

CAMPAIGN OF SCANDAL TALK, SAYS LAURIER, HAS GIVEN COUNTRY THE TRUE MEASURE OF THE TORY STATESMEN

8,000 GREET PUGSLEY AND EMMERSON IN MONCTON

Greatest Meeting There Since Laurier Spoke 8 Years Ago

Hippodrome Packed and Thousands Stood Outside

Wild Cheers as Pugsley Smashes the Slander Campaign

Enthusiasm Hailed Emmerson's Discussion of Liberal Policy

HON. WILLIAM PUGSLEY

MONCTON, Oct. 21.—Certainly the greatest demonstration of the present campaign and one of the finest ever recorded any politician in the history of this city. The audience, it is estimated, numbered about 8,000. The meeting was held at the Hippodrome, which was packed to its utmost limit with nearly three thousand people, who occupied every inch of available seating and standing space, was little more than half an hour before the meeting was in progress. The streets outside were completely blocked, and the sidewalks were crowded with thousands of people. A special train brought a thousand enthusiastic Liberals from the eastern end of the county, while a special train brought in over the Moncton and Bouchette Railway a fine representation from that section. With a thousand torches, hundreds of flags, five bands of music and brilliant fireworks all along the route of the procession which paraded Moncton made a splendid spectacle.

Rung in an Alarm

In an effort to break up this portion of the programme the Tories worked the old game of ringing in a false fire alarm when the procession was just opposite the engine room, so that an apparatus had to dash out into the line of the procession. This had no effect, however, upon that part of the demonstration. The procession organized on the lawn in front of the J. C. R. depot, and headed by the Sackville brass band paraded a number of streets. In the procession were three local bands, and the Dorchester Band, with hundreds of torches

SWEPT THE AUDIENCE

In a convincing and eloquent address Dr. Pugsley made such complete refutation of the slander charges that he swept the audience with him, and was given a fine ovation. Dr. Pugsley's address was a stirring one, and he dealt with many of the great public issues with customary clearness and convincing force.

PUGSLEY FOLLOWS

Hon. Dr. Pugsley following after the brief speech had been delivered by Hon. C. W. Robinson and A. B. Copp, both who spoke vigorously on the issues of the day. He was given a reception of great cordiality, for which he thanked the gathering warmly. At the outset of his address he referred to the campaign of slander which the Conservative party was basing its hopes of entrance to parliament and took up the Mayes case in St. John in which he himself had been made an object of attack, which, he said, had all the earmarks of conspiracy. He pointed to the purpose of injuring his reputation with his own constituency and the people of Canada. To that plot, he said, he believed Mayes and J. Douglas Hagan, and other gentlemen were parties and went into it solely for purpose of injuring him. "Although," said Hon. Dr. Pugsley, "I became known some days ago that declaration was false. Hon. J. D. Hazen, who as leader of the Conservative party in the province of New Brunswick, took upon himself the responsibility of reading the declaration, and might have known it would have been circulated throughout Canada. He has never yet taken any steps in a public way to express his regret that this damnable outrage was perpetrated upon me. What do you think of conduct like this? This is an error and that the date had been changed from 1866 to 1907 and that it was an error it was spread broadcast by the people who know the statement was false when it was made in the city of St. John. After I published the statement of facts in the St. John evening papers I had a letter from Mayes stating that the time of payment was October, 1905, instead of October, 1907, and took place before I was a Minister of the cabinet of Canada, and explained that it was a typographical error.

Wm. McInnes Returns From Trip Along Proposed New Route

COUNTRY FILE

OTTAWA, Oct. 21.—Hon. Thos. Greenway, who came to Ottawa in a boat to assume his duties as a member of the Railway Commission, has been rather seriously ill for the past few days with an attack of asthma. He is now making satisfactory progress towards recovery, but it will be some time before he will be able to begin work with the commission.

Favorable reports of the agricultural possibilities of the long stretch of country which the proposed new Hudson Bay Railway will open up for settlement, have been brought to Ottawa by William McInnes, of the Geological Survey, who has just returned from a summer's exploration work in the territory tributary to the Churchill river. Mr. McInnes states that the clay belt suitable for cultivation runs much further north than the Saskatchewan river than has been generally thought. The Churchill and not the Saskatchewan river, he finds, is the northern limit of land adapted for agricultural settlement. There are, of course, some stretches in this vast area which are swampy and semi-barren, but there is quite the average which obtains in Northern Ontario, while the climate is not so severe as is to be prophetic. The long summer days give more hours of sunshine than is the case in Manitoba or Ontario, and consequently crops are ripened with no greater liability to failure from frosts than was experienced by the early settlers of Manitoba.

At Fort Stanley, on the Churchill river, 200 miles north of Peace River, Mr. McInnes found that wheat had been successfully grown. The vegetable garden maintained there by the Hudson Bay company's men had not been touched by frost up to the middle of September. The waters of the North Land, he said, teem with fish and these valuable fishery resources will not be of commercial use until the railway is built.

AUTOMOBILE DITCHED AND BADLY BURNED

F. M. Tweedie Has a Mishap—Comment on the Robinson Case

CHATHAM, Oct. 22.—F. M. Tweedie while returning from Hardwicke in his automobile last evening ran off the road and was badly burned before the blaze could be extinguished. Mr. Tweedie was not hurt.

Tea may come and tea may go, but "Salada" goes on slowly, but surely winning its way into the homes of millions of satisfied users.

In a statement which left no doubt as to the facts in the minds of the audience and no doubt also that Mr. Pugsley was a victim of Tory conspiracy. He also paid a tribute to Emmerson's ability as a representative from this county and to his energy on behalf of the constituency, which remarks were greeted with much applause.

Dr. Pugsley also took up the question of the Transcontinental, dealing with it at length, contrasting the construction policy of the Liberal government in this regard with Borden's constructionless policy. He paid a glowing tribute to Sir Wilfrid Laurier and closed with a stirring appeal for support.

Previously Dr. Pugsley addressed a big gathering outside, where he was very warmly received, and took up in addition to other topics the popular local subject of the I. C. E. extension and branch line absorption, which he discussed thoroughly.

C. M. Legere followed, speaking eloquently in French and English, and J. P. Hawke gave a forceful address that aroused great enthusiasm.

The big meeting broke up with cheers for the King, Sir Wilfrid Laurier, Dr. Pugsley, Hon. H. R. Emmerson and other speakers.

MONSTER MEETING ENDS LAURIER'S ONTARIO TOUR

SIR WILFRID LAURIER

HILLSBORO THE SCENE OF ROUSING MEETING

Great Crowd Cheers Hon. Mr. Emmerson and Dr. McAlister to the Echo—Former Minister Scores Point After Point Against the Opposition—Other Splendid Speeches Delivered.

Source of Pride

Dr. McAlister is a modest man, but it must have been a source of great pride and satisfaction to him as he looked over the sea of faces and heard the cheers that resounded and echoed as he took his place on the platform. The Hillsboro Brass Band was in attendance and played several selections during the evening. Hon. Mr. Emmerson, who spoke in Moncton earlier in the evening, came down by motor car. Mr. Copp accompanied him.

The big meeting opened at 8 o'clock, Dr. B. A. Marven presiding.

Dr. McAlister was the first speaker. The doctor took up the various issues of the campaign, making a characteristic manly and forcible speech, showing the merits of the Laurier gov-

ernment, whose magnificent record of twelve years had placed Canada in an enviable position in the eyes of the world.

Just as Dr. McAlister finished his speech Hon. Mr. Emmerson arrived at the hall and amid tremendous applause passed through the big throng, which gave the ex-Minister nothing short of an ovation. Cheer upon cheer rang out showing with no uncertain sound the position Mr. Emmerson still holds in the hearts of the people of this, his old constituency.

A. B. Copp, M. P. P., who came down from Moncton with Mr. Emmerson, also received a splendid reception and made a vigorous address that was most enthusiastically applauded. Blow after blow was dealt out against the Conservative opposition who, the speaker claimed, were unable to present a platform. Mr. Osman also spoke briefly with good effect.

A Telling Address

Mr. Emmerson after expressing his gratification at again looking into the face of an Albert county audience at once launched out in a telling address. Eloquent, logical and able, an address which showed the wide calibre and statesmanlike character of the speaker. The big questions of the day, the vital issues that should occupy the minds of the electors were dealt with convincingly and forcibly, showing how Canada, the young nation, had prospered under the wise and able statesmanship of its great leader. An eloquent appeal was made to Liberal and Conservative alike to listen to the call of duty and the great questions of vital interest to their homes and their country instead of to the low and malicious cries of scandal and slander.

The meeting broke up with the playing of the national anthem by the band. Hon. Mr. Emmerson is to speak at Alma tomorrow afternoon and at Albert tomorrow night.

Scandal Campaign Gives Country Tory Statesmen's Measure

Verdict Next Monday Will be Fitting Answer to Low Appeal

Government to Blame for Leniency Toward Tory Officials

But Will Take Proper Action After Oct. 26, Says Laurier

ALEXANDRIA, Oct. 21.—Sir Wilfrid Laurier's last meeting of his campaign in Ontario was marked here today by the same enthusiastic acclaim, from cheering thousands gathered to hear him that has been the distinguishing feature of the whole campaign. The thousands of people were gathered in Alexandria assembled at the fair grounds this afternoon, the audience numbering fully four thousand.

The contest here is a close one, but the indications of today's meeting all pointed to the fact that the riding would remain true to its Liberal allegiance and elect J. A. McMillan, ex-M. P. E.

In respect to the contest in the neighboring riding of Prescott, where both candidates are Liberals, Sir Wilfrid today publicly endorsed the candidature of the straight party nominee, Mr. Froulx, ex-M. P.

The premier was escorted from the train to the fair grounds by a mounted escort of about 200 of the local electors and by two bands. His address followed largely along the lines of his previous campaign utterances. He contrasted the present prosperity of the country with the stagnation of 1886 and asked the electors if they desired to give control of national affairs over to practically the same group of men whom they turned out in 1886. With regard to the scandalous case of the Conservatives he said that perhaps the government was to blame in dealing so leniently with the Tory officials who had been the chief cause of the abuses criticized by the Civil Service Commission.

"However," he said, "it is never too late to mend. After October 26th I will take proper action to protect ourselves and the country."

The campaign, he concluded, with its plethora of scandal talk and unsubstantiated charges had given the country the true measure of the Tory statesmen. The verdict of Monday next would be a fitting answer to the men who had no higher conception of national issue.

Wedding Bells.

WALLACE-MCCAUSLAND.

Tuesday morning, at 5:30 o'clock, in the Church of the Assumption, Carleton, the marriage was solemnized of Miss Annie McCausland, daughter of John McCausland, and E. J. Wallace, of the firm of McIntyre and Comeau. The bride looked charming in cream serge suit with hat to match. She was attended by her sister, Miss Alice McCausland, who wore blue broadcloth with blue hat to match. The groom was attended by Mr. James Byrnes. After the ceremony a wedding breakfast was served and the happy couple left on the Boston express for an extended trip. The young couple received many presents, among them being a check from the groom's father, and a Morris chair from the staff of McIntyre and Comeau. The groom's gift to the bride was a locket and chain, and to the bridesmaid ten dollars in gold.

CARPENTER-FORRESTER.

Monday night a quiet wedding was solemnized at the residence of Thos. Skillingham, 387 City Road, when Miss Grace A. Forrester was united in marriage to Irvan C. Carpenter by Rev. J. P. Floyd. Mr. and Mrs. Carpenter will reside in the future at 8 St. David street.

AMHERST GIVES PUGSLEY A MAGNIFICENT GREETING

Manufacturing Centre Turns Out En Masse to Greet Minister

Tells His Audience About the Lying Affidavits and is Cheered

Hence Logan Delivers the Speech of His Life—Victory in Cumberland

AMHERST, N. S., Oct. 17.—Seldom in the history of this town has there been a more magnificent political demonstration than that held in the Aberdeen rink this evening in the interests of J. Layton Ralston, the Liberal candidate. Hon. Wm. Pugsley, Minister of Public Works, arrived in Amherst on the C. P. R. and was met at the station by a host of enthusiastic Liberals, who gave him a right royal welcome to the manufacturing centre of the Maritime Provinces. Although Saturday was pay day and the stores kept open until a late hour, yet fully two thousand people crowded in the rink, the largest building in the town, to hear the issues of the day discussed.

At 7.45 the Amherst Military Band headed the procession composed of hundreds of stalwart Liberals, from the Terrace Hotel, where Dr. Pugsley and H. J. Logan, ex-M. P., had their headquarters, to the place of speaking. On the arrival at the Aberdeen, the Liberal leader from New Brunswick was given a most enthusiastic reception, which attested the fact that the Liberals of Cumberland place no stock in the contemptible conspiracy that had for its object the destruction of the political career of the Minister of Public Works.

Mr. Douglas in the Chair

George T. Douglas, assistant manager of the Rhodes, Curry Company and president of the Young Men's Liberal Club, occupied the chair. In his opening remarks he referred to the fact that Mr. Ralston, the Liberal candidate, was the youngest man in Canada who was contesting a seat in this election and although one of the youngest he was also one of the best. He paid a tribute to Mr. Logan, who had given Cumberland such faithful service for twelve years and who had been the medium of doing so much for Amherst and the county of Cumberland. On behalf of the Liberals of Amherst he extended a cordial welcome to Dr. Pugsley to our town. He thanked him for coming to Amherst to assist in the campaign. He then called upon Rev. Mr. Ramsay to address the meeting on behalf of the Cumberland Electoral Reform League. Mr. Ramsay made a short but eloquent address, appealing to the citizens of Amherst to do their utmost to have the approaching election conducted on a clean basis.

DR. PUGSLEY INTRODUCED.

Dr. Pugsley was then introduced, and the reception he received was one of which any public man might well be proud. He was cheered again and again and it was some minutes before he could make himself heard by the vast audience. He expressed regret that owing to the strenuous campaign work his voice was not in such a condition as he would desire, and he was afraid that he would not make himself heard by the entire audience. He was in sympathy with the remarks made by Rev. Mr. Ramsay with regard to the sacredness of the ballot and it was the Liberal party that had given to Canada the secret ballot, whereby men could cast their votes as they pleased, and it was the Liberal party that placed on the statute books the stringent election act that should prove a powerful factor towards purifying the election and elevating politics to a higher plane, but despite these laws and despite the efforts of the great premier of the Liberal party, Sir Wilfrid Laurier, to lift the discussion of public issues to a higher level, the spirit of untruth was abroad in the land. He himself had recently been made an object of attack and asked the indulgence of his audience for devoting a short period of time to answering the slanders of his traducers. He had been charged some months ago with having an illegitimate connection with a \$5,000 check that was paid to him by a certain railway company in New Brunswick. He had been president of a real estate company which had loaned this railway five thousand dollars. When the money was paid back the entry on the railway company's books had been initiated "W. P." The money had been loaned to the railway. In due time it had been returned. As president of the company he had received the check and placed it to the credit of the company. Pending an explanation of the item lying telegrams had been sent abroad over Canada which opponents had not the decency as yet to correct.

THE MAYES' FALSEHOOD

Dr. Pugsley referred to the miserable falsehood, deliberately permitted to be published, regarding the date of the note given him by Mayes, which note was made in 1905, two years before the speaker had been elected to parliament and at a time when he was acting as solicitor for Mr. Mayes. "When you remember the absolute knowledge these men had of the date of the note you will see what a dia-

bolical outrage was perpetrated on me," said the Minister. Dr. Pugsley briefly outlined events subsequent to Monday night of the letter of explanation from Mr. Mayes, telling that of that night the affidavit had been a printer's error. Mr. Mayes later published a second affidavit, in which he says he corrected Mr. Hazen, who was reading the original affidavit. If this is so, then Mr. Hazen is guilty of publishing what he knew to be a false affidavit.

He let the falsehood go in the Conservative press and did nothing to prevent its publication throughout Canada. Any man of honesty would, upon learning that he had committed such an act of injustice as this, would have felt bound to contradict it immediately in the press, and to inform the libel. "These men are today at the bar of public opinion," said Dr. Pugsley. "I charge them with wilful and deliberate slander. I charge them with plotting together to injure not only myself but others, and in the twenty-sixth of this month the electors will declare whether they favor this despicable warfare or whether they believe a political campaign should be conducted in an honorable manner."

The speaker then took up general discussion of the public questions of the day. He paid a high tribute to the valuable services of Mr. Logan's connection with the British preference that had increased the traffic in the port of St. John from zero to \$24,000,000. He made a strong appeal for the men of Cumberland to elect Mr. Ralston on the 26th instant.

MR. LOGAN FOLLOWED.

Mr. Logan followed and made the speech of his life. As he scored point after point he was cheered to the echo. He showed that the opposition did not want to discuss issues, but to sidetrack with petty scandals, where the Liberals desired to discuss the great transportation facilities that the opposition would say "look at the price of those spoons on the Mountain!" Where the British preference was put forward by the Liberals, the Conservatives, who were not a sailor or a fisherman, danced with DeWolfe's maidens up in the Arctic circle. The Liberal party had big issues to discuss, issues which concerned the building up and uniting of Canada. It was not necessary for the Liberal party to depend upon a campaign of slander. He showed that it was to the interests of Cumberland to stand by the Liberal party. Mr. Ralston, who arrived from Parrsboro while the meeting was in progress, was received with tremendous cheering and his short address was warmly applauded. Taken as a whole the demonstration was a great success.

Mr. Borden, leader of the opposition, speaks here Monday night in support of Mr. Rhodes. Hon. H. B. Emmer-son, A. B. Copp, H. J. Logan and J. L. Ralston will address the Liberal meeting the same evening.

FOUR CHILDREN BURNED TO DEATH IN THEIR BEDS

Mother Was Badly Injured Trying to Rescue Them

ALTONA, Pa., Oct. 19.—An overhead stove set fire to a dwelling house here yesterday and four children lost their lives while two other persons were probably fatally injured.

Mrs. Luke Delaney, mother of the Delaney children, jumped from a second story window and was taken to the Johnstown Hospital.

Mrs. Delaney, who was aroused by the heat from the fire, opened her bedroom intending to rescue her children who were asleep in another room. She was overcome by flames through which it was impossible to pass, leaving her no alternative but to jump to save her life. Besides being injured by the fall, she was severely burned. The children were burned to ashes in their cots.

WARM WEATHER BRINGS NEW LIFE TO CONEY ISLAND

NEW YORK, Oct. 19.—The sudden and unexpected reversal of every meteorological precedent which has brought back summer weather at a time when normally furs and overcoats are in active demand resulted in the re-opening of the bathing pavilions at Coney Island and Brighton Beach and the invasion of the sea by hundreds of bathers. All the amusement places along the beach which could be re-opened on short notice were thronged and the entire resort was swarmed with a crowd on which summer dresses predominated.

EXPRESS FROM CHICAGO COLLIDED WITH FREIGHT

NEWTON, Kas., Oct. 19.—Westbound Atchison, Topeka and Santa Fe passenger train No. 17, from Chicago, collided with a freight train at Braddock, near here, early today. The engineer was injured.

CHICAGO, Oct. 19.—At the general offices of the Santa Fe railway in this city today a special police force of thirteen men has been maintained during strike time by the company. This was disbanded on Friday morning.

THE MCDAM SHOPS.

The C. P. R. has now about forty-five of the late strikers among the men employed in their machine shops at McDam, the remainder of the two hundred men employed being those who were employed when the regulars went out. A special police force of thirteen men has been maintained during strike time by the company. This was disbanded on Friday morning.

SKELETONS OF TWO MEN FOUND IN COLORADO

SAN DIEGO, Cal., Oct. 18.—The bleached bones of two human skeletons, on which fragments of clothing hung, were found by quail hunters on Point Loma yesterday. The skeletons were found in Canyons some distance apart. By the side of one was a revolver and a box of cartridges. The bones are those of men and it is evident they died months ago. The fragments of clothing found are too weather worn to be of much service for identification.

Princess Nicholas, wife of Montenegro's ruler. WOMEN OF THE BALKANS.

WOMEN DEGRADED IN BRITISH PRISONS

Terrible Indecent Against the System.

LONDON, Oct. 19.—A terrible indictment of the British system of treating women prisoners is made by Mrs. Elizabeth Sloan Chesser, M.P., in the October number of the Contemporary Review.

"I have heard the views of educated and uneducated women," she says, "of women doctors, artists, sick nurses, business girls and working women of all classes, of mothers and domesticated women, generally, who know by sad experience the hard lot of our English women prisoners. They say that the penal system is largely because life in prison kills self-respect, courage and physical and mental activity."

"Dressed in shapeless, uncomfortable, uncleanly ill-fitting garments, fed like beasts, and treated as if they were not human, occasionally suspended, degraded, or treated as less than human. How can they find salvation in this world?"

Mrs. Chesser says women prisoners are shut in their cells from 5 o'clock in the evening until 6.30 next morning. "Three days a week they have about forty minutes' exercise in the yard under the eye of the wardress in charge. After a few months of prison existence," she continues, "a hunted or oppressed, a look of stealthy watchfulness is typical of the faces. They become cunning and wary; they lose something of humanity, because they are treated as less than human. The aim is punishment and the result is hopeless failure from the point of view of reform."

JAPAN GIVES A GREAT WELCOME TO U.S. OFFICERS

Ten Thousand School Children Sang the National Hymn in English—Unbounded Enthusiasm

TOKIO, Oct. 19.—Read Admiral Sperry, Commander in Chief of the U. S. Atlantic battleship fleet, accompanied by the squadron commanders and the captains of the various ships, arrived in Tokio at ten o'clock this morning, coming by special train from Yokohama. The party was received with unbounded enthusiasm by great crowds that thronged about the station when the train arrived.

Along the whole 18 miles of the way to Tokio, the party was intergreeted with quaint thatched cottages and native villages, there was a continual greeting to the Americans, each village school turned out in force, the children lining the track as the train sped, every person waving two flags, American banners, and the emblem of their native land, and every one cheering continuously. On reaching Tokio, the train was met by a committee composed of representatives of every department of the government. After the exchange of formal greetings on the station platform, a procession was formed and then came up a great surprise, when the band struck up the national hymn, and 10,000 school children massed in chorus which packed the entire approach to the station sang the words of the hymn in English. The American officers were then conducted in carriages in waiting, the admiral going to Sheba Palace and the captains and commanders to the Imperial Hotel.

PASTOR, ACCUSED BY SISTERS, QUILTS TOWN

NEW YORK, Oct. 17.—Fearing to receive the blessing of a dying grandmother with a secret trouble in her heart, Mrs. Samuel Tuttle, a young and pretty matron, told a story a few days ago to her aged relative—and later to her husband—which has resulted in trouble for the Rev. Dr. Frederick W. Fairfield, pastor of the Sag Harbor, L. I., Baptist Church.

Fr. Fairfield, the woman said, called on her August 20, when she was alone in her home at Southampton, and paid her attentions against her will.

Scarcely had this story become known when Mrs. Tuttle's sister, Miss Mary Tuttle, a younger and even more attractive woman, declared that Dr. Fairfield had forced his attentions upon her, too.

He called upon her at her home in Sag Harbor when she was alone, and while she was playing the piano threw his arms about her and hugged and kissed her, she said.

Both women have laid their complaints before a justice of the peace, describing the pastor's actions as attacks. The pastor has left Sag Harbor, denying the stories before he went away.

ANOTHER PLOT IS UNEARTHED BY LIBERALS

Man Induced to Lay False Information SUSSEX, THE PLACE

St. John Man to be Charged With Offering Money to Voters

SUSSEX, Oct. 18.—The case of Geo. W. Fowler and his political associates in Kings and Albert counties is becoming desperate indeed. Today the Liberal organizer, E. S. Carter, obtained proof that a deliberate plot was on foot to use the Furlay League to discredit Liberal party workers and advance the interests of the Tory candidates.

The plot as revealed showed that a blind follower of the Tory party was induced to lay false information upon which warrants might be issued for the arrest of an innocent person and to force the attendance of respectable citizens from the lower end of the county to give evidence. This poor fellow is named Benjamin Long. He lives in Sussex, and the well defined report is that he was induced to go before the police magistrate here and swear out an information against a party residing in St. John, charging him with offering money to voters to refrain from voting. Long had no knowledge of this himself and could not say the information, his friends state, until he had been coached in the office of Fowler and Jonah.

Proves Conclusively

They say that this information, coming as it did after Geo. W. Fowler's trip to the parish in question and aided in the preparation by the law officer of Fowler and Jonah and their strong supporter, N. D. McKenna, who is also a stirring member of the Furlay League, proves conclusively that the plot was hatched and is being carried out in the interests of Mr. Fowler, the Tory candidate. Those who are supporters in the past and during the present campaign will be amazed at those proceedings. It is a well known fact that the agents of Fowler have been found in the constituency with money and whiskey for some time.

The Liberal committeemen not only know this but they have the straight evidence in many cases where money has been offered, "bag-know" and who received it.

They not only know who ordered the whiskey in many parishes, but also who took it to those parishes. In the case of St. John it was done openly, carried on the train by a county councillor, taken from the train and placed on his own. This was done on Saturday night, Oct. 10, and again by the same man Saturday night in Sussex train, and similar instances will, no doubt, be the basis of information in the near future.

The Liberal party leaders said tonight that they were entirely in sympathy with the acts and objects of the Furlay League, but they failed to understand why the offices of the Tory candidate should be used by one of its prominent Conservative members to prepare its informations.

BOY WAS KILLED BY FALLING UNDER A CAR

Fa at Accident in Sydney Cement Works—Guysboro Youth the Victim

SYDNEY, N. S., Oct. 18.—William F. Tait, a native of Melrose, Guysboro County, was seriously injured at the works of the Sydney Cement Company Saturday afternoon and died an hour later from his injuries. He was upon the end of an empty car which was running down a track when he fell off and the wheels of the next car passing crushed him terribly. The deceased was only in his 16th year and came to Sydney in May, since which time he has been employed with the cement works. An hour was kept some of the evening before Coronor Townsend and a verdict of accidental death was returned, the company being relieved of any blame in the matter. The remains will be sent to Melrose tomorrow for interment in charge of Frank and William Henderson, relatives of deceased.

CHOLERA IN MANILA

MANILA, Oct. 18.—Twelve new cases of cholera and five suspects have been discovered within the last 48 hours. The average number of cases reported is still running about five daily, the affected area being confined to two districts of the city. No Americans have been stricken for the past fortnight. General conditions in the city are reported as being greatly improved.

PASTOR, ACCUSED BY SISTERS, QUILTS TOWN

NEW YORK, Oct. 17.—Fearing to receive the blessing of a dying grandmother with a secret trouble in her heart, Mrs. Samuel Tuttle, a young and pretty matron, told a story a few days ago to her aged relative—and later to her husband—which has resulted in trouble for the Rev. Dr. Frederick W. Fairfield, pastor of the Sag Harbor, L. I., Baptist Church.

Fr. Fairfield, the woman said, called on her August 20, when she was alone in her home at Southampton, and paid her attentions against her will.

Scarcely had this story become known when Mrs. Tuttle's sister, Miss Mary Tuttle, a younger and even more attractive woman, declared that Dr. Fairfield had forced his attentions upon her, too.

He called upon her at her home in Sag Harbor when she was alone, and while she was playing the piano threw his arms about her and hugged and kissed her, she said.

Both women have laid their complaints before a justice of the peace, describing the pastor's actions as attacks. The pastor has left Sag Harbor, denying the stories before he went away.

DAVID BELASCO. Playwright manager, but more famed as an expert producer, he enjoys his own individual place in theaterdom.

WORKS EQUALLY WELL IN EITHER HOT OR COLD WATER

THICK FOG CAUSES A BAD WRECK

Trains Crash at Stickney TWO ARE DEAD

One of Those Fatally Injured Belonged to St. John

WOODSTOCK, N. B., Oct. 18.—Two men are dead and another slightly injured as a result of a serious train wreck at Stickney Brook on Saturday morning. Stickney Brook was the meeting place of an extra freight going north and a south-bound freight. The down train was on the main line and the up-train, passing the switch without seeing it on account of heavy fog. The driver lost his bearings, so to speak, but no blame is attached to him or to anyone else.

The trains met with a terrific crash. The engine crew of the north-bound train were caught between the boiler and the head of the tender, with coal piled about them, and with their legs jammed against the red hot fire box. Their cries were terrible.

The fireman, Robert Johnston, who came here recently from Fairville, was unconscious for some time before he expired.

Pinned from Waist Down

Charles Humphrey, the engineer, although pinned from the waist down, remained conscious and directed the work of rescuers. His groans were pitiful, his suffering being intense. He asked that the news be broken gently to his wife. Doctors from Hartland and Florenceville reached the scene within half an hour. By that time both men had been released from their positions. It was seen at once that Johnston could only live a short time. The body of Johnston was taken to St. John last night for burial there from his residence, Paradise Row tomorrow afternoon at 2 o'clock.

BUT THEY ARE NOT MARRIED YET

Miss Elkins Hailed as a Princess by the Italian Press.

TURIN, Oct. 19.—Although no official announcement has been made with reference to the marriage of the Duke of Abruzzi and Miss Catherine Elkins, it is asserted that the King has definitely given his consent. As a consequence the duke is preparing to leave for the United States. The newspapers in the belief that the marriage is certain, assert that Miss Elkins has now been assured an Italian royal princess, while after her marriage she will have the position and honors due to her rank as a member of the royal family.

ROME, Oct. 19.—The public is greatly excited with the matrimonial plights of the Duke of Abruzzi and the papers here announce that the marriage is absolutely certain to take place, the king having given his full consent to it. The Giornale d'Italia says that from today Miss Elkins can be considered in the same position as a royal princess.

LITTLE INTEREST IN THE PRESIDENTIAL ELECTION

BOSTON, Mass., Oct. 18.—That there is an unusual lack of interest in the coming election is apparently shown by the slight increase in the registration in the thirty-three cities in the state as compared with similar registrations in other presidential years.

The total registration of the thirty-three cities this year was 389,083, compared with 365,314 in 1904, 324,122 in 1900 and 302,284 in 1906.

The usual increase every four years in the city registrations of Massachusetts is about eight per cent, while this year it amounts to scarcely more than one per cent.

GREAT DAY OF VICTORY IS NEARING

Many Rally Around the Old Standard

Enthusiastic Meetings at Lorneville and Fredericton Junction

With election day only a week away the Liberal workers in all city and county sections are continuing to labor hard in the hope of piling up overwhelming majorities for Pugsley and Pender. There was another large batch of converts to Liberalism Saturday, including many staunch supporters of the conservatives in previous years. Wherever one goes he hears words of praise for Hon. Dr. Pugsley and Mr. Pender. The Conservative candidates, Dr. Daniel and Dr. MacRae, are suffering greatly on account of the alleged scandals given circulation by the Tory leaders. In fact, it is believed in some quarters that Dr. MacRae will lose his deposit.

In the county it can plainly be seen that Dr. MacRae could not be weaker, while Hon. Dr. Pugsley stands an excellent chance of polling a tremendous vote. In the city, too, Dr. MacRae will not find many supporters. Mr. Pender's chances have never been better. His signatures to the nomination papers are in the vicinity of 2,000, and even more could have been secured if the workers had so desired.

Tomorrow evening the Young Liberals will hold a big meeting in Carleton Place where the party will no doubt make big gains.

Nomination day is welcomed by all the workers who feel that the battle is nearly won.

Near Wellington ward a big sign has been erected in a most conspicuous space favoring the Liberal candidates. A large crowd was at the Prince ward meeting in Sutherland building, on Saturday evening, and the greatest of enthusiasm was given to the Liberal cause.

All the other wards report excellent progress and see no indication that there will not be a continuance of the same throughout the election.

Senator King and Hon. H. A. McKenna addressed a meeting at Fredericton Junction Saturday night in the interests of the Liberal party. The hall was filled to overflowing and great enthusiasm for the Liberal cause was displayed.

The public hall at Lorneville was filled Saturday night by a large gathering of electors who listened with deep interest to an able presentation of the current issues by W. Wallace Douglas MacArthur, James Lowell, M. P., and Wm. G. Pugsley. Lorneville has always been regarded as a Conservative district, but this year the indications are strongly in favor of the Liberal party.

WOMEN WITH THE BALLOT COULD DO GREAT GOOD

BUFFALO, N. Y., Oct. 18.—What a woman with the ballot in her hand could do toward alleviating the hardships and suffering in the industrial world due to injustice and inequality was told at an industrial mass meeting today by delegates to the fortieth annual convention of the National American Woman Suffrage Association. President Anna H. Shaw introduced Miss Jean M. Gordon, factory inspector for the Parish of Orleans, New Orleans.

The report of the committee on industrial problems affecting women and children was given by Florence Kelly of New York. She said in part:

"Votes for working women means shorter hours. Eight hours for men, ten hours for children, unlimited hours for women—such is our practice today in an increasing number of states. Eight hours for all workers would do more to reduce tuberculosis than all the crusades against it that are going on the world today, for overwork is the chief predisposing cause of the disease."

BUFFALO, N. Y., Oct. 19.—A round table conference on state legislative methods will be the feature of the 46th annual convention of the National American Women Suffrage Association, delegates from California, Illinois, Iowa, Kentucky, Massachusetts, Nebraska, New York, New Hampshire and Louisiana related their experiences in trying to get favorable action on Woman Suffrage measures before their respective legislative bodies. Much information was brought out that will be valuable in future campaigns for the cause. Extraordinary efforts will be made in several states in the city registrations of Massachusetts is about eight per cent, while this year it amounts to scarcely more than one per cent.

INTERRED A LIVE WOMAN

Sealed and Saved Her. A woman who had been pronounced dead was revived after being sealed in a coffin for several days.

Oct. 20—The timely arrival of a physician who was with the applicant on the day, prevented the burial. Thomas Chapman, 60, who was supposed to have died of heart disease on Saturday, was pronounced dead. The body was sealed in a coffin and placed in a vault. After confirming that the woman's body was by suspended animation, she was removed from the coffin and revived. While weak, it is believed that she will recover.

McAlister Loudly Cheered at Sussex

McAlister and Fowler Nominated and Both Speak

SUSSEX, Oct. 18.—Enthusiastic, excited Liberals came from all parts of Kings and Albert counties today to cheer the popular candidate of the government party, Duncan H. McAlister. If any evidence was needed that Geo. W. Fowler would be defeated next Monday it was furnished today by the report that came from every corner of the united constituency. From early morning until early this afternoon the Liberal parish committees were writing from the different centres, from far

DR. D. H. McALISTER.

off Greenwich, Kars and Westfield in Kings to Alma, Harvey and Hopewell in Albert county. All of them had the same story to tell of the popularity of the Liberal government and the Liberal candidate. There is no doubt of the great change in the sentiment in the two counties. There is no doubt that hundreds of men who voted for Fowler in the last election will vote against him on the 25th. Victory for McAlister and a triumph for Liberalism were in the air today.

NO INCIDENT OF NOTE. Nomination proceedings were not enlivened by any incident of note. The official nomination of Duncan H. McAlister, medical doctor, and Geo. W. Fowler, barrister-at-law, were read with the returning officer, Ernest W. Lynds, and duly acknowledged. The institute hall where the official

nomination were made was crowded long before two o'clock, the official hour for closing. It was known that the Conservatives had hired the rink for their meeting, and as the Liberal candidate up to 1 p. m. had no invitation to appear in the big hall, the only one suitable for such a big crowd in the drizzling rain that was falling, arrangements were made for the Liberal candidate to speak in the institute hall. Shortly after 1:30 Mr. Fowler addressed the crowd and invited them to his meeting in the rink. A few of his supporters followed him out, and at 2 o'clock when Dr. McAlister appeared he received a tremendous reception. He explained the situation and then declared that he was willing to meet Mr. Fowler anywhere and they would all go to the big rink. Cheers followed cheers as McAlister led the big crowd from the hall to the rink.

MADE TO SUIT FOWLER. When there, the arrangements for the meeting were made to suit Mr. Fowler. He would not allow Dr. McAlister a chance to reply. He wanted to open and close the meeting, and would not listen to any other arrangements. Dr. McAlister yielded to the unfair terms and Fowler opened with three-quarters of an hour. McAlister followed in a speech of about an hour's duration, which was a surprise to many who had never heard him speak. He showed that he had a splendid grasp upon the public questions of the day and discussed them fluently and forcibly. The big crowd which numbered fully three thousand people cheered him repeatedly. The bulk of the audience was undoubtedly in his favor. He scored points after point and at the close of his speech he received an ovation, the equal of which has never been heard in Kings county.

Mr. Fowler spoke for half an hour in reply in his usual reckless style. His friends gave him a good reception, but they could not alter the fact that the big meeting was in favor of McAlister. Tonight Dr. H. McAlister is addressing a crowded house in the institute hall. Standing in at a premium, and it seemed as if the crowd could not weary of cheers and applause.

DISGRACEFUL TACTICS OF TORIES AT BATHURST

Organized Gang of Hoodlums Refuse to Hear Reply to Conservative Candidate

BATHURST, N. B., Oct. 18.—Never in the history of this county did such disgraceful tactics characterize the nomination proceedings as today, when an organized gang of hoodlums with a sheriff at the head, refused by shouts, cursing and fighting, to hear a reply to the Conservative candidate. The tactics of the Conservatives will help the Liberals. Gloucester is sold for Turgeon. His majority will be at least 1,000.

REID WILL BE RETURNED BY A LARGE MAJORITY

Record Crowd Attends the Nomination Proceedings at Dalhousie

DALHOUSIE, N. B., Oct. 19.—Never in the history of old Restigouche was there ever such a large crowd present at nomination proceedings. In the past public speaking took place in the Court House, but that old memorable building could not contain half the people and both sides agreed to meet in the large curling rink. Over one thousand electors listened to the speakers. There was a severe critic and many interruptions by the Conservatives, which did not help their cause. James Reid, Liberal, and W. A. Mott, Conservative, were nominated. At two o'clock W. A. Trieman was elected chairman and introduced Mr. Reid as the first speaker. The Liberal candidate received a great ovation when he rose to address the large audience. He made a strong presentation of the great progress Canada has made under Liberal rule.

LOUDLY APPLAUDED. He was loudly applauded when he referred to the many improvements made in Restigouche county during recent years.

Mr. Mott followed and spoke at length. He failed to arouse any enthusiasm. His references to the Arctic expedition fell flat when several electors cried out, "Speak to us about the Montcalm expedition." He wanted a return to the National policy. A voice cried out, "We are having better times now." He attacked Dr. Pugsley and the crowd shouted "Pugsley is the best friend New Brunswick ever had at Ottawa."

A. E. G. McKenzie replied to Mr. Mott and in a forcible speech he shattered the Conservative arguments and pointed out the Liberal's successful management of Canada's finances. H. A. Choquette, barrister, of Montreal, spoke in French for the Conservatives. He attacked the government on their immigration policy, and A. T. LeBlanc, barrister, of Campbellton, made an able reply on behalf of the Liberals, also speaking in French. Mr. Mott spoke again, explaining the Muskoka land matter, and Wm. Currie, M.P.P., closed the meeting in firing not shot at the Conservative candidate.

Cheers were given for the candidates and the King. An impartial survey of the whole situation here is that Reid will be returned by a large majority.

SPLENDID TRIBUTE TO COLONEL McLEAN

Crowd Cheers Itself Hoarse—Leaves When Hazen Starts to Speak

GASPE, Oct. 19.—Today was undoubtedly the greatest day ever held in this town. Nearly two thousand people attended the nomination day proceedings, and the great majority seemed to be strongly in favor of Colonel McLean. Colonel McLean, Liberal, and R. D. Wilmot, Conservative, were duly nominated. Following the nomination addresses were delivered outside the Court House by the candidates. P. L. Peters was chairman. Wilmot spoke for an hour and McLean followed for the same length of time. Then Hazen spoke for three-quarters of an hour and McLean followed. Colonel McLean received a magnificent reception. The big crowd cheered itself hoarse. His speech was a capital one and was punctuated throughout with applause.

When Hazen started to speak fully 1,500 people left the grounds. The Tory premier looked rightfully downcast, but managed to stammer out his stereotyped tirade against the government. Wilmot left as soon as his own speech was over, thoroughly disheartened. At the close of the proceedings the crowd marched down the street cheering for McLean. The colonel's election is certain. The only question is the size of the majority. A fine delegation came from Chapeau man. There were fully 300 in the party and all save eight or nine are supporters of McLean. The Chairman will give McLean an overwhelming majority.

LEBLANC'S ELECTION CONCEDED

RICHIBUCTO, Oct. 19.—O. J. LeBlanc, Liberal, and F. J. Robidoux, Conservative, were nominated here today. LeBlanc's election is conceded on all sides. His majority will be greater than ever.

W. F. TODD.

BROWN AND CROCKET NOMINATED IN YORK

Brown is Enthusiastically Cheered and His Election is Admitted

FREDERICTON, Oct. 19.—The Liberals are very well satisfied with the result of the joint debate between Brown and Crocket at the Opera House this afternoon. Brown spoke first for an hour and a quarter and was most enthusiastically received. He dealt lightly with the issues, speaking with dignity and force. Crocket followed at the same length and most of the time was on the defensive, closing with the usual scandals with which the people are weary. Brown followed for 15 minutes and Crocket closed.

NELSON W. BROWN.

The meeting, which packed the building, was demonstrative, but good order was preserved. Brown's friends were delighted with the showing he made, and he won many supporters by the intelligent grasp he showed of public questions. The chairman was Geo. J. Cotter of Kewick.

The Liberals were in today from nearly every parish, and all spoke most hopefully of Brown's prospects at the polls. The tide is sweeping strongly in his support, and Crocket's friends have abandoned their boasts of a big majority. It is the candid opinion of the most experienced Liberal campaigners that Brown will win.

MICHAUD WILL HAVE MONSTER MAJORITY

Liberal Candidate Has Nothing to Fear From Dr. Kirkpatrick

GRAND FALLS, Oct. 19.—The nominations were held in this town today and as expected the only candidates were Elus Richard, Liberal, and Dr. Francis C. Kirkpatrick, Conservative. Mr. Michaud delivered an excellent address, while the doctor also spoke. The outlook was never brighter for the Liberals and there is no doubt that Mr. Michaud will be sent to Ottawa with a majority greater than ever.

HE'S A TRUE CANDIDATE OF THE SLANDERBUND

Ganong's Tirade Falls Flat—Todd Given a Great Ovation

ST. ANDREWS, N. B., Oct. 19.—Nomination day at St. Andrews crystallized the sentiment of the county which the Liberals claimed had been steadily drifting in their direction. Electors from all sections of the county were present. The candidates met and discussed the issues of the day. At least the Liberal candidate did. Wm. F. Todd's address will not soon be forgotten by those present. He surprised his opponents, delighted his friends and charmed his hearers with a masterly effort. The candidates were allowed one hour and a quarter each, with ten minutes for reply. No man who listened to the two speakers has any doubt in his mind tonight as to the issues before the people. Notorious at Ottawa for speeches unnecessarily cutting, Mr. Ganong stands before the electors of Charlotte a true candidate of the slanderbund. Not a word for the interests of Charlotte county, not a word for a policy that would appeal to the fishermen, farmer or the laborer—a tirade of insinuations, his ten minutes of ravings will not be forgotten, so foolish were they that Mr. Todd refused to reply.

SPOKE WITH CONFIDENCE

Dealing with a righteous cause, with magnificent results in every section of the county, Mr. Todd spoke with confidence and carried his audience with him. The proceedings developed into a Todd demonstration and every man in attendance left for home confident that the county of Charlotte, Liberal always in sentiment, would on Monday next be true to heretofore elected representative in sympathy with this sentiment and roll up a bumper majority for William F. Todd.

SMITH MAKES VICIOUS ATTACK ON CARVELL

Crowd Not Disposed to Listen to Him, but Carvell Persuades Them to Do So

WOODSTOCK, Oct. 19.—Returning Officer Hayward held his court at Upper Woodstock, at which the papers of Frank B. Carvell were filed by R. B. Jones, and those of B. Frank Smith by Chas. Comben. As the county council had condemned the court house gallery, adjournment was made to the armory, which was simply packed with people from all parts of the county. Mayor Balmal presided and Mr. Carvell was the first speaker. His address, a very able one, was well received. In spite of an organized attempt to interrupt him, but by plianly intimating that such tactics would not be tolerated, he was given an excellent hearing.

Mr. Carvell discussed the questions before the people in a calm and judicial manner, what was right he was for support on the record of the administration. Mr. Smith followed in a rambling and most abusive speech of about an hour. He scarcely touched at all on Federal issues, but devoted all his energy to a bitter personal attack on his opponent. He became so vituperative that the crowd got in no humor to listen to him, but Mr. Carvell jumped up and asked everybody to permit Smith to talk as long as he desired. Smith made some remarks, but he was so completely forced to withdraw, greatly to the delight of at least two-thirds of the audience.

The proceedings today clearly indicate a preponderance of Liberal feeling and Mr. Carvell's friends are very optimistic. Tonight there was a monster meeting in Graham's Opera House, addressed by F. B. Carvell, Hon. H. A. McKeown, Hon. W. P. Jones, Warden Shaw, Councillor Kinney, Councillor Gilmer, Andrew McCain, George W. Upham and others. Every seat was filled and over 300 people standing, it being the largest meeting ever held in town by the Liberals.

LOGGIE SURELY SAFE IN NORTHUMBERLAND

Accorded a Magnificent Reception in Morrison's Own Town

CHATHAM, Oct. 18.—Nomination proceedings passed off quietly today at the shiretown. Each candidate, W. S. Loggie, present member, and Donald Morrison, his opponent, had largely signed nomination lists. W. C. Winslow acted as nominating agent for Loggie and Andrew McCain, George W. Upham and others. Every seat was filled and over 300 people standing, it being the largest meeting ever held in town by the Liberals.

NO YELLOW STREAK

Prince Rupert Proposes to be All White. A Hundred and Fifty of the Pioneers Bind Themselves Under Oath Not to Employ Asiatic Labor.

PRINCE RUPERT, Oct. 19.—The Empire gives an account of a meeting held to determine how best to get rid of the nucleus of a yellow colony here composed of fifteen Chinese and five Japs. Those present after some debate asked the Chairman to read the membership oath of the Society of White Pioneers, a society organized in Prince Rupert a year ago. The oath was read, and the Chairman then asked how many of those present were willing to take the membership oath of the society, and every man in the hall stood up.

Within an hour the oath had been taken and subscribed to by over one hundred, and today Prince Rupert has close to one hundred and fifty men who have sworn and subscribed to the following oath: "That I am opposed to the admission of Asiatic coolie laborers into Canada, and that I will not employ Asiatic coolie laborers as long as I am a resident of or doing business in Comox-Atlin district."

OHIO BABY DRINKS LIKE FISH; SMOKES.

Though Only 30 Months Old, He Wants Three Beers and Several Cigarettes a Day.

CLEVELAND, Ohio, Oct. 19.—Though only 30 months of age, Louis Tomasini, of 512 Marble avenue, is a beer drinker and cigar smoker. Cigarettes and candy he abhors as children. But he takes his three beers a day—more sometimes—and smokes black cigars like a man.

His mother says he is healthier since he began to indulge in the pleasures considered so evil that great organizations are fighting indignance in them by adults. Today the child was offered a glass of beer. He drank several swallows, like a man.

THIS MEETING HAD ITS AMUSING SIDE

Summer Tries to Interrupt Emerson But is Laughed Down

MONCTON, Oct. 18.—Nomination day proceedings at Dorchester today were of somewhat lively nature, with a touch of low comedy provided by F. W. Summer, Conservative candidate. About 500 people were present at the speech making, the crowd being smaller than in other years, and of decidedly a Liberal nature, judging by the comparison of the receipts given by the speakers.

Hon. Mr. Emerson gave a masterly address, in which he reviewed the political situation and dwelt on the branch line policy, also the filthy literature being circulated in an effort to injure his private character which, he said, he had every reason to believe was published in the office of Mr. Summer's newspaper. This Summer, in his address, denied, but accused Emerson of supporting a journal which had been traducing him, naming Free Speech, a local weekly. This Mr. Emerson denied. The Moncton land deal was also the cause of a discussion. Summer alleged there was \$3,000 graft which went into some body's pocket; while Emerson showed clearly that it had been a straight business transaction. Summer interrupted Emerson several times when he was making a reply to his speech, but was laughed down by the crowd. Some amusing scenes followed as Summer above the laughter of the crowd, could be heard shouting "Who got the eight thousand?" and similar slogans. The proceedings ended with rousing cheers for Sir Wilfrid Laurier, while a cheer for Bordas was only faintly given.

The crowd was fairly orderly and very little liquor was in evidence. Police Sergeant, Rev. Father Cormier and Prof. W. W. Andrews, also addressed the gathering.

JAMES FUNDER.

SOME OF THE MYSTERIOUS PRANKS OF THE EARTH

"TIDAL" WAVES. Speaking of Swiss lakes calls to mind the extraordinary "tidal" waves of Lake Geneva. They are called "tidal" for want of a better name. At uncertain intervals the lake heaves itself up and rises five or six feet in a few seconds. Why, or wherefore, no one knows.

Nor can anyone tell what is happening in the Caspian Sea. For years past its waters have been falling, and it had been supposed that the great inland sea was gradually drying up. Recent soundings reveal the astonishing fact that the Caspian is at present actually deeper than it was a century ago. There is only one possible hypothesis. The bottom of the sea must be dropping out.

In 1905 petroleum was struck near the town of Dalton, in Texas. Believing that an oil deposit actually under lay the town, a trial boring was made just outside the city. Presently the earth began to fall away and drop into the fearful abyss. A huge pit appeared, which constantly extended. Then all the water in the town reservoir poured away leaving not one drop in the place. Some of these natural phenomena are quite beyond explanation. In the northern part of Polk County, Wisconsin, there are five big holes in the ground. natural wells, varying between 120 ft. and 150 ft. deep.

When ever rain is coming these wells go crazy. A current of air comes roaring out, with a sound that can be heard nearly half a mile away. The air is sometimes so hot that it will boil kettles and, again, so cold that it will freeze water.

Destruction of St. Pierre. Some are harmless, some destructive beyond measure. Of the latter, the most extraordinary example on record is undoubtedly the destruction of St. Pierre.

Mont Pelee exploded. Such a thing has happened before. Volcanoes not infrequently blow their heads off. But why that awful cloud of white hot dust should rush straight down from St. Pierre, killing 40,000 people in less than two minutes, is not so easily explained. The disaster was so local that Mont Pelee, the suburb on the hills close above, escaped comparatively undamaged.

Make Vernagher, a beautiful sheet of water, the pride of a valley in the Tyrol, vanished in a night. Next morning the bed was bare mud. There was no earthquake on this occasion. The lake quietly disappeared as a bath empties when the plug is pulled out.

ODD FACTS ABOUT SILK HATS.

The "high hat" variously called at different times and in different places, "chimney-pot," "stovepipe," "cylinder," and "wrist not," and now dubbed by the irreverent the "silk lid" became fashionable in Paris about the year 1790, soon after the death of Benjamin Franklin, in whose honor it was known as "chapeau Franklin."

Despite numberless changes of style, this cylindrical form of headwear has maintained its ground ever since, unexpected as such a result would have seemed at its first introduction. For a time this style of hat was considered revolutionary in Germany and Russia—anyone wearing a "cylinder" was liable to punishment—but the evil reputation passed away; and the tall, stiff hat, the ugliest head covering that was ever worn, and the most ridiculed, outlives all other styles.

In the celebrated beer garden of Munich, the Hofbrauhaus, any man daring to appear in a high hat is likely to have it crushed over his head, time-honored custom declaring that here, if anywhere, a tall hat is out of place. On the contrary, no honorable member sits in the English House of Commons without his "pot" hat on his head. If he rises to address the house, great a friend, or cross the room, he must hold his shabby tie in his hand. Should his name be mentioned in the speech of another member, he lifts his hat respectfully. If it is in his hand when his name is uttered, etiquette requires him to clap it heavily on his head in order that he may lift it with proper deference.

SNUFFLED HIM OUT. In one of the European Parliaments, when the president finds it necessary to end an argument, he gravely puts on his "cylinder." Though it happened nearly forty years ago, people still laugh at the recollection of one president who, during a celebrated debate, took up his neighbor's hat by mistake. It was far too big for him, and, falling down about his ears, snuffed him out completely from the gaze of the crowded house. In Germany, when the Herr Ober-Inspector meets his friend, the Herr Chor-Verein Director, in the street, the prudent passer-by allows them a wide berth; otherwise the majestic sweep of the uplifted cylinders is likely to bowl him over the gutter. Less aggressive, but equally striking to a stranger, is the Englishman's fashion of covering his face with his tall hat as soon as he has taken his seat in his pew in church. The Arabs, when they wish to pronounce their most forcible malediction, say, "May thy soul know no more rest than the hat on the head of a European!"

APPRECIATIVE. A Scottish parson still on the under side of 40 was driving home from an outlying hamlet when he overtook a young woman. He recognized her as the maid of all work at the farm which he would pass so he pulled up and offered her a seat. Mary gladly accepted his offer and they chatted pleasantly all the way to the farm gate. "Thank you, sir," she said as she got down. "Don't mention it, Mary. Don't mention it, I won't," Mary obligingly assured him.

DR. PUGSLEY SILENCES

LAST SCANDAL YELP OF

MAVES ACCUSATIONS

Will Make Full Official Enquiry Into the McAvity Charges

Every Charge Against Himself Completely Disproved

Correspondence Shows He Has Held to His Duty

in Face of Strong Pressure Even From Political Friends

Hon. Wm. Pugsley is still continuing his vigorous campaign from one end of the country to the other. Last night he addressed two most successful rallies in the interests of the Liberal party. First attended the meeting at Little River, where he was greeted by a very large representation of the electorate of that district. He delivered a speech on the broad lines of the cam- paign and paid especial attention to the development of Courtenay Bay. Leaving Little River he addressed the West St. John, where he was espe- cially held under the auspices of the Young Liberal Club. Here he was given a magnificent reception by a crowd- ed house, this speech, which was one of the most effective he has delivered in the campaign, touched on many of the more important issues before the people, giving special attention to the Maves charges. The gathering of detractors could be given than his West End speech last night. At Little River Dr. Pugsley was given a great ovation by the crowd present at the Liberal meeting. The gathering of detractors could be given than his West End speech last night. At Little River Dr. Pugsley was given a great ovation by the crowd present at the Liberal meeting. The gathering of detractors could be given than his West End speech last night.

Courtenay Bay Development Mr. Pugsley took as his chief subject at Little River the development of Courtenay Bay. He referred to Dr. Daniel's report on the work and showed how unwise it would be to allow the G. T. P. had reached Saint John before attempting to provide ter- minal facilities for the railway. It is this were done the railway would be driven to seek an outlet for its trade at some other port. Regarding the time required to do the job he said that it would take only about four years instead of forty years, as Dr. Daniel had predicted. To show how this could be done he held up a copy of a contract for a dredge for use in British Columbia which would dredge 1,000 cubic yards per hour.

Final Answer to Maves At the West Side meeting Dr. Pugsley was given one of the greatest ovations he had received this fall. He handled an admirable speech covering a wide range of subjects and calling effectively to their attention. He devoted particular attention to a final demoli- tion of the Maves scandal, proving not only that he had been declared "in- nocent" relating to himself, but also that in carrying out his public duty he was forced from the beginning of his ministry to resist the Maves de- mands not only from Mr. Maves, but from Mr. McAvity.

With reference to Maves' alleged relations with Mr. McAvity, Dr. Pugsley's own facts showed in every regard discredited his statement in this connection. Personally he did not for a moment believe the statement that Mr. McAvity used his influence either with Maves or the department to have the first contract awarded to Maves at a higher rate than the first tender, but since the charge had been definitely made he felt it his duty to have fully inquired into the whole matter, so that the government and the public might be put in possession of the truth. "For one reason," said the Minister, "I am glad that the matter has been made public, because my opponents have been circulating the story that I was receiving some benefit from the Maves dredging contract. The correspondence which has already been published should be sufficient to prove that these insinuations are unfounded. Because if I were had enough to receive any advantage from the contract, it is to be supposed that I would have hesitated to make the request which Mr. Maves and Mr. McAvity were making from time to time to allow them more dredging work and at higher prices than the original contract provided for. If I were interested in this contract and was getting any benefit from it, I might easily have made it possible to give him further dredging work to do and at the price of 90 cents fixed by the subsequent tender, and so have further enriched myself.

The correspondence which has been printed in the newspapers shows clearly that instead of taking this course I simply discharged my duty and acted as any honest man would. "I want to say publicly that I had no interest, direct or indirect, of any kind or description, either with Mr. Maves or Mr. McAvity in this dredging contract and received no benefit whatever from the money which Mr. McAvity received out of the dredging work. So far as the relations between Mr. McAvity and Mr. Maves are concerned, with them I had nothing whatever to do. Hon. H. A. McKewen, who was the first speaker, was received with applause. After touching on the scandal charges he turned to the issues of the campaign. He referred to the visit of Mr. Bowser to West St. John and his remarks on Asiatic immigration into Canada and said Mr. Bowser had tried to throw the blame on the Dominion government. He said he would relate the circumstances and leave the audience to judge whether this was right. He explained the Japanese system of registering every inhabitant and showed that every emigrant must get permission to leave and declare their destination before leaving the country. In this way the government has a full record of its emigration, and they require them to declare their willingness to return if needed. There must be some guarantee that they will return.

Using the Muck-Rake The Conservatives, he said, had told them "little about the issues" of the day. They had depicted him as a man wielding the muck-rake. So much had been said about him in this campaign that he did not wish to add very much now. He had been charged with robbing the public treasury. No better answer could be found for this than the fact that he had never touched a penny of the public money. He had never received a scratch of the pen reminding him of any indebtedness to the public treasury. He had never had a very fine dinner, he said, in his campaign throughout the country, saying that he had never met such enthusiasm as had greeted him recently.

show that falsehood. He said that if scandals existed now they must have existed while the House was in session, and he challenged anyone to show that a single charge had been successfully made in the House of Parliament against a member of the Laurier government. According to English law a man is innocent until he is proved guilty, and the opposition failed to prove any of their charges. The opposition, he said, had no progressive platform and had to fall back on scandal charges. The speaker related the records showed that the Conservative policy had done anything for the laboring men, and was answered by cries of "No, no!" He compared with their record the progressive labor policy of the Liberal government.

HONORARY PRESIDENT LAURIER The speaker in concluding said in answer to a letter from the Young Liberal Club he had just received a communication from the club, a letter in which he had expressed his pleasure in accepting the position of honorary president of the St. John Young Liberal Club. This announcement was received with great interest and this was followed by three hearty cheers for Mr. Barry. Mr. Barry was next introduced and gave briefly the reasons why Pugsley and Pender should be supported by the citizens of West St. John. The development of the West Side had been due to the efforts of the Liberal party, and no one could be expected to support Dr. Pugsley than those who had profited by the work of his department and who would prof- it by it in future. He showed by figures the great success of the work done by him given to St. John under Liberal rule. He predicted that it would take a bigger dredge than the Beaver to dig Dr. Daniel's contract out from the payment for the ships' berths. He said that the work done by him had been assumed by his department, and therefore it was in the public interest that an amount should be withheld from the work which was not being completed. It has now been compelled to ask me to do it with the government dredge fielding.

Maves Admits Regularity In a speech which I made in St. John East a few nights ago I stated that I had in my possession a letter from Mr. Maves in which he said that he had a commission on the Maves dredging contract for dredging at 50 cents after tendering in the regular manner. I had this statement contained in a letter returned from Mr. Maves in which he said that he had a commission on the Maves dredging contract for dredging at 50 cents after tendering in the regular manner. I had this statement contained in a letter returned from Mr. Maves in which he said that he had a commission on the Maves dredging contract for dredging at 50 cents after tendering in the regular manner.

I notice that Mr. Maves has written a letter to the Globe under date of October 18th last. In this letter, although he denies that he told Hon. Mr. Osmann that in case the dredge were purchased he would provide \$20,000 toward the Liberal campaign fund, he does not deny that he told him that unless the dredge were purchased he would make the disclosure which he was threatening. I notice that Mr. Maves has written a letter to the Globe under date of October 18th last. In this letter, although he denies that he told Hon. Mr. Osmann that in case the dredge were purchased he would provide \$20,000 toward the Liberal campaign fund, he does not deny that he told him that unless the dredge were purchased he would make the disclosure which he was threatening.

GLAD TO FACE THE SLANDER For one reason I am glad that the matter has been made public, because my opponents have been circulating the story that I was receiving some benefit from the Maves dredging contract. The correspondence which has already been published should be sufficient to prove that these insinuations are unfounded. Because if I were had enough to receive any advantage from the contract, it is to be supposed that I would have hesitated to make the request which Mr. Maves and Mr. McAvity were making from time to time to allow them more dredging work and at higher prices than the original contract provided for. If I were interested in this contract and was getting any benefit from it, I might easily have made it possible to give him further dredging work to do and at the price of 90 cents fixed by the subsequent tender, and so have further enriched myself.

A CONVINCING DENIAL I WANT TO SAY PUBLICLY THAT I HAD NO INTEREST, DIRECT OR INDIRECT, OF ANY KIND OR DESCRIPTION, EITHER AS MEMBER OF PARLIAMENT OR AS MINISTER, IN THIS DREDGING CONTRACT AND RECEIVED NO BENEFIT THEREFROM. I HAVE MADE IT POSSIBLE TO GIVE HIM FURTHER DREDGING WORK TO DO AND AT THE PRICE OF 90 CENTS AFTER TENDERING IN THE REGULAR MANNER. I HAD THIS STATEMENT CONTAINED IN A LETTER RETURNED FROM MR. MAVES IN WHICH HE SAID THAT HE HAD A COMMISSION ON THE MAVES DREDGING CONTRACT FOR DREDGING AT 50 CENTS AFTER TENDERING IN THE REGULAR MANNER. I HAD THIS STATEMENT CONTAINED IN A LETTER RETURNED FROM MR. MAVES IN WHICH HE SAID THAT HE HAD A COMMISSION ON THE MAVES DREDGING CONTRACT FOR DREDGING AT 50 CENTS AFTER TENDERING IN THE REGULAR MANNER.

A CHALLENGE Here I want to say that I defy Mr. Hazen or any of the Conservative leaders, to whom I presume Mr. Maves has given or will give access to all correspondence between him and myself as Minister to show that in any instance I ever did anything improper in connection with the dredging work or favored him or Mr. McAvity at the expense of the public, although Mr. Maves and Mr. McAvity were continually writing me and urging for favors in connection with the division of the work with the Dominion Dredging Co. and also in respect to the dredging work on the west side of Long wharf. In the latter case tenders were called for, and the tender of Mr. Maves was \$1.10 per cubic yard, while that of the Dominion Dredging Co. was 90 cents. It will be noted from the correspondence and from Mr. Maves' affidavit that one of the grievances which he had against me was that I gave the contract to the Dominion Dredging Co. instead of to him, although his tender was 20 cents per cubic yard lower than his.

especially as the government are holding some \$30,000 as a percentage. THIS WILL BE VERY ACCEPTABLE TO THE CONTRACTORS at as early a date as possible, the contractors to whom he refers presumably being Mr. Maves and himself. I mentioned this correspondence at the statement which I have made that I knew nothing of the business relations between Mr. Maves and Mr. McAvity beyond the fact that I thought they were partners in the dredging work. RESISTED PRESSURE FROM BOTH SIDES It will be interesting to quote from one or two letters written by Mr. McAvity. In one from him to me of the 14th October he says: "It appears that you are more to the business than the mere matter of dredging. Maves no doubt may be a hard man to get along with, but the more I see of him I think the more I am convinced that he is a man of perfect honesty and means for the right. He is only a man who knows how to do things his own way. Notwithstanding this letter, as will be seen by the published correspondence, I have no objection to carry out instructions of my chief engineer."

Again in a letter under date of 23rd November Mr. McAvity writes: "I had a call from Contractor Maves this a. m. re his old contract for 85 cent dredging. As no doubt you are aware the two dredges are working on the west side of Long wharf. Maves is clearing out a dump to allow the dredges to work. This work is under Maves' old contract and naturally Maves is very sore to have the dredges worked at 90 cents per cubic yard. He is doing his best to get the dredges to work at 85 cents and himself only 65 cents. There is no doubt that Maves is a man of perfect honesty and means for the right. He is only a man who knows how to do things his own way. Notwithstanding this letter, as will be seen by the published correspondence, I have no objection to carry out instructions of my chief engineer."

HAZEN IS UNABLE TO UTTER A WORD Cheers for Carvell Put a Crimp in Premier's Barnstorming Jaunt ALMOST A RIOT HARTLAND, N. B., Oct. 23.—Just before noon the news was heralded through the village and surrounding country that Premier Hazen was a passenger on the train arriving from St. John at 1:10, and would be stopped here during the time the train stopped for the passengers to dine. The address was of course to be in support of the Conservative candidate. All the young Tories in town hustled for recruits to assist in raising a shout of welcome. So excited did the excitement go that a delegation was sent to the school house and the principal was persuaded to let the scholars go to assist in cheering for Smith. When the train rolled in there was a large crowd, and half of the cheers were for Carvell, much to the surprise of the other party.

NEW GLASGOW GLASS FACTORY DESTROYED Heroic Work of Steel Workers Saves Outbuildings and Offices NEW GLASGOW, N. S., Oct. 23.—Humphrey Dees' glass factory at Trenton was destroyed by fire this morning. They had just resumed operations after the usual three months' shutting down, and the night shift had finished their work and the day shift had been at work only ten minutes when a brick at the back of the furnace gave way, when a stream of molten glass came out and ignited some inflammable material and immediately the factory building was in flames. An alarm was given and in ten minutes 600 steel workers men were on hand although the wind was blowing and the fire was very hot. The workers strongly they succeeded in containing the flames to the factory and the warehouses and offices escaped. The work of these men in containing the fire was heroic. The building was finished in 1902 and cost \$200,000. The furnaces are intact and so is the gas producing plant. Humphrey Dees are not to be downed, and before the fire was cold the firm was already planning for a new steel building, 135 by 50, and in six weeks expect to be at work in their new steel factory. They have orders now in for \$30,000 worth of glass material.

LOWEST TENDER FOR COURTENAY BAY DREDGING ACCEPTED

Work Will Cost About Half of Any Previous Dredging Here

Contract Probably Awarded Next Cabinet Meeting—Mayes Bid 74 Cents—Maritime Dredging Co. Bid 38c. With 25c. for Hydraulic Work—Contract Covers West Side and Courtenay Bay

Something over a hundred years ago an eminent but pessimistic scientist was demonstrating to the satisfaction of a large audience that a steamship could never cross the Atlantic when his address was interrupted by the news that the first steamship to accomplish the impossible feat had just arrived in port.

While this announcement is premature, inasmuch as, though it has been ascertained that the lowest tender is from a local company which in all probability will be accepted, the matter has not yet passed the cabinet, as it must be before the contract is finally awarded.

The Minister of Public Works informed the Sun last night that tenders had been received for the work. Of these the bid of the Maritime Dredging Company was considerably the lowest. This being the case, he had as a matter of course recommended to the chief engineer of his department and to the cabinet that, other things being equal, this tender should be accepted.

The three tenders received for this important work were from the Maritime Dredging Company of St. John, the Dominion Dredging Company of Ottawa and G. S. Mayes. The first tender averaged for all kinds of work in the Courtenay Bay 74 cents, while Mr. Mayes' tender was 74 cents. The local company's tender for rock excavation was \$5, or a little over one-half the figure paid Mr. Mayes for his work on the West Side. The price to be paid under this contract for hydraulic dredging, which is the work which can be performed by a suction dredge, is only 25 cents per cubic yard, and as the borings have revealed the fact that most of the Courtenay Bay work is in very soft material, the Minister expects that a large part of the contract will be done by hydraulic machines at the 25 cent rate.

The work contemplated in the contract is a channel 800 feet wide and 30 feet deep from deep water down by Partridge Island up to the head of Courtenay Bay, with additional dredging on the West Side needed for the new berths which are to be provided from Sand Point down along the Beacon pier in accordance with Engineer Sheehan's plan.

By the figures in the lowest tender it will be seen that this work will be done at a rate only about one-half the amount paid for the cheapest dredging work ever done here in this harbor. Mr. Mayes received for his first contract 50 cents per cubic yard for silt and \$2.50 for rock. For his second contract he received 50 cents per cubic yard for silt. Under this new contract, as a result of the wider competition and of the better knowledge which the contractors had of the conditions in St. John harbor and also of the large amount of work included in the contract, the work will be done at an average of 38 cents per cubic yard and if, as is possible, a large part of it can be performed by hydraulic process,

CAR FULL OF MEN THROWN INTO DITCH

Six are Known to be Dead; Many Others Hurt.

Violent Wind Storm Lifted Caboose From the Rails and Hurled It Over an Embankment.

CHEYENNE, Wis., Oct. 20.—As the result of an uprattled accident on the Union Pacific at Lone Tree Creek, thirty miles west of Cheyenne, last night, six laborers are known to be dead and several others probably met death, while 25 or 30 others were injured, many seriously. A terrific wind picked up the caboose of a work train, tore it away from its couplings and hurled it over the edge of a fill. It dropped thirty feet with its forty occupants, nearly all of whom were section laborers and the terror-stricken men were in helpless confusion among the wreckage when it landed.

The work of rescue is still in progress and only disconnected details have come to head-quarters here. The names of none of the dead can be ascertained and those of only three of the injured, Conductor James Lowery, Roadmaster Corlies and travelling auditor, Stimpson, are known.

For which the rate is 25 cents, the average rate will be even lower. Referring to Mr. Hatfield's prediction that the dredging of Courtenay Bay would take forty years, the Minister pointed out yesterday that there are dredges in his department capable of dredging 10,000 cubic yards per day of ten hours, at which rate one dredge would be able to do the whole of this work, Courtenay Bay, West Side and all, in little over three years. As the contractors would no doubt put more than one dredge to work on so large an enterprise, it is estimated that the doubt that when the Grand Trunk Pacific was completed in 1911 that the Courtenay Bay facilities or a part of them at least, would be ready for the new traffic.

Parliament has already provided an appropriation for the beginning of the work, and in accordance with usual custom, will vote the additional money required as the work proceeds. Work will probably begin immediately after the contract is formally awarded.

What Does It Mean?

DR. HAMILTON GIVES A FULL AND SATISFACTORY EXPLANATION.

Look at your tongue! Sometimes a heavily coated, sometimes it's clear and red. Study this out and you'll find some interference with the functional activity of the body.

This means the bowels are not regular, the liver is sluggish and the blood is contaminated. Strong cathartics pills act so destructively on the intestines as to provoke deadly sickness; this often frightens people from taking medicine when they badly need it.

To the multitude of dangerous purgatives now on the market, Dr. Hamilton's Pills are a notable exception, they neither gripe, cause sickly feeling or headache, and they cleanse and purify the entire system in one night. No other laxative acts with such mildness and certainty, giving proper stimulus to the liver and kidneys, strengthening the stomach and lending valuable aid to digestion, it's small wonder that such marvelous results accompany Dr. Hamilton's Pills.

Mr. Geo. O'Hogarty of Amherst, N. S., writes: "Last winter I worked in a lumber camp and neglected my health. I was dreadfully constipated and had headaches that fairly made me reel at times. I was sick and miserable, and hadn't the slightest ambition to work any more. I bought a box of Dr. Hamilton's Pills, which I fixed me up very quickly. They fixed me up very quick. I was able to go to work again. I'm glad to say that I'm better now than I was when I first got the pills. They say they wouldn't be without the pills for ten times their price."

Every dealer in the land sells Dr. Hamilton's Pills—25c. per box or five boxes for \$1.00. Write to Geo. N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

AWFUL LOSS OF LIFE IN TYPHOON Report That 2,300 Persons Were Killed in the Great Storm on Thursday Last—Villages Were Entirely Destroyed.

AMOY, Oct. 20.—The damage done in Thursday's typhoon was much greater than at first supposed. In Chang Chow 2,000 houses including the prefect's Yamen were destroyed and 1,100 persons killed. In Lan Chow, 15 miles west of Chang Chow, 600 houses were destroyed and 1,200 persons killed. Five years ago Lan Chow was flooded and 2,000 persons were drowned. Fifteen miles north of Chang Chow three villages were entirely destroyed in Thursday's storm.

Mrs. Regan-Shure, a shop now in this is a comfort; but, Mrs. Hinessey, isn't ye afraid ye'll get th' habit? Mrs. Hinessey—Niver a bit. Me could man's been drest an' he's niver got th' habit.

Laurier Will Not Go Until His Work of Unification and Development is Accomplished

Tells Monster Hull Audience So in a Stirring Speech Last Night—Prince of Wales Declared That Laurier Had Done More for Unification of Nationalists in Canada Than Any Other Man Could Have Done in Fifty Years

OTTAWA, Oct. 19.—Sir Wilfrid Laurier today addressed ten thousand people at two roving campaign meetings, one at Rockland, in Russell county, this afternoon in the interests of Hon. Charles Murphy, and one at Hull this evening in the interests of E. B. Devlin. At Rockland the old cry of "Mowat must go" was heard in the streets. The Premier spoke to enthusiastic crowds which filled the auditorium to the doors and greeted him with the same spontaneous and generous acclaim that has been so marked a feature of all his campaign meetings. At Rockland practically the whole population of the village and surrounding country turned out to hear him, and the reception accorded could not have been more flattering or cordial. At Hull to-night the Park Royal was filled to overflowing and the demonstration was the greatest ever seen in the city. The Premier's addresses were largely along the lines of his speech of Saturday night to the audience of ten thousand in this city.

OTTAWA, Oct. 19.—Sir Wilfrid Laurier today addressed ten thousand people at two roving campaign meetings, one at Rockland, in Russell county, this afternoon in the interests of Hon. Charles Murphy, and one at Hull this evening in the interests of E. B. Devlin. At Rockland the old cry of "Mowat must go" was heard in the streets. The Premier spoke to enthusiastic crowds which filled the auditorium to the doors and greeted him with the same spontaneous and generous acclaim that has been so marked a feature of all his campaign meetings. At Rockland practically the whole population of the village and surrounding country turned out to hear him, and the reception accorded could not have been more flattering or cordial. At Hull to-night the Park Royal was filled to overflowing and the demonstration was the greatest ever seen in the city. The Premier's addresses were largely along the lines of his speech of Saturday night to the audience of ten thousand in this city.

TWELVE YEARS OF PROSPERITY. He appealed for a renewal of the people's confidence on the ground that the government of the last twelve years had promoted the tide of immigration to this country, had promoted the unity of all races in the Dominion, and given Canada a new status in the Empire and among the nations of the world. As opposed to this ground of appeal he contrasted the Conservative cry of time for a change and the campaign of mud-slinging. The cry that Laurier must go, he said, would be no more effective a score of young ladies with coronets of maple leaves, the effect being most picturesque. Senator Edwards, who presided, in the course of his remarks declared that when at the centenary celebrations at Quebec, the Prince of Wales had told him that Sir Wilfrid Laurier had done more in the last twelve years towards the unification of nationalists in Canada than any other man could have done in fifty years.

Sir Wilfrid left for Rockland this morning by special train, arriving at 10.30. Before the meeting, which was held in the skating rink, there was a unique street procession. A mounted procession of about one hundred of the young people of the village and district preceded the Premier, who in a joint meeting at the Opera House, Crockett would only agree to meet Brown on condition that the Liberals candidate speak first and Crockett close the meeting, and to this Brown finally agreed. Sheriff Sterling opened his court at noon and the nominations of Brown and Crockett were filed. Brown was nominated by Alex. Gibson, Sr., W. T. Whitehead, Senator Thompson, Alex. Gibson, Jr., H. P. Randolph, John Palmer, Henry Chouart, W. T. Chestnut and hundreds of others.

Crockett's paper was signed by C. H. Thomas, Geo. J. Colter, A. D. Thomas, John Scott, and many others. HARTLAND, N. B., Oct. 18.—Reports of the joint meeting at Mount Pleasant as published in the Tory press are most amusing. That the audience was divided half and half between Conservatives and Liberals is an absolute falsehood. The last vote in the parish of Peul was almost entirely for the Conservative candidate and Peul is reckoned on as the strongest parish the Conservatives have; in fact it is hope to get a majority in it. It is true that the hide-bound Tories of the district arose to leave when it came Carvell's turn to reply to Smith, thus plainly showing they dared not remain to hear his eloquent words. The disgruntled Liberal who sends stuff and nonsense to the Gleaner might more profitably have said with Elgin, "I wish they stopped their ears and ran." But, while Mr. Carvell was actually treated coldly when he first stepped forth to speak, it is a fact that the enthusiasm grew uproarious as he scored point after point against his uneasy opponent. There is certain to be a tremendous turnover in the parish of Peul as the result of Mr. Carvell's meeting.

Another thing the Gleaner's reporter inferred was that it was by the good grace and special desire of Mr. Smith that Mr. Carvell's side was allowed "to start the speaking as well as end it." Mr. Carvell had engaged the hall for the evening and when he learned that Smith had intended to speak there he invited him to meet him, and, as challenger he had the first and last words, which is customary. But as stated, Mr. Carvell gave the Liberals' bound Tories all they could stand in his first speech, and when he arose the second time they dared not stay and listen. It may be said that those who stayed were the fair-minded ones whose votes Smith cannot reckon as for him.

CHATHAM, N. B., Oct. 19.—Nominating proceedings took place today at Newcastle, starting at 10 o'clock. The papers of both candidates, W. S. Loggie and Donald Morrison have been largely signed. These were filed and adjournment made until 2 o'clock when the candidates will address the crowd. W. S. Loggie and W. B. Snowball speakers at a meeting in the interests of the Liberal party at Loggieville Saturday night. The Forester's hall was crowded and the meeting was the most enthusiastic one ever held in that bustling town.

Morrison had held a meeting there Friday night and indulged in the slander now never absent from his addresses. The Liberal speakers easily disposed of Morrison's statements and made many friends. Loggieville will give Loggie a rousing majority. Two well known people passed away Saturday in the persons of Mrs. James Stothart and John McDonald. Mrs. Stothart has been ill for years. She leaves one son, James, of the post office department. John McDonald is survived by a family of three sons and three daughters.

GRAND FALLS, Oct. 18.—A large and enthusiastic audience heard splendid speeches at a meeting in the interests of the Liberal party on Saturday evening at New Brunswick, Victoria county. Rev. Mr. Hanson was chairman of the meeting and in his opening remarks strongly endorsed the Laurier administration. The Rev. James Burgess, M. P. P., followed with a masterful address on the issues of the day. He was very well received, and finished his remarks amid rounds of applause.

E. J. Murphy of St. John, spoke for upwards of an hour, showing the stand the Tories had taken in regard to the Transcontinental Railway four years ago. He showed in detail what Sir Wilfrid Laurier has done for St. John through Hon. Dr. Pugsley, Minister of Public Works, in developing it as the great winter port of Canada. Cheers marked the close of his address.

MRS. TIMOTHY DESMOND IS DEAD AT HAMPTON

HAMPTON, N. B., Oct. 20.—Last evening Mrs. Agnes Bridget Desmond, widow of Timothy Desmond, died at her home at Midway, Hampton, after a lengthy illness, aged eighty-three. She and her husband were natives of Ireland and came to New Brunswick when quite young. During the prevalence of cholera in St. John, in 1854, they removed to Hampton. They were always held in deserved respect. There are still living three sons, John, Jeremiah and Daniel, the first and last in the family. There are also two daughters, Mrs. J. Down and Mrs. Katin, of Newton, Mass., Mrs. William Edwards, of Dorchester, Mass., Mrs. Celia Byrne, of Norton, and Mrs. F. A. McPherson, of Hampton. There are also twenty-two grandchildren. The funeral will be held from the home at Hampton on Thursday and interment made in the R. C. cemetery, Lower Norton.

BISHOP RICHARDSON'S CHANGE OF THE CLERGY OF THE ARCHDIOCESE OF ENGLAND IN NEW BRUNSWICK

Following is the charge to the Synod read by Bishop Richardson this morning:

My Dear Brethren of the Clergy and the Laity:

After another year's work we have come together for conference and prayer. Will you let me, at the very outset, express the earnest hope that our deliberations will be marked by a serious and steadfast purpose, in all things to serve the highest interests of the Church and the people...

It is not small privilege, it is no small responsibility, to have placed in our hands the authority of legislation for the Church. Let us try, as a Synod, and as individuals, to value the privilege more highly, and to discharge the responsibility more faithfully...

I cannot repeat you this officially this morning, for the first time after my return from England, without saying something, at least, of the two great gatherings in London, which during the time being, formed such a centre of the Church's life and interest...

What will be the outcome of the Congress? What has the Lambeth Conference effected? These are the questions which every where men are asking. And they have a right to ask them...

From both the Congress and the Conference alike there have gone out a call to consecration, out of which will emerge a deepened sense of every man's responsibility for every other man...

But more than this. Not only have we learned to recognize more clearly the claim of the Church, but there has been put before us a full and fine emphasis, the claim of the Church upon the world. And that means? It means this—that we shall never know the real richness, or at least, let me say, the full richness, of the Faith which we profess, until the nations of the world are brought into the Kingdom. Just as the glory of the sun is not in itself alone, so in the landscape which it reveals, so

the Church will find its life enriched, and deepened by the contribution which will one day come into it from the non-Christian nations of the world. Let us, then, be sure that every nation has its own distinct and separate contribution to bring into the Church's treasury. Not one of them will come empty handed...

Amongst the resolutions passed by the Lambeth Conference upon the subject, there is one that may cause misunderstanding, and I will, therefore, take this opportunity of dealing with it. This particular resolution was first passed in the conference of 1888, and simply reaffirmed this year...

1. That the bar should be abolished. 2. That, until that has come to pass, (a) It should be made a criminal offence to permit minors to enter a bar where intoxicants are sold. (b) The hours of sale should be restricted by legislative action...

How to enlist laymen in the Church's work—that is one problem which we have to face. It is one thing to say, "I am a layman," and quite another thing to say to those who have been so married, "We put you beyond the Church's pale."

Without doubt many people were disappointed that a greater advance was not made by the conference in the direction of re-union. More than any other subject, it has been in the minds of thinking men. More earnestly than any other subject, it has been the subject of earnest hopes and prayers...

Amongst the many topics treated by the Lambeth Conference, there are just one or two upon which, for a few moments, I wish to speak. THE SACRAMENT OF THE LORD'S SUPPER. In connection with this important subject, two questions in particular came before the Conference...

ment would deprive it of spiritual power. That could not be. It would, however, go far, I think, to break down its essential, social character. Instead of the Sacrament of man, the Holy Communion, under these conditions, would become the Sacrament of men.

MARRIAGE AND DIVORCE. Amongst the resolutions passed by the Lambeth Conference upon the subject, there is one that may cause misunderstanding...

1. That the bar should be abolished. 2. That, until that has come to pass, (a) It should be made a criminal offence to permit minors to enter a bar where intoxicants are sold. (b) The hours of sale should be restricted by legislative action...

standing the many men who come to the from Essex, there is always need for many more. It is not unnatural that it should be so, in view of the rapid development of Western Canada, with its fast influx of immigration. For still, year by year, the Church will still be struggling to keep up with this development...
