ALLIED AIRMEN RECONNOITERING OVER KRUPP WORKS AT ESSEN

Believed That Attack by Huge Aerial Fleet is Imminent—Russians Waiting and Ready for Expected German Onslaught—Situation Unchanged on Italian Frontier—Britain Regulating Prices of Coal.

FRENCH AVIATORS OVER ESSEN.

LONDON, July 14.—Paris despatches report that a fleet of French aviators yesterday made a reconnaissance over Essen, Germany, this is said to be preliminary to an attempt to destroy the Krupp works.

RUSSIANS WAITING AND READY FOR ENEMY.

LONDON, Petrograd despatches report that the Russian forces are established on an advantageous line both in Poland and Galicia, but that the expected renewal of the Austro-German offensive still hangs fire; the Russians are apparently waiting for the enemy to move.

TERRIBLE FLOODS IN CHINA.

HONG KONG, July 14.—Unprecedented floods are raging in the provinces of Kwangtung, Kwansi, and Kiangsi; entire villages on the west river in Kwangsi have been wiped out by the rushing waters and thousands of natives drowned.

MINISTER AUBREY WHITE DEAD.

TORONTO, July 14.—Aubrey White, C.M.G., deputy minister of lands and forests for Ontario, died this morning at his summer home in Muskoka following an attack of apoplexy. Mr. White, who was one of the most prominent members of the Masonic Order in Canada was born in Ireland in 1845.

LIEUT. ACCIDENTALLY KILLED AT TORONTO.

TORONTO, Lieut. George R. Kappelle, 9 Meredith Crescent, was killed early today by the accidental discharge of a gun in his own house while he was attempting to shoot a bat which had flown in. Lt. Kappelle was 24 years old and a son of the late George Kappelle, K.C.

VON HINDENBURG DISMISSED AFTER ADVOCATING PEACE.

PARIS, July 14.—A neutral traveller, just arrived here from Germany, has told the Temps that the best informed persons in Germany believe that Gen. von Hindenburg has told the Kaiser that the war has reached its climax for Germany, and that as no greater advantage can be expected it will be well to seek peace and thus prevent a continuation of a profitless butchery. At this the Kaiser is said to have ordered von Hindenburg to be silent and to leave his presence. Immediately afterward he issued an order giving Gen. Mackensen von Hindenburg's place. The party which preaches "war to death" considers that it has won a great victory in von Hindenburg's disappearance.

PLAN TO RESTORE BALKAN LEAGUE.

LONDON, July 14.—In the east the operations are entering a new phase, the Russians having been successful in their counter attack against the Austrians in the region of Krasik. They have taken new positions in the hills to the north of that town and apparently are waiting for the Austro-Germans to make a move. It is not expected that this will be long delayed, for Gen. von Mackensen has had time to receive reinforcements and supplies of guns and ammunition for his next great effort to secure control of the Lublin-Cholm Railway.

The Balkan situation is again in the limelight as a result of the disclosures that the Austro-Germans have offered Roumania alternative concessions, either to continue neutral or join with the Germanic allies. Confidence is expected in British, French and Italian circles that the Balkan states will not join the Austro-Germans, but it is considered likely that owing to the failure of Russia to hold Galicia and Bukovina, they might decide to remain neutral. Of course, success by the allies in the Dardanelles, where they are unofficially reported to have gained further Turkish trenches, would change the situation.

It is also said that the former Greek premier, Venizelos, in anticipation of his return to power has arranged to reorganize the Balkan alliance, of which he was the founder. Venizelos has been a supporter of the grand alliance, and in the event of such reorganization it is suggested that the Balkan states might possibly join this combination.

SUCCESS IN DARDANELLES APPARENTLY NEAR AT HAND.

TURIN, July 14.—News has been received here that the German military attaché has just left Constantinople with over two tons of baggage. The German embassy archives also have been removed from the Turkish capital. German patrons also are withdrawing their deposits from the Constantinople city banks. Il Secolo has this news from its special envoy in the Roumanian capital and he announced the news with a statement that the general impression exists here that the collapse of the Turkish-German defense at the Dardanelles is near.

CANADIAN PREMIER HAD AUDIENCE WITH KING.

LONDON, July 14.—Sir Robert Borden was received at Buckingham Palace today and had a lengthy audience with the King. Sir Robert today received a cable from Hon. Louis Botha, thanking him for Canada's congratulations on the acquisition of German South-West Africa.

TURKISH SUPPLY OF AMMUNITION RUNS LOW.

THE HAGUE, July 14.—According to despatches received from Berlin the cabinets of Berlin and Vienna have made representations to force Roumania to permit the transportation of ammunition from Germany for Turkey over the Roumanian territory. It was confessed that Turkey will be unable to continue the defence of the Dardanelles if she cannot secure a large supply of ammunition from Germany at once.

WILL ACCEPT MEN WITH SLIGHT DEFECTS.

BIRMINGHAM, July 14.—The recruiting authorities in Birmingham have received a communication from the War Office instructing them to invite men who were previously rejected for army service because of weak eyesight, bad teeth or slight physical defects, again to submit themselves for medical examination. In the future no man organically sound will be rejected by the recruiting officers, as those who are unfit for campaigning can be used for home defence and garrison duty.

NEARLY HALF MILLION BRITISH ARE IN FRANCE.

LONDON, July 14.—The divisions of the British army that went out at the very outset of the war have been followed by others and yet others, and unless I am mistaken we have twenty-two or twenty-three divisions, (approximately 420,000 to 440,000) at this moment in the European theater.

Lord Lansdowne made this statement in moving the second reading of the national registration bill in the House of Lords this evening. He added that all the time War Secretary Kitchener has been recruiting his armies and the stream of men has been flowing in volume, which was a matter of surprise to most people. The stream of equipment did not flow so satisfactorily but prodigious efforts had been made to remedy the errors and he was glad to think that those efforts had been attended with a considerable amount of success.

The bill, said Lord Lansdowne, was not intended to introduce compulsory service, but if compulsory service ever became necessary a national register would greatly assist in introducing it. As the duration of the war could not be predicted, it was impossible to say whether it could be brought to a successful conclusion without compulsion.

Lord Lansdowne expressed the opinion that the voluntary system with its present anomalies and injustices would not much longer be tolerated by the country. A third of the men now serving were married men.

KAISER SAYS THE WAR WILL END IN OCTOBER.

LONDON, July 14.—Emperor William of Germany is quoted in a despatch as declaring to a committee of financiers that the war will end by October.

According to information received by the Times, it appears that the financiers called upon the Kaiser to point out to him the grave financial difficulties of the situation and the risk of attempting to continue the campaign for another winter. They are said to have declared that even if the war was brought to an end at once the position would be most difficult, while if it be prolonged, the German Empire will become utterly bankrupt.

The declaration of the time limit for the war came after the last assertion in the foregoing.

CROWN PRINCE'S ARMY RECEIVES ANOTHER CHECK.

LONDON, July 14.—Another severe check was inflicted on the army of the German Crown Prince on the road between Blainville and Vienne le Chateau as far as Haut Chevaschee in the Argonne today, the French War Office announces.

The enemy bombarded the French positions with asphyxiating gas shells in an extremely violent manner and then advanced in great force. The impact of the German onset momentarily bent the French line at certain points, but energetic counter-attacks delivered in the faces of the advancing forces restored the former equilibrium. Fighting continued with success on the part of the French, who eventually compelled the retirement of the Germans.

Among the forces detailed by the enemy for this great assault, the French have already identified five different regiments of the 10th corps. Ground has been gained by the French infantry in attacks in tunnels near Fay-en-Haye, while the Germans continue to subject the French positions between the Meuse and the Moselle to an extremely heavy bombardment. Apparent and LePetre forests are in particular the scene of heavy artillery fire.

The Germans in Belgium are using asphyxiating gases in bombarding the French and British lines.

A violent cannonade has been carried on north of Arras, but no infantry actions are reported today. Material damage was done to Arras again by a German bombardment today.

The Germans were defeated last night in a violent attack in front of the Labyrinth, under the protection of a violent curtain of fire. Their forces were decimated and thrown violently back on their own lines as a result of the encounter.

The Germans were also repulsed in an attempt at attacking a bridgehead east of the Foch River in the Vosges.

A brilliant aerial raid was carried out by a French squadron of 35 aeroplanes early today on a strategic railway station established by the German at Vignoulles-la-Hatton-chatel, equipped to serve the region of the Colonne trenches and the forest of Apremont. It was a depot of important stores of war material, particularly of ammunition. The aviators dropped not less than 171 heavy bombs on the place and had the satisfaction of seeing several fires started before they flew away. All the French machines, though fired at by a great number of anti-aircraft guns, returned safely to their base. Credit is due to the men who carried out this raid for flying against a wind blowing at 40 miles an hour without mishap.

Saunders Sent to the Central

William J. Saunders who was on July 8th found guilty of vagrancy in securing board and lodgings without payment in return, was this morning sentenced to not less than 3 months in the Ontario Reformatory and for an indeterminate period thereafter for not more than two years less one day. Chief Thompson of Peterborough, who was in court was asked by Magistrate Masson—

"Do you recognize this man?" "I do, your worship."

Magistrate Masson said he was satisfied Saunders was guilty of the charge "and from your previous record I do not think a light sentence is one that will appeal to you or reform you, I think you should get as long a sentence as possible."

Della Saunders, his wife who went to Mrs. Van Allen's boarding house and the Anglo-American Hotel, was given the benefit of the doubt. She was, the court said, with Saunders, but as he secured board and lodgings, she was not held accountable, although she was perhaps nearly as guilty.

Albert Haines on a charge of being drunk was fined five dollars and costs or 15 days. Robert Gibson, who was up yesterday, was pinched again this morning early for drunkenness. The \$5 fine not proving effective, this morning's fine was made \$10 and costs or 15 days.

Walter Lasher, charged with theft of a bicycle was remanded until Saturday.

12th of July Celebration

The committee in charge of the Twelfth of July celebration wish to thank those who so kindly and thoughtfully supplied the members of the Orange Order with drinking water on the line of march. It being a hot day it was very much appreciated. They also desire to thank Bandmaster Hinchey and the members of the 10th Regimental Band for their splendid services during the day, the splendid work of Chief Newton, Sergeants Napkin and Harman and constables of the Belleville police force in handling the large crowd is well worthy of mention and their services were greatly appreciated.

The list of prizes awarded is as follows:

MARRIED

HAMBLY—SMITH.

At the residence of Lieut.-Col. P. H. and Mrs. Hamby, 46 Alexander St., their youngest son, Lieut. Geo. H. Hamby and Miss Annie Smith, youngest daughter of the late Rev. W. S. and Mrs. Smith of Middleville, were quietly married by the Rev. A. S. Kerr of St. Andrew's Church on Wednesday 14th inst.

Your son,
Lieut. Geo. H. Hamby.

COUNCIL MAY NOT BE ABLE TO MAKE GRANT TO CHILDRENS' AID THIS YEAR

Mrs. T. Ritchie, H. F. Ketcheson and W. H. Wrightmeyer formed a deputation which appeared before the city council last evening.

The new shelter building and lot will cost between \$10,000 and \$17,000 said Mr. Ritchie, who urged the importance of rescue work as social and patriotic. The whole of the Dominion realizes the necessity of care for neglected children, who unless looked after may become the tramps and vagrants of tomorrow. A large proportion of these children come from the northern part of the county.

Belleville should contribute \$5,000 as the county has done. Trenton will assist. It is thought the Children's Aid will make up the rest, as individual citizens have expressed a desire to assist by private donations.

Mr. H. F. Ketcheson said that without \$5000 from the city it will be impossible to carry out the building this year. He said he knew the council's dilemma in view of the financial situation.

Mr. Wrightmeyer stated "We need the building and need it badly."

Mayor Panter expressed sympathy with the work of the rescue. After some consideration some time ago it had been proposed to give \$3,000, but the society did not favor this. Since then the council has given grants and as \$5000 to the patriotic fund. It looks as if it would be impossible to make a grant to the C.A.S. this year. Still the estimates had not been brought down and it might still be possible to make a contribution. If the work could be laid over for a year, it would be much better. This is a year of extreme financial stringency and very heavy demands.

Mr. W. B. Riggs came before the council regarding a pavement on Pinnacle street. He would like to see a meeting of the property owners on Pinnacle street to discuss the matter before any pavement was decided on. One similar to Front street's roadway would be rather expensive.

Mayor Panter said the council could call a meeting if the ratepayers asked for it in sufficient numbers.

When the recommendation was read that \$8 be the licence fee for livery automobiles, Mayor Panter said the council thought more consideration should be given to this. One car may carry four passengers and another twenty and it would not seem fair to make a stated gross charge.

Ald. Wallbridge moved that the recommendation be referred back to the committee.

The other recommendations of the committees carried.

The Provincial Association of Fire Chiefs wrote asking that a delegate of the council be appointed to attend the memorial service on Aug. 24th at Kingston for the fire chiefs who have died during the year. One of the departed is the late Chief William H. Campbell—Referred to Executive.

Belleville Club and the Belleville Hardware Co. through Mr. S. E. Cramer by letter asked the council to defer action on the petition for an asphalt pavement on Pinnacle street or remove his name from the petition as representative of these occupancies.

Mr. Walter Alford wrote asking that his name be removed from the Pinnacle street pavement petition for having it built this year.

Mr. R. Tannahill of the Bank of Montreal asked that the work be not done this year.

City Solicitor S. Masson, K.C. wrote stating that the petition for Pinnacle street pavement was not fully prepared, the numbers of lots not being opposite the names of the property owners. A new petition will be necessary.

A number of the council said all other petitions were not legal.

Mr. W. C. Mikel wrote on behalf of Mr. Geo. Burgess of Duesson street that some action be taken regarding the drainage from the north of Dundas street coming on his property.—Referred to engineer and solicitor.

The Trustees of the Tabernacle Methodist church wrote stating that they were about to construct an approach to the Tabernacle. The wall you built there has broken down at one side of the steps; the embankment has fallen out and the cement walk has caved in in consequence.

We ask you to allow the contractor the use of the concrete mixer and donate a sum not to exceed \$100 to enable them to replace and complete the work.—Referred to engineer and public works committee.

Mrs. J. A. Campion and M. A. Day wrote regarding removal of certain trees not necessary.

Mayor Panter said he had been over the situation and found the trees not necessary. The cutting out of a few trees would help the roads, the lighting of the streets and the health of the community.

The matter was referred to the chairman of public works and parks and the engineer. They will report to council.

A number of communications were read from City Engineer J. W. Evans regarding repairs to the proposed pavements on George St. and Victoria avenue, so that the city council would be relieved of any burden.

The two storm sewers down Campbell and Victoria Avenue from Pinnacle to Front will cost \$750.

Two Park street proposed cement walk will cost \$240.

Dundas street walk near Parker will cost \$165.60.

Water service between Moira and Harriet or Coleman will cost \$350. Services will return \$18, which is not a paying proposition.

Council Supports Alderman McFee.

Ald. McFee—"I ask the council as a body if the chairman of public works did not bring Mr. Henry McIninch's tender on painting the railing on Mill street before the committee."

Mayor Panter said it had been brought before the committee. He thought the council members would coincide with him in that statement.

Ald. Earle remembered it quite distinctly.

Ald. McFee—"What was the council's resolution?"

Mr. Homes said that no resolution had been put on file. It was thought the tender was quite an excessive charge and had better be looked into.

Ald. McFee asked Mr. Henderson what was the job price he had secured.

Mr. Henderson said "Five dollars."

Ald. McFee—"What was the frog-tad?"

Mr. Henderson—"About 630 feet."

Ald. McFee—"The reason Mr. McIninch did not get the contract was because Mr. Henderson had got a job price of five dollars, Mr. McIninch's price would have been about \$31.50."

Ald. Smith—"Since the matter had been brought up, several men have come to me and offered to do the job for \$6."

Ald. McFee—"Was I justified in taking the stand I did?"

Mayor Panter "In my opinion you were."

The council took the same stand.

Ald. Earle asked if the intention was to rebuild the road on Foster avenue between Queen and Dundas.

Ald. McFee said it was a new road and not much had been spent on it.

A query from Ald. Duckworth re surplus material from the sewers brought the information that the material had to be drawn half a mile away under the engineer's supervision.

Ald. Smith asked if more streets were to be tiled if petitions were signed.

Ald. McFee said if two-thirds of the property owners agreed the work would be done.

Question—"What is the cost of tiling?"

"It costs less than 1 1/2 cents per sq. yard."

Ald. McCurdy asked if paper baskets had yet been procured for Front street.

Ald. Earle said they had been ordered.

Talking of the financial situation, the mayor said the city so far had been spending money rather lavishly and had used up nearly \$70,000 of the two notes of \$75,000 secured at the bank. A halt would have to be called.

Mayor Panter said no petitions for pavements had been properly signed. There is nothing to prevent property owners holding meetings of their own.

Ald. Wallbridge gave notice of a by-law to regulate sewer connections. The whole council was present.

FRIDAY SESSION OF SUMMER SCHOOL AT ALBERT COLLEGE

The early morning watches are a great help in beginning the day in the proper spirit of reverence and prayer and fellowship, and preparing the way for the lessons to follow.

Pref. McLaughlin's lecture was most interesting and as good things become better and are more appreciated as the taste for them is cultivated, so Prof. McLaughlin becomes more and more helpful each day to the school. Surely the influence of such a man for one whole week will inspire his listeners for a long time to come.

The president of the conference, Rev. H. B. Keany, was present and addressed the school on "Social Redemption". He was greatly appreciated and all were glad to have him at the school, if only for so short a time.

One of the very practical departments of the school has been the mission study classes. In the social service department the conditions in the country, the country problems of today, and the church's part in solving these problems are taken up by men who thoroughly understand their subjects. As each student carries back their discussions and knowledge to his own community a step, and a big step, in the work will be gained. By making the church the social center of the community the loneliness and isolation, large factors in the country problem will disappear almost completely, and religion will take its own rightful place in all life of the country. In the Chinese class there is the wonderful privilege of talking with a missionary from China, and the Moslem world and Japan are taken by men who have devoted special attention to their studies.

As the last days of the Bay of Quinte Summer School for 1915 are drawing near, the appreciation of the privileges of and responsibilities resulting therefrom, are impressing the delegates increasingly. Each speaker on the program comes prepared to deal with a subject which comprises a real need. "A Purposeful Life" was Rev. H. B. Osborne's theme on Friday evening. The speaker said in part:—

We are here in service to humanity—to serve our generation and for God's glory. The achievements of the past and visions of the future are uplifting factors of life only as they help us to make the present the supreme moment of all. One of the greatest influences in many lives is the result of failure to appreciate the importance of our task. When we know our task it should be as important to us as God's work was to Him. Some things that fundamentally affect our lives are: 1—ancestry; 2—physical health and strength plays a very conscious part in our achievements; 3—intellectual ability. Every man's power are his ideas projected through his personality—there is a vital connection between aim and action. Have a purpose that will make the most of every God-given gift, that will focus every talent we command for one specific aim that is worthy of a child of Christ.

At the close of the pleasing address Miss Scribner sang a solo very much appreciated.

Rev. W. J. Smith, who is Field Secretary of the Social Service Department, has been giving a series of much appreciated lectures on child-life. Have his closing address Friday evening and his words will long remain with those who were privileged to be present. He is one of the strongest and most capable speakers in this department that has ever appeared before the school, and his advice, and suggestions to the classes and to individuals are highly prized by all. His original manner of presenting his chosen topic, and the forceful and convincing remarks will long be remembered. His final address was an earnest presentation of "The Child, the Community and the Church." The person accomplishes a wonderful achievement who discovers that human life with its various phases—intellectual, domestic, social, and industrial—is one great unit. As the character of a man can be judged only by his business, social, church and domestic life, just in the same way are the different relationships or different expressions of the same life. The one relationship which it allowed to dominate all our life, will control all the others, is the relationship to God and His Son. The church ought to be the nursery of sweetness, and the joy of the life of the community. As a direct or indirect result of the work of the church, the civic, political and social life of the community should receive an impetus. When this is accomplished the proper care, protection and instruction in regard to the children will be the natural outcome. Mr. Smith, closed with a personal appeal for the life of the young people to be consecrated in prayer and sacrifice to the lessening of the needs that are so loudly calling for redress.

Our Soldiers Letters

As printed in the Belleville Papers Across the world they're fighting. The boys, fair Canada's pride, And here at home we are reading, The accounts of those who died.

Upholding the nation's honour, There in the thick of the fight, And Spafford writing at night-time, By the flickering, fading light.

To tell of our heroes struggling, 'Gainst odds, and battling well, And Leo Ross—brave laddie Who smiling, dauntless fell.

Buried in that far garden, Among the flowers, fair bloom, While his hero-soul is ushered, To a mansion of many rooms.

For our God is the God of battles, (You know, for you know His word), And quelled shall be the evil, For Right must not be blurred.

Clever, indeed, are the letters, Of the boys from our Belleville Schools, They reflect our teacher's training; With wise discipline of rules.

Teddy and Pat have written, And others, we read them all, But too long would prove our Power, If we, each name, recall.

But again we re-read Spafford's, Like him quote—"God's will be done," In his care many souls be waiting; The verdict be—you've won.

And meanwhile, write your letters, They are kept at your mother's side, We are proud of our heroes fighting, For, our soldiers, are Canada's pride.

And our dead shall be in remembrance, The spirit of the hero shall live, It remains in the National honour, In its warp and woof doth weave.

An original poem by Alice Pyne McDavitt, Foxboro, Ont.

Corp. Chas Gibson Wounded by Shrapnel

France, June 21st, 1915.

Dear Mother,—Just a few lines to let you know I am well, hoping you are the same. We have just come out of the trenches after being in for seven days, so we will have a rest now. Charlie Gibson was wounded on the top of the head with shrapnel, he walked out of the trench himself, so you know it wasn't a bad wound.

He came around and bade us goodbye before he left.

A man is lucky to get a nice wound and get away with it, for every time we go into the trenches it is hell!

A shell dropped about ten feet behind me where I was on sentry and killed four and wounded six. Our corporal whose name was Gunn, all we found of him was his boots, and A. M. Davidson from Kingston had his head blown off, so you see it is not all cream out here. They are talking us on the 29th of June, and I hope they do for I have been in the firing line nearly five months and that is long enough without having a trip to London. Well, there is not much to write of so I think I will ring off for this time.

THE HORRORS OF CONSTIPATION

Bowels Almost Paralyzed "Fruit-a-tives" Relieved

Messrs. W. W. Johnson, Bruce Johnson and Benjamin Lade of Buffalo, N.Y.; Walter S. Drake and Loren L. Spear of Brockton, N.Y., and F. G. Ames of Westfield, N.Y., have been at Wellington to look into the sand lime brick business that is being established by Mr. L. V. Stevens.

These gentlemen came on the invitation of Mr. Stevens and visited the Sand Banks, and also the lime stone crushing plant at Point Ann near Belleville, where it is proposed to burn the lime.

After visiting these locations they were most enthusiastic in reference to the whole proposition. They are fully convinced that there is not any lack of raw material, and several thousand dollars' worth of stock in the company was subscribed for while the party was here.

It is expected that building operations at West Point will be commenced some time this summer. Messrs. L. V. Stevens, J. E. Noxon and W. P. Niles accompanied the Buffalo deputations on their trip of inspection.

Sand Lime Brick.

Messrs. W. W. Johnson, Bruce Johnson and Benjamin Lade of Buffalo, N.Y.; Walter S. Drake and Loren L. Spear of Brockton, N.Y., and F. G. Ames of Westfield, N.Y., have been at Wellington to look into the sand lime brick business that is being established by Mr. L. V. Stevens.

These gentlemen came on the invitation of Mr. Stevens and visited the Sand Banks, and also the lime stone crushing plant at Point Ann near Belleville, where it is proposed to burn the lime.

After visiting these locations they were most enthusiastic in reference to the whole proposition. They are fully convinced that there is not any lack of raw material, and several thousand dollars' worth of stock in the company was subscribed for while the party was here.

It is expected that building operations at West Point will be commenced some time this summer. Messrs. L. V. Stevens, J. E. Noxon and W. P. Niles accompanied the Buffalo deputations on their trip of inspection.

Took Carbolic Acid and Died

Special to The Ontario.

MADOC, July 13—Rebecca Youde, a seventeen-year-old girl, employed as a domestic at the home of Mr. Frank Smith, took carbolic acid about eight o'clock this morning and was dead in an hour. It would seem from statements by those near at the time that the poison was self-administered intentionally. Dr. Hatper, the coroner was notified and determined to hold an inquest. A jury was enrolled and after viewing the body an adjournment took place to July 26th for the taking of evidence.

Deceased was a Barnardo girl and had been working in Madoc for several years. A sister resides in the United States.

No reason has been assigned for her rash deed, except that some have stated that of late she appeared to be in rather a melancholy frame of mind, but no one anticipated that she contemplated self-destruction.

THE WHOLE LIFE OF AMERICA MAY BE SUMMED UP IN THE WORD "HUMBURG"

The Opinion of Herr von Bogdanovic, an Austrian Officer.

Under the title of "Fortschritt und Humberg" (Progress and Humberg), there appears in the May number of the Sueddeutsche Monatshefte, Berlin, an article, which is entirely devoted to England and America. The writer Herr Milan von Bogdanovic, a former Austrian officer, communicates his impression during what he called "der Winter meines Missvergnuens," a certain winter of his discontent, which he spent evidently not many years ago in the United States.

The American type, Herr von Bogdanovic assures us, is not that of George Washington, who was far too much of an English gentleman, but that of Benjamin Franklin, compact of plattitudes, of diligence, of smug prosaicalness, and the keenest of keen eyes to the main chance. Washington was no Yankee, and Mr. Roosevelt could say without any self-consciousness that he himself represents the unadulterated American type much better than Washington. Washington, however, was really a Republican, but not of that sort which sees in the import duty of threepence on a pound of tea an ethical reason for breaking away from the motherland and setting up a Republic. This famous threepence on the pound of tea it is suggested, should be put up on the Capitol in Rome, both having been the cause of the foundation of their respective States. Franklin, if we are to believe this Austrian writer, showed himself possessed of true American "humberg" (a word which he does not always rightly use), because while refusing to print defamatory articles in his own newspaper, he would always print them off specially, in as many copies as were desired, for anyone who choose to pay him for so doing, and to justify his proceeding he found, better than any Tar-tuffe, "des accommodations avec le ciel."

"There is certainly no American language, no American race either, but there are Americans. Even those Americans in whom the English blood has remained purest are nevertheless merely a vulgarised edition (verpöbelte Ausgabe) of their English cousins. The English humour of a Dickens has become converted into the grimace of a Mark Twain." This general vulgarisation is largely attributable to so many of the English who emigrated to America having belonged to a class which happens to be peculiarly obnoxious to Herr von Bogdanovic—the race of Weltverbesserer, or those excellent individuals who would fain regenerate to the world, "shrieking, singing, preaching Puritans and Quakers, people who preach the Kingdom of Heaven seeking thereby to gain an earthly Kingdom."

"Anyone can become an American" we are assured, provided he be sufficiently inferior, sufficiently self-complacent, commonplace, and money grubbing. The American is born, not made. Many who emigrate to the United States bring with them already so much that is American in their mean natures that all they have to do to become admirable Americans citizens is to learn American English. There is more than enough cheap material for the production of Americans, and room for them to spread also. The so-called Americanisation of Europe is not to be ascribed to an intellectual influence of America; it means the success of the vulgar, un-intellectual masses victoriously advancing with the aid of modern means of communication.

"The Americans, their Austrian critic insists, have kept the practical side of their Anglo-Saxon cousins, but have lost the spiritual. It is only necessary to consult an Encyclopaedia to see how few scientific discoveries are really due to Americans, that is to say, the first idea of which took shape in an American brain. "Neither the Railway, nor the telegraph, nor matches, nor the quick printing press, nor motor cars, nor flying machines, nor radio activity, nor electric railways, nor gas for lighting, nor electric light are of American origin." Somewhat grudgingly Fulton is allowed the credit of the steamboat, but he was "an altogether exceptional American inventor."

Referring to Tammany and police scandals, he says:—"Is it unknown that in America not a soul believes in an administration or a justice whose representatives would not make business out of their office? The true American is nite incapable of thinking otherwise, and he does not take it amiss with public functionaries—in deed, he is inclined to consider as a fool a man in a prominent position who does not seize an opportunity of enriching himself."

The whole life of America may be summed up in the word humberg, so this Austrian critic would have us believe—humberg from the bestowal of names such as Rome and Memphis on insignificant unromantic, little towns, to Benjamin Franklin's modes

ty, the Republican Party, which has no monarchy to fight, and the Democrats, who have no aristocracy to combat, and finally, the very name of America itself. "It is no pleasing prospect which is opened up to us in view of the increasing Americanisation of the world, a prospect of the most prosaic business mind being the dominant one; hand in hand with snobbishness and cant." One good point, however, even this Austrian assures his German public, the Americans possess, and that is the virtue of kindness and consideration to the weak, to women and children, which is "an inheritance from their English ancestors."

From Carrara, Italy, there has reached London and been published a circular issued there while the question of war was undecided by German agents which throws a lurid light on Teutonic methods and misrepresentations. The circular reads as follows:

ITALIANS!
Peace or War: To whom have you entrusted this imminent decision? Beware of the war-at-any-cost instruments of English corruption, who would laugh at a disaster to your nation so long as they remained in the pay of the interested States. They are anxiously working to upset your Government in order to enrich themselves; therefore beware and decide for yourselves the destiny of your Fatherland. None of you are aware of the great progress you have made in these forty-five years of German alliance. Consider those States who maintain a strict neutrality what enormous advantages they enjoy! Look instead at the fighting nations: Russia with her ally France, and retreat from the dreadful agony that has struck those Powers. Look at England, already completely isolated from her world communications by the good work of the German submarines, and propagate imperturbably the will of the Italian people to maintain its neutrality before you have to deplore a million killed.

Do not be misled by the ridiculous lies of the united agencies of Reuter, Havas, and all the other liars! England, in flesh and bone "The European Guide," has finally been recognised by all the world as the instigator of this formidable war; and she is getting the punishment she merits, whilst innumerable surprises are awaiting for her after the war. The Colonies she poses with questionable right are already in part lost by her. Nor will she ever be able to regain them. Her stolen possessions in the Mediterranean—Gibraltar, for example, and many others—will be returned to their rightful possessors.

Have you not noticed with what diabolical perfidy England enticed upon her auxiliary cruiser the Lusitania even ignorant women and children although she knew that this steamer was threatened by German submarines? It is palpably evident that she wishes by this base speculation to excite fresh conflicts against Germany?

Have you not observed with what overbearing the English now wish to rob even their unfortunate Allies the French, and with what anxiety they are trying to make themselves masters of Calais and the French coast, foreseeing that the French forces will shortly be so exhausted as to render impossible all resistance?

Soon, however, be sure of it, the German armies will sweep that coast clear of the arrogant English.

And now this "Generous England" is making every effort to conquer you Italians, so that you may consolidate her position, more-than-lost, in Egypt, and is making promises which will never be kept.

Besides, what is the value of an English promise? Everyone knows what a mixture it is of lies and intrigues of every sort.

Compare this instead with a German promise! THE GERMAN WORD IS TRUE. History proves that truth and honesty have always been bound with the souls of the Germans, either in regard to the concessions of territory desired by you, or the numerous other advantages, will be all scrupulously maintained, so that you have the most ample guarantee for the continual prosperity of your country.

Send therefore the War-at-any-cost party to the deuce. They are the most dangerous enemies of your country. Let them go into the trenches of their friends, where they will find plenty of scope to show their courage and cool their blood. Remain Neutral.

HEAVIEST FIGHTING SINCE THE LANDING AT DARDANELLES.
LEMNOS, July 15.—The heaviest fighting which has taken place in the Gallipoli Peninsula since the allied force landed there was that which began late Tuesday last and lasted till into Wednesday. It resulted in a swing forward of the southern line of allied armies for about five furlongs, and in the infliction of staggering losses on the enemy. Those who were in the battle place the Turco-German casualties at 7000 killed and between 14,000 and 15,000 wounded. Many prisoners were taken, too. The whole army in the southern part of the peninsula was engaged, and the Australians and New Zealanders further north also played a part.

ITALIANS PRESSING ADVANCE IN CARNIA.

ROME, via Paris, July 15.—The following official statement from general headquarters was issued last night:

"In Carnia, following our successful offensive, begun yesterday, on the heights constituting the southern slope of the torrent of Anzier (Anzico) the enemy abandoned the most advanced positions which he had previously occupied, first destroying the entrenchments.

On Sunday night in the Monte Nero zone, the enemy during a thunder storm attempted a surprise attack on our positions, but this war repulsed. "Nothing of importance has occurred elsewhere along the front."

POLICE CAPTURED FRANK MURPHY

Just as he was Leaving Town—He is Charged With Forging Name on Check

The police have had considerable to do with a young man who gives his name as Frank Murphy. He was put in at a local hotel yesterday and was accused of having obtained board at another hotel a month ago without paying for it. This was under another name. Finally when confronted with one of the hotel staff, he expressed his desire to settle. He was fined \$5 and costs and made good the bill.

This morning another case of police interference arose. It was discovered that a check had been passed on the Molson's Bank and it is believed to have been forged. It was dated Toronto, July 12, for \$27.85 and purported to be signed by T. S. Farncombe in favor of F. A. Black. After a hasty search in which an auditor played a great part, Murphy was arrested just as he was on Albert St. He got word of the desire of the police to apprehend him and started eastward.

This morning he was charged with signing a forged document and entering the same and was remanded until next Monday. Murphy or Murray as he called himself yesterday is a well dressed man of 32 years. While he was in the cells at the police station before being brought into court, he made a movement which was thought a preparation for suicide by the use of his belt.

Progressive Business

A scribe in passing the Gorman Shoe House this morning saw carpenters busily engaged and he dropped in and interviewed Mr. Ritchie Thompson who informed him that at the present time they were cramped for room and found it necessary to make large alterations in the store so as to enable them to have plenty of room for the large and up to date stock. The Gorman Shoe House will have this fall. Mr. Thompson states that it is their intention to carry at all times the most up-to-date Foot wear to be found in any shoe house in Canada.

Before placing their fall order Mr. Gorman had Mr. Thompson visit some of the largest shoe manufacturers in Canada, after which they decided to take exclusive agency for the Duchas and Georgia shoes for Ladies and the "Just Wright" shoe for men. These shoes are made in all leathers and at the very latest shapes in stylish footwear. The Gorman Shoe House guarantees will go with each and every pair of these shoes. Reliable footwear, fair, honest and courteous treatment to all, is the slogan of this progressive store. The public are at all times welcome and they will find that the four experienced salesmen now employed will at all times put forth every effort to satisfy and please. We would therefore suggest that before you purchase your next shoes get at least drop in the store and meet Bob "Face to Face."

A Popular Move

Dr. A. W. Stinson's numerous friends throughout the County of Northumberland will be highly pleased at the commendable action of the County Council at its June session in passing a resolution petitioning the Ontario Legislature to restore Dr. Stinson's name to the roll of Ontario College of Physicians and Surgeons. The resolution was moved by Mr. R. J. Ross, reeve of Brighton, and seconded by Mr. Geo. Gummer, reeve of Cramahe. The resolution was carried unanimously. The action of the County Council in urging that Dr. Stinson get British fair play will no doubt be endorsed by the electors in general. The community needs the services of Dr. Stinson whose open heartedness is well known.—Warkworth Journal.

ASPHODEL TOWNSHIP SHIP LOSES IN DAMAGE SUIT

Judge Huycke Awarded Plaintiff's, W. J. Sampson and Daughter \$350.

William J. Sampson and Miss Jennie Sampson were awarded \$350 damages against the Township of Asphodel, according to a judgement given out by Judge Huycke at Peterborough in the case of Sampson vs. Asphodel. The action followed an accident to Miss Jennie Sampson, in June 1914. Accompanied by her sister, Miss Lotie Sampson, plaintiff, was driving along the Hastings road near Norwood, and when they were passing a stone crusher operated for the township, the horse became frightened and Miss Jennie Sampson was thrown out and injured. She and her father entered action against the township for \$500.

Mr. F. D. Kerr appeared for the defence, and Mr. I. A. Humphries of Campbellford, for the plaintiff, who is a Percy Township farmer.

In delivering judgement, His Honour Judge Huycke congratulated both learned counsel for the able and gentlemanly manner in which the case was conducted. His Honour found that the stone crusher constituted a

machine likely to frighten horses, and that the defendants knew of this. His Honour also charged defendants with negligence in that when the two girls approached the crusher, which was operating on the side of the road, not one of the four men who were working around the machine, offered to assist. No request was made for assistance, but inasmuch as the men knew the nature of the machine they should have volunteered some assistance. By not doing so they made the municipality liable.

Continuing His Honour said: "It is true that the defendants have a perfect right to operate the machine on the highway, although it might have been placed in a field or on a side road. This might have increased the cost of operation. It is the same old story of the manager of a mine or factory endeavouring to cut down expense without proper regard for life and limb. I find no contributory negligence on the part of the plaintiff."

The father was allowed fifty dollars and the daughter three hundred dollars for both financial and personal damages.

The Debt we Owe to the United States

Dear Sir:— We, the descendants of U. E. Loyalists naturally have looked with astonish growth and success of our neighboring republic. We have enjoyed one hundred years of peace and while we have had differences regarding trade policies, we have maintained friendly relations with our good neighbors. From this time, we shall drop the familiar appellation of "American Cousins" and we shall style them as our "American brothers and sisters." The interchange of residences, the intermarriages between the two countries have unified the people of both lands. Ever since the commencement of the war, we have felt the great heart of the Republic beating in unison with our own. The leaders of thought, ranging themselves on the side of the Allies. Their immense factories have furnished munitions of war to the Allies which come just in time to assist in hurrying back the German hordes. Great Britain knows the debt of gratitude owing to Belgium. The Allies know that for the gallant stand of the Belgians against the Teutons, the enormous masses of our enemies, might have been in possession of Paris, and Calais, today. A few hours, or a few days, may find the Republic fighting side by side with the Allies. If there is one thing more than any other which fills the hearts of the English speaking people all over the world with gratitude it is "The Belgian Relief Fund of the United States." Recognizing their terrible position, this fund has contributed over six millions of dollars in relief of Belgium. It has established hospitals, furnished hundreds of ship loads of necessities, preserved the lives and relieved the sufferings and wants of hundreds of thousands. The talented artists who will appear on July 14 are giving their services gratuitously for this cause. Every cent of the receipts will go to swell this relief fund. Why should we not strain every nerve to assist in the wonderful work of mercy and succor for the most unfortunate and suffering nation in this world. I am, Yours, J. J. B. Flint.

Presented With Wrist Watches

Messrs. Harold Buchanan and Harold Ingram of this city, who are now members of the 26th Battery at Valcartier were recently the recipients of beautiful wrist watches from the Marmora and Deloro Patriotic Association. The young men were in the employ of the Deloro Reduction Co. Limited, and relinquished their positions in order to join the 4th Contingent. Prisoner of War Harold Sisson, Cordova, a member of the 49th Regiment detachment of the second battalion is unofficially reported a prisoner of war. Local Boys Well Sergeant Albert E. Harris writes from France under date of June 21 stating that he has met nearly all the Belleville boys at the front and found them well. Catherine St. Sewer Messrs. Bumbaca and Wilde will this week begin the excavating for Catherine street sewer.

Corp. Chas. Gibson Nearly Recovered

Corporal Charles Gibson who was reported wounded some days ago has so far recovered as to be able to read the following message from V. A. Hospital, Strood Kent, to his friend Mr. Wm. Craig, 199 Lingham St., Belleville. England, July 1st, 1915. Friend Bill— Just a few lines to let you know I am getting better. I feel well. I hope the top of the head with a piece of shell. It certainly gave me some trouble but I expect to be out in a short time. I have now been in two weeks. Wait was fine when I left him, and is getting along well. He is not afraid of a d— thing. Well, remember me to all at home, your mother and every one who may ask. Hoping this card will reach you O.K. I remain your old friend, Chas. Gibson

To Stimulate Enlistment

An Eastern Ontario branch of "The Speakers' Patriotic League" has been formed to stimulate interest in the war and assist in recruiting in the Third Division. Prof. Mulloy of Kingston, organizing secretary, wrote asking Belleville council to form a branch here. Aid. Wallbridge moved, seconded by Aid. Platt, that Mayor Panter be requested to call a meeting of the citizens for the purpose of forming a local branch of Eastern Ontario Speakers' Patriotic League and requested that Prof. Mulloy be asked to arrange to have Dr. Michael O'Leary and other speakers to come to this city at as early a date as possible.

Rats Had Advance Information

The Ogdensburg Advance says that while the steamer Averill was at that port last week, hundreds of rats left the boat and scurried ashore, and the sailors considered this to be a very bad omen. Later the boat proceeded on her trip west, on her way to Chicago and Milwaukee, with a cargo of package freight. When nearly opposite Clayton says the Advance, there an alarm of fire, and Captain Smith immediately applied the chemicals and steam jets and soon had the flames extinguished. It is estimated, the paper continues, that 250 tons of freight were damaged. The fire seemed to have started in a bale of cocon door mats. The insurance adjusters inspected the damage, the damaged freight was replaced by other goods, and the steamer proceeded on her way.

Boys Caught At Buffalo

Percy Sedore, aged 16 years, 11 Beverley Street and Harold Cronk, 20 years old, 168 John Street, who decamped from Toronto with their uncle's cash box, containing \$141.00, were arrested in Buffalo on Tuesday, at the request of the Toronto Police. The boys took the money and went to see the Toronto and Rochester teams play Baseball at Rochester, but on reaching Buffalo were apprehended on a charge of violating the immigration laws of the United States. The boys will be brought back to Toronto to stand trial. Both boys are well known in Napanee, having resided here most of their lives. —Napanee Express

Resented The Act

County Constable Dyer has served the papers in an action where in a prominent resident of Westport is charged with assault. The defendant is said to have called at the residence of a married woman upon a business errand, and in taking, his leave bestowed a kiss on the astonished lady. She resented the action and took legal proceedings. An effort is being made to reach a settlement before the case comes to trial. —Gananque Reporter.

Lightning Picked The Chickens

Lightning plays funny freaks sometimes. A. J. Lacey of Camborne has a steel clothes line, connecting two trees. On Tuesday lightning struck the clothes line, passing down the tree, tearing the bark off the tree, killed a chicken and made a hole in the ground. The chicken was plucked as clean as one could do it by hand. Two windows were also broken in the house. —Colborne Enterprise.

Catherine St. Sewer

Messrs. Bumbaca and Wilde will this week begin the excavating for Catherine street sewer.

CANADA TO GREAT BRITAIN.

An original poem by Alice Pyne McDavitt, Foxboro, Ont. In splendid isolation, The Isles of Britain stand, Around the wild gulls flying, The seas surround her land. Her ships go from her harbors, To every port of earth, Her commerce and her merchantmen, Are proven things of worth. Oh! Royal Isles of Britain, Washed by sea's clamorous waves, Beyond your cliffs are scattered, Deep, deep your foemen's graves. You've stood the shocks of battles, And God hath sent His storms; As ever over Israel, Are spread His mighty arms. Begirt by sea o'er lapping, The waves do ever call, Your sons have answered, wandered From cot and stately hall, And learning New World's methods, Have formed new ties that bind, And Britain's yet their motherland, Though New World's friends be kind.

Military Notes

A recruiting marquee has been erected on the armouries grounds for the convenience of officers and recruits. The funeral of the late Mrs. Elmire took place on Tuesday afternoon from her late residence 74 Mill St. Capt. Ruston and Mrs. Ruston of the Salvation Army conducted the service at the home. A large number of mourners followed the remains to Belleville cemetery, where the interment took place. There were many beautiful floral tributes received in memory of the deceased.

A Daylight Thief

An ambitious thief, who made hay while the sun was shining, paid visits to William and Ann streets yesterday. He went into yards and took from the clothes line ladies' wear, replaced the clothes pins on the lines and stuffing the clothes inside his vest, sailed away. Two cases of his thefts have been reported.

HELPFUL AND INSPIRING SERVICES AT THE BAPTIST CHURCH ON SUNDAY

Eloquent and Impressive Sermons by Rev. A. E. Richmond of Sidney.

The services at the Victoria Ave. Baptist church were conducted yesterday by Rev. A. E. Richmond, of Sidney, and were of a most helpful and inspiring character. The subject chosen for consideration in the morning was "The Heroes of Faith," and the text was selected from Heb. 11, 36 and 38—"And others, of whom the world was not worthy." The eleventh chapter of Hebrews has been termed the roll-call of the heroes of faith, or the Bible's portrait gallery of saints. And what a marvellous dissertation it is on the history of Old Testament saints, what glorious illustrations of faith; living, enduring faith; faith that subdued kingdoms, and wrought righteousness. The names mentioned herein are for the most part familiar, figures conspicuous in Bible history. Some names mentioned however, constitute a considerable amount of surprise. Rahab for instance. Perhaps none of us so expected her mention, when such characters as David, and Samuel are dismissed in one line. And how glad we are to note the name of Samson, after such pathetic and disappointing history recorded in the Old Testament. Most striking too is the history of Moses given here; and how refreshing to read that it was the reproach of Christ that he esteemed, rather than the pleasures of Egypt. But the names recorded are only a few of the heroes of faith, there were others; countless others, of whom it was said that the world was not worthy. These others were the obscure ones, whose names were not recorded in Bible history, or upon any earthly roll of honor; but who nevertheless, have through faith wrought righteousness, and whose names are engraved in the Lamb's Book of Life, and not one of them is forgotten. Nameless heroes and heroines. They did not desire earthly fame. No monuments mark their graves. No biographers survive them. They were content to be merely "others." I wonder what would be our attitude in the face of cruel mockings and scourges, such as these endured? Our circumstances today are such as have hardly any parallel at all, and yet what unfaithfulness. But I believe there are some of these "others" around us today; unpopular, obscure, who are patiently bearing the cross of suffering and self-denial. True it is that "Meek souls there are who little dream. Their earthly lot an angel's theme; Or that the rod they bear so calm, Shall prove in Heaven a martyr's palm." Isn't it a pity that even in the religious world of today, there is so much hue and cry for popularity, place and power. But if we only knew it, there is infinite joy in faithfulness wrapped in obscurity. In the evening Mr. Richmond dealt with "The Fact of Sin," selecting let him 1-15 for his text—"This is a faithful saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners." The fact of sin needs no support, it is as old as time. It is the grim tragedy of earthly experience; the deep, the dark problem of life. The whole world groans to be delivered from its thrall, and to be rid of its terrific consequences. Sin today, is regarded far too lightly. We talk of defects, imperfections, wild acts, high living as mere nothing, permissible almost in every man; but the Bible calls them sin. We need a keener sense of sin, and its enormity. The sense of sin in literature is very great. Eminent writers have dealt with it in an intensely realistic fashion. Read Hall Cain's "Shadow of a Crime." What a vivid picture of sin. How the sense of sin, and fear of its consequences haunted the poor fellow who had part in the secret murder. Read Thomas Hardy's

tion of others. From its columns we read that a party of eight campers with "Pop" Gifford walked all the way to Stirling on Saturday and did business with everybody, particularly in the "cool off parlors" at the expense of "Pop" Victor James, mistook a 10c dial for a 5c cent. He was so embarrassed that he blushed at the sight of it. He acted like a fly in a oop on milk. Sidney Edwards, tried to work for a 5c cent piece for a quarter, and the waiter said he must have come from Belleville. The party then escorted "Pop" to an agricultural dealer for a shave, after which they repaired to the wholesale fruit importers for a car load to be delivered at the camp dock all for the benefit of Oliver Wood who is a little homesick. Sunday was appropriately observed. The campers joined in the study of the Sunday School lesson and in the evening all participated in a song service around the baby organ. Mr. Heston journeyed to the Sidney church where he held forth at both morning and evening services.

TRENTON

TRENTON, July 12.—In our account of the Oddfellows' Field Day demonstration, which on account of lack of time and was written hurriedly, we omitted to state that Sergeant Harry Corby, the donor of the handsome Corby cap, was present, and occupied a place on the judges' stand. Two other omissions we also wish to rectify, one of them being that the fine Robert Woodell cup offered for the best appearing lodge in the parade was won by the Brighton lodge; and the other that the Trenton Fire Brigade, on short notice, joined in the parade, thereby adding materially to its list of appearances.

Steady Sergeant Jack Thomson, assistant paymaster at the Dubess of Connaught Hotel, O'Leary, writes that accommodations have now been completed for the care of 700 patients. A portion of the Russell Dredging plant, destined for work on the river channels of the Trent Canal, came into port this afternoon. The Fishery Protection cruiser "Vigilant," which has been in port for two days, cleared this afternoon. Many citizens were permitted to go over the vessel. King Street and Grace Methodist Sunday schools had their picnic at 12 o'clock. Trenton recently Mr. H. A. Thomson has commenced the erection of a new residence at the corner of McLellan Ave. and King St. We are glad to be able to report that Mrs. W. H. Gill, who has been seriously ill for several days, is much better today. We learn that the arrangements in connection with the Firemen's Annual district celebration at Belleville, on the 26th inst., are well advanced, and that an unusually large list of sports will be pulled off. Our boys are practicing faithfully and should stand a good chance of landing the trophy. A fine cement drinking trough for horses and a building stand pipe for humans has been placed in front of the Grand Union Hotel. If the dumb beasts could talk they would undoubtedly express their appreciation of this thoughtful act. The thanks of the community are likewise due to the councillor responsible for the placing of a similar drinking trough on the market square.

News From Y.M.C.A. Boys' Camp at the Oak Hills

A party of 25 boys were motored out to the Y.M.C.A. camp grounds on the beautiful lake at Oak Hills by a number of local automobile philanthropists last Tuesday evening. On the Saturday previous Mr. Percy Gifford and Mr. Duesberry went out to put the equipment in readiness. It took all of Tuesday night in getting accustomed to sleeping on the ground under tent cover. Grooms, jokes, and mosquitoes added interest to the would be sleepers. Owing to the experience of the first night there was no surprises next day to see some of the boys walking around in their sleep. Some splendid facilities have been added since last year, viz. an up-to-date kitchen with a cement cellar. A good cook stove has been purchased. Messrs. Deacon Bros. contributed a large cupboard for supplies. A handy pump was purchased. An engineering corps was formed. They have constructed a real dock at which the commodious war canoe is anchored with all safety. The canoe has had installed a 25 boy power ash breeze motor which enables the canoe filled with excursionists to easily pass all the steamers on the lake. Last Thursday was election day, when three tents of franchisees representing the provinces of Ontario, Manitoba and British Columbia elected their governors. Ontario elected the Honorable Max Herby, Manitoba, elected the Honorable D. Duesberry, and British Columbia elected the Honorable Dick Arnot. These governors together with Messrs. Heston and Gifford form what is known as the camp legislative council. This council met and found that all campists should be asked to dine three times a day. It was then resolved that the chief cook be given every encouragement and extended every courtesy. Plans have been drafted to hold a lunatics' athletic carnival, a field day and a street circus in Stirling. A camp newspaper has been started and is called "The Oak Crest Echo." It is a daily sheet and appears each morning at the breakfast table to the amusement of some and the edifica-

MORE CANADIANS WANTED.

Col. Carrick Brings Back War Office Request. Col. J. J. Carrick, M.P. for Port Arthur, who has spent the past seven months in England and France as the special representative of the Minister of Militia at British Army Headquarters, returned to the capital the other day, and reported to Major-General Hughes. Col. Carrick brings back a glowing account of the work of the Canadian troops at the front, declaring that they undoubtedly saved the day for the Allied forces when they stopped in the battle of St. Julien, the German drive towards Calais. All England, he says, is talking about the heroism of the Canadians, and both the British and the French officers are greatly impressed with the self-sacrificing Army Headquarters, returned to the Dominion. More men from Canada are wanted by the War Office. Like all the other Canadians who have come back from the front, he is strongly impressed with the need of every resource of men and money within the Empire being thrown into the scale against the still colossal enemy. Col. Carrick, who received a few weeks ago a special appointment on Sir John French's General Headquarters Staff as representing Canada's Minister of Militia, confirms the recent press despatches from London detailing the urgent need of greater supplies of ammunition of all kinds, and the strenuous and successful efforts now being made by the Government to meet every need, and to adequately prepare for a finally successful offensive from now on. The excellent administration and efficiency of every branch of the Canadian service which has characterized the first contingent both in England and at the front, he says, are being amply maintained, and he pays high tribute to the work of all the commanding and administrative officers.

GRECIAN GOVERNMENT ORDERS INVESTIGATION INTO ALLEGED ATROCITIES.

ATHENS, July 14.—The government today ordered its Consul to investigate reports that many of the Greek inhabitants of Armaki, Kyzicos, and Marmora are reported to have been tortured because they refused to embrace Islamism. Thirty thousand Greeks are said to have been expelled from Mussulman villages and their homes plundered.

ITALIAN AVIATORS SUCCESSFULLY BOMBARD AUSTRIAN CAMP.

ROME, July 14.—An official statement issued last night said the general situation remains unchanged on the entire front. At daybreak yesterday Italian aeroplanes successfully bombed a large Austrian camp in the vicinity of Gorhitz.

Gay Serbians. The Serbians are everything that the Bulgarians are not. Physically they are fairer and more refined in appearance. By temperament they are light-hearted, joyous, frivolous, and charming to deal with.

MONSTER CROWD CELEBRATED "GLORIOUS TWELFTH" IN BELLEVILLE

Fine Weather and Enjoyable Demonstration-- Finest Orange Walk Witnessed in Belleville-- Over Ninety Lodges in Line--Address at Gathering in Agricultural Grounds Became Powerful Appeal For Recruits in Empire's Cause.

The finest "Orange Walk" ever witnessed in Belleville was the occasion of the vast throng who witnessed the most feature of the ceremonies of "The Glorious Twelfth" in Belleville yesterday. The procession was a grand one, the crowd of visitors was orderly, the speaking was short and crisp, the deep note of patriotism was struck in no uncertain tone, and the whole proceedings of the day were the source of much satisfaction to committees, the Orangemen and their thousands of guests.

The only disturbance one could possibly remark was the riot of colors. Every shade of color in the rainbow was worn in the streets. The display on Bridge and Front streets would beggar description. Silken banners, fringed with gold, silk hats, white coats and trousers, the brilliancy of the regalia, the well-groomed horses, bearing the committees, the sober garb of the Black Knights, the gleam of the sash, the purity of the True Blue uniform, the spotless white summer dresses worn by the ladies, the thronging, swaying crowd, which made traffic difficult in the central portion of the city, with a plume here and there moving about, made a scene never to be forgotten. Glorious sunlight and not one token of rain made everybody happy. Smiles were on all faces and all was as merry as a marriage bell.

The drummers being hearty men stood the day well, although they "sweat" like Falstaff. But that was what they were for—to beat the band.

THE WALK

After dinner had been partaken of in dancing hall, hotel, restaurant, city hall, church hall, in private houses, the mob surged to the city hall district for the organization of the parade. In the armories where the banners were placed, the din was deafening. The marshals organized the "procession", it did not start on time, owing to the crowds. The route was about one mile and one third from the market square, down Front to Dundas, down Dundas to George, up George to Victoria avenue, down that street to Elmalee, up Elmalee to Mill and Front and down Front up Bridge across the river to the fair grounds, Mursey's hill was the last of the ordeal.

"How many more miles to the grounds?" asked one hundred persisting Orangemen if one at all.

"How far is it to Trenton?" was the query of another.

Some of the elder men tired on the Mursey hill climb and dropped out. The route of the "walk" was crowded by thousands and traffic was very difficult.

There were between ninety and one hundred lodges in line. The procession was a fine spectacle. It took an hour and five minutes to pass and was about three miles long.

The brass bands played patriotic music but some of the life and drum bands, knowing only party tunes, played them. Other five bands struck up national music.

THE SPEAKING

At Agricultural Park, where the procession ended, the speaker of prominent Orangemen spoke and appealed to the members to be loyal and to enlist in the service of the Empire.

After the inspection of the directors of ceremonies, Sir Mackenzie Bowell took the chair and after having congratulated the order on this grand demonstration called on Mr. E. Gus Porter, K.C., M.P., to speak.

"It is my happy privilege to have the opportunity," said Mr. Porter of welcoming you one and all on behalf of Belleville, the Orange lodges and of this portion of Ontario, to this city today. "We have met to celebrate one of the greatest events of the world, not for the purpose of bringing the blush of shame to our Roman Catholic citizens, nor because we would persecute and religious liberties were secured. History was made in 1890 by the struggle of the people against oppression and tyranny. And today history is being made in Europe. We see the world in arms, the allies against tyranny, I have no doubt that the same results will obtain as in 1890, that we will again see right and justice triumph over might and tyranny.

"We do not loathe anything against our Roman Catholic friends. We have learned to appreciate one another since 1890 and are working hand in hand for the advancement of the country. I would rather say that their ancestors were misled by the clergy of those days. The people in those days were fighting against their king. Today Britons are fighting with their king against oppression. This shows that better conditions are being brought about. We can well afford, while ready to advance the interests of the Protestant religion, to be generous to our Roman Catholic friends."

Mr. Porter spoke of the tyranny under King Louis XIV in France and how James II tried to impose his on England. The cry went out to William of Orange. He listened to the appeal of an oppressed people and when James' crown fell, a sign of relief went up.

"Do not allow yourselves to be lulled into security by the idea that the Roman Catholic Church is asleep or dead. The only way is to be active and watchful. Mr. Porter referred to Ulster, the separate schools in Manitoba and bilingualism. "There is one way to perform our loyalty. Let us be loyal. Let us take our part in the public life of the community."

The B. W. Grand Master of Ontario East, Bro. Evan H. McLean, Bowmanville, was the next speaker, whose ties with Belleville are deep, called Belleville the Derry of Canada. He expressed his delight at seeing Sir Mackenzie, the neighbor of the Grand Master presiding. "May he long be presiding to be a leader among you." The grand master referred to changes in the public viewpoint as to the Orange Order; seventy years ago an Orangeman was ostracized. Today what a change. We have gained in numbers and in strength. "I think its greatest force is as a political institution. We do not recognize any allegiance to party."

"It is by politics we have gained the success we have reached. "Whether there is peace or war, we will not turn our backs on bilingualism." "It behooves us to think what we are going to do in this war. We have asserted our loyalty. Now the time of stress has come. So far, we can say, I think, we have absolutely filled our trust. The members of the order who have gone to the front are more than those of all other societies put together. "There is the question, what are you going to do about the war. More contingents are wanted, brethren. What is the Orange Order going to do? I beg of you, brethren, you who have the power, not to forget Langanark."

B. R. Hepburn, M.P., Prince Edward in a short address said "I tell all the young men today, we want recruits. I want you to join the colors and do your duty."

He predicted that in time the Order would sway the destinies of the Empire if men joined it.

\$27.50 SILK SUITS \$15.00

This is a chance to buy a Silk Poplin Suit very cheaply. Whether you travel or stay at home through the Summer you will find a light weight suit a good addition to your Summer wardrobe. The styles are up to the minute, and are very pretty. Made in all sizes from 16 years to 40 bust.

The colors are Black, Navy, Belgium Blue, Putty and Grey with collar and cuffs in a contrasting color or the same as Suit. All Suits are lined with a fine quality Messaline Silk, which will give good wear.

Suits are made by one of our best makers of a good Silk Poplin, and fit perfectly. We are clearing the last of these Suits which sold regularly for \$25 to \$27.50 with the price reduced to **\$15**

SILK POPLINS REDUCED

For those who prefer to make their own Suits and Dresses, we have several pieces of Shimmering Silk Poplins, in Black, Navy, Russian Green, Tan, Grey, Copenhagen, Alice Blue, Wisteria, Sky and Old Rose, all good colors. These make up into beautiful Suits and Dresses, and give excellent wearing service. 36 ins. wide. Regularly \$1.00 yard, this week for **85c yd.**

Sinclair's SEE OUR WASHABLE GOODS CLEARING AT 100 YD. Sinclair's

Tummon congratulated the Order on this grand demonstration. "Never again will the City of Belleville have a more loyal body of people. Speaking of the call to arms, he said "It means you, it means me. Orangemen should be leaders not laggards. Are we going to be picked men in the conflict like Gideon's Three Hundred." If the allies win, it will be by united armies, united factories, and united homes.

Rev. F. Louis Barber, Pictou said "We are called to a solemn duty. There has never been a time of greater danger for the Empire. Every father that has a boy should give him in his country's cause."

"There is no finer death in the world than on the battlefield."

"Are the leakages in the regiments to be made up?"

Already there are upwards of 20,000 Orangemen enlisted in Canada.

Grand Master Graham of the Grand Chapter of Ontario East, touched on the harmony of the Black and Orange.

Mr. Wellington Boulter also spoke a few words.

The gathering broke up with cheers for the King, the chairman and the Grand Master.

NOTES

Hon. Sir Mackenzie Bowell has been a member of Benjamin Lodge No. 274 for 71 years. He has never been out of the lodge and has filled every office in the lodge from that of Tyler and watchman. Mr. Porter referred to Ulster, the separate schools in Manitoba and bilingualism. "There is one way to perform our loyalty. Let us be loyal. Let us take our part in the public life of the community."

The B. W. Grand Master of Ontario East, Bro. Evan H. McLean, Bowmanville, was the next speaker, whose ties with Belleville are deep, called Belleville the Derry of Canada. He expressed his delight at seeing Sir Mackenzie, the neighbor of the Grand Master presiding. "May he long be presiding to be a leader among you." The grand master referred to changes in the public viewpoint as to the Orange Order; seventy years ago an Orangeman was ostracized. Today what a change. We have gained in numbers and in strength. "I think its greatest force is as a political institution. We do not recognize any allegiance to party."

"It is by politics we have gained the success we have reached. "Whether there is peace or war, we will not turn our backs on bilingualism." "It behooves us to think what we are going to do in this war. We have asserted our loyalty. Now the time of stress has come. So far, we can say, I think, we have absolutely filled our trust. The members of the order who have gone to the front are more than those of all other societies put together. "There is the question, what are you going to do about the war. More contingents are wanted, brethren. What is the Orange Order going to do? I beg of you, brethren, you who have the power, not to forget Langanark."

B. R. Hepburn, M.P., Prince Edward in a short address said "I tell all the young men today, we want recruits. I want you to join the colors and do your duty."

He predicted that in time the Order would sway the destinies of the Empire if men joined it.

R. W. Deputy Grand Master, W. E.

Train Derailed on the C. O. R.

The Central Ontario regular train from Coe Hill ran off the track about four miles north of Millbridge Monday while on its regular trip to Trenton. The trouble appears to have been caused by one of the wheels on the tender which caused the rails to spread. There were five coaches on the train all heavily laden with excursionists to the Orange celebration here. Four coaches left the rails but fortunately none was upset and no passengers were injured. The auxiliary was sent out from Trenton and the passengers were transferred to another train. By this prompt action the Orangemen were enabled to reach Belleville in time to join in the grand procession.

Age 90 Came to the Orange Walk

Mr. William A. Munro, who lives near Pictou, drove to the city on Saturday to visit his daughter, Mrs. H. Gay and to attend the Orange walk. He was 90 years of age last March.

Cars into Ditches

Two automobiles met with disaster on the Foxboro road last night. A man apparently started to doze while driving a Ford about two miles north of the city and his car struck the railing of a culvert. His car was badly wrecked but although thrown into the fence he was uninjured.

An Overland car pitched into a ditch at the next culvert, but little damage was wrought to the machine.

Lost Valuable Horse

Mr. Mayhew of Ameliasburg had the misfortune to lose a valuable horse on Saturday on Dundas street. The animal was attached to a vehicle and in passing a heavy wagon, one of its forelegs struck the wheel of the wagon and was caught. The vehicle in motion caused the horse's leg to be broken in two places. The animal had to be destroyed.

She Suffered For Nine Long Years

Then Dodd's Kidney Pills Cured Madame Belanger's Rheumatism.

She also had Backache, Headache and other Troubles, but they all Vanished When She used Dodd's Kidney Pills.

St. Amateur, Gloucester Co., N. B., July 12th.—Special—Cured of Rheumatism from which she had suffered for nine years, Madame Pierre Belanger, a well known and highly respected resident of this place, is telling her friends that she owes her new lease of health to Dodd's Kidney Pills. "I want everybody to know that I used Dodd's Kidney Pills for Rheumatism and that I am perfectly cured," Madame Belanger says: "I suffered from the Rheumatism for nine years. I also had backache and cramps in the muscles. I had a bitter taste in my mouth especially in the morning and I was troubled with headaches. "When Dodd's Kidney Pills cured my Rheumatism all my other troubles vanished too."

Rheumatism is caused by diseased kidneys failing to strain the uric acid out of the blood. Madame Belanger's other troubles are symptoms of Kidney Disease. Mrs. Belanger cured her Kidneys with Dodd's Kidney Pills and naturally they all vanished.

DISTRICT 1. STILL LEADS IN THE GREAT POPULARITY CAMPAIGN

One Candidate Already Has Passed the Ten Thousand Total—A Great Campaign in District V. and Everybody Having a Good Time—Some Hints to Workers.

The Great Contest deepens and intensifies in interest each day. Candidates are working like a bevy of busy bees and the returns are in almost every instance most gratifying. District I still has the honor of leading where Miss Anna Hurley is putting up a remarkably effective campaign. She is the first to pass the ten thousand total. Miss Maude Blaind, another very popular young lady has also attained a most creditable standing.

In District II Miss Blanche Gauthier, a very estimable young lady, is receiving strong support from her friends and still has the honor of leading the list. Two energetic high school boys, Masters Jack Orrill and Wm. Townner are pursuing a very active canvass among their friends and the vote accorded to them shows that results are being attained. Miss Margaret Brown, who was nominated only a day or two ago, is also likely to be a very popular candidate and her supporters have already done some successful work in her behalf.

In District III Miss Eva Harker is receiving splendid support and will, we predict when the final vote is summed up, not be very far from the top. She has a multitude of friends who will soon be very active in her behalf. Miss Grace Barrager, Octavia St., although her residence in the city has been comparatively brief, has already made many friends who are according her generous support. She will also receive many votes from her previous place of residence at Foxboro. The friends of Miss Margaret Green are also working energetically and have already given her a fine total of votes.

In District IV Miss Ethel Adams, the popular principal of Foxboro public school is making a canvass that is bringing results. Her friends are not merely saving coupons but are paying over cash for subscriptions, and cash is what counts.

The coupons are useful to supplement the subscription ballots, but no candidate should rely entirely upon coupons to carry on their campaign. In Cannifton and Corbyville three bright and active young ladies are working earnestly and zealously to gain one of the tours. These are Miss Flossie Lawrence, Miss Ethel Yorke and Miss Pearl Honeywell, and

all three have friends hustling in their behalf to round up the votes. Watch their vote at the next count on Thursday.

Miss Teresa Brennan from her excellent position in the centre of Treadings township has already recorded a fine total of votes and will be enthusiastically supported by her friends as the days go by.

Miss Myrtle Watson and Miss L. McKenna two of Deseronto's popular young ladies, are being generously helped out by their friends and will make a fine showing as the contest proceeds.

The greatest battle of all is in District V and a dozen determined and earnest workers are in a neck and neck race for the leadership. Miss Lena Bates of Avondale is doing some energetic canvassing and again assumes the leadership. Miss Ethel Lowery holds the second position and following in close order are Messrs. Spinson, Ireland, Thomson and Grant of Trenton, Misses Ollie Smith and Vera Foster of Trenton, Miss Lena Myers of Frankford and Miss V. Graham of Wallbridge. It is of course anybody's race for the ultimate leadership, but the contestants are deriving quite as much amusement out of the campaign as are the friends who are so enthusiastically supporting them.

District VI has a very large list of candidates which is rapidly narrowing down to the real workers. Miss M. Kerby, one of Stirling's most popular and estimable young ladies still leads her district, but she is having some keen competition from Miss Maude Bailey, a bright and vivacious young lady of Harold, Miss Hazel Salisbury, Moira's well known soloist, and Miss Murray of Springbrook.

District VII which is the good old county of Prince Edward has some most energetic canvassers whose work is showing most gratifying returns. Mr. Thos. G. Thompson of Rednersville is pursuing his quest with a determination that seems certain to bring results. He heads the district but is closely followed by Mrs. Gordon Bass of Mountain View, who has already made many warm friends since the settlement of her family in that vicinity. The active competitors of the two leaders seem to be Miss

Belnap and Miss Weese of the Rednersville section. There is plenty of time yet for a most interesting campaign in Prince Edward.

District VIII which comprises all other parts of the habitable earth outside of the other seven districts, is working up a campaign that promises some very interesting features. Miss Janet Comerford, one of the obliging and capable assistants in Madoc post office leads the district, but she is having spirited rivalry from the friends of Misses Helen Hudgins and Emma Wellington and Mr. Vincent Cox.

But the Village of Marmora is not going to allow Madoc to have everything its own way. The friends of Miss Edith Archer of that village and Mr. C. S. Halse of the school staff have already placed to their credit a most pleasing total of votes. District VIII will be watched with increasing interest until the last vote is polled.

To the candidates collectively we would say—do not try to do all the work alone. Organize your friends. Get them working in your behalf. They will gladly help you out. Some will assist by the collection of coupons others by giving cash for subscriptions, and others again by actively canvassing in your behalf.

The next lot of coupons from the daily and weekly editions will be good to July 26th thus leaving the candidates more time for the collection of subscriptions.

Candidates can save much labor in filling out coupons by tying them in neat square packages with the one on top filled out with the name of the candidate and the total number of coupons in the package, the rest of the coupons after the one on top being left blank.

Watch Thursday's paper for an interesting announcement as well as the next count.

Following is the result of the polling to date.

CAUSELESS DEPRESSION.

The recent setback of the Russian forces and the outcry in England in connection with necessary preparations for an increased output of ammunition have combined to cause quite unnecessary depression in the public mind with regard to the war. We are disposed for the time being to dwell unduly upon what the Allies have not accomplished. We forget what they have achieved. We are losing sight of the failures of our opponents as well as of our successes. It is high time now to take more comforting thought, and get rid of our temporary pessimism.

Not only are the Allies not beaten but there is no likelihood of their being beaten. The end of the war has been postponed—that is all. We were disposed to be too sanguine after the battle of the Marne. Too much encouragement was perhaps extended by those in authority. Reaction following reverses was to have been expected. It has come. It must not be taken too seriously. Russia has only been worsted—not beaten. Her armies are intact. Her lines are unbroken. Her reserve force is unimpaired. The outcry in the United Kingdom over munitions has been largely artificial, to stimulate the people to greater effort.

The important facts to be kept in mind are these: Germany's carefully matured plan of campaign, on the success of which all her hopes were based, went to pieces ten months ago, on the banks of the Marne. She was to have finished the war nine months ago. It is only beginning now. She expected to have Italy with her. Italy is in the field against her. Germany and Austria combined have not much more than a fourth of the population of their European opponents without taking into account the extra-European resources of the Allies. The material wealth of the Allies as compared with their opponents is in about the same proportion as their population. The financial exhaustion of the Germanic Powers must be much greater than that of their opponents because of the greater strain to which they have been subjected upon two battle fronts. They have much larger armies which during the past year of the time they have had in the field.

The German army has already exhausted their supreme effort. They must soon be steadily declining in strength whatever they may assert to the contrary. The Allies are constantly increasing in effective power. The British are only now beginning to make their land strength really felt. A few months hence they will have their vast new armies in the field fully equipped well trained and with abundant munitions of war of all kinds. There is absolutely nothing to indicate that the Germans cannot be held where they are for many months to come quite as securely or even more securely than they have been held during the past ten months.

It is, therefore, a matter of waiting until the Allies are quite prepared to advance. In the meantime, the German forces are being steadily and rapidly expended or worn down. Even their nominal victories in Russia are costing them enormously in men and material. They are being "nibbled at" without ceasing in the West. Serious demands are being made upon them by the Italian armies in the South. The sea is closed against their fleet and their commerce. Their submarines are causing a good deal of annoyance, but no serious damage. There is every prospect of further important accessions to the ranks of the Allies from neutral nations in the not distant future. The Germans can have no possible hopes of that kind.

On the ground, therefore, there is no ground for uneasiness much less for alarm. The Allies are more certain of winning now than at any time since the beginning of the war. The only disturbing thing in the situation is that the war seems likely to last longer than many of us hoped at the outset. But even with reference to that, it should not be forgotten that Lord

Kitchener at the very first placed the possible duration of the war at three years. It is now only eleven months since it began. Let us try to avoid impatience as well as quite unnecessary discouragement. Let us resolve to keep up our spirits as our soldiers at the front are doing so splendidly, and go on bravely, with the trying task before us, doing as Canadians our full share in the struggle, certain of fully accomplishing it in the end, and spurred by the knowledge of its vital importance to us, and our children and children's children.

A FAILURE.

"Since Admiral von Tirpitz's announcement," writes the London Financial Times, "regarding the German 'war zone,' 'of the fatal day which was to seal Great Britain's commercial doom, the value of our monthly imports and exports has increased by quite 20 per cent.' And the Boston Transcript, an impartial witness, adds that while the raids of the German submarines bear abundant testimony to the courage of their officers and crews, their facility as measures 'for bringing Great Britain to its knees' is equally apparent. Many British ships have been sunk, and as the German theory is that the submarines are blockading British waters, not a few neutral vessels bound for the ports of the United Kingdom have been destroyed likewise. Yet the aggregate of the British vessels destroyed to that of British vessels in being is as a 'drop to a bucketful.'

The British Government figures out the proportion, week by week. During the week ending June 9 the aggregate tonnage of the vessels submarined was 20,856. In that week 1,335 vessels of all nationalities of over 300 tons burden arrived in or sailed from United Kingdom ports. The succeeding week told the same tale. The safe arrivals and departures totalled 1,847, while the tonnage of those destroyed was 26,076. From the beginning of the submarine blockade arrivals and sailings up to June 16 numbered 24,442, while 75 vessels had been submarined. "As an irritant," says the Transcript "the submarine blockade has seldom been surpassed, but as a means of shortening a great war it is a failure."

Lord Kitchener, in a speech of grave import, lays before the Nation "the vital need for men." He calls for "more men and still more men until the enemy is crushed." The Secretary for War was speaking to the people of the Old Country, but his words appeal just as strongly to Canada.

Three of New York's most talented artists are giving their services without remuneration for the noblest humanitarian work of the present generation—Belgian relief. They are Wing Tabor Wetmore, protean actor, Elizabeth Basey premier violinist, and Cecelia Basey, lyric soprano. All three are appearing at Griffin's Opera House tonight. The prices are purposely placed so low as to be within the reach of every citizen. The people of Belleville will do themselves credit by greeting the artists with a crowded house.

We can readily understand that the evidence adduced in behalf of the Fullerton charges has been terribly disappointing to a Conservative press. That is not the reason why the organs should resort to downright lying about it. For instance the Halifax organ headed its report the other day as follows: "Newton, the Liberal leader, tells of the money got from Tories." The truth is that the said Newton is an active Tory worker and one of the heeblers of the Roblin-Rogers party. No Liberal leader had anything to do with the money in any shape or form.

THE WORDS OF WINSTON.

Breezy as the breezy sea,
Winston, you're the boy for me,
Where's the tonic, where's the wine
Equal to a speech of thine?

When a gloomy week we've had,
Learning our conditions sad,
Hearing Jeremiah's views,
Painted in the blackest hues.

Timely then you come along,
Singing quite another song,
Making all our prospect bright
Turning darkness into light.

"Psha! No use in speeches gay!
Words! And words don't win," they say,
Well, my good, ill-omened birds,
What are all your croaks but words?

If for gloom mere words have worth,
Why, then, have they none for mirth?
Jeremiahs don't alone
All the British language own.

Grant that words may value claim;
Winston's have with yours the same,
Grant they've none—'tis frankly spoke—
Cease, yourselves in words to croak.

THE CANADIAN EXHIBIT AT SAN FRANCISCO.

Canada has become a specialist in the art of devising exhibits at the great fairs of the world. Since the Centennial Exposition of 1876, we have been represented at all international exhibitions—the Columbian, Chicago; the Pan-American, Buffalo; the Japanese, Osaka; the Paris Exposition; the Louisiana Purchase; the Dublin Exposition; the Entente Cordiale Exposition, London; the Alaska-Yukon, Seattle; the Brussels Exposition; the Festival of Empire, London, and, lastly, the Ghent Exposition, Belgium.

This year, at San Francisco, according to all accounts, Canada has surpassed previous records. In opening the building Hon. Martin Burrell, Minister of Agriculture, stated that the object of the exhibit was "to illustrate the character of our natural resources, to portray their development, and to reflect the activities of eight million people."

Canada has a special Exposition staff, which constitutes a permanent branch of the Department of Agriculture. Experts, under the supervision of Commissioner-General William Hutchinson, collect and prepare the various exhibits, which are gathered from all parts of the country and become the property of the government. Our success at international exhibitions has done much to proclaim the advantages and resources of Canada, and is a most valuable stimulus to immigration.

The Canadian Pavilion at San Francisco covers an area of 70,000 square feet, and required 2,000,000 feet of lumber in its construction. The main floor is divided into three halls, 220 feet long and 20, 30 and 40 feet wide, respectively. The halls and ceiling are decorated with red felt, upon which are worked designs in leaves, grasses and grains. A wide frieze with relief work of grasses, leaves and shrubs, depicting Canadian scenes, extends throughout the building.

The exhibits are varied as well as extensive. The water power section illustrates what resources Canada possesses in her waterfalls. The wood pulp industry is shown by processes and samples. Ores take up a considerable section. Fishery subjects lend themselves admirably to treatment, and Canada's riches in this respect are set forth. The fruit section contains all kinds of preserved and raw fruit, and faces a bit of re-

markable scenery showing types of Canadian orchards. One of the most interesting corners is that depicting "Past and Present of Canada." It gives at a glance a conception of our wonderful material progress.

One of the most necessary departments is the Information Bureau. This is connected with reception rooms, where visitors can rest, smoke or conduct correspondence. Special attention is directed to the task of answering questions and supplying information about the opportunities for immigration with a view to encouraging United States farmers to come to Canada.

The Exposition Department is to be congratulated on its splendid achievement.—Industrial Canada.

MENTAL TELEPATHY.

There is something almost uncanny in the way in which some of our circle intuitively guess our ideas. For instance: The ink from the stub of our quill pen had not been dry an hour after writing the announcement of our wonder moving contest (see another column for full particulars) when the mailman brought us four letters, each of which contained a welcome to one entering to pay up for a year's monthly thrills of the Tower of Intellectuality. We are sending thought waves soaring through the ether, hither and thither, in the hope that the receivers of some of our delinquents will catch the waves and send along their Billie Dues.—Chicago-Bellefonte News.

Death of Dr. S.L. Nash

At his late residence, Bath, on Wednesday morning, Dr. S. L. Nash passed to rest after a month's illness. Only a few months ago the deceased's brother, Thos. W. GO AS OUR GUEST TO SUNNY CALIFORNIA

Best Music of This Generation for Exposition

How much will the Panama-Pacific Exposition mean to music-lovers? It will such a revelation of the artistic and social potentialities of the art of tone as will seem to many a music-hungry soul the enunciation of a new aesthetic gospel.

California has been musical from the beginning. Down at Monterey they still sing the old hymn to San Carlos which was taught the Indian novice by Fra Junipero Serra and his companions, and the Spanish leaven is constructively operative among us to this day. Even the primitive chants of the Redskin are not lost, and men like Carlos Troyer and Charles Wakefield Cadman are following the example of Edward MacDowell to reveal to the world what artistic virtue is implicit in those aboriginal melodies. The Forty-Niners gave us their ballads; the Frenchmen sang his chansons, the German his imperishable Volkslieder; Muscovite and Hun, Celt and Saxon and Latin all contributed their meed of music to our California treasury of song.

This leaven of the world's music will be mightily active in our Exposition. The Fair will be a musical meeting ground, and whether we think in the idiom of the classicist or love simpler music which is good for entertainment's sake, or whether we are eclectics and have an ear for whatever is good in all kinds of music, we shall find what will please in

ODD FELLOWS SUCCESSFUL FIELD DAY AT TRENTON

Though weather conditions early on Wednesday morning did not look promising, the Oddfellows and their friends were not to be deterred from coming to the first district field day of District No. 37.

The committee made no mistake in engaging this organization and in a meeting of the lodge held last evening.

The sports at the grounds. Boy Scout events, water sports, lacrosse, tennis, baseball match and parade.

The Toronto canton won the first prize of \$150, and the handsome Senator Corby cup, while the Picton canton won the second prize of \$100.

The baseball match between the I.O.O.F. team of Frankfurt lodge of Frankfurt, N.Y., and the Kingston I.O.O.F. team was well contested and resulted in the Canadian boys winning.

Mr. Richard White won the "quick hitch up" race, the special prize for which was given by Mr. W. G. Mikel, K.C. Mr. Mikel was present in the judges' stand and presented the prize personally.

The parade, including Trenton Cadets, Brighton Girl Guides, Trenton Girl Guides, Napanee Boy Scouts, U. Brighton Boy Scouts, Trenton Boy Scouts, Toronto Canton No. 7, Belleville canton, Picton canton and many subordinate lodges, was the best ever seen here.

The Daughters of Rebekah proved of invaluable assistance at the grounds and the financial results of their efforts proved very satisfactory.

We noticed on the judges' stand, Sir Mackenzie Bowell, W. C. Mikel, K.C., W. D. M. Shorey, W. Carnew, E. G. Porter, M.P., C. M. Stork, Stewart Masson, K.C., R. Weddell, J. W. Johnson, M.P., and several others from out of town.

EXAMINATIONS.

There has been a good deal of complimentary comment upon the character of the arithmetic paper at the recent Midsummer Examinations.
