Mr. Cuvillier said,

May it please your Excellency;

According to law, the Legislative Assembly have proceeded to the election of a Speaker; I am the person upon whom their choice has fallen.

If, in the execution of the important duties of my station, I should at any time fall into error, I entreat that the fault may be imputed to me and not to the Assembly, whose servant I have the honour to be; and that they may be the better enabled to discharge their duty to Her Majesty and their country, I do in their name, and on their behalf, by humble petition, lay claim to all their rights and privileges, particularly that they may have liberty of speech for the better management of their debates, access to your Excellency's person on all reasonable occasions, and that their proceedings may receive from your Excellency the most favourable interpretation.

The

Writ summoning the Hon. Gabriel Roy to the Legislative Council.

Speaker reports
a copy of his
Excellency's
speech;

The Honourable the Speaker informed the House, that he was in possession of a copy of his Excellency's Speech, which he read, and it was again read (*pro forma*) by the Clerk, and is as follows:—

*Honourable Gentlemen of the Legislative Council; and
Gentlemen of the House of Assembly,*

The speech.

I have deemed it right to assemble you at the earliest period which the circumstances of the Province, and the duties imposed upon me by the Imperial Act for the Union of the Canadas, under which this Legislature is constituted, have admitted; and it is with sincere satisfaction that I now meet you to deliberate on the great and important interests committed to our charge.

A subject of Her Majesty, an inhabitant of this Province, has been forcibly detained in the neighbouring States, charged with a pretended crime. No time was lost by the Executive of this Province in remonstrating against this proceeding, and provision was made for ensuring to the individual the means of defence, pending the further action of Her Majesty's Government. The Queen's Representative at Washington has since been instructed to demand his release. Of the result of that demand I am not yet apprised, but I have the Queen's commands to assure Her faithful subjects in Canada of Her Majesty's fixed determination to protect them with the whole weight of Her power.

Arrangements were completed during the course of last summer by which, under the directions of the Treasury, the rates of Postage between all parts of this Colony and the United Kingdom were greatly reduced; and a more speedy and regular conveyance of letters between different parts of this Province has since been established by arrangements made by the Deputy Post Master General under my directions. A Commission has been appointed by me to inquire into and report upon the whole Post Office system of British North America, and I confidently anticipate that the result of its labours will be the establishment of a plan securing improvements in the internal communication by Post within the Colony, equal to those which we have already obtained in the communication with the Mother Country.

Many subjects of deep importance to the future welfare of the Province demand your early attention, upon some of which I have directed Bills to be prepared, which will be submitted for your consideration.

Amongst them, first in importance at the present juncture of affairs, is the adoption of measures for developing the resources of the Province, by well considered and extensive public works. The rapid settlement of the Country—the value of every man's property within it—the advancement of his future fortunes, are deeply affected by this question.

The improvement of the navigation from the shores of Lake Erie and Lake Huron to the ocean—the establishment of new internal communications in the Inland Districts, are works requiring a great outlay, but promising commensurate returns. To undertake them successfully large funds will undoubtedly be required, and the financial condition of the Province as it stands at present, would seem to forbid the attempt. But I have the satisfaction of informing you that I have received authority from Her Majesty's Government to state, that they are prepared to call upon the Imperial Parliament to afford their assistance towards these important undertakings. In the full belief that peace and tranquillity will be happily re-established in this Province, under the Constitution settled by Parliament, and that nothing but a relief from its most pressing difficulties is wanting to its rapid advancement to prosperity, they will propose to Parliament, by affording the guarantee of the Imperial Treasury for a loan to the extent of no less than a million and a half sterling, to aid the Province for the double purpose of diminishing the pressure of the interest on the Public Debt, and of enabling it to proceed with those great public undertakings whose progress during the last few years has been arrested by the financial difficulties. I shall direct a measure to be submitted to you embracing a plan for this purpose, and I shall lay before you, for your information and that of the People of Canada, extracts from the despatches which convey to me this most gratifying assurance.

In immediate connexion with the outlay of capital upon public works is the subject of Emigration, and the disposal and settlement of public lands. There exist within this Province no means so certain of producing a healthy flow of Immigration from the Mother Country, and of ultimately establishing the Immigrant as a settler and proprietor within the Colony, as the power of affording sure employment for his labour on his first arrival. The assistance of Parliament, for the public works which may be undertaken here, will

in

in a great measure provide for this; but with a view further to aid Immigration, I am authorised to declare to you, that Her Majesty's Government are prepared to assist in facilitating the passage of the Immigrant from the port at which he is landed to the place where his labour may be made available, and that a vote of money for this purpose will be proposed to the Imperial Parliament. The conditions which Her Majesty's Government attach to this measure will be submitted to you, at the same time that I shall draw your attention to a scheme for the settlement and disposal of the public lands.

It appears highly desirable that the principle of local self-government, which already prevails to some extent throughout that part of the Province which was formerly Upper Canada, should receive a more extended application there, and that the people should exercise a greater degree of power over their own local affairs. I have directed a measure upon this subject to be submitted to you, and I solicit your earnest attention to the establishment of such a form of local self-government for those Districts of the Province which are unprovided with it, as may ensure satisfaction to the people, whilst it preserves inviolate the prerogative of the Crown, and maintains the administration of Justice pure from party and popular excitement.

A due provision for the education of the people is one of the first duties of the State, and in this Province especially the want of it is grievously felt. The establishment of an efficient system, by which the blessings of instruction may be placed within the reach of all, is a work of difficulty—but its overwhelming importance demands that it should be undertaken. I recommend the consideration of that subject to your best attention, and I shall be most anxious to afford you, in your labours, all the co-operation in my power. If it should be found impossible so to reconcile conflicting opinions as to obtain a measure which may meet the approbation of all, I trust that at least steps may be taken by which an advance to a more perfect system may be made, and the difficulty under which the people of this Province now labour may be greatly diminished, subject to such improvements hereafter as time and experience may point out.

Gentlemen of the House of Assembly:

The financial accounts of the Province will be immediately laid before you, and I shall direct the estimates for the public service to

be submitted to you with the least possible delay. I rely upon your co-operation in the financial measures which it will be my duty to propose to you, for taking advantage of the assistance which Her Majesty's Government propose to afford, and for carrying into effect the public improvements which are deemed most desirable. I shall earnestly endeavour that whatever you may appropriate for this latter purpose shall be economically employed and rendered effective.

Honourable Gentlemen, and Gentlemen:

In your wisdom and prudence I confide for the regulation of the different important matters which must necessarily come before you. Canada, united under a Constitution which the Imperial Legislature has framed with an earnest desire for the welfare of this portion of the British Empire, cannot fail to prosper under prudent and sage counsels. The generous aid which I have already announced to you—the determination which I am also empowered to state on the part of the Government to devote annually a large sum for the military defences of the Province—the fixed and settled determination which I have the Queen's commands to declare, that Her North American possessions shall be maintained at all hazards as part of Her Empire, are pledges of the sincerity with which the Mother Country desires to promote the prosperity of Canada, and to assist in the well working of the new Institutions which it has established. The eyes of England are anxiously fixed upon the result of this great experiment. Should it succeed, the aid of Parliament in your undertakings—the confidence of British Capitalists in the credit you may require from them—the security which the British people will feel in seeking your shores and establishing themselves upon your fertile soil,—may carry improvement to an unexampled height. The rapid advance of trade and of immigration within the last eighteen months, affords ample evidence of the effects of tranquillity in restoring confidence and promoting prosperity. May no dissensions mar the flattering prospect which is open before us—may your efforts be steadily directed to the great practical improvements of which the Province stands so much in need; and under the blessing of that Providence which has hitherto preserved this portion of the British dominions, may your counsels be so guided as to ensure to the Queen attached and loyal subjects, and to united Canada a prosperous and contented people.

A Committee appointed to draft an Address in answer thereto.

Ordered, that a Committee be appointed to draft an address to the Governor-General in answer to His Excellency's Speech at the opening of the Session; and,

Ordered, that the Honourable Messieurs *DeBlaquiere, Sullivan, Morris, Quesnel* and *Bruneau*, do compose the same for that purpose.

A Committee appointed to prepare and report a code of Rules for the guidance of the House.

Ordered, that a select Committee be appointed to prepare and report, at the earliest convenient opportunity, a code of Rules for the guidance of this House, and that the Honourable Messieurs *DeBlaquiere, Morris, Quesnel, Macaulay*, and *Bruneau*, do compose the said Committee; and that it be an instruction to them in considering what rules may best preserve the privileges and facilitate the business of this House, to consult the practice of the House of Lords, as well as the rules of the Legislative Councils of the late Provinces of Upper and Lower Canada.

Clerk instructed to open an account with the Post Office for the Postage of Letters.

Ordered, that the Clerk of this House be instructed to open an account with the Post Office, for the postage of letters to and from the Members, during the Session, and to include the same in his contingent account.

MAY IT PLEASE YOUR EXCELLENCY :

We, Her Majesty's dutiful and loyal subjects the Legislative Council of Canada, in Provincial Parliament assembled, humbly thank your Excellency for your Excellency's gracious Speech from the Throne, at the opening of this, the first Session of the Provincial Parliament.

We thank Your Excellency for assembling the Legislature of United Canada at the earliest period which the circumstances of the Province, and the arduous duties imposed upon your Excellency by the Act of Union admitted; and we participate most fully in the satisfaction expressed by your Excellency on your Excellency's meeting the Provincial Parliament to deliberate on the great and important interests committed to their charge.

We learn with feelings of deep indignation the injurious detention in the neighbouring states, of one of Her Majesty's subjects, an inhabitant of this Province, charged with a pretended crime. We gratefully acknowledge the promptness of the Provincial Government in remonstrating against this proceeding, and in insuring to the individual the means of defence pending the further action of Her Majesty's Government, and we confidently hope that the demand made by the Queen's Representative at Washington, may be acceded to, in the spirit which ought to actuate an enlightened and friendly nation.

We assure your Excellency of our warmest gratitude to our beloved Sovereign, for Her Majesty's gracious expression of Her determination to protect Her faithful Subjects in Canada, with the whole weight of Her power.

We feel great satisfaction at being informed by your Excellency, that arrangements were completed during the course of last summer by which, under the direction of the Treasury, the rates of Postage between all parts of this Colony and the United Kingdom have been greatly reduced; and that a more speedy and regular conveyance of letters between different parts of this Province has since been established by the Deputy Post Master General, under your Excellency's directions, and that a Commission has been appointed by your Excellency to inquire into and report upon the whole Post Office System of British North America; and we rejoice in your Excellency's confident anticipation, that the result of the labours of the Commission will be the establishment of a plan securing improvements in the internal communication by post within the Colony, equal to

those which have already been obtained in the communication with the Mother Country.

We assure your Excellency, that we will devote our early attention to the important subjects, upon some of which your Excellency has directed Bills to be prepared for our consideration.

We acknowledge the primary importance of the adoption of measures for the development of the resources of the Province, by well considered and extensive public works; and we cordially concur in the opinion expressed by your Excellency, that the rapid settlement of the country the value of every man's property within it, and the advancement of his future fortunes are deeply affected by this question.

We feel most grateful for the determination of Her Majesty's Government, of which we are informed by your Excellency, to call on the Imperial Parliament to afford their assistance towards the improvement of the navigation from the shores of Lakes Erie and Huron to the Ocean, and to the establishment of new internal communications in the inland Districts.

We are fully sensible of the importance of these undertakings, and of the benefits to be derived from them, as well as of the necessity for the aid so generously offered by Her Majesty's Government, and uniting with them in the full belief that peace and tranquillity will be happily re-established in this Province under the Constitution settled by Parliament, and that nothing but a relief from its most pressing difficulties is wanting to its advancement to prosperity. We humbly express our gratitude for the proposal intended by Her Majesty's Government to be made to Parliament, of affording the guarantee of the Imperial Treasury for a loan to the extent of no less than a million and a half sterling, to aid the Province, for the double purpose of diminishing the pressure of the interest upon the public debt, and of enabling it to proceed with those great public undertakings, whose progress during the last few years has been arrested by financial difficulties. We will assiduously consider the measure to be laid before us by your Excellency's direction, embracing a plan for this purpose, and receive thankfully extracts from the despatches which convey to your Excellency this most gratifying assurance.

We assure your Excellency that we shall give our best attention to the subjects of Emigration, and the disposal and settlement of Public Lands, as well as the means which may be devised for affording sure employment for

the labour of the Immigrant on his first arrival; and we gratefully acknowledge the benign intentions of Her Majesty's Government, to assist in facilitating the passage of the Immigrant from the port at which he is landed to the place where his labour may be made available, by proposing to the Imperial Parliament a vote of money for this purpose.

We concur with your Excellency in the opinion, that it is highly desirable that the principles of local self-government, which already prevail to some extent throughout that part of the Province which was formerly Upper Canada, should receive a more extended application there, and that the people should exercise a greater degree of power over their local affairs. We will consider with the most earnest attention any measures which your Excellency may be pleased to lay before us for the establishment of a form of local self Government for those Districts of the Province now unprovided with it, as may ensure satisfaction to the people, while it retains inviolate the prerogative of the Crown, and maintains the administration of justice, pure from party and popular excitement.

We are peculiarly sensible of the necessity for a due provision for the education of the people, the want of which in this Province is grievously felt. We feel the establishment of an efficient system, by which the blessings of instruction may be placed within the reach of all, to be a work of difficulty; but that its overwhelming importance demands that it should be undertaken. We assure your Excellency that we shall give this subject our best attention. We humbly thank your Excellency for your Excellency's offer to afford us your Excellency's co-operation in our labours; and we trust, that if it should be found impossible so to reconcile conflicting opinions as to obtain a measure which may meet the approbation of all, that at least steps may be taken by which an advance to a more perfect system may be made; and the difficulty under which the people of this Province now labour may be greatly diminished, subject to such improvements hereafter as time and experience may point out.

We most cordially thank your Excellency, for your Excellency's confidence in the prudence and wisdom of the Legislature, for the regulation of the different important matters which must necessarily come before them.— We think with your Excellency, that united Canada, with a Constitution which the Imperial

Legislature has framed with an earnest desire for the welfare of this portion of the British Empire, cannot fail to prosper under prudent and sage counsels. The generous aid announced by your Excellency; the determination which your Excellency states on the part of Her Majesty's Government to devote annually a large sum for the military defences of the Province; the fixed and settled determination which your Excellency, by the Queen's command, declares that Her North American Possessions shall be maintained at all hazards as part of Her Empire, we gratefully receive as pledges of the sincerity with which the Mother Country desires to promote the prosperity of Canada, and to assist in the well working of the new Institutions which it has established.

It is most gratifying to us to be assured by your Excellency, that the eyes of England are anxiously fixed on this great Experiment; and that should it succeed the aid of Parliament in provincial undertakings; the confidence of British Capitalists in the credit this Province may require from them; the security which the British people will feel in seeking our shores and establishing themselves upon our fertile soil, may carry improvement to an unexampled height. The rapid advance of trade and immigration within the last eighteen months afford us ample evidence of the effects of tranquillity, in restoring confidence and promoting prosperity; and we most fervently and thankfully unite with your Excellency in the patriotic wish, that no dissensions may mar the flattering prospect which is open before this Country; and that the efforts of the Legislature may be steadily directed to the great practical improvements of which this Province stands so much in need; and that under the blessing of that Divine Providence which has hitherto preserved this portion of the British Dominions, the Counsels of this Parliament may be so guided as to ensure to the Queen attached and loyal subjects, and to united Canada a prosperous and contented people.

necessary to afford to the Clerk, and what Offices and Departments it will be expedient to establish for the effective and orderly conduct of the business of the Legislative Council, what remuneration ought to be given to the Officers and persons to be employed in the Legislative Council," have given these subjects their most attentive and deliberate consideration, and now lay before your Honourable House the following, as the result of their inquiries.

Your Committee find, that in the House of Lords, the Officers of corresponding rank with the Clerk of the Legislative Council, the Gentleman Usher of the Black Rod, the Door Keeper, and the Sergeant-at-Arms, are appointed by the Crown.

The three first named Officers have, in accordance with that custom, been filled by Warrant of His Excellency the Governor General; the latter Office is still vacant, and it is the opinion of your Committee, that the dignity of Her Majesty's Government in this Colony, as well as that of the Legislative Council, requires that such an Officer, whose duties are similar to those of the Sergeant-at-Arms in the Legislative Assembly, should be attached to and attendant upon the Legislative Council; they therefore recommend that your Honourable House may address His Excellency the Governor-General, requesting that he may be pleased to appoint a Sergeant-at-Arms to the Legislative Council.

Your Honourable House are aware, that at the commencement of the Session, His Excellency the Governor-General appointed a Chaplain to the Legislative Council. As there is not any Chaplain in the House of Lords, prayers being read by one of the Lords Spiritual, although it appears that there was anciently a Chaplain, your Committee are not prepared to say whether the appointment of a Chaplain should rest with His Excellency or with the Legislative Council. In the Legislative Council of the late Province of *Upper Canada*, the Chaplain was appointed by the Lieutenant-Governor. In *Lower Canada*, prayers were read by the Bishop, when he was present, and during his absence, by one of the Clerks Assistant.

Your Committee respectfully suggest, that the following subordinate Officers and Servants are required for the Legislative Council.

Two Clerks Assistant,

Charles DeLery,

John F. Taylor.

Two additional Clerks Assistant,

C. W. Smith,

J. Fennings Taylor, Junior.

One Clerk of Committees, to officiate as Law Clerk and English Translator,

Robert Armour, Junior.

One Librarian, to officiate as French Translator,

Robert Lemoine.

One Head Messenger,

Michael Keating.

Three ordinary do.

John Bright,

Antoine Lachance,

John Fenwick.

And that it be the practice on all future occasions when a vacancy occurs in the Clerk's Department, that he submit to the Speaker a suitable individual to fill such vacancy, for the approval of the Legislative Council.

And when a vacancy shall occur in any of the situations held by the Messengers, the nomination of another Messenger shall be made by the Sergeant-at-Arms, and communicated to the Council by the Speaker, for approval. The Clerk of Committees and the Librarian shall be appointed by the House, from the applicants named by the Speaker.

Your Committee beg leave to submit a statement of the salaries paid to Officers and Servants, of the respecting Legislative Councils of the late Provinces of *Upper and Lower Canada*, together with a scale of salaries which they conceive would afford an adequate remuneration to the Officers and Servants of your Honourable House. In the meantime, the Committee deem it proper to mention that they are of opinion that the Officers in the Clerk's Department, and the Clerk of Committees, as well as the Head Messenger, should receive salaries sufficient to remunerate them for their entire services during the whole year, and that no part of the amount to be paid to them, or to the other permanent Officers and Servants, who are only required to attend during the sitting of the Legislature, should be provided for by an annual vote, and charged to the Contingent Accounts of your Honourable House, as was the practice in the late Provinces of *Upper and Lower Canada*.

Your Committee therefore recommend, that the payment of the salaries of all the Officers and Servants of the Legislative Council be provided for by Statute, as well to prevent applications to the Committee on Contingencies

cies for additional allowances, as to place the Officers, and the provision for their maintenance, on a satisfactory and permanent footing. The Committee think proper to record their sentiments against any practice or precedent that would sanction the payment of additional allowances to any of the Officers or Servants of the Legislative Council, beyond the salaries to be provided to them, and which should be considered as full remuneration for all the services which they may be required to render to your Honourable House.

Your Committee think proper to suggest, that in order to carry out, as nearly as may be, the organization of the Legislative Council in accordance with the arrangements in the House of Lords, it is convenient that the Clerk hold a Commission as "Clerk of the Parliaments," without, however, adding to the salary of that Officer.

The following order of the House of Lords your Committee recommend for the adoption of your Honourable House:

"That the Clerks and Inferior Officers attending this House shall not, at any time, be suspended or displaced from their Offices or employments without the leave of the House."

Before closing this Report, your Committee think it due to your Honourable House to explain their reasons for recommending the appointment of two Clerks Assistant, who may justly be regarded from their long and useful services entitled to equal compensation.

The Committee felt much embarrassment in deciding the precedence of the two gentlemen whose names they have submitted to fill those Offices. They had served nearly the same time in the respective Legislative Councils of the late Provinces. They are both faithful and highly respectable Officers, and although the Committee decided that Mr. *DeLery's* standing was highest, yet so nearly alike were the claims of both, that the Committee deem it an act of justice to place them on a par as to salary. This arrangement is forced on the Committee by circumstances growing out of the Union of the Provinces, and should not be looked to as a precedent to justify the appointments of two Clerks Assistant with equal salaries in future.

All which is respectfully submitted.

W. MORRIS,
Chairman.

And the same was then read by the Clerk, as follows:

The Honourable Mr. *DeBlaquiere*, from the Select Committee appointed to report upon the Contingent Accounts of the Legislative Council, presented their first Report.

Ordered, that the same be received; and,

The same was then read by the Clerk, as follows:

Legislative Council, Committee Room,
July 27th, 1841.

The Select Committee to whom were referred the Contingent Accounts of the Legislative Council of the late Province of *Upper Canada*, beg leave to Report:

Your Committee having taken into their consideration the several Accounts submitted to them, find that they range themselves under two heads, as follows:

1st.—Claims for salaries and services from the 10th February, 1840, when the last Session of the Parliament of *Upper Canada* was closed, until the 10th February, 1841, when the Provinces were United.

2d.—Claims for salaries and services rendered between the 10th February, 1841, and the day of the opening of the present Session of the United Legislature.

Under the first head your Committee find that several of the Officers and Servants of the late Legislative Council of *Upper Canada* have claimed not merely the salaries or allowances granted by a permanent Act of that Province, but also the additional allowances which for several years it was the custom of the Legislative Council to make to them at the close of each Session, in compensation for their attendance upon the House.

Under the circumstances, your Committee feel that they cannot recommend any allowance beyond the annual salaries enjoyed by those persons under the Act, because

no Session of the Legislature was held within the year, and no actual service was performed by the claimants.

Upon the claim of *Lewis Bright* for the sum of £61, as a compensation for his services to the House for a period dating from the 11th February, 1840, to the 13th June, 1841, your Committee would call the attention of your Honourable House to the Act, 3d Victoria, Ch. 64, providing a pension of £62 10, to commence and be payable from the date of that Act, to Mr. *Bright* and his wife, during their joint lives, and the life of the survivor of them. It appears that Mr. *Bright* has drawn the pension thus allowed him in consideration of his great age and long and faithful services to his Sovereign; and your Committee are therefore constrained to regard the present claim as unreasonable and inadmissible.

Under the second head, your Committee would remark that claims are preferred for services rendered after the Legislative Council of *Upper Canada* had ceased to exist. Such claims do not therefore appear to your Committee to come properly within their Report as part of the expenses of that House, but to be rather in the nature of claims to be included among the Contingencies of your Honourable House.

With regard, more particularly, to the claims set up for watching the Parliament Buildings, your Committee have ascertained that they relate to an expense incurred under a Minute of the Executive Council, dated at *Toronto*, 30th June, 1840, which is as follows:

“Extract from the Minutes of Council of the 30th June, 1840, approved by His Excellency Sir *George Arthur*.

“Read, a letter from *John Joseph*, Esquire, Clerk Legislative Council, representing the danger to which he apprehends that the Parliament House and other Buildings appropriated to Public Offices are exposed from Incendiarism.

“Recommended that two persons be appointed as Watchmen over the Public Buildings, to keep watch alternately during the night, and to be armed and provided with means of giving the alarm, of which the Military Guards in the neighbourhood might be required to take notice. The expense to be borne on the same fund as the repairs of Public Buildings.”

“Truly extracted.

Signed,

“W. H. LEE.”

Your

Petition, of J. Cook, and others, for an Act, naturalizing the Rev. W. Sharts.

First report on the contingent Accounts of the late Legislative Council of Upper Canada.

Your Honourable House will thus perceive that these claims form no part of the Contingent Expenses of any Legislative Body, but should be inquired into and settled by the Executive Government.

In the Schedule which accompanies this Report, your Committee have inserted all the items which, in their opinion, can be regarded as forming claims upon your Honourable House, amounting to one thousand, one hundred and eighty-two pounds, seven shillings, and seven pence half-penny, Currency. The several accounts are now under the examination of this Committee, and they will be prepared to Report thereon so soon as they may receive explanations they have required as to a part of them; and as many of the claimants are understood to be suffering great inconvenience

from the delay which has occurred in their payment, your Committee recommend that your Honourable House do, by Address, request that His Excellency the Governor-General would be pleased to issue his Warrant in favour of the Clerk of this House, for the sum of one thousand, one hundred and eighty-two pounds, seven shillings, and seven pence half-penny, Currency, to cover the contingent expenses incurred in the Office of the Legislative Council of the late Province of *Upper Canada*, between the 10th February, 1840, and the 11th day of February, 1841, and for which he will hereafter account.

All which is nevertheless humbly submitted.

Amendments reported.

The Select Committee to whom were referred the Bills from the Legislative Assembly intituled, "An Act to amend an Act of the Legislature of *Lower Canada*, relative to the establishment of Mutual Fire Insurance Com-

panies;" and also, another Bill from the Legislative Assembly, intituled, "An Act to amend certain Acts of the Legislature of the late Province of *Lower Canada* therein mentioned, relating to the establishment of Mutual Insurance Companies, as far as regards the Counties of *Sherbrooke*, *Stanstead*, *Drummond* and *Shefford*," have the honour to Report:

That your Committee have carefully examined the said Bills, and find that they are expressed in precisely the same terms, except that the former permits the Mutual Insurance Company of the County of *Montréal* to admit to the privileges of that Company any person in the Counties of the *Lake of Two Mountains*, *Terrebonne*, *Berthier*, *Richelieu*, *Vercheres*, *St. Hyacinthe*, *Rouville* and *Huntingdon*; and the other Bill permits the Company for the Counties of *Sherbrooke* and *Stanstead* to admit to the same privileges any person resident in the Counties of *Shefford* and *Drummond*.

Your Committee not seeing the necessity of having two Bills on the same subject, and amending the same original Statute, have deemed it advisable to unite the said Bills into one, and thus embody in one Act the provisions of two precisely similar measures.

They, therefore, report the Bill intituled, "An Act to amend an Act of the Legislature of *Lower Canada*, relative to the establishment of Mutual Fire Insurance Companies," with the following amendments:

Press 1, line 24.—After "them" insert "and
" it shall be lawful for the

" mit as a member of the
" said Company the owner
" of any property situate
" within either of the Coun-
" ties of *Shefford* or *Drum-*

King's College.

Ordered, that it be received; and,

The same was then read by the Clerk, as
follows:

Legislative Council Committee Room,
August 16th, 1841.

The Select Committee appointed to con-
sider and report on the Rules, Regulations
and

and By-Laws, established by the Council of King's College, for the government of the District Grammar Schools, respectfully beg leave to Report :

That they have taken the said Rules into their most serious consideration, in connexion with the Acts of the late Province of *Upper Canada*, 47, *Geo.* III. cap. 6, and 2d *Vict.* cap. 10, and are of opinion, that the latter Statute is inconsistent with the provisions of the former, inasmuch as it gives to the Council of King's College authority to make Rules, Regulations and By-Laws, for the conduct and good government of those Schools, thereby depriving the Trustees of the District Schools of the powers conferred upon them by the 5th clause of the first mentioned Act, which is still in force and not repealed. Your Committee have also examined the Resolutions reported to both Houses of the Parliament of *Upper Canada*, by the Joint Committee on Education, and upon which the said Act 2d *Vict.* cap. 10, was directed to be framed, and they cannot withhold the expression of their opinion, that the provisions of that Act widely depart from the spirit of those Resolutions; and that the Rules, Regulations and By-Laws, lately made and adopted by the Council of King's College, will have the effect of continuing disappointment and bad feeling in the Western portion of the Province, instead of allaying the angry passions which a long continued system of mismanagement of the Educational affairs of the Colony had engendered.

Under these circumstances, your Committee would recommend the repeal of the last mentioned Act; and for that purpose submit the draft of a Bill herewith.

Impressed with a belief that no general and well digested system for the advancement and support of Education will meet the concurrence of the Legislature during the present Session, and that nothing short of a comprehensive and liberal measure will satisfy the people of Canada, your Committee respectfully suggest, that before the labours of the Session close, a Commission, which shall represent the general interests of the community, be appointed by the Legislature, with instructions to sit during the recess, and inquire into the best means of establishing a general and efficient plan for the education of all classes of the Inhabitants, embracing not only Common Schools, but the District Schools, and *Upper Canada* College; as well as the best method of applying the means provided by a paternal

Monarch for the education of His people.— The Commission to report to the Legislature, through His Excellency the Governor-General, at the commencement of the next Session.

The whole, nevertheless, humbly submitted.

W. MORRIS,

Chairman.

The Bill submitted by the last mentioned Committee, for repealing a certain Act therein mentioned, relating to Education, was read for the first time.

Legislative Council Committee Room,
August 19th, 1841.

The Select Committee to whom was referred the Bill from the Legislative Assembly intituled, "An Act to authorise a further Loan to complete the building of the Court House and Gaol for the intended District of *Dalhousie*," beg leave to Report:

The Committee have ascertained, that the intention of the Petitioners to apply for the Act was duly published in the *Upper Canada Gazette*.

It appears that the Petitioners were empowered by the Statute 1st Victoria, Chap. 25, to raise by Loan a sum of £2500, to erect a Court House and Gaol at *Bytown*, and that they did borrow that sum, which has been expended in carrying on a part of the work by day's labour, which has rendered the building much more expensive than they anticipated.

That the Inhabitants of the intended District, under the Act 3rd Victoria, Cap. 45, which this Bill proposes to repeal, cannot be taxed to defray the expense of the Building, until the District be proclaimed. That consequently, money to carry on the work is not available, and in the meanwhile, certain individuals who lent their personal security for the interest accruing on the sum of £2500 already borrowed, are liable to be prosecuted for the amount.

The Petitioners pray that an Act may be passed to enable them to raise a Loan of £5000,

to

Report adopted.

£130 19 2 to be paid to John Joseph, Esq.

And also, £67 18 10.

to be applied in discharging the debt already incurred, and in completing the Building.— The Bill, with a view of ensuring full means for the due completion of the Building, authorises a loan for those purposes of £6000, to be repaid by assessment, not exceeding one penny in the pound, on the Inhabitants of the intended new District, for a period of not more than fifteen years; the principal of which Loan is to be redeemed by annual payments of sums not less than £400.

The Committee notice, that the Treasurer, Assessor and Collectors, are compelled to discharge the duties imposed on them by the Act, without any compensation.

Finding the Preamble defective, inasmuch as it recites the Title of the Act passed in 1840, authorising an additional rate, instead of the Act of 1838, authorising the original Loan, and as the Townships of *Gloucester* and *Osgoode* have been erroneously introduced into several Clauses of the Bill, your Committee have drafted some amendments, which, with the Bill, they recommend to the adoption of your Honourable House.

The whole, nevertheless, humbly submitted.

PRAYERS.

To the Bill passed yesterday, intituled, "An Act to secure to and confer upon certain Inhabitants of this Province the civil and political rights of natural born British Subjects," (as amended)—

Naturalization bill;

DISSIDENT:

Protest thereon.

Because

Because, the provisions of the Provincial Statute, 9th George IV, which enabled all Aliens domiciled in the Province on the first day of March, 1828, to enjoy the rights of British Subjects, were continued in force by succeeding enactments until the eleventh day of May last; and if there are any persons of that class who have neglected to avail themselves of the advantages of Laws continued for their benefit during a period of twelve years, it ought not to be considered unreasonable, that they now be required to express a desire to be Naturalized, if such be their wish, of which we have no recent evidence.

Because, while we are willing to vote for a general Law of Naturalization, we would extend its benefits to such Aliens only, as should by petition make known their desire to have the privileges of British birth conferred on them; and thus be enabled to withhold from such as may have attempted to subvert the Government, advantages which can only be claimed by those who, by obedience to the Laws, have manifested a willingness to uphold the Institutions of the Country.

Because, the Bill invites all Aliens who were resident in the Province on the tenth day of February last, and who may complete or have completed a residence of seven years therein, to take the Oath of Allegiance, and thereby become entitled to all the rights and privileges of British Subjects.

Because, the Bill provides for the Naturalization of many Aliens, who in the years 1837 and 1838, took up arms in rebellion against the Government, and who had been but a short time in the Province previous to those attempts to subvert the Constitution of the Colony, and who cannot be regarded as having any claim to consideration on the part of Her Majesty's Government.

Because, the American border population of almost all classes continue to evince a very general and unjustifiable disposition to interfere with our domestic affairs, and to force upon us a Republican form of Government.

Because, with all due respect for the loyal principles and example of many Aliens, both of European and American origin, in the Province, for whose benefit we desire to see the enactment of a Naturalization Law, we cannot believe it is wise on the part of Her Majesty's Government indiscriminately to invite the settlement of people who have, in too many instances, exhibited an inherent hatred of British Institutions, and a willingness to sacrifice every

thing in order to accomplish their destruction.

Because, we believe the only danger to a lasting connexion between these Colonies and the Parent State, is to be found in the unaccountable apathy of the Government on this subject; an apathy which seems the more extraordinary when we consider the alarming pressure of existing difficulties between the Government of the Mother Country and that of the *United States*.

Because, all the waste Lands of the Crown in this Colony will be required for the settlement of Immigrants from the British Isles, in a period much shorter than is generally supposed, when, by an improved system for the disposal of those Lands at a reduced price, facilities are afforded for the location of the industrious thousands who yearly seek an asylum among us, but who, in too many cases, are forced by discouraging obstacles to take up their residence in a foreign Country.

THIRD REPORT.

Legislative Council Committee Room, August 26th, 1841.

The Select Committee appointed to peruse and perfect the Journals of the present Session, beg leave further to Report :

Third report.

That since they laid before your Honourable House their second Report, with sundry forms of proceeding and of entry, they have turned their attention to the subject of conferences sought by either Branch of the Legislature with the other; and having carefully collated the modes of procedure observed in this particular by the House of Lords, as well as by the Upper Houses of the late Provinces of *Upper and Lower Canada*, they are now prepared to recommend that your Honourable House should sanction the general forms which accompany the present Report, and are framed with a view of ensuring due caution and deliberation in all cases in which your Honourable Body may find it necessary, in its intercourse with the co-ordinate House, to assign reasons for disagreeing to any of its proceedings.

FOURTH REPORT.

Legislative Council Committee Room,
August 27th, 1841.

Fourth report.

The Select Committee appointed to peruse and perfect the Journals of the present Session, beg leave to offer their fourth Report, as follows :

That with reference to the printing of the Journal for the present Session, they have deemed it proper to bring certain points under the consideration of your Honourable House.

1st. *The size of the Volume.*

In order to obviate the inconvenience which arises from annual variation in the size of the sheet used for the Journal, and to adopt a form that will at all times be convenient, your Committee recommend that the Journal be printed upon paper of the same dimensions as that used in printing the Journal of the House of Commons for the year 1838.

2nd. *The quality of the paper and style of Printing.*

Your Committee recommend that the quality of the paper should not be inferior to that employed in printing the Journal of the House of Commons, already mentioned, and that the matter be arranged in double columns upon each page, as in that Journal, with concise marginal notes, and with good plain type.

3rd. *The number of copies.*

In the Provinces of *Lower and Upper Canada*, the usual number of copies ordered to be printed for each Session was limited to two hundred. In *Lower Canada* the Journal was printed in parallel columns of *French and English*, upon the same page. It now appears to your Committee proper to extend the number of copies to three hundred, at the least, and to provide an equal number of copies of a *French Translation*, required for the convenience of Members of the Legislature of *French origin*.

4th. *The Appendix.*

Your Committee, though they find that the Appendix of the Journal of the House of Lords, as well as of the late Canadian Legislative Councils, was restricted to a few matters of evidence and Reports submitted by Select Committees, think that no doubt can exist

respecting the propriety of placing in the Appendix of your Honourable House documents of the following kinds :

1. Despatches from the Secretary of State communicated to the House, which may not be conveniently placed in the body of the Journals.

2. Documents supplied by the Executive Government, in return to Addresses of the House.

3. Reports of Select Committees upon matters specially referred, when the same shall be found of inconvenient length for insertion in the Journal itself.

4. Minutes of Evidence reduced to writing before any Committee of the House.

5. The Accounts of the Contingent Expenses of the House in full detail, and with the vouchers.

In addition to these documents, it is a question, which your Committee now submit for the decision of your Honourable House, whether under the sixth head should not be included all documents laid before both Houses of Parliament, such as the Public Accounts, Population and Assessment Returns, Reports of Commissioners, &c. These papers, it is true, are usually printed with the Journal of the Assembly, and some expense might be spared by omitting them in the Appendix to the Journal of the Council. Nevertheless, the printed Records of your Honourable House are not complete without such addition, and your Committee are inclined to think that there are considerations in favour of printing every public document laid before the House during each Session, which outweigh all objections arising from the expense to be incurred.

5th. *Printing.*

The last point to be noticed, is the giving out of the Printing of the Journals; with respect to which, your Committee feel no hesitation in recommending, that it should be divided between the late Printers to the Queen for *Upper and Lower Canada*, so that the Journal itself should be referred to Mr. *Stanton*, and the French translation thereof, to Messieurs *Desbarats & Carey*, or whomsoever may have an establishment at *Kingston* on behalf of the Queen's Printer for *Lower Canada*, provided that a reasonable arrangement can be effected with those gentlemen. It is important that work of this nature should be executed with entire accuracy, and it is thought it may be committed with full confidence into the hands of the individuals above named.

The

The occasional printing during the Session, might with propriety, be equally distributed among the other presses in Town.

All which, is respectfully submitted.

JNO. MACAULAY,
Chairman.

Ordered, that the last mentioned Reports be committed to a Committee of the whole House.

Ordered, that the House be put into a Committee upon the said Reports, on the next sitting day.

The Honourable Mr. Bruneau, from the Select Committee to whom was referred the Bill intituled, "An Act to repeal the second Section of an Ordinance of the Legislature of Lower Canada, relating to Taverns and Tavern Keepers," presented their further Report:

Ordered, that it be received; and,

The same was then read by the Clerk, as follows:

Legislative Council Committee Room,

August 27th, 1841.

The Select Committee to whom was referred *de novo* the Bill from the Legislative Assembly, intituled, "An Act to repeal the second Section of an Ordinance of the Legislature of Lower Canada, relating to Taverns and Tavern Keepers," with a view to their farther Report thereon, beg leave now to Report:

That they have again thoroughly examined and considered the said Bill, and see no reason to come to any other conclusion than that which was contained in their former Report. They therefore, venture once more, to recommend to your Honourable House, that no further proceedings be had in relation to this Bill.

In offering this recommendation to your Honourable House, your Committee would beg leave to remark, that by the Section of the Ordinance of the 4th Victoria, which this Bill is intended to repeal, all persons obtaining, in Lower Canada, what is called a Grocer's or Store Keeper's License, (without keeping a House of public entertainment,) is restricted to the sale of Wine, Brandy, Rum, or other spirituous liquors, in quantities not less than one and a half pints at one time.

The Grocer and the Tavern Keeper under the Laws in force in Lower Canada, are placed in very different positions. The Grocer may sell spirituous liquors, provided he does not go beyond the minimum of one and a half pint at one time; he is not so heavily rated

and taxed for local or public purposes, as the Tavern Keeper, nor is he obliged to enter into any bonds, or compelled by Law to have a place of business of any peculiar description. The Tavern Keeper, however, is obliged to appear before the Magistrates, and give heavy security, to establish under oath that he has ample accommodation, with two good beds at the least, in addition to those of his family; that he has stalls for four horses, and a sufficiency of hay and oats for the use of Travellers; and for all these additional burthens, as well as increased duties to public or Municipal funds, he receives the slight preference of being allowed to sell spirituous liquors on the premises, in less quantities than those prescribed as a minimum to the Grocers.

The quantity to which the Grocers are limited by the Ordinance now in force, is small enough for any good moral or beneficial purpose; and your Committee cannot but think, that the public benefit would be better attained, if instead of affording additional facilities for the sale of intoxicating liquors, in small quantities to the labouring classes, more stringent and more restrictive enactments were passed as to the minimum to which the Grocers should be limited in the sale of spirituous liquors; for even under the existing Law, the small quantity of one pint and a half, causes a great deal of debauchery and misery, which the vigilance of the Law cannot easily restrain.

The whole, nevertheless, humbly submitted.

FRS. P. BRUNEAU,

Chairman.

Ordered, that the last mentioned Bill, together with the further Report of the Select Committee thereon, be committed to a Committee of the whole House.

Ordered, that the House be put into a Committee upon the said Bill and further Report, on Monday next.

Ordered, that the Bill intituled, "An Act to increase the sum which may be raised under a certain Act therein mentioned, for defraying the cost of certain Public Buildings in the County of Simcoe," be restored to the orders of the day; and that the House be put into a Committee of the whole upon the said Bill, on Monday next.

Notice of an address to His Excellency, for parts of certain Royal Instructions.

Adjourn.

TO THE QUEEN'S MOST EXCELLENT MAJESTY:
The humble Address of the Legislative Council of the Province of *Canada*, in Provincial Parliament assembled.

MAY IT PLEASE YOUR MAJESTY:

The address.

We, Your Majesty's most dutiful and loyal Subjects, the Legislative Council of the Province of *Canada*, in Provincial Parliament assembled, beg leave to approach Your Royal Presence with the renewed expression of our unalterable attachment to Your Majesty's Person and Government.

In the several great measures which have successively been brought under the consideration of this, the first Parliament of United *Canada* by your Majesty's Representative, the Legislative Council clearly recognize the comprehensive wisdom and benevolent solicitude of Your Majesty for the welfare of *Canada*, which have so pre-eminently marked Your Majesty's Reign. We humbly and fervently trust that, under Divine favour, they will fulfil Your Majesty's gracious intentions, and consolidate the future peace and happiness of this Country.

But, deeply sensible of their importance, and most grateful for this additional proof of Your Majesty's anxiety in our prosperity, we should be wanting in duty to Your Majesty, not less than to those as to whose especial interests we have been called upon to deliberate, if we omitted to solicit Your Majesty's gracious attention to the subject of our Agriculture, the prostration under which that vital element of our National strength has long suffered, and the absolute necessity for its being placed on such a footing as to ensure the future development of the vast resources of this Province, and its settlement by a population devoted to Your Majesty's Throne, and bound by every tie to the preservation of British connexion and Institutions.

The Legislative Council believe, that the promotion and protection of Canadian Agriculture is undoubtedly calculated to consolidate this National object, by the free admission of our Agricultural produce into *Great Britain* on remunerative terms; a boon of incalculable magnitude to a population which is, and must long continue, exclusively agricultural, and which, it is conceived, is strictly compatible with the best and dearest interests of the Parent State.

The Legislative Council humbly solicit the attention of Your Majesty to the petitions which have been addressed to them upon this

all-engrossing subject, and which are herewith annexed. They express the undivided opinion of the whole Agricultural population of *Canada*, and the Legislative Council earnestly and most respectfully entreat Your Majesty to take the same into your gracious and favourable consideration, with a view to its being brought to the notice of the Imperial Parliament, under Your Royal sanction.

The Legislative Council implicitly confide in the wisdom of Your Majesty's Counsels. We seek not to impair, but to add strength to *Great Britain*.

Under Your Majesty's benign Reign, a new era has dawned upon Canadian prospects. The Ægis of Your Imperial Throne extends its protective shelter around our political and civil Institutions. Deign, Gracious Monarch, to perfect the glorious work you have begun, by granting to us the inestimable privilege of being for ever considered an integral portion of the British Empire, and thus fulfilling Your Majesty's benevolent wish, that we might become a happy and contented, and we will add, a prosperous and grateful people.

The reports.

The Select Committee to whom were referred the several Bills for the amendment of the Criminal Law in this Province, intituled respectively, "An Act for improving the administration of Criminal Justice in this Province;" "An Act for consolidating and amending the Laws in this Province, relative to Larceny and other offences connected therewith;" "An Act for consolidating and amending the Laws in this Province, relative to malicious injuries to property;" and "An Act for consolidating and amending the Statutes in this Province, relative to offences against the person," beg leave to Report:

That they have gone through the said Bills with as much care as the late period of the Session has permitted, and they find that the said Bills have been framed with great industry and ability. That in that part of the Province formerly called *Lower Canada*, where the English Criminal Law has for a great many years remained unaltered, the Bills make many important changes; and in that part of the Province formerly constituting *Upper Canada*, where the Law has been modified from time to time, several improvements have been adopted in the measures now before the Committee. The Committee also find, that the changes in the Law provided by the Bills, are founded upon the improvements adopted up to the present time in *England*, and may therefore, be safely enacted in this Province.

The Committee find, that a Clause has been introduced in the said Bills postponing their coming into effect until after the end of the next Session of Parliament. Of this Clause, your Committee highly approve, as it will give the Judges, and the legal profession generally, ample opportunity of suggesting any improvements at the next meeting of Parliament, which may be found advisable.

The Committee therefore, recommend to your Honourable House, the adoption, without amendment, of the first of the series of these Bills, intituled, "An Act for improving the administration of Criminal Justice in this Province."

TO THE QUEEN'S MOST EXCELLENT MAJESTY:

The humble Address of the Legislative Council of the Province of *Canada*, in Provincial Parliament assembled.

The address.

MAY IT PLEASE YOUR MAJESTY:

We, Your Majesty's most dutiful and loyal Subjects, the Legislative Council of the Province of *Canada*, in Provincial Parliament assembled, beg leave to approach Your Royal Presence with the expression of our unalterable attachment to Your Majesty's Person and Government.

In the several great measures which have successively been brought under the consideration of this, the first Parliament of *United Canada*, by Your Majesty's Representative, the Legislative Council clearly recognise the comprehensive wisdom and benevolent solicitude of Your Majesty for the welfare of *Canada*, which have so pre-eminently marked Your Majesty's Reign. We humbly and fervently trust, that under Divine favour they will fulfil Your Majesty's gracious intentions, and consolidate the future peace and happiness of this extensive Country.

But, deeply sensible of their importance, and most grateful for these additional proofs of Your Majesty's anxiety for our prosperity, we should be wanting in duty to Your Majesty, not less than to those for whose especial interests we have been called upon to deliberate, if we omitted to solicit Your Majesty's gracious attention to the subject of our Agriculture; the depression under which this vital element of our general prosperity has long suffered, and the absolute necessity for its being placed so as to ensure the future development of the vast resources of this Province, and its settlement by a population devoted to Your Majesty's Throne, and bound by every tie to the preservation of British connexion and Monarchical institutions.

The Legislative Council believe that the promotion and protection of Canadian Agriculture are calculated to ensure this national object, by the admission of our Agricultural Produce into *Great Britain* on remunerative terms

terms; a boon of incalculable magnitude to a population which is, and must long continue, almost exclusively Agricultural, and which, it is conceived, is strictly compatible with the best and dearest interests of the Parent State.

The Legislative Council humbly represent to Your Majesty, that numerous petitions have been addressed to them, setting forth the unanimous opinion of the Agriculturalists, that the free admission of their Produce into the ports of the United Kingdom is essential to the welfare of the Farmers of this Province; and the Legislative Council earnestly and most respectfully entreat Your Majesty to take this subject into Your gracious consideration, with a view to its being submitted to the favourable notice of the Imperial Parliament, under Your Royal sanction.

The Legislative Council implicitly confide in the wisdom of Your Majesty's Councils. They seek not to weaken, but to add strength to the Empire.

Under Your Majesty's benign Reign a new era has dawned upon Canadian prospects. Deign, Gracious Monarch, to perfect the glorious work you have begun, by granting to us the inestimable privilege of being forever considered an integral portion of the British Empire, and thus fulfil Your Majesty's benevolent wish, that we might become a happy and contented, and we will add, a prosperous and a grateful people.

Pursuant to the order of the day, the Address to the Governor-General, praying His Excellency to transmit to the Principal Secretary of State for the Colonies the Address to Her Majesty, upon the subject of the promotion and protection of Canadian Agriculture, in order that it may be laid at the foot of the Throne, was read a third time.

The question was put, whether this Address shall pass?

It was resolved in the affirmative; and the same is as follows:

To His Excellency the Right Honourable Charles, Baron Sydenham, of Sydenham in the County of Kent, and of Toronto in Canada, one of Her Majesty's Most Honourable Privy Council, Governor-General of British North America, and Captain-General and Governor-in-Chief in and over the Provinces of Canada, Nova Scotia, New Brunswick, and the Island of Prince Edward, and Vice-Admiral of the same, &c. &c. &c.:

Vol. 1.

MAY IT PLEASE YOUR EXCELLENCY:

We, Her Majesty most dutiful and loyal Subjects, the Legislative Council of Canada, in Provincial Parliament assembled, respectfully inform Your Excellency, that we have passed the accompanying Address to Her Majesty, on the subject of Agriculture, which we request Your Excellency to transmit to Her Majesty's Principal Secretary of State for the Colonies, to be laid at the foot of the Throne.

The question was put, whether this Address shall pass?

It was resolved in the affirmative; and the same is as follows:

To His Excellency the Right Honourable Charles, Baron Sydenham, of Sydenham in the County of Kent, and of Toronto in Canada, one of Her Majesty's Most Honourable Privy Council, Governor-General of British North America, and Captain-General and Governor-in-Chief in and over the Provinces of Canada, Nova Scotia, New Brunswick, and the Island of Prince Edward, and Vice-Admiral of the same, &c. &c. &c.:

We, Her Majesty's dutiful and loyal Subjects, the Legislative Council of Canada, in Provincial Parliament assembled, beg leave to express to Your Excellency our deep regret at the serious accident which lately befel Your Excellency, and which has of necessity rendered the active superintendence of the public affairs of this Province, at a moment of peculiar interest, painful and distressing to Your Excellency.

We sincerely trust that Your Excellency may very soon be restored to the enjoyment of health and strength, and that the accident

That they have carefully gone through and considered this Bill, and find that in providing

a proposed remedy for persons having, or pretending to have, claims upon what is somewhat vaguely termed Her Majesty's Provincial Government, which has no legal existence, it provides no possible mode of satisfying such claims. It introduces an invasion of the principles of the Constitution, which supposes that Her Majesty can do no wrong, and renders the Sovereign, not the fountain of justice, and open to the fair demands of Her Subjects, but as the defendant in a Court, in opposition to Her Subjects.

Your Committee, under these circumstances, do not think it advisable to adopt the Bill, and now, therefore, recommend to your Honourable House, that no further proceedings be had thereon.

The whole humbly submitted.

P. B. DEBLAQUIERE,
Chairman.

Ordered, that the House do take the last mentioned Report of the Select Committee into consideration, to-morrow.

The Honourable Mr. *Bruneau*, from the Select Committee to whom was referred the Bill intituled, "An Act to amend certain Ordinances therein mentioned, relative to the incorporation of the City of *Quebec*," presented their Report.

Ordered, that it be received; and,

The same was then read by the Clerk, as follows:

Legislative Council Committee Room,
September 14th, 1841.

The Select Committee to whom was referred the Bill from the Legislative Assembly intituled, "An Act to amend certain Ordinances therein mentioned, relative to the incorporation of the City of *Quebec*," beg leave to Report:

That they have examined the said Bill, and find that its principal object is to introduce the elective principle, in reference to the Mayor, Aldermen and Councillors, in the month of October next, instead of in the month of December, 1842. As the Common Council of *Quebec* have, in some measure, suspended the exercise of their Municipal authority until that principle is conceded, your Committee, finding that the interests of the Inhabitants of the City of *Quebec* are suffering in the interim, have found no objection to the adoption of those Clauses of the Bill. But the remainder of the Bill contains Clauses giving authority to the Council, which your Commit-

tee think they already in part possess under the Law, or interfering with the privileges already granted to the Trinity House of *Quebec*, which it is inexpedient to abrogate, or of a nature upon which it would be preferable to have the opinion of the Common Council, as formed after the election next October.

Under these circumstances, your Committee cannot recommend the adoption of those Clauses, and have therefore prepared the necessary amendments for the consideration of your Honourable House.

The whole, nevertheless, humbly submitted.

FRS. P. BRUNEAU,
Chairman.

Ordered, that it be received; and,

The same was then read by the Clerk, as follows:

Legislative Council Committee Room,
September 9th, 1841.

The Select Committee to whom was referred the Bill from the Legislative Assembly intituled, "An Act to extend the benefit of the Warehousing System established by a certain Act of the Imperial Parliament, passed in the Session held in the third and fourth years of His late Majesty's Reign, to Duties imposed by Provincial Acts," beg leave to Report:

Norfolk Limit bill, reported by Select Committee.

The Honourable Mr. *McGill*, from the Select Committee to whom was referred the Bill intituled, "An Act to define the Westerly limit of the County of *Norfolk*," presented their Report.

Ordered, that it be received; and,

The same was then read by the Clerk, as follows:

Legislative Council Committee Room,
September 14th, 1841.

The report.

The Select Committee to whom was referred the Bill from the Legislative Assembly intituled, "An Act to define the Westerly limit of the County of *Norfolk*," beg leave to Report:

That having examined the said Bill, they notice that it is intended to place the Township of *Malahide*, in the County of *Middlesex*, and the Township of *Bayham*, within the County of *Norfolk*.

After having examined the several petitions presented to the Legislature from different sections of the *Talbot*, *Brock* and *London* Districts, in reference to alterations in the respective boundaries of those Districts, your Committee have found so many conflicting opinions expressed, that your Committee, from their limited information upon this subject, have found it impossible to come to any safe conclusion in respect to the Bill referred to them. Your Committee are, however, of opinion, that the existing limits of the Districts above alluded to having been established after much consideration and deliberation, ought not to be rashly changed; and at the present stage of the Session it would be impolitic to enter upon measures of so much importance to the localities that may be affected by them. Should changes be actually required, your Committee are of opinion that the Municipal Councils, about to be established in this section of the Province, will be a proper organ to express the wishes of the community on such matters.

Your Committee also notice, in the second Clause, a most novel interference with the Royal Prerogative, wherein it is declared, that

the Magistrates specially named for one District, may, without Commission from Her Majesty, exercise their authority in another District, and those now holding Commissions as Magistrates shall no longer be Magistrates for the District to which they are named.

Under such circumstances, your Committee recommend that no further proceedings be had by your Honourable House in relation to this Bill.

The whole humbly submitted.

Chairman.

Legislative Council Committee Room,

The Select Committee upon the Library, beg leave to Report:

That upon examining the Rooms appropriated to the use of this Branch of the Legislature, they are of opinion that such alterations may be made in the Clerk's Rooms, on the uppermost floor of the building, as would afford sufficient temporary accommodation for a part of the Library belonging to your Honourable House.

Your Committee understand that the Library of the former Legislative Council of *Lower Canada* contains about four thousand volumes, of which a considerable portion was removed to *Montreal*, for the use of the Special Council, and still is in that City, though not in the custody of any individual connected with this House.

The remainder of that Library is in the original place of deposit at *Quebec*, and contains a set of volumes (about seven hundred in number) of the Sessional Papers of the House of Lords, which, with probably some other books, may be permitted to continue at *Quebec*, in the charge of some careful person, to be selected by the Librarian, until more ample accommodation for the Library can be provided here.

In the mean while, your Committee recommend, that in making temporary arrangements for the Books which your Honourable House will require at the next Session, the Librarian be authorised (with the approval of the Speaker) to fit up a place for their reception in the Clerk's present Rooms; and that he also be instructed to repair to *Quebec* and *Montreal*, to make in person a proper selection of the Books which should be transferred to this place, as well as of those which should be deposited in safe keeping at *Quebec*. He should also take measures for the early conveyance up the River of the Books intended to be removed to this place; and for this purpose, your Committee recommend that a reasonable advance, on account of his expenses, be made to him from the unexpended moneys which will be in the Clerk's hands, on account of the Contingencies of the present Session.

Your Committee further recommend, that upon the division of the Books of the *Upper Canada* Library, pursuant to the recent Report of the Joint Committee of the two Houses, the portion assigned to this Branch of the Legislature be taken charge of by the Librarian, and arranged on the shelves with the other Books belonging to your Honourable House.

As the division contemplated by the Report of the Joint Committee will set at liberty a large apartment on the ground floor of this building, your Committee beg to suggest the propriety of some understanding being entered into between the two Houses, whereby that room may be exclusively assigned to the Legislative Assembly, in exchange for one of the rooms now used by that Body on the uppermost floor; which would, if transferred to this House, go far to remedy the inconvenience it now experiences from the want of Committee Rooms.

All which is humbly submitted.

JNO. MACAULAY,
Chairman.

Ordered, that the said Report be adopted.

Ordered, that an extract from the last mentioned Report, embracing the concluding paragraph thereof, be communicated to the Legislative Assembly, by the Master in Chancery, for their information.

*Honourable Gentlemen of the Legislative Council, and

Speech of the

at the proroga-
tion.

In consequence of the severe indisposition
of the Governor-General, I have been deputed
by Him to signify to you Her Majesty's plea-
sure on the several Bills which you have passed
during this Session, and to relieve you from
further attendance in Parliament. In per-
forming this duty, I beg to congratulate you on
the many important measures which you have
been enabled to perfect, and on the general
harmony which, notwithstanding the difficul-
ties incident to the first meeting of a new
Legislature, has marked your proceedings.

Gentlemen of the House of Assembly :

I thank you in the name of Her Majesty for
the readiness with which you have voted the
Supplies necessary for the public Service, and
for maintaining the credit of the Province.

Honourable Gentlemen and Gentlemen :

I am confident that you will sympathize
with me in the deep sorrow which I feel for
the illness of the Governor-General, and in my
hope that the sufferings with which it has
pleased Almighty God to afflict Him, may be
but temporary. In the meantime, I would
urge on you the propriety on your return to
your homes, of endeavouring to carry out the
great improvements now in progress; and of
inculcating on those by whom you will be sur-
rounded, as well an oblivion of past differences
as a hopeful spirit of enterprize and content-
ment for the future. In so doing, you will
best promote the permanent interests of your
Country, and entitle yourselves to the gratitude
of your fellow subjects,—and may that Provi-
dence which has heretofore so signally pro-
tected this land prosper your endeavours.

The Honourable the Speaker of the Legis-
lative Council then said, it is the will and
pleasure of the Deputy Governor that this
Provincial Parliament be prorogued to Mon-
day, the twenty-fifth day of October next, to
be then here holden; and this Provincial Par-
liament is prorogued accordingly.

Parliament
prorogued.

XLVIII.—That all Aids and Supplies granted to Her Majesty by the Legislature of *Canada*, are the sole gift of the Assembly of this Province; and all Bills for granting such Aids and Supplies ought to begin with the Assembly, as it is the undoubted right of the Assembly to direct, limit, and appoint in all such Bills, the ends, purposes, considerations, conditions, limitations and qualifications of such grants, which are not alterable by the Legislative Council.

XLIX.—That in order to expedite the business of the Legislature, the House should not insist on the privilege claimed and exercised by them, of laying aside Bills

sent from the Legislative Council, because they impose pecuniary penalties; nor of laying aside amendments made by the Legislative Council, because they introduce into or alter pecuniary penalties in Bills sent to them by this House; provided, that all such penalties thereby imposed are only to punish or prevent crimes and offences, and do not tend to lay a burthen on the Subject, either as Aid and Supply to Her Majesty, or for any general or special purposes, by rates, tolls, assessments, or otherwise.

PUBLIC BILLS.

- L.—That every Public Bill shall be introduced by a motion for leave, specifying the title of the Bill, or by a motion to appoint a Committee to prepare and bring it in, or by an order of the House on the Report of a Committee.
- LI.—That no Bill shall be committed or amended until it shall have been twice read.
- LII.—That all amendments shall be reported to the House by the Chairman, standing in his place. After report, the Bill shall be subjected to debate and amendment in the House, before the question to engross it shall be put.
- LIII.—That every Bill shall receive three several readings, each on different days, previous to its being passed, except in urgent and extraordinary occasions, when it may be read twice or thrice in one day.
- LIV.—That when a Bill is read in the House, the Clerk shall certify the readings and the time, on the back.
- LV.—That Bills committed to a Committee of the whole House, shall first be read throughout by the Clerk, and then read by the Chairman and debated by Clauses, leaving the Preamble and Title to be last considered.
- LVI.—That when a Bill passes the House, the Clerk shall certify the same, with the date thereof, at the foot of the Bill.
- LVII.—That a similar mode of proceeding shall be observed with Bills which have originated in and passed the Legislative Council, as with Bills originating in this House.
- LVIII.—That it shall be the duty of the Law Clerk of this House, after the present Session, to revise all Public Bills after the

first reading, and that, after such revision, he do mark his initials, and certify on the endorsement of the said Bills, in red ink, that the same are correct; and that the said Law Clerk be held responsible for the due performance of such duty, in obedience to this Resolution; and in order that he may be regularly apprized of the Bills that shall have been read for the first time, it shall be the duty of the senior Clerk of the Committees of this House, to provide him daily during the Session with a list of the Bills that shall have been read for the first time, and of the day on which they shall be fixed for the second reading; and that in every succeeding stage of such Bills, the said Law Clerk shall be also held responsible for the correctness of the said Bills, should amendments be made thereto, and he shall make a breviat of every such Bill previous to the second reading thereof.

- LIX.—That after the present Session all Bills, public and private, and breviats and abridgements thereof, be printed before the second reading, for the use of the Members of the Legislature, unless the House in certain cases dispense with such printing; with the exception, nevertheless, of certain Bills to continue the Acts or Bills of reimbursements, or other short Bills not introducing any important innovation, with the printing whereof the Speaker may dispense.

PRIVATE BILLS.

- LX.—That Bills of a private nature shall be introduced by a petition, to be presented by a Member and seconded.
- LXI.—That no Bill be ordered or permitted to be brought in on any petition for any work proposed to be carried on by Tolls or Duties to be levied, by subjecting of particular places to the same, until such petition has been referred to a Committee, and they have examined the matter thereof, and reported the same to the House.
- LXII.—That whenever any petition or Bill presented to the House, shall have been referred to a Committee to examine the matter thereof, and report the same as it shall appear to them to the House, the House will not admit any petitioners to be heard, by themselves or Counsel, against such petition or Bill, until the matter

matter thereof shall have been first reported to the House.

LXIII.—That the Chairman of the Committee for any private Bill do not sit thereupon without giving a week's notice thereof, set up in the lobby.

LXIV.—That all persons whose interest or property may be affected by any private Bill, shall appear in person before the Committee, to give their consent; and if they cannot personally appear, they may send their consent in writing, which shall be proved before the Committee by one or more witnesses.

LXV.—That when any Bill shall be brought into the House for confirming Letters Patent, there shall be a true copy of such Letters Patent annexed to the Bill.

LXVI.—That before any petition is presented to this House, for leave to bring in a private Bill, whether for the erection of a Bridge or Bridges, for the regulation of a Common, for the making of any Turnpike Road, or for granting to any individual or individuals any exclusive rights or privilege whatsoever, or for the alteration or renewing of any Act of the Provincial Parliament, for the like purpose; notice of such application shall be given in one of the newspapers of the District, published in the English, and one in the French language, if any is published therein; and also by a notice affixed on the Church-doors of the Parishes or Townships that such application may affect, or in the most public place where there is no Church, during two months at least before such petition is presented.

LXVII.—That all the expenses and costs attending on private Bills giving any exclusive privilege or advantage, and the relative proceedings in this House thereon, ought not to fall upon the public, and that it is just and reasonable that part of such expenses and costs should be supported by those who apply for the said Bills; and that a sum not less than twenty-pounds be deposited in the hands of the Clerk of this House by the Petitioners, before the Petition be received.

LXVIII.—That the Clerk of this House be held, immediately after the issuing of the Proclamation convoking the Provincial Parliament for the dispatch of business, to announce in the Québec Gazette and

other Newspapers published in this Province, until the opening of Parliament, the day on which the time limited for receiving Petitions for private Bills will expire according to the Rules of this House, and that the said Clerk be also held to announce, by notice set up in the Special Committee Rooms, and in the Lobby of this House, by the first day of every Session, the days on which, according to the Rules of this House, the time for receiving Petitions for private Bills, Reports on those Petitions, and Reports on the Bills upon those Petitions, are to expire.

PETITIONS, &c.

LXIX.—That Petitions, Memorials and other papers, addressed to the House, shall be presented by a Member in his place, who shall be answerable to this House that they do not contain improper or impertinent matter.

LXX.—That whenever a Petition tending to incorporate any number of persons to carry on any commerce or trade, is presented to this House, such of the Members of this House who are to become incorporated in consequence of such Petition to carry on such commerce or trade, are personally interested in all questions that may arise upon such Petition, and in any after proceedings that may take place upon it.

(See 12th Rule.)

LXXIV.—That every Member who shall introduce a Bill, Petition or Motion, upon any subject which may be referred to a Committee, shall be one of the Committee, without being named by the House.

LXXV.—That of the number of Members appointed to compose a Committee, such number thereof as shall be equal to a majority of the whole number chosen, shall be a QUORUM competent to proceed to business in all cases, where the number to form such QUORUM shall not be specially fixed in the motion of appointment.

APPENDIX No. 2.

(See Journal, Page 34.)

RULES AND REGULATIONS

FOR THE

GUIDANCE OF THE LEGISLATIVE COUNCIL.

I.—The Members of the Legislative Council are to sit in the order prescribed by Her Majesty.

II.—The Speaker, when he speaks to the House, is always to be uncovered, and is not to adjourn the House, or to do any thing else, as mouth of the House, without the consent of the Members first had, excepting the ordinary things about Bills, which are of course, wherein the Members may likewise over-rule, as for preferring one Bill before another, and such like. And in case of difference among the Members, it is to be put to the question; and if the Speaker will speak to any thing particularly, he is to go to his own place as a Member.

III.—At the beginning of a Parliament, after prayers shall have been said, and the Speaker shall have taken the oath pre-

scribed by law, then all the Members of the Legislative Council present shall, in like manner, make and subscribe the said oath; after which some Bill (*pro forma*) shall be read; which being done, the Speaker is to report the Speech from the Throne; and then a Committee of Privileges is to be appointed. And at the beginning of every other Session during the same Parliament, after prayers said, some Bill (*pro forma*) is to be read, the Speech from the Throne reported, and the Committee of Privileges appointed.

IV.—On the second Friday after the commencement of each Session, the House shall be called, and notice taken of such Members as are absent, not excused by the Queen, or by Her Majesty's Representative.

V.—For absence, every Member is to make his excuse by a Member of the House; and if allowed to be just, he is to be excused; if not, he is to be blamed by the House, as the fault requires.

VI.—That immediately after prayers, the Journals of the preceding day be always read.

VII.—That any Member may at any time desire the House to be cleared of strangers; and the Speaker shall immediately give directions to execute the order, without debate.

VIII.—When the House is sitting, every Member that shall enter is to give and receive salutations from the rest, and not to sit down in his place unless he has made an obeisance to the Throne.

XI.—The Members in the Upper House are to keep their dignity and order in sitting, as much as may be, and not remove out of their places without just cause; but when they must needs go across the House, they are to make obeisance to the Throne.

X.—That if any Member have occasion to speak with another Member while the House is sitting, they shall go together below the Bar, or else the Speaker is to stop the business under discussion.

XI.—When any Members speak, they address their Speech to the rest of the Members in general.

XII.—No Member, except the one who introduces the motion or matter in debate, who shall have a right to reply once, is to speak twice to any Bill at one time of reading it, or to any proposition, unless it be to explain himself in some material point of his Speech, but no new matter, and that not without leave of the House first obtained. Every Member speaks standing and uncovered, and names not the Members of the House commonly by their names, but "the Member that spoke last," "last but one," "last but two," &c. or some other note of distinction.

XIII.—That such Members as shall make protestation, or enter their dissents to any votes of the House, as they have a right to do without asking leave of the House, either with or without their reasons, shall cause their protestations or dissents to be entered in the Clerk's book on the next

sitting day of this House, before the rising of the House, otherwise the same shall not be entered, and shall also sign the same before the rising of the House on the same day.

XIV.—That every protest must necessarily be subject to the control of the House, who will exercise a legal and proper discretion upon it, both as to form and matter; and that from the moment it is filed it becomes, as in all Courts, the property of the House, and can in no case be withdrawn, or altered, or amended, but with the consent of the House previously obtained.

XV.—That no Member absent when the question in discussion has passed the House can be admitted to protest at all.

XVI.—That all orders of the day, which by reason of any adjournment shall not have been proceeded upon, shall be considered only as postponed to the next day on which the House shall sit.

XVII.—To prevent misunderstanding, and for avoiding offensive speeches when matters are debating, either in the House or at Committees, it is for honor's sake thought fit, and is so ordered, that all personal, sharp or taxing speeches be forborne; and that whosoever answereth another Member's speech, shall apply his answer to the matter, without wrong to the person; and as nothing offensive is to be spoken, so nothing is to be ill taken, if the party that speaks it shall presently make a fair exposition, or clear denial of the words that might bear any ill construction; and if any offence be given in that kind, as the House itself will be very sensible thereof, so it will censure the offender, and give the party offended a fit reparation, and a full satisfaction.

XVIII.—That for avoiding all mistakes, unkindness, or other differences, if any Member shall conceive himself to have received any affront or injury from any other Member of the House, either in the Parliament House, or at any Committee, or in any of the rooms belonging to the Legislative Council, he shall appeal to the House for his reparation; which if he shall not do, but occasion or entertain quarrels, declining the justice of the House, then the Member that shall be found therein offending, shall undergo the severe censure of the House.

XIX.—That when a question is under debate, no motion shall be received in the House, unless to amend it, commit it, postpone it to a certain day, or for the order of the day, or to adjourn.

XX.—That all motions deemed special, two days notice thereof be given to the House, and any motion (with leave of the House) may be withdrawn any time before amendment or decision.

XXI.—That no motion prefaced by a written preamble shall be received by this House.

XXII.—That when the question hath been entirely put by the Speaker, no Member is to speak upon the question before voting.

XXIII.—That after a question is put and the House hath voted thereon, no Member shall depart out of his place until the House hath entered upon some other business.

XXIV.—That at votes the contents do rise in their places, and the non-contents continue to sit.

XXV.—That the Clerk is not to enter any order until the Speaker first demand the assent of the House; and the Clerk is to read every order first in the House before it be entered.

XXVI.—That each Member has a right to require that the question or motion in discussion be read for his information at any time of the debate.

COMMITTEES.

XXVII.—To have more freedom of debate, and to facilitate business, Committees are appointed, either of the whole House, or of individuals; Committees of the whole House sit in the House, but then the Speaker sits not in the Chair as Speaker.

XXVIII.—That when the House shall be put into a Committee of the whole House, the House be not resumed without the unanimous consent of the Committee, unless upon a question put by the Member who shall be in the Chair of such Committee.

XXIX.—That in Committee of the whole House, the Rules of the House shall be observed, in so far as they may be applicable, excepting the Rule limiting the times of speaking, and that no motion for the previous question, or for adjourn-

ment, can be received; but a Member may at any time move that the Chairman do leave the Chair, or to report, or to report some progress made, and ask leave to sit again.

XXX.—That Select Committees usually meet in one of the Committee Rooms, as the Members like, and choose their Chairman. The Members of the Committee speak to the rest uncovered, but may sit still if they please.

XXXI.—Every Member to sit in his due place when the House is put into a Committee.

XXXII.—At any Committee, Members of the House, though not of the Committee, are not excluded from coming in and speaking, but they must not vote; they shall also give place to all that are of the Committee, and shall sit behind them.

XXXIII.—If it be desired by any Member that the House be put into Committee, it ought not to be refused.

XXXIV.—When any thing that hath been committed is reported, the Members of the Committee stand up.

XXXV.—No person is to enter at any Committee or Conference, unless it be such as are commanded to attend, but such as are Members of the House, upon pain of being punished severely, with example to others.

XXXVI.—None are to speak at a conference with the Lower House, but those that be of the Committee; and when any thing from such conference is reported, all the Members of that Committee present are to stand up.

MESSAGES FROM THE ASSEMBLY.

XXXVII.—That no Message from the Assembly be received in this House with a Bill or otherwise, unless the object of it be expressed verbally, and unless the Messenger be accompanied by one or more Members of that House.

XXXVIII.—When notice is given to the House, by the Usher of the Black Rod, that a Message or Deputation is sent by the Legislative Assembly, the Messenger attends until the House is prepared to receive him. We being seated, he is then admitted. On coming up to the Bar with three obeisances, the Speaker goes down to the Bar and receives the Message,

Message, uncovered; the Message is then read and delivered to the Speaker by the Messenger. On his retiring with three obeisances to the House, the Speaker resumes the Chair, and standing, uncovered, reports the Message for the information of the Members. The House then resumes the business it had before it.

INTERCOURSE WITH THE ASSEMBLY.

XXXIX.—As it might deeply intrench on the privileges of this House, for any Member to answer an accusation in the Legislative Assembly, either in person or by sending his answer in writing, or by his Counsel there; upon serious consideration had thereof, and perusal of the precedents in the Upper House of the Imperial Parliament, it is ordered, that no Member of this House shall either go down to the Legislative Assembly, or send his answer in writing, or appear by Counsel to answer any accusation there, upon penalty of being committed to the Black Rod, or to Prison, during the pleasure of this House.

XL.—That no Member or Officer of this House, without leave of the House, shall by order of the Legislative Assembly, go into that House whilst the House or any Committee of the whole House is sitting there, or appear before any Committee of that House sitting there or elsewhere.

XLI.—That the same forms and proceedings shall be required for the attendance of the Officers, Clerks or Servants of this House, upon the Assembly, a Committee of the whole House, or a Special Committee thereof, for the purpose of giving testimony, or for other purposes, as are required for the attendance of the Members, with this difference only, that when leave shall have been given by this House, for such attendance, it shall not be optional for such Officers, Clerks or Servants to refuse.

XLII.—That accommodation be furnished to the Members of the Legislative Assembly, when any of them shall see fit to become auditors of the debates of this House.

BILLS.

XLIII.—That it is the right of every Member of this House to bring in a Bill, and pray that it may be read.

XLIV.—Bills are seldom opposed at the first reading, but are generally committed, upon motion, at the second reading, at which time the principle is usually debated.

XLV.—That no arguments against the principle of a Bill shall be had or admitted in any Committee of the whole House, upon such Bill.

XLVI.—That no Bill shall be read twice on the same day.

XLVII.—That in a Committee of the whole House a Member may, at any time previous to a Bill being passed entirely, that is to say, all the clauses, preamble, and title of the same, move to have any particular clause thereof, that may have been passed, reconsidered.

XLVIII.—That to annex any clause or clauses to a Bill of aid or supply, the matter of which is foreign to and different from the matter of the said Bill of aid or supply, is unparliamentary.

XLIX.—That proof be required that notice of the intention of any person or persons to apply to the Legislature for its interference, respecting any local matter, has been publicly given in the Official Gazette, at least once in each month for six months preceding the Session in which such application is to be made.

PETITIONS AND PRIVATE BILLS.

L.—That the allegations in every Petition for a private Bill, meant to originate in this House, shall be first referred to a Select Committee, and the matter thereof reported upon, before the introduction of any such Bill.

LI.—That when a private Bill shall be brought from the other House, the principle of which is admitted, this House, by Message, may either request a communication of the evidence received in proof of the allegation or matter whereon the Bill is founded, or the Committee of this House, to whom it may be referred, shall examine the said allegations, and on reporting the Bill state whether the same, or matter thereof, be founded, and whether the parties concerned in interest or property therein, have given their consents, to the satisfaction of the Committee.

LII.—That the foregoing be considered a standing instruction to all Committees who shall meet upon private Bills; and further, that they require all persons whose interests or property they shall consider to be affected thereby, to appear in person before them, to give their consent thereto; and if they cannot personally attend they may send their consent in writing, which shall be proved before the Committee by one or more witnesses; and that when any Committee shall be appointed on a private Bill, notice thereof shall be set up in the lobby of this House, seven days before the meeting of the said Committee.

LIII.—That every Petition which is brought up, shall lie on the table two days before it is read.

LIV.—That every Member who shall introduce a Bill, Petition or Motion, upon any subject which may be referred to a Committee, shall be one of the Committee, without being named by the House.

LV.—That when a Bill, originating in this House, has once passed through its final stage in this House, no new Bill for the same object can afterwards be originated in this House during the same Session.

LVI.—That the Legislative Council will not proceed upon any Bill appropriating Public Money, that shall not, within the knowledge of this House, have been recommended by the Queen's Representative.

LVII.—That this House will not proceed upon any private Bill, unless upon Petition addressed to the House, and that no such Petition will be received unless presented within thirty days after the commencement of the Session.

LVIII.—That to prevent surprise, and to afford time for proper investigation in matters that may affect the private rights of individuals, it is expedient to make it a standing order of the Legislative Council, that no Petition for a private Bill, which can affect the vested right, interest or convenience, of any person or persons other than the Petitioner or Petitioners, shall be received after the thirtieth day of the Session; and that no private Bill, of the nature above described, which may come up from the Legislative Assembly after the fortieth day of the Session, shall

Vol. 1.

be proceeded upon in the Legislative Council.

LIX.—That for the future, no motion shall be granted for making any order of this House a standing order the same day it is made, nor before the Members of this House, in attendance on the Session, shall be summoned to consider of the said motion.

LX.—That in all unprovided cases, resort shall be had to the Rules, usages and forms, of the Imperial Parliament.

LXI.—That the Royal Instructions to the Governor of this Province, respecting the passing of Bills by the Provincial Parliament, which may be communicated to this House, be printed with the standing Rules and Orders thereof, and be thereunto prefixed.

QUORUM.

LXII.—That when there shall not be ten Members present at the hour to which this House shall at any time stand adjourned, the Speaker may take the Chair at thirty minutes afterwards, and adjourn to the usual hour of meeting on the day following, not being a Sunday, and in that case to Monday; the names of the Members present to be taken down by the Clerk.

LXIII.—That if at any time there be less than a quorum in the House, the Members (if any there be) who may be in the adjoining rooms or lobbies shall be summoned, and if no more come into the House, the Speaker shall in like manner adjourn the House.

JOURNALS, &c.

LXIV.—That the Clerk be directed to cause the Journals of this House to be bound in annual Volumes, during the recess, with a full Index attached to each; the expense to be included in the Contingent Account at the next ensuing Session of Parliament.

LXV.—That one copy of the Journals of this House, for this and every succeeding Session, plainly and uniformly bound, be transmitted by the Clerk to the Treasurer of the respective Law Societies of Canada, to be deposited in the Library of those Societies.

Quebec, 8th October, 1836.

His Majesty's Government having announced, through the Right Honourable Lord *Glenelg*, His Majesty's Principal Secretary of State for the Colonies, their disposition to render less dangerous the navigation of the Gulf of *Saint Lawrence*, by erecting Light Houses upon the Islands of *Saint Paul's* and *Scattarie*, off the coast of *Cape Breton*, at the expense of Government, provided the Colonies, whose trade will be benefitted, engage to defray the expenses of their future maintenance; and having brought the subject under the consideration of the respective Legislatures of *Lower Canada*, *New Brunswick*, *Nova Scotia* and *Prince Edward Island*, for the purpose of obtaining a Commission of Arbitration appointed by them, with power of adopting a final award as to the site, structure, and apportionment of the annual expense of such Light Houses, or any arrangement better adapted to the exigencies of the case. And whereas, such proceedings were adopted thereon, that the Legislature of *Lower Canada*, after maturely considering the subject thus referred to them, passed an Act or Statute, whereby *Augustin Norbert Morin*, Esquire, (or in case of his sickness, or of any other impediment, such other person as should be appointed by the Governor, Lieutenant-Governor, or Person administering the Government,) is constituted a Commissioner on the part of the Province of *Lower Canada*, for the purpose of determining and deciding, jointly with the Commissioners appointed for the same purpose by the Provinces of *Nova Scotia*, *New Brunswick* and *Prince Edward Island*, with respect to the fit

sites for the proposed Light Houses, and the sums of money required for the erection of the same, as well as for their future support after they shall have been erected; and to determine under what management and control the yearly expenses of the said Light Houses ought to be placed, and to apportion the sum of money which the Province of *Lower Canada* ought to contribute annually towards the maintenance of the said Light Houses, according to the tonnage of vessels trading to or from that Province, as compared to the tonnage of the vessels trading to and from the other Provinces above mentioned, and to the benefit which each Province may respectively be expected to derive from the said Light Houses; and to report his doings and proceedings to the three Branches of the Legislature within the first fifteen days of the Session next after the time when the business assigned to him shall be brought to a close.

And the House of Assembly for the Province of *New Brunswick* proceeded to the consideration of the subject on the tenth day of March last, and resolved that measures should be adopted to ascertain the number, proper site and description of Lights which it might be necessary to erect on *Saint Paul's* Island, in order to afford sufficient protection to vessels passing that Island; and further, that if two good and sufficient Light Houses, with bells and guns, should be erected in proper situations, and maintained by the Board of Commission in *Nova Scotia*, on the Island of *Saint Paul's*, and also one Light House on *Scattarie* Island; and if the establishment at present on *Saint Paul's* Island for the preservation and comfort of shipwrecked persons be also continued and maintained by the said Board of Commission of *Nova Scotia*, then the said Province of *New Brunswick* would contribute and pay towards the same the annual sum of two hundred and fifty pounds. And the said House of Assembly did afterwards, on the fourteenth day of the same month, renew the consideration of the subject, and after reciting the humane and benevolent solicitude of His Majesty's Government for the welfare and prosperity of His Majesty's North American Colonies, and the disposition of the House to meet the liberal and humane purpose of the Government, by pledging itself to contribute the sum of two hundred and fifty pounds annually, towards the maintenance of Light Houses on the above Islands, and expressing a confident hope that the *Canadas*,

Nova Scotia and *Prince Edward* Island, would contribute such further sums as might be necessary for the maintenance of such Light Houses, and that the same might in consequence be erected in the course of the ensuing Summer; and that it was expedient that persons should be appointed to whom might be communicated, during the recess, such information relative to the erection of such Light Houses, as His Excellency the Lieutenant-Governor might receive from His Majesty's Government, or of the sister Colonies.

Resolved, that the Honourable *Joseph Cunard*, *Alexander Rankin*, and *William Abrams*, should be a Committee to receive all such communications as His Excellency the Lieutenant-Governor might think necessary to transmit to them during the recess, with a view to every facility being given to the erection of those Light Houses, so necessary to the protection of Commerce and the cause of humanity.

And the Legislature of the Province of *Nova Scotia*, after mature consideration, did, on the fourth day of April last, pass an Act or Statute, whereby it is lawful for the Governor, Lieutenant-Governor or Commander-in-Chief, for the time being, to appoint one or more Commissioners, to be joined with Commissioners appointed by the Governors of the Provinces of *Lower Canada* and *New Brunswick*, or their respective Legislatures, to ascertain and define the most fit sites for Light Houses on said Islands, the most efficient structure for the same, and to ascertain and report the sums of money required for the erection of the same, as well as for their future support; and to apportion the sum of money which each Province shall contribute annually towards the maintenance of such Light Houses. And it is further enacted by the said Statute, that all reports and statements shall be made and returned by the said Commissioners to the Secretary of the Province, for the information of the Governor and the Legislature of the Province; and His Excellency Major-General *Sir Colin Campbell*, K. C. H., Lieutenant-Governor and Commander-in-Chief in and over the Province of *Nova Scotia*, did, by his Commission under his hand and Seal, dated the seventh day of May last, nominate the Honourable *Samuel Cunard*, of *Halifax*, and *Edmund Murray Dodd*, of *Sydney*, *Cape Breton*, Esquire, Commissioners to carry into effect the said Act, in the most full and ample manner.

And the Legislature of *Prince Edward* Island also considered the subject, and passed an Act or Statute, authorising the Lieutenant-Governor, or Person administering the Government, to nominate one Commissioner, to meet those appointed by the other Colonies, for the purpose of defining the most eligible sites for the said Light Houses, the mode of structure, and the apportionment of the annual contribution for their maintenance and support; in pursuance of which authority the Honourable *George Wright*, the President and Administrator of the Government of *Prince Edward* Island, did, by his Commission, duly executed, constitute *Thomas Owen*, Esquire, a Commissioner for the purposes in the said Act or Statute expressed, and to carry the same into effect.

And the said Commissioners having mutually produced and shown their powers, and having assumed and taken upon themselves the charge of award and arbitrament on the foregoing subject; and several of the said Commissioners having visited said Islands of *Saint Paul* and *Scattarie*, and having heard and considered the testimony of skilful and intelligent persons, experienced in maritime pursuits, and conversant with the dangers of navigating the Gulf of *Saint Lawrence*, the coast of *Cape Breton*, and the adjacent Seas, and the means of diminishing the same; and having also examined persons extensively engaged in Colonial Commerce, and ascertained the relative tonnage owned in said Colonies, have agreed on and concluded this award, arbitration and judgment, as follows:

First.—That the superintendence of building Light Houses on the Islands of *Saint Paul's* and *Scattarie* shall be vested, as recommended by the Right Honourable Lord *Glenelg*, in the Board of Commissioners appointed by the Government of *Nova Scotia*.

Second.—That two good and sufficient Light Houses, with bells and guns, shall be erected on *Saint Paul's* Island, on the extreme points, so as to be conspicuous on entering and leaving the Gulf of *Saint Lawrence*; and the Light House on the Island of *Scattarie* shall be erected on the East point of said Island, which is about thirty feet above the level of the Sea.

Third.—That the Light Houses on *Saint Paul's* Island should be assentable elevation, and constructed on such principles, and with such further additions and appendages, as may render them useful and conspicuous in a foggy atmosphere,

atmosphere, with keepers' houses, stores or warehouses, with frost-proof cellars, to preserve provisions for the relief of shipwrecked persons, detached from the Light Houses. That the establishment on *Scattarie* Island should consist of one Light House, with revolving lights, to distinguish it from others on the coast, with a keeper's house, warehouse and cellars, similar to those recommended for *Saint Paul's* Island; subject, however, to any improved mode of constructing such lights, as the said Board of Commissioners may think fit to adopt.

Fourth.—As the proposed Light Houses will stand on prominent and exposed situations, and be approached by all Vessels entering the *Saint Lawrence*, they ought to be of substantial and improved construction. No correct judgment of the probable expense of erecting the Lights can be formed, without procuring plans and estimates, owing to the variety of materials which might be employed in the construction of the Buildings, and the numerous additions and improvements which it may be thought advisable to adopt; it is therefore recommended, that the whole duty of fixing upon the materials to be employed, and the plans to be adopted for the Lights, be left to the discretion of such persons as may be charged with the superintendance of their erection.

Fifth.—That the establishment at *Saint Paul's* will require one Superintendent, and six other persons under his direction, with boats, and a continued supply of provisions, clothing, bedding, fuel, &c., for the use and assistance of shipwrecked persons. And that the establishment at *Scattarie* shall consist of one Superintendent, and three other persons, with a boat, and continued supply of provisions, clothing, bedding, fuel, &c., for the use and assistance of shipwrecked persons. That all the Lights shall be kept burning throughout the year.

As to the maintenance of the said Lights, and Humane Establishments, it will be apportioned and borne as follows: that is to say—

First.—*New Brunswick* shall pay to the Government of *Nova Scotia*, into the Treasury thereof, two hundred and fifty pounds, *Halifax* Currency, on the 1st day of July in each and every year, after the said Light Houses and Humane Establishments shall be in operation, and as long as they shall continue to be so, in conformity with the provisions of this award.

Second.—*Lower Canada* shall pay to the Government of *Nova Scotia*, into the Treasury thereof, two hundred pounds, *Halifax* Currency, on the first day of July of the first year after the said Light Houses and Humane Establishments are in operation, and then at the same period in every year, as long as they shall continue to be so, a proportionate part of a sum, which added to the unexpended balance (if any) remaining from the preceding years (*New Brunswick* being in this respect considered as having contributed the same amount as *Nova Scotia*) as shall amount to a sum of one thousand and thirty pounds, Currency.

Third.—*Prince Edward* Island shall, in like manner, pay to the Government of *Nova Scotia*, into the Treasury thereof, thirty pounds, *Halifax* Currency, on the 1st day of July of the first year after the said Light Houses and Humane Establishments are in operation, and then at the same period in every year, so long as they shall continue to be so, a proportionate part of a sum, which added to the unexpended balance (if any) remaining from the preceding years (*New Brunswick* being in this respect considered as having contributed the same amount as *Nova Scotia*) as shall amount to the said sum of one thousand and thirty pounds, Currency.

Fourth.—*Nova Scotia* shall itself contribute a sum of two hundred and fifty pounds, *Halifax* Currency, for the first year after the said Light Houses and Humane Establishments are in operation, and then for every year as long as they shall continue to be so, a proportionate part of a sum, which added to the unexpended balance (if any) remaining from the preceding years (*New Brunswick* being in this respect considered as having contributed the same amount as *Nova Scotia*,) as shall amount to the said sum of one thousand and thirty pounds, Currency. And with the amount so contributed the Government of *Nova Scotia* shall uphold, support and maintain, the said Light Houses and Humane Establishments, it being fully understood that in case the said amount should prove insufficient in any one year, the deficiency ought to be provided by the respective Legislatures of *Lower Canada*, *Nova Scotia* and *Prince Edward* Island, in such manner as shall appear to them most eligible, and on the same ratio as the contribution settled in this present award. But as to *New Brunswick*, the sum of two hundred and fifty pounds, aforesaid, shall be a settled and permanent contribution

contribution, the overplus, if any, going to *Nova Scotia*, and the proportionate deficiency, if any, being borne altogether by the last mentioned Province of *Nova Scotia*, so as to have the expense and the contribution for *Nova Scotia* and *New Brunswick* considered as altogether alike in account with the aforesaid Provinces of *Lower Canada* and *Prince Edward Island*. It is also expressly understood, that if said Light Houses and Humane Establishments are destroyed or impaired by fire, tempest or other causes, that the expense of rebuilding or repairing the same shall not devolve on the Province of *Nova Scotia* alone, but be sustained by the Government of *Great Britain*, or as may be otherwise agreed and decided upon.

Sixth.—That the Board of Commissioners of *Nova Scotia* shall render accounts in each and every year to the House of Assembly of *Nova Scotia*, duplicates of which shall be transmitted annually to the Legislatures of *Lower Canada*, *New Brunswick* and *Prince Edward Island*.

Seventh.—The Commissioners suggest, that the several sums apportioned to the above mentioned Provinces, ought to be provided for by Acts of the respective Legislatures.

Eighth.—That as the Establishments on the said Islands are admitted to assure the importance of national rather than local structures,

should His Majesty's Government contribute at any future period to their support, by an annual grant, it is adjudged that a rateable deduction shall be made from the amount of each Provincial contribution.

Ninth.—That the respective Colonial Legislatures having acquiesced in the liberal offer of His Majesty's Government, and in a great degree assumed the responsibility of maintaining the Light Houses on the Islands of *Saint Paul* and *Scattarie*, it is recommended, that no time be lost in proceeding with the erection of the same by the proper authorities.

In faith whereof, we, the respective Commissioners, have signed this Award and Judgment, and have hereunto affixed our seals, at *Miramichi*, the sixteenth day of August, in the year of our Lord one thousand eight hundred and thirty-six.

APPENDIX
No. 6.

Report of the
Commissioners of
the Chambly
Canal.

The Honourable the Legislative Council of the United Province of Canada, in Provincial Parliament assembled.

The Commissioners of the *Chambly Canal*, beg leave most respectfully to Report :

That in pursuance of an Ordinance passed by His Excellency the Governor-General, in Special Council, 3rd *Victoria*, Chap. 20, the Commissioners immediately proceeded to advertize for tenders for the loan required to complete the Canal; and they were so fortunate as to obtain the promise of the whole sum from *John Jones*, Esquire, of *Quebec*, payable in eight years, and bearing interest at the rate of six per cent, payable half yearly. It was stipulated that fifteen thousand pounds,

should be forthwith placed at the disposal of the Commissioners, for which Debentures were to be issued, under the guarantee of the *Quebec Bank*, and the remaining twenty thousand pounds were to be paid on or before the first of May, 1841, in such proportions as might be required by the Commissioners in the construction of the Canal. The terms on which this loan has been negotiated are considered exceedingly advantageous.

The Commissioners feeling the greatest anxiety to prosecute the work as expeditiously as possible, lost no time in placing such portions of it under contract as were deemed expedient to complete in that way, being the Locks

Locks and other works at *Chambly*, together with the Wharf and excavation of the Basin at *St. Johns*. A contract was entered into with Messrs. *Lauder*, *Whillaw* and *Tennant*, individuals strongly recommended to the Commissioners as energetic and skilful Mechanics, who had on all previous occasions faithfully completed the works undertaken by them. It is, however, to be regretted that up to the present time less progress has been made than was anticipated by the Commissioners, owing, as the Contractors assert, to untoward events beyond their control.

Amongst the causes to which the tardy progress of the Contractors may be attributed, have been the great and unexpected scarcity of labourers during the last autumn, who could not be procured by them, even at the most extravagant rates, the unusual and rapid rising of the River *Richelieu*, which being very high at a much earlier period than could reasonably have been looked for, causing thereby the repeated destruction of the coffer dams erected by the Contractors, both at *Chambly* and at *St. Johns*, which, it must be admitted, had not been constructed with sufficient strength and solidity, although they were repeatedly apprised of that circumstance by the Engineers. The loss arising from these casualties will, of course, fall on the Contractors.

It has been found necessary on several sections of the work to raise and increase the strength of the embankments, as well as to repair and re-build a large portion of the Protection Wall, an undertaking of considerable magnitude and expense, and of vital importance to the safety of the work. These ameliorations have been completed in the most substantial manner, and have effectually secured the Canal from the high freshets that usually occur in the months of April and May, which have for some years past caused much expense, and at times the most anxious fears for the safety of the work.

The foundations for the Bridges have been commenced, and the masonry has considerably advanced, but owing to the peculiarly unfavourable nature of the soil, one of them, which is located near *Carpenter's*, has proved to be a work of much difficulty, and required great precautions; a heavy expense was necessarily incurred to obtain a secure foundation. Several sections of the Canal have been deepened, and there are still other portions of it requiring the same process. These operations

have been carried on by the Commissioners, under the management and inspection of the Assistant Engineer, Mr. *Robinson*, and have been performed by day labourers—a system the Commissioners were, from the peculiar character of the work, most unwillingly compelled to adopt.

The long illness of the Engineer, Mr. *Baird*, deprived the Commissioners of his assistance, and contributed materially to retard the progress of the work; it also tended greatly to increase the labour of the Assistant Engineer, who has always been indefatigable in his exertions. Mr. *Baird's* resignation was received in the month of November last, and Mr. *George Keefer*, a gentleman well known for his ability as a Civil Engineer, has been appointed in his place. It is now confidently expected that the different works required to complete the Canal will advance more rapidly than they have hitherto done.

From the experience the Contractors have now acquired, it is hoped, notwithstanding the difficulties and disasters they have encountered, the Canal will be opened for navigation early in the month of June, 1842.

The sum of fifteen thousand pounds was advanced by Mr. *Jones* in the month of June last, about eleven thousand of which have been expended; and the Commissioners are of opinion, that the sum of thirty-five thousand pounds, appropriated by the Ordinance for the completion of the Canal, will be sufficient for that object. It is earnestly hoped that the final instalment, of twenty thousand pounds, will be forthcoming at the appointed time, as a deficiency of funds at this crisis would be productive of the worst consequences.

The improvement of the navigation of the River *Richelieu*, from *St. Ours* to the Basin of *Chambly*, is a work of vital importance to the prosperity of the *Chambly* Canal; it would also confer great advantages on the country generally, and it is believed that the profits arising from that amelioration would pay the interest on the outlay required to effect it. A continuous navigation would then be opened from the Ports of *Nova Scotia*, *New Brunswick*, and *Quebec*, to *Lake Champlain*, affording great facility for the transport of Lumber, Gypsum, Salt, Coals, Cast Iron, and many other articles, of which great quantities are consumed in the States bordering on that Lake, at a more reasonable rate than they

could be introduced by any other route. It would also tend to promote the commercial prosperity of the Province generally, as well as to increase the revenue of the Canal.

The account of expenditure, to the thirtieth of April, 1841, inclusive, is herewith transmitted.

All of which is most respectfully submitted.

APPENDIX No. 10.

(See Journal, Page 48.)

No. 369.

Downing Street,
3rd May, 1841.

MY LORD,

The Despatches which I have received from you on the general state of the Province of Canada; the Reports with which you have furnished me on several important subjects, and the approaching meeting of the Council and Assembly of the United Province, have induced me to explain to you, at this time, the views which Her Majesty's Government entertain on the topics most interesting to the welfare of *Canada*.

In any measures that may be adopted, it must be taken for granted that Her Majesty persists in the determination to maintain, at all hazards, Her Royal authority in *Canada*.—Neither the honour of Her Majesty's Crown, nor the support due to Her loyal Subjects in British North *America*, nor the provident care of the interests of the Empire at large, would permit any deviation from this fixed principle of British policy.

At the same time, Her Majesty's advisers are not insensible to the difficulties imposed upon them in carrying into execution the purpose of the Crown. A Province bordered by an open frontier of more than a thousand miles—approached with ease at all times by the Citizens of a neighbouring and powerful State—separated from *England* not only by the ocean, but by the rigours of climate and season, must be maintained by a judicious preparation for defence in time of peace, and a vigorous exertion of the resources of the Empire in time of war;—or not at all. To trifle with the fortunes of men whose lives and properties are freely devoted to the service of *England*, or to encourage foreign aggression by neglect or apathy, would be far worse than the spontaneous surrender of these important possessions of the Crown. The Canadians might, in such a case, incur no risk; no blood need be shed—and the treasures of the Empire might be spared. The other course would be cruel to a brave people, and unbecoming the character of the Country.

But, as I have already said, we have no alternative. We have only to consider the

VOL. 1.

means of binding *Canada* more firmly to this Country, of developing her resources, of strengthening her British population, of defending her territory, and of supporting and encouraging the loyal spirit of her people. In this spirit then, I shall touch upon the principal topics connected with those views.

1.—FINANCE.

You have stated the debt of the United Province to amount to £1,226,000, and with the sum required to complete Public Works necessary for the free passage between the Western portion of the Province, the *St. Lawrence*, and the Sea, to about one million five hundred thousand pounds.*

The Queen's Government coincide in your views of the expediency of making such an arrangement, as may employ the credit of this Country, for the benefit of the finances of *Canada*, and have given their best consideration to the plan proposed in your Despatches. They are of opinion that such an arrangement, if it can be carried into effect with the consent of the Creditors, would be in every way desirable; but they feel that the objections to a Bill compelling parties to receive payment of their money in breach of agreements entered into with them by competent authority, are insuperable.

Her Majesty's Government are ready to give any assistance, in conformity with your proposal, which does not appear to them inconsistent with good faith. They are ready to propose to Parliament to guarantee a Loan, which may be required for Public Works, (under the restrictions suggested by you) for the re-payment of such part of the debt as may be now redeemable, or may be held by Creditors who shall declare themselves willing to accept reasonable terms.

With regard to this latter sum, it appears to the Government most expedient, that you should fix such terms as you may consider sufficient to induce the Creditors to accept the proposed equivalent, (not of course exceeding £100 for every nominal £100 lent,) that you should make known such tender in such way as may appear to you most advisable, giving

* NOTE.—In addition to what can be raised by the Province.

Russell, on

the holders sufficient notice and information, and fixing a given day, before which the willingness of the parties to accept such offer should be sent in.

To do this, an Act of the *Canada* Legislature will be necessary, and when that is obtained, the subsequent arrangements might be made; or through some party deputed on the part of the *Canadas* to this Country, with full instructions.

It may perhaps be also expedient, at the same time, by Law to enable Trustees, &c. to account, as in cases where the interests of Loans are received in this Country.

Upon receiving the information of the assent of the parties accepting the terms proposed, the necessary means may be taken in this Country to raise the requisite funds; and it may be expedient that you should fix the day for the paying off such assenting Creditors, and other claims, at a time when the Parliament in this Country is sitting; for should it be necessary to have recourse to a Loan, such a measure has always been considered open to objection during the prorogation of Parliament.

2.—DEFENCE.

I have perused with great interest the enclosures in your Despatch of 24th December, 1840, containing reports from Lieutenant-General Sir *Richard Jackson*, and Colonel *Oldfield*, the Commanding Officer of Engineers, on this subject.

The question is one of so much importance, that I was not satisfied with referring your Despatch to the Master-General and Board of Ordnance, but I also asked the opinion of the Commander-in-Chief, and requested him to consult the Duke of *Wellington*, whose high authority on every military subject is, in this instance, of peculiar weight, from the attention he has for many years given to this matter, both on political and military grounds. Their opinions are transmitted with this Despatch.

Her Majesty's Government agree in opinion with Lord *Hill* and Sir *Richard Jackson*, that "no dependence upon the decided superiority of our troops and arrangements made for defence connected with them, should lead us to neglect the construction and completion of permanent Works, calculated for the protection of the points of most importance to us."

They likewise concur in His Lordship's opinion, that in the event of the construction of these or any other Works, a large effective Regular Force, and a Militia, registered and enrolled, but not called from their Districts, except in case of invasion, will be indispensable.

But it cannot be reasonably expected, that Works on a large scale should be undertaken, without reference to the great expense to be incurred.

I have therefore to inform you, that the Government are prepared to state their opinion, that beyond the ordinary estimates of the year £100,000 should yearly be applied for the defence of *Canada*. At present this sum is nearly absorbed in the maintenance of the Militia and Volunteers. But by a more economical plan, this expense might be greatly diminished, and great portion of the sum of £100,000 left for the improvement of military communications, and the erection or repair of fortifications.

You will hear further from me on this point, when I have more fully considered the various plans proposed.

3.—EMIGRATION.

I have read with great interest your Despatches on this subject, and I agree with you in opinion, that it would not be wise for this Country to engage to convey Emigrants to *Canada* at the public expense. But neither can I agree that this Country ought to pledge itself indefinitely to the expense of maintaining the Emigrants in *Canada* till they are able to obtain employment.

I quite concur, however, in the sense you entertain of the importance of the object.

It is a hardship to *Canada* that she should be obliged to maintain the pauper Emigrants from the United Kingdom, who arrive in a state of destitution and disease. But this object was formerly provided for by the imposition of the Emigrant Tax, and I think that the renewal of this Tax should be recommended to the Legislature of *Canada*.

I have recommended to the Treasury that the expense thus incurred by the Emigrant, should, in consideration of the great political advantages likely to flow from Emigration to *Canada*, be defrayed by this Country.

Supposing a Tax of 5s. a head,—32,000 Emigrants might be freed from the Tax for £8,000. This is a sum which I think Parli-

ment

ment might be asked to vote for so important an object. The Tax might then be paid in *Canada*, not by the Captain of the Passenger-Ship, but by the Commissary-General, on proper vouchers of the number of Emigrants landed.

In this case, the only Emigrants paid for, must be those whose fitness for Emigration had been previously attested by an Emigration Agent in this Country.

The Emigrant Tax would then act as a check, and very properly so, on those who could not obtain the attestation required.

I have now adverted to the three principal topics to which I have called the attention of the Queen's confidential Servants. There are many others of great importance to the welfare of *Canada*, but upon which I am anxious to receive your reports before proceeding further.

Of this kind are the engagements of the Land Companies, and the future disposal of the Crown Lands. The means of communication for Commercial purposes within the British territory through the whole length of *Canada*, must always be a matter of the highest interest both to *Canada* and to this Country.

But it seems to me, that with a Legislature in *Canada*, disposed to co-operate with the Queen and the Parliament of the United Kingdom, in developing her vast and unexplored resources, there is every hope that we shall behold the prosperity of that noble Province augment every year, and add more and more to the strength and stability of the Empire.

I have, &c.,

PRAYERS.

Extract from the
minutes of the
Proceedings of
the Council of
King's College.

Before entering upon the Business of the day.

Let us pray.

Our Father which art in Heaven, hallowed be Thy name; Thy Kingdom come; Thy will be done in earth as it is in Heaven; give us this day our daily bread; and forgive us our trespasses as we forgive them that trespass against us; and lead us not into temptation, but deliver us from evil; for Thine is the Kingdom, the power, and the glory, for ever and ever. Amen.

O Lord, our Heavenly Father, Almighty and everlasting God, who hast safely brought us to the beginning of this day, defend us in the same with Thy mighty power, and grant that this day we fall into no sin, neither run into any kind of danger; but that all our doings may be ordered by Thy governance, to do always that is righteous in Thy sight; through Jesus Christ, our Lord. Amen.

O, Almighty God, the giver of every good and perfect gift, the fountain of all wisdom, enlighten, we beseech Thee, our understandings by Thy Holy Spirit, and grant that whilst with all diligence and sincerity we apply ourselves to the attainment of human knowledge, we fail not constantly to strive after that wisdom which maketh wise unto salvation, that so, through Thy mercy, we may daily be advanced both in learning and Godliness, to the honour and praise of Thy name; through Christ, our Lord. Amen.

The Grace of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

At the close of the business of the day.

Let us pray.

Our Father which art in Heaven, hallowed be Thy name; Thy Kingdom come; Thy will be done in earth as it is in Heaven; give us this day our daily bread, and forgive us our trespasses as we forgive them that trespass against us; and lead us not into temptation, but deliver us from evil; for Thine is the Kingdom, the power and the glory, for ever and ever. Amen.

APPENDIX
No. 12.

Extract from the
minutes of the
Proceedings of
the Council of
King's College.

Most merciful God, we yield thee our humble and hearty thanks for Thy Fatherly care and preservation of us this day, and for the progress which Thou hast enabled us to make in useful learning. We pray Thee to imprint upon our minds whatever good instructions we have received, and to bless them to the advancement of our temporal and eternal welfare; and pardon, we implore Thee, all thou hast seen amiss in our thoughts, words and actions. May Thy good Providence still guide and keep us during the approaching interval of rest and relaxation, so that we may be thereby prepared to enter on the duties of the morrow with renewed vigour both of body and mind; and preserve us, we beseech Thee, now and ever, both outwardly in our bodies, and inwardly in our souls, for the sake of Jesus Christ, our Lord. Amen.

*Lighten our darkness, we beseech Thee, O Lord, and by Thy great mercy, defend us from all perils and dangers of this night; for the love of Thine only Son, our Saviour Jesus Christ. Amen.

The Grace of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

CONFERENCE HAD AT THE DESIRE OF THE ASSEMBLY.

A Message was brought from the Legislative Assembly by Mr. —, and others, as follows:

Honourable Gentlemen, (1)

The Legislative Assembly,	*	*
* * * * *	*	*
* * * * *	*	*
* * * * *	*	*

A. C. Speaker.

Legislative Assembly,
4th August, 1850.

And then they withdrew.

The Messengers were called in again, and informed, that the Legislative Council will send an answer by a Messenger of their own.

Resolved, that this House do concur in the Conference desired. (2)

(1) This is in conformity to the English precedent. The Message of the Commons is addressed to "My Lords." In Upper Canada it was addressed to the Speaker.

(2) In the House of Lords the answer usually was, "That the Lords agree to a Conference, as desired, and appoint it presently, in the Painted Chamber." Perhaps this may be, on the whole, the better course, since no reasons are on such occasions to be prepared.

The Lords then went on as follows:

"Then the Lords following were named Managers of the Conference, A. B. C. and D.

"The House being informed that the Managers for the Commons were ready for the Conference, in the Painted Chamber,

"The names of the Managers from this House were called over.

"And the House was adjourned during pleasure, and the Lords went to the Conference."

Which being ended, the House was resumed.

Vol. 1.

Ordered, that the Master in Chancery do go down to the Legislative Assembly, and acquaint that House, that the Legislative Council agrees to a Conference desired for the purpose of communicating the reasons which induced the Assembly not to concur in certain amendments made by this House to the Bill, (as the case may be,) and that the Managers on the part of this House are to be the Honourable Messieurs A. and B. who are to meet the number of Managers on the part of the Legislative Assembly, required by Parliamentary usage, to-morrow, at four o'clock in the afternoon, in the Committee Room No. 1, of the Legislative Council. (3.)

Report.

The Honourable Mr. A. reported. that the Honourable Mr. B. and himself had attended the Conference desired yesterday, (or to-day, as the case may be,) by the Legislative Assembly, on certain amendments made by this House to the Bill intituled, "An Act etc." to which the Assembly have not agreed, as Managers for this House, and Messieurs. A. B. C. and D. as Managers for the Assembly, who delivered the Bill with the amendments, and also a paper containing as follows:

Reasons (4) to be offered to the Legislative Council, at a Conference, etc. etc. etc.

First. Because.

Second. Because.

Attest.

(Signed,) W. B. L.

Clerk of the Assembly.

Ordered, that the same do lie on the table.

Ordered, that the same be taken into consideration on — next.

The order of the day being read, for the House taking into consideration the Report made on — the — instant, of the Conference with the Legislative Assembly upon the subject matter of certain of the amendments made by this House to the Bill intituled, etc. etc.

(3) The hour of eleven o'clock was sometimes fixed for the meeting of a Conference in Lower Canada, but it seems to be the invariable Rule of the House of Lords to adjourn during pleasure, while their Managers go to meet the Managers of the Commons.

Therefore, the Conference should take place after both Houses have met in Session for the day.

(4) The custom in Lower Canada was to present reasons in the form here stated. In England there was a preamble, as follows:

"My Lords,—

"The Commons disagree to the amendments made to the Bill, etc.

"Because, etc.

"Because, etc."

The said Report was read by the Clerk, and the amendments made by this House, to which the Assembly disagreed, being also read, (5)

It was moved,

Not to insist on the said amendment.

The question was put, whether the House shall insist on the said amendment.

It was resolved in the negative, (or the "affirmative," as the case may be.)

Ordered, that the Master in Chancery do go down to the Legislative Assembly, and acquaint them, that this House does not insist on their amendment to the said Bill, to which the Legislative Assembly disagree. (6)

CONFERENCE HAD WITH THE LEGISLATIVE
ASSEMBLY, AT THE DESIRE OF THE
LEGISLATIVE COUNCIL.

The House, according to order, proceeded to take into consideration the amendments made by the Assembly to the amendments made by this House to the Bill intituled, "An Act, etc. etc."

And the same were read twice by the Clerk, as follows; (7)

(Here insert amendments.)

Then the two first amendments being read the third time, were severally agreed to.

Then the next and last amendment. Press —, line —, after —, insert —, being also read,

It was proposed to disagree with the Assembly therein.

The question was put, "Whether to agree with the Assembly in this amendment."

It was resolved in the negative.

Ordered, that a Committee be appointed to draw up reasons, to be offered at a Conference with the Assembly, for disagreeing to one of the amendments made by them to the amendments made by this House to the said Bill, and report the same to this House; and that the Committee be the Honourable Messieurs A.

(5) In *Upper Canada* it was usual to put the House into Committee of the whole upon this matter, which, of course, may be occasionally convenient.

(6) The form used in *Lower Canada* was shorter, viz: That the Master in Chancery do go down to the Assembly, and acquaint them therewith. In *Upper Canada* the words used instead of "doth not insist," were, "do recede."

(7) It appears to have been the custom to read the amendments *once* only in the Lower Province. In *Upper Canada* the House usually went into Committee of the whole upon them.

and H., to meet and adjourn as they please. (8)

The Honourable Mr. H., from the Committee appointed to draw reasons, to be offered at a Conference with the Assembly, touching the disagreement of this House to one of the amendments made by the Assembly to the amendments made by this House, to the Bill, etc., reported,

That they had drawn reasons accordingly.

Ordered, that the said reasons be taken into consideration on — next.

The House, according to order, proceeded to take into consideration the reasons to be offered at a Conference with the Assembly, touching the disagreement of this House to one of the amendments made by the Assembly to the amendments made by this House, to the Bill intituled, "An Act, etc."

The first reason being then read, was agreed to by the House.

The second reason being then read, was disagreed to by the House.

The third and fourth reasons being then read, were severally agreed to by the House.

And the said reasons being again read for the second time;

Ordered, that the Managers to be appointed by this House to the intended Conference, do hold language to the following effect:

Reasons to be offered at a Conference to be desired with the Legislative Assembly, for which the Legislative Council disagrees to the amendments made by the Assembly to one of the amendments made by this House, to the Bill intituled, "An Act, etc."

The Legislative Council doth not agree to the said amendment;

Firstly.—Because, etc.

Secondly.—Because, etc.

Thirdly.—Because, etc.

Ordered, That the Master in Chancery do go down to the Legislative Assembly, and acquaint that House, that a Conference is desired at four o'clock to-morrow, in the Committee Room of the Legislative Council, with the

(8) It is the custom of the Lords, immediately after the appointment of a Committee for drawing reasons, to send a Message to the Commons, fixing on the next day for the Conference, and then to receive the Report of the Committee, and adopt the reasons. In *Upper Canada* the Message was sent desiring the Conference, usually on the morrow, and naming the Council's Committee, as well as the place of Conference; after which, without selecting a Committee to draw reasons, the instructions to the "Managers" were discussed and adopted. The *Lower Canada* forms, which it is in the main proposed for our adoption, seems more guarded and cautious, and more likely to ensure mature consideration.

Assembly, upon the subject matter of the amendments made by them, to one of the amendments made by this House, to the Bill intituled "An Act, etc. etc.," to which this House doth not agree.

The Honourable Messrs. *D. E.* and *F.* were appointed Managers of the said Conference for this House. (9.)

The House being informed that the Managers of the Conference for the Legislative Assembly, appointed yesterday, upon the subject matter of the amendments, etc. etc., were ready in the Committee Room of the Legislative Council for the Conference.

And the names of the Managers appointed on the part of this House being called over,

The House was adjourned during pleasure, and the Managers went to the Conference.

Which being ended, the House was resumed:

And the Honourable Mr. *D.* reported that they had met the Managers of the Conference for the Legislative Assembly, which was managed on their part by Mr. *S.* and others, and had delivered to them the reasons of this House for disagreeing to one of the amendments made by the Assembly to the amendments made by this House to the said Bill, and left the Bill and amendments with them.

Some little variation is required in the forms when a "present Conference" is requested. In the Appendix A., will be found an extract from the Journal of the House of Lords, which will serve as a model on such occasions.

As to the summoning of Members the form of entry should be:

Ordered, "That all the Members be summoned to attend the service of the House on — next, at — o'clock." (10.)

APPENDIX
No. 14Annual Report
of the Inspectors
of the Provincial
Penitentiary.

To His Excellency SIR GEORGE ARTHUR,
Knight Commander of the Royal
Hanoverian Guelphic Order, Lieu-
tenant Governor of the Province
of *Upper Canada*, Major-General
Commanding Her Majesty's For-
ces therein, &c. &c. &c.

The Board of Inspectors of the Provincial
Penitentiary, have the honour to lay before
your Excellency their annual Report:

The recent formation of the present Board,
and the consequent want of knowledge of the
greater part of its Members of the transactions
of the past year, will necessarily confine their
remarks to the present condition of the Prison,
the efficiency of its Officers, and the works
they propose to carry on during the ensuing
year.

The first point which struck the attention
of the Board, was the immediate necessity
there exists for the erection of an outer wall
of stone, to enclose the space required for the
Prison and its dependencies, the present tem-
porary fence of wood being in many places
decayed, and not affording that security which
is necessary for the safe keeping of the Con-
victs, in a place where the nature of their
labour occasionally withdraws them from the
eye of the guard. The Inspectors regret to
say, that in consequence of the insufficiency of
the fence, a Convict made his escape from the
Prison during the past year; they have there-
fore been induced to direct the Warden to
make preparations for the commencement of
this work at as early a period in the ensuing
Spring as practicable; by the application of
as much labour as can be spared from the

work-shops, the Inspectors hope that the wall
will be completed in two seasons; during the
ensuing, the part adjoining the water, and con-
sequently the most required, will, they trust,
be rendered secure.

The Inspectors remark, that the former
Board caused a Notice to be inserted in the
Upper Canada Gazette, that an application
would be made to the Provincial Legislature
at its next Session for an Act authorizing them
to stop up the allowance for a public road
across the land occupied by the Penitentiary,
and to apply it to the uses of that Institution
in lieu of a new line of road, now laid out and
travelled a short distance from the allowance,
and more favourably situated for the conve-
nience of the public; the present Board beg
to state their concurrence in that Act, and to
impress upon Your Excellency the necessity
there exists, in their judgment, for that mea-
sure; the valuable quarry of stone which
will thereby be made available, will greatly
assist the formation of the wall, and enable the
Board to place the entrance in a more suit-
able position. They feel certain that the
public will not in any manner be inconveni-
enced by the Act, and that little or no opposi-
tion will be made to it.

The Inspectors find the north wing nearly
complete, and that the Warden has taken up
his residence in the apartments allotted to
him: they have directed the Warden to oc-
cupy a portion of those intended for the
Deputy Warden, until the appointment of a
person to fill that situation. Nothing has been
done to the east and west wings during the
past season: There are still upwards of sixty
vacant cells in the south wing, and the Inspec-
tors express their hope, that this number will
suffice

suffice for any increase of committals from *Upper Canada* for some years to come.

Should it be deemed advisable, after the Union of the Provinces, to make this Prison the receptacle for Convicts from *Lower Canada*, it will then be necessary to complete the east wing:—a few months notice only will be requisite to finish a range of cells sufficient for the reception of about 135 prisoners.

The Inspectors do not intend to proceed with the west wing until after the completion of the outer wall.

The Inspectors are happy to bear testimony to the efficiency and zeal of the Warden; the onerous duties of his situation, increased by the additional ones thrown upon him since the departure of the Deputy Warden, and the regularity and discipline displayed in all the Departments of the Institution, are, in the opinion of the Board, the best evidence of the correctness with which he fills the duties of his office. In justice, however, to that gentleman, they feel themselves bound to point out to Your Excellency the necessity there exists for the appointment of an Officer subordinate to the Warden, and whose duty it shall be to assist him in all matters relating to the Police of the establishment. Should it be deemed expedient to do away with the situation of Deputy Warden, and substitute therefor that of a Senior Keeper, the Board respectfully beg leave to suggest, that means be taken to ascertain the fitness and efficiency of the person selected, as the discipline and regularity of the Prison will very much depend on the exertions and attention of the subordinate Officers.

The Finance and Account Department appear to be carefully attended to by the Warden and his Assistant, the Clerk. For all matters connected with the detail of the Institution, they beg to refer Your Excellency to the accompanying Report of the Warden, which, with the statements submitted therewith, contains a full account of the affairs of the Penitentiary for the past year, and an estimate of the amount required for its support for the ensuing fifteen months, viz. to the 30th April, 1842;—the necessity of provision being made to that period is obvious: hitherto the annual grant only embraced the sum required to the end of the year, and being usually voted by the Legislature in the latter part of the winter, the Institution was left unprovided for during some months—an inconvenience severely felt by those dependent on the establishment for the means of support.

Vol. 1.

From the Report of the Surgeon, and the accompanying Returns, it is gratifying to observe that the health of the Prisoners has been very good during the past year. The number of cases treated have been decreasing for several years; this arises, partly, however, from the knowledge of the Convicts that it is useless to attempt to impose feigned illness on the experience and skill of that Officer.

The Report of the acting Chaplain is also forwarded herewith. The attentions of this gentleman appear to have been unremitting; and there is no doubt that much may be done towards the reformation of the Convict by the exertions of his Spiritual adviser.

Soon after entering upon the duties of their Office the present Board deemed it proper to inspect the Keepers and Guards, and to inquire into the efficiency with which these persons fill their respective situations. The great importance of the trust committed to these Officers, and the dangers which would arise from the least relaxation of discipline on the part of those entrusted with the care of the Convicts during the hours of labour, renders it imperative that the Keepers and Guards should be selected from the most respectable persons in their line of life; and in order to induce persons of that class to accept the situation, the Inspectors are desirous of contributing as much as possible to the comfort of the inferior Officers of the Prison. With this view, and also with reference to the safety of the Prisoners, in case of any sudden alarm, the Board are desirous of carrying out a part of the original plan of the Institution, viz. the erection of Cottages on the land attached to the Penitentiary, for the accommodation of the Keepers and Guards. The removal of the Warden and his Office within the walls of the Prison, has enabled the Inspectors to provide for some of them; and they respectfully hope that the adoption of the plan proposed, will, before long, afford means for the residence of the rest on the spot;—reserving for this purpose the land south of the new road, about ten acres, and also about thirty more. The remainder of the lot originally purchased for the use of the Penitentiary, viz. about sixty acres, appears to the Board to be no longer required therefor, and may be applied by the Government to any other public purpose, thereby relieving the Inspectors from the charge of fencing it, without any adequate return.

The estimate for the erection of ten Cottages, exclusive of Convict labour, is appended

to the Report of the Warden, by reference to which it will appear that a considerable reduction in the annual estimate will be effected by carrying out this measure.

All which is most respectfully submitted.

of the Provincial Penitentiary,

THE WARDEN'S REPORT.

To the Inspectors of the Provincial Penitentiary.

GENTLEMEN :

I have the honour to report, that during the past year, there have been received into the Penitentiary, 85 Male and 11 Female Convicts ; and that the number of Prisoners remaining in confinement on the 30th ultimo, was 153, being five more than those stated as undergoing their sentences at the time of making my last annual Report.

A statement of the crimes for which the Prisoners were convicted, the Districts from which they have been received, and the terms of imprisonment to which they were severally sentenced, as well in respect to those who have been received into this establishment during the preceding year, as of those whose terms of sentence had not expired at the close of the fiscal year, is given in the several Returns hereunto appended.

The difference between the number of Convicts, whose sentences were unexpired on the 1st October 1839, and those in confinement at the corresponding date of this year, is so small as to warrant the conclusion, (considering the great increase of population during the present season) that crime is rather decreasing than otherwise.

In the return of Convicts in confinement on the 1st instant, there were thirteen who had been formerly inmates of this Institution for the first time, two for the second, and one for the third time ; the latter of whom has been sentenced to only one year's imprisonment for each of the four offences of which he has been found guilty. When this Convict was last tried, it was unknown to the Court before which he was convicted, that he had been previously sentenced to hard labour in the Penitentiary, or he would, in all probability, have been awarded a greater amount of punishment. With regard to frequent convic-

tions of the same party, I felt it my duty to call the attention of the Board of Inspectors to this subject at the close of the last year, with a view to the procuring, through their representation, some Legislative enactment whereby the sentencing of a Convict to imprisonment in the Penitentiary for a third time should operate as a sentence for life, or such number of years as might be thought expedient by the Legislature. A Law of this kind is already in force in some of the adjoining States, and no doubt it has the effect of deterring offenders from the repeated commission of crimes, in the places where such a Law is known to exist.

In the Return of the Prisoners discharged during the year, it will be seen that one of them made his escape on the 6th July last, being the only instance in which a Convict has succeeded in gaining his liberty before the legal expiration of his term of confinement, since the commencement of the Institution. This was in some measure owing to the insecure state of the fence, but more particularly to the want of care and attention on the part of the Keeper, under whose orders the Convict was placed.

Had the outer wall been built to only one-half of its contemplated height, this escape would have been prevented, as it required but little ingenuity and labour on the part of the fugitive to make a hole under the fence, by which he was enabled in a few minutes to get beyond the Prison boundary. In my Reports of 1838, and 1839, I stated to the then existing Board the necessity of building the wall, which appeared to be of paramount importance, in order to insure the safe keeping of the Convicts.

Not only was the fence fast coming into a state of decay, and therefore required frequent reparation, but the chance of escape to the Prisoners appeared so favourable, that, were it not for the vigilance of the Watchmen, many other attempts for that purpose would, no doubt, have been made.

Another motive which actuated me in so urgently and repeatedly calling the attention of the Board to this matter was, the great expense incurred by the necessity of keeping so large a number of Watchmen on the establishment, which would have been obviated had the building of the wall been commenced when it was first suggested.

One

APPENDIX
No. 14.Annual Report of
the Inspectors
of the Provincial
Penitentiary.

One of the first acts of the present Board, having been to take this matter into its serious consideration, affords good ground to hope, that no further delay will take place in this most important part of the building operations of the Penitentiary.

That part of the labour of the Convicts, which has been unproductive of a revenue for the partial support of the Institution during the past year, has been devoted to the several purposes required in the management of the Prison, and for the completion of the establishment. The principal of these latter are the quarrying of the stone in the north-east part of the yard; fitting up the north wing with the approach thereto; enlarging the yard on the east and west sides, for the purpose of opening an additional quarry—and completing the dining hall, which, since my last report, has been finished, and is now appropriated to the use of the Convicts. A statement of the value of this labour to the Province, and which may be considered as having saved so much money to the country, will be found in the accompanying Returns.

It will be seen that the amount of productive labour during the last twelve months, has greatly exceeded that of the preceding year; and I trust that a further increase in this branch of the operations of the Institution will continue to be experienced, until finally the Penitentiary will cease to be a burthen to the Province. Under this head it will be found that a large share of the earnings of the Convicts has been derived from the Rope walk, which has only been established about twelve months. This branch of work, as it does not interfere with the pursuits of the honest mechanic, it is highly desirable should be enlarged, and it was the intention of your predecessors to direct the building of a Walk on a more extended scale, in order that cordage of every size and variety should be manufactured by the Convicts. It will be observed, in the Return of labour performed by the Convicts for the last twelve months, that the lowest rate of earnings on hire, has been on the part of the Shoemakers. Small as this sum is, they have, nevertheless, in conjunction with the amount of the work done on account of the Prison, paid, by their labours, the expense of supporting themselves, as well as the pay of the Keeper, under whose charge they are placed; and it is no more than just to state, that the Convicts who are usually employed in this description of mechanical operations,

are either old or infirm, or such as are crippled in their limbs, and therefore unfit for hard labour or exposure to the vicissitudes of the weather.

The value of the labour of the Blacksmiths and Shoemakers, under this head, during the year ending in 1839, was far above the amount of earnings in those trades for the twelve months just completed; which is to be accounted for by a large order, which was executed for the Ordnance Department in the preceding period. The only labour which has been disposed of by Contract, is that of the Stone Cutters, for which an agreement has been entered into, with sureties for its performance, to the 23rd April next.

The principal works in which the Convicts will be engaged in the ensuing year, for the purpose, as far as possible, of completing the Institution, according to the plans already laid down, are the building of the outer wall, the completion of the north wing, which is now nearly finished, and the erection of the cells in the east wing. As in all probability the measure of the Union of *Upper and Lower Canada* will shortly be completed, and as there appears now no doubt, that the Penitentiary will be devoted to the reception of criminals from all parts of the United Province, it will become necessary immediately to provide an additional number of cells for that purpose, and I have therefore submitted an estimate of this Work, in order, if it is judged proper, that it may be laid before the Legislature in its first Session.

The number of days' labour which have been lost to the Province, by a cessation from work on the part of sick Convicts, during the present year, is less by 40 per cent. than that of the previous corresponding period. This is, no doubt, owing partly to an improved state of health in the prisoners, but much is to be attributed to the vigilance of the Surgeon in detecting attempts at imposition by the Convicts, for the purpose of avoiding their daily labour.

The period for which the Rations for the Prisoners were contracted, to be supplied for the last year, having lately expired, another agreement has been entered into, whereby the provisions are now furnished at the rate of 5½d. per Ration, by which a saving of about £400 per annum will be effected even at the present low number of Convicts in confinement.

APPENDIX
No. 14.Annual Report of
the Inspectors of
the Provincial
Penitentiary.

In my Report of 1839, I proposed to the Board, with a view to decrease the expenses of the Institution, that a change should be made in the winter clothing of the Convicts, by substituting cloth manufactured in *England* for the material made in this Country, which has hitherto been in use for that purpose. By the adoption of this suggestion, a great saving would have been effected during the last year; and I must beg to urge this matter upon the immediate consideration of the present Board, as, in the event of its being thought proper to import cloth, instead of purchasing it of the manufacture of this Province, it will be necessary to send an order for it without loss of time, so as to insure its supply for the use of the Institution next Fall. The difference between the price of cloth made in this Country and that manufactured in *England* of the same quality, will be more than 60 per cent. in favour of the latter.

On reference to the inventory of the goods, raw materials, and other property of the Province on hand on the 1st instant, it will be seen that the amount has materially increased since my last Report; and as there is a large quantity of Rope and Cordage remaining unsold, I beg to suggest, that some means should be adopted for the purpose of insuring a more ready sale of those articles, by which the Institution would be benefitted from the use of money arising therefrom.

The prevention of crime being a matter of the utmost consequence to the community, I am induced to bring under the consideration of the Board, the practice adopted by discharged Convicts of congregating in the neighbourhood of the Penitentiary. At the present time there are many of them residing in the Town of Kingston, with no apparent means of gaining an honest livelihood; and the conclusion necessarily drawn from this is, that on their being released from this place, they unite together for the purpose of planning future depredations.

Your predecessors appear to have been fully aware of the evils likely to arise from the combination of a number of discharged Prisoners, and whose words, in their last annual Report, I beg leave to quote. They say, in speaking of the probable future conduct of a discharged Convict, that, "While yet lingering in the vicinity of the prison, he probably meets with some of its former inmates, it may be some of those who have been associated with him in iniquity, and fellow prisoners in the

"same common Gaol before conviction. With them he renews an acquaintance, and involved as they are in the same common fate, they are led to look upon each other with a feeling of mutual sympathy, as the outcasts of society, to form a sort of communion among themselves, and instead of following up their original intention of returning to their friends to earn a subsistence by honest industry, they are but too apt to engage in some new criminal enterprise, by which, according to their system of morals, they may remunerate themselves for their past loss of time and labour."

It has not unfrequently happened, that men who had but recently completed their term of imprisonment, have called at the prison gate to await the release of some of their former fellow-prisoners; and instances are not wanting of Convicts, immediately after their discharge, having associated themselves for the purpose of plunder, in some of which they have been detected, and sent back soon after their previous liberation, to become once more, inmates of the Penitentiary.

I would therefore respectfully suggest to the Board, the necessity of the appeal to the Legislature for the passage of an Act to prevent the sojourning of discharged Convicts within the *Midland* District (provided they had not immediately previous to their conviction resided therein,) for a longer term than twenty-four hours, or such time as may be judged proper, after their release from the Penitentiary.

In consequence of the difficulty of procuring lodging in the vicinity of the Penitentiary for the accommodation of the Officers of the Institution, it has been some time in contemplation by the previous Board, to erect Cottages for their reception on the public property, immediately in front of the Prison, by which means, in cases of emergency, their services might be made available at all times. This, however, has not been carried into execution, but in the mean time the sum of twelve pounds ten shillings per annum has been allowed to each of them as lodging money, until such times as dwellings may be prepared for their inhabitation. By carrying out this measure, not only would the attendance of the Keepers in the neighbourhood be secured, but a saving would be effected in the difference between the money now paid to them, and the yearly interest of the sum it would require, with the aid of Convict labour, to erect such buildings.

The

The appointment of the present Board for managing and directing the affairs of the Penitentiary, being of recent occurrence, the Inspectors have not been afforded the opportunity of judging of the efficiency and attention to their duties of the Officers of the Institution during the past year, and it may therefore not be considered out of place on this occasion to state, that the able services of the Surgeon have been strictly performed, agreeable to the "Rules and Regulations" of the Penitentiary, by which he is required to devote his attention to the relief of sick Convicts, not only during his ordinary daily visits, but at all other times when called upon so to do.

I am happy also to bear testimony to the zeal and ability with which the duties of the acting Chaplain have been conducted; and I trust some good has been done for the moral and spiritual welfare of the Convicts under his instruction.

During the past year several of the Convicts who were previously unacquainted with the alphabet have been taught to read; and however desirable it may be to impart instruction to them in this way, it cannot be concealed that the practice of teaching the Prisoners, which is necessarily performed by other Convicts, is attended with some inconvenience, owing to the facilities thereby acquired of communication with each other. At the time employed for this purpose, a Keeper is stationed in the School Room, but it is almost impossible that, with the utmost watchfulness, he can keep his eye upon the whole of them together.

I cannot close my Report without stating to the Board, that the duties of the Clerk have been most efficiently discharged, and that in addition to his daily routine of business, he has afforded me some assistance in attending to those of the Deputy Warden, who retired from his situation on the first June last, since which time, no similar appointment having been made, the functions which should have been performed by that Officer, have devolved upon me.

My annual Account of Receipts and Disbursements, together with the Estimates of the amount required for the support of the Establishment to the month of April, 1842, and of the sum required for the completion of the East Wing, accompany this Report; and I beg to observe, that in framing the first stated

Vol. 1.

Estimate, I have been guided by the probability of an additional number of Convicts being received from the Eastern part of the United Province.

For a more complete explanation of the transactions of the Penitentiary, during the period embraced in this Report, I must refer the Board to the accompanying Documents, which are severally distinguished by the marks stated against each, viz:

THE WELLAND CANAL ACCOUNTS, FOR 1840.

APPENDIX No. 15.

APPENDIX No. 15.

Welland Canal Accounts, for 1840.

Welland Canal Accounts, for 1840.

To His Excellency Major-General SIR GEORGE ARTHUR, K. C. H., Lieutenant-Governor of Upper Canada, &c. &c. &c.

number of vessels engaged in the carrying trade has increased from one hundred and twenty to one hundred and eighty; and as the extensive tracts of the upper country are brought into cultivation, we may safely anticipate that a much greater number will be required to convey to market their surplus produce.

In compliance with the provisions of the Act 7th William IV. Chap. 92, the Board of Directors of the Welland Canal Company beg leave to transmit an Account of Receipts and Expenditures, appended hereto, for 1840.

The Returns furnished by the Secretary present a most satisfactory result. The increase of trade consists in the staple productions of the West. The articles of Wheat, Flour and Timber, have been doubled. The

The Canal connecting the navigable waters of the Wabash with Fort Wayne, on the Maumee, is now in operation; and that from Cincinnati to the same point, and thence to Lake Erie, being nearly completed, the products of upwards of one thousand miles of the

rich and fertile valleys of the South and West, which have hitherto found their way to *New Orleans*, will be hereafter diverted to *Lake Erie*, whence the *Welland Canal* offers the most advantageous and economical route to the Ocean for produce, whether destined for the port of *New York* or *Quebec*.

Notwithstanding the large increase in the receipts for 1840, arising from the additional number of vessels employed, and the favourable prospects that are opened to us from the extension of inland navigation just alluded to, but a limited idea can be formed of the importance and value that this work must prove to the Province, when the communication shall be extended by the *St. Lawrence Canal* to the Ocean.

Herewith is submitted, in the Appendix marked G., an abstract of the last Report of the *Erie Canal Commissioners*, shewing the progressive increase of income on that work for past years. This document is valuable to us, inasmuch as the reasons assigned for this increase apply with additional force to the water communications through this Province. When the *St. Lawrence Canal* shall be completed, the entire length of our Canals, from *Lake Erie* to the navigable waters of the *St. Lawrence* at *Montreal*, will be less than sixty miles; while, on the other hand, the Canal connecting *Lake Erie* with the navigable waters of the *Hudson* exceed three hundred and sixty miles.

It is a fact universally admitted by all engaged in the transport trade, that in proportion to the bulk of the vessel the rate of transport is reduced; in proof of which the respective prices of transportation on the *Erie* and *Welland Canals* may be adduced; the former with locks 14 by 90 feet, and 4 feet depth of water, the rate is 9s. 10d.—while on the latter, with locks 20 by 110 feet, and 8 feet water, it is only 4s. 10d. per ton per mile.

It was always confidently anticipated, that whenever the exportation of produce from the Western country should commence, the increase of receipts on the *Welland Canal* would warrant any reasonable expenditure that might be incurred for the re-construction of its Locks on an extended scale, and of more durable materials. This anticipation has been most fully borne out by the Returns for 1839 and 1840. The receipts for 1839 (the first year that any export of produce took place

from the Western Countries,) amounting to £12,781, shewing an excess of £5,018 over any previous year:—the Receipts for 1840 exceed £20,000, shewing an increase on the Return of 1839 of upwards of £8,500.

It may be considered desirable on entering upon the subject of the re-construction and enlargement of the Locks, to correct erroneous opinions that have gone abroad respecting the amount of public monies expended on the *Welland Canal*;—a brief statement of the total expenditure prior to 1837, will be found in the Appendix marked H.

At the commencement of the works on the *Welland Canal*, it was assumed that Locks constructed of wood might last ten or twelve years. This period has long expired, and the Locks are now in so delapidated a state that the additional annual outlay necessary for their repair would more than pay the interest on the capital required for their re-construction in a permanent manner, as will be apparent on reference to the Report of the Superintendent hereunto annexed, marked I. To reduce this heavy annual expenditure, the Provincial Government, by an Act of the Legislature passed in 1837, authorized the re-construction of the Locks in stone, and a grant of £245,000 was voted for that purpose. The dimensions of the Locks, however, being deemed of great importance, the subject has been referred Home by the Executive, consequently the necessary steps for carrying the views of the Provincial Parliament into effect, have been postponed until the decision of Her Majesty's Government on the subject shall have been ascertained.

Should the Bill authorising the purchase of the private Stock fail to receive the Royal Assent, the private Shareholders will become entitled to a dividend of six per cent. for the year 1840, by virtue of the Act 7th Wm. 4th, chap. 92; and it has been urged by the parties representing the interests of the private Shareholders, that a dividend should be declared for the years 1837 and 1838, as set forth by them in Appendix K.

The Board again beg leave to call the attention of the Legislature to the navigation of the *Grand River*, referred to in a former Report, as being, in point of fact, a continuation of the *Welland Canal*, and to suggest the expediency of its being placed under the same control.

APPENDIX
No. 15.Welland Canal
Accounts, for
1840.

Four years have now elapsed since the Legislature, by a former vote and grant of money, marked their opinion of the importance to be attached to the protection and enlargement of a work so well calculated by the additional facilities laid open to trade, to encourage the industry and enterprise of the Colonist. And well and satisfactorily during those four years has that opinion been tested. A new class of vessels has sprung up, called into existence by the outlet that the Canal affords to the rich harvests of the West. But the lapse of that period has brought conviction home on another most essential point;—that Locks of a cheap and temporary character cannot be kept in repair except at a most serious sacrifice of money, and nearly £60,000 having been expended during those years to keep them in imperfect operation. The estimates for re-building the Locks with stone, deepening the channel, and making sufficient harbours at either end, have varied, according to different views taken of what would prove most suitable as to size and description of work, from £200,000 to £400,000, but one half of which would be required for re-building the Locks;—while, on the other hand, an amount equal to the interest on the whole sum must now yearly be devoted to the keeping the wooden Locks in existence, if the past may be taken as a guide for the future.

That the increasing Revenues of the Canal will from this hour be sufficient to meet the interest, and ultimately the principal, of any sum that can reasonably be expended on its restoration and enlargement, is readily susceptible of proof. But further reference need not be made to the rapid strides cultivation is making in the West, or to the water channels and ramifications that American enterprise is

carrying into the heart of the neighbouring Country, destined to bear their freight to Lake Erie, and through the *Welland* to their several points of destination.

It is a matter of minor importance whether the Tolls on the Canal will or will not repay the sum expended, when compared with the positive advantages it is yearly conferring on the Province. The Farmer, the Miller, the Merchant, and the Forwarder;—the Imposts and Duties levied on Exports and Imports,—the improved Revenues of the Crown,—demand from us the protection of this Highway, the one great link which, uniting our Inland Seas with the waters of the Ocean, tends so materially to develop the vast resources of this young Country. There is but one assurance wanting to crown this enterprise with success—the certainty that this channel will be kept open:—this certainty is incompatible with the character of the present works: no exertions can long avail to keep them in repair, and the attempt must be attended with a most ruinous waste of capital.

The Directors have ventured thus strongly to bring the subject under the notice of Government, impelled by the importance of the undertaking, and relying on the deep interest which the United Legislature will feel in the future prosperity of the Province. They look forward with confidence to the time, which cannot be now far distant, when this work will be prosecuted with that vigor which the magnitude of the object to be obtained deserves, and which alone is entitled to ensure success.

All which is respectfully submitted.

WILLIAM HAMILTON MERRITT,
President Welland Canal Company.

From this Report it appears, that the Public Debt of the State of *New York* for internal improvements was \$10,801,839.66, the greater part of which is due in 1846.

It shows the actual receipts for ten years previous to 1829, to have been. . . . \$763,527
And for ten years previous to 1839. . . 1,537,532

Which gives an increase of. \$774,005

It shows the revenues from their Canals will not only pay interest, and redeem the principal of their present debt, but will warrant the State in expending \$5,000,000 per annum for seven years to come, for the purpose of enlarging the *Erie* Canal, and other public works. The reason they assign for this augmentation of income over former years, are founded on the opening of new channels of communication leading to this great thoroughfare, an increase of those articles which, from their bulk and weight, produce the largest amount of tolls, such as bread-stuffs, provisions, salt and coal, and the return of merchandize to the Western States. In referring to those new channels, a just allusion is made to those finished in *Ohio*, the effects of which they are only beginning to feel. The Canals and Railroads in *Ohio*, *Indiana*, *Illinois* and *Michigan*, all leading to *Lake Erie*, are also enumerated. Another reason for enlarging the *Erie* Canal is to reduce the rate of transportation, so as to induce Forwarders to prefer the *Erie* to the *Pennsylvania* Canal—the latter possessing the same advantages as the *Welland*, in point of early navigation in the spring.

H.

The actual amount of private and public money invested in the *Welland* Canal prior to 1837, exclusive of its income:

Stock held by individuals, £117,800	
<i>Lower Canada</i>	25,000
<i>Upper Canada</i>	107,500
	£250,300
Loan made by Provincial Government	£102,000
Do. do. British Government	55,555
	157,555
	£407,855

This sum includes the construction of three Harbours, *Port Dalhousie* on *Lake Ontario*; *Port Maitland*, (*Grand River*;) the aqueduct over the *River Welland*; Canal at mouth of *Chippawa*; one and a half miles of the deepest cutting in *America*, near *Port Robinson*, excavating twenty-eight miles of ship Canal twenty-six by fifty-six feet, twenty miles boat Canal twenty-four by forty feet, and connecting a slack water navigation of thirty miles, in all seventy-eight miles, with three hundred and fifty feet of lockage, and including payment for lands, damages contingencies, &c. &c. &c.

From the acknowledged advantages conferred on the Country by the construction of this Canal, the Legislature cancelled the interest due on Loans, and converted the Provincial debt then due into Stock; appropriating the future income of the Canal to the payment of interest on future Loans, and a Dividend to the Private Shareholders.

We are now to take into consideration the expenditure made, and the future prospects of this work.

Since the Act of 1837 became a Law, Debentures have been received from Government to the amount of,	£66144	8	10
Interest on the above for 1838 and 1839, (1840 paid)	7937	6	8

	<hr/>		
	£87039	15	6
Interest on £87,039, from 1st January 1841, to 31st December, 1843, 3 years at 6 per cent.	£15667		
do. on £400,000, on an average expenditure of 3 years on new work, at 6 per cent.	36000		
do. on £117,800, Private Stock, 3 years, at 6 per cent.	21204		
do. £36,000, to keep up the old works, on an average expenditure in 3 years, at 6 per cent.	4080		
	<hr/>		
	£76951		
Average income for 3 years, at only £25,650 6 8,	£76951		

The above calculations are on an average income of £25,650 per annum, which is sufficient to pay the interest on £400,000, for the new works, and £36,000 for the repair of old works, as shewn above. But if the increase is progressive, which we have no reason to doubt, the Canal from its own resources alone, would in three or four years hence, be able to pay an interest of six per cent, not only on all sums expended prior to 1837, and those calculated to be expended for the next three years, but also on the stock held by *Upper* and *Lower Canada*, and on the loan from the British Government.

The experience of the last two years, however, shews a great annual increase, and when a calculation on that data is made, it will appear evident, that but few years will intervene before the income from this Canal will not only meet the interest as above, but also redeem the debt due to the British Government.

It appears by reference to 8th *George* 4th, 1827, that His Majesty was graciously pleased to intimate, through the Secretary to the Colonies, in a communication to the Lieutenant Governor, Sir *P. Maitland*, His willingness to afford His Royal aid and assistance, to the extent of £16,360 Sterling, being the $\frac{1}{4}$ th part of the estimated cost of the Canal: in consideration of which the British Government was secured in the use of the Canal, for all vessels and boats when engaged in the transportation of Government Stores, without payment of Tolls;—it also appears by the 10th *George* 4th, 1829, that His Majesty's Government loaned the *Welland Canal Company* £50,000, payable in ten years, at 4 per cent. for which payment the Tolls of the Canal were pledged, and they are also reserved by the 17th clause of *William* 4th, chapter 92d, 1837. This interest has not, however, been exacted by the Imperial Government; and in consideration of the relinquishment of the payment of one-ninth of the cost of the Canal, as above, as well as having at all times passed Government vessels and property free of Tolls, there is no reason to expect it ever will be demanded.

I
WELLAND CANAL OFFICE,
St. Catharines, 10th December, 1840.

GENTLEMEN,—
I have to report, for the information of the Board, that the Canal was open and ready for navigation by 2nd of April; and with two interruptions, that will be hereafter mentioned, continued in good order until the 1st instant, when it was closed by the ice.
The statements furnished by the Secretary, will shew an increase in the Revenue of more than fifty per cent over that of last year.
There has been expended (in repairs and procuring materials for future use,) during the past year, the sum of £11,343 1 11, exceeding the amount for like purposes in 1839 by £3,682 11 4. This excess arises principally from having had to re-build, in a partial manner, four of the *Wooden Locks*, and extensively repair eight others, previous to the opening of the Canal last spring; the expenditure for repairs during the season has also been much

APPENDIX

augmented by the very great increase of Lockage over any former year :—the average number of vessels passing per day in 1839 was five, whereas this year it has exceeded eight, with a proportionate increase of rafts and scows ;—and it is very evident that no diminution of the annual cost of repairs can be looked for so long as the Wooden Locks, which have now been fourteen years in use, have to be kept up.

The first of the interruptions to the navigation of the Canal alluded to, was caused on Sunday the 20th of June, by a Schooner (from want of proper attention) carrying away the four gates of Lock No. 3 ; they were replaced by new ones on the Wednesday following ; but in consequence of the large level above that Lock having been emptied by the accident, it was Saturday, before about fifty vessels that had arrived during the week could proceed.

The only other delay of any moment during the season, was occasioned by a breach in the aqueduct, of about forty feet in length, on the night of the 11th of August ; this was repaired in four days,—the water, however, did not regain its proper level till the 20th, by which time more than seventy vessels had collected in the Canal. I think these two vexatious delays (the two amounting to sixteen days) made a difference of at least one thousand pounds in the year's income. Preparations have of course been made to give the aqueduct a thorough repair during the winter.

I have already commenced the work necessary to put the Canal in good order for another year, and shall without difficulty, I trust, have every thing completed by the first of April.

The work now under contract between the Junction and *Port Colborne* will, when finished, very much facilitate the passage of vessels for the future, besides furnishing a large supply of stone for the Piers and other works at that Port. The work is to be done by 24th March next.

The Culvert so long required at *Cranberry Creek*, is under contract, and will be completed during the winter. Contracts have also been made for the delivery at the Junction of 100,000 feet of square Pine, and 25,000 feet of Oak Timber, at very reasonable prices.

It now only remains for me to point out to the Board such works on the Canal as in my

opinion are necessary, to insure the prosperity of that work with the least loss of time.

The first work of magnitude to be undertaken is undoubtedly the permanent re-construction of the Locks, because, as already stated, until that is done the annual cost of repairs will be more likely to increase than diminish ; and the full benefit of the Canal to the Country cannot be realized so long as the Locks remain in their present ruinous condition. The necessity for building Stone Locks in place of the Wooden ones (which are only sustained at a vast outlay of money every year,) was made fully apparent to the Legislature in 1836 ; and it is much to be regretted that the provision then made for the purpose has to this moment been wholly unproductive of benefit.

While on this subject, I would mention, that much of the repairs necessary to the present Locks, occurs from their not having been placed in a straight line with the Canal, and I trust the experience we have had of the evil arising from that error, will be guarded against when a new line of Locks is laid down.

The next work of importance to which I would respectfully direct the attention of the Board, is the converting the Feeder into a Schooner Canal, from the Junction to the *Grand River*. During the three years that I have had charge of this work, from twenty to fifty vessels have passed through the Canal from *Lake Ontario* in the beginning of April, and on arriving at *Port Colborne*, have been detained by the ice from two to three weeks, which had they been able to proceed to the *Grand River* they would have found that that, and all the Western Harbours of *Lake Erie* had been totally free from such obstruction for more than a month. It is therefore evident, that the Company and the public lose the benefit of one or two additional trips annually of the many vessels frequenting the Canal.—The necessity of thus enlarging the Feeder, has also long been apparent, to ensure at all seasons an ample supply of water for the Canal, as well as for the different Mills in operation upon it, the number of which would no doubt be speedily increased, could the proprietors depend upon having at all times a sufficient quantity of water to propel them ; and when it is considered, that nearly one-tenth of the large income received this year was paid by the five Flouring Mills now erected

erected on the Canal, the importance of that source of revenue, and the propriety of encouraging it, cannot be questioned. This improvement presents no very formidable difficulties, either in its execution or in point of expense, and would, if commenced this winter, be completed by the spring of 1842.

To re-building the Locks, and rendering the mouth of the *Grand River* available as a Harbour, I would advise the Board to direct all their energies and resources. The Harbours at *Port Dalhousie* and *Port Colborne* can, with comparatively trifling expenditure of the estimate for their completion, be made to answer every purpose for many years, until indeed, we may confidently hope that the revenue of the Canal itself will be amply sufficient to provide for their further improvement.

All which is respectfully submitted.

Yours, &c.

W. B. ROBINSON,
Superintendent.

Reasons for the payment of a Dividend to the private Shareholders in 1837 and 1838, in case the Act to purchase out the private Shareholders should not receive the Royal assent, assigned by the Directors chosen by the private Shareholders.

In the Report of this Board, 12th February 1838, the subject of a Dividend is not alluded to. In the following Report, 31st January 1839, it is remarked that, "in consequence of

"the difference of opinion, as to the intent and meaning of the 7th clause of *William 4th*, they have declined declaring a Dividend, in order that the interests of the Stockholders should not be compromised, by a premature decision of the question." The Report of the Committee of the House of Assembly, of 24th January, which was unanimously adopted by the House, contains the following opinion:

"Your Committee are of opinion, whatever views may be taken at this time of the provision of the law providing for the protection of the private Shareholders of this Company, it was the intention of the 17th clause of 7th *William 4th*, chapter 92d, that the income derived from the *Welland Canal* should be applied wholly in payment of the interest on loans provided for by the Act, with a view of indemnifying the Provincial Government from any payment or interest in future, and the remainder to apply as a Dividend to the private Shareholders,—and that no provision or power existed in the Directors to deduct from the income any item or sum, which they term cost of Administration. Under this impression, and from a careful examination of all the documents referred to, your Committee recommend an Address to the Queen, praying the Royal assent to be given to the Bill passed by the Legislature of last Session; and if the Royal assent be withheld thereto, they think it due to the Shareholders that a Bill should be passed by the ensuing Legislature restoring the majority of the Direction to the private Shareholders, and place them in the same position they were in, in 1836, and relieve the Legislature from the imputation of a violation of private rights, and a breach of public faith, which the assumption of the control of their property, without the assent of the private Shareholders, will subject them to."

As three out of the five Directors placed the same construction on the clause in question, the subject was again referred to the Legislature. The House of Assembly have given a decided expression of opinion in its favour,—the undersigned can see no reason in justice or equity, why the Dividend should be withheld from the private Shareholders.

In case the Act referred to becomes a Law, it is unnecessary to declare a Dividend for 1837 and 1838, as the back interest will be paid up so soon as the Tolls come up to £30,000 per annum, which may soon be looked for.

There appears also an ambiguity in the wording of the second clause of the Act, 16th

May 1839, by which the interests of the private Shareholders may be affected. To avoid all mis-apprehension on this subject in future, the undersigned will present a Memorial to the next Legislature, on behalf of the private Shareholders, praying the Act to be amended in such manner as to insure to them the full amount of Interest on their investment, from the period when paid in, down to the time the transfer shall be made, by which the true intent and meaning of the Act will be carried into effect.

LACHINE CANAL.

APPENDIX
No. 17.
Report of the
Commissioners
of the Lachine
Canal.

To the Honourable the Legislative Council
of Canada, in Parliament assembled :

The Commissioners of the *Lachine* Canal
beg leave respectfully to Report :

That the Contracts for new Lock Gates and
Bridges, mentioned in their last annual Report,
rendered in December last, have been com-
pleted; but the Gates for the lower or River
Lock are not yet hung, nor can they be until
the waters of the River shall be at their lowest.
The Bridges are substantial, and, in appear-
ance, remarkable for both lightness and beauty,
and reflect credit on the professional skill of
Mr. *Fleming*, the Civil Engineer, who fur-
nished the designs. Three others of the old
Bridges are so far decayed as to require early
renewal, and the Commissioners are about to
advertise for Contracts therefor.

The Commissioners regret to say, that the
Contract for cutting away part of the upper
Embankment at the inlet at *Lachine*, also
mentioned in the last Report, was not fulfilled
to the full depth required, when the approach
of Spring compelled the suspension of the
work, and the removal of the *Coffer-Dam*, in
order to the opening of the Canal navigation.
Sufficient, however, of the Contract was ex-
ecuted to render the ingress and egress of
vessels easy and safe at all times, except when

the waters of the *St. Lawrence* shall fall below
their ordinary level; and until the experience
of a season shall have yielded the means of
judging, the question of the resumption or
non-resumption of the work must remain un-
decided. The expense, difficulty and risk, of
forming a *Coffer-Dam*, and making the ex-
cavation at the point in question, especially in
winter, will deter the Commissioners from
deciding in favour of its resumption, unless
the complete removal of the obstruction to the
navigation shall eventually prove to be a mat-
ter of imperious necessity. It is but justice to
the Contractor to state, that the execution of
such work in the winter season in this coun-
try was not only hazardous, but a novelty,
and that the past winter was one of no ordinary
character, being remarkable for the frequency
and abundance of its snow storms, and for its
mildness—both of which causes were adverse
to the Contractor's operations.

In their last annual Report, the Commis-
sioners had the gratification of announcing an
increase in the receipt of Tolls, equal to about
sixty-two *per centum* over the amount received
in 1833, theretofore the most productive year
of the Canal; and they now have the further
gratification of stating, that thus far, in the
present year, the receipt of Tolls exceeds that
of the corresponding portion of last year about
eighty

Canal.

eighty per centum; at which increased rate, if it continue to the end of the season, the year's receipts will exceed twenty thousand pounds, Currency.

The great increase of trade through the Canal, evinced by this increasing receipt of Tolls, renders more prominent than ever the inadequacy of the present Basin room wharfage, and other accommodations of the Canal, particularly at the lower end immediately above the Harbour of *Montreal*, where nearly the whole of the forwarding business is transacted. This inadequacy was long since foreseen by the predecessors in office of the present Commissioners, and by their Reports they urged it upon the notice of the Legislature of *Lower Canada*. Their recommendations, however, were only adopted to the partial extent set forth in the second section of the Provincial Statute 4th *William IV.* Cap. 12, authorizing the purchase of an additional width of forty feet of ground on both sides of the Canal, between the River and *Wellington Street Bridge*, the whole of which additional width formed part of *St. Anne's Common*, belonging to the City of *Montreal*. In the Spring following the passing of that Statute, the number of Commissioners was reduced to one, and the Canal was suffered to remain under his sole superintendance during the whole of the following year, as appears by his Report made to the Legislature, dated in January 1835; that Commissioner alone could not make the purchase, and when, in the following year, a new Board of Commissioners was appointed, the Act authorizing the collection of the Tolls had been allowed to expire, and the new Board in consequence had not the means of making it. In March 1836, the permanent Provincial Statute 6th *William IV.* Cap. 22, re-establishing a tariff of Tolls was passed; and by the twenty-fourth section it was enacted, that the before mentioned Statute "shall continue to be in force, but the operation thereof shall be suspended until the Legislature shall have come to some determination with regard to the enlargement of the *Lachine Canal*."

In almost every Report rendered since the passing of the last mentioned Statute, the Commissioners submitted the expediency of acquiring a larger portion of the Common for the purposes of the Canal, and urged the necessity of making the purchase before the land should be divided into lots, and its value become enhanced by the erection of buildings;

but all their recommendations were apparently without effect, until after the rendering of the last Report, (in which the present Commissioners took the liberty of summarily referring to the recommendations of their predecessors on the subject, and adding their own earnest opinion in support thereof,) when the matter was referred by His Excellency the Governor-General to the consideration of the Board of Works, and that Board, viewing the subject in the same light as the Commissioners, and indeed taking a more extended view of it, recommended that the Commissioners should be instructed to have plans of the required works, with estimates of their cost, prepared. His Excellency adopted the recommendation, and the Commissioners thereupon entrusted the matter to the professional experience of *Mr. Fleming*. The result will be seen in that Gentleman's Plan, Report and Estimate, accompanying this Report; and the Commissioners respectfully submit the same for consideration and adoption, being of opinion that a smaller extension of Basin room wharfage, and other accommodations, than is designed on the Plan will be inconsistent with the present, and still more with the future, interests and convenience of the public.

Of the land required for the purposes in question, all lying between *Wellington Street Bridge* and the River, except a small piece at *Windmill Point*, belongs to the Corporation of the City of *Montreal*, and is known as the *St. Anne's Common*; and all above the Bridge, designed for a lumber and fire-wood Dock, belongs to the Reverend Gentlemen of the Seminary of *Montreal*, and other proprietors. Of the value of the land, (buildings there are none of any consequence,) the Commissioners are unable to form an estimate; but if the powers respecting the purchase of land contained in the Provincial Statute, 1st *George IV.* Cap. 6, under which the Canal was made, be given to them, they think the amount, in proportion to the extent required, will be moderate, especially in regard to the Common, as the consideration that the proposed improvement will almost immediately effect a great enhancement of the value of property throughout *Griffin Town* and the neighbourhood, and thereby increase the revenue of the City in the shape of assessments, will no doubt have due weight in establishing the price to be paid for it. Immediate action in the matter is of much importance, as the Corporation of the City have already caused a Plan dividing the

Common into building lots to be made, and speak of disposing of them almost immediately. It may be said that the purchase of those parts of the land that are laid out on Mr. *Fleming's* Plan as "building lots for stores" is unnecessary; but the Commissioners are of opinion that it is essential, in order that the whole being within the scope of their jurisdiction, such conditions may be attached to the future sale or lease of these lots as shall insure the Canal from injury or deterioration, by an improper diversion of its water or erection of buildings, or by the formation of any work that may be detrimental to its interests. If the proposed Plan be fully executed, there can be little doubt that these lots will afterwards be found to be a fruitful source of revenue.

In regard to the Engineer's Estimate of the cost of the Works, it will be observed, that the largest item is for Wharf-walls, the whole in cut stone, £12,282 2s. 6d.

Although the Commissioners highly approve of this substantial mode of wharfing, they fear it may be considered too costly;—if such should be the case, a great saving of immediate outlay might be effected by substituting Wood for Stone; the ends, however, of the small Basins butting on the streets, should, at all events, be of the latter material.

The Commissioners deem the suggestions contained in Mr. *Fleming's* Report, respecting a "general improvement and enlargement of the Canal;" "a Canal Basin and Steam Boat Port at *Lachine*;" and "the practicability of widening and deepening the Canal without stopping the navigation," worthy of serious and favourable consideration, and as such they respectfully submit them. And they only abstain from doing the same, with his very important suggestion of making a Steam-Boat channel from *Windmill Point* to *Point St. Charles*, and a Ship Dock in the Bay formed by these two Points, from a fear that it may be considered beyond their strict province.

The Commissioners respectfully ask for Legislative authority to make the several passing places on the Canal, recommended in the Engineer's Report; and also submit, that in order to insure a more effectual protection to the Canal and its Works, power be given them to make minor regulations, or By-Laws, with limited penalties for breach thereof.

Under the authority of the fourth section of the Provincial Ordinance, 3rd *Vic.* Cap 28, the Commissioners of the Harbour have commenced the formation of the double Ramp, at

the end of *Grey Nun's Street*, and the continuation upwards towards the River Lock of the Harbour Revêtment Wall; but under the modification of that section made by the 4th section of the Provincial Ordinance, 4th *Vic.* Cap. 12, they do not intend to continue the latter beyond the end of the upper Ramp, although the distance is only one hundred and sixty yards. This abrupt termination of a nearly perpendicular grey stone wall, fourteen feet in height, against a turfed bank of earth of equal height, but with an unavoidable slope of about fifty degrees, will form a singular and uncouth appearance, wholly at variance with the unity of design observable in the substantial range of Revêtment Wall and Ramps, that now grace the whole front of the City.—The continuation of the Wall from its present proposed termination to the River Lock, would not only afford a proper and appropriate finish, but would give additional convenience by adding several feet to the width of the Canal Wharf beneath, and in connexion with Mr. *Fleming's* before mentioned Plan (if it be adopted) will become necessary as a support to the projected Street leading over the lower Lock.

The Commissioners therefore trust, that the Legislature will give them authority to complete it.

All which is respectfully submitted.

Report upon a proposed extension of the Wharves, and Dry or Graving Docks, for the *Lachine Canal*, at *Montreal*.

The first accommodations made for Boats on the *Lachine Canal*, at *Montreal*, were confined to a very small Basin, but which have since been enlarged by partially widening this on the south side, and now, from the great increase of trade by Boats of the greatest admissible dimensions, the Wharves and Basin room have become equally insufficient as the first. Agreeable to the instructions from the Honourable the Canal Commissioners, I respectfully submit a Plan with this Report, showing the figure and extent of a proposed extension of the Wharves, with enlargement of Basin room; which, with other proposed additional improvements, I shall treat each under its respective title.

Of Extension of Wharves.

It is proposed, according to the Plan, to widen the present Basin on the North side, to within one hundred and ten feet of the line of stone buildings here; that is, allowing sixty feet for a Street in front of these Stores, and fifty feet for a Wharf; and also, on the opposite or South side of the Basin, to widen this to the full extent of the Canal Boundary Line, excepting that part of it next the upper Lock, which is to be made parallel to the North side till meeting said Boundary Line, together making the Basin here about two hundred and seven feet in breadth. This widening of the present Basin will afford commodious room, and free access to and from the Locks, the passage to which is now often obstructed by the Boats. The widening on the North side may be extended [see Plan] till in a line with the upper side of the Stone Bridge, thereby affording wharfage opposite to every Store on this side.

Additional to the widening on the South side of the Basin, it is proposed to have a Wharf along it of fifty feet in breadth, and a range of building lots along this Wharf of one hundred feet in depth. Also, on the outside of these lots, or next the River, a street of sixty feet in breadth, the whole extending, according to Plan, from the *Windmill Point*, as shown by the pink colouring, to the proposed Graving Docks.

As a more direct and commodious road of communication to the last described Wharf and building lots, than by the present Stone Bridge, it is proposed to throw a Stone Bridge across the mouth of the Canal or lowest Lock, the present guard walls of which will afford a substantial and ready-made foundation. This Bridge, as shown by Plan, will be on the continuation of the street of the *Montreal Harbour Revêtment Wall*; the street or road after passing the Bridge divides into two branches—the one leading to the Wharf by the rear of the Lock-Keeper's House, and the other to the rear of the building lots, or upon that side of them next the River, thereby opening the whole of this side of the Basin to nearly equal distances, and free access to and from the City to those of the Wharves and Buildings on the North side.

To further extend the Wharves and Port-Room, it is proposed, as shown upon the Plan, to make use of the whole of that triangular piece of Common extending along *Wellington Street* and the North side of the Canal. On

this, I propose [see Plan] to lay off a street on the East side, of sixty feet in breadth, and along it a range of building lots of ninety feet in depth; also, lots of one hundred feet in depth off the same along *Wellington Street*. On the rear of the last is to be a Basin of one hundred and twenty feet in breadth; next, a Wharf of eighty feet in breadth; third, another Basin of one hundred and twenty feet in breadth; and fourth, another Wharf of eighty feet in breadth;—these two Wharves being carried from the rear of the Lots on the East side, are each to have a passage leading between the Lots of twenty feet in breadth, for a common passage to and from the street.

It is also proposed, according to Plan, that each of the above described Lots shall have a Canal from the Basin through it, from rear to front, of twenty-five feet in breadth, by which a Boat can be brought under the roof a Shed or Store, built on it, and delivered or loaded directly to or from the floors of the Store by a crane or tackle, without exposure to the weather, and at much less expense than at the common Wharf. Such Canals are to be built of Stone work, and also the walls of the Basin along the Lots, by which a good foundation on the rear of each Lot will be afforded, whereon to raise any desired superstructure.

The above described extension of Wharves being only intended for the forwarding business, it is besides proposed, that there shall be a distinct and separate accommodation for cord-wood, square timber and other lumber for which I have laid out on the Plan a Dock on the upper side of *Wellington Street Bridge*, and on the North side of the Canal. This Dock is to have a Wharf along *Wellington Street*, of one hundred and twenty feet in breadth; next a Basin and a Wharf, on the opposite side, each one hundred and twenty feet in breadth, the last to be bounded by a road (or half of a street) twenty-five feet in breadth, extending the whole length of this Wharf, as shown by the plan. There will be a free and ready access to and from the City to the whole of *Wellington Street*.

Of Cranes, Slides and Sheds.

At several and proper points on the proposed Wharves, there should be Cranes of various powers, or from ten to two tons; one of the largest power is proposed to be put up at the lower extremity of the new Basin, at the Stone Bridge, (this being the nearest point of it to the City) for the purpose of loading iron

APPENDIX
No. 17.Report of the
Commissioners
of the Lachine
Canal.

iron castings, mill stones, etc. It is also proposed, that there shall be one or more Cranes put up on the Lumber Dock Wharves, with a Slide opposite to each, for hauling out square timber, immediately upon its arrival in the Dock.

On all the common, or Forwarding Wharves, it is proposed to erect sheds for the shelter of goods, of not less than thirty feet in breadth, placed either along the middle or on the rear of each of these, to be supported on posts at distances sufficient to afford room for the delivering or loading under them by carts or trucks.

Of Graving Docks.

As shown upon the Plan, there is proposed two Graving Docks; these are to have a space of ground both between and around them, for sawing and laying up timber; they are to be placed at the upper extremity of the Wharf and Lots, upon the South side of the Basin.— This site, for the purpose of building and repairing Boats, will afford every facility in obtaining timber, either from the River or Canal.

Between the Docks there is proposed to be a Shed for the use of the Carpenters, and, if required, the same upon the opposite sides of them. The draining of these Docks will be by a sluice at the extremity of each of them, opening into a brick drain or tunnel, which will terminate in the open water course, which at present leads the water off the land here into the River.

The land which will be required for the above proposed improvements is contained within the boundary, on Plan coloured red, and that at present belonging to the Canal is bounded by a yellow shade.

Of Bay St. Charles.

It may not be improper to notice a connexion, which the above proposed improvements would make with another proposed by me, on a Plan of the River here, rendered last year to the Board of Works; which is to build a Lock of considerable dimensions in the River, close upon *Windmill Point*, or contiguous to the Canal entrance; also a broad Dyke connecting the outside of this Lock and the rocky Islets which lie on the outside of the Bay, and which would be in water from eighteen to twenty-four inches in depth, but extending upwards till meeting the deep water opposite *Point St. Charles*. By this plan a very large Basin would be enclosed entirely

from the Rapid, and which would be deepened by the removal of the loose stones that now cover the bottom, for materials to build the Dyke, excepting two or three declining strata that project somewhat above the loose stones, which would require to be blasted.

The object of this Basin is first, to afford a safe channel and a short passage to the *Laprarie* Steamboats, which by this would be reduced to half the present in time. But the next, or principal purpose, would be the extensive and commodious room that would be made for every kind of lumber intended for the Harbour of *Montreal*, which in rafts, is often by the current carried past the city, or brought in with the greatest difficulty.

Under these views then, this improvement would come to have a necessary connection with those above proposed for the Canal on the South side of the Basin, as the new Bridge proposed on the mouth of the Canal would be the thoroughfare for both, and the rear of the lots would become a front to the River Basin. Into this Basin ships might be admitted above the Lock, where square timber, &c. could be loaded, if made deep enough for a short distance; and as the whole might be made safe by a sufficient Dyke, vessels would be out of the movements of the ice on the outside in winter.

This may not be the proper place to develop all the advantages which might be obtained by the River Basin or Lumber Port, above proposed, farther than is done in showing the connection which this would have with the proposed improvements for the Canal; yet there is another I cannot avoid noticing, which is, that this Basin would make excellent sites for ship and steamboat Graving Docks; for by a Lock upon the Graving Dock, a ship could be put into it by having the upper level (that of the Dock) supplied with water by a main pipe from the Canal, such supply being only wanted at the time of taking in or letting out the ship for repairs, or when completed, thus giving all the facilities to ship building, which are only to be found in high tide ways.

Of Passing Places upon the Canal.

From the present breadth of the Canal, there is much inconvenience and delay made to the navigation, particularly by the meeting of the largest class of vessels, which throughout have great difficulty to, and in many places cannot, pass each other. In the latter case, one boat must return to a certain and distant point,

APPENDIX
No. 17.Report of the
Commissioners
of the Lachine
Canal.

point, to allow the other, which may by right of rule have the right of proceeding forward, to pass. This happens to be particularly the case at the Guard Lock at *Lachine*, with boats arriving here at both the upper and lower levels at the same time. Therefore, on the lower level at this Lock I would recommend to widen the Canal on the opposite side to the tracking path to such an extent as not only to allow two boats to pass each other, but also to enable a boat to be turned. The reason for the latter is, that boats of the largest class, when fully loaded, draw somewhat more water than the depth of some places of the Canal, and consequently are obliged to leave a part of their cargo at this point to be returned for; but the breadth here not admitting room to turn, such boats necessarily must proceed to the upper mouth of the Canal before a turn can be effected.

Next, for a mile and a half below the same Lock, the Canal is narrow upon this reach throughout; and here I propose, about the middle of the distance, to make an additional breadth of twenty feet, in a concave form of one hundred yards in length; also the same at *Côte St. Paul's* Locks, both on the upper and lower levels. At the *St. Gabriel's* Locks I propose only to make a passing place on the lower level, because the Basin at the Red Store, which is a little way above the Lock, presently admits the boats either to turn or pass each other.

Of a general Improvement and Enlargement of the Canal.

Experience has now fully shown that the first constructed dimensions of this Canal by no means correspond with the size or breadth of Lock; namely, the Lock twenty feet in the clear, and the Canal only twenty-eight feet at bottom, and forty-eight feet on the water line. Hence, the largest boat at present may be nearly twenty-feet breadth of beam, and being flat bottomed, two of such dimensions cannot pass on a bottom of only twenty-eight feet, although the same boats can be passed through the Locks. Under these circumstances, I beg to be permitted to draw the attention of the Honourable the Commissioners of the *Lachine* Canal to the practicability of enlarging the whole Canal by additional breadth; namely, to make the bottom forty-two feet in breadth, and the water line sixty-two feet, which dimensions would allow the largest boats passing to also pass each other

upon the Canal. Besides, additional to this, I would advise deepening the Canal one foot below the level of the Lock-sills, for the reason, by this additional depth a boat would have full buoyancy for her greatest draught of water to pass the sills; whereas, at present the boat having no more depth in the Canal than her simple draught, or nearly rubbing the bottom, her buoyancy cannot be perfect, and consequently will draw more water than when at rest or in motion in deeper water. Furthermore, the buoyancy of a boat in motion in a narrow Canal is much decreased by the little room afforded on each side to replace or fill up the water displaced by her progressive motion; whereas, the Canal being made deeper than the draught of the boat, and in a proper proportion in width, the buoyancy would be increased, and her traction made easier.

In contemplating the certainty of a progressive and ultimately great internal traffic to be on the Rivers *St. Lawrence* and *Ottawa*, above *Montreal*, we find that the position of the *Lachine* Canal will always constitute it a necessary connecting channel of trade. In this view its improvements should be made suitable to this future trade, and be adapted to make use of the best improvements hereafter, or in prospect, to be used for impelling vessels, namely, whether horse traction or steam-power traction.

The Rivers mentioned having many obstructions by rapids, are almost unavailable to sailing vessels, and this has led to the entire use of steam traction on the intermediate reaches of the *Ottawa*. But whether the same power as a common and thoroughfare means in one traction, and adapted for both River and Canal, is preferable to the present horse traction on the Canal, and whether regarding the time or expense, is very doubtful. Again, on the contrary, when steam power is taken separately for the River and Canal, as a means of traction on the Canal, it may become the best, especially as this power can now be adapted without doing the least injury to the embankments; and it would now appear the proposition becomes in the improvement of a Canal, to find the best relations of its dimensions for an improved steam power traction.

The present depth of the *Lachine* Canal admits only boats below five feet draught; besides, I understand that, in the lowest state of the River, there is sometimes not sufficient water on the Guard Lock sill, or it is below

APPENDIX
No. 17Report of the
Commissioners
of the Lachine
Canal.

the ordinary depth of water on the Canal. This circumstance, however rarely it may happen, puts a limit to any additional depth which might be gained by the raising of the embankments or sides of the Canal. Although such additional depth would be always available while the River kept at ordinary levels, it would not allow with regularity or certainty the use of a steamboat for traction, which might at least require six feet of draught to be sufficiently effective. The last condition leads me to propose a proportional enlargement of the Canal, adapted for an efficient power by steam for the traction of boats of a larger size than those on the Canal, and fitted for a greater trade.

As above proposed, I would widen the Canal, but in the last view of using steam power in traction, would make it fifty feet wide at bottom, at the depth of two and a half feet below the present Lock-sills, thereby adding at least two feet of depth, or in the whole depth seven feet, and also to make the breadth on the water line seventy-eight feet. But such an alteration on the Canal would require new Locks, which I would propose to be along side of the present Locks; these would have seven feet water on the sill, and might be twenty-five feet in breadth in the clear. These dimensions would admit a steamboat sufficient for the traction of several vessels at all times, and of a size well suited for both River and Lake navigation, it being understood that such a steamboat can be adapted, as already stated, without in the least injuring the banks of the Canal. It is, however, necessary to observe, that such additional breadth of Lock and depth, must have these equally corresponding throughout in the other channels or Canals upwards to Lake Ontario.

Of a Canal Basin and Steamboat Port at Lachine.

The entrance of the Canal at *Lachine* being at a point where there is a very considerable current in the River, much delay and inconvenience is occasioned from the necessity of the boats upward bound having to go out of the Canal to the steamboat landing, instead of the boat being able to tow them from the Canal. Also, there is a shoal in the River, a short distance above the Canal entrance, which obliges the boats either to keep on the outside or inside of it; but the outside being the better channel, is also more in the current, which makes it difficult to gain the Canal entrance. Besides, there is no Basin on this entrance in

which the boats could lay previously to going into the River, or through the Guard Lock, but only in the reach between the entrance and the Lock, which is sometimes entirely blocked up by them. Under all these circumstances of inconvenience and hazard to the navigation here, I would recommend to carry the Canal as a Basin along shore upward in front of the village, and terminate it in the deep water either below or above *Leishman's Point*; as a proper examination or survey may hereafter determine.

In my opinion, this improvement, together with widening of the Canal and deepening it to seven feet, as above proposed, would be both less expensive and better adapted for the trade, than the making another new Canal in the rear of *Lachine* village, and this not uniting with the present Canal till meeting at *Montreal*, as I am informed has been projected.

Another advantage would be gained by making the entrance at *Leishman's Point* an additional depth of some inches upon the sill of the present Guard Lock, which would be the difference between the present and proposed entrance; and more, this Basin could be made with the use of very little or no private property, while it would constitute a port both for the Canal and River navigation, in which both barges and steamboats could be safely laid up in the winter months.

Of the practicability of widening and deepening the Canal without stopping the Navigation.

The operations of both widening and deepening the Canal may be altogether made, with very little or no stoppage of the navigation, for let the widening be done wholly from the South side. And first in summer, an excavation is made to the water level of the whole breadth desired, with the exception of two or three feet in breadth, left eighteen inches higher, to keep the water from spreading upon the excavated part; and next, at the same time, the greater part to the full depth may also be taken out, by leaving a small portion of the solid ground against the Canal for the leakage, if any would be discharged by the new cut into the lower level, and be pumped over the guard bank into the Canal, if cut at different points on the same level; and third, the guard bank which is left in summer, and the remainder of the depth wanted in the Canal, could be wholly taken out in the winter months; also, it is clear the new Locks could be all built in the

the summer months, without the least interfering with the navigation, but for which the present Canal would afford the greatest facilities in the carriage of materials to every desired point, and when completed, the openings into the Canal from each could be made in the winter.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY:

We, Your Majesty's most dutiful and loyal Subjects, the Legislative Council and Legislative Assembly of the Province of *Canada*, in Provincial Parliament assembled,

Most humbly represent:

That we have learned with serious apprehensions, that Your Majesty's Servants have recently proposed to the Honourable the House of Commons, an alteration unfavourable to the Colonies in the relative scale of Duties levied on Foreign and Colonial Timber and Deals, on their importation into the United Kingdom, which scale has remained nearly the same during the last thirty years.

That the discriminating Duty in favour of Colonial Timber and Deals was originally established without any solicitation on the part of the Inhabitants of the Colonies, and was considered by them as connected with objects of national policy, and therefore likely to be permanent; and they accordingly embarked their capital and industry in the trade of pre-

paring and bringing to the Home Market the produce of the forests of *Canada*; which trade, during the continued encouragement of the relative scale of Duties, has grown from the loading in part of a few vessels frequenting the *Saint Lawrence*, to the loading of more than a thousand large ships annually.

That the competition in the trade in Timber and Deals in the Colony is free to all Your Majesty's Subjects; and that under an unfavourable alteration of the existing Duties, the trade must almost altogether cease; and a great part of the capital vested in the trade, and in lumbering establishments be lost; while a very large portion of the Inhabitants must be deprived of their usual employments, the Agriculturalists be, to a great degree, deprived of a near and advantageous market for their produce, importations be greatly diminished, and the Province left without a sufficient Revenue for the support of its Local Government, the discharge of its existing engagements, and for providing for the public wants.

Wherefore; your Petitioners humbly pray, that Your Majesty will be graciously pleased

The Select Committee to whom was referred the Message from the Honourable the Legislative Council of Wednesday last, relating to the Bill intituled, "An Act for preventing any failure of Justice in respect of complaints of undue Elections or returns of Members of the Legislative Assembly of this Province, at the last General Election," have the honour to Report:

That the grounds and evidence upon which your Honourable House proceeded in passing the said Bill, were derived some of them from the Records of the Imperial Parliament, some from those of the Provincial Parliament of *Lower Canada*, some from the Journals of your own House, some from public notoriety, and others from the information of those Honourable Members who had charge of the several petitions referred to in the said Bill, and who had presented such petitions to your Honourable House; and that such grounds and evidence are as follows:

That certain Acts of the Provincial Parliament of the late Province of *Lower Canada* to regulate the trial of contested Elections in

Vol. 1.

that Province, were, by an Act of the said Provincial Parliament, passed in the fourth year of the reign of His late Majesty King *William IV.* continued until the first day of May, one thousand eight hundred and thirty-six, and thence until the end of the then next Session of the Provincial Legislature, and no longer. That after the said first day of May, in the year aforesaid, the Provincial Parliament of the said Province was duly convened, by Royal Proclamation, on two several occasions, at the City of *Quebec*, in that Province; and on each of these occasions continued sitting for several days, and was on both occasions duly prorogued—on the first by the Representative of the Sovereign in person, and on the second by Royal Proclamation.

That as well in common parlance, as in the published Journals of both Houses of the said Provincial Parliament, in one of the Speeches from the Throne delivered to such Parliament, in the Addresses of both Houses to the Governor-General, in the Journal of the Imperial House of Commons, and in the Official correspondence of the Secretary of State for the Colonies in reference to the proceedings at

such meetings, the said meetings were called and spoken of as Sessions of the said Provincial Legislature.

That in consequence of the said Acts to regulate the trial of such contested Elections not having been further continued by any Legislative enactment made at either of the said meetings, such Acts had, in the common estimation of the public, been looked upon and esteemed as having expired, and as being no longer in force at the time of the passing of the Act of the Imperial Parliament for suspending the Constitution of the said Province of *Lower Canada*; and that, consequently, the said Acts were not continued by the provisions of the Act of the Imperial Parliament for Re-uniting the Provinces of *Lower* and *Upper Canada*; an impression strengthened by the circumstances of the Special Council having deemed it expedient to pass an Ordinance for continuing an Act of the Parliament of *Lower Canada*, which had a similar tendency to that of the Acts before mentioned.

That in consequence of there having been no Act of the Provincial Parliament passed, nor any Judgment given at either of the said meetings, it has been deemed by your Honourable House that the said meetings were not either of them Sessions of the Provincial Legislature, within the meaning of the Legislative provision for continuing such Acts, and that consequently the same are in force at this day. That the petitions referred to in the said Bill, though unaccompanied by the formalities required by those Acts, were, during the early part of the present Session, received by your Honourable House, without the circumstance of the said Acts being still in force having been brought under the consideration of your Honourable House. That these petitions contain allegations of the occurrence of outrages of the most aggravated and atrocious character, which, if true, are not only most injurious to the peace of the country, but destructive of the character of your Honourable House, as being a true representative of the people.

That in consequence of the said petitions having been received, the Petitioners were left under the misapprehension that the said Acts were not in force, and your Honourable House not having come to a contrary decision, until after the period for presenting such petitions according to the said Acts, the Petitioners were thus deprived of the opportunity of presenting new petitions, accompanied with

the proper formalities, which they might have done had your Honourable House rejected those said petitions in the first instance, as not complying with those Acts.

That from the want of such formalities, your Honourable House, without such authority as is provided by the said Bill, is precluded from proceeding on the said petitions under the provisions of the said Acts, a course which, from the protection it affords to the sitting Members from unfounded complaints, is more beneficial to them than any other.

All which is respectfully submitted.

To the Honourable the Legislative Assembly,
of the Province of Canada.

The petition of the undersigned Electors of the County of *Terrebonne*, in the said Province, respectfully sheweth :

That an Election was held on Monday the twenty-second day of the month of March last, at the place commonly called *New Glasgow*, in the said County, by *John McKenzie*, Esquire, Returning Officer, for the purpose of choosing a Member to represent the said County of *Terrebonne*, in the Legislative Assembly of the said Province.

That the Candidates were *Louis Hypolite La Fontaine*, Esquire, Advocate, of the City of *Montreal*, and *Dr. Michael McCulloch*, Physician, of the same place, who both appeared on the Hustings.

That after having gone through all the preliminary forms as prescribed by Law, the said Returning Officer did require the Electors then and there present, to name the person of whom they were willing to make choice as a Member to serve in the said Assembly, for the said County of *Terrebonne*, when the said *Louis Hypolite La Fontaine* had the show of hands in his favour, whereupon a Poll was demanded by *Dr. Michael McCulloch*, or some of his supporters, and that afterwards amidst violence and bloodshed, which forced the said *Louis Hypolite La Fontaine* to withdraw, by protesting against the Returning Officer, the said *Dr. Michael McCulloch* was by the said Returning Officer illegally and unduly proclaimed Member elect, of the said County of *Terrebonne*.

And your Petitioners now pray, that the said Election and Proclamation, so made by the said Returning Officer, of the said *Michael McCulloch*, as having been returned for the said County, be annulled and set aside, for, among others, the following reasons, viz :

1st. Because, the Hustings was not held at the place pointed out in the advertisements of the said Returning Officer.

2nd. Because, the said Returning Officer after having read the Writ of Election at a certain place, determined upon taking the votes of the Electors in a house situate at a more distant and other place, which to the knowledge, and in the sight of the said Returning Officer, was then and there kept and surrounded with force and violence by several hundreds of men armed with clubs, staves, and other offensive weapons, the greatest num-

ber of whom were strangers to the said County, and had no right to vote therein, all of which being done in the view, and with an intent, to prevent the Electors from going to vote at the said Election.

3rd. Because, the said Returning Officer proceeded with the said Election in the presence of several hundreds of men armed with clubs, staves, and other offensive weapons, without on his part having taken any means to disperse or arrest them, or cause them to retire from the Hustings, and without even having made any attempt to do so, representing or declaring himself then and there incapable of interposing his authority to maintain peace and order, and give the Electors a free access to the Hustings.

4th. Because, previous to, and during the proceedings of the said Returning Officer at the said Election, in his sight and to his certain knowledge, several of the Electors, whilst peaceably proceeding to the place of the said Election, were assailed and beaten with clubs, staves, and other offensive weapons, without the said Returning Officer having taken any means to protect them, then and there declaring himself to be incapable of maintaining peace and order at the said Election.

5th. Because, scenes of violence occurred during the proceedings of the said Returning Officer, to prevent the peaceable Electors from freely exercising their elective franchise; and that it was then and there evident, by the threats and conduct of the great number of persons who then and there, during the proceedings of the said Returning Officer, and in his presence, were then armed with clubs, staves, and other offensive weapons, that the peaceable Electors of the said County could not have approached the Poll to give their votes, without rendering other scenes of violence, that would have led to bloodshed and to the murder of a great number of persons, inevitable.

6th. Because, during the proceedings of the said Returning Officer at the place of the said Election, several persons were cruelly beaten and ill-treated with clubs and staves; among whom was found a man named *Toussaint Rosé*, of *Saint Martin*, in the said County, who afterwards died of the wounds inflicted on him with clubs during the said Election.

7th. Because, in consequence of the acts of violence and intimidation above related, in order to avoid greater disturbances and a greater effusion of blood, no other means remained

mained to the said *Louis Hypolite La Fontaine*, one of the Candidates, and to the Electors willing to give him their suffrages, but to withdraw from the place of Election, and protest against the said Election, and the proceedings of the said Returning Officer.

8th. Because, hired bands of men, strangers to the said County, armed with clubs, staves, and other offensive weapons, have been, by the supporters of the said *Dr. Michael McCulloch*, brought from distant parts of the Province to the place of the said Election, in order to frighten, to intimidate, to beat, and even to murder, the peaceable Electors at the said Election.

9th. Because, at the costs and charges of the said *Dr. Michael McCulloch*, as well by himself as by means of others in his interest or favour, houses of public entertainment have been opened and supported, or caused to be opened and supported, before and during the said Election, in the limits of the said County, the whole in contravention of the law.

All which allegations your Petitioners are ready to prove.

Wherefore, your Petitioners pray your Honourable House to take this their Petition into its serious consideration, and declare the above mentioned Election null and illegal, as also the Proclamation made by the said Returning Officer at the said Election, of the person of the said *Dr. Michael McCulloch* to represent the Electors of the said County of *Terrebonne*, in the Legislative Assembly of this Province. And your Petitioners pray, that your Honourable House would adopt such measures, as in your wisdom may seem meet, to prevent the occurrence of similar scenes; otherwise they must cease to exercise their elective franchise, or go armed to resist with effect any attempt that may be made to interfere with them in the exercise of their Constitutional rights.

Your Petitioners would further earnestly and solemnly impress upon your Honourable House, the necessity of an immediate investigation into the disgraceful occurrences which have taken place at the several Elections in this District, in order to bring to condign punishment the conspirators who have dared, by means of hired bands of armed ruffians, to murder and ill-treat the Electors, and impose upon them, as their Representative, persons in whom they have no confidence.

Your Petitioners, as in duty bound, will ever pray.

The Petition of the undersigned, *Louis Hypolite LaFontaine*, Advocate, of the City of *Montreal*, in the District of *Montreal*, in the said Province,

Respectfully sheweth :

That an Election was held on Monday the twenty-second day of March last, at the place commonly called *New Glasgow*, in the County of *Terrebonne*, in the said Province, by *John McKenzie*, Esquire, Returning Officer, for the purpose of choosing a Member to represent the said County of *Terrebonne* in the Legislative Assembly of the said Province.

That the Candidates at the said Election were, Doctor *Michael McCulloch*, Physician, of the City of *Montreal*, and your Petitioner, and that they both appeared on the Hustings at the said Election.

That after having gone through all the preliminary forms prescribed by Law, the said Returning Officer did require the said Electors then and there present, to name the person of whom they were willing to make choice as a Member to serve in the said Assembly for the said County of *Terrebonne*; when the said *Louis Hypolite La Fontaine*, your Petitioner, had the show of hands in his favour. Whereupon a Poll was demanded by the said Doctor *Michael McCulloch*, or some of his supporters; and that afterwards, amidst violence and bloodshed, which forced your Petitioner to withdraw, by protesting against the Returning Officer, the said Doctor *Michael McCulloch* was, by the said Returning Officer, illegally and unduly proclaimed Member elect of the said County.

And your Petitioner now prays, that the said Election and Proclamation, so made by the said Returning Officer, of the said Doctor *Michael McCulloch* as having been returned for the said County, be annulled and set aside, for, among others, the following reasons, viz :

1st. Because, the Hustings were not held at the place pointed out in the advertisements of the said Returning Officer.

Because, the said Returning Officer, after having read the Writ of Election at a certain place, determined upon taking the votes of the Electors in a house situated at another and more distant place, which, to the knowledge and in the sight of the said Returning Officer, was then and there kept and surrounded with force and violence by several hundreds of men, (strangers to and unentitled to vote in the said County,) armed with clubs, staves, and other offensive weapons; all which was done in the view and with the intent to prevent the Electors from going to vote at the said Election.

3rd. Because, the said Returning Officer proceeded with the said Election in the presence of several hundreds of men armed with clubs, staves, and other offensive weapons, without having taken any means to disperse or arrest them, or cause them to retire from the Hustings, and without even having made any attempt to do so, representing or declaring himself then and there incapable of interposing his authority to maintain peace and order, and give the Electors a free access to the Hustings.

4th. Because, previous to, and during the proceedings of the said Returning Officer at the said Election, in his sight and to his certain knowledge, several of the Electors whilst peaceably repairing to the place of the said Election were assailed and beaten with clubs, staves, and other offensive weapons, without the said Returning Officer having taken any means to protect them, then and there declaring himself incapable of maintaining peace and order at the said Election.

5th. Because, such scenes of violence and bloodshed occurred during the proceedings of the said Returning Officer, as prevented the peaceable Electors from freely exercising their elective franchise; and it was then and there evident, by the threats and conduct of the great number of persons who, during the proceedings of the said Returning Officer, and in his presence, were thus armed with clubs, staves, and other offensive weapons, that the peaceable Electors could not have approached the Poll to give their votes, without rendering inevitable other scenes of violence that would have led to bloodshed, and to the murder of a great number of persons.

6th. Because, during the proceedings of the said Returning Officer at the place of the said Election, several persons were cruelly beaten and ill-treated with clubs, staves, and other offensive weapons; among whom was an indi-

vidual named *Toussaint Rosé*, of *St. Martin*, in the said County, who afterwards died of the wounds inflicted on him with clubs, staves, and other offensive weapons, during the said Election.

7th. In consequence of the acts of violence and intimidation above related, no means of avoiding greater disturbance, and avoiding greater effusion of blood, remained to your Petitioner, one of the said Candidates, and to Electors willing to give him their suffrages, but to withdraw from the place of the Election, and protest against the said Election and proceedings of the said Returning Officer.

8th. Because, hired bands of men, strangers to the said County, armed with clubs, staves, and other offensive weapons, were, by the supporters of the said Doctor *Michael McCulloch*, brought from distant parts of the Province to the place of the said Election, in order to frighten, intimidate, to beat, and even to murder the peaceable Electors at the said Election.

9th. Because, at the costs or charges of the said Doctor *McCulloch*, as well by himself, or by means of others in his interest or favour, houses of public entertainment have been opened or supported, or caused to be opened or supported, before and during the said Election, in the limits of the said County.

All which allegations your Petitioner is ready to prove.

Wherefore, your Petitioner prays your Honourable House to take this his petition into its serious consideration, and declare the above mentioned Election null and illegal, as also the Proclamation made by the said Returning Officer at the said Election, of the person of the said Doctor *Michael McCulloch* to represent the Electors of the said County of *Terrebonne* in the Legislative Assembly of this Province of *Canada*.

And your Petitioner will ever pray.

Henryville, in the County of *Rouville*, by *Hiram Hitchcock*, Returning Officer, duly appointed by Her Majesty's Writ, for the purpose of choosing a Member to represent the said County of *Rouville* in the Assembly of the Province.

That the Candidates at the said Election were, *M. A. DeSalaberry*, Esquire, of the Parish of *Chambly*, in the said District, and your Petitioner.

That after the preliminary forms being gone through, your Petitioner having in his favour the show of hands, a Poll was demanded by the supporters of the said *M. A. DeSalaberry*; which demand being then granted, the said Returning Officer began to take the votes of the Electors, and continued so to do on that day without interruption.

That on Tuesday, the second day of the Poll, the majority in favour of your Petitioner was rapidly increasing; but that, against the peace and contrary to the Writ of Her Majesty, a number of persons, supporters of the said *M. A. DeSalaberry*, were seen in the Poll House, armed with clubs, staves, and other offensive weapons, preventing, by violent threats and menaces, the supporters of your Petitioner from giving their votes in his favour.

That at the close of the Poll the said second day, your Petitioner's majority being then about one hundred and fifty votes, the supporters of his opponent, armed with clubs, staves, and other offensive weapons, made a violent and brutal attack upon your Petitioner's supporters, and compelled them to leave the place.

That on Wednesday, the third day of the said Poll, the supporters of the said *M. A. DeSalaberry* were seen coming to the Poll in double sleighs, eight or ten persons in each, bearing flags, and armed with clubs, staves, and other offensive weapons; and that at the adjournment of the Poll at one o'clock in the afternoon, your Petitioner had yet a majority of one hundred and twenty-one votes.

That on returning to the Poll at two o'clock, P. M. on Wednesday aforesaid, your Petitioner and the great number of Electors accompanying him, unarmed and inoffensive, were violently attacked by a number of riotous individuals, armed with clubs, staves, and other offensive weapons, supporting the said *M. A. DeSalaberry*, and that several of your Petitioner's supporter's were grievously wounded; one of whom, an individual of the name of *Julien Choquet*, afterwards died of

the wounds so received at the said Election; and that these violators of the Law, unsatisfied with this perpetration, pursued the Electors supporting your Petitioner, prevented them from coming near the Poll, and giving their votes in favour of your Petitioner.

That several of these men, so armed with clubs, staves, and other offensive weapons, came into the Poll House, in the presence of the Returning Officer, and during the polling hours, threatening the lives of the Electors supporting your Petitioner, and were neither arrested nor reprov'd in any way; but, on the contrary, were allowed to remain undisturbed, and by those means tacitly protected, although pointed out by the said Electors, claiming from the Returning Officer his official intervention.

That inasmuch as a large number of armed individuals prevented the Electors from coming near the Poll and giving their votes in favour of your Petitioner, and kept back with all sorts of menaces and ill-treatment the supporters of your Petitioner, the said Election was by no means free, but, on the contrary, your Petitioner was thereby prevented from being duly elected, as he ought to have been, and a false and unjust return was thereby illegally, violently and corruptly secured in favour of the said *M. A. DeSalaberry* as Member for the said County.

That previous to and during the said Election, large sums of money were expended by the partisans of the said *M. A. DeSalaberry*, to defeat the liberty of the said Election, to pay and feed the armed force and other riotous people above mentioned; and taverns were also kept open, and intoxicating liquor was distributed to such as would declare themselves partisans of the said *M. A. DeSalaberry*; the whole contrary to Law.

That in Law and in fact, your Petitioner was duly elected at the said Election to serve for the said County, and that the insertion in the Return of the said *Hiram Hitchcock* of the name of the said *M. A. DeSalaberry*, was illegal, fraudulent, corrupt, and an act of open violence against the rights and liberties of the Electors of the said County.

Whereupon, your Petitioner humbly prays, that your Honourable House will diligently inquire into the facts set forth in the present Petition, and thereupon order that the pretended Election of the said *M. A. DeSalaberry* be declared null and void, and that your Petitioner's name be inserted in the said Re-

turn

turn of the said *Hiram Hitchcock*, instead of that of the said *M. A. DeSalaberry*, and your Petitioner be admitted to take his seat accordingly; and that your Honourable House will further ordain and decree in the matter, as in Law and justice it may appertain.

The petition of the undersigned Electors of the County of *Rouville*, in the District of *Montreal*,

Respectfully showeth :

That an Election was held on Monday the eighth day of March last, at the Village of *Henryville*, in the said County of *Rouville*, by *Hiram Hitchcock*, Esquire, Returning Officer, for the purpose of choosing a Member to represent the said County of *Rouville* in the Assembly of the Province.

The Candidates were *Thimothé Franchere*, Esquire, and *M. A. DeSalaberry*, Esquire, the former having been declared to have the show of hands in his favour, a Poll was demanded by the supporters of *M. A. DeSalaberry*, which was opened by the Returning Officer, who continued to receive on that day without interruption, the votes of the Electors.

That on Tuesday, the second day of the Poll, the majority in favour of *Thimothé Franchere*, Esquire, was rapidly increasing, when a number of persons, supporters of *M. A. DeSalaberry*, Esquire, were seen in the Poll House with bludgeons and other weapons in their hands, preventing by violent threats the Electors of *Thimothé Franchere*, Esquire, from exercising their constitutional rights. At the close of the Poll, Mr. *Franchere* having then a majority of about one hundred and fifty votes, the supporters of his opponent made a violent and most brutal attack on the Electors of *Thimothé Franchere*, Esquire, and compelled them to leave the place.

That on Wednesday morning several double sleighs came to the Poll with eight or ten persons in each, all of whom were known to be *M. A. DeSalaberry's*, Esquire, supporters, bearing flags, and having also what they styled shillelaghs in their hands. At the adjournment of the Poll at one o'clock in the after-

noon, Mr. *Franchere* was still one hundred and twenty-one votes above his opponent.

On returning to the Poll at two o'clock, accompanied by about two hundred Electors, a number of hired bullies rushed out of the Tavern occupied by *Goodenough*, and immediately attacked with deadly weapons *Thimothé Franchere*, Esquire, and his voters, who were unarmed, which resulted in the death of one person named *Julien Choquet*, and in grievous and serious bodily injuries to many others of the same party. These furious violators of the Law yet unsatisfied with this perpetration, pursued, after the opening of the Poll, the inoffensive and unprotected Electors who were desirous and anxious to inscribe their votes in favour of *Thimothé Franchere*, Esquire, as far as the *French Village*, when being still full of the darkest malice, committed a shameful riot, by breaking open the windows and doors of the houses belonging to Messieurs *Gariesfry* and *Darche*. Moreover, several of these men came in the Poll-Room with their blood stained weapons, in the presence of the Returning Officer, and during the polling hours still threatening the lives of *Thimothé Franchere's* Esquire, Electors, and were not by him arrested nor reprovved in any way, but on the contrary, were allowed to remain undisturbed, and by that means tacitly protected, these persons having been pointed out by the said Electors, who claimed his official intervention. In consequence of the aforesaid violence, and the entrance to the Poll being obstructed, and that with force and arms, the only votes inscribed from that moment were in favour of *M. A. DeSalaberry*, Esquire. By these means the Electors residing in the Village were driven from their homes, and those who had come from the adjoining and distant parishes returned without voting, rather than have recourse to violence, which must have terminated with bloodshed before they could have reached the Poll, notwithstanding *Thimothé Franchere* had at the closing of the Poll a majority of fifty-one votes.

That among the many acts of corruption and violence, we would expose to your Honourable House, that promises were made and gifts in money were offered and allowed to several persons for their votes, and that taverns were open and expenses paid by *M. A. DeSalaberry's* supporters, and to his knowledge, the whole contrary to Law. Notwithstanding these occurrences, and the protest of *Thimothé Franchere*, Esquire, the Returning Officer considered

sidered it his duty to continue the Poll, so as to give a majority to *M. A. DeSalaberry*, Esq. and to return him duly elected.

Your Petitioners therefore pray, that in consequence of the violence and other means of corruption used by the supporters of *M. A. DeSalaberry*, to prevent the Electors from freely and peaceably giving their votes, you will either declare that *Thimothé Franchère*, Esquire, who at the adjournment of the Poll on Wednesday evening was in the majority, should have been returned, or cause the Election to be annulled, and afford an opportunity to the County freely to elect the person of its choice.

In the latter case your Petitioners pray, that your Honourable House would adopt such measures as in your wisdom may seem fit, to prevent the occurrence of similar scenes; otherwise they must cease to exercise their elective franchise, or go armed to resist with effect any attempt that may be made to interfere with them in the exercise of their constitutional rights.

And your Petitioners as in duty bound, will ever pray.

The petition of the undersigned Electors of
the County of *Montreal*,

Respectfully sheweth :

That an Election was held on Monday the twenty-second day of March last, at the Village of *St. Laurent*, by *E. M. Leprohon*, Esquire, Returning Officer, for the purpose of choosing a Member to represent the County in the Assembly of the Province.

The Candidates were *A. M. DeLisle* and *James Lesslie*, the latter having been declared to have the show of hands in his favour, a Poll was demanded by the supporters of *A. M. DeLisle*, which was opened by the Returning Officer, who continued to receive for about the space of an hour, without interruption, the votes of the Electors.

At this period the majority in favour of *James Lesslie* was rapidly increasing, when a most brutal attack was made upon his supporters by a number of hired bullies, and other

persons in the interest of the said *A. M. DeLisle*, which resulted in the death of one person, and grievous bodily injury to many.

In consequence of the riot, the Returning Officer adjourned the Poll until the following day, for the purpose of obtaining, as he publicly declared, the assistance of the military, in order to enable him to preserve order.

The Poll was re-opened next morning by the Returning Officer, although he had been refused military assistance, and was aware that the Village was occupied by a large body of men brought from a distant County, in that part of the Province formerly known as *Upper Canada*, together with an immense number of persons from Town, partisans of the said *A. M. DeLisle*, at whose head was a man who the evening before advised them to accompany him to the Election with fire-arms, to avenge the death of the bully who was killed the previous day, and prevent the return of the said *James Lesslie*.

By these men the Electors residing in *St. Laurent* were driven from their homes, and those who had come from the adjoining Parishes returned, rather than have recourse to violence, which must have terminated with bloodshed before they could have reached the Poll.

Notwithstanding these occurrences, and the protest of the other Candidate, the Returning Officer considered it his duty to return *A. M. DeLisle* as duly elected.

Your Petitioners therefore pray, that in consequence of the violence used by the supporters of the said *A. M. DeLisle* to prevent the Electors from peaceably recording their votes, that you will either declare that *James Lesslie*, who at the time the riot commenced and the Poll was adjourned, was in the majority, should have been returned, or cause the Election to be annulled, and afford an opportunity to the County freely to elect the person of its choice.

In the latter case, your Petitioners pray, that your Honourable House will adopt such measures as in your wisdom you may deem meet to prevent the recurrence of similar scenes; otherwise they must cease to exercise their elective franchise, or go armed to resist with effect any attempt that may be made to interfere with them in the exercise of their constitutional rights.

Your Petitioners would further earnestly and solemnly impress upon your Honourable House, the necessity of an immediate investigation

Humbly sheweth:

That an Election was held on Monday the twenty-second day of March last, at the Village of *St. Laurent*, by *E. M. Leprohon*, Esq. Returning Officer, for the purpose of choosing a Member to represent the County of *Montreal*, in the Legislative Assembly of the Province.

That the Candidates were *A. M. DeLisle*, Esquire, one of the Clerks of the Peace of the District, and your Petitioner, who having been declared to have the show of hands in his favour, a Poll was demanded by the supporters of the said *A. M. DeLisle*, which was opened by the Returning Officer, who continued to receive, for the space of an hour, the votes of the Electors without interruption.

That notwithstanding these occurrences, and the protest of your Petitioner, the Returning Officer proclaimed *A. M. DeLisle* as duly elected.

Wherefore, your Petitioner prays, that in consequence of the violence used by the supporters of the said *A. M. DeLisle*, to prevent the Electors from peaceably recording their votes, that you will either declare that your Petitioner, who at the time the riot commenced and the Poll was adjourned was in the majority, should have been proclaimed as duly elected, or cause the Election to be annulled, and afford an opportunity to the County freely to elect the person of its choice.

That on Monday the twenty-second day of the month of March last, at *St. Johns*, in the County of *Chambly*, an Election took place, for the purpose of electing a Member to represent the said County in the Legislative Assembly of the said Province.

That of the Candidates, one was *John Fule*, of the Parish of *Chambly*, Esquire, and your Petitioner was the other; and *Augustus DeLisle*, of the Parish of *Boucherville*, discharged the duties of Returning Officer.

That the said Election was opened at *St. Johns*, a place which had been chosen as that of the Poll, but which, far from being a central one, is situated at one of the extremities

of the County, the selecting of which could be attended with no other result than that of subjecting the majority of the Electors of the County to inconvenience the most grave.

That on the first day of the Election, when the Returning Officer requested the Electors then present to name the person whom they were willing to appoint as a Member to serve them in the said Assembly, the great majority of the said Electors, on the show of hands, declared themselves in favour of the undersigned; upon which a Poll was asked for by the partisans of the said *John Yule*, and was granted by the Returning Officer, who began to take in and register the votes of the Electors.

That on the very first day your Petitioner had already a majority of fifty-five votes over his antagonist; when the Returning Officer was compelled to adjourn the Poll, in consequence of the violence and the outrages committed by the said *John Yule's* partisans, who, being in a state of intoxication, commenced assailing the partisans of your Petitioner, at a moment when these were engaged in peaceably giving their suffrages to your Petitioner.

That the said *John Yule's* partisans were armed with clubs and other offensive weapons, of which they made use to ill-treat your Petitioner's partisans, and committed acts so outrageous, that the Returning Officer was obliged to stop the Poll, and found that it was necessary to adopt efficient measures, such as the having at his disposal a sufficient force to enable him to continue the said Election, and protect the lives of Her Majesty's Subjects, jeopardized in consequence of the acts of violence and outrages committed by the partisans of the said *John Yule*; that the said Returning Officer even repeatedly promised to the Electors, that he would on the day following have a sufficient force at his disposal to maintain order.

That on the next day, the said Returning Officer not having procured, or not being able to procure, the support and assistance of which he himself had acknowledged the necessity to protect the Electors of your Petitioner, the said *John Yule's* partisans, in the view of preventing all and every the Electors favourable to your Petitioner from having any access to the Poll, and there inscribe their votes, did obstruct, or cause to be obstructed, by means of bullies armed with clubs and other offensive weapons, all the public roads leading from the different parts of the County of *Chambly* to the place of the Poll; and thus

forcibly and with violence did keep your Petitioner's partisans away from the place of the Poll.

That on the twenty-third day of March last, being the second day of the Election, owing to the illegal and violent practices on the part of the said *John Yule's* partisans, they became absolute masters of the Poll, and they alone were enabled to give in their votes, by which means a slight majority of ten votes was on that day secured to the said *John Yule*.

That on this same day, it was but with great difficulty that a few only of your Petitioner's Electors could succeed in reaching the Poll, and then they were menaced with violence if they persisted in their wish to vote for your Petitioner.

That your Petitioner, finding himself deprived of the means of communicating with his Electors, and of demanding the adjournment of the Poll, as he had a right so to do, on being assisted by but three of his Electors, the said *John Yule* of this did take advantage, and cause a Proclamation for the purpose of bringing the said Election to a close, so that he might be proclaimed elected, in the event of your Petitioner not producing any vote during the space of an hour—a vote which it was impossible for him to produce, owing to the distance at which his Electors were forcibly kept away from the place of the Poll, and the menaces held out to the very few who could reach it; upon which the Election was declared to be closed, and the said *John Yule* was illegally proclaimed elected.

Your Petitioner doth further aver, that previous to, and pending the said Election, the said *John Yule* and his partisans did open, or cause to be opened, and did support a great number of houses of public entertainment within the limits of the said County; and, namely, at *St. Johns*, aforesaid, where the said Poll was held, that moreover the said *John Yule* and his partisans had recourse to divers means of corruption to procure votes for him.

That your Petitioner hath protested against all and every Return that might be made in the behalf of the said *John Yule*, Esquire, as appears by his Protest, dated the twenty-fifth of March last, hereunto annexed.

For these reasons, your Petitioner prays your Honourable House to take this his Petition in your serious consideration, and declare the Election aforesaid illegal and null, as also the Proclamation made by the said Returning Officer

Montreal, June 22nd, 1841.

Copy of Protest.

In the afternoon of the twenty-fifth day of the month of March, in the year one thousand eight hundred and forty-one, at the instance of *Louis Michel Viger*, of the City of *Montreal*, Esquire, one of the Candidates at the Election for the County of *Chambly*, commenced at *St. Johns*, on Monday the twenty-second instant, we, the undersigned Notaries Public, in the Province of *Canada*, residing in the said City of *Montreal*, proceeded expressly to the domicile of *Augustus DeLisle*, of *Boucherville*, Esquire, the Returning Officer for the said Election, and being there, and speaking to himself, we gave him notice that the said *Louis Michel Viger* protests against any Return which may be made in favour of *John Yule*, the younger, Esquire, the other Candidate at the said Election, in case the said *Augustus DeLisle* should take upon himself to Return the said *John Yule* as duly elected, because the said Return would be absolutely null and void, by reason of the illegal conduct and practice adopted before and during the said Election by the said *John Yule* and his partisans; who opened, and caused to be opened and maintained during the said Election, a great number of public treating houses within the limits of the said County, and more especially at the place where the Poll was held at the said Election. Because, the said *John Yule* and his partisans have had recourse to various means of corruption and violence, both to obtain votes, and to prevent the voters of the said *Louis M. Viger* from proceeding to vote at the said Election. Because, among other illegal and undue means used, by them, the partisans of the said *John Yule* exercised, and caused to be exercised by others, acts of violence against the voters of the said protesting party, and cruelly assaulted and beat them, without the slightest pretext, and prevented them from having access to the Poll, and voting freely there for the Candidate of their choice. Because, the partisans of the said *John Yule*, with the same intention of preventing the

voters of the said protesting party from having access to the Poll, obstructed, and caused to be obstructed by bullies, armed with sticks and other offensive weapons, all the roads and public communications leading from the several parts of the said County to the polling place, and did thereby in fact prevent the voters of the said protesting party from coming to the Poll, in consequence of their being unable to reach it without danger to their lives, from the violence practised against them. Because, the said *Augustus DeLisle*, himself acknowledged the necessity of having at the Poll a force sufficient to maintain order there, and to prevent violence, and to protect the lives of Her Majesty's Subjects. Because, notwithstanding the promises repeatedly made by the said *Augustus DeLisle* to the Electors, that he would obtain such force, and that order should be thereby maintained, and Her Majesty's Subjects protected, the said *Augustus DeLisle* did not think proper, or was unable to procure such force, and the partisans of the said *John Yule* were thereby left absolute masters of the Poll on the twenty-third instant, on which day the voters of the said protesting party were absolutely excluded from the Poll, and even from the Village where it was held, in consequence of the means adopted, as aforesaid, by the partisans of the said *John Yule*, to obstruct the public communications leading to the said Poll and Village.

Wherefore, for the reasons aforesaid, and for other reasons which the said protesting party reserves to himself the right of insisting on in proper time and place, against the proceedings of the said *John Yule* and his partisans, we, the said Notaries, at the instance aforesaid, have protested, and do hereby solemnly protest, against the Return of the said *John Yule*, and against all things done, or to be done, contrary to the rights of the said protesting party, and of the Electors of the said County, and their elective franchise; hereby notifying the said *Augustus DeLisle*, that the said *Louis Michel Viger* will avail himself of all lawful means to annul the said Return, and to obtain justice for himself, and for the Electors of the said County.

Of all which *Acte* has been required and granted at *Montreal*, on the day and in the year aforesaid; and we have left with the said *Augustus DeLisle* an authentic copy of this protest, speaking to himself as aforesaid, to the end that he may not plead ignorance thereof, the said protesting parties having previously signed

To the Honourable the Legislative Assembly
of the Province of Canada.

The petition of the undersigned Electors of
the County of *Chambly*, in the said Province,
Respectfully showeth :

That on Monday the twenty-second day of
March last, at *St. Johns*, in the County of
Chambly, an Election took place for the pur-
pose of electing a Member to represent the
said County in the Legislative Assembly of the
said Province.

That *Louis Michel Viger*, of the City of
Montreal, Esquire, was one of the Candidates,
and *John Yule*, of the Parish of *Chambly*,
Esquire, was the other, and *Augustus DeLisle*,
of the Parish of *Boucherville*, Esquire, fulfilled
the duties of Returning Officer.

That the above mentioned Election was
opened at *St. Johns*, which place had been
appointed for the holding of the Poll, but
which, far from being a central one, is situated
at one of the extremities of the County, the
selecting of which could be attended with no
other result but that of subjecting the majority
of the Electors of the County to the most
serious inconveniences.

That on the first day of the said Election,
when the said Returning Officer requested
the Electors then present to name the person
whom they were then willing to select as a
Member to serve in the said Assembly, the
great majority of the said Electors declared
themselves, on a show of hands, in favour of
the said *Louis Michel Viger*, upon which a
Poll was asked for by the partisans of the
said *John Yule*, and was granted by the Re-
turning Officer, who began to take in and
register the votes of the Electors.

That on the very first day the said *Louis
Michel Viger* had already a majority of fifty-
five votes above his antagonist, when the Re-
turning Officer was compelled to adjourn the

Poll, in consequence of the violence and the
outrages that were committed by the said
John Yule's partisans, who being in a state of
inebriation began to assail the partisans of the
said *Louis Michel Viger*, at a time when they
were engaged in peaceably giving their suffra-
ges in favour of the said *Louis Michel Viger*.

That the partisans of the said *John Yule*
were armed with clubs and other offensive
weapons, which they used to ill-treat the par-
tisans of the other Candidate, and committed
such violence that the Returning Officer was
obliged to stop the Poll, and acknowledged the
necessity of adopting efficient measures, such
as having at his disposal a sufficient force to
enable him to continue the said Election and
protect the lives of Her Majesty's Subjects,
endangered in consequence of the acts of
violence and outrages that were committed by
the said *John Yule's* partisans; that the said
Returning Officer even repeatedly promised
to the Electors, that on the day following he
would have a sufficient force at his disposal to
maintain order.

That on the next day the said Returning
Officer not having procured, or being unable
to procure, the support and assistance of which
he himself had acknowledged the necessity,
to protect the Electors of the said *Louis Michel
Viger*, the said *John Yule's* partisans, with a
view to prevent all the Electors in favour of
the said *Louis Michel Viger* from having access
to the Poll and there inscribe their votes, did
obstruct, or cause to be obstructed by means
of bullies, armed with sticks and other
offensive weapons, all the public roads that
lead from the different parts of the County of
Chambly to the place of the Poll, and thus
forcibly and with violence keep away from the
place of the Poll the partisans of the said *Louis
Michel Viger*.

That on the twenty-third day of March last,
being the second day of the Election, in con-
sequence of the unlawful and violent practices
on the part of the said *John Yule's* partisans,
the latter became absolute masters of the Poll,
and they alone were enabled to give in their
votes, by which means a slight majority of the
votes was on that day secured to the said
John Yule.

That on this same day, it was but with diffi-
culty that a few of the Electors of the said
Louis Michel Viger could succeed in reaching
the place of the Poll, and then they were
menaced with violence if they persisted in
their wish to vote for him.

That

That the said *Louis Michel Viger* finding himself deprived of every means of communicating with his Electors, and of demanding the adjournment of the Poll, as he had a right so to do, if he could be assisted but by three of his Electors, the said *John Yule* of this did take advantage and cause a Proclamation for the purpose of bringing the said Election to a close, in order to be proclaimed elected in the event of the said *Louis Michel Viger's* not producing any vote during the space of an hour; a vote which it was impossible for him to produce owing to the distance at which his Electors were forcibly kept away from the place of the Poll, and the threats held out to the very few who could reach it, upon which the Election was declared to be closed, and the said *John Yule* was illegally proclaimed elected.

Your Petitioners do further aver, that even before and during the Election, the said *John Yule* and his partisans opened, and caused to be opened, and did support a great number of houses of public entertainment within the limits of the said County, namely, at *Saint Johns*, aforesaid, where the said Poll was held; that moreover, the said *John Yule*, and his partisans, had recourse to divers means of corruption to procure votes for him.

For these reasons your Petitioners pray your Honourable House to take this, their petition, in your serious consideration, and declare null and illegal the above mentioned Election, as well as the Proclamation made by the said Returning Officer of the person of the said *John Yule*, to represent the said Electors of the County of *Chambly*, in the Legislative Assembly of the Province of *Canada*.

And your Petitioners pray your Honourable House to be pleased to adopt such measures as in your wisdom you may think proper, so as to prevent a recurrence of similar acts of violence, and enable your Petitioners to exercise their elective franchise, without being exposed to become the victims of outrages of such a nature as those which they complain of in this their present petition.

Your Petitioners further earnestly represent to your Honourable House, the necessity of immediately making an inquiry with regard to the acts of violence and disgraceful scenes that have occurred at several of the Elections of the District of *Montreal*, to the end that your Honourable House may be enabled to

adopt such measures as may become necessary in consequence of the said inquiry.

And your Petitioners will ever pray.

The petition of the undersigned Electors of the County of *Vaudreuil*, in that part of the Province of *Canada* heretofore called Province of *Lower Canada*,

Respectfully sheweth :

That an Election was held on Monday the eighth day of March last past, at the Village of *Cedar*, in the said County, by *Michel Lefebvre*, Esquire, Returning Officer, for the purpose of choosing a Member to represent the County in the Assembly of the Province.

The Candidates were *John Simpson* and *André Jobin*, Esquires, the latter having been declared returned by show of hands in his favour, a Poll was demanded by the supporters of *J. Simpson*, which was opened by the Returning Officer, who continued to receive the votes of the Electors till four o'clock, and then adjourned to the day after, the ninth of March, on which day the Returning Officer continued to record the votes till about half past two o'clock without interruption, at which period the majority in favour of *André Jobin* was about sixty votes ahead, and was rapidly increasing, when a most brutal attack was made upon *A. Jobin's* supporters by a number of hired bullies, and other persons in the interest of *J. Simpson*, which resulted in grievous bodily injury to many of *A. Jobin's* supporters, who were all driven from the Poll, and prevented to return to it by a large mob of bullies and ruffians, armed with sticks, axes and other weapons, and headed by one *Roebuck*, the stepson of the said *J. Simpson*, and from thence the supporters of *A. Jobin* were entirely prevented to approach the Poll; notwithstanding these occurrences, and the protest of *A. Jobin*, the Returning Officer considered it his duty to return said *J. Simpson* as duly elected.

Your Petitioners therefore pray, that in consequence of the violence used by said *J. Simpson* and his supporters, with his knowledge and consent, to prevent the Electors

Jobin*, who at the time the riot commenced was in the majority, should have been returned, or cause the Election to be cancelled, and afford an opportunity to the Electors of the County freely to elect the person of their choice; in the latter case, your Petitioners pray, that your Honourable House would adopt such measures as to your wisdom may seem meet, to prevent the recurrence of similar scenes; otherwise, they must cease to exercise the elective franchise, or go armed to resist with effect any attempt that may be made to interfere with them in the exercise of their constitutional rights.

Your Petitioners would further earnestly and solemnly impress upon your Honourable House, an immediate investigation into the disgraceful occurrences that have taken place at several of the Elections in the District of *Montreal*, in order to bring to condign punishment the conspirators who have dared, by means of hired bands of armed ruffians, to assault and murder the Electors, and impose upon them as their Representatives persons in whom they put no confidence.

To the Honourable the Legislative Assembly of
the Province of Canada.

MAY IT PLEASE YOUR HONOURABLE HOUSE:

The petition of *André Jobin*, one of the Candidates at the late Election of the County of *Vaudreuil*, in that part of the Province heretofore called Province of *Lower Canada*,

Respectfully sheweth:

That an Election was held on Monday the eighth day of March last, at the Village of *Les Cedres*, in the said County, by *Michel Lefebvre*, Esquire, Returning Officer, for the purpose of choosing a Member to represent the County in the Assembly of this Province.

The Candidates were *John Simpson*, Esquire, and your Petitioner. The latter having been declared returned by show of hands in his favour, a Poll was demanded by the supporters of *John Simpson*, which was opened by the Returning Officer, who continued to receive the votes of the Electors till four o'clock on

that day, and adjourned to the day after; on which day the votes of the Electors continued to be taken until about half past two o'clock, without interruption, at which period the majority in favour of your Petitioner was about sixty, and was rapidly increasing, when a most brutal attack was made upon your Petitioner's supporters, by a number of hired bullies, and other persons in the interest of *John Simpson*, which resulted in grievous bodily injury to many of your Petitioner's supporters, who were immediately driven from the Poll, and prevented to return to it by a large mob of bullies and ruffians, armed with sticks, and headed by one *Roebuck*, the step-son of said *J. Simpson*, who prevented the supporters and voters of your Petitioner to approach the Poll.

Notwithstanding these occurrences, and the Protest of your Petitioner, the Returning Officer considered it his duty to return the said *J. Simpson* as duly elected.

Your Petitioner therefore prays, that in consequence of the violence used by said *J. Simpson*, and his supporters, to prevent the Electors from peaceably recording their votes, your Honourable House will declare null and void, as well the Election of the said *J. Simpson*, as the Proclamation of the Returning Officer declaring him duly elected as a Member to represent the County of *Vaudreuil* in the House of Assembly of this Province; and that your Honourable House will declare your Petitioner duly elected, or will cause a new Election to be made.

To the Honourable the Knights, Citizens and Burgesses, of the Province of Canada, in Parliament assembled:

The humble petition of the undersigned, Electors of the County of *Beauharnois*, in the Province of *Canada*,

Humbly exposeth to your Honourable House:

That an Election of a Knight to serve in the present Parliament for the County of *Beauharnois*, took place in the course of March last, according to Her Majesty's Writ, duly issued to that effect; and that the holding of the said Election, and the opening of

APPENDIX
No. 19.Report of the

of the Assembly,

bill.

of the Poll thereat, were held at *Ormstown*, in the said County of *Beauharnois*, on the eighth day of said March last, the said Election to be thence continued according to Law.

That *Jacob DeWitt*, Esquire, who had represented the said County of *Beauharnois* for many years in the late Assembly of *Lower Canada*, was invited by a large majority of the Freeholders, qualified to vote at the said Election, to become a Candidate for the high trust of representing the said County in the present Parliament; and the said *Jacob DeWitt*, Esquire, accordingly became a Candidate, and was present as such at the opening of the Poll, as aforesaid, and being duly qualified to be elected, was present at the said Election, to receive the votes of the Freeholders, as aforesaid. That *J. W. Dunscombe*, the other Candidate, had no interest in our County, and is an entire stranger to your Petitioners.

That, however, the Writ of Her Majesty, and the principles of the British Constitution, which ought of right and justice be attended to, were totally disregarded and violated at the said pretended Election, as well on the part of the Returning Officer, *William Bowron*, Esquire, as on the part of a great number of riotous and armed individuals, the larger part of whom were strangers to the said County of *Beauharnois*, or had no vote therein, who, together with some few Electors of the other Candidate, *J. W. Dunscombe*, Esquire, who were also armed and riotously arraigned against the faithful execution of Her Majesty's said Writ, prevent, with open and constant violence, and with force and arms, and also with bribery and corruption, the free and inoffensive Electors of the said County from giving their votes at the said Election in favour of the said *Jacob DeWitt*, Esquire.

That the said *William Bowron*, Esquire, acted at the said Election with partiality and corrupt motives, and was actively and illegally employing himself during all the time of, and long before the said Election, as an active partisan of the said *J. W. Dunscombe*, and violently opposed to the said *DeWitt*, and the known determination of a great majority of the Electors of the said County of *Beauharnois*; and that the said *William Bowron* being otherwise unacquainted with the language of a large portion of the said Electors, and unable to conduct the Election on that account.

That the said *William Bowron*, previously to his being appointed Returning Officer, as aforesaid, went round the said County at dif-

ferent times, and was engaged in an extensive correspondence to solicit the Electors to support the said *J. W. Dunscombe*, and oppose the said *DeWitt*; and that the said *William Bowron* was even sent to *Montreal*, with another individual, on the part of the partisans of the said *J. W. Dunscombe*, to invite him to present himself as a Candidate at the said Election.

That having been in the mean time appointed Returning Officer, the said *William Bowron* did not abandon his canvassing in favour of the said *Dunscombe*, but continued in the same course; and being a party in the violence which was then before-hand prepared, and being one of those who were guilty of the said violence, had unlawfully arranged all matters to proclaim the said *J. W. Dunscombe* as being duly elected, notwithstanding the well known determination of the Electors; and went even so far as to advise the keeper of an hotel in the vicinity of the Poll, before the Election, not to make any great preparations for the reception of voters, as the Election, under any circumstances, was not to last more than two days.

That the said County contains over seven hundred square miles, thickly inhabited; and that at the last General Election the polling lasted nearly three weeks, the said *William Bowron* being there all the time a Candidate.

That from the number of individuals preventing the Electors from coming near the Poll and giving their votes to the said *DeWitt*, and keeping back the Electors at a distance with all sorts of menaces and ill-treatment, the said Election was by no means free, but that the danger for the life and security of voters was such, that the said *J. W. Dunscombe* was returned as a Member with an apparent majority of about one hundred and fifty votes, while the said County contained nearly four thousand voters, three-fourths of whom were at a distance, and on their way to come and vote in favour of the said *DeWitt*, and actually coming to the said Poll for the purpose of voting, but were prevented by an armed force, and all sorts of violence, and turned back by armed men bearing the uniform of Volunteers then in Her Majesty's service, and armed as such, and countenanced as well by their commanding Officers as by the said *William Bowron* and the said *J. W. Dunscombe*.

That the said military force, and other organized partisans from without the County, or having no votes therein, prevented the said *DeWitt*

De Witt from being duly elected, as he ought to have been, and illegally, violently and corruptly, secured the return in favour of the said *J. W. Dunscombe* as Member for the said County.

That previous to, and during the said pretended Election, large sums of money were expended by persons unknown to your Petitioners, to defeat the liberty of the Election, to pay and feed the armed force and other riotous people mentioned above; and that a large mill, and the Miller's dwelling house, situate near the Poll, were converted into a tavern, to distribute intoxicating liquors to such as would declare themselves partisans of the said *J. W. Dunscombe*; and that a tavern bar was specially erected for that purpose before the Election in the above mentioned mill, and that the same was kept open during the Election, and for some time after closing thereof.

That deadly weapons, clubs and other offensive arms, were used at the said Election by the military force, and other armed partisans aforesaid, to prevent the said Electors from voting in favour of your Petitioner's Candidate; and that the said voters were kept and forcibly turned back, their carriages and sleighs being turned out of the road, some being even constrained, through fear, to come and vote against their opinion for the said *J. W. Dunscombe*; and that several Electors favourable to the other Candidate, *Jacob De Witt*, while repairing to the Poll were beaten to death, and also several others grievously wounded, by the partisans of the said *J. W. Dunscombe*; while your Petitioners, and the other supporters of *Jacob De Witt*, behaved all the time in the most quiet and peaceable manner, and were obedient to the Law, and to the true intent of Her Majesty's said Writ.

That threats of violence to intimidate the Electors favourable to the said *Jacob De Witt*, had also been used long before the Election all over the said County, by the said partisans, and even by persons holding the Commission of Magistrates, some of whom menaced to kill the inhabitants if they came to vote.

That on the second day of the said pretended Election, a riot was excited near the Poll, by a violent assault upon your Petitioners, by the partisans of the aforesaid *J. W. Dunscombe*; and thereupon the said *William Bowron* publicly and loudly gave notice, that he did adjourn the Poll for the space of one full hour; and thereupon the voters and supporters of the

said *Jacob De Witt* dispersed, to come again within the limited time; but that, as soon as they were at a distance, five minutes not having yet elapsed, the said Returning Officer began again to take votes in favour of the said *J. W. Dunscombe*, whose partisans had knowingly kept their ground, upon an understanding of what was to happen; and that since that time, your Petitioners, and other supporters of the said *Jacob De Witt*, never having been able to obtain access to the Poll, the said *J. W. Dunscombe* was illegally, unlawfully and fraudulently, proclaimed the elected Member of the said County, against the rights and liberties of your Petitioners, and the Law of the land.

That in law and in fact the other Candidate, the said *Jacob De Witt*, was duly elected at the said Election for the said County, and the insertion in the Return of the said *William Bowron* of the name of the said *J. W. Dunscombe*, was illegal, fraudulent, corrupt and an act of open violence, against the constitutional rights of the Electors of the said County, as well as destructive of the rights of the whole people.

Whereupon, your Petitioners humbly pray, that your Honourable House will diligently inquire into the facts set forth in their present petition, and thereupon order, that the pretended Election of the said *J. W. Dunscombe* be declared null and void, and that the name of the said *Jacob De Witt*, the duly elected Member for the said County, be inserted in the said Return of the said *William Bowron*, instead of that of the said *J. W. Dunscombe*, and that the said *Jacob De Witt* be admitted to take his seat accordingly; and that your Honourable House will further ordain or decree in the matter, as in law and justice may appertain.

And your Petitioners pray, that your Honourable House will adopt such measures as in your wisdom may seem meet, to prevent the recurrence of similar scenes; otherwise they must either cease to exercise their elective franchise, or go armed to resist with effect any attempt that may be made to interfere with them in the exercise of their constitutional rights.

Your Petitioners would further earnestly and solemnly impress upon your Honourable House, the necessity of an immediate investigation into the disgraceful occurrences which have taken place at several of the Elections in the District of *Montreal*, in order to bring to

to condign punishment the conspirators who have dared, by the means of hired bands of armed ruffians, to murder and maltreat the Electors, and impose upon them as their Representatives persons unknown to them, and in whom they have no confidence.

To the Honourable the Knights, Citizens and Burgesses, of the Province of Canada, in Parliament assembled:

The humble petition of *Jacob DeWitt*, of the City of *Montreal*, Esquire,

Humblly exposeth to your Honourable House:

That an Election of a Knight to serve in the present Parliament for the County of *Beauharnois*, took place in the course of March last, according to Her Majesty's Writ, duly issued to that effect; and that the holding of the said Election, and the opening of the Poll thereat, were held at *Ormstown*, in the said County of *Beauharnois*, on the eighth

day of said March last, the said Election to be thence continued according to Law.

That your Petitioner, who had represented the said County of *Beauharnois* for many years in the late Assembly of *Lower Canada*, was invited by a large majority of the Freeholders, qualified to vote at the said Election, to become a Candidate for the high trust of representing the said County in the present Parliament; and accordingly became a Candidate, and was present as such at the opening of the Poll, as aforesaid, and being duly qualified to be elected, was present at the said Election, to receive the votes of the Freeholders, as aforesaid.

That, however, the Writ of Her Majesty, and the principles of the British Constitution, which ought of right and justice to be attended to, were totally disregarded and violated at the said pretended Election, as well on the part of the Returning Officer, *William Bowron*, Esquire, as on the part of a great number of riotous and armed individuals, the largest part of whom were strangers to the said County of *Beauharnois*, or had no vote therein, who, together with some few Electors of the other Candidate, *J. That the said *William Bowron*, acted at the said Election with partiality and corrupt motives, and was actively and illegally employing himself during all the time of, and long before the said Election, as an active partisan of the said *J. W. Dunscombe*, and violently opposed to your Petitioner, and the known determination of a great majority of the Electors supporting your Petitioner; and that the said *William Bowron* being otherwise unacquainted with the language of a large portion of the said Electors, and unable to conduct the Election properly on that account, was in fact an active and violent partisan of the said *J. W. Dunscombe*.

That the said *William Bowron*, previously to his being appointed Returning Officer, as aforesaid, went round the said County at different times, and was engaged in an extensive correspondence to solicit the Electors to support

port the said *J. W. Dunscombe*, and oppose your Petitioner; and that the said *William Bowron* was even sent to *Montreal*, with another individual, on the part of the partisans of the said *J. W. Dunscombe*, to invite him to present himself at the said Election.

That having been in the mean time appointed Returning Officer, the said *William Bowron* did not abandon his canvassing in favour of your Petitioner's opponent, but continued in the same course; and being a party in the violence which was then before-hand prepared, and being one of those who were guilty of the said violence, had unlawfully arranged all matters to proclaim the said *J. W. Dunscombe* as being duly elected, notwithstanding the well known determination of the Electors; and went even so far as to advise the keeper of an hotel in the vicinity of the Poll, before the Election, not to make any great preparations for the reception of voters, as the Election, under any circumstances, was not to last more than two days.

That the said County contains over seven hundred square miles, thickly inhabited; and that at the last General Election the polling lasted nearly three weeks, the said *William Bowron* being there all the time a Candidate.

That from the large number of armed individuals preventing the Electors from coming near the Poll and giving their votes to your Petitioner, and keeping back the Electors at a distance with all sorts of menaces and ill-treatment, the said Election was by no means free, but that the danger for the life and security of voters was such, that the said *J. W. Dunscombe* was returned as a Member with an apparent majority of about one hundred and fifty votes, while the said County contained nearly four thousand voters, three-fourths of whom were at a distance, and on their way to come and vote in favour of your Petitioner, and actually coming to the said Poll for the purpose of voting, but were prevented with an armed force, and all sorts of violence, and turned back by armed men bearing the uniform of Volunteers then in Her Majesty's service, and armed as such, and countenanced as well by their commanding Officers as by the said *William Bowron* and the said *J. W. Dunscombe*.

That the said military force, and other organized partisans from without the County, or having no votes therein, prevented your Petitioner from being duly elected, as he ought to have been, and illegally, violently and cor-

ruptly, secured in favour of the said *J. W. Dunscombe*, a false and unjust return as Member for the said County.

That previous to, and during the said pretended Election, large sums of money were expended by persons unknown to your Petitioner, to defeat the liberty of the Election, to pay and feed the armed force and other riotous people mentioned above; and that a large mill, and the Miller's dwelling house, were converted into a tavern, to distribute intoxicating liquor to such as would declare themselves partisans of the said *J. W. Dunscombe*; and that a tavern bar was specially erected for that purpose before the Election in the above mentioned mill, and that the same was kept open during the Election, and for some time after closing thereof.

That deadly weapons, clubs and other offensive arms, were used at the said Election by the military force, and other armed partisans aforesaid, to prevent the Electors from voting in favour of your Petitioner, whose voters were kept and forcibly turned back by force, their carriages and sleighs being turned out of the road, and some being even constrained to come and vote against their opinion for the said *J. W. Dunscombe*; and several Electors favourable to your Petitioner, when repairing to the Poll, were beaten to death, and also several others grievously wounded, by the partisans of the said *J. W. Dunscombe*; while none of the partisans of the latter were in any way injured, but while the voters of your Petitioner behaved all the time in the most peaceable and quiet manner, and were obedient to the Law, and to the true intent of Her Majesty's said Writ.

That threats of violence to intimidate Electors favourable to your Petitioner had also been used a long time before the Election all over the said County, by the said partisans, and even by persons holding the Commission of Magistrates, some of whom even menaced to kill the inhabitants if they came to vote.

That on the second day of the said pretended Election, a riot was excited near the Poll, by a violent assault on the part of the aforesaid partisans of the said *J. W. Dunscombe*; and that thereupon the said *William Bowron* publicly and loudly gave notice, that he did adjourn the Poll for one full hour; and that thereupon the voters of your Petitioner dispersed, to come again within the limited time; but that, as soon as they were at a distance,

few minutes not having yet elapsed, the said Returning Officer began again to take votes in favour of *J. W. Dunscombe*, whose partisans had knowingly kept their ground, upon an understanding of what was to happen; and that since that time, your Petitioner's voters never having been able to obtain access to the Poll, your Petitioner thought it his duty to resign under Protest, and appeal to Your Honourable House.

That in law and in fact your Petitioner was duly elected at the said Election to serve for the said County, and that the insertion in the Return of *William Bowron* of the name of the said *J. W. Dunscombe*, was illegal, fraudulent, corrupt, and an act of open violence, against the rights and liberties of the Electors of the said County.

Whereupon, your Petitioner humbly prays, that your Honourable House will diligently inquire into the facts set forth in the present petition, and thereupon order, that the pretended Election of the said *J. W. Dunscombe* be declared null and void, and that your Petitioner's name be inserted in the said Return instead of that of the said *J. W. Dunscombe*, and your Petitioner admitted to take his seat accordingly; and that your Honourable House will further ordain and decree in the matter, as in law and justice may appertain.

And your Petitioner will ever pray.

APPENDIX
No. 20.Report of the
Commissioner
of the Provincial
Steam Dredging
Machine.

To His Excellency the Right Honourable,
CHARLES, BARON SYDENHAM, Governor-General of British North America, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY:

The Commissioner of the Provincial Steam Dredge, in conformity to the requirements of the Statute of *Upper Canada*, 5th *William IV.* Chap. 30, and the 6th *William IV.* Chap. 46, would most respectfully Report:

That in complying with the instructions of the House of Assembly, in the Report of a Select Committee, as adopted by the House at the last Session of the Parliament of *Upper Canada*, it is recommended that the *Port Hope Harbour Company* advance the sum necessary to raise the Dredge from the water, and to cover the necessary repairs. The Commissioner was informed by that Company, that unless they were relieved, till the dredging out of their Harbour, from the payment of interest then due to the Government on a public loan, they would not be able to advance the necessary sum for the raising and repairing of the Dredge. The Commissioner, anxious for its safety, lost no time in reporting the case to the Government; and annexed, No. 1, is a copy of this notice, and the reply thereto, copies of which were sent to *John Brown, Esquire*, in

behalf of the *Port Hope Harbour Company*, to which the Company acceded.

The lateness of the season before the Executive decided on the application, and the loss of time before the Dredge could be raised from under the water and efficiently repaired, is the reason why no dredging has been done since he last reported; thereby, the services of the Machine have been lost to the Province for last season, and up to the present time. Upon raising the machine, it was found that several perforations had been made in the frame work below water line, which caused her to sink.

The Commissioner still remains in ignorance by whom so mischievous an act was done. He is anxious to be relieved; the duty he finds, however attentive and prudent in watching over his trust for the interest of the Province, cannot be rendered advantageously by him. He begs to suggest that the debt should immediately be paid, and the Dredge put under the charge of the President of the Board of Works.

The Machine is invaluable for clearing and deepening the Harbours on *Lake Ontario*, provided a prudent and intelligent master could be had to put in charge and direct her operations. And with a view that the Legislature will act upon the suggestion of paying

the debt, and relieving the Commissioner from further responsibility, he hereunto annexes a statement of the whole debt incurred in the raising and repairing, together with the amount due, as per returns to the last Session of the Legislature; and also a statement of work done, and on which no settlement in point of payment has been made, (No. 2.)

Under the Act the Commissioner is not invested with power to enforce payment. This is another reason whereby he is induced to point out the necessity of a speedy remedy by a Legislative enactment, besides that of putting the machine under the direction and charge of the President of the Board of Works.

All of which is most respectfully submitted.

(Signed) DAVID THORBURN,
Commissioner.

Kingston, 13th July, 1841.

1.

The Commissioner of the Provincial Steam Dredge having this day received from Mr. Brown, of *Port Hope*, a copy of Minute in Council of the 28th May, (instant,) on the subject of his application to His Excellency the Lieutenant-Governor of the 26th instant, relative to raising and repairing of the Provincial Steam Dredge, and dredging of the *Port Hope* Harbour, the Commissioner is happy to observe that the Council is of opinion, that the claim for interest may be beneficially postponed until the disbursement shall be met. However, he finds that the Council are desirous to be informed what the amount of the disbursement will be, as the Council were unable to gather information on that point from the documents submitted, that the Commissioner be therefore requested to estimate the expense of raising, repairing and employing, the Machine at the *Port Hope* Harbour.

In obedience to the request of the Council, the Commissioner would beg leave most respectfully to remark, for the information of His Excellency the Lieutenant-Governor in Council, that the Act authorising the building of the Steam Dredge, and taking charge of the same, requires the Commissioner to make annual Reports, through the Lieutenant-Governor, for the information of the Legislature. See 5 *William IV.* Chap. 30, and last Clause. Consequently, in obedience with this authority, the Commissioner has invariably complied with the requirements.

APPENDIX
No. 20.Report of the
Commissioner
of the Provincial
Steam Dredging
Machine.

His Excellency and Council will here observe, that there is no data laid down in the Act for the guidance of the Commissioner in making a charge for the services of the Machine; neither is there any funds directly provided for the working and keeping the Dredge in working order; consequently, the Commissioner is left to act either under the authority of the House of Assembly, or from his own judgment, until otherwise directed or ordered from proper quarters. Such being the difficult, arduous, and responsible position of the Commissioner, it becomes his imperative duty in his annual Reports, to lay before the Legislature a full and particular account, not only of the places where the Machine has been at work, but also the sums of money paid out, or to be paid out, for keeping the Dredge at work; and on this point depends the amount of charge against any particular work. The Council will therefore observe, from the attested copy of an adopted Report of a Select Committee by the House of Assembly of last Session, that the Commissioner is instructed to make a charge from the *Port Hope* Harbour Company, when the dredging of that Harbour is done, so as to cover all charges in raising, repairing, and all necessary disbursements that have or may accrue connected with the dredging of that Harbour; and as the disbursements for wear and repairs cannot be ascertained till the work is completed, as from the nature of the work some places in that Harbour being more severe on the Machine than in others, the House of Assembly have with this Harbour, as invariably with others, directed that the charge be in accordance with the outlay incurred in keeping the Machine in working order.

The Committee would further observe, for the information of the Council, that the *Port Hope* Harbour Company is in possession of a copy of the Report of the House of Assembly of last Session. That Company are therefore fully apprised how the charge will be regulated by the Commissioner. The Council will likewise find in the Report of the House, accompanying his letter to Mr. Secretary *Harrison*, that the sum required for the raising and putting the Dredge in working order is estimated at £250, besides a debt incurred for that work of £76. 16s. 5d. for a chain, due the *Niagara* Harbour and Dock Company. These two items are at once imperative before dredging can be commenced. The Report also sets forth, that the *Port Hope* Harbour will

will require the use of the Dredge for the period of six or eight weeks at least. The Commissioner would therefore, in compliance with the request of the Council, lay before His Excellency and Council an estimated expense, predicated on the aforementioned adopted Report of the House of Assembly, relative to and completing the dredging of the *Port Hope* Harbour.

1st. Estimated amount for raising and repairing the Dredge	£250	0	0
2nd. Debt due for a chain to the <i>Niagara</i> Harbour and Dock Company, and payment demanded	76	16	5
3rd. Wages for the Captain, Engineer and Firemen, say for sixty days, at 30s. per day	90	0	0
4th. Materials and repairs to the Dredge for sixty days, say average 50s. per day	150	0	0
5th. Firewood, say three cords per day, at 10s. per cord	90	0	0
6th. The number of labourers with the scows in carrying away and depositing the dirt, will average not less than 30s. say at 4s. 4½d. Currency, per day, for 60 days	393	15	0
	£1050	11	5

His Excellency and Council will thus observe, that in the opinion of the Commissioner it will require the *Port Hope* Harbour Company to lay out a larger sum to complete the dredging of the Harbour of that Company than the amount that Harbour Company owes the Government for interest due on the public loan. If His Excellency and Council can devise any other way, so as to enable the Commissioner to raise and repair the Dredge, other than the plan the Commissioner has ventured to suggest, for the approval of His Excellency and Council, he will be most happy to yield an implicit obedience to their views. The anxiety of the Commissioner faithfully to discharge his trust, is the only apology he can offer for his having ventured to suggest to His Excellency the Lieutenant-Governor, for having brought the subject matter under His Excellency and Council's deliberation; whether it would not be more for the public interest, under the peculiar situation of the *Port Hope* Harbour Company, as set forth to the Commissioner by *John Brown*, Esquire, in behalf of that Company, to forego for the present their

paying the interest the Company is owing to the public on account of a loan of money from the Government, and allow the Company to lay out the means at their command for the raising and repairing the Dredge, and dredging of their Harbour.

The Commissioner will wait with anxiety for a favourable decision of His Excellency and Council upon the matter now under their consideration, and would only remark, that the Council do not delay in deliberating on the same, as the vessel lays in peril, and the weather is favourable for the operation of dredging.

All which is respectfully submitted by,
DAVID THORBURN,
Com. of the Prov. Steam Dredge.

Queenston, 1st June, 1840.

DEAR SIR :

Mr. *Brown* sent me a copy of the Minute of Council relative to the application I made to His Excellency the Lieutenant-Governor about the dredging of *Port Hope* Harbour, from which Minute I find the Council desire further information on the subject; and that no time might be lost, I at once acted upon Mr. *Brown's* copy, and now send herewith an answer, embracing the whole position I am placed in, and an estimate of what the dredging of *Port Hope* Harbour will cost. There is no doubt of the sum for dredging it to be somewhere about the estimate I have made. As you are aware of the necessity of an early decision of the Council about it, you will, I trust, see that the documents herewith be brought before the Council at the first sitting of the same.

I have the honour to be,
Dear Sir,
Your obedient servant,
(Signed) **DAVID THORBURN.**

Queenston, 13th July, 1840.

MY DEAR SIR :

My letter to you last week from *Toronto*, would lead you to look for some action by the Executive Council on the matters referred by us respecting the interest due from the *Port Hope* Harbour Company, and the application of such funds to be applied to the dredging of the

the Harbour of that Company. I pressed the subject on the Council for immediate action, and I have this day received the result of the deliberation of the Council, which I hope will be found satisfactory, a copy of which I hereunto subjoin.

"In Council, 9th July, 1840.

"Recommended that the claim for interest due from the *Port Hope* Harbour Company be forborne, until the expenses proposed by the Commissioner of the Dredging Machine shall be discharged, and that the interest due be then paid according to the Order in Council of 28th May last."

(Signed) WM. H. LEE,
Actg. C. E. C.

To DAVID THORBURN, Esquire,
Queenston.

I send you a copy of my letter to the Executive Council on the proposed expenses to dredge the Harbour, from which you will see that the Government will not call for any interest till the Harbour is finished dredging; and my estimation of expenses is nearly correct. The term of your new extension of time by the Act of last Session will run out before you will be called upon to pay up the interest. I now trust you may see your way clear to get the Dredge raised and repaired without delay,

and put to work. Let me hear from you immediately, if you now see your way clear, which I trust you may; and if so, the management of the Dredge is the next matter to be considered; this you may give me your views on also. The letter sent to the Council I showed the copy to Mr. *Hall*, and he viewed the calculations to be judicious, and as near as could be estimated. I do not see that my going to *Port Hope* would, for the present, be of any use, as the nature of the repairs and my views are all with you in reports or letters since the House of Assembly reported last Session on the subject of the Dredge; my only regret is that the Council had not reported so definitely at an earlier day. I spent the greater part of last week at *Toronto* to try for a decision.

You will observe that the Minute of Council is predicated wholly on my letter on the proposed expenses, a copy of which is herewith. I will wait with anxiety for your answer to this letter.

I am,

My dear Sir,

Your very obedient servant,

(Signed) DAVID THORBURN,
Commissioner P. S. Dredge.

APPENDIX
No. 23.Extract from
Despatches re-
specting the
Naturalization of
Aliens.

Return to an Address from the Legislative Council, to His Excellency the Governor-General, dated 18th August, 1841, praying for copies of such parts of any Despatches received by His Excellency from the Colonial Secretary, as may relate to granting a general measure of Naturalization of Aliens in this Province.

NOTE.

No Despatch on this subject has been received by the Governor-General since the Union of *Upper and Lower Canada*, but whilst in *Lower Canada* His Excellency received a Despatch, from the enclosure to which an extract is subjoined, as well as from a Despatch in reply, having reference to conferring privileges prospectively as an inducement to Americans to settle.

(Signed,) T. W. C. MURDOCH.
Kingston, 20th August, 1841.

Extract from a Letter from the Colonial Land and Emigration Commissioners, to the Colonial Department, dated 4th August, 1840, and enclosed in a Despatch from Lord John Russell to the Governor-General, dated 8th September, 1840, No. 221.

"As connected with the subject, we may mention, that a great proportion of these occupants are said to be natives of the *United States*, and consequently incapable of acquiring property in land; but of their superior skill and industry in clearing the ground they occupy, there can be no doubt. In fact, it is not to be supposed that any class of persons coming from an old country can equal their knowledge, courage and endurance, in contending with and overcoming the passive resistance of the wilderness. It seems obviously desirable that so useful a description of settlers should be

Vol. 1

enabled to acquire a title to land themselves. And we therefore hope, that the Legislature in *Canada*, as we believe has been the case in the *Upper Province*, will afford facilities to the naturalization of well-conducted and resident foreigners, who may be desirous of acquiring a recognized property in land.

"We recommend that facilities should be afforded to resident and well-conducted foreigners to acquire a valid title to landed property."

Extract from a Despatch from the Governor-General, to the Right Honourable Lord John Russell, dated Montreal, 12th October, 1840; No. 179.

"The encouragement of settlers from the *United States* by any direct alteration of the existing law, I should deprecate at the present moment.

"Practically there is, I believe, no difficulty in their acquiring land; but I do not think it would be advantageous to confer on them as a right what they now enjoy only on the sufferance of the British Government. With every respect for their energy and intelligence, and fully admitting that as the pioneers of civilization they are superior to every other people, I do not think it would be wise by any general measure to invite their settlement in large numbers in the more populous portions of *Canada*. There is a spirit of propagandism among American citizens which makes it necessary to observe great caution in this matter. At the same time, I think that in individual cases their claims to be admitted to the rights of British Subjects on certain conditions, should be considered in the most liberal spirit; and I am happy to believe that for several years past this spirit has prevailed in both Provinces."

No. 24.Royal Instruc-

the enactment of
laws by the
Parliament of
Canada.

“And for the execution of so much of the powers vested in you by our said Commission, and by virtue of the said Act, passed in the third and fourth years of our reign, as aforesaid, as relates to the declaring that you assent, in our name, to Bills passed by the Legislative Council and House of Assembly, or that you withhold our assent therefrom, or that you reserve such Bills for the signification of our Royal pleasure thereon, it is our will and pleasure that you do carefully observe the following rules, directions and instructions, namely: That each different matter be provided for by a different Law, without including in one and the same Act such things as have no proper relation to each other. That no clause be inserted in any Act or Ordinance which shall be foreign to what the title of it imports, and that no perpetual clause be part of any temporary Law. That no Law or Ordinance whatever be suspended, altered, continued, revived or repealed, in general words, but that the title and date of such Law or Ordinance shall be particularly mentioned in the enacting part.

“And you are expressly enjoined, not to propose or assent to any Act whatever whereby any person may be impeded or hindered from celebrating or attending the worship of Almighty God, in a peaceable and orderly manner, although such worship may not be conducted according to the rites and ceremonies of the Church of *England*.

“And we do further enjoin you, not to propose any Act whereby our prerogative might be diminished, or in any respect infringed, without our special permission previously obtained; and if any Bill having such an effect shall be presented to you for your assent, you shall declare that you reserve it for the signification of our pleasure.

“And we do further direct, that you do not propose or assent to any Act whatever whereby Bills of Credit, or other negociable securities of whatever nature, may be issued in lieu of money, on the credit of the said Province, or whereby any Government paper Currency

may be established therein, or whereby any such Bills, or any other paper Currency, or any coin, save only the legal coin of the realm, may be made or declared to be a legal tender, unless a clause be inserted therein suspending its operation until our pleasure be known, or unless special permission from us in that behalf have been first obtained.

“And it is our further pleasure, that you do not propose or assent to any Act whatever for raising money by the institution of public or private lotteries.

“And it is our further will and pleasure, that you do not propose or assent to any Act whatever for the divorce of persons joined together in holy matrimony.

“And we do further direct, that you do not propose or assent to any Act whatever whereby any grant of money, or land, or other donation or gratuity, may be made by the said Legislative Council and Assembly to you.

“And we do further direct, that you do not propose or assent to any private Act whereby the property of any individual may be affected in which there is not a saving of the rights of Us, our Heirs and Successors, and of all bodies politic and corporate, and of all other persons, excepting those at whose instance, or for whose especial benefit such Act may be passed, and those claiming by, through, from and under them.

“And it is our will and pleasure, that you do not propose or assent to any Act whatever to which our assent has once been refused without express leave for that purpose first obtained from us.

“You are to take care that in all Acts to be passed by you, and the said Legislative Council and Assembly of our said Province, in any case for levying money or imposing fines, forfeitures and penalties, express mention be made that the same are granted to Us, our Heirs and Successors, for the public uses of our said Province, and for the support of the Government thereof, as by the said Act shall be directed.

"You are to reserve for the signification of our pleasure thereon, every Bill which you shall consider to be of an extraordinary or unusual nature, or requiring our especial consideration and decision thereupon, particularly such as may affect the property, credit or dealings, of such of our Subjects as are not usually resident within our said Province; or whereby Duties shall be laid upon shipping of the United Kingdom of *Great Britain* and *Ireland*, or upon the produce and manufactures of *Great Britain* and *Ireland*.

"And whereas, Laws have formerly been enacted in several of our plantations in *America* for so short a time that our Royal assent or refusal thereof could not be had before the time for which such Laws were enacted did expire, you shall not assent in our name to any Law that shall be enacted for a less time

than one year, except in cases of imminent necessity or immediate temporary expediency.

"You shall take care that all Laws assented to by you in our name, or reserved for the signification of our Royal pleasure thereon, shall, when transmitted by you, be fairly abstracted in the margins, and accompanied with observations upon each of them; that is to say, whether the same is introductory to a new Law, declaratory of a former Law, or does repeal a Law then before in being.
