UNVER, Colo., Dec. 11 - Official ac- count of the miners' strike at Gold- vey given yesterday by the ex- ecutive board of the Western Federa- tion of Miners. The following tele- gram was sent to Charles H. Mackin, president of the Goldfield Miners' Association: "Executive Board recognizes the of your position. Will render possible assistance."

AS A TOTAL WRECK FROM HEART FAILURE.

Heart disease is characterized by its ality approach and its variety of forms, in all its forms nature gives unmistak- able signals which warn us of its presence.

One of the first danger signals amount- ing to something wrong with the heart is the regular beat or violent throb. Often there is only a fluttering sensation, or an "ill gone" sinking feeling; or, again there may be the most violent beating, with things of the skin and visible pulsations of the arteries. You may experience a choking sensation, gasp for breath and it is then about to die. In such cases a action of Milburn's Heart and Nerve is in quieting the heart, restoring its normal beat, and imparting tone to the system. It is beyond all question, mar- velous. They give such prompt relief, that speedy restoration to health that no need suffer.

Mr. Darius Carr, Geary, N.B., writes: "It is with the greatest of pleasure I write in a few lines to let you know the great relief my Milburn's Heart and Nerve has given me. I was a total wreck from heart failure, my wife advised me to take your pills, and, after using two boxes, I was restored to perfect health. I am now sixty-two years old and feel almost as well as I did at twenty."

Price 50 cents per box or 3 for \$1.25 at all dealers, or mailed direct on receipt by The R. Milburn Co., Limited, Toronto, Ont.

HOUSE CLOSED FOR HOLIDAYS

Debate Continued on Japanese Influx

Mr. Borden Asked for Papers and is Promised Them in Due Time

OTTAWA, Ont., Dec. 18.-The Com- mons started for home and Christmas after four full hours of important busi- ness, after the new government bill for the regulation of insurance was introduced and explained by Finance Minister Fielding. This was followed by a debate on Japanese immigration. The leader of the opposition introduced the immigration matter by moving for papers and buttressing his request with a statement that Mr. Chamberlain had once admitted "Canada" to meet a

Mr. Borden asked for papers and is promised them in due time. He wanted to see the written as- surance that the Japanese Consul Gen- eral was said to have given the Govern- ment when the treaty was signed and not while the matter was under con- sideration. He refused to believe that Japan was "deliberately violating the understanding on which the treaty was signed. Therefore a commissioner had been sent to Japan to look into the case. If it was found that Japan was acting in bad faith, and not merely that some individuals were evading the act, then the Canadian government would have the Japanese treaty de- nounced.

Sir Wilfrid, in reply, said that all the papers would be furnished when Mr. Lemieux was home from Japan, and not while the matter was under con- sideration. He refused to believe that Japan was "deliberately violating the understanding on which the treaty was signed. Therefore a commissioner had been sent to Japan to look into the case. If it was found that Japan was acting in bad faith, and not merely that some individuals were evading the act, then the Canadian government would have the Japanese treaty de- nounced.

ST. PETERSBURG, Dec. 18.-In the Stoesel trial today, General Kuropatkin testified that early in May doubts had arisen as to the fitness of General Stoesel to command the fortress, owing to his nervousness. This idea was strengthened by a communication sent by General Smirnov to his aide, Colonel Gurko, that Stoesel was a coward and apt to lose his head during an assault and that it might be necessary to place him under arrest to prevent the fall of the fortress. General Kuropatkin, after obtaining confirmatory details of this statement from General Stoesel. Answering General Stoesel's query as to what grounds he had for making such a statement to General Kuropatkin, Colonel Gurko re- lated two instances in which General Stoesel had ordered his staff to scatter under fire, himself heading the dash for shelter.

Colonel Golovan, who was in charge of the coding of messages at Port Arthur, established the receipts by Gen- eral Stoesel of General Kuropatkin's orders. He said he gave the order for General Smirnov to assume command of the fortress to General Reiss, who, after conferring with General Stoesel, directed him to remove the copy from the files and suppress the record there- of. Only five men in the fortress knew of the order.

The testimony brought to light the surprising fact that General Kuropatkin, before the war, had recommended the abandonment of Port Arthur and the restoration of the Kwang Tung peninsula to the Chinese.

SENT TO JAIL FOR ONE MONTH WITHOUT OPTION

Lewis Mason, Another Spitt Act Vi- olator, Went to the States for Christmas

HAMPTON, Kings Co., Dec. 18.-The Scott Act cases which have been under trial at Sussex before Stipendiary Magistrate and adjourned, were again taken up this morning, when the result of a debate on Japanese immigration was concluded of a first offense and sentenced to jail for one month with out the option of a fine.

A similar result was reached in the case against Lewis Mason, an employe of the Health Hall, Hampton Station, but the latter went to his home in the United States yesterday to spend his Christmas, and will not be "re- ceived" until his return, should he ever come back.

The charge against Harry W. Wil- son, manager of Health Hall, for a second offense was closed so far as the prosecution is concerned, and the ac- cused will now enter on his defense.

F. M. Sprout conducted the cases for the Scott Act inspector and James M. McIntyre appeared for the defense.

Tomorrow, Thursday, four more cases will be tried, namely, against George Doherty, Sylvester Madin, Thomas Brown and Daniel Ross, the latter be- ing now on his defense.

ST. JOHN, N. B., Dec. 18.-The Domi- nion Coal Co.'s lawyers have not yet finished the presentation of their appeal to the full bench, and it may be to- morrow afternoon before the Dominion Iron and Steel Co.'s lawyers commence their argument as to why Judge Long- ley's decision in the lower courts, find- ing for them on every point but one, should be upheld. After speaking for nearly a day and one-half, H. A. Lov- ett, C. C., concluded his opening argu- ment this morning. He was followed by his colleague, J. J. Ritchie, K. C., who dwelt particularly with the reflec- tions thrown on the quality of coal. When court adjourned this afternoon he had just commenced an argument for the admission of evidence, which, he claimed, would show that in the ne- glect of the contract of sale, the com- pany had absolutely de- clined to guarantee that coal supplied would prove satisfactory to Steel Co. This evidence is the draft contracts which were submitted by both sides, and was ruled out by Judge Longley on the ground that commencing of parties before the contract was made was not evidence.

The Steel Co.'s case will be as lengthy as the Coal Co.'s.

STEEL-COAL CASE DRAGGING ALONG

HALIFAX, Dec. 18.-The Dominion Coal Co.'s lawyers have not yet finished the presentation of their appeal to the full bench, and it may be to- morrow afternoon before the Dominion Iron and Steel Co.'s lawyers commence their argument as to why Judge Long- ley's decision in the lower courts, find- ing for them on every point but one, should be upheld. NEW INSURANCE BILL MAKES RADICAL REFORMS

Public Control Enlarged--More Publicity Compelled

Rebating Forbidden Under Heavy Penalties--Frat- ernial Companies Restrict- ed--Investment Field Broadened--Subsidiary Co's Forbidden.

OTTAWA, Dec. 18.-In presenting the new insurance bill to the House today, Hon. Mr. Fielding, recalled the fact that a commission had been appointed a year ago to inquire into insurance and had, within three months, submitted a draft bill for the revision of the insurance act. The mat- ter was of such importance that the government did not deem it advisable to proceed with it, immediately, but preferred to wait until the table until another session.

"In the interim," said Mr. Fielding, "we have been able to give the sub- ject further consideration, and with the assistance of insurance experts of ability and impartiality we have pre- pared a bill which I have now the honor to present to the House. The bill is necessarily somewhat technical and complicated in character and can be best understood by a careful study and with the assistance of insurance ex- perts. It need not burden any reman- ing with details of the bill, but will call attention to its most important fea- tures."

"The bill proposed by the commission dealt with life insurance only, while the bill now submitted the whole of insurance is dealt with, though the amendments chiefly relate to life insurance."

In the investigation by the commis- sion it was complained that the powers of the government through the Finance Minister were not as broad as was desirable. We are enlarging those powers so that the minister could now withdraw or suspend the license of a company under very exceptional circumstances. By the bill the minister may for any violation of the insurance act, suspend, or refuse to renew a license of an insurance company. The powers of the superintendent of insurance are widened by giving him the powers of a deputy minister and special powers en- abling him to visit the offices of all American companies and inspect their business at the head offices which it is the duty of the superintendent to do. He is also given power to make special audits and ap- point valuers to value the property of the companies when he deems it desir- able.

"Trust funds of foreign companies must hereafter be placed under the trust of the Canadian trust company, and where vacancies occur through the death of a present trustee, his place must be filled by the appointment of a trust company."

Deferred Dividends - "A question much discussed is that of deferred dividends and the commis- sion proposed to abolish all dividend policies and distribute the surplus of the companies as good, but think an annual distribution rather drastic and costly. We realized that the surplus should be divided once in three years, companies which divide annually can continue to do so.

The commission recommended that the surplus funds from deferred di- vidends should be treated as liabilities. To this the companies have objected. We propose that these funds should be treated as a liability in the report of the companies, but in the case of con- siderable depreciation of securities, which occurs at the present time, it would place the company in a position of apparent insolvency to charge the company with the whole of the depre- ciation. In the case of depreciation which would involve a loss it is pro- vided that the depreciation may be charged against the surplus funds, and in that way the balance will appear as a liability of the company.

The much discussed question is that of the expense of new and renewal business. This is one of the difficult problems. The commission recommended that the expense of new business be paid separately from that of old. This is desirable, but we realize that companies may find a difficulty in making a distinction in proportion of the expense of old and new. However, we have allowed the clause recommended by the commission to stand.

Salaries and Commissions - "The question of salaries and commis- sions has been much discussed. We propose that officials at the head of- fices shall not be permitted to receive commissions in any shape or form. Only agents may be paid by commis- sions. No salary of more than thousand dollars or more may be paid without hav-

ing been specifically voted by the board of directors. Without this it might be possible for the general manager, by his own volition to make a contract for the payment of a larger salary. This was recommended by the commission. We propose that no agreement for salary should be made for a period of more than five years. The commission recom- mended these years, but we feel that this is not a long time. As a further protection against excessive payments we propose that in the case of salaries and commissions amounting to more than four thousand dollars a year, a list of the salaries and the persons to whom they are paid must be furnished in the annual insurance report. Any person receiving over four thousand dollars in salary and commission combined will find his name in the insurance report. We think that publicity is the only reasonable curb we can put on abuse in that direction.

Question of Rebates - "With regard to rebates or special favors the commission has recom- mended that these be abolished. It is proposed that in every case of grant- ing a rebate a penalty of one thousand dollars be imposed upon the director or manager of a company, the agent of which has granted the rebate. It seems to us that this is too severe on the directors, and it does not take ac- count of the agents who give the re- bates, or the policyholders who receive them. We propose that a fine of \$100 shall still stand, providing that the offense is committed with his knowledge.

"Without that knowledge it would be reasonable to impose such a penalty. But in the case of a director or agent who knowingly permits this offense, we provide that the agent who gets the commission and the policyholder who receives it in the way of rebate, over and above the regular business transaction shall be subject on both sides to a fine of \$100, to be recovered by any person who takes action.

The Pension Fund - "The commission made a recom- mendation respecting the pension fund. It is not able to agree with the bill which has all pension funds for- feited in the case of large corpora- tions which find it necessary to make some such provision in order to retain the services of their best men. The view of the commission is that the pension fund should be estab- lished of pensions providing that in every case they are authorized by an annual or special general meet- ing of all persons qualified to vote in the affairs of the company. It must not be allowed by arrangement with the manager of directors alone. The commission made recommendations in respect to the method of voting by policy holders, taken from the "New York State Law. Difficulty, confusion and expense arose in the United States from this amendment. It is rather complicated by an election by mail and people are invited to vote by send- ing in ballots. While I do not think the abuse has occurred in Canada which makes that recommendation a matter of urgency, and as it is of doubtful expediency in the light of the experience in the United States, we think in view of the experience of large corporations which find it necessary to make some such provision in order to retain the services of their best men, the view of the commission is that the pension fund should be estab- lished of pensions providing that in every case they are authorized by an annual or special general meet- ing of all persons qualified to vote in the affairs of the company. It must not be allowed by arrangement with the manager of directors alone. UNITED STATES IMMIGRATION

Vastly Greater Than in Previous Years

THE STATISTICS

Nearly a Million and a Half Souls Flocked in Last Year

WASHINGTON, D. C., Dec. 15.—Immigration to America during the year ended June 30, 1907, was vastly greater than in any previous year in the history of the United States. This fact, with all its interesting and important details is placed in strong light in the annual report of Frank P. Sargent, commissioner general of immigration and naturalization, which was made public today. Commissioner Sargent says:

"An army of 1,385,249 souls, they have come, drawn hither by the free institutions and the marvelous prosperity of our country, surpassing in number the record of all preceding years."

The report contains in tabulated form every phase of information bearing upon the question of immigration, and in submitting this carefully compiled data, Mr. Sargent says:

"The immigration for the year 1907 exceeded that for 1906 by 184,514, an increase of more than 17 per cent. During the fiscal year 1907, 1,385,249 souls were admitted at our ports; during the past year, 1,200,735, an increase of 63; hence the total number of those who have sought admission in 1907, 1,385,249, exceeds the number who applied in 1906, viz.: 1,117,167, by 138,249."

Commissioner Sargent says it is of particular significance that many immigrants landed at ports in the south during the past year, and that the immigration from Japan, although relatively not great, has tripled in the past year. This increase is significant, because it comes in the face of regulations adopted by the American government with the assent of Japan. The reports show that thousands of the Japanese landed in Mexico during the past year and ultimately gained admission surreptitiously into this country. Once in the United States it was impossible to trace individuals, except in the case of a few hundreds, if not thousands, of Japanese are still coming into the country by stealth.

The financial situation of admitting aliens is always an interesting subject. Of those admitted 878,923 had less than \$50 each in their possession, while 107,502 were able to show amounts in excess of that amount. The total amount of money brought into the country by arriving aliens was \$35,899,893, or an average of almost \$20 per person.

CONUNDRUMS

What is the difference between a hill and a pill? One is hard to get up, and the other is easy to get down. Why is a lady dog like a hill? Because she is a slow pup (slope up). A man and a goose once went up in a balloon together; the balloon burst and they landed on the church steeple. How did the man get down? Picked the goose.

A BEAUTIFUL COMPLEXION FREE

What beauty is more desirable than a white complexion and elegant jewelry. An opportunity for every woman to obtain both, for a limited time only.

The directions and recipe for obtaining a flawless complexion is the secret long guarded by the sister eminds of the ORIENTALS and GREEKS.

This we obtained after years of work and at great expense. It is the method used by the fairest and most beautiful women of Europe.

Hundreds of American women who now use it have expressed their delight and satisfaction.

This secret is easily understood and simple to follow and will save you the expense of creams, cosmetics, blanches and lotions. Give you a beautiful complexion and free your skin from pimples, bad color, freckles, etc. It alone is worth to you many times the price we ask you to send for the genuine diamond ring of latest design.

It is a genuine skin cream composed of sparkling brilliant absolutely purest, very costly, shagreened by a delicate with Tinted coloring of 12% gold shell, you will find it a most wonderful and desirable skin cream. Each \$2.00. Notice style of sign.

We will give this beautiful complexion cream free when your order is enclosed with this card on the diamond ring. Get your order in before our supply is exhausted.

This offer is extended for a limited time only in means of advertising and introducing our goods.

Send to-day before this opportunity is forgotten.

RIPTS OFF SKIRT; FLAG TRAIN, SHE SAVE 3200 LIVES

Pennsylvania Is a Heroine Following Landlide Across the Country

COLUMBIA, Pa., Dec. 12.—To the quick wit and ready courage of Mrs. Zimmer St. Clair 2000 passengers of the Columbia and Port Deposit branch of the Pennsylvania railroad owe their escape from certain injury and probable death, in a gigantic landslide today. The scene of the drama was Fishing Creek, a few miles below McCall's Ferry, on the Susquehanna river, and the heroine was the wife of the track foreman at the Fishing Creek station.

Mrs. St. Clair was alone in her home with her six young children when a rock struck the house and rattled the window panes.

Running to the porch, she observed a cloud of dust rising from one of the steepest hills along the river, and a mile distant and a moment later saw thousands of tons of earth and rock, loosened by the recent rains, sliding down upon the railroad track below.

As the wife of a railroad man, Mrs. St. Clair at once realized the peril of the situation. She knew that two passenger trains were due to pass that point within the next half hour, one from the north in fifteen minutes and another from the south only a little later. More than that, she knew that this particular stretch of track was so situated as to be out of an engineer's sight until his engine was almost upon it, and that no track walker would pass it for almost an hour to come.

There were no near neighbors to call upon for assistance, so the woman decided to race the spot herself. With- out further hesitation, she locked her children in the house and set off, running across country, through muddy roads and over rough fields and snow-filled gullies, until, almost exhausted, she reached the scene of the disaster as the southbound train came into sight, only a few hundred yards away.

Then, ripping off her skirt, and using it as a flag, she ran across the field, shouting to the engineer to stop. She dashed down the middle of the track toward the oncoming locomotive, the engineer of which saw her signal just in time to bring the train to a stop at the very threshold of death.

While several members of the crew ran to the south end of the slide to warn the northbound train, their commander helped the woman to her home. Mrs. St. Clair was badly cut and bruised by her run across country and in need of medical attention, but not seriously injured. The total amount of money saved from probable wreck carried 200 passengers, and more than that number of men are now at work removing the debris of the landslide, which is regarded as one of the worst in the troubled history of the branch of the road.

AGED LADY FELL DOWN STAIRS AND BROKE COLLAR BONE

JACKSONVILLE, Dec. 16.—John Harper, Sr., is very ill of pneumonia and as he had the same disease four years ago and is now eighty-two years of age, little hope is entertained for his recovery. Mrs. Harper died in October and since then Mr. Harper has gradually declined. He is a prominent man in this community and has been president of the Agriculture Society, the Commercial Club and the Chamber of Commerce.

Mrs. Susan Payson, while carrying her grandchild down stairs, tripped and fell, the two striking heavily at the bottom. The child escaped without bruises but Mrs. Payson broke her collar bone. It was also necessary for Dr. Kierstead, of Woodstock, to take several stitches in the side of her head.

Miss Golding, trained nurse from Woodstock, is with her.

P. W. A. INCREASES NOT SETTLED YET

GLACE BAY, N. S., Dec. 15.—There was a very large attendance at the meeting of the P. W. A. lodge, held here last evening. The matter of the three year contract was the chief topic of discussion, but it is learned that no final action was decided on, the matter being left with the general committee of the lodge. It was decided, however, that the lodge stand by their demands for an increase to all, as already set forth at their first meeting with the company. At a meeting of the general committee of lodges, held later, it was unanimously decided that the meeting of the grand council of the P. W. A. be called at once and that the matter be laid before them. It is probable that the men will apply for arbitration under the Nova Scotia Arbitration Act and the Lemieux Act. No definite information in regard to the trend of discussions or what answers will be given the company at the meeting tomorrow could be secured. It is thought that the men will ask for a postponement of the final conference for a week or ten days.

JEFFERSON CITY, Mo., Dec. 13.—The J. E. Burns Shoe Manufacturing Company made an assignment today for the benefit of creditors. The assets are \$80,000; liabilities \$160,000. The plant has been leased to a St. Louis concern, which will continue to operate it.

REVOLT GROWING IN PORTUGAL IN SPITE OF GOVERNMENT SEVERITY

KING CARLOS. THE CROWN PRINCE WHO HAS BEEN BANISHED.

LISBON, Dec. 13.—The situation in Portugal is becoming increasingly difficult, and it is almost impossible to obtain exact information owing to the obstruction offered by the police and the government, a rigorous censorship having been imposed. Newspapers are suppressed, and telegrams held up. The opposition parties, on learning that the crown will support Senor Joao Franco, have lost all hope of overthrowing him. They will now employ every weapon in combating the king and the government.

This condition of affairs has brought about a state of violent agitation, and the newspapers are employing language so strong that the government has suspended the publication of several newspapers, including the Diario de Noticias, Jornal do Comercio, Portugal Popular, Vanguarda, Mundo, Epoca, Liberal Correo da Noite, Noticias da Liberdade, Noticias da Manhã, and the two organs of the government, the Diario Illustrado and the Jornal da Noite, are being published without having been denounced. The censorship forbids the circulation of foreign newspapers which publish any news against the government.

These suspensions are to some extent justified, because the press is employing the most abusive language, full of insults to the King, Senor Franco, the archbishop and the authorities, and, in addition to this, a good deal of utterly false news is being published. Nevertheless, it cannot be denied that a feeling of strong indignation against the King is in existence and many monarchist politicians have passed over to the Republican party, while still more, disapproving the policy of Senor Franco and the attitude of the King, have retired into private life. A profound sensation has been caused by the withdrawal to the Republican camp of the former Jose da Cunha, formerly the King's instructor and an ex-minister. He has been joined also by Anselmo Braamonteza, a poet of the realm. Papers have also been discovered showing the existence of a widely ramified plot, the object of which was to spread terror in Lisbon and Oporto. As a consequence of these discoveries the police are carrying out rigorous domiciliary visits, and although it is strenuously denied that members of the army and navy have been arrested, I am in a position to assert the contrary. As a matter of fact, several officers of the two services are now in prison, accused of being accomplices in a contemplated coup d'etat. Many civilians have also been arrested. All these people are now in solitary confinement in the Estrela, Quatro Cantinhos, Carmo, and Cabeco de Balsa barracks.

Directly connected with recent events is the resignation of the military governor of Lisbon, and various officers have been transferred to other regiments. Such a state of unrest prevails here that the troops are all in barracks ready to march into the streets on the least sign of the outbreak of a riot. However, very few of the military sympathize with the Republicans, nearly all the officers being loyal friends of the king. The crown, therefore, counts upon the support, should the occasion arise, of practically the whole of the army and navy. Some officers in whom but little confidence is reposed will be sent to the colonies, and a similar step will be taken with the crews of a few vessels who are suspected of friendship with the Republicans.

Senhor Franco in a few months claims to have effected many most necessary reforms. In spite of many considerable improvements in the salary of state officials, he has reduced the deficit from thirty to ten million francs; he has had the courage to expose irregular payments made to the crown by former ministers and to put the civil list on a proper basis; and he has imposed new taxes. In many other respects he has shown himself a vigorous and liberal-minded reformer. On the other hand, he has undoubtedly lost the support even of the political party under Senor de Castro, who originally supported him in the Cortes, and now has Conservatives, Liberals and Republicans. The united front which he has broken up has the consequence that his repressive measures have been necessary against the very numerous and vehement newspapers ranged against him, and that, though hitherto there has been no serious disorder, his care of the army and his precautionary watchfulness show that the prime minister is quite ready to put down opposition with a high hand.

NEW HOUSE BURNED RIGHT TO GROUND

Out of Reach of the Fire Department

Was Owned by Thomas Wells of Lancaster—Little of Contents Saved—Loss \$1,400—Insurance \$900

The residence of Thomas Wells, Duke street, Lancaster, was totally destroyed by fire last night. The furniture was practically all burnt with the house. Mr. Wells' total loss amounts to about \$1,400. The house was insured for \$900 and the furniture for \$500. All insurance was carried with White and Calkin's agencies.

The dwelling of David Wells, brother of Thomas Wells, stood next the burned building, but escaped with a scorching. It was insured for \$900 with White and Calkin, who also carried \$300 on the furniture.

At about 7:30 o'clock last evening Mr. Wells was sitting in his dining room. His four year old son, who was lying on the sofa, asked to be put to bed. Mr. Wells started to take the boy upstairs, where the baby, only two and a half years old, was already asleep. Smelling smoke, Mr. Wells investigated and found that flames had broken out on the second story near the chimney and had gained great headway.

Rushing through the smoke he seized his youngest son and brought him down safely. He then took both boys to his brother's house next door. On his return he remembered that he had the sum of \$27 upstairs. He tried to get this money, but was driven back by the flames.

The fire by this time had assumed proportions large enough to attract people from all over the West Side. Mr. Wells, who with the third and oldest child was attending service in the Lutheran street Baptist church, was summoned. The fire apparatus on the West Side turned out, but as the burning house was in Lancaster it stopped at the city limits.

In a short time the upper story of the house, which was of two stories, was a mass of flames. Owing to this very little furniture was saved, and the absence of water made it impossible for the hundreds of people who had gathered to do anything but watch the house burn. The house of David Wells, boys' yards to the rear, was threatened, but the fact that its shingles were green and damp and that a little water was obtained by the use of pails and a garden hose prevented the building from catching. At nine o'clock the other house was burned to the ground.

Much sympathy is expressed for Mr. Wells. The destroyed building was his only home. The upper story being only partly finished, the fire was only partly completed. Mr. Wells, in spite of his bad fortune, is determined to face the future with courage. His only consolation is that he had already been found guilty of forgery was sentenced to seven years concurrently on each charge in Kingston penitentiary.

Thomas Ryan, who killed Edward Hines in a flat fight because the latter hit him while playing him, was sentenced to six months without hard labor as a petition and strong representations were made to Judge Anglin in favor of clemency.

THEY LIVED IN CONSTANT FEAR

Told Gen. Funston Remarkable Story

AT GOLDFIELD

Labor Delegation Gives Important Information to Military Authorities

GOLDFIELD, Nev., Dec. 15.—Today a delegation from the American Federation of Labor called on General Funston, who is continuing his investigations, with a view of determining the necessity for federal troops in Goldfield. "These gentlemen made the most remarkable statement I have ever heard," said General Funston to the Associated Press tonight. "Their statement is that for months they have lived in constant fear. They have felt it necessary for their protection to go armed at all times and have been compelled to avoid personal contact with members of the Western Federation of Miners, in order to prevent serious trouble. This condition of affairs they told me, obtained until the arrival of the United States troops, since which event the conditions have been greatly changed."

General Funston felt that this statement of conditions came from men who have been in a better position to know the real situation than any others that have talked to him since his arrival.

In view of the facts gleaned today, General Funston said that there was little possibility of troops leaving within ten days and on his recommendation half the number now there would be retained for a further period. General Funston will not leave Goldfield until Tuesday, and may stay longer.

FIRE CHIEF SET FIRE TO TOWN BUILDINGS

And Got Heavy Sentence—Six Months for Ryan

TORONTO, Dec. 15.—Fire Chief Raymond, of Blindriver, was found guilty at Sault Ste. Marie Saturday of setting fire to buildings in his town and he had already been found guilty of forgery was sentenced to seven years concurrently on each charge in Kingston penitentiary.

Thomas Ryan, who killed Edward Hines in a flat fight because the latter hit him while playing him, was sentenced to six months without hard labor as a petition and strong representations were made to Judge Anglin in favor of clemency.

SENT TO PENITENTIARY FOR STEALING HENS

Moncton Boys Get Two Months for This Offense

MONCTON, N. B., Dec. 15.—Mrs. John Edgington, wife of City Engineer Edgington, yesterday received the sad news of the death of her mother, Mrs. Edgington, at Perthshire, Scotland. Mrs. Edgington was about seventy-six years old and had been ill some time.

Rev. J. E. Pinkerton, who succeeded Rev. H. E. Thomas as pastor of Wesley Memorial, preached his introductory sermon today.

Several indications are for good sleighing tomorrow.

A twelve-year-old lad named Walter Capson was arrested yesterday after being charged with stealing a hen and sentenced to two months in jail. He will be taken to Dorchester tomorrow with three other lads, sentenced to similar terms for hen stealing.

WANT TRAVELLERS' TAX CHANGED IN P. E. I.

All Other Provinces Have Practically Repealed the Law

MONTREAL, Dec. 15.—The annual meeting of the Dominion Commercial Travellers' Association was held Saturday night, when the following officers were declared: President, W. J. Eagen; vice-president, S. J. Matthews; directors, L. W. Anderson, J. A. Dawson, E. Duckett, H. W. Glassford and S. D. Stewart. The board was instructed to consider the question of establishing a pension fund.

It was also decided that, whereas at the time the provinces were asking an increased subsidy from the federal government, it was practically added that if the subsidy was allowed the tax on commercial travellers would be repealed. This would carry this out except in Prince Edward Island; it is respectfully urged upon the Dominion government not to pay the increase in subsidy to that province until such time as the commercial travellers' tax be changed. A copy of this resolution will be sent to the Dominion and P. E. I. governments.

BIG GAME FIGURES

BANGOR, Me., Dec. 14.—The disturbance in the Bangor situation and the long cold rains of October and November have caused a marked falling off in game receipts at this station, according to returns received at the close of the open season on deer at midnight tonight. The figures show 2,477 deer, 170 moose and 40 bears, as compared with 3,867 deer, 185 moose and 31 bears last season.

BOSTON, Mass., Dec. 13.—Joseph Burke, aged 25, of 11 Church street, was electrocuted while cutting wires on a pole at 84 Congress street late today. He died while being taken to the emergency hospital.

COMMITTED TO STAND TRIAL

STEDNEY, N. S., Dec. 14.—Mayor Eubank was this morning committed to stand trial at the next sitting of the Supreme Court on the charge of embezzlement. There was but one witness examined this morning, M. W. McDonald, trading clerk for the Coal Company during the years 1903, '04 and '05. He identified invoices for three years in connection with account of Lake of the Woods Milling Company. The defense submitted no evidence.

THE DEATH LIST

FREDERICTON, N. B., Dec. 15.—Word was received in this city this evening of the sudden death of Dr. Stevenson at Oatcook. Deceased is father of Mrs. O. E. Crockett of this city. He was about 82 years of age.

The death occurred this evening at Meductic of Hedley Grosvenor. Deceased was grandson of the known men in York County. It is understood he had been suffering for the past week from pneumonia.

Heroine Burned to Death.

FALL RIVER, Mass., Dec. 14.—While trying to save her six-year-old sister from flames, Alice Cliss was burned to death and the sister, Sadie, was probably fatally burned in a fire which destroyed their home today while their parents went down town shopping.

called upon to preside and by welcoming J. D. Hazen, a member of the provincial committee was then appointed subsequently a large delegation, representing the association, were presented a resolution favoring the political parties to adopt measures for the prevention of corruption. They had also agreed to sign a petition of citizens of both parties.

On A. I. Teed, the province was appointed to conduct the committee of the government. By a standing convention pledged its adherence. Nominations for being called for Dr. Deacon was nominated Frank C. Murray that Milltown, with 2,900 as compared with 3,000, had not had a candidate for a long time. He developed a very strong feeling about reached the stage of recognition. Messrs. Trimmer and Hart, the province were nominated, and Henry Taylor of St. George's, C. Murchie, with the assent of the province, with name and said that Milltown was a candidate of the present of the eastern portion of the province and asked his friends to support him. The choice of the province, Messrs. Trimmer and Hart, and Dr. Taylor, who was absent, but had been with difficulty to the head of the poll. Trimmer claimed the secret ballot work of the opposition, but had received \$48,000 of public money and appealed for earnest work in carrying out the resolutions of the clergyman. Mr. Trimmer, Mr. Taylor, and Mr. Murchie, with the assent of the province, and invited this to a supper at the Windsor. Mr. Murchie, with the assent of the province, and invited this to a supper at the Windsor. Mr. Murchie, with the assent of the province, and invited this to a supper at the Windsor.

Hazen was greeted with cheers and approval of the convention on the bribery. The scheme was practical, and carried out in St. John. He expressed his pleasure at the meeting, and his admiration of the conduct of Mr. Murchie, and the various questions in between the parties in about the manner as he has done at points in the province, assuring him that the debt, which was a million when the Blair government assumed power, was now over \$100 million by the auditor-general's report, that the debt and liabilities amount to over \$100 million. He pressed his readiness to substantiate figures on the floor of the assembly before any public meeting, and the railway policy of the province, Mr. Fugley's remuneration, legal services and the highway clearing that statute labor would be abolished.

DERIDON JUNCTION, Dec. 15.—A serious dispute between the officers of Blissett and the officers of the body of the Miles is in the air. The railway should take up the remains and bury them, but the Miles refused to do so. The Miles refused to do so. The Miles refused to do so.

PROVINCIAL NEWS.

HOPEWELL HILL, Dec. 12.—The announcement in today's Sun of the death at Fresno, Cal., of Miss Mary E. Bacon, was received here with feelings of the deepest regret. Miss Bacon was a native of this village, being a daughter of the late Isaiah S. Bacon, and resided here the greater part of her life. A few years ago she went to Moncton to reside with her brother, Capt. R. C. Bacon, and after the death of her mother, she in the hope that a change of climate might benefit her health, she went to California to live with her sister, Miss Bacon in her earlier life was an efficient teacher in the public schools, and was possessed of superior intelligence and attainments. As a Bible student she had few superiors and her will was one of the most ardent to the cause of the Master. Though afflicted, especially the latter part of her life, with impaired health, her working hours were practically all spent in laboring for the good of others, in the church, the Sunday school, mission societies, and in private intercourse with those around her. The seniors at Home, a functionary of the Epiphany Christian character and devoted life will be long remembered by many friends in this country.

SACKVILLE, N. B., Dec. 12.—Mount Allison has chosen the negative side of the resolution proposed by Kings for debate next term. The resolution is that the Maritime Provinces should secede from the dominion. The debate will take place here.

The seniors at Home, a functionary of the Epiphany Christian character and devoted life will be long remembered by many friends in this country.

MONCTON, N. B., Dec. 12.—Caught beneath an immense branch from a tree which he was climbing, Edward Boudreau was crushed to death this morning in the woods four or five miles from Bouchette. Boudreau had completed cutting through a tree and in his effort to get down, a large branch caught him across the chest, crushing his life out. Instantly Boudreau was aged about forty-five years and had a family consisting of a wife and four or five small children. He lived nearby where the accident occurred.

John Thatcher, ten years old, had his right foot so badly crushed today that amputation will be necessary. Young Thatcher was on his way to school and a freight train which was being backed up slowly passed him, going in the direction. He caught on the door handles and rode along for some distance with his feet on the rods beneath, when he slipped and fell, one of his feet going beneath the wheels. The little lad showed remarkable pluck, and although suffering intensely made no complaint.

REXTON, Dec. 12.—James P. Boudreau, who has been in town some time in the interests of the International Automatic Linoleum Company of Canada, left yesterday for Ottawa, where he will remain until the incorporation of the new company has been completed. Mr. Stephens has been successful in securing subscriptions for sufficient stock to guarantee the commencement of manufacturing operations as soon as the necessary legislation has been passed. It is Mr. Stephens' intention, if possible, to have the factory erected either at Rexton or Richibucto. After getting matters settled in Canada, he will proceed to England, to obtain a charter and construct a plant in that country.

The weather during the past few days has been very mild and all our snow and the greater part of the ice in the river have disappeared. The wind came around yesterday evening and it is colder today. The weather through the country are in very bad condition. The smelt buyers have not bought any smelt this week owing to the mild weather. The fishermen will welcome the frost.

The Beersville Railway Company has changed hands. It has been taken over by the North Shore Railroad Company, which a number of New York gentlemen are interested in.

The new company was organized at Moncton. The directors of the company are: Isaac Purdy, James M. Selby, James Milne and John McKay of New York and Dr. M. F. Keith of Moncton. The officers are: John McKay, president; Isaac Purdy, treasurer; W. G. Kennedy, secretary. The new company will improve the road and buy a new locomotive.

The engagement has been announced of Miss Laura Paumer and Captain John Orr, both of Jardine's. The marriage will take place shortly after Christmas.

Walter Howard, I. C. R. agent, has been transferred from Campbellton to the station at Kennebec Junction.

Frank McAuley of Milwaukee is visiting his father, Norman McAuley of Main River, after an absence of twenty-five years.

MONCTON, Dec. 14.—If the one month in jail sentences for Scott Act violations, which as the result of the decision of the Supreme Court of Canada yesterday are unquestionably upheld, are put into effect, Moncton hotel keepers will close not only their bars, but their hotels and livery stables as well. This is the statement made today by a prominent hotelman, who says there is an agreement between the local hotelkeepers to that effect and that a round robin is to be signed by the dealers, who will go under bonds to carry out the plan. Three leading hotels will close and half a dozen smaller ones.

The first Scott Act cases for some time were before Magistrate Kay in court this morning, when he fined the proprietors of the American and Brunswick each fifty dollars and costs for violation of the act.

Three young boys, twelve years of age, named Gray, Cushman and McLeod, were this morning sentenced to two months each in Dorchester jail for stealing chickens.

The Maritime Express train was divided into two sections today on account of heavy mail and passenger traffic. On the first section were the cartons of passengers for St. John, to take passage on the Allan liner Ionian to spend the Christmas holidays in the old country. There were three cartons of passengers for the British Isles.

FREDERICTON, Dec. 12.—It is announced that the enthronement of Bishop Richardson will take place at the cathedral here on Thursday, February 6th, and in all probability the installation of Dean Sheehan will occur at the same time.

Dr. Bruce A. Miles of Cranbrook, B. C., son of A. R. Miles of Margueriteville, arrived on today's train from the West to spend the vacation at his old home here.

The ice here has been running all day. Tonight is very cold, and the prospects are that the ice bridge will again become solid. The water is exceptionally high for the time of year and a strong current is running.

AMHERST, Dec. 12.—Mrs. J. G. McDougall, Church street, gave a delightful whist party on Wednesday afternoon.

Mrs. C. McQueen Avaré entertained a large number of her lady friends at whist on Tuesday afternoon. There were thirty-six guests present.

On Thursday afternoon Mrs. Avaré was "at home" to a large number of her lady friends.

Mrs. Louise Hewson gave a very pleasant thimble party to some of her lady friends. An enjoyable afternoon is reported.

Edward Baker and his sister, Mrs. Hodgson, left for Vancouver to spend the winter with their sister in that city.

WOODSTOCK, Dec. 12.—John W. Bohan vs. E. S. Dibley, produce dealer of St. John, was concluded at the afternoon. The plaintiff securing a verdict for \$102. Carvell K. C., for plaintiff; H. H. Pickert for defendant.

The funeral of the late Daniel A. Grant took place at the afternoon. The plaintiff securing a verdict for \$102. Carvell K. C., for plaintiff; H. H. Pickert for defendant.

Edgar W. Mail, president of the Baird Company, is being urged to offer himself as a candidate for the mayoralty.

GERMAN TEAM WON SIX-DAY BICYCLE RACE IN NEW YORK; INJURED RIDER DEAD

EACH LOST A HAND TO SAVE 3 LIVES
John J. McElginn and O. Judé, Work men on Blackwell's Island Bridge. Proved heroes

NEW YORK, Dec. 12.—To save the lives of three fellow workmen, two ironworkers on the Blackwell's Island bridge suffered each the loss of a hand yesterday. A heavy steel plate was slipping out of position and would have fallen on three men on a platform fifteen feet below had not its progress been checked by grinding through the wrists of the two men who had been assigned to the work of setting the plate.

It was high in the air on the Ravenswood tower of the new bridge that the accident happened. The men shared with fitting the heavy plate into position were John J. McElginn of No. 1200 Van Aist avenue, Long Island City, and O. Judé of No. 183 East Sixteenth street, Manhattan. Above and around them were a score of ironworkers clinging to the lofty structure.

The plate on which McElginn and Judé were working was almost in place, when something gave way and it began to slide off the supporting beams. Realizing that its fall meant death to the men below, both men thrust a hand into a crevice below the sliding plate to check its progress, at the same time shouting a warning to those below. The sharp edge of the plate caught McElginn's left wrist and Judé's right wrist, crushing them, but the barrier of flesh and bone served to prevent further sliding of the plate.

While men hurriedly rigged a tackle to haul the plate back into position, McElginn and Judé were held to their positions by their crushed wrists. Ropes were tied about them to prevent their falling when the plate was removed, but neither of them fainted. They were lowered to the ground and attended by Dr. Hurley, who arrived with an ambulance from St. John's Hospital.

Judé's hand was almost completely severed, and Dr. Hurley removed it before taking him to the hospital. McElginn's wrist was not cut through, but amputation was necessary.

MONCTON, Dec. 14.—If the one month in jail sentences for Scott Act violations, which as the result of the decision of the Supreme Court of Canada yesterday are unquestionably upheld, are put into effect, Moncton hotel keepers will close not only their bars, but their hotels and livery stables as well. AMERICAN STARS IN SIX-DAY CYCLE RACE. Just after the clock struck one at the Madison Square Garden, in New York, on Monday morning, the pick of the professional bicycle riders of the world started on a six-day grind on a sweater-shaped track, which was constructed in the mammoth garden. The pictures show Walthour, Dawson and J. Bedell, the best of the American contingent.

MADISON SQUARE GARDEN, New York, Dec. 14.—Rutt and Stol, the German team, won the six-day bicycle race at Madison Square Garden today. The first place in the history of the sport that a foreign team has captured first honors of the struggle.

Shortly before 11 o'clock all the teams were withdrawn from the track with the exception of Rutt, who rode for his team and Fogler, who rode for the American team, these teams being tied for first place. The two riders raced for a mile and with a final burst of speed Rutt led the way over the finish line a winner. The two leading teams made 2,312 miles, five laps, when the race was stopped and the teams withdrawn from the final mile sprint of the two leaders. Fogler and Moran won the second honors of the race and Georget and Durey won fourth. Downey and Downey were fourth and Galvin and Wiley fifth.

Herbert McDonald of this city, the rider who was injured in the six-day bicycle race at Madison Square Garden on Friday night, died tonight at the New York hospital. McDonald was injured in a spill on the track, and physicians sought to save his life by an operation.

MARITIME PROVINCES NOT THE WHOLE THING
Met Many Deputations at Ottawa, Says Alderman McGoldrick

MONTREAL, Dec. 15.—Mayor Sears and Alderman McGoldrick of St. John, who have been in Ottawa in the interests of the winter port, leaving the city today on their way home, leaving this evening on the C. P. R. They declared they were quite satisfied with the results of their mission, though their stay in Ottawa, they had been compelled to recognize that the Maritime Provinces were not the whole thing when it came to spending the country's money, deputations being met from many places, even as far west as the Yukon, and all wanting money.

WILL URGE FURTHER ACTION TO RESTRICT ORIENTAL INFLUX
OTTAWA, Ont., Dec. 15.—The commons will tomorrow discuss the resolution of Ralph Smith (Nanaimo) urging further legislative action to restrain Oriental immigration. It is understood that the British Columbia members will take the ground that in the event of Hon. Mr. Lemieux's mission to Japan failing to result in a satisfactory arrangement to restrict Japanese immigration, between 1908 and 1910, then the government should promptly give notice that the present trade treaty will be abrogated.

SIX HUNDRED DEER AND ONE MAN KILLED IN TWO WEEKS' SEASON
CONCORD, N. H., Dec. 13.—Six hundred deer, killed, according to the press returns, one man dead and three injured and six prosecutions, with a return to the state of New Hampshire of \$5,720 in license, is the record of the two weeks' open season on deer in the seven southern counties of the state, which were, this year for the first time within a generation, thrown open to the hunters of big game, with the one restriction that deer should only be killed with shotguns and buckshot, the season closing last night.

The one death was not due to the use of firearms, however, but was caused by over-exertion in the chase, the body of George Whitney of Canterbury being found beside the carcass of a deer he had killed near Northfield, the cause of death being heart failure. H. B. Whittier, Jr., of Raymond, had two toes shot off David Bailey of Sutton, had his wrist mangled and will probably lose two fingers as the result of the accidental discharge of his gun, and a man in Wilton, dislocated his shoulder by being kicked from a tree by his gun when shooting a deer.

GAVE A TALK ON THE PHILIPPINES
Boston Man Says Complete Self-Government is Now Out of Question

BOSTON, Dec. 14.—Alfred A. Filene, a Boston merchant who has recently returned from a trip around the world on which he visited the Philippine Islands, delivered an address today before the City Club on The Philippines, in which he declared that his "study of the islands and its people forced him to believe that complete self-government is not yet a good government, at present."

Regarding the cost of the Philippines, Mr. Filene said "the insular government is self-sustaining with the exception of the expenses of the army and navy and two-thirds of the cost of the geodetic and coast survey."

He found the United States had given the natives municipal and provincial self-government and a large share of national government. He believed it well, however, that the municipalities were under the supervision of the United States, as many were apparently following the example of some of the American municipal councils.

It had been necessary to pass a law restricting paying out revenues, as ten per cent of the cities were expending every cent of revenue for salary and not a cent for public improvements.

Mr. Filene declared the United States during her government of the islands had done more in ten years than had been done before in all the history of the islands for their betterment and advised the anti-imperialists to lend their agitation and force towards helping the Philippines "to prepare themselves for self-government."

"Complete self-government under the conditions that prevail in the islands," said Mr. Filene, "would not be either representative or democratic."

\$250 VERDICT FOR PLAINTIFF
Purdy v. Porter Finished Saturday—Several Legal Questions for Full Court

The case of Purdy v. Porter was concluded in the circuit court on Saturday and the court adjourned sine die.

In this case, some very important questions of law arose, which will be determined by the full court at Fredericton in February next.

The facts of the case are that the plaintiff is the assignee of the lessor of certain property at Indiantown; that the lease had a covenant to pay for improvements or renew the lease; that the lease expired in May last; that appraisers were appointed who made a valuation which the plaintiff offered to pay and on the defendant's refusal to accept, demanded possession and thereupon brought his action of ejectment for such possession.

The defendant is the assignee of the lessee and claimed she was entitled to all the improvements that had been put on the property since the date of the first lease in 1840.

Mr. Wallace on part of the defendant valued all of these improvements at the value which was void or at least must be set aside under the equitable doctrine of reformation. The defendant was not in possession to exercise his option under the covenant and the defendant was entitled to remain in possession until such option was exercised. It is, that if the appraisement is set aside for mistake by the appraisers, there can be no new appraisement, but the defendant was entitled to a renewal of the lease.

The judge said that in view of the case of Gordon v. The City of Saint John, now before the court, he was going to find certain facts and enter a verdict pro forma, reserving leave to either party to move the full court.

First, he found as a fact that there was an old wharf and foundations and that their value as improvements was not adjudicated upon or taken into consideration by the valuator; secondly, that this wharf was an improvement and should be valued; thirdly, that the old wharf was not only an improvement, but of substantial value.

That in his opinion the covenant in the lease ran with the land and the defendant at least should have an equitable right to the ground until the improvements were paid.

That he would assess the mere profits at the sum of \$250 and order a verdict for the plaintiff with leave to the defendant to move both on the legal and equitable grounds to enter a verdict for the defendant; also to move to set aside the appraisement and that the parties were stayed to allow the motions to be made before the full court in Hilary term next.

Hon. H. A. McKewen and J. J. Porter appeared for the plaintiff, and W. B. Wallace, K. C., and G. H. V. Belvan appeared for the defendant.

PICTURE HOUSES DID NOT OPEN
Cedar and Princess Reported for Advertising That They Would Open—Rowdy had Collected

Two moving picture theatres, the "Cedar," in the North End, and the "Princess," on Princess street, advertised that they would give a performance of "The Prince and the Pauper" on Saturday night. It is pretty certain that the shows would have been well patronized. The objections of the police, however, caused the doors to remain closed. Both houses were prepared to show Pathe's "Life of Christ," which they have been showing to large houses during the week.

Circulars were sent out previously to yesterday, advertising the performance. Many who had no other opportunity to see these pictures were pleased with the "opportunity" while others looked upon it as the entering wedge, which would soon be followed by open theatres without sacred pictures.

Frank Stanton, manager of the Cedar, speaking last night, said that they were prepared to divide the receipts of the performance between the Protestant and Catholic orphan asylums. The pictures could be run at small cost and he had thought it a good opportunity to raise a fund at this season of the year. However, learning of police disapproval, he did not open his theatre.

A large crowd collected at the Princess last night towards opening hour. The police, however, were also on hand and they received the assurance of George Wallace, the manager, that his theatre would not be open for business.

Detective Killen has, however, reported both Mr. Stanton and Mr. Wallace for advertising a Sunday performance contrary to the provisions of the new Lord's Day Act. Mr. Stanton is also reported for causing circulars to be thrown on the sidewalks on King, Deeds and Charlotte streets, and Wellington Row, contrary to the law.

WHY NOT?
(Toronto Globe.)
Hon. Mr. Pugsley's challenge regarding the Conservative campaign fund could be disproved if untrue. Why not produce the checks and show if the amounts are less than he states?

BOY DROWNED FEW YARDS FROM HOME

Kenneth Knorr, 8, of Kingsville, the Victim
Was Sliding on Pond and Broke Through—Brother Made Ballant Effort To Save Him—Body Recovered

Kenneth Knorr, eight years of age, son of Charles Knorr of Kingsville, met his death by drowning on Saturday afternoon within a few yards of his home. His older brother, Wellington, was with him at the time and made a brave attempt to save the younger boy's life, but with no success. Saturday afternoon, a short distance from the Knorr dwelling there is a pond about five feet in diameter, which is situated about 200 yards from the Knorr home. At this point the younger of the two boys eried out that he was going to slide on the ice that covered the pond's surface and in spite of his brother's strenuous efforts, ran toward the pond and slid on the ice.

When the boy was near the center of the pond the ice gave way and he had went under the water and out of sight.

His brother at once rushed to the opening in the ice, but was unable to help Kenneth, and himself fell into the water. He climbed out with difficulty and went for help. A number of neighbors were in the neighborhood by means of ladders and poles to get the body of the boy.

A young man named Wellington Green finally caught the boy's clothing with a pole and drew the body from the water. Life was extinct only half an hour elapsed between the time when the two brothers left home and the time when the body of little Kenneth was taken from the pond.

Coroner MacFarlane of Kingsville was informed of the accident, and after a inquest was not necessary, the funeral of the drowned boy will take place at two o'clock this afternoon.

Charles Knorr, father of the deceased, was employed at Long Wharf at the time of the accident and knew nothing of his son's death until he returned home at five o'clock in the afternoon.

WATER HIGH IN THE RIVER; ICE RUNNING
FREDERICTON, N. B., Dec. 15.—At the Cathedral this morning, Bishop Richardson confirmed a class of sixteen in favor of the Steel and Iron Co. at the same church next Sunday his lordship will hold an ordination service.

A snow storm set in here early this morning and has continued on and on during the day, but little snow remains, the weather having become very mild. The ice in the river will continue to run, though it is heavily jammed.

During the past twenty-four hours the water has risen fully a foot. It is now at its highest level since the New York and other American cities, preached at St. Dunstan's this morning. The Rev. Father Carbery, who returned from his vocation to New York and other American cities, preached at St. Dunstan's this morning. The Rev. APPEAL IN STEEL COAL CASE NOW BEING HEARD IN HALIFAX
HALIFAX, Dec. 17.—The famous case in law of the Dominion Iron and Steel Co. and Dominion Coal Co. is on in the supreme court here this morning before the full bench, being an appeal from the decision of Mr. Justice Longley in favor of the Steel and Iron Co. at the length of 10. It took him two hours to read the contract, make observations thereon, after which he commented on Longley's decision. Lovett occupied the time up to judgment for lunch. James Ross, present in court, said that he is not citing very great interest here.

When the court adjourned Mr. Lovett was still arguing the case, but left the whole afternoon to the day classes of the contract. The court resumes tomorrow.

SCHOONER THOMAS W. LAWSON HAS GONE TO THE BOTTOM
HUGHTON, Dec. 17.—The wreck of the American schooner Thomas Lawson, which capsized Friday, December 13, in Broad Sound, Seilly lands, with the loss of fifteen out of crew of 18 men, broke adrift from rocks holding it today and sank. Schooner had parted in the middle in two places.

A Simple Well
Thousands are in the same boat, sickly, bilious and feeling far from well. Trouble is, the system is clogged with impurities which need to be cleared away.

Before downright sickness sets you should cleanse and purify your system with Dr. Hamilton's Pills. At once you'll feel their mighty influence building up weak spots, clearing out the bowels, and putting you on your feet.

These purely vegetable pills of your tired, worn-out condition of health and vigor, because they cleanse the body with nourishing, that builds up and enlivens the system.

Mr. John Whitley of Stanwood, Ont., knows the merit of Dr.

Father Carbery, who returned from his vocation to New York and other American cities, preached at St. Dunstan's this morning.

APPEAL IN STEEL COAL CASE NOW BEING HEARD IN HALIFAX
HALIFAX, Dec. 17.—The famous case in law of the Dominion Iron and Steel Co. and Dominion Coal Co. is on in the supreme court here this morning before the full bench, being an appeal from the decision of Mr. Justice Longley in favor of the Steel and Iron Co. at the length of 10. It took him two hours to read the contract, make observations thereon, after which he commented on Longley's decision. Lovett occupied the time up to judgment for lunch. James Ross, present in court, said that he is not citing very great interest here.

When the court adjourned Mr. Lovett was still arguing the case, but left the whole afternoon to the day classes of the contract. The court resumes tomorrow.

SCHOONER THOMAS W. LAWSON HAS GONE TO THE BOTTOM
HUGHTON, Dec. 17.—The wreck of the American schooner Thomas Lawson, which capsized Friday, December 13, in Broad Sound, Seilly lands, with the loss of fifteen out of crew of 18 men, broke adrift from rocks holding it today and sank. Schooner had parted in the middle in two places.

A Simple Well
Thousands are in the same boat, sickly, bilious and feeling far from well. Trouble is, the system is clogged with impurities which need to be cleared away.

Before downright sickness sets you should cleanse and purify your system with Dr. Hamilton's Pills. At once you'll feel their mighty influence building up weak spots, clearing out the bowels, and putting you on your feet.

These purely vegetable pills of your tired, worn-out condition of health and vigor, because they cleanse the body with nourishing, that builds up and enlivens the system.

Mr. John Whitley of Stanwood, Ont., knows the merit of Dr.

DODD'S KIDNEY PILLS
Genuine. Beware of cheap imitations.

The News.

ST. JOHN, N. B., DEC. 20, 1907.

AGRICULTURAL DEVELOPMENT.

The published summary of the agricultural census for 1907 ought to counteract to some extent at least the depressing influence of the grumblers and pessimists of the Maritime Provinces.

The changes that have taken place in New Brunswick indicate that some, at least, of the farmers of the province appreciate the significance of changing conditions.

Another significant increase is that of some 25,000 milk cows. It is quite possible to find whole sections of this province that have been saved from poverty and in some cases from bankruptcy by the introduction of the modern methods of co-operative dairying.

Or to cite another example, there has been an increase of some 60,000 in the number of sheep raised in the province. It is impossible to escape the conviction that in this time phase of agricultural development must receive more attention than it has in the past.

Farming in the west is at the present time an exceedingly simple and extensive rather than intensive. The instruction of the newly arrived immigrant is a comparatively simple matter.

St. John has been proud to do honor to Dr. William Bayard many a time in the past, and today will mourn him proudly.

Ninety-four years is a long and weary span. Few men have accomplished it and fewer still, in any place or time, have won to the end with spirit as vigorous as Dr. Bayard's.

With heedless indifference to the humor, much less the romance of the situation, the police of Stratford, Ont., deliberately interrupted the fantastic dream of three ardent disciples of the dime novel life.

would-be heroes as common ordinary thieves. Evidently the boys resent the cold-blooded judgment of an unimaginative world as represented in this exercise of legal authority.

Of course, the mistake was in the dime novel. And yet, it might be possible to contend that it was not so much the dime novel as the dime novel unadulterated.

The Stratford incident is after all a commonplace of human experience. Certain keen business men of New York live in a world in which the ordinary moral precepts of a prosaic world are superseded by a special code for a special people.

The Jolly good fellow in the saloon is simply a drunken husband or father who gets when he gets home, after his adventures of the last set become in the clear cold light of common day the tawdry and unseemly doings of libertines and harlots.

The Dominion government is doing wisely and well in taking action to check indiscriminate immigration to Canada during this winter and to prevent absolutely the arrival of newcomers without funds.

It is highly creditable to the prudence of the New Brunswick government that the immigration policy it has chosen is one which will meet the varying provincial needs.

For instance, there is an agent, say at Sussex; he learns that a certain number of hands, that there is work waiting for men in a certain industry that there are vacant farms for occupation.

According to an article by Theodore Horton in a recent number of Scientific Engineering Magazine, there are five places where some purification of domestic sewage is not desirable or even necessary.

With heedless indifference to the humor, much less the romance of the situation, the police of Stratford, Ont., deliberately interrupted the fantastic dream of three ardent disciples of the dime novel life.

quently used for a public water supply, but where its aesthetic or industrial qualities are important, and where the volume of flow is so large as compared with the volume of effluent.

"Finally, where a stream is not used subsequently for a water supply not adequately protected by water purifying works, it may be necessary to remove all substances from the sewage, including the bacteria.

As everyone knows, Santa Claus is responsible for the good cheer of the Christmas season. Of course there always have been and always will be a few dull, prosaic and matter-of-fact folk who take no pleasure in allying their unbelief in the presence of the faithful and believing, and who smile knowingly at the rubbish of retailers and readers that is the province of the jolly old fellow.

The troubles of Santa Claus do not arise from the belief that he is a half-hearted and fault-finding follower who querulously whines forth their annual criticisms.

O Mother, that from thy pure heart Send up prayers for me to high-est God; For me who wander without fixed goal, And have no faith to tread where thou hast trod;

My foe? You name yourself, then I refuse. A term that designates you I will not use; For you are most kind and true; and I am grateful as the dust is for the rain that falls on me.

BOSTON, Mass., Dec. 17.—The one hundredth anniversary of the birth of John Greenleaf Whittier, the poet laureate of Freedom, one of the most beloved and representative of the New England poets, was celebrated today in New England by many hundreds of people, notable gatherings being held at those places which the poet had for a long and honorable time during his life called home.

Whether for a feast, a frolic or a fight—to use Admiral Boscawen's able words—the United States battleship fleet is off for the Pacific. And, in spite of the official assurance that the fleet is nothing more than a practice cruise the progress of this latter day armada will be watched with interest and some anxiety.

HUSBAND DEAD IN BATH-TUB

Wife Found Him There on Return

F. E. Sargeant, Prominent Banker, Had Been Accidentally Drowned

NORTH ATTLEBORO, Mass., Dec. 17.—Frederick E. Sargeant, vice president and cashier of the Jewellers' National Bank of this town and prominently identified with many business enterprises in North Attleboro and Providence, R. I., was found dead in his bath-tub at his apartments by his wife tonight. According to the medical examiner, C. S. Holden, death was due to accidental drowning.

When the news of Mr. Sargeant's sudden death became generally known, there was an informal meeting of several of the bank's directors held in the bank's offices and lasting until a late hour. They met to discuss the death of Mr. Sargeant, president of the institution, and also president of the Chase National Bank of New York City and acting president of the bank's business as usual tomorrow morning.

Mr. Sargeant, it is said, had been suffering from indigestion for the past few days. This morning his wife returned from Providence with her sister, Miss Ethel Morgan, and did not find her husband as she had expected in their apartments, which are located in the building known as the bank. Noticing his clothes upon a chair in his bedroom, she went to the bathroom and upon opening the door, found Mr. Sargeant's body lying in the bath-tub, which was full of water.

Mr. Sargeant formerly worked in the Boston Street Trust and Commonwealth Trust Company of Boston, but came here in March, 1902, to become cashier of the Jewellers' National Bank. Shortly afterwards there was a reorganization of that institution and it became identified with the Jewellers' National Bank, and he became its vice president and cashier, with Mr. Wiggins as president and Mr. Wiggins as vice president.

Mr. Sargeant was also a director of the Roger Williams Insurance Company of Providence and a member of the firm of Perry J. Callowhill & Co., also of this town, but cutters and did not have any connection with the bank. He was born in Candia, N. H., 31 years ago, and leaves a father and mother in that town. He is also survived by three brothers.

DR. BAYARD PASSED AWAY LAST NIGHT

Was Taken Ill on Monday Morning, but an Hour Before His Death Was Quite Bright

Physician in Canada, and Probably in America—Sketch of His Long and Honorable Career.

Dr. Bayard, the nestor of the medical profession in St. John, and the oldest physician in Canada, died last night at his home, 197 Germain street, at 6:15 last evening.

Dr. Bayard was taken ill early on Monday morning, and complained of pains in the chest. Dr. P. R. Inches was called in and during the day the venerable physician rallied slightly and about an hour previous to his death was feeling fairly well.

Dr. Bayard's Career Dr. William Bayard, M.D., was born in Kentville, N. B., August 22, 1814, a son of the late Dr. Robert Bayard. Mention of this surname at once brings to mind its foremost bearer in the ranks of fame, the Chevalier de Bayard (1475-1524), styled in song and history the knight "without fear and without reproach," a phrase which has become a motto in the Bayard family.

Dr. Bayard was a member of the Royal Society of Medicine, the Royal Society of Physicians, the Royal Society of Surgeons, the Royal Society of Obstetrics, the Royal Society of Gynaecology, the Royal Society of Ophthalmology, the Royal Society of Laryngology, the Royal Society of Otology, the Royal Society of Dermatology, the Royal Society of Syphilology, the Royal Society of Venereology, the Royal Society of Leprosy, the Royal Society of Scrofula, the Royal Society of Tuberculosis, the Royal Society of Consumption, the Royal Society of Asthma, the Royal Society of Emphysema, the Royal Society of Pleurisy, the Royal Society of Peritonitis, the Royal Society of Pneumonia, the Royal Society of Typhoid, the Royal Society of Cholera, the Royal Society of Dysentery, the Royal Society of Malaria, the Royal Society of Yellow Fever, the Royal Society of Smallpox, the Royal Society of Measles, the Royal Society of Scarlatina, the Royal Society of Diphtheria, the Royal Society of Whooping Cough, the Royal Society of Tetanus, the Royal Society of Rabies, the Royal Society of Hydrophobia, the Royal Society of Cholera Infantum, the Royal Society of Cholera Asiatica, the Royal Society of Cholera Sicca, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica.

Dr. Bayard was a member of the Royal Society of Medicine, the Royal Society of Physicians, the Royal Society of Surgeons, the Royal Society of Obstetrics, the Royal Society of Gynaecology, the Royal Society of Ophthalmology, the Royal Society of Laryngology, the Royal Society of Otology, the Royal Society of Dermatology, the Royal Society of Syphilology, the Royal Society of Venereology, the Royal Society of Leprosy, the Royal Society of Scrofula, the Royal Society of Tuberculosis, the Royal Society of Consumption, the Royal Society of Asthma, the Royal Society of Emphysema, the Royal Society of Pleurisy, the Royal Society of Peritonitis, the Royal Society of Pneumonia, the Royal Society of Typhoid, the Royal Society of Cholera, the Royal Society of Dysentery, the Royal Society of Malaria, the Royal Society of Yellow Fever, the Royal Society of Smallpox, the Royal Society of Measles, the Royal Society of Scarlatina, the Royal Society of Diphtheria, the Royal Society of Whooping Cough, the Royal Society of Tetanus, the Royal Society of Rabies, the Royal Society of Hydrophobia, the Royal Society of Cholera Infantum, the Royal Society of Cholera Asiatica, the Royal Society of Cholera Sicca, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica.

Dr. Bayard was a member of the Royal Society of Medicine, the Royal Society of Physicians, the Royal Society of Surgeons, the Royal Society of Obstetrics, the Royal Society of Gynaecology, the Royal Society of Ophthalmology, the Royal Society of Laryngology, the Royal Society of Otology, the Royal Society of Dermatology, the Royal Society of Syphilology, the Royal Society of Venereology, the Royal Society of Leprosy, the Royal Society of Scrofula, the Royal Society of Tuberculosis, the Royal Society of Consumption, the Royal Society of Asthma, the Royal Society of Emphysema, the Royal Society of Pleurisy, the Royal Society of Peritonitis, the Royal Society of Pneumonia, the Royal Society of Typhoid, the Royal Society of Cholera, the Royal Society of Dysentery, the Royal Society of Malaria, the Royal Society of Yellow Fever, the Royal Society of Smallpox, the Royal Society of Measles, the Royal Society of Scarlatina, the Royal Society of Diphtheria, the Royal Society of Whooping Cough, the Royal Society of Tetanus, the Royal Society of Rabies, the Royal Society of Hydrophobia, the Royal Society of Cholera Infantum, the Royal Society of Cholera Asiatica, the Royal Society of Cholera Sicca, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica.

DR. McQUEEN, OF AMHERST, IS ILL

Big Crowd Will Attend Curling Match to be Held in February

AMHERST, N. S., Dec. 18.—Citizens of Amherst are in gloom today over the report of the serious illness of Dr. C. A. McQueen, Amherst's most popular physician. He was taken ill with pneumonia last Friday and a consultation of medical brethren, held this morning, considered his condition very critical. He is a brother of Herd McQueen, of Dorchester, and is recognized as one of the cleverest doctors in the Maritime Provinces. He has been practicing in Amherst for over twenty years.

The marriage banns will open in Amherst on Wednesday, Feb. 15th, and one delivered in Mechanics' Institute upon the Progress of Medicine, Surgery and Hygiene During the Last One Hundred Years. He was a Conservative in politics and a member of the Church of England. He was president of the Canadian Medical Association in 1885, and later chairman of the Provincial Board of Health. In 1848 Dr. Bayard married Susan Maria, daughter of John Wilson of Chamcook, N. B., formerly a large ship owner and merchant, and one of the promoters of the St. Andrews and Woodville Railway. It was from him that Dr. Bayard received the first telegram sent to St. John, and which read thus: April 30, 1851.

To Dr. W. Bayard: Being the first subscriber to the Electric Telegraph Company, I am honored by the first communication to your city announcing this great and wonderful work God has wrought in the world by giving him control of His lightning.

Mrs. Bayard died in 1876, leaving no children. She was a most estimable woman, highly respected by all who knew her. She was eminently domestic in her tastes, and took especial delight in entertaining her own and the doctor's friends. She spent much time in looking after the poor and unfortunate and in visiting the Home for Aged Women, the Protestant Orphan Asylum, and other charitable institutions.

Dr. Bayard was a member of the Royal Society of Medicine, the Royal Society of Physicians, the Royal Society of Surgeons, the Royal Society of Obstetrics, the Royal Society of Gynaecology, the Royal Society of Ophthalmology, the Royal Society of Laryngology, the Royal Society of Otology, the Royal Society of Dermatology, the Royal Society of Syphilology, the Royal Society of Venereology, the Royal Society of Leprosy, the Royal Society of Scrofula, the Royal Society of Tuberculosis, the Royal Society of Consumption, the Royal Society of Asthma, the Royal Society of Emphysema, the Royal Society of Pleurisy, the Royal Society of Peritonitis, the Royal Society of Pneumonia, the Royal Society of Typhoid, the Royal Society of Cholera, the Royal Society of Dysentery, the Royal Society of Malaria, the Royal Society of Yellow Fever, the Royal Society of Smallpox, the Royal Society of Measles, the Royal Society of Scarlatina, the Royal Society of Diphtheria, the Royal Society of Whooping Cough, the Royal Society of Tetanus, the Royal Society of Rabies, the Royal Society of Hydrophobia, the Royal Society of Cholera Infantum, the Royal Society of Cholera Asiatica, the Royal Society of Cholera Sicca, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica.

Dr. Bayard was a member of the Royal Society of Medicine, the Royal Society of Physicians, the Royal Society of Surgeons, the Royal Society of Obstetrics, the Royal Society of Gynaecology, the Royal Society of Ophthalmology, the Royal Society of Laryngology, the Royal Society of Otology, the Royal Society of Dermatology, the Royal Society of Syphilology, the Royal Society of Venereology, the Royal Society of Leprosy, the Royal Society of Scrofula, the Royal Society of Tuberculosis, the Royal Society of Consumption, the Royal Society of Asthma, the Royal Society of Emphysema, the Royal Society of Pleurisy, the Royal Society of Peritonitis, the Royal Society of Pneumonia, the Royal Society of Typhoid, the Royal Society of Cholera, the Royal Society of Dysentery, the Royal Society of Malaria, the Royal Society of Yellow Fever, the Royal Society of Smallpox, the Royal Society of Measles, the Royal Society of Scarlatina, the Royal Society of Diphtheria, the Royal Society of Whooping Cough, the Royal Society of Tetanus, the Royal Society of Rabies, the Royal Society of Hydrophobia, the Royal Society of Cholera Infantum, the Royal Society of Cholera Asiatica, the Royal Society of Cholera Sicca, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica.

SAFELY TOO LATE

Capt Roberts Breaks His Silence

Kildona's Wreck Due to Sable Island Light Not Being Visible

H. C. Schofield, agent for the Robert Reford Co., last night said that he had received no information concerning an inquiry into the wreck of the Thomson liner Kildona. It was possible, said Mr. Schofield, that the inquiry, if one should be held, might take place on the other side of the Atlantic, as in the case of many recent wrecks the inquiries had been held at the ports from which the vessels sailed.

Captain Roberts of the wrecked steamship yesterday stated to a Sun reporter that he would pay off his crew tomorrow. The sailors will be sent to England as soon as possible, most probably on one of the C. P. R. boats.

Captain Roberts spoke more freely than he did before concerning the accident to his vessel. The Brass Rock was being towed, but had the Kildona could have been kept off the rocks by taking bearings from the Cape Sable and Baccaro lights. "At one time I could see perhaps five miles, for the weather wasn't thick. But over the land there was a haze," said the captain. "I usually take a course that will take me outside Brass Rock buoy. This time the buoy wasn't there, and I was inside the buoy's position, which is half a mile off the rock. The first officer and I were on the bridge. We could see Baccaro Light on the beam, about six and a half miles off, but could not make out Cape Sable, about eight miles ahead, for some time. When we did run down the ladder to go to the chart room to get my bearings, as I was going down the ladder we struck. If I had had just five more minutes I could have kept the ship clear."

"Now about the crew says. You know the 'old man' is the only one on board ship that is responsible for the wreck. The 'old man' is the head of everything; he has to be a lawyer, a doctor and everything else rolled together. Now, I didn't call the men together and say: 'See here, boys, don't say anything about this when we get ashore.' I don't care what the men say. "And here's another thing: I didn't tell the men to save any whiskey. There were only two cases on board; I always carry a little for Christmas, but both those cases went down with the ship. The deposition of Captain Roberts concerning the wreck was made yesterday.

The auxiliary of the Women's Missionary meeting met in the Methodist parlour on Tuesday afternoon, when the Rev. J. C. Berry, who has been here for some time, presented an interesting review of the work of the auxiliary, which was read by the Rev. J. C. Berry. The programme, in which Messrs. Burpee, Matthews and Peterson took part, was of a very interesting character. The president, Mrs. J. C. Berry, having enlisted the sympathy and interest of a number of persons, has succeeded in forming bands of associate helpers all over the Gt. North City, which is very large. On Wednesday evening the Mission Band met in the Methodist parlour and was well attended. Its active and earnest members are doing a good work.

Harry, son of Mr. and Mrs. William Harvey, who has been home for some weeks as the result of a painful accident, returned yesterday morning to his work in the Newburg Junction, where he has been employed for some time. He is expected home for Christmas, and after that may return.

THE LARGEST MAIL EVER SENT FROM AMERICA

Christmas Money Orders on the Oceanic Amount to \$1,192,442.

NEW YORK, Dec. 18.—The Tribune today says: "The White Star Line's last steamer to leave this port will land passengers in England before Christmas, steamed for Southampton yesterday with the greatest bulk of east-bound Christmas money orders that has ever been shipped from New York in one bottom. Stowed away in her 4,143 mail sacks were \$1,192,442 worth of Postmaster Morgan's money orders, representing a cash value of \$1,192,442.25."

Dr. Bayard was a member of the Royal Society of Medicine, the Royal Society of Physicians, the Royal Society of Surgeons, the Royal Society of Obstetrics, the Royal Society of Gynaecology, the Royal Society of Ophthalmology, the Royal Society of Laryngology, the Royal Society of Otology, the Royal Society of Dermatology, the Royal Society of Syphilology, the Royal Society of Venereology, the Royal Society of Leprosy, the Royal Society of Scrofula, the Royal Society of Tuberculosis, the Royal Society of Consumption, the Royal Society of Asthma, the Royal Society of Emphysema, the Royal Society of Pleurisy, the Royal Society of Peritonitis, the Royal Society of Pneumonia, the Royal Society of Typhoid, the Royal Society of Cholera, the Royal Society of Dysentery, the Royal Society of Malaria, the Royal Society of Yellow Fever, the Royal Society of Smallpox, the Royal Society of Measles, the Royal Society of Scarlatina, the Royal Society of Diphtheria, the Royal Society of Whooping Cough, the Royal Society of Tetanus, the Royal Society of Rabies, the Royal Society of Hydrophobia, the Royal Society of Cholera Infantum, the Royal Society of Cholera Asiatica, the Royal Society of Cholera Sicca, the Royal Society of Cholera Miasmatica, the Royal Society of Cholera Epidemica, the Royal Society of Cholera Sporadica.

MORRIS CHAIR FOR A. M. BELDING

Also Presented With Address Eulogising His Work for Everyday Club

A. M. Belding, president of the Everyday Club, received a surprise last night, when at the social held in the club rooms he was presented with a handsome Morris chair and an address. The address, which contained a full and glowing eulogy of the valuable work done by Mr. Belding in connection with the club, and many expressions of appreciation of his untiring zeal for its success, was read by R. H. Coulter, president of the club. Mr. Belding was surprised, but made a nice reply of thanks for the gift and the spirit which prompted the kindly act.

The social was a great success. There being over three hundred present, quite a sprinkling of ladies being among the number. An excellent programme was carried out, in which the following took part: Miss McMillan, Miss Allen, Mr. Marshall, John T. Kelley, Mr. Hammon, Miss Leggett, Miss Rita Macdonald, Greta Kink, Hazel King, Mr. McFadden and Mr. Stokel. Mr. F. Macwell, M. P., and J. N. Harvey, who were present, spoke briefly, praising the work of Mr. Belding.

WHY COWS NEED CONSTITUTIONAL VIGOR

This is the element that produces endurance under great strain of work in the race horse under the strain of terrific speed, in the milch cow under the strain of enormous production. Under the strain of a severe climate it is called hardiness. The element of this element is especially manifested in the growth and development of the young of the different breeds. Of the one they live and grow without special care or attention; of the other they perish easily if they do not have the best of care. The difference is simply in constitutional vigor or vital force born in the calves of the one and not in the calves of the other. The difference continues throughout the lives of these animals. It may not be manifested so conspicuously in after-life, yet it affects their relations to their food, care and production. In what does it consist? Is it in possessing what is sometimes called the nervous temperament? Not infrequently we find the offspring of a breed that is especially deficient in ability to live and rapidly develop without special care. It is a secret and hidden in the race, in the breed, in the animal. Perhaps it may be properly called the vital temperament. The bulls of the Holstein-Friesian breed possess the vital force or stamina more strongly than any other breed in Holland and Friesland have always avoided in-and-inbreeding. In proof that this breed has maintained a high standard of vitality, we point to its use in every climate, including that of Northern Russia nearly up to the Arctic circle. Its calves are raised without difficulty. Taken from dams at three days of age, they are reared on skim milk and a little meal, they grow like weeds. Given plenty of food, no matter if most of it is roughage, they develop rapidly and usually drop their calves at about two years old, and henceforward are profitable to their owners.

THE COW'S HORN

Various Uses in Which It is Made Useful by Man. Have you any conception of how useful that horn is to us? Scientifically it is known as a combination of phosphate of lime, gelatin and albumen, and, like all nature's products, the ingredients are in the right proportion to make it most useful to man as well as to the animal that bears it. The lime makes the horn hard, but there is just enough lime to make it hard without making it brittle, and there is just enough gelatin to make it easy to cut and shape. The core of the horn is bone, and to get that out the horn is soaked in water for several weeks. When the core is taken out it is ground up and made into crucibles which are used for melting gold and silver in.

The outer end of the horn is hard and solid, and that is used for making knife handles and other things. The hollow part of the horn is soaked for an hour or so in boiling water, when it becomes soft and may easily be split with a knife. It is then spread out flat and put between iron plates. There was a time when these horn plates were made very thin by hard pressure and used in window and lanterns as well as new use glass. They may be made into crucibles for melting gold and silver in. When the horn is heated it may be molded into almost any desired form. That is the way knife handles, buttons and other articles are made.

NEWCASTLE, Dec. 12.—Rev. T. H. Cuthbert, late rector of St. Andrew's church, Newcastle, but for the last months stationed at Jamaica Heath, has accepted the rectorship of the Derby and Biskville churches, and went to his new charge yesterday. Rev. F. W. Dixon, who for several years has been in Europe, where he visited his native Ireland and also England, France and Italy, being received in audience by his diocese in Newcastle yesterday much refreshed by his long vacation. During Father Dixon's absence the rectorship was held by the Rev. N. Saville. The latter was recently case from Newcastle branch of the L'Association Quebec, of which he was chaplain. A Newcastle liquor dealer has been sentenced to two months imprisonment for third offense against the Scott Act, and the residence of another was raided.

THE FIRES WERE OF INCENDIARY ORIGIN

TON, Ont., Dec. 17.—Fire broke out in a warehouse belonging to C. W. W. about the centre of the business part of the town last night. The house was totally destroyed, and the fire spread to the adjacent houses, fully covered by insurance. The fire broke out again in a time house owned by Dowell & Co. in the same block, and the fire spread to both areas of incendiary origin and were intended to wipe out the part of the town, as a strong west wind was blowing at the time.

LONDON TIMES SUPPORTS ROOSEVELT

TON, Dec. 17.—The Times in an editorial highly eulogized President Roosevelt, regarding his policy of the American fleet to the Pacific as a demonstration of the views of his presidential message. "The Times," says the London Standard, "is in sympathy with the American policy, and admires the resolution with which he clings to his naval policy, not less than the broad vision which is his inspiration. The Times is confident that the misgivings formerly expressed on the advisability of the cruise, have been laid to rest by the admirable temperate restraint shown by the Japanese government and people."

UNITED STATES FLEET WILL BE WELCOME IN JAPAN

Eastern Papers Express Fear That Voyage May Renew Disturbances on the Pacific Coast

TOKYO, Dec. 18.—The Jiji Shimpo, an independent paper which has a wide circulation in intellectual and business circles, will publish an editorial article tomorrow on the despatch of the American fleet to visit these shores. It will be given a hearty reception, worthy the life long friendship between Japan and the United States. Our only fear is that the despatch of the fleet may encourage anti-Japanism on the Pacific coast and bring about a repetition of the regrettable incident between San Francisco. We trust, however, the United States authorities will take the necessary precautions in this regard.

HURT AT MCADAM

CALAIS, Dec. 17.—William Shirley, a Milton, N. B. man, was badly injured at McAdam Junction Saturday evening, Dec. 14, and was brought to his home in an unconscious condition into which he lapsed shortly after the accident and did not regain consciousness until Sunday evening, more than 24 hours after the accident occurred. Mr. Shirley was engaged in coaling a C. P. R. engine and had sent up the iron bucket for another load when the machinery stopped and, as he reached the staging some five feet from the top of the tender, the machinery started again, causing the tub to strike Mr. Shirley on the left side and head. He was able to walk to his boarding house shortly after reaching there because he became unconscious. It was thought to send him to his home in Milton and he was brought down by the Saturday evening train. It was feared at first that injuries of a fatal nature had been sustained, but during Sunday evening he regained consciousness and continued to steadily improve, his condition on Monday being quite reassuring. Mr. Shirley is a well-known football player and has many friends throughout the border towns who hope for his speedy and complete recovery. Just a year ago he sustained severe injuries but had completely recovered from the same.

FREDERICTON NEWS

FREDERICTON, Dec. 18.—John Wilson last evening was presented by the Knights of Pythias the vest of the city of New Brunswick, St. John, of which Mr. Wilson was a charter member. The Fredericton lodge also presented Mr. Wilson with a purse of \$50 in gold.

SHIPPING NEWS OF THE WEEK

PORT OF ST. JOHN.

Arrived.
Dec. 18—Coastwise—Scha Clara A. Bonner, 33, Philney, from Back Bay; str. Centerville, 32, Graham, from Sandy Cove, and str. Ruby L. 49, Lewis, Margareville, Senie, 44, McKinny, from Halifax via ports, and cleared.
Cleared.
Coastwise—Sch Walter C. Belding, for St. Martins.
Domestic Ports.
HALIFAX, Dec. 12—Arrived: Schr. Emil M. Prior, fishing grounds (in to repair botany and cleared to return).
Sailed: Str. Minia (Br. cable), sea; Senja (Br.), St. John, N. B., via ports. Cleared: Str. Woburn (Br.), North Sydney, N. S.; Schr. Pearl Evelyn (Br.), St. John, N. B.; via Louisbourg.
HALIFAX, Dec. 12—Arr.: Str. Senator, from Port Maria, Ja.; sch Freedom, from New York.
Cld, str Beta, for Brazil via St. John, N. B.; str Jean, for Bermuda, Turks Island and Jamaica.
HALIFAX, N. S., Dec. 15—Arr.: Str. Corcoran, from Liverpool; Rapahannock, from St. John, N. B.; Sylvia, from New York, (and sailed for St. John, N. B.); Empress of Britain from St. John, N. B.; Schr. Medeira from New York.
Arr. 15th—Str. Minia from sea.
Arr. 15th—Str. Americana for Liverpool, via St. Johns, N. F.
Arr. 15th—Str. Empress of Britain for Liverpool.
Cleared 14th—Barkentine Gaspe for Santos, Brazil.
Cleared 14th—Str. Raon, Olsen, for Oak Point.
CHARLOTTETOWN—Arr. Dec. 19th: Sch Pacific, Heckman, from New York.
HALIFAX, Dec. 16—Arrived: Str. Crampin (Br.) from Glasgow and Mobile (and sailed for Boston); Dahome, from West Indies, via St. John, N. B.; Sebastian (Nor) from Jamaica; Sardinian (Br.) from St. John, N. B.; W. Perry (Br.) from Boston; Sch Albany, from Bay of Islands, N. E., and cleared for Gloucester.
Sailed—Str. Gloucester (Br.) for St. John, N. B.; Schr. Alice G. L. (Br) for Bermuda.
HALIFAX, N. S., Dec. 18—Arr.: Sch F. Mader, from Boston for Pictou, N. S.
Sailed, str Sokoto, for Havana and Mexican ports; A. W. Perry, for Boston.
British Ports.
FASTNET, Dec. 12—Passed: Str. Halifax City, Halifax, via St. John, N. B., for Liverpool.
ABERDEEN, Dec. 10—Arr.: Str. Jacona, from Montreal.
POWBY, Dec. 11—Sd.: Str. Cynthia, for Boston.
LIVERPOOL, Dec. 12—Arr.: str. Natche Lee, from Chicoutimi via Sydney, N. S.; for Manchester; 13th, Michigan, from Boston.
CAPE RACE, N. F., Dec. 13—Arr.: Str. Corsican, from Liverpool for St. John, N. B., passed Cape Race at 11.30 a. m.
GLASGOW, Dec. 13—Sd.: str. Sicilian, for Boston.
LIVERPOOL, Dec. 12—Sd.: str. Ottomian, for Portland.
MELBOURNE, Dec. 13—Arr.: str. pre-viously, bark Bannockburn, from Campbellton.
LONDON, Dec. 13—Arr.: str. St. John City, from St. John and Halifax.
MANCHESTER, Dec. 13—Arr.: str. Nancy Lee, from Chicoutimi.
LEITH, Dec. 13—Arr.: str. Jacona, from Montreal via Aberdeen.
LIVERPOOL, Dec. 14—Arr.: str. Halifax City, from Halifax and St. John.
GREENOCK, Dec. 14—Arr.: str. Alcides, from St. John.
LIVERPOOL, Dec. 15—Arr.: str. Victoria, from St. John, N. B.; str. QUEENSTOWN, Dec. 15—Sd. str. Maureanna, for New York.
KINSALE, Dec. 14—Passed: str. Dalgair, from Pictou, N. S., via Sydney, C. B., for Preston.
FASTNET, Dec. 16—Passed: str. Monmouth, from St. John, N. B., for Bristol.
BROWN HEAD, Dec. 15—Passed: str. Dominion, from Portland for Liverpool.
GREENOCK, Dec. 14—Sd.: str. Concorde, for St. John, N. B.; Pontiac, for Sydney, C. B.
Note—The reported sailing on 14th of str. Alcides for St. John, N. B., was an error.
DUNGENESS, Dec. 15—Passed: bark Lillesand, from Halifax for Ipswich.
AVONMOUTH, Dec. 13—Arr.: str. Monmouth, from St. John, N. B., via Liverpool for Bristol.
LIVERPOOL, Dec. 18—Arr.: str. Turcoman, from Portland for Bristol.
LIVERPOOL, Dec. 16—Arr.: str. Carmelia, from New York.
LONDON, Dec. 16—Arr.: str. Philadelphia, from Boston.
FALAK, Dec. 17—Arr.: str. Antioch, from Liverpool for Harbor Grace.
FASTNET, Dec. 17—Passed: str. Tritonia, from St. John, N. B., for Glasgow.
KINSALE, Dec. 17—Passed: str. O. terpogland, from Chatham, N. B., for Strathness; Turcoman from Portland for Bristol.
CAPE TOWN, Dec. 17—Arr.: str. pre-viously, str. March from Montreal via Sydney, C. B.
Foreign Ports.
PORT POINT, Me., Dec. 12—Sailed: Bark Loch Rannoch (Nor.), Buenos Aires.

BUCKSPORT, Me., Dec. 12—Sailed: Schr. T. M. Nicholson, Bay of Islands, N. B.
CALAIS, Me., Dec. 12—Cleared: Schr. VINEYARD HAVEN, Mass., Dec. 12, str. Pilgrim from Ingram Docks, N. B., for this port for orders, experienced a heavy southerly gale off Cape Sable December 10 and lost about 3,000 lbs from her deck.
