## FINANCE DEPARTMENT,

OTTAWA, 8th January, 1886.

To the Honourable

A. W. McLELAN,

Minister of Finance.

SIR,—I have the honour to present to you herewith the Public Accounts of Canada for the fiscal year ended the 30th June last, together with the usual comparative statements for all previous years since Confederation, and in doing so, as it is my first annual statement since the resignation of your predecessor in office, Hon. Sir Leonard Tilley, I take advantage of the opportunity afforded me to express the sincere regret felt, not only by myself, but by all the officers of the Department, that the state of health of that gentleman became such as to render it imperatively necessary that he should retire from a position which he so long and, to us, so acceptably filled.

During the period covered by the last fiscal year the Dominion converted the Canadian Consolidated 5 per cent. Loan into a 4 per cent. Loan, having 24½ years to run from the first day of July last—the principal and interest thereof being repayable in London on the 1st January, 1910, and the Sinking Fund in connection with the old loan being continued in respect to the converted loan. The charges and other expenses in connection with this conversion will be found detailed in the accompanying accounts, part ii, page 366.

Although not appertaining to the fiscal year 1884-85, covered by these accounts, I think it desirable to call attention to the fact that on the 20th June last tenders were called for in London for a loan of £1,000,000 sterling, bearing interest at 4 per cent., at a price not less than 99 per cent. The tenders were opened on the 29th June and allotments were made at an average price of £101 1s. 8·48d., as shown by the statement annexed of the tenders accepted. I endeavoured to get the full list of all the tenders sent in, but I find, on application to our Financial Agents in England, that all the cheques for the amounts not accepted were at once returned, and that no record was kept with respect thereto, this being the usual practice in such cases. Of my own knowledge, however, I can state that the amount tendered was in the neighbourhood of £12,000,000 sterling. I annex a statement of the out turn of this loan to the present date, as shown by the accounts received. There may be some slight charges still to go in, but the statement given very nearly covers the whole transactions. I may state, before passing from this subject, that this loan has no Sinking Fund.

I have to report that the following sums, amounting in all to the sum of \$13,214,764 96, were paid during the last fiscal year on Capital Account, viz. :—

Intercolonial Railway.....	\$1,195,363 08
Eastern Extension Railway.....	2,055 92
Canadian Pacific do .....	9,900,281 53
Prince Edward Island do .....	76,956 56
Short Line do .....	49,587 45
Lachine Canal.....	111,215 23
Murray do .....	148,902 66
River Tay do .....	92,473 97
St. Peter's do .....	16,820 15
Welland do .....	463,505 38
Ottawa Canals.....	269,939 05
St. Lawrence Canals.....	280,382 19
Trent River Navigation.....	121,382 84
Public Buildings, Ottawa .....	40,217 51
Esquimalt Graving Dock.....	45,562 18
Port Arthur Harbour... ..	92,106 97
Cape Tormentine Harbour.....	4,419 63
Dominion Lands.....	303,592 66
	<u>\$13,214,764 96</u>

There was also paid to the Canadian Pacific Railway, on account of the loan authorized by the Act of 1884, the sum of \$9,701,438.00, and, in addition to this sum, advances to the extent of \$828,131.00 were made, as follows :—

St. John Bridge and Railway Extension Company..	\$135,200 00
Improvement of the St. Lawrence.....	300,000 00
Quebec Harbour.....	282,931 00
Graving Dock, Quebec.....	110,000 00
	<u>\$828,131 00</u>

In addition to the abovementioned sums, the following payments, amounting in all to the sum of \$403,245.00, were made to the under-mentioned Railway Companies on account of subsidies granted to them by the Parliament of Canada, viz. :

Northern and Pacific Junction Railway Company...	\$154,440 00
Quebec and Lake St. John do ..	37,027 00
Pontiac and Pacific Junction do ...	49,090 00
Napanee, Tamworth and Quebec do ...	57,600 00
Kingston and Pembroke do ...	48,000 00
Great Northern do ...	25,088 00
Caraquet do ...	32,000 00
	<u>\$403,245 00</u>

The total of the above-mentioned expenditures on Capital Account, Canadian Pacific Railway, and other investments and subsidies to Railway Companies, is \$24,147,578.96.

In my report, when presenting to your predecessor the Public Accounts for the fiscal year ended the 30th June, 1884, I called his attention, in connection with the payment of these railway subsidies, to the fact that the sums paid on account thereof had been charged direct to Consolidated Fund, and were not included in the current Income and Expenditure Account of the Dominion; and as the subject was mentioned in the Public Accounts Committee last Session, I think it advisable again to call attention to it. Before going any further, it may be as well to mention that the terms "Consolidated Fund" and "Consolidated Revenue Fund" have two distinct meanings in connection with the Public Accounts. The "Consolidated Fund" consists of the ordinary income and expenditure of the Dominion, and is the account to which this income and expenditure are transferred, and is, in fact, the difference between the two sides of the balance sheet. The "Consolidated Revenue Fund," as defined by Section 102 of the British North America Act, and afterwards by Section 1 of the Act of the Parliament of Canada, 31 Victoria, Cap. 32, comprises all duties and revenue over which the Legislatures of the various Provinces had, at the time of the Union, and over which the Parliament of Canada now, has the power of appropriation. These railway subsidies are, by the verbiage of the several Acts granting the same, directed to be charged to the Consolidated Revenue Fund and, in fact, all payments, whether the Pacific Railway loan, the salary of the Governor General, or any payments sanctioned by Parliament, whether ordinary, extraordinary, or on Capital Account, are directed to be dealt with in a similar manner. As long as the capital charges represented assets which were the property of the Dominion, and were so entered in the balance sheet—such as the Intercolonial Railway, the Lachine Canal, &c., no trouble could arise as to what the amounts should be charged to, but in the present instance these extraordinary payments represent amounts disbursed to lines of railway, not the property of the Dominion Government, and, of course, cannot be entered as Assets in the Balance Sheet; and there seems to be no other way of adjusting the accounts, except to charge them direct to Consolidated Fund. I think it would be as well for future guidance to take the sense of the Public Accounts Committee as to these and similar payments.

The receipts on account of Dominion Lands during the last fiscal year were \$393,618.20; the investments for the several Sinking Funds amounted to \$1,563,194.84; the addition to the net debt during the year was \$14,245,841.88; the amount of debt redeemed was \$2,507,599.02; the circulation was increased by the sum of \$272,974.26; and the Savings Banks deposits were increased by \$3,761,539.55, making the amounts standing at the credit of the several depositors on the 30th June last \$32,929,076.39.

I have again to point out that although the net debt of the Dominion has been increased, yet through the diminution of the rates of interest payable on the several Dominion loans and the reduction of the higher interest-bearing debts the rate of interest on the net debt has decreased within the year from 4.06 per cent. to 3.80 per cent., whilst the rate of interest on the debt payable in England has been reduced in the same period from 4.22 per cent. to 3.99 per cent. The total reduction since Confederation to the 30th June, 1885, on the rate of interest payable on the net debt, has been from 5.41 to 3.80, as above mentioned.

The total amount of debt payable in England on the 30th June last was \$168,691,030.51, against which was held in the several Sinking Funds the sum of \$15,855,553.21.

The form in which the accompanying accounts is published is that which has been observed in all previous years, but I am of opinion that when the next volume is issued it would be advisable to leave out of it the several expenditure statements comprised in Part II. The Auditor General, in his report, enters fully into all details of expenditure, and as he informs me that one thing, which is not specifically mentioned in his report now, viz., the names of the payees will be given hereafter, his statements, combined with the reports of the several Departments, will afford sufficient explanations of all the expenditures made by the Dominion.

I think it but right to point out that further liabilities have been incurred by the Dominion through the Act passed at the last Session of Parliament, granting further subsidies to railways, amounting to \$1,103,700.00.

A re-arrangement will have to be made in the Manitoba Debt Account as soon as the Legislature of that Province passes an Act agreeing to accept the terms of the Act passed by the Parliament of Canada last Session, in settlement of the claims of that Province.

I am sorry to have to say that no settlement has yet been made with respect to the unsettled accounts between the late Province of Canada, the Provinces of Ontario and Quebec, and the Dominion. This has been largely unavoidable. I am, however, glad to say that matters are now in a shape which, I trust, will lead to a settlement ere long. The new accounts which have been prepared are now in the printers' hands, and will shortly be ready.

During the year silver was ordered from England to the extent of \$103,000.90, the profit thereon being \$16,504.72.

I have again to report a further expansion of the business of the Department, and I annex statements similar to those submitted last year, showing the increase of work in some of the branches, and also the salaries of the staff for the same

period. I am glad to say that this expansion has been met by the staff without any increase in their numbers.

I have only, in conclusion, to put on record that I feel myself under obligations to the officers of the Department for their great kindness shown to me during the very severe illness I had last summer.

All of which is respectfully submitted.

*Deputy Minister of Finance.*
