MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honor to present to Your Excellency the Tables of the TRADE AND NAVIGATION of the Dominion of Canada, for the Fiscal Year ending 30th June, 1874, as prepared from Official Returns, and laid before him by the Commissioner of Customs.

All which is respectfully submitted.

ISAAC BURPEE,

Minister of Customs.

OTTAWA, 4th February, 1875.

To the Honorable ISAAC BURPEE,
Minister of Customs, &c., &c., &c.

SIR,—I have the honor to lay before you, the tables of Trade and Navigation for the Fiscal Year ended 30th June, 1874. These statistics were compiled during the incumbency of my respected predecessor in office, R. S. M. Bouchette, Esq., but as the press work was not completed until after my accession to office, it devolves upon me to present them for your information and acceptance, and in doing so, it becomes my duty to supplement the several tabulated statements with a few explanatory and suggestive notes.

The following is a reproduction of a condensed Comparative Statement, published in the Commissioner's report for the year ended 30th June, 1873, shewing the value of Exports and Imports, and of goods Entered for Consumption with the duty collected thereon for seven Years, from 1868 to 1874 inclusive, and the aggregate of the whole :

This exhibit of the trade of the Dominion needs little comment. It shews a steady and continuous increase under each heading, with the exception of the second year after Confederation (1869) in which there appears a slight diminution in Imports and Revenue.

The Value of the annual increase, however, as an index of the trade of the country must be modified by the following considerations :—

The first three Years represent the business of four Provinces only, viz : Ontario, Quebec, New Brunswick and Nova Scotia.

Manitoba was received into the Union in 1871, and the statistics of the Year include six months business of that Province, amounting to \$254,063. Total imports, \$286,337 entered for consumption, and \$15,723 22 duty collected.

In 1872, the total Imports of Manitoba were valued at \$942,247. Entered for Consumption, \$1,020,172, upon which \$46,539 90 duty was collected. The Exports of this Province for the same year were valued at \$85,541 ; in this year, also, the Imports and Exports of British Columbia were introduced, the amounts being as follows :—Total

Imports \$1,790,352 ; Entered for Consumption, \$1,767,068; Duty collected, \$342,400 48. Value of Exports \$1,912,107.

The Statistics of 1873, shew the Imports of Manitoba to be :—Total Imports \$918,336. Entered for Consumption \$1,029,130 and Duty collected \$48,074 45, and the Exports \$246,983, nearly all of which consisted of “ furs ” or skins of wild animals. In Manitoba it will be observed that the Value of Goods Entered for Consumption, has exceeded the Value of Total Imports each Year. This is caused by the large quantities removed in bond from Ports in Ontario and Quebec, which are included in the Total Imports of those Provinces. The returns of British Columbia this year, give the Value of Total Imports, \$2,191,011. Entered for Consumption, \$2,076,476. Duty collected, \$302,147.65. Exports, \$1,792,347.

In the present Year (1874) the Total Dominion Exports and Imports include the following amounts for Manitoba, British Columbia, and Prince Edward Island :—

Manitoba.—Exports, \$797,762. Total Imports, \$1,797,033. Entered for Consumption \$1,853,659. Duty collected, \$67,471 97.

British Columbia.—Exports, \$2,120,624. Total Imports, \$2,085,569. Entered for Consumption, \$2,048,336. Duty collected, \$336,494.47.

Prince Edward Island.—Exports, \$722,129. Total Imports, \$1,908,522. Entered for Consumption \$1,913,696. Duty collected \$219,458 07.

The Exports of British Columbia consist, to the extent of about one half, of gold in dust and bar, and the remainder is fairly divided between other products of the Mine, chiefly Coal, the Forest, the Fisheries, and Animals and their produce.

Of the Exports of Prince Edward Island, about two-thirds consist of Agricultural products and Animals, the principal trade being with Great Britain.

The following Statement will shew the Annual increase in the trade of the four original Provinces of the Dominion, exclusive of those subsequently admitted to the Union.

A glance at this table is sufficient to shew, not only a steady, but a rapid increase in the commerce of the four Provinces included in it, since the accomplishment of Confederation. The slight falling off in the Imports of 1869 is scarcely noticeable, and the decline of two millions in the Value of the Exports, and two and one half millions in that of the imports of 1874, is attributable to the depression prevailing in the United States in all Departments of trade, rather than to any reverses originating in Canada. Indeed, the whole difference in the Aggregate Values of Imports between 1873 and 1874, may be accounted for by the reduction in prices, not only in the United States, but also in Great Britain during the latter Year, and is not to be accepted as indicating a reduction in quantities. This will be apparent when it is remembered that an average reduction of two per cent in Values would account for the whole decrease of 1874.

The relative bearing of the Customs Tariff upon the Commerce of each Province of the Dominion is exhibited in the following Table :

Years.	Per Centage of Duty on Total Value of Imports, Dutiable and Free.							
	Ontario.	Quebec.	Nova Scotia.	New Brunswick.	Manitoba.	British Columbia.	Prince Edward Island.	Dominion.
	%	%	%	%	%	%	%	%
1868.....	08·85	14·04	12·40	13·59	12·00
1869.....	08·62	13·68	12·50	13·58	11·78
1870.....	09·26	14·78	13·00	14·85	12·65
1871.....	09·87	13·81	12·42	14·63	06·18	12·32

1873.....	08·76	10·94	10·75	11·79	05·23	13·79	10·17
1874.....	08·84	12·83	12·56	13·72	03·75	16·13	11·50	11·25

The above shews the actual percentage of Customs Duties levied each Year from 1868 to 1874, inclusive. The calculations are based upon Total Imports, including the Value of Free as well as Dutiable goods. It will be seen that under the variety of changes which the Tariff has undergone since 1868, there has been very little variation in the average percentage of Duties levied under each, and in 1874 there is actually a slight decrease as compared with 1868.

The greatest difference appears in the comparison of Ontario and Quebec. This is accountable for on two grounds. Chiefly from the fact that the proportion of Free Goods Imported in Ontario is very much in excess of any other Province of the Dominion, owing to the larger number, and greater extent, of the manufactories in operation in that Province, the raw material used in which, is generally found on the free list; while the reverse of this is true of the Province of Quebec. The Importation of large quantities of foreign grain also in Ontario, which is entered free of Duty, and afterwards Exported chiefly from the Port of Montreal, either unchanged or in the forms of flour and meal contributes largely to produce this result.

It must be remembered also, that the Port of Montreal is nearly as much a feeder of

Ontario as of Quebec, particularly in those classes of Imports subject to the highest rates of duty. Not only is there a very large proportion of the Dutiable Imports of Montreal purchased there in bond, for removal to ports in Ontario, but many small dealers in various localities in the latter Province, purchase their stock from Montreal merchants Duty paid. For the purpose of comparison, therefore, with other Provinces, the aggregate Imports of Ontario and Quebec should be taken together, and the combined percentage will be found to be 10.88 for the last Year, and a similar result would be obtained by the same means in reference to all former Years. This calculation still leaves the combined Provinces of Ontario and Quebec represented as paying a smaller percentage of Customs Duty than any of the other Provinces except Manitoba, but the same result would not be obtained, were the calculations made to embrace all other sources of revenue, because those provinces consume a much larger proportion of exciseable goods, such as domestic liquors and tobacco, and pay an equally large proportion of Excise Duty.

In the Province of New Brunswick the percentage of Duty paid, has steadily ranged at a somewhat higher figure than in Nova Scotia. This is accounted for also by the larger proportion of Free Goods Imported in the latter Province over the former.

The small percentage paid in Manitoba is, of course, owing to the continuance in force of the old Assiniboine tariff, under which the bulk of the importations paid only 4% duty. The Dominion tariff, however, having been extended to that Province on the 1st July last, the current Year will present a better comparison.

In British Columbia, the trade has not yet assumed the characteristics of the older Provinces, and as nearly all their Imports of Dutiable Goods, are for Home Consumption, the percentage of Duty must necessarily range at a high figure.

1874.....	2 69	5 55	3 63	4 89	5 69	6 73	2 33	3 93

The same remarks, in explanation of the difference in the percentage of Duty paid in Ontario and Quebec, appended to the former table, will equally apply in reference to the above. The combined populations of these two Provinces paid in 1874, the sum of \$4.12 per head.

It will be observed that while the percentage of Duty and Values of Imports, has remained nearly stationary for the seven years in question, the per capita taxation has

steadily increased every Year, ranging from 2.62 in 1868, to 3.93 in 1874. This circumstance however only proves that the increase in the commerce of the country has exceeded in proportion the increase of population, and is really one striking evidence of steadily increasing general prosperity.

The calculations in this table, in the case of the four original Provinces, are based for the first three Years, upon the census of 1861, with the pro rata percentage of increase as ascertained by the census of 1871, added to each year; and those for the four following Years upon the census of 1871 without addition, there being no reliable data upon which to estimate the increase since the latter date. This, however, does not lessen the value of the comparison instituted, as the proportion of increase cannot be very different in each Province.

The population of Manitoba is taken from the census of that province of 1870, and British Columbia, at 50,000 inhabitants as estimated.

When it is considered that the chief part of the revenue of the Dominion, is necessarily raised by means of Customs duties, it will be conceded that the burden of such taxation as exhibited in the above, bears very lightly upon our population, especially when compared with older countries.

1874	04.95	02.94	07.77	06.27	15.87	05.91	08.05	04.55

There are several points in this statement which are worthy of remark. Referring to the Dominion column, it will be observed that with the exception of 1869, there has been a steady decline in the percentage of expenses until 1873. This is the result of the large increase in revenue, and the expenses not, of course, increasing in proportion; and in this connection it may not be improper for me, very respectfully, to observe that the multiplication of small ports and outports of entry, is one of the most fruitful sources of increased expenditure. Were it possible to restrict the Customs business to one half the number now established, the same amount of revenue could be collected at a very reduced percentage of expense, and with much more uniformity in the administration of Customs laws, security to the revenue and benefit to the fair trader.

In the comparison of the four original Provinces of the Confederation, Nova Scotia

has uniformly maintained the largest percentage of expenses. This is owing to the large number of Ports of Entry required by the very extended seaboard of that Province. While the peculiarities of the coast, however, necessarily demand a very large staff for the protection of the revenue, and the prevention of smuggling, it may be questioned whether these ends could not be better answered, by having fewer Ports, and a larger number of Preventive Officers of a superior class, whose whole time should be engaged in the service.

The peculiar circumstances of Manitoba have hitherto, of necessity, involved expenses out of all proportion to those of the older Provinces, but as population and commerce increase, and, under the operation of the Dominion Tariff, a larger revenue will be secured and the difference will rapidly decline.

The cost of collection in Prince Edward Island for 1873-74 appears to be excessive, exceeding even that of Nova Scotia, but as the Act of Union was anticipated for some time before it took effect, and the Island Tariff was lower than that of the Dominion, an unusually large Importation in the months of May and June was the result. This lessened, very materially, the revenue of the Year under the Dominion tariff, and increased the percentage of expenses in proportion. The revenue of the current Fiscal Year will be very much larger, while the expenses will not be increased in proportion.

The following tables will be found interesting, as exhibiting the aggregate trade of the Dominion in its relations with Great Britain and her Colonies, and Foreign Countries for three years, commencing with 1872:—

- No. 1 gives the Value of Imports and Exports combined,
 No. 2 gives the Value of Exports only,
 No. 3 gives the Value of Goods Entered for Consumption, and
 No. 4 gives the Revenue derived from Customs Duties.

The aggregate trade with Great Britain and the United States has steadily increased, and in nearly the same ratio in each case, or about \$14,000,000, Total Value, between 1872 and 1874. In the case of Great Britain \$10,000,000 is the increase in Exports, and the remaining \$4,000,000 is chiefly due to an increased Importation of Free Goods, which leaves the Amount of Duty collected very nearly alike in both Years. The advance in the trade with the United States, on the other hand, is solely due to increased Importations, while the Value of our Exports to that country is slightly less in 1874 than in 1872. It is a matter of regret that our direct trade with the West Indies, British and Foreign, has slightly declined, but with South America it shows a gratifying increase.

BALANCE OF TRADE.

The great disparity between the values of imports and exports in each of the last two years, may, to many persons, appear to be a startling feature in the commerce of the Dominion. Many imagine that it is essential to a healthy condition that one should nearly, if not fully, balance the other. This is by no means true; and it is quite possible that a country actually exporting nothing, and importing largely, may still be prosperous and increase in substantial wealth.

It would be impossible, and perhaps improper, to discuss this great and vexed question at length in a paper like this; but I may be excused for calling attention to one or two facts which may disarm the statement, that our imports for 1873 and 1874 exceeded our exports to the amount of about \$38,000,000, of some portion of its unpleasantness. Our imports represent a largely increased value immediately after reception in Canada, and are therefore fair assets against our indebtedness at that additional valuation.

A very large proportion also of our imports is of a reproductive description, and not only increases in value by the manipulations of manufacturers and others, but is the basis of solid and enduring structures, which are everywhere regarded as constituting legitimate items in the catalogue of a country's wealth. Particularly is this true when the constructions become a source of income; and when it is remembered that the excess of importations in question is attributable in a great degree to the construction and extension of railways and canals, and other public and profitable undertakings, which enhance the value of property, and lay the foundation of increased public and private revenue, it will no longer be regarded as indicating decadence, but the reverse.

If the bulk of our importations consisted of articles essential for immediate consumption for the support of human life, as in the case of a famine-stricken nation, or if our exports should fail to meet such expenditure, the case would be very different and would soon ultimate in national bankruptcy; but when, as is the case in Canada, our importations can be, and are, made the capital to be used in profitable investments, or substantial and enduring improvements, there is nothing alarming in the excess of a few millions in the imports, even though continued for years.

GRAIN.

In view of the extended details which these returns furnish in a clear and concise form, it does not appear necessary to offer further explanations of many of the items. There has, however, been much enquiry made by different persons respecting the transactions in grain, both foreign and domestic, and I therefore beg to remark, that owing to the fact of all kinds of grain being free of duty, and the peculiar nature of the transactions therein, it is a matter of great difficulty to keep up correctly the necessary distinction between the foreign and domestic article. It is also matter of regret that the statistics required hitherto by this Department have not embraced a more extended specification, the only items hitherto required being "Wheat and Indian Corn," while all other grains are grouped together. I propose to require, after the 1st July next, that "Barley and Oats" be separately shown.

As it respects the general correctness of the statements now given, however, I beg respectfully to observe, that having been impressed with the belief that serious errors had crept into the returns, I have made diligent enquiry at the various ports wherein such goods are chiefly imported and exported, and I am happy to say that the result has been to convince me that no important error has occurred, and that in the main the returns are reliable.

It is true that as the great mass of the exports of grain take place at the Port of Montreal, and the imports of the foreign article are made at western ports, chiefly at Kingston, and Canadian grain is also chiefly sent from Ontario to Montreal for exportation, it is scarcely possible to prevent the foreign and Canadian goods from becoming so mixed in transportation as to render it exceedingly difficult to keep the distinction in the export entries. That this is done, however, with approximate correctness, will, I think, be apparent from the following statement:—

Indian Corn.....	235,864
Other grain.....	6,553,478
<hr/>	
Total exports of grain of Canadian produce	\$13,370,559
<hr/>	

The only error, of any consequence, which I conceive possible in these statements, is in the substitution of Canadian grain for foreign in the exports, but as the liability to this mistake is equal on both sides, I am inclined to believe the whole to be very nearly correct. The entire quantity of 20,745,105 bushels of grain was certainly exported in 1873-74.

It should be understood that the Returns do not embrace any grain which merely passes, *in transitu*, from one American port to another.

I am somewhat confirmed in my opinion that the quantities of Dominion produce are not overstated, from having ascertained that the Census Returns of 1871 give the following, in round numbers, as one year's production of the respective kinds of grain.

SUGAR AND MOLASSES.

Referring to the importations of sugar and molasses, I beg leave to observe, that the former article, being subject to a specific and advalorem duty combined, and a very large amount of revenue being dependent upon its importation, it has necessarily engaged a very large share of your attention, especially in reference to its liability to entry at a serious undervaluation. Without venturing an opinion as to whether such frauds have actually taken place to any great extent or otherwise, I may state that there was entered for consumption, during the year, 85,452,194 pounds of sugar, equal to and above No. 9, Dutch Standard, at an aggregate value of \$4,292,706, or a shade under 5½ cents per lb.—Of this quantity Great Britain furnished 26,839,495 lbs., costing a minute fraction under 5 cents per lb.; the United States, 29,164,957, at an average cost of 5·65 cents per lb, and the remaining quantity of 29,447,742 lbs. was imported chiefly from British and Foreign West Indies, and was entered at an average of 4·46 cents per lb.

Of sugars below No. 9 Dutch Standard, there were 16,469,485 lbs. entered for consumption at an average valuation of 3·73 cents per lb. Of this quantity, Brazil furnished 10,133,145 lbs. at 3·55 cents per lb. The remainder was imported chiefly from British and Foreign West Indies, with a small quantity from Great Britain, the United States and the Island of Honolulu.

It is, of course, no part of my duty to express an opinion as to the policy of imposing one description or rate of duty or another, upon this or any other commodity, but as the collection of duties, such as are now levied upon sugar, require that the officers having to accept the entries should be not only intelligent, in a general sense, but should have a good practical knowledge of the business, I may be permitted, very respectfully, to suggest for your consideration, whether it would be practicable or judicious to limit the number of ports at which the commodity should be entered. This system, I believe, has obtained in England, and would be especially important in case of any change in tariff which would increase the number of grades upon which different rates of duty should be imposed.

I beg leave to append to these observations a statement of the principal ports in the several provinces of the Dominion at which the chief importations of sugar now take place, with the quantities of each grade Imported during the Year.

MOLASSES.

The Quantity of Molasses Entered for Consumption in 1874, was 52,728,709 lbs, or 4,793,519 gallons at an average valuation of $17\frac{1}{2}$ cents and a minute fraction, per gallon. Of this quantity, the United States furnished 1,764,734 gallons at an average cost of 15.43 cents per gallon. British West Indies, 1,138,791 gallons at 19-81 cents, and Foreign West Indies, chiefly the Spanish Islands, 1,657,196 gallons at 19-19 cents.

The Molasses imported from the United States is principally the product of the Sugar Houses, and is a very inferior article, requiring straining or clarifying before it is fit for human food, which may sufficiently account for the lowness of the price as compared with the West India produce.

In the same period there was imported from the United States, 812,201 gallons of Sugar House Syrup, clarified or refined, at an average valuation of $35\frac{1}{2}$ cents per gallon, upon which duty was collected at the rate of 25 per cent ad valorem, and $\frac{5}{8}$ cent per lb., specific. This article although generally attractive in appearance, being clear and bright, is not nearly so rich in saccharine matter as ordinary West India Molasses.

In compiling this report an entirely new feature has been introduced in the shape of aggregate statements, for the Dominion, of Imports and Exports, by countries. These statements will be found exceedingly valuable, as they present at one view the whole Quantities and Values of each article Imported to, or Exported from, all Canadian ports during the Fiscal Year.

In reference to the specification adopted, I may be permitted to state that, in consideration of the necessity which has frequently arisen for more minute particulars than the present arrangement supplies, I have, with your sanction, made arrangements for a considerable extension, taking effect in the current Year, principally in a sub-division of the items of "Cottons and Woollens," and also in "Hardware," and will be prepared to submit for your approval, a still greater extension to take effect from the first July next.

In connection with the above, I will also take the liberty of proposing, for your consideration, certain changes in the forms of Returns from the ports, upon which the tables in this report are based, which I trust will be found to effect a large saving in labour, both at the respective ports of the Dominion and this Department, not only without impairing the usefulness of such returns, but presenting in some respects much more reliable and valuable information. The chief alterations thus contemplated, may be fore shadowed, as dispensing with the columns now occupied in the Returns of Imports and Exports, with a statement of quantities imported and exported in British and Foreign vessels and by land carriage. The object of these statements was to ascertain the relative proportion of the carrying trade performed by vessels of British or Foreign registry and ownership, but from the fact that the particulars can only be obtained in a diversity of forms in some cases "weight," in others "measure," and in the largest number of cases, under the very indefinite description of "packages," the relative weight of which it is impossible to ascertain. It will be readily seen that not even an approximation to the tonnage of freight carried by the vessels, can be thus obtained.

In dispensing with these columns, however, I do not propose to dispense with the information which they were intended to convey, but rather to adopt another and much easier and more accurate method of arriving at the desired result. This I propose to accomplish by requiring the actual tonnage of freight, inwards and outwards, of every vessel reporting and clearing, to be embodied in the Shipping Returns. This information can be easily supplied by Masters of vessels, and by requiring them to state it on the face of their manifests, it can be thence transferred to the Custom House records with very little additional trouble.

Should these alterations obtain your sanction, I may assure you, that it will so materially reduce the labor of recording and aggregating the Imports and Exports, at the respective Custom Houses and in this Department, that it will ensure greater promptitude in forwarding and aggregating the returns, and give abundant room for extending the specifications to any limit which may be found desirable.

I also propose, with your approval, to adopt a form of record for the ports, and returns based thereupon, for Licensed Coasting Vessels, and vessels sailing under transire from ports in one province to ports in another. These are not now included in any of the statements furnished, and as their number is large, and the inter-provincial trade carried on by their means, of very considerable importance, I think you will probably approve of the adoption of a proper record of their movements.

It would appear also to be very desirable, now that the mercantile navy of the Dominion has grown to such very large proportions, that the distinction should be maintained, in our Shipping Returns, between vessels owned and registered in Canada, and British and Foreign vessels. Should such be your desire it will necessitate an additional change in the forms of the Shipping Returns and the books of record kept at the ports, but will not involve much additional labour.

All of which is humbly submitted,

J. JOHNSON,

Commissioner of Customs.

January 27th, 1875.

TARIFF OF CUSTOMS
OF THE
DOMINION OF CANADA,

As in Force, May, 1st, 1874.

37 VICTORIA.

CHAP. 6.

An Act to amend the Act 31 Vict., cap. 44, and other Acts amending the same, and the tariff of Duties of Customs imposed by the said Acts and to alter certain duties of Excise.

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. So much of any Act imposing or respecting Duties of Customs or of any Schedule annexed to any such Act, or of any order in Council under any Act, as imposes any specific Duty of Customs on any of the goods or articles mentioned in the next following section is hereby repealed, and the specific duties mentioned in the said section shall be substituted for those imposed on them by any such Act or Schedule or Order.

2. There shall be raised, levied, collected, and paid on the following articles when imported into Canada, or taken out of warehouse for consumption therein, the several duties of Customs set opposite to them respectively, that is to say:—

Unenumerated Spirits and Strong Waters per gallon.....	\$1.50

Spirits and Strong Waters imported into Canada, mixed with any ingredient or ingredients, and although thereby coming under the denomination of Proprietary Medicines, Tinctures, Essences, Extracts, or any other denomination, shall be nevertheless deemed "Spirits or Strong Waters," and subject to duty as such.

Fruits preserved in Brandy or other Spiritsper gal. \$1.50

3. So much of any such Act or Schedule as aforesaid as imposes any duty of Customs upon Tobacco and Snuff or Wines, is hereby repealed; and the following articles, when imported into Canada, or taken out of warehouse for consumption therein, shall be respectively charged with the several duties of Customs herein-after mentioned, that is to say :—

Tobacco and Snuff, 12½ per centum *ad valorem*, and 25 cents per pound.

Wines of all kinds, including Ginger, Orange, Lemon, Gooseberry, Strawberry, Raspberry, Elder and Currant Wines, a specific duty of 30 cents per gallon (5 quart and 10 pint bottles to be held to contain a gallon) on all wines containing less than 20 per cent. of alcohol, and not worth more than 40 cents per gallon.

On all other wines, except sparkling, 60 cents per gallon, when imported in wood, and if imported in bottle, \$1.50 per dozen of quart bottles, 5 whereof contain a gallon, and so in proportion.

On all sparkling wines, \$3 per dozen of quart bottles, 5 whereof contain a gallon; being at the rate of \$1.25 per gallon, and so in proportion.

Provided always, that no liquor containing more than 25 per cent. of alcohol shall be admitted as wine.

4. So much of any such Act or Schedule as aforesaid as imposes any duty of Customs on "non-enumerated" goods and packages is hereby repealed, and the following provisions substituted therefor, that is to say :—

The following packages, viz., Bottles, Jars, Demi-Johns, and Carboys, whatever be their contents, and Brandy Casks, Barrels or other packages in which Spirituous Liquors, Wines and Malt Liquors are contained, and barrels, or other packages in which Petroleum Oils or the products thereof are contained,—and all goods not enumerated in this or any other Act as charged with any duty of Customs, and not declared free of duty by this Act or some other Act or provision unrepealed by this Act,—shall be charged with a duty of Customs of *seventeen and one-half per centum ad valorem*, when imported into Canada, or taken out of warehouse for consumption therein;

But all packages not hereinbefore specified (and not specially charged with duty under section four of the Act 31 Victoria, chapter 44, or any other un-repealed enactment) and being the ordinary or usual packages in which goods are packed for exportation according to the general custom and usage of trade, shall be free of duty.

5. So much of any such Act or Schedule as aforesaid, as declares any of the following goods being "Manufactures and products of Manufactures," that is to say :—

Locomotive Engine Frames, Axles, Cranks, Hoop Iron or Steel for tires of wheels, bent and welded, Crank Axles, Piston Rods, Guide and Slide Bars, Crank Pins and Connecting Rods,
 Machinery for Mills and Factories of kinds which are not then manufactured in the Dominion,
 Cotton netting for India Rubber Shoes and Gloves,

 Woollen netting for India rubbers and gloves,
 Linen Machine Thread,
 Plush for hatters' use, and for gloves,
 Prunella,
 Machine twist and silk twists,
 Felt used for gloves,
 Felt for hats and boots,—

to be free of duty, or subject to any higher duty than 10 per cent., is hereby repealed; and the said goods or articles respectively when imported into Canada or taken out of warehouse for consumption therein, shall be charged with a duty of Customs of *ten per centum ad valorem*.

6. So much of any such Act or Schedule as aforesaid, as declares any of the following goods being "Manufactures and Products of Manufactures," that is to say :—

Ship materials, viz:—

Binnacle lamps,
 Blocks and patent bushes for blocks,
 Bunting,
 Compasses,
 Dead Eyes,
 Dead Lights,
 Deck Plugs,
 Knees, Iron,
 Pumps and pump gear,
 Riders, Iron,
 Shackles,

Iron of the following descriptions, viz:—

Iron—scraps, and galvanized,
Bars—puddled,
Blooms and billets, puddled or not puddled,
Bolts and spikes galvanized,

Wire, whether galvanized or not, except for wire rigging, to be free of duty, is hereby repealed; and the said goods when imported into Canada or taken out of warehouse for consumption therein, shall be charged with a duty of Customs of *five per centum ad valorem*.

7. Schedule C to the Act passed in the thirty-first year of Her Majesty's reign, chaptered forty-four, containing the list of "Free Goods," is hereby further amended by striking out of the said schedule under the heading "Drugs, Dye Stuffs, Oils and Colors not elsewhere specified," the words "Woods when chiefly used in Dyeing," and substituting therefor the words "Woods unmanufactured, when chiefly used in Dyeing," and by adding to the said Schedule under the heading, "Manufactures and products of manufactures," the words "Wool waste and—under the heading natural products—Flax seed."

8. The fair market value for duty of all goods upon which any *ad valorem* duty of Customs is chargeable under this Act or any other Act, shall be ascertained and determined, except as hereinafter provided, in accordance with the provisions of the sections twenty-nine to forty-six, both inclusive, of the Act passed in the thirty-first year of Her Majesty's reign, intituled "*An Act respecting the Customs*," so much of any Act as is inconsistent with this section being hereby repealed.

9. Whereas difficulties have frequently arisen in determining the fair market value for duty of goods imported into Canada, being the manufacture or production of foreign countries or of Great Britain, such as Musical Instruments, Sewing Machines, Agricultural Machines or Implements, Medical preparations, commonly called patent medicines or other similar goods, the prices of which are published by the manufactures or producers, or persons acting in their behalf, it is hereby enacted that the Governor in Council may from time to time, fix and determine a certain rate of discount which may be deducted from such published prices of any such manufactures or productions, and the remainder of such published price after deducting such rate of discount, shall be deemed and taken to be the fair market values for duty of any such manufactures or productions as may or shall be specified in such Order in Council, anything in this or any other Act to the contrary thereof notwithstanding.

10. The fourth section of the Act passed in the thirty-fourth year of Her Majesty's reign, intituled "*An Act to amend the Act relating to duties of Customs*," is hereby repealed, and the following is substituted therefor:—

"4. Notwithstanding anything contained in this or any other Act, the Governor may until the first day of January, 1875, authorize the admission free of duty of any machinery to be used in any Canadian manufactory, on satisfactory evidence that like machinery is not then manufactured in Canada."

11. The sub-section numbered 2, of the thirty-first section of the Act 31 Victoria, chapter 8, intituled "*An Act respecting the Inland Revenue*" as amended by the first section of the Act 31 Victoria, chapter 50, is hereby repealed, and the following substituted therefor:—

"2. On every wine gallon of spirits of the strength of proof of Sykes' hydrometer, and so in proportion for any greater or less strength than the strength of proof, and for any less quantity than a gallon, seventy-five cents. .

12. The sub-sections, numbered respectfully 6, 7 and 8, substituted by the Act 33 Victoria, chapter 9, for the sub-sections so numbered of the said thirty-first section of the said Act 31 Victoria, chapter 8, are hereby repealed, and the following substituted therefor, respectively:—

"6. On Cavendish Tobacco and Snuff, and on manufactured Tobacco of all kinds, except cigars and common Canada twist, on every pound or less quantity than a pound, twenty cents."

"7. On common Canada twist, otherwise called *tabac blanc en torquette*, being the unpressed leaf, rolled and twisted, and made wholly from raw tobacco, the growth of Canada; for every pound or less quantity than a pound, ten cents."

"8. On Cigars, for every pound or less quantity than a pound, forty cents: subject to an abatement or allowance for moisture in calculating the weight for duty, to be fixed from time to time by the regulations to be made by the Governor in Council."

13. The foregoing sections of this Act, and the alterations thereby made in the duties of Customs or of Excise, on any articles or goods, shall be held to have come into force and have taken effect on the first day of May, in the present year of our Lord one thousand eight hundred and seventy-four, and to apply to and determine the duty payable on any article or goods imported into Canada or taken out of warehouse for consumption therein, or (as respects duties of Excise) manufactured or made or on which duties of Excise have become payable, on or after said day: But all duties of Customs or of Excise paid under authority of the resolutions of the House of Commons, passed on the fourteenth day of April in the said year, on any goods entered for duty between that date and the said first day of May, shall be deemed and taken to be the lawful duties payable thereon; provided, nevertheless, that the Minister of Customs or the Minister of Excise, respectively, may order the refund of any sum so paid in excess of the duties with which such goods are chargeable under this Act.

14. So much of any Order in Council now in force under the Act passed in the thirty-fifth year of Her Majesty's reign, chaptered twelve, as imposes any duty on Tea or Coffee, imported into Canada, from the United States, and so much of the said Act or of the Act passed in the same year of Her Majesty's reign and chaptered eleven, as provides that Tea or Coffee imported, in any way, into Canada, shall be free of duty, is hereby repealed.

15. The foregoing sections of this Act shall be construed and taken as forming one Act with the Acts hereinbefore cited and amended; and all words and expressions used in this Act, shall have the meaning assigned to them in the said Acts, and all provisions of the said Acts, and of the regulations made or to be made under them or either of them, or continued in force by them or either of them, shall apply to the duties imposed by or payable under this Act, except in so far as they may be inconsistent with it.
