

## WEDDING DISCLOSES PRETTY ROMANCE OF NEW BRUNSWICK GIRL

Miss Welling, Formerly of  
Shediac, Weds Fred-  
erick Hubbard  
Groom Prominent Socially  
in the States—Wedding  
Sumptuous Affair  
Mr. Hubbard Was Patient  
in Hospital and Miss  
Welling Nursed Him

BOSTON, April 14.—An Easter week wedding which proved to be the sequel to an international romance was solemnized in St. John's Episcopal Church, Harvard Square, Cambridge, at noon today, when Frederick Tracy Hubbard, of Boston, and Miss Mary Bassett Welling, a former Shediac girl, were married by Rev. George Hodges, D.D., rector of the parish and dean of the Cambridge Theological School. The wedding was the outcome of a chance meeting two years ago in the Cambridge hospital, where the bride was a nurse and the bridegroom a patient.

Mr. Hubbard had been seriously ill and was taken to the hospital for an operation. Miss Welling, who at that time was studying for a professional nurse, was assigned by the matron to care for him. The patient was tenderly cared for and within a few weeks was able to leave the hospital, although, it is true, regretfully.

The sacrament of matrimony celebrated before the altar of St. John's Church today was the ultimate development of the romance which began in the Cambridge hospital. The wedding was attended by practically the entire staff of the Cambridge hospital and by other Canadian friends, a happy couple from New York, New Hampshire, Boston, Cambridge, Shediac and other places.

The bride was given away by her brother-in-law, Frederick Hamilton, Glasgow, night manager of the New England Canadian branch of the Associated Press (formerly of Shediac).

She was dressed in tan silk, with a French hat trimmed in pink Killarney roses, and carried a bouquet of pink sweet peas.

## UNKNOWN MAN WAS KILLED BY I.C.R. TRAIN

Horribly Mangled Body Found  
by Trainmen  
Only Clue to Identity is Note Book Bearing  
Name of Clairif Howes—Not  
Known in St. John.

MONCTON, N. B., April 15.—The body of an unknown man was found this morning about 5:30 by the train crew of freight train No. 24, bound for Truro, between Palaise Junction and Calhoun's station. The man had evidently been struck by the early morning express. The body was badly mangled and was in a horrible condition, the head being cut considerably, while other parts of the body showed he had been killed instantly. The left arm was partly cut off. The name of the man is unknown, although a notebook with the name "Charles Howes, St. Patrick Boys' School, City," was found in the pocket, and wherever such school should be information concerning the unfortunate man could be obtained. The body was taken to Calhoun's and an inquest tomorrow to the death will be held there tomorrow by Coroner Chapman, of Dorchester, who has already been notified.

Enquiry was made this morning at St. Patrick's Industrial School at Silver Falls, as well as at the St. Patrick's school on the West Side, concerning Charles Howes, who is spoken of in the above despatch. The man never entered the home, nor was he ever enrolled as a student at the west side school.

Walling, Boston; Miss Annie Hall, Miss Ethel Hall, Macken (formerly of Penobscot, N. B.); Mr. and Mrs. Geo. Warren, Currier, Rosedale, Mrs. E. H. Gray, Boston; Mrs. Samuel Powell, Dallas, Tex.; Mr. and Mrs. Samuel Hubbard, Oakland, Calif.; Capt. Henry Baskin, Royal Field Artillery, Hyderabad, India; Miss Della Welling, Shediac, N. B.; Miss Omo Pass Welling, Penobscot, N. B.; Miss Cadman, Shediac, N. B.

The church was beautifully decorated with Easter lilies, ferns and other potted flowers.

At the conclusion of the ceremony the happy couple, following a luncheon, left on their automobile trip through the Berwick Hills in the western part of the state.

The bride was the recipient of many beautiful presents. Mr. and Mrs. Hubbard will reside at "Quiet Mead," a country estate in Stoughton, the gift of the parents of the groom.

## ULTIMATE DESTINATION OF SEÑOR CASTRO IS UNKNOWN

GENERAL VIQUEZ DE FORTES  
COLON, April 14.—Ex-President Castro's wife and sister and the other members of the party arrived here today on the French steamer Guadeloupe. They did not disembark, and it is rumored that they will not be allowed to land for fear they take passage for Venezuela. The Guadeloupe will sail for Port Limon, Costa Rica, on Friday, where some of Castro's relatives recently landed. The ultimate destination of Senor Castro and party is not yet known, but it is thought likely that they will go to Port Limon if they do not decide upon returning to Europe.

## SEAMAN LOST IN BAY OF FUNDY

Washed Overboard from S. S.  
Regulus

A Graphic Story of the Perils of the  
Deep Sea—Reported at  
Newfoundland.

The S. S. Regulus, Captain Wakeham, arrived in port yesterday morning from Philadelphia. She left here on Monday, April 1st, and five weather was met with for the first few days out. On Sunday, 4th inst., the weather became very stormy. This only about 100 miles a day could be made. The steamer was constantly shipping big seas, and the steamer was foundering in the heavy tide running. On Sunday night a gloom was cast over all on board by the sad drowning of one of the crew named Joseph Murphy.

The church was beautifully decorated with Easter lilies, ferns and other potted flowers.

At the conclusion of the ceremony the happy couple, following a luncheon, left on their automobile trip through the Berwick Hills in the western part of the state.

The bride was the recipient of many beautiful presents. Mr. and Mrs. Hubbard will reside at "Quiet Mead," a country estate in Stoughton, the gift of the parents of the groom.

The following were the ushers: Paul Macarene Hubbard, Brookline; Silas Marsh, New York; Miss Fanny C. Bell, Hyde, Brookline; Mr. and Mrs. Winthrop Scudder, Brookline; Mr. and Mrs. Robert Rantoul, Mr. and Mrs. Henry Chatman, Miss Evelyn Ames, Mr. and Mrs. Oakes Ames, Miss Ruth Greenough, Miss Alice Spanwood, Miss Gertrude Fiske, Boston; Mr. and Mrs. Manning Emery, Mr. and Mrs. Charles Wentworth, Dr. Wm. Swan, Miss Nichole Partridge, Miss Gertrude Prudham, Miss Fannie Webster, Cambridge; Baron von Mootstein, Munich, Bavaria.

## THIRTY TWO KILLED IN RIOT IN MEXICAN MINING TOWN

Trouble Arose Over Religious  
Procession—Town Ter-  
rorized by Drunken Orgy  
—Priest Who Led Rioters  
Attempted Suicide

MEXICO CITY, Mexico, April 14.—According to a statement received today from the rioting which occurred at Valaderna, a mining camp in Coahuila last Saturday was more serious than at first reported. 32 men were killed and many injured. The trouble was instigated by Father Ramon Valaderna, parish priest, it is asserted, who lies in a hospital hovering between life and death. Fourteen of the rioters were executed by the government troops and many were imprisoned. Many Americans reside in Valaderna, as the camp is controlled by American capital.

The leaders of the mob, which was well organized, avoided attacking Americans or destroying American property.

The fighting occurred when the Jefe Político of the town, an officer corresponding to an American mayor, attempted to stop a religious procession headed by the village priest, the laws of Mexico forbidding such parades. A thousand parishioners followed the priest, wishing to witness the annual burning of Judas, and when the orders of the mayor became known the mob stoned and burned the house of the mayor, who, with his wife, escaped and sought the protection of the American colony. The rioters then stormed a Chinese hotel, looting it of all liquors and foods and terrorizing the neighborhood during the night in their drunken orgy. The police force fired on the mob, many members of which were well armed. The officers were forced to retreat, leaving six of their number dead in the main street.

Later troops arrived on a special train and a short fight between troops and rioters ensued, bringing the total deaths to thirty-two, with a number of injured.

Father Valaderna was arrested. One of his followers snatched a knife into his cell and the priest stabbed himself six times in a vain attempt to commit suicide. He is now in the prison hospital. Quiet is restored.

## DR. DANIEL EXHIBES DEAD MAYES' SCANDAL IN HOUSE OF COMMONS

DEFENCE AGAINST  
AERIAL WARSHIPS  
Search Being Made for an  
Effective Weapon  
Smaller Machines Will Rise Above the  
Larger Ones and Destroy  
With Impunity.

LONDON, April 12.—A problem at present exercising the minds of military and naval experts is that of finding an effective weapon of defence against aerial warships. In Germany the subject has been under consideration for many months and despatches have already described the new howitzer invented by Messrs. Krupp solely for use against an aerial foe.

Recognizing the fact that a rapidly moving airship could easily get beyond the range of this gun the German authorities have had designed an armored automobile fitted with a special gun which can give chase to a dirigible and shell it on the wing. The possibilities of this airship destroyer are to be tested against the Zeppelin I at the manoeuvres in Wurttemberg in the autumn.

The automobile is fitted with a small quick firing gun of long range so mounted that it can fire at a target almost directly overhead. Attached to the gun is a bombproof shield which revolves with the piece. The car has a speed of forty miles an hour.

Following the example set by Germany, the British military authorities will carry out experiments on Salisbury Plain, with the object of testing the power of modern artillery in resisting an aerial invasion. They will use the new 18-pounder anti-aircraft gun, the object of testing the power of modern artillery in resisting an aerial invasion.

Aeronautical experts are of the opinion that the best answer to the Zeppelin will be found in the aeroplane. It is pointed out that the aeroplane is not limited in the height it may attain by the density of the air to the same extent as the airship and there should be no difficulty in a Wright machine rising high above a Zeppelin and destroying it with impunity.

Local automobile owners do not feel kindly towards the enactment of the bill to prevent the running of the machines on market days. The bill which will shortly be introduced in the local house has been drafted at the desire of the farmers in various sections of the province. It is stated that complaint has been made of the noise of the machines which causes the horses to bolt and in several instances accidents result.

## A Post-Mortem Examination of the Notorious Affidavit

Dr. Pugsley Invites His  
Opponent to Make a  
Definite Charge

Dr. Daniel Violates Parli-  
amentary Rules—Another  
Undignified Uproar

OTTAWA, April 14.—In the common on motion to go into sup-  
ply, Dr. Daniel (or John) brought up again the old question, already threat-  
ed out earlier in the session, namely,  
the Mayes affidavit and Hon. Dr.  
Fraser's connection with the alleged  
dredging scandal exploited by Con-  
tractor Mayes last October. He start-  
ed to place on Hansard in full the affi-  
davit made by Mayes with the  
proof-reader's errors or mistakes in  
dates, etc., which marked its first pro-  
mulgation. Dr. Daniel was proceed-  
ing to announce the reading of the affi-  
davit with explanations, noting particu-  
larly that the date of the transaction  
referred to in regard to the tender sub-  
mitted by Messrs. Mayes and McAvity  
had been wrongly read as 1907 instead  
of 1905 at the St. John prelection  
meeting, when Hon. Dr. Pugsley inter-  
rupted at the point of order that the  
statements made were direct reflec-  
tions on himself as minister of the  
crown and consequently Dr. Daniel  
ceased within the ruling of the Speaker  
made a few days ago at the instance  
of Mr. Foster, that no member of the  
house, unless making a direct charge,  
should make reflections on the honor of  
another member. Dr. Daniel, however,  
said, "I have no objection to the  
affidavit being read if it really is  
the original affidavit read at the St.  
John meeting. I have no objection  
successfully to get a sight of that affi-  
davit, but the honorable member  
must stick to the paper."  
If he desired to make a charge  
against me and will take the responsi-  
bility for it I shall welcome the attack.  
But he must be prepared to take the  
full responsibility for any statement he  
reads in the house, otherwise he can-  
not by the rules of the house read  
anything said by a man outside the  
house and directed against any member.

Dr. Daniel declared that he was reading from the original affidavit con-  
taining the erroneous facts.

Dr. Pugsley insisted that the reading  
must be without comment or  
otherwise he would have to insist upon  
the observance of the strict rules of  
the house respecting defamatory re-  
marks.

Speaker Marcell drew the attention of  
Dr. Daniel to the fact that the reading  
of the affidavit was in order only  
if it was to be coupled with some mo-  
tion to be presented to the house.  
Dr. Daniel replied that he would  
conclude with a motion calling for a  
parliamentary investigation before a  
special committee of the charges  
made by Mayes.

Mr. Eoster, speaking to the point of  
order raised by Dr. Pugsley, was pro-  
ceeding to give a digest of the affi-  
davit when he was called to order by  
the Minister on the ground that if the  
reading of the affidavit was in itself  
contrary to the rules, let the house  
decide if it was coupled with a definite  
charge made against him, then it was  
also out of order to give a digest of  
the affidavit.

Mr. Pugsley noted that what was  
now sought to be placed before the  
house was not the original affidavit.  
"There has never been any charge  
made against me," he said.  
Mr. Lennox argued that the affidavit  
was necessary to substantiate the de-  
mand for the investigation. If, as the  
Minister of Public Works said, it re-  
flected on him, there was all the more  
reason why the matter should be in-  
vestigated.

## SACKVILLE STUDENT'S WIN VALUABLE SCHOLARSHIPS

At Harvard University—All Three in  
Mathematical Department—Wedding  
of Popular Couple.

SACKVILLE, N. B., April 15.—To  
win three valuable scholarships in the  
mathematical department of Harvard  
University in one year is the record of  
three Sackvillians, according to word  
received from Cambridge, the three  
fortunate young men being Lloyd Dixon,  
M. A., Sackville; Roy Fullerton, B.  
A., Point de Bute, and C. Albert Oul-  
ton, '09, Lunenburg, N. S. Dixon has  
been awarded the Thayer scholarship  
of the value of \$300 and each of the  
others have been awarded university  
scholarships valued at \$150. Dixon has  
been singularly honored in that he held  
the scholarship last year, which has  
just been awarded to him. Fullerton  
and Dixon are now studying at Har-  
vard, while Oulton will receive the de-  
gree of arts from Mount Allison in  
June. Oulton is the first Mount Alli-  
son student to be awarded the mathe-  
matical scholarship at the great Uni-  
ted States university while still an  
undergraduate.

Bishop Richardson will visit Sackville  
on Sunday and will administer the  
rites of confirmation to a number of  
candidates in St. Paul's church.

At the home of Mrs. Frank Town-  
shend, Joinville, last evening, the mar-  
riage took place of Mrs. Townshend's  
daughter, Miss Daisy, to Ambrose  
Wheeler, of Newfoundland. The cere-  
mony was performed by Rev. Thomas  
Hicks. The bride, who was gowned in  
white organdie with bridal veil and  
carried a handsome bouquet of chry-  
santhemums, was attended by her sister,  
Miss Ella Townshend. The groom-  
smen were John Galloway, Amherst, St.  
John, and Mrs. Wheeler will reside in New-  
foundland.

## RIVER HAS RISEN TWO FEET AT FREDERICTON

Ice Running Out Rapidly—Clear Water  
From Springhill Down—Medical  
Act May Be Withdrawn.

FREDERICTON, N. B., April 15.—At  
midnight the ice made a further start  
and has continued running ever since.  
There is clear water now from Spring-  
hill, five miles above the city, right  
down. At Springhill a big jam is re-  
ported but this, it is expected, will give  
way at any time. It is raining hard  
here today and the river is rising rap-  
idly, having come up over two feet  
last night.

There is a rumor about the legisla-  
ture this morning that the medical act  
may be withdrawn.

## AUTO OWNERS WILL MAKE A STRONG PROTEST

Against Proposed Legislation Excluding  
Their Cars from the Public High-  
ways on Market Days.

Local automobile owners do not feel  
kindly towards the enactment of the  
bill to prevent the running of the ma-  
chines on market days. The bill which  
will shortly be introduced in the local  
house has been drafted at the desire of  
the farmers in various sections of the  
province. It is stated that complaint  
has been made of the noise of the ma-  
chines which causes the horses to bolt  
and in several instances accidents re-  
sult.

Saturday is the chief day on which  
the farmers desire to have the ma-  
chines excluded from the roads, as  
most of the produce is brought to mar-  
ket then.

A prominent automobile owner, dis-  
cussing the matter with a represen-  
tative of the 'Sta', this morning, said  
that he had written to Fredericton for  
information regarding the bill. Several  
members are known to be opposed to  
its enactment and it is not probable  
that the bill will become law at least  
for some time yet.

derick Douglas defeated C. N. Vroom,  
the vote being 100 to 78.

Horace G. Trimble, manager of Trimble Bros' shoe factory in Calais, and  
Miss Ethel C. McAllister of Milltown,  
N. B., daughter of Henry McAllister,  
two popular young society people, were  
united in marriage this afternoon at  
Queens ward, held here today, by Rev. C. G.  
McCully of Calais. Later they left on  
the Washington County express for a  
visit to American cities.

## ITALIANS WILL BE WELL DEFENDED

Sandy Murray, Andrew and James  
Hatch, the Italians who will face trial  
on Thursday next on the allegation  
of being implicated in the murder of  
Edward Green, will have a strong de-  
fence. Hon. H. A. McKeown, M. P.,  
P. Hon. W. P. Jones and F. B. Carvell,  
M. P., have been engaged to handle the  
case, and an able plea is sure to  
be entered. The crown prosecutors  
have not as yet been announced. The  
case will be heard before Mr. Justice  
McLeod.

## TREATED AN'S BACK WITNESSES

left at 4:30 o'clock. The deceased  
stated at the time that she  
was not well. She was taken to  
a quarter past ten. Mrs.  
Lockhart called the witness by  
saying the deceased had a  
turn and was not coming out.

At the time Mr. De Forest reached  
the deceased was lying in  
bed. She looked very pale and  
was lying quietly. He did not  
know she was ill until she  
words he said to the deceased,  
ard Dr. Spangler had been there  
ought the deceased was "coming  
all right."

At the time the consultation be-  
Dr. Emery and Dr. Spangler  
was, witness did not remember  
he was at. He thought other  
ans had informed him of the  
station. The doctors had agreed  
the symptoms of the case,  
and the matter over more than  
with Dr. Emery, but did not go  
case very thoroughly. At the  
Dr. Emery was first called with  
a walk with him to the house.  
had told him that "there might  
not over the brain." If this were  
she might "live another  
day."

Jean McDonald stated  
the deceased was sitting up on  
bed. Witness made up the bed  
her of times, while the deceased  
it. She did not feel alarmed  
her condition. However, the de-  
worried considerably about her.

McDonald knew both doctors  
and the deceased to keep quiet,  
as surprised to see Mrs. Mc-  
Donald getting up and entered of  
her.

"Would she, notwithstanding  
injunctions of the doctors, get  
dressed?"  
E. I. Jewett was the next wit-  
ness. She said in part as fol-  
lows: "I knew the deceased, Mrs. Mc-  
Donald, practically all her life. She  
suffered ill about five weeks ago,  
as being treated by Dr. Spang-  
ler. I do not know why she was  
treated. When I found her, I  
asked her if she knew the nature  
of her trouble." She said, "I do not  
know. I assume it is weak legs."  
She said when I had the conversa-  
tion with her, I went to the house  
in the morning, often in the  
noon, and two or three times in  
evening.

She thought she could read  
the lines what it all meant,  
and told her to cheer up and the  
doctor replied, "This heart of mine  
is the death of me some day."  
Murray MacLaren's name was  
mentioned but he did not respond.  
The witness stated she was despondent  
at the end of the inquiry, as  
far as possible, and after surgery  
had been heard, the inquest was  
held until Monday evening next  
clock.

MORRIS PROSTRATED  
BY HUSBAND'S DEATH

ERST, N. S., April 7.—No fur-  
ticulars have been received in  
to the sad death of T. Morris,  
reported in today's Chronicle,  
that the body will reach  
Thursday's C. P. R. and will  
be taken to the home of Mrs. Morris,  
Rupert Block, from which  
the funeral will be held. A tele-  
gram from Black Point from the  
law, Dr. W. H. E. Morris, reports  
that Mrs. Morris' wife of 46,  
who had been suffering from  
ek of a grippe, was so pro-  
by the news of her husband's  
that the physician in attend-  
ment could not permit her to attempt  
any further journey. She will  
not be able to be present at  
ment.

### CHURCH NOTES FOR BUSY MEN

#### THE POPE'S HEALTH.

According to a despatch from Rome to the Montreal Star, there is a persistent rumor of about Pope Pius X. who is seventy-three years old and at that age it must indeed be a trifling ailment to cause no uneasiness. His Holiness, like hundreds of Romans, has been suffering from influenza, but it is understood that a much more serious malady affects him in the shape of acute kidney trouble. He has been suffering from this ailment for several years, and he refuses to obey his physicians' orders.

#### IAN MCLAUREN.

The St. John Freeman is authority for the following: Dr. Nicol, the biographer of Ian MacLaren, (the Rev. John Weston, Presbyterian) tells a pathetic story of the gentle novelist's conversation with an Italian peasant woman, ending as follows: "I take back all I said. Forgive it, I forget it. Do not let a word of mine stand between you and your prayers to the Mother of Our Lord." It is well known of course, that Rev. Dr. Watson was of Catholic ancestry on his mother's side of the house.

#### A COLORED LADY SUPERIOR.

Mother Mary Austin, superioress of the Colored Sisterhood of the Holy Family, New Orleans, died recently after an illness of about three months. She entered the Order in 1871 and was elected superioress in 1887. Under her administration the original convent was enlarged and the work of the sisters for the colored people greatly broadened.

#### RECALLING THE PAST.

Some time this month an important historical and memorial event will take place in the old Christ Episcopal church at Alexandria, Va. It will be the unveiling of a bronze tablet to the memory of the pale-bearers who participated at the funeral of George Washington. The veil will be removed by the hands of two of the most youthful descendants of the "first" whose names will appear thereon: Miss Margaret Douglas Reese, the great-great-granddaughter of Col. Dennis Ramsey, and John Cale Scott, great-great-grandson of Col. Charles Simms. The tablet will be placed on the wall of the church near the south entrance.

#### HIGH CHURCH PROTESTS.

In a petition recently presented to the Bishop of the Protestant Episcopal church protesting against the permission to allow the pale-bearers who are not ministers of the Episcopal church to deliver addresses in Episcopal churches, the reason is given that "great grief and scandal have been caused by the intrusion into churches and pulpits of such persons."

#### A GREAT COMMEMORATION.

Forty bishops of the Protestant Episcopal church in the dioceses of England, Scotland and America have accepted invitations to be present at the celebration to be held in Halifax during the latter part of August and the first of September, in observance of the bi-centenary of the first Church of England service held in Canada. This service occurred at Annapolis, N. S. There will be special services in all Anglican churches on Sunday, Aug. 29. The formal opening of the celebration in the new St. John's Cathedral on Sept. 2 is expected to be the most imposing Anglican gathering ever held in Canada.

#### GREAT GROWTH.

During the last six months the Presbytery of Calgary has added 17 new fields, in which are found 59 preaching stations.

#### IN AMERICAN PULPITS.

Rev. A. J. Lods who did mission work for years among the French Canadians on the upper St. John is now pastor of Grace Presbyterian church, Green Bay, Wis. He holds services in both French and English.

#### REV. A. H. FOSTER.

Among those who left on Monday for the missionary congress at Toronto was Rev. A. H. Foster, of Maliland. On the preceding Saturday evening Mr. Foster was waited upon by a deputation from the congregation who presented a roll of bills simply sufficient to meet all the expenses of the trip, with a margin for pocket money.—Presbyterian Witness.

Rev. R. M. Foster was formerly pastor of St. Matthew's church, Douglas Avenue.

#### FUTURE PUNISHMENT.

Joseph Hamilton, of Lindsay, Ont., writing to the Montreal Witness, on this grave theme, makes the following statements: "Do the ministers believe in it, as a matter of fact they do not preach it. I never heard a sermon on it, or any attempt to prove it, since I was a child. A few weeks ago in a large congregation in Toronto the pastor asked for a list of hands on the part of any who had heard a sermon on hell within the past ten years. Two hands were held up. Some time ago a noted Methodist minister told me that the Methodist ministers of Canada do not believe in Eternity Punishment. A prominent official of that church told me lately that he does not believe it, but that if he were known he would lose his position. The Presbyterian ministers seem largely to hold the same view. Is the subject mooted at all in any Presbyterian church? I know that some ministers profess to believe it, but they seem as apathetic about it, multitudes dropping out of the church as if they were dead. I did not believe it, privately, I have spoken on this subject with many ministers; and not one of them professed to believe it. The matter has a vital relation to missions, for if we do not know what the heathen are to be saved from, if there is going to be an eternal hell, we are sustained incentive to liberality and enterprise. In all the reports of the meetings of the Laymen's Missionary Movement, I have seen no hint of the alternative before the heathen if they are not evangelized. I heard a minister lately speaking of them as 'miserable failures going out into the wilderness.' What did he mean? It seemed to me an unworthy evasion of the question.

#### GIPTSY SMITH.

As it has been proposed to secure the service of this renowned evangelist in connection with the session of the Methodist conference which opens in Woodstock on June 15th, the following from a Torontonian may be of interest. Mr. Smith labors under the direction of the Council of the English Free Churches, and one half of all collections taken at the meetings, and the entire proceeds of a paid lecture on "From Gipsy Sent to Pulpit," must be sent to the council's headquarters in London. Expenses to be paid from his last place of meeting.

#### GENERAL.

The Moody Bible Institute of Chicago has just celebrated on "Founder's Day," the 72nd birthday of D. L. Moody, when his trustees announced that the foundation of a new men's dormitory would be laid as soon as the frost was out of the ground. This is the first of a group of three new buildings in contemplation, to cost about \$500,000, demanded by the growth of the Institute since Mr. Moody's death in 1889.

Abyssinia has been always closed against Protestant missionaries. The king some little time ago sent his permission to the Swedish missionaries who have been laboring just beyond his boundaries they could come into his country and preach. The Abyssinians were much opposed to allowing Protestants to enter the kingdom. They promptly carried to the king copies of the Gospels which the Swedes were distributing. The king took them and afterwards said to the priests: "I have read the books. They are good. Let the people read them, too." He then gave an order that all children above seven years of age should go to school and offered to pay the salaries of any competent teachers the missionaries would bring in.

The editor of the Jewish "Year Book" puts the Jewish population in London at 140,000, and the number of Jews in the United Kingdom at 327,700.

A fund of \$48,000 is being raised by the Jews of Milwaukee, Wis., for the purchase of a building for the Hebrew Institute.

There are 15,000 more names enrolled in the Sunday schools of Toronto than in the day schools.

### EASTER SUNDAY OBSERVED HERE IN A FITTING MANNER

### Day Dawns Fine and Remains So Throughout—Special Easter Services Conducted in Cathedral, Trinity, Stone and Other Churches

Easter Sunday was observed in a fitting manner by the people of Saint John yesterday. The day dawned fine and remained clear throughout. Despite the cool wave the usual large number turned out in brand new frocks. Some however, preferred to wear more than ordinary importance were attended by large congregations. At the Cathedral of the Immaculate Conception, grand pontifical high mass was celebrated by His Lordship Bishop Casey at 11 o'clock. The sacred edifice was crowded to the doors and the service was a most impressive one. Rev. A. W. Moohan was deacon; Rev. Wm. Duke, sub-deacon; Rev. D. S. O'Keefe, high priest; and Rev. Michael O'Brien, master of ceremonies. The Resurrection was the subject of an eloquent sermon delivered by Father O'Brien.

Afternoon at 3:15 o'clock pontifical vesper services were celebrated in Trinity Church was the scene of largely attended services during the day. The Rev. R. E. Armstrong conducted the services, assisted by the curate, Rev. W. B. Stewart. The programme of music as published in Saturday Sun was carried out under the direction of the organist and choir leader, J. S. Ford.

St. Peter's church services were also impressive. Last evening's services, benediction and congregational singing took place. At St. Peter's church the Rev. G. A. Kubring delivered an interesting discourse at both services. The Rev. M. Hobson was expected to preach, but he failed to arrive on the Virginia, as was his intention. The music rendered by the choir under the direction of Dr. Arnold Fox was much appreciated.

### SATURDAY SERMONETTE

I want to sing the praises of the conceived boy and man. He is generally persecuted. I am going to defend him. "Gie us a quite conceit of ourselves," is a good prayer, "let us pray." What man who went through boyhood, and youth, and down to old age, without a little of his own conceit, without a little of his own self-depreciation, will not join in the prayer and heartily say amen. Some children are taught that bashfulness is a virtue and confidence is a vice. "Let not a man think more highly of himself than he ought to think." But let him not think more humble of himself than he ought to think. The boys who were called conceited because they were not cursed with self-consciousness which was wrongly called modesty, but which is the worst kind of egotism, are the boys who are going to do something in this world.

The boys of whom it is said "they have no conceit at all" are the boys who will never plough a farm straight. They will never amount to anything but a crowd of the common herd. Self-depreciation is not a virtue, it is almost a sin.

Like the thought of Editor Dawson of the Standard that "Conceit is not a slight, delicate sentimental young lady, but a young saint with a keen face, eyes that see as far into a brick wall as any in the world, and an arm like a piston rod, or a steam hammer."

### The Open Door for Consumption

And How "Father Morriey's No. 10" (Lung Tonic) Closes It.

A low run-down condition, with perhaps a neglected cold and a little cough, is a cordial invitation to the White Pine Consumption, to come in and make itself at home. And it seldom overlooks the invitation. In such a case there is no time to be lost. The deer must be promptly closed. This can be done by taking a complete rest, with plenty of fresh air, and "Father Morriey's No. 10" (Lung Tonic). This medicine cleans out the passages, relieves the cough and heals the delicate membrane of lungs and air passages. But perhaps most important of all, it builds up the whole system, giving Nature the needed assistance in fighting off the dread disease.

Though other remedies may have failed, don't give up. Try "Father Morriey's No. 10," combined with rest, and you are in the first stages of consumption there is hope of a permanent cure. Sample bottle 25c. Regular size 50c. Sole dealer in St. John from Father Morriey Medicine Co., Ltd., Chatham, N. B.

ANISTON, Ala., April 10.—Fred Kelly, a mechanic, and wife were found dead at the home of Mrs. Kelly's father today. Each had a bullet hole in his head. The couple had met today for the first time since separating some weeks ago. There is no clue as to whether it is a case of murder or double suicide.

### CONSIDERING PRICES

### Representations of Great Shipbuilding Concerns Gather in London

LONDON, April 10.—Representatives of the great shipbuilding companies of the world are gathered in London to support their tenders for the construction of the two modern battleships and some smaller vessels, which the Argentine government is about to buy. These tenders including four from America, are being considered by a commission of naval experts sent here from Argentina, composed of Admirals Lopez and Garcia and Captain Montez, which will report to the government at Buenos Aires, which in turn will award the contract.

The Americans who are here to appear before the commission if called upon to give further particulars of their tenders are: Rear Admiral Bowles, president of the Port River Shipbuilding Co.; Henry Grove, president of Cramp and Co.; Deaconry May, of the New York Shipbuilding Co.; and Mr. Gautier, of the Newport News Shipbuilding Co. Archibald Johnson, vice president of the Bethlehem Steel Company, is also here, his company being indirectly interested as a supplier of armour plate.

The new battleships will be approximately 19,000 tons, have a speed of 21 knots, protected by 12, 10, 8 and 6 inch armour, will be propelled by turbine engines, while there will be hydrographic survey movement. The armament will consist of five turrets, each containing two 12-inch guns, besides a 14-inch gun, and 18, 75 and 50 M. M. quick firing guns. Besides the American company, British, German, French and Italian firms have made tenders.

### What Thos. McDonald Says of Dodd's Kidney Pills

HE HAD LAME BACK, KIDNEY DISEASE AND HEART FLUTTERING, AND ONE BOX CURED HIM.

SHUBENACADIE, Hants Co., N. S., April 9.—I suffered from lame back, kidney disease and heart fluttering, caused by cold and a strain, for three years. I was looking over some papers and saw Dodd's Kidney Pills and immediately bought a box, which completely cured me. Dodd's Kidney Pills are wonderful.

That is the simple, straightforward statement of Thos. McDonald, a well-known resident of this place. It shows how quickly Dodd's Kidney Pills cure Kidney Disease when taken in its earlier stages. Lame Back is one of the first symptoms of sick kidneys. Heart fluttering is another symptom. It is caused by blood, from which the sick kidneys have failed to strain the impurities, increasing the work of the heart. Dodd's Kidney Pills make the sick kidneys well, the lame back disappears, the blood is purified, the heart is relieved and the fluttering stops.

In the case of long standing, it may take longer to cure it, but Dodd's Kidney Pills never fail to do it.

### DISTRICT ATTORNEY CALLS WITNESSES

### DeWitt Wants To Familiarize Himself With Evidence in Hains Case

NEW YORK, April 10.—District Attorney Devitt, of Queens County, today issued summonses calling for the appearance before him on Monday of the ten principal witnesses for the prosecution in the case of Captain Peter C. Haines, Jr., whose trial for the murder of William Annis last summer is slated to begin on April 19 at Flushing.

At the time of the trial and acquittal of Captain Haines' brother Joe the same crime, Mrs. A. Durrin was prosecuting officer of the county, and the purpose of the present district attorney in calling these witnesses before him is said to be to familiarize himself with the case.

There is a rumor, however, that a flaw has been discovered in the indictment against which Capt. Haines is now held and that the object of Mr. Devitt in calling the witnesses before him is said to be to obtain a new indictment.

The district attorney who has been today to question Mrs. Claude Libby Haines, wife of Captain Haines, in regard to the case.

### Mr. Aylesworth Back from Washington LEARNS SOMETHING U. S. Government to Expropriate Boundary Properties

OTTAWA, April 11.—The minister of justice, Hon. A. B. Aylesworth was in Washington last week conferring with American authorities as to the interpretation they place upon the senate rider to the waterways treaty. The treaty, this is the fact that the ex-Secretary of State Root and obtained an official interpretation of the treaty. Mr. Aylesworth, who is the only thing now preventing the ratification of the treaty by Canada.

Mr. Aylesworth learned something which may facilitate the approval of the treaty. This is the fact that the United States propose to take the jurisdiction over the "Soo Power" from the state of Michigan by expropriating the property along the shore on the American side and acquiring absolute title for it by the federal government. Authority to do this was obtained at the last session of congress, and a million dollars was voted for the purpose.

Hon. Mr. Dickinson stated that the United States would at once proceed to acquire the title. Mr. Aylesworth will report to government this week.

### But Gould Has a Hard Fought Contest

### GRAVE, OPPONENT in Second But is Strong in Third

BOSTON, April 10.—Jay Gould, the international amateur court tennis champion, as well as national champion, succeeded in defending his title of American champion in a hard fought contest with Joshua Crane of this city, on the courts of the Tennis and Racquet Club this afternoon. The match was witnessed by a large gathering of members who became very enthusiastic over Mr. Crane, a fellow member, after he had forced the first set to a draw and taken the second set. Mr. Crane, who has been playing in the championship tournaments this week, was at the top of his game and in splendid physical condition, so that the members of the local club expected to see a very hard battle. In the first set Mr. Gould won out through his difficult service, but he was unable to do much with his opponent in the second and lost it. In the third he came back strongly and soon had the set well in hand, continuing his work through the fourth, which gave him victory. Mr. Crane has won the championship for several years. In fact, until the advent of Mr. Gould in the sport, he was one of the best experts in this country.

### SEEKS REFUGE IN THIS CITY

### Nan Patterson On Visit Here

An outcast of her people, unhappy and without friends, Nan Patterson, the acquitted of the Caesar Young tragedy and a former member of the famous Florodora sextette, is seeking a refuge in St. John after having been bowed out of every city she attempted to make a haven of in the United States.

The one time operatic star came in from Halifax the latter part of last week. She declares that she is "without money and is only concerned in shaking free the haunting phantoms of the exile."

Spectacular as was the life of the former beauty her fall has been just as remarkable, and the girl who at one time delighted thousands in the exposition of her art is now the dejected woman of a scorn that faces whichever way she turns.

### AWAKE FAMOUS

Nan Patterson awakened one fine morning to find herself famous along with Evelyn Thwaite and the present Mrs. Nat. Goodman. All members of the Florodora sextette. Discovered and notorious she aroused herself another morning in the town, the accused slayer of Caesar Young. The story of the tragedy is still fresh in the minds of the present generation. Young, a book-maker of some prominence, was shot through the brain while riding along Carmarthen street.

Miss Patterson when seen by a reporter of the Sun last night stated that she hoped to return to the Middle West, Tuesday. She expressed great surprise upon learning that her identity was known and stated that she had stayed in Halifax for upwards of four weeks without anyone becoming the wiser.

### MOB CHASES COP OUT OF GROUNDS

NEW YORK, N. Y., April 11.—A Marathon race in which 17 amateur athletes competed, was preceded by a riot at Catic-Park, Long Island City, today.

While the men were getting ready for the event boys began climbing the fence which enclosed the grounds. Among them was Thomas B. Daly, 14 years old. The park was patrolled by special officers, and one of them, Charles Heitz, fired his revolver as he ran toward the boys. He says he fired into the air, but Daly, who was on top of the fence, fell wounded into the park. He was shot the left thigh three inches below the groin, and is in a precarious condition.

The 5,000 persons around the track rushed to the spot and then chased the policeman out of the grounds to a house nearly a quarter of a mile away, where he was taken in custody by the police. As soon as the crowd learned that Haas had been arrested they returned to the park and the race was started. The race was won in the thirty seventh mile of 2.48.11, by Harry Jay at the Paxton A. C., who has been prominent in four of the amateur Marathon events since last November in this vicinity.

### Prior to His Rem Ex-president Makes a Statement

### Makes a Vigorous Protest Against Treatment Accorded Him

FORT DE FRANCE, Martinique, April 11.—Prior to his being aboard the steamer Versailles for deportation to France, ex-President Castro prepared a statement of the action of the French government which has been submitted to the authorities here. It reads as follows: "I hereby protest against the action of the French authorities of Martinique in having me put by force on board an outgoing vessel. First, I was ill at the time and secondly, I have committed no offence against the government of France and the authorities of Martinique during the time of my residence in this island, and I am, in fact, because of the decree of expulsion which orders my deportation out of French territory, compelled to take passage aboard a vessel which will again land in French territory.

Moreover, these considerations, the case constitutes a broad international law and a denial of rights of individuals. That such a case should have come to pass in a land which has permitted to remain in that island, and finally, because of the decree of expulsion which orders my deportation out of French territory, I am compelled to take passage aboard a vessel which will again land in French territory.

The Versailles will stop at Fort de France, where she will be boarded by the medical commission, made up of French and Spanish physicians. She will then proceed to Castro, that he was quite capable of making the voyage, the commission with an escort of gendarmes, carried him down to the presidential chamber. They found the president in bed, and although he protested that he could not move, he carried him down to the presidential chamber, where he was placed in a tress and placed him on a stretcher. Officers from the United States crew carried him down to the presidential chamber, where he was placed in a tress and placed him on a stretcher. ### NEW BRUNSWICK GIRL'S TRAGIC DEATH IN LYNN

Clothes Caught Fire While She Was Cleaning Gloves With Gasoline and She Was Fatally Burned.

LYNN, Mass., April 11.—Attempting to clean her clothes with gasoline proved fatal to Miss Jenny Livingston, of 66 Vine street, today. Flames from a gas stove in the kitchen where she was working, lit the gasoline and set the girl's clothing on fire. Her screams attracted the attention of her two sisters and Dr. L. M. Baker, with whom she lived, but before they could reach her the flames had burned through to the flesh. She was hurried to the Lynn hospital, where she died within a short time.

Miss Livingston came here about a year ago with her two sisters from New Brunswick.

DR. SPANGLER DEFIES SCIENCE OF OSTEOPATHY AT CORONER'S INQUEST

Osteopath Who Attended Mrs. McLaughlan Spends Evening on Stand

Tells of the Nature of Treatment He Gave Deceased

Describes in Detail History of Case—Did Not Treat for Rheumatism

The intense interest displayed at the early sessions of the inquest into the death of Mrs. Annie McLaughlan was by no means lacking at the police court last evening. The large room was taken to its utmost and every word of the proceedings was listened to with deep attention.

Dr. Spangler was on the stand for over an hour and a half and told of the nature of the deceased's ailment. He also defined to the coroner and jury the science of osteopathy and stated that he knew he could not be registered under the medical act of the province.

Referring to the McLaughlan case the doctor described in detail the history of the case. He declared he never treated the deceased for rheumatism and called Dr. Emery to "witness" himself. After Dr. Emery was called in by Dr. Spangler he did not treat the deceased lady, but left the case entirely in Dr. Emery's hands.

"Osteopathy believes that Nature's cure is superior to medicine," said Dr. Spangler. Dr. Spangler gave his evidence in a straightforward manner, and though subject to a severe cross-examination nothing against him was brought out in evidence. Such remarkable interest has never been shown in a case for a long time.

The other witnesses examined were Charles McDonald and Dr. Murray MacFarlan, the president of the Medical Council. The evidence is almost complete, but the case will be resumed at 8 o'clock this evening, when it is expected a verdict will be reached by the jury.

FIRE WITHIN A ST. JOHN WOMAN LENOX, Mass., April 12.—Mrs. Edward C. Ventres, one of the six victims of the half million dollar fire which swept this wealthy village yesterday, is a native of St. John, and friends here say that she often mentioned having relatives there. Her maiden name was Wilhelmina Leale.

She met Mr. Ventres in Pittsfield, Mass., and married him there more than a dozen years ago. Her only daughter, little Wilhelmina, aged twelve, a pupil in the Lenox school, also met death in the fire. Mr. Ventres himself, a prosperous business man, was a third victim. Today effort is being made to secure the bodies from the smoking ruins of the Clifford block. The heat of the ashes is intense and it is doubtful if the bodies will be recognizable when they are found. The Ventres lived on the second floor of the Clifford block. It is impossible to determine how they became so bewildered that they could not at least get out into the hallway. "Oh, heavens, where is the door," is the only exclamation heard from their apartments. Then an explosion shook the building and those who wanted to add their names to the list of the dead were forced to flee for their lives.

IMPORTANT CORNISH DOCUMENT One of the ancient documents at Deves, instead of being a "charter," as was supposed, is, in reality, "letters patent" by James I. under the Great Seal (1609-10), regarding charity lands to the mayor and burgesses of Deves. The discovery may have important results.

COMMISSIONER'S REPORT PARTIZAN AND UNFAIR. DECLARES R. PUGSLEY

Not Justified by Evidence—Profit in Bond Deal Explained

Minister Declares That the Evidence Will Show That There Has Not Been a Shortage At All

OTTAWA, Ont., April 12.—The findings of the commission appointed by the Conservative government of New Brunswick to inquire into the relations between the late government of the province and the New Brunswick Railway and Coal Company are partizan and unfair and not justified by the evidence is the ground which will be taken by Dr. Pugsley in the statement of which he will make in the House of Commons tomorrow.

Dr. Pugsley, after a close examination of the findings of the commission that there is nothing to justify his resignation for the portfolio of the Hon. L. J. Tweedie vacating the lieutenant governorship of the province. To your correspondent tonight he stated: "I can reaffirm what I have already stated that the evidence taken before Judge Landry, Mr. Teed and Mr. McDougall, the commissioners appointed by the New Brunswick government to look into the affairs of the New Brunswick Coal and Railway Company, while not printed, was pretty fully reported by the New Brunswick papers while the investigation was going on. Any statement to the effect that the evidence contains no justification for the findings which the commission has made that there was mismanagement of the affairs of the company or misappropriation of funds by the management and executive officers, while the commissioners in their report excuse us for not having looked sufficiently well after the interests of the province as ex-officio directors of the Coal and Railway Company, whose bonds were being guaranteed by the province, they do not pretend to do so. In doing so they are in any way profited through the transactions of the company with the exception of the allegation that Mr. Tweedie profited through the sale of some bonds of the company. However, I believe that anyone who takes the trouble to read the evidence in regard to this transaction will conclude that the commissioners have gone very far indeed out of their way to find something upon which to pass condemnation."

As to the criticism of the commissioners of laxity in the keeping of the accounts of the company I may say that the keeping of the accounts was the duty of the secretary of the company, the late George W. Allen. It was his duty to sign all the notes of the company and, indeed, no note would be of value unless it bore his signature. I have not the slightest doubt that he kept proper records of all the accounts and notes of the company. Mr. Allen unfortunately was not with us at the time of the inquiry, but he was a man of great business habits and was universally recognized as a man of the highest integrity and I have no doubt that he was careful to keep a true record of the money of the company as applied to the legitimate purposes of the company.

"I might say that in addition to the large difference in interest charges which I have mentioned in regard to the \$134,000 spoken of by the commissioners there were other legitimate expenses which were not considered by the commission. These are an amount of \$8,500 paid to Contractor Barnes on account of an old order of the Central Railway Company which had expired; also of \$7,000 paid for fuel which had been made to the number of sixty thousand on order for the second section of the road and which, when that section was made up from a statement of the Central Railway portion of the line. There were also sums paid for right of way of the second section, for the first month. It was so notwithstanding that the company had been advised by the commissioners in making their finding, although there was evidence given to justify their inclusion.

From the action of the counsel of the commissioners, Mr. Powell, at the outset it was seen that he did not desire to get at the true facts of the case but to get a statement of the proper course to be taken by the commissioners. He had been asked the company to have submitted an accounting of the money they spent. This could have been made up from a statement of the advances from time to time and the amounts paid out and the interest charges could have easily been arrived at. Then if there had been disparities discovered they could have been pointed out. Instead of doing this, the commissioners without asking for such a statement started to investigate in various directions apparently with the hope of discovering something wrong.

"As to the statement that bonds were guaranteed without authority by the government this is absolutely inaccurate and not supported by the evidence."

Another Proof of this partizan feeling is found in the fact that although by the terms of the commission the commissioners were limited to inquire into the affairs of the company only since 1901, when the province guaranteed the bonds of the company, the commissioners make a finding as to an expenditure made in 1887, twenty-two years ago, and thereby seek to attack the reputation of the late Hon. A. G. Blair, at that time premier of the New Brunswick government. Another instance of the same sort is found in a reference which the commissioners made in their report to an alleged payment to myself in 1888, conveying the impression that I was at that time a member of the New Brunswick government, though I was then not even in politics, but acting as a contractor interested in the undertakings of the Central Railway.

"As to the alleged shortage of \$124,000 referred to by the commissioners in their report, it would be noticed that the commissioners do not say that Mr. Tweedie or myself secured any part of it. I am satisfied that a careful examination of the evidence will not show that there has been any such shortage or any shortage whatever."

MEET DEATH ON WAY TO ST. STEPHEN

BOSTON, April 8.—Bishop Edward W. Osborn, of the Episcopal diocese of Springfield, formerly superior of the Cowley Fathers of this city, announces that Rev. Frederick E. J. Lloyd, D.D., formerly of Charlottetown, P. E. I., who left the Episcopal Church two years ago and joined the Roman Catholic body, has returned to his former denomination.

Dr. Lloyd was elected Bishop Co-adjutor of Oregon in 1906 but declined owing to objections made by certain clergymen to advanced churchmanship. He suffered from a nervous breakdown two months ago but has recovered.

MISCHIEVOUS SPOOK DISTURBS HOUSEHOLD

Salamander Spirit Who Throws Hot Coals and Smashes Windows and Crockery.

LONDON, April 12.—Extraordinary stories are told concerning mysterious and ghostly happenings at a house at Boleston, an old Wiltshire town in Staffordshire. For weeks past the occupants of the house have been amazed at inexplicable occurrences, the crockery and coal in the house seeming bewitched. Coal placed in the fire grate persists in leaping out in full view of residents and smashing windows at right angles to the fire. In less than a week after the weird visitation began every window downstairs was broken, and as fast as new windows were put in they were broken again.

The grate was taken out and the chimney swept, but to no purpose. The coal, however, burns excellently when put on fires in other people's houses.

SICK DOCTOR Proper Food Put Him Right.

The food experience of a physician in his own case when worn and weak from sickness and when needing nourishment the worst way is valuable. "An attack of grip, so severe it came near making an end of me, left my stomach in such condition I could not retain any ordinary food. I knew of course that I must have food nourishment or I could never recover."

"I began to take four teaspoonfuls of Grape-Nuts and cream three times a day for 2 weeks; this was almost my only food; it tasted so delicious that I enjoyed it immensely and my stomach handled it perfectly from the first mouthful. It was so nourishing that I was gradually able to eat other food and to resume my normal health and strength."

"Grape-Nuts is of great value as food to sustain life during serious attacks in which the stomach is so thoroughly disordered that it cannot digest and assimilate other foods."

"I am convinced that were Grape-Nuts more widely used by physicians, it would save many lives that are otherwise lost from lack of nourishment."

Monthly Meeting of Fredericton Board of Trade Held

EXPO ASSOCIATION

FREDERICTON, April 12.—The quarterly meeting of the Board of Trade was held this afternoon in the City Council chamber with President Hodge in the chair. Mr. Dobbles reported that no action had yet been taken by the board in the matter of telephone rates as they were waiting to see what the legislature would do. Secretary Winslow reported in the matter of the proposed St. John Valley Railway and the intervention of the delegates had with the legislature. The board elected as delegates to proceed to Ottawa along with the other delegates the following: A. B. Shipp, J. H. Barry, K. C. John Falmes and J. W. McCready. A strong speech was made by Wm. Lemont in support of the proposed railway, and it was suggested that the delegates should ask the government to pay for the cost of a relay. Among the arrivals from St. John this evening was Hon. Senator Dombelle. The senator is here to meet the members of Kings and Albert tomorrow in respect to certain mines opening operations in Albert county.

The senator is expected to be in Fredericton appointed all committees in connection with the fall exhibition. Everything points to a most successful exhibition.

HIPLESS CORSETS ARE 'RIPPED' BY PHYSICIAN

Doctor Declares They Give Women False Figure and Ruin Health

PHILADELPHIA, April 12.—Ripping the new hipless, straight-built corsets which are being so extensively advertised in Boston yesterday declared at the convention of the American Physical Education Association, in Drexel Institute, Philadelphia, Dr. Joel E. Goldthwaite of Boston. Dr. Goldthwaite said that the corsets were a false figure, destroy proportion and are ruinous to the health.

Dr. Goldthwaite spoke on "Pelvic Articulation" at the afternoon session of the convention, in the department of therapeutics, and, though the auditorium was crowded with men and women, he did not mince matters or hesitate to speak with his back to the fire. He deplored the modern habit of wearing the hipless corset, and said that the fashionable craze for having the waist-line connected with the throat is a distortion and a crime against nature.

"The present-style corset," the speaker said, "tends to destroy all the lines of the body and aims to create a false idea of feminine loveliness. The waistline was never intended to be immediately below the throat, yet it is forced there by fashion. The old straight-front corset was an evil, but it was a lesser evil than the modern model, because it gave a free swing to the back and did not interfere to such an extent with the normal posture of the body."

"Now a woman housed so tightly in her corset she can't throw back her shoulders. They are constantly cramped and drawn forward. She is abnormally distorted and her waist line is placed in an impossible position."

Dr. Goldthwaite accompanied his arraignment of fashion's latest fad for a formless figure with charts and pictures, showing the female form as it has pleased the fashion arbiters to create it, and in his pictorial display he had reproductions of the straight-front, the long-hip, the hipless and the hipless corset, all designed to make milder sylph-like.

The new model, he declared, is utterly impossible for normal posture. It interferes with correct walking and makes sitting a precarious rite to be indulged in sparingly.

"Physical education advocates," he said, "do not want women to be freaks, and do not believe in the abandonment of the corset. The modern woman is not strong enough to do without this support. By heredity, birth and education she requires it, and the extreme and distorted stays invented by recent fashion is an evil to be shunned."

Yesterday was a strenuous one for delegates to the convention. Meetings of four sections devoted to different phases of the work were held simultaneously in the afternoon, and the morning session was devoted to addresses by George W. Euler of New York and Elmer Berry of Springfield, Mass.

An important paper on the social aspect of physical training was read by Dr. Luther H. Guller of New York, who scored the American celebration of national holidays and asserted that a concentrated effort should be made to give significance and adequate expression to Fourth of July demonstrations.

Amended Bill to be Considered by Senate Thursday

Does Not Contain All the Changes it is Proposed to Make

Entire Liquor Schedule is Materially Advanced

WASHINGTON, D. C., April 12.—The amended tariff bill is now on the senate calendar and by an agreement reached on the floor, consideration of the measure will begin on Thursday. The bill was taken on the senate calendar by the Democratic members present, at 10 o'clock this morning and after thirty minutes' deliberation, a vote was taken on the question of making a report to the senate today, all the Republicans voting in the affirmative and the Democrats in the negative. Soon after the senate met Senator Aldrich presented the amended bill. Senator Daniel on behalf of the minority protested that the Democrats had not been given an opportunity to examine the measure and Mr. Aldrich replied that they could make their examination by Thursday. He said also that as the majority is responsible for the bill, its course in hastening the report was warranted.

As reported, the bill does not contain all of the changes in rates which the finance committee proposes to make. Although several important amendments such as the restoration of the Dingley rates on women's gloves and hosiery, the placing of works of art on the free list and the assessment of a duty on iron have been made, the rest of the bill is materially advanced.

The bill, Senator Aldrich insisted that, as it will be provided by the senate, the Payne bill will amply provide sufficient funds to meet the expenses of the government without resorting to any but limited port taxes. In this connection those articles which the federal government purchases in large quantities in foreign markets are to be provided with lower rates of duty. This is in accordance with the plan recently launched in the senate through the appointment of the new committee on public expenditures, to reduce the running expenses of the government.

No maximum and minimum provisions or administrative features which include different forms of taxation, were reported in the bill today. These sections of the measure are to receive the joint consideration of the finance committee and may not be reported for three weeks or more. Several of the revenue features are dependent upon the action which the committee will take in regard to these sections. Besides the dutiable and free lists, the only additional provision of the Payne bill reported today was the Philippine free trade provision.

While not changing the purport of the Philippine section, the committee's report includes a new draft of this provision by which its successful operation will be assured. It had been suggested that the provision for the free entry of 300,000 tons of sugar and 300,000 pounds of tobacco will permit the importation under these limitations of products from neighboring islands through their importation in the Philippines. This difficulty has been obviated by making these products dutiable when imported into the Philippines.

RECORD CROWDS TURN OUT FOR OPENING GAMES

American Season Opens

TWO GAMES ON

Largest Number of Fans Ever at Ball Game in Philadelphia

WASHINGTON, D. C., April 12.—The American League season was opened here today in a game between the Washington and New York clubs before a record crowd that has never turned out for any game in the history of the league.

The game was won easily by Washington, the final score being 4 to 1 in their favor. The locals batted hard at critical points and were helped along by costly errors by the New Yorks. Pitcher Charley Smith was a great puzzle to the visitors, who are credited with only four hits, the triple by Knight being of the lucky order.

Newton began pitching for the New Yorks, but was wild and ineffective, and the locals were able to get away to Brockett, who held the locals to two hits and no runs in the final four innings. The fielding feature of the game was remarkable one-handed catch by left fielder Engle on a long fly from Street's bat in the third inning.

Score by innings: Washington... 3 0 1 0 0 0 0 2—4 8 1 New York... 0 0 0 0 0 0 0—1 4 3 Batteries—Smith and Street; Newton, Brockett and Klewlow. Time, 2:05. Umpires, Evans and Egan.

AMERICA AS IT IS TODAY

Prof. Ferrero's Impressions

TOO MUCH IDEALISM

Exaggeration the Keynote—Everyone Isn't Hustling for Money

PARIS, April 12.—Guilelmo Ferrero writes in the Figaro his impressions of America, as he considers himself entitled to do after three months of strenuous observation, although he disclaims the right as yet to express opinions. He sums up his impressions in one word—"exaggeration."

Europeans, he has discovered, when speaking of America seem to be compelled to exaggerate everything, virtues and vices, the proportion of material things and the intensity of moral feelings. The first example he gives of this exaggeration is the usual description of New York as the scene of a religious "revival," whereas, he says, "my first surprise was to find myself in a city where the movement, while certainly considerable, was less than in Paris. Except for twice daily, even in Wall Street, there is comparative calm."

The second exaggeration is the description of America as a land where one may think of getting money. Signor Ferrero says: "I easily ascertained the falseness of this opinion. There certainly are many in America who think only of money getting, but this is not unknown in Europe. The man is characteristic of our civilization. From what I have seen I no longer dare say it is a vice particularly American."

Defining as the most evident manifestation of a nation's ideal spirit, the existence of people who instead of working to increase their own fortunes prefer to do charitable works, to carry on religious propaganda, or to follow scientific or literary pursuits, Signor Ferrero says that without risking comparison between the two continents it is impossible to know the true American society without being struck by the large number of persons who have abandoned lucrative affairs for such ideals.

KILLING ROMANCE IN OLD-TIME SPAIN

MADRID, April 12.—The old "Night-life" of Spain, the music and dancing that has been such an attractive feature to foreign tourists to Madrid and the southern cities of Seville, Cadiz, Ronda, Malaga and Barcelona, is a thing of the past. A few years ago the government decided that night Bohemianism was demoralizing the life of the country, and King Alfonso issued a royal decree closing music halls, cafes and other places of amusement at 12:30 a. m. Formerly these places were open until dawn.

EASTER TIME TOPICS OF THE WORLD'S METROPOLIS

LONDON, April 12.—The new children's proved a great boon Saturday to the tea places at the popular holiday resorts. Parents being unable legally to take their children into the barrooms had tea with them instead. At the same time the War Office has sent circulars to all its girl employees warning them against excessive tea drinking, especially between meals and with their lunch. It enjoins them to wear warm clothing and points out that short sleeves and transparent lace fronts are "dangerous traps without adequate safeguards."

READ LAST NIGHT

America Has Vast Opportunity for Making Lasting Mark for Good

NEW YORK, N. Y., April 12.—A message from General William Booth, founder and commander of the Salvation Army, was read tonight at a remarkable session at Carnegie Hall in honor of his eightieth birthday anniversary.

LONDON, April 10.—"To the American people: To America, how vast is your opportunity for making a lasting mark for good on the entire human race."

"What will you do with this mighty, mighty force? If you are permitted to realize your ambition to lead the world, whither will you lead it? To the Kingdom of God, to the Kingdom of righteousness, purity, honor, kindness and simplicity; to self-sacrificing service of mankind."

"Come along, then. Let us give up our sins and go out of our hearts and put our arms around each other and let us begin to build a new world, a new world of righteousness, purity, honor, kindness and simplicity; to self-sacrificing service of mankind."

Amattie ROOFING

A Cure for Leaky Roofs

DON'T waste time trying to patch a leaky roof! A roof which leaks in one place is generally on the verge of leaking in many other places.

The cheapest method of repair is to cover the whole roof with Amattie. Amattie costs so little that the entire job can frequently be done for the expense of caring for a leaky roof.

Most ready roofings require a coat of paint every two years to keep them in order. But Amattie is not the ordinary kind of Ready Roofing.

Amattie has a real mineral surface, firmly imbedded in the Coal Tar Pitch waterproofing. This surface resists the attacks of the elements like a stone wall. It demands no additional protection or covering.

Buy Amattie in the same way as buying an ordinary ready roofing with an agreement from the dealer to keep it painted free of charge.

Send us your name and address, and we will forward you by return mail a free sample of Amattie, and you can see how tough, durable and substantial it is. Write to-day to nearest office.

The night of meeting was settled upon as Monday night.

What appeared at first to be a serious accident took place on Stanley street last evening. An aged man named Joseph Perkins stepped in front of a moving street car, and before the motorman could stop the car he was knocked down and narrowly escaped being run over. He was rendered unconscious and had to have the services of a physician. His head was severely cut.

## SUNDAY

Arthur Knight, the fourteen-year-old son of J. T. Knight, of Douglas avenue, met with a peculiar accident yesterday. While walking with another boy some powder which he had in his pockets became ignited from matches in the same pocket and burned through his clothing and inflicted a painful burn on his side.

Two houses were broken into Friday afternoon at Nerepis Station, and a quantity of 3,000 and provisions stolen. The first break was at the home of Wm. Lambert. Entrance was effected by breaking open a window. Practically all the food in the house was stolen, all the occupants being absent at the time. A house which is occupied in the summer time by Wm. E. King, foreman of T. S. Simms & Co.'s factory, was entered. In this case also a window was forced. The extent of Mr. King's loss is not known, as Mr. King has not visited his cottage since the robbery.

Roy W. Clarke, whose novel, Diana of the Swamp, is the subject of notice published on page 10 of this issue of the Globe, is Miss Nellie Clarke, daughter of the late Thomas Clarke, of the former firm of Clarke, Kerr & Thorne of this city, and a niece of the late John N. Moore, a well known revenue department here. Miss Clarke's residence is now in Melrose Park, Belfast, Ireland, with Mr. and Mrs. R. J. Moffet. (Mrs. Moffet is her mother.) While Miss Clarke has been doing some literary work for some time, Diana of the Swamp is her first sustained effort and the fact may be of interest that the first publishing house to which the manuscript of the story was sent promptly accepted and published it. All of Miss Clarke's friends here greatly rejoice at her success.—Globe.

The celebration of the Easter festival at St. John's (Stone) Church yesterday was marked by large congregations, tasteful decorations and special music. ## WEDNESDAY

A pretty home wedding was celebrated at the residence of Mr. William Callan last evening at eight o'clock, when his daughter, Miss Jessie Callan, became the bride of Mr. Harry McKean, of the C. P. R.'s King street offices. Rev. Gordon Dickie was the officiating clergyman. The bride was given away by her father. She wore a very becoming costume of light blue silk. Miss Mattie Lee, her bridesmaid, was prettily gowned in mauve. Mr. Roy Barton supported the groom. On the conclusion of the ceremony the guests assembled at a dainty wedding supper. Pleasant testimony to the popularity of the happy couple was furnished by the array of bridal presents which were showered upon them. From the groom's fellow employees of the I. C. R. came a very substantial pattern. Mr. and Mrs. McKean will reside on Paradise Row.

Word has been received of the death of Capt. William Robinson, which took place at Edmonton, Alberta, on Saturday. Capt. Robinson was an old time St. John master mariner and commanded several ships owned by St. John merchants. He also commanded ships sailing from England as a good navigator and well versed in seamanship. Capt. Robinson was married twice. His first wife was a Miss Eliza Beattie Neill, and his second wife was Miss Knight of Musquash, sister of Mr. L. B. Knight. By his first wife Capt. Robinson leaves one daughter, a nurse, who at present resides in Boston and takes care of her mother, Miss L. Robinson. Capt. Robinson was a honorary member of Albion Lodge, No. 10, and was a man well known by all St. John connected with the shipping industry. Many friends will regret to learn of his death.

## THURSDAY

Katherine Greeny, of St. John, appeared in a Shakespearean recital at the School of Expression, First street, Boston, on April 10, interpreting the role of Launcelot in "The Merchant of Venice." Miss Greeny has appeared on several occasions during the past season, and each time has given evidence of marked progress in her work along the lines of literary and dramatic art. Her interpretation of Launcelot on Saturday was such as to bring forth enthusiastic applause from the large audience.

While at work at Union Foundry, Carleton, yesterday morning, Michael Joyce had his right hand badly crushed and one of his fingers torn off. He was taken to the hospital, where his hand was dressed.

The Chinese residents of the city express themselves as very much pleased with Judge Ritchie's decision and with his statement that they will be treated the same way as the other residents. They are very strong in their statement that they have been subjected to annoyance by the policemen who seem to consider all Chinese as law breakers as if they were not. They say that they do not carry on any gambling nor drinking nor meetings which they have, but simply get together to talk over affairs at home and to read the Chinese papers which are subscribed for by some of the residents of the city.

Mayor Bullock, Judge Willrich, H. A. Powell and Rev. D. Hutchinson will speak on Friday night at the banquet to be held at the Temple of Honor. A special menu has been prepared and a large attendance is anticipated. Tonight the dedication is to take place. There will be a musical programme and refreshments. A cordial invitation is extended to all. The ceremony at the Temple of Honor on Main street will be an event in the annual temperance in this city.

On the market yesterday sugar showed a decline while the prices of flour remained about the same. Ten cents a hundred pounds was the fall-off recorded in the prices of sugar, which has been high for some little time. The wholesale grocery trade experienced a rapid change in prices within the last few weeks. A still further decline is expected in the price of sugar.

Flour shows a tendency to advance. While no serious increase took place yesterday, it is generally expected that prices will soar higher before the end of the week.

The St. John Medical Society at a meeting last night discussed at length the new medical act now before the legislature in Fredericton and passed a resolution endorsing the measure. The resolution was carried by a large majority, and it was learned after the meeting, were of opinion that it was strange there should be opposition to the act, which was framed with one motive, the good of the general public.

The date was changed from 1907 to 1906, and at that time the Minister was not a member of the House. According to the rules of parliament there could be no investigation by the House of the conduct of any member prior to his membership in the Commons.

Mr. Foster—The specific purpose of the resolution is to secure an investigation of the contract in question. Sir Wilfrid Laurier—Then why not challenge the offensive references to the Minister of Public Works? After considerable disorder with several members trying to speak at one time, Mr. Foster concluded a third or fourth person on the track and did not give a dignified parliament or in a mad house let us know. "I leave the order in the hands of the Prime Minister."

Sir Wilfrid thereupon straightened out the question by again stating the charge which he made on the responsibility of a member no statement was made on any other member could be presented to the House. If a member made a charge against the minister of public works, he suggested that the member reading of the affidavit protesting the charge was not to be made. If we are to preserve the dignity of parliament, let us not make a rule of the House be rigidly adhered to," he concluded.

But before Dr. Daniel could resume the long interrupted thread of his discourse and proceed with the reading of the affidavit 6 o'clock had arrived and the speaker left the chair with Mr. Foster protesting that before the final vote should be taken the matter should be brought over in relation to its bearing on future demands that might be made for parliamentary investigations.

WM. A. BLACK, AMHERST, N. S. April 14.—By the death of the age of 82 of William A. Black, at Pugwash River last night. The deceased was a well known citizen. The deceased was the late Asher Black, his wife, who survives him, was Miss Nancy Greenfield, of Amherst. He also leaves three sons and one daughter. The sons are Tremaine, of Pugwash River, with whom he resided, John W., of British Columbia, and Henry of Oregon. His daughter Bertha also resides at Oregon. Rupert Black, of Amherst, and Elias, of Truro, are brothers. The funeral will take place at Pugwash on Thursday afternoon.

MRS. JOHN R. TOMPKINS. Many in this city will regret to learn of the sad death at Woodstock this morning of Mrs. Frances Charlotte Tompkins, wife of John R. Tompkins. The deceased was a well known citizen of this city. She was a daughter of the late Rev. Charles Lee, rector of Fredericton, and was twice married. By her first marriage she was the wife of the late Esme Mills, of this city. The sons are Charles S., accountant with the Bank of New Brunswick in this city, and Douglas and Neville, at home. Three daughters and one brother are also left. They are Miss Edith Lee, of New York, R. L.; Mrs. T. C. Lee, Mrs. W. G. Lee, and Mrs. E. Lee. The funeral will take place at Woodstock on Saturday upon the arrival of the morning train from St. John.

WESTERN FARMERS A TRIFLE UNEASY WINNIPEG, April 14.—With mid-April and anywhere from fifteen to thirty degrees of frost, western farmers are being troubled. Everything that was going along nicely and in some favored districts wheat seeding had actually begun, when the cold snap came on. Much snow remains on the ground and the weather men in change quickly if this is to be removed and substantial progress made with seeding this month.

WASHINGTON, April 14.—For more than four hours today the Democratic members of the senate conferred in an effort to agree upon a policy toward tariff legislation. At the end of that time Senator Curberson, the minority leader, announced that they had agreed to support an income tax amendment and to stand for substantial reductions in the rates on necessities of life. Some of the members present admitted frankly that they would vote for protection of the industries of their states.

UNIFORM RATES ON RIVER BOATS FOR THE FIRST TIME IN HISTORY OF NAVIGATION Agreement Entered Into by All the Steamship Companies at Meeting Held—Elaine and Victoria to Run on Alternate Days—Big Rush of Tourists Expected

For the first time in the history of the river traffic a uniform tariff will exist during the coming season. The announcement will be received with favor by all the merchants that all the companies operating steamboats on the river have entered into an agreement.

The settlement of a uniform tariff was reached at a meeting held on Tuesday, and the schedule will go into effect immediately. The uniform interchange of tickets on the various lines has also been agreed to by the different owners. It is learned that efforts made about three years ago to reach a settlement were quite unsuccessful until a prominent steamboat company refused to enter into a uniform rate. Last year there was considerable rivalry shown for the trade of the river, which was admittedly injurious to the traffic in general.

In the tourist line Dr. L. A. Currie, the owner of the Elaine, when asked yesterday by a representative of The Sun regarding the prospect of the prospect of being a banner one. All the large tourist association in the United States, who evidently recognize the beauty of the "Rhinne of America," have written him asking for information. The Elaine has been especially fitted up to accommodate the tourists at a cost of about \$2,000.

Dr. Currie stated that the Elaine and Victoria would run on different days to Fredericton. The Elaine will run on Monday, Wednesday and Friday, while the Victoria will make trips on Tuesday, Thursday and Saturday. The Elaine is at present at Marble Cove, but will be taken to Indianton today. The boat is ready to start on the route immediately, and a trip will be made as soon as the ice is out of the river. The boat has been inspected by Messrs. Dalton and Olive and reported in a most satisfactory condition. New guards have been added to the steamer at a heavy cost. Painting has been done inside and outside. The motor is being worked by Fred Lewis Elaine again. Herbert Crabb will be the mate and John Galbraith the purser. The death of Engineer Jones is greatly regretted. His place on the steamer will be filled by Fred Lewis. The boat will carry about ten others of a crew.

It was reported yesterday that the river was clear of ice to the Junction. Further up it is fairly solid. However, at Fredericton the ice has weakened and will probably be open at the end of the present week.

UNIFORM RATES ON RIVER BOATS FOR THE FIRST TIME IN HISTORY OF NAVIGATION Agreement Entered Into by All the Steamship Companies at Meeting Held—Elaine and Victoria to Run on Alternate Days—Big Rush of Tourists Expected

For the first time in the history of the river traffic a uniform tariff will exist during the coming season. The announcement will be received with favor by all the merchants that all the companies operating steamboats on the river have entered into an agreement.

The settlement of a uniform tariff was reached at a meeting held on Tuesday, and the schedule will go into effect immediately. The uniform interchange of tickets on the various lines has also been agreed to by the different owners. It is learned that efforts made about three years ago to reach a settlement were quite unsuccessful until a prominent steamboat company refused to enter into a uniform rate. Last year there was considerable rivalry shown for the trade of the river, which was admittedly injurious to the traffic in general.

In the tourist line Dr. L. A. Currie, the owner of the Elaine, when asked yesterday by a representative of The Sun regarding the prospect of the prospect of being a banner one. All the large tourist association in the United States, who evidently recognize the beauty of the "Rhinne of America," have written him asking for information. The Elaine has been especially fitted up to accommodate the tourists at a cost of about \$2,000.

Dr. Currie stated that the Elaine and Victoria would run on different days to Fredericton. The Elaine will run on Monday, Wednesday and Friday, while the Victoria will make trips on Tuesday, Thursday and Saturday. The Elaine is at present at Marble Cove, but will be taken to Indianton today. The boat is ready to start on the route immediately, and a trip will be made as soon as the ice is out of the river. The boat has been inspected by Messrs. Dalton and Olive and reported in a most satisfactory condition. New guards have been added to the steamer at a heavy cost. Painting has been done inside and outside. The motor is being worked by Fred Lewis Elaine again. Herbert Crabb will be the mate and John Galbraith the purser. The death of Engineer Jones is greatly regretted. His place on the steamer will be filled by Fred Lewis. The boat will carry about ten others of a crew.

It was reported yesterday that the river was clear of ice to the Junction. Further up it is fairly solid. However, at Fredericton the ice has weakened and will probably be open at the end of the present week.

to substitute a new version of the affidavit, though the member for St. John was admitted reading from the original affidavit, which was confessedly erroneous. If he reads that affidavit he must under the rules of the House assume the responsibility for it. Dr. Daniel replied that he was reading from the original affidavit, and Speaker March called him to order. The proposed resolution made no charge against the Minister. Works he (Dr. Daniel) must say or quote nothing that would reflect on the honor of any member of the House. Hon. R. P. Sutherland, in speaking in elucidating the point of order, noted that the original affidavit clearly made a charge against the Minister. The date was changed from 1907 to 1906, and at that time the Minister was not a member of the House. According to the rules of parliament there could be no investigation by the House of the conduct of any member prior to his membership in the Commons.

Mr. Foster—The specific purpose of the resolution is to secure an investigation of the contract in question. Sir Wilfrid Laurier—Then why not challenge the offensive references to the Minister of Public Works? After considerable disorder with several members trying to speak at one time, Mr. Foster concluded a third or fourth person on the track and did not give a dignified parliament or in a mad house let us know. "I leave the order in the hands of the Prime Minister."

Sir Wilfrid thereupon straightened out the question by again stating the charge which he made on the responsibility of a member no statement was made on any other member could be presented to the House. If a member made a charge against the minister of public works, he suggested that the member reading of the affidavit protesting the charge was not to be made. If we are to preserve the dignity of parliament, let us not make a rule of the House be rigidly adhered to," he concluded.

But before Dr. Daniel could resume the long interrupted thread of his discourse and proceed with the reading of the affidavit 6 o'clock had arrived and the speaker left the chair with Mr. Foster protesting that before the final vote should be taken the matter should be brought over in relation to its bearing on future demands that might be made for parliamentary investigations.
