

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers /
Couverture de couleur
- Covers damaged /
Couverture endommagée
- Covers restored and/or laminated /
Couverture restaurée et/ou pelliculée
- Cover title missing /
Le titre de couverture manque
- Coloured maps /
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) /
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations /
Planches et/ou illustrations en couleur
- Bound with other material /
Relié avec d'autres documents
- Only edition available /
Seule édition disponible
- Tight binding may cause shadows or distortion
along interior margin / La reliure serrée peut
causer de l'ombre ou de la distorsion le long de la
marge intérieure.
- Blank leaves added during restorations may
appear within the text. Whenever possible, these
have been omitted from filming / Il se peut que
certaines pages blanches ajoutées lors d'une
restauration apparaissent dans le texte, mais,
lorsque cela était possible, ces pages n'ont pas
été filmées.
- Additional comments /
Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated /
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- Pages detached / pages détachées
- Showthrough / Transparence
- Quality of print varies /
Qualité inégale de l'impression
- Includes supplementary materials
Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips,
tissues, etc., have been refilmed to ensure the
best possible image / Les pages totalement ou
partiellement obscurcies par un feuillet d'errata,
une pelure, etc., ont été filmées à nouveau de
façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or
discolourations are filmed twice to ensure the best
possible image / Les pages s'opposant ayant des
colorations variables ou des décolorations sont
filmées deux fois afin d'obtenir la meilleure image
possible.

R E P O R T

OF THE

P O S T M A S T E R G E N E R A L

FOR THE YEAR ENDING, 30TH JUNE, 1868.

*To His Excellency the Right Honorable Sir JOHN YOUNG, Bart.,
Governor General of Canada, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY :

I have the honor to present to Your Excellency, the first Report on the Post Office of the Dominion of Canada, being for the year ended, the 30th June, 1868.

The Returns appended are in accordance with the requirements of the Post Office Act 1867, made up for the period above mentioned, but information in relation to various branches of the Post Office service, and matters confided to the management of the Department, is in this preliminary Report brought up to a later date.

The Post Office Laws and Regulations, of the several Provinces of the Dominion, in force at the date of the Union, remained in operation under the authority of the Union Act until superseded by the Statute known as "*The Post Office Act 1867*," passed in the first Session of the Dominion Parliament, for the regulation of the Postal Service, and which general Act took effect from the 1st April, 1868.

By this Act a uniform system of Post Office organization was provided for, the ordinary rate of domestic letter postage was reduced from five cents to three cents per half ounce, and the charge on letters sent to and received from the United States was at the same time lowered from ten to six cents per half ounce weight, (the latter being the combination of the three cent letter rates of both Countries,) and lastly, low rates of postage charge were established for the conveyance of newspapers, periodicals, printed papers, parcels and other miscellaneous matter by Post.

Regulations for the government and guidance of the Officers of the Post Office in accordance with this general Law, were at once prepared and placed in the hands of every Postmaster in the Dominion, with a copy of the Statute on which they were founded.

The immediate financial effect of the reduction in the rates of postage has been watched with much solicitude.

In Ontario and Quebec where about 88 per cent of the Postal Revenue is collected the result was as follows :

Postal Revenue for the year ended 31st March, 1868.....	\$940,076 57
do do for the year ended 31st March, 1869, new rates having commenced from 1st April, 1868.....	824,193 06

It will be observed that the decrease in the collections of the first year after the reduction of 40 per cent on the principal rates of letter postage, as compared with the collections of the year immediately preceding the reduction was about 14 per cent.

In Nova Scotia and New Brunswick, the additional newspaper postage collected under the new Statute, applying equal charges on newspaper matter throughout the Dominion, approximately balanced the loss on the reduction of the letter rates, in fact the collections in Nova Scotia in the first fiscal year after the change in the postage rates, shew a marked improvement on the revenue of the previous year, and there has been a material increase in the number of letters passing by Post in the Maritime Provinces, as well as in Ontario and Quebec.

The accompanying tabular statement (p. 11) will shew the condition of the Post Office Service in its main features, and will, it is considered, put this information in a convenient shape for comparison with the results of succeeding years when given in similar form.

Eighty-seven new Post Offices were established in Ontario and Quebec during the year, and seventy-four Post Offices and Way Offices in New Brunswick and Nova Scotia.

Many new Post Routes have been opened, and a large increase authorised to Mail facilities throughout the Dominion.

Every effort has been made to improve the Postal communications between the Maritime Provinces and Ontario and Quebec ; and with this view, amongst other measures, daily Mails have been established on the River St. John route to Rivière du Loup, and on the Metis route to the Restigouche River. The arrangements for the conveyance of Mails between Montreal and St. John, New Brunswick, by way of Bangor, have also been improved, so as to accelerate the course of post by that route.

In January, 1869, the Post Office establishment of the Dominion comprised—

3638 Post Offices and Way Offices.
180 Clerks and Letter Carriers in the City Post Offices.
82 Railway Mail Clerks.
7 Ocean Mail Clerks.
2220 Mail Contractors.
7 Post Office Inspectors.
26 Clerks in the Inspectors Offices.

The seven Post Office Inspectors have the local supervision of the Service in all its branches and are stationed—

1 in Nova Scotia.
1 in New Brunswick.
2 in Quebec.
3 in Ontario.

7

Revenue included in the Accounts of the year ended 30th June, 1868.

	Ontario and Quebec.	New Brunswick.	Nova Scotia.
	\$ cts.	\$ cts.	\$ cts.
Revenue from sale of Postage Stamps.....	540,116 84	44,009 22	55,984 20
Revenue from Postage paid in money, and from all other sources.....	366,446 20	9,809 95	8,235 57
	906,663 04	\$53,819 17	64,219 77
			53,819 17
			906,663 04
Total.....			\$1,024,701 98

The balances in the hands of Post Masters, and balances in favor of the Imperial Post Office on Packet Postage account have been deducted in calculating the above Revenue accounts.

It is remarkable how much larger the proportion of pre-payment by postage stamp is in the Maritime Provinces than in Ontario and Quebec.

Expenditure charged in the Post Office accounts of the year ended 30th June, 1868.

FOR MAIL SERVICE.	Ontario and Quebec.	New Brunswick.	Nova Scotia.
	\$ cts.	\$ cts.	\$ cts.
By stage, horseback or on foot.....	191,333 61	33,772 03	55,450 47

General Printing, Advertising and Stationery.....	30,768 02	3,947 82	3,588 81
Miscellaneous, stamps, seals, scales and weights, tradesmens bills, travelling charges, ship letter gratuities, &c.....	38,172 74	5,824 71	2,035 70
Total.....	\$862,814 38	85,443 00	105,285 31
			85,443 00
			862,814 38
Total.....			\$1,001,142 69

Balances of Packet Postage and of letters in hands of Postmasters are not included in the above statement, not being properly items of expenditure.

The subsidies paid to the Ocean Steamers carrying Mails are paid by special appropriations and do not therefore enter into the account of expenditure made from the Post Office appropriation.

Packet service with United Kingdom under contract to Canada.

QUEBEC AND PORTLAND SERVICE WITH LIVERPOOL BY ALLAN LINE.

A Table is appended (p. 13) shewing the details of the passages of 1868.

From the returns made by the Mail Officers on board the Packets, the number of letters, &c., carried would appear to have been as follows:—

	Letters.	Newspapers.	Books.
To and from Canada,	960,900.	1,148,000.	27,750.
To and from United States,	129,000.	107,000.	

HALIFAX AND CORK SERVICE BY INMAN LINE.

Early in 1866, the Imperial Government decided that on the expiration in January, 1868, of the existing contract with the Cunard Company for the conveyance of Mails between the United Kingdom and the United States in alternate weeks to Boston and to New York, it would be expedient to abandon the Boston route and concentrate the Mail exchanges between the United Kingdom and the United States upon New York.

The Cunard Boston Mail Steamers had always touched at Halifax, and thus had incidentally given the Maritime Provinces a direct Packet communication with England.

In view of the deprivation of this advantage which would follow upon the contemplated change on the main line of steam communication, and to give the Dominion Government time to make such other arrangements as it might consider expedient, the Imperial Government made a temporary agreement with the Inman Line for the conveyance of Mails fortnightly between Halifax and Cork for six months from the 1st January, 1868, at £375 sterling per voyage—and agreed that from the 1st July, 1868, it would pay one moiety of whatever reasonable charge the Dominion Government might incur in providing for the Halifax service.

After some negotiation, a contract was entered into with Mr. Inman for a continuance of the fortnightly service between Halifax and Cork for three years from the 1st July, 1868, at the rate of £312 10s sterling per voyage, equal to £16,250 sterling per annum—of which the Imperial Post Office pays one-half.

A Table is appended (page 12) shewing the passages of the Inman steamers between Halifax and Cork during the year 1868.

CORRESPONDENCE WITH UNITED STATES.

The postage on letters passing between Ontario and Quebec and the United States was

Collected in Ontario and Quebec,.....	\$139,455 83
Collected in United States,.....	179,896 70

\$319,352 53

The Mails were exchanged at the following points:—

FROM JULY 1st, 1867, to JUNE 30, 1868.	Collected in Ontario and Quebec.	Collected in United States.
	\$ cts.	\$ cts.

Windsor	13,965 94	11,906 66
Totals	139,455 83	\$179,896 70

The Returns from the Maritime Provinces do not give any details in respect to correspondence exchanged with the United States.

REGISTERED LETTERS.

The estimated number of Registered Letters passing by Post in this year was as follows:—

In Ontario and Quebec,.....	640,000
In New Brunswick,.....	24,700
In Nova Scotia,.....	40,000

704,700

The casualties occurring with respect to Registered Letters in the year ended 30th June, 1868, were—

	Ontario and Quebec.	New Brunswick.	Nova Scotia.
Registered letters contained in Mail Bags or packages, stated not to have reached the offices for which they were intended, and presumed to have been lost or stolen by the way	27	1
Registered letters lost, embezzled or miscarried in Post Offices, and of which the contents were made good by the officers responsible..	17	2
Registered letters lost in cases where it was impossible to fix the responsibility	4	1
Registered letters accidentally consumed by fire whilst in the custody of the Post Office.....	2
Registered letters misdelivered to a person fraudulently personating the party addressed.....	4
	54	3	1
Registered letters, the contents or part of the contents, of which were stated to be missing, there being no sufficient evidence to account for the discrepancy.....	17	2	1
Case in which the contents of a registered letter were stolen by a burglar from the Sherbrooke Post Office.....	1

Of the twenty-seven Registered Letters contained in Mail Bags and packages lost or stolen by the way—fourteen were contained in a bag stolen from the Mails at the Union Station, Toronto, in October, 1867,—and for the recovery of which every possible endeavour was made and reward offered, but without success.

Nineteen cases arose upon differences of statement between the senders and receivers of remittances by Registered Letters as to the amount of the enclosure.

In seventeen cases the contents of missing Registered Letters were made good by the Officers of the Post Office, against whom neglect of duty was proven, and in five cases it was found impossible to fix the responsibility with certainty, but the parties upon whom suspicion rested are no longer in the Post Office service as respects four of these cases.

Two Registered Letters were consumed in the fire which destroyed the Sarnia Post Office on the night of the 14th November, 1867.

Four Registered Letters were delivered from the Toronto Post Office to a person supposed to be the party addressed, whom he claimed to represent—this person was subsequently arrested and tried, but the evidence was insufficient for conviction and he was acquitted.

The transmission of Registered Letters in the Maritime Provinces was remarkably free from casualties of any kind.

PARCEL POST.

The estimated number of Parcels sent by Post in this year was 24,800, producing a postage revenue of \$4960.

POSTAGE STAMPS, 1868.

Postage Stamps of denominations corresponding to the reduced rates of postage authorised by the Post Office Act of 1867, were prepared by the British American Bank Note Company at Ottawa, and distributed by the Department throughout the Dominion for use on the 1st April, 1868, from which date the new rates of postage came into operation.

DEAD LETTERS.

In Ontario and Quebec the number of Dead Letters was.....	280,252
In New Brunswick do	19,968
In Nova Scotia do	12,000

The Ontario and Quebec Dead Letters are sent into the Department at Ottawa, and those of New Brunswick and Nova Scotia to the Inspector's Offices for those Provinces respectively.

Further details in respect to Dead Letters are given in the accompanying Returns.

MONEY ORDERS.

MONEY ORDER SYSTEM,	Ontario and Quebec.	New Brunswick.	Nova Scotia.
Number of Money Order Offices.....	437	32	46
	\$ cts.	\$ cts.	\$ cts.
Amount of Money Orders issued.....	2,353,408 00	286,315 02	702,880 39
Net Revenue to meet cost of system.....	13,707 49	2,469 39	2,387 17
Cost of maintaining the system.....	11,205 57	3,066 45	5,523 50

Full details of the issues and payments of Money Orders during the year will be found in the Returns herewith submitted from Ontario and Quebec, New Brunswick and Nova Scotia respectively.

The charge to the Public on the issue of a Money Order is uniform throughout the Dominion, but some differences, arising mainly from local circumstances, have been found to exist in the practical working of the Money Order system of the several sections, especially as respects Nova Scotia which it has not been deemed expedient to disturb.

In Ontario and Quebec the money balances accruing upon the issue of Money Orders at the several Money Order Offices are remitted to the nearest Bank or Bank Agency receiving Government deposits; and besides the convenience afforded to the Public using the Orders, the system thus operates to the material relief of the Post Office from the risks and evils attendant on the carriage of large sums of money through the Mails over long distances.

In New Brunswick the Money Order receipts are remitted to the central point, St. John, but in Nova Scotia, the money received on issuing a Money Order payable within the Province, is sent by the issuing Postmaster to the Postmaster on whom the Order is drawn and as this remittance takes place of course by Post, the Mails are in no wise freed by this mode of working the system, from the risks of conveyance.

POST OFFICE SAVINGS BANK.

As soon as the Post Office Act authorising the establishment of Post Office Savings Banks had passed in December, 1867, preparations were commenced for putting the system into working operation on the 1st April, 1868, when the Statute would come into force.

The necessary forms were printed, and the Regulations and Instructions for the information and guidance of Postmasters and of the Public, were drawn up and distributed.

An advertisement was also extensively circulated, inviting public attention to the advantages of the system, and to the conditions under which money could be deposited and withdrawn.

On the 1st April, 1868, eighty-one of the principal Post Offices in Ontario and Quebec commenced to receive deposits on Savings Bank account, and on the 1st July following, 122 more Offices were added to the list—since then a few more Savings Bank Offices have from time to time been authorised, making the total number in operation at the close of the first year's business 213.

The total number of Deposits received during the year to 31st March, 1869, was	15,134
do amount of do do	\$861,655.00
do number of withdrawals do	3,148
do amount of do do	\$187,045.55
Number of accounts opened do	6,865
do do closed do	786
do do remaining open 31st March, 1869.....	6,079
Total amount at credit of Depositors on 31st March, 1869, inclusive of interest.	\$676,383.40
Charges of management during the year, including preliminary expenses, advertising, Commissions to Postmasters and all other items.....	\$12,319.01

The \$676,383,40 due Depositors stands thus

Bearing interest in ordinary Deposit accounts at 4 per cent..	\$384,146 41
do in special accounts at 5 per cent.....	\$285,800 00
Not bearing interest, being amount held to meet outstanding cheques for withdrawals.....	\$6,436 99
Total.....	\$676,383 40

The total amount in the Post Office Savings Bank on the 31st March, 1869, was received as follows :

In the month of April, 1868.....	\$81,160 00
May	64,614 00
June	57,875 52
July.....	58,075 43
August	45,278 96
September	49,981 33
October.....	55,155 02
November	61,257 06
December	48,255 28
January, 1869.....	58,195 60
February.....	47,545 93
March	47,215 32
Interest added to Depositors account.....	1,773 95

\$676,383 40

It has not been thought expedient to attempt to extend the Post Office Savings' Bank system to the Maritime Provinces as yet, and it is the less necessary to do so, as there are already Government Savings Banks in existence there, though under a different organization.

A. CAMPBELL,

Postmaster General.

POST OFFICE DEPARTMENT, CANADA;

Ottawa, April, 1869.

TABLE shewing the number of Post Offices, extent of Mail travel, number of Letters and Newspapers, Postal Revenue and Expenditure, Money Order and Savings Bank business in the several Provinces of the Dominion.

Lewis Newton	Stirton.....	Nov. 29....	16 00	Henry H. Dean.....	Schomberg.....	Only \$12 stated to have been received.....	Registered	
J. Townley	Peterboro.....	Oct. 18....	2 00	Wm. Swift.....	Toronto.....	Not received by person addressed.....	Not ..	No trace owing to want of registration.

The mail bag which contained these letters was stolen after arrival at the Union Station, Toronto, but whether on conveyance to the Toronto Post Office or how, could not be ascertained. Reward offered, but no result.

No trace owing to want of registration.
do do

do do
do do
do do

No evidence to account for alleged discrepancy. Enquiry failed to establish that any abstraction had taken place whilst in charge of Post Office. The mail package stated by the Postmaster of Portage-du-Fort to have contained these letters, is stated by the Postmaster of Sand Point not to have reached his office. Enquiry unsuccessful.

The result of the proceedings in this case was that the Postmaster of North Stanbridge was called upon to resign.

No trace owing to want of registration.

PUBLIC ACCOUNTS

OF THE

DOMINION OF CANADA,

FOR THE

FISCAL YEAR ENDED 30TH JUNE,

1868.

.....
PRINTED BY ORDER OF THE LEGISLATURE.
.....

OTTAWA:
PRINTED BY HUNTER, ROSE & COMPANY.
1869.

*To His Excellency the Right Honorable Sir JOHN YOUNG, Baronet,
Governor General of the Dominion of Canada, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY:—

The undersigned has the honor to present to Your Excellency the Public Accounts for the Dominion of Canada, for the year ended 30th June, 1868.

All which is respectfully submitted.

JOHN ROSE,
Minister of Finance.

OTTAWA, April, 1869.

BOARD OF AUDIT,

April 21st, 1869.

TO THE HONORABLE JOHN ROSE, *Minister of Finance.*

In submitting to you the Public Accounts for the financial year, 1867-8, the first embracing the transactions of the Dominion of Canada, the Board of Audit desires to call your attention to some of the difficulties which have attended their preparation, and to some of the peculiarities which will distinguish them from those of following years.

During this year we have been obliged to include, not only the affairs properly belonging to the Dominion, but the clearing up of all the transactions of the late Province of Canada, and to a minor extent those of the Provinces of Nova Scotia and New Brunswick. During the earlier months of this year, before the local Governments of Ontario and Quebec were properly organized, we had also to take charge of the receipts and undertake the payments belonging to those Provinces. These accounts therefore necessarily include three totally different classes of transactions, with respect to the proper distribution of which some difference of opinion may exist. As the rules by which we were to be guided in distinguishing these three classes were only laid down to us in January last, after much correspondence and several conferences with the governments of the Provinces, we were unable to make any commencement in the printing of the accounts as they now stand, until that date; and as every doubtful item had to be carefully considered, and in many cases the details of the expenditure by sub-accountants had to be examined, before we could decide to what class any particular item belonged, the work has necessarily been very laborious, and has involved many delays. We cannot even now hope, that the division we have made will not be open to some objections, but we have endeavoured to present the accounts in such a shape, as may enable the Committee on Public Accounts, and Parliament, to revise our distribution, and to come to a final decision as to these important questions.

With the object of keeping the three classes of transactions as distinct as possible, and especially with a view to a comparison of other years, we have published the accounts in three parts. The first two, being applicable to the Dominion only, follow with slight modifications the form in which it has been customary to submit the accounts of the late Province of Canada. The third part, to which there will be nothing analogous in future years, relates only to the affairs of the late Province of Canada, and of the individual Provinces under our present organization. But in statement 3 of Part 1, which shows the entire cash transactions of the Dominion, there have necessarily been included the receipts and expenditure on account of the other two classes; and to facilitate future comparison, these have been placed apart, leaving the proper transactions of the Dominion complete in themselves.

In an appendix to this report we have given an analysis of the statement of affairs of June, 30th, 1867, in three columns, showing what items are transferred to the late Province of Canada, and what to the Dominion. Those transferred to the Province are shown in statement 1 of Part III, being accounts with which the Dominion has no further concern; and they remain unaltered from what they then stood at, excepting in some few cases, where

a correction has been made in them on account of transactions before that date, through Consolidated Fund, as shown in statement 2 of Part III.

In the Dominion Ledger the items transferred to it are brought in by debiting or crediting this Province, but they are of two different classes, and are arranged in two columns. In the second column are such items, as by the British North America Act go to determine the Debt, for which the late Province is responsible, and they remain at the credit of the "Province of Canada Debt account", of which a separate statement is given (stat. 5 of Part III); and the remainder, which do not enter into question of the debt, are shown in the third column, and the entry to the Province is got rid of by debiting or crediting Consolidated Fund as the case may be. Some of the items constituting part of the debt have been rectified through Consolidated Fund, as shown in statement 2 Part I.

Of the remaining items in the Dominion Ledger there are a few small ones amongst the liabilities, which are payable in cash to the proper claimant, but which so peculiarly belong to either Ontario or Quebec, that we have thought it advisable to simplify the statement of affairs of Dominion, by crediting those Provinces respectively with the amount, as will be seen in their accounts 6 and 7 Part III. There remain still three items, the U. C. Building Fund, U. C. Grammar School Fund, and L. C. Superior Education Fund, upon which the Dominion is pledged to pay 5 per cent interest, which, whenever the Arbitrators have decided how the debt is to be divided between them, may also be very conveniently written off the Dominion statement of affairs by crediting the debt account of those Provinces respectively; and the Common School Fund, when it is decided how it is to be apportioned between them, may be similarly treated.

There are two other accounts, the compensation to Seigneurs and the Seigniorial Indemnity to Townships, of which it may be questionable whether they should not be credited to the Quebec debt account, upon that Province assuming the responsibility of making the payments. The indemnity to Townships could easily be retained as a liability of the Dominion, although the payments are exclusively on account of Quebec, were it not that, by the existing law, all payments are withheld from Municipalities in debt to the Municipal Loan Fund; and as the latter is exclusively in the lands of Quebec, it would seem more convenient that the same authority should have the management of both accounts. There is however, a further reason for such a transfer in the case of payments to Seigneurs, that, as the properties become subdivided amongst heirs and creditors, the administration of the Fund is becoming daily more complicated; and as such claims depend upon the laws of Quebec respecting inheritance and judgments, it would seem more proper that the local government should assume the management, more especially as some new arrangement appears inevitable before long, which can only be effected by local legislation.

There remain in the statement of affairs, several items which it is very desirable should be altogether written off, or considerably modified, in the Dominion books. It was always the custom in the Province of Canada to charge the greater portion of the expenditure for Public Works, not against Consolidated Fund, but against certain open accounts in the Ledger, some of them as being of the nature of advances to be repaid, and others as being charges against capital; but the rule which has been followed has varied at different periods, and these accounts now very inadequately represent the real capital account. In many cases the works have been practically abandoned to the Municipalities, and cannot be said to be

long to the Dominion at all; in other cases a claim for repayment still remains, and whatever it may be worth should probably be deducted from the debt of the Province, as a security for money, or the work and any outstanding claims in respect of it might be surrendered to the Province, and be dealt with by the Arbitrators. In other cases again a great deal of expenditure, which would now be looked upon as repairs or otherwise chargeable against income, has in former years been treated as an outlay on capital account; and perhaps in some cases the continuation of works, which might justly be charged to capital, has been borne by annual income. If these accounts are to be retained in the statement of affairs at all, they should be thoroughly revised. We did not, however, feel justified in making any change in them, but for the present year we have continued the system formerly practised in the late Province, and we have similarly introduced the corresponding works in Nova Scotia and New Brunswick, which have been the origin of their debt.

There are two other accounts reckoned amongst the assets which require revision, or should perhaps more properly be entirely written off: viz the Grand Trunk and Northern Railway interest accounts. From the time when these two companies ceased to pay the interest on the loans to them, it has been annually charged against these accounts, which have now amounted up together to the large sum of nearly \$13,000,000. But the claim of the Province has by subsequent legislation been postponed to so many others, that practically it may be said to have been abandoned, and there can be no use in adding annually upwards of \$1,000,000 to an imaginary asset, which will never be recovered. It is no doubt proper to retain in the statement of affairs the capital of the advance by Government to these Roads, both as constituting part of the history of our debt, and as being an amount upon which our claim for interest may hereafter partially revive; but the arrears appear only to cumber our balance sheet without any real meaning; and even on the very improbable supposition of our claim reviving, not only for current interest, but for arrears also, our right would be in no way impaired by our ceasing to carry the increasing amount annually forward in our balance sheet. We have not however thought ourselves justified this year in departing from the former practice, and we have charged the interest as usual; but we strongly recommend a revision of those accounts.

During the year 1867-8, there have been three payments made, for which there was no Parliamentary authority, a statement of which is given in the Public Accounts, Part II; but it appears necessary that we should give some further explanation of the circumstances.

A sum of £5,000 sterling was advanced by Messrs. Glyn, Mills & Co., towards the expenses of the Delegates in England. The advance was made before June, 30th, 1867, and if it had appeared in the accounts of that year, it would have been in the same position as the similar advances made in Nova Scotia and New Brunswick, which, in accordance with the vote in the estimates of 1868-9, have been repaid during the current year. But this payment came into the accounts of the year 1867-8, in the estimates for which there was no vote for this purpose. It is however covered by the vote for the current year, in which a balance of appropriation to the same extent will not be used. In connection with this subject it may be proper to state, that the amount advanced by Canada for this purpose before June 30th, 1867, is included in the debt of the late Province as affecting the cash balance at that date, and upon the same principle that these advances have been repaid to the other Provinces, we have given the Province of Canada credit for the amount in its debt account.

In the year 1865-6, a vote was taken for "secret and detective service," covering not only secret service proper, but also the detective police which was in that year established on the frontier. In 1866-7, the corresponding vote was only taken for "secret service," under the impression that this would also cover the police. It was however decided that the vote was to be applied to secret service alone, and the expense of the police in that year was reported as an unprovided item. Before this decision had been come to, the estimates for 1867-8, had been laid before the House, based upon the same principle as in the previous year, and a separate vote was omitted to be afterwards introduced for the police, for which therefore there was no provision. Under these circumstances, as the police force had been already in existence for two years, and had not been increased, the Auditor thought himself justified in passing the warrants for their pay, especially as a much larger balance of the secret service vote was unexpended, than would have been sufficient for their maintenance.

The third item, though small in amount, is of a more serious nature, as being an expenditure in excess not only of the vote, but of the intention of Parliament. The Lieutenant Governors of Nova Scotia and New Brunswick were to be paid at the rate at which they had previously been paid by those Provinces, until the new rate of salary came into force, and an additional sum was provided in the estimates for that purpose; but the Paymaster in New Brunswick, through a misconception, continued to pay the Lieutenant Governor at the old rate, and the error was not detected until it was too late to rectify it.

Besides the above, there were several small sums by which the expenditure exceeded the appropriations, for which the authority of Council was obtained to charge them to unforeseen expenses, a statement of which is given in the Accounts, Part II. The balance was quite large enough to cover the last item named, but as it was not a mere casual over-expenditure like the others, but a distinct error, we thought it better to report it separately to Parliament. In England the vote which is analogous to our unforeseen expenses, is called "civil contingencies," and is in fact a species of fund which is always kept up to the same amount of £120,000 sterling. It is held to be available, not only for any new contingency which had not been foreseen and provided for, but for any casual amount by which the estimates had fallen short of the necessary expenditure in any particular service. In such cases the required amount is, as it were, advanced from the Fund, but a vote of Parliament has still to be taken in the next Session to recoup the Fund, and keep it up to its annual amount. We think the principle a sound one, as without some such latitude there would be a tendency to over estimate all services to meet such casualties, which would in many respects be inadvisable. Still such unauthorized expenditure should not be withdrawn from the cognizance of Parliament, but should be confirmed by a subsequent vote, and without establishing anything like a Fund as in England, we think that the annual vote for "Unforeseen Expenses" should only be held to be temporary authority to meet casual necessities to a limited amount, and that a statement of all sums so charged should be submitted to Parliament at the next Session, and should be covered by an absolute vote in the following estimates.

It may be desirable to give an analysis of the Receipts and Expenditure of the Dominion during this, the first year of its existence.

The gross receipts of the Dominion, exclusive of those on account of the Province of Canada and the several Provinces, were.....	\$16,830,060	73
Less Loans.....	2,994,600	66
Ordinary revenues of Dominion.....	13,835,460	07
The gross Expenditure of the Dominion was.....	13,704,170	53
Less redemptions.....	337,679	98
	13,366,490	55
Whereof on account of Public Works chargeable to Capital.....	587,783	32
	12,778,707	23
Subsidies of Ontario and Quebec.....	\$ 2,156,125	60
Add 1 year's interest on Trust Funds.....	177,162	64
	2,333,288	24
Less interest on excess of debt, say \$11,000,000.....	\$550,000	00
Payable annually.....	1,783,288	24
Actually paid.....	1,388,784	20
Excess payable beyond actual payments.....	194,504	04
Ordinary expenditure of Dominion.....	12,973,211	27
Surplus.....	862,248	80
	\$13,835,460	07

It would, however, be taking too favorable a view of the case to consider \$13,000,000 the normal expenditure of the Dominion, exclusive of Public Works chargeable to capital, and to assume a surplus of upwards of \$800,000 in 1867-8. In every year some of the receipts and expenditure properly belonging to one financial year, will always run over into the succeeding one. It is true that this will not be the case to the same extent as formerly, both because, in consequence of the new rule that appropriations lapse on June 30th, greater exertions are made to bring all expenditure into the year in which a vote has been taken for it, and because we are now relieved by the local governments from most of those outside services, Crown Lands, Administration of Justice, Education, Lunatic Asylums, &c., in which the great bulk of these arrears occurred. Still there will always be some such arrears of the previous year, and no account is taken of them in the above statement, because all the arrears of 1866-7, which ran over into 1867-8, have been charged against the several Provinces, and not against the Dominion. In order to form an estimate of the extent to which this has been the case in the present instance, we have gone over the payments and receipts of the first two months of the current year, and we find there \$477,162 of expen-

diture, which clearly belonged to 1867-8, though paid in 1868-9, and \$337,622 of revenue received in 1868-9. In the case of the Revenue this sum must be very near the truth, but the expenditure of the same kind is probably very much understated, as we did not give to each item the same close scrutiny, which was necessary in charging the several Provinces with the arrears of the previous year, and it probably would not be safe to assume that the balance of arrears really belonging to 1867-8, was less than \$300,000, which should therefore be deducted from the apparent surplus. This fact will be important to bear in mind, in instituting comparisons with future years. In ordinary years the amounts which now run over from the previous year, will probably be about balanced by the similar amounts which were paid in the succeeding one; but in the first year of the Dominion there were no arrears of former years to pay, and to this extent the total expenditure will be understated as compared with other years.

All which is respectfully submitted.

JOHN LANGTON,
AUDITOR.

Balance carried down.....			11,862,903	13
			74,937,853	04

In addition to the above the Province will have to get credit for the Premium at which the India Bond held for the Imperial Guaranteed Loan might have been realized, 31st December, 1863, and for the following securities for money, either at a valuation or from time to time as they are realized, viz. :—

Bank of Upper Canada.....	\$1,150,000	01
City of Hamilton Coupons.....	22,248	89
Quebec Turnpike Trust Bond.....	20,000	00
McGill College Mortgage.....	47,990	00
Lord Selkirk and Boulton Mortgage.....	13,900	00
Boulton Mortgage.....	9,828	00
Markland Mortgage.....	5,882	25
Bank of Upper Canada Stock.....	750	00
	\$1,270,599	15

There are also arrears of Hydraulic Rents, and amounts due for sales of Roads &c., amounting altogether to \$127,771 50, against which there are counter claims—when these counter claims are settled the balance will go to the credit of the Province Debt Account.

JOHN LANGTON,
Auditor.

N. B.—Quebec will have to be charged, in addition, with five per cent. on its share of the debt, when ascertained by the Arbitrators, and with any expenditure on account of special accounts which may be assigned to it by the Arbitrators, and it will have to be credited with any receipts on account of such accounts, and with interest on its share of the Common School Fund.

JOHN LANGTON,
Auditor.
