The Jordan Valley

In Southeastern Oregon is a beautiful, fertile district that you ought to investigate. Many shrewd farmers are buying there, because their keen business foresight tells them that investment will pay big returns from the natural increase in the value of the land alone, to say nothing of the big crops that they can produce. Prices low; terms easy.

ITALIANS HOLD LINE AT PIAVE

Teuton Forces Which Crossed River Have Made No Progress.

A despatch from London says: Everywhere along the battle-front, from Lake Garda eastward, and thence southward along the Piave River to the Adriatic Sea, the Italians are holding the enemy in check, except in the hilly regions in the vicinity of the Asiago Plateau, where a seasonal gains have been made by the invaders. The new advances by the Teutonic allies, as observed on the war maps, do not indicate that points of extremely great strategic value have been won, but rather that the Italians on various sectors have given ground before superior numbers and at the same time have straightened out and lessened the length of their front.

In the hills north of the Venetian Plains General Diaz, the new commander-in-chief of the Italians, has withdrawn his advanced posts south of Montebelluna. On the Asiago Plateau, and thence eastward to where the battle-front meets the upper reaches of the Piave River the German and Austro-Hungarian forces are adding strength to their attacks, doubtless hoping to drive through the highland country to the plains of Venetia before the expected arrival of British and French reinforcements becomes a fact.

WASTAGE EXCEEDS NUMBER OF RECRUITS.

A despatch from Ottawa says: The total wastage of infantry in the Canadian Expeditionary Force last month exceeded the total number of recruits enlisted by 1,898, according to figures given out by the Militia Department. The total wastage was 3,648, being made up of 1,017 men discharged in Canada; 1,565 returned to Canada from overseas for discharge, and 1,068 casualties overseas. The total number of recruits secured for overseas service in the Canadian infantry during October was 1,750. Of these 1,045 men were recruited in the United States, 693 in Canada, and the remaining 12 in England.

BRITISH HAVE 166,000 PRISONERS.

A despatch from London says: In the House of Commons recently, during a speech, Henry William Forster, Financial Secretary of War, said that since July 1, 1916, the British had captured from the Turks 30,197 prisoners and 186 guns; and from the Germans on the western front 101,534 prisoners and 519 guns. The approximate square mileage in territory conquered or reconquered by the British in the same time, said Mr. Forster, was 128,000. The total number of prisoners captured on all fronts since the beginning of the war was 166,000, while the captured guns number 800.

NO JAPANESE TROOPS TO GO TO EUROPE.

A despatch from Tokio says: Lieutenant-General Oshinai, the Japanese minister of War, informs Japanese newspapers that the despatch of troops to Europe is an absolute impossibility owing to the tremendous cost and the lack of tonnage. Baron Takahashi, former minister of Finance, and one of the leaders of the Soiyukai party, in a lengthy article in the newspapers, declares the Japanese army is deficient in ordnance and airplane equipment.

DENMARK TO EXPEL ALL FOREIGN SPIES.

A despatch from Copenhagen says: The Government has submitted a bill to the Danish Parliament authorizing the expulsion from Denmark of any undesirable foreigner, even those residing in the country for more than two years.

The law is aimed at spies and other objectionable persons, but may also be invoked, following the Norwegian precedent, to reduce alien consumers of Denmark's food supplies.

COUNTER-ATTACK OF FOE FAILS

Could Not Dislodge Canadians From Passchendaele Ridge.

With the British Army in Belgium. The forces of Crown Prince Rupprecht of Bavaria have made their first pretentious effort to regain Passchendaele village in accordance with the edict of Field Marshal von Hindenburg that the place should be recaptured, and have failed.

The enemy's attack, made late Wednesday afternoon, against positions on the crest of the ridge north of the hamlet, was essayed with large forces and was a most determined attempt to retake this gem of their defenses; but the assaulting troops were hurled back again after a grim struggle, leaving the British line before Passchendaele intact.

The greater part of the enemy infantry was stopped by the tremendous British artillery barrage, which ploughed through their ranks as they began the advance; but some of them, answering to that famous discipline ingrained by Prussian military rule, pushed through this rain of death and reached the British front line.

KAISER'S PNEUMATIC TIRES.

All Others in Germany Are Using Very Poor Substitutes.

The Kaiser is the only person in Germany using pneumatic tires, according to Victor Van der Linde, of the B. F. Goodrich Rubber Company, who has just returned from a tour of Europe. No tires are obtainable in Germany and Austria. In Holland they cost \$350, in Spain \$125, in Russia and Italy \$100, and in England and France \$90.

German scientists have tried to improvise for the scarcity of rubber by compounding what they call synthetic rubber, said Mr. Van der Linde. But in this they have been unsuccessful. There is not an ounce of crude rubber in Germany, and therefore it is devoid of fibre. This synthetic rubber has cost about fifteen times more a pound than the vegetable.

The situation of both Germany and Austria in regard to tires is deplorable. Countries bordering on the Central Empires, with the exception of those that are at war with them, are in just as bad plight.

Most casings are stuffed with compressed champagne corks, paper, rags and sawdust of ground cork. Some have been filled with sand and dirt. This only refers to those cars that have ragged casings left. Most automobiles have ground away their shoes and move about on rims bound with rope. There is not one bicycle tire left in Germany outside of those on military bicycles. Raids by the wholesale were conducted on shops and residences, and all bicycle tires seized. In fact, everything in rubber has been reclaimed for tire construction and submarine battery cells.

Gasoline is as big a problem as tires, according to Mr. Van der Linde. In no country can it be had without government permit, and in Germany prices are practically prohibitive.

An automobile trip of 200 miles in Germany would cost the average German \$200 in gasoline alone. Gasoline costs the German and Austrian \$6 a gallon, the Hollander \$1.50, the Frenchman \$1.25, the Spaniard \$1.10, the Italian \$1 and the Englishman ninety-five cents.

Spain has taken advantage of its neutrality to build up a big automobile industry, and has built truck haulage systems equal to our railroads. Shortage of railroad equipment forced Spain to adopt the truck as the chief means of travel.

A Baby Elephant.

A baby elephant when he stands up for the first time is so clumsy in all his movements that to watch him is a circus in itself. He cannot seem to understand what his legs are made for, he stumbles over them, steps on his trunk, falls down; it takes quite a few hours before he begins to realize that his trunk is made to pick things up and that his feet are to stand on and to walk around with. He is, when very young, as pink as a little mouse, but after a few weeks he starts to grow dark gray.

Markets of the World

Breadstuffs

Toronto, Nov. 20.—Wheat—No. 2, \$2.24; No. 2 do., \$2.20; No. 3 do., \$2.17; No. 4 wheat, \$2.10; in store Port William, including 2 1/2% tax, \$2.15; No. 1 extra feed, 69¢; No. 1 feed, 64¢; in store Fort William, \$2.00; American corn—No. 3 yellow, nominal; Ontario oats—No. 2 white, 70 to 71¢; nominal; No. 3 do., 63 to 64¢, according to freight outside; Ontario wheat—New, No. 2 winter, \$2.22; basis, in store, Montreal, \$2.20; No. 2, \$2.30 to \$2.30, according to freight outside; Farley—Milling, \$1.21 to \$1.22, according to freight outside; Rye—No. 2, \$1.75, according to freight outside.

Toronto, Nov. 20.—Extra choice heavy steers, \$11.50 to \$12.00; do. good heavy, \$10.75 to \$11.25; butchers' cattle, choice, \$10 to \$10.25; do. good, \$9.25 to \$9.55; do. medium, \$8.75 to \$9.00; do. common, \$7.50 to \$8.00; butchers' bulls, choice, \$8.50 to \$8.75; do. good bulls, \$7.40 to \$7.85; do. medium bulls, \$6.50 to \$7.10; rough bulls, \$5 to \$6; butchers' cows, choice, \$8.25 to \$8.75; do. good, \$7.60 to \$8.00; do. medium, \$6.00 to \$6.75; do. common, \$5 to \$5.75; canners and cutters, \$5 to \$5.50; milkers, good to choice, \$7 to \$8.50; springers, heavy, \$5.25 to \$7.00; yearlings, \$12 to \$13; calves, good to choice, \$14 to \$15; Spring lambs, \$12.50 to \$12.75; do. fed and fattened, \$12.50 to \$12.75; do. weighed off cars, \$17.65 to \$18; do. Febs., \$16.50 to \$17.75.

Chicago Steers

Chicago, Nov. 20.—Chosen steers, \$10 to \$10.25; good, \$9.50 to \$9.75; fair, \$8.50 to \$9; common, \$7.50 to \$8; butchers' cows, \$6.25 to \$8; bulls, \$6.50 to \$8.25; per 100 lbs., canner bulls, \$9.25 to \$9.50; cows, \$8.25 to \$9; do. 100 lbs., Ontario hams, \$15 to \$16.50; Quebec, \$14 to \$14.50; per 100 lbs., sheep, \$9.50 to \$11; choice milk-fed calves, \$13 to \$14; good, \$11 to \$12; grass-fed calves, \$9.50 to \$10.00; per 100 lbs.; hogs, \$17 to \$17.50.

The Japanese have three forms of salutation—one for saluting an inferior, one for saluting an equal, and another for saluting a superior.

After baking out the fat from the tallow of beef the cracklings can be ground fine, mixed with rice and fried in cakes.

THE MILK COMMITTEE

In the above picture are shown the members of the milk committee, appointed by the food controller, who has made a careful study of the milk situation in this country, considering such questions as supply, costs of production, utilization, etc. P. B. Tustin of Winnipeg, the chairman of the committee, is one of the foremost experts on dairy matters in Canada. He is honorary secretary for Western Canada of the Royal Sanitary Institute. He is also a member of the Institute's examining board for Western Canada. Mr. Tustin is chief of the food and dairy division of the city of Winnipeg, and manager of the child welfare bureau of that city. W. A. Wilson, of Regina, is dairy commissioner of Saskatchewan, and has done much for the dairy industry in the prairie provinces. Dr. Boucher and Dr. MacKay are medical health officers of Montreal and Halifax, respectively. Commissioner Wigmore of St. John, N.B., and Ald. Hamilton, of Vancouver, have both given much time to a study of the milk problem. E. H. Stonehouse, of Toronto, and John Bingham, manager of the Ottawa Dairy, represent the milk producers and the milk distributors respectively.

FROM SUNSET COAST

WHAT THE WESTERN PEOPLE ARE DOING.

Progress of the Great West Told in a Few Pointed Paragraphs.

Many new birds and animals have recently been donated to the zoo at Stanley Park, Vancouver.

Only two of the eleven hotels between Shawinigan Lake and Chemainus have closed down as the result of prohibition.

Indians and traders at the Yukon are looking with dread to the winter, owing to fear of starvation for the Indians and a small fur catch for the traders.

The total assessed values of property in the 35 city and 28 rural municipalities of the province of British Columbia this year is \$579,626,112.10, not including exempted values aggregating \$37,612,256.04.

On account of the unexpired portion of the license year the Provincial Government has to pay to former licensed premises in the unorganized districts of the province with the advent of prohibition a sum of \$10,911.50.

Work on the new plant of the Pacific White Lead Co. on Industrial Island has started, and it is expected that the industry, which is the first of its kind in this province, will be fully established in three months' time at the outside.

William Cooley, Kirkman creek operator, brought to Dawson several fine specimens of nuggets, one particularly fine one being as large as a walnut. Cooley reports that a good many men are preparing to work on Kirkman this winter.

SECURE JUNCTION OF JERUSALEM RY.

British Make Important Progress in Palestine Campaign.

A despatch from London says: The junction of the Beersheba-Damascus Railway, with the line to Jerusalem, is now in the possession of the British army.

The following official statement of operations in Palestine was issued on Thursday: "Our infantry and mounted troops continued their advance, Gen. Allenby reported yesterday, and we now hold the railway line in the vicinity of El-Mansurah and Na'ameh, including the junction of the Damascus-Beersheba railway with the line to Jerusalem.

"The losses inflicted on the Turks on Tuesday were heavy, including 400 buried at Katrah alone. Our captures on Tuesday amounted to more than 1,500 prisoners, 20 machine guns, and four guns."

GREAT BRITAIN'S TRADE SHOWS AN INCREASE.

A despatch from London says: The Board of Trade returns for October show the following: Imports, £94,260,964, an increase of £18,101,000 over the previous month, and exports, £50,757,054, an increase of £6,041,800. The chief increases were in imports of cotton, amounting to £5,020,948, and in exports of cotton of £2,931,323.

All steel passenger cars are being adopted on Egypt's state railways.

STORING COAL UNDER WATER.

To Prevent Deterioration Caused by Exposure to Air.

Coal when exposed to the air undergoes some deterioration. It loses heating value. Under such conditions it is really undergoing a process of slow combustion, i.e., oxidation. To prevent this, the United States navy yards within recent years have resorted to the expedient of storing thousands of tons of coal under water. It was thought that salt water was better for the purpose than fresh water.

An elaborate series of experiments recently conducted by the U. S. Government Bureau of Mines has proved that the deterioration can be almost entirely prevented by this means, though salt water is no better than fresh. But the loss in the open air is only about 1 per cent. a year, and so the water cure does not pay.

The Doings of the Duffs.

Overland

Country Club
Four Passenger Sport Model

Smart Economy

Come in and see this car. It has the smartest style of any car ever produced to sell at so low a price. In fact it is the only smart sport model among low priced cars. And it is as economical as it is smart. The motor is a wonder—smooth—lively—powerful—yet with a very low consumption of gasoline and oil. It has cantilever rear springs which make it exceptionally easy riding and easy on tires. The unique seating arrangement provides comfortable room for four large people. And it is just as comfortable for a big man as for a little woman to drive for the front seats are adjustable forward or back. Five wire wheels are included in the price. Come in and look it over.

\$1110

Including Five Wire Wheels
f. o. b. point of shipment.

PETER REUBER

W. A. Craik, writing in The Financial Post points out that one of the most satisfying features about a Victory War Bond is the almost complete absence of disquieting fluctuations in its market value. When one considers how the values of most securities have shrunk during the war period, it is a relief to find at least one investment which has not been subject to any serious decline in price. This in itself is an excellent reason for putting money into war bonds and should commend itself to all those who wish to maintain their capital unimpaired during a period of the greatest financial unsettlement, while at the same time deriving a substantial return from investment.

Peas as Money Makers.

The pea weevil has not yet got in its work on Bruce Peninsula and in consequence the farmers above Wiarton are finding it profitable to grow peas in war times. They are being paid \$4 a bushel and very few farmers have less than 200 bushels. The peas are shipped to Quebec for soup for the nababants and are manufactured into flaked peas for household use. Peas are too high priced to feed to hogs.—Chesley Enterprise.

According to a report published from an authentic and reliable source, the human race may soon be fed on a ration. Alfalfa was served to Kentucky farmers in the form of hot biscuits, doughnuts, cake and candy, at a luncheon during the recent annual farmers' week exhibition of the Agricultural College at the state university. The progressive young women of the domestic science department took care of the cookery and convinced their farmer guests that very palatable products may be obtained for the table from their alfalfa crops. The flour of alfalfa is of a creamy tint before cooking and a light green afterwards, and while pea-green biscuits may not at first appeal to the average housewife, the flavor is regarded by many as rich and delicious. Food requirements may easily result in greatly increased use of alfalfa flour in the near future. The recipes used cooking it are about the same as those for wheat flour. Alfalfa candy is made from a glucose pressed from the stalk.

ALL AT HOME SHOULD PREPARE FOR WAR

The first test a man is put through for either war or life insurance is an examination of his water. This is most essential because the kidneys play a most important part in causing premature old age and death. The more injurious the poisons passing through the kidneys the sooner comes decay—so says Dr. Pierce of Surgical Institute, Buffalo, N. Y., who further advises all people who are past thirty to preserve the vitality of the kidneys and free the blood from poisonous elements, such as uric acid—drink plenty of water—sweat some daily and take Anurie, double strength, before meals.

An-uric is a discovery of Dr. Pierce, and can be obtained at drug stores. For that backache, lumbago, rheumatism, "rusty" joints, swollen feet or hands, due to uric acid in the blood, Anurie quickly dissolves the uric acid as hot water does sugar. Send 10 cents to Dr. Pierce for trial pkg.

Thorold, Ont.—"I think Anurie is the best I have ever taken. My kidneys had given me trouble for some time. I would suffer from backaches and also swelling of the limbs. I took Anurie and it has entirely cured me of all my backaches and has strengthened my kidneys so I feel safe in recommending it to others who suffer."—Mrs. C. A. Clarke, Box 1179.

Toronto, Ont.—"For the last eight years I have suffered with kidney trouble and rheumatism. It began with pains in my back and finally left my back and went down into the feet. It developed into a chronic case. I tried every medicine I could hear of and consulted some good doctors, but still I kept on suffering. About a year ago a friend advised me to give Anurie a trial, and am happy to say I am today a well man—never feel any traces of my ailment no matter what the weather conditions may be. Anurie is a real kidney medicine in every sense."—E. F. Garrison, 5 Malinda Street.

A Carrick farmer asks: If I invest my money in the Canadian Victory Loan what would be the result if I should need the money? Any bank in Canada will loan on these bonds up to practically their face value, as then quoted in the market. There is no security issued to day on which, at the present time or in the future, that the borrower can secure a loan nearer the face value. When two or more women get together one of the things you don't hear is silence. It wouldn't be so bad if people who have nothing to say would let it go at that.

The Jury Disagrees.

After an all-day trial on a charge of murder, the jury at Goderich last week failed to agree in the case of James McCracken, twenty-seven years old, who was alleged to have murdered his young wife on their farm in Morris township, near Brussels. The case was then postponed until the next Assizes. Justice Sutherland presided.

On the evening of Sunday, July 22, Mrs. McCracken returned home from a drive which she had taken with a cousin of her husband, against her husband's will. It was claimed by the defence that McCracken placed his hand on his hip pocket to draw a revolver, threatening to kill himself if she persisted. As he drew the gun she is said to have rushed in to stop him, and in the scuffle she was shot in the temple and instantly killed. He claimed the shooting was accidental.

Wm. McCracken, father of the young man, was one of the Crown witnesses. He told of the circumstances attending the shooting, of which he was an eyewitness. Others who gave evidence were two cousins of the prisoner.

A fire which began in the Queen's Hotel, Drayton, early Monday morning resulted in a property loss of about \$60,000. After the hotel was a mass of flames the fire took W. W. Smith's harness shop, Cutting's flour and feed store, Hudson's barber shop, Kerr's barber shop, H. G. Bibb's big general store, then going north and burned the fine brick residence of Mr. K. O. Noecker. There was a vacant store in the middle of the block, which was also destroyed. The town officials sought assistance from Harriston and a fire engine was sent over as quickly as possible, and shortly after seven o'clock the fire was under control. The greater portion of the contents of the buildings burned were removed, but the buildings themselves are almost a total loss, only the charred walls remaining standing.

No grain of any kind and no substance that can be used for food shall be used in Canada after November 30 for the distillation of potable liquors. An order-in-council to this effect has been passed upon the recommendation of the Food Controller.

Chances of Coming Back from War.

The following statements are based upon actual war experiences: If your boy goes to the front: He has twenty-nine chances of coming home to one chance of being killed. He has ninety-eight chances of recovering from a wound to two chances of dying. He has only one chance in 500 of losing a limb. He will live five years longer because of physical training. He is freer from disease in the army than in civil life. He has better medical care at the front than at home.

In other wars from ten to fifteen men died from disease to every one of bullets. In this war one man dies from disease to every ten from bullets. This war is less wasteful of life than any other in history in proportion to the number engaged. Only 10 per cent of all Canadians disabled for further service have been physically unable to engage in their former occupations. If your boy is one of the 10 per cent, the Government will re-educate him in another vocation at which he can earn a living.

Queer Libel Case.

One of the most unusual libel actions, if not the only one of its kind in Canada, was tried before Mr. Justice Middleton of the Supreme Court of Ontario at London on Thursday. Ex-Ald. William Wilson was the plaintiff, and his claim against The London Free Press was that his name had been consistently left out of that newspaper. Following a difference with the plaintiff when he was a member of the city council, the Free Press municipal reporter was instructed to omit the name of Mr. Wilson from his city hall reports. Free Press reports were produced, showing that the plaintiff was always "an Alderman," "another Alderman," or "the same Alderman." The jury returned a verdict for the defendants, the plaintiff to pay costs.

WINNER OR WASTER - Which are You?

On a recent occasion the Honorable the Minister of Finance for Canada, in addressing a representative Canadian audience, dealt with the urgency of everybody doing, even in the smallest way, their share towards aiding the Empire.

It is well to remember that every dollar thrown away extravagantly does one hundred per cent. more good to the enemy than one dollar saved by ourselves.

The wealth of the world finally filters through individual dollars, and if the curse of extravagance strikes deeply enough, our ruin is bound to follow.

Save a dollar TO-DAY and do a hundred per cent. more for the Empire than your extravagant neighbor does for the enemy.

Interest to Depositors at 3 per cent.

Agent - Mildmay

Gratification is expressed in both the United States and Great Britain that the period of distrust between Japan and the United States has ended. The aims enunciated concerning China are identical with Great Britain. It is likely that Japan will now go the aid of Russia, both militarily and industrially, if that nation continues to fight with the Allies.

ADDITIONAL LOCALS.

Big Premium Sale starting Dec. 1st to Jan. 1st at Weiler Bros.

The snow storm this week was another reminder that winter is approaching.

The Carrick Council will meet for the last session of 1917 on Saturday, Dec. 15th.

According to the Provincial Registrar's statement, when the official list of men drafted for service by the tribunals they will be assorted by cards according to age. It appears age will be the chief point in deciding who shall go first.

Mr. Conrad Schmidt, ex-reeve of Carrick, attended the Win-the-War convention here on Monday. Mr. Schmidt may be in the field again for reeve at the coming municipal elections.—Herald & Times.

Last year a license was required to hunt or trap foxes and other fur bearing animals on premises not owned by the hunter. It is not necessary this year, we learn to hunt or trap foxes.

The Red Cross Society will give an entertainment in the town hall about the middle of December. A colored quartette has been engaged to furnish the program, and all who like good singing should watch for this date.

Ninety-four per cent of the applications for exemption under the provisions of the military service act passed upon by the tribunals operating in Montreal district have been granted. If this percentage is maintained, and an official in a position to know stated that it would be maintained, Montreal's contribution to the new army will only total 4,200 men.

Winnipeg Wedding.

Nuptial Mass was celebrated at 6.30 a. m., Monday, November 12th, at St. Mary's Church, Winnipeg, by the Rev. Father Patton, when Miss Lena Wedge, daughter of Mr. and Mrs. Paul Wedge of Summerside, P. E. I., became the wife of Mr. John L. Koehmstedt, son of Mr. and Mrs. Lawrence Koehmstedt of Minto, N. D. The bride was given in marriage by Mr. M. Schurman, and Miss Margaret Wedge was her sister's attendant, while Mr. E. C. Kehoe assisted the groom. The bride was smartly attired in a suit of Burgundy velour, with seal trimmings, the coat opening over a dainty blouse of white Georgette crepe, with bead embroidery. She wore a corsage bouquet of Maryland rosebuds and valley lilies. Her hat was of black seal, with a crown of tricotine, and she carried a seal muff, the gift of the groom. The bridesmaid wore a navy blue suit, with hat to match; her corsage bouquet was of Ophelia roses. Throughout the service, appropriate music was rendered by the organist, and, at the Offertory, Miss Gertrude Koehmstedt of Minto, sister of the groom, sang an 'Ave Maria' by Caro Roma, and 'God make Thee mine' during the signing of the register. Immediately after the ceremony, Mr. and Mrs. Koehmstedt left for their honeymoon to Florida, and will visit Minneapolis and Chicago en route, after which they will take up their residence in Minto.—Manitoba Free Press.
