

## AN OLD FIRM IN A NEW HOME Cor. Portage Ave. and Hargrave St. WE HAVE MOVED

Our business has increased at such a remarkable rate during the past few years that our Old Store at 528 Main Street proved entirely too small. Our Mail Order business is more than keeping pace with our large city business; due to the fact that the public appreciate our methods of business, together with the fact that we sell only the highest grade instruments. Our prices, too, are a large factor in the popularity of this store. We buy direct from the factories for cash and buy in such large quantities that we are able to obtain exceptionally low figures and are therefore in turn able to give our customers splendid value for their money.

## OUT-OF-TOWN BUYERS CAN BUY HERE TO BEST ADVANTAGE

Compare our prices if you like with others for instruments of equal quality and you will find that we can save you money on every purchase. Besides our low prices, you have the satisfaction of knowing that your purchase bears the guarantee of The House of McLean, which means absolute satisfaction or money refunded. We have the enviable reputation throughout the West of giving satisfaction to every customer. Newcomers to
 by asking anyone who has lived in the West for any length of time regarding the business methods of this house. Our customers in the West run into the thousands, and every customer will willingly testify to the advantages of dealing with us.

might suggest. Small, but sturdy and he added, his glance falling on his rect, his clothes daubed with the soil rough clothes and his battered dinne of the street trench in which he had
worked, a battered dinner bucket in $\begin{aligned} & \text { Ducke principal answered with an en }\end{aligned}$ worked, a batterediner the principal couraging smile. "There is no royal with a respectful", "I beg your pardon, monopoly of knowledge any ,more than sir, but could I, have a word with you there is a royal road to it." "I thank you sir," said Dan, and he about my boy", "I thank you sir," said Dan, and he "Another complaint," thought the $\begin{aligned} & \text { was as uplifted as if he held a warrant }\end{aligned}$ principal wearily, and asked, "What is $\begin{aligned} & \text { for his boyts greatness name?" } \\ & \text { as in truth he did. He walked home }\end{aligned}$ "Frank Conroy, sir," answered the through a fairyland which became no laborer; and the principal, noting the less fairy-like when his way led him into manliness looking out of the other. a poor neighborhood where two round clear, honest gray eyes, knew that if it his one motherless child.
were a complaint he was to listen to hest to it would be a reasonable one." He Dan Conroy had always liked best to tells me that you are saying that he labor where he could see the results has a fine head for figures; something of engineering skill, see the very upon uncommon, sir, I think you who had planned the great the humblest ing, "They had a long talk, in which Dan capacity. They were to him the greatreceived the impression that his son's est of men, greater, even than those mathematical mind was a gift from the for whom he also worked, the political principal, but this, though there seemed hosses. the old man so much as to learn that the sculptor's, even the musician's art,
has for many; but that the skill he so much admired was acquirable by study, gast, had not until now entered his mind. Suddenly a vision was revealed to him; his own boy might become one of these masters; and the vision grew in brightness until the room where he now prepared the evening which illumined is mental prospect. He was happily crooning an Old-Country ballad when Frank entered the room and smiled at his father a moment before he vigorschool, dad. I've got a job!">
"Sure, then, there's two of them," said the father, setting down the teapot on the oilcloth-covered table. "I've a job for you as well." youth. "I'm going into a shipping department where I'll have a chance to be a shipping clerk, some day. What do you think of that?"
"Well, it's a nice gentlemanly job,
Frankie, but I have a better one." Frankie, but a have a "Better than a shipping clerk? It must be a good one!"
"It is so, lad; you're
"A precinct boss?"
"Better nor that," responded Dan enjoying the youngster's look of wonder.
"A district boss?
I'll have to be twenty year older.",
"Better nor that, too."
"Better nor that, too". There's only one man bigger than a district boss; and there's too many arter that job grown
me to hope for it, even when I'm
up." "Well, my boy, I'll be fooling you no longer; it's no king of a position works. You'll be one of these here bosses what huilds bridges and ships, and things the likes of those. That's what you'll he,
for the schoolmaster told me the way of it." Frank flushed and stare was too wonderful to be met with quick speech The young man had the elder's veneration for the engineers pros inheritance, endowing with activity brain cells which solved so quickly for him the perplexities of mathe-
matics; love of a skill in the father matics; love of a skill in the father
turned into an aptitude for that skill turned into an aptitude for that skill
in the son. But Frank was a practical youth, and though he sometimes dreamed, yet he acknowledged conditions, and the one he now felt incumbent upon
him was to leave school and earn his bread. "It" engineers, Frankie, who build things; and enginecrs get their trade from arithmetic, as the schoolmaster was telling me. that if I could keep you in high school for your two years more you can get things. What's this he calls them?" "Polytechnics."
Twas the very word he was using, four years more, again." "Bit, dad, I can't let you support me six more years, and me bringing in no
wages. I'm sixteen now, and you've alwages. I'm sixteen now, and you've al
ready kept me in school two years more than the law makes you." "'Tis not the law of the but the law of a father's love I'm obeying lad. I want to see you the boss
works. I want to see you telling
I others what to do, and not always be
told, like me. I want to see the big men oome to you and say, 'Can we have a bridge here, Mr. Conroy?' and 'Will we
will it cost?' says they. And ' put the electric power on the cars, Mr. Conroy? says they to you, and you
tell them what's what. Ah, my boy, tell them what's what. Ah, my boy,
that's the kind of a boss you'll be; and to see you doing these grand things, making travel cheap, making work easy, making great things where there
was little things, changing the city this way and that, like a fairy in one of vou-and you'd open your eyes big at hearing them-that's what I want to see you doing. Have you no word for
the new fairy story I 'm telling you? you had as many as a lawyer when
your mother told you tales no better and not so true." And the story came to the life of
the boy as it came to the laborer in
his vision. They lived in what many would call poverty, but were content
with their manner of living, for the vision did not fade. Their poor rooms,
meals, clothes, were never deplored; they were the signs of a willing sacrifice to the great purpose of both their
lives. Instead of ever a despondent lives. Instead of ever a despondent
thought, Dan Conroy thanked fortune that his small political service was rewarded with the certainty of daily toil on city work. He noted with secret pleasure the respect in which even young engineers were held by the
mighty contractors; listened in silent enjoyment to the wonder-tales fellowlaborers repeated about the big wages earned by engineers.
Frank was an enthusiastic student, stood high in his class, and places for
such as he were waiting for more pupils than the polytechnic graduated. His professional rise was faster than merit alone would have made it but no faster than his abilities warranted. He was employed by a company having large
municipal contracts, and a district boss who kept a friendly eye on faithful Dan Conroy's boy may have hastened the young man's promotion. In a few
years he finished his shop experience and passed from the charge of small contracts to the superintendency of important works.
Dan fretted that he never was employed as a laborer where he could see differently at this whole matter; he tried to dissuade his father from going on with any daily toil. When he rented where they had a woman to do the whousehold duties they formerly shared, he said: "You needn't work any more, father; my salary is as much in a month as we used to have in a year rest." "Leisure, is it? Doesn't that mean the same as idleness? I've never learn dike best to get tired and then come home and hear you tell what you're doing-where you're bossing. I'd like a job on the same work with you. Dan paused after this speech and made the same suggestion many times, hoping to hear Frank say he would get him a day laborer's place where he could see his own son boss, but the son had never given a favorable response. Dan
wondered. but would not ask. Some of the anticipated joy in his son's success was not realized; not even when Frank sold the patent-right to an invention for such a wonderfue sum the new home the deed for it to his father-who would rather have had one day's work under rather ha
his boy.
As years passed, Frank was more ofton away from home, sometimes for
weeks when directing work at a dis weeks when directing work his father
tance. Then he would send his papers telling of constructions "in charge of the celebrated, engineer Frank Conroy, of New York." This wa
more unreal than to hear his son tell of his occupations, and the longin dwelt sleeplessly in the old man's hear to see his boy, his love and pride, a others saw him; commanding, respected, obeyed. There at a day's work," he sighed, "and unless I see the lad boss ing a ip, Ill never believe in my hear
that it's all real. I'll speak to him when next he has a contract near by for a bit, until I satisfy my eyes. Then I" be willing to give up work-though what I'll do without work, sure I don't know.'
When Frank next returned from a. absence of many weeks in the West he took his father's hands in greeting and
held them, and he said, "Dear dad, congratulate me."
"Sure, my boy, I do that every day, as regular as i ipray for you." "Congratulate me on this: I'm going There was a hitch in the old man's voice as he replied: "God bless youand her. I know she's a good girl,
Frank, for you had a good mother Frank, for you had a good mother,
and the sons of such turn to good

charge of the substitution of a a new
on charge of he shide for ane old over a river not
hridg from their home, and Dan knew
firl that he conld obtain employment there from a foreman under whom hee had
often worked. In fear of offending his often worked. In fear of oftiending his
son, Dan thonght of going to the
hide hrigge as a mere onloker, hut the al
ternative was dismissed as not affording the pleasure he longed for. What can
the sightseer know of the relationthe sightseer know of the relation-
the subtile canses of hate and fear, of the subtile eanses of hate and fear,
love and resplpect-let ween master and man? He wanted to observe his son
mrom the viewpoint he had always had from the viewpoint he had always had
of the direct ing gcnius of work: to be :a laborer among laborers under him of his son: to know at last, from the one familiar, humble post he had always held, that the man in charge of
:all, himself included. was his hoy. Only: ins that way would he thench his thirst
 :uanuer was a sightseer. The only way was to be one of thase Frank ruled.
His plan was easily carried out; the His plan was easiy carried out, the
foreman was glad to emplov as faithtul Coreman was glad to employ as fait hual
and intelligent a man as Dan; so each morning early he left his home in his
sedate frock suit, well brushed, looking
like a prosperous man of business.
Changing to his laborer's clothes in a Changing to his laborer's clothes in a
tool-house, Dan worked steadily, proudly waiting for the daily visit of the engineer in charge-his son! It was as he thought; nothing his imagination summoned had given him a true picture
of the importance of his boy. Here of the importance of his boy- Here
was no mere boss who ordered laborers and directed details of the work, but a master who dealt with the superintendent and foremen. Dan had no trouble in keeping his son ignorant of his
presence; indeed, he would have had to presence; indeed, he would have had to
force himself on his notice had he wished to be discovered, for Frank's eyes were on the work, not the workmen, and his speech was with the men in charge under him. At times Dan was near very superintendent, a personage Dan never could have approaached, yet there was Frank giving him orders. This was so far beyond his imaginings that the father could not wholly realize it
at once, but day after day gloried at once, but day after day gloried
more in heart and mind as Frank's real rosition became apparent to him-a boss
"If ever I- took that farm without peeing this," he would say to himself, I would have died without knowing half
the truth. My boy the boss of bosses! And the gentle words he uses; not an oath, but a polite, 'I'll have it done this way, if you please, Mr. Jones, and see that this change is made before I'm, kere to-morrow noon, if you please.
Not a word of back talk from Mr. Jones, who could discharge the man who hires me. 'Tis wonderful!
Mr. Jones had noticed the intelligence with which Dan had performed the
simple tasks given to him, and that he was a strong sober man, and so asked for him with others who were to do some quick, precise work at the moment the new bridge, floated to its destined berth, settled down on the A number of bearings.
A number of officials of the contrac-
ting company and of the railroad which used the bridge were to be present when the creation of engineer Frank Conroy should be pronounced finished and duty that morning was to hold sus pended by a line a heavy bolt which, at a signal, was to be dropped into lace. He was instructed to watch for he signal and lower at the moment have altered an alignment the bolt was to secure, and another tide would have to be waited for to complete the work. Dan was proud of the assignment to seemed as if he was to help emphasize the nicety of his son's mathernatical kill. As he toiled and sweated among the greasy iron, and helped rig the line e was to hande a the critical moment, he felt that this was th rejoiced that it was to be identified with his son. delay; a strong wind There was a delay; a strong wind
affected the tide, and the signalman called to Dan that he could rest his burden, but the old man would not do steady, and he would hold the weight, for if the tide was at fault it might change unexpectedly, and he must be ready. But he could look about a
little and see what was going on. At the shore end near him he saw a party of ladies and gentlemen leave a private car and approach the span. The first to step on to the brigge was his son, was looking at Frank as if attending while he explained the work, but Dan trust: no interest in facts of tides and weights and strains and adjustments. Dan rememhered a woman looking into mother was young and pretty, and he gallantly helping this girl up the plank connecting the shore track with the slowly lowering bridge, leading the
party of great folks, the hero of the ày! "! called the there with that bolt line." called the signalman as Dan, in sudden
panic, turned his face away from the

| approaching party upon discovering their intention to cross the bridge. This would bring them so close that he would be recognized unless he were quick in getting away when the bolt was placed. He had not counted on this; he thought he would have finished his task and slipped away long before the visitors would cross, but the delay owing to the tide variation had brought them near his post earlier than he had expected. Soon they came so close that while he watched the signalman he could also, out of the corner of his eye, see Frank and Miss Holden. They stopped and Frank called back to those lehind that a certain boịt must drop into place before they could proceed. Dan heard him say to the girl by his side: "That workman has something to do before I can say that this is a success. I hope he has a steady eye and hand, for a nice point in the operation depends on him." <br> Dan's bent head and soft hat concealed his face, and he was glad ot it, | rope, steadily, quickly, and the great bolt slipped noiselessly into the welloiled cyes; the bridge trembled, steadied, and then settled as true and firm on its piers as if it were an arching rock. There was a mad whistling by tugs and locomotives, cheers by the crowds, and the party back of Frank clapped their hinds and cried, "Conroy! Bravo, Conroy!" <br> Frank smiling lifted his hat, then gave his hand to Miss Holden to help her over an open space. Dan, the words "Bravo, Conroy!" ringing in his ears above all the din, slowly straightened up and tried to move away, but for the first time in his life that he could remember he felt faint, and his knees trembled. Miss Holden was first to notice his plight, and exclaimed, See, Frank, that poor man who fastened the bridge is suffering!" <br> Dan turned his back and staggered a few paces, but Frank sprang to his side, caught him, and then for the first time saw his face. |
| :---: | :---: |

Yet there was Frank giving his orders!
for this unexpected occurrence, and the strain of his burden, were twisting his
face into unlovely snarls. The suspense was affecting others; the visitors, the spectators on land and water, were
silent, and, as they watched the slow movements of the mighty mass of steel,
(very action of a workman caused a start of nervousness. The signalman's hand rose; when it fell Dan must
quickly, steadily, lower the bolt. His quickly, steadily, lower the bolt. the excitement and the physical strain, and
he praved that his eyes might not fill, he praved that his eyes might not fin,
and obscure his sight. He saw nothing now but the raised hand, though he heard, mistily, the girl saying, "How
exciting it is, Frank. But I know everything will be perfect, because you did
"I'm only the boss," Frank answered, laughing, but a little nervously, as it
sounded to Dan. "Everything now depended on the workmen.",
Dan saw t'le signalman's hand wave, then fall, and with it he lowered the boy's eves a bit ago, and I pray to god

\$656,000-Suloscribed Capltal-\$656,000 Cash Deppeits with Three Provinclal Governmente Hail Insurance

It is every man's privilege to carry his own risk and save the insurance premium, but why pay a premium and still carry the risk?

We offer insurance that has been on trial for ten years in Manitoba and Saskatchewan and it shows an unbroken record of loss claims paid in full, to which thousands of satisfied insurers will bear witness.

Why experiment with something that is on record as having failed whenever put to the test of a bad hail season, or with the new and untried methods of Companies having little or no knowledge of Hail Insurance.

Ours is not cheap insurance, but an article that can be depended upon and the price is reasonable.

jot assigned to him. regatta, was the day of the greation of the regatta, under Club, held at Bay St. Louis.
The The beach, the long white shell-road, known simply as the "Front Road," the
steamer ${ }^{\text {wh }}$. steamer wharves and the approaches to
the L. \& N. R. R. bridge, were filled with a miscellaneous mass of people Yachtsman in all the glory of S. Y. C.
uniform and caps; ladies with flushed uniform and caps; ladies with flushed
excited faces, in their best holiday regalia, fluttering with bright badges and ribbons; gamblers, sailors, watermen and wharifrats all mingled in demoeratic freedom.
Schooner-yachts from other points,
with gay parties with gay parties on board, sloops des-
tined for entry in the race, fisher craft, oyster-boats, "dago" luggers (the staunchest, smartest sailors in the Gulf,
but looking, with their single enormous but looking, with their single enormous
peaked sail and narrow hull, as though a catspaw would upest them), yawls, canves, and every other variety, of small craft fluttered excitedly here and there
or waited at anchor for the commenceor waited at anchor for the commence
ment of the grand event. Every now and then the keen eye of some expert would discern a new white speck on
the distant horizon; and, almost before the uninitiated could note the dot on the water's edge, had named the yachi
her home port, given an opinion as to her home port, given an opinion as
her chances and a guess as to the make up of her crew.
For an unknown craft to have ap.
peared among the incoming fleet would peared among the incoming fleet would resident as for a strange fish-one he couldn't name to have flashed into the hot sunlight from those familiar glittering waters. And yet this is just
what did happen; and curiosity was not relieved as to the identity of the new-comer, even when she lad passed
within a stone's throw of the $T$ of the long "Puplic Wharf."
A very tough-looking craft she was; A very tough-looking crat she was,
unpainted and dark with age, streaks of pitch and patches of white lead making a weird fresco of her deck and sides; an immense suit of sails, black
as ever were abandoned to moth and as ever were abandoned to moth and
nutdew, patched with all shades from hildew, patched with all shades fond
new white duck to second, third and four th hand sail-cloth. Ore of the
crow was kept constantly bailing with bucket and can, in a struggle to keep up with the leakage through the strain-
ad old seams. And yet a certain trim-
ness, even in her rags, seened to dill r -
ntiate her from the hoi polloi of fish ing craft, trading smacks, hired sloops nd other parasitical accessories to the dignity of her own, with no greater speed, however, than might have been anticipated from her general rig and make-up. This was easily demonstrat size, which danced alongside, took her wind and rushed merrily ahead, leaving the old black rags all a-quiver.
But if the boat wasn't known, her crew were-every weather-beaten, sun
tanned tar of them; and lots of ironical but good-natured bandiage passed back and forth between the unknown and the wharf and adjacent craft. "Why don't yer enter her in ther race?" final
ly yelled one particularly extravagant y yelled. one particularly extravagan
humorist. But when the answer came back in Nick's long drawl, "Thet's wo we're her fer," the hilarity passed al counds, reaching the summit of its cres for a few moments, came in and gravely entered and obtained his number for Baby Mine, in the "First Class for Open Sloops.'
Nick had always been known as
cranky and obstinate, but the cranky and obstinate, but the boys things to the extent of laying sundry bets for himself and his crew, on Baby Mine against the favorites, and was
even prevailed upon by one fun-loving even prevailed upon by one fun-loving
individual to put a little with long odds, "agin ther field." "Nick's jus' gone plumb crazy," said the individual in question. "Why ther little Aggie jus' run clean away from his ole tub not
twenty minutes ago-wonder whar he twenty minutes ago-wonder whar he Old Captain Jim, a lifelong enthusiast and follower of boat-racing in all forms, standing on the deck of his big lumber schooner Concordia, as she lay at anchor near the starting point, had a puzzled
and somewhat absent look on his face as he scrutinized Baby Mine. Suddenly the dawn of some long-past memory lit up his wrinkled brown face. Turning, he clambered down into the litle
room that had formed his home for most of his long life. Out of his big sea-chest, he took an old cigar-box and among a mass of tattered bills, mem-
oranda and clippings from newspapers oranda and clippings from newspapers
and sporting magazines, he finally found and sporting magazines, he finally found search-a long article on American centre-board yachts, clipped from a well-
known authority on sporting aquatics. known authority on sporting aquatics.
This he read over carefully, deposited in a pocket, and going on deck, clambered into his yawl and threw off her painter.
Rowing slowly around Baby Mine, he measured her with his eye and carefully studied every point; noted that below
her water-line, she had been smoothly planed and black-leaded; that her gal vanized wire-rope stays and her stand ing rigging generally, was true and
taut; then rowed a few feet astern and peered down into the yellow depths. peered down into the yellow depths. of bewilderment had passed, leaving his keen face unusually knowing.
Baby Mine's crew had watched the Whole performance in serious silence.
"Jim's on to us," said one of then "Jim's on to us," said one of them at
last. "Yaas, but he won't give us last. "answered Nick.
The Captain did not return to the Voncordia, but rowed in behind the long wharf, tied his yawl, climbed up, an a group of resplendent S. Y. C. men One of them was laying down the law to a more or less respectful group of
listeners.
He was well informed in yachting lore, and after having ex yachting lore, and andect of the International Cup Races and twisted the Lion's tail like a true American citizen, to his own
glorification, struck the subject glorification, struck
yachts in the Gulf.
Finalliy he struck the present season, and offered to lay any reasonable odds
that the boat of the year, the beautiful that the boat of the year, the bedg her straight wedg hollow spars, adjustable step, and faultless lines-nodding to her anchor by the side of the Lady Emma, last year's infleet. There seemed to be no takers, and a convincing silence ensued.

Baby, Mine against field, one to ten in ${ }^{50}$ Until quite recently, regattas on the Gulf Coast, from Pensacola to Galveston, started from the anchorage. Each
class was lined up separately, the leeclass was lined up separately, the lee
yard boats being given a slight com pensatory, advantage in lead to prevent "covering", at the start. With main-
sail and topsail up, a man at the sail and topsail up, a man at the jib
halyards, another at the windward stay halyards, another at the windward sta
with hand on cable to start the anchor at the flash of the starting-gun, the yachts chafed at their short cables, and
men hardly breathed as they watched men hardly breathed as they watched
in intense silence for the flash from the in intense silence for the flash from the
judges' boat.
It cane!-and almost before the white puif had fully caught the moving influence of the fresh easterly breeze
every anchor had been broke and swung every anchor had been broke and swung
aboard, every jib had flashed up, and the fine long lines of yachts, represent-
ing as many classes, were dashing for-

ward, with sail flattened dow
on their first tack to windward. on their first tack to windward.
But either from native slowness or But either from native slowness or
otherwise, Baby Mine dragged behind. Despite a magnificant start, satisfactory even to hypercritical Nick, she slowly
dropped both to leeward and astern o dropped leaders, and finally even of the stragglers in her class. Captain Jim, on the wharf, ground
his teeth. Nick, in grim silence, threw his teeth. Nick, in grim silence, threw
lightning glances from topmost-head to lightning glances from topmost-head
deck, from bowspirit to boom-end, finally bringing up on the centre-case Instantly a furious exclamation broke from him. His eye had lighted upon a piece of half-inch rope fast to a cleat, passing over the top and down into
the centre-case. Nick's vocabulary was far more extensive than choice; and the offending rope had been attended to full
five minutes before he had once more five minutes before he had once more
settled down to taciturnity. Meansettled down to taciturnity. Mean-
while, Baby Mine had bounded forward, and was running, as Nick afterward put it, "like a scared dog," eating into
the wind full half-point closer than any. the wind full half-point closer than any
thing in sight. Yacht after yacht was thing in sight. Yacht ander yacht was
steadily overhauled and passed. Baby Mine, with her black canvas flat as a card, her crew lying or squatting, with only heads above deck, the bailing
bucket and can working incessantly, a bucket and can working incessantly, a
thousand pounds of sand-bags packed up on her windward quarter, and her main-sheet hauled in . till the boom al most over the lee end of the trawler
was walking like a witch almost into the eye of the freshening breeze.
The crowds on the wharf and in the yachts were wild with excitement. Captain Jim was the centre of a frantic
group. What was Baby Mine? Where group. What was Baby Mine? Where
did she come from? "He didn't know, but she seemed to him like a likely old
tub, and he seemed to remember having seen her sometime somewhar. Ter save
nis her his hide, he couldn't place her. The start, and it seemed doubtful if Baby Mine could overcome it. She swung
around the second stake, and had start-

Bovril's Annual Meeting.
The thirteenth annual general meet ng of Bovril, Limited, was held the other day at River Plate House, Fins
bury Circus, Londoa, E.C., the Earl, o Arran, K.P., Ohairman of the Company residing. The report of the secrecary, Mr. W. A. Harris, both as to the devel of the year, proved very gratifying to the shareholders.
For a dozen years Bovril, Limited, have been manufacturing this well ng and improving their plant and facilities, while the demand has increased teadily every year. To meet thei requirements in respect to the raw material, Bovril, Limited, have acquire in recent years, farms comprising ane of the Bovril estates is over half a million acres. in the Argentine Republic, and over nine million acres in Austraha. dred and fifty thousand head of cattle roam in freedom, although their ulit mate destiny iss 'Bovril' and on newe Australian ranches there are a hundre constantly being improved by the ad dition of the purest strains of imported stock.
It was mentioned that during the year the method of the preparation ofed
'Bovril' had been thoroughly inspected by a very large and representative who individually yal and scientific men isfaction at the expressed their satensure absolute cleanliness and brightness. These visitors were welcomed at the factory by one of the directors,
Sir James Crichitom Brownie, M.D., F.R.S., and that gentlieman in his remarks at the meeting expressed his pleasure in being associated with Bovril, Limited, feelin ${ }_{c}$ as he did that lic by sharing in the work of providing them with a good thing, and that he of maintaining constitutional stamina.

## A Fascinating Drama.

The peopling of the Great Canadian West is a fascinating dramal, whether we view it from the large or the smail end of the telescope, i. e., from the point
of the great railroad builder throwing a steel spine across the continent, or from the point of one little family unit finding its tree farm under the aegis of this transportation line. The line of the Grand Trunk Pacific across Canada
essentially the line of homes. Who is it that answers the call of the wheat, the young, the brave, the hopeful, the helpful? says Miss Agnes Deans Camerof Commerce." The writing tools to write the drama are the strong arms of men and of faith-possessed women It is a goodly play for the world to the prairie farm where the virgin sod the prairie farm where the
is turned under to a crop of wheat fo The first time since creation's dawn
The second scene is the grain elevator The second scene is the grain elevator
red against the setting sum, and the red against the setting sim, ank cars
waiting train of Grand Trunk Our drama closes whe elutched in the eager grasp of
bread or
the little child in som crowded city o the little child
thie old world.

## The CAPITAL is the Cream Separator that will "Buy Itself'" For You

As soon as you have read this advertisement, sit down and write a pos card for The Capital book-the-book that not only tells the story of The easy-running, cream- daving sepactically without costing you a cent.
Capital in your own dairy pren

The book also tells all about the wonderful Capital gears, about their perfect meshing and non-wearing qualities-how they run in oil-how an automatic clutch stops them running the minute you let go of the handleand about how they
revolutions a minute.

It tells how and why The Capital skims closer-why The Capital wastes less than one-fifth the cream that other separators waste-and the explains how the machine can
after you are through using it.

This book is full of hard-and-fast facts-separator facts-which every dairyman owes it to himself to know; facts which will prove a revelation to the dairyman who is not familiar with The Capital.

Write for the book to-day-NOW.

est boy of yours," the teacher said est boy of yours," the teacher sai,
"I'm so sort of troubled about him." "He never can have done anything, has he?" the mother asked anxiously quite unaware of $t$ lurked in her speech. plied the teacher reassuringly; "it aint plied
that!"
"Is he studying too hard""
"Well, I don't know. He is and lie ain't." Timman and looked as if she didn't understand "You see, Mrs. Timmans, it's this Way. Rufus knows more than the whole school put together in some
ways, and in some ways he don't know a thing. Here he isn't but fourteen years old and crazy to find some way to learn chemistry, and he spells it kemstry -and him every day of fourThe mother cut some thread from her work, shook her head, and said, "Dear ear," with earnest, worried, motherly
"He never has his plain lessons-his writing is just awful-but he's got more brains than all the rest of the school put together, and I find that out very ay. He understands things that the others can't see through to save their
necks, and when the Board comes he necks, and when the Board comes he being proud of him and forgiving his writing and spelling,"
The mother smiled, grateful tears
springing to her pale, tired eyes springing to her pale, tired eyes. that he hasn't got an answer for, even if he never heard of the subject before that minute-
Just here the baby woke suddenly and began to cry so loudly that its
withdrawal from society for a time appeared inevitable. Mrs. Timmans took it away and Aunt Eliza came in to entertain the guest. Aunt Eliza's nose and tongue hadnot become any the less pointed had her charm of manner been heightened by the continual care of Rufus' brothers and sisters.
"That eldest boy's a born fool," she said sharply to the startled Miss Daly;
"you know it's well 's I do. Why don't you say so?",
"But I don't know any such a thing," Miss Daly cried, appalled. "I think he's really a most remarkable boy. I shou a very superior-"."
out "Yery superior fidde-fadle!" said out a very superior fiddle-faddle!" said
"Very superior Aunt Eliza with tigerish emphasis
"Ain't I livin' here? Don't. I know?" Miss Daly gasped. $\quad$ Mrs. Timmans' footsteps coming back through the din-ing-room saved her from further danger. When Rufus was twenty-one he left home.
One month later the sewing society Irs. Gemmel's. Mrs. Gemmel was very disagreeable and much disliked, but her house was in such a convenient location for the meeting of the sewing society that no one ever quarreled with her. "That young Timmans in the drugg man," said Mrs. Clay just as soon as they were all snugly set sut to gossip, (and sew),-"at least he strikes me so."
"Oh, he's way above his business, any "Oh, he's way above his business, any
one can see," said Mrs. Brown, threadone her neeedle. "I went in there the other day for some simple salts and he set right out to tell me about the comet. I said I'd never noticed st, but it turned
out that that wasn't so surprising, for out explained to me that you can only see it from China and Maddyyasgar. I was mighty interested, and he kept talkin' about this and t'other and in the end he
found he hadn't poured out of the salt found he hadn't poured out of the sal
bottle at all. It. was just a chance that he remembered that it was salts I wanted." "Are sur it was salts "Are you sure it was salts you got?" "Oh, yen, he wrote it on the label, and I nunt say he was mighty pleas: ant over it all. He told me about luw they gum arabic, while he was
corkin' the hottle, and I was so interented that I never noticed and he stuck ed as much as I did and then he laugh-
to soak it off, but id left bread in the oven so he just wrote the name in
Latin across the skull and cross-bones, and I'm to remember that's its salts." Mrs. Grummel "He is a supe Mrs. White, a large young man, said "He was at our house the other night, and the minister was there, too. Well! you never did! I thought he'd be too much for the minister. I was just all come so near to having a minister-not in all my life. If it had been any other minister but ours he would have had him, too. My husband said it was like with what we all came from. The minister was out for Adam and Eve, but young Timmans stood flat for monkeys. He argued till the minister admitted monkeys, and then young Timmans went him one better and said he believed in tad-poles himself. The minister was flat agin tad-poles, but young Timmans argued till he got him to admit of a monkey He could make one out of
a tad-pole, too.
"And then, when he'd got thim so far, didn't that young man look righ squar that after all what we came from wasn't worth much thinkin' about; it was what man would develep into next that he wanted to know. "That's what I want to know, he suy one that has an addykit answer for me.' , "My, but my husband an, me was
We thought the minister was scared! We thought the minister was aground for sure, but, Lor'! a ministe wouldn't be able to be a minister if answer could stick him, an' ours just looked slow and sad an' lifted up his hand so, and pointed so, an' says he 'Young man, how can you ask such a
question with the starry heavens right on top of your head? Now I called that pretty smart for a minister, con siderin' how little time he had to thin an' it was the only thing in the, wid A murmur of mixed awe and admira tion sounded in the room; it would have been hard to say whether the ministe or Rufus won the greater portion. "Such a young man's way beyond us," near a college where he'd have profess ors to talk to."
"Mr. Dilley of the drug store thinks that, too," said Mrs. Brown. "He told me so last night. He said he took him says he's feeling surer every day that he ought to be somewhere else. M Dilley says his ideas would be fine fo a large city, but they're most too adt
vanced for a small town. Mr. Dilley ays you can't classify a drug stor without a rolling step-ladder anyway." "You've heard about the Kely h s'pose?" said Mrs. Grummel how knew pave it ipiecac for catnip. if the young man didn't, and she bounced out from under his arm, an' busted the big bo le full of green in the winder. He satl that they give you a nickel nose with or nothing an' put the ipecac in that an' got it down her, an' durin' the per formance the cat came nigh swallowi the nickel nose. Mrs. Kely sal diaphet she says it don't seem like the cat's ever goin' to be herself again
"I guess Mrs. Kelly's got more to trouble her than that cat," said Mrs, fraide, mysteriously. "I guess she siven Timmans' afraid young Timmans hair-oil bottle "I heard that, too," said Mrs. Clay "Well, he's a nice young man and ces ainly the Kelly's should object. I never heard Bessie deelly was over bright." "She certainly ain't provin' it no she is," said Mrs. Grummel with he readfully significant cough; but marr money or he can't stay superior long. Of course poor Bessie Kelly marrie Rufus aid she and her father undertook
to support his superiority forevermore

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no"outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown uriwards, but not around. Consequently all the heat is utilized in cooking and none in outside heating.

The New Perfection Oil Cook-Stove entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat-no smell-no smoke. Why? Because

## New Perfection WICK BLUUE FKAME Oil Cook-stove

is the result of endless scientific experiments. It is scientifically and practically perfect. The operation of the wick is automatically controlled, so that no matter how much you try you cannot use too much. Only the right amount of wick can be used, so that you git the maximum heat and yet there is no smoke. The burner is simple and all parts of it can be reached. One wipe with a cloth cleans it-consequently there is no smell.

The whole secret lies in the perfection of the draught. Once this was solved the stove was perfect. You will find the New Perfection Oil Cook-Stove a wonderful comfort for yearround use, and especially in summer. It uses heat nowhere except in cooking-iis heat operates upward to pan, pot or kettle, but not beyond or around. Useless for heating a room.

The New Perfection Oil Cook-Stove takes up little space. It has a Cabinet Top, with a shelf for keeping plates and food hot, and every other convenience a woman appreciates. It has small drop-shelves ready to relieve a busy woman's hands of the coffer pot or saucepan. Then there are the nickeled towel racks.

It has long turquoise-blue enamel chimneys. The nickel. finish, with the bright blue of the chimneys, makes the stove ornamental and attractive and invites cleanliness.

Made with 1,2 and 3 burners; the 2 and 3 -burner stoves can be had with or withot Cabinet.
Cautionary Note. - Be sure you get this stove-see that the name-plate reads "New- Perfection. Every dealer everywhere:

Gordons side. It is our small woman Gordon's side. It is your small woman who can freeze most solidy.
The big man looked down at her, hepless, adoring, apologetie, pleading
but she did not lift her ejes to meet his, and he, reasoning by maslis, and he, reasoning uy marstand.
culine logio, could no und
History holds no revelations for the History holds no revelations for the
lover. He is ever too busy making lover. He is ever too busy making
history himself to profit by the blazed history himself to profit by the blazed
trail his fellow lovers have left behind trail his fillow tovers have left benind
them. It was unreasonable of the small woman to fell so about his being away
for a few hours he thought se ought for a few hours, he thought. She ought
to understand one's obligations to an to understand one's obligations to an
old chum. That she could be jealous of the man who was his friend never even remotely ocecurred to him.
"Why, Carrington saved my life when I had the fever," he said tentatively. against Carrington. Nobody had a right against Carrington. Noboy had a righ
to do such a big thing for Billy He belonged to her. She wanted to be his past as well as his present and
future, but a man could not be expected future, but a man could not be expected
to appreciate all that, and Gordon to appreciate all blundered on futilely.
"I really owe sit to him before he
goes, dearest. An old friendship like that means such a lot to a fellow There's nothing like it, and I'd be away only for a few hours,"
"Naturally the time
long to you. than hy, sweetheart, I hate it worse han you can. I'm awfully sorry it lappens, this way, ${ }^{\text {You'd }}$ rather make me unhappy than disappoint him."
disappore was a treacherous wobble in her voice which she tried vainly to suppress. The man looked bigger, more helpless Than ever. When oness sweetheart won't have one's arm around her and
won't be kissed and won't understand, what is a poor fellow to do?
what is a port make you unhappy for
"I wouldn't mat
anything in the world, ,"ittle giri, but you see, Carrington-"
Gordon stared at her in blank surprise. "Why, you never even met him," he began, but she interrupted him.
II don't. care. I simply loathe and "I don't care. I simply oathe and
despise him and ITm sure he had a
perfectly horrid infuence over youl. He perfectly horrid influence over you. He
hasn't any right to you. It's our hasn't any right to you. It's our
Christmas and I've, just counted on it and counted on it.",
but the Unreasonable One swept on.

If you loved me you would'nt let
ny hthing take you away from wouldn't make me miserable for any man even if me miserable for any tan even if you did like him a long ily growing more pronounced and and th growing more pronounced, and
though the pretty head was still haughty in its pose, the long lashes were wet and the stubborn little chin did not match the trembling lips. Suzanne unhappy was overwhelming
Gordon tried once more to take her in his arms, but the praiseworthy effort was not crowned by success.
"It's the first Christmas of our engagement and will be married-at least next were going to be married before
netmas. If you cared at all you wouldn't even have considered going
away to meet any one," away to meet any one.
She was crying now and Gordon's
heart melted within him, but a memory of Duke Carrington's face and a voice with loyal friendship tingling through it , kept him from surrendering incontinently.
"Don't, dear heart. Don't cry," he ogged. There is no one in the world "But," she echoed, "you care more about Mr. Carrington's happiness than
about mine., about mine.",
With a sudden change of tactics With a suaden change of tactics, she
leaned toward him, taking a coat lapel in each hand.
"You won't go, Billy", she begged, the anger gone from her face, her voice coaxing sweet. Bilty, dear, you would-
not be so horrid to me; youll stay won't you?" Her face was very near won't you"' Her face was very near
his, her eyes were full of love-light, her lips were ripe for kissing.
For a moment, Gordon's conscience sank into profound coma. How could
a fellow refuse anything
Suzanne Herrick asked in such fashiont-and as the question filtered through his brain it brought a flash of revelation. A fellow
culdnt
He had never refused her couldn't. He had never refused her
anything,
however nureasonable. anything,
had always given in to her every whim, had never been able to say no when she coaxed or cried. It had been the same with all her family, all her
friends. She had been a tyrant-a love friends. She had been a tyrant-a lov-
able one, but from her will there had been no appeal. A long line of unconditional surrenders came to his memory, and the inate sturdiness of the man's

accents. "Everybody'll be down to She shook a She shook a stubborn and absurdly
charming head. "I won't budge. No, you needn't laugh, I'm quite serious. I'll not move
from this log until you promise., from this log until you promise."
Gordon put his hands in his pockets Gordon put his hands in his pockers or his stectively. She was so little, dear, so exasperating," so defiant.
"You'll catch cold."
"You'll catch cold."
She ignored the remark
He tried the masterful.
"Come, Suzanne, this is all nonsense.
Breakfast is ready and they'll be waiting for us."
She burrowed in the snow with the that she heard him.
A resolve formed itself in Gordon's puzzled brain. He smiled cheerfully; "You'll miss the presents. There's a I looked into the dining-room as I came out."
A flicker of interest dawned in her eyes but was promptly exting
"You'd really better come."
He was buttoning his coat in leisurely fashion. The wretch was actually going to leave her.
"Of course, if you've made up your mind to stay here, there's no use urging," he said with cheerful calmness,
"but it's very silly. You'd much better come."
She cast a look of utter scorn at him. "I hate to leave you, vui I'm pretty cold and horribly hungry. I suppose
you'd rather have my room than my company anyway.
"I certainly would," said the stiffy dignified small woman on the log; was imperturbably good-natured. was imperturbably good-natured. you want, but I'd be no sort of a man
if I did. It wouldn't be white, and there are some things a man can't afiord to do even for the woman who is all to love the dearest girl in the world, if I could go back on a chum who had done for me what Carrington did. I wish you'd come, dear."
"I'll bring your presents out to you if you'd care to have me do it. It's a shame for you not to see them, and if you are going to stay here indefin-
itely-" His voice was quite grave, but the eyes that surveyed the eloquent the eyes that surveyed the eloquent
back twinkled. Masculine common back twinkled. Masculine common
uation that might nevertheless have most unfortunate results. Gordon's face
softened as he looked. If she should carry her unreason so far as to throw him over-he squared his shoulders.
Well, if she did that, she was not the girl with whom he had fallen in love. There was nothing for it but to do the decent thing wit
tine consequences.
tiie consequences.
"I shall worry about you," he said "I shall worry about you,
quite simply, and turned away. quite simply, heard his feet crunching through the snow. He was really going. She kept her face resolutely turned
toward the lake for a few moments toward the lake for a few moments,
then shot a swift glance over her shoulthen shot a swift glance over her shoul
der. Gordon's broad back was disappearing in the wood-path leading to the house. Surely he would come back. She settled herself upon the log and A half-hour crept
A half-hour crept by, while she
stared out across the wintry landscat stared out across the wintry landscape
and hated it. Her feet were cold and she knocked them together to warm them. Then she held her fur coat sleeve first over one ear and then over
the other. She rather thought her ears were freezing and worse still, she knew that her nose was getting redder and redder, and her cheeks bluer and bluer. If he should come back and find her
with a red nose and blue cheeks! She with a red nose and blue cheeks.
looked furtively toward the wood-path, but no one was in sight. Perhaps he wouldn't come at all. Her heart gave an apprehensive throb at the thought,
but she reassured herself. Of course he'd come. Billy couldn't stay away. It would be very hard to forgive him for having gone at all, but if he was very sorry and very abject, perhaps-
but she wouldn't relent easily. It was but she wouldn't relent easily. It was abominable of him, and she was so cof Christmas packages waiting for her. She rather wished she hadn't made the rash vow about not leaving that silly
$\log$, but it hadn't even occurred to her log, but it hadn't even occurred to her
that Billy could be so stubborn. And then after she had said she wouldn't go until he had given in, of course she couldn't break her word. She'd never
be able to do anything with him afterbe able to do anything with him after-
ward if she should do that. It was all that miserable Carrington man's fault. He had absolutely spoiled her Christmas. She had started out for the early morning walk so radiantly happy,
and here she was, wet and cold and and here she was, wet and cold and
starving and miserable. Probably she'd have pneumonia and she rather hoped she would. Perhaps Billy would realize
then that she meant everything to him.

The doleful image stirred her to such self-pity that two tears trickled dow her cheeks, half freezing in transit. be
She hadn't supposed Billy could be so cruel to her. He had always seemed so tender and gentle and loving. It was like him to be loyal to his friend,
though. There wasn't anything sneakthough. There wasn't anything sneak-
ing about Billy. He was so big and ing about Billy. He was so straightforward. The piquant little face, blue with cold, poftened as she thought of the frank
sof genuineness of the man. Of course this
Carrington had been a good friend. What was it Billy had said? The man What was it Billy had saids saved Billy's hife for her. Well, after all there might be something good about him. She didn't really hate him if he had saved
Billy for her. Maybe it would be better for Billy to go and meet him, just to prove they weren't ungrateful. Yes, she believed she'd tell him to go-but that would be after he had begged hetforgiveness and promised to do what
ever she wanted. Then she would show him she could be generous and would send him off to his friend.
Some one was coming along the path, some one tall and broad-shoundered.
attention to the landscape, until the attention to the landscape, just as she had expected. There was nothing chastened and contrite about his aspect, rather a cheerful unconcern
"Do you know not a soul has come "Do you know not as souid blithely.
downstairs yet?" he said "Filkins wanted me to go ahead with my breakfast, but I didn't think that was the proper thing on Christmas morning. It occurred to me that ya
bring my present out to you since you wring my present out there are thirtyeight packages at your plate. I counted them."

come, I suppose?"
She didn't answer.
Once more he walked away. Once Once more he walked away. Once
more she gazed after him in incredulous gave place to blank dismay. He hadn't
apologized, he hadn't begged, he hadn't promised, he hadn't given her any hance to relent, to forgive him, to He hadn't done a thing except give her He hadn't done a thing except give her
that stupid present. Her glance fell upon the little white package and, fo moment, her attention was diverted It wasn't very big and yet it wasn't to be any mark on it to indicate where it had been bought. She put out a mall cold finger and turned the package over. No, not a sign of a mark
What in the world could it What in the world could it be in a
box that size? She couldn't think of box that size? be likely to give he that would be that shape. He had never given her presents and one couldn' trust a man's taste. Anybody who
could treat her as Billy had, would be equal to giving her a manicure se Probably it was a manicure set. Well, never mind, she wouldn't keep it anyway. Of course she wouldn't. Her
thoughts went back to her ridiculous thoughts went back to her ridiculous despite the zero weather. Was there ever such an absurd position-to be spending Christmas on a log in the snow, with no breakfast, no presents,
no-lover. Her breath caught in a half-no-lover. Her breath caught forever, and yet she had vowed and she couldn't give in to the creature. Probably some of the family would look her up in time, but meanwhile her feet and nose
would freeze, and anyway what a fool she'd look, sitting there on a log waiting for somebody to come and make her go home. A vision of the situation as seen through the unsentimental eyes of the family rose clearly mortification she to her surprise and mortification she saw herself cutting a sorry figure.
Father and mother and Bob would all think she was an idiot. Their commonsense point of view gradually claimed place in her mind, and the flush upon her cheeks grew hotter, more critive-or If only she hadn't had known that Billy could be so independent! She could see him
standing there looking down at her, big standing there looking down at her, big
and stubborn and manly-and in the and stubborn and manly-and in the right. That was the worst of it-in
the right. She had a trick of being honest with herself when forced to see clearly, this self-willed, capricious, unreasonable little woman. It was one of her charms that if she came around at
all she came around squarely like a all she came around squarely hike a
man, not in a half-hearted, grudging fashion.

$\begin{aligned} & \text { The package shone white against the } \\ & \text { dark surface of the log. Even in the through the open doorway from the } \\ & \text { hall. }\end{aligned}$ dark surface of the log. Even in the midst of her mortification and selfabasement she fell to wondering about
it once more. After all, there could be no harm in loking at his present, though of course she couldn't keep it. She picked it up, laid it down, picked it up
again, untied the string, opened the box, and settled back upon the $\log$ with a rapturous, long-drawn "Ah!" An oriental-looking necklet and pendant of pink and white pearls and wonderfully
wrought gold gleamed softly against wrought gold gleamed, softly against the steely light of the winter's day suffered a wonderful change in the lustrous depths, was transmuted to the glowing, delicate radiance of an Eastern dawn, exquisite as the face bent over
the jewels. The pendant was large, odd of shape.
"I wonder," murmured Suzanne, turning it over in her hand-"It looksspring hidden in the gold tracery-"It is a locket." She pressed the spring, the back of the pendant swung aside, and an honest, manly ace in mithature looked out at a a mouin gentle for all its firmness. "Billy!"
For a moment she met the look of the frank smiling eyes, then with a up the locket and kissed it.
"To think that he might have died of fever before I ever had a chance to know him," she said, with a warm little hrin's in her voice. "" Carringto Holding box and trinket tightly she abandoned the $\log$ and went scudding through the woods, down to the barn, in at the kitchen door, and up to her own the Herrick family and William Trevor Gordon, seäted at the breakfast table, beheld 2 vision with shining eyes
"A Merry Christmas," she called gaily. You must have slept soundly this morning," said her mother, but Billy Gordon said never a word. She was so hard Smiling, debonair, ignoring absolutely any previous encounter with him, she nodded a good morning at him across the table and turned to the pile of presents before her.

## A Lucky Bag. <br> STOP PRESS NEWS.

It is rumored that the engagement maduke Dooley?"
It is rumored that the engagement
between the Duke of D"Ooley and Miss "I have heard it said as me family Jane Silver, of New York, has been comes of a ancient stock, an' me foresuddenly terminated by the clandestine fathers used to put the little twiddley marriage of his lordship and Miss bit after the D." Phyllis Brent, of the Oddity Theatre. It is stated that the happy pair are on heir way to England.

Later.
We are informed that Colonel Jason Silver, the father of the injured lady,
booked his passage to England a few hours later.
"It seems to me, Clara," remarked Marmaduke Dooley, as he folded up the
paper, "that there's a bit of trouble in paper, "that there's a bit of
store for that young feller."
Miss Clara Brooks
Miss Clara Brookshank drew herself up and sidled a few inches along the
"It's only what me own father would "It's only what me own father you was to play the goat and leave me in the lurch." "Ah! there's no fear of that, Clara." "I hope not, Duke, but ain't you
noticed the similarity atween your noticed the similarity atween, your
names-the Duke of D'Ooley an' Mar"Such heaps," she said éxultantly, as
she picked up a small package wrapped in slightly rumpled white paper and upened it.
"Billy," she gasped in estatic surprise, "Billy, you cherub!" Then leanng straight forward over the open box she smiled straight into his eyes.
"The rest can wait until I come and I'm going to drive you to your train."
of the D'Opposing you was really on 1 wouldn't look at poor Clara Brook shank, daughter of a common por butcher ""
"Well, as to that, yer know, the cir umstances would duke, of course yer know, r'd have to marry in me proper station."
"Oh, you would, would you? If you was a duke you'd place me below a
common chorus-girl of the Oddity Theatre."
"Of course, I can't help thinking that "Ohe Duke has made a mistake."
chinking that I've made a mistake, either. Here's we, going to be married comes and tells me that you've lost your situation and then begins to bras about your ancestors having a twic dley-bit in their name."
"You surely don't expect me to stand being, insulted by the shop-walker, do
only know that you've insulted me by placing me lower than a chorusgirl, ana-and-here's your ring-and-
and I don't want eyer to see you again," "Oh, come now, Clara."

I mean what I say, I don't want ver to see you again; and if you don't go at once I'll call father and tell him how you have insulted me."
"Oh, as to that, you know-
"Will you go?"
"I ain't one as intrudes meself where me company ain't acce
"I do mean it."
"'Then I takes me honour, an' 1
takes me leave." takes me leave.'"
With this quotation from a favorite
author Mr. Marmaduke. Dooley author Mr. Marmaduke Dooley drew dignity at his command, fumbled his way through the hall, and wandered forlornly away from the Brooksbank mansion.
Life was not running smoothly with Marmaduke. The drapery establishment from whose coffers he had been "pawing two pounds a week and "perks," or, as his fellow-salesmen
termed them, "spiffs," had that day determed them, "spiffs," had that day de-
cided that they would not be running any financial risk if they dispensed with his services; and consequently Marmaduke found himself presented with his week's salary and what is ouphemistically known as "the gran Added to this it must be said tha the daughter of a pork butcher is a very expensive luxury to keep com pany with, and having spent a rather extravagant evening with Clara at a
West-end restaurant Marmaduke was West-end restaurant Marmaduke was fourpence rattling in his pocket would be somewhat inadequate to dischargebe somewhat inadequate to discharg

If so, and you cut out the coupon below filling in the make of the machine and your name and address I will send you 100 Gramophone Needles absolutely free.
I have also some information regarding records to send you.
 lowing morning gave him such little
consolation that he arrived at the obvious conclusion that something must be done.
A careful survey of his wardrobe af forded him the satisiaction that sundry articles of summer atire, together with
a pair of patent leather boots and a a pair of patent
metal watch, might, with his persuasive powers, produce at least eighteen shillings, should he be able to make up his mind to part with them for a short period. With this idea in view, he carefully piece of brown paper, and after a vain search for a piece of string, he crept cautiously to he heady
called to his landlady
called "Mrs. Evans!"
"Wrs. E"
"Can you oblige me with' a piece of string?"
"Can you oblige me with that nineteen an' thruppence you owe me?"
"Then I ain't got no string."
With this ultimatum Marmaduke Dooley retired hurt, and with his previous conviction that something must
be done fully confrrmed. "She's cut off me gas, taken away me easy chair, an' stuffed up me fireplace
with an orange-box. Human flesh an with an orange-box. Human flesh an
human blood can stand no more when human blood can stand no more when
she refuses me a piece of string. I she refuses me a piece of string.
will add Claras ring to the sacrifice, and then shake the dust of this place off me feet forever.'
Fortified with the idea that his contemplated transaction would result in at least forty-five shillings, Marmaduke ${ }^{8}$ ballied forth with the untied brownpaper parcel under his arm. The ope, do
istic propositions of man, however, do not always materialize; and Dooley realized this truth when the pawnbroker, with all the arrogance of an Oriental potentate, contemptuously cut
the wings of his soaring expectations the wings of his soaring expectations
by making a firm and final offer of thirty shillings.
Fully realizing the fact that when a certain notorious gentlemen, whose name is not mentioned in polite circles, was holding the reins it was futile to
kick against the traces, Marmaduke Kick
concluded the transaction, and was just concout to leave the shop when his eyes fell upon an old kit-bag exposed for sale.
There was nothing attractive about the bag except that it was covered with land the price of 3s. 6d. testified as to its battered condition; but what interested Marmaduke was the name "D'0 oole"" engraved upon it in faded gilt letters.
being in the circumstance of the bag being in the pawnshop, combined with
Marmaduke's own visit, furmed a concatenation of events not to be lightly disregarded; su, after a firm offer of two shillings and sixpence, and further increased by threepence more, he walked
away, the proud possessor of what he away, the proud possessor of what he
was convinced was a relic of that ducal ancestor who, spelt his name with a "twiddley-bie."
Late in the afternoon, after an acrimonious discussion with his landlady, "the which he gave her what he his tongue," Marmaduke, filled with a wild longing to escape from the neighborhood of
Clapham and his late disappointments Clapham and his late disappoointments, packed all his belongings in the precious
kit-bag and made his way to the Junction.
Junction.
Having purchased a ticket for water
loo, he arrived on the platform just a a train was steaming out. Making a wilo dash, he wrenched open a carriage
dor and found himself in a vacant and door and found himself in a vacant and
sumptuously-appointed first class sa sumptuously-appointed first class sa
loon, the windws of which were label led "Special." at Vauxhall, and starmaduke made up his mind that he would have to pay
1 first-class fare, but the sanctity of thie
saloon was not invaded by the ticket saloon was not invaded
collectors, and when finaly the train steamed into Waterloo he sei: 1 his bag and hurriedly jumped out.
He was about to move away when his passage was barred by a gorege his hat and seized the precious bag. Her Grace sent me to meet the train in case you didn't get her telegram at Clapham,"
"Her Grace! Telegram at Clapham!" "Yes, my lord; he has arrived and is "Who has arrived"
"I do not know, sir but her Grace said you would understand, and, in cas you did not receive the telegram, would you enter the hotel by the side en
trance as he is waiting about in the vestibule."
"Who do you take me for?"
"The Duke of D"Ooley, gir."
"Ah! An' how did you know me?"
The man pointed to the name on th

he will find that he has made a mis take, and that I have married Marma due Duchess is a mere newspaper fab rication. Will you do it?" "Ma'am, I will do anything for you."
"Good. I will send the Duke's valet to you, and while you are dressing I to be dropped, and I am now plain Mrs. Marmaduke Dooley."
Half an hour later Maduke Half, an hour later Marmaduke
Dooley, gorgeously arrayed in dress Dooley, gorgeously arrayed in dress
suit, diamond stud, and patent leather pumps, found himself seated in a secluded corner of the dining-room
vis-a-vise with the most radiantly beautiful woman he had ever seen. "You are proving yourself a true
friend in doing this for me," murmured friend in doing this for me," murmured the Duchess.
"Ma'am, all the obligation is on my
side, and I am truly grateful' to side, and am truly grateful to-be ach
lowed the privilege of doing you such
slight service." "My husband went early this morning to his country estate to make ar rangemeantime this awful Colonel Silver took rooms here. He saw me, but he made no sign of recognition. He simply took up a position in the vestibule which he has occupied ever since, and I know from the way his coat-pocket is
bulging that he is carrying a revolver. Are you afraid?"
Marmaduke, under the influence of the good food, his third glass of champagne, and the memory or his success. lady was inclined to be somewhat truculent.
"Let him only come near me, ma'am, an' I'll-I'll give him the rough end of my tongue."
"I am glad you are not afraid, for
here he comes." Before Marmaduke could turn round a strong hand gripped him by the shoulder and swung him like a tee-to-tum.
"And so, my lord Duke, I have "And so, my lord Duke, I have
tracked you at last! Halloa! What's this? You are not the Duke D'Ooley?" "You are a most rough and impertinent fellow, sir, and I demand the meaning of this outrage!"
"I was told that this lady was dining with her husband, and as have travdemand to know who you are." "Me card," murmured Dooley, as he handed the irate Colonel the requested information. "Marmaduke Dooley
Esquire; known to me intimate friends Esquire; known to me intimate friends
as 'Duke." "But, madam, what trick is this? It was announced in the public Press that you had married the Duke of Dooley, the man who played fast and loose with
my daughter's affections;"
the papers, Colonel?" all you read in "Doayou mean that I have been made a fool of? Where is the Duke now?" "My dear Colonel, as far as I am concerned I haven't got the faintes
idea." idea." "Then I- Halloa! what's this?" A waiter approached, bearing a salver
upon which was a cablegram. The upon which was a cablegram. The
Colonel read it and crumpled it up in his hand.
"Madam-and you, too, sir-I am very sorry I disturbed your meal;
please accept please accept my apologies. I have jus
received news that my daughter has eloped with a foreign nobleman, and must return to New York at once."
As the fiery Colonel, with battle in his eye, abruptly left them, the Duches his eye, abrupty of relief, and stretching her hand across the table she grasped Marmaduke's.
"Thank you
"Thank you, my friend; now we can enjoy our meal in peace.
Marmaduke was nothing loath and fell to again, but the good time he felt
he was having was doomed to a further interruption
He was just pouring out his fourth glass of wine when he was again seized and swung round to find himself con-"
fronted by the burly form of "Basher" Brooksbank, the father of his late fiancee.
"So this is where you are, is it? This s why you deserted my clara and ehe
her crying ber eye out. Nov, sir, what her crying her eyes out. Now, siri, what
have you got to say for yourself As Dooley only seemed to be able to tare at the pork butcher with his nouth gaping like a dying codifsh, the Duchess came to the conclus
was her turn to render help.
"And who may you be, that iterrupt our meal so rudely"
'Me name is Brooksbank, and when got home last night me daughte Clar was crying her eyes out because this feller had given her up. I have prime dairy-fed pork, and when I came here tonight for orders I hears from the chef that Mr. and Mrs. Marmaduk Dooley is staying here, and as I don' allow any jumped-up draper's assistan to play pranks with my daughter's al
fections I come up to demand an explanation, he being engaged to her, and all the while he's married to you."
"I beg your pardor married to In the heat of the conversation no one noticed the presence of a fourth person, but when rose joyfully.
ast, Marmaduke! You're here at last, and he's gone-he's gone!
"So I have heard,
telegram have heard, dear. I got your the train Clapham Junction, and lef would much rather have would much rather have been here. But The Duchess invited them all to sit down while she made the necessary explanations, and in a few minutes
Brooksbank and Dooley were shaking hands.
"And now, Mr. Dooley," remarked the Duke, "whether you are a relation of so generously assisted my wife in her dilemma this evening you must allow me to do something for you. Mr. Brooksbank, will you allow me to buy a partnership in your
name your own price?
name your ownap price?
"Aye, me lord, and right glad to have him, provided he marries my Clara. So come home with me."
In a few minutes Marmaduke Dooley was saying goodbye to the Duke and Duchess.
"Halloa,
"Halloa, that's one of my old bags you"ve got. I gave it away some years
"I am very glad you did, me lord, because I purchased it today for two and ninepence, and although I could not af-
ford the money I can only say that it ford the money I can onl
has proved a lucky bag."

## Engllish Photo Goods.

Among the many lines of manufacure in which Great Britain seems to and the demand for the English article is perhaps more active to-day than at ny other time. Among the firms do may business throughout the Dominion people, whose photo goods, plates, papers and films have won first place in the regard of the Canadian people,
who are now noted for their interest who are now noted for their interest in the camera. This from coast to coast. That the quality is everything to be desired is proved by the ever increasing sales. Among the patrons of We-
lington goods may be mentioned the lington goods may be mentioned the
Federal Government who use them in many departments, and particularly in connection with scientific work. The new Wellington film placed on the Can adian market is made especiall
this country and is claimed to be the film mdst suited to Canadian conditions. The Wellington printing paper is guaranteed to keep fresh for a longer time than any other paper on the market
for the same purpose. Should any porson be unable to get Wellington' materials in his local store, a postal: to 13 St. John Street, Montreal, will receive immediate attention and a
scriptive booklet will also be mailed.

## Answers to Correspondents.

Answers to questions will be given if possible, and as early as possible, only when the question is accompanied by the name and address of the questioner. The name is not for publication but as an evidence of good faith. ine probs lem in behavior printed each month may be answered by any reade
card. The best answer will bring the writer the present of a book.

Problem in Behavior. Mrs. Long and Mrs. Short find themselves alone together in a second-class carriage of an express train running
from London to Neweastle. Mrs. Long rom London to Newcastle. Mrs. Long
pens the window. Mrs. Short says, "Excuse me, but I must tell you I am subject to asthma, and an open window always gives me cold." Mrs. Long
herself always feels faint in a close herself always feels faint in a ciose
carriage, and it would be exceedingly carriage, and it would be exceedingly
awkward to faint in such circumstances, as the train does not stop for hours. What should Mrs. Long do?
The Solution of the April Problem. The April problem was as follows: One day, in conversation with my friend, Mrs. Ruby, I thoughtlessly passed a remark about Mrs. Pacoe loveliest characters I knew, but that she seemed to be pretty fond of displaying her powers as a conversationlist, especi-
ally before men. Two weeks later in ally before men. Two weeks later in
a drawing room where both ladies a drawing room where both ladies
were present manner accused me of saying about
Mrs. Pacoe that she was fond of Mrs. Pacoe that she was fond of gadding about with the men. I denied
that I said this, but Mrs. Ruby said: that I said this, but Mrs. Ruby said:
"Don't deny it, now; you know you "Don't deny it, now; you have our
said it, and you know we all have done said it, an What should I have done
failings."

## 3. An Explanation W̌anted

3. An Explanation wanted. Will
reader sends the following. Wind some one mathematically inclined give
an explanation. Place three balls in a row along the
Place cushion, touching each other. Place
another ball alongside this cushion, say, another ball alongside this cushion, say,
eight inches from this row. Hit this eight inches smom lightly and so that it strikes the row. It will come to rest at once on striking the nearest ball. The
nearest ball and the next one to it will also remain stationary. But the third ball will start off from the ball one has
precisely the speed of the bat precisely the speed of che baine onf to
struck, and it will quietly move of to
the exact distance from the row that the exact distance from the row that
you had placed the ball which you struck. The balls will then be in a position exactly the reverse of the one
at which you started. The ball you at which you started. The ball you
struck with your cue will be the third
ball in the row and the last ball in ball in the row, and the last ball in the original row will be at rest just
eight inches away from them.

If you had placed two balls eight inches from your row of three and hit the row of three, then two would leave the row of three and retire to the eight
nch position occupied by your two cue inch position occupied by your two cos
balls. It thus. appears that the billiard ball is smart enough "to come in out of the rain." It can count and add and subtract and evinces a truer instinct for angles and do the
table.
4. A Question of Etiquette.

A young woman has asked me to call. Is this the custom in what is called
our best society, or should she have our best society, or should she
waited for me to ask permission to call upon her?
The young woman shows her knowledge of the habits of good society by
taking the initiative. It is a woman's prerogative to choose whom among her acquaintances she desires to admit to
the rank of friends. When it lies with the rank of friends. When it lies with
the man to make the request to call, a woman is placed in a most embarrass ing position if she is not willing to make him welcome at her home.

betterment and uplifting of humanity, and give it our full support. Hopewell's letter in the March number For my part I consider it a direct in that the Government allows, nay, invite foreigners of any caste whatever to take up its fertile lands,-while-we Can dian born women are debarred from March number entitled, "The Dower and the Franchise," I found highly in teresting, also your Temperance page am a firm believer in Total Abstinence. It is revolting to me to think of peoppe which will make them drink anything thin the beasts. I often think when I see a drunken man, that if he could only see how ludicrous and disgusting he really is, I am sure in many
cases he would never drink again. There are many other things I would like to write but as this is my first attempt at writing to your paper I'll not make my letter too long.
Wishing your paper every success, remain, yours sincerely. "Christy Ann."

## The Holy Grall.

 Kindly give information with regardo The Holy Grail, Lohengrin, Parzival. -W. C. Chatham. Lohengrin-"Knight of the Swan," son of Parzival. He came to Brabante
in a ship drawn by a swan; and, havin a ship drawn by a swan; and, hav-
ing liberated the Duchess Elsen who was a captive, he married her, but deafter this, he went against the Huns and Saracens, performed marvels of bravery and returned to Germany
covered with glory. Elsen, being covered with glory. Elsen, being ing the name of her husband, resolved to ask him of his family, but no sooner kad she done so than the white swan swan reappeared and cat metrical romance, by Wolfram von Eschenbach (twelfth century). Parzival was brought up by a widowed mother in solitude, kut when grown to manhood, to go
wandering knights persuaded him to go wandering knt of King Arthur. His mother, hoping to deter him, consented to his going, if he would wear the dress of a common jester. noble deeds that
soon achieved such no Arthur made him a knight of the Arthur made Sir Parzival went in quest of the holy grail, which was Graalburg, in Spain, built by a royal priest Titureel. He reached the castle, tions, was shut out, and, on his return to court the priestess of Graalburg insisted on his being expelled from the court and degraded from knighthood stinence and self-abnegation, and a wise hermit became his instructor. At length he reached such a state of purity and sanctity that the priestess of come lord of the castle, having been "made perfect from suffering" (Rev. vii. 14; . . . This, of course, is an al legory of a Christian giving up every-
thing in order to be admitted a priest and king in the city of God, and becoming
Sangraal.--Sancgreal, etc., generally aid to be the holy plate from which hrist ate at the Whatever it was, it appeared to King Arthur and his 150 knights of the Round Table, but suddenly vanished, nd all the knights vowed they would mo in quest thereof. Only three,
Iors, Sir Percivale, and Sir Galahad, ound it, and only Sir Galahad touched it, but he soon died, and was borne by ngels up into heaven. The sangraa" f Arthurian romance is "the dish" the sacrament of the Mass, and made will appear quite obvious to the reader by the following extracts:

The Western Home Monthly.
ying of thunder. . . In the midst clear by seven times than the day, and all were alighted by the grace of the Holy Ghost. ${ }^{\circ}$. Then there entere with white samite, but there was none that could see it, nor who bare it, but the whole hall was full filled with good odours, and every knight had such meat and when the Holy Grale had been lorne through the hall, then the holy vessel departed suddenly, and they wist not where it became.
"Then looked they and saw a man come out of the holy vessel, that had
all the signs of the passion of Christ, all the signs of the passsion of Christ,
and he said, . "This is the holy dish wherein $\dot{I}$ ate the lamb on SherThursday, and now hast thou seen it so openly as thou shalli, see it in the ity of Sarras . . . therefore thou must go hence and bear with thee this
holy vessel, for this night it shall depart from the realm of Lorgis and take with thee
vale and Sir Bors"
band Sir Bors." So departed Sir Galahad and Sir
Percivale and Sir Bors with him. And so they rode three days, and came to a river, and found a ship
when on board, they found in the midst the table of silver and the Sangreal covered with white samite. down and slept... and when he woke. . . he saw the city of
Sarras (ch. 103). . At the year's end . he saw before him the holy vessel, and a man kneeling upon which had about him a great fellow ship of angels, as it had been Christ Himself. And when he came to the sakering of the Mass, and had
done, anon he called Sir Galahad, and done, anon he called Sir Gala,
said unto him, "Come forth, said unto him,
and thou shalt see that which thou hast much desired to see". and he beheld spiritual things. (eh. 104).-Sir T. Malory: History of

## A Moving Train

Is it true that all parts of a rapidy moving train do not go forward at the same rate?-c. H. Charlottetown. This is another problem of the re-
volvipg wheel which was discussed in a previous number. It is true that though the whole train may be moving forward at the rate of sixty miles an hour the lower part of the wheels may momentarily moving backward at fair rate of speed.
This proposition may be demontrated by any one with the aid of a
icycle. Push its front wheel up ricycle. Push its front wheel up
against a house wall. Make a chalk mark on the lowest part of the whee and on the ground beneath it. Back when the wheel shall have moved an inch the marked spot will not appear o have moved at all. As the machine is slowly backed farther the first visible novement of the bottom of the whee
upward from the ground, while it is impossible to see that the marked spot has backed from the wall to the small est extent.
This means that all wheels, travelling at any speed, have a part-the part immediate contact with the ground Which thas wheel of a railway car has flange, a portion which juts down be low the wheel's point of contact on the rail. That point of contact then becomes a centre; the whole wheel passes
forward above it, while the flange orward above it, while the flange ward. That is the part of the whee
that travels in the contrary direction. And by a simple mathematical formula is rate of speed is calculable at about
ne-sixth of the speed of the axle o the wheel, which represents the for ward rate of travel. So that on every express train proceeding at the rate of
sixty miles an hour toward New York here's a portion that is travellin there's a portion Chicago its humble ten.

Four Distinct Advantages to be gained by using
> 'Great West Wire Fence'

1. The Wire is the heaviest used in making Wire Fences. Heat will not cause it to sag.

(The Look) 3. Cold will not cause it to break.

The Lock is the best ever invented.
We manufacture over 30 different styles of fence suitable fo farm, stock, hog, chicken or garden. Write for our illustrated catalogue and the name of your nearest dealer.

## There Is Every Advantage In Early Buying of Twine

Of course it is too early yet to give entire sway to our optimistic assurance of an enormous wheat yield this year; but it is not too early to estimate what twine you are going to need, basing calculations on last year's yield and your extra acreage this year.
Placing your orders now entails no responsibility, and ensures your safety.

## Some Camp Furniture.

A Simple Table
Here is a table that is pretty enough for any purpose and at.the same time so simple that no boy need be afraid to attools consist of only a hammer and saw. We will suppose that you are
going to use it in a summer cottageland give directions accordingly. The top is 5 ft . by 3 ft . and is made by gluing
gether three 12 inch boards of the given length. You can use LePage's liquid

glue for this purpose and all you have to do is to smooth the edges that go
together and brush on a thin coat of together and brush on a the place the glued boards in their right position on a smooth part
of the barn floor and drive three spikes of the barn floor and drive three spikes on each side, several inches from the edges of the outside boards. Wedges
are then driven in between the spikes are then driven in between the spikes
and the boards. Leave it thus to set and mark out your other pieoes. Each of the four legs is 30 inch by 6 inch by 1 inch. The stretcher or long under-
shelf is a 12 inch piece 4 inches long. The braces that it fits into are 24 inches by 6 inches by 1 inch. The cutting and fitting of all parts is plainly shown by
the drawing. When complete the table the drawing. When complete the table
should be smoothed with sandpaper and given two coats of white paint or engiven two coats of white paint or en-
amel. It makes a beautiful piece of furniture and one that you may well be proud of.

A Refrigerator.
One of the problems of the camping
season is to keep things from spoiling together when you make camp. The
most important part of the cooling device is the cover shown in Fig. 2. Slats are across the bottom, and the
top is perforated with small holes. It top is perforated with small holes. It
should be just large enough to fit snugly into the frame, Fig. 3. Fig. 1 is a side view of the cooler and shows all parts in their proper relation to each other. Now comes the scientific part of the
scheme. A hole should be dug about scheme. Aep, the box of food placed at two feet deep, the box of food placed at
the bottom of it, with ropes tied to it as shown so thitit it may be convenient-
ly raised and lowered, and then the holly raised and lowered, and then the hol-
low cover is placed on. In the hollow, low cover is placed, on. In the hollow,
space of the cover, as shown in "a," Fig. 1, stuff cotton cloth and dampen
it. The moisture in the cloth will evapit. The moisture in the cloth will evap-
orate and this process of evaporation orate and this process of evaporation
will absorb all the heat that is in the cooling hole. If made according to directions the temperature of the hole
will go down almost to the freezing will go down almost to the freezing
point and soft drinks and milk may be preserved just as the refrigerator at
home keeps them. If you are not going camping try this. scheme in your back yard It will be useful to cool melons and you
operation.

## Camp Chairs.

The seats pictured here are so simple that they require little explanation on
my part. They are designed for camping purposes but there is no reason why you can not make tnem for your lawn or playground; in fact their rustic ap-
pearance makes them as appropriate for pearance makes them as appropriate for
a lawn as for any purpose I know of. It is an easy matter to find the pieces needed but you should be careful not to strip your neighbor's trees of any branches, or your own, without permis-
sion from some of the older members of the family. Before attempting to drive long nails or screws in this green wood bore holes with a small bit.
Shave off all knots and bumps with a Shave off all knots and bumps with a
sharp knife and paint the spots with sharp knife and paint the spots with
shellac or varnish to keep them from

in the torrid sun that is bound to pour splitting. The chair and stool may be down. It is all very well to say that made in take-down style by tying the and such modern condensed food as will way can be taken apart and carried withstand the putrefying influence of very easily. If made for the lawn it is the August weather, but once you open the tinned stuff it will spoil quickly if not properly cared for. You need some
kind of a contrivance to preserve what is left over from meal to meal. The refrigerator pictured in the accompanying sketches will be found very
useful and practical and it really costs useful and practical and it really costs
nothing too save a half hour's work. First make a box like Fig. 4 of any size you think is most suited to your needs and bore holes in the lid. After
being placed in the box the food being placed in the box the food is cov-
ered with canvas. The next part to be ered with can is the frame shown in Fig.
put together
3. It is a good scheme to cut the pieces that go to form this frame and tie them that go to form this frame and tie them
together in a flat package, to be put
very easily. If made for the lawn
just as well to screw them together.

> Some Tents.

Here are a few sketches that will up a canvas quickly. Fig. 1 is the leanto, and has two forked poles about six feet high in front and a cross-bar that ests upon them. A stake is driven at The canvas for this style of tent should The canvas for this style of tent should Another very simple and practical nester tent is shown in Fig. 2. It is
used mostly as protection from the sun and the ends are open to admit the

Winnipeg, June, 1910 breezes. The same instructions as to $\begin{aligned} & \text { needs for broiling and frying fish and } \\ & \text { making coffee quite as well as a costly }\end{aligned}$ canvas and poles that were given in to the lean-to hold good here,
eact the material required for each tent helter in the form of Fig. 1 or like it the same and you can erect your Fig. 2, whichever suits your convenence best. In Fig. 3 we have a simpler shelter than either of the foregoing. No poles of any particular shape, although of any part square will be the handiest.
piece nearly
This is a tent that you can rig up very

quickly on the bank of a creek fishing, to keep your lunoh cool and dry along. 4 a rigging for the home that Fig. 4 is a rigging for the home that
enables the sleeper to have his head and ehoulders out of doors. Doctors all over the country are unceasingly preaching fresh air and it behoove ber gin to sleep outdoors in the summer so that our system will be accustomed to it before the cold weather comes on.
This shelter, supposed to be erected in This shelter, supposed to be erected in the rear of the house, consists bolted to the house so as to admit of being readily removed. The canvas is erected in the manner shown or in any way that rain.

## Camp Bed.

One of the simplest camp beds that know of is shown in Fig. I. It consists of a rectangular piece of canvas with wide hem, formed by these hems poles are thrust and their ends rest upon two logs as shown. It is a very comforitable bed for camping and the canvas that oes to make it may be purposes in the day be scorned, for the dhief aim of the seasoned camper is to et along with as few things as pos ible, or in other words, to use every

thing for as many different purposes as possible. show two fire places. The first is a three-sided wall built of stones. One side is left open to receive the draft, the others are closed to retain the heat.
A camp fire like this will serve your
G. T, P. Exhibits at Brussels.

Cable message has been received from Brussels, Belgium, at the offices of the peg, advising that their building an the exhibit in the building had been fully completed in time for the opening which opened at Brussels on Saturday April 23rd. At all the Great International Expositions and World's fairs during th past years, the Grand ing and exhibit completed for the open ing day and this reputation has been kept up for the Brussels show.
The exhibit which the Grand Trunk have placed there this year is probably
the best that they have ever installed, the best that they have ever installed, tion with the Grand Trunk Pacific Railway system in the East, as well as
dealing exhaustively with the Grand Trunk Pacific Railway. A magnificent Trunk Pacific Railway in the straw, grasses and other products of the West is on view, illustrating in a realistic
way the prairie section of the new transcontinental line.
The Mountain Division is also represented by oil paintings of scenes in the Relowhead
A new feature is the moving picture A new feature is the moving picture
exhibit, which has been placed, in an annex to the main Grand Trunk building, and a series of entertainmen,
daily will be given in this annex, when daily wil be given in this annex, when
pictures depicting the summer resorts, pictures aepicting fishing regions of Canada, mining scenes in Cobalt, harvesting, threshing, and other agricultural scenes in Western Canada, and the Railway will be projected.
A comprehensive collection of mounted game and fish are also included and large photographic reproduction of other
added.
In addition to this a very costly and complete exhibit of the minerals of Canada will be on view and will no Subt attract a great deal of attention. Several publications printed in Eng
lish, French, German, and Flemish, des riptive of the Dominion, will be distributed and a representative of the rand Trunk with a corps of assistants will be on hand to give all informatio to enqu
ality.

Gourlay Plano Owners.
Messrs Gourlay Winter \& Leeming, of Toronto, request us to arrements they have completed arrangements
with the Winnipeg Piano Co., 295 Portage Avenue, for the sale of the Gourlay piano, and Gourlay-Angelu Piano in the City of Winnipeg and icinity.
In this connection they also announce hat the Winnipeg Piano Co., will ever piano purchas show iriends of Gourlay prepared to supply all their friends with specially selected Gourlay pianos. At the present time the Winnipeg
Piano Company are displaying in their Piano Company are at 295 Portage Avenue a very choice assortment of Gourlay pianos and they in common with the manufacturers would ask instruments together with the rest of their stock begether determining upon the purchase any other piano or player piano.

O Lord our God, arise,
Scatter his enemies
And make them fall :
Confound their politics ;
On him our hopes we fix ;
God save us all.

Thy choicest gifts in store
On himu be pleased to pour ;
Long may he reign :
May he defend our laws,
And ever give us cause
To sing with heart and voice, God save the King.

## The Author of "Rulle Britannia."

The Bi-Centenary of Dr. Arne. An Appreciation by Dr. J. C. Bridge, Organist of Chester Cathedral.
Thomas Arne, the author of "Rule |mond" in which his sister (afterwards To Arne, then, belongs the merit of Thomas, Arne, the author of "Rule
Britannia" was born on March 12th, Mrs. Cibber, the tragedy actress) took having composed the second great Nat1ilo. His father's business was suffi- the title loo e and his. younger for many true Englishman must be grateful to ciently prosperous to enable him to send ce part of the page. Then, for many trie for for thim for this stirring and noble tune. In the boy to Eton, and he would have

the words are often misquoted, and that been greatiy shocked had he thought
lis offspring had any musical predilections. But it was so. Thomas was mad
upon music. Instead of preparing his upon music. Instead of preparing his
lessons at school, he spent his time in lessons at slooo, he spent his time in
trying to play an old cracked flute, and trying to play an old cracked flute, and
when he went home he visited the opera
by borrowing a servant's livery and sitly borrowing a servant's livery and sit-
ting in the places appropriated to ting in the places appropriated to
domestics. domestics.
He was put to serve a three
years' clerkship in the law, but his music went quietly on. At night he
practised on a spinet surreptitiously in practised on a spinet surreptitiously in his room by muffling the strings with a
handkerchief, and he spent other spare handkerchief, and he spent other spare ing lessons from Festing, the well
known player. known player.
One day, however, the father called on business at a gentleman's house in
the neighbourhood, and was invited upstairs, where there was a large company and a concert. To his amazement he
found his son playing first fiddle most skilfully. Explanations ensued, and at last the father was persuaded that to pursue the study of music did not in-
volve going to the devil entirely, and volve going to the devil entirely, and
Thomas now continued his musical studies openly, at home, "The Begrars Opera," produced when "The Beggar's Opera," produced when
Arne was eighteen years old, pointed Arne was eighteen years old, pointed
the way; by its tremendous popularity, to a new ballad form, and Arne was one
of the first to take advantage of this of the first to the pablic fashion. He set Addison's opera of "Rosa-
years he provided one-fifth of the In 1738 Arne firmly established his reputation as a lyric composer by setting to music Dalton's adaptation of Milton's "Comus," which he composed
in the back parlour of $\dot{a}$ house in Craven Buildings, Wych Street. The work contains many favorite airs, but this fatal facility" for writing and the fact
that he often wrote his own words, led to frequent failure, and his next great success (twenty-four years after "Co(1才62). A psalm tune founded on the minuet at the end of the overture is
till sung, and we occasionally air of "The Soldier Tired of War's Alarms" in our concert-rooms. The opera, however, is a curious mix-
ture of styles, and by no means exhibits ure of styles, and by no means exhibits
Arne as we care to know him. He sold the copyright for the large sum of sixty ouineas, and it was splendidly per-
ormed by Tenducci, Peretti and formed by Tenducci, Peretti and Arne's pupil, Miss Brent.
In 1740 Arne set Congreve's masque of "The Judgment of Paris" and Thompson's masque of "Alfred." This latter was performed at a temporary theatre at Clieveden, Bucks (then the residence of Frederick, Prince of Wales), to cele-
brate the anniversary of the succession of the House of Hanover. This work
The "Rulains the famous patriotic tune of "Rule! Britannia.

rio played recently before the Musirio played recently before the Musi-
ians' Company was loudly applauded, nd made one wish that one of our great pianists would give us an hour of Eng
lish virginal and harpsichord music from Byrd to Arne!
Arne married the eldest of the three daughters of Anthony Young, a London rganist. Another sister married Lampe, he opera-writer, and all three girls were
xcellent vocalists. Arne, however, in his best works, pre erves his individuality. His music has uent vocal phrases, sweet melodic is his own; it is not Handel's. In fact is his own; it is not Handel's. In fact,
he would have disdained to copy the reat master, for, though he admired his genius, he always looked upon him Ma usurper in the English Kingdom of ous, for his music circulated all over the kingdom. At Vauxhall his dialogue of "Colin and Phoebe" was encored
every night for three months during the every night for three months during the
summer of 1745 . "Arne's melody," says Burney, "was so easy, natural and agreaable to the so easy, natural and agreeable effect up-
whole kingdom that it had an effect
on our national taste."

the music is so noble, massive and ef-
fective that it always finds its way quite an unusual form for ordinary compositions, for they generally consist
of sentences of four or eight bars in
length.
According to some accounts it was
first publicly performed in 1740 at a first publicly performed in 1740 at a dinner given to celebrate the taking of
Portobello in 1739 by Admiral Vernon, when Henry Carey, who was a popular musician of that day and the composer of "Sally in Our Alley," sang it and claimed both words and music as his
own composition. In 1745 it was sung own composition. In
at the theatres as "a royal song or anat the theatres as "a royal song or an-
them" during the Scottish rebellion. The Pretender was proclaimed on Sept. 16 at Edinburgh, and "God Save the King" was sung at Drury Lane thea-
tre in London on Sept 28. After that it was sung for about a month at the theatres at Covent Garden and Drury Lane. Whether "God Save the King" was really composed by Henry Carey or
compiled from older airs will probably compiled from older airs win probabyy never tues which resemble it. (1) An
old tunes
"Aje" very much like it is attributed "Ayre" very much like it is attributed
to Dr. John Bul and dated 1619. Dr. to Dr. John Bul and dated 1619. Dr Bull was a celebrated musician, organ-
ist of Hereford Cathedral, and afterwards of Antwerp Cathedral, and in 1596 Queen Elizabeth appointed him
the first professor of Music in Gresham the first professor of Music in Gresham College. Some attribute the composi-
tion of "God Save the King" to him, tion of gha not peen proved. (2) An old Scotch carol, "Remember,, Thou the Man" is something like it, but it is in the minor, which completely alters its
character. Because of the existence of character. because of "God Save the King" is sometimes claimed for Scotland. (3) A ballad printed in 1669 and called "Franklin is Away" is also very
much like it. (4) Purcell in 1696 wrote a piece for the harpsichord which re a piece for in its rhythm only.
So the rythym; phrases, and even the unequal length of the two sentences,
had all existed before Carey. So did had all existed before Carey. So did
some of the words. In 1545 "God Save some of the words. In
the King" was the watchword of the English navy, and the refrain of a bal lad popular in 1606 was "God Save
King James." Another ballad about King James." Another ballad
the year 1645 commences thus-
God save King Charles the King, God save King
Our Royal Roy;
Grant him long to reign
In peace and joy.
A curious extra verse is said to have been sung in Calais when the Duke of Clarence, who was Lord High Admiral of England, Channel-this is it-
Sod Save noble Clarence.
God Save noble Clarence,
Who brings her King to France,
God Save Clarence.
He maintains the glory
Of the British navy,
0 God make him happy!
0 God make him happy
God save Clarence!
Many of the great composers were fond of the tune. Weber put it in his
cantata "Kampf und sieg," and in his cantata "Kampf
splendid
"Jubel Overture," and has splice arranged it for four voices-in
D and B flat. With Beethoven it was
We also a great favorite. He wrote seven
variations on it for the panio and inMAN. troduced it into his "Battle Symphony"
fective that it
into our hearts.
The well-known Canadian artiste, Miss Edith Miller, has recently had the honor of singing before Princess Henry
of Battenburg and Prince and Princess Alexander of Teck, at the House of Lord and Lady Mount Stephen. Prin. cess Henry was so much pleased with the Canadian songs that Miss Miller gave that they were repeated at an
after-dinner concert at Kensington after-dinner concert ath.
The arrival in Winnipeg of Sig. Pompilio to take up permanent residence
is an event of more than ordinary consequence from a musicial standpoint. sequence from a musicial accomplished
Sig. Pompilio is an musician, and an executant on practic-
ally all band instruments. But ally all band instruments. in this apart from his ability in ard, his special accomplishment
regard in the conducting of boy's
lies lies in the conducting of boy's
bands. In this sphere sig. Pom. pilio has achieved asstinct success and considerable renown, both in Italy and
America. In Chicago, a boy's band was America. In Chicago, a under his baton. This is also true of other boys' bands in the state of Illinois, Before coming to America, Sig. Pomwith boys' bands and wears several medals as a recognition of his talents. Sig. Pompilio has joined the Winnipeg City band, in which he is oboe soloist,
He is very much interested in boy' He is very much interested in boy's
bands and hopes to organize one in Winnipeg.

The First Flowers.
By Lilian Leveridge, Coe Hill, Ont.
As falleth the shadow-time, baimy and And slow f
low hill the sun o'er tue uistant Here wandering long where the clear bird-notes ring
I'seek for the first bonnie flowers of the spring.
The brown prairie grasses whe crisp 'neath my feet,
And dead are the roses once aewy and And dead are the roses aewy and But somewhere, I know, on these uplands there grew
Anemones fair with their petals of blue. How oft is the kiss of the breeze on my cheek,
As low orer the mosses I eagerly seek As low for the sight of those petals
of blueFor once here I know the anemones For once
grew.
The search is rewarded, what joy to behold
A frail, dainty blossom with heart all of
A frail, dainty blossom with heart all of
For here, where above it the amber
lights fling glory, there spring.
Above in the blue shineth dimly afar The new moon, and lightecn one limpid While musical measures the meadow And thrill the still eve with the joy of The weatern Fome Monthly in the

## What the World is Saying.

WHEELS IN SOUTHERN ALBERTA
Bicycle riding is becoming quite a fad in Ray mond--Raymond Rustler.

## A CONVINCING PROOF

If you don't believe the world is getting wiser,
iust look at the increased number who are coming to Canada-EEdmonton Journal.

ALBERTA'S MODEST OFFICIAL PROPHETS.
It speaks well for a country when the actual It speaks well for a country when the acknent
crop returns exceed the estimates of the Governmer crop returns exceed as those of Alberta did last year. Lethbridge Herald.

PROSPECTORS BROKE, NOT CAMEL'S BACK. Two hundred deceived and disappointed mining prospectors have returned from the Camel's Back country. The prospectors are broke, but
Back remains intact.-Peterboro Review.

## THE RUDDER OF THE EMPIRE

Earl Grey predicts that Canada will be "the rudder of the Empire." This is a high destiny. In a goof the Empire. This is a high ,oncern, which the Empire is, the rudder is far

## TALK COSTS MONEY AT OTTAWA.

In the last session of the Canadian Parliament In the last session of the Canadian Pambers in
about five million words were spoken by member about five million words were spoken is one place, at least, where talk is not cheap.-Hamilton Spectator.

## AN UNXECELLED FORCE

They do a good many things very well in Canada. Last year the Northwest Mounted Police handled nearly seven thousand cases of crime and misdemeanor and secured convictions in six out

## JEALOUSY, DRINK AND DEADLY WEAPONS

Jealousy, drink, and too easy access to deadly weapons, explain the great proportion of the brutal weapons, expla few of them wife murders, which have disgraced Ontario within the past few months -Brockville Recorder.

## TORONTO JEALOUS OF MONTREAL

An idea of the vast size of Montreal may be gained from the official statement that "Montreal groper has 530,000 population." As a very large
part of Montreal is not only not proper, but is, in part of Montreal is not only not proper, but is, in fact, grossly imprope

NOT THE WASTE THAT MEANS WANT.
Fire occurred at the Anheuser-Busch brewery, St Louis, last night, and for an hour the streets were flooded with beer. Some people would be inclined to call this a wilful waste, but if it is, it isn wastChicago Tribune.

NOT FOR THE HEALTH OF POLITICAL
Conditions are constantly developing in every party with which healthy-minded people have no right to be satisfied. The fact that such conditions are tolerated without protest is not a wholesome sign, even from the party viewpoint, but the reverse.Woodstock Sentinel-Review.

SPIRITUAL PROGRESS IN WEST
While there is so much talk about the material progress of the western cities, it is pleasing to note that new churches are being erected as well as busi-
ness houses. Fernie, which has passed through such ness houses. Fernie, which has passed through such
severe trials and risen above all obstacles, has just severe trials and risen above all obstacles, has just
opened a new Presbyterian church.-Montreal opened

## HONESTY IS THE BEST POLICY

Over Rochester way, a hard shell Republican dis trict has gone Democratic for the express purpose getting rid of a Congressman of the old schoo whose name has been mixed up with recent ex-
posures of wrong-doing by legislators. Wouldn't it posures of wrong-doing by legislators.
be funny if some day the politicians all learned that honesty is the best policy?-Brockville Times.

HE SHOULD BE JAILED.
It is rather a pity that publicity has been given to It is rather a pity that publicity has been given to
the scheme of that Winnipeg man who has offered to furnish American railway companies with a news service libelling Canada. The rascal should have been allowed plenty of rope, and then jailed when his offence had been committed. As it is, he has probably decided already that his proj

CANADA HAS MOVED UP
Carnegie hopes that Canada will become a republic. This is proof that Canada has moved up a bit in Andrew's estimation. A few years ago he could think of nothing in store for us but absorption by the United States.-London Advertiser.

## BAD SILVER IN COLLECTION

This is rather a sad commentary upon the religion of some people. Hon. Mr. Fielding stated in the House of Commons the other day that most of the defaced coin returned to the mint came from treas urers of churches plates.-Stratford Beacon.

## THE WESTERN AMALGAM

A very large proportion of the new settlers in the West are from Canada and Great Britain, and an other large proportion are people of the same stock from the United States. The only amalgam nece sary is a vigorous and yet broad and generou Canadianism.-Halifax Herald.

## PAST AND PRESENT.

A good many years ago when a boy was whipped at school, he received another whipping when he went home, but in these days the father and mother wipe his tears away and go and whip the teacher. Fort William Times-Journal.

IN THE YEAR OF THE COMET.
What is probably the biggest baby to be born in this section of the country arrived at the home of Walter Booth, the barber, on Friday last, when his wife presented him with a thirteen-pound son. This is only five pounds behind the world's record, an eighteen-pound child having, it is said, been born visited the earth.-Bruce (Ont.) Times.

A COLONEL PROPHESYING WAR.
About a year ago, Col. Sam Hughes predicted that Britain and Germany would be at each other's throats before the snow melted from the peaks of
the-Rockies. As the Rockies' snows are perpetual, the - Rockies. As the Rockies snows are perpetual,
the Colonel spoke truly, though what he meant was the colonel spoke truly, though be warring by mid-summer.-Ottawa Free Press.

## THE RUBBER CRAZE IN ENGLAND

The riches of South America seem to appeal eculiarly to the British imagination. Two centuries ago, less a decade, the "South Sea Bubble" an enerprise founded upon the prospeetive-pron of rade with South America, involved in rubber shares
failure. Today, the speculation fromises a like ending.-Montreal Gazette.

NEW THINGS TO LEGISLATE ABOUT.
The Marconi Company is to accept messages between Montreal and Great Britain. Nova Scotia is considering a law which would exclude aviators from the privileges of the Workmen's Compensation Act There are so many new things ho laws are becom nowadays, that it is no whieldy.-Kingston Whig.

THE HUDSON BAY RAILWAY.
The tire is anxious to seo enctuction f the Hudson Bay Railway actually begin, and it will not be easy in its mind until this takes place upon a scale to insure that there will be no stoppage always be an entirely justifiable apprehension tha the enemies of the road, who are numerous and powerful, may succeed in securing the postpone-
ment of its construction. The government is bound ment of its construction. The government is bound construction is not begun on a substantial basis this year.-Moose Jaw Times.

A CONTRAST.
It is curious that while in Canada the tendency is the provinces to insist upon their rights as gainst those of the Dominion; in Australia, on the other hand, the victory of the Labor Party in the Federal elections means the concentration of power in the central or Federal Government.-Victoria Colonist.

## MINEARLS IN HUDSON'S BAY REGION

Professor Miller, Geologist of the Province of Ontario, who showed prospectors the way to wealth in the northern part of that Province, now says that the country around Hudson's Bay is richly minerawe have in Canada.-Ottawa Citizen.

## PHENOMENAL INCREASE.

It looks as if nearly half a million people may be It looks to the population of Canada during the presadded to the population or Ganada during the pres thus be seven per cent. from new-comers alone, not ncluding the excess of births over deaths. This is phenomenal increase. We do not think any coun ry could ever show anything like it.-New Yor Tribune.

THE DOMINION'S PROGRESS
An increase in revenues in one year of nearly twenty per cent. and a balance over ordinary ex-
penses of $\$ 20,000,000$ is the handsome exhibit of penses of $\$ 20,000,000$ is the handsome exhibit of not surprising. Having outgrown its swaddling clothes, the Dominion is prosperous and making rapid progress toward even greater things.-New York Herald.

CONTROL OF THE TRUSTS.
We agree with Mr. King that the time has come when something should be done to control the trusts There al evial more and more coming to realize that Canada is a good field for exploitation. Preventive measures are a lot easier than curative measures, as Washington has discovered, and the preventive measures cannot be take by us any too soon.-Ottawa Evening Journal.

TRAGEDY OF MIXED MARRIAGES.
A California girl of social standing, who tried married life with a former Japanese servant, is back to her father's home, completely disillusioned by her short experience of lite among the Orientals.
The glamor which the false romance of Eastern life The glamor which the false romance of Eastern life explicable, especially as plain experience proves that it leads not only to unhappiness, but also in some it leads not only to unhappiness, but also in som

AS TO FIRE INSURANCE POLICIES. A Manitoba court, called on to interpret a fire insurance policy in a suit for the amount of a loss sustained, took the rules that apply to other contracts, and, because the plaintiff had not observed all the stipulations made by the company, dismissed his claim. Many people accept an insurance policy as all right, without bothering to learn what hey premium. The general conduct of the companies in meeting the demands upon them may have encouraged this easy-going way of acting. It is not a way that can always be depended on for results, and remember what is in them.-Insurance Chronicle.

COMBINES MAKE MILLIONAIRES. Go to Montreal, Toronto, Hamilton, Ottawa, London and other eastern cities and see the homes of millionaires that are being built in recent years
through the formation of combines in various lines of industry. Trace the increased cost of the goods in your kitchen, as month after month they rise in price and you will find the changes due in many
cases to combinations among the manulacturers. cases to combinations among the manulacturers.
It is not necessary to say that every combination is illegitimate nor even to deny that combination to some extent may be necessary for protection. But when the ultimate consumer is being taxed more heavily each succeeding year for the goods he buys it is time that some machinery was put in motion by which he may find out whether or not he is being judging by his working out of the labor act-a ver judging by his working out of the labor act-a very he may be trusted to do some useful work through
the medium of lis anti-combine law.-Calgary
Herald.

# Write to Alfred Rogers for free facts about cement's value to you 

HERE is your opportunity to get, for nothing, the inside truths about cement-how little it costs compared with lumber-how to use it so you will be satisfied with the resultwhere to buy it what kind to buy. I will tell you all you want to know about cement, and I will not charge you one cent for telling you. Learn all about cement free. Write now.

## Cement Is Easily Handled

There is nothing intricate nor difficult about handling cement. Write me, and I will show you just how to mix and use concrete (which means a mixture of cement, sand and broken stone). If you are 'handy' at all, you can quickly learn how to build almost anything with ce-ment-from a fence-post to a cattle-barn. I will tell you how to go about renovating your house, wagon-shed, barn-any building on your place. And I will save you money, too. Yet you need pay me nothing at all for my helpful advice.

## Fireproof and Decay-Proof

Fire cannot destroy a concreted surface. Decay does not affect it. Structures exist to-day, in Great Britain, Italy and elsewhere, that were built of cement more than two thousand years ago. Dampness cannot penetrate a concrete wall. It is an armor against heat and against cold-so a building even thinly overcoated with the right kind of cement is warmer in winter and much cooler in summer than even a solid stone building can be. Yet its cost is trifling.

## My Knowledge Freely <br> At Your Service

This advertisement is intended simply to educate you about cement, to tell you a few facts about the building material every farm ought to use for almost any purpose lumber is used for now. I offer you my expert advice and instruction to you. You are welcome to it

Won't you write me before you build?

FREE Instruction On How To Build Any Of These Farm Necessities:Silos
Cow Sheds
Watering Troughs
Slop Tanks
Box Stalls
Barn Floors
Dairy Barns
Corn Cribs Stables
Cesspools Ice Houses Cisterns
Feeding Yards Poultry-Houses

And Many Other Farm Structures
dust Write And Ask Me

## Cement Cheaper Than Lumber

Even in first cost, a concrete house, barn, henhouse, shed -or any other structure-is actually cheaper than a cheap lumber construction. In the long run cement is ever so much cheaper -because it needs no repairs-you don't have to paint it-it just lasts and lasts, and does not deteriorate from age or from any other cause. You will be mighty well satisfied with anything you build of cement, whether it's a mansion or a watering-trough for the cattle.

## Skilled Labor Rarely Needed

Moreover, it is seldom necessary to hire high-paid mechanics to do any cement work you want done. The probability is that I can quickly teach you how to do the work yourself, with no outlay for skilled labor. Get the right cement -I will tell you about that, too. Use common sense and follow my plainEnglish instructions, and I can almost guarantee a satisfactory job on anything you want to use cement-concrete
for. Just write me and get the facts. for. Just write me and get the facts.

## Inform Yourself Upon Cement - Do It Now

Simply tell me your name and address, and give me an idea of what you might possibly use cement for fuly upon this in rest-imorm you filly wisfaction important money-saving, satisfactiongiving building material. You can have all the facts freely. Don't hesitate to write me because you are not quite ready to build. You will be ready some day.

Ask me now for the facts you ought to know.
319 Rogers Bldg. TORONTO, ONT.

## ndifference.

The meenest element in human nature is indifference. It is laziness enthroned and selfishness re duced to a science. Men, there are, who cut them-
seives of from the needs of humanity as completely selves off from the needs of humanity as compheety
as Napoleon was severed from his family when he as Napoieon chained to the lonely rock of St. Helena in mid-ocean. Napoleon felt the separation, but they do not. They "don't care" They are simply in-
different. The gospel of "No. 1 " is the meanest, different. The gospel of ino. . . smallest, coldest and most insig Oh, how many there on record on earth or in hell. of Squire Hardcaste's way of thinking:
are of Squire Hardcastle's way of thinke fretted myself about the mistakes of Government, like other people; but finding myself every day growing more angry,
and the Government growing no better, I left it to and the Gove
mend itself."

## A POSTAGE STAMP.

A postage stamp is an expression of civilization's progress. It annihilates the distance between yo and your friend. It carries your letter over the
mountain which you could not scale and across the mountain which you could not scale and look a second river you could not ford. Young mata, On it may
time on the face of that postage stamp. bo foind the image and superscription of our la-
bis
The finest trait in the ne $u$ ented King, Edward VII. The finest trait in the
diatecter of Edward was his regard for his mother. dharecter of Edward was his regard for his mother
Toll , mee, young man, have you written to your mother recenily? What joy a postage sta
bring tremember reeding in the autobiography of John c. Paton of a mother in Scotland whose boy hal Gone away from home. John G. Paton says that gone amorning the mother climbed the hill and looked out in the direction, hoping to see him coming heme. When the day was dying out of the sky she climbed thegame hill again, and stretching forth 'Oh, Walter! Wrialter! your mother wearies so.'"

## SAND!

Man's ability to abide in strength by the convictions of his soul is the brightest thing on the page of history. Daniel in the godless palace of Babylon, John beneath the frown of Herod, Paul in the palace dungeon of Nero, Savanarola in the pleasure smitten
city of Florence, Hugh Latimer amid the smoke and city of of a fearful martyrdom-and ten thousand others. Wherever the page of history flashes and flames with glory and beauty there you find the story of a hero.
"There is no country in the world so morally, poisoned that a man may not live a
remarks a famous English divine.

## beauty vs. vgliness.

Some people have a genius for that which is unharmonious. They are quick to recognize a lack of
harmony in life, nature or circumstances. A broken harmony in life, nature or circumstances. A broken pane, a patched garment, a crushed rose, a a deir form,
hand, an untuneful voice, a "break" in social form, an inappropriate gesture, a violation of the laws of an inappropriate inestent which registers an error in form, style, manner, or expression compels their immediate comment and they keep the world ringing with their criticism. Miserable themselves, they try to create an atmosphere of misery "and they succeed only
remarks
"The detestable habit of fault-finding-too common in this world, as all good-natured people knowwas once, we remember, most effectually rebuked by
Crabb Robinson. It was during one of his visits to Crabb Robinson. It was during one of his visits
Paris. A great part of the day had been spent in
and Paris. A great part of the day had been spent in
sight-seeing with a London acquaintance, who said
sit
 I will thank you not to call, rephed ene kot see any lling else with you, and I will tell you frankly why. I am come to Paris to enjoy myself, and that enjoyment needs the accompaniment of sympthy with others. Now you dislike everything and find faut with everything. You see nothing which you do not
find inferior to what you have seen before. This may be all very true, but it makes me very uncommay be I believe, if I were forced to live with

you, I should kill myself. So I shall, be glad to see cortable. I should kill mysself. So I shall , be glad to see
you in London, but no more in Paris." you in London, but no more in Paris.'"

## place and position.

Never worry about place, and position. If your name is not on the program do not demur. If you to the matter. If you are not chosen as moderator
of the assembly be thankful; your special gifts may not be in that direction. Push others to the front and when you find yourself pushed to the frond you. may be sure of a handsome majority behind you.
From the October Century we cull the following concerning Grover Cleveland:
cerning have spoken of Mr. Cleveland's refusing to worry about the record of his correspondence. This was characteristic of his whole attitude as to record. I have known many public men, and I never knew so pronounced an instance of absorption in deed and
disregard of record. During his active life he was too intent upon the making of history to give any, thought to recording it. In the days of 'records' and 'claims' it was bracing to find a man who let the accomplishment pass from his hand without the slightest anxiety about its history. His theory of
lige was to do the best he could each day, and then ife was to do the best he could each day, and then about telling the story of it. The trait was only one phase of an admirable absence of self-consciousness or taint of vanity."
the grandest title.
The grandest name which can be applied to any mortal is not the name of Jew, or Gentile, or Christian, but man-man-man! The best soul that
ever breathed upon the earth was pleased to call ever breathed upon the earth was pleased to cal
himself the Son of Man. Man is God's masterpiece himself the Son of Man. Man is Gods masterpiece

thought and character of God. The best clat thought and character of God. he hesymathy which any man has upon your ove an of God and
consists in the fact that he is a son of therefore your brother-a member of your family. George Macdonald, poet, preacher, novelist, has written this: "There is a bond between me and the most wretched man that ever died, closer, inninitely,
than that which springs from only having the same father and mother. That we are the sonss and father and mother. daughters of Goond
His slove, is a bond closer than all other bonds in one."

## wear the badge

When "tag day" comes I am willing to make a contribution on one condition, namely, that I am not asked to wear a "tag.". I hate tags. I also hate names, titles, labels and distinguishing initials. am willing to have a "Rev." placed before my nam because that is ing fellow citizen what line of way of informing my fellow citizen what line
business I am engaged in. For my business is my business I am engaged in. For my business is my
profession and my profession is my business- " my profession and my, profession I need a badge! Some sign and symbol of my true character. I need it You need it. Humanity demands it. "By this shall all men know that ye are my disciples." Where's your badge?
is told of the late General Gordon that each morning, during his journey in the Soudan country, for hatf an hour there lay outside his tent a white handerchief. The whole camp well knew what the utmost respect; no foot dared to pass the threshold of that tent while the little guard lay there. No message, however pressing, was to be
Matters of life and death must wait until the little signal was taken away. $\begin{aligned} & \text { Every one in the camp } \\ & \text { knew that God and Gordon were communing }\end{aligned}$ together."

## ELOQUENCE

Eloquence? I can give you five illustrations of eloquence. These five illustrations I will put in the
form of five questions: How do you talk when you are angry? How do you talk when you are grieved? How do you talk when you are disappointed? How do you talk when you are in love? How do you
talk when you are surprised? When a man gives talk when you are surprised? When a man gives
expression to anger, love, grief, disappointment-and expression to anger, love, grief, disappointenent and
surprise he never fails to be eloquent. He is eloquent because his heart is speaking: "I heard only the other day what seems to be a
famous story of the great preacher, Tauler, of the fourteenth century, who was the eloquent preacher of the day. People came in ano speak to him in. But there came up a layman to speak to him in
private, and he said, 'You have got to begin all over privain; you have not learnt yet in your own soul
aphat you are preaching about.; At first he was what you are preaching about, At frst he was
angry, looked on it as an insult, but, being a good man, he thought it over, and reflected and prayed about it, and retired for months from preaching at
all. When he began again everyone came to listen.
B.t he But) at last there came back a new tongue. The standard and himself inside all over again, preached the Gospel with new power."

FRIENDSHIP.
Stand by your friend. Offer the best interpretation for all his deeds. Believe in him when you cannot understand him. Protect his character when he is absent. Act as cham. Be a friend. Have friends, culdeeds are attacked. Be a frend. friendship in repair. Gladly do we echo the words of Freeman Clarke: "To know that there are some souls, hearts and minds, here and there, who trust us and whom we trust; some who know us and whom we know; some on whom we can always rely and who always rely upon us, makes a paradise of
makes our life really life."

## A MODERN FOOL.

The man who sneers at religion is a fool. Every religion which has stood the storms of a thousand years is worthy of your reverence and respect. The Catholic in his cathedral, the Jew in his synagogue,
the Anglican in his church and the Non-Conformist the Anglican in his church and the Non-Conformist in his chapel are all making a splendid contribution
to the health and wealth of our splendid civilization. to the health and weal "When in 1872 Mr . Moody was returning from Europe there were a number of ministers on board. A young man with the spirit of a braggart stepped up to the captain and said in a loud tone that he was sorry he had taken passage on that boat, as it would be unlucky to travel with so many parsons. The captain was no sympathy with this egotist, and replied: 'You fool; if you will show me a town in England where there are five thousand people and not one parson, I will show you a, place a mile nearer hell than you have ever been."

## have a hand.

When there is an abuse enthroned in your community have a hand in its dethronement. Hit hard! Never mind who believes in it, never mind who
stands for it, never mind who is behind it-up and at it. Strike the demon and-hit hard! Speak your mind, express your thought, utter your conviction, tell your story and let your rieath yo hot might, and hit hard!
"Most. of us agree with Burke, who said: IT am "Most of us agree with Burke, who said: I am against disturbing the public, repose; I like a lamor when there is and aise is likely some ground ome of the present fight, it is likely some ground will be gained." SCIENTIFIC PRAYING.
The science of prayer would be wonderfully im proved if we sought to answer our own prayers. What is the use of asking God to do for us that which we can do for ourselves, or beseehing our power do for our neig
"We noticed a few days ago a little squib from the Omaha World-Herald to the effect that a poor man was sick and in severe financial straits. Some of his brethren of the church met at his house to pray for his speedy recovery and asked God to send the deacons was offering a fervent' petition there was a rap at the door. A friend opening it found this same farmer's stout son standing on the steps, 'How do you do, my boy; what brought you here?'
'I have brought $\mathrm{Pa}^{\prime}$ 's prayers,' he replied. 'Brought your Pa's prayers; what do you mean?' 'Yep,
have brought his prayers and they are out in the have brought his prayers and they are out in the from his father's house a load of potatoes, apple from his father's house a load of potatoes, apples,
corn-meal, flour, bacon, together with some clothing,
and a lot of jellies for the sick." and a lot of jellies for the sick."
CHRISTIAN EVIDENCES

CHRISTIAN EVIDENCES.
There is a God in the heavens, as sure as the human heart beats, as sure as human affection rules
the world, as sure as memory is the anchor of the minds as sure as hope feeds the soul, as sure as the spirit of man longs to know God and the whole na-
ture of man craves that best of all gifts-Immortality. "L. Ten "Lord Tennyson said: 'If there be a God who has
given birth to this unquenchable desire in the heart given birth to this unquenchable desire atisfaction of
of man and He has not furnished the satis. it in a future life, I never can believe anything concerning man or anything edse. There must be the
answer to it; if there is not, then He is not God, but answer to it; if there is not, then He is not God, but and shake it in His Almighty face and curse Him. And tonight I would bury my face in a chloroformed 'It's the reality of life! Where's Arthur, my heart's love, the greatest genius of the literary world,
going out in boyhood? Where's Arthur? He lives!' Then Tennyson turned away from all questions and
began to sing beautiful music."

## Portage la Prairie.

Portage la Prairie was incorporated addition to the Customs Office, and Post as a town in 1880, and although, at that Office, has the offices of the Inland time, very little was known about the Great Nest, the district known as In 1907, the town, which had been teadily growing, became a full fledged city, and since the date of its incorpor ation as a city great strides have been made in the Municipal developments. Being directly on the main lines of Canada's three great Transcontinental Canadian Northern, and the Grand Trunk Pacific-and having in addition to the above lines running in all direc

tions, a branch of the Great Northern giving direct connection with Minneapolis, St. Paul and other large American cities, and being situated 56 miles due west of Winnipeg, Portage la Prairie was quickly recognized as a natural distributing centre for to cover facturers and shippers wishing to
the whole of the Great Canadian West. As a residential city, Portage la Prairie is unexcelled in the three great Western-Provinces. Its wide, well kept
streets and avenues, lined with beauti-

## Canada's New Wheat Outlet.

By Fredk. A. Talbot.

Looking South West, Prines Rupert, B.C.
of the world-for that is Prince Rupert's
future.
A decade of years ago Prince Rupert A decade of years ago Prince Rupert
was unknown, in fact it was thought that Vancouver marked the northern-
most limit of mercantile commerce. The coast beyond that point was too wild, exposed and serrated to offer any possibilities of a more northern port being established. Such was public
opinion. But the engineers thought opinion. But the engineers thought
otherwise. When the Dominion decided to throw a new slender link of steel right across the Continent from Atlantic to Pacific, it was decided that it should tap the latter at a new point-get through the mountains at a lower
altitude than had ever been thought altitude that a wonders in transportapossible, so that wonders in transporta-
tion might be wrought. The Pacific was searched from end to end but Prince Rupert was the only commercially strategical point that could be found. From out to sea its existence might be overlooked, for here rise two
massive headlands on either side of a massive sheet of water 2,000 feet wide, presenting a little indent, such as are found round these islands in abundance. But closer investigation shows that this is but the approach to another bay with deep water all the way.
Our boat had on board a motley throng

- who, -there were brawny navvies who,
attracted by the daily wage of twelve and fifteen shillings on the new railway, had decided to come up and try their luck, settlers, squatters, and pioneer
tradesmen. The cargo was just as tradesmen. The cargo was just as
assorted-the greater part of the hold was crammed with a heterogeneous mass of machinery, parts of steam engines, little locomotives, sheets of corrugated iron, rails, and whatnot. while there
were crates and cases of foodstuffs, were crates and cases of foodstuffs,
clothing provisions, etc., sufficient to fit out an army.
When my informant, leaning over the taffrail, pointed to Prince Rupert straight ahead I looked in vain for any sign of a village, let alone a big town or seaport. The
trees extended right down to the trees extended right down to there lapped by the Pacific. In the far distance there were a few crazy shacks scattered about, as if the owners had toiled up the opposite side of the the summit, had dropped their primitive wooden shanties promiscuously into the valley below. Here and there wreaths of
smoke curled lazily into the azure sky, smoke curled lazily into the azure sky,
but as for any sign of activity it was conspicuous by its absenc
My companion had sold up his business
come up on the same game," indicating our fellow passengers.
He looked at me disdainfully. "I guess He looked at ellows from the old country are a

ond first. Why, I reckon that in six months I'll be raking in the dollars with a steam
shovel. We've got ten thousand men or shove on the railway, and they'll keep us going for a bit-this enterprise is a cinch. Talk about the Klondike, why, we'll
make more money here in a month than you'd get out of gold diggin' in a year.
Don't you know that we're going to ship the best part of the wheat for Europe I paused and frowned. I recalled the excellent facilities the Dominion possessed for carrying the grain right across
the Continent to the Atlantic ports and the short passage across the ocean to the home country-consequently why should
it be sent via the Pacific and half-way round the globe? I frankly told my companion so.
"Ah, that's how it used to be done, simply because the railways said it mus go that way, but the farmers just over
the hills there indicating the forbidding land of Canaan, and when I saw
him shortly afterwards whistling him shortly afterwards whistling
and busily erecting his home and store upon the plot of ground he
had secured, it was evident that h~ hal

made his mind up to succeed. It was a
triking example of Canadian enterprise blind faith reposed in a strong Govern-

mountain range have done with all that. | such as the Grand Trunk Pacific had They've been figurin' it out, and they pledged itself to build. I turned up the find that they can ship the grain cheaper High Street, as such at that time it and quicker via Prince Rupert to existed in name only, the street being Liverpool, London, or wherever they nothing more than a rough pathway want, even although they do send it paved with branches of trees, planks, and right round Cape Horn or through the $\begin{aligned} & \text { other convenient material thrown on the } \\ & \text { ground to offer some kind of foothold in }\end{aligned}$ Suez Canal. Sea transport is a mighty ground to offer some kind of foothold in sight cheaper than train haul, any way-
the slippery ooze- with every step there
the farmers have found that out, and now
hey're going to have their own way. the mire; but its provision was useful, The Grand Trunk Pacific don't mind, for it means a heavy and busy trade at Prince Rupert. Why, sir, this place is Pringe to grow like a mushroom-it must, it can't help it, and that's where we pioneers get the chance."
Such was the enth
travelling companion that no pessimism would damp it. He had made up his mind that Prince Rupert was his ent and belief in a railway project, imprecation-seasoned of bustle and
 for if you stepped off the side you instantly sank to your knees in the slime, for the ground had been badly cut up by
the haulage of the heavy carts, hundreds the haulage of the heavy carts, hundreds
of horses, loads of rails, and so on, which of horses, loads of rails, and so on, which
had been hauled up the highway from the had been hauled up the highway from the
ship for the railway builder. On either side the ground had been roughly cleared by the engineering camp which had established its quarters here for the
plotting of the line through the mounplotting of the line through the moun-
tains. The newly arriving Whiteleys and Liptons, as represented by my sanguine travelling companion, were hard at work raising their shacks, which would do duty until the time arrived for building in brick and masonry. There was, however, more bustle and activity on shore than
appeared visible from the vessel's deckthe railway constructional work was in full swing. Mr. "Jack" Stewart, the head of the constructional contractors of Foley, Welch and Stewart, who are carrying the line over the stiffest section
through the mountains to Edmonton on the other side, was busy at work
the unravelling the tangle of cargo and human freight. With his innate Scottish canniness ue was selecting the men best suited for one or other of his sixty camps spread out in a long string over
i.e hundred miles between Prince Rupert and Copper River right up in the mountains. Like a general disembarking his army, everything proceeded in a
methodical manner, and chaos was resolved into order with striking rapidity Fussy little locomotives hauled this cargo of rails here, conveyed that air
compressor there, dumped this load of compressor there, dumped this load of
dynamite somewhere else, and so on The process seemed endless, for when it is a job amounting to something like a million and a half pounds the quantity of material required is tremendous. Two steamboats came up alongside our
vessel, and quickly cargo was being ressel, and quickly cargo was being
transferred to their decks, for they transferred to their decks, for they
were bound for camps at different points up the Skeena River, along which the railway winds its way.

View from Court House Hill, Prince Rupert, B.C.
made my way to the Pacific terminus of obscured by a thick cloud of smoke and this new 3,600 mile railway. Like the
tust, and the air was filled with nauseous
dis
dumes. High Street of the port, its existence was yet an imagination only. True, there was the end of lumbered with train loads for the railway, and wound in and out such a maze of large stacks of rails, girders,
ve masonry, wood, and sheds, that they could scarcely be descried. The locomotive construction train was just off to ne railhead, and, near a crazy vehicle Amid much puffing and snorting on the part of the engine, which formed a fitting accompaniment to the bumping and oscillation over the rough track, which made every known bone in the body ache and drew attention to many
of which one knew nothing before, we crawled up into the mountains. The railhead was only a few miles from the port, and I was not sorry to disembarkin fact, I have never been so anxious to leave a train as I was to leave that one. Down below we could see the great scene
of activity raging round the wharf alongside which the Vancouver vessel was still disgorging its contents. In front was another beehive, but of a totally different character. A solid wall of rock -the hump of a mountain-sheered up; it completed obstructed the path of the
line.
"Ging isional engineer.
"No; blow the lot clean away-look out-back a bit!
The troops of workmen had thrown
down their tools and were scurrying like down their tools and were scurrying like
rats from the cliff. I did likewise. rats from the chiff. syren, and then all was still. Beside me stood a man with a small electric battery in his hand, from which two black wires trailed towards the hump. He gave a

| most difficult strecth of the whole 3,600 | miles. Although thousands of men are miling. Aeverishly night and day, week in and week out, with over half a million pounds' worth of steam shovels, horses,

construction trains, and other implements to get the line through from Prince Rupert to Edmonton, the grain clearing. house of the great North-west, the work is not rapid enougn for the farmers. They have developed the ground in advance of the its realization, and are eagerly belief of its the time when, instead of awaiting their grain on the long railroad journey across the Continent to the Atlantic, they will be able to send it by the short cut to Prince Ruper, an it direct into the holds of steamships bound for Europe. The short cut will save every farmer so many cents on eack ton of grain, and that saving will swell into so many more dollars profit on his harvest, consequently he the earliest opportunity. The North-West at the present moment is like a huge seething boiler, of which Prince Rupert is the safety-valve, and the sooner the springs of that safety-
valve are provided by the railway valve are provided communication between Edmonton and the new port, the souner will the traffic pressure be released. Such means a wave of great piopperity for Prince Rupert, and the sanguine pioneer's prophecy that this new port is going to

## Late King Edward VIII.-The Peacemalker.

#### Abstract

In these days a King is great only $; \begin{aligned} & \text { his decisions, it is no wonder that he } \\ & \text { tion, } \mathrm{He} \text { was }\end{aligned}$ In hen he lives in the heirts of his weople. How great then was Edward people. How great then was Edward VII, since he won the hearts not only of all citizens of the Empire, but of men of all citizens on the Empire, bute, in all and women, rulers of the civilized world. If a reason for his great popularity is sought it may be traced to the fact that he was not only a king but a true born gentleman and a lover of true born gentleman and a lover or peace. Kindly, affable, courteous, | true born gentleman and a courteous, |  |
| :--- | :--- | :--- |
| peace. | Kindly, affable, |
| broad in his sympathies and just in all |  |$| \begin{aligned} & \text { absolutely nothing of pomp and pride, } \\ & \text { nothing of vanity and love of adora- }\end{aligned}$ was respecued by those in authority and human attributes. loved by those over whom he ruled. King Euward set an example to all rulers in the matter of conduct. Though royal in the fullest sense, he was yet simple and unaffected. He delighted not that menials should cringe efore him. His humanity was such entertained by him. There was in him en thought of cruety could Because he was of the people, he loved the sports of the people. It was not as a gambler but as a lover of good clean sport that he countenanced suffered from ennui but because he was a lover of good entertainment that he encouraged the best that the stage produced. His thougnt seems to have been that every occupation in which men been that every occupation in which men and women may engage is good or bad an

according to
is carried on.
If no account of aserf a If no account of his perfect ease and naturalness he was a power with his
own subjects it is because of the same qualities that he was such a power in qualities that he was such a power in
the various courts of the world. He had the immense advantage that he was probably the best living authority on international law and international etiquette. Yet his tact and his simple honesty made him while he lived and reigned the greatest power in world for the ends of peace is the universal testimony of a sorrowing world. It is fortunate indeed to live in an age and in an Empire when the King is known the world over as the "Great Peacemaker."
Nothing is a greater tribute to the late King than the expressions of men
and women in the home-land, the and women in the home-land, the
colonies, and the friendly powers of the colonies, and the friendy powers of the
Old and the New World. It cheers one's heart to hear such testimonies as these:
Worthily and well during the all too short term of his occupancy of earth's greatest throne has Edward bond and as Queen Victoria was, the bond and symbol of the Empire, and the flag which are personified in the Sovereign. His name will be linked in history with Queen Victoria's. influence was a continuance of hers, both to the Empire and to the whole English?speaking race; and not least among the tributes to his greatness and his wisdom and his faithfulness in his great trust is the sincere sympathy
with his own people's grief manifested wy the people of the United States. Amid the world-wide mourning in which all people join, the share taken by the people who share this continent with the Canadian people testifies eloquently to the union of hearts and thoughts of
the English-speaking nations which hold the world's destinies in their hands.
The Empire has lost one of the best rulers who ever sat on the throne of is deprived, by the King's death, of a man who managed the affairs of the world's greatest empire with infinite tact and splendid ability. As Canadians, and as his subjects living in the largest colonial possessions of the Empire, we ore especially concerned in
the death of our King, for whom the people of this Dominion have always people of the highest respect and love, which was intensified by the tour that His Majesty made through this country many years ago as the Prince of Wales, but which had its firmest foundation in the respect and admiration that King
Edward's course since he ascended the throne has compelled from the people of the world-from his own subjects as well as those of other countries."
"Not alone in the British Dominions is the death of King Edward regarded as a crushing blow, but in every civi lized nation the bereavement falls like an avalanche of sorrow. Though his reign was brief, it has been a momen
tous success in the interests of human ity and of national friendship and the uplifting of the race. The most familiar thing in all the world comes on this occasion with an inex pressible awe. 'The world will go on in
much the same nution has suffered an irreparable loss." He has failed in nothing. He has handed down his glorious heritage un impaired. He nas won an enduring
place in the affection of all his subjects of high or low estate. 'It is all over, but I think I have done my duty, These, his last words at Buckinghain Palace, are a fitting epitaph for the
supreme head of all these dominions, supreme head of all these dominions,
who, in the memorable words of the who, in the memorable words of the
orator of the empire, was 'not merely
the Kinc of (areat Britain, but the King the King
of hearts.

## King George V.-Long Live the King

There is not a British subject whose $\left\lvert\, \begin{aligned} & \text { K.G., K.T., K.P., G.C.M.G., G.C.V.O., } \\ & \text { t. }\end{aligned}\right.$ best wishes will not go out to King George the Fifth as he assumes the re-
of oftice. He, comes to sponsibilities of office. He comes to has the harder task because he succeeds two rulers of such transcendent abilities. Nevertheless, we have all reason to believe that he is calculated to fill his high office with wisdom and discretion. He has coentant companion dent of men and constant companion
with his father. We shall be disappointed if he has not learnt something of the tact and diplomacy for which the late King was so noted. It is said by those who know the new King that and that he has an individuality which and that he has ant itself not only at home but among other nations in a very beneficial way.
The work of a King in these strenuous days is not the simple wor that some suppose. He is not simply His life is not a round of pleasure, but within the empire and out of it every act of the soverign has immense significance. He gives the tone to social life; by the wave of his hand he can discourage or encourage any national practice; py party friction in the parliaments of the country; by his visitation he can bind together the various parts of the empire. He can encourage art science and literature. He can lead in helpful forms of philanthropy. In short, he can indicate the dove and the British people are so constituted that they follow the lead of a beloved sovereign in all respects. King George has been well tradied He has visited widely has mingled
sympathetically. He has sympatheticaly. He and he is belove among his own people known. Ther seems to be no doubt that he will not only be the titular head of the country, but a veritable leader in all that makes for happiness and prosperity But in international life the King has even a more important part to play Just as Edward the. Seventh on St. Petersburg dispersed the war clouds which were threatening, allowing the sun of peace to break through and gladden the earth, so George the Fifth, as representative of the world, can peace-loving nations to minimize war and produce friendship among the peoples of the earth. Every British subject may the various
during the new King's reign the during the new of the empire will be drawn more closely together; that justice may preexist; that citizens far and near may unite their efforts in the quest of truth, beauty and goodness. Above all there will be the earnest wish that Britain may prove her title to the extendthe nations not because of she excels in the virtues of peace, and because she is possessed of that righteousness which exalteth a nation.

Anopheles Pointed for Blood.
Three times as large as life. Malaria may follow. on the outside. This is the kind of mos quito that lives in malarial places, and
it seems that they generally stay in hiding by day. After dark, however, they stream out in swarms and start off on splendid lunting expeditions.
So now they, came to the cottage perched on the screens, and peered
through with hungry eyes. They longed for one square meal of human blood but the men did not relent. They simply went off to bed and left them lamenting. It was easy to tell whicl
the anopleles were, for, in standing the the anophieles were, for, in standing, the
end of the body generally points upward end of the body generally points upward
and away from the surface on which they stand, while the legs do not curl upward, although they somtimes stretch straight out behind. With the culex,
however,-the mosquito that sings and stings harmlessly in every land,-the end of the body points downward whe
he stands, and his legs curl upward. When the malarial season of summe and fall was over the two men had es
scaped both anopheles and malaria. had left their windows wide open, and had breathed the air of that malarial region every day and every night; yet
they were as well at the end as at the beginning of their experiment. The news about it was erners of the earth, and scientific men in every land knew at once that hence forward anopheles mosquitoes and human beings must stop living in the same Soon afterward came another experiment, proving the case from the opposite
There is so much malaria on the Roman Campagna that during part o
each year the business of having it really seems to be the oocupation of the
people. This is not strange, for to this people. This is not strange, for to this
day most of the inhabitants fail to propeope. most of the inhabitants fail to pro-
dect themselves from it. They believe tect themselves from it. They believe
that malaria is a queer mixture of damp ness and warmth; that it oozes out of
the ground; that it belongs to certain the ground; that it belongs to certain
places, as cold belongs to the north pole places, as cold belongs to the north pole
and heat to the torrid zone; and that no one who breathes it can escape it.
In 1900 two scientific men w that region to prove an opposite doc
trine which a few other scientists already trine which a few other scientists already believed. They chose the most! malarial spot in the entire Campagna, and there
they built a five-room cottage. It stood on the bank of a canal that swarmed with mosquito wigglers or larvae, but every door and window of the cottage was closely

## quitoes ont

These facts are the ones to notice, for they are the very center of the experi-
ment. When sundown came the men slipped into the cottage behind the screens, lit their lamps, and watched the
gathering of the anopheles mosquitoes

## The Spring Pest.

actually bring the disease and prick it into a Londoner. They were hungry when they arrived, took hold in earnest, and sucked all the blood they wanted. After that, sure
enough, came the proof. The man became ill with malaria.
Microscopes have been used so faith fully since those days that scientists now know precisely how it is that anopheles
can both rob a man of his blood and an both rob a man of his blood and give him malaria at the same time. The spends part of its life in the stomach of the anopheles and the rest of it in the
blood of man. It grows in both places, blood of man. It grows in both places, nd would actually amount to nothing place without going to the other. Curiously enough, these malaria mi crobes are so fastidious that the body of no other mosquito pleases them. They must live in the anopheles or nowhere.
More than that, the female alone gets More than that, the female alone get
the microbe, for she alone has a beak strong enough to puncture the human skin. As she draws blood from the little wound she has made, it always happen that, quite without any thought, of
harm, sle lets some of her saliva drip into it, and just there are the microbe They now dart into the red corpuscles of the blood, live there and grow large divide iuto several parts, and end by bursting numberless corpuscles into ragments. When this happens the body
that owns those corpuscles has a chill, and the doctor says: "Poor man! he has caught malaria somehow; and we'll hav to dose him with quinine." It appears that quini
microbes.
microb
After
After the new microbes have broken
hrough the first red corpuscles the take up lodgings in others. At thi point, therefore, the feyer is well unde way. Any anopheles mosquitoes sucking
blood now will take malarial microbes into their stomachs with the blood and will pass them on to the next man the bite. From this history five things are clear: Malaria is carried by the amophe

1. es mosquitoes.
2. Anopheles carry no disease until they have sucked malarial blood.
3. No other kind of mosquito carries the disease.
4. If ano he earth there would hever bed 5 a malaria. banished, men must be protected from Unfortunately for the harmless culex he and the harmful anopheles multiply in the same ponds, visit the same houses, ong the same song,--though the an-
opheles has a lower voice,-and punctur the same men. They must therefore killed or banished together, for there is no separating the one kind from the
Still another mosquito is yet more cruel than the anopheles. His name is stegomyia, and fof many generations in Havana, Cuba, he carried on his terribl
traffic in yellow fever without raising suspicion. as malaria is in Rome. It was als deadly and swift in the way it worked and, from doctors down to children,
every one counted it contagious. They

amusing. "Four serious men," he added, "only thought of eating. As they nibbled their solitary biscuit they even watched for the crumbs." he first expedition which ever returned from the south without the loss of a single life. "We took the greatest chances. Many umes it seemed as if

## A Prehistoric Burial Ground.

In anthropological circles considerable interest is being manifested in the ancient burial ground at Harlyn Bay, a ittle seaside resort on the north coast
of Cornwall, England. Here a wonderful collection of prehistoric remains has been unearthed, the finest collection in fact ever discoveres in any on
in the whole of Great Britain. In August, 1900, a private gentleman,
Mr. Reddie Mallett, attracted by Mr. Reddie Mallett, attracted by the quiet beanty of the spot-for at that
time Harlyn Bay was almost unknown - purchased some three acres of land here for the erection of a dwelling house. During the work of digging for foundations and prospecting for water, a slate cist, or tomb, was unear, and at a depth of about in interment with
therein was found an characteristic ornaments and implements of a very early stage of civilization. Mr. Maletl at once. and within a short time an influential committee was formed. They examined the ground, and were not long in discovering that the site was nothing less than a very ancient buria gre. the neolithic or bronze age.
Funds were raised for carrying out systematic excavations, which were conducted under the direction of the Royal Society of Cornwall. In all,

their excavators opened no less than cne hundred graves, going down a Gepth of 15 feet and removing no less which had tocumulated on the spot The find was the richest in the numberer of stone cists, skeletons, and their accompaniments that has ever been discovered in any one spot in the Brit-
ish Istes, and the burial ground naturish Istes, and the burial ground natur-
ally attracted wide attention, not only ally attracted wide attention, not only
in anthropological circles, but also among the general public. It would among the that there are many more treasures yet to le unearthed. Only a
few weeks ago the present proprietor of few weeks ago the present proprietor of
the place. Col. Bellers, discovered anthe place, Col. Bellers, discovered an-
other cist, while during the spring of
this year he his found a number of this year he has found a number of ancient slate implements and other relics.
Ne:arly all the skeletons and the objects found in or mear the graves by the excavaturs of the Roval Institution
of Cornvall were removed to the Truro Musemm, but quite a large numlur has since been fund and is now
cists in the burial ground have been roofed over with glass, to enable the general public as well at anthropolo-
ists to view them. Hence the Harlyn ists to view them. Hence
Bay Prehistoric Museum is one quaintest in the United Kingdom, and housands from all parts of the country travel to Harlyn to see it.
The Harlyn Bay Museum was found ed by the late proprietor, Mr. Reddi Mallett. In it there are some twenty cases, as well as a complete cist with
skeleton exposed. To describe in detail the various relics in the cases wour occupy too much space. They include epindles, whorls, rings, bracelets beads, and brooches found with the skeletons.
Ir. addition to the above there ar Ir. addious slate, shell, and flint implenients. At present a prejudice exists in the minds of some against the belief ir. the quaint workmanship of the slata
implements, it being urged that they implements, it being urged that the No such relics are to be fonud in the beach, however, although if they were, the fact would be but parallel to the frequent occurrence of abraded neo-
lithic flakes that have been found in lithic flakes that have bren in, in the
other parts of Great Britain, reighborhood of Lowestoft, for instance, and other places. But one has to remember this fact, that the sand
in the immediate neighborhood of in the immediate neighborhood
Harlyn Bay is cofliposed of comminuted shell-fragments, in themselves too soft to grind slate into "implements" with well-developed edges, even if such irresponsible ghen as the slate

fragments found in the graves-for they have been discovered both inside and outside the cists-are naturaly
rounded and smooth, and have been seemingly placed therein because of their fanciful forms. Again some of them show decided attempts at rude craimentation, such as the scratching
of lines and even crude designs. That of lines and even crude designs. Tha
these flakes are "worked" in many instase flakes are "worked no many in doubt, as a glance at their shapes plain $y$ indicates.
The museum boasts of a number of skulls. bones. a case of human teeth,
etc., as well as the bones of various animals. At the time of the writer's visit there were eleren skulls in the museum, seven of which belonged to malles, two to females, and of two the mestly wery doubtiul. They were nostly of fair size and development hamd at length of $\overline{7} 1 / \mathrm{s}$ inches and a hex inth of $51 / 4$ inches. The cranial in$70.0,72.54,7 \Re .69,76.18,77.28,78.611$ and Q.22: in the females it wa, 7341, and 6.60, and in the doubtful cases 75.28 , nd 7.22 : the average of the eleven ung the.  single coin has been wnearthed, which as Sir John Evans, who made an ex-
haustive examination of the implements, said, virtually confirmed the
very ancient age of the cemetery
"The discovery of a single coin,' he "The discovery of a single coin, he
declared, "might have put a different aspect on the matter.

## Review of American Immigra-tion-1904-1910.

F half a million American settlers ened to a realization of what had haphhould a muddenly pull up stakes and pened. Virtually all the best timber migrate in a body to some foreign limits had been leased and the leases
and the event would be heralded as sold at enormous profit to American one of the most epic movements of the lumber companies- $\$ 2,000$ leases in century. Yet that is virtually what
has happened, with little notice and $\begin{aligned} & \text { some cases for } \$ 32,000 \text {, for } \$ 00,000, \text { for } \\ & \$ 100,000 \text {, and this up in Queen Char }\end{aligned}$ has happened, with ittle notice and 1 In less than six years 388,000 Americans ed inaccessible. To-day one cannot farmers have pulled up stakes in their native States and moved from Wisconsin, Minnesota, the Dakotas, Nethe invisible line of the international boundary to free homesteads in the Canadian Northwest. Moreover, 100
000 Americans have gone north as investors, speculators, miners, lumbermen. A railroad traffic manager and a
customs officer both told me the same customs officer both told me the same thing; very few of the American home-
steaders came in with less than $\$ 1,000$ cash; many came in with capital ranging from $\$ 3,000$ to $\$ 10,000$. The capital brought in by the investing classes varies from the $\$ 10,000,000$
placed by the Morgan banking house placed by the Morgan banking house
in the Canadian Northern Railway to the $\$ 200,000$ and $\$ 300,000$ capital placed in actual cash by the land and lumber and fish companies. Average the American new-comer's capital at $\$ 2,000$ and the American invasion of in hard in the last six years represents in hard
cash an investment of a billion dollars. From what I saw in a leisurely four months' tour of Canada-first by canoe, 1,500 miles among the settlers of the frontier beyond the railroad,
then by rail twice across the continent -I have no hesitation in saying that a billion dollars average is too small by half.
It used to be British Columbia's boast that she had timber resources
to supply the whole world for a century. When one considers that British Columbia is one-half larger than the area is timbered with a heavy growth of gigantic Douglas fir and spruce, iterally shutting, out the daylight and criss-crossing one's the boast seemed to have good foundation in fact. So
have prodigal was the Pacific province of cial Government used to lease out a square mile to any applicant for
mere nominal rent of something over mundred dollars. Then, with a shock

ever, has been broken more than once Dord Derby had the permission of the late Queen Victoria to lift the veil and o disclose the deliberations of the Cabinet; and it now seems clear that he had taken notes, Lord Salisbury the proceedings, and the incident led to the proceedings, and the ing
In the later days of Sir Robt Peel the 'Times' astonished Britian one morning by announcing that the Cab-
inet had resolved on the appeal of the Corn Laws. The news was perfectly true, but how the secret leaked outas secret it then was-was never known
to anyone outside Printing Houso to anyone outside Printing $\begin{gathered}\text { House }\end{gathered}$ that a Minister had taken a privater record of the business discussed at the Cabinet meeting, and that this record,
in some inexplicable way, had fallen in some inexplicable way, had
into the hands of a journalist. Printing Secret Papers.
It is interesting to know that each Cabinet Minister in office is supplied with a key which fits a certain
despatch-box, retained by the Prime despatch-box, retained by the Prime
Minister. If the Premier receives important documents he, after perusing them, places them in the dispatch-box and a messenger takes the box to each member of the member opening the box with his each member opening the box with his the documents it contains. In this way the papers are prevented from falling into the hands of strangers and
into the hands of M.P.'s who are not into the hands of M.P.'s
Sometimes it is "found necessary to print copies of a "secret" which comes up for discussion at a meeting of the
Cabinet. The document is not, as might be supposed, handed over in its entirety to the Government printers, but is cut up into many pieces, which are distributed among a good number of up a small portion. When all the fragments have been set up in type an official holding high rank collects the various lines of type and puts them ogether in their proper order. The in secret under the eyes of the official in question.

An Unselfish Eiephant
The story is told by circus men of a ertair, big elephant that did something vorthy of being immortalized. A little irl and her father had one day been
looking at him admiringly. In the little girl's lunch basket were a couple of oranges, and her father asked her it wouldn't be nice, now, to give
hat poor old eleplant one of them hat poor old elephiant one of them he suggestion appealed at once and range was handed over. The elephant
rang forthwith the took it in his "hand" with a befitting But having relished for a moment But having relished for a moment
the joys of being generous, the smile began oradually to disappear from that small girl's face. Her nether lip droopped down, and suddenly sh went off into a gathering wail.
"But-but now, I want it back! "But don't you see dearie, you can't get it back now. It's too late."
"No, it ain't, neither! He ain't e't

[^1] with me." "I won't-I won't come along!-I arant my orange back!" Her cries of woe became louder and
iouder. It was a hopeless embarrassiouder. It was a hopeless embarrass"
ment. But that "poor old elephant" eleased them from it himself. He reached forward and with dignity dropfed that orange over the railing again! abelinf in pachyderm understanding Of the group of keepers, however,
Of trat an

Encourage the Boy's Hobby
By Mrs. J. W. Wheeler.
There comes a time in a boy's life when he must have something absorbing to occupy the time spent out of
school hours. Something upon which to exhaust that surplus which, if misdirected, brings sorrow and disappoint ment to his parents.
Some boys take to reading and sports, which are excellent when taken in moderation, but dangerous when carried to excess. I know many of the extreme cases, but two will sufficiently illustrate. One, an eleven-year-old bov,
reads, reads, reads, from morning until reads, reads, reads, from mornig, thinking him wonderfully clever to have read ing him wonderfuly and buy him all the latest juvenile stories, subscribe liberally to periodicals and keep several library ards in active operation, but they are
blind to his best interests; he seldon goes skating, sliding and playing at top and marbles. He is small for his age, thin and white, and has "arned old man."
to collecting, the hoarding instinct being to the all-around boy as natural as breathing. It grows with him; with his first trousers he is content to carry in tion, but later, especially upon arriving to the dignity of vest and jacket, with seven additional pockets, the hoarding
instinst assumes much vaster proportions.
Itions. wish I had space to enumerate the forty odd articles I found in master ten-year-old's trouser pockets last night
when I brought them downstairs for when I brought them downstairs ther the "stitch in time." Such queer things.
I wondered what he anted with them, and where he had obtained them (probably by barter). The most of them belonged by rights to the ash barrel, but
they were the veriest treasures to him, and putting myself in his place, I reand putting myself in his place, I recould remember in their respective pockets.
There were stones among that strange There were stones among that strange
collection, and pieces of glass and butcollection, and pieces of glass and
tons; he always has some of these in tons; he always has some of these to his pockets; for minerals seem to be cary hobby of this boy; he is always on
the lookout for specimens--the beach in the lookout for specimens-the beach in
summer is his chief source of supply summer isks them from the coal bin, beauHe picks them lifums. He never passes tiful iridescent or pretty stone; they are washed and polished to a nicety. He
long ago braved the terrors of a monulong ago braved the terrors of a me acquaintance of a stone cutter, from whom he obtained some fine marble and gran-
ite chips. I have a strong suspicion that his
Cliristmas a jack-knife, which whas not Chistmas jack-knife, which has hor a handsome piece of quartz crystal, but as his jack-knife money was given him, and he is saving to buy another, this did not interfere; he has long wante
iome quartz crystal. Home quastz only a modest collection as yet, but it is growing slowly, and what he lacks in quality he makes up in quantity, from the pulding stone $t$ slate; at present he is engaged in mak
ing salt crystals, and the jar on the kitchen shelf is examined regularly three times a day. to determine the state of crystallization.

## What to Do for the Baby.

When a baby has a movement that is thin, green, or contains curds and mucus, a dose of castor oil. Diarrhoea with requent movements means that there is something irritating in the intestines, nd that nature is trying to get rid of ature we give the castor ofic, It is ery wrong to dose the baby with medi nes that will at once stop all move ments and so keep the poiso
ing maicer in the system.
For a baby of this age one teaspoon ful of castor oil will be probably enough to clear out the intestines; an older
child should have two teaspoonfuls. All milk should be sw pped at once, for ion milk only acts as a poison. Instead of the milk the baby may be fed on barley-water, wheat gruel or granum made with water only and no milk. A hise the seems quiter to give him half teaspoonful of liquid peptonoids in hal an ounce of cold water every thre hours between his meals. As the baby frequent thin movements he must be viven all the pure water, that has been ooiled and cooled that he can be mad heans of a medicine-dropper, a spoon, or else through a nursing-bottle.
If the baby has no fever and his move ments are thicker and less frequent at the end of twenty-four hours of thi of boiled milk adued to his gruel. As he continues to improve wae mother may gradually add more and more milk to his food until at last she has got hin
back to his original formula. When nursing babies have this trouble the same general plan should be follow ed, giving nothing but gruels for twenty-
four hours and using a breast pump for four hours and using a breast pump for
the mother during this time. When the hild is again able to take a little milk ounces of gruel and then allowed to nurse from the breast only five minutes ext ten minutes, to do without the gruel and take his full supply of breast milk The Result.-If given early enough he castorly all that is necessary to sto an ordinary attack of "summer com plaint" or diarrhoea.

Keeping the Baby in a Stew.
Babies have troubles enough which truggles with unnecessary trouble, ought to have prompt sympathy. A
great proportion of adult people, both men and women, are made very uncomuch th certaich is produced in a small boat on a heaving sea, or when
swinging, and some even by the motion swinging, and some even by the moin. Yet the majority of babies are obliged to
submit to an endless swinging and trotting, sick or well, full or empty, chee:ful or fretful.

A child accustomed to a cradle may cry when a familiar motion is stopped but a baby that has never known such
motion is not only better off without motion is not only better off without
it, but makes a fuss when the motion it, but makes a fuss when the motion ing, especially after fugling meals, and in certain ways, is just as likely to produce seasickness or similar discomfort as the
similar motion would an adult. Baby, similar motion would an adult. Baby, however, is powerless to protest or to
stop, for when he cries he is only jogged stop, for $w$
the harder
It is a safe rule to carry an infant in arms as little as possible. Few people
know how to handle him so that he lies in comfort. A good way is to put him in his little basket, which may be pass ed from hand to hand for inspection i necessary, for the delectation of admir-
ing friends. A child should always be lifted witl
both hands, and held tightly, but firmly the entire length of the back, the head being carefully supported. It is a com hon and dangerous error to leave the
back and the head unsupported. Whe the little one is not properly carried, the movement of mother or nurse in walk ing, or indeed the sudden lurching of the head ind spine may sent fect th

## How to Drink Milk

Milk the Best of Foods if Properly Take -A Right and a Wrong Way.

The Dairy (London, Eng.) in its issu of Sept. 15 gives the following advice o drinking milk:
to drink milk, and the great majority people drink it in the latter way. That is the real reason why milk disagree with so many people; at least it is on the elements necessary for maintaining the physical health of those who know how to use it properiy. Indeed (says a writer in ofter physically if milk and entire wheat bread formed their ordinar diet. Especially is tus true of delicat persons whose powers of digestio have become enfeebled. Persons sufferin to digest meat, and will find great benefit from a purely milk diet, but the mil must not be imbibed like draughts of water-it must be supped slowly, a tea spoonful at ason for drinking milk very slowy, and in very small quantities. It is this: Milk curdles as soon as it come In contact with the juice of the stomach the stomach, the result is a large curd through which the gastric juices cannot readily penetrate and act with solven
A small sip of milk makes a tiny curd, so if a tumbier of muk is taken sip by sip, it will readily be seen that the result will be a number of little curds, upon and digested by the gastric juices of the stomach
Where special nourishment is desir able, as in the case of very weak per cases beef and wheat peptones may b added, or some one of the infant food which are known to be absolutely fre from starch. It is unwise to add starch foods like farina or arrowroot or corn starch to the milk for weak people or invalids, under
the impression that the oods are very delicate and easily digestible, for they are, on the contrary, very diffcut of for
gestion. Milk alone is far better persons who have weak digestive
powers, but the one great need which must be impressed on everyone is the need of drinking slowly and in very
small sips with intervals between the sips. In nine cases out of ten, milk taken in this manner will agree with - -2 milk.

The Salt Rub.
Various sanitariums and privare sanitariums and private hospitals are
using the "salt rub," and it is becoming so popular that some Turkish bath establishments are advertising it as a special attraction. It is sick people, is
for well people as for sis
the most refreshing of all baths and rubs ever invented, excepting only a dip in the sea, and is matchless in its effects
upon the skin and complexion. With all upon the skin and complexion. With all
these virtues, it is the simplest and most easily managed of all similar
measures, and can be taken at homemeasures, and can be taken at homeany one in ordinary heaith can do it
very satisfactory. Put a few pounds of very satisfactory. Put a few pounds of
coarse salt-the coarser the better, and coarse salt is preferable if it can be ob-
sear and pour tained-in an earthen jar and pour
enough water on it to dissolve the salt. enough water on it to dissolve the sait Some physicians recommend that the
salt be only well moistened; this should then be taken up in handfuls and rubbed briskly over the entire person. This being done, the next thing is to take a
thorougn douching with clear cool water, and then rub briskly with a warm dry towel. The effect of elation, freshness and renewed life is immediately felt, and tae satiny texture of the
skin with increased brightness and clearness of the complexion swells the testimony in favor of the salt rub. In case of weakness, and debility a second peron should do most of much of it as pos saible without greatly fatiguing the muscles.
Another method is to take a medium sized Turkish towel-generally and dip it into very strong brine, hang on the line without wring ing and let dry. At night on removing
the clothes, take this salted towel and the clothes, take this salted towel and
rub the body all over, thoroughly, with rub the body all over, thoroughly, with
it. A glow and feeling of warmth follows, and if regularly persevered in, it will quickly build up the system, giving improved health. It costs little to try
it. The effects are assured. The same towel may be used two or three times, then washed and salted again.

## Lockjaw.

The time for the annual epidemic of lockjaw among the boys of our land has do not recognize the frightful and needless sacrifice of valuable lives which our usual way of celebrating the Fourth of July entails, and cannot, realize that the
present unreasonable use of fire-crackers present unreasonable use of fire-crackers
and other explosives and the shooting of toy pistols may be made illegal without wounding the patriotism of any sen-
sible person or costing the lawmakers sible person or costing the lawmakers any votes. Some communities have the sale or shooting off of toy pistols; but these are few, and until their example followed generally throughout the land, rourth-of-July lockjaw wickaw, or tetanus, is caused by the development in the body of the tetanus bacillus, a germ
living in the soil in many places, especliving in the soil in many places, espec-
ially in city streets, round barns and stables, and in pastures. This bacillus does not grow readily when exposed to the air, so there is usually little danger of lockjaw following large wounds. The
danger lies in the punctured wounds, the danger lies in the punctured wounds, the
ragged wounds, and often also the
seemingly trivial wounds which heal
rapidly, and so seal up the tetanus germ waditions most favorable to its development. and the manufacture of the nerve poison which causes the symptoms
f this terrible disease. Such being the of this terrible disease. Such being the
case, the treatment of little wounds case, the treatment of little wound to make them bigger. This requires some courage on the part of the doctor,
and the more courage the smaller and and the more courage the smaller and
apparently more insignificant is the apparently more insignificant is increase his trial by pleading against the necessity of cutting deeply into the
wound, opening it widely, and washing wound, opening it widely, and washing
it out thoroughly with antiseptic soluit out thoroughly with antiseptic solu-
tions. It is only in this way that the danger of lockjaw can be reduced to a
minimum, and even this in exceptional minimum, and even this in exception cases does not prevent the disease. is the injection of tetanus antitoxin. Even this may fail if injected simply under the skin or into the muscles, and
the antitoxin has occasionally been the antitoxin has occasionally been

but when the heavy rains set in it i frequently necessary to build severa new roofs in a season.
Among civilized people where permanent and substantial homes are es tablished, it was necessary. to get a
roof for the home that would withstand the changes of temperature and weather and fury of the elements.
Various materials have been tried for this purpose but none seemed to meet
the demands until the discovery of the famous Genasco Ready Roofing. This roofing is made from natural asphalt taken from Trinidad Lake on Trinidad Island, of the that this asphalt Americandreds of years has withstood the ravages of time and the elements
proves its absolute durability proves its absolute durability
It was only after years
study and only after years of careful Asphalt Paving Company, Philadelphia, finally placed Genasco Ready Roofing before the public and its success was so
remarkable that it is now found in almost every quarter of the globe.
But strange to But strange to say, despite the ad vance of modern progress and the per-
fection of Genasco Ready Roofing, there fection of Genasco Ready Roofing, there
are many otherwise progressive and upare many otherwise progressive and up
to-date farmers who. every year, are doing much as the savage in the South Sea Island-going out mending leaks
and repairing the damage done by and repairing the damage done by
faulty and defective roofs.
It is estimated that half the waste and expense caused by defective roof would cover the cost of a good, sound,
permanent roof of Genasco.

## Household Suggestions.

Suggestions by Housewives. If the woman who does her own work is to have leisure to enjoy her maga-
zines and her social life, and mental zines and her social life, and mental poise to make a home a restul place
for husband and children, she must save time and energy by doing her work in
the quickest and easiest way. Here the quickest and easiest way. (Here
are some practical experiences: are some practical experiences:
"I wash the clothes by first boiling them with kerosene in the old boiler. white."
"When my daughter brings in the clothes she puts the clothes that need sprinkling in one basket and the plain
clothes in another. This saves handling them so much."
"While ironing I lay aside clothes that need mending, for if you put them away without mending first you are A high stool enables me to finish
the ironing minus the backaches I formerly encountered."
"In sweeping I save a great deal of time, by soaking newspapers in. water.
Wring them out, tear them in small pieces and lay them around on the car. pet and you will be pleased to find the amount of dust they catch,"
"When preparing salad-dressing I
make a large quantity and seal it up for make 2. large quantity and seal it up for
future use, thereby saving time and work when I am in a hurry; for all I have to do is to mix the cream when I wish to use any of it

For a Room Without a Closet Fasten with good strong screws to the posts on the back of the head of
the bed a cleat one incfíthink. Screw
into this a dozen double hooks. Set the end hooks some distance from the
 end of the cleat, so that the garments
will not hang far out, to show the
front of the bed. A curtain will keep front of the bed. A curtain will k
all the garments free from dust.

Take the handle of a child's broom, or any smooth stick, and insert into shape. Now you have an article that is useful for various purposes: To
draw hot utensils from the oven, to pull down window shades that have jumped down from the top, to reach anything tucked away in the corners of shelves,

Keep in the attic a charity box
where outgrown clothes, old tovs, or other various articles past household use may be placed. When a call comes
for some article of clothing there will he no necessity to hunt all over the
Use three dish-mops when washing diches, one for the glass and silver, one
for the china, and one for the pots and for the china, and one for the pots and
pians. Kep them separated, or mark them in some way. These little mops
may be bought for five or ten cents aich, and their use will keep the hands
in better condition.

Ways of Serving Strawberries Many persons believe that it is im-
possible to improve strawberries by any method of cooking them, but for those
lack of excellent recipes. Possibly the most popular way of serving them, When cooked at all, is in the good old-
fashioned strawberry shortcake. One quart of flour, one cup of butter, three saltspoonful of salt, the white of one egg. Rub the butter into the flour,
then add the baking powder and salt. Beat add the baking powder and salt.
froth white of the egg to a stiff froth, and add with cold milk sufficient to make a dough stiff enough to rol
out. Make the cakes about half an inch thick, and bake on pie-tins in a quick oven. When done, cut around the edges and split them; place a thick
tayer of well-sugared strawberries be layer of well-sugared strawberries be
tween, sift powdered sugar over the top and serve with cream.
Strawberry Short-cake.-One pint of flour, three rounding teaspoonfuls of baking powder, one-half teaspoonful of
salt, all sifted together. Work in heaping taplespoonfuls of drippings until the flour feels like cornmeal; then add just enough sweet milk to make a dough that can be easily spatted out into two greased pans; bake in a hot
oven for about twenty minutes; spread one layer with butter; lay another layer on top and heap with berries, and whipped cream on top surrounding with berries. Sponge cake layers can be use instead of the dough mixture
Strawberry Tapioca.-Soak over night one cupful of tapioca in cold water; in
the morning put half of it in a buttered baking pan, and sprinkle over it a little sugar. On this put one quart of
berries and
sufficient sugar to berries and sufficient sugar to
sweeten, then add the remainder
of the tapin of the tapioca and a sprinkling
of sugar. Fill the dish with water to cover the tapioca about one-fourth inch. Bake in a moderate oven until it
looks clear. Serve cold with cream or looks clear. Serve cold with cream or
custard.
. Strawberry Dumplings.-Mix well to gether three cupfuls of flour, one heap-
ing teaspoonful of baking powder and ing teaspoonful of baking powder and Rub in two tablespoonfuls of butter and dough. Roll out one-half of an inch
thick, cut in pieces about four inches thick, cut in pieces about four inches
square, lay three or four good sized square, lay three or four good sized
strawberries in the middle of each and draw the paste around them as for apple dumplings. Set close together on
a greased tin and steam for twent five minutes. Serve with strawberry sauce, making a hard sauce with two table-
spoonfuls of butter, one curful of spoonfuls of butter, one cupful of
powdered sugar and a few drops of lemon juice and beating in as many
crushed strawberries as can be used without curdling.
French Short-cake.-Bake a sponge cake in a ring mould, and when it is
cold arrange sweet cherries and strawberries in the centre, heap with sweetened whipped reeam. Garnish with
berries and cherries. berries and cherries.
Strawberry Cottage Pudding.-Cream together one-half cup of butter and one
cup of sugar, add one cup of milk cop of sugar, add one cup of mile one pint of sifted flour and two teaspoonfuls of baking powder.
Bake in a cake-pan, and serve hot with Bake in a cake-pan, and serve hot with
liquid sauce, into which fresh stráwliquid sauce, into which fresh straw-
berries, mashed with sugar, have been

Frozen Strawberries. After carefully
stemming, lightly rinse one quart of strawberries. Mash them thoroughly
and add the juice of two lemons and one pound of granulated sugar. Set
them aside in a cool place for an hour then add one quart of water, and place
in an ice cream freezer and freeze.

Strawberry and Pineapple Pudding. Make a pint of white cornstarch pud
ding, sweetening and salting it; after ding, sweetening and salting it; after
cooking thoroughly divide the mixture
and to one-half add one-half pint of pudding if too thin. To the other part pour in a mould in layers and chill on ice. When serving garnish with halved berries and pineapple spines. Serve with custard sauce, thin cream or whiped crean
Strawberry Sponge.-Soak one-half of box of gelatin in one-half of a cupfive of cotd water. Boil together for
minutes one pint of water and one sugar. Add cupfuls of granulated one lemon, strain and cool. When it begins to thicken add the whites of four eggs, whipped to a stiff froth, and sponge. Stir in one pint of whole, fresh
berrie. sponge. Stir in one pint of whole, fresh
berries, turn into a wetted mold and set on ice until firm. Serve with cream.

Ways of Using the Refreshing Pineapple.
How to Eat Pineapples.-Americans, as a rule, do not know how to eat
pineapples, says a traveler recently returned from the Souti. They should never be sliced. That treatment re-
leases the juice from the pulp and leaves the meat from the pulp and woody and
tasteless lower part of Florida, where they know
lon and how to eat the fruit, they never peel a pineapple. They take a ripe fruit and
cut off the top and bottom; then they split the fruit lengthwise; then quarter it and split the quarters. This gives eight slices, which are then eaten from
the hands as one would eat the hands as one would eat a water-
melon. By following this method you get all the joice and can make a tidy job of it, and you will find it much better than if sliced.
As a digester the ripe pine has no
equal, and on this account it is not equal, and on this account it, is not stomach. Failing other material for its activities, it is apt to get in some strenuous work on the lining of the
stomach itself. It stomach itself. It is better, therefore,
to serve it toward the last of the meal at breakfast, or as an accompaniment or follower of the meat course at dinner, where it assists in the digestion of the
food

Rhubarb and Pin
Dissolve six Preapple Preserves. of water, and boil to a syrup; add three pounds of pineapple, pared and
cut in small pieces cooking it until tender, then put in two pounds of rhubarb, also cut fine, and let boil a few cook it; do not allow it to become "mushy." Have your jars ready, all hot, and can immediately. This is a very nice preserve. I sometimes use
strawberries instead of pineapple.

Pineapple Short-cake.-Make a rich bake in two parts or a round cake fully an inch thick. If the latter, split while hot with butter. For the filling use a rich sugar-loaf pine that has been
shredded, covered with sugar and al lowed to stand over night, or, quicker still, use the canned, crushed pine. Before filling, drain off the surplus juice and u
sauce.

Pineapple Marmaiade.-Peel, core and hop the pine. Weigh and allow a Mix well and let stand in the preserv-ing-kettle over night. In the morning cook about half an hour, then run
through a sieve. Return to the prehrough a sieve. Return to the pre-
serving-kettle and simmer, ctirring almost constantly for half or threequarters of an hour until a clear ambercolored paste results, that will be firm when cooled. Pack in small jars.
Pineapple for Fruits Jellies or Creams -In using the fresh pineapple for fruit it must be borne in mind that it is a solutely essential to cook it first. solutely essential to cook it first.
fresh pineapple is used with gelatin it

## Women's Quiet Hour.

A month will almost have elapsed
since the death of our beloved King since the death of our beloved King
when this page reaches my readers, but His late Majesty even so it will not King Edward. something of what one of the greates
To be head of the British Empire today is the most exalted position that any man can occupy. King Edward VII. came to the throne after the long and illustrious reign of his mother, the
brightest reign in all the annals o brightest reign in all the annals on has ruled not alone justly, but with such splendid discretion that he goe down in history as "Edward the Peace arned a grander title. His ability to o the right thing at the right time eign did very much not only to cement the different portions of the great Empire more closely together but to draw more closely into tue bonds of brother hood the men of all nations. That he is sincerely mourned by every loyal Can-
adian no one familiar with Canadian life will for a moment doubt. In Western Canada, however, there is an enormous foreign population great extent people are, as yet, as well as speech. It should therefore be the duty and privil ege of every Canadian to give expres sion to his or her sincere mourning for the loss of so great a rue, minister in Winnipeg gave utterance to what seemed to me, one of the wisest things on this head that has yet been said. It
was "if we truly mourn our great king, was "if we truly mourn our great king, to do what is best for the Empire and we will loyally stand behind his son and strengthen him prayers and our great need lhought and deed."
It has been. very touching, in Winnipeg, to note how many of the foreign population have and in soores of little shacks in the outskirts of the city were to be seen small pictures of the late King surrounded by a bit of purple or over the roofs
One thing that should be done is to see that in every rural school house there is a pieture of the late king suit-
ably draped with black and purple. No mere sorrow because they show an outward badge of mourning, but in a case of this kind Canadians should show to the strangers within their gates the real respect and
reverence which there is in the heart of every true Canadian for constituted authority
King George the V. comes to the throne at the time of a great political crime of James and William of Orange He is an unknown quantity as a ruler but he was admitted to the closest confidence of endeavor to follow in his foot steps and every British subject the world over should give him loyalty of thought and affection, and "God Save
the King" should be sung prayerfully.

Winnipeg, June, 1910.
The Western Home Monthly
 young women will give more concern
to the coats on their backs than to the oats of their stomachs.
when young women will have dignified housekeeping. Young women are be inning to realize that domestic work s attractive when performed in a scientific way.
likely to have a book handed her while he hostess laughingly goes into the kitchen to prepare the meal, and she
does it with genuine pride. Good cookdoes it with genuine pride. Good cookwork. Prof. Alford Jachne of the German Criminology Society says: "We no longer combat external causes of wrong as we did. We seek internal, domestic finding the true answer as to why children depart from the pathways of
right. The human soul in all its nakedright. The human soul in all its naked-
ness, $\sin$-stained, worn out, hopeless, is laid before us, and we must know what srive to to that condicion, as womanhood to it. We have turned away from the saloon and the brothel for the real sources of the great amount of crime in existence in the world to-
day. Something back of them, something deeper-rooted than they ever can
be, sends the boy to the thief's cell, the girl to everrasting shame. That something is improper ood in childhood, ignorance and brutality of parents." Thus to the wives of the future do the needy call for help. The cure-all
is in their hands. If the beginning of the end of crime be within which child works, in the kitchen where its food is prepared, and in the influence
of motherly patience, knowledge and love, young women need to be trained gratifying it is to learn of the practieal work that is being done by queens and
other women in high positions! The new Queen of Belgium is an M. D. of Leipsig University. She has eximes her medical knowledge for the benefit of the poor and afficted.
Her experience is likely to cause many Her experience is likely to cause many
improvements among the needy. Queen Victoria said before she was a mother: If ever I am blessed with children they know how to be busy and to be of good
to the world about them." There are to the world about them." There are
eight kingdoms of Europe ruled by descendants Sweden, Greece and Bulgaria. In the female descendants every woman is
practical. They are competent to rule their kitchen themselves, to plan their in all kitchen duties.
English girls are taught from baby-
hood that every girl should be queen from kitchen to drawingroom.

## Misunderstandings.

A young woman writes me thus:
"I often think it is too bad that mis"I often think it is too bad that mis understandings creep into our lives anes offence. There is a sad chapter, al
through my life in not being rightly understood, and I do try to do what is right.".
We are all more or less misunderstood.
Pure motives inspire us to perform acts Pure motives inspire us to perform act.
of charity and in return we are accused of courting notoriety. Yet our efforts are not wasted, ev
misunderstood.
misunderstood.
Green, the historian, tells us that the world is moving along, not only by also mighty the aghoregate of the tiny
aushes of each honest worker. Though pushes of each honest worker. Though,
we may think our efforts are wasted,
beauty unseen is not wasted. There are scenes in the tropics o which the eye of man has never th
there are glories unnumbered of th serting sun that never fall within th
knowledge of man; Arctic explorers te us that in the distant North there
an unsurpassable glory in the sunset
yet few have known it. In a brief
season in declining day the levels of the snow are touched with gold, and every minaret of ice is radiant. This
may all seem a waste of beauty but it may all seem a waste of beauty but it
is the Creator's work, so the earth is the Creator's work, so the earth
must need it. But there are other ifits
of the Creator that are wasted and it of the Creator that are wasted and it
is because of their waste that people are misunderstood. "There is sight that
might see so much, but sees so littte might see so much, but sees so little,
and that little--vile, there is little speech that might do such noble things, and
does so little, and that little mean does so little, and that little means hearing and memory. Thought and im agination which are lavished so royally
on us, we waste. The more we waste on us, we waste. The more we wast
these gifts the more are we in debt to Him who gave them to us for useful development. To be misunderstood even by those one loves is the cross
and bitterness of life. It is the secret of that sad and melancholy the lips of many of our acquaintances. To be misunderstood is a cruel trial. There is a world of meaning in James Whitcomb Riley's verse-
"Afterwhile-and one in
"Afterwhile-and one intends,
To be gentler to his friends."
We need appreciation. Our success

Our natural scenery and soil producin the whould furnish abundant material in the world of art, literature and science. art, medicine, literature, the professions and business. The boys and girls in the country demand the devotion and service of women in educational work and society as well as in the With this demand no country girl need be in want of an opportunity. In
the country about her she may find enough to afford scope for the exercis tendency of to-day is a movement from the city to the country. Western Canada needs in the country all of her
country girls besides gifted young women from the city. Remain on the farm, young girl, the country needs

## Intelligence Creates Youthful

 Women.The difference between youth and old age is this: Youth looks forward-
old age looks backward. Some women are old at twenty while other women are young at sixty. Every young woyoung and she considers carefully every "beauty" page she finds. Many think that outward applications conkeep the face young and they spend fortunes on cosmetics and other lotions. Beauty and youth treatments shoul begin at the life within. If the hear of a fruit tree be decayed, the fruit it is true of women.
In order to remain young, take an
active interest in affairs of the day active interest in affairs of the day and entertain hope for the future.
A wrinkled countenance, a stooping back, a lame walk will not prove age if the life within be young with interest in the future; nor will dates and figures settle the question. More than once I have heard thy that splendid appearing man should me strange part of it is-they seem perfectly happy
mental union. Marriages would be
happier if mental happier if mental qualities were the
attraction instead of physical qualities. What can be more miserable than when a man of any measure of intelligence finds himself bound to a pretty piece
of insipidity, or a lump of clay," not of insipidity, or a lump of clay," not
a companion but an expensive toy? Likewise when a woman of taste and culture finds herself mated for life to a man of handsome figure who has no brains or heart, her misery is equally
profound. The union of intelligence profound. The union of inteligence based on the mutual recognition of
those qualities which fit man and woman for each other, will, as they be more deep and reverential and deathless love. We are none of us older than our minds. There is nothing that keeps
the life in a woman so fresh as intellithe life in a woman so fresh as intelligent hopefulness. When of energy disppears and it droops and fades. One sees many girls whose faces are wrinkled and old because they brood
ver past troubles or sorrows. Some over past troubles or sorrows. Some
one has said that "he who has never made a mistake has never made any thing." Let every girl drown her sorrow in a grand hope. If a girl improves her mind she is prepared to overcome nity-she may no, have a chance of a nity-she may no have a chace girls are strong and many times have bette rained minds.
ollege girls.
It is pathetic to see a young woman
hained down by a sorrow. "The tests f life are to make us not to breal us." "Not failure but low aim is
crime." At times it may seem that a capacity for enduring pain in huma
nature than one can believe until sho has stood the test. Our strongest wo hen have risen to greatness from deepclaimed them they did not shrink into despair. Dawn and twilight have a beauty all their own. It takes the darkness of the night to show us the beauty of the stars.
Just now woman's work in atat ffairs is creating world wide in state One can hardly pick up a paper with out finding in it something about the acheivements of young women in the
field of usefulness. Since this is true field of usefulness. Since this is true,
there is greater demand for young wo there is greater demand for young wo
men of intelligence to-day than in th past. Let us then keep alive to our opportunities and possibilities and at the same time we shall enjoy the kin young woman owes herself health, leisure, diversion, development and ablisure, diversion,
sorbing interests.

## Sille Embroidered Waistcoats.

Well dressed men now require the $\left\lvert\, \begin{aligned} & \text { should be purchased at first, as it is } \\ & \text { very difficult to match exactly repeated }\end{aligned}\right.$ addition of a variety of "Fancy Waist- $\begin{gathered}\text { very } \\ \text { dyeings of the same shades. It is dif- }\end{gathered}$ coats" to cemplete their wost fashionable the handsomest hand embroidered ones or which so many weaves of material for which
suitable for the different seasons of the year are now to be found. One of the most attractive of these which is especially prepared for these waistcoats, and is of a light, fine weight, and
to be had in all the leading fashionable to be had in all the leading
colors. colors. Illustration No. 1 clearly shows the
possibilities of this material, and the possibinities
stitches used for the broadcloth are easily copied and quickly worked

Pattern No. 1. Perforated $\begin{gathered}\text { Pattern No. } 1 . \\ \begin{array}{c}\text { Broadcloth } \$ 2.00 \\ \text { length. }\end{array}\end{gathered}$ -
Colored Linen Huckabacks are also
very fashionable, and we illustrate some examples of this material. The stitches used on Huckaback are principally of
the darning variety, and may be workthe darning variety, and may be work-
ed in horozontal or diagonal effects, and an endless variety may be evolved by the worker. It has been found necessary to prepare special silks for em-
broidering these waistcoats, as broadbroidering these waistcoats, as broad-
cloth and huckaback require a heavy cloth and huckaback require a heavy
twisted silk. The "Imperial Waisttwisted silk. The tmential kind on
coat Silk" which is the only
the market, is a lustrous, heavy silk, He market, is a lustrous, heavy silk, broidery, or it may be used in com-
bination with rope silk, using the Imbination whe to define the stripes.
perial Silk the peria stitches illustrated for the
Troadcloth on this page, are worked broadcloth on this page, are worked
with Imperial silk. Some of the finer
weaves of honeycomb vestings, which weaves of honeycomb vestings, which
want of space will not permit us to want of space will not permit us to
illustrate in this number, are worked altogether with Rope Silk as the weave of the material will not admit using the
heavier silk.

Perforated Broadeloth, Pattern No. 2. One point to be emphasized is that
sufficient silk to complete the garment
dyeings of the same shades. It is difficult to state exactly the quantity of
silk required to work waistcoats as it silk required to work waistcoats as it
depends wholly on the material and depends wholly on the material and
stitch selected, for instance, the Perstitch selected, for requires more silk than is used for the Huckaback, vests, as in the former the silk has to be carried from perforation to perforation, while the huckaback has onter broadeloth
work. In the pertorated work. stitch also regulates the quantity the stitch also regulatance pattern No. 2 will require more silk than pattern No. 3. Another thing to be remember-
ed in working up any waistcoat is to ed in working up any waistcoat is the shape of
draft upon the material the draft upon the required. This will save time and silk, and they are to be worked well over the edges of the pattern
thus drafted, which will allow for the thus drafted, which wil Worked samples

## Western Verse.

Ohl Canada.

By "Drina," Griswold, Man. Thank God for Canada!
Dear bright Canada;
Land of our love,
In work-time and rest;
The sweet, kind, sunny land, The good, clean money land,

Thank God for Canada Young, clean Canada; Land of the sunshine, With rain for our thirst;
Our fresh, wild, fairy land, Our fair, wide, prairie land, Canada ever! Canada first

Thank God for Canad
Free, pure Canada;
From East ưnto West;
The clean, true, fairest land,
The gay, glad, rarest land,
Canada ever! Canada blest!

## Meeting-Parting.

By G. F. Simmance, Calgary. Her eye it is bright and my heart it is light, If I can only touch her soft hand;
She's tue queen of her race and her dea She's tine queen of her race and her dear
little face
Is the sweetest and best in the land.
Is the sweetest and best in the land. Just one little kiss overwhelms me with And so does a loving caress; She's tender and true and fond of me And am I not fond of her? Yes.
Then, Oh! when we meet-how deliciously sweet,
I cannot conceal my delight
Iut innot conceal.my delight,
breath a low sigh and a tear's in
her eye,
When it comes to our saying "Good night."
And Oh! when we part-it goes And I feel that I'm living in vain, But I don't wish to die and I'll tell you I'm hoping to meet her again.

## . Life's Tangles. ${ }^{\text {' }}$

By "Frances," Port Morien, Cape Breton.
When winding yarn and it gets snarled, And Dick is sorry he enlisted, The more we pull, the more 'tis marled,
twisted, fuel to the fuss,
I long for Mother to clear the muss.
Now, when at home with temper gone, I struggled with some awful tangle,
Iother would see the "storm cloud" on, Mother would see the "storm cloud on,
Sail in and right the horrid mangle. We've put away our childish toys
But still to mother we're girls and But still to mother we're girls and

A mother's life is sorely tried;
They talk of Job, he ne'er was in it
俍 For since I left the mother's side I've learned she's wanted every Now Job no doubt had many an ill; But he never mothered Dan and Bill.
Mother smoothed out my tangled skein Mother smoothed now is ever calling-
And now "Thread broke!" "My cap is lost again!" "A piece of bread!" "tis most appalling! When mother's win-their crowns to What brilliant jewels will glitter there Thousands of mothers can testify to the virtue of Mother Gravos' Worm Exterminator, because they
experience how useful it is.

## The Month's

Bright Sayings.
Tev, A A Shaw of Winnipeg: Send a rogue to Parliament, and he will represent you.
Rev. Dr. Bland: In our legislation we want wisdom as well as enthusiasm for ideals.

Sir Ernest Shackleton: The desire to Sir Ernest pulse that sends men exploring.
Thomas A. Edison: Probably the first thing the first man did was to invent ome labor-saving device

Andrew Carnegie: Show me the man who has always
He doesn't exist.

Show me the man e doesn't exist.
$\qquad$
W. W. Jacobs: I think few authors are satisfied with their wor
W. Pett Ridge: If you want to see a man when he is perfectly and com-
pletely happy, watch him as he cleans pietely happy,
out his pipe.
. Rev. Dr. Aked: In the, proportion to which each man develops himself educaof political partisans.

John Burroughs: Among animals we find friendship; confidence and fidelity, such as are rare even among tho
call themselves human and men.

Sir Robert Ball: Doubtless there are children who will see the comet this year and in tottering old age will see it again on its next return; but no man or woman can hope for such an experi ence.

Garrett P. Serviss: We are driven then, to believe that the universal night which envelopes us is not tenantless; that as we stare out of the star-framed windows of the galaxy the fault is with our eyes or is due to an obscuring medium. Since our universe is limited in extent, there must be other universe beyond it on all sides.
Ex-President Roosevelt: Don't make the mistake, those of you who are young
men, of thinking that, when you get men, of thinking that, when you get
out of school or college, your education stops. On the contrary, it is only about half begun. Now, I am firty years old and if I had stopped learning, if I fel now that I had stopped learning, had
stopped trying to better myself, I feel that my usefulness to the community would be pretty near at an end.
G. T. Brewster: Of all warm-blooded creatures, there are just two that are in numbers and range, and able to maintain themselves anywhere in the worl against all rivals. These two are man
and a rat. They go everywhere and eat anything.

Ella Wheeler Wilcox: When a mar riage is a genuine success no one know much about it. A few intimate friend may be aware that so-and-so's marriag know and care little about the matter. A failure, on the other hand, gives food for gossip and scandal, and so get from one to another.

Lord Charles Beresford: The British Empire is singularly like an open hand, of which the United Kingdom is the thumb, with which each of the fingers
co-operates. Canada represents the forefinger, South Africa the second, Australia the third, and little New Zealand the fourth finger. The ocean, with its lines of steamships for sinews and its electric cables for nerves, is the palm of the
hand, and gives us a living organism. Let us lose the palm and we have no longer a hand. The fingers are then detačhed, paralyzed, shrivelled and powerless, and can be picked one by one at the will of the victor
Sir Richard Cartwright: It might well come to pass that we in Canada, who occupy a very peculiar position between the two great sections of the English-speaking race, might well be
able, small nation as we yet are, to asable, small bringing these great countries together for such a purpose. I do not think I am wrong in ssaying that Canadians and Canadian public men more particularly, are in a position to stand and appreciate Great Britain and the United States better, perhaps, than either of them can understand the other without us. True, we are a small nation, but at the same time history shows us
that small nations with high ideals have that sman nonee exercised a potential influence in the councils of the world.

## About the Farm.

In Blossom Time.
Who would have thought, a while ago, when bitter winds were raging, And all the wintry world was chill, The heart of summer life and The heart of summer life and
Till in the trees that gave no sign the sap began to flow?
Before a single tiny leaf had shown the bud's increasing,

Before a slimmer of
brightened twig or the spring had brightened twig or spray,
The bloom and beauty all were pledged; The bloom and beauty all were pledged;
a loving hand unceasing
Was working in the winter time to

Margaret E. Sangster.

## Make The Farm Beautiful.

For the benefit of our children it pays to make home beautiful without as well as within. Blessed is he who
cherishes the memory of a granid old cherishes the memory of a grand old homestead endearments, on which were

Provincial Horse Show, Calgary, 1910
spent childhood's happy days. Al- planting around the house, is pre-em though children will appear unappre- inently the high growing elm tree
 their own resources for a living, fight- If in addition to ornamental trees an ing the battles of life in a cold and unresponsive world, and when awakened to a fuller realization to all that is good and noble, they will recall with grateful remembrance not only the attractions of the old home, but hold ind sacred regard the moral precepts and
teachings of those who made home attractive for their sake. And as full grown men and women we can hear them repeat, "What father used to tell us," and "How mother used to do." Yes it will pay you a thousand then for not for your own enjoyment then for
those whom you shelter and provide for, to make home not a barren, disagreeable place, but an attractive abode. Nor does it cost much money
or labor to add attraction to a place. The amateur landscape gardener should imitate nature in his ground plot and carefully avoid planting in circles and rows, exceept in case of
roads and lanes, for nature abhors roads and lanes, for nature abhors
symmetry and angles.
Lawn plant-
ings should be in groups and clumps, in such a manner to open views near and distant and produce surprising
effects, by way of contrast and color. We have purple, silver, golden and the warious tinges of green colors to accomplish this. All suckering shrubs and trees, as well as soft maples, seed are not suitable for lawn planting. However valuable a tree or shrub may be in the right place, it may become a nuisance in the wrong place. Above all we should plant a variety and not share the experience of many
farmers of to-day whose maple trees are all dying at the same time, leaving the place treeless just when it ought to be in its prime. There is every chance of making a bungling job of
your first planting unless you are an experienced landscape gardener, which experienced landscape gardener, whas--
none of you are, and rather than mas none of difficulties of this branch of horticulture, it would pay to engage a professionat a new place, thus starting right and avoiding serious mistakes. For a durable, lasting shade tree, that does not obstruct the view, and im-
proves with age, and is suitable for

## Low Headed Frult Tees

Fruit trees with low heads are much easier to take care of than trees with high heads. the latter require more the ones with low heads. The farmer
that has a large orchard finds the that has a large orchard finds the
problem of labor a hard one to solve. If the trees are low, the spraying can be done effectively and quickly, and the be done effectively aid quickiy, and the
thinning of the fruit, if thinning is to be done, can be accomplished in a very short time. The gathering of the fruit is greatly faciitated by reducing the at harvest time. The low headed trees are not affected by the high winds so much as the high headed trees are Frequently in a high gale the high
headed trees will lose about all of their fruit, while the low headed trees will lose very little.

Choose Good Land For Orchards.
In selecting land for an orchard choose good land. There is a wrong impression abroad to the efrect that, poing
land is good enough for the growing
of several kinds of fruits. But it of several kinds of fruits. But it put into an orchard cannot be improv dike other land after the trees hav

thing it is better to use it for some thing it is better to use it for some crop that can be cuitivated, as this
wul permit- the gradual improvement of the soil. While it is true that the soil in an orchard can be improved some, it is also potent to all that the improvement cannot be so great as if
the soil were not occupied with trees. the soil were not occupied with trees. planting of trees. As the orchard grows, all' the goodness and fertility in the soil will be needed to supply the annual drains for the crops of fruits. Even the handing hardly give the plant food the orchard needs when it gets to bearing large crops of fruit year by year.

Stock on the Stumpy Farm
The man that goes on to a new farm, Tovered principaly with stumps, finds live stock his great stand-by. The grass grows around the stumps, and he soil soon begins to yield an in-
come. Some men that begin work on such land neglect the great oppor unity that could come to them in the possession of live stock. In the reducing of a stump farm to a civilized condition, the farmer's first efforts
should include the fencing of the land and the oringing in of live stock. Th and the bringing in of live stock. The changed into beef, mutton, pork and vool. Time will help eliminate the stumps, if they be hard wood ones one part of the farm while the farme is working on another.

Almost any kind of a soil can be made a good garden soil, for it can be en sand or clay dressings to bring it int proper physical condition.

Why the Goose is Gray.
(By Margaret Bannister, Winnipeg.)
Once upa a time Nihka the goose, was snowy white. That was many years ago. Would you like to know Many years ago, there was only one man upon the earth. His name was Wesakchack. He was the father of all the animals and they loved and served him. But there was one, The Evil Spirit, who did not love Wesakchack. He was very wicked and when he wakhow much the ap his mind to do a wicked thing.
But the North Wind, when it was passing by his wigwam, heard him say what he was going to do. So the to the passed by and when it came told it to her leaves and they rustled in the wind, as they listened to the terrible Tree, "will you carry my leaves to the wigwam of Wesakchack and they will tell him of his danger?" So the North
Tind took the dried leaves of the Birch Wind took the dried leaves of the Birch
Tree and carried them many miles Tree and carried them many mam of Wesakchack. There it dropped them at his door.
Wesakchack was sitting by the fire
and he heard the rustling leaves. and he heard the rustling leaves. a message for you." Then they told him of the terrible plan the North Wind had overheard. It was in the pring the Evil
So Wesakchack hunted all winter in the forest. When spring came he was near the edge of the woods one day
and as he stepped out into the prairie and as he stepped out into the prairie, he heard a little rustle at his feet. He the Birch Tree. They were lying on the the Birch Tree. They were lying on the
ground. "Remember the message, we

carried to you, Oh, Master," they said and Wesakchack answered "Yes, I I
remember. It is now spring and I shall go back to my wigwam for my bow and arrows. Then I shall go in search
of the Evil spirit my enemy" of the Evil spirit, my enemy. lodge and travelled on over the prairie. Towards nightfall he reached a low valley. He saw that the snow was melting and
that that some feet of water lay in the
valley. But Wesakchack did not stop valley. But Wesakchack did not stop
for this. He walked on through the water, never resting even when the dark descended. But, when the Sun
rose next morning, he saw that the rose next morning, he saw that the
plan of the Evil Spirit was going to
隹 be carried out, for anir around hoimg to to water. The Evil Spirit had melted the snow during the night and now every
little stream was swollen as big as a little stream was swollen as big as a
river and the valley was full of water to the brim.
Wesakchack had to swim and after
he had gone some miles, he began to he had gone some miles, he began to
feel very, tired. feel very, tired. Then the Jackfish
swam up to him and said "My Master, get on my back and I will take you safely to the land." Wesakchack at once did as he was told and the Jack-
fish who was strong fish who was strong and a swift swim-
mer, soon brought him safely to the dry land. Then Wesachack started
home to his lodge. It was not far home to his lodge. It was not far away and he could see it rising out
of the water like an island, for the of the water like an island, for the
land on which it was built was a tiny land on which it was built was a tiny
hill. He was very glad to get inside of his wigwam and sit down beside the fire, but as he looked out through the
open door he saw the water rising open door he saw the water rising
steadily, and knew that by morning it would be in his lodge and that he would be drowned, if no help came. Wesakchack was very tired and as he sat here thinking he fell asleep and
he had a strange dream. He thought Nihka, the wild goose, flew into the wigwam and around and around near the top, flapping her wings and crying.
She semed to say. "Give me She semed to say. "Give me a
message! Give me a message! And I wessage! Give,me a message! And
will save you." Around and arounid she flew and at last lit in the ashes of the smouldering fire and disappeared Then Wesakchack, wakened and as he ooked around the wigwam he kne
that Nihka must have been there fo everything had fallen on the floor as
if struck by her wings and the floor the lodge was covered with ashes The fire was out and in the centre chack picked it up and saw that a little piece of birch bark was rolled inside He pulled it out, and as, he did so, he in at the door. said nd I will take it to your friend the Weskehack did as she told him. He wrote $a$, message on the birch bark quill. As he gave it to Nihka, he saw that she was no longer white as she ad been but was gray with the ashes
of the fire, and-marked with black specks where the cinders had touched her, Her breast was still white and a mall patch under her wings.
Nihka took the quill and flew off at once. It was not long before Wesak chack saw the Beaver coming to him close, Wesakchack saw that he carried mud in his paws and on his broad flat
tail. When he reached the door of the lodge he put the mud down and patted he smooth and hard with his tail. Then he swam this he did until he had made a now left his lodge and walked safely to In memory of this kindness Wesakchack told the Beaver that from that time he might always build a path
across the water to remind his children across the water to remind his children
of what he had done. Then turning to
the poose he told her that he wished the goose, he told her that he wished
her to allways wear her dress of gray and black, so that the world might not forget her loving service. Each spring, after that, the Evil
Spirit, who is the Spring Flood, grows
wild with rage, as he remembers how his plan was spoiled and he tries to
waste the lands of Wesakchack and his waste the lands of Wesakchack and his
children. But this is always in vain, for the Evil One can never win. never win.

## Sunday Reading.

## A Heavenly Visitant.

Come, 0 thou traveler unknown, Whom still I hold, but cannot see My company before is gone, With thee all night I mean to stay And wrestle till the break of day!
I need not tell thee who I am Thy mystery or sin declare;
Thyself hast called me by my name Thyself hast called me by my name;
Look on my hands and read it ther Look on my hano, I ask thee, who art thou? Tell me Thy name, and tell me now.
Yield to me now, for I am weak,
But confident in self-despaing spe Be conquered by my constant praye Speak or thou never hence shalt move
And tell me if Thy name is Love.
My prayer hath power with God; the grace
Through faith I noe Thee face to face I see Thee face to face and live; In vain I have not wept and is Love.

Lame as I am, I take the prey;
Hell, earth, and sin with ease Hell, earth, and sin with I leap for joy, pursue my way. And as a bounding ha prove
Thy nature and Thy name is Love.

Power of Suggestion in Healing.
By Robert H. Gault.

When you ask what means the physiian can use in dispensing mental in fuence for the cure of suggestion im mediately thinks of the psychotherapist. You suggest to yourself or another suggests to you simply by directing your atten tion and awakening anticipation, either pleasant or unpleasant.
Thus some one intimates to you that you have a pug nose. This evil genius suggested it, and now the idea, the image, the thought of a pug nose, and specially of such a protuberance on our so-thought defectless face, plagues yained force and vividness and through oo other means than your attention Consequently this much heralded suggestion has nothing supernatural abou It is just as natural as attention. Now, when any mental experiestion or therwise, its physiological expression comes with it-that is, a particular form of excitaton of the nervous system This in turn brings about a peculand distribution of the blood supply, and hence nut, that the appropriate mental process will induce whatever modification of nutrition any given pathological case may require. Here utshell. It is ver psychotherapy in a nutshew for putting he brakes upon your imagination before go on to explain
It is a panacea with decided limita tions, and hence not a panacea. Sug gestion will never make a pug nose out of your finely chiseled Grecian BeauBefore the shrine
pre in the village of Beaupre, near Quebec, are pyramids of crutches ay by the lame and halt who nave been reistrations of the good St. Anne. How ever that may be, $\underline{I}$ am sure it is utterly
heyond the power of suggestion ti heyond the power of suggestion
lengthen abbreviated Ilimbs. Indeed, I, I helieve it is not within its ability much as a wart.
If the disease to be cured involves the
wasting away, decay, or modification of
$\left|\begin{array}{l}\text { tissue in any form whatever, foollardy } \\ \text { is too weak an aajective to use in }\end{array}\right|$
is too weak an aajective to use describing the sufferer who depends up-
on suggestion alone for relief, and the pow-wow who administers nothing else in such cases is a-well, he is a pow-
wow. I must guard myself here, howwow. I must guard myself here, how-
ever. For even in the case of the most efficient in as far as it supplants fear by confidence.
It is the oil on the spindle which makes the machinery run more smooth
ly than it otherwise could do. It there fore saves many a jolt and many a ho box. It spares a deal of vital energy which can be poured into the channel that needs it most. It checkmates the
fearing down processes of fear and fretting down process
But is there any kind of case in which suggestion can be employed as a more direct curative agent? Yes, especially
among those afflicted with hysteria in among those forms. For instance, many a hysterical patient is insensitive to touch over a part of the body. This is the effect of a mental disorder. The patient needs a hard joit to bring the pompressions that she hodily surface into attention. She is suffering from a narrowing of consciousness.
She neglects
impressions and fixes attention upon others which she thinks are of greater practical value, like impressions of sight and hearing. We normally neglect the
pressure of our shoes upon our feet and pressure of our shoes upon our feet and
attend to something else. It is the same sort of thing. Some one with an air of sort ostionable authority should tell
unquec an individual that this part of her
such an such an individual that this part of her
bodily surface is in just as good condibodily surface is in just as good condi-
tion as ever it was, and that if she does

Physical Education for Women.
By Bertha Beatrice Lash.
To insure ideal results, the necessity of ideal conditions confronts us, and these are not as yet realities in the ma-
jority of the gymnasiums for women in this country.
Hence it w
Hence it will be our aim to set forth cation, with results that may reason ably be expected under fair condifions and direct supervision. The standard for such instruction to-day is quite or fifteen years ago. We aimed then largely toward material ends-for the improvement of the physical being quite apart from the other sides of the indi
vidual life, and quite divorced from any relationship with the practical activity of every day affairs of a woman's existence.
The advancement in our ideas has been steadily toward a plane of work
which not only includes the care and development of the body but, at the same time, recognizes that through phy-
sical education there may come intellec thal growth and more advancement. Indeed the seope of work is beyond the individual and projects itself into the community life and makes demands for health, sanitation, and hygienic condi-
tions as public safeguards whether in home, school, college, office, or factory.
Activity being one of the first uww of human aevelopment, both in the physical and mental realm, we at once
recognize proper exercise as one of the recognize footrs giving in the life of the
child freedom and development which lay the foundation for poise, vitality,
and efficiency in the life of the adult, and in the woman's life we may add harmony, which snould be a reflection
of the gracious womanhood within. As in all forms of education it is
ideal to begin with the child; but w ideal to begin with the child; but we
have many hundreds of girls and women past the period when, psychologically speaking, these things may be accomp ished. Yet physical education has
message for all such, as much may still message accomplished, for in this beautiful work of, activity and expression it is never too late to begin.
In making a study of the world's work and play to-day, whetler the movemen
be designated educational, industrial moral, or religious, one of the crying noeds recognized by every one is proper provision for the nates themselves. human lives this one of the serious problems which highly civilized conditions and crowded cities have brough us. As a people and as indiviuals it in many of the unfortunate phases of life responsible for lower standards of living, due indirectly if not directly to mis-
directed energy. In a crowded city
particularly there seems little opportunity for life to unfold in a manner. The gymnasiam importast doors which ent, adjustment, viding proper developme threefold nature

\end{aligned}
$$ peculiar possibilities, because it touches,

as it were, the "live wires" of every as it wer
existence.
existence.
We ave all human beings with a marvelous house, our body, in which the eal self dwells, and many times there are conflicts, strivings, restrictions, and
rebellions between the physical, the intellectual, the mosal, and spiritual forces and from these result ill health, mental affliction, and moral disaster.
It would seem that adjustment of the instrument of expression and removal of friction between forces is necessary if health, peace, and harmony are to reign, and this the gymnastic work pro
poses to do, and can do if properly poses to
handled.
The problems of human life are the most absorbingly interesting of all problems and these are far more similar in
all walks of life than we at first realize. Because the gyimnastic work touches these problems in a peculiar and subtle fashion, because it gives these nature of ours a chance for activity and ex
pression of pent up energy and acts as pression of pent up energy and acts as are some of the reasons that we would offer in the argument that the work of physical education can and does reach
the lives of young women, first appeal he lives of young women, first appeal

in perfectly
legitimate channel, the deepen forces of life are touched and respond to higher ideals, larger usefulness and increasing service to others.
In its results then it gives us de ed such as health, vigor, and poise, and at the same cume, serves as a means to an end, which is the ultimate direction of woman's. power, a force which is
being felt in the world to-day as never being felt in
before.
The woman of the future is to be a woman of action, whether in the home or outside. Heath must become a part of her and unprejudiced consideration tend toward successful efforts in any phase of her life. She must be able to think quickly, clearly and keenly. Sh is sound physically, poised nervously,
cheery mentally.
Here again the gymnasium helps to gain these results. It offers work-
activities of body and mind that rest us from the duties of every day, give us new circulation, and so refresh us both physically and mentally. And then there is the real recreation
ffered by the various lines of gymnastics

## The Great Moon Teléscope

Two of our boys who live on the outskirts of the city, where there are nlenty of vacant lots, made a tele-
scope with which they had no end of fun and which deceived almost all their thiends. It was not a real telescope, aid it would not give one a close view
of any of the stars, but it did show the moon in a way that surprised every one who gazed into it. We will tell
you how it was made, so that you you how it was made, so that you can make one, too, and have just as imuch fun as they did if you wish.
The great moon telescope was' made The great moon telescope was made
by two brothers, Harry and Joe. The idea was Harry's, but Joe did most of the work, for, as is usually the way, the inventor was too impatient of
details to do much real construction details to do mueh real construction
himself.
Harry had found a roll of heavy, Harry had found a roll of heavy Wide wrapping paper, and was out of it when the inspiration came to him. He plan that he started to work upon it They rolled the paper into a great minel seven feet long, two feet wide only two inches in diameter at the small end. Then they pasted the overlapping edges firmly against the
ide of the funnel and the telescope art was done, and with very little Now for a lens! Of course they weh as is used in the instruments in he observatories. It takes a lens costing thousands and thousands of
lollars to bring the stars close enough to be seen at all distinctly, so the boys noon, which is ever so much larger. They got a large piece of very thi wrapping paper at a grocery store for
one cent. They got two cents' worth f butter and greased that paper thoroughly, literally soaking it in
hutter. Then they let it dry. When t was thoroughly dry they drew on it in black ink a circle almost two
outline of the moon. Inside of the
circle they drew a lot of the odd mark ings that you may see on the full moon on any clear night, mountains, vallegs, dried river beds and the like. Then
they added a lot of the oddest monsters they added a lot
you can imagine.
These figures were each an inch or so high and were things never seen on earth or sea; a horse with a bird's head and wheels for hind legs, a cat's and an alligator's head on the bory of a turtle; a whole flock of creatures in odd positions. All about the picture in any places which happened to be vacant they put large bare feet with wings on the ankles, but no
bodies above them. They let this bodies above them. They let this drawing dry thoroughly and then past-
ed it over the large end of the telescope so that the circle on the oiled paper just came within the opening
of the tube. of the tube.
They proceeded to a vacant lot near their home and drove into the ground
a large forked stick which was to be a large forked stick which was to be
\& rest for their telescope during the nightly observation. A soap box to serve for a seat completed everything. The first clear night when the moon was full Harry set up the telescope in ound to gather together several of their friends. He brought them hot foot but incredulous to the vacant lot, but when they saw the telescope their eyes opened to their fullest eximposing.
As the first boy sat down on the As the first boy sat down on the
box and prepared to look through the instrument Harry lit a small candle "so he could see to adjust the lenses."
When the boy put his eye to the hole When the boy put his eye to the hole and looked up caced the candle in front of the Harry placed the candle in thont of the boy
telescope's large end, and then saw the moon as clearly as if it had been but a few feet away. He did not see the real moon, but the flame of the candle lit up the transparent
oiled paper, which showed yellow as if aglow with intense moonlight, and the outline of the moon itself was clear as can be imagined.
The most interesting things of all were the odd beasts which inhabited
this moon which Harry and Joe ex hibited, and the gazers were dumfound d at the sight of them.
It was several days before the secret
$f$ the telescope leaked out, and in the of the telescope leaked out, and in the
neantime the fame of the sights to be seantime the fame of the moon spread throughout all Boyville. Those who first perpe rated the trick did not give it away but aided in fooling others till the deception could be kept no-longer. and Harry and Joe will be long emembered by those who saw the queer moon folk through the brothers queer mo.
telescope.

## RUBEROID ROOFING

You have no roof troubles when your house is covered with RUBEROID Roofing, which is weather-proof, sun-proof and fire-resisting.

RUBEROID Roofing resists sudden changes from hot to cold---the kind of changes that cause other roofs to crack and warp.

There are more than 300 imitations of RUBEROID, which is an evidence of its merits. Inferior articles are never imitated.
You can always identify it by the picture of the YBEROID man on the outside of the roll and the word "RUBEROID" stamped every few feet on the underside of the material.

RUBEROID costs less to maintain than shingles, tin, slate, or any other ordinary roofing.

There was a sound of merry laughing at the other end. Nan saw about twent maidens, all very lovely to look at, and every one with long flowing hair and rich dress.
One maiden turned and saw Nan's fac gazing through the parted curtains. he She pointed to it, then she and her
friends fled to the other end of the hall, friends fled to the other end or
out of sight, laughing all the time.
out of sight, laughing all the time.
Nan stepped in, and saw the beautifu lady coming to meet her
lady coming to meet her.
She took her by the hand and showed her all the pictures on the walls, and her all the pictures on the rooin, such as Nan had never seen before.
"Well, little Nan, do you think you will like this life?" said her beautifu
friend, as she smiled and drew Nan to friend, and stroked her hair.
her, and stroked her hair. I should like this to last for ever; but will you tell me what is your name?" The lady smiled. "My name?" she said. there is time yet, and you will know it there is time,"
soongh." Nan thought
happy in her life,
She drove in a beautiful carriage with the fair-faced lady, and the people looked Once, Once, Nan asked her frien
The lady said, smiling: "Those are my maidens," but they always laughed and fled, and looked back at her, and laughed again.
Once
Once they asked her to come and play. They held out their hands to her, but when th
shivered.
shivered.
After this, Nan would have nothing to do with them.
One morning, Nan rose early, and thought she would try and find the garden.
She longed to see a flower-there were none in the fairy palace.
She stole through the quiet halls, and came upon a large space, which she knew must be the garden.
But, alas! there was a gardener also. He would not let her touch the fiowers.
And the flowers were not like her sweet wild ones. Nothing looked real.
Nan was so sorry that she could have cried.
Soon after, the garderer sent some cut
flowers into the great hall. flowers into the great hall cried Nan.
"No, no, my child," she said, gently,
but firmly, "I could not let you do it I thought you had forgotten all that. Here you only live for pleasure." She handed them over to a servant,
and Nan felt quite sad. and Nan felt quite sad.
She was not nearly so happy after this. The large rooms and the fine things tired her out.
One day, sitting in one of the grand rooms, she saw, from the window, child-
ren far off, playing. ren far off, playing. air. They had large bunches of wild flowers, such as Nan knew well.
They looked careless and happy as the day, and Nan put her hands over her
face, and burst into tears. "What an unhappy little girl I am woods and pluck the flowers freely green "Oh, my flowers, my flowers! I lov you better than ever, but I can never g
back to you." And she sobbed on. All at once, she
felt a hand laid on her arm, and heard a "Oh, Nan! has it come at last? W'ould you like to go back, dear child?" "Oh, yes, yes!" cried Nan, "let me go to my flowers-let me go back." sad. "My name, Nan, my name-my
name," and her voice grew fainter-"i is Vanity." Vanity, Vanity," cried Nan; "oh, no! But the grand rooms and the fair lad had faded away, and-was it a dream
-she seemed in a wood. On every sid
were trees. Yes- it was all a dream.

And there were her flowers. She picked Ahem up wildly, and clasped them to her. At last sue sprang long time she hed been asleepl
Then she went into the streets and sang out as usual, in her fresh youn voice, "Pretty flowers, sweet flowers." "Ah, there is Nan, lat lastl!" said a passer-by. And the people came to buy for they all liked Nan.
"After all," thought Nan," how nice it is to be a flower-girl But I am sorry
for that kind and beautiful lady whos for that kandy."

## A Lesson of Faith.

"Let me hire you as a nurse for $m$ poor children," said a Butterffy to a quiet Caterpillar, who was strolling along a cabbage-leaf in her odd, lumbering way "See these little eggs," continued th Butterfly; "I don't know how long i will be before they come to life, and
feel very sick and poorly, and if I shoul die, who will take care of my baby but terfles when I am gone? Will you, kin mild, green Caterpillar? But you mus mind what you give them to eat, Cater pillar: they cannot, of course, live on
your rough food. You must give then early dew, and honey from the flowers and you must let them fly about only little way at first; for, of course, one can't expect them to use their wings pro perly all at once. Dear me! it is a sad pity you cannot fly yourself. But I hav
no time to look for another nurse now no time to look for another nurse now
so you will do your best, I hope. Dear so you will do your bear I cannot think what made me come and lay my eggs on a cabbage-leaf! What a place for young butterfies to bo born upon! Still, you will be kind, will you not, to the poor little ones? Here,
take this gold-dust from my wings as a reward. Oh, how dizzy I am! Caterpillar, you will remember about the food -"
And with these words the Butterfly dropped her wings and died; and the green Caterpillar, who had not had the
opportunity of even saying yes or no to opportunity of even saying yes or no to
the request, was left standing alone by the side of the Butterfly's eggs.
"A pretty nurse she has chosen, indeed, poor lady!" "exclaimed she, "and a pretty business I have in hand! Why, her senses
must have left her, or she would never must have left her, or she would never
have asked a poor crawling creature like me to bring up her dainty little ones! Much they'll mind me truly, when they feel the gay wings on their backs, and can fly a way out of my sight whenever:

## "Is Good Tea"

If you use it you know it is good. Will you tell your friends?

In the pale moonlight
are, in spite of their painted clothes and $\mid$ in the distance, till the green Caterpillar the gold-dust on their wings! However, the poor Butterfly was dead, and there lay the eggs on the cabbageleaff and the green Caterpillar had a kind heart, so she reme that night, she wes so very anx no sieep She madeother back quite ache with walling all night yound her young charges, for fear any harm
shoula happen to them; and in the morning seys bhe to herself, "Two heads are befter than one. I will consult some wise animal upon the matter, and get acvice,
How should a poor crawling creature like me know what to do without asking my betters?"
But still there was a difficulty: whom should the Caterpillar consult There was the shaggy Dog who sometimes came he wonld most likely whisk all the egga of the cabbage-leaf with one brush of his tail if she called him near to talk to her, and then she should never forgive herself. There was the Tom Cat, to be sure, who would sometimes sit at the foot of the apple-tree, basking himseli and warming
his fur in the sunshine; but he was so selfish and indifferent! there was no hope of him gviing himself the trouble to think about butterfies' eggs. "I wonder which is the wisest of all the animals I know?" sighed the Caterpillar, in great distress; and then she thought, and thought, till
at last she thought of the Lark; and she fancied that because he went up so high, and nobody knew where he went to, he must be very clever, and know a great deal; for to go up very high (which she
could never do) was the Caterpillar's could never do) was
idea of perfect glory.
idea of perfect glory.
Now in the neighboring cornfield there lived a Lark, and the Caterpillar sent a message to him, to beg him to come and talk to her; and when he came she told him all her difficulties, and asked him What she was to do to feed and rear the
little creatures so different from herself. little creatures so dillerent forks you will be able inquire and hear something about it next time you go up high," observed the Cater pillar timidly. The Lark said, "Perhaps he should," but he did not satisfy her curiosity any
further. Soon afterwards, however, he further. Soon afterwards, however, he went singing upwards into
could not hear a sound. It is nothing to say she could not see him; for, poor
thing! she never could see far at any thing! she never could see far at any
time, and had a difficulty in looking uptime, and had a difficulty in looking up herself up most carefully, which she did now. But it was of no use, so she dropped upon her legs again, and resumed
her walk round the Butterily's eggs, nibbling a bit of the cabbage-leaf now and then as she moved alonig
"What a time the Lark has been gone!" she cried at last. "I wonder where he is just nowt I would give all my legs to know! He must have flown up higher than usual this time, I do think How I should like to know where it is that he goes to, and what he hears
in that curious, blue sky! He always sings in going up and coming down, but he never lets any seeret out. He is very, very colose!"
And the green Caterpillar took another turn round the Butterfy's eggs. At last the Lark's voice began to be
heard again. The Caterpillar almost jumped for foy, and it was not long before she saw her friend descend with hushed note to the cabbage bed.
"News, news, glorious news, friend Caterpillar!" sang the Lark; "but the
worst of it is, you won't believe me!" worst of it is, you wont beneve mel
I believe everything $I$ am told," observed the Caterpillar hastily.
"Well, then, first of all, I will tell you what these little creatures are to eat," and the Lark nodded his beak towards
the eggs. "What do you think it is to be ? Guess! " "Dew, and honey out of flow afraid," sighed the Caterpillar. Something simpler than that. Something that you can get at quite easily."
"I can get at nothing quite easily but cabbage-leaves,
"Excellent! my good friend," cried the Lark exultingly; "you have found it out You are to feed them leaves."
"Neve
"Never!" cried the Caterpillar indig,
nantly. "It was their dying mother's last request that I should do no such thing." "Their dying mother knew nothing about the matter," persisted the Lark.

It is step in the Germans are learning how to ge well otherwise than with beer, kran and turn-halls.

Make Social Drinking Unpoplar.
If social drinking in the society wor If social drinking in the society world
could be made unfashionable the cause could temperance would be greatly advanced. If social drinking among men could be made unpopular total abstinence would receive a mighty impulse. It is as a social custom that strong
drink begins its deadly work. The young man does not take his first drink because he likes it. He takes it because he thinks it will make him seem manly and up-to-date to do so, He and got off by himself to drink it. He may do that later on; but at first he drinks for the social pleasure he expects to derive from
${ }^{\circ}$ Temperance workers find their main fields of work among the children and
the drunkards.
One class devotes its chief efforts to pledging the children, and the other class applies its energies to saving the drunkard. But between these two extremes is the great recruiting ground of inebriety-the
drinking customs of the country.
drinking customs one the coure liquors
served at any hour when they are crowded with guests and it will seem to you that every patron of the establishment, whether man or woman, is
drinking cocktails, champagne or beer, drinking cocktails, champagne or beer,
with an occasional order for straight whiskey. Judging by such appearances you may think that drinking is largely on the increase. And perhaps it is true that there is more social drinking than
formerly. Modern demands have not formerly: Modern demands have not
reached this branch of the liquor problem. But it is believed that there is not so much drunkenness as there used to be. Not because people have become more abstemious in their desires, but because sobriety
The social drinker is in a sort of fool's paradise. He imagines he is having a good time; but he is blocking his way to advancement. The man who
carries a whiskey handicap has a hard carries a whiskey handicap has a hard
road to travel. Nobody wants him. The real rulers of the world have decided against whiskey. Railroads and corporations have adopted rigid rules with regard to strong drink. They will
not employ men who drink. They will not employ men who drink. They will
not continue in their employ men whi are known to use intoxicating liquor. Trades unions are begininng to bar the drinking man. They are finding him an expensive proposition. By their
rules there is a regular scale of was rules there is a regular scale of wages
for certain kinds of work. But the drinking man fails- to make good. He reduces the average and brings reproach on worthy members.
In these days of
small margins it is nese competition and small margins it is necessary for a man
to be at his best if he would succeed and no man can be entirely fit who is
and ever so slightly under the influence of strong drink.
Then there is the domestic, or home Then there is the domestic, or home,
side of the drink question. The man side of the drinks brings wretchedness and misery to his family. He is not a good
husband. He is not a good father. H husband. He is not a good father. He
defrauds those whom he has sworn to
ove and cherish. He robs them of their love and cherish. He robs them of their
birthright of honor and protection. If whiskey makes him vicious they fear him. If it makes him stupid they are ashamed of him. If he is poor they suffer deprivation and want. If he is rich they look to the time when bad management or neglect will reduce them
to poverty, and added to the humiliation of his habits there will be the discomforts of penury.
Whiskey has been driven from nearly every place of honor and trust. It is a ness and a menace to health. Even as a medicine alcohol has lost its vogue, and the best physicians seldom prescribe it.
But in spite of business requirements and domestic needs, social drinking con-
tinues. There is something incompre tinues. There is something incompre-
hensible about the tolerance of a cus. tom, which, if continued, may ruin a man's prospects.
Sobriety is stock in trade for the ambitious man. It open the door of opportunity. It gives him a chance to
utilize his ability. It converts ergy into cash. It materializes his as pirations. Inebriety blights ambition, closes the door to opportunity, parestroys the aspira-

Sobriety builds
Sobriety builds up. Inebriety pulls
down two are antagonistic. They have nothing in common. And yet, at the very time when sobriety is at the highest rate of premium, and drunkenness at the lowest rate of discount, we
are told that social drinking is on the increase.
There is more than a note or inconsistency in a policy that finds its plea-
sures in undermining its possibilitios sures in undermining its possibilities. lead to drunkenness; but nearly all drunkenness begins in social drinking The young man who begins to drink does not intend to become an inebriate. He means to be a moderate drinker. He nnows of prominent business men who
drink moderately, but who are respected drink moderately, but who are respected
and honored citizens. If he thinks at all, he thinks he will be like them. Unfortunately, there are plenty such men-men of wealth and prominence who, by their example, say to the young moderately." As has often been said in these columns, all men are not equally affected
by the poison of alcohol. Many men by the poison of alcohol. Many men
can never be moderate drinkers. them there is no half-way ground They must let drink alone or they will It must be remembered that the mod ate drinkers who occupy high posiNons have reached those positions in spite of their drinking practices, and
not because of them. While they mirht defend those habits in themselves they would be quick to object to them in Those who asked their assistance. There is no profession or position or ccupation where drinking habits are a they are not approved. Science and ndustry have pronounced against them It remains for fashion to say the final

## Correspondence.

The Bachelor.
The poor old bach, he has to
To get his day's work done; What with getting meals and other jobs Of rest he can get none.
of course he always keeps his place So very, very neat,
And when one chances into it
It always smells so sweet
You knock the door, "Come in," says he; You go in, but can't stay.
You feel obliged to hold your nose You feel obliged get away.
He'll ask-Have you had dinner yet?
You'll tell him yes, though starving You'll tell him yes, though starvin
You'd rather go without for weeks You'd rather go without for w
Than eat what he is carving

Some burnt up meat he tries to eat His bread is more like dough; And how on earth he drin
. You really do not know! His plates have not seen water
For more thatr a month you'd swear And his dirty, little, ill-kept shack
Does not boast of a single chair. From early morn till late at night He works and slaves a way, And does not seem one bit ahead
at the closing of the day.
Sunday, while his neighbors are at He washes all his clothes; He washes all his clothes; it's not the day it should be done,
But they need it, goodness knows His clothes are torn, his socks are wo His slirts, they all need mending And for the poor lone bachelor How long a man can live like that Is more than I can say;
But I suppose it will be so
But I suppose it will be so
Until the judgment day.
So girls, just make up your minds To do the best you can, nd pack your shoes into the trunk Of som nice young bachelor man. For they are not all monsters, no!
I know of more than one "beauty Who I can very safely say,
As husbands would do their duty

Who Will Write to Leona? Carnduff, Sask., May 14th, 1910 Sir.-1 am an interested reader of the W. H. M. and I enjey reading the letter and I like reading and writing letters very much. I am enclosing two
letters if you will kindly address them and send on, you will do me a favor, A farmer's daughter" Armstrong, B.C and "Only a Girl," Manitoba. I have written to your magazine but have no been so lucky as to get space for my
letters. I would like a few correspondetters. I would like a rew correspond in. tall, weigh 125 lbs., and have brown hair and eyes and rosy cheeks. I will
sign myself. "Leona of White Creek."

Thinks Marriage a Lottery.
Shellbrook, Sask., May 1st, 1909 pap.--Having been a reader of your dence so much, I take the liberty of girls and boys. Some are interesting, some comical and some are mushy, Some do not approve of matrimony by
correspondence; but when it is a lotcorrespondence; but when it is a pick
tery I think a person may as well pither tery think a person may as as after a year's courtship. Sone of the girls they to be looking for angels but if
them they will likely have their wings singed. Now for my des-
cription. II am 5 ft . 11 in. in height,
about 3 ft in circumference and weigh about 185 lbs . Am just in the twenties.
cute face and just lovely eyes. I am
somewhat awkward when in the company of ladies and my hands and feet seem to trouble me more than need be comfortable. I am quite attractive as all the ladies seem to stare at me and I oftentimes see them laugh. I like to have a pipe of tobacco occasionally
and if I meet a friend of my boyhood days, $I$ don't mind taking a drink, but I know when I I get enough. When I fall in the gutter, I quit. I will not tire you more, wishing the magazine and readers success. I hope to get a few let-
ters from ladies and others. I thank ters from ladies anble space.
you for your valuable
O. B. Joyful.

Does Not Approve of Marrying by Mail. Scobie, Ont., May 21, 1910. Sir.-I have been an interested reader
of the W. H. M. for several months, of the W. H. M. for several months,
especially in the correspondence pagc. especiall
I think some of the letters are very
fory Some of the boys and girls seem to write with the one idea and that of matrimony. How can anybody think of get-
ting married through correspondence only, is more than I can imagine. Those only, is more write and say that they are so handsome and good! Now, I believe that they are the worst kind. I'm got
looking for an angel; in fact I'm looking for an angel; all. I am stricty out of the matrimony list. 1 am 5 fee,
8 inches tall, weigh 120 , fair complexion, brown hair, bue eyes and as to my looks only skin deep. I can play thie are only skin deep. I can play the
piano or organ, sing a little, and also cook and housekeep very well. I am a farmer's daughter. I think that a pur and noble character Mr. Editor, I will not impose further on your time and good impose but before closing will ask you to be so kind as to publish this letter. For any one who wishes to correspond
with me, my address will be found with with me, my address will be found with the editor. Wishing you and your paper
every sucess.

A Would-Be Druggist.
New Westminster, B. C. Sir.-I have for a long time been an have never taken advantage of you correspondence columns. As you see, I live in the most westerly province of the bunch, and to say the least I am same appears to be to describe oneself, I appears to be to sum under twenty-two years of age, and am five feet ten inche In height, with weight to correspond
Have dark eyes, dark hair, and a light Have dark eyes, for business, I expect some day to be a druggist. Would delight to correspond with persons o either sex, especially with girls un
der eighteen. Those wishing to do so der eighteen. Those wishing to do
will find my address with the Editor. will find my address with "J. Johnson."

Become Acquainted.
Moose Jaw, Sask., May 14th, 1910 Sir.-Being an interested reader of pleasure in looking over the correspondpleasure column. I think it is quite essential that young people of both sexes should have the privilege of corresponding and by so doing become acquainted. form a grand opportunity for young folks to grand opportuanted. I notice a great many of the girls speak of the western bachelors. Well, girls, they are the stay at home-because they always have dishes to wash. I admire a young girl who sympathizes with a bachelo for I am one myself and I think I will soon have to make a change in am not
to household management. I one who would ask a woman to work in
side, and then go out to do chores. side and think it is right for a woman to for a man to bach. I have no objection

market to operate. By titing back the frame
antil until the weight rests on the wweels the the
churn can be quickly and easily movedchurn can be quickly and easily movedwhile the barrel remain upright. If your dealer doess not handie the "EREA,"

## Cancer Cure

R. D. EVANS, Discoverer of the desires alil who suffer with Cancer to write to him. Two days internal Cancer. Write, R. D. EVANS, BRANDON, MANITOBA.

When purchasing from Western Home Monthly advertisers, be sure and
prefer a good looker as it doesn't look prefer a good looker as of the common
very well to see two of class together. I am not expressing this
view of the question from a matrimonial view of the question rom experience. Of
stand point, but from stand point, bot fring to draw the line
course, I am not gion on the dear girls using the "pink rag" for if everyone had done so for the last ten years I am much afraid that this so much revenue derived from marriage licenses.
Well, Mr. Editor, I don't want to monopolize too much of your valuable space so I will now cut it short. Iair, al-
hlue eyes and brown curly hail though I'm not as good looking as some people think they are. I do not drink nor chew (except a little rag occasiongirl yho cares to write will receive a prompt reply and photos will gladly be exchanged. Now, girls, don't neglect writing Stay at home one night and write to me instead of going down town with that other fellow, who doesnt mis muddled
half as well. Hoping to see this dialect in print at some future date, I
will now sing off wishing the Western will now sing off wishing the Western Home Monthly every possible success,
Kindly forward the enclosed letter to "Kismet." I sign myself. "Nifty Kid."

From Two Western Hoodoos.
Haddington, Sask., May 4th, 1910 Sir.-Please allow two readers of your valuable paper to escape your big this burning question called matrimony sometimes, but often called something else, lottery. We believe that two young people of the opposite sex may find they are exactly suited to one another
through correspondence and who knows what may follow, though they should certainly exchange photographs as a lot can be learned by a face, I know it would in our case. Is others do but words fail me, and we might surprise some of the fair sex. We are both on the list but not listed and both homesteaders, We tried to make'some bread once. We kneaded it wouldn't move only when we moved it which was quite a trick, we put it into buns thinking that would help, but no so we played ball with it and then put it lowing spring the gophers wouldn't lowing spring the gophers would in
touch it. Of course our excuse was in yeast cakes. We would like correspond-
ents of the fair sex between 20 and 30 ents of the fair sex between 20 and 30
which would catch our ages, with not which would catch our ages, with not
over $\$ 1,000$, as money is no object with us, for we have great expectations. So hurry up, girls, and you will find our
address with the editor if he will he address with the editor if he will be
good enough to put this in print for we good enough to put this
are so sly and lonely.

From Old Nova Scotia.
Mahone, N.S., May 1st, 1910.
try a aain" is an old saving very suit able in my case. I have tried once and failed but shall do so again hoping to
meet with better success than previous meet with better success than previous
ly. I suppose I had better describe my ly. I st.ppose I had better describe my
self. I am very dark, have brown eyes, am of good height and weight, and am 18. I should like to correspond with "A Light Blue" also "Samson" both of the February edition. Now I am shy
and would like them to write first. if they feel inclined to do so they will find my address with the editor.
"Canadian Lassie."
Hasn't Much to Say.
Southey, Sask., May 1s, 1910. Sir.-While glancing over the cor-
respondence column of this month's respondence column of this month's
issue, I saw rather an odd description issue, 1 saw rather an odd description
of a young lady. It read samewhat
it like my own-might be reated. I have the most beautiful light hair, pink eyes, and a mustache. I also live in a good
farming district. I am very fond of all farming district. I am very fond of all
kinds of sports. Any of the fair sex wishing to hear
from me, will please have the editor forward their address to "The nld Batch."

A Teetotal Bachelor
Saskatoon, Sask., April 20, -910. Sire.-Having the pleasure of reading your paper, as my brother is a cub.
scriber, $I$ will hereby say $I$ am very in. terested in the W. H. M. The "Temperance Talk" and "The young man and his Problem" please me most, although I like
the paper all throigh. It is very the paper all throigh. It is very
interesting to read the letters in the interesting to read the letters in the
correspondence page. I don't believe in correspondhe matrimonial list, as I think they should be very well aqcuainted before taking the very important step. I like the girls who don't want a man to
drink whiskey. The world would be better if all the girls would say so before they got married. Think it would be
very interesting to correspond with very interesting to correspond with
people from other parts of the country. people from other parts of

answer all letters received.
Wishing the club every success.
"Princess Virginia."
Disconsolate Has Been Badly
Treated.
Buchanan, Sask., May 4th, 1910. sir.-Some one has said that when a
man is a fool he sits down and writes a
ant I think that the man who I replied to a letter which appeared in
the W. H. M. (to which I am a subseriber) nearly a yeat ago. I got a
eeply and oh! she can certainly write a eply and oh! she can certainly write a
ice letter. We corresponded regularly or nine months. We exchanged photos asked her if she would come West with me and she didn't say she wouldn't.
naturally thought she would and was oing after her but she wrote to say oing atter her but she wrote to say er. She would be glad to see me all ight and would give me a good time tc., etc. 1 , of course, did not stop he wrote last month to tell me that she promised one of the western bachelor rom Alberta last July to marry him and purpose. Now wouldn't that jar you t certainly did me. Why didn't she tel me then? Is it a weakness of the se that they like to give us poor mortal pain?
I supp hould now stop shaving, let my hai grow, turn grey and retire to my farm in Saskatchewan and become a hermit an if I should become wealthy, when I die
ieave all my wealth to her heirs. But leave all my wealth to her hers. it is to
think the best way to get over get tangled up again as quickly a
possible. Therefore I would ask any o your fair readers either maid or widow, say over 25 if they will try to forget the
suffering man I will past as soon as possible and reply to al of them.
I was born in 1871 . I am 5 ft . 11 in high, weigh mustache and I think I am good enough looking. Now please writ good enough looking. Now please writ
to me. My address is with the editor.,

## Eventful Life

Colonsay P. O., Sask., May 17th, 1910 Sir.-I have been a months, and during this short space of time, I am convinced,
the writing is because I am interested in th correspondence porents are French, hence my "nome de plume." I came to Canada when I was 16 years old, and since then I have been in several parts of the North American continent. I lived six months in
British Columbia and Alaska and I guess I was as near to the North Pole as was the famous Dr. Cook. Whilst in these regions I worked in the a homestead in Saskatchewan and lived there for six months. During this time iearned In the spring I went to work on a farm and I soon found out that it took more than two seasons' experience to farm. Whe the
came to threshing time I had position of fireman and here I"gained quite a little knowledge. By snow large was in chicago, as a clerk. This seemed to be a fine job, but after three or four months I noticed a change between the open air and the inside of a store, so
determined to go back to the prairies. 1 arrived at the homestead and stayed three months then I went to work for a neighbor for a while until harvest, then
vent to work in the railroad shops as a car repairer's' helper.
Having been home a week or so now, Having been ho write the W. H. M
have got time to
Well, from all my travels and occupations, I am convinced that the
farmer is no "green horn" to the outsid world, for as to my own personal
nowledge, I can apply any of the numerons trades I have worked at to
numer
different branches of farming. Generall different branches of farming. Generally
peaking the genuine farmer is a well speaking the genuine farmer is a wel I am highly pleased with the W. H. M. as it affords me the great pleasure of
reading the different views of every day readie. To conclude I may as well descrit myselo. Complexion dark. Hair black, curly Eyes grey. I am a lover of out Foor a sports and like musie very much. For
hobby I have taken up photography.

Milestone, Sask., May 24th, 1910 .
Sir.-Would you allow me to write Sir.-Would you allow me to write a
letter for publication in the W. H. M. question. It seems as if the matrimon signing himself "The loctor" of Meridan, Sask., has got very lofty ideas.
Speaking firstly, Mr. Doctor, you say letters of the columes a man over th stamp and ability should study these
letters thoroughly in place of musing over them, as you say.
Secondly you say you would not be Second with a homestead if you had
bothered wor you is this, you could handle the condition of a homestead better than the Thirdly, you say you would not 1
bothered with a girl if you had the learning of a ductor. Nir. Doctor,
believe it is the girls who would not b

Fourthly, you say you neper saw au
good tooking girl. good looking girl. Well, I believe you's
never were away from your mother's
apron or else you $\varepsilon$ cre a woman hater or you imagine when you look in th looking glass at your miserable self that
you are looking at the best looking man on the face of the globe Fifthly, you say some girls like fellows who dance, play cards, throw dice, use profane language. Mr. Doctor,
I believe when you see yourself you will i believe when you see yourself you win of
wish you had gone to bed instead writing to the W. H. M. and making your lofty ideas and principles known
all over Canada and among foreign eaders of the W. H. M
tou say from the telephone exchange honorable climb for a woman. Mr Doctor, come down the ladder a little For man, you say from bank clerk to Doctor is not a common laborer as goo as a doctor. Any place from common laborer to the King of England, 4 .- wouta be an trons srable climb for man Mr. Doctor get down and reason this thing out with a little horse brains. Any phere of life no matter what it is a ong as it is made honest and upright is not a common laborer got equal or better chance of Heaven than a doctor?
You say after reaching the highest shere of life you can look back on your old school mates struggling with a team
of oxen. Mr. Doctor, did you ever consider that the smartest and richest and feel proud of it. Do you know many of the lawyers of the city of Regina hav But a hobo calling himself a doctor he would consider it a disgrace to ride
behind. Lastly speaking you ask the ehind. Lastly speaking you ask the
girls between 15 and 18 years of age to write to you. That goes to prove you
are only a young lofty boy. Trusting have not stepped on your toes too har and that you will get down and reaso this out with good common sense instea
f lofty ideas. Mr. Doctor, you are mor likely to succeed in your business career if you comply with my request and not lose a month's sleep. Thanking the
editor much for publishing this letter."
"Canada Farmer."

## Archibald Criticised.

Morris, Man., April 16th, 1910. the Western Home Monthly for a yea so and find the letters in the correspondence very interesting, especial-
ly the letter signed "Archibald" in the I am five feet nine inches tall, weig 129 ins., have biue eyes, and am between
20
and 25 years old. Just the style of wife to suit Archibald! You just bet
can cook, and would meals ready for him, providing I ha pleny of red pepper and fuel, but of in those necessarics. T'm keep whirlwind at raising chickens, and being Of course he would handle the purse Why not? A woman would only lose the A hushand of such unhounded gen-
erosity at to provide two kitchen dresses and a possible good one all in one year must be a catch. He surely
won't want for a wife long. But I'm sure 1 bould do with ongent as that it occasionally and dyeing it when colors wore out, providing he would lend milking the of ows and feeding the whe As for the smile when he comes home naturally smile all the time, and of course the chores would always be don
What clothes on would want to go out and do Hoping my list of accomplishments Will meet with Archibald's approval,
look hopefully into the future.
"Batty OToole",

A New Arrival in Canada Sir--1 have been a rearch of your val
uable paper for the last nine month.

## HEADACHE

 AND
## Burdock Blood Bitters

The presence of headache nearly alway tells us that there is another diseas which, although we may not be aware
it, is still exerting its baneful influence and perhaps awaiting an opportunity to assert itself plainly.
Burdock Blood Bitters has, for years,
been curing all kinds of headaches, and is been curing all kinds of headaches, and i will do for you what it has done for thouMrs. John Connors, + Headache + and $+\quad$ Cured. $+\quad$ Cured. + Burlingtonn.S. writes:-"I have been asker trying different do asked me to try Burs medicine a friend find I am completely cured after havin mend it to ball",

## You Need This Book

 F'TER you use it awhile, you'11 wonder how
you ever got along without it. Every-
thing is so simple and clear and practical it's just like having some wise old cook at your elbow. And with so many dishes to choose from, both old and new, there's no need of cooking the same old things time after time. Even if you have a fairly good one already
y need the Blue Ribbon Cook Book. It is specially prepared for everyday use in
Western homes and is practical and up-to-date. For instance, all ingredients are given by measure instead of weight, so you do not need scales.

## For Everyday Use

Not a cheap advertising booklet, but a
complete, reliable coak complete, reliable cook book, strongly bound,
clean, white, washable oilcloth. And here's clean, white, washabl
your chance to get it.
I Send 75 c. for Western Home Monthly for one year and we will send I Send 75c. for Western Home Monthly for one
you a copy of Blue Ribbon Cook Book, FREE.

## In Lighter Vein.

## He Felt It.

 The man got into the tramcar and crowded into a seat next to a sharpiaced woman in the corner. He squeezed her up against the end of the car, took out a newspaper, and, shoving it haff across her face, began to read She stood it for
when she said:-
He dropped his you a married man? her. dropped his paper and looked a her. "Yes," he replied curtly. "I thought lit she went on. "Isn't your wife a little woman that caynt
say her soul's her own, and lets you say her souns all you want to?" "I don't impose on her madam," he said stiffly.
"You don't let her impose on you much,

## A Born Lunatic.

## "Professor, you say you are at solving riddles, don't you?" t solving riddles, don't you?" an expert

 "I claim that I am, my boy","Well, then, can you tell me why a man who has seen London on a foggy day and a man who has not seen London on a foggy day are like a ham sandwich?" Finally, at his wit's end, he said: "I give it up." the mist and the reply, "one has seen scene. Ha ha- Cheh on?" missed the "Of course I do, you lunatic! But what has the sandwich to do with it?" After the youngster had recovered from
a spell of laughter he chuckled: "Oh, a spell of laughter he chuckled:"Oh,
that's what you bite on."-The Circle.

A Surprise For Jim
A mission worker in New Orleans was visiting a reformatory near that city not
long ago when she observed among the inmates an old acquaintance, a negro lad long thought to be a model of integrity. " "Jim." exclaimed the mission, worker. "Is it possible I find you here?" backslider. "I's charged with stealin' a barrel o' sweet pertaters."
The visitor sighed. "You, Jim!" she
repeated. " am surprised!" repeated. ", an surprised! wouldn't be here! "-Lippincott's Mag

A Man of Many Offices.
Mr. Gilbert's "Pooh-Bah" was clever at accumulating offices and titles, but a
Maine man whose biography has been printed seems to have the advantage of who wat chgaged on a narrow-gauge rail-
way, gradually became director, general Way, gradtalyy became director, general
freight-and-passenger-agent, purchasing-
abent, station-agent, conductor, agent, station-agent, conductor, brake-
man, baggage-master, mail-clerk, expressman, bagrage-master, mail-clerk, express-
agent and telegraph-operator all at the agent and telegraph-operator all at the
same time. When, he was elected town treasurer four years ago somebody complimented him with the remark that, so
far at the town and the railroad were far as the town and the railroad were
concernend, he seemed to have no more worlds to conquer. But then, with a workse in his eye, the man, of many
twinkle
offices told a story of a farmer who, visiting the city, was congratulated on his ap-
pointencat as post-master. "You must be
quite a man in your town now, Silas,"
remarked the friend. "Well, yes," an swered Silas. "You see, besides befing postmaster, I am the town clerk, a mem ber of the school committee, tax-collector, ed up our way, express-agent, and road commissioner.," "Is that so, Silas? You must hold pretty near all the important offices in your Yown. No, said Sila Well, he's constable."

## The Double Dose

The appearance of the applicant for the vacant post of porter warranted the be lief that he had quarrelled with soap and water for many years.
badly needed, labour scarce, and the manger decided to give him at least a chance "Here, my man," he said, handing him a shilling, "go out and take a bath
Then come back, and maybe I'll take you The man started for the door. Then he turned back. "Wot shall I do with the change, guv'ner?" he asked huskily., "if there" any change left, take another bath!"

## No Shirking.

There is a big, joyous hearty way of accepting what life brings you, but
women have not been taught as men have that it is a disgrace to shirk. They see to think it the proper thing to do, or find ing shirking out of the question the
are prone to settle down, to relinquish impressions of romance, renounce artis tic instincts and narrow themselves to what they call the practical. In this they hugely abuse the practical. A wo man may be practical waughter that made her girlhood so lovable.
Indeed, if she is thoroughly practical she will see that it is her own personal ity she should cultivate for her ow sake, rather than stupid economies an
hard, morbid sacrifices by which she de liberately destroys much of her femin ine grace and charm.

Hospitable
Policeman (to tramp)-I want your name and address. Tramp (sarcastically)-Oh, yer do, do Tramp (sarcastically)-Oh, yer do, do
yer? Well, me name is John Smith, an' me address is Number One, the open air but just walk in.-Scotsman.
"Any Excuse is_-"
When Herbert went over to Paris for a two weeks' stay, his mother primed
him with instructions of every descrip tion-what to say to the Customs officials, how to avoid the Apaches, how
much to pay the "cabbies," and, above much to pay the "cabbis,
all, what to pack up in his bag. He was a very young man, and before
he landed in France he was seasick, and he landed in France he was seasick, and when he landed in France he was homesick. For two days he stood it, and the
booked his passage back to London. booked his passage back to London.
When he rang the bell at his home in Hampstead, his mother opened the door.
" Why, Herbert,". she exclaimed, " what is the matter?" "Oh, please", answered. Herbert inno-
cently, holding out his hand, "I forgot my toothbrush! "

## A Rude Awakening

It was a cold, dark night, but Sandy and William were happy, because there young lady in them the most charming young lady in Farsley. It was a spirited
horse they had hired, and the trap bowled merrily along o'er moor and fell. William held the reins, and as he could that y his serceive, in spite of the darkness, occupied. he slipped his own disengaged nccupied. he slipped his own disengaged
hand into it, and-well, two hands were Sery pressing each other. And so
the happy moments flew, and the drive hom. came almost to an end.

The Western Home Monthly.
Whnilpes, June, 1910.

| my muff," said the young lady, presently, | $\begin{array}{l}\text { removed the stopper, took a smell, and } \\ \text { "I }\end{array}$ 保 |
| :--- | :--- | "I trust you will not my with the cold!

Then dark suspicion fell upon her two admirers, for things are not always what they seem. And William and Sandy are sworn enemies now.

## Meaning Not Clear

"Why," asked the good man's wife, "are you so thoughtful? You look ass," something disagreeable had happened."
"Perhaps," he replied, "I am foolish to. feel as I do about it. My congregation has raised a purse for the purpose of sending me to Europe."
And are you sorry it isn't large enough to enable you to take me with you?
Don't let that cause you to feel depressed. It will be very lonely here without you, but I know you need the rest, and I shall be very sensible. I can spend the summer at some quiet, inexpensive place,
cheered by the thought that you will recheered refreshed in mind and body." "It is very good of you to look at it in that way, my dear. I appreciate your
feeling. But the gentleman who made feeling. But the gentleman who made
the presentation speech said he was the presentation speech that had been raised was not larger, so that I might be able to remain away longer, and somehow it seemed to me that the applause wase else in the course of his remarks."-The Independent

British Politics-The strugglo for supremacy.

A Case for the Lawyers Uncle Mose, needing money, sold his pig to the wealthy horthern bought the neighboring plantation. After a time, needing more money,
he stole the pig and resold it, this time he stole the pig and resold it, this tim road a piece." Soon afterwards the two gentlemen met and, upon comparing gontes, suspected what had happened They confronted Uncle Mose. The old darkey cheerfully admitted his guilt. whell," demanded Judge what are you going to do about it?"
"Blessed if I know, Jedge," replied Uncle Mose, with a broad grin. "I'se no lawyer. I recken I'll let yo' two gen'men
settle it between you'selves."-Cleveland settle it
Leader.

## A Bird-Cage

The prisoner was before the bar of justice for having been before some other "What we
street?" asked the magistrate.
"Was I drunk?" was the rep!y i:1 a
tone of surprised innocence. . " The policeman says you were."
"Une por oath?"
"Certainly."
"Perhaps he's right; but I was just, going along with a bird-cage in my hand," the prisoner. "Do you call that a bird-cage?" he
inquired. "That's what you were carry
The prisoner picked it up carefully,
through. Do you understand?" "I understand., But where does the insult che in ?" "It-it came in the p-p-postcript," cried the wife, bursting pint-P-S,-

## SELF-DESTRUCTION

Every act, every thought, every rush of passion, every emounon, every move ment of muscle of our bodies, just as every step in walking helps to wear out our shoes. Food repairs the loss to some extent, but the powver to digest food grows less, with use, from year to
year. That is the reason, sooner or year. That
later, we must die.
Now take note. The faster you live, the more you waste; the more you throw away, the sooner you come to
the end. the end.
Once more. The great waster, the
great thief of life is illness. Then you great thief of life is whass. Then you lasted a year, and (remember!) not merely of flesh and strength, but of the power
Here is where Mother Seigel's Syrup
does its wonderfut work. It gives you back lost power. Not all of it, for when you could live for ever, but most of it. Convincing proof of this is afforded by the case of Mrs. John W. Mc-
Gregor, of McLarty, Algoma District, Gregor, of McLarty, Algoma
Ont. Writing on January 25, 1910, Mrs. McGregor says:-
"At the early age of fifteen I began to suffer distress after eating. The
action of my bowels was irregular. I
coold sleep only by snatahes. My face
was pple, and frequently 1 had severe pains in my back. In 1888 I first began to use Mother Seigel's Syrup and I
found t at it nelped me. I used the found t.at it nelped me. I used the
Syrup with the best results, and I have had no further need of it for twentysix years. I have unbounded confidence in this remedy.
Mrs. McGregor had no further need
for Mother Seigel's Syrup berause it for Mother Seigel's Syrup because it re--
stored her stomach, liver and bowels to stored her stomach, liver and bowels to
healthful working order, and for healthful working order, and for
twenty-six years they have done their digestive duty. The cures affected by Mother Seigel's Syrup are not only sure and speedy, but permanent too. Mrs,
McGregor has proved this. Prove it yourself.
Mr. John Stewart, of Piper's Glen, Inverness Co., N.S., wricing us on January 31, 1910, says he owes the present Sood state of health to Mother Seigel's
Syrup, and proves the assertion by stating the following facts:-
He says: "A few years ago I was
troubled with indigestion and loss of troubled with indigestion and loss of sume a serious aspect. After suffering for sometime, your preparation was recommended to me as a possible help,
and I commenced to take it. The Syrup did me a great deal of good, and art ime entirely cured."

The $\$ 1$ bottle contains $\begin{gathered}21 \\ 50 \text { times as much as the }\end{gathered}$ A. J. White \& Co., Ltd., Montreal.

INDIGESTION
MEANS:-

## WRETCHED DAYS. WAKEFUL NIGHTS. <br> TORTURING PAIN. CHRONIC WEARINESS.

It means being "done up," " played out," bowled over," "good for nothing," all the day and every day. It means starved blood, starved muscles, a starved body and a starved brain; in short, it means ruined health and a broken-down system cnless you root it out, without delay.

MOTHER
SEIGEL'S SYRUP

Mother Seigel's Syrup is the standard remedy for indigestion in sixteen countries. Its unrivalled reputation is backed by nearly forty years' unbroken success in curing indigestion, biliousness, constipation and all diseases arising from a disorded condition of the stomach, liver and bowels. Mother Seigel's Syrup is made from the extracts of certain roots, barks and leaves which exert a remarkable curative and tonic effect on the stomach, iver and This is the testimony of tens of thousands of persons whom it has cured after all other medicines had miserably failed. Here is a case in point:- Five years ago I began to feel out of sorts; felt weakness and lack of energy 1 had never felt before. I lost my appetite, and when I did eat a little I always had pains in my back and chest. I had headaches, giddiness, unpleasant breath and coated tongue. I began takıng Miother Seigel's Syrup and

Tho, with gold, Tho never could read, yet lettered Tho' blind I'm enlightened; tho' loose I'm always in black and I'm always in white.
I'm gray and
and light In form, too, I differ: I'm thick and I've no flesh, I've no bones; yet I'm covered with skin. I've more points that the compass; I sing without voice; without speaking I'm English, I'm German, I'm French, and I'm Dutch.
Some love me too fondy; some slight I often die soon, tho' I sometimes live And no monarch alive has so many
