†This item was omitted, in error, in the Estimates of 1876-77.

‡Amount estimated for furnishing and maintenance for Criminal Lunatics to be transferred to Kingston Penitentiary, on proposed transfer of Rockwood Asylum to Ontario.

§This increase is chiefly owing to the increased number of Convicts, the Estimates being based upon a prison population of 90 against 60 as last year.

POSTMASTER GENERAL

FOR THE YEAR ENDING 30TH JUNE, 1876.

*To His Excellency the Right Honorable the Earl of Dufferin, P.C., K.P., K.C.B.,
G. M. J. G. Governor General of Canada.*

MAY IT PLEASE YOUR EXCELLENCY :—

I have the honor to submit to Your Excellency to be laid before Parliament the accompanying Returns as the Report of the Post Office Department of Canada, for the year ended the 30th June, 1876, and in this preliminary statement to make some observations and append some additional information with reference to matters embraced in these Returns and to the general condition of this branch of the public service.

The following tabular statement will show the extent of Mail service in the Dominion, the number of letters, post cards, newspapers, &c., annually passing by post, and other postal statistics of comparative importance:—

INTERNATIONAL POSTAL UNION.

The application made by Canada, with the concurrence of the Imperial Government, for admission to the Postal Union, under the Postal Treaty of Berne of October, 1874, has not yet been successful, owing to objections taken by the French Post Office.

It appears that, under the 17th Article of the Treaty, any member of the Union is enabled to exclude any proposed new member, and France has exercised this power of exclusion against Canada under the following circumstances:—

The Postal Union, as constituted in October, 1874, included Algeria as part of the Postal Administration of France, and some other places in the European seas admitted to bear similar relations to the countries forming the Union, but did not include any colony or possession beyond the European seas.

The Treaty provided that when sea transit of over 300 nautical miles took place, in respect to correspondence exchanged within the Union, the maximum charge, by the country providing such sea transit, should be 6 francs 50 centimes per kilogramme (about 60 cents per lb) for letters and post cards, and 50 centimes per kilogramme (about 4½ cents per lb) for other matter.

It was further stipulated that when countries beyond sea desired to enter the Union, their admission should be subject to ulterior understanding on the subject of the cost of sea conveyance of their correspondence.

In January, 1876, the admission of British India was proposed as well as that of the French colonies and possessions beyond sea generally, and France urged that the sea rate in transit shall, in all cases, be the same as that made applicable to cases within the original limits of the Union, and that the International Postage Rate, with all her possessions beyond sea, should consequently be 2½d per half oz. letter, but to this the British Office dissented, and, in consideration of the great cost of maintaining its postal services, was only willing that the charge for sea transit on the correspondence of the French Colonies beyond sea, should be the same as the reduced rate then proposed for British India, intended to produce a postal rate of 6d per half oz. letter.

The British office objected that it could not make a lower rate to all French colonies without making the same concession to all British possessions, which it was not prepared to do.

The views of the British Office were accepted by the Postal Congress and British India, and the French possessions were admitted to the Union upon those conditions, as to sea transit rate

When the British Post Office, soon afterwards, proposed the admission of Canada to the Union, the French Post Office at once refused its consent, unless the same terms were imposed upon Canada in respect to sea transit, as had just been applied to the French Colonies beyond sea.

This was equivalent to requiring that the general postage rate between Canada and the United Kingdom and the other members of the Union should be sixpence sterling per half ounce, instead of the existing rate of 2½d.

The French Office was reminded that it was expressly stipulated by the Treaty of Berne that admission to the Union was in no case to have the effect of *adding* to any already existing rate of charge, and that what is insisted on could not practically be carried into effect without violating the Treaty; nevertheless, the French Office has refused to recede from the position it had taken in this matter.

It is intended that at the next meeting of the Postal Congress under the Treaty, such an amendment of the Union Treaty shall be submitted as will admit of the reception of a new member by a majority of votes.

Meanwhile, the charges on all postal matter passing between Canada and the United Kingdom have been assimilated to the Union rates, and with the concurrence of the Imperial Post Office, a convention has just been arranged with Germany to take effect from the 1st April next for the exchange of mails between that Empire and Canada under the conditions of the Union, as though Canada had been admitted as a member on the terms proposed; and from that date the postage rates between Canada and Germany will be the same as between Canada and the United Kingdom.

POSTMASTERS' ACCOUNTS AND COMPENSATION.

The accounts to be kept and furnished by Postmasters have been essentially simplified in adapting them to the changes induced by the introduction of the principle of prepayment by postage stamp, and consequent collection of the great bulk of the postal revenue from the sales of postage stamps to stamp-vendors and the general public.

Much difficulty, however, has been experienced since these changes in adjusting the commissions allowed to Postmasters, and the equivalent salaries to the extent of business at their respective offices; for a Postmaster's accounts no longer form a satisfactory basis upon which to compute what the business of his office has been.

The sales of postage stamps by a post office do not necessarily correspond with the amount of such stamps used upon the correspondence posted at it, and may vary very considerably from it; so that a Postmaster's commission [or salary could not fairly be based upon it, for stamps sold at one office might, and certainly would, to more or less extent, be used at other offices, and really represent labor performed there, and not that of the office at which they were sold.

Under similar circumstances the plan of basing postmasters' salaries on the

amounts of postage-stamps sold has been fully tried by the United States Post Office, and it has recently been authoritatively stated, with very unsatisfactory results, chiefly for the reason above noticed.

It is intended by this Department to adopt a special form of return, to be made periodically, or when required, by Postmasters, and verified by declaration, showing what the amount of postage prepaid by stamps at an office within a certain time has been upon an actual account taken; and it is expected that, with the assistance of these returns, a satisfactory basis of salary adjustment can be arrived at.

POST OFFICE INSPECTORS.

The growth of departmental business in the western sections of Ontario compelled a reconstruction of the Divisions assigned to the several Inspectors. A considerable addition was made to the district of the Ottawa Inspector, and three Divisions were formed out of the two large Divisions of Toronto and London.

This change, which took effect in July last, will add much needed strength to the supervision of the postal service in Ontario, and afford increased facilities for dealing promptly with irregularities and applications for change and other improvements in the service.

CITY POST OFFICES.

The new Post Offices under construction at Montreal, St. John, New Brunswick, and Ottawa were completed and occupied by the Post Office during the past year. These are handsome buildings and afford improved accommodation, both for the convenience of the public in the respective cities and for the large postal business centreing at these important points in relation to the Dominion generally.

FREE DELIVERY.

The system of free delivery which was inaugurated at Montreal on the 1st of October, 1874, and subsequently extended to other cities, has proved very successful.

It will be seen by the following statements that, with a very small addition to the force employed, the increase during the past year in the number of letters delivered by carriers was 29 per cent., of papers 44 per cent., and of letters and papers together 32½ per cent.

Free delivery was commenced in London, Ontario, on the 24th April, 1876. Since its establishment there, the number of letters and papers delivered by carriers has more than doubled. As an evidence of the extent to which the system is used for local correspondence, it may be remarked that the average number of "city" letters delivered weekly is 39,531, producing a revenue of over \$20,000 per annum. It is estimated that the average number of city letters delivered weekly previous to the establishment of the free delivery was only about 8,000.

The success of the free delivery system has been greatly facilitated by the

adoption of prepayment on letters. Without this the working of the delivery system would have been attended with difficulties that would have seriously interfered with the public accommodation.

RAILWAY MAIL SERVICE.

There has been an increase in the Railway Mail Service since the date of the last annual report to the extent shown by the following statement :

Increase in 1876	310	8	1,414½	565	1,979½	619,583½

The most noticeable feature in this branch of the service was the opening on the 3rd July of the Intercolonial Railway throughout its entire length, by which the cities of Halifax and St. John were connected with the whole railway system of the Dominion, and direct and rapid communication established between the Maritime and Western Provinces.

Prompt measures were taken by the distribution of the mails in the travelling post offices, attached to the fast express trains, to secure the utmost possible despatch to the letters and papers passing between these Provinces. The acceleration in the transit of mails of course varied with the geographical positions of the several localities affected. Between Halifax and St. John and the Western Provinces the time occupied was reduced by about twelve hours.

 POSTAL REVENUE.

The gross postal revenue for the year ended 30th June, 1876, as shown by the accounts forming part of this Report, was :—

For Ontario.....	\$870,024 51
“ Quebec.....	353,296 13
“ New Brunswick.....	89,967 79
“ Nova Scotia.....	124,908 22
“ Manitoba.....	11,292 34
“ British Columbia.....	15,905 88
“ P. E. Island.....	19,491 40
	\$1,484,886 27

Of this amount \$1,273,434.61 was derived from the sale of postage stamps.

In the year ended 30th June, 1874, the gross revenue was.. \$1,476,207 76

do do 1875, do 1,536,509 50

The effect of the material reductions made at various dates since 1874 in the rates of postage to the United Kingdom and to the United States, and upon newspapers, periodicals, printed and miscellaneous matter, within the Dominion, affected but very partially the year ended 30th June, 1875, but applied more generally to the collections of the year under consideration, and has had the result of reducing the gross revenue of 1876 below the amount of 1875, as shewn above.

It is to be observed, however, that the estimate taken, before the reductions were made, of the amount of postage charge from which the correspondence and transmissions affected would be relieved by the reductions in postage rates adverted to, considerably exceeded the amount of diminution in the Revenue, indicated by the above figures, and that the actual diminution is less than the estimate, may, in some measure, be accounted for by the consideration of the effect which such reductions in charge must naturally have in increasing the transmissions cheapened thereby—a matter very difficult to bring under estimate, and which cannot well be separated in results, from other causes from time to time influencing the flow of business correspondence of the country.

Accordingly, the enumeration returns shew a very marked increase in the comparative number of letters and newspapers sent by post, though as yet this increase may not be sufficient to produce the same amount of postage as was obtained from the higher rates of charge.

NOTES.

A. Service on the Prince Edward Island Railway to the amount of \$5,130.11, appears for the first time in the account of this year.

B. In ordinary land conveyance the increased charge comes chiefly in Ontario and Quebec, Nova Scotia and Manitoba.

The charges under this head fluctuate with the reletting of contracts and alterations in the extent and arrangement of the Post routes.

There is, moreover, a constant tendency to increase under this head of expenditure, due to the gradual rise in the average cost at which this description of mail conveyance can be procured, and it is not too much to say that within the last twenty years this influence has added fifty per cent. to the price which the Department has to pay for any ordinary mail service by horse conveyance.

C. The charges in the Post Office accounts for steamboat mail service have been reduced by other arrangements in almost all the Provinces having service of that description.

D. The increased cost under the head of City Offices is chiefly due to the additional letter-carriers, etc., required for the free delivery system. The cost of this improvement for salaries, was computed in last year's report at \$39,000 per annum, and commencing, as it did, late in that year, at most of the cities, this is the first year's accounts in which a full charge appears for the salaries of the men employed.

Some additions were also made to the interior staff of the city offices during the course of the same year, 1874-75, to meet the public convenience, the cost of which appeared for a portion of that year only, and a larger relative rate of charge on account of these appointments falls upon the accounts of this, the following year.

E. This additional charge for country post offices was caused by the revision and adjustment of salaries and allowances made for this year to the offices where an increase of business appeared to entitle the postmasters to additional compensation under the general scale by which such compensation is regulated.

Country Postmasters in Ontario and Quebec received, more than last year.....	\$9,115 54
Country Postmasters in Nova Scotia.....	2,670 69
Country Postmasters in New Brunswick.....	1,427 15
Total.....	\$13,213 38

F. This increase in charge as compared with 1874-75, arises thus :

Ontario—Clerk appointed to Kingston Division in December, 1874, consequently only half a year's salary charged in that year; difference.....	\$300 00
Charge for Mail Porter at Hamilton Station.....	340 00
Quebec—Only seven months' salary charged for Assistant Inspector last year; difference.....	500 00
New Brunswick—Only seven months' salary charged for Chief Clerk last year; difference.....	600 00
Charge for a man in charge of heating apparatus in new office	260 00
Total.....	\$2,000 00

The remainder of this item was made up of the annual increments of salary for length of service, and other minor variations of the kind.

G. Of this amount, \$1,344.66 was for Clerks in the travelling post office on Prince Edward Island Railway, on which service was first organized this year.

II. The augmented charge under this head was chiefly for larger quantities of postage stamps and post cards than were had last year, for books, forms, hand stamps and other equipments required in the process of converting the Way Offices of the Maritime Provinces into regular Post Offices, and for forms required in re-arrangement of system of accounts, and other changes in connection with general administration.

**MAILS BY THE WEEKLY LINE OF CANADIAN MAIL STEAMERS TO
AND FROM LIVERPOOL VIA LONDONDERRY.**

Commencing from the 17th June last, and continuing until the 22nd October, the mails by these steamers on their St. Lawrence voyages were landed and embarked at Rimouski by a steam tender provided for the purpose.

Rimouski is 191½ miles east of Quebec, by railway, and situated directly on the shore of the River St. Lawrence as well as on the line of the Intercolonial Railway, and the arrangement for landing the inward and embarking the outward mails for Europe at that point instead of at Quebec, gave generally throughout the Dominion, including the Maritime Provinces, and also to the Western States, a considerable acceleration, both inwards and outwards, to the correspondence transmitted by these mails.

During winter the mails by these steamers to and from Canada and the Western States are now landed and embarked at Halifax, instead of, as hitherto, at Portland.

This arrangement commenced with the despatch from Liverpool of the 30th November last, and with the despatch from Montreal of the 1st December.

The advantages of more frequent and direct communication with the United Kingdom have been afforded to the Maritime Provinces by this change, whilst there appears to have been thus far a gain of time in the transport of the mails between the two initial points of Liverpool and Montreal, as compared with the same period of the previous year.

The six mails which left Liverpool between the 30th November last and the 6th January, 1877, were on the average delivered in Montreal *via* Halifax in 22 hours and 26 minutes less time than the six mails which left Liverpool at corresponding dates the previous year and were brought to Montreal *via* Portland.

On the other hand, the four mails which left Montreal between the 1st and 22nd December, 1876, inclusive, were on the average 9 hours and 20 minutes longer in transit to Liverpool *via* Halifax, than the four mails which left Montreal during the corresponding period in 1875 *via* Portland.

REGISTRATION.

As nearly as can be ascertained, 1,774,000 registered letters passed through the mails in Canada in the year under review.

Of this number 54 miscarried from various causes, which may be thus classified :—

- 12 were lost in mail bags stolen whilst under conveyance.
- 9 were in mail packages said not to have reached destination.
- 11 were stolen from the mails in transit, at a railway station, but the evidence, though strong, failed to convict.
- 19 failed to reach address owing to careless treatment by officers of the post office, who had to make good the amounts lost.
- 2 cases are still under investigation.
- 1 case in which the cause of loss could not be traced.

—
54

It will be observed that such protection as may reasonably be had from a system of registration was fully obtained in all but one of these cases; for registration of letters will not serve to prevent the theft of a mail bag or miscarriage of a mail package, nor absolutely prevent a negligent discharge of duty by persons in the employ of the post office, and the most that can be counted on from it is, that it will enable the Department to trace the cause of loss and punish those who may have been guilty of crime or negligence in respect to letters passing under the registration system.

In this way it unquestionably operates as a powerful check on the dangerous influences which would otherwise make the mails a very unsafe vehicle for the valuable transmissions which now pass with comparative security under the protection of registration.

There were besides 62 cases in which, though the registered letters were duly delivered to the persons addressed, there were alleged or proven discrepancies between the amounts stated to have been enclosed and the amounts stated to have been found on receipt.

In 24 of these cases the loss was ascertained to have occurred whilst the letters were in custody of the Post Office, and the amounts missing were made good by the officers, through whose want of care or misconduct the losses occurred; but in the other cases it was either impossible to ascertain how or where the abstractions took place, or they were attributable to the dishonesty of persons under sentence for their crimes, or who had absconded to avoid punishment.

In some cases the alleged discrepancy was probably due to mistakes made by either sender or receiver as to the amount really enclosed or received.

DEAD LETTERS.

The return at page 136 of this report shows that during the year ended 30th June, 1876, 587,376 dead letters were received at the Dead Letter Office of the Dominion, and of this number 515,882 appear to have originated in Canada; 13,339 letters were sent in, on which the direction was too imperfect to admit of ascertaining the destination intended.

The number of Registered Letters which had failed of delivery received at the Dead Letter Office was.....	3,856
---	-------

The number of Dead Letters found to contain value though passing unregistered, was.....	3,876
---	-------

Addresses specially recorded with contents as far as ascertained.	7,732
---	-------

185,032 dead letters originating in Canada were returned from the Dead Letter Office to the writers as compared with 158,728 returned in the previous year.

Every exertion is used to return promptly such letters as are posted wholly unpaid or insufficiently prepaid for destinations requiring full prepayment or prepayment of a single rate as the case may be.

In many of such cases both inconvenience and disappointment may occasionally be felt, and it would no doubt be satisfactory to persons who accidentally or negligently omit to prepay their letters properly if the mistake could be cured by putting an unpaid charge upon such letters, to be collected on delivery, but such a procedure could not be restricted to such exceptional cases, and could not be adopted without practically reverting to the former system of optional prepayment with its attendant disadvantages, not the least of which was that it left it within the power of any person posting a letter, either thoughtlessly or intentionally to impose what virtually operated as a fine upon the receiver of a letter, though he had not been in any way a party to the omission to prepay.

It may be said, too, that the system of prepayment as adopted in Canada has not yet had a sufficient length of trial to thoroughly test its relative advantages.

*The figures in smaller type in these two columns exhibit a further number and amount of Withdrawals, not paid to Depositors in Cash, but paid over to the Receiver General, to be inscribed, on their behalf, in 5 per cent. Dominion Stock.

The fluctuations in the expenses of Management, and in the average cost of each transaction,—where not explained by variations in the amount of business and the number of transactions,—are mainly attributable to payments in one year for services not wholly chargeable to that year.

†Including interest accruing on Depositors' Accounts to 31st December, 1876, estimated at \$63,000, but not yet computed.

MONEY ORDER SYSTEM.

The total amount of Money Orders issued in Canada	
during the year ended 30th June, 1876, was...	\$ 6,866,618 54
And the total amount paid in Canada was.....	6,508,302 60
Post Office Savings Bank deposits received through	
Money Order accounts.....	1,726,204 00
Post Office Savings Bank withdrawals paid to de-	
positors through Money Order accounts.....	1,783,257 97
Total	<u>\$16,884,383 11</u>

The large aggregate amount now annually reached by these transactions, as indicated by the above figures, had made it desirable that the arrangements for conducting and supervising them, should, in their financial aspect, be brought into closer relations with the Department of Finance than had been provided for under the system as originally framed and worked up to the present time. From the 15th January, 1877, therefore, an important change has been introduced to give effect to this object.

All monies received for the issue of Money Orders in Canada, and all deposits received for the Post Office Savings Bank, which had, up to that date, been deposited by the Money Order Postmaster receiving them to the credit of the Postmaster General, are now deposited by the Postmaster directly to the credit of the Receiver General; and all the funds required to be supplied to Postmasters to enable them to pay Money Orders and Post Office Savings Bank withdrawals, will be furnished by the Finance Department and not, as before, by the Postmaster General, under arrangements by the latter with the Bank.

The result of this change of system must naturally be to give the Finance Department immediate knowledge and control of the general course of these transactions in their financial connexion, and in that way to afford facilities for a more direct and thorough supervision by the Finance Department, where it should properly be exercised.

EXCHANGE OF MONEY ORDERS WITH THE UNITED STATES.

The course of this business has been as follows since it commenced on the 1st August, 1875 :—

	Issued.	Paid.
Ontario.....	\$ 98,559 59	\$ 69,392 10
Quebec.....	23,604 45	40,949 03
Nova Scotia.....	42,792 78	27,142 84
New Brunswick.....	23,440 46	14,722 88
Prince Edward Island.....	6,456 42	2,802 77
British Columbia.....	15,873 81	731 77
Manitoba.....	1,408 19	392 87
	<u>\$212,135 70</u>	<u>\$156,134 26</u>

From 1st July to 31st December, 1876:—

Total amount of Money Orders issued by Canada upon United States.....	\$135,284 17
Total amount of ditto issued by United States and paid in Canada.....	\$96,852 77

Were the difficulties removed that are occasioned by the variations in the currencies of the two countries there can be no doubt this business would take much larger proportions.

POST OFFICE SAVINGS BANK.

During the year 1876 twelve new offices were authorized for Savings Bank business and four were closed.

The number of Post Offices open for transaction of Savings Bank business on the 1st January, 1877, was 278.

The number of depositors fell during the year from 24,912 to 24,389, and the deposits decreased by about \$196,600.

Nine per cent. of the deposits and withdrawals in 1876 were made at other offices than those in which the depositors had opened their accounts.

The number of claims on account of deceased depositors was 152 in 1876, and since the system of Post Office Savings Banks commenced there have been 342 cases of this description. In no case has any dispute or question arisen in respect to the action of the Department in the settlement of these claims.

The total cost of management of the Post Office Savings Bank for the last eight years has averaged something less than half of one per cent. on the balances due depositors in each year, and this added to the interest paid the depositor will constitute the charge at which these funds have been held.

		Total.....	\$24,633.43

N. B.—The whole of the Salaries of the Chief Inspector and Staff have been left in Ontario; as it would be extremely difficult to make an exact division of this item, amongst the several Provinces of the Dominion, in the proper proportion; and the amount is too small to affect any general results.

85	William H. Lailey.	Tara.....	do	250 00	Thomas Lailey & Toronto Co.	Toronto.....	Only \$160 stated to have been received	This abstraction was committed by George Noble, at that time Assistant Postmaster of Tara, who restored the stolen money. The circumstances of the case, however, were not such as to enable the Department to institute a criminal prosecution.	5
86	J. S. Jeffrey.....	Berwick.....	do	10 00	F. & H. Browne.....	Wolfville.....	Stated not to have been received by person addressed.	The evidence taken in this case tended strongly to the conclusion that the letter never left the Berwick Post Office, and as the Postmaster acknowledged that he had been in the habit of allowing unauthorized persons access to his inner office, he was required to make good contents, which he did.	3
87	J. W. Hannon.....	Consecon.....	do	9 10 35	Superintendent of Education.	Toronto.....	Only \$5.35 stated to have been received	No evidence to show that this letter was tampered with whilst in charge of Post Office.	6

89	John Sclater.....	Monkton.....	do	11	50 00	J	West Flamboro'.....	Only \$40.00 stated to have been received.	The evidence in this case went to show that the letter received irregular treatment at the Dundas Post Office and the Postmaster was accordingly required to make good the amount said to have been abstracted, which he did.	5
90	John Richardson.....	Luton.....	do	15	38 00	J. G. Hodgins.....	Toronto.....	Only \$28.00 stated to have been received.	No evidence to account for the alleged abstraction.	6
91	M. Murphy.....	Fermoy.....	do	19	9 00	R. P. Street.....	Hamilton.....	Stated not to have been received by person addressed.	Upon enquiry being made into this case it became evident that the letter never left the Fermoy Post Office. The Postmaster of Fermoy sent, in his resignation and absconded. The contents of the letter were made good by one of the Postmaster's sureties. See Case No. 98, Class 1.	3
92	Rev. Mr. Michon.....	St. Joachim de Shefford.	do	26	56 00	R.-v. Mr. Gauthier.	St. Damase.....	Stated not to have been received by person addressed.	The Postmaster of Waterloo East having failed to continue the registration of this letter made good contents.	3
93	James Clarke.....	Crediton.....	do	29	41 00	Thomson, White-head & Co.....	White-Montreal.....	Only \$32.00 stated to have been received.	The evidence in this case pointed strongly to the conclusion that the abstraction occurred at the Crediton Post Office and the Postmaster of Crediton therefore made good the amount.	5

These abstractions are believed to have been committed by S. J. Rankin, a Clerk in the St. John, N. B., Post Office. See Case 4.

No evidence to account for alleged discrepancy. No reason to suppose that letter was tampered with in course of post.

Investigation showed that the letter had, in the first place, been omitted from the Fermoy letter bill for Westport, and the Postmaster's statements respecting it conflicted with ascertained facts in such a way as to afford strong presumption that the letter had been suppressed by him. He was consequently required to make good the amount contained in the letter and to send in his resignation, both of which he did, and subsequently absconded. See Case No. 91, Class 1.

103	Dead Letter Office.	Ottawa	1876. April 29	\$ 30 00 cts.	Postmaster	St. Alexandre, Kamouraska.	Stated by the Postmaster of St. Alexandre, Kamouraska, to have been stolen from his Office.	This was a case of a dead letter, enclosed to the Postmaster for return to the writer. On arrival at the St. Alexandre Post Office it appears to have been stolen therefrom; but, if so, the responsibility rested with the Postmaster, who had allowed an unauthorised person to handle the letters in his Office. He was consequently required to make good the \$30. Still under investigation.	8
