The Honourable the Speaker informed the Senate that a communication had been received from the Secretary to the Governor General.

The communication was then read by the Honourable the Speaker, as follows:—

GOVERNMENT HOUSE
OTTAWA

3rd April 1965

Sir,

I have the honour to inform you that His Excellency the Governor-General will arrive at the Main Entrance of the Parliament Buildings at 3.00 p.m. on Monday, the fifth of April, 1965, and when it has been signified that all is in readiness, will proceed to the Chamber of the Senate to open formally the Third Session of the Twenty-sixth Parliament of Canada.

I have the honour to be,

Sir,

Your obedient servant,

ESMOND BUTLER,

Secretary to the Governor-General.

The Honourable
The Speaker of the Senate,
Ottawa.

Ordered, That the communication do lie on the Table.

The Honourable the Speaker having put the question whether the Senate do now adjourn during pleasure, it was—

Resolved in the affirmative.

After awhile, His Excellency the Governor General having come and being seated upon the Throne—

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that:—

“It is the pleasure of His Excellency the Governor General that they attend him immediately in the Senate Chamber.”

The House of Commons being come.

His Excellency the Governor General was then pleased to open the Session by a gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I welcome you to the third session of the twenty-sixth Parliament of Canada.

We recall with pleasure the presence last October of Her Majesty Queen Elizabeth. The visit of Her Majesty to Charlottetown, Quebec and Ottawa helped us to celebrate the hundredth anniversary of the interprovincial conferences that led to Confederation. It also reaffirmed in the hearts of Canadians the cherished place of the monarchy in our national development. The gracious presence and the wise words of the Queen of Canada helped to strengthen the unity of our country and to rededicate Canadians to the sense of purpose that joins us in the pursuit of our common goals as Canadians while leaving us free to develop to the full the facets of our life which reflect the duality of our foundation and the variety of our development.

The international situation gives ground for concern. The stability of South-east Asia is threatened by a deepening crisis in Vietnam and continued pressures on Malaysia. The United Nations is beset by conflicting political pressures which have seriously impaired its capacity for executive action. The continuance of these situations, and of the policies that have given rise to them, would create serious risks of widening conflict.

My Government is resolved that Canada shall make the fullest contribution it can to the lessening of international tensions, including the provision of practical assistance to developing countries. In the forthcoming negotiations on the United Nations crisis, the objective of my Ministers will be to contribute to the work of repairing and strengthening the United Nations in order that it may play its proper role in the preservation of world peace and security. My Government will press forward its efforts to assure effective international action for peace-keeping and to move towards general disarmament under effective international control. Canada will continue meantime to play its full part in the strengthening of collective defence and in the close collaboration of NATO members on both sides of the Atlantic.

My Government will continue to contribute to the development of the Commonwealth ties which are of major importance to the free world and to the improvement of relations between the continents. My Prime Minister will attend the forthcoming Conference of Commonwealth Prime Ministers which will discuss, among other things, the expansion of trade and the establishment of a Commonwealth secretariat.

My Ministers attach great importance to Canada's neighbourly relationship with the United States and to the development of practical, mutually beneficial arrangements within that relationship. You will be asked to approve a resolution concerning the important agreement on the automobile industry recently concluded with the United States.

Members of the House of Commons:

My Ministers believe that it is imperative to reform the procedures of the House of Commons in order that it may accomplish the large volume of work required to meet the needs of the Canadian people in modern times. My Ministers therefore will submit to you proposals for reform, based both on the valuable work of your committee on procedure and organization and on my Government's study of the procedures which, in the Parliaments at Westminster and elsewhere, have enabled effective debate and criticism to be combined with effective dispatch of public business.

Honourable Members of the Senate:

Members of the House of Commons:

My Ministers will continue their policy of promoting the strength and unity of the Canadian Confederation. This policy has made possible the achievement and re-inforcement on a nation-wide basis of programmes, in pensions and in other fields, which would not have been attainable but for better procedures of consultation and concerted action with due regard for the federal character of our country. My Ministers will continue to improve the procedures and practices involved in the federal relationship so that all Canadians may feel equally served by Confederation.

After the appropriate provincial concurrence has been signified, you will be asked to approve an Address to the Queen to provide that the constitution of Canada may be amended in Canada by the procedures which have been agreed between my Government and the Governments of all the Provinces.

You will be asked to authorize my Government to provide that "O Canada" shall be the National Anthem of Canada and that "God Save the Queen" shall be recognized as the Royal Anthem in Canada.

Our country is achieving a high rate of economic growth. Trade is expanding. With growing industrialization, Canadians are enjoying rapidly increasing employment opportunities; incomes and living standards are rising; the number of people out of work has been reduced to lower levels than for many years.

All the great potentialities of our economy are not, however, being realised. The talents of some of our people are wasted because of poverty, illness, inadequate education and training, inequality in opportunities for work. To combat these problems, to improve the opportunities of people who are now at a disadvantage, is to put new power into economic expansion and to enhance the unity of our country.

My Government therefore is developing a programme for the full utilisation of our human resources and the elimination of poverty among our people. It will include improved measures for regional development, the re-employment and training of workers, the re-development of rural areas, the assistance of needy people, the renewal of areas now blighted and congested in our cities, and the establishment of new opportunities for young Canadians. Besides strengthening and broadening measures within the federal sphere of responsibility, the plan will be designed to concert them more effectively with provincial programmes. Because of the importance of this plan, my Prime Minister will take direct responsibility for its coordination, assisted by a special secretariat. My Government will propose the calling of a special federal-provincial conference to seek full cooperation and coordination with policies of the Provinces.

As one of the major elements in this plan, my Government's area development programme, which has already been of substantial assistance to industrial expansion in areas of high unemployment, will be expanded, in consultation with the Provinces, to other areas where incomes are low. You will be asked to approve measures to aid industrial expansion in these areas and to help people to take full advantage of such improved employment opportunities.

My Government will also propose improved measures to assist the re-employment of workers displaced by automation or affected by other economic

changes. These measures to develop our country's human resources will include grants and loans for workers moving to new jobs, improved training programmes in industry, extended vocational services particularly for the longer-term unemployed, and an expanded programme for agricultural manpower. These measures will be taken in cooperation with management and labour and, where appropriate, in conjunction with the Provinces.

You will be asked to approve the creation of a fund for rural economic development and, in order to provide for fuller integration of action for rural development, amendments to the legislation regarding ARDA will be placed before you.

You will be asked to approve the establishment of a Company of Young Canadians, through which the energies and talents of youth can be enlisted in projects for economic and social development both in Canada and abroad.

After further discussions between my Government and the Provinces, you will also be asked to enact a measure to establish a Canada Assistance Plan, providing for federal sharing in the cost of comprehensive programmes under which people can be assisted on the basis of their need.

My Government believes that public policy should be directed to improving the quality of health services and to ensuring that all Canadians can obtain needed health care, irrespective of their ability to pay. Accordingly my Government will at an early date meet with the Governments of the Provinces in order to discuss with them the way in which federal and provincial action can most effectively contribute to programmes that will provide health services to Canadians on a comprehensive basis.

My Government will propose the re-establishment of a special committee of the House of Commons on food and drugs, and will facilitate its work with the aim of reducing the prices paid by the public for drugs.

My Government is developing new policies to enable farmers generally to achieve larger and more reliable incomes so that their living and working standards will be comparable to those enjoyed in other sectors of our economy. You will be asked to consider measures of special assistance to the family farm in both eastern and western Canada.

My Government's recent action to raise the incomes of dairy farmers will be followed by a comprehensive measure to make possible the development, in cooperation with the Provinces, of new national policies for major farm products, including the establishment of a Canadian Dairy Commission. Action will be taken to improve the movement and marketing of feed grain in eastern Canada and British Columbia.

In order to raise the level of income of Canadian fishermen, a measure will be placed before you to provide for an expanded national fisheries development programme.

In order to improve the position of veterans, you will be asked to approve measures to amend the Veterans' Land Act, the Children of War Dead (Education Assistance) Act, the War Veterans' Allowance Act and the Army Benevolent Fund Act.

A measure will be placed before you to amend the Canadian Citizenship Act, particularly in order to ensure full equality of rights for all Canadian citizens wherever they were born.

You will be asked to approve a revision of the Immigration Act in the light of a White Paper which will be placed before you, reviewing immigration policy and procedures.

You will be asked to enact legislation to establish an Indian Claims Commission.

A measure to establish an age of retirement from the Senate will be placed before you.

My Government will seek to provide more encouragement to the cultural development of our country. You will be asked to consider a measure to strengthen the position of Canadian publications, amendments to the legislation dealing with broadcasting, and a measure to help the development of a feature film industry in Canada.

In order to encourage the progress of scientific research in Canada you will be asked to enact legislation to establish a Science Council of Canada. You will also be asked to authorize a programme for the advancement of industrial technology, designed to make our industry more competitive and efficient.

Arrangements will be made for you to decide the issue of capital punishment. My Government will appoint a special committee to study and make recommendations on a comprehensive policy for the correction and rehabilitation of prisoners.

My Government will appoint a Royal Commission to study the status, form and procedures of adjudicative and regulatory bodies and to investigate the desirability of instituting a parliamentary commissioner or Ombudsman for Canada.

My Government intends to make proposals regarding the limitation and payment of election expenses when it has received and considered the findings of the committee of inquiry.

You will be asked to consider revisions of the Bank Act, the Quebec Savings Banks Act and the Bank of Canada Act; legislation will be proposed to establish a Canada Development Corporation to assist in financing major new industrial developments and in increasing Canadian ownership of business corporations.

My Government will propose a revision of legislation on unemployment insurance; legislation to provide for safety in employment under federal jurisdiction; amendment of the Fair Wages and Hours of Labour Act to achieve consistency with the labour standards code; legislation to make collective bargaining and arbitration available to the Public Service; and legislation revising federal superannuation and pension plans to integrate them with the Canada Pension Plan.

You will be asked to consider comprehensive legislation to reform public regulation of the railways and to facilitate the adaptation of the railway system to present and future needs; a measure to provide for the re-capitalization of the Canadian National Railways; and amendments to the Aeronautics Act.

Other legislative proposals which you will be asked to consider will include: amendments to the Financial Administration Act to establish the Treasury Board under the presidency of a Minister to be named the President of the Treasury Board; legislation regarding Term 29 of the Union with New-

foundland; a measure regarding conservation of oil and gas under federal jurisdiction; amendments to the Post Office Act, the National Housing Act, the Atlantic Development Board Act, the Northwest Territories Act, the Bankruptcy Act and other legislation.

Members of the House of Commons:

You will be asked to appropriate the funds required for the services and payments authorized by Parliament.

Honourable Members of the Senate:

Members of the House of Commons:

May Divine Providence guide you in your deliberations.

The Commons withdrew.

His Excellency the Governor General was pleased to retire.

The sitting of the Senate was resumed.

The Honourable Senator Vaillancourt presented to the Senate a Bill S-1, intituled: "An Act relating to Railways".

The Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The Speech was read by the Honourable the Speaker.

The Honourable Senator Vaillancourt moved, seconded by the Honourable Senator Lambert—

That the Speech of His Excellency the Governor General be taken into consideration at the next sitting of the Senate.

The question being put on the motion, it was—
Resolved in the affirmative.

The Honourable Senator Vaillancourt moved, seconded by the Honourable Senator Lambert—

That all the Senators present during this Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber when and as often as they please.

The question being put on the motion, it was—

PRAYERS.

The Honourable the Speaker presented to the Senate the Report of the Parliamentary Librarian, as follows:—

REPORT OF THE PARLIAMENTARY LIBRARIAN

Third session of the twenty-sixth Parliament, 1965

To the Honourable the Speaker of the Senate,

To the Honourable the Speaker of the House of Commons,

The Parliamentary Librarian has the honour to submit his report for the Calendar year 1964. As the last report was presented to both Houses on February 18, 1964, there will be some slight repetition.

The Joint Committee met three times during the last session, on May 14, October 15, and December 15, to review Library matters, chiefly salary revisions.

The publication of the "Selected Additions List" was continued for the benefit of Senators and Members.

From January 1st to December 31st, 1964, our staff answered 3,739 reference questions, and circulated 24,162 books and periodicals, including 914 to other libraries. During the same period 12,136 volumes were catalogued and classified, which brings to 213,622 the number of volumes recatalogued since the fire of 1952.

The Vertical File and Clipping Service, consisting of approximately 3,300 files from 16 regularly clipped Canadian newspapers and other sources, is proving its value. Our Xerox photocopier, received early in 1964, enables us to provide copies of clippings, articles or pages from books, and, in 1964, there were 41,119 copies made. This helps ensure that needed information is always available, as copies are frequently provided rather than the originals. Mrs. Zora Zink was placed in charge of this service, and visited Toronto in December to study the Legislative Clipping Service, the Vertical File of the Toronto Public Library, and those of the Toronto daily newspapers.

We were particularly fortunate this year in substantially strengthening our staff with the appointment as Chief Reference Librarian of Miss Simone Chiasson, formerly Chief Librarian of the Department of Trade and Commerce. We were also fortunate in being able to appoint Mr. Philip Laundry, formerly Parliamentary Librarian of Southern Rhodesia. His experience, and especially his world-wide and deserved reputation as an expert on Parliamentary matters, makes him a significant acquisition at this time. He is the author of the comprehensive *The Office of Speaker*, and co-author of the standard work the *Encyclopedia of Parliament*, now in its second edition.

In December, 1964, one of our senior Reference Librarians, Mr. Lucien Lusignan, retired after 25 years of service. On November 1st Mr. Tsung-Yu Lu, formerly of the Library of the Department of Transport, was appointed to the Reference Section. Miss Olive Gouthreau has been returned to us by the Economic Council of Canada after assisting in the establishment of their Library.

In April the Parliamentary Librarian, as requested, submitted a descriptive "Working Paper" to the Sub-Committee on Establishment, Special Committee on Procedure and Organization, House of Commons. It outlined possible areas of improved service to all Parliamentarians, and some aspects of this working paper were discussed with the Chairman of the Sub-Committee, Dr. Pauline Jewett, and two of its members, Mr. Georges Lachance, and Mr. Gordon Fairweather, on June 15th. Following the recommendations regarding research facilities for Members within the Library of Parliament contained in the 12th Report of the Special Committee on Procedure and Organization, provision for this was made in the Budget prepared for 1965-1966. In addition, a demonstration of the IBM system of Selective Dissemination of Information was arranged for committee members late in September. It should also be mentioned here that we were able to give very substantial assistance to the Committee by providing the services of Mr. Philip Laundry on an almost full-time basis.

The Parliamentary Librarian and three University librarians spent from June 17th to July 19th in West Germany at the invitation of the Government of the West German Federal Republic, studying government, university, special, and public libraries, and exchanging views on new library methods and techniques with leading librarians in that country. Of particular value were his special visits to the Federal Parliamentary Library in Bonn, and the Legislative Libraries in Weisbaden, Mainz, Stuttgart, Munich, Hannover, and West Berlin (where both the Legislative and Senate Libraries were visited.) The Canadian librarians were cordially received everywhere, and were given valuable information on the kind of service libraries provide to the German people.

The Parliamentary Librarian, a Past-President of the Ontario Library Association, attended the Annual Conference in May in Toronto. He also attended the Convention of the Institute of Public Administration of Canada in September at Charlottetown, and his visit to the Legislative Library there completed useful visits to Canadian Legislative Libraries.

In order to support the professional development of staff, we have encouraged more widespread participation in Library and related Associations and Conferences.

The Associate Parliamentary Librarian, the Chief Reference Librarian, and a member of the Cataloguing Section, attended the Annual Meeting of the Association Canadienne des Bibliothécaires de Langue Française in Montreal in October. The Associate Parliamentary Librarian also attended the Annual Meeting of the Royal Society of Canada, of which he was President of Section I (French Humanities), in Charlottetown in June.

The Assistant Librarian, a Director, attended the Annual Meeting of the Institute of Professional Librarians of Ontario in May, and its Workshop at Lake Couchiching in October. The Head of our Cataloguing Section, and a member of her staff, attended the Fall Workshop Meeting—Ontario Resources and Technical Services Group of the Ontario Library Association in Hamilton in November. The Chief Reference Librarian attended a Conference on Automation at the Université Laval in June. In November nine of our librarians attended a course on Automated Data Processing and its application to libraries.

The Parliamentary Librarian accepted the invitation of the President of the University of Toronto to serve on the Sub-Committee on Librarianship of the Ontario University Presidents' Research Committee, and attended meetings

in Toronto on October 27th and November 24th. The purpose of the Sub-Committee is to report on the need for and location of a new Library School, and the future training of Librarians in Ontario.

Members of Parliament may also be interested to know that the Parliamentary Librarian was called upon to examine and advise on the re-organization of the Library of the Department of Veterans Affairs early in April. In June he represented the Canadian Library Association at the planning meeting of the Canadian Conference on Aging.

The Parliamentary Librarian accepted the Chairmanship of the Beta Sigma Phi Canadian First Novel Award Board. This yearly Award of \$1,000.00 is sponsored by the International Sorority, Beta Sigma Phi, with headquarters in Kansas City. The Associate Parliamentary Librarian continued to serve on the Boards of the Prix Duvernay, and of the Prix du Cercle du Livre de France. In 1964 he published *Panorama des Lettres canadiennes françaises; Canadian Writers/Ecrivains Canadiens* (with Brandon Conron & Carl F. Klinck); as well as the 4th edition of his *Anthologie de la Poésie Canadienne Française*.

A number of distinguished visitors called during the year to see the Library: His Excellency, John Reid, High Commissioner for New Zealand; His Excellency Somchai Anuman-Rajadhon, Ambassador of Thailand; His Excellency Karl T. Tikanvaara, Ambassador of Finland; The Hon. Stewart E. McLean, Q.C., M.L.A., Attorney General of Manitoba; His Excellency Gershon Avner, Ambassador of Israel; Mr. M. Dagan, Counsellor, Embassy of Israel. Many librarians also visited, among them, Dr. J. Nemeth, Chief Reference Librarian, FAO, Rome; M. Gérard Martin, Director of the Public Library Service, Province of Quebec; Mrs. Doris Lewis, Chief Librarian, University of Waterloo; Mr. Keith Crouch, Chief Librarian, Sir George Williams University, Montreal; and Mr. Thomas O'Connell of York University.

We were pleased to receive two manuscripts during the year: one from Mr. John Beal of the Parliamentary Press Gallery, being the manuscript copy of his book *The Pearson Phenomenon*; the other from Mr. Ray Brown, a former President of the Parliamentary Press Gallery, his unpublished manuscript entitled *From Where I Sat*.

Many other donations were also received, the most notable of which were from His Excellency Somchai Anuman-Rajadhon, Ambassador of Thailand; Mr. Vladimir M. Semenov, First Secretary of the Embassy of the Union of Soviet Socialist Republics; Mr. François Weymuller, Cultural Counsellor of the French Embassy; and Mr. H. J. Lawford, of Queen's University, who presented us with a complete set of the Working Papers relating to the Queen's University Treaty Project. His Excellency Dr. Edwardo Brazao, Ambassador of Portugal, presented the Library with a copy of his book *La Découverte de Terre-Neuve*. All of these donations, and many others, have enriched our resources.

Finally, at the request of both Speakers, Mr. H. L. Laframboise, Chief, Organization Division, Advisory Service Branch, Civil Service Commission, conducted an organization study of the Library of Parliament, and his interesting Draft Report was completed in December, 1964.

Respectfully submitted,

ERIK J. SPICER,
Parliamentary Librarian.
